LETTER OF TRANSMITTAL

June 21, 2024

**Dear Colorado PERA Members, Benefit Recipients, Employers, and Members of the Board of Trustees:**

I'm pleased to present this *Annual Comprehensive Financial Report (ACFR)* for the Public Employees' Retirement Association of Colorado (PERA) for the year ended December 31, 2023.

I'm honored to write this letter as PERA's new Chief Executive Officer (CEO)/Executive Director. While 2023 predates my tenure with PERA, the facts and figures contained in this report speak to the competency and excellence of the PERA Board of Trustees (Board) and staff tasked with administering tens of billions of dollars in retirement benefits for the state's public workforce. I want to thank the Board for granting me the opportunity to serve PERA and its nearly 700,000 members and benefit recipients, and I want to thank staff for their hard work and dedication throughout the year.

PERA's investment portfolio for the defined benefit trust funds ended 2023 with a positive return of 13.4% net-of-fees compared to the benchmark's return of 14.4%. As of December 31, 2023, PERA managed a portfolio of \$61.5 billion for the defined benefit plans and \$5.9 billion for the defined contribution plans on behalf of current and former public employees. The combined funded ratio for the five Division Trust Funds was 69.6%.

Colorado's public employees spend their careers providing vital services to the residents of this state. PERA benefits are a valuable source of financial stability, not just for our retirees but also for the local communities across the state where they live, shop, and recreate. In 2023 alone, PERA retirement benefits resulted in \$7.1 billion in economic output and helped support 28,525 jobs in the state.

I've spent my career in public service, and I'm honored to be Colorado PERA's eighth CEO/Executive Director. I look forward to helping this important organization continue its nearly 100-year legacy and move its mission forward. I know in the past year, staff have made tremendous progress on major projects, such as the new Colorado PERA mobile app, to modernize and improve our internal systems and the services we provide. Those projects and others just getting underway will help ensure we continue to deliver long-term value to all stakeholders.

In the months ahead, I look forward to getting to know PERA's staff, Board, employers, and other key stakeholders, especially our members and retirees. I know how important PERA is to your financial well-being, and I want you to know I take very seriously our responsibility to provide the benefits upon which you rely.

As in years past, we'll be holding Town Hall meetings following the release of this report, and I hope everyone with an interest in the future of this organization will take the opportunity to attend and participate.

**Andrew Roth**  
Chief Executive Officer/  
Executive Director

## LETTER OF TRANSMITTAL

### 2023 Legislation

During the 2023 legislative session, three bills pertaining to PERA passed the Colorado General Assembly and became law.

#### **Senate Bill 23-016: Greenhouse Gas Emission Reduction Measures**

This bill includes multiple provisions meant to reduce greenhouse gas emissions in the state, along with one section concerning PERA, which requires a description of climate-related investment risks, impacts, and strategies to be included as part of the annual *Investment Stewardship Report*, which is posted on the PERA website.

PERA Board position: Monitor

Governor Jared Polis signed the bill into law on May 11, 2023.

#### **Senate Bill 23-056: Compensatory Direct Distribution to PERA**

The bill requires the State of Colorado to make an additional payment to PERA in the amount of the balance of the PERA Payment Cash Fund, plus \$10 million in the General Fund, which results in a total payment of approximately \$14.5 million. This payment is intended to recompense PERA for the cancellation of a previously scheduled July 1, 2020, direct distribution of \$225 million, in addition to the compensatory payment provided in previous legislation. The bill also repeals the PERA Payment Cash Fund on July 1, 2023.

PERA Board position: Support

Governor Jared Polis signed the bill into law on June 2, 2023.

#### **Senate Bill 23-163: Colorado Parks and Wildlife Officers Classified as State Troopers**

The bill modifies the definition of “State Trooper” to include wildlife officers and parks and recreation officers hired on or after January 1, 2011, by Colorado Parks and Wildlife in the Department of Natural Resources. It applies the State Trooper contribution rate and benefits to eligible employees and their employer effective July 1, 2023.

PERA Board position: Monitor

Governor Jared Polis signed the bill into law on June 6, 2023.

### Economic Environment

Monetary policy moderated in 2023 as the Federal Reserve (Fed) normalized the pace and size of rate increases. The multi-year increase in interest rates slowed the rate of inflation, but price levels and inflation remained elevated, with the Fed leaning into a data-driven wait-and-see approach that may hold rates

higher for longer to avoid a resurgence of inflation. The federal funds rate was increased in four quarter-point increments and ended the year with an upper bound of 5.5%, the highest level since the dot-com boom of the late 1990s. Rate-sensitive sectors continued to be the most impacted by the Fed’s moves as mortgage, automobile, and credit card rates increased, dampening demand for discretionary goods as more income was spent on essential goods and services. 30-year fixed rate mortgages approached 8.0% in the fourth quarter, new car loans exceeded 8.0% in the fourth quarter, and the average interest rate on credit card accounts ended the year above 22.0%.

Three large regional bank failures in early 2023 raised fears the rapid increase in interest rates was beginning to impact the economy and reinforced expectations of a mild recession. However, strong consumer spending and declining inflation provided the economic tailwinds that allowed the U.S. economy to outperform expectations, with real gross domestic product (GDP) increasing 2.5% in 2023. Wage and salary growth outpaced inflation, increasing 4.3% for civilian workers for the 12-month period ending in December. The Consumer Price Index (CPI) for all items rose 3.4% for the 12-month period ending in December and CPI less food and energy rose 3.9%, notching its smallest increase since the beginning of pandemic disruptions. The Personal Consumption Expenditures (PCE) price index is the Fed’s preferred measure of inflation and rose 2.6% in December from a year earlier, approaching the Fed’s 2.0% target rate of inflation. The U.S. labor market softened slightly in 2023 but still added 2.7 million jobs, with the unemployment rate practically unchanged from the period prior to the interest rate hiking cycle. The unemployment rate remained historically low and ended the year at 3.7%.

Global economic growth continued to cool in the post-pandemic economy with 2023 estimated real GDP growth at 2.6%. Emerging market and developing economies experienced a modest increase in economic activity from the prior year, increasing 4.0%, while advanced economies continued a downward trend in their rate of growth, increasing 1.5%. Among advanced economies, the United States was a standout, coming in a full percent above other advanced economies, while the Euro area came in more than a full percent below other advanced economies. Within emerging market and developing economies, South and East Asia countries outperformed. Growth in the Russian Federation turned positive in 2023 but remained significantly below other emerging market and developing economies as ongoing sanctions limited economic activity. Conflicts in Ukraine and the Middle East, slowing growth in China, and rising tensions between China and Western nations posed challenges to global economic growth and cooperation. For countries trying to slow their economies, the rapid increase in

### LETTER OF TRANSMITTAL

interest rates has not resulted in a meaningful rise in unemployment or currency crises like past monetary tightening cycles, increasing optimism for a soft landing.

Colorado's economy continued to outperform the national average with real GDP growth coming in at a healthy 2.9% in 2023. The unemployment rate in Colorado increased modestly from the prior year from 3.0% to 3.3%, and remained below the U.S. unemployment rate. Colorado's labor force participation rate was significantly above the U.S. average rate of 62.5% and ended 2023 at 68.3%. The Centennial State's strong job market was aided by the low unemployment rate, high labor force participation rate, and high level of educational attainment. Population growth slowed within the state, relative to the torrid growth rates of prior decades, but is expected to pick up again over the next decade before leveling off as the population ages and in-migration slows. The slowdown in population growth has allowed the state to catch up on its shortage of housing supply but inventory remains low contributing to still rising housing prices, albeit at slower rates of appreciation. The median price of a single-family home stands at \$550,000 statewide and just under \$600,000 in the metro area.

#### Investments

Investment portfolio income is a significant source of revenue to PERA. The Board's Investment Committee is responsible for assisting the Board in overseeing PERA's investment program.

In 2023, there was net investment income of \$8.3 billion compared with total member contributions of \$1.6 billion and employer contributions of \$2.5 billion.

For the year ended December 31, 2023, the defined benefit funds had a time-weighted rate of return of 13.4% net-of-fees. The annualized, net-of-fees, time-weighted, rates of return over the last three and five years were 4.5% and 10.0%, respectively, and over the last 10 years it was 7.8%. The 30-year annualized, gross-of-fees, time-weighted, rate of return was 8.3%.

Prudent funding and healthy investment returns are important to the financial soundness of PERA. More information on the composition of the portfolio is reflected in the Investment Summary on page 128.

An integral part of the overall investment policy is the strategic asset allocation. The strategic asset allocation is designed to provide appropriate diversification and balance expected total rates of return with the volatility of expected returns. The fund is to be broadly diversified across and within asset classes to limit the volatility of the total fund investment returns and to limit the impact of large losses on individual investments. Both traditional and nontraditional assets are incorporated into the asset allocation mix.

In addition to asset class targets, the Board sets ranges within which asset classes are maintained. The yearly

policy benchmark weight and long-term asset allocation target, as well as the specified ranges for each asset class are presented on page 124. All of the asset classes were within their specified ranges at year-end.

PERA's investment policy is summarized in the Report on Investment Activity on page 124.

#### Investment Stewardship

It is PERA's fiduciary duty to serve as stewards of capital for our members, participants, and beneficiaries. Foundational to PERA's investment stewardship are cost-consciousness, integration of material factors in PERA's investment and proxy voting decisions, market advocacy, and the ongoing evaluation of our holdings. Collectively, these efforts are intended to strengthen PERA's investment stewardship across all asset classes in the portfolio as we continue to prioritize financial sustainability.

The Investment Committee is currently reviewing the *Proxy Voting Policy* with expected completion in 2024. Through careful deliberation, the Board continues to uphold its fiduciary duty in setting parameters for PERA's investment program.

In 2023, senior members of PERA staff served on advisory groups and boards to advocate for robust capital markets and business practices accretive to long-term investment value. Our leadership in the Investor Advisory Group of the Public Company Accounting Oversight Board (PCAOB), the U.S. Asset Owners Advisory Council of the Council of Institutional Investors (CII), and the board of the International Corporate Governance Network (ICGN) demonstrate PERA's commitment to strong investment stewardship.

#### Major Initiatives

In 2023, PERA made solid progress in achieving the Board's strategic plan to evolve systems, innovate programs, and invest in our employees. Major initiatives under these three themes were a companywide effort, requiring collaboration, training, and shared vision to improve our service to members, retirees, and employees.

##### Evolve

###### *Investment Systems Modernization Program*

The Investment Systems Modernization Program is a multi-year program to modernize our Investment systems and architecture, streamline workflows, and increase self-service reporting and data analytics capabilities. It will reduce manual processing, minimize redundancies, improve PERA's transmission and storage of data, and be scalable to accommodate future investment needs. The program encompasses several projects including the consolidation of private market investments onto a single platform as well as the implementation of data aggregation, data warehouse, and reporting tools.

### LETTER OF TRANSMITTAL

In connection with this program, PERA has also implemented Organizational Change Management, which addresses the people side of change. The focus is to help those impacted by the program understand the reasons for the changes and how responsibilities will adjust as these new systems are implemented.

This is a collaborative program involving staff from Accounting, Alternatives, Communications, Information Technology, Investment Administration, Investment Operations, Private Equity, and Real Estate.

#### *Genesys Cloud*

In June 2023, PERA rolled out a new phone system in our Customer Service Center aimed at enhancing our service capabilities. This upgrade, powered by the Genesys Cloud system, introduces advanced tools that increase the availability of agents during peak periods and enhances our ability to forecast call volumes. Additionally, we have incorporated speech-to-text technology, which provides transcripts of all calls. This feature will eventually facilitate the extraction of valuable insights regarding call reasons, member sentiment, and other pertinent data. Future enhancements will include improved knowledge management, call summarization, and the addition of customer communication channels such as chat, further benefiting our members, employers, and support staff.

#### *Pension Administration System Update*

PERA engaged with a pension technology partner in 2023 to analyze PERA's current state with respect to its pension administration system. Additionally, the engagement provided information on the current landscape of modernization in the industry and consultation with peer organizations at various stages of modernization. PERA staff have continued to evaluate potential paths toward modernization with the goal of selecting the direction most appropriate for PERA and launching the project in 2024.

#### *Mobile App*

Also in June 2023, PERA launched its free mobile app on the App Store (iOS) and Google Play Store (Android). With the app, members and retirees can see at-a-glance account information, such as projected monthly benefit, account balance, and salary and service credit history. Users can also update their account information such as tax withholding and beneficiary details in the app. At year-end, the app had more than 22,000 downloads.

#### **Innovate**

##### *Unitization Project*

Unitization provides a compelling opportunity for defined contribution (DC) plan participants to gain access to PERA's low-cost, institutional quality, internal asset management capabilities by investing alongside the defined benefit (DB) plan. In 2023, PERA engaged

Callan, its DC Investment Consultant, to help evaluate the potential to unitize the DB plan.

##### *Quick Tip Videos*

In 2023, the Communications and Member Education Divisions created and published a series of Quick Tip videos—a new online video library of short-form and on-demand educational content that allows members to consume bite-size information about PERA when and how they want it. The series now has more than 13,000 views.

#### **Invest**

##### *LEAD Pacesetter*

PERA launched the LEAD Pacesetter Program in early 2023—a professional development program for PERA's future leaders, which encourages growth and development for team leads and individuals interested in gaining or advancing knowledge and skills. Twenty-one employees completed the year-long program with an entry option every six months, with another 11 starting mid-year.

##### *Job Shadowing and Team Learning*

The Job Shadowing and Team Learning Program, which was piloted in 2023 and rolled out in early 2024, fosters professional development, enables individuals to learn from internal experts, supports career paths, and enhances collaboration within PERA. This initiative aims to promote an integrated and collaborative culture, drive innovation and creativity, and ensure strategic alignment across divisions.

##### *Mentoring*

PERA's Mentoring Program continues to encourage insightful and inclusive two-way interactions for those wanting to deepen professional relationships with coworkers in other divisions. Mentees and Mentors engage in a mutually beneficial partnership to exchange ideas, knowledge, and expertise.

##### *Project Management Community of Practice*

The Project Management Community of Practice was formed in 2023 for those employees with a shared interest in project management, with no requirements for any formal training or background in this discipline. Forty employees participated in the community, which focused on project management skills and the process of managing PERA projects from concept through fruition.

#### **Actuarial Results**

Two types of actuarial valuations are required to be performed for PERA's five defined benefit pension and two other postemployment benefit (OPEB) trust funds: one for accounting and financial reporting purposes and the other for funding purposes. The results of both actuarial valuations are included in the financial and actuarial sections of this report, respectively.

### LETTER OF TRANSMITTAL

The results of the actuarial valuations performed for accounting and financial reporting purposes are prepared in accordance with Governmental Accounting Standards Board (GASB) requirements. Assets are required to be stated at fair value and the liabilities are determined using a standardized methodology allowing for transparency and comparability across U.S. governmental defined benefit pension and OPEB systems.

The results of the actuarial valuations for funding purposes are prepared in accordance with Actuarial Standards of Practice and the Board's pension and OPEB funding policies. Investment gains and losses are recognized over a four-year period to calculate a smoothed or actuarial value of assets (AVA) used to determine funding metrics. The amount of actuarial accrued liability (AAL) in excess of the AVA is referred to as the unfunded actuarial accrued liability (UAAL). The ratio of AVA to AAL represents the funded status of each plan.

For the year ended December 31, 2023, the UAAL calculated for funding the five defined benefit pension trust funds was \$27.5 billion compared to the net pension liabilities (NPL) calculated for accounting and financial reporting purposes of \$29.3 billion. Although the same funding or attribution method is used to determine liabilities for both funding and accounting and financial reporting purposes, differing asset values (AVA versus fair value of assets) and other typically less impactful valuation processes can result in notably different assessments of unfunded liabilities (UAAL versus NPL) under various economic conditions. For the year ended December 31, 2022, the UAAL calculated for the five defined benefit pension trust funds for funding purposes was \$26.3 billion compared to the NPL calculated for accounting and financial reporting purposes of \$31.0 billion.

The decrease in the NPL is primarily due to favorable investment performance during 2023. In accordance with GASB 67 and GASB 74, the discount rate determination for 2023 required the use of the long-term expected rate of return of 7.25% for the five pension and two OPEB trust funds. When calculating the AAL for funding purposes, the discount rate used is always equal to the long-term expected rate of return set by the Board.

A comprehensive discussion of the results of the actuarial valuation performed for accounting and financial reporting purposes can be found in the Management's Discussion and Analysis (MD&A) on pages 33-36, as well as in Notes 10 and 11 of the Notes to the Financial Statements in the Financial Section. The results of the actuarial valuations performed for funding purposes are briefly summarized below with information on certain funding actuarial metrics provided in the MD&A on pages 37-38. A more

comprehensive discussion is provided in the Actuarial Section.

### Funding

On December 31, 2023, the funded ratio for PERA's five defined benefit pension trust funds was 69.6% compared to 69.9% on December 31, 2022. The AVA as of December 31, 2023, was \$62.9 billion. Although the 2023 fair value investment return of 13.4% was favorable when compared to the long-term expected rate of return of 7.25%, the investment return on an AVA basis was 6.5% versus the 7.25% assumption. This less than expected return for 2023 was predominantly due to the 2022 investment losses still being recognized in the smoothed actuarial value. The UAAL as of December 31, 2023, was \$27.5 billion, an increase of approximately \$1.2 billion from the previous year, reflecting the AVA investment loss, as previously described, as well as a net demographic actuarial loss.

The development and ongoing review of a pension funding policy are responsibilities of the Board. PERA's current pension funding policy initially was adopted by the Board in March 2015, and last revised January 19, 2024, for the five defined benefit pension trust funds. The Board adopted a similarly structured OPEB funding policy in January 2018, which also was last revised January 19, 2024. Both policies focus on the determination of an actuarially determined contribution reflecting closed and layered 30-year amortization periods. The purpose of each policy is three-fold: (1) to define the overall funding benchmarks of each trust fund, (2) to assess the adequacy of the contribution rates set by the Colorado Legislature by comparing each trust fund's statutorily set contribution rate to an actuarially determined contribution benchmark, and (3) to define the annual actuarial metrics which will assist in assessing the sustainability of the plan. The results of these three items help guide the Board when considering whether to pursue or support proposed contribution and benefit legislation.

Investment income is the most significant driver of the funded status in a defined benefit plan. To understand the significance of this assumption, a sensitivity analysis is included in the Actuarial Section on page 176 for the Division Trust Funds and page 200 for the Health Care Trust Funds. Additional information on PERA's funded ratio, unfunded liabilities, and actuarial assumptions may be found in the Actuarial Section starting on page 149 for the Division Trust Funds and on page 185 for the Health Care Trust Funds.

Employer contributions also drive the funded status. 2023 is only the third year within the last 21 years the actual employer contributions received pursuant to statute for the five defined benefit pension trust funds were in excess, or \$162.6 million greater than the required actuarially determined contributions.

LETTER OF TRANSMITTAL

However, three years of excess does not fully compensate for the 18 years of deficiency, which has accumulated over the 21-year period to \$5.0 billion as of December 31, 2023. See page 35 of the MD&A in the Financial Section for additional details.

**Investment Rate of Return Sensitivity Effect on Projected Amortization Periods**

In addition to the annual actuarial funding valuation, the Board’s actuary performs actuarial projections for each Division Trust Fund. These projections are forward-looking and take into consideration the many tiers of PERA benefit provisions and the statutory contribution rate structures. The projections also reflect applicable salary, demographic, and economic actuarial assumptions, as well as anticipated member growth. Considering the various benefit tiers currently in effect within PERA, the Board believes the results of the actuarial projections provide valuable insight into the long term impact of the pension reforms adopted in 2010 and 2018.

The main focus of these projections is to provide, by division, the amortization or funding period, meaning the expected number of years until full funding status is achieved. The projected amortization periods reflect all actuarial assumptions and the benefit and contribution provisions currently enacted, even if not yet effective.

The following table shows the projected amortization periods under two scenarios: (1) as of the December 31, 2023, actuarial valuation, reflecting the 2023 investment return and other plan experience, and (2) as of the December 31, 2022 actuarial valuation.

Division Trust Fund	Projected Amortization Periods (in years)	
	2023 Valuation Results	2022 Valuation Results
State	23	32
School	27	34
Local Government	14	23
Judicial	8	12
DPS	9	13

It is important to understand the risks related to defined benefit plans, specifically the risks associated with the selection and application of the long-term expected rate of return on investments. Given the long-term funding horizon and anticipated ongoing aspect of such defined benefit plans, particularly those providing benefits in the public sector, it is generally understood that the plan’s existence is tied to the ongoing nature of governmental services. Therefore, it is common practice for plan sponsors/administrators of governmental or public sector pension plans also to apply the expected long-term rate of return as the discount rate used to determine the liabilities of the plan.

In order to derive the long-term rate of return assumption, the Board looks to the expertise of its investment and actuarial consultants to perform a comprehensive asset/liability study on a periodic basis (generally every three to five years). In conjunction with this study, the Board reviews capital market data from numerous sources. PERA concluded the most recent asset/liability study in November 2019. As a result of the study, the Board updated and approved long-term asset allocations and target ranges effective January 1, 2020, and reaffirmed the current 7.25% long-term expected rate of return applicable to all five Division Trust Funds and the two Health Care Trust Funds. The Board is currently in the process of updating the periodic asset/liability study, which is expected to be completed by or before the end of 2024.

The following table illustrates the projected amortization periods, in years, of the School Division Trust Fund under the various return scenarios (used for both assumed investment return and to discount liabilities of the plan) which correspond to the confidence levels (probabilities of investment return) as indicated. This table reflects the results and experience of the December 31, 2023, actuarial funding valuation and the actuarial assumptions adopted November 20, 2020, first effective for the December 31, 2020, actuarial valuations and measurement date. The projected funding periods reflect 50-year probability outlooks (Monte Carlo simulations), provided by the Board’s actuaries, and are based on 30-year capital market assumptions, employed in the 2019 asset/liability study as previously described, provided by the Board’s investment consultants.

Probability of Achieving at Least the Rate of Return Displayed (or Better), per Annum	Projected Amortization Periods—School Division Trust Fund				
	Long-Term Expected Investment Return & Discount Rate				
	4.35%	6.18%	7.25%	8.63%	10.47%
95th Percentile	Infinite				
75th Percentile		69			
53rd Percentile			27		
25th Percentile				11	
5th Percentile					3

**PERAPlus 401(k), Defined Contribution Retirement, and PERAPlus 457 Plans**

PERA offers members opportunities to save more for retirement through the Voluntary Investment Program (PERAPlus 401(k) Plan), the Defined Contribution Retirement Plan (DC Plan), and the Deferred Compensation Plan (PERAPlus 457 Plan). All employees working for a PERA-affiliated employer may contribute to the PERAPlus 401(k) Plan. As of December 31, 2023, there were a total of 216 employers who recognized the value of offering more choices in savings by affiliating

### LETTER OF TRANSMITTAL

with the PERAPlus 457 Plan. The Roth option was added to the PERAPlus 401(k) and 457 Plans at the end of 2014. As of December 31, 2023, there were a total of 199 employers who have adopted the Roth option. The Roth option in these plans offers advantages over a Roth IRA, including higher contribution limits and no income-based contribution limitations.

The fiduciary net position of the PERAPlus 401(k), DC, and PERAPlus 457 Plans increased for the year ended December 31, 2023. The PERAPlus 401(k), DC, and PERAPlus 457 Plans earned \$711.7 million, \$63.1 million, and \$180.6 million of investment income with a fiduciary net position of \$4.3 billion, \$422.4 million, and \$1.3 billion, respectively.

#### Overview of Colorado PERA

PERA provides retirement and other benefits to the employees of more than 500 government agencies and public entities in the State of Colorado. Established by State law in 1931, PERA operates by authority of the Colorado General Assembly and is administered under Title 24, Article 51 of the Colorado Revised Statutes. In accordance with its duty to administer PERA, the Board has the authority to adopt and revise Rules in accordance with State statutes. See Notes 1, 8, and 9 of the Notes to the Financial Statements in the Financial Section for participant information and services provided by PERA.

#### Employer Affiliation

PERA welcomes the Town of Mt. Crested Butte, which affiliated in the Local Government Division on April 5, 2023.

#### Board of Trustees Composition

PERA is governed by a 16-member Board; 11 Trustees are elected by the membership for staggered four-year terms and serve without compensation except for necessary expenses. In addition, there are three Governor-appointed Trustees confirmed by the Senate who receive limited compensation. The State Treasurer serves as a voting ex officio Trustee, and the DPS Division elects one member to serve as a non-voting ex officio Trustee.

In March 2023, the Board reappointed the Honorable Rebecca R. Freyre to the Judicial Division seat since she was the sole candidate duly nominated and eligible to be elected. Judge Freyre will serve a four-year term that ends on June 30, 2027.

In June 2023, as a result of the 2023 Board election, one new Trustee was elected and two Trustees were reelected. Eunice Botchway, a Special Education Teacher in Adams-Arapahoe School District 28J, was elected to the School Division seat previously held by JB Phillips. Trustee Botchway will serve a two-year term that

expires in June 2025. Trina Ruhland, a deputy county attorney with the Boulder County Attorney's Office, was reelected by Local Government Division members to the seat she was appointed to in 2022. Trustee Ruhland will serve a four-year term that expires in June 2027. Timothy M. O'Brien, the auditor for the City and County of Denver, was reelected by retired members of the State, Local Government, and Judicial Divisions. Trustee O'Brien will serve a four-year term that expires in June 2027.

In November 2023, Trustee Ramon Alvarado resigned from the Board. Since Trustee Alvarado was the sole Higher Education candidate from the previous election, a replacement for this seat is pending the results of the 2024 Board election.

In January 2024, Vice Chair Suzanne Kubec retired from her position with the State Office of Risk Management and therefore vacated her seat on the Board. As a result, Ashley M. Smith was appointed to fill the seat as she was the runner-up in the 2022 Board election. Trustee Smith, who served on the Board from 2021 to 2022, will serve until the 2025 Board election. Trustee Smith is the Director of Corporate Strategy and Development at Pinnacol Assurance.

Also in January 2024, in compliance with procedures established in PERA's Governance Manual, the Board nominated and elected Trustee Taylor McLemore as Vice Chair to serve the balance of the term through 2024.

In May 2024, Trustee Taylor McLemore was reappointed to the Board by Governor Polis and will be subject to Senate confirmation during the 2025 legislative session.

#### Management Changes

In September 2023, Tom Liddy, Director of Investment Operations, retired after 19 years of service.

In October 2023, the Operations Support Division was reorganized to more efficiently serve members and support the organization. Team members whose roles support benefits or data analysis joined Benefit Services Division as the Benefits Administration Operations Support team. Team members whose roles impact communications functions, such as publications fulfillment and mail services, joined Communications as the Communications Operations Support team.

On March 15, 2024, the PERA Board named Andrew Roth as PERA's Chief Executive Officer/Executive Director, effective May 13, 2024. Roth was previously the Deputy Director for the Teacher Retirement System of Texas. After serving as Acting Executive Director beginning in March 2023, then Interim Executive Director since June 2023, Amy C. McGarrity has resumed her role as Chief Investment Officer/Chief Operating Officer.

## LETTER OF TRANSMITTAL

### Financial Information and Management Responsibility

Our *ACFR* must comply with the reporting requirements under Title 24, Article 51, Section 204(8) of the Colorado Revised Statutes.

The ultimate responsibility for the Basic Financial Statements and *ACFR* rests with PERA management with the Board providing oversight. The Board is assisted in its responsibilities by the Audit Committee, which consists of no fewer than five Board members and two independent outside members. A more detailed description of the Audit Committee's role can be found in their report on pages 15-16.

Management prepares PERA's financial statements and is responsible for the integrity and fairness of the data presented, including the many amounts that must, out of necessity, be based on estimates and judgments. This *ACFR* was prepared to conform to the accounting principles generally accepted in the United States of America, and the financial information presented in the report is consistent with the Basic Financial Statements.

Management is responsible for establishing and maintaining adequate internal control over financial reporting. In addition, our audit personnel provide a continuing review of the internal controls and operations of PERA, and the Director of Internal Audit regularly reports to the Audit Committee.

PERA's internal control over financial reporting is designed to provide reasonable, but not absolute assurance, regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

The effectiveness of any internal control system has inherent limitations, including the possibility of human error, the circumvention or overriding of controls, and the preference that the cost of control does not exceed the benefits to be derived.

Accordingly, even an effective internal control system may not prevent or detect misstatements and can provide only reasonable assurance with respect to financial statement preparation.

State law requires the State Auditor to conduct or cause to be conducted an annual audit of PERA. Pursuant to this requirement, under the direction of the State Auditor, CliftonLarsonAllen LLP audited PERA's 2023 Basic Financial Statements in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards. CliftonLarsonAllen LLP issued an unmodified opinion on PERA's financial statements, which can be found in the Independent Auditors' Report in the Financial Section on pages 23-26. Management has provided the auditors with full and unrestricted access to PERA's

records and staff to discuss their audit and related findings, to facilitate independent validation of the integrity of the plan's financial reporting and to consider the effectiveness of internal controls.

The Financial Section of the *ACFR* also contains the MD&A that serves as a narrative introduction, overview, and analysis of the Basic Financial Statements. This Letter of Transmittal is designed to complement the MD&A and should be read in conjunction with it.

### Recognition of Achievements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to PERA for its *ACFR* for the year ended December 31, 2022. This was the 38th consecutive year PERA has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current *ACFR* continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The GFOA also awarded PERA an Award for Outstanding Achievement in Popular Annual Financial Reporting for its *Popular Annual Financial Report* for the year ended December 31, 2022. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports.

In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability, and reader appeal.

An award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year only. PERA has received a Popular Award for the last 21 consecutive years. We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to the GFOA.

### PPCC Standards Award Program

The Public Pension Coordinating Council (PPCC) presented PERA with a Public Pension Standards Award for Funding and Administration in 2023 for meeting professional standards for funding and plan administration as set forth in the Public Pension Standards. This is the 21st consecutive year PERA has

### LETTER OF TRANSMITTAL

received this annual award. The PPCC is a coalition of three national associations that represent public retirement systems and administrators—the National Association of State Retirement Administrators, National Council on Teacher Retirement, and National Conference on Public Employee Retirement Systems. These three associations represent more than 500 of the largest pension plans in the U.S.

#### **Acknowledgements**

This *ACFR* reflects the combined efforts of PERA staff and is the responsibility of PERA management. I extend my sincere appreciation to all who assisted in and contributed toward its completion. Our *ACFR* is intended to provide complete and reliable information for transparent communication and to serve as a resource.

An email with a link to this *ACFR* is provided to all PERA-affiliated employers and other interested parties; a summary (*Popular Annual Financial Report*) is distributed to members and benefit recipients. Electronic versions of both reports are available on the PERA website at [copera.org](http://copera.org).

As we remain focused on our funding goals and investing for the future, I would like to thank our affiliated employers for their continued support and cooperation, which is vital to the success of PERA. I would also like to thank the PERA Board and staff for their hard work and many contributions in moving the mission forward to provide retirement security for Colorado's public employees.

Respectfully submitted,

*Andrew Roth*

BOARD CHAIR'S REPORT

**Marcus Pennell**  
*Board Chair*

June 21, 2024

**Dear Colorado PERA Members, Benefit Recipients, and Employers:**

As Chair of the Board of Trustees (Board), I am pleased to present this *Annual Comprehensive Financial Report* for the year ended December 31, 2023.

In 2023, the Board began the process of searching for PERA's next Executive Director, and I'm happy to say that earlier this year, the Trustees selected Andrew Roth to fill that role. Mr. Roth started work in May and has hit the ground running, meeting with PERA staff and engaging with various stakeholders. In the months to come, I anticipate many more of you will have a chance to connect with Mr. Roth and learn more about the expertise and skillset he brings to the role of Chief Executive Officer (CEO)/Executive Director.

As PERA leadership enters a new phase, it's vital that we as Trustees be thoughtful and deliberate in laying out our strategic vision for PERA's future. I'm confident the experience and knowledge Mr. Roth has gained from his career in public service—including leadership roles at two of the country's largest pension plans—will be valuable in the months ahead as we craft our next five-year strategic plan.

I want to thank PERA staff and leadership for their dedication and hard work during this period of transition. In addition to the important work of administering the plans and delivering benefits to our members during a leadership change, staff continued to find innovative ways to make PERA a stronger and more efficient organization. Our talented staff have completed some important projects to improve the services we provide to our members, such as launching our first-ever mobile app, and managed PERA's investment portfolio to a positive return of 13.4% net-of-fees. In particular, I want to extend the Board's appreciation to Chief Investment Officer/Chief Operating Officer Amy C. McGarrity for stepping up to serve as Interim Executive Director. I know it was a unique challenge, but Amy handled it extremely well and her hard work did not go unnoticed.

I would also like to thank JB Phillips, whose time on the Board ended in 2023, as well as Ramon Alvarado, who left the Board this year. I extend my sincere thanks also to Vice Chair Suzanne Kubec, who left the Board in January. Suzanne brought a wealth of expertise to the Board and I was honored to work alongside her. To fill the Vice Chair vacancy, the Trustees selected Taylor McLemore to assume that role. His leadership as chair of the CEO/Executive Director Search Committee demonstrated the thoughtfulness and diligence he will bring to the role of Vice Chair. I also want to welcome our newest Trustee, Eunice Botchway, as well as a returning Trustee, Ashley Smith.

Selecting our next CEO/Executive Director and developing our next strategic plan are major milestones for PERA, and I want to thank the Trustees for the high level of care, consideration, and purpose they've devoted to these important tasks. Colorado's current and former public employees rely on us for their financial security, and I'm continually humbled by the seriousness with which this Board carries out its duties.

Sincerely,

*Marcus Pennell (He/Him)*  
*Chair, Colorado PERA Board of Trustees*

## REPORT OF THE COLORADO PERA AUDIT COMMITTEE

As described more fully in its Charter, the purpose of the Colorado PERA Audit Committee (Audit Committee) is to assist the Board of Trustees (Board) in fulfilling its fiduciary responsibilities as they relate to accounting policies and financial reporting, the system of internal control, PERA's *Standards of Professional and Ethical Conduct*, the internal audit process, and the practices of the Director of Internal Audit. Management is responsible for the preparation, presentation, and integrity of PERA's financial statements; accounting and financial reporting principles; PERA's system of internal control; and procedures designed to reasonably ensure compliance with accounting standards, applicable laws, and regulations. PERA has a full-time Internal Audit Division that reports functionally to the Audit Committee. The Internal Audit Division is responsible for independently and objectively reviewing and evaluating the effectiveness and efficiency of PERA's system of internal control.

CliftonLarsonAllen LLP is responsible for performing an independent audit of PERA's financial statements in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. In accordance with law, the Colorado State Auditor has ultimate authority and responsibility for selecting, evaluating, and, when appropriate, replacing PERA's Independent Auditor.

The Audit Committee serves a Board-level oversight role in which it provides advice, counsel, and direction to management and to the Internal Audit function on the basis of the information it receives, discussions with management and Internal Audit, and the experience of the Audit Committee's members in business, financial, and accounting matters. In this role, the Audit Committee also reviews the audit plan of the Independent Auditor, the results of the audit, and the status of management's actions to implement recommendations from the audit.

The Audit Committee believes a candid, substantive, and focused dialogue with the internal auditors and the Independent Auditor is fundamental to the Audit Committee's oversight responsibilities. To support this belief, the Audit Committee periodically meets separately with both the Director of Internal Audit and the Independent Auditor, without management present. In the course of its discussions in these meetings, the Audit Committee asked a number of questions intended to bring to light any areas of potential concern related to PERA's financial reporting and internal control. These questions include, but are not limited to:

- Are there any significant accounting judgments, estimates, or adjustments made by management in preparing the financial statements that would have been made differently had the Independent Auditor prepared and been responsible for the financial statements?
- Based on the Independent Auditor's expertise, and its knowledge of PERA and PERA's financial statements, have subsequent events been appropriately disclosed in the financial statements?
- Based on the Independent Auditor's experience, and its knowledge of PERA, do PERA's financial statements fairly present to users, with clarity and completeness, PERA's financial position and performance for the reporting period in accordance with generally accepted accounting principles?
- Based on the Independent Auditor's experience, and its knowledge of PERA, has PERA implemented internal control and internal audit procedures that are appropriate for PERA?
- Are the Independent Auditor and internal auditors getting the support they need from management to execute their duties?
- Were ethics hotline complaints, if any, adequately investigated and resolved?
- Did all PERA staff, including members of management, attest to their compliance with the PERA Standards of Ethical and Professional Conduct?

Questions raised by the Audit Committee regarding these matters were answered to the Audit Committee's satisfaction.

The Audit Committee had an agenda for 2023 that included the following items:

- Recommending the *Annual Comprehensive Financial Report* to the Board for its approval;
- Reviewing and approving the plan and budget of the Internal Audit Division;

### REPORT OF THE COLORADO PERA AUDIT COMMITTEE

- Reviewing the adequacy of resources made available to the Internal Audit Division;
- Reviewing the scope, objectives, and timing of the annual independent audit of PERA's financial statements;
- Providing input into the Chief Executive Officer/Executive Director's annual performance evaluation of the Director of Internal Audit;
- Reviewing PERA's compliance with its *Standards of Professional and Ethical Conduct*;
- Meeting with the Independent Auditor separately, without management present;
- Meeting separately with the Chief Executive Officer/Executive Director, Director of Internal Audit, Director of Accounting/Controller, and General Counsel; and
- Meeting with the Director of Internal Audit and with management to discuss the effectiveness of PERA's system of internal control.

The Audit Committee has reviewed and discussed the audited financial statements for the year ended December 31, 2023, with management and the Independent Auditor. Management represented to the Audit Committee that PERA's audited financial statements were prepared in accordance with accounting principles generally accepted in the United States of America that apply to governmental accounting for fiduciary funds. The Independent Auditor represented that their presentations to the Audit Committee included the matters required by auditing standards on auditor communication to be discussed with the Independent Auditor. This review included a discussion with management of the quality (not merely the acceptability) of PERA's accounting principles, the reasonableness of significant estimates and judgments, and the clarity of disclosure in PERA's financial statements, including the disclosures related to critical accounting estimates.

In reliance on these reviews and discussions, and the reports of the Independent Auditor and the Director of Internal Audit, the Audit Committee has recommended to the Board, and the Board has approved PERA's *Annual Comprehensive Financial Report* for the year ended December 31, 2023.

### BOARD OF TRUSTEES

*Serving from January 1, 2023, to June 21, 2024*

By State law, authority over the Public Employees' Retirement Association of Colorado (PERA) is vested in the Board of Trustees (Board). The Board is composed of the following 16 Trustees:

- Nine members elected by members from their respective Divisions to serve on the Board for four-year terms; four from the School Division, three from the State Division, one from the Local Government Division, and one from the Judicial Division.
- Two retirees elected by retirees to serve on the Board for four-year terms.
- Three Trustees appointed by the Governor and confirmed by the State Senate to serve on the Board for four-year terms.
- The State Treasurer.
- One ex officio (non-voting) member or retiree elected by members and retirees of the Denver Public Schools (DPS) Division to serve on the Board for a four-year term.

If a Board member resigns, a new Trustee is appointed from the respective Division until the next election of Trustees.

**Marcus A. Pennell**

INDEPENDENT AUDITORS' REPORT

CliftonLarsonAllen LLP  
CLAconnect.com

**INDEPENDENT AUDITORS' REPORT**

Board of Trustees  
Public Employees' Retirement Association of Colorado  
Denver, Colorado

**Report on the Audit of the Financial Statements**

***Opinions***

We have audited the accompanying financial statements of Public Employees' Retirement Association of Colorado (Colorado PERA), including the individual fund financial statements, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise Colorado PERA's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of Colorado PERA as of December 31, 2023, and the changes in its fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to previously present fairly, in all material respects, the respective fiduciary net position of each individual fund of Colorado PERA as of December 31, 2023, and the respective changes in fiduciary net position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Colorado PERA and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See [CLAglobal.com/disclaimer](https://www.claglobal.com/disclaimer)

## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Public Employees' Retirement Association of Colorado

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Colorado PERA's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Colorado PERA's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Colorado PERA's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Public Employees' Retirement Association of Colorado

**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the division trust funds' schedules of changes in net pension liability and related ratios, employer and nonemployer contributions, and investment returns and related notes, and the health care trust funds' schedules of changes in net OPEB liability and related ratios, contributions from employers, and investment returns and related notes, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Colorado PERA's basic financial statements. The schedules of administrative expenses, other additions, other deductions, investment expenses, and payments to consultants (supplementary information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory, investment, actuarial and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

INDEPENDENT AUDITORS' REPORT

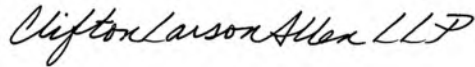

Board of Trustees  
Public Employees' Retirement Association of Colorado

**Report on Summarized Comparative Information**

We have previously audited Colorado PERA's 2022 financial statements, and we expressed unmodified opinions on the respective financial statements of Colorado PERA and of each individual fund as displayed in the basic financial statements in our report dated June 16, 2023. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2022, is consistent, in all material respects, with the audited financial statements from which it has been derived.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated June 21, 2024, on our consideration of Colorado PERA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Colorado PERA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Colorado PERA's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

This Management's Discussion and Analysis (MD&A) section provides a narrative overview and analysis of the financial activities of the Public Employees' Retirement Association of Colorado (PERA) for the year ended December 31, 2023. Please consider the information presented here in conjunction with additional information in the Letter of Transmittal starting on page 3 of this *Annual Comprehensive Financial Report (ACFR)* and with the Basic Financial Statements of PERA starting on page 41.

In addition to historical information, this MD&A includes forward-looking statements, involving certain risks and uncertainties. PERA's actual results, performance, and achievements may differ materially from the results, performance, and achievements expressed or implied in such forward-looking statements due to a wide range of factors, including changes in interest rates, changes in the capital markets, general economic conditions, legislative changes, as well as other factors.

### Overview of the Association

PERA administers the following 11 fiduciary funds:

#### Plan Name

##### **Defined Benefit Pension Plans (Division Trust Funds)**

State Division Trust Fund  
School Division Trust Fund  
Local Government Division Trust Fund  
Judicial Division Trust Fund  
Denver Public Schools (DPS) Division Trust Fund

##### **Defined Benefit Other Postemployment Benefit Plans (Health Care Trust Funds)**

Health Care Trust Fund (HCTF)  
Denver Public Schools Health Care Trust Fund (DPS HCTF)

##### **Defined Contribution Plans**

Voluntary Investment Program  
Defined Contribution Retirement Plan  
Deferred Compensation Plan

##### **Private Purpose Trust Fund**

Life Insurance Reserve

Additional information regarding the contribution and benefit provisions of the plans can be found in Notes 1, 4, 8, and 9 of the Notes to the Financial Statements.

### Financial Statement Overview

PERA's financial statements are prepared in conformity with generally accepted accounting principles (GAAP) in the United States and all applicable Governmental Accounting Standards Board (GASB) pronouncements. The actuarial valuations reported in the Actuarial Section are prepared in accordance with the Actuarial Standards of Practice and the PERA Board's funding policy.

### Basic Financial Statements

PERA's financial statements include the following components:

1. Basic Financial Statements
  - Statements of Fiduciary Net Position
  - Statements of Changes in Fiduciary Net Position
2. Notes to the Basic Financial Statements
3. Required Supplementary Information - Unaudited
4. Supplementary Schedules

The Statements of Fiduciary Net Position presents information on PERA's assets, liabilities, and deferred inflows of resources, with the difference reported as fiduciary net position (FNP). Over time, the increase or decrease in FNP indicates PERA's financial condition and ability to fund future benefits.

The Statements of Changes in Fiduciary Net Position reflect how PERA's FNP changed during the fiscal year, including additions such as contributions and investment income and deductions such as benefit payments, refunds, and administrative expenses.

### Notes to the Financial Statements

The Notes to the Financial Statements provide essential information for understanding the Basic Financial Statements.

Note 1—Plan Description: provides a general description of PERA, the administered funds, and an overview of plan provisions for the defined benefit pension trust funds.

Note 2—Summary of Significant Accounting Policies: provides a summary of significant accounting policies, including the basis of accounting for PERA and management's use of estimates.

Note 3—Interfund Transfers and Balances: provides information related to interfund activity and balances.

Note 4—Contributions: provides information related to contribution requirements of the defined benefit pension trust funds and the authority for establishing or amending those requirements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

Note 5—Investments: provides information related to deposits and investments, required investment disclosures, including risks related to credit (including custodial credit and concentrations of credit risk), interest rate, and foreign currency.

Note 6—Derivative Instruments: provides information on PERA's investment derivative instruments.

Note 7—Commitments and Contingencies: summarizes PERA's significant commitments and generally describes any potential contingencies of PERA.

Note 8—Voluntary Investment Program, Defined Contribution Retirement Plan, and Deferred Compensation Plan: identifies and describes the three defined contribution plans.

Note 9—Health Care Trust Funds: identifies and describes the types of defined benefit other postemployment benefit (OPEB) plans.

Note 10—Net Pension Liability (NPL) of the Division Trust Funds: provides a summary of the NPL of employers and the nonemployer contributing entity (if applicable) in accordance with GASB Statement No. 67, *Financial Reporting for Pension Plans*.

Note 11—Net OPEB Liability (NOL) of the Health Care Trust Funds: provides a summary of the NOL of employers in accordance with GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*.

Note 12—Leases, Capital Assets, and Subscription Liabilities: provides information on PERA's leases and tangible and intangible capital assets.

**Required Supplementary Information (RSI)**

The following 10-year RSI is found after the Notes to the Financial Statements:

Division Trust Funds	Health Care Trust Funds
Schedule of Changes in Net Pension Liability and Related Ratios	Schedule of Changes in Net OPEB Liability and Related Ratios
Schedule of Employer and Nonemployer Contributions	Schedule of Employer Contributions
Schedule of Investment Returns	Schedule of Investment Returns

**Supplementary Information**

The section for Supplementary Information includes details on expenses and a breakdown of other additions and deductions. The schedules available in this section include:

- Schedule of Administrative Expenses
- Schedule of Other Additions
- Schedule of Other Deductions
- Schedule of Investment Expenses
- Schedule of Payments to Consultants

**Financial Highlights**

Combined assets increased \$12,203,755, or 19.0%, from 2022 to \$76,468,438 as of December 31, 2023, primarily because investments, at fair value, increased \$6,355,942 and securities lending collateral increased \$5,752,492.

Combined liabilities increased \$5,780,748, or 191.7%, from 2022 to \$8,796,141 as of December 31, 2023, primarily due to securities lending obligations increasing \$5,745,205.

Combined deferred inflows from tenant leases decreased by \$190, or 12.4%, from 2022 to \$1,337 as of December 31, 2023.

PERA's combined FNP increased \$6,423,197, or 10.5%, from 2022 to \$67,670,960 as of December 31, 2023, primarily due to positive investment returns.

