STATEWIDE ELECTION DAY
is Tuesday, November 8, 2022

Voter service and polling centers are open 7 a.m. to 7 p.m. on Election Day. Ballots are mailed to all registered voters between October 17 and October 21, 2022.
This booklet provides information on the 11 statewide measures on the November 8, 2022, ballot and on the judges who are on the ballot for retention in your area. Following a quick ballot reference guide, the information is presented in three sections.

Section One — Analyses. Each statewide measure receives an analysis that includes a description of the measure and major arguments for and against. Careful consideration has been given to the arguments in an effort to fairly represent both sides of the issue. Each analysis also includes an estimate of the fiscal impact of the measure. More information on the fiscal impact of measures can be found at leg.colorado.gov/bluebook. The state constitution requires that the nonpartisan research staff of the General Assembly prepare these analyses and distribute them in a ballot information booklet to registered voter households.

Section Two — Titles and Text. For each measure, this section includes the title that appears on the ballot and the legal language of each measure, with new laws in capitalized letters and laws that are being eliminated in strikeout type.

Section Three — Information on Local Election Officials. The booklet concludes with addresses and telephone numbers of local election officials. Your local election official can provide you with information on voter service and polling centers, absentee ballots, and early voting.

2022 Measures on the Ballot

Table 1 lists the measures on the 2022 ballot. Of the 11 measures on the ballot, 3 propose changes to the state constitution, and 8 propose changes to the state statutes.

Measures referred by the state legislature. A measure placed on the ballot by the state legislature that amends the state constitution is labeled an “Amendment,” followed by a letter. A measure placed on the ballot by the state legislature that amends the state statutes or that is referred as a tax question is labeled a “Proposition,” followed by a double letter.

Measures initiated by citizens. A measure placed on the ballot through the signature-collection process that amends the state constitution is labeled an “Amendment,” followed by a number between 1 and 99. A measure
placed on the ballot through the signature-collection process that amends the state statutes is labeled a “Proposition,” followed by a number between 100 and 199.

Voter approval is required in the future to change any constitutional measure adopted by the voters, although the legislature may adopt statutes that clarify or implement these constitutional measures as long as they do not conflict with the constitution. The state legislature, with the approval of the Governor, may change any statutory measure in the future without voter approval.

Under provisions in the state constitution, passage of a constitutional amendment requires at least 55 percent of the votes cast, except that when a constitutional amendment is limited to a repeal, it requires a simple majority vote. In 2022, Amendments D, E, and F require 55 percent of the vote to pass. The remaining measures require a simple majority vote to pass.

What Your Vote Means

YES A “yes” vote on Amendment D directs the Governor to reassign judges from the existing 18th Judicial District to the new 23rd Judicial District by November 30, 2024.

NO A “no” vote on Amendment D means that there could be uncertainty in Colorado law about assignment of judges in the new 23rd Judicial District and that continuity of court functions could be disrupted.

Extend Homestead Exemption to Gold Star Spouses

Ballot Title

Shall there be an amendment to the Colorado constitution concerning the extension of the property tax exemption for qualifying seniors and disabled veterans to the surviving spouse of a United States armed forces service member who died in the line of duty or veteran whose death resulted from a service-related injury or disease?

What Your Vote Means

YES A “yes” vote on Amendment E reduces the property taxes paid by a homeowner who is the surviving spouse of either a military member who died in the line of duty or a veteran who died as a result of a service-related injury or disease by expanding the existing homestead exemption for disabled veterans to include these surviving spouses.

NO A “no” vote on Amendment E means that the existing homestead exemption is not expanded to include surviving spouses of either a military member who died in the line of duty or a veteran who died as a result of a service-related injury or disease.

Changes to Charitable Gaming Operations

Ballot Title

Shall there be an amendment to the Colorado constitution concerning the conduct of charitable gaming activities, and, in connection therewith, allowing managers and operators to be paid and repealing the required period of a charitable organization’s continuous existence before obtaining a charitable gaming license?

What Your Vote Means

YES A “yes” vote on Amendment F reduces from five to three the minimum number of years a nonprofit organization must operate in Colorado in order to apply for a bingo-raffle license, and authorizes the state legislature to establish a different requirement beginning in 2025. In addition, a “yes” vote allows, but does not require, bingo-raffle workers to be paid. Wages are capped at minimum wage through June 30, 2024, after which wages are not limited.

NO A “no” vote on Amendment F maintains the current requirement that a nonprofit organization must operate in Colorado for five years before applying for a bingo-raffle license, and that bingo-raffle workers must be unpaid volunteers.

It also increases taxes for households with over $300,000 in federal adjusted gross income by limiting state income tax deductions.

NO A “no” vote on Proposition FF means that the current method of funding school meals, which provides free meals to children from households with incomes below certain thresholds, will remain unchanged, and there will be no change to tax law.

New 23rd Judicial District Judges

Placed on the ballot by the legislature • Passes with 55 percent of the vote

Amendment D proposes amending the Colorado Constitution to:

- require the Governor to reassign judges from the existing 18th Judicial District to the new 23rd Judicial District on a one-time basis.

What Your Vote Means

YES  A “yes” vote on Amendment D directs the Governor to reassign judges from the existing 18th Judicial District to the new 23rd Judicial District by November 30, 2024.

NO  A “no” vote on Amendment D means that there could be uncertainty in Colorado law about assignment of judges in the new 23rd Judicial District and that continuity of court functions could be disrupted.

Summary and Analysis for Amendment D

In 2020, the state legislature passed a law to create the 23rd Judicial District out of the existing 18th Judicial District. The law specified that judges who currently live within the new district boundaries will be reassigned to the new district. Amendment D addresses this same judicial transfer by adding constitutional provisions for the seating of 23rd district judges and ensures court services continue without interruption or uncertainty. Specifically, Amendment D amends the state constitution to require the Governor to reassign judges from the 18th Judicial District to the newly formed 23rd Judicial District.

What is the difference between the Colorado Constitution and state statutes?

The Colorado Constitution is the highest legal authority in the state, establishes government duties and functions, and tends to be broad in scope. It can only be changed if approved by a statewide vote. The state legislature has the authority to enact statutes that impact many aspects of daily life and are generally more detailed and specific. State statutes must not violate the state constitution.

What are judicial districts?

Under the state constitution, the state is divided into judicial districts consisting of one or more counties. District courts in these judicial districts hear both civil and criminal court cases, including felony criminal cases, family law matters, settling of wills after death, and behavioral health cases. The state legislature may change the boundaries of a judicial district, or increase or reduce the number of judicial districts.

There have been 22 judicial districts in Colorado since 1964. In 2020, the state legislature created a new 23rd Judicial District out of the existing 18th Judicial District. Beginning in 2025, the 18th Judicial District will consist of Arapahoe County, and the 23rd will include Douglas, Elbert, and Lincoln Counties.

How are judges selected in Colorado?

The constitution requires judges to be nominated by a judicial nominating commission and then appointed by the Governor. Thereafter, judges must periodically go before voters in retention elections if they wish to serve additional terms. Reassigning judges from one district to another is not covered in this process.

What happens if Amendment D passes?

Amendment D directs the Governor to reassign judges from the 18th Judicial District to the newly created 23rd Judicial District. Reassigned judges must live in the new 23rd Judicial District, and may run in retention elections to serve additional terms in the new district once their initial terms are complete.

What happens if Amendment D fails?

If Amendment D fails, it is uncertain how the transition of judges to the new district will be resolved. The constitution provides that judicial vacancies are filled by a Governor’s appointment through the nominating process, regardless of
how the vacancy occurred. Casework and court proceedings in the new 23rd Judicial District also may be reassigned as determined by the Judicial Department.

For information on those issue committees that support or oppose the measures on the ballot at the November 8, 2022 election, go to the Colorado Secretary of State’s elections center web site hyperlink for ballot and initiative information:

https://www.sos.state.co.us/pubs/elections/Initiatives/InitiativesHome.html

Argument For Amendment D

1) Amendment D establishes a smooth transition for the new judicial district and helps avoid the cost of potential litigation. Because it is unclear if current state law will ensure the proper seating of judges in the new district, the amendment provides a definitive legal mechanism for the transition. This will prevent the invalidation of rulings resulting from allegations of improper seating of judges, as well as offset costs and address other logistical concerns. Requiring the Governor to assign judges to the new district in a timely and efficient way also prevents disruptions and delays in casework and court proceedings.

Argument Against Amendment D

1) Amendment D is not the only way to assign judges to the 23rd Judicial District. The constitution and state statute allow for judges to be appointed through a vacancy process or to serve in other districts under certain circumstances.

Fiscal Impact for Amendment D

Amendment D will increase workload in the Governor’s office to reassign judges to the new 23rd Judicial District. In addition, by resolving the constitutionality of seating judges in the new 23rd district in advance, the state may avoid potential costs for litigation in the courts to determine how the judges should be assigned.
Extend Homestead Exemption to Gold Star Spouses

Placed on the ballot by the legislature • Passes with 55 percent of the vote

Amendment E proposes amending the Colorado Constitution to:

• reduce property taxes for the surviving spouses of both United States Armed Forces service members who died in the line of duty and veterans who died as a result of a service-related injury or disease.

What Your Vote Means

YES A “yes” vote on Amendment E reduces the property taxes paid by a homeowner who is the surviving spouse of either a military member who died in the line of duty or a veteran who died as a result of a service-related injury or disease by expanding the existing homestead exemption for disabled veterans to include these surviving spouses.

