<sup>1</sup> These impacts result from continuing a program scheduled to repeal and reflect the extension of current revenue and spending levels.

## Summary of Legislation

---

The bill continues the regulation of community integrated health care service agencies by the Department of Regulatory agencies (DORA) for nine years, extending the program's repeal date from September 1, 2025, to September 1, 2034. The bill also clarifies what services are covered by the regulation and when licenses may be revoked.

## Continuing Program Impacts

---

Based on the [Sunset Review](#) for the program, DORA is expected to have revenue of about \$23,000 and expenditures of about \$10,000 to administer the regulation of community integrated health care service agencies. This continuing impact is based on FY 2022-23 expenditures and fees. If this bill is enacted, current revenue and expenditures will continue for the program starting in FY 2026-27. This continuing revenue is subject to the state TABOR limits.

If this bill is not enacted, the program will end one year after its repeal date on September 1, 2026, following a wind-down period. If allowed to repeal, state revenue and expenditures will decrease starting in FY 2026-27 by the amounts shown in Table 1.

## Effective Date

---

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