See the remainder of the MD&A and the Notes to the Financial Statements for additional information

**Comparative Financial Statements**

The following comparative condensed statements of Fiduciary Net Position and Changes in Fiduciary Net Position for five Division Trust Funds, two Health Care Trust Funds, and the Life Insurance Reserve have been derived from PERA's audited financial statements. For the year ended December 31, 2023, the FNP for five Division Trust Funds, two Health Care Trust Funds, and the Life Insurance Reserve increased by \$5,501,689, \$111,693, and \$2,738 respectively. The increase was principally due to high investment income. While the annual changes in FNP can provide meaningful insight into the financial activities and financial status, long-term views and trend analysis are critical factors in reporting and understanding the financial status of PERA.

The Division Trust Funds, the Health Care Trust Funds, and the Life Insurance Reserve pool their investments into a combined investment fund (CIF). CIF investments are the largest asset in PERA's defined benefit plans. Investment income generated by PERA ultimately defrays the cost of benefits provided to PERA's membership. CIF net investment income for the year ended December 31, 2023, was \$7,353,870, an increase of \$16,179,944 from 2022.

PERA's target and actual investment allocation includes equity and fixed income investments in public markets and private equity, real estate, and alternatives in private markets. A modest cash balance provides ongoing liquidity to meet cash needs. Additional information on limitations, an overview of the investment policy, the targeted investment asset allocation, as well as the permissible ranges of asset allocation for PERA's investment program can be found on page 124 of the Investment Section.

The global equity market, in which over 50% of the portfolio is invested, is the single greatest driver of PERA's annual return. The benchmark for this asset class, MSCI ACWI IMI, returned 21.9% in 2023. Equity markets rebounded sharply from the prior year as hiring and consumer spending continued and inflation eased.

The fixed income investments comprise nearly 20% of the portfolio. The benchmark for this asset class, Bloomberg U.S. Aggregate Bond Index, had a 5.5% return in 2023. The Federal Reserve slowed the pace and size of rate increases in 2023, with the effective rate ending the year in a range of 5.25% to 5.50%, allowing fixed income markets to recover some ground from last year's losses.

The private market asset classes (private equity, real estate, and alternatives) experienced mixed results in 2023. Private equity and alternatives were positive for the year but trailed their benchmarks, while real estate was negative but beat its benchmark. Cash and short-term investments ended the year with a positive return of 5.2%.

The actual net-of-fees, time-weighted rate of return was 13.4% for the year ended December 31, 2023. To assess investment performance, PERA closely monitors the performance of the Board's selected benchmarks to actual performance returns. For the year ended December 31, 2023, PERA's investments underperformed the total fund's policy benchmark by 100 basis points. Additional information on investment returns and benchmarks as well as a comprehensive discussion of the 2023 performance evaluation can be found in the Investment Section.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

The net-of-fees time-weighted rates of return of the various asset classes, the total fund, and the various benchmarks are as follows:

2023 Actual Net-of-Fees Time-Weighted Rates of Returns versus Benchmarks

Long-Term Investment Returns

While the annual investment returns can provide meaningful insight into the financial activities and financial status, long-term views and trend analysis are critical factors in understanding the financial status of PERA. Additional information on longer-term investment returns for the investment program and

benchmarks for the three-, five-, and 10-year periods for each investment asset class can be found in the Investment Section.

The following chart shows the annual investment returns for the total fund and the policy benchmark for each of the past 10 years:

Historical Net-of-Fees Time-Weighted Rates of Return versus Policy Benchmark

<sup>1</sup> Employer contributions include the employer statutory rates, AED, and SAED, less an offset of 10.93% in 2023 for the DPS Division as required by C.R.S. § 24-51-412 *et seq.*

<sup>2</sup> Beginning in 2018, contributions from a nonemployer contributing entity are required by C.R.S. § 24-51-414 *et seq.*

<sup>3</sup> A restorative payment to recompense PERA for the suspended 2020 contribution was made in 2022 as required by C.R.S. §§ 24-51-414(6-9), which also advanced part of the 2023 distribution.

<sup>4</sup> The 2020 contribution for the State's 2020-21 fiscal year was suspended as required by C.R.S. § 24-51-414(1)(b).

Contribution rates are set in statute and are thus determined by the Colorado General Assembly. See pages 243-248 in the Statistical Section for the Schedule of Contribution Rate History.

Contributions	2023	2022
From members to the Division Trust Funds	\$1,306,321	\$1,174,072
From employers to the Division Trust Funds, HCTF, and DPS HCTF	2,452,102	2,213,889

Member and employer contributions increased due to increases in membership count and covered payroll with slight increases in certain employer contribution rates subject to Colorado Revised Statutes (C.R.S.). In 2022, C.R.S. §§ 24-51-414(6-9) required an additional restorative payment for the suspended 2020 direct distribution and an accelerated payment for the scheduled 2023 direct distribution. Due to the advanced payment made in 2022, the State issued a warrant in the amount of \$49,561 in 2023. See Note 4 of the Notes to the Financial Statements for more information.

At the end of 2023, PERA had benefit receivables in the amount of \$222,525 which primarily represents contributions owed by members and employers for service credit earned in December 2023. Over the past 30 years, employer contributions (including nonemployer contributing entities and disaffiliation payments) represent 23% of the inflows into the

Division Trust Funds and Health Care Trust Funds. Member contributions and purchased service represent 15% of the inflows into these funds.

C.R.S. § 24-51-412 *et seq.* provides for a unique offset to the employer contributions that otherwise would go toward financing the unfunded actuarial accrued liability (UAAL) of the DPS Division, allowing relief to DPS Division employers by recognizing the dollars they contribute toward the pension certificates of participation (PCOPs). The statute states that as long as the funded status of the DPS Division exceeds the School Division, the Denver Public Schools is allowed this offset to the DPS Division employer contribution rate. The offset, expressed as a percentage of payroll, is equal to the annual assumed payment obligations for PCOPs issued in 1997 and 2008, including subsequent refinancing by the Denver Public Schools at a fixed effective annual interest rate of 8.50%. At a minimum, the DPS Division employer contribution rate must be sufficient to fund the DPS HCTF (1.02%) and the Annual Increase Reserve (AIR) (1.00%) applicable to the DPS Division. The annual increase (AI) is a post-retirement, cost-of-living adjustment meeting certain criteria as described in Note 1 of the Notes to the Financial Statements. The staff of Denver Public Schools calculated the PCOP offset rate of 10.93% for 2023.

C.R.S. § 24-51-401(1.7)(e) requires a periodic "true-up" calculation to be performed beginning in 2015 and every five years following, with the purpose of determining

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

the total DPS Division employer contribution rate that would result in the equalization of the ratio of UAAL over payroll between the DPS and School Divisions at the end of the 30-year period beginning January 1, 2010. The 2020 calculation indicated a reduction to the total DPS Division employer rate would be needed to equalize the defined ratio. It should be noted the automatic adjustment provision (AAP) compares the blended actual contribution rates to the blended actuarially determined contribution rates, resulting in one ratio considering all five Division Trust Funds. Therefore, a reduction in an employer contribution rate for any one Division Trust Fund could potentially influence the outcome of the AAP assessment. A failed assessment would trigger additional employer and member contributions for all divisions, and a decrease in the AI cap, affecting all benefit recipients of the plan.

While the annual contribution amounts can provide meaningful insight into the financial activities and financial status of PERA, the assessment of the adequacy of contributions on an actuarial funding basis is a critical factor in reporting the financial status of PERA. In accordance with the actuarial standards of practice and the Board's pension and OPEB funding policies, a plan-specific actuarially determined contribution (ADC) benchmark is developed against which to gauge the adequacy of PERA's statutory contribution rates for the five Division Trust Funds and two OPEB Funds. The ADC for each trust fund is developed annually and reported by management to be used as a benchmark for contributions two years in the future.

The following two charts show the ADC and actual contributions as a percentage of covered payroll for each trust fund for 2023. Additional information on long-term trends can be found in the Actuarial Section.

State, School, Local Government, Judicial, and DPS Divisions  
2023 Year-End Actual Contributions/ADC Comparison

<sup>1</sup> Actual employer rates are for non-Safety Officers and include the applicable defined contribution (DC) supplement pursuant to C.R.S. § 24-51-415.

<sup>2</sup> Includes an offset as provided for under C.R.S. § 24-51-412.

<sup>3</sup> Actual contributions include employer, AED, SAED, DC supplement and nonemployer, as applicable, less the AIR and health care contributions.

<sup>4</sup> ADC rates for 2023 are based on the 2021 actuarial valuations.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

<sup>1</sup> ADC rates for 2023 are based on the 2021 actuarial valuations.

**Contribution Deficiency/(Excess)**

Governmental accounting standards require the disclosure of the amount of contributions recognized by the defined benefit plan, the ADC amount, and the difference between these two amounts as RSI. An annual contribution deficiency arises when actual contributions are less than the ADC and an annual contribution excess arises when the actual contributions are greater than the ADC. The ADC is calculated using the investment rate of return and discount rate assumptions according to the Board’s funding policies. The ADC for 2023 was determined based on the results of the December 31, 2021, actuarial valuation. The 10-year schedules illustrating the annual contribution deficiency/(excess) can be found in the RSI on pages 98-100 and 110.

Contribution deficiency/(excess) on an actuarial funding basis is determined through a similar process. Each year, the actuaries assess the increase or decrease to the expected unfunded liability by comparing the expected dollar inflows into each fund versus the actual dollar amounts recognized. This calculation for funding purposes differs slightly from the approach required by governmental accounting standards. It considers additional contributions from all sources each year and the timing of contributions made. Taking these factors into consideration results in a total contribution excess of \$162.6 million for the Division Trust Funds in 2023. During the past 21 years, contribution experience for the Division Trust Funds has resulted in 18 years of deficiencies, three years of excess, and an accumulated shortfall of \$5.0 billion.

Due to legislative actions such as the implementation of the AAP, specifically designed to better align actual contributions with actuarially determined contributions, and the State’s annual direct distribution, progress is being made to dampen and eventually eliminate contribution deficiencies. A chart with the breakdown of benefit structures by division and type can be found on page 223 in the Statistical Section.

Senate Bill (SB) 18-200 implemented the AAP, which annually assesses actual contributions compared to required contributions to ascertain if adjustments to certain plan provisions are required in accordance with State statute beginning July 1, 2020. Based on certain statutory parameters, the AAP requires, as necessary, adjustments to member contributions, employer contributions, the direct distribution from the State, and the AI cap. The AAP is designed to help mitigate future contribution deficiencies and to keep PERA on the path to full funding. Additional information on this AAP can be found in Note 4 of the Notes to the Financial Statements starting on page 61, the Actuarial Section starting on page 173, and C.R.S. § 24-51-413.

State and School Division <sup>2</sup>	N/A	N/A	N/A	N/A	N/A	685.5
Local Government Division	(39.4)	(13.5)	(15.1)	3.6	(6.3)	(259.1)
Judicial Division <sup>1</sup>	(6.9)	(7.6)	(3.3)	0.3	(0.1)	6.4
DPS Division <sup>1,3</sup>	(28.8)	(54.9)	(13.0)	26.9	24.0	393.3
<b>Total Division Trust Funds</b>	<b>(\$162.6)</b>	<b>(\$417.4)</b>	<b>(\$216.6)</b>	<b>\$280.2</b>	<b>\$132.9</b>	<b>\$4,985.4</b>
HCTF	(\$43.4)	(\$32.7)	(\$23.8)	(\$15.9)	(\$1.0)	(\$205.8)
DPS HCTF <sup>3</sup>	(7.8)	(6.5)	(5.4)	(4.5)	(3.5)	(41.8)
<b>Total OPEB Trust Funds</b>	<b>(\$51.2)</b>	<b>(\$39.2)</b>	<b>(\$29.2)</b>	<b>(\$20.4)</b>	<b>(\$4.5)</b>	<b>(\$247.6)</b>

<sup>1</sup> Beginning in 2018, includes contributions from a nonemployer contributing entity as required by C.R.S. § 24-51-414 *et seq.*

<sup>2</sup> The State and School Divisions merged July 1, 1997, and separated on January 1, 2006.

<sup>3</sup> The DPS Division and DPS HCTF were established on January 1, 2010.

**Amortization of Unfunded Actuarial Accrued Liabilities**

The following table shows the amortization periods for the Division Trust Funds and Health Care Trust Funds for the prior and current valuation year:

Trust Fund	Actuarial Funding Valuation Results	
	2023 Amortization Period	2022 Amortization Period
State Division	18 Years	20 Years
School Division	23 Years	24 Years
Local Govt Division	8 Years	9 Years
Judicial Division	5 Years	6 Years
DPS Division <sup>1</sup>	6 Years	7 Years
HCTF	8 Years	11 Years
DPS HCTF	N/A	0 Years

<sup>1</sup> The calculation considers declining PCOP offset rate as described in statute.

The amortization periods for the five Division Trust Funds do not include the full effect of legislation enacted in 2006, 2010, and 2018. This legislation includes plan changes designed to lower the normal cost over time as new members are added to PERA's population, and to allow a greater proportion of the employers' contribution to be used to amortize the unfunded liability. The 2018 legislation also increased contributions to the Division Trust Funds in order to further accelerate the amortization of the unfunded liability. The amortization periods, determined on a valuation or closed-group basis, for all Divisions and the HCTF slightly decreased from 2022 to 2023 and the

DPS HCTF achieved full funding (a 110.4% funded ratio) as of December 31, 2023. The shorter amortization periods primarily reflect the increase in the margins of employer contribution rates available to pay down the unfunded liabilities in each division.

Unless otherwise temporarily altered by statute, the amortization periods shown in the previous table consider ongoing employer, member, AED, and SAED contributions, including any future statutory increases, and the direct distribution and DC supplement, where applicable.

C.R.S. § 24-51-211 states that a maximum amortization period of 30 years shall be deemed actuarially sound.

As stated by Segal in the Certification Letter on pages 141-147 in the Actuarial Section:

"The results indicate that for all Division Trust Funds, the combined employer and member contribution rates, including the direct distribution from the State, as appropriate, are sufficient to fund the normal cost for all members and each division's UAAL, with consideration of the amounts allocated to finance the Annual Increase Reserve (AIR) Funds, and provide additional contributions to help finance both Health Care Trust Funds. In addition, the employer contribution rate with anticipated service purchase transfers is sufficient to eventually finance benefits for the HCTFs."

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

“At the direction of PERA, Segal has prepared deterministic financial projections for all Division Trust Funds with the lower cost benefit structure for new members and using the following assumptions:

- All actuarial assumptions, including assuming 7.25% investment returns are realized each year
- Performed on an open-group basis with assumed active membership growth, as follows:
  - For School, Local Government and Denver Public Schools—1.00% per year

–For State and Judicial—0.25% each year

These projections indicate that fully funding the actuarial accrued liability under the PERA revised benefit structure created by SB 18-200 is achievable within a projection period of 27 years and includes the impact of legislative changes pursuant to HB 22-1029 and SB 23-056.”

Deductions from Net Position

SUMMARY OF BENEFITS, REFUNDS, AND EXPENSES BY TRUST FUND

Trust Fund	Benefit Payments	Refunds	Disability and Life Insurance Premiums	Administrative Expenses	Other	Total Deductions

<b>2020 Total</b>	<b>\$4,881,951</b>	<b>\$148,014</b>	<b>\$4,776</b>	<b>\$51,094</b>	<b>\$18,274</b>	<b>\$5,104,109</b>
<b>2019 Total</b>	<b>\$4,770,406</b>	<b>\$161,202</b>	<b>\$6,641</b>	<b>\$49,076</b>	<b>\$15,091</b>	<b>\$5,002,416</b>

At the end of 2023, PERA was paying benefits to more than 138,000 retired public employees and their beneficiaries who received an average benefit of \$3,225 per month (actual dollars). Historical information about benefit payments, average benefit payments, and the number of retirees receiving payments and earned service credit can be found in the Statistical Section.

Since 2000, many changes to plan provisions have been enacted into law, which do not have an immediate effect on PERA’s financial activities and financial status but have had an effect over time.

On average, members are retiring with generally lower monthly benefit amounts than members who retired in prior years. This trend is likely to continue and become more evident over time, as each year a larger portion of the retirement calculations will reflect the recent changes to benefit provisions (retirement eligibilities, determination of highest annual salary, etc.). The effect of these changes is tracked and monitored by PERA’s management and reported as part of the overall governance structure of PERA.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

*(Dollars in Thousands)*

### Other Changes: Division Trust Funds, Health Care Trust Funds, and Life Insurance Reserve

For the year ended December 31, 2023, PERA had cash and short-term investments of \$938,041, a decrease of \$547,683 from 2022. The decrease was primarily due to duration management in the unitized PERA Fixed Income Pool.

For the year ended December 31, 2023, PERA had securities lending collateral of \$7,084,941 and securities lending obligations of \$7,073,419, an increase of \$5,622,679 and \$5,615,409, respectively, from 2022. The securities lending collateral and obligations increased primarily due to an increase in the securities on loan because of increased borrower demand resulting from a change in lending agents and a restructuring of the securities lending program.

For the year ended December 31, 2023, the Division Trust Funds had total receivables of \$1,357,458, an increase of \$649,949 and the Life Insurance Reserve had total receivables of \$535, an increase of \$307 from 2022. The increases were primarily due to higher pending settlements of investment sales.

For the year ended December 31, 2023, the Health Care Trust Funds had total receivables of \$24,980, a decrease of \$5,695 from 2022. The decrease was due to payment of outstanding health care subsidies and a lower amount of prescription rebates owed to PERA at year-end, partially offset by an increase in pending settlements of investment sales.

For the year ended December 31, 2023, the Life Insurance Reserve had investment settlements and other liabilities of \$3,036, an increase of \$701 from 2022. The increase was primarily due to the timing of monthly premium payments.

Nonemployer contributions for the Division Trust Funds decreased from \$605,000 in 2022 to \$49,561 in 2023. The decrease was due to the receipt of an additional \$380,000 from the State in 2022 as a nonemployer contributing entity pursuant to HB 22-1029 to recompense PERA for the direct distribution originally scheduled for receipt on July 1, 2020, which was suspended by HB 20-1379 and advanced part of the 2023 nonemployer contribution. The State Treasurer issued the remaining \$49,561 in 2023.

For the year ended December 31, 2023, PERA recognized \$26,000 in employer disaffiliation income. A \$24,000 payment received on December 4, 2023, and a \$2,000 receivable reflect income related to the disaffiliation of Tri-County Health Department as a PERA-affiliated employer.

For the year ended December 31, 2023, other additions for the Division Trust Funds increased from \$11,189 in 2022 to \$14,405 in 2023. The increase was primarily due to an increase in the net amount recorded for the interfund transfers at retirement as an addition. The amount of interfund transfers depends on the number of retirements where the member has earned service credit in more than one division.

Other additions of the Health Care Trust Funds decreased from \$9,310 in 2022 to \$6,991 in 2023. The decrease was primarily due to a decrease in the amount of health care contributions related to purchased service credit which are transferred at time of retirement.

Disability and life insurance premiums for the Division Trust Funds increased from \$2,687 in 2022 to \$3,275 in 2023. The increase was primarily due to an increase in the premium rate, in addition to a decrease in the prior year risk sharing payment used to offset current expense.

### Actuarial Valuations: Accounting

Separate actuarial valuations are prepared for accounting and funding purposes for the Division Trust Funds and the Health Care Trust Funds. Calculations for purposes of financial reporting for the pension and OPEB plans are determined in accordance with GASB 67 and GASB 74, respectively.

The actuarial valuation for accounting purposes emphasizes the obligation an employer incurs to employees through the employment-exchange process. The primary purpose of the valuation for accounting purposes is to provide a consistent, standardized methodology allowing comparability of amounts and increased transparency of liabilities across U.S. plans complying with GASB 67 and GASB 74.

One of the key measurements in the accounting valuation which assesses the pension liabilities for accounting and financial reporting purposes is the NPL. The NPL is the difference between the FNP and the total pension liability (TPL). Similarly, one of the key measurements which assesses the OPEB liabilities for accounting and financial reporting purposes is the NOL or the Net OPEB Asset (NOA). The NOL/NOA is the difference between the FNP and the total OPEB liability (TOL). The individual components which collectively comprise the FNP can be found in the Statements of Fiduciary Net Position starting on page 41.

PERA-affiliated employers who comply with GASB 68 and GASB 75 are required to report their proportionate share of the collective NPL, collective NOL/NOA, and other related amounts for the plan(s) in which they participate. GASB requires employer contributions and nonemployer contributions (if applicable) to be used as a basis for the proportion.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

The following schedules show the collective NPLs and collective NOLs/NOAs as of December 31, 2023, and December 31, 2022, as well as the breakdown of changes in the collective liabilities and assets for 2023. The decrease in NPLs for all five Division Trust Funds

primarily is due to favorable investment performance during 2023. The decrease in NOLs for the HCTF and DPS HCTF largely is due to favorable investment and demographic experience during 2023.

**SCHEDULE OF CHANGES IN NET PENSION LIABILITY**

	State Division Trust Fund	School Division Trust Fund	Local Government Division Trust Fund	Judicial Division Trust Fund	DPS Division Trust Fund	All Division Trust Funds <sup>1</sup>

<sup>2</sup> Excludes administrative and other health care claims processing fees.

Additional information regarding the NPL, NOL/NOA, assumptions used to determine total pension and OPEB liabilities, sensitivity analysis of pension liabilities based on different discount rates, sensitivity analysis of

OPEB liabilities based on different discount and health care trend rates, and development of the investment rate of return assumption can be found in Notes 10 and 11 of the Notes to the Financial Statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

Defined Contribution Plans

Comparative Financial Statements

PERA administers three defined contribution plans. The following tables are the comparative condensed statements of Fiduciary Net Position and Changes in Fiduciary Net Position for the Voluntary Investment Program (PERAPlus 401(k) Plan), Defined Contribution Retirement Plan (DC Plan), and Deferred Compensation Plan (PERAPlus 457 Plan), collectively known as the Capital Accumulation Plans (CAPs). This information has been derived from PERA's audited financial statements. While the annual changes in FNP can provide meaningful insight into the financial activities and financial status of PERA, long-term views and trend analysis are critical factors in reporting and understanding the financial status of the plans.

Investments

Investments for the CAPs are managed in a single investment pool. Underlying investments are grouped into one of 17 white label PERAAdvantage funds which participants can choose to contribute to and/or make transfers from on a daily basis. In addition, participants can choose to select their own investments by transferring funds into a Schwab Self-Directed Brokerage Account. The PERAAdvantage funds provide diversification and cover a wide risk/return spectrum within each of the seven primary investment options and 10 target retirement date funds. The target retirement date funds are broadly diversified across global asset classes and automatically adjust the underlying asset allocation to become more conservative over time. By investing in a single target retirement date fund, participants may capture diversified investment opportunities without having to manage multiple funds. More information about investment options and results can be found in the Investment Section on pages 135-136.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

(Dollars in Thousands)

For the year ended December 31, 2023, the CAPs net investment loss changed from \$1,014,369 in 2022 to income of \$955,440 in 2023, an increase of \$1,969,809. Investments at fair value increased by \$821,875 or 16.1% for the year ended December 31, 2023. The increase in investment income was primarily due to an increase in global equity investment returns. Additional information on longer-term performance and benchmarks for the three-, five-, and 10-year periods for each investment option can be found in the Investment Section.

The administrative fee for the PERAPlus 401(k) Plan and the PERA DC Plan consists of a flat \$1.00 (actual dollars) per month per participant per plan and an asset-based fee of up to 0.03% on each underlying PERAdvantage fund. The PERAPlus 401(k) asset-based fee was waived through 2024. The administrative fee for the PERAPlus 457 Plan consists of a flat \$1.50 (actual dollars) per month per participant per plan and an asset-based fee of up to 0.03% on each underlying PERAdvantage fund.

Participants also pay investment management fees. Investment management fees as of December 31, 2023, are shown in the following table:

Fund	2023	2022
PERAdvantage Capital Preservation Fund	0.21%	0.21%
PERAdvantage Fixed Income Fund	0.13%	0.13%
PERAdvantage Real Return Fund	0.17%	0.17%
PERAdvantage Socially Responsible Investment Fund	0.18%	0.19%
PERAdvantage U.S. Large Cap Stock Fund	0.05%	0.05%
PERAdvantage U.S. Small and Mid Cap Stock Fund	0.15%	0.15%
PERAdvantage International Stock Fund	0.26%	0.27%
PERAdvantage Target Retirement Date Funds	0.07%	0.07%

Note: Fees shown are investment management fees. Participants who have a Self-Directed Brokerage Account pay an annual \$50 (actual dollars) self-directed brokerage fee.

Plan Participants and Contributions

In 2023, overall participation in the CAPs decreased by 267 participants from 2022. The following table shows the number of participants in each plan at the end of fiscal years 2023 and 2022:

Plan	2023	2022	Change
PERAPlus 401(k) Plan	66,394	67,040	(646)
DC Plan	8,083	7,846	237
PERAPlus 457 Plan	20,205	20,063	142
<b>Total</b>	<b>94,682</b>	<b>94,949</b>	<b>(267)</b>

For the year ended December 31, 2023, the CAPs had employer and member contributions of \$290,727, an increase of \$15,187 from 2022.

See current annual contribution limits for PERAPlus 401(k) Plan and PERAPlus 457 Plan and contribution rates for the DC Plan in Note 8 of the Notes to the Financial Statements on pages 74-75.

Distributions

Participants can take normal distributions when they reach the minimum age designated by the plan. Participants can also take in-service withdrawals and can transfer funds after termination of employment. For the year ended December 31, 2023, the CAPs had distributions of \$438,680, an increase of \$1,228 from 2022. See Note 8 of the Notes to the Financial Statements for additional information about allowable in-service withdrawals in each plan.

Other Changes

For the year ended December 31, 2023, the CAPs had securities lending collateral of \$256,675 and securities lending obligations of \$256,256, an increase of \$129,813 and \$129,796, respectively, from 2022. The securities lending collateral and obligations increased primarily due to an increase in the securities on loan because of increased borrower demand resulting from a change in lending agents and a restructuring of the securities lending program.

For the year ended December 31, 2023, the CAPs had investment settlements and other liabilities of \$38,938, an increase of \$13,210 from 2022. The increase was primarily due to higher pending settlements of investment purchases.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

Note 1—Plan Description

Organization

Public Employees’ Retirement Association of Colorado (PERA) was established in 1931. The statute governing PERA is Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.). PERA administers the following plans:

Plan Name	Type of Plan
<b>Defined Benefit Pension Plans (Division Trust Funds)</b>	
State Division Trust Fund	Cost-sharing multiple-employer
School Division Trust Fund	Cost-sharing multiple-employer
Local Government Division Trust Fund	Cost-sharing multiple-employer
Judicial Division Trust Fund	Cost-sharing multiple-employer
Denver Public Schools (DPS) Division Trust Fund	Single-employer
<b>Defined Benefit Other Postemployment Benefit Plans (Health Care Trust Funds)</b>	
Health Care Trust Fund (HCTF)	Cost-sharing multiple-employer
Denver Public Schools Health Care Trust Fund (DPS HCTF)	Single-employer
<b>Defined Contribution Plans</b>	
Voluntary Investment Program	Multiple-employer
Defined Contribution Retirement Plan	Multiple-employer
Deferred Compensation Plan	Multiple-employer
<b>Private Purpose Trust Fund</b>	
Life Insurance Reserve	Multiple-employer

Responsibility for the organization and administration of these plans rests with the PERA Board of Trustees (Board). The Board is composed of the following 16 Trustees:

- Nine members elected by members from their respective Divisions to serve on the Board for four-year terms; four from the School Division, three from the State Division, one from the Local Government Division, and one from the Judicial Division.
- Two retirees elected by retirees to serve on the Board for four-year terms.
- Three Trustees appointed by the Governor and confirmed by the State Senate to serve on the Board for four-year terms.
- The State Treasurer.
- One ex officio (non-voting) member or retiree elected by members and retirees of the DPS Division to serve on the Board for a four-year term.

This table is the number of active participating employers for the five Division Trust Funds. Guidance under the Governmental Accounting Standards Board (GASB) Statement No. 67 classifies a primary government and its component units as one employer.

Division	As of December 31, 2023 <sup>1</sup>
State	32
School	234
Local Government	141
Judicial	2
DPS	1
<b>Total employers</b>	<b>410</b>

<sup>1</sup> This employer count is presented for purposes of complying with GASB 67 only. For all other purposes, the definition of an employer is governed by Title 24, Article 51 of the C.R.S., PERA’s Rules, 8 CCR 1502-1, and, if applicable, the employer’s affiliation agreement with PERA.

Pursuant to C.R.S. § 24-51-414, the State of Colorado (State) is required to make an annual nonemployer contribution to PERA to be allocated to all divisions except the Local Government Division.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Membership—Division Trust Funds-Defined Benefit Pension Plans**

Benefit recipients and members of PERA consisted of the following as of December 31, 2023, with summarized totals for 2022:

	State Division	School Division	Local Government Division	Judicial Division	DPS Division	2023	2022
Retirees and beneficiaries (includes deferred survivors)	44,517	77,165	9,095	460	7,316	138,553	135,485
Inactive members eligible but not yet receiving benefits	9,887	24,561	3,174	29	3,364	41,015	39,924
Inactive members not eligible for benefits	94,780	159,333	31,426	9	17,173	302,721	289,856
Active members							
Vested members other than Safety Officers	29,330	73,192	6,257	253	8,475	117,507	116,179
Vested Safety Officers	786	—	—	—	—	786	652
Non-vested members other than Safety Officers	21,408	57,996	6,394	94	7,151	93,043	88,363
Non-vested Safety Officers	2,163	—	49	—	—	2,212	1,452
Total active members	53,687	131,188	12,700	347	15,626	213,548	206,646
<b>Total</b>	<b>202,871</b>	<b>392,247</b>	<b>56,395</b>	<b>845</b>	<b>43,479</b>	<b>695,837</b>	<b>671,911</b>

**Membership—Voluntary Investment Program, Defined Contribution Retirement Plan, and Deferred Compensation Plan**

See Note 8.

**Membership—Health Care Trust Funds**

See Note 9.

**Benefit Provisions—Division Trust Funds**

Plan benefits are specified in Title 24, Article 51 of the C.R.S. and applicable provisions of the federal Internal Revenue Code (IRC). Colorado State law provisions may be amended from time to time by the Colorado General Assembly.

**Plan Eligibility**

All employees of PERA employers who work in a position eligible for PERA membership must be enrolled in the PERA Defined Benefit Plan, except for employees who are hired into a position that makes them eligible for a choice between enrolling in the PERA Defined Benefit Plan or the PERA Defined Contribution Retirement Plan (PERAChoice). PERAChoice eligibility applies to certain employees of the State or Local Government Divisions, classified employees at State colleges and universities, most community colleges, as well as the District Attorney within each Judicial District, and if authorized by the county and the District Attorney, the attorneys within that Judicial District. If an eligible employee does not make a choice of which plan to participate in within 60 days of the starting date of employment, the employee is automatically enrolled in the PERA Defined Benefit Plan. Between the second and fifth year of participation in their original plan, employees may make a one-time, irrevocable election to switch to the other plan. After the fifth year of participation, this option to switch plan participation no longer exists.

Some positions within PERA-affiliated employers are not eligible for PERA membership and may be covered by another separate retirement program.

**Benefit Provisions**

The Division Trust Funds have various benefit provisions depending upon the member’s date of hire or upon the member’s date of retirement. The differences in plan benefit provisions are detailed in the following pages in this Note as of December 31, 2023. Following the January 1, 2010, merger of the Denver Public Schools Retirement System (DPSRS) into PERA, the benefit provisions of existing PERA members and all new hires post-merger date are identified as the PERA benefit structure and the benefit provisions originating under DPSRS are referred to as the DPS benefit structure.

**Member Accounts**

During 2023, most members in the State, School, Judicial and DPS Divisions contributed 11.00% of their PERA-includable salary to their member accounts. Safety Officers (as defined in the next paragraph) contributed 13.00% of their PERA-includable salary. Most members of the Local Government Division contributed 9.00% of their PERA-includable salary.

The term “Safety Officers” is used for PERA purposes to better describe the expanded definition of the term “State Trooper”, which under Colorado law includes several categories of employees: (1) employees of the Colorado State Patrol or Colorado Bureau of Investigation (CBI) vested with the powers of peace officers; (2) beginning July 1, 2020, new or existing employees of the Division of Fire Prevention and Control in the Department of Public Safety classified as firefighter I through firefighter VII; (3) new members hired on or after January 1, 2020, as a county sheriff, undersheriff, deputy sheriff, noncertified deputy sheriff, or detention officer by a Local Government Division employer; (4) new members hired on or after

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

January 1, 2020, as a corrections officer classified as I through IV by a State Division employer; and (5) beginning July 1, 2023, wildlife officers or parks and recreation officers hired on or after January 1, 2011, by the Division of Parks and Wildlife in the Department of Natural Resources.

State law authorizes the Board to determine annually the interest to be credited to member accounts, but in no event may the Board specify a rate that exceeds 5%. Effective January 1, 2009, the annual rate was set at 3% and has been reconfirmed each November since adoption.

### Service Credit

Members earn service credit for each month of work performed as an employee of a PERA-affiliated employer for which salary is earned for such services.

A full month of service credit is earned for each month of work where the salary earned by the employee is equal to or greater than 80 multiplied by the federal minimum hourly wage in effect for that month. Earned salary which is less than this amount results in a partial month of service credit. Positions with an employment pattern of at least eight months but fewer than 12 months (including, but not limited to, positions in the School and DPS Divisions) receive a higher ratio of service credit for each month worked, up to a maximum of 12 months of service credit per year.

Eligible members may purchase additional service credit based upon (1) other employment not covered by PERA or another retirement program or (2) the service credit forfeited as the result of a withdrawn PERA member account. Such service credit purchases are subject to limits in State and federal law. The amounts used to purchase service credit are credited to the member's account and may include tax-paid funds and eligible rollovers of tax-deferred funds. Such amounts are eligible for an interest accrual, but no match if the member account is refunded in a lump-sum distribution.

### Refund or Distribution Provisions

Upon termination of employment with all PERA employers, members have the following options concerning their member account:

- Leave the account invested in the Division Trust Funds for a future distribution or retirement benefit, which must begin by the member's applicable required beginning date, as defined by IRC § 401(a)(9)(C).
- Request a distribution of the member account plus an applicable match, which cancels all service credit and any benefit entitlements associated with the account. The distribution may be taken as a cash refund with the resulting tax consequences or as a rollover to an eligible qualified plan.

### Matching Amounts

Members under the PERA benefit structure who withdraw their accounts on or after reaching retirement eligibility or age 65 receive their member account plus a 100% match on eligible amounts. For members under the PERA benefit structure who withdraw their accounts before reaching retirement eligibility, all contributions received prior to January 1, 2011, are eligible for the 50% match regardless of how much service credit the member has earned.

However, contributions received after January 1, 2011, are not eligible for the 50% match until the member earns five years of service credit.

Members under the DPS benefit structure who terminated employment on or after January 1, 2001, and withdraw their accounts on or after reaching retirement eligibility receive their member account plus a 100% match on eligible amounts. Members under the DPS benefit structure who withdraw their accounts before reaching retirement eligibility receive a refund of their member accounts, but do not receive any match.

Members reaching retirement eligibility who choose to take a retirement benefit are entitled to a minimum monthly benefit equal to the member's account plus a 100% match on eligible amounts, annuitized into a monthly benefit using PERA's expected rate of return.

### Highest Average Salary

Plan benefits generally are calculated as a percentage of the member's three- or five- year Highest Average Salary (HAS). The following conditions apply to the HAS calculation:

- *For all members of the PERA benefit structure, except judges, who were eligible to retire as of January 1, 2011, who were hired before January 1, 2007, and who retire on or after January 1, 2009:* HAS is determined by the highest annual salaries associated with four periods of 12 consecutive months of service credit. The four 12-month periods selected do not have to be consecutive nor do they have to include the last four years of membership. The lowest of the four periods becomes a base year used as a starting point for a 15% cap on annual salary increases for the next three periods used to determine the applicable HAS. This salary cap applies regardless of when the annual salaries used in the HAS calculation occurred.
- *For all members of the PERA benefit structure, except judges, who were not eligible to retire as of January 1, 2011, or members of the PERA benefit structure who are hired on or after January 1, 2007, who have at least five years of service credit on December 31, 2019:* HAS is determined by the highest annual salaries associated with four periods of 12 consecutive months of service credit. The four 12-month periods selected do not have to be consecutive nor do they have to include the last four years of

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

membership. The lowest of the four periods becomes a base year used as a starting point for an 8% cap on annual salary increases for the next three periods used to determine the applicable HAS. This salary cap applies regardless of when the annual salaries used in the HAS calculation occurred.

- **For all members of the PERA and DPS benefit structures, except judges, regardless of hire date, who do not have at least five years of service credit on December 31, 2019:** HAS is determined by the highest annual salaries associated with six periods of 12 consecutive months of service credit. The six 12-month periods selected do not have to be consecutive nor do they have to include the last six years of membership. The lowest of the six periods becomes a base year used as a starting point for an 8% cap on annual salary increases for the next five periods used to determine the applicable HAS. This salary cap applies regardless of when the annual salaries used in the HAS calculation occurred.
- **For members of the Judicial Division Trust Fund (judges) who have at least five years of service credit on December 31, 2019:** HAS is one-twelfth of the highest annual salary associated with one period of 12 consecutive months of service credit.
- **For members of the Judicial Division Trust Fund (judges) who do not have at least five years of service credit on December 31, 2019, regardless of the date of hire:** HAS is determined by the highest annual salaries associated with four periods of 12 consecutive months of service credit. The four 12-month periods selected do not have to be consecutive nor do they have to include the last four years of membership. The lowest of the four periods becomes a base year used as a starting point for an 8% cap on annual salary increases for the next three periods used to determine the applicable HAS. This salary cap applies regardless of when the annual salaries used in the HAS calculation occurred.
- **For members of the DPS benefit structure who are eligible to retire as of January 1, 2011:** HAS is the average monthly salary of the 36 months of earned service having the highest salaries.
- **For members of the DPS benefit structure who are not eligible to retire as of January 1, 2011, and have at least five years of service credit on December 31, 2019:** HAS is determined by the highest annual salaries associated with four periods of 12 consecutive months of service credit. The four 12-month periods selected do not have to be consecutive nor do they have to include the last four years of membership. The lowest of the four periods becomes a base year used as a starting point for an 8% cap on annual salary increases for the next three periods used to determine the applicable HAS. This salary cap applies regardless of when the annual salaries used in the HAS calculation occurred.

**Service Retirement Benefits—PERA Benefit Structure**

With one exception, the service retirement benefit for all retiring members under the PERA benefit structure is the greater of the Defined Benefit Formula or the Money Purchase Formula explained as follows:

- **Defined Benefit Formula**  
HAS multiplied by 2.5% and then multiplied by years of service credit. The service retirement benefit is limited to 100% of HAS.
- **Money Purchase Formula**  
Values the retiring member’s account plus a 100% match on eligible amounts as of the member’s retirement date. This amount is then annuitized into a monthly benefit using the retiring member’s life expectancy, expected rates of return, and other actuarial factors.

The exception is retiring members who are age 65, have less than five years of service credit, and less than 60 payroll postings will receive a service retirement benefit under the Money Purchase Formula only.

In all cases, a service retirement benefit cannot exceed the maximum benefit amount allowed by federal law.

**Service Retirement Benefits for Members other than Safety Officers—PERA Benefit Structure**

Upon termination of PERA-covered employment and reaching eligibility for service retirement benefits, a member may begin receipt of benefits as follows:

Members Hired Before July 1, 2005, With Five Years of Service Credit on January 1, 2011	
Age Requirement (in years)	Service Credit Requirement (in years)
50	30
55	Age and Service = 80 or more
60	20
65	5 or at least 60 payroll postings
Members Hired on or After July 1, 2005, But Before January 1, 2007, With Five Years of Service Credit on January 1, 2011	
Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	35
55	Age and Service = 80 or more
60	20
65	5 or at least 60 payroll postings
Members Hired on or After January 1, 2007, But Before January 1, 2011, With Five Years of Service Credit on January 1, 2011	
Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	35
55	30
55	Age and Service = 85 or more
60	25
65	5 or at least 60 payroll postings

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Members Hired Before January 1, 2011,  
With Less Than Five Years of Service Credit on January 1, 2011**

Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	35
55	30
55	Age and Service = 85 or more
60	25
65	5 or at least 60 payroll postings

**Members Hired on or After January 1, 2011,  
But Before January 1, 2017, or Hired on or After January 1, 2017,  
But Before January 1, 2020, Whose Most Recent 10  
Years of Service are in the School or DPS Divisions**

Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	35
58	30
58	Age and Service = 88 or more
60	28
65	5 or at least 60 payroll postings

**Members Hired on or After January 1, 2017,  
But Before January 1, 2020, Whose Most Recent 10  
Years of Service are not in the School or DPS Divisions**

Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	35
60	30
60	Age and Service = 90 or more
65	5 or at least 60 payroll postings

**Members Hired on or After January 1, 2020**

Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	35
64	30
64	Age and Service = 94 or more
65	5 or at least 60 payroll postings

**Service Retirement Benefits for Safety Officers—  
PERA Benefit Structure**

Upon termination of PERA-covered employment and reaching eligibility for service retirement benefits, a Safety Officer may begin receipt of benefits as follows:

**Safety Officer Hired Before January 1, 2020**

Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	30
50	25
55	20
60	Age and Service = 80 or more
65	5 or at least 60 payroll postings

**Safety Officers Hired on or After January 1, 2020**

Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	35
55	25
55	Age and Service = 80 or more
65	5 or at least 60 payroll postings

**Reduced Service Retirement Benefits—  
PERA Benefit Structure**

Reduced service retirement benefits are calculated in the same manner as a service retirement benefit with a reduction for each month prior to the member's first eligible date for a service retirement.

**Members and Safety Officers Hired Before January 1, 2020**

Age Requirement (in years)	Service Credit Requirement (in years)
50	25
50 (Safety Officers only)	20
55	20
60	5

**Members and Safety Officers Hired on or After January 1, 2020**

Age Requirement (in years)	Service Credit Requirement (in years)
55	25
55 (Safety Officers only)	20
60	5

For members eligible to retire as of January 1, 2011, the early retirement reduction factors used to determine the reduced service retirement benefit are specified in C.R.S. § 24-51-605.

For members not eligible to retire as of January 1, 2011, the early retirement reduction factors used to determine the reduced service retirement benefit reflect an actuarial equivalent reduction.

**Service Retirement Benefits—DPS Benefit Structure**

The service retirement benefit for all retiring members under the DPS benefit structure is the greater of the two calculations explained as follows:

- HAS multiplied by 2.5% and then multiplied by years of service credit.
- \$15 (actual dollars) times the first 10 years of service credit plus \$20 (actual dollars) times service credit over 10 years plus a monthly amount equal to the annuitized member balance (which may include matching dollars if eligible) using the retiring member's life expectancy, expected rates of return, and other actuarial factors.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

In all cases, a service retirement benefit is limited to 100% of HAS and cannot exceed the maximum benefit amount allowed by federal law.

Upon termination of PERA-covered employment and reaching eligibility for service retirement benefits, a member may begin receipt of benefits as follows:

**Members With Five Years of Service Credit on January 1, 2011**

Age Requirement (in years)	Service Credit Requirement (in years)
50	30
55	25 <sup>1</sup>
65	5

<sup>1</sup> 15 years must be earned service credit

**Member With Less Than Five Years of Service Credit on January 1, 2011**

Age Requirement (in years)	Service Credit Requirement (in years)
Any Age	35
55	30 <sup>1</sup>
55	Age and Service = 85 or more <sup>1</sup>
60	25
65	5

<sup>1</sup> 20 years must be earned service credit

**Reduced Service Retirement Benefits—  
DPS Benefit Structure**

**Member With Five Years of Service Credit on January 1, 2011**

Age Requirement (in years)	Service Credit Requirement (in years)
Less than 50	30
Less than 55	25
55	15

**Member With Less Than Five Years of Service Credit on January 1, 2011**

Age Requirement (in years)	Service Credit Requirement (in years)
50	25
55	20
60	5

Members with less than five years of service credit under the DPS benefit structure do not have the option to apply for a benefit and are only eligible for a refund of the member account.

**Disability Program**

Eligible active members, other than judges, with five or more years of earned service credit are covered by the PERA Disability Program. Judges are immediately covered under the disability program. The earned service credit requirement may be waived for Safety Officers who become disabled as the result of injuries in the line of duty.

Medical determinations for the disability program are made by UNUM, PERA’s disability program

administrator pursuant to C.R.S. § 24-51-703. Applicants found to be disabled receive payments under one of two tiers:

- **Short-Term Disability:** Disability applicants are eligible for short-term disability payments if they are found to be mentally or physically incapacitated from performance of essential job duties after reasonable accommodation, and who are medically unable to earn at least 75% of their pre-disability earnings from any job, but who are not totally and permanently incapacitated from regular and substantial gainful employment. PERA’s short-term disability program is an insurance product with PERA’s disability program administrator, and payments are made directly to the individual from PERA’s disability program administrator. The maximum income replacement is 60% of the member’s pre-disability PERA salary for up to 22 months.
- **Disability Retirement Benefits:** Disability applicants who are found to be totally and permanently mentally or physically incapacitated from regular and substantial gainful employment are eligible for disability retirement benefits. These benefits are paid by PERA for as long as the disability retiree remains disabled. The benefit is calculated as a percentage of the disabled member’s HAS using accrued, and in some cases, projected service credit.

**Benefit Options**

Service retirees in the PERA benefit structure and all members in either the DPS benefit structure or the PERA benefit structure who meet the requirements of a disability retirement may elect to receive their retirement or disability retirement benefits in the form of a single-life benefit payable for the retiree’s lifetime only or one of two joint-life benefits payable for the lifetime of the retiree with a continuing benefit paid upon the retiree’s death to the retiree’s cobeneficiary. Such option designations may only be changed under limited conditions specified in State law. The options are as follows:

- **Option 1:** A single-life benefit payable for the life of the retiree and, upon the death of the retiree, no further monthly benefits are payable.
- **Option 2:** A joint-life benefit payable for the life of the retiree and, upon the death of the retiree, one-half of the benefit becomes payable to the cobeneficiary of the retiree for life. Upon the death of the cobeneficiary prior to the death of the retiree, an Option 1 benefit becomes payable to the retiree.
- **Option 3:** A joint-life benefit payable for the life of the retiree and, upon the death of the retiree, the same benefit becomes payable to the cobeneficiary of the retiree for life. Upon the death of the cobeneficiary prior to the death of the retiree, an Option 1 benefit becomes payable to the retiree.

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

Options 2 and 3 are reduced to be the actuarial equivalent of Option 1, to ensure equitable benefits are provided regardless of the payment option chosen.

