Published for: Senate Appropriations

Drafting number: LLS 25-0284

Version: First Revised Note

Date: February 1, 2025

Fiscal note status: The fiscal note reflects the introduced bill, as amended by the Senate Health & Human Services Committee.

Summary Information

Overview. The bill requires the Colorado School of Public Health in the University of Colorado, with assistance from a newly created analysis collaborative, to create a report on model legislation for a universal single-payer health care system.

Types of impacts. The bill is projected to affect the following areas through FY 2026-27:

- State Revenue
- State Expenditures

Appropriations. No appropriation is required since gifts, grants, and donations received by the University of Colorado can be spent without an appropriation.

**Table 1
State Fiscal Impacts**

Type of Impact	Budget Year FY 2025-26	Out Year FY 2026-27
State Revenue (Cash Funds)	\$290,735	\$115,367
State Expenditures (Cash Funds)	\$290,735	\$115,367
Transferred Funds	\$0	\$0
Change in TABOR Refunds	\$0	\$0
Change in State FTE	0.0 FTE	0.0 FTE

Summary of Legislation

The bill requires the School of Public Health at the University of Colorado (CU) to acquire model legislation developed by a nonprofit to enact a universal single-payer health care system. By December 31, 2026, the school must produce a report on the model legislation that:

- analyzes costs;
- identifies potential revenue sources to cover the costs;
- analyzes connections to federal law;
- evaluated the feasibility of other models; and
- confirms that the legislation will have desired results.

CU may use an actuarial consultant to produce the report.

The bill creates the Statewide Health Care Analysis Collaborative under the Department of Health Care Policy and Financing (HCPF) to assist the university in its report, and requires it to meet at least twice virtually before October 1, 2026. The task force consists of representatives from various sectors related to health care, labor, and advocacy. Members of the task force serve without compensation, but may be reimbursed for actual and necessary expenses.

The bill's implementation is dependent on receipt of sufficient gifts, grants, and donations.

State Revenue

The bill is expected to increase state cash fund revenue to CU by \$290,735 in FY 2025-26 and \$115,367 in FY 2026-27 from gifts, grants, or donations. In total, \$406,102 is required over the two years. Gifts, grants, and donations are exempt from TABOR revenue limits.

State Expenditures

The bill increases state expenditures by \$290,735 in FY 2025-26 and \$115,367 in FY 2026-27 only. These costs will be incurred in CU, and will be paid by gifts, grants, and donations, including existing grant funds from HCPF.

University of Colorado

The bill increases expenditures in CU to produce the report on the model legislation. Costs are summarized in Table 2 and discussed below. If CU receives gifts, grants, and donations in excess of these amounts, the university will spend the funds on additional staff and actuary support for the project.

Table 2
University of Colorado Expenditures
University of Colorado

Cost Component	Budget Year FY 2025-26	Out Year FY 2026-27
Researcher Compensation	\$164,762	\$82,381
Research Assistant Compensation	\$65,973	\$32,986
Database Access	\$50,000	\$0
Actuarial Analysis Contract	\$10,000	\$0
Total Costs	\$290,735	\$115,367

Researcher Compensation

Researchers at the university will produce the report between July 2025 and December 2026. It is assumed that the equivalent of 0.4 FTE will work the entire time, though that work is expected to be spread across 5 distinct employees. Costs are based off of those employees' current salaries.

Research Assistant Compensation

One research assistant the equivalent of 0.9 FTE will support the research between July 2025 and December 2026.

Actuarial Analysis Contract

The university will contract with an actuary at \$400 per hour for 25 hours.

Database Access

CU is expected to seek a grant in the amount of \$50,000 from the All-Payer Health Claims Database Scholarship Grant Program in HCPF to access necessary data.

Department of Health Care Policy and Financing

HCPF administers the All-Payer Health Claims Database Scholarship Grant Program, which is expected to grant \$50,000 to CU for database access. This funding comes from existing appropriations.

Workload will also increase in HCPF to facilitate the task force meetings. Since the meetings are virtual, no appropriation is required.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
