

# Fiscal Note

## Legislative Council Staff

Nonpartisan Services for Colorado’s Legislature

### SB 25-143: EXTEND PROHIBITION ON SCHOOL FACIAL RECOGNITION

**Prime Sponsors:**

Sen. Daugherty; Lundeen  
Rep. Armagost; Carter

**Fiscal Analyst:**

John Armstrong, 303-866-6289  
john.armstrong@coleg.gov

**Published for:** Senate Education

**Drafting number:** LLS 25-0274

**Version:** Initial Fiscal Note

**Date:** February 19, 2025

**Fiscal note status:** The fiscal note reflects the introduced bill.

### Summary Information

**Overview.** The bill expands the exceptions allowing schools to use facial recognition technology.

**Types of impacts.** The bill is projected to affect the following areas on an ongoing basis:

- Minimal State Workload
- School Districts

**Appropriations.** No appropriation is required.

**Table 1  
State Fiscal Impacts**

Type of Impact	Budget Year FY 2025-26	Out Year FY 2026-27
State Revenue	\$0	\$0
State Expenditures	\$0	\$0
Transferred Funds	\$0	\$0
Change in TABOR Refunds	\$0	\$0
Change in State FTE	0.0 FTE	0.0 FTE

## Summary of Legislation

---

Under current law, school districts and charter schools may not contract with any vendor for facial recognition services, unless the contract was in place before August 10, 2022, or is related to a “generally available consumer product” such as a smartphone. This law is scheduled to repeal on July 1, 2025.

The bill removes the repeal, creates a new exception for contracts that are in effect when this bill becomes law, and expands the allowable exceptions for school districts and charter schools to contract with a vendor for facial recognition software if:

- the service allows for analysis of facial features that relates to approved curriculum;
- a school official or peace officer uses facial recognition to identify a known threat to school safety; or,
- there is a reasonable belief that facial recognition technology may assist in locating a missing student.

Schools may not process facial maps or other biometric identifiers of any person without obtaining opt-in consent from the individual and their parent or legal guardian. These consent forms must contain a description of how the facial identification data will be used. Schools must post near entrances if they are using facial recognition services for one of the allowable exceptions.

## State Expenditures

---

The Department of Education will update their website and provide guidance to school districts on acceptable uses of facial recognition technology. This additional workload will be minimal.

## School District

---

School districts and charter schools that wish to use facial recognition technology for an acceptable use will have an increase in workload to adopt policies and post them publicly as the bill requires. This increase in workload will vary between school districts.

## Effective Date

---

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