NO A “no” vote on Amendment E means that the existing homestead exemption is not expanded to include surviving spouses of either a military member who died in the line of duty or a veteran who died as a result of a service-related injury or disease.

Summary and Analysis for Amendment E

Amendment E expands the current homestead exemption to reduce the property taxes paid by a homeowner who is the surviving spouse of either a military service member who died in the line of duty or a veteran whose death resulted from a service-related injury or disease.

What is the current homestead exemption?

The homestead exemption in the state constitution reduces property taxes owed on a qualifying homeowner’s primary residence by exempting 50 percent of the first $200,000 of the home’s value from taxation. The state legislature can adjust the $200,000 amount to either increase or decrease the homestead exemption. Examples of the effect of this exemption can be found in Table 1.

Qualifying homeowners include Coloradans aged 65 or over who have lived in their home for at least ten years and veterans with a service-connected disability rated 100 percent permanent and total by the federal government. A qualifying veteran who is also eligible for a reduction in property taxes as a senior cannot claim both reductions.

The surviving spouse of a veteran with a disability who continues to live in the home can continue to claim the homestead exemption after the veteran dies. The surviving spouse who continues to live in the home of a senior who claimed or could have claimed the homestead exemption can also claim the exemption.

Although counties collect property tax, the state reimburses them for the cost of the homestead exemption.

How does the homestead exemption reduce a homeowner’s property tax bill?

The dollar amount of the tax reduction from the homestead exemption varies among homeowners depending on the statewide residential assessment rate, the local property tax rate, and the home’s value after the exemption is applied.

Table 1 provides examples of how the homestead exemption reduces property taxes based on an average 2021 property tax rate and the current exemption level. The actual tax reductions will vary because local governments can set different property tax rates.
Extend Homestead Exemption to Gold Star Spouses

In 2021, 266,538 seniors claimed homestead exemptions, with an average tax reduction of $587, and 9,016 veterans claimed homestead exemptions, with an average tax reduction of $617.

Who qualifies for the homestead exemption under the measure?

Amendment E extends the homestead exemption to surviving spouses, also known as Gold Star spouses, of U.S. Armed Forces service members who died in the line of duty and of veterans whose death resulted from a service-related injury or disease.

To claim the homestead exemption, the surviving spouse must own and live in the home and be determined qualified under federal law by the state Department of Military and Veterans Affairs (DMVA). To qualify, a surviving spouse must provide evidence to the DMVA from either the U.S. Department of Defense or the U.S. Department of Veterans Affairs that the service member’s death was the result of a service-related injury or disease, whether the death occurred while on active duty or following separation from the military.

An estimated 490 surviving spouses who are not otherwise able to claim the homestead exemption would be eligible for the exemption under this measure in property tax year 2023.

For information on those issue committees that support or oppose the measures on the ballot at the November 8, 2022 election, go to the Colorado Secretary of State’s elections center web site hyperlink for ballot and initiative information:
https://www.sos.state.co.us/pubs/elections/Initiatives/InitiativesHome.html

Argument For Amendment E

1) The measure allows Colorado to do more to help Gold Star families whose spouses have lost their lives in service to our nation and state. Losing a spouse can lead to unmet financial needs, and the tax exemption in Amendment E helps Gold Star spouses offset expenses of the family home. Additionally, Colorado currently allows spouses of 100 percent disabled veterans to keep the homestead exemption when that veteran dies, but provides no exemption if the spouse is killed while serving in the military. Amendment E addresses an inconsistency that is unfair to surviving families.

Argument Against Amendment E

1) Amendment E reduces taxes only for Gold Star spouses who are financially able to own homes. Gold Star spouses who cannot afford to own a home do not benefit from this measure. Further, the intent of the current homestead exemption for 100 percent permanently disabled veterans is to help address the employment and income limitations of their disability. Gold Star spouses may not have the same employment challenges as permanently disabled veterans.

Fiscal Impact for Amendment E

State spending. Counties collect property taxes, but they do not lose revenue from the homestead exemption because the state reimburses them for the reduction in property tax revenue resulting from the homestead exemption. In 2021, the state reimbursed counties $162.1 million in homestead exemptions, of which $156.5 million was for senior homestead exemptions and $5.6 million for veterans with a disability homestead exemptions. Amendment E will increase state spending by $288,000 in state budget year 2023-24 to cover the reimbursements authorized in the measure.
Changes to Charitable Gaming Operations

Placed on the ballot by the legislature • Passes with 55 percent of the vote

Amendment F proposes amending the Colorado Constitution to:

- reduce from five to three the minimum number of years a nonprofit organization must be in operation in Colorado in order to apply for a bingo-raffle license, and authorize the state legislature to establish a different requirement beginning in 2025; and

- allow, but not require, a member of a nonprofit organization who is managing or operating a bingo-raffle game (bingo-raffle worker) to receive compensation up to the minimum wage, before repealing restrictions on compensation beginning July 1, 2024.

What Your Vote Means

**YES**

A “yes” vote on Amendment F reduces from five to three the minimum number of years a nonprofit organization must operate in Colorado in order to apply for a bingo-raffle license, and authorizes the state legislature to establish a different requirement beginning in 2025. In addition, a “yes” vote allows, but does not require, bingo-raffle workers to be paid. Wages are capped at minimum wage through June 30, 2024, after which wages are not limited.

**NO**

A “no” vote on Amendment F maintains the current requirement that a nonprofit organization must operate in Colorado for five years before applying for a bingo-raffle license, and that bingo-raffle workers must be unpaid volunteers.

Summary and Analysis for Amendment F

What types of charitable gaming are currently allowed in Colorado?

In 1958, the Colorado Constitution was amended to permit the operation of games of chance by certain nonprofit organizations. Typical games of chance include:

- bingo, in which each player has at least one card with a grid of letters and numbers, and marks off the letter and number combinations called by the bingo caller until one of the players completes the designated winning pattern; and

- raffles, which involve tickets that have a unique number or other identifier randomly drawn to reveal the prize winner, and include pull-tabs and pickles.

The proceeds of any game must be exclusively devoted to the purposes of the nonprofit organization conducting the bingo or raffle. Only a member of a nonprofit organization may participate in the management or operation of a bingo-raffle game (bingo-raffle worker). A bingo-raffle worker cannot be paid a wage for managing or operating bingo-raffle games.

The following types of nonprofit organizations can apply for a license if they have been continuously operating in Colorado for at least five years: chartered branches, lodges, and chapters of national or state organizations; religious, charitable, labor, fraternal, educational, voluntary firefighters’, or veterans’ organizations; political parties; and the Colorado State Fair Authority.

What does Amendment F do?

The Colorado Constitution currently allows nonprofit organizations that have continuously operated in Colorado for five or more years to apply for a bingo-raffle license, and prohibits them from paying bingo-raffle workers. The state legislature cannot change either of these requirements without voter approval. Amendment F decreases the number of years, from five to three, that a nonprofit organization must operate in Colorado before applying for a bingo-raffle license. On or after January 1, 2025, the measure allows the state legislature to change the time-period requirement,
Changes to Charitable Gaming Operations

effectively repealing the constitutional limitation on the state legislature’s ability to change the time-period requirement. However, the requirement will remain three years without legislative action.

The measure also allows, but does not require, bingo-raffle workers to receive compensation. Wages are capped at the minimum wage through June 30, 2024, after which bingo-raffle workers may be paid any amount agreed upon by the workers and nonprofit organization. The measure does not change the current constitutional requirement that only members of a nonprofit organization may participate in the management or operation of bingo and raffles.

Argument For Amendment F

1) Bingo-raffle gaming is an important tool that nonprofit organizations use to raise funds for their programs. Expanding licenses to nonprofit organizations that have been in existence for a fewer number of years provides more organizations with this fundraising opportunity. Also, Amendment F may allow nonprofit organizations to raise additional money by operating more games more often because payment of a wage will likely incentivize their members to work bingo-raffle games.

Argument Against Amendment F

1) Allowing bingo-raffle workers to receive a wage to manage or operate bingo-raffle games potentially reduces the amount of money nonprofit organizations are able to dedicate to their core mission. In addition, permitting less-established nonprofit organizations to operate bingo-raffle games in Colorado will likely increase the number of organizations raising funds in this manner, further decreasing the total amount of funds available for each organization.

Fiscal Impact for Amendment F

State revenue. Amendment F increases state revenue from bingo-raffle license fees by about $20,000 in state budget year 2022-23 and by larger amounts in future years. This revenue is generated from additional nonprofit organizations becoming licensed to run bingo and raffle games and paying the current fee of $100. The measure may also impact state revenue from quarterly fees paid by bingo-raffle licensees, but this impact will depend on future changes in behavior by charitable gaming organizations and participants.

State spending. Amendment F increases state spending by about $294,000 in state budget year 2022-23, and by about $420,000 in state budget year 2023-24. This spending is required to update program rules and materials, process new license applications and game manager oaths, investigate complaints, conduct inspections, and make changes to the bingo-raffle computer system.
Proposition FF proposes amending the Colorado statutes to:

- create the Healthy School Meals for All program to provide access to free meals for all public school students in Colorado; and
- pay for the program by increasing the taxes paid by households with incomes of $300,000 or more and by using additional federal funding for school meals.

What Your Vote Means

**YES**
A “yes” vote on Proposition FF creates a program to provide access to free meals to all public school students in Colorado and offer grants to schools related to the provision of school meals. It also increases taxes for households with over $300,000 in federal adjusted gross income by limiting state income tax deductions.

