ANNUAL REPORT: STATUS OF AUDIT RECOMMENDATIONS NOT FULLY IMPLEMENTED, AS OF JUNE 30, 2021

INFORMATIONAL REPORT, NOVEMBER 2021

STATE OF COLORADO

CONCLUSION

Over the 5-year period, July 2015 through June 2020, the Office of the State Auditor (OSA) made 1,504 audit recommendations to state agencies and other audited organizations (auditees). Auditees generally agreed with our recommendations and usually implemented them by the original implementation date set by auditees. However, 132 of the recommendations that auditees agreed to (9 percent), have not been fully implemented as of June 30, 2021, and about one-third of the unimplemented recommendations are considered high priority due to their seriousness, or because they have been unimplemented for 3 years or more.

KEY FACTS

- For Fiscal Years 2016 through 2020 (July 2015 to June 2020), the OSA made a total of 1,532 recommendations to auditees through financial audits, performance audits, and information technology (IT) audits.
- Auditees agreed to implement 98 percent of all audit recommendations made by the OSA.
- Overall, as of June 30, 2021, auditees have implemented 91 percent of the audit recommendations that they agreed to implement.
- The percentage of unimplemented audit recommendations has increased since June 30, 2020, primarily because the Governor's Office of Information Technology had more recommendations that were unimplemented in 2021.
- Of the 132 unimplemented audit recommendations, the OSA has classified 54 of them (41 percent) as high priority due to the seriousness of the problems identified and/or because they have been unimplemented for 3 years or more.

BACKGROUND

- The OSA is an independent, nonpartisan Legislative Branch agency, with the mission to improve government for the people of Colorado.
- The OSA tracks the implementation status of all recommendations that it makes through its audits of state agencies, public colleges and universities, and other political subdivisions and organizations, as required by Section, 2-3-103(1), C.R.S.
- The purpose of this report is to provide transparency to policy makers, the public, and others responsible for holding state agencies and other audited organizations accountable for the audit recommendations that they have agreed to implement.
- The OSA determines the implementation status of financial and IT-related financial audit recommendations based on follow-up audits, and determines the implementation status of recommendations from performance or IT performance audits based on self-reported data from auditees, and on OSA follow-up audit work for select audits.

ANNUAL REPORT

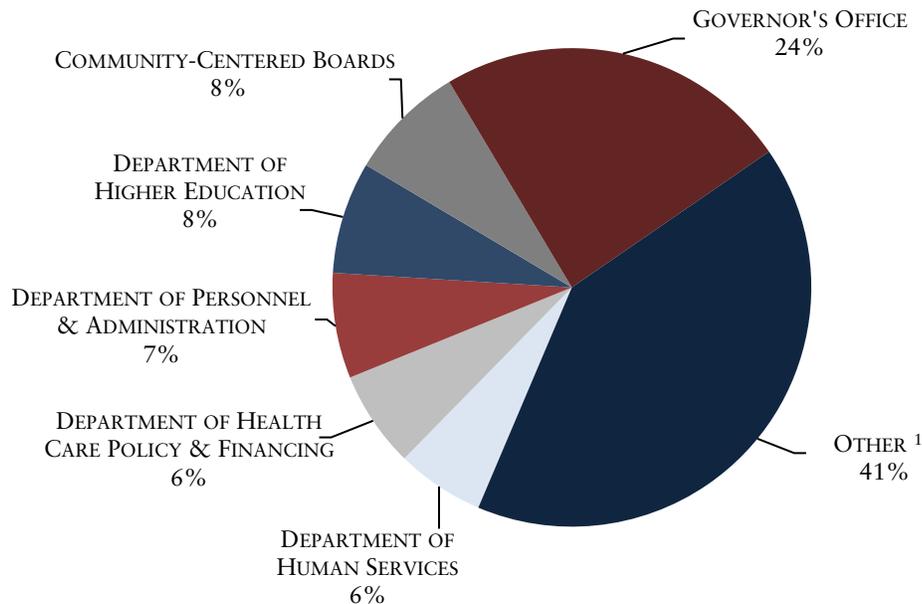

STATUS OF AUDIT RECOMMENDATIONS NOT FULLY IMPLEMENTED

The Office of the State Auditor (OSA) annually reports on the implementation status of recommendations from audit reports released by the Legislative Audit Committee over the past 5 fiscal years. Enclosed is a summary of the implementation status of all recommendations made by the OSA for Fiscal Years 2016 through 2020, that were not fully implemented by state agencies and other audited organizations (auditees) as of June 30, 2021. This report is part of an initiative to hold state agencies and other audited organizations accountable for implementing the audit recommendations that they have agreed to implement, and to provide better, more transparent information to policy makers [Section 2-3-103(9.5), C.R.S.] and the public.

