Transportation Legislation Goals

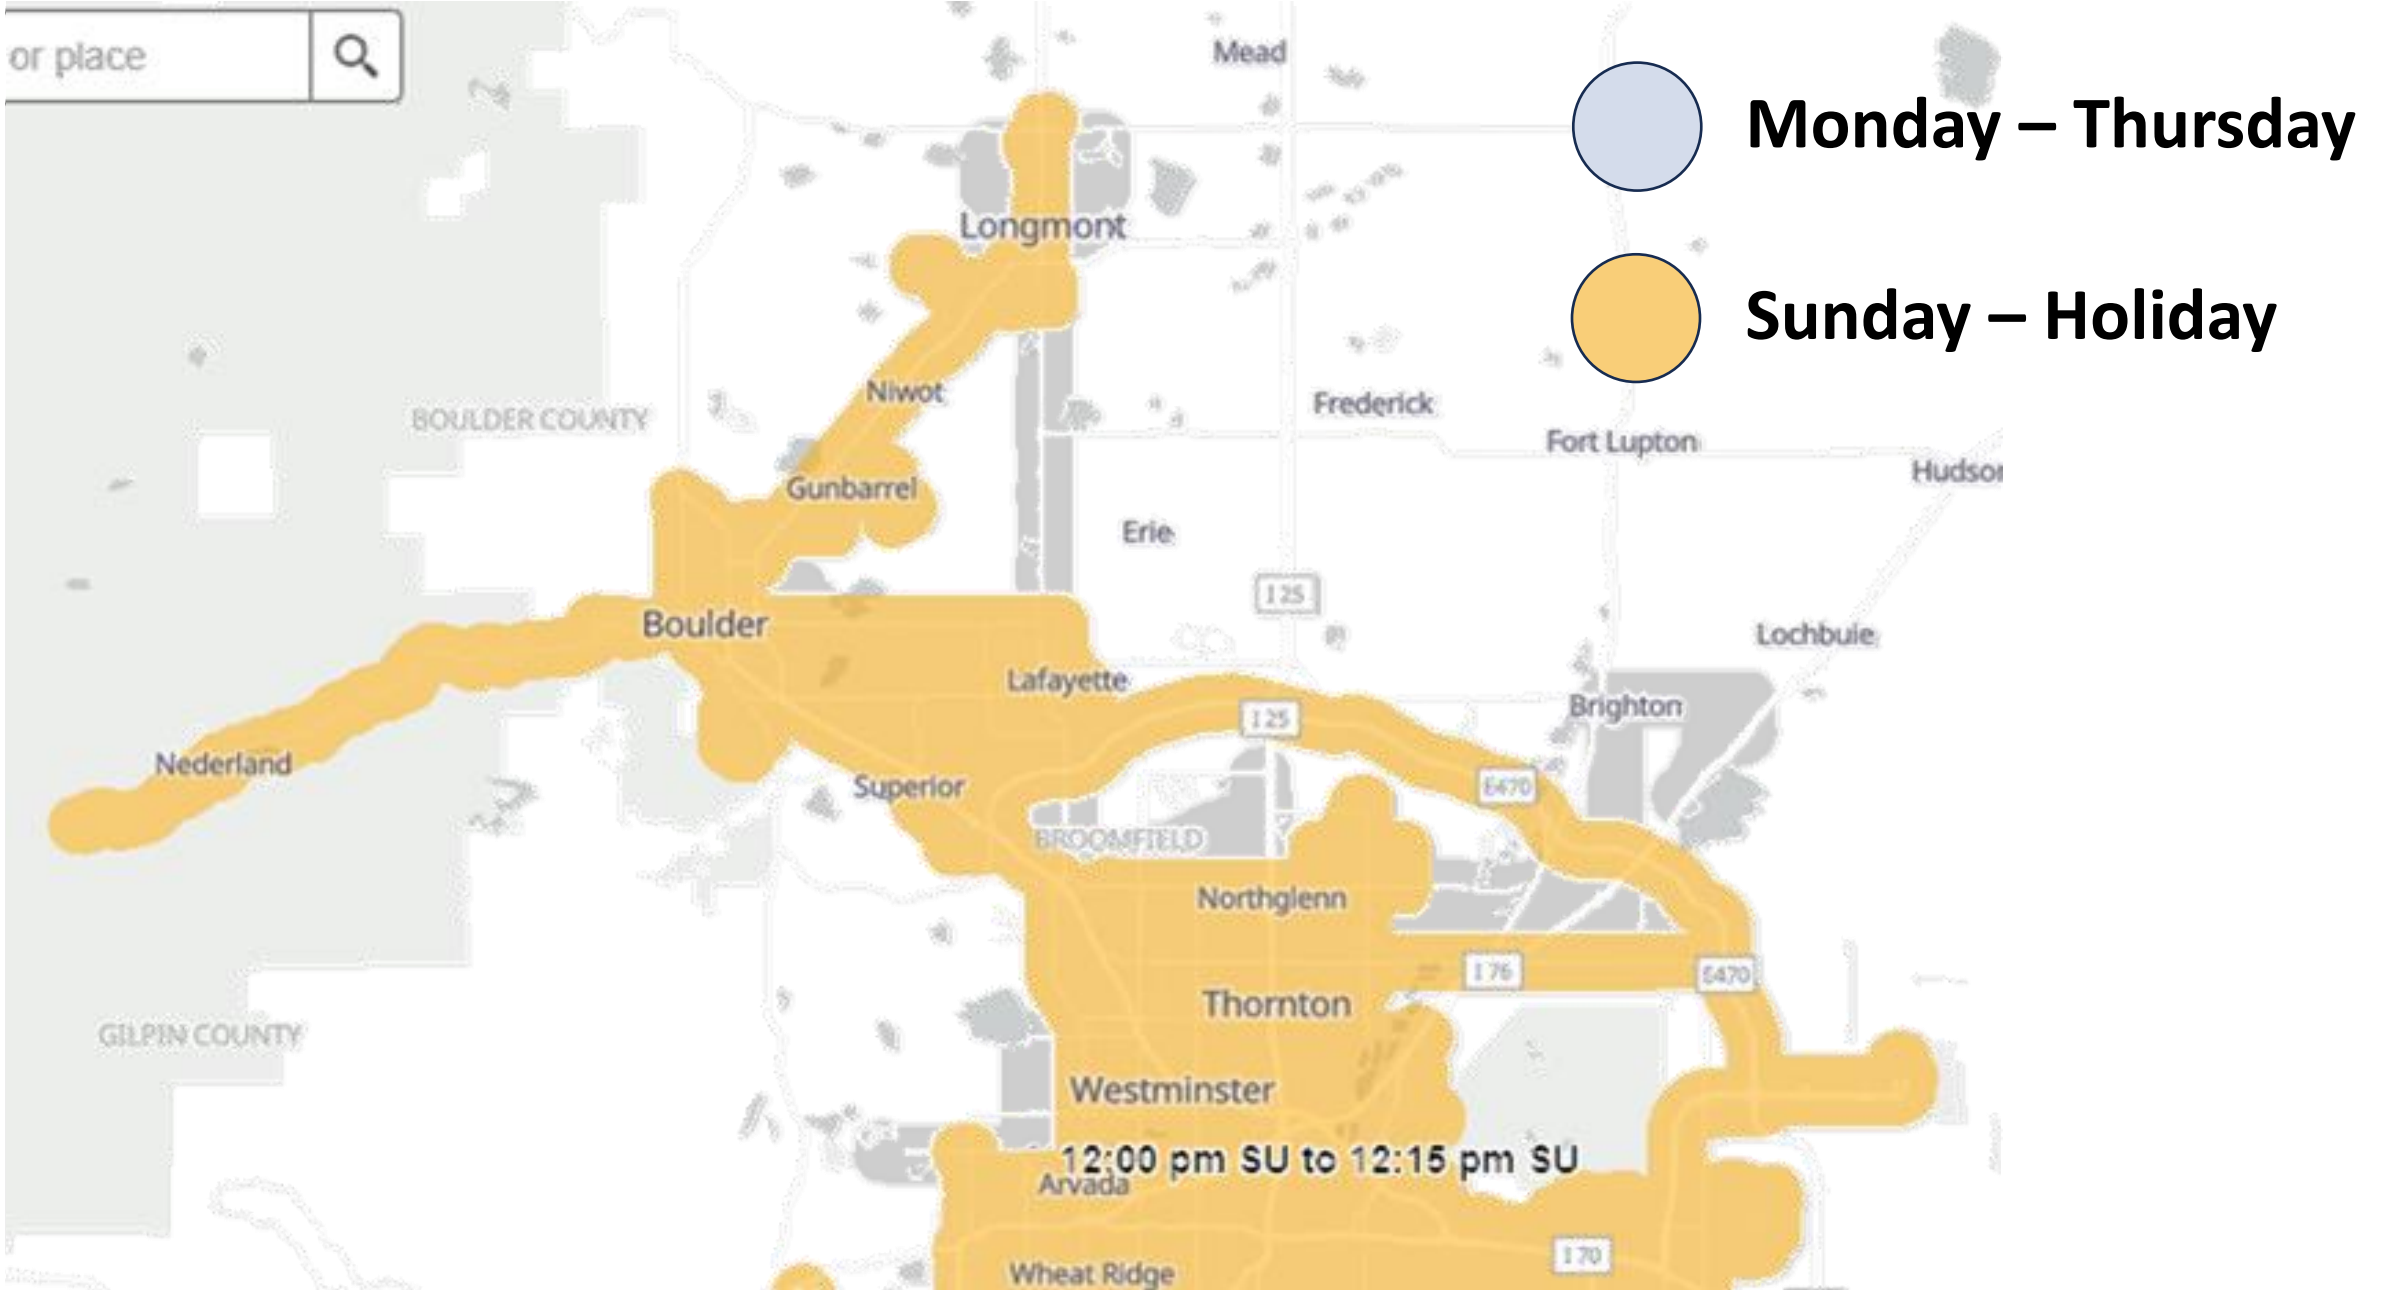

Ensure equity for disabled and non-disabled riders with discount fare programs, we ask the legislature to limit the Access-a-Ride rate to **no more than 1.5x** the fare for non-paratransit users.

