## Summary of Legislation

If person is disenrolled from their health plan and starts receiving coverage from a new carrier for an existing course of treatment that meets select criteria, the bill requires the new carrier to cover the treatment as an in-network benefit for up to 90 days with the same limitations on allowable charges. Additionally, the bill places disclosure requirements on the Department of Health Care Policy and Financing (HCPF).

## State Expenditures

The bill may increase state expenditures in HCPF and may increase workload in the Department of Regulatory Agencies (DORA).

**Department of Health Care Policy and Financing.** HCPF operates the Child Health Plan Plus (CHP+). To the extent that the bill requires HCPF to charge in-network rates for out-of-network treatments for CHP+ members, expenditures will increase. The potential impact is limited by the similar networks for Medicaid and CHP+ clients and that the bill restricts the requirement to the first 90 days. Any increase will be adjusted through the annual budget process.

**Department of Regulatory Agencies.** To the extent that the bill results in additional complaints being filed or additional complaints resulting in disciplinary action, workload may increase in the Department of Regulatory Agencies (DORA). Given current compliance with network requirements, this impact is expected to be minimal.

### **Effective Date**

The bill was signed into law by the Governor on April 4, 2024, and it took effect on August 7, 2024.
