On or before January 15, 2025, the office is required to create an advisory council, composed of, at a minimum, family and youth providers, local partners, county departments of human and social services, county commissioners, juvenile justice agencies, and university partners.

The BHA shall develop a state-level process to monitor, report on, and promptly resolve complaints, grievances, and appeals, including recipient rights issues. The process must be available to providers, clients, case management entities, and anyone else working with the children and youth in the system of care.

The bill requires the leadership team to begin, or contract for, on or before January 1, 2025, a cost and utilization analysis of the populations of children and youth who are included in the system of care.
