Summary of Legislation

Under current law, the Attorney General may assume the operation of a district attorney office when requested by the Governor. The bill clarifies that in such cases, the Attorney General also has the authority to expend money, manage staff, and perform other administrative functions essential for office operations. Additionally, the bill requires a hiring committee consisting of the Attorney General, a representative from the Colorado District Attorneys' Council, and the highest ranking attorney or official in the office when the Attorney General hires staff during their operation of an office.

Background

In FY 2022-23, the Governor appointed the Attorney General as the state's prosecutor for cases within the 12th (Alamosa, Conejos, Costilla, Mineral, Rio Grande, and Saguache County) and 22nd (Dolores and Montezuma Counties) Judicial Districts until new district attorneys were appointed. The Special Prosecution Unit within the Department of Law (DOL) assumed operations with no change in appropriations.

State Expenditures

To the extent the Attorney General needs to hire additional personnel, workload to the Department of Law will increase to establish a hiring committee. This workload is assumed to be minimal. No change in appropriations is required.

Local Government

Similar to the state, to the extent hiring committees are established, district attorney staff workload will increase to participate on the committee. The fiscal note assumes this workload to be minimal.

Effective Date

The bill was signed into law by the Governor and took effect April 17, 2024.
