Summary of Legislation

The bill requires causes of action for intentional or negligent acts related to gender transition procedures performed on individuals under the age 26 to be brought before the individual turns 38. The same deadline applies if the lawsuit is against an organization responsible for the procedure through the actions of its employees or representatives.

State Revenue and Expenditures

Trial court revenue and workload from case filings may increase if the number of cases filed related to youth gender transition procedures increases. As the bill applies to a limited number of cases, any impact on state revenue and expenditures is expected to be minimal.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed, and applies to claims that have not been barred by that date.
