Committee Recommendations to Legislative Council

Bill limits. The committee may recommend three bills to Legislative Council. Bills approved by the Legislative Council do not count against a member's five-bill limit for the regular legislative session. Interim committee bills must have prime sponsors prior to consideration by the Legislative Council.

Requirements for bill drafts. The Executive Committee of the Legislative Council's guidelines for interim committees require that at least a majority of the committee membership approve a bill in concept prior to requesting a bill draft. Requests for draft bills must occur during a single committee meeting set for requesting legislation, no later than September 23, 2019. Committee members must make drafting information available at the meeting at which the members request bills or must submit such information to the bill drafter within three calendar days after the meeting. Failure to submit the drafting information prior to the three-day deadline will be deemed as a withdrawal of the bill request. The final meeting to consider and take final action on bill drafts must occur no later than November 4, 2019.