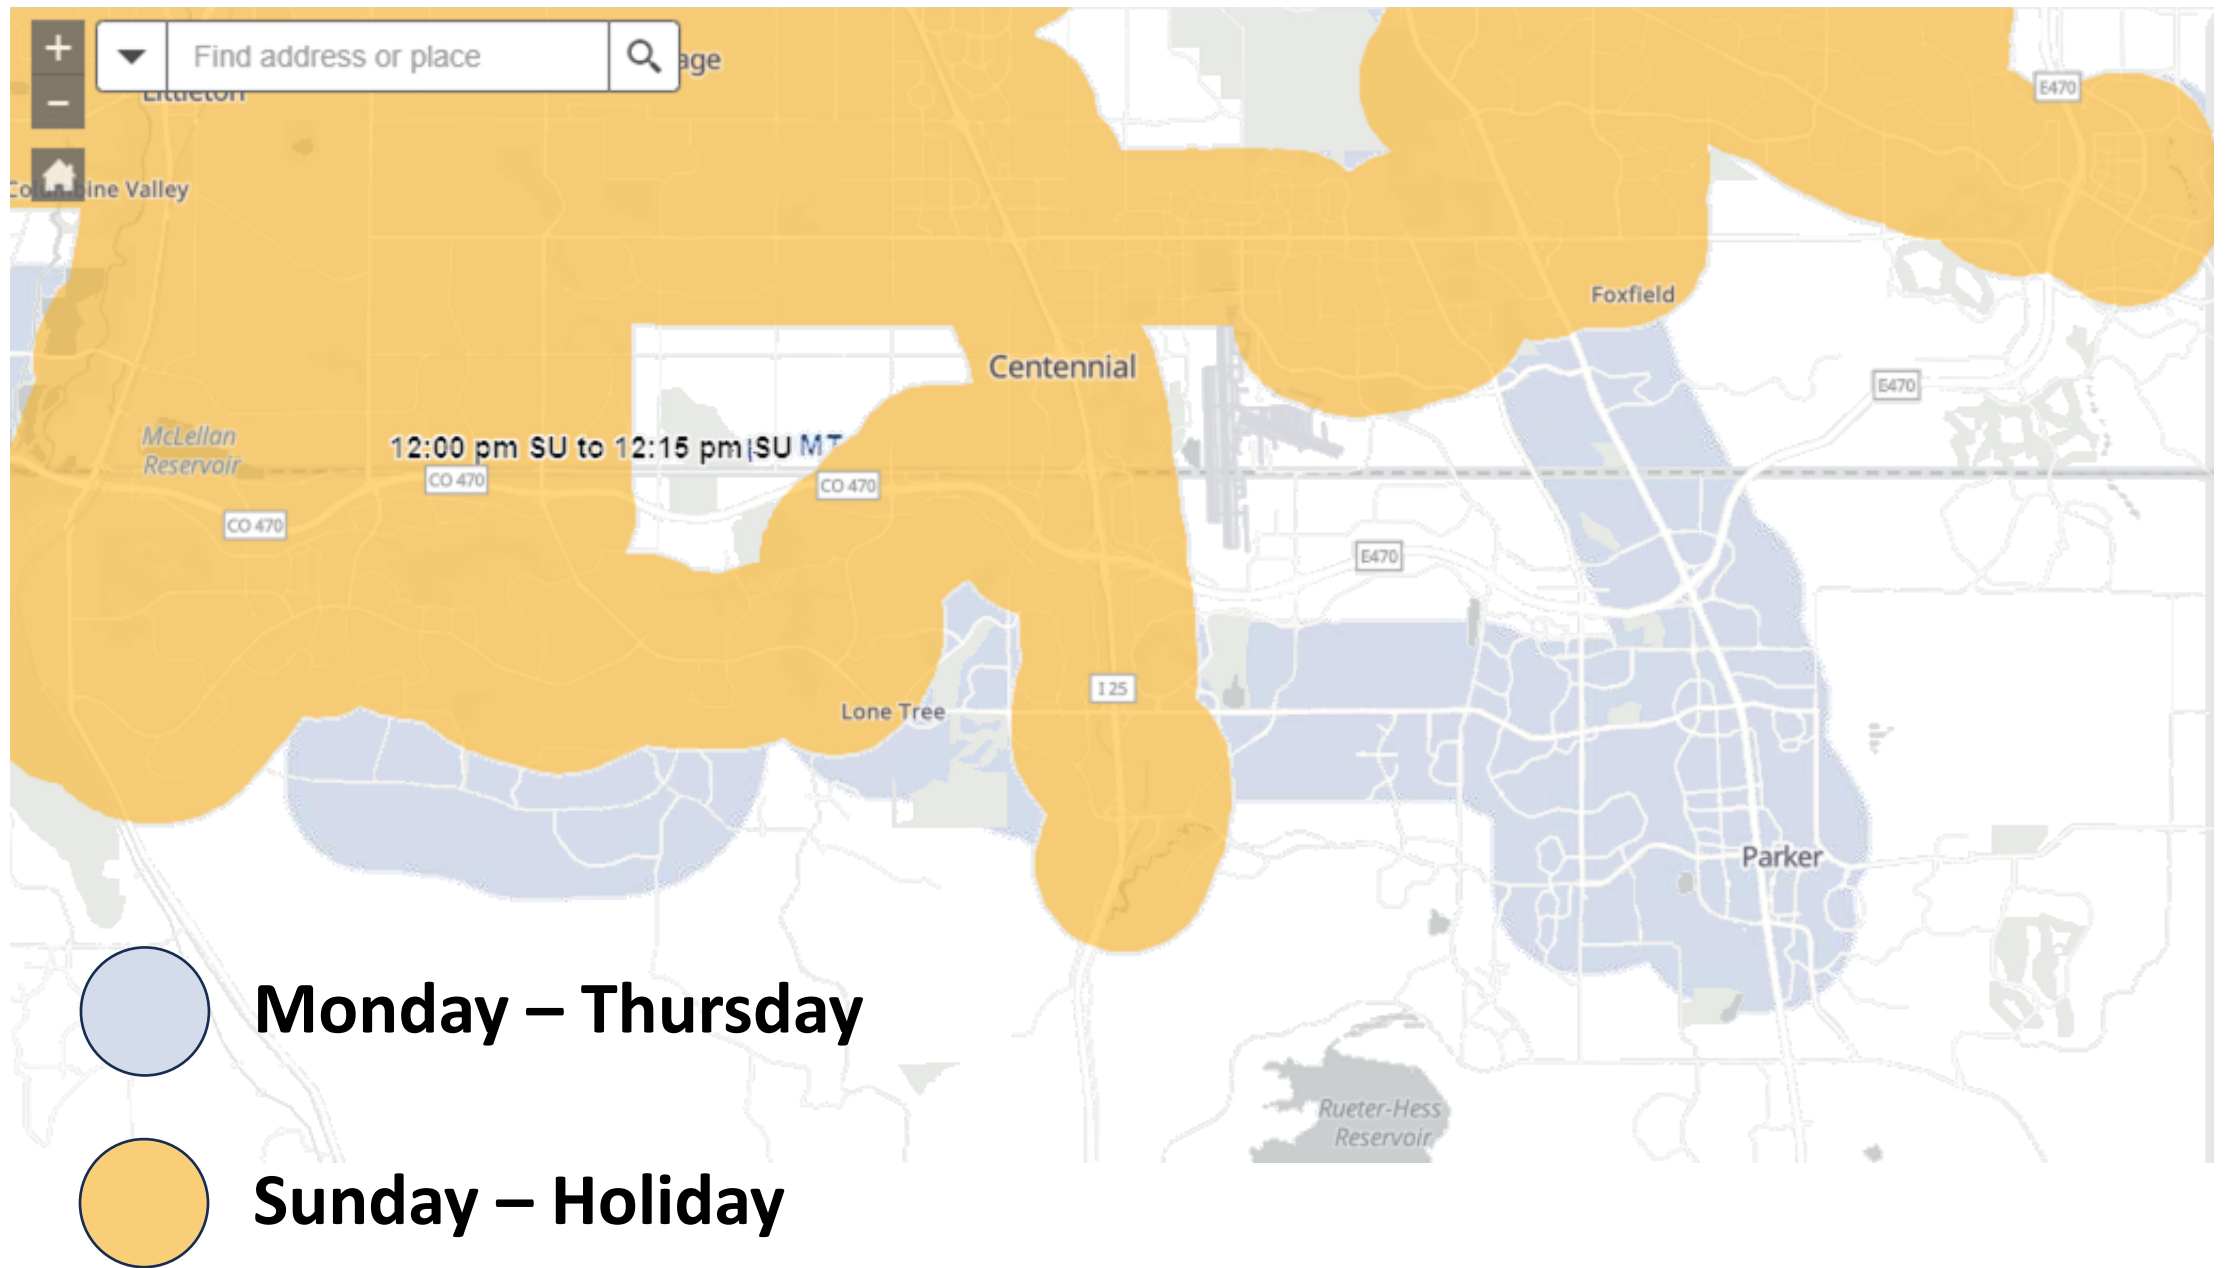

Transportation Legislation Goals

Require RTD to give "legacy" status to any neighborhoods or paratransit user who would otherwise lose access to service under federal law when RTD cuts services or consolidates bus stops.

Transportation Legislation Goals

Ensure continued service in areas with limited transportation options.

Transportation Legislation Goals

Ensure other public transit services under the Colorado Association of Transit Agencies (CASTA) are held accountable to provide adequate, equal and equitable services to elderly and disabled Coloradans in their communities.