**NO**
A “no” vote on Proposition FF means that the current method of funding school meals, which provides free meals to children from households with incomes below certain thresholds, will remain unchanged, and there will be no change to tax law.

Summary and Analysis for Proposition FF

**What does the measure do?**

The measure creates the Healthy School Meals for All program (program) to reimburse school meal providers for offering free school breakfasts and lunches to all public school students, regardless of family income, beginning with the 2023-24 school year.

Beginning in the 2024-25 school year, the program will also provide grant funding to school meal providers to:

- purchase products grown, raised, and processed in Colorado to include in school meals;
- increase wages or provide stipends for employees who prepare and serve school meals; and
- receive training, equipment, and technical assistance, via a nonprofit organization, to help prepare healthy school meals using basic, nutritious ingredients, and to support collaboration between schools, communities, and local food growers.

The measure pays for the program by increasing taxes on households with more than $300,000 in adjusted gross income per year. It also requires the state and school meal providers to participate in certain federal programs to bring in additional federal funds.

**Who can participate in the program?**

Any school meal provider can participate in the program. A school meal provider manages school food programs within its area, and may be a school district, charter school, group representing several school districts or charter schools, or another entity that participates in the National School Lunch Program. There are currently 183 school meal providers in Colorado.

Any student at a participating school who wishes to receive a school meal will be able to do so for free under the measure. This includes students in early childhood education programs administered by public schools.

**Who pays for school meals now?**

Currently, schools receive money from the state and federal governments, as well as payments from families, to pay for student meals. Federal programs, like the federal School Breakfast Program and National School Lunch Program, reimburse school meal providers for all or a portion of the cost of meals, based on a student's family income. In
Colorado, students eligible for reduced-price meals receive free meals because the state covers the student’s portion of the cost. As a result, some students pay full price for a school meal and some eat for free, as shown in Figure 1.

**Changes due to COVID-19.** In the spring of 2020, when the COVID-19 pandemic first disrupted the country’s public education system, the federal government covered the cost to provide free school meals to all students. This temporary reimbursement recently ended, meaning that students who are not eligible for free or reduced-price meals have to pay for meals during the 2022-23 school year.

All students were able to receive free meals during the 2020-21 and 2021-22 school years. Approximately 355,000 students, or 40 percent of all Colorado students in kindergarten through twelfth grade, would have met family income criteria to be eligible for free school meals in Colorado had universal free school meals not been available.

**How is the new program funded?**

The new school meal program is funded through two sources: increased state income taxes for households with incomes of $300,000 or above and increased federal funding.

**Increased state income tax revenue.** Beginning in tax year 2023, the measure increases state income taxes paid by households with at least $300,000 in federal adjusted gross income by limiting the amount of money they can deduct from their Colorado taxable income. These households will be limited to $12,000 in state income tax deductions for single filers and to $16,000 for joint filers. This will affect an estimated 113,988 returns, or about 5 percent of returns filed in Colorado. The limit applies to either the taxpayer’s standard deduction or itemized deductions. Expenses most often included in itemized deductions are charitable contributions, state and local taxes, and mortgage interest.

The amount of additional taxes each household will owe depends on the amount of deductions the household claims on its federal tax returns. For example, if a married couple filing jointly claims the standard $25,900 deduction on their federal income taxes, they will pay an additional $450 in state income taxes. If the couple claims $50,000 in itemized deductions, they will pay an additional $1,547 in state income taxes under the measure. Table 1 shows an example using the standard deduction for a couple making $375,000. For a more detailed breakdown, see the Fiscal Impact Section below.
The measure is expected to increase income tax revenue to the state by $100.7 million in budget year 2023-24, the first full year the tax change will be in effect. This money is not subject to the state’s constitutional revenue limit.

**Increased federal funding.** The measure requires school meal providers to maximize their federal reimbursement by participating in certain federal programs, which will increase federal funding and reduce the amount of state funds necessary to support the new school meals program, as follows:

- First, the measure requires the state to participate in a federal project that makes students receiving Medicaid automatically eligible for federally funded free school meals.
- Second, school meal providers will be required to participate in the federal Community Eligibility Provision program, if eligible. This program allows schools with a high number of students qualifying for free and reduced-price meals to receive additional federal reimbursement, with some schools meeting the requirements to provide free meals to all students.

**How will the program be monitored?**

Beginning in 2024, the Colorado Department of Education must submit a report every two years to the state legislature on the implementation and progress of the school meal and grant programs created by the measure. The department must also contract with an independent auditor to conduct a financial and performance audit of the program. The audit report must be easily accessible by the public.

**Arguments For Proposition FF**

1) Research shows that children experiencing hunger have lower grades than their peers, and are more likely to struggle with behavioral problems and experience emotional, mental, and physical health issues. By providing school meals to all students, the measure ensures that every child has access to food and is not hungry in school.

2) Providing free meals to all students helps families at a time when many are facing higher costs of living. The cost of school meals can be a significant expense, and the measure removes tradeoffs for many families between paying for meals and covering other necessary household expenses. The current income threshold for free meals does not capture all students who may face food insecurity, and even if a student can afford to bring or pay for a meal, the measure will take a daily financial concern off of families’ plates.

3) The measure removes a source of shame and embarrassment for students who receive free meals. When some students receive free school meals and others pay for their meal, it creates stigma and shame for the students who receive the free meals or who have school meal debt that they cannot pay. Feeling singled out causes many students to skip what may be their only healthy and balanced meal of the day.
Arguments Against Proposition FF

1) The measure raises taxes on some households at a time when inflation is high and the cost of living is increasing. Higher taxes mean that those taxpayers will have less money to save or invest in the economy. Those dollars are best used by individuals and families in a way that they see fit.

2) The state should not pay to feed kids who can afford to purchase a school meal or bring food from home. Feeding kids should be the role and responsibility of the parents or caregivers, not the government. The measure requires ongoing state funding, resources, and oversight for a program that is not needed by all students.

3) Colorado schools are underfunded. If voters want to increase taxes to help students, it would be better to give local school districts new funding to use in a way that best serves their students, such as increasing teacher salaries or providing additional educational materials and opportunities.

Fiscal Impact for Proposition FF

Proposition FF increases state revenue and spending beginning in state budget year 2022-23.

State revenue. By limiting state income tax deductions for taxpayers with at least $300,000 in adjusted gross income, the measure is expected to increase state revenue by an estimated $50.4 million in budget year 2022-23 (a half-year impact), $100.7 million in budget year 2023-24, $104.2 million in budget year 2024-25, and by increasing amounts in later years. The revenue generated is not subject to the state constitutional revenue limit. Of the total annual amount, an estimated $3.7 million in budget year 2022-23, and $7.5 million in budget year 2023-24 will be deposited in the State Education Fund as a result of increasing Colorado taxable income.

State spending. The measure is expected to increase state spending by an estimated $212,289 in budget year 2022-23 for administrative costs to set up the new program, by up to $115.3 million in budget year 2023-24 for school meal reimbursements and administrative costs, and by between $71.4 million and $101.4 million per year starting in the 2024-25 budget year when the new program is fully operational.

*The estimated number of taxpayers counts joint filers as one taxpayer.

This program will reimburse school meal providers for the cost of offering free meals to all students (between $48.5 million and $78.5 million when fully implemented), and provide grant funding to school meal providers to purchase Colorado grown food ($9.5 million), funding to increase wages for employees who prepare and serve school meals ($7.6 million), and grants to assist school food providers with the promotion and utilization of local foods ($5.0 million).

Costs to the state assume additional reimbursements from the federal government, and will depend on the number of students who become eligible for federal meal reimbursement as a result of the measure, as well as the school districts in which they reside. Given this uncertainty, this analysis shows a wide range of potential costs.

In addition, the Department of Revenue will have costs of $209,855 in budget year 2023-24 and $98,292 in later years to administer the tax changes under the bill. State spending is paid from the state General Fund.
School district revenue and spending. School districts will have additional revenue from meal reimbursements, employee wage support payments, and local food purchasing grants. The amount each district receives will depend on the number of meals served and the components of the program in which a district chooses to participate. This revenue will be used to pay school district costs to provide meals to students and increase employee wages. School districts will also have additional workload to adjust to new data, documentation, and grant program requirements.

Taxpayer impact. Proposition FF will increase the amount of income tax owed by taxpayers who have over $300,000 in federal taxable income. State law requires Legislative Council Staff to estimate the potential tax burden on affected taxpayers within specified income categories. Table 2 shows the expected change in tax burden based on data on income and income tax deductions claimed on 2019 tax returns. The actual impact on any given taxpayer with income above $300,000 will depend on the deductions taken on their federal income tax returns. For taxpayers with incomes above $400,000, the new limits on deductions will be applied in addition to the existing limits on deductions in state law.

State Spending and Tax Increases

Article X, Section 20, of the Colorado Constitution requires that the following fiscal information be provided when a tax increase question is on the ballot:

- estimates or actual amounts of state fiscal year spending for the current year and each of the past four years with the overall percentage and dollar change; and
- for the first full year of the proposed tax increase, estimates of the maximum dollar amount of the tax increase and of state fiscal year spending without the increase.

“Fiscal year spending” is a legal term in the Colorado Constitution. It equals the amount of revenue subject to the constitutional spending limit that the state or a district is permitted to keep and either spend or save for a single year. Table 3 shows state fiscal year spending for the current year and each of the past four years.

Proposition GG proposes amending the Colorado statutes to:

- require that a tax information table appear on the petition and ballot for any citizen-initiated measure that changes the individual income tax rate.

