### **Bill Summary**

*(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)*

Under current law, the division of housing (division) within the department of local affairs must submit an annual public report on the funding of affordable housing preservation and production (public report). The bill requires the division to add to the public report information on applications for affordable housing programs that the division administers, including the number of applications approved, denied, and pending, the amount of money awarded from approved applications, and the amount of money applied for but not awarded from denied applications. The bill also requires the division to add to the public report information regarding money in the housing development grant fund, including amounts in the fund and the use of the money in the preceding year.

The bill also establishes procedures and timelines for the division to follow for affordable housing programs administered by the division. The bill requires that the division accept applications once a month or on a rolling basis and requires that the division review applications and issue any requests for additional information, forms, or questions to applicants within 10 calendar days of an application period closing. The division must either issue final decisions on applications or submit applications to the board of housing for final decision within 45 days following the submission of completed applications. If applications are submitted to the state housing board, the state housing board must make a final decision on an application within 15 days of receiving the application.

After a final decision approving an application, the division shall issue an award letter that includes information on the timeline for issuing money to the applicant, any terms for a loan or grant period, and any conditions that must be met before a contract in connection with the approval is executed. The division shall also provide a draft contract to the approved applicant within 30 days of the application being approved.

Within 90 days of the division receiving a substantially complete post-award due diligence package from an approved applicant, the division shall execute any required contracts for the affordable housing program and send it to the approved applicant within 10 days of execution.

The bill also amends existing grant, loan, or other affordable housing programs administered by the division to require the application process to be followed for any applications submitted under these programs and requires any programs that have adopted policies, procedures, or guidelines for the application process to be amended if they are inconsistent with the application process established by the bill.

Under current law, a local government or tribal government desiring to receive funding from the statewide affordable housing fund or desiring to make affordable housing projects within its territorial boundaries eligible for funding from the statewide affordable housing fund must establish a baseline number of affordable housing units within its territorial boundaries every 3 years, beginning in 2024, and commit to increasing affordable housing units by 3% each year over the baseline number within that 3-year period (affordable housing unit requirements).

The bill allows a local government or tribal government to donate land to a community land trust or a nonprofit affordable homeownership developer for development as affordable homeownership property and receive a credit for the purposes of calculating whether the local government or the tribal government has met the affordable housing unit requirements for the year in which the land is donated. The credit is in the amount of one and one-half units per unit constructed on the donated land and is claimed when the building permits for the project have been approved by the applicable building authority. Additionally, a school district that donates land in the same manner may assign its credit to the local government or tribal government.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2           **SECTION 1. Legislative declaration.** (1) The general assembly  
3 finds and declares that:

4           (a) The lack of timely affordable housing grants and loans directly  
5 impacts the market ability to generate new affordable housing  
6 opportunities;

7           (b) The goals of the division of housing's grant and loan programs  
8 should be to address housing needs throughout the state, serve

1 populations with the greatest unmet need, optimize the housing stability  
2 of households served, and promote the sustainability of affordable  
3 housing development projects rather than maximizing financial returns to  
4 the state;

5 (c) The division of housing should seek to find balance in  
6 providing project subsidy levels that support the overall health, resiliency,  
7 and ability to advance the work of mission-based organizations without  
8 over-subsidizing projects or strictly forcing these organizations to  
9 maximize debt leverage or functionally eliminate cash flow;

10 (d) The grant, loan, and overall fund administration practices of  
11 the division of housing over the last three years have resulted in  
12 measurable project delays including time lost and increased fiscal costs  
13 from higher interest and holding costs;

14 (e) The current grant and fund administrative practices of the  
15 division of housing limit the ability of nonprofit housing providers and  
16 housing authorities to deliver affordable housing to Colorado residents  
17 who need it;

18 (f) A streamlined and transparent process for awarding the  
19 division of housing's limited pool of housing development funding  
20 sources to all housing resources administered by the division of housing  
21 will optimize the outcomes of a particular program or particular use to the  
22 benefit of residents served through affordable housing development  
23 projects;

24 (g) A sustainable and stable network of affordable housing  
25 providers will result in the creation, operation, and preservation of  
26 income-restricted affordable housing stock for low- and moderate-income  
27 households;

1 (h) Streamlining the review and award process, including  
2 providing transparent expectations on process and timing, reducing  
3 administrative barriers, and providing clear guidelines for submission and  
4 awards, is fundamental to the financial sustainability of grantees and  
5 awardees and the success of affordable housing development projects;  
6 and

7 (i) Streamlining the review and award process will support the  
8 preservation of naturally occurring and subsidized affordable housing.

9 (2) The general assembly further finds that it is necessary for the  
10 state to improve the efficiency and timelines of the application and award  
11 process of affordable housing development grant and loan money.

12 **SECTION 2.** In Colorado Revised Statutes, 24-32-705, **add**