Service retirees in the DPS benefit structure have the following options:

- *Option A:* A single-life benefit payable for the life of the retiree and, upon the death of the retiree, no further monthly benefits are payable.
- *Option B:* A single-life benefit, reduced from an Option A benefit to provide benefits to designated beneficiaries for a fixed period of time after retirement. As part of the retirement calculation, a guaranteed payment period is determined and if the retiree dies before the guaranteed period ends, the benefit will continue to the Option B beneficiary(ies) for the remainder of the guaranteed period. If the death of the retiree occurs after the guaranteed period, the benefit ends.
- *Option P2:* A joint-life benefit payable for the life of the retiree and, upon the death of the retiree, one-half of the benefit becomes payable to the cobeneficiary of the retiree for life. Upon the death of the cobeneficiary prior to the death of the retiree, an Option A benefit becomes payable to the retiree.
- *Option P3:* A joint-life benefit payable for the life of the retiree and, upon the death of the retiree, the same benefit becomes payable to the cobeneficiary of the retiree for life. Upon the death of the cobeneficiary prior to the death of the retiree, an Option A benefit becomes payable to the retiree.

Options B, P2, and P3 are reduced to be the actuarial equivalent of Option A, to ensure equitable benefits are provided regardless of the payment option chosen.

### **Survivor Benefits Program—PERA Benefit Structure**

Members who have at least one year of earned service credit are covered by the PERA survivor benefits program. This one-year requirement is waived if a member's death is job-incurred.

In the event of the covered member's death, monthly survivor benefits may be paid to the qualified survivors of the deceased. Qualified survivors generally include minor children, a surviving spouse, dependent parents, or a cobeneficiary (for deceased members who were eligible for retirement at the time of death).

Monthly benefits are specified in statute and vary based upon the deceased's HAS, years of service credit, the qualified survivor to whom benefits are to be paid, and the number of qualified survivors receiving benefits.

If at the time of death, a member has less than one year of earned service credit or does not have any qualified survivors, the deceased's named beneficiary or the estate

receives a lump-sum payment of the deceased member's account plus a 100% match on eligible amounts.

### **Survivor Benefits Program—DPS Benefit Structure**

Active members who have at least five years of continuous service under the DPS benefit structure prior to the date of death and DPS disability retirements (prior to age 65) are covered by the survivor benefits program applicable to the DPS benefit structure.

In the event of the covered member's death, the member's qualified survivors are eligible for survivor benefits as long as the named beneficiary(ies) waive their right to receive a refund of the member's contributions. Qualified survivors generally include minor children, a surviving spouse, or dependent parents.

Monthly benefits are specified in statute and vary based upon the deceased's HAS, years of service credit, the qualified survivor to whom benefits are to be paid, and the number of qualified survivors receiving benefits.

If at the time of death, a member has not met the eligibility requirements for the DPS benefit structure survivor benefits program specified in statute, the member's named beneficiary(ies) will receive a lump-sum payment of the deceased member's account without a match.

### **Annual Increases**

On an annual basis, eligible benefit recipients receive post-retirement, cost-of-living adjustments called annual increases (AI). The AI eligibility and amounts are determined by the date the retiree or deceased member began membership in PERA.

The AI provisions are explained as follows:

- For benefit recipients of the PERA benefit structure who began membership before January 1, 2007, and whose benefit is paid based on a retirement date prior to January 1, 2011, and benefit recipients of the DPS benefit structure whose benefit is paid based on a retirement date prior to January 1, 2011:
  - **Payment Month:** The AI is paid in July.
  - **Eligibility:** The benefit recipient has been receiving benefits for at least seven months immediately preceding the July in which the AI is to be paid.
  - **AI Amount:** The AI for 2023 is 1.00%. Each year, the AI is equal to the maximum AI or "AI cap," currently 1.00% per year, unless it is adjusted by the automatic adjustment provision (AAP). The AAP may raise or lower the AI cap by up to 0.25% if the AAP ratio of the Division Trust Funds is outside the parameters specified in C.R.S. § 24-51-413. The amount of the first AI will be prorated from the month of retirement to the first AI payment date.

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

- For benefit recipients of the PERA benefit structure who began membership before January 1, 2007, and whose benefit is paid based on a retirement date on or after January 1, 2011, and benefit recipients of the DPS benefit structure whose benefit is paid based on a retirement date on or after January 1, 2011, the following eligibility criteria is required:

- **Payment Month:** The AI is paid in July.
- **Eligibility:** For full service retirees, disability retirees, and reduced service retirees who are eligible to receive a benefit on January 1, 2011, and survivor benefit recipients, who already received the first AI on or before May 1, 2018, the benefit recipient has received benefit payments for the 12 months prior to the July in which the AI is to be paid.

For full service retirees, disability retirees, and reduced service retirees who are eligible to receive a benefit on January 1, 2011, and survivor benefit recipients, who had not yet received the first AI on or before May 1, 2018, the benefit recipient has received benefit payments for 36 months total, including for the 12 months prior to the July in which the AI is to be paid.

For reduced service retirees who are not eligible to retire as of January 1, 2011, but who already received the first AI on or before May 1, 2018: A reduced service retiree is eligible to receive the AI in July of the year in which both of the following conditions are met: (1) the retiree has received benefit payments for 12 months immediately preceding the July in which the AI is to be paid and (2) as of January 1 of the year the AI is paid, the retiree has either reached age 60 or the age and service rule for unreduced service retirement applicable to the retiree's plan.

For reduced service retirees who are not eligible to retire as of January 1, 2011, and who had not yet received the AI on or before May 1, 2018: A reduced service retiree is eligible to receive the AI in July of the year in which all of the following conditions are met: (1) the retiree has received benefit payments for 36 months total; (2) the retiree has received benefit payments for 12 months immediately preceding the July in which the AI is to be paid; and (3) as of January 1 of the year the AI is paid, the retiree has either reached age 60 or the age and service rule for unreduced service retirement applicable to the retiree's plan.

- **AI Amount:** The AI for 2023 is 1.00%. Each year, the AI is equal to the AI cap, currently 1.00% per year, unless it is adjusted by the AAP. The AAP may raise or lower the AI cap by up to 0.25% if the AAP ratio of the Division Trust Funds is outside the parameters specified in C.R.S. § 24-51-413.

- For benefit recipients of the PERA benefit structure who began membership on and after January 1, 2007:

- **Payment Month:** The AI is paid in July.
- **Eligibility:** For full service retirees, disability retirees, and survivor benefit recipients who had already received an AI on or before May 1, 2018: The benefit recipient becomes eligible in July of the calendar year following the calendar year in which the benefit recipient has received 12 months of benefit payments. For full service retirees, disability retirees, and survivor benefit recipients who had not yet received an AI on or before May 1, 2018: The benefit recipient becomes eligible in July if the benefit recipient has received 36 months of benefit payments total including 12 months of benefit payments in the prior calendar year.

A reduced service retiree who had already received an AI on or before May 1, 2018, is eligible to receive the AI in July of the year in which both of the following conditions are met: (1) as of January 1 of the year the AI is to be paid, the retiree has received 12 months of benefit payments in the prior calendar year and (2) as of January 1 of the year the AI is paid, the retiree has either reached age 60 or the age and service rule for unreduced service retirement applicable to the retiree's plan.

A reduced service retiree who had not yet received an AI on or before May 1, 2018, is eligible to receive the AI in July of the year in which all of the following conditions are met: (1) as of January 1 of the year the AI is to be paid, the retiree has received 36 months of benefit payments total; (2) the retiree received 12 months of benefit payments in the prior calendar year; and (3) as of January 1 of the year the AI is paid, the retiree has either reached age 60 or the age and service rule for unreduced service retirement applicable to the retiree's plan.

- **AI Amount:** The AI for 2023 is 1.00%. Each year, the AI is the lesser of the AI cap, currently 1.00% (unless adjusted by the AAP), or the average of the monthly Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) amounts for the prior calendar year. In no case can the present value of the year's AIs paid to a division's benefit recipients exceed 10% of the division's Annual Increase Reserve (AIR).

**Changes to the AI Cap:** If PERA's overall funded status (actuarial value of assets/actuarial accrued liability) is at or above 103%, the AI cap will increase by 0.25%. This adjustment will occur separately from any impact of the AAP.

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Automatic Adjustment Provision**

Adjustments may be made to the AI cap, member and employer contribution rates, and, under certain circumstances, the direct distribution from the State.

Based on the results of the AAP assessment which utilized the December 31, 2022, actuarial valuation performed for funding purposes, effective July 1, 2024, no adjustment to the AI cap is required.

Based on the results of the AAP assessment which utilized the December 31, 2023, actuarial valuation performed for funding purposes, effective July 1, 2025, no adjustment to the AI cap is required.

A summary of AAP provisions is provided in Note 4.

**Indexing of Benefits**

Inactive members, who meet the following conditions, have their benefit amounts increased by the applicable AI granted by PERA from their date of membership termination to their effective date of retirement:

- Covered by the plan as of December 31, 2006;
- Eligible to retire as of January 1, 2011;
- Have 25 or more years of service credit; and
- Have not started receiving monthly benefits.

**Suspending Benefits**

If a retiree suspends retirement on or after January 1, 2011, returns to membership, and earns at least one year of service credit, a separate benefit will be earned. In this case, the retiree may opt to refund the contributions remitted with interest and an applicable match or receive a second, separate benefit. The original benefit will not be recalculated. Individuals who suspended retirement prior to January 1, 2011, are eligible to have their original benefit recalculated upon re-retirement.

If less than one year of service credit is earned during the return to membership, the retiree will be required to refund the contributions remitted with interest and an applicable match before the original benefit will resume.

**Working After Retirement Without Suspending Benefits**

- **Retiree Contributions:** With a few statutory exceptions, employers are required to remit employer contributions, amortization equalization disbursement (AED), supplemental amortization equalization disbursement (SAED), and defined contribution (DC) supplement (if applicable) on salary earned by retirees who work for them, but do not suspend retirement and return to membership. Beginning January 1, 2011, working retirees are required to make contributions at a percentage equal to the member contribution rate.

Under C.R.S. § 24-51-101(53), working retiree contributions are nonrefundable and are not deposited into member accounts. PERA deposits these contributions into the employer reserve.

- **Limits on Working After Retirement:** With a few statutory exceptions, outlined as follows, retirees may work up to 110 days/720 hours per calendar year for a PERA employer with no reduction in benefits. In addition, each employer assigned to the School Division, DPS Division, and each Higher Education Institution assigned to the State Division may designate on a calendar year basis, up to 10 service retirees who may work up to 30 additional days for a total of 140 days/916 hours in a calendar year without exception under the working after retirement provisions:
  - The employer is required to provide full payment of PERA employer contributions, AED, SAED, DC supplement (if applicable), and working retiree contributions on all salary earned.
  - The retiree cannot work for any PERA employer during the month of the effective date of retirement.
  - The retiree does not resume PERA membership or build an additional benefit.
- **“Critical Shortage” Exceptions to the Limits on Working After Retirement:** Certain retirees who have applicable experience, skills, or qualifications that meet one or more requirements of the critical shortage positions may receive salary without a reduction in retirement benefits from employers who have declared a critical shortage of certain positions. Following is a summary of PERA law containing such exceptions, each with specific provisions or requirements not detailed here:
  - C.R.S. § 24-51-1101(1.9) is applicable to retirees who work for a rural school district, Boards of Cooperative Services (BOCES) within a rural school district, or a charter school within a rural school district that has determined it has a critical shortage of qualified teachers, school bus drivers, school food services cooks, school nurses, or paraprofessionals.
  - C.R.S. § 24-51-1101(5) enacted July 13, 2020, to be repealed effective July 1, 2025 is applicable to retirees who work as a special service provider for a BOCES that serves rural school districts and has determined it has a critical shortage of qualified service providers.
  - C.R.S. § 24-51-1101(1.3) enacted March 17, 2022, to be repealed effective July 1, 2025, is applicable to retirees who hold a valid Colorado teaching license and work as substitute teachers for any school district or charter school that has determined it has a critical shortage of substitute teachers.

## NOTES TO THE FINANCIAL STATEMENTS

*(Dollars in Thousands)***Benefit Provisions—Voluntary Investment Program, Defined Contribution Retirement Plan, and Deferred Compensation Plan**

See Note 8.

**Benefit Provisions—Health Care Trust Funds**

See Note 9.

**Life Insurance Reserve**

PERA offers an optional life insurance program where members can purchase varying amounts of coverage. The Life Insurance Reserve is an accumulation of dividends received in the past from the insurance company based upon plan experience. The investment income from the Life Insurance Reserve is used to pay the current administrative costs of the plan.

**Termination of PERA**

If PERA is partially or fully terminated for any reason, C.R.S. § 24-51-217 provides that the rights of all members and benefit recipients to all benefits on the date of termination, to the extent then funded, will become nonforfeitable.

**Note 2—Summary of Significant Accounting Policies****Reporting Entity**

The Board oversees all funds included in the financial statements of PERA and has the ability to influence operations. The Board's responsibilities include designation of management, membership eligibility, investment of funds, and accountability for fiscal matters.

PERA is an instrumentality of the State; it is not an agency of State government. In addition, it is not subject to administrative direction by any department, commission, board, bureau, or agency of the State. Accordingly, PERA's financial statements are not included in the financial statements of any other organization.

**Basis of Presentation**

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America that apply to governmental accounting for fiduciary funds.

The financial statements include summarized prior-year comparative information. Such information does not include all of the information required to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the financial statements for the year ended December 31, 2022, from which such summarized information was derived.

To conform with current year presentation, a portion of 2022 combined amounts for benefit receivable and entire lease receivable amounts on the Statements of Fiduciary Net Position were restated to other receivables. The restatements do not affect the individual funds' fiduciary net position (FNP) as of December 31, 2022.

To conform with the current year's presentation, 2022 securities lending rebates were restated from securities lending income to expenses. The restatements do not affect net income from securities lending or the individual funds' FNP as of December 31, 2022.

**Basis of Accounting**

The accompanying financial statements for the defined benefit and defined contribution pension trust funds, the HCTF, the DPS HCTF, and the private purpose trust fund are prepared using the economic resources measurement focus and the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires PERA to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates. Member and employer contributions are recognized as revenues in the period in which the compensation becomes payable to the member and the employer is statutorily committed to pay these contributions to the defined benefit and defined contribution pension trust funds, the HCTF, and the DPS HCTF. Benefits and refunds are recognized when due and payable.

**Adoption of Accounting Standards**

PERA implemented all applicable new GASB pronouncements in the year ended December 31, 2023. The pronouncement which had an impact on PERA's financial statements is summarized below.

PERA implemented GASB Statement No. 96 *Subscription-Based Information Technology Arrangements (SBITAs)* for the year ended December 31, 2023.

Due to the adoption of GASB Statement 96, PERA recognized a right-to-use subscription asset and a corresponding subscription liability. See Note 12 for disclosures related to GASB 96.

**Fund Accounting**

The financial activities of the State Division Trust Fund, the School Division Trust Fund, the Local Government Division Trust Fund, the Judicial Division Trust Fund, the DPS Division Trust Fund, the Voluntary Investment Program, the Defined Contribution Retirement Plan, the Deferred Compensation Plan, the HCTF, the DPS HCTF, and the Life Insurance Reserve are recorded in separate funds. The State, School, Local Government, Judicial, and DPS Division Trust Funds maintain separate accounts, and

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

all actuarial determinations are made using separate division-based information.

The Division Trust Funds, the Health Care Trust Funds, and the Life Insurance Reserve pool their investments into a combined investment fund (CIF). Investment value and earnings of the CIF are allocated among the funds based on each fund’s percentage ownership. As of December 31, 2023, the ownership percentages of each fund are shown in the following table:

Trust Fund	Ownership Percentages
State Division	29.59%
School Division	52.68%
Local Government Division	8.77%
Judicial Division	0.73%
DPS Division	7.06%
HCTF	1.01%
DPS HCTF	0.11%
Life Insurance Reserve	0.05%
<b>Total</b>	<b>100.00%</b>

The administrative activities and operating assets and liabilities are pooled and recorded in a Common Operating Fund (COF). Expenses incurred and net operating assets are allocated from the COF to the Division Trust Funds based on administrative staff workload devoted to these funds and the ratio of the number of active and retired members in each division to the total for all the Division Trust Funds. Expenses are allocated to the HCTF and DPS HCTF based on administrative staff workload devoted to these funds and member participation in health plans. Expenses are allocated to the Voluntary Investment Program, the Defined Contribution Retirement Plan, and the Deferred Compensation Plan based on administrative staff workload, internally managed investment fees earned for Investment division expenses, and the ratio of FNP of each program or plan to the total for the program and plans. Expenses are allocated to the Life Insurance Reserve based on administrative staff workload.

**Fair Value of Investments**

Plan investments are presented at fair value in the Statements of Fiduciary Net Position. See Note 5 for additional information.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Note 3—Interfund Transfers and Balances**

Interfund transfers of assets take place on a regular basis between the Division Trust Funds. The transfers occur upon the initiation of a retirement or survivor benefit where the member earned or purchased service in another division in addition to the Fund paying the benefit.

Transfers also occur from the Division Trust Funds to the Health Care Trust Funds to allocate a portion of the amount paid by members to purchase service credit. The transfers for the year ended December 31, 2023, consisted of the following amounts:

**INTERFUND TRANSFERS**

	State Division Trust Fund	School Division Trust Fund	Local Government Division Trust Fund	Judicial Division Trust Fund	DPS Division Trust Fund	HCTF	DPS HCTF
Transfers in from other Funds for retirements <sup>1</sup>	\$28,780	\$22,936	\$6,277	\$2,895	\$10,513	\$—	\$—
Transfers out to other Funds for retirements <sup>1</sup>	(20,484)	(37,105)	(6,147)	—	(7,665)	—	—
Transfers in from other Funds for survivor benefits <sup>1</sup>	63	71	2	—	48	—	—
Transfers out to other Funds for survivor benefits <sup>1</sup>	(119)	(21)	(44)	—	—	—	—
Transfers out to Health Care Trust Funds for purchased service credit <sup>2</sup>	(1,579)	(1,996)	(686)	(24)	(103)	—	—
Transfers in to Health Care Trust Funds for purchased service credit <sup>3</sup>	—	—	—	—	—	4,285	103

<sup>1</sup> The interfund transfers at retirement line on the Schedule of Other Additions and Schedule of Other Deductions in the Supplementary Schedules show where the total for each division is included on the Statements of Changes in Fiduciary Net Position.

<sup>2</sup> Included in other deductions on the Statements of Changes in Fiduciary Net Position as shown on the Schedule of Other Deductions in the Supplementary Schedules.

<sup>3</sup> Included in other additions on the Statements of Changes in Fiduciary Net Position as shown on the Schedule of Other Additions in the Supplementary Schedules.

As of December 31, 2023, interfund balances existed between funds due to unreimbursed internal operating expenses. The interfund balances consisted of the following amounts:

**INTERFUND BALANCES**

Trust Fund	Amount
State Division	\$100
School Division	178
Local Government Division	30
Judicial Division	2
DPS Division	24
Voluntary Investment Program	(216)
Defined Contribution Retirement Plan	(60)
Deferred Compensation Plan	(61)
HCTF	3
<b>Total</b>	<b>\$—</b>

## NOTES TO THE FINANCIAL STATEMENTS

*(Dollars in Thousands)***Note 4—Contributions****Division Trust Funds—Defined Benefit Pension Plans**

Members and employers are required to contribute to PERA at a rate set by Colorado statute. The contribution requirements of plan members and affiliated employers are established under C.R.S. § 24-51-401 *et seq.* Colorado State law provisions may be amended from time to time by the Colorado General Assembly.

Members are required to contribute a percentage of their PERA-includable salary as shown in the contribution rates table on page 60. PERA records these contributions in individual member accounts. Member contributions are tax-deferred for federal and Colorado income tax purposes, effective July 1, 1984, (January 1, 1986, for members of the DPS benefit structure) and January 1, 1987, respectively. Prior to those dates, contributions were on an after-tax basis. PERA-affiliated employers contribute a percentage of active member covered payrolls depending on division as shown in the following contribution rates table.

Employers that rehire a PERA retiree as an employee or under any other work arrangement (working retiree) are required to report and pay employer contributions, including an additional 2.00% for retirees rehired pursuant to C.R.S. § 24-51-1101(5), on the amounts paid to the working retiree. In addition, effective January 1, 2011, working retirees are required to make contributions at a percentage of salary equal to the member contribution rate. However, under C.R.S. § 24-51-101(53), these contributions are not member contributions, are not deposited into a member account, and, therefore, are nonrefundable to the working retiree.

For purposes of deferring federal income tax imposed on salary, member contributions and working retiree contributions shall be treated as employer contributions pursuant to the provisions of 26 U.S.C. § 414 (h)(2), as amended. For all other purposes, these contributions shall be treated as member contributions and working retiree contributions as previously described.

Beginning January 1, 2006, employers are required to pay the AED, and beginning January 1, 2008, employers are required to pay the SAED. The employers pay these amounts on the PERA-includable salary for all employees working for the employer who are members of PERA, or who are eligible to elect to become members of PERA on or after January 1, 2006, including any amounts paid in connection with the employment of a retiree by an employer. PERA uses these payments to help amortize the unfunded actuarial accrued liability (UAAL).

C.R.S. § 24-51-411 provides for adjustment of the AED and SAED based on the year end funded status within a

particular Division Trust Fund. If a particular Division Trust Fund reaches a funded status of 103%, a decrease in the AED and SAED is mandated and if it subsequently falls below a funded status of 90%, an increase in the AED and SAED is mandated. For the Local Government and Judicial Divisions, if the funded ratio reaches 90% and subsequently falls below 90%, an increase in the AED and SAED is mandated. AED and SAED rates cannot exceed the maximums listed in the table on page 60.

Effective January 1, 2021, and every year thereafter, C.R.S. § 24-51-415 adjusts employer contribution rates for the State and Local Government Divisions to include a DC supplement. The DC supplement for these two divisions will be determined based on the employer contribution amounts paid on behalf of eligible employees who commence employment on or after January 1, 2019, to DC plan participant accounts that would have otherwise gone to the defined benefit trusts to pay down the unfunded liability. This calculation includes defined benefit investment earnings thereon, and is expressed as a percentage of salary on which employer contributions are made.

C.R.S. § 24-51-412 permits a pension certificates of participation (PCOP) offset to the DPS Division employer contribution rate. The offset, expressed as a percentage of covered payroll, is equal to the annual assumed payment obligations for PCOPs issued in 1997 and 2008, including subsequent refinancing, by the DPS at a fixed effective annual interest rate of 8.50%. At a minimum, the DPS Division employer rate, after applying the PCOP offset, must be sufficient to fund the DPS HCTF and the AIR contribution rates applicable to the DPS Division. The staff of Denver Public Schools provided the PCOP offset rate of 10.93% for 2023, which is reviewed and analyzed by PERA staff.

C.R.S. § 24-51-401(1.7)(e) requires a periodic “true-up” calculation to be performed beginning in 2015 and every five years following, with the purpose of determining the total DPS Division employer contribution rate that would result in the equalization of the ratio of UAAL over payroll between the DPS and School Divisions at the end of the 30-year period beginning January 1, 2010. The 2020 calculation indicated a reduction to the total DPS Division employer rate would be needed to equalize the defined ratio. As of December 31, 2023, the ratio of UAAL over payroll is 271.4% for the School Division and 58.2% for the DPS Division. It should be noted a reduction in an employer contribution rate for any one Division Trust Fund could potentially influence the outcome of the assessment of contributions (actual versus actuarially determined) considering all five Division Trust Funds, annually performed under the AAP, enacted through C.R.S. § 24-51-413, and described in greater detail on page 61.

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

PERA-affiliated employers forward the contributions to PERA for deposit. PERA transfers a portion of these contributions, equal to 1.02% of the reported salaries, into the HCTF or DPS HCTF for health care benefits. Beginning in 2007, the AIR, under C.R.S. § 24-51-1009, was created within each division for the purpose of funding future benefit increases. Funding for this reserve comes from the employer contributions and is calculated at 1.00% of the salary reported for members in the PERA benefit structure hired on or after January 1, 2007. In 2023, post-retirement benefit increases for these members are limited to a maximum of 1.00% (unless further adjusted by the AAP) compounded annually, subject to the availability of assets in the AIR for each division. As of December 31, 2023, the value of the AIR was \$311,387 in the State Division,

\$441,242 in the School Division, \$81,887 in the Local Government Division, \$4,064 in the Judicial Division, and \$76,631 in the DPS Division. The remainder of the contributions is transferred into a trust fund established for each division for the purpose of meeting current benefit accruals and future benefit payments.

The DC supplement provisions increased employer contribution rates, effective January 1, 2023, by 0.07% and 0.03% for all employers in the State and Local Government Divisions, respectively.

The combined employer contribution rates for retirement and health care benefits along with the member contribution rates for 2023 are shown as follows:

### CONTRIBUTION RATES

Trust Fund <sup>1</sup>	Employer Contribution Rate	AED		DC Supplement	PCOP Offset	Total Contribution Rate Paid by Employer	Member Contribution Rate
		AED	SAED				
State Division (members other than Safety Officers)	11.40%	5.00%	5.00%	0.17%	—%	21.57%	11.00%
State Division (Safety Officers)	14.10%	5.00%	5.00%	0.17%	—%	24.27%	13.00%
School Division	11.40%	4.50%	5.50%	—%	—%	21.40%	11.00%
Local Government Division (members other than Safety Officers)	11.00%	2.20%	1.50%	0.06%	—%	14.76%	9.00%
Local Government Division (Safety Officers)	14.10%	2.20%	1.50%	0.06%	—%	17.86%	13.00%
Judicial Division	14.91%	5.00%	5.00%	—%	—%	24.91%	11.00%
DPS Division	11.40%	4.50%	5.50%	—%	(10.93%)	10.47%	11.00%

### FUTURE AED AND SAED RATES

Trust Fund	2024 Rates		Future Annual Increases in Rates Prescribed by Colorado Revised Statutes		Maximum Allowable Limitations	
	AED	SAED	AED	SAED	AED	SAED
State Division	5.00%	5.00%	N/A	N/A	5.00%	5.00%
School Division	4.50%	5.50%	N/A	N/A	4.50%	5.50%
Local Government Division	2.20%	1.50%	No	No	5.00%	5.00%
Judicial Division	5.00%	5.00%	N/A	N/A	5.00%	5.00%
DPS Division <sup>1</sup>	4.50%	5.50%	N/A	N/A	4.50%	5.50%

<sup>1</sup> DPS Division employers are permitted to reduce the AED and SAED by the PCOP offset, as specified in C.R.S. § 24-51-412 *et seq.*

Funding of the plan assumes statutory contributions will be made on a timely basis. Any significant reduction in contributions would have an impact on the ability of the plan to make benefit payments in the future.

### Direct Distribution

Pursuant to C.R.S. § 24-51-414, PERA is to receive an annual direct distribution from the State, as a nonemployer contributing entity, in the amount of \$225,000. Beginning in 2018, the distribution will occur each July 1 until there are no unfunded actuarial accrued liabilities in the trust fund of any division that receives

such distribution. PERA shall allocate the distribution to the trust funds as it would an employer contribution in a manner proportionate to the annual payroll of each division except there shall be no allocation to the Local Government Division.

The direct distribution from the State was suspended in 2020. To compensate PERA for the suspension, C.R.S. §§ 24-51-414(6-8) required restorative payment by providing an accelerated payment in 2022. In 2022, the State Treasurer issued payment for the direct distribution of \$225,000 plus an additional amount of \$380,000. Due to

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

the advanced payment made in 2022, the State reduced the distribution in 2023 to \$35,000. Additionally, the newly-added C.R.S. § 24-51-414(9) provided compensatory payment of \$14,561 for 2023 only.

The allocation for 2023 was as follows:

Trust Fund	Direct Distribution
State Division	\$16,233
School Division	28,908
Judicial Division	288
DPS Division	4,132
<b>Total</b>	<b>\$49,561</b>

The standard \$225,000 direct distribution is scheduled to occur on July 1, 2024.

**Automatic Adjustment Provision**

The primary intent of the AAP is to gauge the adequacy of the contributions coming into the pension trust fund against the amount required, and if determined necessary, to initiate automatic changes to member and employer contribution rates, the AI cap, and, under certain circumstances, the direct distribution from the State. This assessment commenced with the December 31, 2018, actuarial funding valuation and is performed annually thereafter.

Pursuant to C.R.S. § 24-51-413, the AAP assessment involves the comparison of two blended rates, weighted across all five Division Trust Funds, determining a resulting ratio as follows:

+ employer contribution rates		
+ member contribution rate		
+ direct distribution as a rate of pay		
<b>= Blended Total Contribution Amount</b>		
	<i>divided by</i>	<b>= AAP Resulting Ratio</b>
+ actuarially determined contribution (ADC) rate		
+ member contribution rate		
<b>= Blended Total Required Contribution</b>		

If the resulting ratio falls within an acceptable corridor (98% to 119%), no adjustments are made. If the resulting ratio does not achieve a minimum benchmark (less than 98%), adjustments are applied in an equitable manner of impact resulting in increases in contributions and a decrease in the AI cap. If the resulting ratio exceeds the acceptable corridor (120% or greater), adjustments are applied in an equitable manner of impact resulting in decreases in contributions and an increase in the AI cap.

Per statute, the first adjustment required as a result of the AAP did not occur until July 1, 2020. The AAP defines the limited amounts of total adjustment available in each

category, and the increments of adjustments that can occur in any year. Adjustments over multiple years arising from a single AAP are permitted, although they cannot exceed the ultimate limits as set forth in statute. An adjustment (increase or decrease) to each of the employer contribution rates and the member contribution rates cannot exceed 0.50% in any one year, and in total, cannot exceed 2.00% above the rates defined in C.R.S. § 24-51-401(1.7)(a)(IV) or fall below the rates defined in C.R.S. § 24-51-401(1.7)(a)(I). An adjustment (increase or decrease) to the direct distribution cannot exceed \$20,000 in any one year, and cannot exceed the initially legislated annual \$225,000 amount, but can be reduced to \$0.

Further, adjustments required because funding is below the 98% AAP ratio threshold will be made to an extent that will bring the revised ratio to 103% following the corrective efforts, but in no event can the adjustments in one year be greater than the limits as previously described. Similarly, adjustments required because funding has reached the 120% AAP ratio threshold must not cause the ratio to fall below 103%.

Based on the results of the AAP assessment which utilized the December 31, 2022, actuarial valuation performed for funding purposes, effective July 1, 2024, no adjustments to member and employer contribution rates are required, with no adjustment to the \$225,000 direct distribution.

Based on the results of the AAP assessment which utilized the December 31, 2023, actuarial valuation performed for funding purposes, effective July 1, 2025, no adjustments to member and employer contribution rates are required, with no adjustment to the \$225,000 direct distribution.

**Replacement Benefit Arrangements**

IRC § 415 limits the amount of the benefit payable to a retiree or survivor in a defined benefit plan. In some cases, the IRC limit is lower than the benefit calculated under the plan provisions. For 2023, this limit is set at \$265,000 (actual dollars) for retirees who are age 62 or older. This dollar amount is actuarially decreased for retirees younger than 62. IRC § 415(m) allows a government plan to set up a “qualified governmental excess benefit arrangement” to pay the difference to those retirees. To accomplish this, PERA has entered into agreements with the employers who last employed the affected retirees. Under the agreement, the employer pays the benefit difference to the retiree from a portion of the current employer contributions. In 2023, employers under these agreements used current employer contributions to pay retirees \$2,789 in the State Division; \$656 in the School Division; \$1,166 in the Local Government Division; \$0 in the Judicial Division; and \$22 in the DPS Division. As of December 31, 2023, payroll, there were 107 accounts receiving a replacement benefit.

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

### Contributions—Voluntary Investment Program, Defined Contribution Retirement Plan, and Deferred Compensation Plan

See Note 8.

### Contributions—Health Care Trust Funds

See Note 9.

## Note 5—Investments

### Investment Authority

Under C.R.S. § 24-51-206, the Board has complete responsibility for the investment of PERA’s funds, with the following investment limitations:

- The aggregate amount of moneys invested in corporate stocks or corporate bonds, notes, or debentures that are convertible into corporate stock or in investment trust shares cannot exceed 65% of the then book value of the fund.
- No investment of the fund in common or preferred stock (or both) of any single corporation can exceed 5% of the then book value of the fund.
- The fund cannot acquire more than 12% of the outstanding stock or bonds of any single corporation.
- The origination of mortgages or deeds of trust on real residential property is prohibited.

Additionally, C.R.S. § 24-54.8-201 *et seq.* imposes targeted divestment from companies that have economic prohibitions against Israel.

### PERA Board’s Statutory Fiduciary Responsibility

By State law, the management of PERA’s retirement fund is vested in the Board who is held to the standard of conduct of fiduciaries in discharging their responsibilities. According to C.R.S. § 24-51-207(2), the Board, as fiduciaries, must carry out their functions solely in the interest of PERA members and benefit recipients and for the exclusive purpose of providing benefits.

### Investment Committee

The Investment Committee is responsible for assisting the Board in overseeing the PERA investment program. Specific responsibilities include:

- Recommend *Statements of Investment Policy and Philosophy* and review the statements at least biennially.
- Recommend the strategic asset allocation and associated benchmarks.
- Review, at least annually, PERA’s compliance with the *Statement of Investment Policy*.
- Review costs of the investment program.

- Review total fund, asset class, and investment manager performance and risk.
- Advise on any other investment matters and make recommendations for action when necessary.

### Overview of Investment Policy

PERA’s investment policy is established and may be amended by a majority vote of the Board. The policy outlines the investment philosophy and guidelines within which the fund’s investments will be managed, and includes the following:

- Strategic asset allocation is the most significant factor influencing long-term investment performance and asset volatility.
- The fund’s liabilities are long term and the investment strategy will therefore be long term in nature.
- The asset allocation policy will be periodically re-examined to ensure its appropriateness to the then prevailing liability considerations.
- As a long-term investor, PERA will invest across a wide spectrum of investments in a prudent manner.
- Active management may be expected to add value over passive investment alternatives under appropriate conditions.

The Board determines the strategic asset allocation for the fund. This strategic asset allocation contains a long-term target allocation and specific ranges within which each asset class may operate. The yearly policy benchmark weight, long-term asset allocation target, and the specified ranges for each asset class are presented in the Investment Section on page 124.

The asset allocation policy is determined by an intensive asset/liability study which considers expected investment returns, risks, and correlations of returns. The characteristics of the fund’s liabilities are analyzed in conjunction with expected investment risks and returns. The targeted strategic asset allocation is designed to provide appropriate diversification and to balance the expected returns while ensuring an appropriate level of risk is incurred.

The asset allocation targets are adhered to through the implementation of a rebalancing policy. Investments are managed and monitored in a manner which seeks to balance return and risk within the asset/liability framework. The Chief Investment Officer is authorized to execute investment transactions on behalf of the Board. Assets are managed both internally and externally. In making investment decisions, the Board and staff utilize external experts in various fields.

See information on the most recent asset/liability study in the Investment Section on page 124.

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

### Investment Performance

For the year ended December 31, 2023, the net-of-fees, money-weighted rate of return on the pooled investment assets was 13.4%.

A money-weighted rate of return considers the effect of timing of transactions that increase the amount of pension plan investments (such as contributions) and those that decrease the amount of pension plan investments (such as benefit payments). Additionally, the money-weighted rate of return provides information comparable with the long-term assumed rate of return on the pooled investment assets.

### Fair Value

Investments are measured at fair value in accordance with GASB Statement No. 72. Fair value is defined as the amount for which an investment could be sold in an orderly transaction between market participants at the measurement date in the principal or most advantageous market of the investment. This Statement establishes a three-tier, hierarchical disclosure framework which prioritizes and ranks the level of market price observability used in measuring fair value. The hierarchy is based on the valuation inputs used to measure the fair value of the investment and gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest

priority to unobservable inputs (Level 3 measurements). Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk. The three-tier framework is summarized as follows:

- **Level 1**—Unadjusted quoted prices for identical instruments in active markets.
- **Level 2**—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable.
- **Level 3**—Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments in certain entities that calculate a net asset value (NAV) per share (or its equivalent) sometimes do not have a readily determinable fair value. For these investments, governmental accounting standards permit establishment of fair value using a practical expedient based on the NAV per share (or its equivalent).

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

The following table presents PERA’s investments within the hierarchical framework, as well as investments where fair value is determined using the practical expedient, as of December 31, 2023:

**INVESTMENTS MEASURED AT FAIR VALUE**

<b>Total investments measured at fair value</b>	<b>\$66,189,820</b>			

<sup>1</sup> Public market investments of \$286,521 are classified in Level 2 due to the election of fair value pricing for international equity portfolios. This election employs the use of intra-day movements of the Russell 1000 index as a factor in pricing individual equity investments to ensure equitability between participants in the PERAdvantage International Stock Fund.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

RECONCILIATION OF INVESTMENT LEVELING DISCLOSURE TO THE STATEMENTS OF FIDUCIARY NET POSITION

	Investments by Fair Value Level <sup>1</sup>	Investments Measured at the NAV	Stable Value Fund <sup>2</sup>	Statements of Fiduciary Net Position Combined Total
Global equity	\$35,764,437	\$921,626	\$—	\$36,686,063
Fixed income	11,685,886	213,062	453,458	12,352,406
Private equity	—	5,358,065	—	5,358,065
Real estate	2,290,332	3,932,455	—	6,222,787
Alternatives	—	4,230,082	—	4,230,082
Multi-asset class funds	—	1,705,792	—	1,705,792
Self-directed brokerage	60,137	27,946	—	88,083
<b>Total</b>	<b>\$49,800,792</b>	<b>\$16,389,028</b>	<b>\$453,458</b>	<b>\$66,643,278</b>

<sup>1</sup> Futures investments of \$76,400 that would be classified as Level 1 in the fair value hierarchy are excluded from this table but included as a component of Investment receivables in the Statements of Fiduciary Net Position.

<sup>2</sup> The Stable Value Fund is the underlying investment in the PERAdvantage Capital Preservation Fund which is available to participants in the three defined contribution plans. The value of the investment is based on the contract value, which approximates fair value. Contract value represents what is owed to the plan participants and at what price the shares of the stable value fund are being bought and sold.

Global equity investments classified in Level 1 of the hierarchical framework include securities which trade on a national or international exchange. These investments are primarily valued at the official closing price or last reported sales price of the instrument according to the rules of the exchange. Mutual funds classified in Level 1 of the hierarchical framework include instruments which trade on a national exchange and the fund's NAV is the basis for the fund's transactions. Fixed income securities classified as Level 1 include U.S. Treasuries and U.S. mortgage-backed securities (MBS) purchased in the to-be-announced forward market. These securities are valued using the bid price, which is the price prospective buyer(s) are prepared to pay to purchase the security. Self-directed brokerage is an investment vehicle available to participants in the three defined contribution plans. Equity investments contained in the self-directed brokerage accounts trade on an exchange, and therefore are classified in Level 1 of the hierarchical framework.

Global equity investments classified in Level 2 of the hierarchical framework include securities valued using a theoretical price which utilizes a standardized formula to derive a price from a related security or from the intra-day movement of a market index. Fixed income investments

classified as Level 2 typically do not trade on a national or international exchange and their fair value is based on equivalent values of the same or comparable securities with similar yield and risk, otherwise known as matrix pricing. Fixed income investments contained in the self-directed brokerage are typically valued using a matrix pricing approach, and therefore are classified in Level 2 of the hierarchical framework.

Global equity public market investments classified in Level 3 of the hierarchical framework are valued using one or more unobservable inputs. This includes instruments delisted from an exchange, instruments where trading has been suspended, and instruments that lack recent transaction information. Fixed income securities classified in Level 3 of the hierarchical framework include instruments in default and instruments whose values are estimated, out of necessity, using unobservable inputs due to lack of comparable securities in the market place. Real estate investments classified in Level 3 of the hierarchical framework were valued by an independent appraiser.

Typically, pricing information for public market investments is made available to PERA by independent, third-party pricing services and other third-party vendors.

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

The following table presents PERA’s unfunded commitments, the investment redemption frequency and redemption notice period as of December 31, 2023, for PERA investments measured at the NAV:

### INVESTMENTS MEASURED AT THE NET ASSET VALUE

	Investments Measured at the NAV	Unfunded Commitments <sup>1</sup>	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Global equity commingled funds	\$921,626	\$—	Daily	1 - 3 days
Fixed income commingled funds	213,062	—	Daily	1 - 3 days
Private equity partnerships	5,358,065	2,882,384	N/A	N/A
<b>Private real estate</b>				
Directly held joint ventures	964,916	65,602	N/A	N/A
Real estate partnerships	1,341,456	347,646	N/A	N/A
Commingled open-end funds	1,626,083	—	Daily, Quarterly	30 - 90 days
<b>Alternatives</b>				
Alternatives partnerships	2,480,357	1,637,306	Monthly, Quarterly, Annual, Biennial, Quinquennial	30 - 180 days
Commingled open-end funds	1,749,725	281,759	Daily, Monthly, Quarterly, Biennial	30 - 180 days
Multi-asset class commingled funds	1,705,792	—	Daily	1 - 3 days
Self-directed brokerage	27,946	—	N/A	N/A
<b>Total</b>	<b>\$16,389,028</b>	<b>\$5,214,697</b>		

<sup>1</sup> Corresponding Note 7 includes unfunded commitments to assets valued at Level 3 within the hierarchical framework or with no fair value as of December 31, 2023.

The fair value of the investments in global equity, fixed income, and multi-asset class commingled funds has been determined using NAV of the units held at December 31, 2023. Commingled funds are only offered to a limited group of investors, and the most significant element of the NAV is the fair value of the underlying investment holdings of the fund. Unit values are determined by dividing each fund’s net assets by the number of units outstanding on the valuation date. Global equity commingled funds include seven funds which primarily consist of investments whose objective is to produce returns that either match or exceed the total rate of return of a particular benchmark. Fixed income commingled funds include three funds that seek results which correspond generally to the price and yield performance of a particular index or to produce returns in excess of the total rate of return of a particular benchmark. Multi-asset class commingled funds include 10 target date retirement funds which are broadly diversified across global asset classes, where asset allocations become more conservative over time with the objective of providing for retirement outcomes consistent with investor preferences throughout the savings and drawdown phase. Additionally, this asset class also includes one fund whose objective is to produce returns that exceed inflation.

Private equity partnerships include 152 private equity limited partnership funds with various strategies including: buyout, venture, distressed, mezzanine, energy, secondary, and fund-of-funds. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of PERA’s ownership

interest in partners’ capital. The most significant element of NAV is the fair value of the investment holdings. The valuation techniques vary based on investment type and involve a certain degree of expert judgment. These holdings are valued by the general partners in conjunction with management, investment advisers, and valuation specialists and are generally audited annually. These investments cannot be redeemed during the term of the partnership. Typically, private equity partnerships have an approximate life of 10 years, with the first four to six years deemed as the investment period when capital is deployed. The remaining years are typically the harvest period in which distributions are received through the liquidation of the underlying assets of the fund. The fair value for these investments could differ significantly if a ready market for these assets existed.

Private real estate includes 63 funds that invest primarily in U.S. institutional quality commercial real estate across a broad range of real estate asset types and locations. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of PERA’s ownership interest in partners’ capital. The most significant element of NAV is the fair value of the investment holdings. The valuation techniques vary based on investment type and involve a certain degree of expert judgment. These holdings are valued by the general partners in conjunction with management, investment advisers, and valuation specialists and are generally audited annually. There are 38 real estate closed-end limited partnership funds, which are considered illiquid as these investments cannot typically be redeemed during

## NOTES TO THE FINANCIAL STATEMENTS

*(Dollars in Thousands)*

the term of the partnership. Distributions can be made periodically based on the sole discretion of the general partner. There are seven majority-owned joint venture investments which consist of industrial and multifamily assets in various locations throughout the U.S., Mexico, and Europe. These investments are considered illiquid. There are 18 real estate commingled open-end funds which are considered semi-liquid real estate funds by nature of the open-end structure of the fund. Open-end funds generally offer periodic distributions of net cash flow, which investors may elect to reinvest. Additionally, open-end funds generally offer quarterly redemption windows for requesting portions, or all, of PERA's investments. The fair value for these investments could differ significantly if a ready market for these assets existed.

Alternatives include 68 funds that invest in timber, real assets, tactical, credit, global macro, multi-strategy, and other opportunistic strategies. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of PERA's ownership interest in partners' capital. The most significant element of NAV is the fair value of the investment holdings. The valuation techniques vary based on investment type and involve a certain degree of expert judgment. These holdings are valued by the general partners in conjunction with management, investment advisers, and valuation specialists and are generally audited annually. There are 48 partnerships within Alternatives considered illiquid as the investments cannot be redeemed during the term of the partnership. Two open-end funds are also considered illiquid due to redemption restrictions. Illiquid funds represent approximately 39.2% of the value of alternatives. Seven partnerships have redemption periods ranging from monthly to every five years. There are 12 investments within alternatives considered liquid by nature of the open-end structure of the fund. Open-end funds generally offer periodic distributions of net cash flow, which investors may elect to reinvest. Additionally, open-end funds generally offer daily and monthly redemption windows for requesting portions, or all, of PERA's investments. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected the underlying assets of the funds may be liquidated over the next two to 10 years. The fair value for these investments could differ significantly if a ready market for these assets existed.

### Cash and Short-Term Investments

The total carrying value of cash and short-term investments in the Statements of Fiduciary Net Position as of December 31, 2023, was \$991,349. Cash balances represent operating cash accounts and investment cash held by banks.

Federal Deposit Insurance Corporation (FDIC) covers accounts up to \$250. Operating cash account balances

above that amount are collateralized, as required by the State of Colorado Public Deposit Protection Act (PDPA) statute, at 102% with a U.S. Bank Letter of Credit from the Federal Home Loan Bank of Cincinnati. The Statements of Fiduciary Net Position liabilities include negative operating cash book balances resulting from investing the float of outstanding checks.

Uninvested cash deposits in the Schwab self-directed brokerage account are eligible for \$250 FDIC insurance protection per participant at each bank.

Uninvested cash deposits held by Northern Trust, the custodian bank, are covered by FDIC up to \$250, and the remaining balances are uninsured and uncollateralized. Projected cash held by the custodial bank is invested daily in short-term investment funds at a specified cut-off time. Projected cash may be higher than actual cash, resulting in an overinvestment in short-term investment funds, which may cause a negative investment cash balance overnight. Trade timing differences can also cause negative cash.

See custodial credit risk disclosure on page 69 and foreign currency risk disclosure on page 72.

### Securities Lending Transactions

C.R.S. § 24-51-206 and Board policies permit PERA to lend its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. In 2023, PERA ended our securities lending agent relationship with The Northern Trust Company (Northern Trust) and began unwinding our relationship with Deutsche Bank AG, New York Branch (Deutsche Bank). As of December 31, 2023, PERA lent securities exclusively through its new agent, Securities Finance Trust Company (eSecLending).

eSecLending lends global equity and fixed income securities for cash and securities collateral. Securities are loaned versus collateral valued between 102% and 110% of the fair value of the securities plus any accrued interest. For non-cash collateral, eSecLending relies on Tri-Party agents to value the securities held as collateral and ensures pricing is within a 5% threshold tolerance. eSecLending's pricing process is done weekly as well as at month-end.