SUMMARY INFORMATION

From July 2015 through June 2020, the OSA made 1,532 audit recommendations to auditees. The OSA tracks a recommendation with multiple subparts as multiple recommendations. For example, a recommendation with subparts “A” through “C” is tracked as three recommendations. Additionally, if a recommendation is made to two auditees, the recommendation is tracked as two separate recommendations. EXHIBIT 1 shows the percentage of total audit recommendations, by auditee, over the 5-year period.

**EXHIBIT 1. OSA AUDIT RECOMMENDATIONS, BY AUDITEE

SOURCE: Office of the State Auditor's audit recommendation database.

¹“Other” includes auditees that received less than 5 percent of the total audit recommendations during the 5-year period. These are the Departments of Agriculture, Corrections, Education, Labor and Employment, Law, Local Affairs, Military and Veterans Affairs, Natural Resources, Public Health and Environment, Public Safety, Regulatory Agencies, Revenue, State, Transportation, Treasury, as well as the Legislative Department, Judicial Branch, Connect for Health Colorado, the Gaming Cities, Great Outdoors Colorado, PERA, Pinnacle Assurance, and the Regional Transportation District.

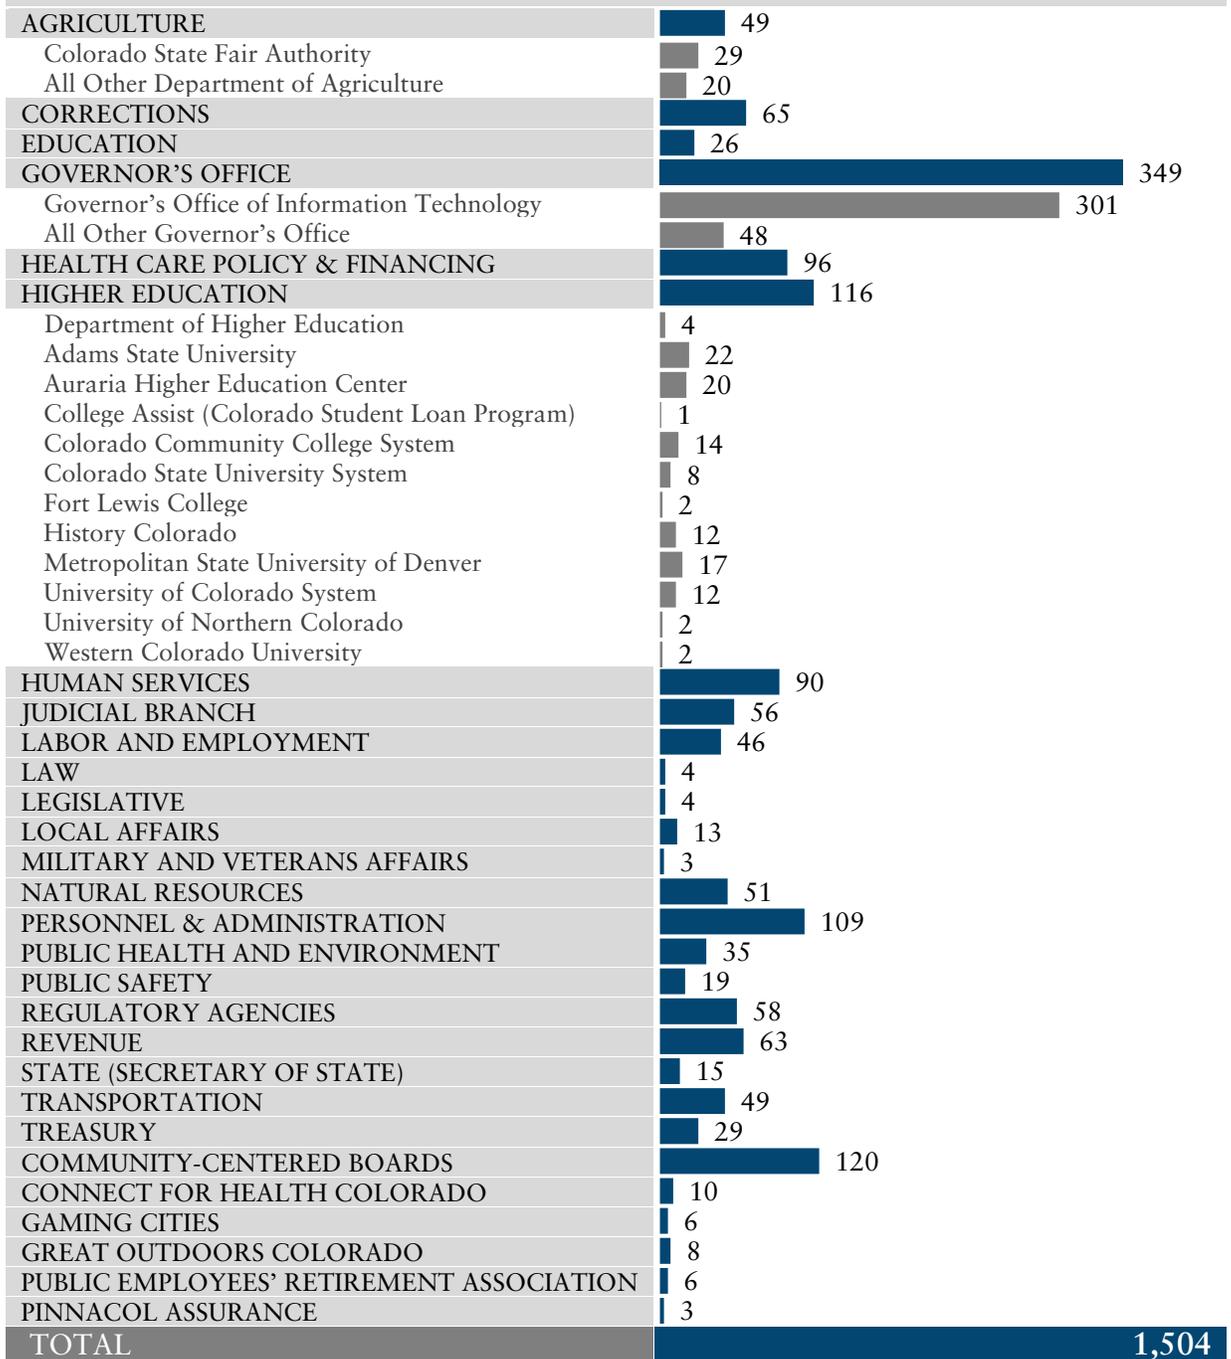

The appendices of this report provide additional information for each auditee that received audit recommendations during the 5-year period.

OVERVIEW OF AUDIT RESPONSES

At the completion of each audit, the OSA asks the auditee to provide a written response to each audit recommendation. Each auditee response specifies whether the auditee agrees, partially agrees, or disagrees with the recommendation and describes how and when it intends to implement the recommendation. If an auditee disagrees or partially agrees with an audit recommendation, it must provide an explanation of its disagreement. Full auditee responses are included in the original audit reports.

