Summary of Legislation

Under current law, a doctor or an advanced practice registered nurse who is licensed to provide medical-aesthetic services may delegate those services to a non-licensed provider under certain conditions. The bill requires the licensed provider to disclose the delegation to patients, to include certain information in the disclosure, and to obtain the patients' signed consent.

State Expenditures

The bill increases workload in the Department of Regulatory Agencies (DORA) to update rules and conduct outreach among regulated medical professionals. Workload may also increase for DORA to address additional complaints or reports of noncompliance by licensed providers. This workload is expected to be minimal and no change in appropriations is required.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed, and it applies to conduct occurring on or after that date.