PERA cannot pledge or sell the collateral securities unless the borrower defaults.

eSecLending invests the cash collateral related to PERA's loaned securities in a separate account according to guidelines stipulated by PERA. eSecLending's Credit Risk Department sets borrower credit limits. As of December 31, 2023, the total fair value of securities on loan with eSecLending was not limited.

Northern Trust primarily lent international equity and fixed income securities for cash collateral. U.S. securities were loaned versus collateral valued at 102% of the fair value of the securities plus any accrued interest. Non-U.S. securities were loaned versus collateral valued at 105% of

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

the fair value of the securities plus any accrued interest. Collateral was marked-to-market daily. PERA could not pledge or sell the collateral securities unless the borrower defaulted.

Northern Trust invested the cash collateral related to PERA’s loaned securities in a separate account according to guidelines stipulated by PERA. Northern Trust’s Senior Credit Committee set borrower credit limits. The total fair value of securities on loan with Northern Trust could not exceed \$600,000.

Deutsche Bank lent domestic and international equities for cash collateral. U.S. securities were loaned versus collateral valued at a minimum of 102% of the fair value of the securities. International securities were loaned versus collateral valued at a minimum of 105% of the fair value of the securities. Collateral was marked-to-market daily. PERA could not pledge or sell the collateral securities unless the borrower defaulted.

Deutsche Bank invested the cash collateral related to PERA’s loaned securities in a separate account according to guidelines stipulated by PERA. Deutsche Bank’s Global Credit Risk Department set borrower credit limits. The total fair value of securities on loan with Deutsche Bank could not exceed \$1,500,000.

The following table details the balances relating to securities lending transactions at December 31, 2023:

Securities Lent	Fair Value of Underlying Securities	Cash Collateral Received/ Securities Collateral Value	Cash Collateral Investment Value
<b>For Cash Collateral</b>			
Global equity	\$2,400,377	\$2,450,281	\$2,454,249
Fixed income	4,782,149	4,879,394	4,887,367
<b>For Securities Collateral</b>			
Global equity	415,050	441,673	—
Fixed income	1,567,486	1,668,028	—
<b>Total</b>	<b>\$9,165,062</b>	<b>\$9,439,376</b>	<b>\$7,341,616</b>

PERA’s income from securities lending, including realized and unrealized gain/(loss), net of expenses, was \$22,545 for the year ended December 31, 2023. The following table details the securities lending expenses as of December 31, 2023:

Securities Lending Expenses	2023
Borrower rebates	\$225,729
Management fees	1,364
<b>Total securities lending expenses</b>	<b>\$227,093</b>

As of December 31, 2023, PERA had no credit risk exposure to borrowers because the associated value of the collateral held exceeded the value of the securities loaned. The contracts with PERA’s lending agents did and do provide that the lending agents would and will indemnify PERA if loaned securities were or are not returned and PERA suffered or suffers direct losses due to a borrower’s default and the lending agent’s noncompliance with the contract. PERA had no losses on securities lending transactions resulting from the default of a borrower or the lending agents for the year ended December 31, 2023. PERA limited the total fair value of securities outstanding to one borrower to 25% of the total fair value of all borrowed securities in the Deutsche Bank lending program and \$50,000 per borrower in the Northern Trust lending program.

PERA or the borrower may terminate any security loan on demand. Though every loaned security may be sold and reclaimed at any time from the borrower, the weighted average loan life of overall loans outstanding at eSecLending was approximately 22 days as of December 31, 2023. The weighted average loan life of the single remaining loan at Deutsche Bank was 2,173 days as of December 31, 2023. At all securities lending agents, loans were made on an overnight (one day) basis throughout 2023. The approximate weighted average maturity (to the next reset date) at eSecLending was 13.6 days and at Deutsche Bank was one day as of December 31, 2023. Since all securities loans were and are made on an overnight basis, there is usually a difference between the weighted average maturity of the investments made with the cash collateral provided by the borrower and the maturities of the securities loans.

## NOTES TO THE FINANCIAL STATEMENTS

*(Dollars in Thousands)*

As of December 31, 2023, the \$7,341,616 investment value of the reinvested cash collateral consisted of \$53,864 cash and receivables and \$7,287,752 of investments. \$1,480,000 of the investments were valued at par, and accordingly were not classified within the fair value hierarchical framework. Fixed rate securities with final maturities of 100 days or less totaling \$960,507 were valued using amortized cost basis; fixed rate securities with remaining maturities longer than 100 days totaling \$273,478 and floating rate securities totaling \$3,806,504 used a fair value derived from a bid-side market indication and are considered Level 2 investments in the fair value hierarchical framework. Money market fund investments totaling \$767,263 were valued using the NAV per share for the respective money market fund.

**Custodial Credit Risk**

Governmental accounting standards limit the disclosure of custodial credit risk to investment securities that are uninsured, held in physical or book entry form, are not registered in PERA's name, and are held by either the counterparty or the counterparty's trust department or agent but not in PERA's name. Disclosure of custodial credit risk is also required when deposits are not covered by depository insurance and are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in PERA's name.

To mitigate custodial credit risk, PERA's custodial credit risk policy has requirements governing how securities are held by the master custodian and for the effective management of cash balances. To further minimize custodial credit risk, periodic reviews are required to be completed on the master custodian's credit quality and

capital levels. Additionally, assessments of counterparty risk are completed periodically using internal analysis and information obtained from third-party research and rating agency reports.

Northern Trust is the master custodian for the majority of PERA's securities. At December 31, 2023, there were no investments or collateral securities subject to custodial credit risk.

At December 31, 2023, there were \$4,685 of U.S. dollar deposits, \$17,892 of foreign currency deposits, \$315 securities lending uninvested cash collateral, \$76,400 of margin, and \$1,108 cash collateral pledged outside of Northern Trust which were uninsured and uncollateralized and, therefore, exposed to custodial credit risk.

**Concentration of Credit Risk**

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of PERA's investment in a single issuer. C.R.S. § 24-51-206(3) requires that no investment of the fund in common or preferred stock, or both, of any single corporation shall be of an amount which exceeds 5% of the then book value of the fund, nor shall the fund acquire more than 12% of the outstanding stock or bonds of any single corporation. The 12% requirement does not apply to governmental securities (U.S. Treasuries, sovereigns, etc.), Government-sponsored enterprise securities (agencies including FNMA, FHLMC, etc.), agency or non-agency MBS, commercial mortgage-backed securities (CMBS), asset-backed securities, or municipal securities. There is no single issuer exposure that comprises 5% of the then book value of the fund and no holdings greater than 12% of the outstanding stock or bonds of any single corporation at December 31, 2023.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Credit Risk**

Credit risk is the risk an issuer or other counterparty to an investment will not fulfill its obligation. As of December 31, 2023, PERA held investments across the credit ratings spectrum, with the majority invested in investment grade issuers defined as having a minimum rating of Baa3 issued by Moody's (or the equivalent by another nationally recognized statistical rating organization (NRSRO) which PERA does not have a license to publish).

PERA's fixed income credit risk provisions primarily include limitations on the fixed income portfolio, however, the policy also governs limitations on the

total fund. For the unitized PERA Fixed Income Pool, the amount of below investment grade securities is limited to 3%, the exposure of a single company's securities is limited to 5%, and there are limits pertaining to holdings within the spectrum of credit rating categories. Additional individual manager mandates in the defined contribution plans have limits pertaining to holdings within the spectrum of credit rating categories to limit below investment grade securities.

The following table provides Moody's credit quality ratings for PERA's fixed income holdings as of December 31, 2023:

**CREDIT QUALITY RATING DISPERSION SCHEDULE**

Quality Rating	Total	U.S. Govt MBS	U.S. Corporate Bonds	Stable Value Fund	Non-U.S. Corporate Bonds	Non-U.S. Govt/ Agency Bonds	U.S. Govt Agencies <sup>1</sup>	Non-Agency MBS/ CMBS	U.S. Municipal Bonds

<sup>4</sup> The fair value and average fund-level credit quality ratings as reported by the commingled fund managers are: \$13,538—Aa1; \$199,524—Aa2.

## NOTES TO THE FINANCIAL STATEMENTS

*(Dollars in Thousands)***Interest Rate Risk**

Interest rate risk is the risk changes in interest rates will adversely affect the fair value of an investment. PERA's policy is to manage its exposure to fair value losses arising from changes in interest rates by requiring that the duration of individual portfolios stays within defined bands of the duration of each portfolio's benchmark. PERA utilizes effective duration as the primary measure of interest rate risk within its fixed income investments.

Duration estimates the sensitivity of a bond's price to interest rate changes. Effective duration makes assumptions regarding the most likely timing and amounts of variable cash flows arising from such investments as callable bonds, MBS, and variable-rate debt.

Effective duration for PERA's fixed income holdings as of December 31, 2023, is shown in the following table:

**INTEREST RATE RISK—EFFECTIVE DURATION**

	Fair Value	Effective Weighted Duration in Years
U.S. Treasuries	\$4,308,635	7.04
U.S. government MBS	3,996,570	6.41
U.S. corporate bonds	2,394,328	7.17
Stable value fund	453,458	3.30
Non-U.S. corporate bonds	394,071	6.08
Non-U.S. government/agency bonds	303,249	5.35
Fixed income commingled funds	213,062	6.24
U.S. government agencies	105,107	2.92
Non-agency MBS/CMBS	86,138	3.80
U.S. municipal bonds	79,333	8.45
Fixed income mutual fund	18,455	6.20
<b>Total</b>	<b>\$12,352,406</b>	<b>6.59</b>

**Mortgage-Backed Securities**

PERA invests in residential MBS and CMBS which are reported at fair value in the Statements of Fiduciary Net Position under investments at fair value, fixed income. PERA invests in MBS for diversification and to enhance fixed income returns.

A residential MBS depends on the underlying pool of single-family mortgage loans to provide the cash flow to make principal and interest payments on the security. MBS are subject to credit risk, the risk the borrower will be unable to meet its obligations. In many cases, the payment of principal and interest is guaranteed by an agency of the U.S. Government, or a Government-sponsored enterprise. While these guarantees reduce credit risk, residential MBS are also subject to prepayment risk as the timing of principal and interest payments remains uncertain. A decline in interest rates can result in call risk as prepayments accelerate, which reduces the weighted average life of the security. Alternatively, an increase in interest rates can result in extension risk as prepayment rates decline, which may cause the weighted average life of a mortgage investment to be longer than anticipated.

CMBS depend on underlying pools of commercial real estate loans to provide the cash flow to make principal and interest payments on the security. CMBS are subject to credit risk, the risk the borrower will be unable to meet its obligations. These loans are typically for a fixed term, cannot be repaid early by the borrower without penalty and, accordingly, have lower prepayment risk than residential MBS.

To reduce PERA's counterparty credit risk while trading residential MBS, PERA has entered into Master Securities Forward Transaction Agreements with a number of counterparties which require margin collateral to be pledged or received when the change in net value of unsettled trades exceeds an agreed-upon threshold. As of December 31, 2023, there was \$1,108 in pledged collateral to counterparties and \$6,588 in counterparty pledged collateral held by PERA.

As of December 31, 2023, the fair value of residential MBS and CMBS was \$3,904,598 and \$178,111, respectively, which excludes the fair value of those securities held in commingled funds.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Foreign Currency Risk**

Foreign currency risk is the risk changes in exchange rates will adversely impact the fair value of an investment or a deposit. PERA’s currency risk exposure resides primarily within the Global Equity asset class. In accordance with governmental accounting standards, this disclosure is limited to investments denominated in non-U.S. dollars. There may be additional foreign currency risk in investments that contain underlying securities or business operations exposed to a foreign currency. PERA’s formal policy regarding foreign currency risk is to incorporate the

risk as part of the fund’s periodic asset/liability study and to consider it in determining the total fund asset allocation.

At December 31, 2023, PERA did not have a currency hedging program at the total fund level. However, at the manager level, hedging currency risk may be permitted which allows the manager to actively manage currency exposure at their discretion in accordance with their individual investment guidelines. PERA monitors currency risk at the total fund, asset class, and portfolio levels. PERA’s exposure to foreign currency risk as of December 31, 2023, is shown in the following table:

**FOREIGN CURRENCY RISK**

Currency	Total	Global Equity	Private Equity	Real Estate	Alternatives	Cash and Short-Term Investments	Income Receivable	Pending Trades	Pending Foreign Exchange Trades

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Note 6—Derivative Instruments**

PERA reports derivative instruments at fair value. These derivative instruments involve, to varying degrees, elements of market risk to the extent of future market movements in excess of amounts recognized in the Statements of Fiduciary Net Position. For accounting purposes, derivative instruments are considered to be investments and not hedges.

The following table summarizes the derivative instruments outstanding as of December 31, 2023, deemed significant by management. These instruments are recorded in investment receivables in the Statements of Fiduciary Net Position and the changes in fair value are included in investment income in the Statements of Changes in Fiduciary Net Position. Investments in limited partnerships and commingled funds include derivative instruments that are not reported in the following disclosure.

**DERIVATIVE INSTRUMENTS—DEFINED BENEFIT PLANS**

Changes in Fair Value		
Investment Derivatives	Classification	Amount
Equity futures	Investment income	\$63,831
Fixed income futures	Investment loss	(3,965)
<b>Total</b>		<b>\$59,866</b>

Fair Value at December 31, 2023		
	Classification	Amount
	Investment receivables	\$76,400
<b>Total</b>		<b>\$76,400</b>

**Equity/Fixed Income Futures**

Equity and fixed income futures represent contracts between two parties to purchase or sell securities or cash at a future date for a specified price. Futures contracts trade on organized exchanges with quoted prices, are included as investment receivables in the Statement of Fiduciary Net Position, and would be classified in Level 1 of the fair value hierarchy. Recognition of investment income, with a corresponding change to the amount of investment receivables or liabilities, occurs on a daily basis according to the fluctuation of value of the futures contract. Payments are received or made to settle the

fluctuation of the contract’s value on a periodic basis. Upon entering into a futures contract, PERA is required to pledge an amount of cash or securities (known as an initial margin deposit) equal to a percentage of the contract amount.

Investment in futures contracts exposes PERA to credit risk. No losses related to counterparty nonperformance occurred in 2023. Credit risk is minimized by central counterparty clearing, margin deposits, and periodic settlement payments. Investments in fixed income futures exposes PERA to interest rate risk.

At December 31, 2023, PERA’s defined benefit plans had 4,266 outstanding futures contracts with a total notional market exposure of \$558,694 and total investment receivables of \$76,400 reflecting counterparty margin deposits and fluctuation of the contract value since the last periodic settlement payment.

**FUTURES CONTRACTS OUTSTANDING—DEFINED BENEFIT PLANS**

As of December 31, 2023

Contract Type	Year of Maturity	Notional Amount (Market Exposure)
Equity	2024	\$427,267
Fixed income	2024	131,427
<b>Total</b>		<b>\$558,694</b>

**Note 7—Commitments and Contingencies**

As of December 31, 2023, PERA had commitments for future investments in Private Equity of \$2,882,384, Real Estate of \$413,248, and Alternatives of \$1,919,065.

**Other Pending or Threatened Litigation**

PERA is involved in various lawsuits or threatened legal proceedings arising in the normal course of business. In the opinion of management, the ultimate resolution of these other matters will not have a material effect on the financial condition of PERA.

**Contribution Settlements**

In the normal course of business, administrative errors can occur resulting in corrections to prior employer and member contribution remissions.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Note 8—Voluntary Investment Program, Defined Contribution Retirement Plan, and Deferred Compensation Plan**

PERA administers three defined contribution plans: the Voluntary Investment Program (PERAPlus 401(k) Plan), the Defined Contribution Retirement Plan (DC Plan), and the Deferred Compensation Plan (PERAPlus 457 Plan), collectively known as the Capital Accumulation Plans (CAPs). The Board has the authority to establish and administer the CAPs pursuant to C.R.S. § 24-51-1401, C.R.S. § 24-51-1501, and C.R.S. § 24-51-1601, respectively. The provisions of the PERAPlus 401(k) Plan and the DC Plan are found in the law at C.R.S. § 24-51-1401 *et seq.*, C.R.S. § 24-51-1501, *et seq.*, PERA Rules, 8 CCR 1502-1, and *PERA’s 401(k) and Defined Contribution Plan and Trust* document. The provisions of the PERAPlus 457 Plan are found in the law at C.R.S. § 24-51-1601 *et. seq.*, PERA Rules, 8 CCR 1502-1, and *The PERA Deferred Compensation Plan* document.

**All Plans**

The following investment, distribution, and fee provisions are the same under all three CAPs:

- Participants have the choice of contributing to 18 different investment options. In addition, participants may also make transfers, at any time, among the following listed investment options:
  - PERAdvantage Capital Preservation Fund
  - PERAdvantage Fixed Income Fund
  - PERAdvantage Real Return Fund
  - PERAdvantage Socially Responsible Investment (SRI) Fund
  - PERAdvantage U.S. Large Cap Stock Fund
  - PERAdvantage U.S. Small and Mid-Cap Stock Fund
  - PERAdvantage International Stock Fund
  - PERAdvantage Income Fund
  - PERAdvantage 2025 Fund
  - PERAdvantage 2030 Fund
  - PERAdvantage 2035 Fund
  - PERAdvantage 2040 Fund
  - PERAdvantage 2045 Fund
  - PERAdvantage 2050 Fund
  - PERAdvantage 2055 Fund
  - PERAdvantage 2060 Fund
  - PERAdvantage 2065 Fund
  - Schwab Self-Directed Brokerage Account
- The participant’s account balances become available for distribution upon termination from all PERA-affiliated employers. All distributions are in accordance with the Plan documents and IRC requirements.
- Empower administers the recordkeeping for all participant transactions. Northern Trust provides an array of financial services in support of day to day operations of the CAPs, including custodial services.

- Cash balances represent both operating cash accounts and investment cash on deposit held by the custodians.
- Participants pay plan administration fees and investment management fees. Plan administrative fees cover fees for services such as recordkeeping, accounting, and plan maintenance. Investment management fees are charged by the fund managers for the CAPs’ investment options to cover the costs of managing their respective funds.

This table presents the number of employers eligible to participate in the three defined contribution plans as of December 31, 2023.

Plan	Employers <sup>1</sup>
PERAPlus 401(k) Plan	410
DC Plan	164
PERAPlus 457 Plan	117

<sup>1</sup> This employer count is presented for purposes of complying with GASB 67 only. For all other purposes, the definition of an employer is governed by Title 24, Article 51 of the C.R.S., PERA’s Rules, 8 CCR 1502-1, and, if applicable, the employer’s affiliation agreement with PERA.

**PERAPlus 401(k) Plan**

The PERAPlus 401(k) Plan was established January 1, 1985, and is an IRC § 401(k) plan that allows for voluntary participation to provide additional benefits at retirement for PERA members. All employees working for a PERA-affiliated employer may contribute to the PERAPlus 401(k) Plan.

In 2023, participants could contribute the lesser of \$22,500 (actual dollars) or 100% of compensation less PERA member contributions. Catch-up contributions up to \$7,500 (actual dollars) in 2023 were allowed for participants who had attained age 50 before the close of the plan year, subject to the limitations of IRC § 414(v). Employer matching and discretionary contributions are allowable with total participant and employer contributions limited to \$66,000 (actual dollars) per participant in 2023 (plus catch-up contributions, if applicable).

Provisions of the PERAPlus 401(k) Plan permit in-service withdrawals by participants while employed with a PERA-affiliated employer through loans, hardship withdrawals, or by a trustee-to-trustee transfer to the PERA defined benefit plan to purchase service credit. The balance of outstanding loans as of December 31, 2023, was \$50,121 and was recorded as a benefit receivable on the Statements of Fiduciary Net Position. There were 66,394 participants with balances as of December 31, 2023. During 2023, the PERAPlus 401(k) Plan had a total of 3,298 terminated participants take full distributions of their accounts.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**DC Plan**

The DC Plan was established January 1, 2006, and is an IRC § 401(a) governmental profit-sharing plan. Its purpose is to offer a defined contribution alternative to the PERA defined benefit plan. Participation is available to certain employees of the State or Local Government Divisions, classified employees at State colleges and universities, most community colleges, as well as the District Attorney within each Judicial District, and if authorized by the county and the District Attorney, the attorneys within that Judicial District (see Note 1 for additional details). The eligible employees have the option to choose the PERA defined benefit plan or the DC Plan.

Between the second and fifth year of participation in the DC Plan, eligible participants may elect to terminate membership in the DC Plan and become a member of the PERA defined benefit plan. Similarly, an eligible employee of the PERA defined benefit plan may elect, between the second and fifth year of membership, to terminate membership in the defined benefit plan and become a participant of the DC Plan. Either election is irrevocable.

2023 rates for employer and member contributions deposited to DC Plan participant accounts are shown in the following table:

Trust Fund <sup>1</sup>	Employer Contribution Rate <sup>2,3</sup>	Member Contribution Rate
State Division (members other than Safety Officers) <sup>4</sup>	10.15%	11.00%
State Division (Safety Officers) <sup>4</sup>	12.85%	13.00%
Local Government Division (members other than Safety Officers)	10.00%	9.00%
Local Government Division (Safety Officers) <sup>4</sup>	12.85%	13.00%

<sup>1</sup> See Note 1 for the definition of "Safety Officers".

<sup>2</sup> Employers also contribute the AED and SAED to the respective Division Trust Fund. See Note 4 for additional details on AED and SAED.

<sup>3</sup> Additional employer DC supplement contributions and employer AAP contributions are deposited in the respective Division Trust Fund. See Note 4 for additional information on the DC supplement and AAP.

<sup>4</sup> Additional 0.25% in statutory employer contribution increases are deposited in the respective Division Trust Fund.

DC Plan participants immediately vest in 50% of their employer contributions, together with accumulated investment earnings on the vested portion. For each full year of participation, vesting increases by 10%. Contribution requirements are established under C.R.S. § 24-51-1505.

Provisions of the DC Plan allow for the transfer of DC funds to the PERAPlus 401(k) Plan if a participant is still a PERA member but not active in the DC Plan. Additionally, the election to purchase service credit is available to those who are eligible and who are members of the PERA defined benefit plan with an existing DC Plan account. As of December 31, 2023, the DC Plan had 8,083 participants with balances. During the year, 548 participants took full distributions of their accounts.

**PERAPlus 457 Plan**

On July 1, 2009, PERA assumed the administrative and fiduciary responsibilities for the State of Colorado Deferred Compensation Plan previously administered under C.R.S. Part 1 of Article 52 of Title 24, as said part existed prior to its repeal in 2009.

The PERAPlus 457 Plan is an IRC § 457 plan that allows for voluntary participation to provide additional benefits at retirement. All employees working for a PERA employer affiliated with the PERAPlus 457 Plan may contribute to the PERAPlus 457 Plan.

In 2023, participants could defer the lesser of \$22,500 (actual dollars) or 100% of compensation less PERA member contributions. Catch-up deferrals, up to the greater of \$7,500 (actual dollars) for participants who had attained age 50 before the close of the plan year or the limits of the special section 457 plan catch-up, were allowed in 2023, subject to the limitations of IRC § 414(v) and § 457(b).

Provisions of the PERAPlus 457 Plan permit in-service withdrawals by participants while employed with a PERA-affiliated employer through loans, unforeseen emergency withdrawals, de minimis distributions, or by a trustee-to-trustee transfer to the PERA defined benefit plan to purchase service credit. The balance of outstanding loans as of December 31, 2023, was \$11,487 and was recorded as a benefit receivable on the Statements of Fiduciary Net Position. There were 20,205 participants with balances as of December 31, 2023. During the year, the PERAPlus 457 Plan had a total of 1,061 terminated participants take full distributions of their accounts.

## NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Note 9—Health Care Trust Funds—Defined Benefit Health Care Plans**

PERA offers two defined benefit other postemployment benefit (OPEB) health care plans to benefit recipients and retirees. The HCTF and the DPS HCTF were created under C.R.S. § 24-51-1201(1) and (2), respectively. The HCTF is a cost-sharing multiple-employer plan and the DPS HCTF is a single-employer plan. These funds provide a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans; however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the DPS Division and one or more of the other four divisions, the premium subsidy is allocated between the two Health Care Trust Funds. The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

**PERA Board Authority**

Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare health benefits program, including the administration of the premium subsidies. PERA contracts with health insurance companies to provide fully insured health care plans as well as to administer medical, pharmacy, dental, and vision claims for the self-insured plans.

**Plan Description and Benefit Provisions**

C.R.S. § 24-51-1202 *et seq.* specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

**Membership Eligibility**

Enrollment in the PERACare health benefits program is voluntary and available to the following eligible individuals:

- Benefit recipients and their dependents.

- Guardians of children receiving PERA survivor benefits if the children are enrolled in the health care program.
- Surviving spouses of deceased retirees who chose single-life annuity options, if the surviving spouse was enrolled in the program when the retiree's death occurred.
- Divorced spouses of retirees who are not receiving PERA benefits, but were enrolled in the program when the divorce occurred.
- Members while receiving short-term disability program payments.
- Members whose employers have elected to provide coverage through the health care program and such members' dependents.

**Available Health Care Premium Subsidy****PERA Benefit Structure**

The maximum service-based premium subsidy is \$230 (actual dollars) per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 (actual dollars) per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

**DPS Benefit Structure**

The maximum service-based premium subsidy is \$230 (actual dollars) per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 (actual dollars) per month for retirees who are 65 years of age or older or

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

who are under 65 years of age and entitled to Medicare. The maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 (actual dollars) per month subsidy reduced appropriately for service less than 20 years, as previously described. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

**Contributions**

Contribution requirements are established by statute under C.R.S. § 24-51-208. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA-affiliated employers must submit contributions for all PERA members equal to 1.02% of covered salaries. PERA-affiliated employers of the State Division, School Division, Local Government Division, and Judicial Division contribute to the HCTF. Affiliated employers of the DPS Division contribute to the DPS HCTF.

This table is the number of active participating employers for the two Health Care Trust Funds. Guidance under GASB 74 classifies a primary government and its component units as one employer.

Trust Fund	As of December 31, 2023 <sup>1</sup>
HCTF	409
DPS HCTF	1
<b>Total employers</b>	<b>410</b>

<sup>1</sup> This employer count is presented for purposes of complying with GASB 74 only. For all other purposes, the definition of an employer is governed by Title 24, Article 51 of the C.R.S., PERA's Rules, 8 CCR 1502-1, and, if applicable, the employer's affiliation agreement with PERA.

Employer contributions and investment earnings on the assets primarily pay for the cost of the premium subsidies and the administrative costs incurred by the funds.

**Plan Data**

Benefit recipients and members of PERA consisted of the following as of December 31, 2023:

**MEMBERSHIP—HEALTH CARE TRUST FUNDS<sup>1</sup>**

	HCTF	DPS HCTF	2023
Retirees and beneficiaries <sup>2</sup>	131,237	7,316	<b>138,553</b>
Inactive members eligible but not yet receiving benefits <sup>3</sup>	37,651	3,364	<b>41,015</b>
Active members <sup>3</sup>	197,922	15,626	<b>213,548</b>
<b>Total</b>	<b>366,810</b>	<b>26,306</b>	<b>393,116</b>

<sup>1</sup> Inactive members not eligible for benefits are not included in this membership count.

<sup>2</sup> Currently receiving or eligible for OPEB benefits.

<sup>3</sup> May be eligible for future OPEB benefits.

**PARTICIPATION IN PERACARE HEALTH PLANS FOR ELIGIBLE RETIREES AND BENEFICIARIES**

	HCTF	DPS HCTF	Total
<b>Enrolled in PERACare</b>			
Under age 65	6,636	281	6,917
Age 65 and older	49,616	2,937	52,553
	56,252	3,218	59,470
<b>Not enrolled in PERACare</b>			
Under age 65	16,621	640	17,261
Age 65 and older	58,364	3,458	61,822
	74,985	4,098	79,083
<b>Total eligible retirees and beneficiaries</b>	<b>131,237</b>	<b>7,316</b>	<b>138,553</b>

**Summary of HCTF and DPS HCTF**

PERA offers two general types of health plans: fully insured plans offered through health care organizations and self-insured plans administered by third-party vendors. The plans offered include HMO, PPO, and Medicare Advantage plans.

Premiums collected and payments made are reported in two ways, depending on whether or not the funds bear any level of risk with regard to the health coverage. When there is no transfer of risk to the funds, the premiums collected are reported as a liability and the liability is relieved when the premiums are paid to the health

## NOTES TO THE FINANCIAL STATEMENTS

*(Dollars in Thousands)*

insurance company that provides the fully insured health plan. When there is no health coverage risk, the only benefit payment reported is the subsidy benefit which is equal to the difference between the premiums collected from the enrollees and the full premium due to the health insurance company.

When the health care plan bears risk, all claims paid are reported as benefit payments and premiums collected are reported as a reduction to benefit payments. The health care plan that involves risk to the funds is the self-insured plan administered by UMR, a UnitedHealthcare company. For this plan, the commercial medical and prescription claims are self-insured, while the UnitedHealthcare Medicare Advantage medical and prescription plans are fully insured. Due to PERA's premium structure, the Medicare premiums paid to United are reported as an expense within the plan and included in benefit payments. PERA uses an outside consultant to determine the premiums required to cover anticipated health claims. The cost to the enrollee is reduced by the amount of the enrollee's calculated subsidy, if applicable. Implicit in this process is the risk actual claims experience could be different from the consultant's determination resulting in either a gain or loss to the funds. In addition, other estimates and assumptions are made for these funds. It is possible actual results could significantly differ from these estimates.

### Dental and Vision Plans

Dental and vision plans are also available to benefit recipients. PERA offers fully insured and self-insured dental plans and self-insured vision plans. The funds provide no subsidy and the participants pay the full premiums for dental and vision coverage. For the fully insured dental plan, premiums collected are reported as a liability and the liability is relieved when the premiums are paid to the insurance company who provides the coverage. For this plan, the risk is borne by the insurance company contracted to provide the coverage. The claims paid for the self-insured dental and vision plans are recorded as benefit payments and the premiums collected

are recorded as a reduction to benefit payments. PERA uses an outside consultant to determine the premiums required to cover anticipated claims. The risk to these plans is actual claims experience could be different from the estimates resulting in either a gain or loss to the funds. As of December 31, 2023, there were 69,547 participants enrolled in the dental plans and 56,924 participants enrolled in the vision plans in both the HCTF and the DPS HCTF.

### PERA-Affiliated Employer Program Participation

In addition, fully insured pre-Medicare health plans offered through Kaiser Permanente are available to any PERA-affiliated employer who voluntarily elects to provide health care coverage through the health care plan for its employees who are PERA members. The program acts as a purchaser of private insurance to obtain economies of scale for the employers that elect to join in the joint purchasing arrangement. As of December 31, 2023, there were 13 employers in the program with 189 active members enrolled.

Fully insured dental and vision plans are also available to eligible employees of employers who have elected to provide health care coverage through PERA. As of December 31, 2023, there were 262 participants enrolled in the dental plans and 319 participants enrolled in the vision plans.

The insurance companies, who provide coverage through the program, set the rates for each employer group. There is no transfer of risk to the funds, PERA, or between the participating employers. The funds provide no subsidy and the insurance companies providing the benefits bear the risk for the plans. The participants and/or employers pay the full premiums for the coverage. PERA collects the premiums and remits them to the insurance companies who provide the coverage.

It is under this fully-insured set of plans that PERA offers coverage to members who are receiving short-term disability program payments.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Note 10—Net Pension Liability of the Division Trust Funds**

The components of the net pension liability (NPL) for participating employers for each Division Trust Fund as of December 31, 2023, are as follows:

	State Division	School Division	Local Government Division	Judicial Division	DPS Division
Total pension liability	\$28,382,741	\$50,145,306	\$6,131,113	\$527,319	\$4,994,642
Plan fiduciary net position	18,269,648	32,461,884	5,397,072	453,756	4,346,938
<b>Net pension liability</b>	<b>\$10,113,093</b>	<b>\$17,683,422</b>	<b>\$734,041</b>	<b>\$73,563</b>	<b>\$647,704</b>
Plan fiduciary net position as a percentage of the total pension liability	64.37%	64.74%	88.03%	86.05%	87.03%

**Actuarial Methods and Assumptions**

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. A Schedule of Changes in Net Pension Liability and Related Ratios is included in the Required Supplementary Information (RSI), which follows the Notes to the Financial Statements. It presents multi-year trend information about whether the FNP is increasing or decreasing over time relative to the total pension liability (TPL) for each division. Calculations are based on the benefits provided

under the terms of the substantive plan in effect at the time of each pension actuarial valuation and on the pattern of sharing of costs between employers of each Division Trust Fund and/or plan members to that point. Actuarial calculations reflect a long-term perspective.

The TPL for the Division Trust Funds was determined by actuarial valuations as of December 31, 2022, and generally accepted actuarial techniques were applied to roll forward the TPL to December 31, 2023 (measurement date). The December 31, 2022, actuarial valuations used the following actuarial cost method and key actuarial assumptions and other inputs:

	State Division	School Division	Local Government Division	Judicial Division	DPS Division
Actuarial cost method	Entry age	Entry age	Entry age	Entry age	Entry age
Price inflation	2.30%	2.30%	2.30%	2.30%	2.30%
Real wage growth	0.70%	0.70%	0.70%	0.70%	0.70%
Wage inflation	3.00%	3.00%	3.00%	3.00%	3.00%
Salary increases, including wage inflation:					
Members other than Safety Officers <sup>1</sup>	3.30%-10.90%	3.40%-11.00%	3.20%-11.30%	2.80%-5.30%	3.80%-11.50%
Safety Officers <sup>1</sup>	3.20%-12.40%	N/A	3.20%-12.40%	N/A	N/A
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25%	7.25%	7.25%	7.25%	7.25%
Discount rate	7.25%	7.25%	7.25%	7.25%	7.25%
Post-retirement benefit increases:					
PERA benefit structure hired prior to 1/1/07 and DPS benefit structure (compounded annually)	1.00%	1.00%	1.00%	1.00%	1.00%
PERA benefit structure hired after 12/31/06 <sup>2</sup>	Financed by the AIR	Financed by the AIR	Financed by the AIR	Financed by the AIR	Financed by the AIR

<sup>1</sup> See Note 1 for the definition of "Safety Officers".

<sup>2</sup> Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

As of the December 31, 2023, measurement date, the FNP and related disclosure components for the Local Government Division reflect payments related to the disaffiliation of Tri-County Health Department (Tri-County Health) as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24,000 payment

received on December 4, 2023 and a \$2,000 receivable. The employer disaffiliation payment and receivable allocations to the Local Government Division Trust Fund and HCTF were \$24,967 and \$1,033, respectively.

All mortality assumptions are developed on a benefit-weighted basis and apply generational mortality. Note that in all categories, displayed as follows, the mortality tables are generationally projected using scale MP-2019.

Pre-Retirement	Mortality Table	Adjustments, as Applicable
State and Local Government Divisions (members other than Safety Officers)	PubG-2010 Employee	N/A
Safety Officers	PubS-2010 Employee	N/A
School and DPS Divisions	PubT-2010 Employee	N/A
Judicial Division	PubG-2010(A) Above-Median Employee	N/A
Post-Retirement (Retiree), Non-Disabled	Mortality Table	Adjustments, as Applicable
State and Local Government Divisions (members other than Safety Officers)	PubG-2010 Healthy Retiree	<b>Males:</b> 94% of the rates prior to age 80/ 90% of the rates age 80 and older <b>Females:</b> 87% of the rates prior to age 80/ 107% of the rates age 80 and older
Safety Officers	PubS-2010 Healthy Retiree	N/A
School and DPS Divisions	PubT-2010 Healthy Retiree	<b>Males:</b> 112% of the rates prior to age 80/ 94% of the rates age 80 and older <b>Females:</b> 83% of the rates prior to age 80/ 106% of the rates age 80 and older
Judicial Division	PubG-2010(A) Above-Median Healthy Retiree	N/A
Post-Retirement (Beneficiary), Non-Disabled	Mortality Table	Adjustments, as Applicable
All Beneficiaries	Pub-2010 Contingent Survivor	<b>Males:</b> 97% of the rates for all ages <b>Females:</b> 105% of the rates for all ages
Disabled	Mortality Table	Adjustments, as Applicable
Members other than Safety Officers	PubNS-2010 Disabled Retiree	99% of the rates for all ages
Safety Officers	PubS-2010 Disabled Retiree	N/A

The actuarial assumptions used in the December 31, 2022, valuations were based on the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by the Board on November 20, 2020.

The long-term expected return on plan assets is reviewed as part of regularly scheduled experience studies performed at least every five years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected

return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation. The capital market assumptions may cover a shorter investment horizon and may not be useful in setting the long-term rate of return for funding pension plans, which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected future returns.

The Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting,

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Asset Class	Target Allocation	30-Year Expected Geometric Real Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
<b>Total</b>	<b>100.00%</b>	

Note: In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25%.

**Discount Rate/Single Equivalent Interest Rate**

The projection of cash flows used to determine the discount rate was performed in accordance with GASB 67. The basis for the projection of the liabilities and the FNP was an actuarial valuation performed as of December 31, 2022, and the financial status of the funds as of the current measurement date (December 31, 2023). In addition to the actuarial cost method and assumptions presented earlier, the projection of cash flows applied the following methods and assumptions:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200 and required adjustments resulting from the 2018 and 2020 AAP assessments. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200 and required adjustments resulting from the 2018 and 2020 AAP assessments. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health

care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.

- Employer contributions for the DPS Division Trust Fund are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.
- As specified in law, the State, as a nonemployer contributing entity, will provide an annual direct distribution of \$225,000, commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.
- As of the December 31, 2023, measurement date, the FNP and related disclosure components for the Local Government Division reflect payments related to the disaffiliation of Tri-County Health as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24,000 payment received on December 4, 2023 and a \$2,000 receivable. The employer disaffiliation payment and receivable allocations to the Local Government Division Trust Fund and HCTF were \$24,967 and \$1,033, respectively.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future ADCs assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the FNP position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.
- Beginning with the December 31, 2023, measurement date and thereafter, the FNP as of the current measurement date is used as a starting point for the GASB 67 projection test.

Based on those methods and assumptions and the GASB 67 projection test methodology, the FNP for all Division Trust Funds were projected to be available to make all projected future benefit payments of current plan members and were not projected to reach a depletion date. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the TPL for each

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

fund. The discount rate determination did not use a municipal bond index rate. Therefore, the discount rate used to measure the TPL for these funds as of the measurement date (December 31, 2023) was 7.25%, unchanged from the prior measurement date.

The results of the GASB 67 projection test methodology and development of the discount rate for each fund do not necessarily indicate the fund’s ability to make benefit payments in the future.

**Sensitivity of the Net Pension Liability to Changes in the Discount Rate**

The following tables present the NPL for participating employers for each fund using the current discount rate, as well the fund’s NPL if calculated using a discount rate one percentage point lower or one percentage point higher than the current rate:

Trust Fund	1.0% Decrease in Discount Rate	Net Pension Liability
State Division	6.25%	\$13,217,803
School Division	6.25%	23,645,677
Local Government Division	6.25%	1,438,802
Judicial Division	6.25%	127,122
DPS Division	6.25%	1,276,604

Trust Fund	Current Discount Rate	Net Pension Liability
State Division	7.25%	\$10,113,093
School Division	7.25%	17,683,422
Local Government Division	7.25%	734,041
Judicial Division	7.25%	73,563
DPS Division	7.25%	647,704

Trust Fund	1.0% Increase in Discount Rate	Net Pension Liability
State Division	8.25%	\$7,502,455
School Division	8.25%	12,711,623
Local Government Division	8.25%	143,689
Judicial Division	8.25%	27,734
DPS Division	8.25%	130,008

As shown, if there is a significant deviation, over a long period, in the actual rate of return compared to the assumed discount rate, the measurement of the NPL could be materially under- or over-reported as of December 31, 2023.

**Note 11—Net OPEB Liability of the Health Care Trust Funds**

The components of the net OPEB liability (NOL) or net OPEB asset (NOA) for participating employers for each Health Care Trust Fund as of December 31, 2023, are as follows:

	HCTF	DPS HCTF
Total OPEB liability	\$1,325,637	\$60,343
Plan fiduciary net position	611,911	64,721
<b>Net OPEB liability (asset)</b>	<b>\$713,726</b>	<b>(\$4,378)</b>
Plan fiduciary net position as a percentage of the total OPEB liability	46.16%	107.26%

**Actuarial Methods and Assumptions**

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. A Schedule of Changes in Net OPEB Liability and Related Ratios is included in the RSI, which follows the Notes to the Financial Statements. It presents multi-year trend information about whether the FNP is increasing or decreasing over time relative to the total OPEB liability (TOL) for each trust fund. Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point. Actuarial calculations reflect a long-term perspective.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

The TOL for the Health Care Trust Funds was determined by actuarial valuations as of December 31, 2022, and generally accepted actuarial techniques were applied to roll forward the TOL to December 31, 2023 (measurement

date). The December 31, 2022, actuarial valuations used the following actuarial cost method and key actuarial assumptions and other inputs:

	HCTF				DPS HCTF
	State Division	School Division	Local Government Division	Judicial Division	DPS Division
Actuarial cost method	Entry age				Entry age
Price inflation	2.30%				2.30%
Real wage growth	0.70%				0.70%
Wage inflation	3.00%				3.00%
Salary increases, including wage inflation:					
Members other than Safety Officers <sup>1</sup>	3.30%-10.90%	3.40%-11.00%	3.20%-11.30%	2.80%-5.30%	3.80%-11.50%
Safety Officers <sup>1</sup>	3.20%-12.40%	N/A	3.20%-12.40%	N/A	N/A
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25%				7.25%
Discount rate at measurement date	7.25%				7.25%
Health care cost trend rates					
PERA benefit structure:					
Service-based premium subsidy	0.00%				0.00%
PERACare Medicare plans <sup>2</sup>	7.00% in 2023 gradually decreasing to 4.50% in 2033				7.00% in 2023 gradually decreasing to 4.50% in 2033
Medicare Part A premiums	3.50% in 2023, gradually increasing to 4.50% in 2035				3.50% in 2023, gradually increasing to 4.50% in 2035
DPS benefit structure:					
Service-based premium subsidy	0.00%				0.00%
PERACare Medicare plans	N/A				N/A
Medicare Part A premiums	N/A				N/A

<sup>1</sup> See Note 1 for the definition of "Safety Officers".

<sup>2</sup> UnitedHealthcare MAPD PPO plans are 0% for 2023.

As of the December 31, 2023, measurement date, the FNP and related disclosure components for the HCTF reflect payments related to the disaffiliation of Tri-County Health as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24,000 payment received on December 4, 2023 and a \$2,000 receivable. The employer disaffiliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1,033 and \$24,967, respectively.

Each year the per capita health care costs are developed by plan option; currently based on 2023 premium rates for the UnitedHealthcare Medicare Advantage Prescription Drug (MAPD) PPO plan #1, the UnitedHealthcare MAPD PPO plan #2, and the Kaiser Permanente MAPD HMO plan. Actuarial morbidity factors are then applied to estimate individual retiree and spouse costs by age, gender, and health care cost trend.

This approach applies for all members and is adjusted accordingly for those not eligible for premium-free Medicare Part A for the PERA benefit structure.

**AGE-RELATED MORBIDITY ASSUMPTIONS**

Participant Age	Annual Increase (Male)	Annual Increase (Female)
65-68	2.2%	2.3%
69	2.8%	2.2%
70	2.7%	1.6%
71	3.1%	0.5%
72	2.3%	0.7%
73	1.2%	0.8%
74	0.9%	1.5%
75-85	0.9%	1.3%
86 and older	0.0%	0.0%

NOTES TO THE FINANCIAL STATEMENTS

65	\$1,913	\$1,589	\$6,719	\$5,581
70	2,149	1,778	7,546	6,243
75	2,374	1,869	8,336	6,563

The 2023 Medicare Part A premium is \$506 (actual dollars) per month.

All costs are subject to the health care cost trend rates, discussed as follows.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models, and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2022, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates used to measure the TOL are summarized in the following table:

Year	PERACare Medicare Plans <sup>1</sup>	Medicare Part A Premiums
2023	7.00%	3.50%
2024	6.75%	3.50%
2025	6.50%	3.75%
2026	6.25%	3.75%
2027	6.00%	4.00%
2028	5.75%	4.00%
2029	5.50%	4.00%
2030	5.25%	4.25%
2031	5.00%	4.25%
2032	4.75%	4.25%
2033	4.50%	4.25%
2034	4.50%	4.25%
2035+	4.50%	4.50%

<sup>1</sup> UnitedHealthcare MAPD PPO plans are 0% for 2023.

Mortality assumptions used in the December 31, 2022, valuation for the Division Trust Funds are shown in Note 10 on page 80, and were applied, as applicable, in the December 31, 2022, valuation for the HCTF and DPS HCTF but developed using a headcount-weighted basis. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF. Affiliated employers of the DPS Division participate in the DPS HCTF.

The following health care costs assumptions were updated and used in roll forward calculation for the HCTF and DPS HCTF:

- Per capita health care costs in effect as of the December 31, 2022, valuation date for those PERACare enrollees under the PERA benefit structure who are expected to be age 65 and older and are not eligible for premium-free Medicare Part A benefits were updated to reflect costs for the 2023 plan year.
- The morbidity rates used to estimate individual retiree and spouse costs by age and by gender were updated effective for the December 31, 2022, actuarial valuation. The revised morbidity rate factors are based on a review of historical claims experience by age, gender, and status (active versus retired) from actuary's claims data warehouse.
- The health care cost trend rates applicable to health care premiums were revised to reflect the current expectation of future increases in those premiums.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

These actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by the Board’s actuary.

The actuarial assumptions used in the December 31, 2022, valuations were based on the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by the Board on November 20, 2020.

The long-term expected return on plan assets is reviewed as part of regularly scheduled experience studies performed at least every five years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation. The capital market assumptions may cover a shorter investment horizon and may not be useful in setting the long-term rate of return for funding OPEB plans, which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected future returns.

The Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board’s November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table in Note 10 on page 81.

**Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates**

The following table presents the NOL/NOA using the current health care cost trend rates applicable to the PERA benefit structure, as well as the fund’s NOL/NOA if calculated using health care cost trend rates one percentage point lower or one percentage point higher than the current rates:

	1.0% Decrease in Trend Rates	Current Trend Rates	1.0% Increase in Trend Rates
Initial PERACare Medicare trend rate <sup>1</sup>	5.75%	<b>6.75%</b>	7.75%
Ultimate PERACare Medicare trend rate	3.50%	<b>4.50%</b>	5.50%
Initial Medicare Part A trend rate <sup>1</sup>	2.50%	<b>3.50%</b>	4.50%
Ultimate Medicare Part A trend rate	3.50%	<b>4.50%</b>	5.50%
Net OPEB liability (asset)			
HCTF	\$693,241	<b>\$713,726</b>	\$736,009
DPS HCTF	(4,556)	<b>(4,378)</b>	(4,235)

<sup>1</sup> For the January 1, 2024, plan year.

