administered by the primary care office in the department of public health and environment as follows:

- For purposes of determining areas in the state in which there is a shortage of health care professionals and behavioral health care providers to meet the needs of the community, allows the primary care office, under guidance adopted by the state board of health, to develop and administer state health professional shortage areas using state-specific methodologies;
- Allows behavioral health care providers, which include licensed and certified addiction counselors, licensed professional counselors, licensed clinical social workers, licensed marriage and family therapists, clinical psychologists, advanced practice nurses, and physicians certified or trained in addiction medicine, pain management, or psychiatry, and candidates for licensure as an addiction counselor, professional counselor, clinical social worker, marriage and family therapist, or psychologist, to participate in the loan repayment program on the condition of committing to provide behavioral health care services in health professional shortage areas for a specified period;
- Directs the advisory council to prioritize loan repayment and scholarships for those behavioral health care providers, candidates for licensure, or addiction counselors who provide behavioral health care services in nonprofit or public employer settings but permits consideration of applicants practicing in a private setting that serves underserved populations;
- Establishes a scholarship program to help defray the education and training costs associated with obtaining certification as an addiction counselor or with progressing to a higher level of certification;
- Adds 2 members to the advisory council that reviews program applications, which members include a representative of an organization representing substance use disorder treatment providers and a licensed or certified addiction counselor who has experience in rural health, safety net clinics, or health equity;
- Modifies program reporting requirements and requires annual reporting that coincides with required SMART Act reporting by the department; and
- Requires the general assembly to annually appropriate \$2.5 million from the marijuana tax cash fund to the primary care office to provide loan repayment for behavioral health

care providers and candidates for licensure participating in the Colorado health service corps and to award scholarships to addiction counselors participating in the scholarship program.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and determines that:

4 (a) Colorado faces a health care workforce shortage in many
5 health care areas, including a shortage in behavioral health care providers
6 who work with patients with mental health and substance use disorders;

7 (b) With an opioid epidemic and increasing overdose rates
8 affecting all corners of the state, the need for health professionals who
9 can treat patients with substance use disorders is particularly acute;

10 (c) Additionally, providers who seek to hire mental health and
11 substance use disorder professionals report difficulty in filling positions,
12 leading to reduced services despite having the physical space for beds or
13 outpatient treatment rooms;

14 (d) The state currently operates a loan repayment program, known
15 as the Colorado health service corps, that targets the need for primary care
16 services in health professional shortage areas throughout the state by
17 providing loan repayment to a health care professional who commits to
18 practicing and providing primary care in a shortage area for a minimum
19 period;

20 (e) The Colorado health service corps program, in its current
21 form, is limited to specific providers providing primary or psychiatric
22 care in areas of the state designated as health professional shortage areas
23 under federal guidelines;

1 (f) Further, the existing loan repayment program is available only
2 to providers who have already obtained a license, which can require at
3 least one to two years of supervised practice, depending on the license
4 type, after completion of a master's or doctorate degree, yet the need for
5 assistance with repaying student loans is often greatest during this
6 supervised practice period since salary earnings are lower;

7 (g) While the current program requirements are well suited for
8 providing greater access to primary and psychiatric care, they do not
9 address the increasing demand for behavioral health care services to treat
10 other mental health or substance use disorders and the financial burdens
11 faced by candidates for licensure who are progressing to licensure but are
12 not eligible for loan repayment and are often working at an entry-level
13 salary;

14 (h) Moreover, the federal guidelines for determining a health
15 professional shortage area do not adequately measure the shortage of
16 other mental health or substance use disorder professionals in areas of the
17 state experiencing an increased need for behavioral health care services;

18 (i) In order to expand access to behavioral health care providers
19 and behavioral health care services in areas of the state where the need for
20 behavioral health care is great and the access to care is limited, it is
21 important to:

22 (I) Allow behavioral health care providers and candidates for
23 licensure as a behavioral health care provider to participate in the loan
24 repayment program through the Colorado health service corps to provide
25 incentives to those providers and candidates to deliver behavioral health
26 care services in health professional shortage areas in the state and to ease
27 the financial burdens they face when practicing in health professional

1 shortage areas;

2 (II) Establish a scholarship program to provide financial
3 assistance to addiction counselors seeking initial or a higher level of
4 certification to defray education and training costs in exchange for a
5 commitment to provide behavioral health care services in health
6 professional shortage areas;

7 (III) Allow the primary care office, under guidelines adopted by
8 the state board of health, to designate health professional shortage areas
9 in the state using state-specific guidelines rather than federal guidelines;

10 (IV) Add representatives of substance use disorder service
11 providers to the advisory council that reviews and makes
12 recommendations on loan repayment applications; and

13 (V) Dedicate an amount of money from the marijuana tax cash
14 fund to provide loan repayment to behavioral health care providers and
15 candidates for licensure and scholarships to addiction counselors in order
16 to expand access to behavioral health care services to individuals
17 suffering from a mental health or substance use disorder.

