Strategic Pillars Recap and Additional Feedback

1. Share the largest priorities that arose during the small group discussions and identify any commonalities through discussion
2. If time allows, begin to indicate your priorities on your worksheet by marking what should be a top consideration with a “+” and what you don’t think should be deemphasized with a “-”. Use up to 6 of each symbol to distribute as you wish per pillar. (Yes, you can mark more than 1 on an item.) This will be confirmed tomorrow.
3. Please keep your sheets for use tomorrow. We will collect them at the end of the day.
