The bill requires the department of human services to develop a system to establish and monitor quality standards for residential child care providers and ensure the quality standards are implemented into all levels of care that serve children and youth in out-of-home placement. The bill requires the department of human services to develop a system to incentivize residential child care providers to implement quality standards above the department of human services' established minimum standards.

The bill requires the department of human services to make a directory of each residential child care provider's quality assurance publicly available on the department's website.

The department of human services program that provides emergency resources to licensed providers to help remove barriers the providers face in serving children and youth whose behavioral or mental health needs require services and treatment in a residential child care facility currently repeals on July 1, 2028. The bill extends the program indefinitely and requires the department of human services to contract with additional licensed providers for the delivery of services to children and youth who are eligible for and placed in the program.

The bill requires the department of human services and the BHA to increase the minimum reimbursement rates paid to qualified residential treatment programs for the purpose of aligning room and board payments across payer sources.

The bill requires the department of health care policy and financing to contract with a third-party vendor to complete an actuarial analysis in order to determine the appropriate medicaid reimbursement rate for psychiatric residential treatment facilities.

The bill requires the department of human services to contract with one or more third-party vendors to implement a pilot program to assess the needs of, and provide short-term residential services for, juvenile justice-involved youth who do not meet the criteria for detention.