18 (2) The general assembly further finds that expanding access to
19 the health care professional loan repayment program to behavioral health
20 care providers will expand access to behavioral health care services and
21 treatment for people with mental health or substance use disorders, and
22 therefore, the use of retail marijuana tax revenues to fund loan
23 repayments for behavioral health care providers under the Colorado
24 health service corps program is authorized under section 39-28.8-501
25 (2)(b)(IV)(C).

26 **SECTION 2.** In Colorado Revised Statutes, 25-1.5-402, **add** (11)
27 as follows:

1 **25-1.5-402. Definitions.** As used in this part 4, unless the context
2 otherwise requires:

3 (11) "STATE-DESIGNATED HEALTH PROFESSIONAL SHORTAGE
4 AREA" MEANS AN AREA OF THE STATE DESIGNATED BY THE PRIMARY CARE
5 OFFICE, IN ACCORDANCE WITH STATE-SPECIFIC METHODOLOGIES
6 ESTABLISHED BY THE STATE BOARD BY RULE PURSUANT TO SECTION
7 25-1.5-404 (1)(a), AS EXPERIENCING A SHORTAGE OF HEALTH CARE
8 PROFESSIONALS OR BEHAVIORAL HEALTH CARE PROVIDERS.

9 **SECTION 3.** In Colorado Revised Statutes, 25-1.5-404, **amend**
10 (1)(a) as follows:

11 **25-1.5-404. Primary care office - powers and duties - rules.**

12 (1) The primary care office has, at a minimum, the following powers and
13 duties:

14 (a) To assess the health care AND BEHAVIORAL HEALTH CARE
15 professional needs of areas throughout the state IN COORDINATION WITH
16 THE DEPARTMENT OF HEALTH CARE POLICY AND FINANCING AND CREATE
17 AND ADMINISTER STATE-DESIGNATED HEALTH PROFESSIONAL SHORTAGE
18 AREAS IN ACCORDANCE WITH STATE BOARD RULES ADOPTED UNDER THIS
19 SUBSECTION (1)(a) ESTABLISHING STATE-SPECIFIC METHODOLOGIES FOR
20 DESIGNATING AREAS EXPERIENCING A SHORTAGE OF HEALTH CARE
21 PROFESSIONALS OR BEHAVIORAL HEALTH CARE PROVIDERS;

22 **SECTION 4.** In Colorado Revised Statutes, **amend** 25-1.5-501
23 as follows:

24 **25-1.5-501. Legislative declaration.** (1) The general assembly
25 hereby finds that there are areas of Colorado that suffer from a lack of
26 health care professionals OR BEHAVIORAL HEALTH CARE PROVIDERS to
27 serve, and a lack of nursing or other health care professional faculty to

1 train health care professionals to meet, the medical AND BEHAVIORAL
2 HEALTH CARE needs of communities. The general assembly further finds
3 that the state needs to implement incentives to encourage health care
4 professionals AND BEHAVIORAL HEALTH CARE PROVIDERS to practice in
5 these underserved areas and to encourage nursing faculty and other health
6 care professional faculty to teach ~~these~~ health care professionals.

7 (2) It is therefore the intent of the general assembly in enacting
8 this part 5 to create a state health service corps program that uses state
9 ~~moneys~~ MONEY, federal ~~moneys~~ MONEY, when permissible, and
10 contributions from communities and private sources to help repay the
11 outstanding education loans that many health care professionals,
12 BEHAVIORAL HEALTH CARE PROVIDERS, CANDIDATES FOR LICENSURE,
13 nursing faculty, and health care professional faculty hold. In exchange for
14 repayment of loans incurred for the purpose of obtaining education in
15 their chosen health care AND BEHAVIORAL HEALTH CARE professions, the
16 health care professionals, BEHAVIORAL HEALTH CARE PROVIDERS, AND
17 CANDIDATES FOR LICENSURE will commit to provide health care OR
18 BEHAVIORAL HEALTH CARE services, AS APPLICABLE, in communities with
19 underserved health care OR BEHAVIORAL HEALTH CARE needs throughout
20 the state, and the nursing and health care professional faculty will commit
21 to providing a specified period of service in a qualified faculty position.

22 (3) IN ADDITION, FOR PURPOSES OF INCREASING THE AVAILABILITY
23 OF CERTIFIED ADDICTION COUNSELORS, IT IS THE INTENT OF THE GENERAL
24 ASSEMBLY TO CREATE A SCHOLARSHIP PROGRAM TO PROVIDE
25 SCHOLARSHIPS TO ADDICTION COUNSELORS WHO, IN EXCHANGE FOR
26 RECEIVING SCHOLARSHIPS TO ASSIST THEM IN OBTAINING THE REQUIRED
27 EDUCATION AND TRAINING TO BE CERTIFIED AS AN ADDICTION

1 COUNSELOR, COMMIT TO PRACTICE IN A HEALTH PROFESSIONAL SHORTAGE
2 AREA FOR A SPECIFIED PERIOD.

3 **SECTION 5.** In Colorado Revised Statutes, 25-1.5-502, **add**
