project or redevelopment project, on any portion of applicable property within the local entity's jurisdiction; and

- Requires a local entity, on or before January 1, 2026, to enact or amend ordinances, resolutions, regulations, or other laws regulating new development projects and redevelopment projects on applicable property in accordance with the new requirements.

For the purposes of Senate Bill 24-005, the bill expands the definition of "applicable property" to include residential real property that is used for apartment or condominium housing (applicable residential real property).

The bill also requires each local entity to enact or amend, on or before January 1, 2028, ordinances, resolutions, regulations, or other laws regulating new development projects and redevelopment projects within the local entity's jurisdiction to limit the installation of turf for all residential real property that is not applicable residential real property. Local entities must also impose limits on the installation of turf when enacting or amending ordinances, resolutions, regulations, or other laws on and after January 1, 2028.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds that:

4 (a) As Colorado continues to grapple with the impacts of climate
5 change, green urban spaces, such as urban tree canopies, are a vital
6 adaptation tool for mitigating the impacts of climate change, especially
7 for mitigating the urban heat island effect, which can increase energy
8 costs, air pollution, and heat-related illnesses and deaths;

9 (b) However, water supply in the western United States is
10 increasingly scarce due to climate change and increasing demand;

11 (c) Many communities in the state overuse nonnative grass for
12 landscaping purposes, which requires large amounts of water to maintain;

13 (d) While there are appropriate and important uses for turf,
14 including for civic, community, or recreational purposes such as use in

1 parks, sports fields, and playgrounds, much of the turf in the state is
2 nonfunctional, located in areas that receive little, if any, use, and could be
3 replaced with landscaping that adheres to water-wise landscaping
4 principles without adversely impacting quality of life or landscape
5 functionality;

6 (e) Prohibiting the installation, planting, or placement of
7 nonfunctional turf in multifamily property in the state can help conserve
8 the state's water resources;

9 (f) Requiring local governments to regulate turf in new residential
10 properties can help preserve the limited water in our state;

11 (g) Many communities and developments develop in a water-wise
12 manner already and are appreciated; and

13 (h) Installed vegetation that adheres to water-wise landscaping
14 principles can help reduce outdoor demand for water while avoiding heat
15 islands.

16 (2) The general assembly therefore declares that preventing the
17 installation, planting, or placement of nonfunctional turf, artificial turf,
18 and invasive plant species in applicable property in the state is:

19 (a) A matter of statewide concern; and

20 (b) In the public interest.