During the 5-year period, July 2015 through June 2020, auditees agreed or partially agreed to implement 1,504 of the audit recommendations (98 percent), which are summarized in EXHIBIT 2.

TYPES OF AUDIT RECOMMENDATIONS

This report includes the implementation status of all unimplemented audit recommendations that auditees have agreed or partially agreed to implement. Specifically, this report provides information on the following types of audit recommendations:

- **FINANCIAL AND FINANCIAL-RELATED INFORMATION TECHNOLOGY (IT) RECOMMENDATIONS** that appeared in at least one financial audit report covering Fiscal Years 2016 through 2020 (July 2015 through June 2020), and that auditees agreed to, but had not fully implemented as of June 30, 2021. The OSA determines the implementation status for financial and financial-related IT audit recommendations by conducting follow-up audit work.

In accordance with auditing standards, the OSA classifies recommendations from financial audits based on the severity of the internal control deficiency identified by the audit. In financial audits, the deficiency levels are defined as follows:

- ▶ **Material Weakness** is the most serious level of internal control weakness, such that there is a reasonable possibility of a material misstatement to the entity's financial statements or of material noncompliance with a federal program requirement that will not be prevented, or detected and corrected, in a timely manner.
- ▶ **Significant Deficiency** is less severe than a "material weakness," but is still a high-level internal control weakness and warrants attention by those charged with governance.
- ▶ **Deficiency in Internal Controls** is the least serious level of internal control weakness and exists when the design or operation of a control does not allow management or employees to prevent, or detect and correct, misstatements or federal program noncompliance, in a timely manner.