**Discount Rate/Single Equivalent Interest Rate**

The projection of cash flows used to determine the discount rate was performed in accordance with GASB 74. The basis for the projections of the liabilities and the FNP was an actuarial valuation performed as of December 31, 2022, and the financial status of the fund as of the current measurement date (December 31, 2023). In addition to the actuarial cost method and assumptions presented earlier, the projection of cash flows applied the following methods and assumptions:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2023, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future ADCs assuming an analogous future plan member growth rate.
- Estimated transfers of dollars from the Division Trust Funds into the Health Care Trust Funds representing a portion of purchased service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.
- Beginning with the December 31, 2023, measurement date and thereafter, the FNP as of the current measurement date is used as a starting point for the GASB 74 projection test.
- As of the December 31, 2023, measurement date, the FNP and related disclosure components for the HCTF reflect payments related to the disaffiliation of Tri-County Health as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24,000 payment received on December 4, 2023 and a \$2,000 receivable. The employer disaffiliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1,033 and \$24,967, respectively.

Based on those methods and assumptions and the GASB 74 projection test methodology, the FNP for the HCTF and DPS HCTF were projected to be available to make all projected future benefit payments of current plan members and were not projected to reach a depletion date. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the TOL for each fund. The discount rate determination did not use a municipal bond index rate. Therefore, the discount rate used to measure the TOL for these funds as of the measurement date (December 31, 2023) was 7.25%, unchanged from the prior measurement date.

The results of the GASB 74 projection test methodology and development of the discount rate for each fund do not necessarily indicate the fund’s ability to make benefit payments in the future.

**Sensitivity of the Net OPEB Liability to Changes in the Discount Rate**

The following tables present the NOL/NOA for participating employers for each fund using the current discount rate, as well as the fund’s NOL/NOA if calculated using a discount rate one percentage point lower or one percentage point higher than the current rate:

	1.0% Decrease in Discount Rate	Net OPEB Liability
HCTF	6.25%	\$843,000
DPS HCTF	6.25%	1,780

	Current Discount Rate	Net OPEB Liability (Asset)
HCTF	7.25%	\$713,726
DPS HCTF	7.25%	(4,378)

	1.0% Increase in Discount Rate	Net OPEB Liability (Asset)
HCTF	8.25%	\$603,132
DPS HCTF	8.25%	(9,610)

As shown, if there is a significant deviation, over a long period, in the actual rate of return compared to the assumed discount rate, the measurement of the NOL/NOA could be materially under- or over-reported as of December 31, 2023.

**Note 12—Leases, Capital Assets, and Subscription Liabilities**

**Leases**

Lease receivables are included in other receivables in the Statements of Fiduciary Net Position. PERA, acting as lessor, leases office space at the Pointe Office in Westminster under long-term, non-cancelable lease payments. The agreements range from two years to six years with interest rates between 1.77% and 3.25% and provide for renewal options ranging from one year to six years. During the year ended December 31, 2023, PERA recognized \$378 and \$34 in lease revenue and interest revenue respectively.

NOTES TO THE FINANCIAL STATEMENTS

(Dollars in Thousands)

**Capital Assets**

Capital assets include tangible capital assets and intangible right-to-use assets. PERA has adopted capitalization thresholds to determine whether acquisitions of assets are classified as capital assets or operating expenses.

Tangible capital assets are recorded at cost less accumulated depreciation since acquisition. Depreciation for tangible capital assets is calculated using the straight-line method, with estimated lives ranging from three to 40 years.

Intangible right-to-use assets and related liabilities are recorded at the present value of expected payments over the contract term. Right-to-use assets are amortized using the straight-line method over the contract term or the useful life of the underlying asset, whichever is shortest.

Capital asset balances and activity for the year ended December 31, 2023, is reported below:

**SCHEDULE OF CAPITAL ASSETS**

	December 31, 2022	Increases	Decreases	December 31, 2023
<b>Non-Depreciable Capital Assets</b>				
Land	\$4,283	\$—	(\$240)	\$4,043
Construction in Progress	—	230	—	230
<b>Total Non-Depreciable Capital Assets</b>	<b>4,283</b>	<b>230</b>	<b>(240)</b>	<b>4,273</b>
<b>Capital Assets Being Depreciated or Amortized</b>				
Building and Improvements	37,557	233	(5,885)	31,905
Furnishings, Equipment and Automobiles	3,829	302	(24)	4,107
Intangible Right to Use Assets	—	1,718	—	1,718
<b>Total Capital Assets Being Depreciated or Amortized</b>	<b>41,386</b>	<b>2,253</b>	<b>(5,909)</b>	<b>37,730</b>
<b>Total Capital Assets</b>	<b>45,669</b>	<b>2,483</b>	<b>(6,149)</b>	<b>42,003</b>
<b>Less Accumulated Depreciation or Amortization</b>				
Building and Improvements	(27,436)	(1,215)	5,571	(23,080)
Furnishings, Equipment and Automobiles	(3,176)	(358)	24	(3,510)
Intangible Right to Use Assets	—	(308)	—	(308)
<b>Total Accumulated Depreciation or Amortization</b>	<b>(30,612)</b>	<b>(1,881)</b>	<b>5,595</b>	<b>(26,898)</b>
<b>Total Net Capital Assets</b>	<b>\$15,057</b>	<b>\$602</b>	<b>(\$554)</b>	<b>\$15,105</b>

**Subscription Liabilities**

Starting in the fiscal year ending December 31, 2023, PERA implemented GASB Statement No. 96, which requires the recognition of liabilities related to SBITAs. The liabilities related to these arrangements are included in investment

settlements and other liabilities in the Statements of Fiduciary Net Position, with interest expense recognized over the contract term.

**SCHEDULE OF MINIMUM COMMITMENTS**

Fiscal Year	Principal	Imputed Interest <sup>1</sup>	Total
2024	\$198	\$51	\$249
2025	419	48	467
2026	450	17	467
<b>Total</b>	<b>\$1,067</b>	<b>\$116</b>	<b>\$1,183</b>

<sup>1</sup> PERA used a 3.72% discount rate to calculate the present value of the SBITA liabilities recognized during the fiscal year ended December 31, 2023. The difference between the liability booked to record the present value of these future payment obligations, and the actual lease payments, is reported as interest expense.

## NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)— DIVISION TRUST FUNDS

(Dollars in Thousands)

### Note 1—Significant Changes in Plan Provisions Affecting Trends in Actuarial Information

#### 2023 Changes in Plan Provisions Since 2022

- As of the December 31, 2023, measurement date, the fiduciary net position (FNP) and related disclosure components for the Local Government Division reflect payments related to the disaffiliation of Tri-County Health Department (Tri-County Health) as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24,000 payment received on December 4, 2023 and a \$2,000 receivable. The employer disaffiliation payment and receivable allocations to the Local Government Division Trust Fund and Health Care Trust Fund (HCTF) were \$24,967 and \$1,033, respectively.
- Senate Bill (SB) 23-056, enacted and effective June 2, 2023, intended to recompense PERA for the remaining portion of the \$225,000 direct distribution originally scheduled for receipt July 1, 2020, suspended due to the enactment of House Bill (HB) 20-1379, but not fully repaid through the provisions within HB 22-1029. Pursuant to SB 23-056, the State Treasurer issued a warrant consisting of the balance of the PERA Payment Cash Fund, created in §24-51-416, plus \$10,000 from the General Fund, totaling \$14,561.
- SB 23-163, enacted and effective June 6, 2023, states beginning July 1, 2023, a wildlife officer and a parks and recreation officer employed by the Division of Parks and Wildlife in the Department of Natural Resources, is classified as a "State Trooper" for the purpose of determining their service retirement eligibility.
- As of the December 31, 2023, measurement date, the total pension liability (TPL) recognizes the change in the default method applied for granting service accruals for certain members, from a "12-pay" method to a "non-12-pay" method. The default service accrual method for positions with an employment pattern of at least eight months but fewer than 12 months (including, but not limited to positions in the School and DPS Divisions) receive a higher ratio of service credit for each month worked, up to a maximum of 12 months of service credit per year.
- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the pension certificates of participation (PCOPs) issued in 1997 and 2008 and refinanced thereafter.

#### 2022 Changes in Plan Provisions Since 2021

- HB 22-1029, effective upon enactment in 2022, required the State Treasurer to issue, in addition to the regularly

scheduled \$225,000 direct distribution, a warrant to PERA in the amount of \$380,000 with reductions to future direct distributions. The July 1, 2023, direct distribution will be reduced by \$190,000 to \$35,000. The July 1, 2024, direct distribution will not be reduced from \$225,000 due to a negative investment return in 2022.

- The TPL for the Local Government Division, as of the December 31, 2022, measurement date, was adjusted to reflect the disaffiliation, as allowable under C.R.S. § 24-51-313, of Tri-County Health, effective December 31, 2022. As of the close of the 2022 fiscal year, no disaffiliation payment associated with Tri-County Health was received, and therefore no disaffiliation dollars were reflected in the FNP as of the December 31, 2022, measurement date.
- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.

#### 2021 Changes in Plan Provisions Since 2020

- The following changes reflect the anticipated adjustments resulting from the 2020 automatic adjustment provision (AAP) assessment, statutorily recognized July 1, 2021, and effective July 1, 2022:
  - Member contribution rates increase by 0.50%.
  - Employer contribution rates increase by 0.50%.
  - Annual increase (AI) cap is lowered from 1.25% per year to 1.00% per year.
- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.

#### 2020 Changes in Plan Provisions Since 2019

- HB 20-1379, enacted on June 29, 2020, suspended the \$225,000 direct distribution payable on July 1, 2020 for the State's 2020-21 fiscal year.
- HB 20-1394, enacted on June 29, 2020, requires 5.0% of the Judicial Division base employer contributions rate to be paid by the members of the Judicial Division for the State's 2020-21 and 2021-22 fiscal years. This does not apply to the employer or member contribution rates for judges employed by the Denver County Court.
- SB 18-200 and SB 20-057, enacted in 2018 and 2020, respectively expanded the definition of "State Trooper" under Colorado law as follows:
  - Beginning July 1, 2020, new or existing employees of the Division of Fire Prevention and Control in the Department of Public Safety classified as firefighter I through firefighter VII;

## NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)— DIVISION TRUST FUNDS

(Dollars in Thousands)

- New members hired on or after January 1, 2020, as a county sheriff, undersheriff, deputy sheriff, noncertified deputy sheriff, or detention officer by a Local Government Division employer; and
- New members hired on or after January 1, 2020, as a corrections officer classified as I through IV by a State Division employer.
- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.

### 2019 Changes in Plan Provisions Since 2018

- SB 18-200 was enacted on June 4, 2018, which included the adoption of the AAP. The following changes reflect the anticipated adjustments resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020:
  - Member contribution rates increase by 0.50%.
  - Employer contribution rates increase by 0.50%.
  - AI cap is lowered from 1.50% per year to 1.25% per year.
- HB 19-1217, enacted May 20, 2019, repealed the member contribution increases scheduled for the Local Government Division pursuant to SB 18-200.
- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.

### 2018 Changes in Plan Provisions Since 2017

- The following changes were made to the plan provisions as part of SB 18-200:
  - Member contribution rates increase by 0.75% effective July 1, 2019, an additional 0.75% effective July 1, 2020, and an additional 0.50% effective July 1, 2021.
  - Employer contribution rates increase by 0.25% effective July 1, 2019 for State, School, Judicial, and DPS Divisions.
  - An annual direct distribution of \$225,000 from the State of Colorado, recognized as a nonemployer contributing entity, is distributed between the State, School, Judicial, and DPS Divisions proportionally based on payroll.
  - AI cap is lowered from 2.00% per year to 1.50% per year.
  - Initial AI waiting period is extended from one year after retirement to three years after retirement.
  - AI payments are suspended for 2018 and 2019.

- The number of years used in the Highest Average Salary calculation for non-vested members as of January 1, 2020, increases from three to five years for the State, School, Local Government, and DPS Divisions and increases from one to three years for the Judicial Division.

- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.

### 2017 Changes in Plan Provisions Since 2016

- The Cunningham Fire Protection District (CFPD) disaffiliated from the Local Government Division on December 2, 2017. For the purpose of the December 31, 2017, measurement date, liabilities were determined assuming no additional benefit accruals for the disaffiliated membership of the CFPD that had not refunded their PERA member contribution accounts. The total disaffiliation payment of \$1,159 was allocated to the Local Government Division Trust Fund and the HCTF in the amount of \$1,063 and \$96, respectively.
- Pursuant to HB 17-1265, the amortization equalization disbursement (AED) and supplemental amortization equalization disbursement (SAED) contribution rates are adjusted for employers in the Judicial Division as follows:
  - For the calendar year beginning in 2019, C.R.S. § 24-51-411(4.5) increased the AED payment to 3.40% of PERA-includable salary and requires the AED payment to increase by 0.40% at the start of each of the following four calendar years through 2023 at which time the AED payment will be 5.00% of PERA-includable salary.
  - For the calendar year beginning in 2019, C.R.S. § 24-51-411(7.5) increased the SAED payment to 3.40% of PERA-includable salary and requires the SAED payment to increase by 0.40% at the start of each of the following four calendar years through 2023 at which time the SAED payment will be 5.00% of PERA-includable salary.
- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.

### 2016 Changes in Plan Provisions Since 2015

- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)—  
DIVISION TRUST FUNDS

(Dollars in Thousands)

**2015 Changes in Plan Provisions Since 2014**

- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.
- As required under C.R.S. § 24-51-401(1.7)(e), PERA calculated and provided to the Colorado General Assembly an adjustment to the DPS Division’s employer contribution rate to assure the equalization of the School Division’s and the DPS Division’s ratios of unfunded actuarial accrued liability to payroll as of December 31, 2039. Subsequently, the Colorado General Assembly passed HB 15-1391, reducing the employer contribution rate of the DPS Division from 13.75% to 10.15%, effective January 1, 2015.

**2014 Changes in Plan Provisions Since 2013**

- Actual employer contributions to the DPS Division are reduced by an amount equal to the principal payments plus interest necessary each year to finance the PCOPs issued in 1997 and 2008 and refinanced thereafter.

**Note 2—Significant Changes in Assumptions or Other Inputs Affecting Trends in Actuarial Information**

**2023 Changes in Assumptions or Other Inputs Since 2022**

- There were no changes made to the actuarial methods or assumptions.

**2022 Changes in Assumptions or Other Inputs Since 2021**

- There were no changes made to the actuarial methods or assumptions.

**2021 Changes in Assumptions or Other Inputs Since 2020**

- The assumption used to value the AI cap benefit provision was changed from 1.25% to 1.00%.

**2020 Changes in Assumptions or Other Inputs Since 2019**

- The price inflation assumption was lowered from 2.40% to 2.30%.
- The wage inflation assumption was lowered from 3.50% to 3.00%.
- The real rate of investment return assumption was increased to 4.95% per year, net of investment expenses from 4.85% per year, net of investment expenses.
- Salary scale assumptions were revised to align with revised economic assumptions and to more closely reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.

- The pre-retirement mortality assumption for the State and Local Government Divisions (members other than Safety Officers) was changed to the PubG-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for Safety Officers was changed to the PubS-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for the School and DPS Divisions was changed to the PubT-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for the Judicial Division was changed to the PubG-2010(A) Above-Median Employee Table with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the State and Local Government Divisions (members other than Safety Officers) was changed to the PubG-2010 Healthy Retiree Table, adjusted as follows:
  - **Males:** 94% of the rates prior to age 80 and 90% of the rates for ages 80 and older, with generational projection using scale MP-2019.
  - **Females:** 87% of the rates prior to age 80 and 107% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for Safety Officers was changed to the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the School and DPS Divisions was changed to the PubT-2010 Healthy Retiree Table, adjusted as follows:
  - **Males:** 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older, with generational projection using scale MP-2019.
  - **Females:** 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the Judicial Division was changed to the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019. The post-retirement non-disabled beneficiary mortality assumption for the Division Trust Funds was changed to the Pub-2010 Contingent Survivor Table, adjusted as follows:
  - **Males:** 97% of the rates for all ages, with generational projection using scale MP-2019.

## NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)— DIVISION TRUST FUNDS

(Dollars in Thousands)

- **Females:** 105% of the rates for all ages, with generational projection using scale MP-2019.
- The disabled mortality assumption for the Division Trust Funds (members other than Safety Officers) was changed to the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.
- The disabled mortality assumption for Safety Officers was changed to the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.
- The mortality tables are generational mortality tables developed on a benefit-weighted basis.

### 2019 Changes in Assumptions or Other Inputs Since 2018

- The assumption used to value the AI cap benefit provision was changed from 1.50% to 1.25%.

### 2018 Changes in Assumptions or Other Inputs Since 2017

- The single equivalent interest rate (SEIR) for the State Division was increased from 4.72% to 7.25% to reflect the changes to the projection's valuation basis which no longer resulted in a projected year of depletion of the FNP, thereby eliminating the need to apply the municipal bond index rate.
- The SEIR for the School Division was increased from 4.78% to 7.25% to reflect the changes to the projection's valuation basis which no longer resulted in a projected year of depletion of the FNP, thereby eliminating the need to apply the municipal bond index rate.
- The SEIR for the Judicial Division was increased from 5.41% to 7.25% to reflect the changes to the projection's valuation basis which no longer resulted in a projected year of depletion of the FNP, thereby eliminating the need to apply the municipal bond index rate.

### 2017 Changes in Assumptions or Other Inputs Since 2016

- The SEIR for the State Division was lowered from 5.26% to 4.72% to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate.
- The SEIR for the School Division was lowered from 5.26% to 4.78% to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate.
- The SEIR for the Judicial Division was increased from 5.18% to 5.41% to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate.

- The municipal bond index rate used in the determination of the SEIR for the State, School, and Judicial Divisions changed from 3.86% on the prior measurement date to 3.43% on the measurement date.

### 2016 Changes in Assumptions or Other Inputs Since 2015

- The investment return assumption was lowered from 7.50% to 7.25%.
- The price inflation assumption was lowered from 2.80% to 2.40%.
- The wage inflation assumption was lowered from 3.90% to 3.50%.
- The post-retirement mortality assumption for healthy lives for the State and Local Government Divisions was changed to the RP-2014 Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 73% factor applied to ages below 80 and a 108% factor applied to age 80 and above, projected to 2018, for males, and a 78% factor applied to ages below 80 and a 109% factor applied to age 80 and above, projected to 2020, for females.
- The post-retirement mortality assumption for healthy lives for the School, Judicial, and DPS Divisions was changed to the RP-2014 White Collar Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 93% factor applied to ages below 80 and a 113% factor applied to age 80 and above, projected to 2018, for males, and a 68% factor applied to ages below 80 and a 106% factor applied to age 80 and above, projected to 2020, for females.
- For disabled retirees, the mortality assumption was changed to reflect 90% of RP-2014 Disabled Retiree Mortality Table.
- The mortality assumption for active members was changed to RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70% factor applied to male rates and a 55% factor applied to female rates.
- The rates of retirement, withdrawal, and disability were revised to reflect more closely actual experience.
- The estimated administrative expense as a percentage of covered payroll was increased from 0.35% to 0.40%.
- The SEIR for the State and School Divisions was lowered from 7.50% to 5.26% to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate of 3.86% on the measurement date.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)—  
DIVISION TRUST FUNDS

(Dollars in Thousands)

- The SEIR for the Local Government Division was lowered from 7.50% to 7.25%, reflecting the change in the long-term expected rate of return.
- The SEIR for the Judicial Division was lowered from 5.73% to 5.18% to reflect the changes to the projection’s valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate from 3.57% on the prior measurement date to 3.86% on the measurement date.
- The SEIR for the DPS Division was lowered from 7.50% to 7.25%, reflecting the change in the long-term expected rate of return.

**2015 Changes in Assumptions or Other Inputs Since 2014**

- The SEIR for the Judicial Division was lowered from 6.14% to 5.73% to reflect the changes to the projection’s valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate from 3.70% on the prior measurement date to 3.57% on the measurement date.
- The following programming changes were made:
  - Valuation of the full survivor benefit without any reduction for possible remarriage.
  - Reflection of the employer match on separation benefits for all eligible years.
  - Reflection of one year of service eligibility for survivor annuity benefit.
  - Refinement of the 18-month AI timing.
  - Refinements to directly value certain and life, modified cash refund and pop-up benefit forms.
- The following methodology changes were made:
  - Recognition of merit salary increases in the first projection year.
  - Elimination of the assumption that 35% of future disabled members elect to receive a refund.
  - Removal of the negative value adjustment for liabilities associated with refunds of future terminating members.
  - Adjustments to the timing of the normal cost and UAAL payment calculations to reflect contributions throughout the year.

**2014 Changes in Assumptions or Other Inputs Since 2013**

- The SEIR for the Judicial Division was lowered from 6.66% to 6.14% to reflect the changes to the projection’s valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate from 4.73% on the prior measurement date to 3.70% on the measurement date.

- In 2012, a lawsuit was initiated to determine the amount owed to PERA by Memorial and the City of Colorado Springs (City) for Memorial’s departure from PERA. In September 2014, PERA and the City agreed to resolve the lawsuit. The agreement provided for the City to pay PERA \$190,000 for the liabilities associated with the retirement and health care benefits already earned by 7,666 Memorial employees for the work they performed before Memorial ceased to be a PERA employer. On October 3, 2014, PERA received a disaffiliation payment from the City, which was allocated to the Local Government Division Trust Fund and the HCTF in the amount of \$186,006 and \$3,994, respectively.

**Note 3—Methods and Assumptions Used in Calculations of ADC**

The ADC rates, as a percentage of covered payroll, used to determine the ADC amounts in the Schedule of Employer and Nonemployer Contributions are calculated as of December 31, two years prior to the end of the year in which ADC amounts are reported. The following actuarial methods and assumptions from the December 31, 2021, actuarial valuation were used to determine contribution rates reported in that schedule for the year ending December 31, 2023:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll
Amortization period	30 years, closed, layered <sup>1</sup>
	24 years (25 years for Judicial and DPS Divisions, 26 years for School Division)
Equivalent single amortization period	
Asset valuation method	4-year smoothed market
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increases, including wage inflation	2.80% to 12.40% <sup>2</sup>
Long-term investment rate of return, net of pension plan investment expense, including price inflation	7.25%
Future post-retirement benefit increases	
PERA benefit structure hired prior to 1/1/07 and DPS benefit structure	1.00% compounded annually
PERA benefit structure hired after 12/31/06	0.00%, as financed by the AIR

<sup>1</sup> Effective with the December 31, 2014, actuarial valuation, gains and losses are to be amortized over a closed period.

<sup>2</sup> Salary increase range varies by Division Trust Fund.

The accompanying notes are an integral part of the Required Supplementary Information.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)—  
HEALTH CARE TRUST FUNDS

(Dollars in Thousands)

**Note 1—Significant Changes in Plan Provisions Affecting Trends in Actuarial Information**

**2023 Changes in Plan Provisions Since 2022**

- As of the December 31, 2023, measurement date, the fiduciary net position (FNP) and related disclosure components for the Health Care Trust Fund (HCTF) reflect payments related to the disaffiliation of Tri-County Health Department (Tri-County Health) as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24,000 payment received on December 4, 2023 and a \$2,000 receivable. The employer disaffiliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1,033 and \$24,967, respectively.

**2022 Changes in Plan Provisions Since 2021**

- The total OPEB liability for the HCTF, as of the December 31, 2022, measurement date, was adjusted to reflect the disaffiliation, allowable under C.R.S. § 24-51-313, of Tri-County Health, effective December 31, 2022. As of the close of the 2022 fiscal year, no disaffiliation payment associated with Tri-County Health was received, and therefore no disaffiliation dollars were reflected in the FNP as of the December 31, 2022, measurement date.

**2021 Changes in Plan Provisions Since 2020**

- There were no changes made to plan provisions.

**2020 Changes in Plan Provisions Since 2019**

- There were no changes made to plan provisions.

**2019 Changes in Plan Provisions Since 2018**

- There were no changes made to plan provisions.

**2018 Changes in Plan Provisions Since 2017**

- There were no changes made to plan provisions.

**2017 Changes in Plan Provisions Since 2016**

- The Cunningham Fire Protection District (CFPD) disaffiliated from the Local Government Division, thereby ending participation in the HCTF on December 2, 2017. For the purpose of disclosure as of the December 31, 2017, measurement date, liabilities were determined assuming no additional service accruals impacting possible future premium subsidies for the disaffiliated membership of the CFPD that had not refunded their PERA member contribution accounts. The total disaffiliation payment of \$1,159 was allocated to the Local Government Division Trust Fund and the HCTF in the amount of \$1,063 and \$96, respectively.

**2016 Changes in Plan Provisions Since 2015**

- There were no changes made to plan provisions.

**2015 Changes in Plan Provisions Since 2014**

- There were no changes made to plan provisions.

**2014 Changes in Plan Provisions Since 2013**

- There were no changes made to plan provisions.

**Note 2—Significant Changes in Assumptions or Other Inputs Affecting Trends in Actuarial Information**

**2023 Changes in Assumptions or Other Inputs Since 2022**

- There were no changes made to the actuarial methods or assumptions.

**2022 Changes in Assumptions or Other Inputs Since 2021**

- The timing of the retirement decrement was adjusted to middle-of-year.

**2021 Changes in Assumptions or Other Inputs Since 2020**

- There were no changes made to the actuarial methods or assumptions.

**2020 Changes in Assumptions or Other Inputs Since 2019**

- The price inflation assumption was lowered from 2.40% to 2.30%.
- The wage inflation assumption was lowered from 3.50% to 3.00%.
- The real rate of investment return assumption was increased to 4.95% per year, net of investment expenses from 4.85% per year, net of investment expenses.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The pre-retirement mortality assumption for the State and Local Government Divisions (members other than Safety Officers) was changed to the PubG-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for Safety Officers was changed to the PubS-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for the School and DPS Divisions was changed to the PubT-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for the Judicial Division was changed to the PubG-2010(A) Above-Median Employee Table with generational projection using scale MP-2019.

## NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)— HEALTH CARE TRUST FUNDS

(Dollars in Thousands)

- The post-retirement non-disabled mortality assumption for the State and Local Government Divisions (members other than Safety Officers) was changed to the PubG-2010 Healthy Retiree Table, adjusted as follows:
    - **Males:** 94% of the rates prior to age 80 and 90% of the rates for ages 80 and older, with generational projection using scale MP-2019.
    - **Females:** 87% of the rates prior to age 80 and 107% of the rates for ages 80 and older, with generational projection using scale MP-2019.
  - The post-retirement non-disabled mortality assumption for Safety Officers was changed to the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.
  - The post-retirement non-disabled mortality assumption for the School and DPS Divisions was changed to the PubT-2010 Healthy Retiree Table, adjusted as follows:
    - **Males:** 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older, with generational projection using scale MP-2019.
    - **Females:** 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older, with generational projection using scale MP-2019.
  - The post-retirement non-disabled mortality assumption for the Judicial Division was changed to the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019.
  - The post-retirement non-disabled beneficiary mortality assumption for the Division Trust Funds was changed to the Pub-2010 Contingent Survivor Table, adjusted as follows:
    - **Males:** 97% of the rates for all ages, with generational projection using scale MP-2019.
    - **Females:** 105% of the rates for all ages, with generational projection using scale MP-2019.
  - The disabled mortality assumption for the Division Trust Funds (members other than Safety Officers) was changed to the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.
  - The disabled mortality assumption for Safety Officers was changed to the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.
  - The mortality tables are generational mortality tables developed on a head-count weighted basis.
- 2019 Changes in Assumptions or Other Inputs Since 2018**
- There were no changes made to the actuarial methods or assumptions.
- 2018 Changes in Assumptions or Other Inputs Since 2017**
- There were no changes made to the actuarial methods or assumptions.
- 2017 Changes in Assumptions or Other Inputs Since 2016**
- There were no changes made to the actuarial methods or assumptions.
- 2016 Changes in Assumptions or Other Inputs Since 2015**
- The following methodology change was made:
    - The Entry Age Normal actuarial cost method allocation basis has been changed from a level dollar amount to a level percentage of pay.
  - The following changes were made to the actuarial assumptions:
    - The investment rate of return assumption decreased from 7.50% to 7.25%.
    - The price inflation assumption decreased from 2.80% to 2.40%
    - The wage inflation assumption decreased from 3.90% to 3.50%.
    - The mortality assumption for active members was changed to RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70% factor applied to male rates and a 55% factor applied to female rates.
    - The post-retirement mortality assumption for healthy lives for the State and Local Government Divisions was changed to the RP-2014 Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 73% factor applied to ages below 80 and a 108% factor applied to age 80 and above, projected to 2018, for males, and a 78% factor applied to ages below 80 and a 109% factor applied to age 80 and above, projected to 2020, for females.
    - The post-retirement mortality assumption for healthy lives for the School, Judicial, and DPS Divisions was changed to the RP-2014 White Collar Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 93% factor applied to ages below 80 and a 113% factor applied to age 80 and above, projected to 2018, for males, and a 68% factor applied to ages below 80 and a 106% factor applied to age 80 and above, projected to 2020, for females.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)—  
HEALTH CARE TRUST FUNDS

(Dollars in Thousands)

- For disabled retirees, the mortality assumption was changed to reflect 90% of RP-2014 Disabled Retiree Mortality Table.
- The assumed rates of withdrawal, retirement, and disability have been adjusted to more closely reflect experience.
- The assumed rates of PERACare participation have been revised to reflect more closely actual experience.
- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits have been updated to reflect the change in costs for the 2017 plan year.
- The percentage of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage have been revised to reflect more closely actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage has been revised to reflect more closely actual experience.
- The health care cost trend rates for Medicare Part A premiums have been revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- Assumed election rates for the PERACare coverage options available to future PERACare enrollees who will qualify for the “No Part A Subsidy” when they retire have been revised to more closely reflect actual experience.
- Assumed election rates for the PERACare coverage options available to those current PERACare enrollees, who qualify for the “No Part A Subsidy” but have not reached age 65, have been revised to more closely reflect actual experience.
- The rates of PERACare coverage election for spouses of eligible inactive members and future retirees was revised to reflect more closely actual experience.
- The assumed age differences between future retirees and their participating spouses have been revised to reflect more closely actual experience.

**2015 Changes in Assumptions or Other Inputs Since 2014**

- The following methodology changes were made:
  - Rates of morbidity to model the growth in assumed claims as a PERACare enrollee ages have been added to the process used to project per capita health care

costs of those PERACare enrollees under the PERA benefit structure who have attained age 65 and older and are not eligible for premium-free Medicare Part A benefits.

- Adjustments were made to the timing of the normal cost and unfunded actuarial accrued liability (UAAL) payment calculations to reflect contributions throughout the year.
- The following changes were made to the actuarial assumptions:
  - The percentage of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage have been revised to more closely reflect actual experience.
  - Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits have been updated to reflect the change in costs for the 2016 plan year.
  - The health care cost trend rates for Medicare Part A premiums have been revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

**2014 Changes in Assumptions or Other Inputs Since 2013**

- The following change was made to the actuarial assumptions:
  - Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits have been updated to reflect the change in costs for the 2015 plan year.
- The following other change was made:
  - In 2012, a lawsuit was initiated to determine the amount owed to PERA by Memorial and the City of Colorado Springs (City) for Memorial’s disaffiliation from PERA. In September 2014, PERA and the City agreed to resolve the lawsuit. The agreement provided for the City to pay PERA \$190,000 for the liabilities associated with the retirement and health care benefits already earned by 7,666 Memorial employees for the work performed before Memorial ceased to be a PERA employer. On October 3, 2014, PERA received a disaffiliation payment from the City, which was allocated to the Local Government Division Trust Fund and the HCTF in the amount of \$186,006 and \$3,994, respectively.

HEALTH CARE TRUST FUNDS

(Dollars in Thousands)

**Note 3—Methods and Assumptions Used in  
Calculations of ADC**

The ADC rates, as a percentage of covered payroll, used to determine the ADC amounts in the Schedule of Employer Contributions are calculated as of December 31, two years prior to the end of the year in which ADC amounts are reported. The following actuarial methods and assumptions from the December 31, 2021, actuarial valuation were used to determine contribution rates reported in that schedule for the year ending December 31, 2023:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll
Amortization period	30 years, closed, layered <sup>1</sup>
Asset valuation method	4-year smoothed market
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increases, including wage inflation	3.00% in aggregate
Long-term investment rate of return, net of OPEB plan investment expense, including price inflation	7.25%
Health care inflation factors	
PERA benefit structure:	
Service-based premium subsidy	0.00%
Medicare Part A premiums <sup>2</sup>	3.75% initial 4.50% ultimate
Carrier premiums <sup>2,3</sup>	6.50% initial 4.50% ultimate
DPS benefit structure:	
Service-based premium subsidy	0.00%
Medicare Part A premiums	N/A
Carrier premiums	N/A

<sup>1</sup> Effective with the December 31, 2017, actuarial valuation, gains and losses are to be amortized over a closed period.

<sup>2</sup> The Medicare Part A and carrier premiums only apply to calculation of the implicit subsidy applicable to the PERA benefit structure.

<sup>3</sup> UnitedHealthcare MAPD PPO plans are 0% for 2022 and 2023.

DEFINED BENEFIT PLANS

CHIEF INVESTMENT OFFICER LETTER

June 21, 2024

**Dear Colorado PERA Stakeholders:**

The focus of the Public Employees' Retirement Association of Colorado (PERA) is on providing benefits for nearly 700,000 members, retirees, and beneficiaries who rely on PERA for a secure retirement. This purpose drives us to strive for the best risk-adjusted returns possible. In addition, by combining experienced in-house management with skilled external advisors, we achieve that performance at a cost that is among the lowest in our industry. This combination of factors has contributed to PERA remaining on target to achieve its long-term funding goal.

Over the 30-year period ending December 31, 2023, the portfolio returned 8.3% (gross-of-fees), above the assumed rate of return of 7.25%. Positive portfolio performance in 2023 increased plan assets by \$5.6 billion with the total defined benefit investment portfolio ending the year at \$61.5 billion. Overviews of 2023 performance for the total portfolio and each asset class appear below.

The Board of Trustees (Board) approved strategic asset allocation policy, determined by a comprehensive asset/liability study completed in 2019, is the major driver of our long-term performance. In 2023, we started updating the asset/liability study and will complete it in 2024. The resulting strategic asset allocation policy will guide long-term performance while balancing expected return and risk in a diversified portfolio.

Our employees remain steadfast in advancing the organization's goals, with several multi-year projects continuing to progress in 2024. PERA is modernizing several of our investment systems, bringing improved data management and investment capabilities to the organization. We continue to make progress on unitizing the defined benefit plan with the fixed income pool being the first to move to this new structure, and equities anticipated in early 2025. This project may expand participants' access to an even more diverse lineup of low-cost investment options in the Capital Accumulation Plans (CAPs).

PERA remains committed to actively engaging with our constituents and adapting to the evolving needs of today's retirees and tomorrow's workforce. We are honored to serve our members and are dedicated to ensuring stable retirement income for generations of Coloradans.

**Total Portfolio Performance**

Global markets enjoyed a welcomed rebound in 2023 with major stock and bond indices up across nearly all regions and asset classes. PERA's performance was driven by double-digit returns in domestic equity (MSCI USA IMI +25.6%) and international equity (MSCI ACWI ex U.S. IMI +15.6%) with fixed income contributing healthy positive returns following consecutive years of negative performance (Bloomberg U.S. Aggregate +5.5%).

A resilient workforce and easing inflation helped support the markets in 2023. The U.S. consumer continued to spend as wage growth finally outpaced inflation, allowing real wages to rise. The Federal Reserve (Fed) raised rates in smaller quarter point increments four times throughout 2023 with only one rate increase in the second half of the year, contributing to an expectation of rate cuts in 2024. This mix of consumer confidence and the Fed's target inflation rate being approached raised the probability of a smooth landing for the economy and hopes of avoiding a recession.

Long-term relative outperformance has been anchored by PERA's low-cost internal management of public equity and fixed income assets and the Board's strategic asset allocation policy. The equity portfolio's high quality tilt contributed to strong returns as these holdings have outperformed, while historically low interest rates and accommodative monetary policy boosted fixed income performance over the last decade. Private asset performance was helped by these same forces and generally outperformed public markets.

**Amy C. McGarrity**  
Chief Investment Officer/  
Chief Operating Officer

## DEFINED BENEFIT PLANS

For the year ended December 31, 2023, PERA's total fund returned 13.4%, compared to the policy benchmark's return of 14.4%. PERA's policy benchmark is a passive representation of the asset allocation policy adopted by the Board. The total fund has outperformed the policy benchmark over the three-, five-, and 10-year periods (4.5% versus 3.9%, 10.0% versus 8.9%, and 7.8% versus 6.9%, for the three-, five-, and 10-year periods, respectively).

The total fund 2023 return of 13.4% underperformed a hypothetical portfolio consisting of 60% global equities, based on the MSCI ACWI IMI, and 40% fixed income, based on the Bloomberg U.S. Aggregate Bond Index, which collectively returned 15.2%. The total fund has performed better than this hypothetical portfolio over the three-, five-, and 10-year periods (4.5% versus 2.2%, 10.0% versus 7.7%, and 7.8% versus 5.8%, for the three-, five-, and 10-year periods, respectively). The total fund 2023 return of 13.4% outperformed the BNY Mellon Performance & Risk Analytics in conjunction with the Investment Metrics Median Public Fund Universe return of 10.9%. As of December 31, 2023, this universe was comprised of 108 public pension funds with assets of approximately \$2.4 trillion. The total fund has performed better than this universe median over the one-, three-, five-, and 10-year periods.

### Global Equity

The global stock market rallied in 2023 as there was growing consensus the Fed had raised interest rates for the last time at its July 2023 meeting. The expectation the Fed would pivot to rate cuts in 2024 calmed investors' hard-landing fears and gave way to a broader economic soft-landing scenario. The excitement over artificial intelligence (AI) helped power select stocks to new highs with the "Magnificent Seven" replacing FAANG as the favored nickname for the market's leaders. Over the last 10 years, as interest rates remained relatively low, growth-oriented stocks have trounced value stocks. Portfolio returns were also aided by the strong performance of large cap U.S. stocks relative to small cap and international equities.

PERA's Global Equity portfolio returned 23.8%, outperforming its custom benchmark's return of 21.9%. The Global Equity portfolio has outperformed its custom benchmark over the one-, five-, and 10-year periods and trailed over the three-year period.

### Fixed Income

The Fed raised rates an additional 100 basis points (bps) in 2023 to a range of 5.25% to 5.50% to combat above-target inflation. The personal consumption expenditure (PCE) index gradually declined from a generational high but remained slightly above the Fed's 2% target at year end. Elevated rates propped up the 10-year Treasury with yields fluctuating between a low of 3.3% during the regional bank scare in April 2023 and a high of 4.9% in October 2023. Fixed income markets experienced significant volatility in the run up to the pandemic and through 2023. The Fed lowered rates to a range of 0% to 0.25% in 2020 and resumed a quantitative easing program that increased their balance sheet to \$9 trillion, pushing 10-year Treasury yields down to 0.50%. As the global economy emerged from the pandemic, the world was significantly undersupplied in goods and services leading to elevated inflation levels and a rapid unwinding of accommodative monetary policy. Longer-term, large fiscal deficits and rising inflation have led to higher bond yields with the Bloomberg U.S. Aggregate Bond Index up 1.8% over the last 10 years.

PERA's Fixed Income portfolio returned 6.2%, outperforming its custom benchmark's return of 5.5%. The Fixed Income portfolio has outperformed its custom benchmark over the one-, three-, five-, and 10-year periods.

### Private Equity

Despite a relatively strong 2023 in terms of dollars raised by private equity (PE) sponsors, capital scarcity led to extended fundraising timelines and volume, as a larger proportion of capital raised went to larger, well-established funds. Recent interest rate increases tempered valuations and debt levels for PE-backed investments. Initial public offering (IPO) exits remained anemic, reaching their lowest level in over a decade. Deal activity, exit activity, and valuations have trended downward since 2021 with exit activity reaching its lowest level in 10 years, while deal activity remained robust relative to 10-year averages. Debt levels steadily increased over the last few years but have since decreased and returned to 10-year averages.

PERA's Private Equity portfolio returned 4.7%, compared with its custom benchmark's return of 23.4%. The Private Equity portfolio has outperformed its custom benchmark over the three-year period and trailed over the one-, five-, and 10-year periods. The ultimate goal of private equity is to outperform public equities over the long term. As such, the PE benchmark is the Global Equities benchmark plus a premium (the premium is designed to "compensate" for opacity, illiquidity, etc). Global equities had a very strong year in 2023, as discussed previously, with the benchmark up just under 22%. Over the past 10 years, the Private Equity portfolio has outperformed the Global Equity custom benchmark by 4.1%. The portfolio's since inception internal rate of return as of December 31, 2023, was 10.7% compared to its custom benchmark's since inception internal rate of return of 6.9%.

### DEFINED BENEFIT PLANS

#### Real Estate

A rising interest rate environment adversely impacted real asset valuations. Uncertainty in pricing metrics and capital availability drove many investors to the sideline, leading to fewer transactions and smaller buyer/seller pools. Although there was limited optimism toward the end of 2023 and some investors became more involved, activity was still depressed with total 2023 volume at the lowest level in 10 years. The Real Estate portfolio has been aided by implementation of a long-term holding strategy and has benefited from property fundamentals, stabilized cash flows, and a strategic overweight to industrial and multifamily assets, while underweighting office and retail. The long-term strategy has been implemented through a strategic shift to direct investing allowing for greater control and decision rights over assets, allowing capital to remain invested longer and reducing the drag often associated with cycling in and out of investments.

PERA's Real Estate portfolio returned negative 9.9%, outperforming its custom benchmark's return of negative 12.2%. The Real Estate portfolio has outperformed its custom benchmark over the one-, three-, five-, and 10-year periods.

#### Alternatives

All sub-portfolios earned positive returns in 2023. The opportunistic and real asset portfolios trailed their benchmarks for the year, while the risk mitigation portfolio outperformed its benchmark. The opportunistic portfolio benefited from strong performance within private credit and special situations due to higher interest rates on new credit issuances and moderating inflation, while returns for tactical strategies were muted due to subdued merger and acquisition volume and fewer than expected distressed opportunities. Strong performance from infrastructure, leasing, and secondaries in the real assets portfolio was offset by disappointing returns from agriculture, which faced rising input costs and unfavorable supply and demand conditions. Within the risk mitigation portfolio, multi-strategy funds took advantage of more return dispersion between asset classes and securities, while global macro funds lagged other strategies due to trend reversals across several markets. Over the last 10 years, opportunistic strategies produced the highest returns and were able to take advantage of periodic market dislocations, which created opportunities to deploy capital at attractive prices. Real assets have generated solid absolute returns with strong demand for tangible assets, providing consistent returns with high yields and long-term contracted revenue streams. Risk mitigation funds have earned meaningful excess returns by capitalizing on higher levels of volatility and extreme market moves.

PERA's Alternatives portfolio returned 7.8%, compared with its custom benchmark's return of 9.4%. The Alternatives portfolio has outperformed its custom benchmark over the three- and 10-year periods and trailed over the one- and five-year periods.

Sincerely,

*Amy C. McGarrity*  
Chief Investment Officer/Chief Operating Officer  
Colorado PERA

## DEFINED BENEFIT PLANS

## REPORT ON INVESTMENT ACTIVITY

(The Report on Investment Activity was prepared by internal staff.)

The Division Trust Funds, the Health Care Trust Funds, and the Life Insurance Reserve are included in the information discussed in this subsection on Colorado PERA's defined benefit plans.

## State Law

State law gives complete responsibility for the investment of PERA's funds to the Board, with some stipulations including:

- The aggregate amount of moneys invested in corporate stocks or corporate bonds, notes, or debentures, which are convertible into corporate stock or in investment trust shares cannot exceed 65% of the then book value of the fund.
- No investment of the fund in common or preferred stock, or both, of any single corporation can exceed 5% of the then book value of the fund.
- The fund cannot acquire more than 12% of the outstanding stock or bonds of any single corporation.
- The origination of mortgages or deeds of trust on real residential property is prohibited.

Additionally, Colorado Revised Statutes (C.R.S.) § 24-54.8-201 *et seq.* imposes targeted divestment from companies that have economic prohibitions against Israel.

## PERA Board's Statutory Fiduciary Responsibility

By State law, the management of PERA's retirement fund is vested in the Board who is held to the standard of conduct of fiduciaries in discharging their responsibilities. According to C.R.S. § 24-51-207(2), the Board, as fiduciaries, must carry out their functions solely in the interest of PERA members and benefit recipients and for the exclusive purpose of providing benefits.

## Goal

The function of PERA is to provide present and future retirement or survivor benefits for its members. The investment function is managed in a manner to promote long-term financial security for our membership while maintaining the stability of the fund.

## Overview of Investment Policy

PERA's investment policy outlines the investment philosophy and guidelines within which the fund's investments will be managed, and includes the following:

- Strategic asset allocation is the most significant factor influencing long-term investment performance and asset volatility.

- The fund's liabilities are long term and the investment strategy will therefore be long term in nature.
- The asset allocation policy will be periodically re-examined to ensure its appropriateness to the then-prevailing liability considerations.
- As a long-term investor, PERA will invest across a wide spectrum of investments in a prudent manner.
- Active management may be expected to add value over passive investment alternatives under appropriate conditions.

The Board determines the strategic asset allocation for the fund. This strategic asset allocation contains a long-term target allocation and specific ranges within which each asset class may operate. Because the long-term target allocation will be achieved over time, a yearly policy benchmark weight is also specified. For 2023 the fund achieved the long-term target allocation. The asset allocation targets and ranges in effect for 2023 are listed as follows:

ASSET ALLOCATION TARGETS AND RANGES<sup>1</sup>

	2023 Policy Benchmark Weight	Long-Term Asset Allocation Target	Target Range
Global Equity	54.0%	54.0%	48.0% – 60.0%
Fixed Income	23.0%	23.0%	18.0% – 28.0%
Private Equity	8.5%	8.5%	4.0% – 13.0%
Real Estate	8.5%	8.5%	4.0% – 13.0%
Alternatives	6.0%	6.0%	0.0% – 12.0%
Cash and Short-Term Investments	0.0%	0.0%	0.0% – 3.0%

<sup>1</sup> See Note 5 of the Notes to the Financial Statements in the Financial Section for detailed disclosures about each asset class.

The asset allocation policy is determined by an intensive asset/liability study which considers expected investment returns, risks, and correlations of returns. The characteristics of the fund's liabilities are analyzed in conjunction with expected investment risks and returns. The targeted strategic asset allocation is designed to provide appropriate diversification and to balance the expected total rate of return with the volatility of expected returns, while ensuring an appropriate level of risk is incurred. The Board commissioned an asset/liability study during 2019, which was prepared by Aon Investments USA Inc. (Aon). The objective of the study was to determine the optimal strategic asset allocation that will ultimately allow PERA to meet its financial obligations, while also ensuring that PERA incurs appropriate levels of risk and liquidity. As a result of this study, the Board slightly modified the asset allocation ranges and targets effective January 1, 2020, while reaffirming the investment return assumption of 7.25%. PERA is undergoing an asset/liability study which is scheduled to be completed in 2024.

