COLORADO JOINT TECHNOLOGY COMMITTEE
Cybersecurity Panel
Thursday, December 15, 2022

State of the State on Cybersecurity - A Macro view of the Cyberthreat Landscape Today and Tomorrow, What are the Risks and Opportunities.

Agenda

Panelists will have **5 minutes each** to share their insight, followed by **30 minutes of a robust dialogue** with committee members answering your questions.

We ***urge you to hold questions*** until the end of the presentations, to allow all panelists the opportunity to participate in the response.

Order of Presentations:

- [Office of Information Technology](#) - Ray Yepes *(virtual)*
- [Colorado Cyber Resource Center](#) - Forrest Senti *(in person)*
- [Foresite](#) - Peter Liebert *(virtual)*
- [Amazon Web Services](#) - Maria Thompson *(virtual)*
- [Dell Technologies](#) - Josh Jaffee *(virtual)*
- [SAIC](#) - Shawn Kingsberry *(in person)*

Panelist Bios *- alphabetically*

Josh Jaffe*, Vice President - Cyber Security*
Dell Technologies

Josh is an experienced information security professional, currently responsible for security in Dell's Customer, Marketing, Sales, and other internal functions.

He has approximately 20 years of experience in the security and technology field. Prior to joining Dell, Josh was the Global CISO Daimler Mobility AG. He also held several positions for Emerson Electric Co, a global manufacturing and technology conglomerate. He served in the cyber security and intelligence field for the U.S. government and worked in an advisory capacity with a range of global Financial Services and Technology clients for Deloitte Consulting as well.

Peter Liebert*, Field CISO*
Foresite

Peter Liebert, CISO and Managing Director for SLED at Foresite, is an award-winning cybersecurity expert, veteran, advisor and investor who has held influential roles in both the private and public sector over the last twenty years. In the private sector Liebert has worked as a security leader for Fireeye, Cerner, Lifeomic and most recently Foresite. He is a board advisor to Safebreach, Zero Networks, getShield and Zeektek.

Liebert's public sector career has led him to senior cyber roles with the Chief of Naval Operations as a Presidential Management Fellow, United States Cyber Command, Office of the Secretary of Defense for Cyber Policy, Commander for Cyber Operations at the California State Guard and Chief Information Security Officer for the State of California. He is a graduate of the United States Naval

Academy and has a MS in Cybersecurity from the National Defense University, a MS in International Security from Cranfield University and a MPA from Harvard's Kennedy School of Government.

Shawn Kingsberry, *VP of Cyber Operations*
SAIC

With more than 20 years of IT experience, Shawn Kingsberry works as a trusted adviser to state legislative and agency leaders seeking to modernize IT infrastructure and digital platforms to meet increasing technological and data needs.

His experience in large-scale information technology transformation, data analytics, enterprise computing and secure hybrid-cloud implementations helped a diverse set of states — including Georgia, Hawaii, Kansas and Virginia — achieve critical success on digital modernization projects.

Forrest Senti, *Vice President of Programs and Operations*
National Cybersecurity Center

Forrest Senti is the Vice President of Programs and Operations at National Cybersecurity Center in Colorado Springs. He started his career in marketing and sales before starting at National Cybersecurity Center as a Special Projects Manager in 2018. Forrest currently serves on two government working committees, the working group for the government use of blockchain underneath the The Colorado Council for the Advancement of Blockchain Technology and he also chairs the cybersecurity committee on Raising cyber awareness for the Colorado Springs Chamber & EDC. Additionally, he volunteers his time with organizations like Exponential Impact, Peak Startup and the Colorado Institute for Social Impact.
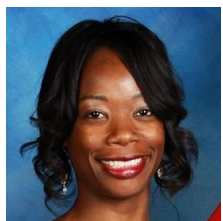

Maria Thompson, *SLG Executive Government Advisor - Cybersecurity*
Amazon Web Services

Maria is an Information Security professional with more than 20 years of combined experience in the field of Information Security and Information Technology. She has a Master's degree in Accounting and Financial Management from Keller Graduate School of Management and a Bachelor of Science in Information Systems Management from the University of Maryland University College.

In her spare time, Maria enjoys going to the museum, playing with her dogs, sewing, reading, and cooking. Specialties: Risk Management, Strategic Planning, Computer Network Defense, Certification and Accreditation, Policy Development, Training and Education, Vulnerability Assessment/Mitigation, Information Assurance Management

Ray Yepes, *Chief Information Security Officer*
State of Colorado

Ray Yepes is the State of Colorado's Chief Information Security Officer (CISO). He has a rich background working in private industry and serving for 5 years as CISO for the Texas Department of Family and Protective Services. Prior to his public sector work, Ray co-founded and was the director of ATX Forensics LLC, a full-service cybersecurity company whose clients include numerous Fortune 500 companies. He has also served as the CISO for Fortune 200 company Waste Management, Inc. and was the Vice President of Professional Services at CyberEvidence, Inc.

Yepes holds a Master of Science in criminal justice and a Bachelor of Science in computer science from Sam Houston State University, as well as associate of science and associate of arts degrees from North Harris Montgomery Community College. He also holds a myriad of certifications including InfoSec's Evaluation Methodology (IEM) and Assessment Methodology (IAM), EnCase Certified Examiner (EnCE) and Certified Information Systems Security Professional (CISSP), among others.