What Your Vote Means

**YES** A “yes” vote on Proposition GG requires that a tax information table be included on petitions and ballots for any citizen-initiated measure that changes the individual income tax rate. The table must list the average change in taxes owed for taxpayers in specified income categories.

**NO** A “no” vote on Proposition GG keeps petitions and ballots in their current format.

Summary and Analysis for Proposition GG

For any citizen-initiated measure that changes the state income tax rate, Proposition GG requires a tax information table to be included on the ballot and on the petitions circulated to voters. The table must list the average change in taxes owed for taxpayers in eight specific income categories.

What is a citizen initiative and what is currently included in ballot language?

The Colorado Constitution and state law create a process for citizens to initiate and adopt laws by popular vote. To place a measure on the statewide ballot, proponents must collect a certain number of valid signatures from registered voters across the state on a petition. Under current law, petitions include the ballot language and a summary of the fiscal impact of the measure.

A number of additional requirements exist for citizen-initiated measures that affect government revenue. For example, the constitution requires that the ballot language for measures that increase taxes begin with the language, “Shall taxes be increased…” and include an estimate of the revenue generated if the measure passes. State law requires that ballot language for measures that decrease state revenue include language listing the three largest areas of government programs impacted by the revenue reduction, and the estimated decrease in tax revenue.

How does Proposition GG change the ballot language for citizen-initiated measures?

For any measure that increases or decreases the income tax rate, Proposition GG requires that a tax information table be included in the measure’s ballot language. The ballot language, including the tax information table, must also appear on the petitions that proponents use to collect signatures. If a measure receives enough signatures and qualifies for the ballot, the tax information table must appear on the printed ballot that appears before voters at an election. The tax information table in the ballot language must show:

- eight specified taxpayer income categories, defined in Proposition GG;
- the current average income tax owed in each income category;
- the average income tax owed in each income category if the tax measure were to pass; and
- the difference between average tax owed before and after the rate change.

An example of the proposed tax information table is shown as Table 1.
What information is currently provided to voters about tax changes?

Under current law, a tax information table identifying the average change in taxes paid by taxpayers in different income categories must appear in this statewide ballot information booklet for any measure that increases or decreases individual income tax revenue, or state sales tax revenue. No table is currently included on the ballot. The tax information table in the ballot information booklet, which contains minor differences from the table called for in Proposition GG, is prepared after the measure has qualified for the election.

You can see an example of this table in the analysis for Proposition 121, State Income Tax Rate Reduction in this booklet. A comparison of when the tax information table is required under current law compared with Proposition GG is shown in Figure 1.

In addition, state law requires that a brief fiscal summary be prepared for all citizen-initiated measures, which estimates tax revenue to the state, among other fiscal impacts. This fiscal summary must be included on the petitions used by proponents to collect signatures. Once proponents begin collecting signatures, a more detailed fiscal analysis is prepared for the measure and posted online. This fiscal analysis is updated as necessary and republished online before the election. An abstract of the most recent analysis for this measure is included in this ballot information booklet.

*Adjusted Gross Income reported to the federal Internal Revenue Service.
Argument For Proposition GG

1) Proposition GG allows voters to easily see the impact of income tax rate changes on individuals of different income categories when signing a petition and casting a vote. Voters are presented the information at the moment that they are making their decision about a measure and will not need to seek out additional information to understand how the measure will affect their own taxes and those of other taxpayers.

Argument Against Proposition GG

1) Proposition GG adds unnecessary complexity and costs to statewide printed ballots, and duplicates information that is already provided to voters in the ballot information booklet. The ballot will become even longer, more expensive to produce, and more complicated than it is now, especially in years when there are multiple tax measures.

Fiscal Impact for Proposition GG

**State spending.** The measure increases information technology costs in the Secretary of State’s Office to modify the statewide election information system to accommodate the tax information table on ballots.

The measure may also increase workload for the Secretary of State’s Office, Department of Law, and the legislative department to incorporate the tax information table into ballot titles.

**Local government spending.** The measure will increase costs for county clerks to include a tax information table on the printed ballot. The format and size of a tax table is expected to increase the length of ballots, and therefore the printing and mailing cost for counties to provide ballots to voters.
Proposition 121 proposes amending the Colorado statutes to:

- reduce the state income tax rate for individuals and corporations from 4.55 percent to 4.40 percent for tax year 2022 and future years.

What Your Vote Means

**YES** A “yes” vote on Proposition 121 reduces the state income tax rate to 4.40 percent for tax year 2022 and future years.  

**NO** A “no” vote on Proposition 121 keeps the state income tax rate unchanged at 4.55 percent.

Summary and Analysis for Proposition 121

Proposition 121 reduces the state income tax rate from 4.55 percent to 4.40 percent for individuals and corporations for tax year 2022 and future years.

What is the state’s current income tax rate?

Colorado’s permanent income tax applies at a flat rate of 4.55 percent, which means that all taxpayers pay the same tax rate regardless of their taxable income. The income tax applies to the Colorado taxable income of both individual and corporate taxpayers. Colorado taxable income is equal to federal taxable income, adjusted for any state additions and deductions.

In some years, existing law temporarily reduces the state income tax rate to 4.50 percent in order to pay back a portion of the amount the state collected over its revenue limit, which the state is required to return to taxpayers. The tax rate was reduced to 4.50 percent in 2020 and 2021, and is expected to be reduced to 4.50 percent in each of 2022 through 2024, to return money to taxpayers.

How does Proposition 121 change state income tax collections?

Proposition 121 reduces the state individual and corporate income tax rate to 4.40 percent for tax year 2022 and future years. The measure is expected to reduce state income tax collections by $412.6 million in state budget year 2023-24. This amount represents a reduction in expected state General Fund revenue of approximately 2.4 percent.

How are state income tax collections spent?

State income tax collections are the main source of General Fund revenue. The General Fund is the main source of state revenue available to be allocated by the state legislature to pay for general government operations such as education, human services, and corrections. In state budget year 2020-21, the state income tax generated $10.7 billion, which accounted for 68.4 percent of General Fund revenue. In addition to General Fund revenue, the state budget also includes money from federal funds and other taxes and fees. More information about the state budget can be found at: https://leg.colorado.gov/explorebudget/.

How does Proposition 121 affect state spending?

The measure’s long-term effect on state spending depends on whether state revenue is above or below the constitutional revenue limit, which is called the Taxpayer’s Bill of Rights (TABOR) limit. Money collected under the limit may be spent or saved, while money collected over the limit must be returned to taxpayers. The money that is returned is called the TABOR refund, and is different from the refund a taxpayer gets when they overpay their income taxes.

During years when the state collects money over the TABOR limit, Proposition 121 will reduce the amount of money returned to taxpayers and will not change the amount of money available to pay for state operations. During years when the state collects less than the limit, Proposition 121 will reduce the amount of money available for state operations.

government operations. The state currently expects to return money collected above the TABOR limit through at least budget year 2023-24.

How does Proposition 121 affect taxpayers?

Table 1 shows the estimated decrease in state income tax owed for individual taxpayers with different levels of Colorado taxable income if the state income tax is reduced to 4.40 percent. Because Colorado taxable income is determined by applying additions and deductions to federal taxable income, the income shown in Table 1 may be less than the total amount of income earned by the taxpayer.

In addition to lowering the tax burden, the measure will also reduce the amount of money that is returned to taxpayers in any year that the state collects money above its constitutional revenue limit (TABOR). When this occurs, the taxpayers who would receive less money may be different than those that benefit from a reduced tax burden under Proposition 121.

Arguments For Proposition 121

1) The state government currently collects more taxes than it uses for the programs it funds, and, in fact, more tax money than it is legally allowed to spend. By permanently lowering the tax rate, Proposition 121 cuts out the inefficiency of sending money to the government that just gets returned, while providing taxpayers with tax relief during future economic downturns. Families and businesses are better off when they can keep more of their own money.

2) There is no better time to cut the tax rate. The measure is a modest change that, according to the state’s own forecasts, won’t change the amount of money available for state spending for at least the next three years. The state legislature just approved the largest budget in state history and the budget is only expected to grow, even with the tax decrease under Proposition 121.

Arguments Against Proposition 121

1) Most of the measure’s benefits will go to a small population of very wealthy taxpayers, including corporations. About 75 percent of taxpayers will receive a tax cut of less than $63 per year. Comparatively, those with incomes over $1 million, representing less than 1 percent of taxpayers, will receive nearly half of the total tax savings from the measure. On average, these taxpayers are expected to save almost $7,000 per year. In addition, corporations outside of Colorado will keep more money, which they may choose to invest elsewhere or pay as profits to out-of-state shareholders.
2) High inflation, the ongoing pandemic, and chaotic international relations have elevated the risk of an economic recession. If a recession occurs, the measure will likely reduce the amount of money available for the state budget, making it harder for the state to respond to economic challenges and provide critical services to those most impacted. Now is not the time to weaken the state’s safety net.

**Fiscal Impact for Proposition 121**

**State revenue.** Proposition 121 reduces state General Fund revenue by an estimated $638 million in state budget year 2022-23 and $413 million in state budget year 2023-24. The estimate for budget year 2022-23 represents a full-year impact for tax year 2022 and a half-year impact for tax year 2023, because the measure takes effect after completion of budget year 2021-22.