### DEFINED BENEFIT PLANS

The asset allocation targets are adhered to through the implementation of portfolio rebalancing. Investments are managed and monitored in a manner which seeks to balance return and risk within the asset/liability framework. The Chief Investment Officer is authorized to execute investment transactions on behalf of the Board. Assets are managed both internally and externally. In making investment decisions, the Board and staff utilize external experts in various fields.

#### Basis of Presentation

Aon, the Board's Investment Performance consultant, provides the investment returns for the fund based on data made available by the fund's custodian, The Northern Trust Company (Northern Trust). Performance calculations were prepared using time-weighted rates of return and are net-of-fees unless otherwise indicated. Returns for periods longer than one year are annualized.

#### Investment Stewardship

It is the fiduciary duty of the Board and Investment staff to manage plan assets with prudence and care in pursuit of long-term financial sustainability for the benefit of members and plan participants. PERA staff demonstrate stewardship of plan assets by: protecting members' interests through cost-conscious investments; integrating financially material factors into investment decisions; advocating for robust market practices that support long-term value; and evaluating portfolio exposures and performance on an ongoing basis.

Investment staff initiatives and philosophy supporting the pursuit of financial sustainability through stewardship are discussed in greater detail in PERA's *Investment Stewardship Report*. The *Investment Stewardship Report* is updated annually, and can be found on PERA's website at [copera.org](http://copera.org).

#### Proxy Voting

As part of investment stewardship, PERA promotes corporate governance and other business practices expected to contribute to financial sustainability through proxy voting. The Board views the right to vote as an asset of the plans to be managed under fiduciary duty, and has charged the Investment Committee with oversight in fulfilling that responsibility.

The Board and the Investment Committee have delegated to Investment Stewardship Division staff the authority to review and vote on proxy proposals in compliance with PERA's *Proxy Voting Policy (Policy)*. Accordingly, staff vote proxies for domestic and international equity shares held in separately managed public market portfolios.

The *Policy* sets forth guidance on a broad range of issues that may present risks and opportunities for the public companies in which PERA invests. The Board regularly updates the *Policy* in seeking alignment of corporate management interests with the interests of long-term shareholders, as relevant to PERA's investment thesis. The *Policy* and a link to disclosure of votes cast can be viewed on PERA's website at [copera.org](http://copera.org).

## DEFINED BENEFIT PLANS

Aon provides the investment returns for the fund based on data made available by Northern Trust. The annualized one-, three-, five-, and 10-year net-of-fees time-weighted rates of return for each asset class and their respective benchmarks are as follows:

ICE BofAML U.S. 3-Month Treasury Bill Index	5.0%	2.2%	1.9%	1.3%

Note: Performance calculations were prepared using net-of-fees time-weighted rates of return.

<sup>1</sup> The PERA Board adopted benchmarks beginning April 1, 2004, for each of the various asset classes. The adopted benchmarks have changed over time and, accordingly, the benchmark returns presented represent a blend, as follows:

- The Total Fund Policy Benchmark—A combination of 54.0% of the Global Equity Custom Benchmark, 23.0% of the Fixed Income Custom Benchmark, 8.5% of the Private Equity Custom Benchmark, 8.5% of the Real Estate Custom Benchmark, and 6.0% of the Alternatives Custom Benchmark. Prior to January 2023, 55.0% of the Global Equity Custom Benchmark, 23.5% of the Fixed Income Custom Benchmark, 8.5% of the Private Equity Custom Benchmark, 8.5% of the Real Estate Custom Benchmark, and 4.5% of the Alternatives Custom Benchmark. Prior to January 2022, 55.5% of the Global Equity Custom Benchmark, 23.5% of the Fixed Income Custom Benchmark, 8.5% of the Private Equity Custom Benchmark, 8.5% of the Real Estate Custom Benchmark, and 4.0% of the Alternatives Custom Benchmark. Prior to January 2021, 56.0% of the Global Equity Custom Benchmark, 23.5% of the Fixed Income Custom Benchmark, 8.5% of the Private Equity Custom Benchmark, 8.5% of the Real Estate Custom Benchmark, and 3.5% of the Alternatives Custom Benchmark. Prior to January 2020, 53.5% of the Global Equity Custom Benchmark, 23.5% of the Fixed Income Custom Benchmark, 8.5% of the Private Equity Custom Benchmark, 8.5% of the Real Estate Custom Benchmark, 5.0% of the Alternatives Custom Benchmark, and 1.0% of the ICE BofAML U.S. 3-Month Treasury Bill Index. Prior to July 2016, 55.0% of the Global Equity Custom Benchmark, 24.0% of the Fixed Income Custom Benchmark, 7.5% of the Real Estate Custom Benchmark, 7.5% of the Private Equity Custom Benchmark, 5.0% of the Alternatives Custom Benchmark, and 1.0% of the ICE BofAML U.S. 3-Month Treasury Bill Index. Prior to July 2015, 56.0% of the Global Equity Custom Benchmark, 25.0% of the Fixed Income Custom Benchmark, 7.0% of the Real Estate Custom Benchmark, 7.0% of the Private Equity Custom Benchmark, and 5.0% of the Alternatives Custom Benchmark.

<sup>2</sup> MSCI ACWI IMI (Net) with USA Gross. Prior to July 2018, MSCI ACWI IMI.

<sup>3</sup> Bloomberg U.S. Aggregate Bond Index. Prior to August 2018, Bloomberg U.S. Universal Bond Index. Prior to July 2015, 98.0% of the Bloomberg U.S. Universal Bond Index and 2.0% of the Bloomberg U.S. Long Government/Credit Index.

<sup>4</sup> MSCI ACWI IMI (Net) with USA Gross plus 150 basis points. Prior to January 2019, Burgiss Time Weighted Rate of Return Benchmark. Prior to January 2015, DJ U.S. Total Stock Market Index plus 250 basis points annually.

<sup>5</sup> NCREIF Open End Diversified Core Equity Index (NFI-ODCE) plus 50 basis points annually.

<sup>6</sup> Weighted average of each of the three objectives (Risk Mitigation: HFRI FOF Market Defensive Index, Real Assets: CPI plus 400 basis points, Opportunistic: PERA Public Markets plus 150 basis points). Prior to January 2019, weighted aggregate of the benchmarks of the individual strategies included in Alternatives.

## DEFINED BENEFIT PLANS

The three-, five-, and 10-year net-of-fees time-weighted rates of return for the total fund and each asset class and their respective benchmarks are as follows:

**Three-Year Net-of-Fees Time-Weighted Rates of Return**

**Five-Year Net-of-Fees Time-Weighted Rates of Return**

**Ten-Year Net-of-Fees Time-Weighted Rates of Return**

## DEFINED BENEFIT PLANS

(Dollars in Thousands)

(In actual dollars for this paragraph only)

Total investment expenses for internal and external asset management of PERA's \$61.5 billion investment portfolio were \$218.5 million representing about 35.5 bps. PERA strives to manage the investment assets in a cost efficient manner. The driving factor in the low overall cost is the use of internal management. PERA staff manages 59.8% of total fund assets in-house at a calculated cost for internal asset management of \$19.7 million (5.3 bps); outsourcing such management would cost an estimated \$101.9 million (27.7 bps). The remaining portion of the \$29.4 million internal manager expenses shown in the following table is for PERA staff oversight of externally-managed assets.

### SCHEDULE OF INVESTMENT EXPENSES<sup>1</sup>

As of December 31, 2023

	Investment Expenses
Global Equity	\$25,854
Fixed Income	—
Private Equity	65,667
Real Estate	37,525
Alternatives	55,836
Cash and Short-Term Investments	315
<b>Total external manager expenses</b>	<b>185,197</b>
<b>Internal manager expenses</b>	<b>29,399</b>
<b>Other investment expenses and custody fees</b>	<b>3,854</b>
<b>Total investment expenses</b>	<b>\$218,450</b>

<sup>1</sup> See the Investment Summary on page 128 for information about fair value of investments.

The following table breaks out both the dollar amount and percentage of each asset class managed internally. It is important to note that all accounts, both internal and external, are held to the same high performance standards.

### SCHEDULE OF INTERNAL AND EXTERNAL ASSET MANAGEMENT

#### SCHEDULE OF INVESTMENT INCOME AND EXPENSES BY ASSET CLASS

As of December 31, 2023

Asset Class	Net Appreciation/ (Depreciation) in Fair Value <sup>1</sup>	Interest and Dividends	Net Operating Income <sup>2</sup>	Investment Expenses <sup>3</sup>	Net Income from Securities Lending	Net Investment Income/(Loss)
Global Equity	\$6,186,449	\$601,713	\$—	(\$43,130)	\$6,752	\$6,751,784
Fixed Income	274,977	392,816	—	(6,927)	15,175	676,041
Private Equity	295,626	16	11,224	(69,926)	—	236,940
Real Estate	(824,163)	—	184,551	(39,720)	—	(679,332)
Alternatives	240,821	6	109,503	(58,403)	—	291,927
Cash and Short-Term Investments	59,885	16,969	—	(344)	—	76,510
<b>Total</b>	<b>\$6,233,595</b>	<b>\$1,011,520</b>	<b>\$305,278</b>	<b>(\$218,450)</b>	<b>\$21,927</b>	<b>\$7,353,870</b>

<sup>1</sup> Global Equity and Fixed Income include realized gain/(loss) recognized on securities sold during 2023, current year unrealized gain/(loss) and unrealized translation gain/(loss), and class action revenue. Private Equity, Real Estate, and Alternatives include current year realized and unrealized gain/(loss), paid carried interest, and adjustments to accrued carried interest as reported by the General Partner.

<sup>2</sup> Private Equity, Real Estate, and Alternatives include investment income and expenses as reported by the General Partner.

<sup>3</sup> Includes external and internal investment management, custody, and other investment expenses.

#### SCHEDULE OF PRIVATE MARKET INVESTMENT CONTRIBUTIONS, DISTRIBUTIONS, AND PAID CARRIED INTEREST

As of December 31, 2023

Asset Class	Contributions <sup>1</sup>	Distributions <sup>2</sup>	Paid Carried Interest <sup>3</sup>
Private Equity	\$598,545	\$641,431 <sup>4</sup>	\$45,629
Real Estate	429,315	675,356	61,191
Alternatives	715,332	286,630	18,472
<b>Total</b>	<b>\$1,743,192</b>	<b>\$1,603,417</b>	<b>\$125,292</b>

<sup>1</sup> Represents money sent to external entities for the purpose of funding private market investments and/or fees during the current fiscal year.

<sup>2</sup> Represents money or shares of companies received from external entities during the current fiscal year, generally due to PERA receiving its proportionate share of an investment's exited value.

<sup>3</sup> Represents the share of profits paid to external entities due to investment returns surpassing agreed-upon thresholds. Amounts will vary, potentially significantly, from year to year depending on the timing of sales of the underlying investments and the magnitude of the gains. Amounts are based on best available information provided by external entities. Actual results could differ from those amounts.

<sup>4</sup> Includes money received from the sale of PERA's partnership interests on the secondary market.

## DEFINED CONTRIBUTION PLANS

## REPORT ON INVESTMENT ACTIVITY

(The Report on Investment Activity was prepared by internal staff.)

## Overview

The Voluntary Investment Program, Defined Contribution Retirement Plan, and the Deferred Compensation Plan are included in the information discussed in this subsection on Colorado PERA's defined contribution plans. These three Plans are known collectively as the Capital Accumulation Plans (CAPs). PERA publishes an Annual Report for the CAPs and distributes it to all plan participants.

PERA established the Voluntary Investment Program (PERAPlus 401(k) Plan) on January 1, 1985, under Section 401(k) of the Internal Revenue Code (IRC). The PERAPlus 401(k) Plan includes voluntary contributions made by employees of PERA-affiliated employers in the State, School, Local Government, Judicial, and Denver Public Schools Division Trust Funds. These contributions are entirely separate from those members make to the defined benefit plan each month.

The Defined Contribution Retirement Plan (DC Plan) was established on January 1, 2006, as an IRC § 401(a) governmental profit-sharing plan. The DC Plan offers a defined contribution alternative to the PERA defined benefit plan for certain employees of the State or Local Government Divisions, classified employees at State colleges and universities, most community colleges, as well as the District Attorney within each Judicial District, and if authorized by the county and the District Attorney, the attorneys within that Judicial District (see Note 1 of the Notes to the Financial Statements in the Financial Section for additional details).

On July 1, 2009, PERA assumed the administrative and fiduciary responsibility for the State of Colorado Deferred Compensation Plan, now known as the PERAPlus 457 Plan. The PERAPlus 457 Plan includes voluntary contributions made by employees working for a PERA-affiliated employer that have also affiliated with the PERAPlus 457 Plan.

## YEAR END STATISTICS

(Dollars in Thousands)

	2023	2022	% Chg
<b>Fiduciary Net Position</b>			
PERAPlus 401(k) Plan	\$4,337,956	\$3,786,273	14.57%
DC Plan	422,432	339,452	24.45%
PERAPlus 457 Plan	1,278,624	1,106,210	15.59%

DC Plan	8,083	7,846	3.02%
PERAPlus 457 Plan	20,205	20,063	0.71%

## Outline of Investment Policies

## Objectives

The Board is responsible for approving an appropriate range of investments that addresses the needs of the participants in the CAPs. The objectives of selecting the investment options under each CAP are to:

- Provide a wide range of investment opportunities in various asset classes so as to allow for diversification and to cover a wide risk/return spectrum.
- Achieve returns within reasonable and prudent levels of risk.
- Provide returns comparable to returns for similar investment options.
- Control administrative and investment management costs to the plan and participants.

## Investment Stewardship

The CAPs adhere to the same principles of investment stewardship as the defined benefit plans. For more information, please refer to the Investment Stewardship section on page 125.

## Loans

Participants in the PERAPlus 401(k) and PERAPlus 457 Plans may access their funds through loans as allowed under plan policy and the Internal Revenue Service. The DC Plan prohibits participant loans.

## Administrative Fees

Plan administrative fees pay for recordkeeping, custodial services, consulting, and internal PERA administrative expenses.

The administrative fee for the PERAPlus 401(k) Plan and the DC Plan consists of a flat \$1.00 per month per participant per plan and an asset-based fee of up to 0.03% on each underlying PERAdvantage fund. The PERAPlus 401(k) Plan asset-based fee was waived through 2024. The administrative fee for the PERAPlus 457 Plan consists of a flat \$1.50 per month per participant per plan and an asset based fee of up to 0.03% on each underlying PERAdvantage fund.

## 2023 Changes

The PERAdvantage Target Retirement Date funds transitioned entirely to securities lending. Previously, these funds were 90% securities lending and 10% non-lending.

Schwab completed its acquisition of TD Ameritrade and is now the Self-Directed Brokerage provider.

## DEFINED CONTRIBUTION PLANS

**PERAdvantage Investment Options**

The PERAdvantage funds provide diversification within each of the seven primary funds and 10 target retirement date funds. The white label structure of the PERAdvantage funds simplifies choices, increases diversification, and helps participants identify investments based on how the fund invests the money rather than name familiarity. In addition, the CAPs provide a self-directed brokerage account for participants to select their own investments.

Participants invest assets in one or more of the following investments:

**Primary Investment Options*****PERAdvantage Capital Preservation Fund***

The fund seeks to provide consistent investment income with a stable net asset value primarily by investing in a portfolio of high-quality, low volatility fixed income securities to produce the income. Since the underlying fixed income investments fluctuate in fair value with changes in the market, the portfolio is paired with an insurance contract to provide a more stable return and to offer participants the ability to withdraw or transfer their funds, subject to plan rules, without any fair value risk or other penalty for premature withdrawal. The fund is managed by Empower Capital Management (100%).

***PERAdvantage Fixed Income Fund***

The fund seeks to generate income, preserve capital, and provide long-term capital appreciation by investing in a diversified portfolio of fixed income instruments. This fund primarily invests in investment grade debt securities, but may invest a portion of its assets in high-yield securities. The fund may invest in derivative instruments or in mortgage- or asset-backed securities. The fund is managed by PERA (50% unitized Fixed Income) and BlackRock (50% Core Alpha).

***PERAdvantage Real Return Fund***

The fund seeks to provide broad exposure to real assets and U.S. inflation protected bonds and to produce a return over a full market cycle that exceeds the rate of inflation. This fund invests in U.S. inflation-linked bonds, real estate investment trusts (REITs), commodities, and global natural resources and infrastructure stocks. The fund is managed by State Street Global Advisors (70% Real Asset Strategy and 30% U.S. Inflation Protected Index).

***PERAdvantage Socially Responsible Investment (SRI) Fund***

The fund seeks to produce a return above the index by investing in a portfolio of global equities and investment grade fixed income securities. The equity portion seeks to replicate the return of the MSCI ACWI ESG Focus Index.

The fixed income portion invests in U.S. dollar denominated securities that demonstrate environmental, social, and governance (ESG) leadership and direct and measurable environmental and social impact. The fund is managed by BlackRock (60% ACWI ESG Focus Index) and TIAA-CREF (40% Core Impact Bond).

***PERAdvantage U.S. Large Cap Stock Fund***

The fund seeks to provide long-term capital appreciation and dividend income primarily by investing in the common stock of companies located in the United States with large market capitalizations. This fund invests in a wide array of U.S. stocks with market capitalizations similar to those found in the MSCI USA Large Cap Index. The fund is managed by PERA (60% Large Cap Index and 40% Large Cap Core).

***PERAdvantage U.S. Small and Mid Cap Stock Fund***

The fund seeks to provide long-term capital appreciation and dividend income primarily by investing in the common stock of companies located in the United States with small and mid-market capitalizations. This fund invests in a wide array of U.S. stocks with market capitalizations similar to those found in the MSCI USA SMID Cap Index. The fund is managed by PERA (50% Small Cap Core) and Dimensional Fund Advisors (50% Mid Cap Core).

***PERAdvantage International Stock Fund***

The fund seeks to provide long-term capital appreciation and dividend income primarily by investing in the common stock of companies located outside the United States. This fund invests in a wide array of international stocks similar to those found in the MSCI All Country World Index (ACWI) ex USA. The fund is managed by Schroder Investment Management (60% International Alpha) and PERA (40% International Multi-Factor).

**Additional Investment Options*****PERAdvantage Target Retirement Date Funds***

There are 10 funds with varying asset mixes and risk levels based on expected retirement date. Each fund is comprised of the corresponding BlackRock LifePath Index Target Retirement Date Fund. These funds seek a combination of capital appreciation and income and will automatically adjust the underlying asset allocation to become more conservative as they reach their target retirement date, at which time the fund will be blended into the PERAdvantage Income Fund. The funds are managed by BlackRock (100%).

***Schwab Self-Directed Brokerage Account***

This account allows selection from numerous mutual funds and other types of securities, such as stocks and bonds, for an additional fee. Investment in the self-directed brokerage account is offered through Schwab.

## DEFINED CONTRIBUTION PLANS

Callan provides the investment returns for the CAPs based on data made available by Empower. The annualized one-, three-, five-, and 10-year net-of-fees time-weighted rates of return for each PERAdvantage fund and their respective benchmarks are as follows:

Board of Trustees  
Public Employees' Retirement Association of Colorado  
1301 Pennsylvania Street  
Denver, CO 80203-2386

**Re: Actuarial Certification of PERA Division and Health Care Trust Funds**

Dear Members of the Board:

Per the "Colorado PERA Defined Benefit Pension Plan Funding Policy", adopted by the Board of Trustees on March 20, 2015, and most recently revised on January 19, 2024, and the "Colorado PERA Defined Benefit OPEB Plan Funding Policy", adopted by the Board of Trustees on January 19, 2018, and most recently revised on January 19, 2024, the main funding objectives of the Public Employees' Retirement Association of Colorado (Colorado PERA) are:

- Preservation of the defined benefit plan structure;
- Demonstration of transparency and accountability;
- Achievement of a funded ratio greater than or equal to 110%;
- Balance of contribution rate stability and intergenerational equity;
- Reduction of Unfunded Actuarial Accrued Liabilities; and
- Recognition of beneficial elements of pooled risk.

With these goals in mind, an annual actuarial valuation is performed as a measure of the progress towards meeting them. The most recent valuations are based on the plan provisions and actuarial assumptions and methods in effect on December 31, 2023. In completing the valuation of the five defined benefit pension plans, referred to as the Division Trust Funds, and the two defined benefit Other Post-employment Benefit (OPEB) plans, referred to as the Health Care Trust Funds (HCTFs), Segal relied on membership and financial data provided by Colorado PERA. We have reviewed the membership data for reasonableness and consistency. We have not audited the membership data, but we have reconciled the membership data to the data used in the prior year's valuation.

## ACTUARY'S CERTIFICATION LETTER

Board of Trustees  
June 6, 2024  
Page 2

This actuarial valuation reflects the following changes from the prior valuation including:

The following legislation, enacted in 2022, 2023, and 2024 was reflected, to the extent possible, in this actuarial valuation:

- HB 22-1029, effective upon enactment in 2022, required the State Treasurer to (in addition to the regularly scheduled \$225 million direct distribution) issue a warrant to PERA in the amount of \$380 million, upon enactment, with potential reductions to future direct distributions scheduled to occur July 1, 2023, and July 1, 2024, based upon the actual investment returns reported by PERA for 2021 and 2022, respectively. The payment scheduled for July 1, 2023, was reduced by \$190 million, from \$225 million to \$35 million, based on the total fund investment return in 2021 of 16.1%. No reduction is required for the payment scheduled to occur July 1, 2024, due to a negative investment return in 2022.
- SB 23-056, enacted and effective June 2, 2023, intended to recompense PERA for the remaining portion of the \$225 million direct distribution originally scheduled for receipt July 1, 2020, suspended due to the enactment of HB 20-1379, but not fully repaid through the provisions within HB 22-1029. Pursuant to SB 23-056, the State Treasurer issued a warrant to PERA consisting of the balance of the PERA Payment Cash Fund, created in §24-51-416, plus \$10 million from the General Fund, totaling \$14.56 million.
- SB 23-163, enacted and effective June 6, 2023, states that beginning July 1, 2023, a wildlife officer and a parks and recreation officer (officer), employed by the Division of Parks and Wildlife in the Department of Natural Resources, is classified as a State Trooper for the purpose of determining the officer's service retirement eligibility and benefit under PERA.
- SB 24-099, enacted April 11, 2024, and effective 90 days following adjournment, adds superintendents and principals to the list of service retirees (along with teachers, school bus drivers, food services cooks, school nurses and paraprofessionals) that may be hired by a rural school district and employed without a reduction in retirement benefits. This legislation clarifies that the exemption for a rural school district also includes a small rural school district which has a funded pupil count for the prior budget year of less than 1,000 pupils. The bill extends the BOCES critical shortage provisions through June 30, 2030, and also clarifies that the two-year moratorium for those who have not met full-service retirement applies to all critical shortage positions and aligns the designation date for reporting critical shortage positions to September 1st of each year.
- HB 24-1044, enacted April 19, 2024, and effective July 1, 2024, increases the number of retirees that can be designated under the 140-day provision. This legislation increases the current retiree limit of 10 "140-day provision" designees, for certain districts. For districts with over 10,000 students, an additional retiree may be designated under the "140-day provision" for each thousand students in excess of 10,000. In addition, this bill modifies the requirement that positions be filled based on a "critical shortage of qualified candidates" test to filling positions based on "need". The bill places a 6-year cap on the total years a retiree may be designated under the "140-day provision" and aligns the designation date for all "140-day" designees to September 1st of each year.

6427416v6/14923.001

## ACTUARY'S CERTIFICATION LETTER

Board of Trustees  
June 6, 2024  
Page 3

- SB 24-169, enacted May 24, 2024, and effective July 1, 2025, modifies the definition of “state trooper” to include a duly sworn employee of the division of fire prevention and control in the department of public safety. The bill applies the “state trooper” member and employer contribution rates and benefit structure to eligible employees whose duties include structural or wildfire management, wildfire response, live-fire training, or wildfire leadership, as determined by the executive director of the department of public safety.
- SB 24-186, enacted June 5, 2024, and effective January 1, 2025, modifies the definition of “state trooper” to include employees of a local government division employer classified as a coroner or deputy coroner who were elected, reelected, or appointed on or after January 1, 2021, which includes the Boulder County Coroner. The bill applies the “state trooper” member and employer contribution rates and benefit structure to eligible employees meeting these criteria.

Note that 2022, 2023, and 2024 PERA-related legislation listed above had minimal impact on the results of the funding actuarial valuation as of December 31, 2023, however, HB 22-1029 and SB 23-056 directly impact the market and actuarial value of assets as of the December 31, 2023, valuation date for all divisions except the Local Government Division.

Other changes, include:

- As of December 31, 2023, plan assets for the Local Government Division Trust Fund and Health Care Trust Fund (HCTF) reflect payments related to the disaffiliation of Tri-County Health Department as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for funding actuarial valuation purposes: a \$24.000 million payment received on December 4, 2023, and a \$2.000 million receivable. The employer disaffiliation payment and receivable allocations to the Local Government Division Trust Fund and HCTF were \$24.967 million and \$1.033 million, respectively.
- Annual assumption changes for the HCTFs were recognized, resulting from updates to retiree health care cost and health care cost trend assumptions based upon a review of historical experience, Medicare health care plan elections (based upon review or recent experience), health care cost trend survey data, and available retiree premium increases for 2024.
  - These changes increased the total actuarial accrued liability for the HCTFs by \$15.7 million and increased the total normal cost by \$23.2 thousand.

In our opinion, the assumptions are individually reasonable, taking into account the experience of the Division Trust Funds and the HCTFs and reasonable expectations, are internally consistent, and, in combination, offer our best estimate of anticipated experience affecting the Division Trust Funds and the HCTFs. In addition, in our opinion, the combined effect of these assumptions is expected to have no significant bias.

Future actuarial results may differ significantly from the current results due to such factors as the following:

- Plan experience differing from that anticipated by the economic or demographic assumptions;
- Changes in economic or demographic assumptions;

6427416v6/14923.001

## ACTUARY'S CERTIFICATION LETTER

Board of Trustees  
June 6, 2024  
Page 4

- Increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and
- Changes in plan provisions or applicable law.

Additionally, retiree group benefits models necessarily rely on the use of approximations and estimates and are sensitive to changes in these approximations and estimates. Small variations may lead to significant changes in actuarial measurements. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

Segal provided the following information and/or schedules for the December 31, 2023, Annual Report:

#### Financial Section

- Prepared for the Division Trust Funds and HCTFs
  - Yearly Contribution Deficiency
  - Required Discount Rate Sensitivity Information providing the Net Pension Liability and the Net OPEB Liability at a discount rate that is one percentage point lower and one percentage point higher than the discount rate at Measurement Date
  - Membership Data
  - Notes to Required Supplementary Information
- Prepared for the Division Trust Funds Only
  - Average Monthly Benefit By Division for 2023, considering entire retired population and those retiring in 2023
  - Required Supplementary Information
    - Schedule of Changes in Net Pension Liability
    - Schedule of the Net Pension Liability
    - Schedule of Employer Contributions
- Prepared for the HCTFs Only
  - Required Health Care Cost Trend Rate Sensitivity Information at health care cost trend rates that are one percentage point lower and one percentage point higher than the health care cost trend rates applied at Measurement Date
  - Participation Data
  - Required Supplementary Information
    - Schedule of Changes in Net OPEB Liability
    - Schedule of the Net OPEB Liability
    - Schedule of Employer Contributions

#### Actuarial Section

- Prepared for the Division Trust Funds and HCTFs
  - Schedule of Retirees and Beneficiaries Added to and Removed from the Benefit Payroll
  - Schedule of Funded Liabilities by Type (formerly known as the Solvency Test)
  - Schedule of Funding Progress
  - Analysis of Financial Experience
  - Schedule of Gains and Losses in Accrued Liabilities and Reconciliation of Unfunded Actuarial Accrued Liabilities
  - Schedule of Computed Employer Contribution Rates for the 2025 Fiscal Year

6427416v6/14923.001

ACTUARY'S CERTIFICATION LETTER

Board of Trustees  
 June 6, 2024  
 Page 5

- Actuarial Statistics
- Actuarially Determined Contributions (ADCs)
- Alternative ADCs using 25-year, 20-year and 15-year amortization periods
- Funded Ratios
- Funded Ratio, Unfunded Actuarial Accrued Liability and Actuarially Determined Contributions using 6.25%, 7.25% and 8.25% investment return assumptions
- Schedule of Active Member Actuarial Valuation Data
- Prepared for the Division Trust Funds Only
  - Member – Retiree Comparison

**Statistical Section**

- Prepared for the Division Trust Funds and HCTFs
  - Schedule of Average Benefit Payments
- Prepared for the Division Trust Funds Only
  - Member and Benefit Recipient Statistics
  - Breakdown of Membership by Tiers
  - PERA Benefit Payments
    - Benefit Payments by Benefit Range
    - Benefit Payments by Benefit Range including RBA amounts
    - Benefit Payments by Decile
  - Schedule of Average Retirement Benefits Payable by Year of Retirement
    - For all retirees
    - For members who retired during the year
  - Schedule of Retirees and Survivors by Types of Benefits

In aggregate, the Division Trust Funds have a funded ratio of 69.6% based on the Actuarial Value of Assets and 66.3% based on the Fair Value of Assets. For the HCTFs combined, the funded ratios are 51.1% on an Actuarial Value of Assets basis and 49.2% on a Fair Value of Assets basis.

The results indicate that for all Division Trust Funds, the combined employer and member contribution rates, including the direct distribution from the State, as appropriate, are sufficient to fund the normal cost for all members and each division's UAAL, with consideration of the amounts allocated to finance the Annual Increase Reserve (AIR) Funds, and provide additional contributions to help finance both Health Care Trust Funds. In addition, the employer contribution rate with anticipated service purchase transfers is sufficient to eventually finance benefits for the HCTFs.

Shown in the tables on the following pages are the resulting effective amortization periods for each division as of December 31, 2023, recognizing all current sources of income from employer contributions, member contributions, and the direct distribution as applicable, and any future changes to the base employer contributions, member contributions, Amortization Equalization Disbursement (AED), Supplemental Amortization Equalization Disbursement (SAED), and Pension Certificates of Participation (PCOP). Based upon the current effective amortization periods, all Trust Funds are on schedule to meet the funding policy goal:

6427416v6/14923.001

ACTUARY'S CERTIFICATION LETTER

Board of Trustees  
 June 6, 2024  
 Page 6

Trust Fund	Amortization Period <sup>1</sup>
State Division	18 years
School Division	23 years
Local Government Division	8 years
Judicial Division	5 years
Denver Public Schools (DPS) Division	6 years
HCTF	8 years
DPS HCTF	N/A

<sup>1</sup> Calculations completed on an actuarial valuation basis with a closed population (i.e., based upon the membership, normal cost rate and UAAL as of December 31, 2023). For the DPS Division, the resulting amortization period assumes a declining Pension Certificates of Participation (PCOP) offset rate as described in statute.

At the direction of PERA, Segal has prepared deterministic financial projections for all Division Trust Funds with the lower cost benefit structure for new members and using the following assumptions:

- All actuarial assumptions, including assuming 7.25% investment returns are realized each year
- Performed on an open-group basis with assumed active membership growth, as follows:
  - For School, Local Government and Denver Public Schools – 1.00% per year
  - For State and Judicial – 0.25% each year

These projections<sup>2</sup> indicate that fully funding the actuarial accrued liability under the PERA revised benefit structure created by SB 18-200 is achievable within a projection period of 27 years and includes the impact of legislative changes pursuant to HB 22-1029 and SB 23-056. The projected number of years<sup>2</sup> until each trust fund is expected to be 100% funded is shown in the table below:

Trust Fund	Projected Years <sup>2</sup> Until 100% Funded
State Division	23 years
School Division	27 years
Local Government Division	14 years
Judicial Division	8 years
DPS Division	9 years
HCTF	9 years
DPS HCTF	N/A

<sup>2</sup> Calculations completed on a projected basis with an open, increasing population (i.e., active members expected to retire, terminate, or die are replaced by new members who will accrue pension benefits under a lower cost basis).

The AAP assessment, performed as of December 31, 2023, resulted in a ratio of 106.52%. Since this ratio falls between 98% and 120%, no additional modifications to contribution rates, the AI cap, or the direct distribution payments are required as of July 1, 2025.

ACTUARY'S CERTIFICATION LETTER

Board of Trustees  
 June 6, 2024  
 Page 7

Actuarial computations presented in the December 31, 2023, actuarial valuation reports are for purposes of determining the actuarially determined contribution rates and evaluating the funding of the Division Trust Funds and HCTFs. Determinations for purposes other than meeting these requirements may be significantly different from the results shown in the December 31, 2023, actuarial valuation reports.

We also prepared actuarial computations as of December 31, 2023, for purposes of fulfilling financial accounting requirements for PERA under Governmental Accounting Standards Board (GASB) Statement No. 67 and Statement No. 74. The actuarial assumptions used in the funding valuations were also used for GASB 67 and GASB 74 reporting except GASB 74 reporting reflects health care cost and trend assumptions effective as of December 31, 2022. In addition, the entry age actuarial cost method, which is required to be used under GASB 67 and GASB 74, is also used for purposes of the funding valuations. The actuarial assumptions used in the funding and the GASB 67 and GASB 74 accounting valuations, as detailed in Segal's reports, meet the parameters set by the Actuarial Standards of Practice (ASOPs), as issued by the Actuarial Standards Board, and generally accepted accounting principles (GAAP) applicable in the United States of America as promulgated by the Governmental Accounting Standards Board.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this information is complete and accurate and that the valuation was performed in accordance with standards of practice and by qualified actuaries as prescribed by the American Academy of Actuaries and the Actuarial Standards Board. The undersigned are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. All of the consultants listed below have experience in performing valuations for large statewide public retirement systems.

DIVISION TRUST FUNDS—PENSION

Actuarial Topics

The standard promulgated by the Governmental Accounting Standards Board (GASB) Statement No. 67, results in the preparation of two actuarial valuations—one for funding purposes and one for accounting and financial reporting purposes. Unless otherwise noted, this Division Trust Funds subsection reports on the actuarial valuation performed for funding purposes, but also includes information on specific differences between the two actuarial valuations.

The plan provisions in effect on December 31, 2023, are summarized in Note 1 of the Notes to the Financial Statements in the Financial Section. Changes to plan provisions enacted into law after December 31, 2023, and included in the actuarial valuation are summarized under “Changes Since Last Actuarial Valuation” on page 156.

PERA BOARD GOVERNANCE - FIVE DEFINED BENEFIT PENSION PLANS	
<b>PERA Defined Benefit Pension Plans</b>	The five defined benefit pension plans of the Public Employees' Retirement Association of Colorado (PERA), include the State Division, School Division, Local Government Division, Judicial Division, and Denver Public Schools (DPS) Division Trust Funds. All but the DPS Division Trust Fund are cost-sharing multiple-employer plans and the DPS Division Trust Fund is a single-employer plan.
<b>PERA Board Pension Funding Policy</b>	The PERA Board of Trustees (Board) is responsible for maintaining a pension funding policy applicable to these plans. The current pension funding policy initially was adopted by the Board on March 20, 2015, effective for the December 31, 2014, funding actuarial valuation and last amended on January 19, 2024. The pension funding policy requires the calculation of an actuarially determined contribution (ADC) for each of the five Division Trust Funds for the purpose of assessing the adequacy of the statutory contribution rates of each division. The ADC is determined in accordance with the pension plan provisions in effect as of the date of the actuary's Letter of Certification and is expressed as a level percentage of assumed future covered payroll.
<b>Actuarial Service Provider</b>	The Board retains an external actuary, and effective November 1, 2018, Segal was retained to perform annual actuarial valuations and sustainability projections as well as periodic experience studies to review the actuarial assumptions versus actual plan experience. The Board's initial contract agreement with Segal was extended effective January 1, 2024, for an additional five-year period ending December 31, 2028.
<b>Actuarial Service Provider Funding Method Statement</b>	Per their actuarial valuation report, “Segal strongly recommends an actuarial funding method that targets 100% funding of the actuarial accrued liability. Generally, this implies payments that are ultimately at least enough to cover normal cost, interest on the unfunded actuarial accrued liability and a portion of the principal balance. The pension funding policy adopted by PERA...meets this standard.”

ACTUARIAL METHODS	
<b>Actuarial Methods</b>	The Board is responsible for the actuarial methods and assumptions used in the actuarial valuations in accordance with Colorado Revised Statutes (C.R.S.) § 24-51-204(5). Through formal action, the Board updates, replaces, or adopts new actuarial methods and assumptions as deemed necessary.

Actuarial Methods	Type	Description / Source / Basis	Adoption / Effective Date
<b>Asset Valuation Method</b>	Smoothed Actuarial Value of Assets	In 1992, the Board adopted a method for valuing assets that determines a smoothed market value of assets to help mitigate volatile investment market experience. Note, the term “market value” used in the Board's pension funding policy regarding the description of the determination of the asset valuation method applied for funding purposes, is synonymous with the term “fair value” used consistently throughout the Actuarial Section and all other sections of this <i>Annual Comprehensive Financial Report (ACFR)</i> .  The smoothed fair value of assets recognizes the differences between actual and expected investment experience for each year in equal amounts over a four-year period.  The smoothed fair value of assets excludes the Annual Increase Reserve (AIR).	Initially Adopted: 1992; Effective: Dec 31, 1992; Reinitialized to Fair Value as of: Dec 31, 2004; Effective: Dec 31, 2005

DIVISION TRUST FUNDS—PENSION

Actuarial Methods	Type	Description / Source / Basis	Adoption / Effective Date
<b>Actuarial Cost Method</b>	Entry Age Actuarial Cost Method (EA)	<p>The EA funding or cost method is designed to keep annual costs level as a percent of covered payroll and for this reason, was selected by the Board to be used in the actuarial valuations.</p> <p>Under the EA cost method, early and service retirement, termination (including the possibility of refunds), disability, and death benefits are projected for all active members. Cost factors, which are developed to produce level annual costs in each year from the age at hire (entry age) to the assumed retirement age, are applied to the projected benefits to determine the normal cost. The normal cost is the portion of the total plan cost allocated to the current year.</p> <p>Normal cost is determined only for active members currently accruing benefits. The actuarial accrued liability (AAL) for active members is the portion of the total plan cost allocated to prior years. The total AAL for the plan includes the AAL for active members and the present value of the expected benefit payments to members currently receiving benefits and inactive members entitled to future benefits. The excess of the total AAL over the actuarial value of plan assets is the unfunded actuarial accrued liability (UAAL).</p> <p>The effect of differences between the actuarial assumptions and the actual experience of the plan is determined within each annual actuarial valuation. These differences produce actuarial gains or losses that result in an adjustment of the UAAL.</p>	<p>State, School, and Local Government (Municipal) Divisions - Effective: Jun 30, 1968; Judicial Division - Effective: Dec 31, 1980                      DPS Division - Initially Adopted: Jun 30, 1950; Last Revised: Merger, Jan 1, 2010</p>
<b>Amortization Method</b>	Defined, Closed, and Layered Periods	<p>The ADC is determined by adding the normal cost and the cost to amortize, over defined, closed periods, any existing UAAL or new UAAL, including the impact of any experience actuarial gains and losses, actuarial assumption changes, and changes in plan provisions. Each amortized item is tracked over the closed period defined for that category.</p> <p>The 30-year period used to amortize the legacy UAAL was initialized as of December 31, 2017. All gains, losses, and changes in actuarial methods and assumptions on and after January 1, 2018, are recognized each year and amortized separately over closed 30-year periods.</p> <p>The impact of any changes in plan provisions will be recognized over a closed period relating to the demographics of the group affected and/or the duration of the enhancement provided, not to exceed 25 years. If any future actuarial valuation indicates a division has a negative UAAL, the ADC shall be set equal to the normal cost until such time as the funded ratio equals or exceeds 120%. At that time, the ADC shall be equal to the normal cost less an amount equal to 15-year amortization of the portion of the negative UAAL above the 120% funded ratio.</p>	<p>Initially Adopted: Mar 20, 2015; Amended: Nov 16, 2018; Effective: Dec 31, 2018; Last Amended: Jan 19, 2024</p>

DIVISION TRUST FUNDS—PENSION

**ACTUARIAL ASSUMPTIONS**

<b>Actuarial Assumptions<sup>1</sup></b>	<p>Unless otherwise noted, it can be assumed the economic and demographic actuarial assumptions applied to the actuarial valuation for funding purposes also were applied to the actuarial valuation for accounting and financial reporting purposes.</p> <p>Periodically, the Board participates in discussions related to actuarial assumptions to ensure understanding and to provide for the retention or adoption of all economic and non-economic assumptions under the guidance provided by Actuarial Standards of Practice (ASOP) No. 27, <i>Selection of Economic Assumptions for Measuring Pension Obligations</i>, and ASOP No. 35, <i>Selection of Demographic and Other Noneconomic Assumptions for Measuring Pension Obligations</i>, as prescribed by the Actuarial Standards Board. The discussions typically occur during asset/liability or experience analysis studies and include participation of the Board’s actuarial service provider, their investment consultant, and other actuarial and investment experts who also may provide their market outlook.</p>	
<b>Basis for Actuarial Assumptions Used</b>	<p>Unless otherwise noted, the basis of all selected economic and non-economic actuarial assumptions resulted from the 2020 experience analysis and related discussions that took place during the November 20, 2020, Board meeting. As a result of the 2019 asset/liability study, concluded at the November 15, 2019, Board meeting, the Board reaffirmed the 7.25% assumed long-term rate of investment return effective as of January 1, 2020, which was supported by the analysis provided by Segal in the 2020 Experience Analysis report.</p>	

<sup>1</sup> See Exhibits A through G for detailed assumption information.

