March 10, 2022

Capital Development Committee
State Capitol Building
Denver, Colorado 80203

Members of the Capital Development Committee,

On February 18, 2022, the Capital Building Advisory Committee (CBAC) approved a proposal for remodeling work on the 3rd floor of the Legislative Services Building to better meet the needs of the Joint Budget Committee and the JBC staff.

The proposed remodeling project would include changes to the private offices as well as public lobby space. The proposed changes to the lobby space are subject to review and approval by the CBAC and the Capital Development Committee. The JBC staff has provided materials for your review that detail the proposed changes in both the private and public spaces (Attachment A).

The Executive Committee has authorized funding for the architectural and engineering work required to prepare plans and cost estimates for the remodeling work. The remodeling proposal is being forwarded to the Capital Development Committee for approval pursuant to Section 24-82-108 (3)(a), C.R.S. The Capitol Building Advisory Committee approves the proposed renovations and recommends that the CDC do so as well.

Thank you for your support of CBAC's work.

Sincerely,

Representative Susan Lontine, Chair
Capitol Building Advisory Committee

Lois Court, Vice-chair
Capitol Building Advisory Committee
