Final Fiscal Note

Drafting Number:	LLS 24-0313	Date:	July 15, 2024
Prime Sponsors:	Sen. Jaquez Lewis; Priola Rep. Young; Epps	Bill Status:	Signed into Law
		Fiscal Analyst:	Shukria Maktabi 303-866-4720 shukria.maktabi@coleg.gov

Bill Topic: PREVENTION OF SUBSTANCE USE DISORDERS

Summary of Fiscal Impact:	<input checked="" type="checkbox"/> State Revenue	<input type="checkbox"/> State Transfer	<input checked="" type="checkbox"/> Local Government
	<input checked="" type="checkbox"/> State Expenditure	<input type="checkbox"/> TABOR Refund	<input type="checkbox"/> Statutory Public Entity

The bill establishes several measures for the prevention of substance use disorders. The bill increases state expenditures and local workload on an ongoing basis beginning in FY 2024-25, and may increase state revenue beginning in FY 2024-25.

Appropriation Summary: For FY 2024-25, the bill requires and includes appropriations of \$400,000 to multiple state agencies.

Fiscal Note Status: The final fiscal note reflects the enacted bill. The bill was recommended by the Opioid and Other Substance Use Disorders Study Committee.

Table 1
State Fiscal Impacts Under SB 24-047

		Budget Year FY 2024-25	Out Year FY 2025-26
Revenue		-	-
Expenditures	General Fund	\$325,000	\$287,500
	Federal Funds	\$75,000	\$37,500
	Total Expenditures	\$400,000	\$325,000
Transfers		-	-
Other Budget Impacts	General Fund Reserve	\$48,750	\$43,125

Summary of Legislation

The bill creates several measures regarding the prevention of substance use disorders, including modifying the Prescription Drug Monitoring Program (PDMP), establishing procedures for local drug overdose fatality review teams, and providing additional modifications to existing programs.

Prescription Drug Monitoring Program modifications. The bill modifies the PDMP as follows:

- exempts veterinarians from certain aspects of the program that are specific to prescriptions for humans;
- adds reporting requirements for gabapentinoids to the program;
- allows the medical director of a practice or hospital to appoint designees to access the program on behalf of the practitioner; and
- allows the Department of Health Care Policy and Financing (HCPF) to access and analyze program data for care coordination, utilization review, and federally required reporting relating to recipients of certain benefits, with data use consistent with federal data privacy requirements.

Local overdose fatality review team. The bill establishes a process for multidisciplinary and multiagency overdose fatality review teams created by a local or district public health agency, to obtain information to identify system gaps in overdose prevention. Certain entities must provide information requested by a local team within ten business days and can charge a reasonable fee for providing records to the local team. Entities are not subject to civil or criminal liability or disciplinary action as a result of providing information as requested. Local teams must maintain confidentiality of the provided information and the information is not subject to inspection through the Colorado Open Records Act. Individuals can participate at meetings with the local teams, which are exempt from open meetings provisions, but must sign a confidentiality form. A person who violates confidentiality provisions is subject to civil penalty of up to \$1,000.

Modifications to existing measures. The bill expands the Substance Use Screening, Brief Intervention, and Referral to Treatment Grant Program to require adolescent substance use screening, intervention, and referral practices for professionals in Colorado schools and for pediatricians and professionals in pediatric settings. The bill also requires the Center for Research into Substance Use Disorder Prevention, Treatment, and Recovery Support Strategies (center) to conduct their data linkage project and expands the scope of data to be used. The bill also requires HCPF to publish guidance for providers concerning reimbursement for all variations of screening, brief intervention, and referral to treatment interventions.

State Revenue

State revenue may minimally increase from any fees charged to local review teams by state agencies for providing records as requested, and may increase from individuals who violate the confidentiality provisions for local overdose review teams. The fiscal note assumes individuals will generally follow the law and any revenue increase will be minimal.

State Expenditures

The bill increases state expenditures in the Department of Higher Education by \$250,000 per year beginning in FY 2024-25 from the General Fund; and in HCPF by \$150,000 in FY 2024-25 and \$75,000 in FY 2025-26 and thereafter, paid evenly from the General Fund and federal funds. Expenditures are shown in Table 2 and detailed below.

**Table 2
Expenditures Under SB 24-047**

	FY 2024-25	FY 2025-26
Department of Higher Education		
Perinatal Substance Use Data Linkage Project (GF)	\$250,000	\$250,000
DHE Subtotal	\$250,000	\$250,000
Department of Health Care Policy and Financing		
Data System Configuration	\$75,000	-
Data Access	\$75,000	\$75,000
HCPF Subtotal	\$150,000	\$75,000
<i>General Fund</i>	<i>\$75,000</i>	<i>\$37,500</i>
<i>Federal Funds</i>	<i>\$75,000</i>	<i>\$37,500</i>
Total	\$400,000	\$325,000

¹ Centrally appropriated costs are not included in the bill's appropriation.

University of Colorado Medical Campus. The School of Pharmacy requires 0.4 FTE at \$65,000 to provide administrative oversight, fiscal management, and generate policy recommendations for the data linkage project on perinatal substance use. The university also requires \$185,000 to engage a contractor to administer the data linkage project, which includes developing and implementing the project, analyzing data, and sharing findings. These cost are ongoing until the project's end and are inclusive of data linkage fees and indirect costs for the contractors.

Department of Health Care Policy and Financing. To perform analysis and review of PDMP data, HCPF will have one-time costs of \$75,000 to configure data systems, as well as \$75,000 ongoing for data access. Costs are split equally between the General Fund and federal funds.

Department of Regulatory Agencies. Workload will increase for DORA to update the PDMP data system to include the medical director role. No change in appropriations is required.

Other departments. To the extent that state agencies are requested to provide information to local teams and the data linkage project, workload will increase. This workload is expected to be minimal and can be absorbed within existing resources; however, should there be significant demand, these impacts will be addressed through the annual budget process.

Centrally appropriated costs. Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. These costs, which include employee insurance and supplemental employee retirement payments, are shown in Table 2.

Other Budget Impacts

General Fund reserve. Under current law, an amount equal to 15 percent of General Fund appropriations must be set aside in the General Fund statutory reserve. Based on this fiscal note, the bill is expected to increase the amount of General Fund held in reserve by the amounts shown in Table 1, decreasing the amount of General Fund available for other purposes.

Local Government

Similar to state departments, to the extent that local entities are requested to provide information to local teams, workload will increase. This workload is may vary depending on the entity and number of requests received.

Effective Date

This bill was signed into law by the Governor and took effect on June 6, 2024.

State Appropriations

For FY 2024-25, the bill requires and includes total appropriations of \$400,000, of which:

- \$250,000 is from the General Fund to the Department of Higher Education, for allocation to the governing board of the University of Colorado; and
- \$150,000 is to the Department of Health Care Policy and Financing, split evenly between the General Fund and federal funds.
