The bill requires the state housing board to ensure that, when the uniform construction and maintenance standards for hotels, motels, and multiple dwellings in jurisdictions with no local building code are substantially updated, the standards meet or exceed the accessibility standards in international building codes. 1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Accessibility in building design is a fundamental right that
5 fosters inclusivity and equal opportunity for all individuals, particularly
6 those with disabilities. In alignment with article 9 of the United Nations
7 Convention on the Rights of Persons with Disabilities, which emphasizes
8 the need for persons with disabilities to live independently and participate
9 fully in all aspects of life, Colorado recognizes the importance of creating
10 an accessible built environment.

11 (b) It is crucial that Colorado's building codes incorporate
12 "Americans with Disabilities Act" and "Architectural Barriers Act"
13 standards, which require that buildings and facilities be accessible to
14 persons with disabilities;

15 (c) Aligning local building codes with the internationally
16 recognized standards set forth by the International Building Code and
17 existing federal laws is crucial to ensure that all new constructions,
18 renovations, and alterations adhere to minimum accessibility

1 requirements;

2 (d) This House Bill 25-1030 requires local governments to adopt
3 or amend local building codes to meet or exceed these necessary
4 international building code accessibility standards;

5 (e) By identifying and eliminating obstacles to accessibility, the
6 general assembly can create a built environment that is welcoming and
7 accessible to everyone; and

8 (f) By prioritizing accessibility in Colorado building codes, state
9 and local governments can promote the participation of persons with
10 disabilities in all aspects of community life, thereby enhancing the quality
11 of life for all Colorado residents.

12 (2) Therefore, the general assembly declares that establishing
13 uniform accessibility standards in building codes is of mixed local and
14 statewide concern to ensure that all individuals may access the physical
15 environment, transportation, information, and communications on an
16 equal basis.

17 **SECTION 2.** In Colorado Revised Statutes, **amend** 30-28-204 as
18 follows:

19 **30-28-204. Amendment of building code.** (1) The board of

21 amend any county building code after public hearing, notice of which
22 hearing shall be given by at least one publication in a newspaper of
23 general circulation in the county at least fourteen days prior to said
24 hearing. In no case shall the area covered by the building code be
25 extended or changed unless the same has been proposed by or is first
26 submitted for the approval, disapproval, or suggestions of the county
27 planning commission. Unless the county planning commission acts within

1 thirty days, approval shall be assumed. The opinion of the county
2 planning commission shall be advisory only and not binding upon the
3 board of county commissioners.

4 (2) WHEN A BOARD OF COUNTY COMMISSIONERS OR A REGIONAL