- ▶ **Not Classified/Not an Internal Control Issue** is the classification for financial and financial-related IT audit recommendations that are not classified in one of the above three categories because they do not relate to a deficiency in internal controls.
- **PERFORMANCE AND IT PERFORMANCE RECOMMENDATIONS** made during Fiscal Years 2016 through 2020 (July 2015 through June 2020), which includes cash funds-related recommendations, and that auditees agreed to, but had not fully implemented as of June 30, 2021. The OSA determines the implementation status for performance and IT performance audit recommendations by reviewing self-reported information from the respective auditees and conducting follow-up audit work as needed.

SUMMARY OF AUDIT RECOMMENDATIONS NOT FULLY IMPLEMENTED

Overall, as of June 30, 2021, auditees had implemented 91 percent of the recommendations with which they originally agreed or partially agreed, which means they had not fully implemented 9 percent of the recommendations from July 2015 through June 2020. Recommendations reported as unimplemented include those for which auditees have not yet reached their original implementation date, as well as those for which auditees did not meet their original implementation date and have provided a new date.

EXHIBIT 3 compares the number of audit recommendations that were not fully implemented for each auditee as of June 30, 2020, as reported in our 2020 *Annual Report: Status of Audit Recommendations Not Fully Implemented*, to those audit recommendations that were not fully implemented for each auditee as of June 30, 2021.

HIGH PRIORITY RECOMMENDATIONS THAT ARE NOT FULLY IMPLEMENTED

Of the 132 recommendations that were not fully implemented as of June 30, 2021, 54 (41 percent) are considered high priority due to the seriousness of the problems identified and/or the length of time that they have not been fully implemented since the date of the respective audit report. The high priority audit recommendations are defined in this report as follows:

HIGH PRIORITY FINANCIAL AND FINANCIAL-RELATED IT AUDIT RECOMMENDATIONS NOT FULLY IMPLEMENTED	HIGH PRIORITY PERFORMANCE AND IT PERFORMANCE AUDIT RECOMMENDATIONS NOT FULLY IMPLEMENTED
<p>The OSA considers a financial or financial-related IT audit recommendation to be high priority if it has not been fully implemented; it is past its original implementation date; and it is (1) a “material weakness,” (2) a “significant deficiency” that has not been fully implemented for 3 years or more, or (3) a “not classified” recommendation that has not been fully implemented for 5 years or more.</p>	<p>The OSA considers a performance or IT performance audit recommendation high priority if it has not been fully implemented, and is from a report that was released 3 years or more.</p>

Throughout this report, the recommendations that are not fully implemented and are considered high priority are highlighted in orange.

EXHIBIT 4 compares the total number of audit recommendations that were not fully implemented and are considered high priority, by auditee, as of June 30, 2020, and June 30, 2021, respectively.

OVERALL CONCLUSIONS

When considering the number of recommendations that the OSA made to auditees over the 5-year period, the summary information in this report shows that auditees generally agree with our recommendations and usually implement them by the original implementation date. However, the percentage of audit recommendations that have not been fully implemented by auditees has increased in 2021 compared to the past 5 fiscal years, as shown in EXHIBIT 5.

EXHIBIT 5. PERCENTAGE OF AUDIT RECOMMENDATIONS NOT FULLY IMPLEMENTED BY AUDITEES FISCAL YEARS 2016 THROUGH 2021

SOURCE: Office of the State Auditor's audit recommendation database.

¹In 2021, the percentage of recommendations not fully implemented by auditees increased compared to prior years primarily because the Governor's Office of Information Technology had more recommendations unimplemented in 2021.

POSSIBLE NEXT STEPS FOR LEGISLATORS

This report provides the General Assembly with information on the recommendations that have not been fully implemented, including those that are considered high priority, so that policy makers have additional oversight information available to hold state agencies and other audited organizations accountable. In prior years, legislators have used this report to inquire of audited agencies/organizations regarding their unimplemented audit recommendations, during Committee of Reference hearings and otherwise. For example, legislators have inquired about the following:

- A Agencies'/organizations' specific plans for implementing the high priority recommendations.
- B The reasons implementation has been delayed for those recommendations where the agency/organization has delayed implementation (i.e., the recommendations with months in the "Delay" column of tables).
- C Agency's/organization's plans for implementing the unimplemented recommendations for which the agency/organization provided new implementation dates.