Economic Assumptions	Value(s) / Type	Description / Source / Basis	Adoption / Effective Date
<b>Rate of Investment Return</b>	7.25%	Long-term assumed rate of investment return represented as a percent per year, compounded annually, net of investment expenses.	Assumed rate of investment return - Last Revised: Nov 18, 2016;
<b>Real Rate of Investment Return</b>	4.95%	Long-term assumed rate of real investment return (net of price inflation) represented as a percent per year, compounded annually, net of investment expenses.	Effective: Dec 31, 2016
<b>Price Inflation</b>	2.30%	Long-term assumed rate of price inflation represented as a percent per year, compounded annually.	All actuarial assumptions - Last Revised/Reaffirmed: Nov 20, 2020;
<b>Wage Inflation</b>	3.00%	Long-term assumed rate of wage inflation composed of the plan’s assumed price inflation and the assumed real wage growth, represented as a percent per year, compounded annually.	Effective: Dec 31, 2020
<b>Pay Increases</b>	Exhibit A	Sample pay increase assumptions for individual members as developed and recommended by the Board’s retained actuary.	
<b>Board Crediting Interest Rate</b>	3.00%	Annually, the Board reviews the rate at which interest is credited to member accounts. On November 17, 2023, the Board voted to continue the annual interest rate at 3.00% for interest earned during 2024. Basis: Board Crediting Interest Rate Policy and Board annual discussion at the November 17, 2023, Board meeting.	Annual Review Policy initiated in 2006, slight revisions since. Last Adopted: Nov 17, 2023; Effective: Jan 1, 2024

DIVISION TRUST FUNDS—PENSION

Non-Economic Assumptions	Value(s) / Type	Description / Source / Basis	Adoption / Effective Date
Rates of Withdrawal	Select and Ultimate Withdrawal Rates - Exhibit B	<p>Beginning in 1986, PERA uses a select and ultimate approach for all members (except members of the Judicial Division and those classified under the Safety Officers and DPS benefit structures) in applying rates of withdrawal or termination when estimating the number of members who will leave service prior to retirement.</p> <p>The 2020 experience analysis indicated, in the aggregate, fewer active member terminations prior to retirement than expected, resulting in a reduction in withdrawal rates across all divisions except for members under the PERA benefit structure within the DPS Division.</p>	<p>Separation from active service assumptions - Last Revised: Nov 20, 2020; Effective: Dec 31, 2020</p>
Rates of Disability	Exhibit C	<p>The 2020 experience analysis indicated, in the aggregate, fewer active members retired with disability benefits than expected. This resulted in a 19% uniform reduction of disability rates across all divisions with no rate changes for members under the Safety Officers benefit structure.</p>	
Rates of Retirement	Reduced Early Retirement Rates - Exhibit E	<p>The 2020 experience analysis indicated, in the aggregate, slightly more reduced early retirements than expected with certain groups experiencing fewer reduced early retirements than expected. Retirement experience was analyzed on a benefit-weighted basis separately for males and females, resulting in modifications to reduced early retirement rates at several ages across most divisions.</p>	
	Unreduced Retirement Rates - Exhibit F	<p>The 2020 experience analysis indicated, in the aggregate, fewer unreduced retirements than expected with certain groups experiencing more unreduced retirements than expected. Retirement experience was analyzed on a benefit-weighted basis separately for males and females, resulting in modifications to unreduced retirement rates at several ages across most divisions.</p>	

DIVISION TRUST FUNDS—PENSION

Non-Economic Assumptions	Value(s) / Type	Description / Source / Basis	Adoption / Effective Date
Rates of Mortality	Healthy Pre-Retirement Mortality - Exhibit D	<p>Healthy pre-retirement mortality is based on the Pub-2010 mortality tables, by category, as associated with each group with generational projection applied using scale MP-2019:</p> <ul style="list-style-type: none"> <li>--State and Local Government Divisions (other than Safety Officers): PubG-2010 Employee Table;</li> <li>--State and Local Government Divisions (Safety Officers): PubS-2010 Employee Table;</li> <li>--School and DPS Divisions: PubT-2010 Employee Table; and</li> <li>--Judicial Division: PubG-2010(A) Above-Median Employee Table.</li> </ul> <p>The tables are benefit-weighted.</p>	<p>First implemented use of separate mortality tables for different groups / divisions Effective: Dec 31, 2016; Mortality - Last Revised: Nov 20, 2020; Effective: Dec 31, 2020 First implemented generational mortality and use of a separate mortality table for beneficiaries Effective: Dec 31, 2020</p>
	Healthy Post-Retirement Mortality - Exhibit G	<p>The 2020 experience analysis employed a benefit-weighted approach and indicated, in the aggregate, generally fewer deaths than expected for all groups of retirees, with the exception of females age 80 and older. As a result, updated base tables to appropriate Pub-2010 mortality tables, with adjustments based on PERA-specific experience where credible data exists. To reflect future improvements in mortality, application of the MP-2019 mortality projection scale was recommended.</p> <p>Healthy post-retirement non-disability retiree mortality is based on the Pub-2010 mortality tables, by category, as associated with each group with generational projection applied using scale MP-2019:</p> <ul style="list-style-type: none"> <li>--State and Local Government Divisions (other than Safety Officers): PubG-2010 Healthy Retiree Table with credibility adjustments by gender and age. For males, the adjustments are 94% of the rates prior to age 80 and 90% of the rates for ages 80 and older; for females, the adjustments are 87% of the rates prior to age 80 and 107% of the rates for ages 80 and older;</li> <li>--State and Local Government Divisions (Safety Officers): Unadjusted PubS-2010 Healthy Retiree Table for males and females;</li> <li>--School and DPS Divisions: PubT-2010 Healthy Retiree Table with credibility adjustments by gender and age. For males, the adjustments are 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older; for females, the adjustments are 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older; and</li> <li>--Judicial Division: Unadjusted PubG-2010(A) Above-Median Healthy Retiree Table for males and females.</li> </ul> <p>The tables are benefit-weighted.</p>	
	Beneficiary Post-Retirement Mortality - Exhibit G	<p>The 2020 experience analysis indicated more deaths than expected for beneficiaries. As a result, post-retirement non-disabled beneficiary mortality was updated to the Pub-2010 Contingent Survivor Table (benefit weighted) adjusted for credibility and gender with generational projection applied using scale MP-2019. For males, the adjustments are 97% of the rates for all ages; for females, the adjustments are 105% of the rates for all ages.</p>	
	Disabled Post-Retirement Mortality	<p>The 2020 experience analysis indicated disabled retiree deaths generally consistent with expectations. Disabled post-retirement mortality is based on the Pub-2010 mortality tables with generational projection applied using scale MP-2019:</p> <ul style="list-style-type: none"> <li>--All Divisions (other than Safety Officers): PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages; and</li> <li>--State and Local Government Divisions (Safety Officers): Unadjusted PubS-2010 Disabled Retiree Table for males and females.</li> </ul> <p>The tables are benefit-weighted.</p>	

DIVISION TRUST FUNDS—PENSION

Non-Economic Assumptions	Value(s) / Type	Description / Source / Basis	Adoption / Effective Date
<b>Rate of Vested Terminated Members to Refund Member Account</b>	Non-Judicial - 35%	The 2020 experience analysis confirmed the current assumption that 35% of the vested members who terminate will elect to withdraw their accounts while the remaining 65% will elect to leave their accounts in the plan to be eligible for a benefit at retirement date.	Last Revised: 2009; Effective: Dec 31, 2009
	Judicial - 0%	The 2020 experience analysis confirmed the current assumption that none of the vested members who terminate will elect to withdraw their accounts while 100% will elect to leave their accounts in the plan to be eligible for a benefit at retirement date.	
<b>Rate of Non-Vested Terminated Members to Refund Member Account</b>	100%	The 2020 experience analysis confirmed the current assumption that 100% of the non-vested members who terminate will elect to withdraw their accounts.	Since inception of termination benefits, first mentioned in Dec 31, 2011 actuarial valuation report
<b>Administrative Expense Load</b>	0.40%	The element of the normal cost for each division, referred to as the administrative expense load, was first adopted by the Board as of November 5, 2012, effective for the December 31, 2012, actuarial valuation. The 2020 experience analysis confirmed the current 0.40% administrative expense load continues to be appropriate for this purpose.	Initially adopted: Nov 5, 2012; Effective: Dec 31, 2012; Last Revised: Nov 18, 2016; Effective: Dec 31, 2016

Annual Increase (AI) Assumptions	Value(s)	Description / Source / Basis	Adoption / Effective Date
<b>AI Rate Cap</b> (Membership Prior to Jan 1, 2007 under the PERA Benefit Structure & Members under the DPS Benefit Structure)	1.00%	The AI cap that may be awarded by the Board in 2022 and thereafter is assumed to be 1.00% per year after payments begin and eligibility requirements for payment of the AI have been met.  Basis: Adjusted pursuant to C.R.S. § 24-51-413, based on results of the 2018 and 2020 AAP assessments.	Effective: Dec 31, 2021
<b>AI Rate Cap</b> (Membership After Dec 31, 2006 under the PERA Benefit Structure)	0.00%	An AIR was established for each Division Trust Fund to provide AIs, to the extent affordable, once benefits become payable for these members. Therefore, the AI actuarial assumption applied to these members is 0.00%, since members in this category receive AIs through the affiliated AIR only to the extent affordable in accordance with C.R.S. § 24-51-1009.  Basis: AI provisions Pursuant to Senate Bill (SB) 06-235, enacted May 25, 2006.	Enacted: May 25, 2006; Effective: Dec 31, 2006
<b>AI Waiting Period</b>	36 months	The waiting period to meet the eligibility for AI payments was extended from 12 months to 36 months.  Basis: Pursuant to SB 18-200, enacted June 4, 2018	Enacted: Jun 4, 2018; Effective: Dec 31, 2017

## DIVISION TRUST FUNDS—PENSION

<b>ACTUARIAL STUDIES</b>				
<b>Governance Studies</b>	Following their adopted governance procedures and practices, the Board performs periodic asset/liability modeling studies, actuarial audits, and actuarial experience analyses approximately every three to five years.			
<b>Actuarial Studies</b>	<b>Description / Result</b>	<b>Last Conducted By</b>	<b>Completed</b>	<b>Next Scheduled</b>
<b>Asset Liability Modeling (ALM) Study</b>	The Board commissioned an asset/liability study during 2019, which was prepared by Aon Investments USA, Inc. (Aon). The objective of the study was to determine the optimal strategic asset allocation that will ultimately allow PERA to meet its financial obligations, while also ensuring that PERA incurs appropriate levels of risk and cash liquidity. As a result of this study, the Board slightly modified the asset allocation ranges and targets effective January 1, 2020, while reaffirming the investment return assumption of 7.25%.	Aon	Nov 15, 2019	2023 - 2024
<b>Actuarial Audit</b>	The primary focus of an actuarial audit is to ensure independence, accuracy, and conformity with the accepted ASOPs with regard to results of the annual actuarial valuation and the appropriateness of the actuarial assumptions used to calculate those results. The most recent actuarial audit was conducted in 2022 by Buck, an independent actuarial consulting firm with significant experience performing actuarial services within the public plan sector. Buck's October 14, 2022, actuarial audit report states: "Based on our review of the census data, experience study documents, liability replication, review of individual sample life calculations, and the actuarial valuation reports, we believe the December 31, 2021, actuarial valuations for Division Trust Funds and Health Care Trust Funds are reasonable, based on appropriate assumptions and methods, and the reports generally comply with the Actuarial Standards of Practice (ASOPs)", and, additionally, "Our review has indicated that the actuarial process followed by Colorado PERA is thorough, complete, and complies with applicable Actuarial Standards of Practice (ASOPs) and U.S. Qualification Standards (USQ) of the American Academy of Actuaries (AAA)."	Buck	Oct 14, 2022	2027
<b>Experience Analysis</b>	In October of 2020, Segal completed an experience analysis covering plan experience for the four-year period from 2016 through 2019, to provide the Board an updated view of all economic and demographic assumptions. In addition to the recommendations regarding revised assumptions, the Board's 2019 decision to reaffirm the assumed long-term rate of investment return of 7.25% was supported by the analysis provided in the 2020 report.  Based on the results of the experience analysis, the presentation by Segal, and related discussion, the Board adopted the recommended revised economic and demographic assumptions, as proposed, during the November 20, 2020, Board meeting effective for the December 31, 2020, actuarial valuation.	Segal	Reports Delivered: Oct 28, 2020 & Nov 4, 2020; Revised Assumptions Adopted: Nov 20, 2020 Effective: Dec 31, 2020	2024-2025

DIVISION TRUST FUNDS—PENSION

**CHANGES SINCE LAST ACTUARIAL VALUATION**

<b>Changes in Actuarial Methods</b>	There are no changes in actuarial methods incorporated in the December 31, 2023, actuarial valuation since the last actuarial valuation as of December 31, 2022.
<b>Changes in Actuarial Assumptions</b>	There are no changes in economic and demographic actuarial assumptions incorporated in the December 31, 2023, actuarial valuation, since the last actuarial valuation as of December 31, 2022.
<b>Changes in Plan Provisions</b>	<p>Except for the items noted below, there are no changes to contribution and plan provisions incorporated in the December 31, 2023, actuarial valuation since the last actuarial valuation as of December 31, 2022.</p> <p>As of December 31, 2023, plan assets for the Local Government Division Trust Fund reflect payments related to the disaffiliation of Tri-County Health Department as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for funding actuarial valuation purposes: a \$24.000 million payment received on December 4, 2023, and a \$2.000 million receivable. The employer disaffiliation payment and receivable allocations to the Local Government Division Trust Fund and Health Care Trust Fund (HCTF) were \$24.967 million and \$1.033 million, respectively.</p> <p>The following legislation, enacted in 2024, is reflected to the extent possible in the actuarial valuation as of December 31, 2023:</p> <ul style="list-style-type: none"> <li>• SB 24-099, enacted April 11, 2024, and effective 90 days following adjournment, adds superintendents and principals to the list of service retirees (along with teachers, school bus drivers, food services cooks, school nurses and paraprofessionals) that may be hired by a rural school district and employed without a reduction in retirement benefits. This legislation clarifies that the exemption for a rural school district also includes a small rural school district which has a funded pupil count for the prior budget year of less than 1,000 pupils. The bill extends the BOCES critical shortage provisions through June 30, 2030, and also clarifies that the two-year moratorium for those who have not met full-service retirement applies to all critical shortage positions and aligns the designation date for reporting critical shortage positions to September 1st of each year.</li> <li>• House Bill (HB) 24-1044, enacted April 19, 2024, and effective July 1, 2024, increases the number of retirees that can be designated under the 140-day provision. This legislation increases the current retiree limit of 10 "140-day provision" designees, for certain districts. For districts with over 10,000 students, an additional retiree may be designated under the "140-day provision" for each thousand students in excess of 10,000. In addition, this bill modifies the requirement that positions be filled based on a "critical shortage of qualified candidates" test to filling positions based on "need". The bill places a 6-year cap on the total years a retiree may be designated under the "140-day provision" and aligns the designation date for all "140-day" designees to September 1st of each year.</li> <li>• SB 24-169, enacted May 24, 2024, and effective July 1, 2025, modifies the definition of "State Trooper" to include a duly sworn employee of the Division of Fire Prevention and Control in the Department of Public Safety. The bill applies the "State Trooper" member and employer contribution rates and benefit structure to eligible employees whose duties include structural or wildfire management, wildfire response, live-fire training, or wildfire leadership, as determined by the Executive Director of the Department of Public Safety.</li> <li>• SB 24-186, enacted June 5, 2024, and effective January 1, 2025, modifies the definition of "State Trooper" to include employees of a Local Government Division employer classified as a coroner or deputy coroner who were elected, reelected, or appointed on or after January 1, 2021, which includes the Boulder County Coroner. The bill applies the "State Trooper" member and employer contribution rates and benefit structure to eligible employees meeting these criteria.</li> </ul>

**SIGNIFICANT EVENTS**

There were no significant events during 2023.

**DIFFERENCES IN ACTUARIAL VALUATION METHODS AND ASSUMPTIONS**

- The actuarial valuation for funding purposes was performed as of December 31, 2023. The actuarial valuation for accounting and financial reporting purposes was performed as of December 31, 2022, and the total pension liability (TPL) was rolled forward to the measurement date as of December 31, 2023.
- Census data used for the actuarial valuation for funding purposes reflects membership data as of December 31, 2023, and the census data used for the actuarial valuation for accounting and financial reporting purposes reflects membership data as of December 31, 2022. Therefore, all summaries and schedules, regarding actuarial valuation results for funding purposes, shown in the Actuarial Section, reflect census data as of December 31, 2023.
- The actuarial valuation for funding purposes applies an asset valuation method that recognizes a four-year smoothed fair value of assets for purposes of determining the UAAL. The actuarial valuation for accounting and financial reporting purposes applies the fair value of assets to determine the net pension liability.
- The actuarial valuation for funding purposes does not apply an AI assumption for members under the PERA benefit structure hired on or after January 1, 2007, in the determination of the AAL. Therefore, the ADC established by the funding valuation does not consider future increases for this member group and the assets attributable to the AIR are not included in the actuarial value of assets. A separate annual actuarial valuation is performed on the AIR to determine the applicable AI payable to eligible members after benefit commencement. AIR plan provisions are deemed substantively automatic, ad hoc cost-of-living adjustments. Liabilities associated with the AIR statutorily can never exceed available assets. As a result, the actuarial valuation for accounting and financial reporting purposes includes the balance of the AIR both in the plan assets, at fair value, and in the TPL of the applicable division.

<sup>1</sup> Rates are shown for healthy benefit recipients. Separate disability mortality tables are used for disabled retirees.

<sup>2</sup> Assumptions shown are used for pension plans, developed on a benefit-weighted basis, whereas those used for OPEB plans are headcount-weighted, using the same underlying mortality tables. For more detail, please see the mortality descriptions in the Pension and OPEB introduction subsections.

Summary of Funding Progress

The PERA funding objective is to pay long-term benefit promises through contributions that remain approximately level from year to year as a percent of covered payroll earned by PERA members. The following schedules presented in this section provide an overview of funding progress:

- The Schedule of Funded Liabilities by Type shows the degree to which existing liabilities are funded, including prior history.
- The Schedule of Funding Progress shows the UAAL as a percentage of annual covered payroll, including prior history.
- Schedules detailing actuarial gains and losses, by source, including prior history and a reconciliation of UAAL considering the total of all five Division Trust Funds, over the past five years.
- The scheduled contribution requirements based on the December 31, 2023, actuarial valuation for the period ending December 31, 2025.

Schedule of Funded Liabilities by Type

The Schedule of Funded Liabilities by Type, formerly known as the “solvency test,” compares the plan’s actuarial value of assets with: (A) member contributions (with interest) on deposit, (B) the liabilities for future benefits to persons who have retired, died or become disabled, and to those who have terminated service with the right to a future benefit, and (C) the liabilities for service already rendered by active members.

The actuarial valuation of December 31, 2023, shows plan assets fully cover liability A. In addition, the remainder of plan assets covers 100% of the liabilities for future benefits to persons who have retired or terminated service with the right to a future benefit (liability B) regarding the Local Government, Judicial, and DPS Division Trust Funds and a significant portion of these liabilities for the State and School Division Trust Funds. Generally, if the system follows the discipline of level contribution rate financing, the funded portion of liability B and C is expected to increase over time.

<sup>1</sup> Includes accrued interest on member contributions.

<sup>2</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

## DIVISION TRUST FUNDS—PENSION

### Unfunded Actuarial Accrued Liability

UAAL is the difference between actuarially calculated liability for service already rendered and the valuation assets of the retirement fund.

In 2022, the ratio of PERA’s valuation assets to accrued liabilities was 69.9% and decreased to 69.6% by the end of 2023.

Following are the most impactful factors resulting in higher liabilities (or losses) to PERA during 2023:

- Lower than assumed investment return (based on the smoothed actuarial value of assets) for 2023.
- Member pay increases were greater than expected.
- New PERA members had some service resulting in accrued liabilities.

Following are the most impactful factors resulting in lower liabilities (or gains) during 2023:

- Actual payroll contributions were greater than the determined ADC.
- Retirees experienced shorter lifespans than expected.

In 2016, PERA’s funded status was negatively affected primarily by the recognition of adverse economic experience and by the adoption of more conservative economic and demographic assumptions to better reflect anticipated future behaviors, longevity, and economic conditions.

In 2017, PERA’s funded status improved due to a decrease in plan liabilities reflecting the adoption of SB 18-200 pension reforms along with better than expected investment performance.

PERA’s funded status was, again, negatively impacted in 2018, reflecting unfavorable demographic experience and lower than assumed investment performance.

In 2019 and 2021, PERA’s funded status was positively impacted by better than expected investment performance and reductions in the AI cap resulting from the 2018 and 2020 AAP assessments, respectively.

In 2020, PERA’s funded status was positively impacted by better than expected investment performance and a small mortality gain and negatively impacted by the adoption of generally more conservative actuarial assumptions, including the application of generational mortality.

In 2022, PERA’s funded status increased. The funded status is determined based on an actuarial or “smoothed” value of assets, recognizing only a portion of each year’s investment gain or loss over a four-year period. Therefore, even though the 2022 investment return was lower than the 7.25% expected rate of investment return, the favorable investment performance for 2019, 2020, and 2021 helped mitigate the adverse effect of the 2022 investment performance as well as other demographic actuarial losses.

In 2023, PERA’s funded status, based on the actuarial value of assets, was negatively impacted by lower than expected investment return even though rate of return on the fair value of assets was greater than the expected 7.25%. The funded status also was negatively impacted by net unfavorable demographic experience during 2023.

Since inflation decreases the dollar’s value, it is important to examine more than basic actuarial metrics and data when assessing the plan’s financial status. The ratio of UAAL dollars divided by member covered payroll, as shown in the following table, can provide a meaningful index. Opposite of the desired trend of a funded status ratio increasing toward 100%, a downward trend in the ratio of UAAL to covered payroll is the more desired outcome, indicating the positive impact additional contributions can have in funding the system.

Actuarial Gains and Losses

ANALYSIS OF FINANCIAL EXPERIENCE

(Dollars in Millions)

	State Division	School Division	Local Government Division	Judicial Division	DPS Division
<b>Amounts</b>					
From differences between assumed and actual experience on liabilities					
Age and service retirements <sup>1</sup>	(\$5.7)	(\$4.8)	\$4.4	\$0.3	\$4.5
Disability retirements <sup>2</sup>	0.2	1.6	0.4	(0.1)	(0.4)
Deaths <sup>3</sup>	(37.8)	(68.5)	(5.1)	1.4	(19.0)
Withdrawals <sup>4</sup>	42.2	35.4	3.6	(0.5)	(41.4)
New members <sup>5</sup>	132.7	145.0	21.4	4.4	58.6
Pay increases <sup>6</sup>	175.9	512.1	50.5	0.1	53.3
Administrative expenses and other <sup>7</sup>	41.2	56.3	7.6	0.9	13.2
Subtotal	348.7	677.1	82.8	6.5	68.8
From differences between assumed and actual experience on assets	140.3	250.8	41.4	3.7	33.2
From changes in plan assumptions and methods	—	—	—	—	—
From changes in plan provisions	—	—	—	—	—
<b>Total actuarial losses on 2023 activities</b>	<b>\$489.0</b>	<b>\$927.9</b>	<b>\$124.2</b>	<b>\$10.2</b>	<b>\$102.0</b>
<b>Total actuarial (gains)/losses on 2022 activities</b>	<b>(\$318.0)</b>	<b>\$117.3</b>	<b>(\$77.3)</b>	<b>\$4.5</b>	<b>(\$82.9)</b>

<sup>1</sup> *Age and service retirements*: If members retire at older ages than assumed, there is a gain. If members retire at younger ages than assumed, there is a loss.

<sup>2</sup> *Disability retirements*: If disability claims are lower than assumed, there is a gain. If disability claims are higher than assumed, there is a loss.

<sup>3</sup> *Deaths*: If survivor claims are lower than assumed, there is a gain. If survivor claims are higher than assumed, there is a loss. If retirees die sooner than assumed, there is a gain. If retirees live longer than assumed, there is a loss.

<sup>4</sup> *Withdrawal from employment*: If more members terminate and more liabilities are released by withdrawals than assumed, there is a gain. If fewer liabilities are released by terminations than assumed, there is a loss.

<sup>5</sup> *New members*: If new members entering the plan have prior service, there is a loss.

<sup>6</sup> *Pay increases*: If there are smaller salary increases than assumed, there is a gain. If greater salary increases occur than assumed, there is a loss.

<sup>7</sup> *Administrative expenses and other*: Includes miscellaneous gains and losses resulting from valuation software updates and refinements, data adjustments, timing of financial transactions, etc.

DIVISION TRUST FUNDS—PENSION

The following table identifies the components that contributed to the change in the underfunded status of the Division Trust Funds for the period 2019 to 2023:

**SCHEDULE OF GAINS AND LOSSES IN ACCRUED LIABILITIES AND RECONCILIATION OF UNFUNDED ACTUARIAL ACCRUED LIABILITIES**

(Dollars in Millions)

Type of Activity	(Gain) or Loss for Years Ended December 31					2019 - 2023
	2019	2020	2021	2022	2023	
<b>UAAL beginning of year</b>	\$30,999.3	\$29,809.8	\$30,976.6	\$27,195.9	<b>\$26,266.4</b>	\$30,999.3

Change in plan provisions	(1,494.3) <sup>3</sup>	—	(1,579.0) <sup>4</sup>	—	—	(3,073.3)
Non-recurring items	(1,494.3)	3,107.9	(1,579.0)	—	—	34.6
Contribution deficiency/(surplus)	132.9	280.2	(216.6)	(417.4)	(162.6)	(383.5) <sup>5</sup>
Expected change in UAAL	436.4	232.6	521.3	(155.7)	(232.4)	802.2 <sup>6</sup>
<b>Total (gain)/loss for year</b>	<b>(1,189.5)</b>	<b>1,166.8</b>	<b>(3,780.7)</b>	<b>(929.5)</b>	<b>1,258.3</b>	<b>(3,474.6)</b>
<b>UAAL end of year</b>	<b>\$29,809.8</b>	<b>\$30,976.6</b>	<b>\$27,195.9</b>	<b>\$26,266.4</b>	<b>\$27,524.7</b>	<b>\$27,524.7</b>

This schedule shows where gains and losses occurred over the five-year period compared to what was expected or assumed. These include the following significant gains and losses:

- <sup>1</sup> \$7.6 billion cumulative gain resulting from favorable investment experience for 2019, 2020, 2021, and 2022.
- <sup>2</sup> \$3.1 billion loss in 2020, due to the recognition of revised actuarial assumptions, including the implementation of generational mortality, adopted November 20, 2020, effective December 31, 2020.
- <sup>3</sup> \$1.5 billion gain in 2019, due to the reduction in the AI cap from 1.50% to 1.25%, effective July 1, 2020, as required by the 2018 AAP assessment.
- <sup>4</sup> \$1.6 billion gain in 2021, due to the reduction in the AI cap from 1.25% to 1.00%, effective July 1, 2022, as required by the 2020 AAP assessment.
- <sup>5</sup> \$0.4 billion cumulative gain resulting from contribution surplus; occurring when actual contributions flowing into the plans are greater than the determined ADC.
- <sup>6</sup> \$0.8 billion cumulative loss indicating the five-year difference between each prior year's UAAL and the expected current year UAAL considering the normal cost earned, less the required employer contributions all of which is adjusted for interest.

DIVISION TRUST FUNDS—PENSION

**Actuarial Valuation Results**

Contribution rates for the year ending December 31, 2025, are derived from the results of the December 31, 2023, annual actuarial valuation and are determined in advance for purposes of budgeting, completing the required assessments related to the automatic adjustment provision (AAP) and consideration of any necessary legislative action.

**SCHEDULE OF COMPUTED EMPLOYER CONTRIBUTION AND DIRECT DISTRIBUTION RATES FOR THE 2025 FISCAL YEAR**

Expressed as a Percentage of Covered Payroll

	State Division	School Division	Local Government Division	Judicial Division	DPS Division
<b>Contributions</b>					
Service retirement benefits	8.33%	10.28%	8.43%	14.66%	8.74%
Disability retirement benefits	0.34%	0.21%	0.31%	0.39%	0.21%
Survivor benefits	0.25%	0.20%	0.28%	0.47%	0.18%
Termination withdrawals	2.85%	2.85%	2.65%	1.02%	3.44%
Refunds	0.82%	0.66%	0.82%	0.07% <sup>1</sup>	0.42%

Total normal cost	12.99%	14.60%	12.89%	17.01%	13.39%
Less member contributions	(11.14%) <sup>2</sup>	(11.00%)	(9.02%) <sup>2</sup>	(11.00%)	(11.00%)
<b>Employer normal cost</b>	<b>1.85%</b>	<b>3.60%</b>	<b>3.87%</b>	<b>6.01%</b>	<b>2.39%</b>
Percentage available to amortize unfunded actuarial accrued liabilities	17.98%	16.14%	9.08%	17.22%	7.55%
Amortization period <sup>3</sup>	18 Years	23 Years	8 Years	5 Years	6 Years
Total employer contribution rate for actuarially funded benefits	11.58% <sup>2</sup>	11.40%	11.02% <sup>2</sup>	14.91%	11.40%
Amortization equalization disbursement	5.00%	4.50%	2.20%	5.00%	4.50%
Supplemental amortization equalization disbursement	5.00%	5.50%	1.50%	5.00%	5.50%
Less Health Care Trust Fund	(1.02%)	(1.02%)	(1.02%)	(1.02%)	(1.02%)
Less Annual Increase Reserve	(0.73%)	(0.64%)	(0.75%)	(0.66%)	(0.75%)
Less PCOP credit <sup>4</sup>	N/A	N/A	N/A	N/A	(9.69%)
<b>Employer contribution rate for defined benefit plan</b>	<b>19.83%</b>	<b>19.74%</b>	<b>12.95%</b>	<b>23.23%</b>	<b>9.94%</b>
<b>Direct distribution<sup>5</sup></b>	<b>1.98%</b>	<b>1.98%</b>	<b>N/A</b>	<b>1.98%</b>	<b>1.98%</b>
<b>DC supplement rates<sup>6</sup></b>	<b>0.23%</b>	<b>N/A</b>	<b>0.11%</b>	<b>N/A</b>	<b>N/A</b>

<sup>1</sup> Assumes no judge will elect a refund of contributions made for the 17th through the 20th year of service.

<sup>2</sup> Weighted average of more than one statutory rate.

<sup>3</sup> The amortization periods consider ongoing employer, member, AED, SAED, and DC supplement contributions and the direct distribution, where and when applicable, including any known future changes.

<sup>4</sup> An offset to the DPS Division rate is provided for under C.R.S. § 24-51-412. See Note 4 of the Notes to the Financial Statements in the Financial Section.

<sup>5</sup> Rates for the direct distribution have been estimated and are shown as a percentage of 2025 projected covered payroll.

<sup>6</sup> The DC supplement will be paid to the State and Local Government Divisions on behalf of all employees of these divisions, calculated pursuant to employees hired on or after January 1, 2019, who chose to participate in the PERAChoice DC Plan in lieu of participating in PERA's DB Plan. Designed to compensate for the employer contributions paid to the DC Plan participant accounts that otherwise would have been payment toward the UAAL, this supplement is determined separately for the State and Local Government Divisions as a rate of pay and is payable as of January 1, 2025, by all employers of the two divisions.

Note: The underlying calculations involve more precision than what is presented in the schedule and the rounded numbers shown may not add as a result.

DIVISION TRUST FUNDS—PENSION

With the passage of SB 10-001, the AED and the SAED can be adjusted based on the year-end funded status within a particular Division Trust Fund. If a particular Division Trust Fund reaches a funded status of 103%, a decrease in the AED and SAED is mandated and if it subsequently falls below a funded status of 90%, an increase is mandated. For the Local Government and Judicial Divisions, if the funded ratio reaches 90% and subsequently falls below 90%, an increase in the AED and SAED is mandated. Increases cannot exceed the following maximum allowable limitations.

**FUTURE AED AND SAED RATES**

Trust Fund	2024 Rates		Future Annual Increases in Rates Prescribed by Colorado Revised Statutes		Maximum Allowable Limitations	
	AED	SAED	AED	SAED	AED	SAED
State Division	5.00%	5.00%	N/A	N/A	5.00%	5.00%
School Division	4.50%	5.50%	N/A	N/A	4.50%	5.50%
Local Government Division	2.20%	1.50%	No	No	5.00%	5.00%
Judicial Division	5.00%	5.00%	N/A	N/A	5.00%	5.00%
DPS Division <sup>1</sup>	4.50%	5.50%	N/A	N/A	4.50%	5.50%

<sup>1</sup> DPS Division employers are permitted to reduce the AED and SAED by the PCOP offset, as specified in C.R.S. § 24-51-412 *et seq.*

Note: A history of contributions by Division Trust Fund, the ADC compared to the actual contributions paid, including the deficiency or (excess), for each of the last 10 years, is shown in the Schedule of Employer and Nonemployer Contributions, found on pages 98-100 in the RSI in the Financial Section.

**Annual Actuarial Valuation Statistics**

As of December 31, 2023, the Funded Ratio, the UAAL, the ADC for 2025 as a percentage of covered payroll, and the amortization period considering current funding and future increases prescribed by Colorado statute, for each division, are shown in the following table. The results in this table are based on the actuarial valuation for funding purposes, which does not consider the impact of reduced benefits for those hired in the future as provided for in Colorado law.

**ACTUARIAL STATISTICS**

(Dollars in Thousands)

Trust Fund	Funded Ratio	UAAL	ADC <sup>1</sup>	Amortization Period <sup>2</sup>
State Division	66.2%	\$9,608,843	18.78%	18 Years
School Division	66.7%	16,766,082	20.49%	23 Years
Local Government Division	90.7%	571,787	8.22%	8 Years
Judicial Division	89.2%	57,287	12.20%	5 Years
DPS Division	89.6%	520,677	6.08%	6 Years
<b>All Division Trust Funds<sup>3</sup></b>		<b>\$27,524,676</b>		

<sup>1</sup> Determined considering the 30-year target amortization period defined in the pension funding policy for purposes of funding benchmarks and RSI reporting as shown in the Financial Section.

<sup>2</sup> The amortization periods consider ongoing employer, member, AED, SAED and DC supplement contributions, and the direct distribution, where and when applicable, including any known future changes.

<sup>3</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

Pursuant to the pension funding policy, for reporting purposes, alternative ADCs also are determined by applying the layered amortization methodology as previously described. Under the target and alternative calculations, the legacy UAAL as of December 31, 2017, was amortized using a 30-year period, but the alternative ADCs use a 25-year closed period, a 20-year closed period, and a 15-year closed period, in lieu of the 30-year period, for amortization of any "new" UAAL recognized on and after January 1, 2018. The 2025 target and alternative ADCs, by division, are displayed as follows:

Trust Fund	Target ADC	Alternative ADCs		
	30-Year <sup>1</sup>	25-Year <sup>2</sup>	20-Year <sup>2</sup>	15-Year <sup>2</sup>
State Division	18.78%	18.69%	18.55%	18.32%
School Division	20.49%	20.61%	20.81%	21.19%
Local Government Division	8.22%	8.02%	7.70%	7.14%
Judicial Division	12.20%	11.76%	11.02%	9.71%
DPS Division	6.08%	5.92%	5.66%	5.20%

<sup>1</sup> Refers to the amortization period used to amortize the legacy UAAL as of December 31, 2017, and any "new" UAAL recognized on and after January 1, 2018.

<sup>2</sup> Refers to the amortization period used to amortize any "new" UAAL recognized on and after January 1, 2018.

DIVISION TRUST FUNDS—PENSION

**Automatic Adjustment Provision**

The primary intent of the AAP is to gauge the adequacy of the contributions coming into the pension trust fund against the amount required, and if determined necessary, to initiate automatic changes to member and employer contribution rates, the AI cap, and, under certain circumstances, the direct distribution from the State of Colorado, to better insure achievement of the targeted 30-year funding goal, as delineated in SB 18-200. Pursuant to C.R.S. § 24-51-413, this assessment commenced with the December 31, 2018, actuarial valuation and is performed annually thereafter.

The AAP assessment compares two blended rates, weighted across all five Division Trust Funds, defined as: the “Blended Total Contribution Amount” (employer contribution rate + member contribution rate + direct distribution as a rate of pay) divided by the “Blended Total Required Contribution” (ADC Rate + member contribution rate), determining a resulting ratio. If the resulting ratio falls within an acceptable corridor (98% to 119%), no adjustments are made. If the resulting ratio does not achieve a minimum benchmark (is less than 98%) or exceeds a maximum benchmark (is 120% or greater), adjustments are applied in an equitable manner of impact.

The following table shows the results of the AAP assessment which was conducted to determine if adjustments are necessary as of July 1, 2025:

Elements of Test Ratio (Shown as a percentage of pay)	2025 Input Percentages	Resulting Ratio	Adjustments, if Necessary (Effective July 1, 2025)	Revised Resulting Ratio
2025 Blended Total Contribution Amount <sup>1</sup>	32.34%	(Equals) 106.52%	N/A	N/A
(Divided by):	(Divided by):			
2025 Blended Total Required Contribution <sup>1</sup>	30.36%			

<sup>1</sup> The blended rates are based on the 2025 contribution rates shown on page 171, weighted based on the UAAL of each Division Trust Fund and are not appropriate for any other use.

A summary of the AAP guidelines, found in C.R.S. § 24-51-413, is as follows:

An automatic adjustment will occur under the following conditions:

- If the resulting ratio is less than 98%, there will be adjustments of equitable impact, increasing each of the employer and member contribution rates, decreasing the AI cap, and increasing the direct distribution (if permitted).
- If the resulting ratio is greater than or equal to 120%, there will be adjustments of equitable impact, decreasing each of the employer and member contribution rates, increasing the AI cap, and decreasing the direct distribution.

The AAP defines the limited amounts of total adjustment available in each category, and the increments of adjustments that can occur in any year. Multiple steps over multiple years are allowed for a required adjustment as necessary, but cannot exceed the ultimate limits as set forth in statute, detailed as follows:

- Adjustment (increase or decrease) to each of the employer and member contribution rates cannot exceed 0.50% in any one year, and
  - Cannot exceed 2.00% above the contribution rates reflecting SB 18-200 statutory reforms.
  - Cannot fall below the contribution rates in effect immediately prior to the passage of SB 18-200.
- Adjustment (increase or decrease) to the AI rate cannot exceed 0.25% in any one year, and
  - Cannot exceed a 2.00% AI cap maximum.
  - Cannot fall below a 0.50% AI cap minimum.
- Adjustment to the direct distribution cannot exceed \$20 million in any one year, and
  - Cannot exceed the initial \$225 million amount.
  - Can be reduced to \$0.
- Adjustments required because:
  - Funding is below the 98% threshold, will be made to an extent that will bring the revised ratio to 103% following the corrective efforts, but in no event can the adjustments in one year be greater than the limit described above.
  - Funding has reached the 120% threshold, must not cause the ratio to fall below 103%.

DIVISION TRUST FUNDS—PENSION

AAP ASSESSMENT HISTORY

Assessment	Information Based on Valuation Date	Compare Contribution Rates for Plan Year	Triggered Adjustments?	Adjustments to be Made	Effective Date for Adjustments
2018	December 31, 2018	2020	Yes	0.50% increase to member rate 0.50% increase to employer rate 0.25% decrease to AI cap No change to \$225M direct distribution <sup>1</sup>	July 1, 2020
2019	December 31, 2019	2021	No	N/A	N/A
2020	December 31, 2020	2022	Yes	0.50% increase to member rate 0.50% increase to employer rate 0.25% decrease to AI cap No change to \$225M direct distribution	July 1, 2022
2021	December 31, 2021	2023	No	N/A	N/A
2022	December 31, 2022	2024	No	N/A	N/A
2023	December 31, 2023	2025	No	N/A	N/A

<sup>1</sup> Pursuant to HB 20-1379, the direct distribution, payable July 1, 2020, was suspended.

**Funded Ratio**

(Dollars in Thousands)

The funded ratio for the plan is determined by dividing the actuarial value of assets by the AAL. The actuarial value of assets is not the current fair value but a market-related value, which recognizes the differences between actual and expected investment experience for each year in equal amounts over a four-year period. The actuarial value of the assets as of December 31, 2023, was \$62,941,200 compared to a fair value of assets of \$60,014,087, and to the AAL of \$90,465,876. The funded ratio for each of the funds, based on the actuarial value of assets, at December 31 for each of the last five years is as follows:

Trust Fund	2019	2020	2021	2022	2023
State Division	58.0%	59.1%	64.0%	66.5%	<b>66.2%</b>
School Division	59.9%	60.6%	65.3%	67.0%	<b>66.7%</b>
Local Government Division	80.7%	82.4%	88.6%	91.0%	<b>90.7%</b>
Judicial Division	74.0%	78.7%	85.9%	88.5%	<b>89.2%</b>
DPS Division	80.0%	81.2%	86.9%	90.3%	<b>89.6%</b>
<b>All Division Trust Funds<sup>1</sup></b>	<b>61.9%</b>	<b>62.8%</b>	<b>67.8%</b>	<b>69.9%</b>	<b>69.6%</b>

<sup>1</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

The Board’s pension funding policy states that the targeted actuarial funded ratio is greater than or equal to 110% on a combined Division Trust Fund basis. The funded ratios listed give an indication of progress made toward achieving the stated objective. A larger funded ratio indicates a plan is better funded. As an example, in actual dollars, for every \$1.00 of the actuarially determined benefits earned for the School Division Trust Fund as of December 31, 2023, approximately \$0.67 of assets are available for payment based on the actuarial value of assets. These benefits earned will be payable over the life span of members after their retirement and therefore, it is not imperative the AAL equal the actuarial value of assets at any given moment in time.

DIVISION TRUST FUNDS—PENSION

At December 31, 2022, and December 31, 2023, PERA had the following funded status for the Division Trust Funds:

**FUNDED STATUS FOR THE DIVISION TRUST FUNDS**

(Dollars in Thousands)

	Fair Value of Assets		Actuarial Value of Assets <sup>1</sup>	
	12/31/2022	12/31/2023	12/31/2022	12/31/2023

<sup>1</sup> The actuarial value of assets is calculated by spreading any market gains or losses above or below the assumed rate of return over four years.

<sup>2</sup> Based upon an assumed rate of return on investments of 7.25% and an assumed rate of 7.25% to discount the liabilities to be paid in the future to a value as of December 31, 2022, and December 31, 2023.

<sup>3</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

<sup>4</sup> In aggregate, the fair value of the assets as of December 31, 2023, is \$2,927,113 less than the actuarial value of assets calculated by the actuaries, as they are recognizing the gains and losses in value over four years, rather than only in the year they occurred. The remaining gains and (losses) to be smoothed for 2021 are \$1,244,491, for 2022 are (\$6,632,484), and for 2023 are \$2,460,880.

DIVISION TRUST FUNDS—PENSION

**Sensitivity of Actuarial Valuation to Changes in Assumed Investment Rate of Return and Discount Rate**

The most important long-term driver of a pension plan is investment income. The investment return assumption and the discount rate for liabilities should be based on an estimated long-term investment yield for the plan, considering the nature and mix of current and expected plan investments and the basis used to determine the actuarial value of assets.

To understand the importance of the investment rate of return assumption, which is used to discount the actuarial liabilities of PERA, a 1% fluctuation in the assumed investment rate of return and discount rate would change the funded ratio, UAAL, and ADC (for contributions for the fiscal year ended December 31, 2025) as shown in the following tables:

**INVESTMENT RETURN ASSUMPTION (DISCOUNT RATE) EQUAL TO 6.25%**

(Dollars in Thousands)

Trust Fund	Actuarial Value of Assets			Fair Value of Assets
	Funded Ratio	UAAL	ADC	UAAL
State Division	59.8%	\$12,698,005	24.81%	\$13,591,716

DIVISION TRUST FUNDS—PENSION

The number of persons receiving monthly retirement benefits has grown steadily in relation to membership. As shown in the following table, this trend has substantially stabilized over the last few years as PERA has reached a mature plan status. The retirement benefit disbursements shown in the right-hand column include cost-of-living increases paid in years since 1970. Prior to 1981, figures are for years ended June 30.

<sup>1</sup> The employer counts are presented for purposes of complying with GASB 67 only, which classifies a primary government and its component units as one employer. For all other purposes, the definition of an employer is governed by Title 24, Article 51 of the C.R.S., PERA's Rules, 8 CCR 1502-1, and, if applicable, the employer's affiliation agreement with PERA.

HEALTH CARE TRUST FUNDS—OPEB

Actuarial Topics

The standard promulgated by the GASB Statement No. 74 results in the preparation of two actuarial valuations—one for funding purposes and one for accounting and financial reporting purposes. Unless otherwise noted, this Health Care Trust Funds subsection reports on the actuarial valuation performed for funding purposes, but also includes information on specific differences between the two actuarial valuations.

The other postemployment benefit (OPEB) plan provisions in effect on December 31, 2023, are summarized in Note 9 of the Notes to the Financial Statements in the Financial Section.

PERA BOARD GOVERNANCE - TWO DEFINED BENEFIT OPEB PLANS	
<b>PERA Defined Benefit OPEB Plans</b>	<p>PERA's two defined benefit OPEB plans include the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer plan, and the Denver Public Schools Health Care Trust Fund (DPS HCTF), a single-employer plan.</p> <p>The HCTF and the DPS HCTF provide a subsidy for PERACare, PERA's health benefits program. Participation in the HCTF and the DPS HCTF is voluntary pursuant to C.R.S. § 24-51-1201. Employer contributions and investment earnings on the assets of the plans primarily pay for the costs.</p> <p>The HCTF was established as of July 1, 1985, and the DPS HCTF was established January 1, 2010, with the asset transfer from the Denver Public Schools Retiree Health Benefit Trust held by the DPS Board of Education. The HCTF and the DPS HCTF provide a health care premium subsidy based upon the benefit structure under which a member retires and the member's years of service credit. There is an allocation of the premium subsidy between the trust funds for members who retire with service credit in the DPS Division and one or more of the other divisions, as set forth in C.R.S. § 24-51-1206.5. The basis for the allocation of the premium subsidy is the percentage of the member contribution balance from each division as it relates to the total member contribution account balance.</p>
<b>PERA Board OPEB Funding Policy</b>	<p>The PERA Board is responsible for maintaining an OPEB funding policy applicable to these plans.</p> <p>The current OPEB funding policy initially was adopted by the Board on January 19, 2018, effective for the December 31, 2017, funding actuarial valuation, and last amended on January 19, 2024. The OPEB funding policy requires the calculation of an ADC for each of the two Health Care Trust Funds for the purpose of assessing the adequacy of the statutory contribution rate of each fund. The ADC is determined in accordance with the OPEB plan provisions in effect as of the date of the actuary's Letter of Certification and is expressed as a level percentage of assumed future covered payroll.</p>
<b>Actuarial Service Provider &amp; Other Responsibilities</b>	<p>The Board retains an external actuary, and effective November 1, 2018, Segal was retained to perform annual actuarial valuations and sustainability projections as well as periodic experience studies to review the actuarial assumptions versus actual plan experience. The Board's initial contract agreement with Segal was extended effective January 1, 2024, for an additional five-year period ending December 31, 2028.</p> <p>In addition, the Board has the authority to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program including the administration of the health care subsidies.</p>
<b>Actuarial Service Provider Funding Method Statement</b>	<p>Per their actuarial valuation report, "Segal strongly recommends an actuarial funding method that targets 100% funding of the actuarial accrued liability. Generally, this implies payments that are ultimately at least enough to cover normal cost, interest on the unfunded actuarial accrued liability and a portion of the principal balance. The OPEB funding policy adopted by PERA meets this standard."</p>

ACTUARIAL METHODS	
<b>Actuarial Methods</b>	<p>The Board is responsible for the actuarial methods and assumptions used in the actuarial valuations in accordance with C.R.S. § 24-51-204(5). Through formal action, the Board updates, replaces, or adopts new actuarial methods and assumptions as deemed necessary.</p> <p>Initial valuations were performed on an "open group" basis approximately once every two years. Annual valuations commenced with the December 31, 1998, actuarial valuation.</p>

HEALTH CARE TRUST FUNDS—OPEB

Actuarial Methods	Type	Description / Source / Basis	Adoption / Effective Date
<b>Asset Valuation Method</b>	Smoothed Actuarial Value of Assets	<p>In 1992, the Board adopted a method for valuing assets that determines a smoothed fair value (synonymous with the term "market value," as is used in the Board's OPEB funding policy) of assets to help mitigate volatile investment market experience.</p> <p>The smoothed fair value of assets recognizes the differences between actual and expected investment experience for each year in equal amounts over a four-year period.</p>	Initially Adopted: 1992; Effective: Jan 1, 1993; Reinitialized to Fair Value as of: Dec 31, 2004; Effective: Dec 31, 2005
<b>Actuarial Cost Method</b>	Entry Age Actuarial Cost Method (EA)	<p>The EA funding or cost method is designed to keep annual costs level as a percent of covered payroll and for this reason, was selected by the Board to be used in the actuarial valuations.</p> <p>The method to determine normal cost, original based on credited service, is determined based on compensation as of the December 31, 2016, actuarial valuation.</p> <p>The effect of differences between the actuarial assumptions and the actual experience of the plan is determined within each annual actuarial valuation. These differences produce actuarial gains or losses that result in an adjustment of the UAAL.</p>	EA Effective: Jan 1, 1991; Normal Cost basis changed from service to compensation Effective: Dec 31, 2016
<b>Amortization Method</b>	Defined, Closed, and Layered Periods	<p>The ADC is determined by adding the normal cost and the cost to amortize, over defined, closed periods, any existing UAAL or new UAAL, including the impact of any experience actuarial gains and losses, actuarial assumption changes, and changes in plan provisions. Each amortized item is tracked over the closed period defined for that category.</p> <p>The 30-year period used to amortize the legacy UAAL was initialized as of December 31, 2017. All gains, losses, and changes in actuarial methods and assumptions on and after January 1, 2018, are recognized each year and amortized separately over closed 30-year periods.</p> <p>The impact of any changes in plan provisions will be recognized over a closed period relating to the demographics of the group affected and/or the duration of the enhancement provided, not to exceed 25 years. If any future actuarial valuation indicates a division has a negative UAAL, the ADC shall be set equal to the normal cost until such time as the funded ratio equals or exceeds 120%. At that time, the ADC shall be equal to the normal cost less an amount equal to 15-year amortization of the portion of the negative UAAL above the 120% funded ratio.</p>	Initially Adopted: Jan 19, 2018; Effective: Dec 31, 2017; Last Amended: Jan 19, 2024

HEALTH CARE TRUST FUNDS—OPEB

ACTUARIAL ASSUMPTIONS	
<b>Actuarial Assumptions<sup>1</sup></b>	<p>Unless otherwise noted, it can be assumed the economic and demographic actuarial assumptions applied to the actuarial valuation for funding purposes also were applied to the actuarial valuation for accounting and financial reporting purposes.</p> <p>All actuarial methods and assumptions necessary to assess OPEB liabilities, in addition to those already previously, are described as follows. The actuary followed ASOP No. 6, <i>Measuring Retiree Group Benefit Obligations</i>, for purposes of recommending appropriate OPEB-specific assumptions.</p>
<b>Basis of Actuarial Assumptions Used</b>	<p>Unless otherwise noted, the basis of all selected economic and non-economic actuarial assumptions resulted from the 2020 experience analysis and related discussions that took place during the November 20, 2020, Board meeting. As a result of the 2019 asset/liability study, concluded at the November 15, 2019, Board meeting, the Board reaffirmed the 7.25% assumed long-term rate of investment return effective as of January 1, 2020, which was supported by the analysis provided by Segal in the 2020 Experience Analysis report.</p>

<sup>1</sup> See Exhibits H through L for detailed assumption information.

