| SUBJECT: | Fiscal Assessment of Proposed Amendment L.003 to Senate Bill 24-054 |

This memorandum is an assessment of the fiscal impact of the attached proposed amendment L.003 to SB24-054. This fiscal assessment is for the impact of the bill with inclusion of this amendment <u>only</u>. Any other added amendment could influence the fiscal impact.

Summary of Proposed Amendment

Amendment L.003 limits Medicaid coverage of weight loss medication for chronic obesity and pre-diabetes to patients with HbA1c levels of 5.6 percent or higher unless their health care provider recommends bariatric surgery.

Fiscal Impact of Amendment

Amendment L.003 limits the newly eligible population for weight loss medication by about 90,000 clients. An estimated 120,000 clients remain eligible. Other assumptions around demand and supply constrictions remain unchanged, resulting in an estimated 10,000 Medicaid members using weight loss medication under the bill in the first year, which is expected to increase to around 21,000 by the third year.

Bill's Revised Fiscal Impact with Amendment

Table 1, on the following page, shows the fiscal impact of the bill if Amendment L.003 is adopted.