APPENDICES

DEPARTMENT OF AGRICULTURE

From July 1, 2015, through June 30, 2020, the Department of Agriculture (Department) agreed to implement 49 audit recommendations—six were from financial audits and 43 were from performance audits. As of June 30, 2021, the OSA’s follow-up audit process and review of status updates from the Department have determined that a total of three of the 49 recommendations are not fully implemented.

In our *2020 Annual Report: Status of Audit Recommendations Not Fully Implemented*, the Department had two out of 21 audit recommendations that were not fully implemented.

EXHIBIT 6 summarizes the three audit recommendations that are not fully implemented, as of June 30, 2021. None of these recommendations are considered high priority.

DEPARTMENT OF CORRECTIONS

From July 1, 2015, through June 30, 2020, the Department of Corrections (Department) agreed or partially agreed to implement 65 audit recommendations—32 were from financial audits and 33 were from performance audits. As of June 30, 2021, the OSA’s follow-up audit process and review of status updates from the Department have determined that a total of four of the 65 recommendations are not fully implemented.

In our 2020 *Annual Report: Status of Audit Recommendations Not Fully Implemented*, the Department had four out of 87 audit recommendations that were not fully implemented.

EXHIBIT 7 summarizes the four audit recommendations that are not fully implemented, as of June 30, 2021. These four recommendations are considered high priority and highlighted in orange.

DEPARTMENT OF EDUCATION

From July 1, 2015, through June 30, 2020, the Department of Education (Department) agreed to implement 26 audit recommendations—six were from financial audits and 20 were from performance or information technology (IT) performance audits. As of June 30, 2021, the OSA’s follow-up audit process and review of status updates from the Department have determined that a total of six of the 26 recommendations are not fully implemented.

In our *2020 Annual Report: Status of Audit Recommendations Not Fully Implemented*, the Department had no unimplemented audit recommendations.

GOVERNOR'S OFFICE

From July 1, 2015, through June 30, 2020, the Governor's Office, including the Governor's Office of Information Technology (IT), agreed or partially agreed to implement 349 audit recommendations—115 were from financial audits, which included financial-related IT audit recommendations, and 234 were from performance or IT performance audits. As of June 30, 2021, the OSA's follow-up audit process and review of status updates from the Department have determined that a total of 70 of the 349 recommendations are not fully implemented.

In our 2020 *Annual Report: Status of Audit Recommendations Not Fully Implemented*, the Governor's Office had 40 out of 304 audit recommendations that were not fully implemented.

EXHIBIT 9 summarizes the 70 audit recommendations that are not fully implemented, as of June 30, 2021. Twenty-three of these recommendations are considered high priority and highlighted in orange.

HOW TO LOCATE AN OSA REPORT

All audit reports issued by the Office of the State Auditor (OSA) since 1999 are available on the OSA's web site at www.colorado.gov/auditor under either of the AUDITS links.

The screenshot shows the Colorado General Assembly website. At the top left is the Colorado State Seal and the text "First Regular Session | 73rd General Assembly" and "Colorado General Assembly". On the top right, there are links for "Visit & Learn", "Find My Legislator", and "Watch & Listen", along with a search bar and an "Apply" button. A horizontal navigation menu contains links for "INTERIM SCHEDULE", "BILLS", "LAWS", "LEGISLATORS", "COMMITTEES", "INITIATIVES", "BUDGET", "AUDITS", "PUBLICATIONS", and "AGENCIES". The "AUDITS" link is circled in red, with a red arrow pointing to it from the search bar area. Below the navigation menu is a large image of a domed ceiling with the text "Office of the State Auditor" overlaid. At the bottom of the image is a dark navigation bar with links for "Audits", "Legislative Audit Committee", "Local Government", "Fraud Hotline", "Tax Expenditures", and "About". The "Audits" link is also circled in red, with a red arrow pointing to it from the left. Below the image is a section titled "A Message from the State Auditor" featuring a circular portrait of Kerri L. Hunter, CPA, and a paragraph of text. To the right is a "CONTACT INFORMATION" section with the address: "State Services Building, 1525 Sherman St., 7th Floor, Denver, CO 80203, United States" and a "Get Directions" link.

Audits can be accessed through the SEARCH box or via each Department or Entity that is listed.
