snowmobile, but exempts snowmobiles that are used only on private property for private, noncommercial use. The bill expands the exemption to cover all use on private property, regardless of whether the snowmobile is used commercially.

In current law, the snowmobile recreation fund is used to, among other things, establish and maintain snowmobile trails and related facilities. A resident of Colorado who uses a snowmobile on publicly owned land must register the snowmobile and pay a fee, which is deposited in the snowmobile recreation fund. The bill repeals a \$5 per registration cap on the amount of the fee that can be used for administration.

The bill creates an out-of-state snowmobile permit that an owner or operator of an out-of-state snowmobile must obtain and display to drive the snowmobile on publicly owned land. To get the permit, the owner must pay a fee in an amount set by the parks and wildlife commission.

Exceptions are created for snowmobiles:

- Owned by governments;
- Operated in an organized event authorized by the government with jurisdiction over the land on which the snowmobile is operated; and
- Operated on publicly owned land for nonrecreational purposes.

The fine for a violation is \$100. Permits are valid for one year from April 1 to March 31 and are issued by agents of the director of the division of parks and wildlife.

Current law creates a search and rescue program that pays for backcountry search and rescue operations. Snowmobile and off-highway vehicle registrations require the payment of a search and rescue fee, which entitles the payer of the fee to be covered by the program. The bill adds the search and rescue fee to out-of-state snowmobile permits and off-highway use permits.
