		Budget Year FY 2024-25	Out Year FY 2025-26
Revenue		-	-
Expenditures	Cash Funds	\$10,782	\$10,843
Transfers		-	_
Other Budget Impacts		-	-

Summary of Legislation

Under current law, individuals with remuneration-exempt placards are exempt from paying at a parking device. The bill defines "parking device" and makes clarifications regarding remuneration-exempt placards as follows:

- it increases the number of remuneration-exempt placards that the Department of Revenue (DOR) may issue from one to two per person;
- it clarifies that a remuneration-exempt placard is not included in the limits on disability identifying placards and license plates that the DOR may issue to an individual; and
- it specifies that individuals with remuneration-exempt placards are exempt from paying at a parking device within a parking lot.

Background and Assumptions

Remuneration-exempt placards. Identifying placards, including remuneration-exempt placards, are issued to eligible individuals at no cost. More information about remuneration-exempt placards is available on the <u>DOR's website</u>.

DRIVES programming. The Division of Motor Vehicles (DMV) in the DOR uses its Driver License, Record, Identification and Vehicle Enterprise Solution (DRIVES) information technology system for all driver license and motor vehicle transactions. The DRIVES system requires an extensive 18-month upgrade which is scheduled to take place from July 1, 2024, through March 31, 2026. As a result, the DOR has requested that any new legislation requiring DRIVES programming have an effective date of April 1, 2026, with roll-forward spending authority through FY 2026-27, noting that each programming requirement during the system upgrade period may increase the overall project timeline. Based on the current effective date in the bill, the fiscal note includes costs for the DRIVES programming to take place twice—in the existing and new system.

State Expenditures

The bill increases state cash fund expenditures by \$10,782 in FY 2024-25 and \$10,843 in FY 2025-26. Expenditures are shown in Table 2 and discussed below.

Table 2
State Expenditures Under SB 24-019

	FY 2024-25	FY 2025-26
Department of Revenue		
DRIVES Programming	\$10,447	\$10,671
Placards	\$335	\$172
Total Expenditures	\$10,782	\$10,843

DRIVES programming. Programming and testing costs of \$9,160 in FY 2024-25 and \$9,384 in FY 2025-26 are required to update the Driver License, Record, Identification and Vehicle Enterprise Solutions (DRIVES) system. Office of Information Technology (OIT) support requirements are estimated at 13 hours at a rate of \$99 per hour for a total cost of \$1,287, which will be allocated to the DOR and paid to OIT via real time billing in each year. These costs are paid from the DRIVES Cash Fund. These costs will require roll-forward spending authority through FY 2026-27.

Additional placards. Based on the number of existing remuneration-exempt placards the DOR currently issues, the department will produce an estimated 744 additional placards in FY 2024-25 and 220 additional placards in FY 2025-26 at a cost of \$0.45 per placard. These costs are paid from the License Plate Cash Fund.

Effective Date

The bill was signed into law by the Governor on May 17, 2024, and takes effect November 1, 2024, assuming no referendum petition is filed.

State Appropriations

For FY 2024-25, the bill requires and includes the following appropriations to the Department of Revenue:

- \$10,447 from the DRIVES Account; and
- \$335 from the License Plate Cash Fund.