**State spending.** Implementation of the measure is expected to cost the state about $11,000. Based on state economic forecasts, the measure would not affect the amount of General Fund available for the state to spend or save in budget year 2022-23 or budget year 2023-24. In future years when state revenue is below the constitutional limit (TABOR), the measure reduces the amount of General Fund available to be spent or saved. The three largest General Fund operating appropriations in state budget year 2021-22 were health and human services programs; kindergarten through 12th grade education; and corrections and judicial operations.

**TABOR refunds.** The Taxpayer’s Bill of Rights Amendment, or TABOR, limits the amount of revenue that the state may spend and save each year. The revenue limit increases each year to account for inflation and population growth. Revenue the state collects over the limit must be returned to taxpayers. Proposition 121 lowers the state income tax rate, which will reduce the amount to be returned.

**Taxpayer impacts.** All taxpayers will pay 3.3 percent less in state income tax, though the impact in dollar terms will vary by income. On average, individual income taxpayers will pay $93 less in individual income taxes for tax year 2022. In years where a refund is required by the Taxpayer’s Bill of Rights including budget year 2022-23, lower income households may experience a net decrease, since the amount returned to them as a result of TABOR may fall by more than the amount they owe in income taxes.
Access to Natural Psychedelic Substances

Placed on the ballot by citizen initiative • Passes with a majority vote

Proposition 122 proposes amending Colorado statutes to:

- by late 2024, allow the supervised use of psychedelic mushrooms by individuals aged 21 and over at licensed facilities and require the state to create a regulatory structure for the operation of these licensed facilities;

- allow the state to expand the types of substances that may be used in licensed facilities to include the use of additional plant-based psychedelic substances — dimethyltryptamine (DMT), ibogaine, or mescaline — starting in 2026;

- decriminalize the personal possession, growing, sharing, and use, but not the sale, of five natural psychedelic substances by individuals aged 21 and over, including two substances found in psychedelic mushrooms — psilocybin and psilocin — and three plant-based psychedelic substances — dimethyltryptamine, ibogaine, and mescaline;

- allow local governments to regulate the time, place, and manner of operation of these facilities, while prohibiting local governments from banning licensed facilities, services, and use of natural psychedelic substances; and

- establish penalties for individuals under the age of 21 for possessing, using, or transporting natural psychedelic substances and for individuals aged 21 and over who allow underage access to these substances.

What Your Vote Means

**YES** A “yes” vote on Proposition 122 requires the state to establish a regulated system for accessing psychedelic mushrooms and, if approved by the regulating state agency, additional plant-based psychedelic substances and decriminalizes the possession and use of psychedelic mushrooms and certain plant-based psychedelic substances in Colorado law for individuals aged 21 and over.

**NO** A “no” vote on Proposition 122 means that the possession and use of psychedelic mushrooms and other plant-based psychedelic substances will remain illegal under state law.

Summary and Analysis for Proposition 122

What does the measure do?

This measure allows individuals aged 21 and older to use five specific types of natural psychedelic substances. Specifically, the measure covers two chemicals found in psychedelic mushrooms — psilocybin and psilocin — and three other plant-based psychedelic substances — ibogaine, mescaline, and dimethyltryptamine, also known as DMT. Psychedelic substances can alter a person’s consciousness, mood, and awareness of their surroundings.

**Personal use.** Upon passage of the measure, psychedelic mushrooms and the other plant-based psychedelic substances will be decriminalized in state law, and individuals aged 21 and older will be able to grow, possess, share, and use them. Personal use does not allow for the sale of psychedelic mushrooms and other plant-based psychedelic substances.

**Licensed facilities.** The measure also requires the state to establish a regulated system for licensed facilities to offer supervised use of psychedelic mushrooms for individuals aged 21 and older, starting in 2024. Starting in 2026, the state may choose to expand the type of substances that may be used at these facilities to include additional plant-based psychedelic substances.
How are these substances currently treated under state and federal law?

All the substances listed in the measure are Schedule I controlled substances under federal and state law. Schedule I controlled substances are defined as drugs with no currently accepted medical use and a high potential for abuse. If the measure is approved, the state will no longer treat these substances as illegal drugs for the purposes of state criminal law. However, they will remain illegal under federal law.

The measure does not decriminalize the possession or use of peyote, a type of mescaline. Federal law already permits the use of peyote by certain Native American tribes for ceremonial purposes.

Do these substances have medical uses?

Currently, research is being done on the potential medical uses of psychedelic mushrooms and other plant-based psychedelic substances for treating depression, post-traumatic stress disorder, substance use disorders, and other mental health disorders. The U.S. Food and Drug Administration (FDA) has designated psychedelic mushrooms as a Breakthrough Therapy for treating depression. Breakthrough Therapy designation is used to speed up the research, development, and review of a drug when it may offer substantial improvements over existing treatments. The other plant-based psychedelic substances permitted for personal use under the measure have been the subject of research on their potential benefits; however, the FDA has not approved them for any specific medical use.

How will these substances be regulated?

The Department of Regulatory Agencies (DORA) is the state agency charged with regulating activities involving psychedelic mushrooms and other plant-based psychedelic substances for individuals aged 21 and older. Specifically, it will manage the licensing and registration for facilities where supervised use will occur, as well as people who are licensed to facilitate the use of them at licensed facilities. DORA will also regulate related businesses, such as cultivators and product manufacturers. Additionally, DORA is tasked with protecting consumers, developing public education campaigns, making recommendations to the state legislature regarding the potential for off-site use of natural psychedelic substances received at regulated facilities, and providing data on the implementation and outcomes of the program. Licensed facilities and related businesses will be required to pay a licensing fee to cover the cost of regulating these businesses.

Under the measure, local governments can regulate the time, place, and manner of operation of licensed facilities. Local governments cannot ban or prohibit licensed facilities, or ban or prohibit the personal use of psychedelic mushrooms or other plant-based psychedelic substances in their communities.

The measure also establishes a 15-member advisory board appointed by the Governor. The board is charged with making regulatory and policy recommendations to DORA, other affected state agencies, and the state legislature.

What restrictions does the measure place on the use of substances?

The measure states that it is not intended to:

- allow the sale of psychedelic mushrooms or other plant-based psychedelic substances for personal use;
- allow driving under the influence of these substances;
- permit use in a school, public building, or public place;
- permit underage access; or
- require an employer to permit the use of these substances in the workplace.

What are the criminal penalties and legal protections under the measure?

The measure impacts criminal penalties in several ways. First, it establishes specific penalties for individuals under the age of 21 who possess or use natural psychedelic substances, as well as penalties for people who allow underage access when cultivating these substances. Penalties range from requiring drug counseling to a $250 fine.
In addition, the measure states that the removal and reduction of criminal penalties apply retroactively to someone who has already been convicted of an offense that would be decriminalized under the measure. Individuals who have completed their sentence may file a petition to the courts to have their criminal record sealed at no cost. Selling natural psychedelic substances outside of the licensed supervised use facilities will remain illegal.

The measure also offers protections for people who use psychedelic mushrooms and other plant-based psychedelic substances, including, but not limited to, protections from professional discipline, loss of a professional license, or denial of eligibility for public benefits unless required by federal law.

Arguments For Proposition 122

1) The measure provides a potentially valuable tool for meeting the mental health needs of Coloradans. Studies have shown that psychedelic mushrooms and other plant-based psychedelic substances, combined with counseling, may provide effective treatment for severe depression, anxiety, and post-traumatic stress disorder. The FDA has specifically found psychedelic mushrooms may offer substantial improvement in treating depression more successfully than existing therapies. Increasing access to psychedelic mushrooms and other plant-based psychedelic substances may help people who are struggling to find effective mental health treatment.

2) Putting people in the criminal justice system for using naturally occurring substances that have potential mental health benefits does not benefit society and costs taxpayers money. Possession and use of these substances are nonviolent offenses that do not pose a public safety risk. Studies have shown that psychedelic mushrooms are not addictive and that long-term adverse health impacts are rare, unlike tobacco use, which is legal. Individuals who are aged 21 or older should be allowed to access these naturally occurring substances without fear of criminal penalties.

Arguments Against Proposition 122

1) There are currently no approved therapies that use psychedelic mushrooms or other plant-based psychedelic substances, and the effects of them can vary widely from person to person, depending on the dose, frequency of use, and type of substance. Breakthrough Therapy designation does not mean that the use of psychedelic mushrooms is safe or recommended. Further, DMT, ibogaine, and mescaline have not received a similar designation, and, specifically, ibogaine may cause life-threatening heart conditions. Proposing a regulatory framework for the use of these substances suggests that they offer legitimate treatment before they have received federal approval, potentially putting people's health and public safety at risk.

2) Under the guise of health care, Proposition 122 legalizes drugs that have been illegal for over 50 years and forces local communities to allow use of these substances. It also provides broad protections for criminals by allowing convictions to be wiped from their records. By decriminalizing personal use, the black market for these drugs may expand and provide access to youth or expose people to psychedelic substances that are tainted with other drugs. This may create additional burdens on local governments which, under the measure, have limited say on what is allowed in their communities.

Fiscal Impact for Proposition 122

Proposition 122 will increase state revenue and spending, and potentially impacts local government spending, as described below. The state’s budget year runs from July 1 through June 30.