Economic Assumptions	Value(s) / Type	Description / Source / Basis	Adoption / Effective Date
<b>Initial Per Capita Health Care Costs</b>	Exhibit H	<p>Exhibit H contains the assumptions used in determining the additional liability for PERACare enrollees under the PERA benefit structure (and in certain circumstances, the DPS benefit structure), who are age 65 or older and who are not eligible for premium-free Medicare Part A. Shown are the monthly costs/premiums assumed for 2024, which are subject to the morbidity rates and health care cost trend rates.</p> <p>Basis: Reviewed and updated annually</p>	Updated Effective: Dec 31, 2023
<b>Age-Related Morbidity Rates</b>	Exhibit H	<p>These rates assist in anticipating the pace at which a defined population ages through an eligibility period and for PERA, apply only to Medicare-eligible members who retire under the PERA benefit structure (and in certain circumstances, the DPS benefit structure) and do not qualify for premium-free Medicare Part A. Where the actual premiums for the selected plan are less than the service-based premium subsidy, age-related morbidity assumptions are applied accordingly; i.e. the 2024 Medicare Advantage #2 is lower than the service-based subsidy.</p> <p>Basis: Updated for the December 31, 2022, valuation, the revised morbidity rate factors are based on a review of historical claims experience by age, gender, and status (active vs. retired) from Segal's claims data warehouse, developed by Segal for use in client valuations—annually monitored and updated as appropriate.</p>	Initially Effective: Dec 31, 2015; Last Updated Effective: Dec 31, 2022
<b>Health Care Cost Trend Rates</b>	Exhibit H	<p>Health care cost trends reflect the change in per capita costs over time and include such factors as unit cost, utilization of health care services, plan design, and technological improvements. These factors impact overall cost (and thus retiree share after the fixed subsidy) as well as the costs for Medicare beneficiaries not eligible for premium-free Medicare Part A under the PERA benefit structure (and in certain circumstances, the DPS benefit structure.)</p> <p>Basis: Reviewed and updated annually</p>	Updated Effective: Dec 31, 2023
<b>Additional Premium Subsidy Assumptions - DPS Benefit Structure</b>	Exhibit I	<p>Plan defined dollar subsidy amounts used in determining the additional liability for PERACare enrollees under the DPS benefit structure who are age 65 or older and who are not eligible for premium-free Medicare Part A.</p> <p>Basis: Additional subsidy for DPS Benefit Structure in effect as of January 1, 2010</p>	Subsidy amounts in effect as of Merger of the DPS Retirement System into PERA Effective: Jan 1, 2010

## HEALTH CARE TRUST FUNDS—OPEB

Non-Economic Assumptions	Value(s) / Type	Description / Source / Basis	Adoption / Effective Date
<b>Health Care Participation Rate Assumptions</b>	Exhibit J	Current PERACare participants are assumed to maintain their current health care benefit elections in perpetuity. For active members retiring directly from covered employment, Exhibit J provides the assumed participation rates. The participation of current PERACare enrollees and members retiring directly from active service is adjusted to reflect the increasing rate of participation with age, as described in Exhibit J. The 2020 experience analysis supported a reduction in anticipated participation for retiring active members at certain ages for all divisions.	Last Revised: Nov 20, 2020; Effective: Dec 31, 2020
<b>Survivors of Retirees Choosing Joint &amp; Survivor Payment Options</b>	Portion of Male Retirees with Surviving Spouse: 60%; Portion of Female Retirees with Surviving Spouse: 35%	Survivors of retirees under the PERA benefit structure electing health care coverage are eligible to receive the subsidy. To anticipate future liabilities driven by these survivors, it is assumed a percent of the current members assumed to elect PERACare coverage will choose a joint and survivor optional payment and thus, their survivors will qualify for the subsidy. The 2020 experience analysis supported separate assumptions for male and female retirees.	Last Revised: Nov 20, 2020; Effective: Dec 31, 2020
<b>Age Differences</b>	Male Retiree: Three Years Older; Female Retiree: One Year Older	The assumed average number of years a covered male spouse is older than a covered female spouse is three years for a male retiree and one year for a female retiree. These assumptions initially were determined from actual census data and were revised from the previous non-gender specific assumptions used in prior actuarial valuations. The 2020 experience analysis confirmed the current assumptions.	Last Revised: Nov 18, 2016; Effective: Dec 31, 2016
<b>Health Care Participation Election Assumption for Inactive Members</b>	Inactive Members: 20%	It is assumed a certain percent of eligible inactive members will elect health care coverage upon commencement of their monthly benefit. The 2020 experience analysis supported a reduction in anticipated participation for inactive members.	Last Revised: Nov 20, 2020; Effective: Dec 31, 2020
<b>Health Care Participation Spousal Election Assumption</b>	5%	It is assumed a certain percent of participating members, regardless of prior status, retirement benefit payment selection, or eligibility for premium-free Medicare Part A, will elect coverage for their spouses. The 2020 experience analysis supported consolidation of spousal election assumptions and a reduction in the resulting spousal election assumption.	Last Revised: Nov 20, 2020; Effective: Dec 31, 2020
<b>Commencement Age Assumed for Inactive Members</b>	Ranging From Age 50 to Age 60, depending on Inactive Member Group	For eligible inactive members, an average age at which health benefits are to begin must be assumed. Here, the assumed age of initial benefit receipt is determined using the same approach used for terminating active members who are assumed to leave their contributions in the plan in order to be eligible for a pension benefit at their retirement date. This assumption varies depending on benefit structure and years of service. The 2020 experience analysis confirmed the assumed initial benefit age for all inactive member groups except those under the DPS benefit structure, for whom the assumption was lowered.	Last Confirmed/ Revised: Nov 20, 2020; Effective: Dec 31, 2020
<b>Medicare Health Care Plan Election Rate Assumptions</b>	Exhibit K	Exhibit K shows the assumed plan elections for current and future Medicare-eligible retirees who are not eligible for premium-free Medicare Part A.  Basis: Updated for the December 31, 2023, valuation, the revised Medicare Health Care Plan election rate assumptions are based on an experience analysis of recent data.	Updated Effective: Dec 31, 2023

HEALTH CARE TRUST FUNDS—OPEB

Non-Economic Assumptions	Value(s) / Type	Description / Source / Basis	Adoption / Effective Date
Percent Qualifying for “No Part A” Subsidy Assumptions	Exhibit L	<p>For those current PERACare enrollees who are age 65 and older, the premium-free Medicare Part A eligibility status is provided by PERA and is assumed to be maintained in perpetuity. For current PERACare enrollees not yet age 65, estimated to have been hired prior to April 1, 1986, and not assumed eligible for premium-free Medicare Part A coverage through their spouse, and for those active employees hired prior to April 1, 1986, Exhibit L lists the percentage, by estimated age at hire, of PERACare enrollees assumed to not qualify for premium-free Medicare Part A benefits, thus qualifying for the applicable “No Part A” subsidy. The 2020 experience analysis confirmed the current assumptions for healthy PERACare enrollees, but supported revised assumptions for certain groups, stated as follows:</p> <p>Of the PERACare enrollees under the PERA benefit structure assumed to qualify for the “No Part A” subsidy, 5% are assumed to cover a spouse.</p> <p>Of the disability retirees enrolled in PERACare 5% are assumed to qualify for the “No Part A” subsidy.</p> <p>Of the eligible inactive (or deferred vested) members enrolled in PERACare, 100% are assumed to obtain the 40 or more quarters of Medicare-covered employment required for premium-free Medicare Part A coverage as a result of their subsequent employment, therefore 0% are assumed to qualify for the “No Part A” subsidy.</p>	<p>Last Confirmed/Revised: Nov 20, 2020; Effective: Dec 31, 2020</p>
Mortality	Exhibit D and Exhibit G	<p>The revised pre- and post-retirement and disability retirement mortality assumptions described in the Division Trust Funds subsection of this Actuarial Section appropriately reflect PERA’s recent and anticipated plan experience and are used to estimate the value of expected future subsidy payments. Exhibit D in the Division Trust Funds subsection of this Actuarial Section, lists the healthy pre-retirement mortality rates at sample ages and Exhibit G lists the healthy post-retirement mortality rates and values at sample ages. As a result of the 2020 experience analysis, a separate beneficiary mortality table was implemented to recognize differing mortality for beneficiaries versus retirees. All mortality tables for purpose of valuing the Health Care Trust Funds are headcount-weighted.</p>	<p>First implemented use of separate mortality tables for different groups / divisions Effective: Dec 31, 2016; Mortality - Last Revised: Nov 20, 2020; Effective: Dec 31, 2020 First implemented generational mortality and use of a separate mortality table for beneficiaries Effective: Dec 31, 2020</p>
AI Rate	N/A	<p>As the service-based premium subsidy does not increase over time, there is no need for an assumption regarding increasing benefit amounts.</p> <p>Basis: N/A</p>	N/A

ACTUARIAL STUDIES	
Governance Studies	All actuarial studies described in the Division Trust Funds subsection of this Actuarial Section titled, Actuarial Studies, incorporated a review and analysis of actuarial methods and assumptions pertaining to the HCTF and the DPS HCTF.

HEALTH CARE TRUST FUNDS—OPEB

**CHANGES SINCE LAST ACTUARIAL VALUATION**

<b>Changes in Actuarial Methods</b>	There are no changes in actuarial methods incorporated in the December 31, 2023, actuarial valuation, since the last actuarial valuation as of December 31, 2022.
<b>Changes in Actuarial Assumptions</b>	<p>The actuarial assumption changes, specific to the HCTF and the DPS HCTF, incorporated into the December 31, 2023, actuarial valuation, since the last actuarial valuation as of December 31, 2022 are listed as follows:</p> <p>Revisions were made to the following assumptions based on annual analysis:</p> <ul style="list-style-type: none"> <li>• Per capita health care costs in effect as of the December 31, 2023, valuation date for those PERACare enrollees under the PERA benefit structure who are expected to be age 65 and older and are not eligible for premium-free Medicare Part A benefits were updated to reflect the costs for the 2024 plan year.</li> <li>• The health care cost trend rates applicable to health plan premiums were revised to reflect the current expectation of future increases in those premiums. A separate trend rate assumption set was added for MAPD PPO #2 as the first-year rate is still below the maximum subsidy and also the assumption set reflects the estimated impact of the Inflation Reduction Act for that plan option.</li> <li>• The Medicare health care plan election rate assumptions were updated effective as of the December 31, 2023, valuation date based on an experience analysis of recent data.</li> </ul>
<b>Changes in Plan Provisions</b>	<p>Except for the item noted below, there are no changes in OPEB plan provisions incorporated in the December 31, 2023, actuarial valuation since the last actuarial valuation as of December 31, 2022.</p> <p>As of December 31, 2023, plan assets for the HCTF reflect payments related to the disaffiliation of Tri-County Health Department as a PERA-affiliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for funding actuarial valuation purposes: a \$24.000 million payment received on December 4, 2023, and a \$2.000 million receivable. The employer disaffiliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1.033 million and \$24.967 million, respectively.</p>

**SIGNIFICANT EVENTS**

There were no significant events during 2023.

**DIFFERENCES IN ACTUARIAL VALUATION METHODS AND ASSUMPTIONS**

- The actuarial valuation for funding purposes was performed as of December 31, 2023. The actuarial valuation for accounting and financial reporting purposes was performed as of December 31, 2022, and the total OPEB liability was rolled forward to the measurement date as of December 31, 2023.
- Census data used for the actuarial valuation for funding purposes reflects membership data as of December 31, 2023, and the census data used for the actuarial valuation for accounting and financial reporting purposes reflects membership data as of December 31, 2022. Therefore, all summaries and schedules, regarding actuarial valuation results for funding purposes, shown in the Actuarial Section, reflect census data as of December 31, 2023.
- The actuarial valuation for funding purposes applies an asset valuation method that recognizes a four-year smoothed fair value of assets for purposes of determining the UAAL. The actuarial valuation for accounting and financial reporting purposes applies the fair value of assets to determine the net OPEB liability.
- The actuarial valuation for funding purposes reflects updated initial per capita health care costs and health care trend rates to 2024. The actuarial valuation for accounting and financial reporting purposes reflects updated initial per capita health care costs and health care trend rates to 2023.

HEALTH CARE TRUST FUNDS—OPEB

**Actuarial Assumptions: Exhibits H–L**

The following exhibits (Exhibits H through L) show the actuarial assumptions employed to determine the actuarial valuation results. The basic economic and demographic actuarial assumptions as detailed in Exhibits A through G, in the Division Trust Funds subsection of the Actuarial Section, also were applied, as applicable, for purposes of determining OPEB liabilities.

**Exhibit H: Initial Health Care Costs, Age-Related Morbidity, and Trend Rate Assumptions—PERA Benefit Structure**

**PER CAPITA HEALTH CARE COST DEVELOPMENT**

Continuing from the prior year, the per capita health care costs are developed by plan option. This approach applies for all members and is adjusted accordingly for those not eligible for premium-free Medicare Part A.

**MAPD PPO #1:**

Based on January 1, 2024, premium rates for the UnitedHealthcare Medicare Advantage Prescription Drug (MAPD) PPO plan #1. Actuarial factors were then applied to estimate individual retiree and spouse costs by age and by gender and health care cost trend.

**MAPD PPO #2:**

Based on January 1, 2024, premium rates for the UnitedHealthcare Medicare Advantage Prescription Drug (MAPD) PPO plan #2. Actuarial factors were then applied to estimate individual retiree and spouse costs by age and by gender and health care cost trend.

**MAPD HMO:**

Based on January 1, 2024, premium rates for the Kaiser Permanente Medicare Advantage Prescription Drug (MAPD) HMO plan. Actuarial factors were then applied to estimate individual retiree and spouse costs by age and by gender and health care cost trend.

**AGE-RELATED MORBIDITY ASSUMPTIONS**

Participant Age	Annual Increase (Male)	Annual Increase (Female)
65-68	2.2%	2.3%
69	2.8%	2.2%
70	2.7%	1.6%
71	3.1%	0.5%
72	2.3%	0.7%
73	1.2%	0.8%
74	0.9%	1.5%
75-85	0.9%	1.3%

HEALTH CARE TRUST FUNDS—OPEB

PER CAPITA HEALTH CARE COSTS BEGINNING JANUARY 1, 2024

(In Actual Dollars)

Sample Age	MAPD PPO #1 with Medicare Part A		MAPD PPO #2 with Medicare Part A		MAPD HMO (Kaiser) with Medicare Part A	
	Male	Female	Male	Female	Male	Female
65	\$1,710	\$1,420	\$585	\$486	\$1,897	\$1,575
70	1,921	1,589	657	544	2,130	1,763
75	2,122	1,670	726	571	2,353	1,853

Sample Age	MAPD PPO #1 without Medicare Part A		MAPD PPO #2 without Medicare Part A		MAPD HMO (Kaiser) without Medicare Part A	
	Male	Female	Male	Female	Male	Female
65	\$6,536	\$5,429	\$4,241	\$3,523	\$7,063	\$5,866
70	7,341	6,073	4,764	3,941	7,933	6,563
75	8,110	6,385	5,262	4,143	8,763	6,900

The 2024 Medicare Part A Premium is \$505 per month.

HEALTH CARE COST TREND RATE ASSUMPTIONS<sup>1</sup>

Year	PERACare Medicare Plans <sup>2</sup>	MAPD PPO #2 <sup>2</sup>	Medicare Part A Premiums
2024	16.00%	105.00%	3.50%
2025	6.75%	8.55%	3.75%
2026	6.50%	8.10%	3.75%
2027	6.25%	7.65%	4.00%
2028	6.00%	7.20%	4.00%
2029	5.75%	6.75%	4.25%
2030	5.50%	6.30%	4.25%
2031	5.25%	5.85%	4.25%
2032	5.00%	5.40%	4.25%
2033	4.75%	4.95%	4.50%
2034	4.50%	4.50%	4.50%

<sup>1</sup> Applies only to PERACare enrollees who are age 65 or older and who are not eligible for premium-free Medicare Part A. Where the actual premiums for the selected plan are less than the service-based premium subsidy, trend rate assumptions are applied accordingly.

<sup>2</sup> Increase in 2024 trend rates due to the effect of the Inflation Reduction Act.

Exhibit I: Additional Premium Subsidy Assumptions—DPS Benefit Structure<sup>1</sup>

Years of Service	Monthly Subsidy for Members without Medicare Part A	Years of Service	Monthly Subsidy for Members without Medicare Part A

Medicare Plans <sup>1</sup>	Percent of Future Medicare Benefit Recipients Electing Medicare Plan
	All Divisions
UnitedHealthcare MAPD PPO <sup>2</sup>	75%
Kaiser Permanente Medicare Advantage HMO	25%

<sup>1</sup> These assumptions are applicable to members under the PERA benefit structure only.

<sup>2</sup> Of the PERACare enrollees participating in the UnitedHealthcare MAPD PPO plans, it is assumed 73% elect MA #1 and 27% elect MA #2.

**Exhibit L: Percent Qualifying for “No Part A” Subsidy Assumptions**

Hire Age	HCTF <sup>1,2</sup>	DPS HCTF <sup>2</sup>
15 – 24	17%	17%
25 – 29	11%	11%
30+	4%	4%

<sup>1</sup> Of the PERACare enrollees under the PERA benefit structure assumed to qualify for the “No Part A” subsidy, 5% are assumed to cover a spouse.

<sup>2</sup> Of the PERACare enrollees receiving health care benefits as a result of disability retirement, 5% are assumed to qualify for the “No Part A” subsidy. Of the eligible inactive (or deferred vested) members enrolled in PERACare, 100% are assumed to obtain the 40 or more quarters of Medicare-covered employment required for premium-free Medicare Part A coverage as a result of their subsequent employment.

HEALTH CARE TRUST FUNDS—OPEB

Summary of Funding Progress

The PERA funding objective is to pay long-term benefit promises through contributions that remain approximately level from year to year as a percent of covered payroll earned by PERA members. The following schedules presented in this section provide an overview of funding progress:

- The Schedule of Funded Liabilities by Type shows the degree to which existing liabilities are funded, including prior history.
- The Schedule of Funding Progress shows the UAAL as a percentage of annual covered payroll, including prior history.
- A schedule detailing actuarial gains and losses, by source, for the current year.
- The scheduled contribution requirements based on the December 31, 2023, actuarial valuation for the period ending December 31, 2025.

Schedule of Funded Liabilities by Type

The Schedule of Funded Liabilities by Type, formerly known as the “solvency test,” compares the plan’s actuarial value of assets with: (A) member contributions (with interest) on deposit, (B) the liabilities for future benefits to persons who have retired, died or become disabled, and to those who have terminated service with the right to a future benefit, and (C) the liabilities for service already rendered by active members. Since the HCTF and the DPS HCTF are funded only through employer contributions, there are no member contribution accounts (liability A).

The following table shows the funded level of the liabilities for future benefits to current retirees (liability B) and the funded or unfunded level, as applicable, of liabilities associated with service already rendered by active members (liability C):

SCHEDULE OF FUNDED LIABILITIES BY TYPE

<sup>1</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

**Unfunded Actuarial Accrued Liability**

UAAL is the difference between actuarially calculated liability for service already rendered and the valuation assets of the fund.

The following factors resulted in higher liabilities (or losses) during 2023:

- Lower than assumed investment return (based on the smoothed actuarial value of assets) for 2023.
- Of the members who terminated PERA-covered employment fewer withdrew their accounts than expected.
- New PERA members had some service resulting in accrued liabilities.

The following factors resulted in lower liabilities (or gains) during 2023:

- Retirees experienced shorter lifespans than expected.
- Favorable benefit utilization and claims experience.
- Fewer members retired at earlier ages than expected.
- Fewer service and disability retirements were experienced than expected.
- Actual payroll contributions were greater than the determined ADC for the HCTF and the DPS HCTF.

Note: A history of contributions by Health Care Trust Fund, the ADC compared to the actual contributions paid, including the deficiency or (excess), for each of the last 10 years, is shown in the Schedule of Employer Contributions, found on page 110 in the RSI in the Financial Section.

HEALTH CARE TRUST FUNDS—OPEB

Actuarial Gains and Losses

ANALYSIS OF FINANCIAL EXPERIENCE

(Dollars in Millions)

	HCTF	DPS HCTF
<b>Amounts</b>		
From differences between assumed and actual experience on liabilities		
Age and service retirements <sup>1</sup>	(\$20.9)	(\$0.8)
Disability retirements <sup>2</sup>	(0.5)	—
Deaths <sup>3</sup>	(9.5)	(0.4)
Withdrawals <sup>4</sup>	2.9	0.1
New members <sup>5</sup>	2.2	0.2
Administrative expenses and other <sup>6</sup>	(9.8)	(0.3)
Subtotal	(35.6)	(1.2)
From differences between assumed and actual experience on assets	7.9	0.7
From change in plan assumptions	14.4	1.4
From change in actuarial methods	—	—
From change in plan provisions	—	—
<b>Total actuarial (gains)/losses on 2023 activities</b>	<b>(\$13.3)</b>	<b>\$0.9</b>
<b>Total actuarial (gains) on 2022 activities<sup>7</sup></b>	<b>(\$51.1)</b>	<b>(\$3.6)</b>

<sup>1</sup> *Age and service retirements*: If members retire at older ages than assumed, there is a gain. If members retire at younger ages than assumed, there is a loss.

<sup>2</sup> *Disability retirements*: If disability claims are lower than assumed, there is a gain. If disability claims are higher than assumed, there is a loss.

<sup>3</sup> *Deaths*: If survivor claims are lower than assumed, there is a gain. If survivor claims are higher than assumed, there is a loss. If retirees die sooner than assumed, there is a gain. If retirees live longer than assumed, there is a loss.

<sup>4</sup> *Withdrawal from employment*: If more members terminate and more liabilities are released by withdrawals than assumed, there is a gain. If fewer liabilities are released by terminations than assumed, there is a loss.

<sup>5</sup> *New members*: If new members entering the plan have prior service, there is a loss.

<sup>6</sup> *Administrative expenses and other*: Includes miscellaneous gains and losses resulting from purchased service transfers, claims experience, benefit utilization, software updates and refinements, data adjustments, timing of financial transactions, etc.

<sup>7</sup> Values have been updated for both Health Care Trust Funds to reflect corrected “Administrative expenses and other” (gain)/loss items for 2022. The 2022 error only impacted this (gains)/losses presentation. It did not affect the assets, liabilities, funding periods, or any funding measure reported for the HCTFs.

Actuarial Valuation Results

Contribution rates for the year ending December 31, 2025, are derived from the results of the December 31, 2023, annual actuarial valuation and are determined in advance for purposes of budgeting and consideration of any necessary legislative action.

SCHEDULE OF COMPUTED EMPLOYER CONTRIBUTION RATES FOR THE 2025 FISCAL YEAR

	Expressed as a Percentage of Member Payroll	
	HCTF	DPS HCTF
<b>Contributions</b>		
Service retirement benefits	0.13%	0.10%
Disability retirement benefits	0.00%	0.00%
Survivor benefits	0.00%	0.00%
Separation benefits	0.02%	0.02%
Total normal cost	0.15%	0.12%
Less member contributions	(0.00%)	(0.00%)
<b>Employer normal cost</b>	<b>0.15%</b>	<b>0.12%</b>
Percentage available to amortize unfunded actuarial accrued liabilities	0.87%	0.90%
Amortization period	8 Years	N/A <sup>1</sup>
<b>Total employer contribution rate for actuarially funded benefits</b>	<b>0.57%</b>	<b>0.12%</b>

<sup>1</sup> Since the funded status of the DPS HCTF is greater than 100% but less than 120%, the ADC is set equal to the normal cost rate, as dictated by the Board’s OPEB Funding Policy.

HEALTH CARE TRUST FUNDS—OPEB

**Annual Actuarial Valuation Statistics**

As of December 31, 2023, the Funded Ratio, the UAAL, the ADC for 2025 as a percentage of covered payroll, and the amortization period are shown in the following table. The results in this table are based on the actuarial valuation for funding purposes.

**ACTUARIAL STATISTICS**

*(Dollars in Thousands)*

Trust Fund	Funded Ratio	UAAL	ADC <sup>1</sup>	Amortization Period
HCTF	48.4%	\$678,305	0.57%	8 Years
DPS HCTF <sup>2</sup>	110.4%	(6,296)	0.12%	N/A
<b>Total of Health Care Trust Funds<sup>3</sup></b>		<b>\$672,009</b>		

<sup>1</sup> Determined considering the 30-year target amortization period defined in the OPEB funding policy for purposes of funding benchmarks and RSI reporting as shown in the Financial Section.

<sup>2</sup> Since the funded status of the DPS HCTF is greater than 100% but less than 120%, the ADC is set equal to the normal cost rate, as dictated by the Board's OPEB Funding Policy.

<sup>3</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

Pursuant to the OPEB funding policy, for reporting purposes, alternative ADCs also are determined by applying the layered amortization methodology as previously described. Under the target and alternative calculations, the legacy UAAL as of December 31, 2017, was amortized using a 30-year period, but the alternative ADCs use a 25-year closed period, a 20-year closed period, and a 15-year closed period, in lieu of the 30-year period, for amortization of any "new" UAAL recognized on and after January 1, 2018. The 2025 target and alternative ADCs, by division, are displayed as follows:

Trust Fund	Target ADC	Alternative ADCs		
	30-Year <sup>1</sup>	25-Year <sup>2</sup>	20-Year <sup>2</sup>	15-Year <sup>2</sup>
HCTF	0.57%	0.53%	0.45%	0.31%
DPS HCTF <sup>3</sup>	0.12%	0.12%	0.12%	0.12%

<sup>1</sup> Refers to the amortization period used to amortize the legacy UAAL as of December 31, 2017, and any "new" UAAL recognized on and after January 1, 2018.

<sup>2</sup> Refers to the amortization period used to amortize any "new" UAAL recognized on and after January 1, 2018.

<sup>3</sup> Since the funded status of the DPS HCTF is greater than 100% but less than 120%, the ADC is set equal to the normal cost rate, as dictated by the Board's OPEB Funding Policy.

**Funded Ratio**

*(Dollars in Thousands)*

The funded ratio for the plan is determined by dividing the actuarial value of assets by the AAL. The actuarial value of assets is not the current fair value but a market-related value, which recognizes the differences between actual and expected investment experience for each year in equal amounts over a four-year period. The actuarial value of the assets as of December 31, 2023, was \$703,015 compared to a fair value of assets of \$676,632, and to the AAL of \$1,375,024. The funded ratio for each of the funds, based on the actuarial value of assets, at December 31 for each of the last five years is as follows:

Trust Fund	2019	2020	2021	2022	2023
HCTF	24.1%	30.3%	38.0%	43.4%	<b>48.4%</b>
DPS HCTF	45.9%	60.8%	80.1%	97.4%	<b>110.4%</b>
<b>Total of Health Care Trust Funds<sup>1</sup></b>	<b>25.1%</b>	<b>31.7%</b>	<b>39.8%</b>	<b>45.7%</b>	<b>51.1%</b>

<sup>1</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

HEALTH CARE TRUST FUNDS—OPEB

The Board’s OPEB funding policy states that the targeted actuarial funded ratio is greater than or equal to 110% on a combined trust fund basis. The funded ratios listed give an indication of progress made toward achieving the stated objective. A larger funded ratio indicates a plan is better funded. As an example, in actual dollars, for every \$1.00 of the actuarially determined benefits earned for the HCTF as of December 31, 2023, approximately \$0.48 of assets are available for payment based on the actuarial value of assets. These benefits earned will be payable over a period dependent upon factors, such as, the life span of members after their retirement and participation in PERACare. Therefore, it is not imperative the AAL equal the actuarial value of assets at any given moment in time.

At December 31, 2022, and December 31, 2023, PERA had the following funded status for the Health Care Trust Funds:

**FUNDED STATUS FOR THE HEALTH CARE TRUST FUNDS**

*(Dollars in Thousands)*

	Fair Value of Assets		Actuarial Value of Assets <sup>1</sup>	
	12/31/2022	12/31/2023	12/31/2022	12/31/2023
<b>Health Care Trust Fund</b>				
Actuarial accrued liability <sup>2</sup>	\$1,317,156	\$1,314,211	\$1,317,156	\$1,314,211
Assets held to pay those liabilities	512,704	611,911	571,710	635,906
<b>Unfunded actuarial accrued liability</b>	<b>\$804,452</b>	<b>\$702,300</b>	<b>\$745,446</b>	<b>\$678,305</b>
Funded ratio	38.9%	46.6%	43.4%	48.4%
<b>DPS Health Care Trust Fund</b>				
Actuarial accrued liability <sup>2</sup>	\$59,681	\$60,813	\$59,681	\$60,813
Assets held to pay those liabilities	52,235	64,721	58,134	67,109
<b>Unfunded actuarial accrued liability</b>	<b>\$7,446</b>	<b>(\$3,908)</b>	<b>\$1,547</b>	<b>(\$6,296)</b>
Funded ratio	87.5%	106.4%	97.4%	110.4%
<b>Total of Health Care Trust Funds<sup>3</sup></b>				
Actuarial accrued liability <sup>2</sup>	\$1,376,837	\$1,375,024	\$1,376,837	\$1,375,024
Assets held to pay those liabilities <sup>4</sup>	564,939	676,632	629,844	703,015
<b>Unfunded actuarial accrued liability</b>	<b>\$811,898</b>	<b>\$698,392</b>	<b>\$746,993</b>	<b>\$672,009</b>
Funded ratio	41.0%	49.2%	45.7%	51.1%

<sup>1</sup> The actuarial value of assets is calculated by spreading any market gains or losses above or below the assumed rate of return over four years.

<sup>2</sup> Based upon an assumed rate of return on investments of 7.25% and an assumed rate of 7.25% to discount the liabilities to be paid in the future to a value as of December 31, 2022, and December 31, 2023.

<sup>3</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

<sup>4</sup> In aggregate, the fair value of the assets as of December 31, 2023, is \$26,383 less than the actuarial value of assets calculated by the actuaries, as they are recognizing the gains and losses in value over four years, rather than only in the year they occurred. The remaining gains and (losses) to be smoothed for 2021 are \$9,331, for 2022 are (\$61,702), and for 2023 are \$25,988.

HEALTH CARE TRUST FUNDS—OPEB

**Sensitivity of Actuarial Valuation to Changes in Assumed Investment Rate of Return and Discount Rate**

The most important long-term driver of an OPEB plan is investment income. The investment return assumption and the discount rate for liabilities should be based on an estimated long-term investment yield for the plan, considering the nature and mix of current and expected plan investments and the basis used to determine the actuarial value of assets.

To understand the importance of the investment rate of return, which is used to discount the actuarial liabilities, a 1% fluctuation in the investment rate of return and discount rate would change the funded ratio, UAAL, and ADC (for contributions for the fiscal year ended December 31, 2025) as shown in the following tables:

**INVESTMENT RETURN ASSUMPTION (DISCOUNT RATE) EQUAL TO 6.25%**

(Dollars in Thousands)

Trust Fund	Actuarial Value of Assets			Fair Value of Assets
	Funded Ratio	UAAL	ADC	UAAL
HCTF	44.1%	\$806,258	0.63%	\$830,253
DPS HCTF <sup>1</sup>	100.2%	(128)	0.15%	2,261
<b>Total of Health Care Trust Funds<sup>2</sup></b>		<b>\$806,130</b>		<b>\$832,514</b>

<sup>1</sup> Since the funded status of the DPS HCTF is greater than 100% but less than 120%, the ADC is set equal to the normal cost rate, as dictated by the Board's OPEB Funding Policy.

<sup>2</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

**CURRENT INVESTMENT RETURN ASSUMPTION (DISCOUNT RATE) EQUAL TO 7.25%**

(Dollars in Thousands)

Trust Fund	Actuarial Value of Assets			Fair Value of Assets
	Funded Ratio	UAAL	ADC	UAAL
HCTF	48.4%	\$678,305	0.57%	\$702,300
DPS HCTF <sup>1</sup>	110.4%	(6,296)	0.12%	(3,908)
<b>Total of Health Care Trust Funds<sup>2</sup></b>		<b>\$672,009</b>		<b>\$698,392</b>

<sup>1</sup> Since the funded status of the DPS HCTF is greater than 100% but less than 120%, the ADC is set equal to the normal cost rate, as dictated by the Board's OPEB Funding Policy.

<sup>2</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

**INVESTMENT RETURN ASSUMPTION (DISCOUNT RATE) EQUAL TO 8.25%**

(Dollars in Thousands)

Trust Fund	Actuarial Value of Assets			Fair Value of Assets
	Funded Ratio	UAAL	ADC	UAAL
HCTF	52.8%	\$568,793	0.52%	\$592,788
DPS HCTF <sup>1</sup>	120.8%	(11,540)	0.09%	(9,152)
<b>Total of Health Care Trust Funds<sup>2</sup></b>		<b>\$557,253</b>		<b>\$583,636</b>

<sup>1</sup> Since the funded status of the DPS HCTF is greater than 100% but less than 120%, the ADC is set equal to the normal cost rate, as dictated by the Board's OPEB Funding Policy.

<sup>2</sup> The data in this table is aggregated for informational purposes. The assets of each trust fund are for the sole purpose of its members and cannot be used by another fund.

Note: The time-weighted, net-of-fees annualized rate of return for the pooled investment assets was 10.0% for the past five years and 7.8% for the past 10 years. The 30-year annualized gross-of-fees rate of return for the pooled investment assets was 8.3%.

HEALTH CARE TRUST FUNDS—OPEB

Plan Data

Except for the “Inactive members not eligible for benefits,” the PERA membership is potentially eligible for participation in OPEB benefits through receipt of a PERA-provided benefit and enrollment in PERACare. The following table represents all individuals included in the assessment of the AAL associated with the Health Care Trust Funds as of December 31, 2023:

**MEMBERSHIP—HEALTH CARE TRUST FUNDS**

As of December 31, 2023

	HCTF	DPS HCTF	Total
Retirees and beneficiaries <sup>1</sup>	131,237	7,316	<b>138,553</b>
Inactive members eligible but not yet receiving benefits <sup>2</sup>	37,651	3,364	<b>41,015</b>
Inactive members not eligible for benefits	N/A	N/A	<b>N/A</b>
Active members <sup>2</sup>	197,922	15,626	<b>213,548</b>
<b>Total</b>	<b>366,810</b>	<b>26,306</b>	<b>393,116</b>

<sup>1</sup> Currently receiving or eligible for OPEB benefits.

<sup>2</sup> May be eligible for future OPEB benefits.

**PARTICIPATION IN PERACARE HEALTH PLANS FOR ELIGIBLE RETIREES AND BENEFICIARIES**

As of December 31, 2023

	HCTF	DPS HCTF	Total
<b>Enrolled in PERACare</b>			
Under age 65	6,636	281	6,917
Age 65 and older	49,616	2,937	52,553
	56,252	3,218	59,470
<b>Not enrolled in PERACare</b>			
Under age 65	16,621	640	17,261
Age 65 and older	58,364	3,458	61,822
	74,985	4,098	79,083
<b>Total eligible retirees and beneficiaries</b>	<b>131,237</b>	<b>7,316</b>	<b>138,553</b>

<sup>1</sup> Prior to 2017, employer counts were based on separate units of government. Effective in 2017, GASB 74 classifies a primary government and its component units as one employer. Employer counts for the years 2017 and beyond are presented for purposes of complying with GASB 74 only. For all other purposes, the definition of an employer is governed by Title 24, Article 51 of the C.R.S., PERA's Rules, 8 CCR 1502-1, and, if applicable, the employer's affiliation agreement with PERA.

<sup>2</sup> Participating employer counts prior to 2017 include charter schools operating within the School and DPS Divisions.

<sup>3</sup> Information prior to 2017 was not required.

# Statistical Section

### Overview

The Statistical Section presents detailed information to assist users in utilizing the Basic Financial Statements, Notes to the Basic Financial Statements, and Required Supplementary Information to better understand and assess PERA's overall economic condition.

### Financial Trends

The following schedules include information about the trends of key sources of additions and deductions for the past 10 years to provide context on how PERA's financial position has changed over time:

- *Changes in Fiduciary Net Position*
- *Benefits and Refund Deductions from Fiduciary Net Position by Type*

### Operating Information

The following schedules contain demographic, economic, operating, and trend information related to membership and the retirement and health benefits PERA provides:

- *Member and Benefit Recipient Statistics<sup>1</sup>*
- *Breakdown of Membership by Percentage<sup>1</sup>*
- *Schedule of Average Retirement Benefits Payable—All Division Trust Funds<sup>1</sup>*
- *Schedule of Average Retirement Benefits Payable<sup>1</sup>*
- *Benefit Payments—All Division Trust Funds<sup>1</sup>*
- *Schedule of Retirees and Survivors by Types of Benefits<sup>1</sup>*
- *Schedule of Average Benefit Payments<sup>1</sup>*
- *Schedule of Contribution Rate History*
- *Principal Participating Employers*

<sup>1</sup> Data for schedules are provided by the consulting actuary, Segal

Note: Schedules and information are derived from PERA internal sources unless otherwise noted.

<sup>1</sup> Includes disability retirements, but not survivor benefits

## BENEFIT PAYMENTS—ALL DIVISION TRUST FUNDS

As of December 31, 2023  
(In Actual Dollars)

### Benefit Payments<sup>1,2</sup>

At the end of 2023, PERA was paying benefits to more than 138,000 retired public employees and their beneficiaries who received an average benefit of \$3,225 per month. For benefit recipients, this may be the primary source of retirement income as most PERA benefit recipients do not qualify for Social Security payments.

The PERA service retirement formula for calculating benefits, specified in State law as of December 31, 2023, is 2.5% multiplied by years of service multiplied by Highest Average Salary (HAS). HAS<sup>3</sup> is defined in State law as one-twelfth of the average of the highest annual salaries on which contributions were paid that are associated with three periods of 12 consecutive months of service credit. The three 12-month periods do not have to be consecutive, nor do they have to be the last three years of employment. These three periods are tied to a fourth 12-month period which becomes the base year for the year-to-year salary increase limitation for HAS calculation purposes. The year-to-year limit for members who were eligible to retire on January 1, 2011, and hired before January 1, 2007, is 15%. All other members are subject to an 8% year-to-year limit in their HAS calculation. This annual limit applied to salaries in the HAS years is designed to moderate salary “spiking.”

Approximately 67.6% (93,475) of recipients receive less than \$50,000 a year in PERA benefits, as the following graph demonstrates. Slightly more than 2.2% (3,100) of PERA benefit recipients receive an annual benefit payment of \$100,000 or more. Generally, these benefit recipients had high salaries and a significant number of years of service credit.

<sup>1</sup> Includes amounts paid under replacement benefit arrangements.

<sup>2</sup> Does not include deferred survivors and benefits that ended or were suspended in 2023.

<sup>3</sup> Some members of the DPS benefit structure, members in the Judicial Division, and members who did not have five years of service credit on December 31, 2019, have different HAS calculations. Please see Note 1 of the Notes to the Financial Statements in the Financial Section for more information.

### PERA BENEFIT PAYMENTS BY DOLLAR AMOUNT OF ANNUAL BENEFIT AND NUMBER OF BENEFIT RECIPIENTS

Benefit Range <sup>1</sup>	Number of Benefit Recipients <sup>2</sup>
\$0 - \$4,999	11,296
\$5,000 - \$9,999	11,552
\$10,000 - \$24,999	28,667
\$25,000 - \$49,999	41,960
\$50,000 - \$99,999	41,687
\$100,000 - \$149,999	2,793
\$150,000 - \$199,999	234
\$200,000+	73
<b>Total Benefit Recipients</b>	<b>138,262</b>

<sup>1</sup> Includes amounts paid under replacement benefit arrangements.

<sup>2</sup> Does not include 291 deferred survivors.

BENEFIT PAYMENTS—ALL DIVISION TRUST FUNDS

As of December 31, 2023  
 (In Actual Dollars)

**Benefit Payments by Decile**

Another way to examine the data is to group benefit recipients and the benefits they receive into benefit payment ranges as a percentage of the total. The following table shows that, for the one-third of PERA benefit recipients (48,413) in the lowest decile, the average benefit is \$11,052 a year. This group retired at an average age of 61 with over 13 years of service credit. For the top decile, on the other end of the scale, the average benefit is \$112,212 a year. However, this group, on average, had just over 33 years of service credit, which is more than twice the length of the average service credit of those in the lowest decile. For the 5,792 new retirees in 2023, the average monthly benefit is \$2,734. These members retired at an average age of 62 with 19.45 years of service credit.

Decile	Number of Benefit Recipients <sup>1</sup>	Percent of Benefit Recipients	Average Monthly Benefit <sup>2</sup>	Average Age at Retirement	Average Service Credit
1%–10%	48,413	35.01%	\$921	61	13.25
11%–20%	18,763	13.57%	2,376	59	21.41
21%–30%	14,072	10.18%	3,169	58	24.56
31%–40%	11,665	8.44%	3,823	58	26.83
41%–50%	10,091	7.30%	4,419	57	28.40
51%–60%	8,937	6.46%	4,989	57	29.63
61%–70%	8,019	5.80%	5,560	57	30.50
71%–80%	7,213	5.22%	6,182	57	31.20
81%–90%	6,320	4.57%	7,055	57	32.07
91%–100%	4,769	3.45%	9,351	58	33.15
<b>Total</b>	<b>138,262</b>	<b>100.00%</b>	<b>3,225</b>	<b>59</b>	<b>22.00</b>

<sup>1</sup> Does not include 291 deferred survivors.

<sup>2</sup> Includes amounts paid under replacement benefit arrangements.

SCHEDULE OF RETIREES AND SURVIVORS BY TYPES OF BENEFITS

As of December 31, 2023

**Types of Benefits**

- 1—Age and service retirement.
- 2—Disability retirement.
- 3—Survivor payment—Option 3.
- 4—Survivor payment—children, spouse, or dependent parent.
- 5—Surviving spouse with future benefit.
- 6—Former member with future benefit.

**Option Selected**

- Retirees select one of the following options at retirement:
- 1—Single-life benefit.
  - 2—Joint benefit with 1/2 to surviving cobeneficiary.
  - 3—Joint and survivor benefit.
  - 4—Joint benefit with 1/2 to either survivor. (No longer offered to members retiring.)

**Surviving Cobeneficiary**

Retiree has predeceased the cobeneficiary.

**Surviving Retiree**

Cobeneficiary has predeceased the retiree.

**State Division**

Number of service retirees	64	204	218	212	278	327	261

Note: HAS is defined as one-twelfth of the average of the highest annual salaries associated with three periods of 12 consecutive months of service credit. These three periods are tied to a fourth 12-month period which becomes the base year for the year-to-year increase limitation, which is designed to moderate "spiking." Some members of the DPS benefit structure, members in the Judicial Division, and members who did not have five years of service credit on December 31, 2019, have different HAS calculations. Please see Note 1 of the Notes to the Financial Statements in the Financial Section for more information.

Note: HAS is defined as one-twelfth of the average of the highest annual salaries associated with three periods of 12 consecutive months of service credit. These three periods are tied to a fourth 12-month period which becomes the base year for the year-to-year increase limitation, which is designed to moderate "spiking." Some members of the DPS benefit structure, members in the Judicial Division, and members who did not have five years of service credit on December 31, 2019, have different HAS calculations. Please see Note 1 of the Notes to the Financial Statements in the Financial Section for more information.

<sup>1</sup> See Note 1 of the Notes to the Financial Statements in the Financial Section for the definition of “Safety Officers”.

<sup>2</sup> This informational schedule begins in 2006, the year the amortization equalization disbursement for employers became effective.

<sup>3</sup> All employer contribution rates shown include the Health Care Trust Fund (HCTF) allocation.

<sup>4</sup> Contributions from a nonemployer contributing entity are required by C.R.S. § 24-51-414 *et seq.* and are remitted to PERA as a single sum in July of each year. For purposes of this schedule, the amount allocated to the State Division is expressed as a percentage of annual covered payroll. If applicable, the amount allocated is shown in both six-month segment contribution summaries for improved comparative analysis to the prior year.

<sup>5</sup> C.R.S. § 24-51-415 adjusts employer contribution rates for the State Division. See Note 4 of the Notes to the Financial Statements in the Financial Section for additional information.

<sup>6</sup> Senate Bills 10-146 and 11-076 required member contributions to increase by 2.50% and employer contributions to decrease by 2.50%.

<sup>7</sup> House Bill 20-1379 suspended the July 2020 contribution from the nonemployer contributing entity for the State’s 2020-21 fiscal year.

<sup>8</sup> In 2022, House Bill 22-1029 required a restorative payment to recompense PERA for the suspended 2020 contribution, which also advanced part of the 2023 contribution.

<sup>1</sup> This informational schedule begins in 2006, the year the amortization equalization disbursement for employers became effective.

<sup>2</sup> All employer contribution rates include the HCTF allocation.

<sup>3</sup> Contributions from a nonemployer contributing entity are required by C.R.S. § 24-51-414 *et seq.* and are remitted to PERA as a single sum in July of each year. For purposes of this schedule, the amount allocated to the School Division is expressed as a percentage of annual covered payroll. If applicable, the amount allocated is shown in both six-month segment contribution summaries for improved comparative analysis to the prior year.

<sup>4</sup> House Bill 20-1379 suspended the July 2020 contribution from the nonemployer contributing entity for the State's 2020-21 fiscal year.

<sup>5</sup> In 2022, House Bill 22-1029 required a restorative payment to recompense PERA for the suspended 2020 contribution, which also advanced part of the 2023 contribution.

<sup>1</sup> The DPS Division Trust Fund was established on January 1, 2010, and received the net assets of the DPSRS.

<sup>2</sup> All employer contribution rates include the DPS HCTF allocation.

<sup>3</sup> An offset to the DPS Division rate is provided for under C.R.S. § 24-51-412. See Note 4 of the Notes to the Financial Statements in the Financial Section.

<sup>4</sup> Contributions from a nonemployer contributing entity are required by C.R.S. § 24-51-414 *et seq.* and are remitted to PERA as a single sum in July of each year. For purposes of this schedule, the amount allocated to the DPS Division is expressed as a percentage of annual covered payroll. If applicable, the amount allocated is shown in both six-month segment contribution summaries for improved comparative analysis to the prior year.

<sup>5</sup> On June 3, 2015, House Bill 15-1391 reduced the employer contribution rate with a retroactive effective date of January 1, 2015.

<sup>6</sup> To conform with this presentation of contribution rates, the annual PCOP offset for the calendar year has been adjusted based on the portion of the PCOP offset used to satisfy employer contribution requirements for each-six month segment.

<sup>7</sup> House Bill 20-1379 suspended the July 2020 contribution from the nonemployer contributing entity for the State's 2020-21 fiscal year.

<sup>8</sup> In 2022, House Bill 22-1029 required a restorative payment to recompense PERA for the suspended 2020 contribution, which also advanced part of the 2023 contribution.

<sup>1</sup> Guidance under GASB Statement No. 74 classifies a primary government and its component units as one employer. Due to this change, data for the number of members by employer for years prior to 2017 is not available.

<sup>2</sup> This employer count is presented for purposes of complying with GASB 74 only. For all other purposes, the definition of an employer is governed by Title 24, Article 51 of the C.R.S., PERA's Rules, 8 CCR 1502-1, and, if applicable, the employer's affiliation agreement with PERA.

**AFFILIATED EMPLOYERS LIST**

A list of affiliated employers can be found on PERA's website on the Employers Page under Affiliating with PERA.