State revenue. Under Proposition 122, state revenue will increase by about $5.2 million per year in budget year 2024-25, $5.6 million in 2025-26, and $4.5 million per year in future years. This revenue is from facility and facilitator licensing fees; it is expected that fees will be set at a level needed to cover the costs of the program when fully implemented. In the first two years, additional fee revenue will be necessary to pay back the anticipated loan of state funds used to pay for initial start-up costs. The increase in revenue will depend on fee amounts and the number of license applications submitted. Revenue from licensing fees is subject to the state’s TABOR limit.
State spending. Proposition 122 will increase costs in the Department of Regulatory Agencies (DORA) by an estimated $0.7 million in budget year 2022-23 and $2.2 million in budget year 2023-24 to establish program rules, support the advisory board, and issue initial licenses prior to the start of the new regulatory program created by the measure. The measure requires a loan from the state General Fund be used to cover these start-up costs for the program, which will be paid back in subsequent years.

Once regulation begins, DORA will have costs of approximately $5.2 million in budget year 2024-25 and $5.6 million in budget year 2025-26 to regulate the manufacture, cultivation, testing, storage, transfer, transport, delivery, sale, use, and purchase of psychedelic mushrooms by licensed facilities. Actual expenditures will depend on the number of regulated entities participating in this industry. Estimated spending in budget years 2024-25 and 2025-26 also includes the repayment of state money used to cover costs in the first two years.

To the extent that Proposition 122 reduces the number of people convicted of crimes related to controlled substances that become regulated under the measure, costs in the criminal justice system will be reduced.

Local government impact. Local government workload and spending will increase to the extent local governments issue additional regulations on the operation of licensed facilities in their jurisdiction. County jail costs may be reduced to the extent fewer people are held in jails for offenses relating to controlled substances that become decriminalized and regulated under the measure.
Proposition 123 proposes amending the *Colorado statutes* to:

- set aside a portion of annual state income tax revenue for affordable housing programs;
- exempt that money from the state’s revenue limit, thereby reducing the amount of money collected above the limit that is returned to taxpayers; and
- establish eligible uses for this money.

What Your Vote Means

**YES**  A “yes” vote on Proposition 123 sets aside money for new affordable housing programs and exempts this money from the state’s revenue limit.

**NO**  A “no” vote on Proposition 123 means that state revenue will continue to be spent on priorities as determined by the state legislature or returned to taxpayers, as under current law.

Summary and Analysis for Proposition 123

What does the measure do?

The measure sets aside a portion of annual income tax revenue from the state General Fund, up to 0.1 percent of taxable income each year, for affordable housing programs administered by the state Office of Economic Development and International Trade (OEDIT) and the Colorado Department of Local Affairs (DOLA). This amount, which the measure exempts from the state’s constitutional revenue limit, is estimated to be $145 million in state budget year 2022-23 and $290 million in state budget year 2023-24 and beyond. The measure specifies the uses for the dedicated funds, including:

- grants and loans to local governments and nonprofit organizations to acquire and preserve land for affordable housing development;
- assistance to develop affordable, multi-family rental housing;
- equity investments in affordable housing projects, including a program to share home equity with tenants;
- home ownership programs and down payment assistance for first-time homebuyers;
- a program addressing homelessness through rental assistance and eviction defense; and
- grants to increase the capacity of local government planning departments.

The measure requires that this funding add to, and not replace, existing state funds spent on affordable housing.

What is affordable housing?

The measure defines affordable housing based on two factors: household income and housing costs. For certain programs, a household’s income is compared to the area median income, or the midpoint of what households in a specific area earn. As defined in the measure, affordable housing means housing for renters making up to 60 percent of the area median income, or homeowners making up to 100 percent of the area median income. Some of the new programs may benefit households at higher income levels. Table 1 shows examples of area median income for several areas in Colorado.
For a housing unit or project to qualify as affordable housing, housing costs must not exceed 30 percent of the household’s income. Housing costs typically consist of rent or mortgage payments, but may include other costs such as utilities.

What is the state currently doing to support affordable housing?

The state partners with local communities to increase and preserve Colorado’s affordable housing stock, manage rental assistance vouchers, and address homelessness. The DOLA serves households with varied income levels and circumstances with grants and loans to provide developers, community organizations, public housing authorities, and local governments with money to acquire, modernize, and build housing and to assist buyers with down payments for homes. The current budget for the department's affordable housing initiatives is about $200 million, about half of which is from state sources, with the rest coming from federal sources.

Since 2021, the state has allocated over $1.2 billion from the federal American Rescue Plan Act (ARPA) of 2021 for affordable housing and services that address housing insecurity, lack of affordable and workforce housing, or homelessness. These are one-time funds that will be spent over the next several years specifically on:

- emergency rental assistance;
- homeowner mortgage assistance;
- tax credits for developers;
- housing and infrastructure; and
- other housing solutions, such as manufactured homes.

How do the programs created by Proposition 123 work?

The measure creates the following programs with a focus on higher density, environmentally sustainable projects serving households with a range of income levels. For projects to qualify for funding, the local governments where the projects are located must commit to increasing affordable housing by 3 percent each year and create a fast-track approval process for affordable housing projects. If a local government chooses not to meet these requirements, or if it fails to achieve its affordable housing goals, projects in that municipality or county will be temporarily ineligible for funding from these programs.

Table 2 describes each proposed program, including the state agency that oversees it and the amount of money the program will receive based on the estimated $290 million set aside in state budget year 2023-24. Note that programs

How does the measure affect TABOR refunds?

The income tax revenue that is set aside under the measure is considered a voter-approved revenue change and is therefore not subject to the state’s constitutional revenue limit, also called the Taxpayer’s Bill of Rights (TABOR) limit. TABOR limits state government revenue to an amount adjusted annually for inflation and population growth. Revenue collected under the limit may be spent or saved. Revenue collected over the limit must be returned to taxpayers unless voters approve a measure allowing the government to keep it.

In years where state revenue exceeds the TABOR limit, the measure reduces the money returned to taxpayers by the amount of income tax revenue that the measure allows the state to keep. In years where state revenue is below the TABOR limit, the measure does not impact TABOR refunds, but may reduce the amount of money available for the rest of the state budget. In this case, the measure allows the state legislature to reduce part of the new funding to the affordable housing programs to balance the state budget. The state currently expects to return money collected above the limit through at least the 2023-24 budget year.

For information on those issue committees that support or oppose the measures on the ballot at the November 8, 2022 election, go to the Colorado Secretary of State’s elections center web site hyperlink for ballot and initiative information:
https://www.sos.state.co.us/pubs/elections/Initiatives/InitiativesHome.html

Arguments For Proposition 123

1) The measure creates a source of funds to tackle housing issues without raising tax rates, and gives local communities the flexibility to respond to their specific needs. The state and local governments are not doing enough to keep Colorado affordable.

2) Colorado’s housing prices make it too hard for many households to afford rent or to buy their own home. The new programs help Coloradans participate in the housing market now and in the future. Creating more homes will allow residents and essential workers to remain in their communities.

Arguments Against Proposition 123

1) Many of these programs do not address the underlying causes of high housing costs. Pumping money into the market may distort it further, and the real beneficiaries will be landlords and housing developers. This is neither the role of government nor the best use of public resources.

2) The measure is unnecessary and will reduce Coloradans’ future TABOR refunds. The state already provides resources to support affordable housing, including over $1 billion in federal stimulus funds allocated in recent years. This measure diverts money away from the state’s budgeting process—money that goes toward priorities as determined by the legislature through deliberation and consultation with stakeholders and constituents—and instead sets aside money in a fund with fixed uses.

Fiscal Impact for Proposition 123

Proposition 123 increases state government spending by transferring money from the state General Fund to pay for affordable housing programs. While the measure does not change state revenue, it reduces the amount returned to taxpayers in years when state revenue is over the TABOR revenue limit. These impacts are discussed below. The state budget year runs from July 1 through June 30.

Transfers of state funds. Proposition 123 transfers an estimated $145 million in the 2022-23 budget year and $290 million in the 2023-24 budget year and later years. These amounts are divided between programs in the Office of Economic Development and International Trade, which receives 60 percent, and the Department of Local Affairs, which receives 40 percent.
State spending. The money transferred under Proposition 123 is required to be spent for affordable housing programs and for administration of those programs. Programs are funded the year after the transfer occurs. For example, the money transferred in the 2022-23 budget year pays for programs in the 2023-24 budget year, and so on.

- **Office of Economic Development and International Trade.** Sixty percent of total transfers are paid to the Affordable Housing Financing Fund, estimated at $87 million in the 2022-23 budget year and $174 million in the 2023-24 budget year. Money in the fund is spent for the land banking program, the affordable housing equity program, and the concessionary debt program. A third party administrator is allowed to keep 2 percent of funds for its administrative costs.

- **Department of Local Affairs.** Forty percent of total transfers are paid to the Affordable Housing Support Fund, estimated at $58 million in the 2022-23 budget year and $116 million in the 2023-24 budget year. Money in the fund is spent for the affordable homeownership program, the homelessness program, and the local capacity development program. The department is allowed to keep 5 percent of funds for its administrative costs.

Taxpayer impacts. Proposition 123 will decrease the amount to be returned to taxpayers for years when state revenue is over the TABOR revenue limit. Any money left over at the end of the fiscal year remains in the fund rather than be returned to taxpayers. Based on forecasts from June 2022, Proposition 123 is expected to decrease the amount returned by $145 million in tax year 2023 and $290 million in tax year 2024. The impacts on taxpayers depend on how this money would be returned. Based on the number of income tax returns for tax year 2018, Proposition 123 is estimated to decrease the amount returned by $43 per taxpayer in tax year 2023 and $86 per taxpayer in tax year 2024.
Proposition 124 proposes amending the Colorado statutes to:

- allow retail liquor stores to apply to state and local governments to open additional locations on a phased-in schedule, with no limit on the number of permissible locations after 2037.

What Your Vote Means

**YES** A “yes” vote on Proposition 124 allows retail liquor stores to apply for and, if approved, increase the number of locations over time, with no limit on the number of locations after 2037.

**NO** A “no” vote on Proposition 124 retains current law that limits retail liquor stores to a total of three locations in the state through 2026, and a total of four locations thereafter.

Summary and Analysis for Proposition 124

Currently, retail liquor stores are limited to three locations per licensee, with four locations allowed beginning in 2027. Under this measure, retail liquor stores would be allowed to apply for the same number of locations as liquor-licensed drugstores (grocery stores with a pharmacy that sell beer, wine, and spirits), as shown in Table 1.

Any new locations are required to be at least 1,500 feet away from other retail liquor stores. Additionally, in order to open a new retail liquor store location, licensees must follow the current state and local government licensing protocols related to background checks, documentation, and a public hearing on the needs and desires of the neighborhood. Additional information about retail liquor stores can be found in the summary and analysis for Proposition 125.

This measure does not impact grocery and convenience stores that currently sell only beer, which are allowed to have an unlimited number of locations.

https://www.sos.state.co.us/pubs/elections/Initiatives/InitiativesHome.html
Argument For Proposition 124

1) This measure brings parity to retail liquor stores that have been disadvantaged by the limited number of allowed locations. Currently, grocery store chains that are licensed to sell beer, wine, and spirits are permitted many more locations than retail liquor stores, with unlimited locations beginning in 2037. Meanwhile, retail liquor stores are limited to a total of four locations beginning in 2027. Proposition 124 addresses a long-term competitive disadvantage for retail liquor stores relative to large grocery store chains.

Argument Against Proposition 124

1) Proposition 124 creates a disadvantage for small, locally owned liquor stores that may not have the capacity or desire to expand, and instead benefits large retail liquor store chains that have more resources. Current law is designed to ensure that neighborhood liquor stores can continue to compete with other retail liquor stores. Many of these small businesses are owned by minorities and women, who may lose customers as a result of increased competition from large retail liquor store chains.

Fiscal Impact for Proposition 124

State revenue. The measure may increase state revenue from new retail liquor store licenses and ongoing renewals; however, the net impact of the change is assumed to be less than $10,000 per year. Revenue is from state and local liquor licensing fees and is split between state cash funds and the General Fund.

State spending. The measure minimally increases workload for the Liquor Enforcement Division in the Department of Revenue to perform rulemaking, process applications for new retail liquor stores, and conduct enforcement.

Local government. The measure will minimally increase workload for local licensing authorities to process applications for new retail liquor stores and revenue from local application and licensing fees.
Proposition 125 proposes amending the Colorado statutes to:

- allow grocery stores and convenience stores that sell beer to also sell wine, by automatically converting beer retail licenses to beer and wine retail licenses, beginning March 2023.

What Your Vote Means

**YES** A “yes” vote on Proposition 125 allows licensed grocery and convenience stores that currently sell beer to also sell wine.

**NO** A “no” vote on Proposition 125 means that licensed grocery and convenience stores may continue selling beer, but not wine.

Summary and Analysis for Proposition 125

What does the measure do?

Under the measure, all fermented malt beverage retailer licenses will be automatically converted to allow licensees to also sell wine and other vinous liquors (such as wine coolers, sake, cider, and mead), and to conduct alcohol tastings, beginning March 1, 2023. These licensees include grocery and convenience stores that currently sell fermented malt beverages (such as beer, hard seltzer, and hard lemonade) for off-premises consumption. This measure does not impact the types of alcohol that may be sold by restaurants, bars, and other establishments.

What are the current types of retail alcohol stores and what are the key differences in laws governing them?

In 2016, the legislature made significant changes to the laws governing retail alcohol sales for the first time since the end of Prohibition. As a result, retail liquor stores and liquor-licensed drugstores (grocery stores with a pharmacy that sell beer, wine, and spirits), which had been limited to one location per licensee, were allowed additional locations on a phased-in schedule, shown in Table 1. Additionally, grocery and convenience stores licensed to sell 3.2 beer (fermented malt beverage retailers) were permitted to automatically begin selling full-strength beer.

Operational requirements. All of the stores discussed above:

- may not sell alcohol to individuals under the age of 21 or to those who appear intoxicated;
- may not sell alcohol between midnight and 8:00 a.m.;
• may not sell alcohol below cost, must purchase alcohol from licensed wholesalers, and may not have a vested interest in any manufacturer or wholesaler license;
• must require employees handling alcohol to be at least 18 years of age;
• may deliver alcohol using their own employees who are at least 21 years of age and using a store-owned vehicle;
• have to be located at least 500 feet away from any school; and
• must be licensed by both the state and local government.

Only liquor stores and liquor-licensed drugstores may conduct alcohol tastings, once approved by the local government. Fermented malt beverage retailers and liquor-licensed drugstores must receive approval from the state and local government before significantly expanding or modifying where alcohol is sold in the store.

**Argument For Proposition 125**

1) Consumers want the convenience of buying wine with groceries. This measure builds on the existing system to allow adults to buy wine in grocery and convenience stores, just as they do now with beer and other fermented malt beverages. These stores provide a safe and well-regulated environment to ensure responsible alcohol sales.

**Argument Against Proposition 125**

1) The measure creates a disadvantage for small, locally owned liquor stores, and instead benefits large national grocery and convenience store chains. The automatic license conversion will more than double the number of stores where wine can be sold, without any community input or state or local government review.

**Fiscal Impact for Proposition 125**

**State spending.** Costs and workload in the Department of Revenue will increase to process automatic license conversions for approximately 1,820 fermented malt beverage retailers. Costs include $5,000 in one-time computer programming.

**Local government.** Similar to the state, local liquor licensing authorities will have an increase in workload to process automatic license conversions.
Third-Party Delivery of Alcohol Beverages

Placed on the ballot by citizen initiative • Passes with a majority vote

Proposition 126 proposes amending the Colorado statutes to:

- allow third-party companies to deliver alcohol directly to customers on behalf of grocery stores, convenience stores, liquor stores, bars, restaurants, and other liquor-licensed businesses; and
- permanently allow takeout and delivery of alcohol from bars and restaurants, which is currently scheduled to repeal in 2025.

What Your Vote Means

**YES**  A “yes” vote on Proposition 126 allows third-party companies to deliver alcohol from grocery stores, convenience stores, liquor stores, bars, restaurants, and other liquor-licensed businesses, and makes takeout and delivery of alcohol from bars and restaurants permanently available.

**NO**   A “no” vote on Proposition 126 maintains current law, which requires businesses to use their own employees to deliver alcohol. Bars and restaurants may offer takeout and delivery of alcohol until July 2025.

Summary and Analysis for Proposition 126

**What are current policies related to alcohol delivery?**

Current Colorado law permits grocery stores, convenience stores, liquor stores, bars, restaurants, and other liquor-licensed businesses to deliver alcohol to customers, but they must use their own employees who are 21 years of age or older and follow other restrictions depending on their license type. Alcohol delivery by liquor stores has been allowed since 1994, by wineries since 1997, by grocery and convenience stores since 2019, and by bars and restaurants since 2020. Alcohol takeout and delivery by bars and restaurants is scheduled to repeal in July 2025.

**What does the measure do?**

Under Proposition 126, grocery stores, convenience stores, liquor stores, bars, restaurants, and other liquor-licensed businesses will be allowed to contract with third-party companies, such as grocery and meal delivery services, to deliver alcohol to customers beginning March 1, 2023. The measure also changes current law to permanently allow alcohol takeout and delivery by bars and restaurants.

The measure outlines requirements for third-party alcohol delivery companies, including the requirement that companies obtain a delivery permit, follow various safety provisions, and submit proof of liability insurance. All individuals who deliver alcohol through a third-party delivery company are required to be 21 years of age or older, complete a certification program, verify the recipient's legal age at the time of delivery, and refuse delivery to anyone who fails to provide proof of age or appears intoxicated. The measure also makes third-party delivery companies and workers liable for alcohol delivery violations and removes retail liquor licensees’ liability once alcohol is transferred to the third-party.

Retail alcohol stores and bars and restaurants are currently limited in the amount of revenue they may earn from alcohol delivery. The measure removes those restrictions. Limits on the amount of alcohol that may be offered for delivery or takeout from bars and restaurants remain in law, which are approximately equivalent to 2 bottles of wine, 12 cans of beer, and 1 liter of spirits per order.

Argument For Proposition 126

1) The delivery of groceries and restaurant meals has become a convenience that Coloradans expect and continue to use. Allowing third-party delivery services to deliver alcohol will let many more stores and restaurants utilize delivery without having to devote the resources to meet burdensome requirements in current law. As a result, Coloradans will have more options available when supporting stores and restaurants from the comfort of home.

Argument Against Proposition 126

1) The measure expands alcohol delivery options without the safeguards available in a physical store or restaurant that ensure alcohol is not sold to minors. Currently, retail liquor licensees make deliveries using their own trained employees and are liable for any violation. Under this measure, retailers are not liable once alcohol leaves their premises, and enforcement of third-party alcohol delivery laws is expected to be more difficult as a result.

Fiscal Impact for Proposition 126

State revenue and spending. The measure increases costs in the Department of Revenue by an estimated $120,000 and 1.2 FTE per year, paid for by equivalent revenue from delivery permit fees. The department requires additional administrative and enforcement staff to process applications and conduct delivery compliance checks. Exact licensing fee revenue to the state will depend on the number of applicants and the fee schedule set by the department.

Local government. Any impact to local liquor licensing authorities is expected to be minimal, as the third-party delivery permitting will be administered by the state licensing authority. To the extent that local jurisdictions increase enforcement, workload and costs will increase.

(v) Is eligible to receive assistance through the local school food purchasing technical assistance and education grant program pursuant to section 22-82.9-207, subject to subsection (4)(b) of this section.

(b) The amount of the reimbursement provided through the program to each participating school food authority for each budget year is equal to the federal free reimbursement rate multiplied by the total number of eligible meals that the participating school food authority serves during the applicable budget year minus the total amount of reimbursement for eligible meals served during the applicable budget year.

(c) The department shall develop procedures to allocate and disburse, beginning in the 2023-24 budget year, the money appropriated as reimbursements pursuant to this section among participating school food authorities.

(d) The department shall develop procedures to allocate and disburse, beginning in the 2023-24 budget year, the money appropriated as reimbursements pursuant to this section among participating school food authorities.

(4) (a) As soon as practicable after the effective date of this subsection (3), the department shall apply to the federal secretary of agriculture to participate in the demonstration project operated pursuant to 42 U.S.C. sec. 1758 (b)(15) for direct certification for children receiving medicaid benefits, with the intent that the demonstration project is implemented statewide to the extent allowable under federal law. (5) The state board shall promulgate rules as necessary to implement the program, including rules to maximize the amount of federal funding available to implement the program.

22-82.9-205. Local food purchasing grant - amount - advisory committee - verification of invoices. (1) (a) Subject to subsection (5) of this section, each participating school food authority that creates an advisory committee as described in subsection (3) of this section is eligible to receive a local food purchasing grant pursuant to this section to purchase Colorado grown, raised, or processed products.

(I) the total amount spent in purchasing all products used in preparing meals and how much of that total was attributable to the local food purchasing grant the participating school food authority received;

(II) the total amount spent to purchase Colorado grown, raised, or processed products and how much of that total was attributable to the local food purchasing grant the participating school food authority received;

(III) the total amount spent to purchase value-added processed products and how much of that total was attributable to the local food purchasing grant the participating school food authority received; and

(IV) the total number of eligible meals the participating school food authority provided to students.

(2) (a) Subject to the provisions of subsection (2)(b) of this section, at the beginning of each budget year the department, subject to available appropriations, shall distribute to each participating school food authority that is eligible to receive a grant pursuant to this section the greater of five thousand dollars or an amount equal to twenty-five cents multiplied by the number of lunches that qualified as an eligible meal that the participating school food authority served to students in the preceding school year. The participating school food authority shall use the money received pursuant to this section to purchase only Colorado grown, raised, or processed products and as provided in subsection (3)(b) of this section and shall not use more than twenty-five percent of the amount received to purchase value-added processed products. In addition, a school food authority may use up to ten percent of the money received pursuant to this section to pay allowable costs, as identified by rules of the state board, incurred in complying with this section.

(b) At the beginning of each budget year, each participating school food authority shall submit to the department an estimate of the amount it expects to spend to purchase Colorado grown, raised, or processed products for the budget year; a description of the items and amounts it expects to purchase; and a list of the suppliers from which it expects to purchase the items. If, based on the information provided, the department determines that a participating school food authority is unlikely to spend the full amount of the grant described in subsection (2)(a) of this section, the department shall reduce the amount of the grant accordingly. The department shall distribute to other participating school food authorities that are eligible to receive grants pursuant to this section any amount that is retained pursuant to this subsection (2)(b).

(3) (a) To receive a local food purchasing grant pursuant to this section, a participating school food authority must establish an advisory committee made up of students and parents of students enrolled in the public schools served by the participating school food authority. The advisory committee shall advise the participating school food authority concerning the selection of foods to ensure that meals are culturally relevant, healthy, and appealing to all ages of the student population.

(b) A participating school food authority may use up to twelve percent of the amount received pursuant to subsection (2) of this section to support implementation of the advisory committee required in subsection (3)(a) of this section.

(4) The department shall annually require a selected group of participating school food authorities that received a grant pursuant to this section in the preceding budget year to submit to the department a representative sample of the invoices for the products purchased using the grant money. No later than September 1 of the second budget year in which this section is effective as provided in subsection (5) of this section, and no later than September 1 of each year thereafter, the department shall review the invoices to verify that the products purchased met the requirements specified in this section. If the department finds that a participating school food authority used a significant portion of the grant money, as determined by rule of the state board, to purchase products that did not meet the requirements of this section, the participating school food authority is ineligible to receive a grant pursuant to this section for the next budget year.
22-82.9-206. School meals food preparation and service employees - wage increase or stipend. (1) Subject to subsection (2) of this section, in addition to the amounts received pursuant to sections 22-82.9-204 and 22-82.9-205, a participating school food authority may receive the greater of three thousand dollars or an amount equal to twelve cents multiplied by the number of school lunches that qualify as eligible meals that the participating school food authority provided in the previous budget year, so long as the participating school food authority uses one hundred percent of the amount received pursuant to this section to increase wages or provide stipends for individuals who are employed by the participating school food authority to directly prepare and serve food for school meals. To receive the amount described in this section, a participating school food authority must submit documentation to the department as required by rules of the state board to demonstrate that the increase in wages or provision of stipends using the amount received pursuant to this section is implemented for the budget year in which the amount is received.

(2) This section is effective beginning in the first full budget year after the state of Colorado is certified to participate in the federal demonstration project for direct certification for children receiving Medicaid benefits as provided in section 22-82.9-204 (4) and begins including Medicaid direct certification in determining school districts' identified student percentages.

12-170-102. Legislative declaration. (1) The voters of the state of Colorado find and declare that:

(a) Colorado’s current approach to mental health has failed to fulfill its promise. Coloradans deserve more tools to address mental health issues, including approaches such as natural medicines that are grounded in treatment, recovery, health, and
WELLNESS RATHER THAN CRIMINALIZATION, STIGMA, SUFFERING, AND PUNISHMENT.

(b) COLORADANS ARE EXPERIENCING PROBLEMATIC MENTAL HEALTH ISSUES, INCLUDING BUT NOT LIMITED TO SUICIDALITY, ADDICTION, DEPRESSION, AND ANXIETY.

(c) AN EXTENSIVE AND GROWING BODY OF RESEARCH IS ADVANCING TO SUPPORT THE EFFICACY OF NATURAL MEDICINES COMBINED WITH PSYCHOTHERAPY AS TREATMENT FOR DEPRESSION, ANXIETY, SUBSTANCE USE DISORDERS, END-OF-LIFE DISTRESS, AND OTHER CONDITIONS.

(h) OREGON VOTERS ENACTED MEASURE 109 IN OREGON IN NOVEMBER 2020 TO ESTABLISH A REGULATED SYSTEM OF DELIVERING A NATURAL MEDICINE, IN PART TO PROVIDE PEOPLE ACCESS TO PSilocybin FOR THERAPEUTIC PURPOSES.

(i) CRIMINALIZING NATURAL MEDICINES HAS DENIED PEOPLE FROM ACCESSING ACCURATE EDUCATION AND HARM REDUCTION INFORMATION RELATED TO THE USE OF NATURAL MEDICINES, AND LIMITED THE DEVELOPMENT OF APPROPRIATE TRAINING FOR FIRST-AND MULTI-RESPONDERS INCLUDING LAW ENFORCEMENT, EMERGENCY MEDICAL SERVICES, SOCIAL SERVICES, AND FIRE SERVICES.

(j) THE PURPOSE OF THIS NATURAL MEDICINE HEALTH ACT OF 2022 IS TO ESTABLISH A NEW, COMPASSIONATE, AND EFFECTIVE APPROACH TO NATURAL MEDICINES BY:

(I) ADOPTING A PUBLIC HEALTH AND HARM REDUCTION APPROACH TO NATURAL MEDICINES BY REMOVING CRIMINAL PENALTIES FOR PERSONAL USE FOR ADULTS TWENTY-ONE YEARS OF AGE AND OLDER;

(II) DEVELOPING AND PROMOTING PUBLIC EDUCATION RELATED TO THE USE OF NATURAL MEDICINES AND APPROPRIATE TRAINING FOR FIRST RESPONDERS; AND

(III) ESTABLISHING REGULATED ACCESS BY ADULTS TWENTY-ONE YEARS OF AGE AND OLDER TO NATURAL MEDICINES THAT SHOW PROMISE IN IMPROVING WELL-BEING, LIFE SATISFACTION, AND OVERALL HEALTH.

(k) THE PROVISIONS OF THIS ARTICLE 170 SHALL BE INTERPRETED CONSISTENTLY WITH THE FINDINGS AND PURPOSES STATED IN THIS SECTION AND SHALL NOT BE LIMITED BY ANY COLORADO LAW THAT COULD CONFLICT WITH OR BE INTERPRETED TO CONFLICT WITH THE PURPOSES AND POLICY OBJECTIVES STATED IN THIS SECTION.

(l) THE PEOPLE OF THE STATE OF COLORADO FURTHER FIND AND DECLARE THAT IT IS NECESSARY TO ENSURE CONSISTENCY AND FAIRNESS IN THE APPLICATION OF THIS ARTICLE 170 THROUGHOUT THE STATE AND THAT, THEREFORE, THE MATTERS ADDRESSED BY THIS ARTICLE 170 ARE, EXCEPT AS SPECIFIED HEREIN, MATTERS OF STATEWIDE CONCERN.
