to increase public school teachers' salaries in FY23, which will carryover to the TISA base for salaries

## **Supporting Teachers**

- Funds school support staff so teachers can concentrate on academic instruction.
- **Provides for** the Governor and General Assembly to direct education funding **increases to go to raises for existing teachers.**
- **Requires** increases in education funding to also trigger **increases to state minimum salaries**, which is on-track to increase the state minimum salary \$10k from \$35,000 in Jan 2019 to \$45,000 by 2026.

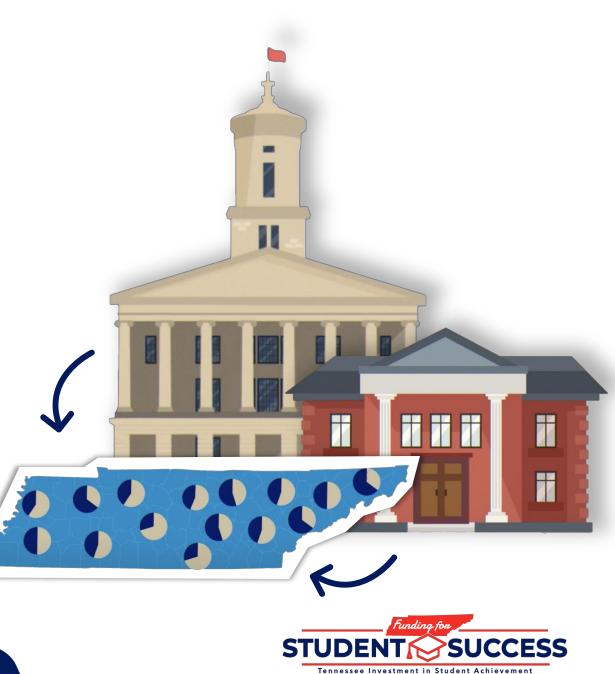

## Bill Breakdown

Tennessee Investment in Student Achievement

## Local Contribution & Fiscal Capacity

- State and local share is split 70/30 for the base and weights only. The state will cover direct funding, outcomes and fast-growing.
- Fiscal capacity will be established by CBER, evaluated by the Comptroller of the Treasury, and approved by the State Board each year. The department will provide grants to help distressed and at-risk counties, and those with special circumstances related to maintenance of effort (MOE).
- Local contributions are set to be lower in FY24, FY25, and FY26 and begin to increase again in FY27, in an amount similar to prior years so that the new state investment does not overwhelm local requirements. No changes to MOE.

## Improving Transparency and Accountability

#### School Boards

- Must establish academic goals that the local budget is intended to support
- Must describe the results and return on investment of the prior year strategy

#### Districts and Public Charter Schools

- An LEA or public charter school with a D or F school may be asked to present to an ad hoc Education Finance Committee to discuss funding and outcomes
- The results of that hearing may lead to no action, a corrective action plan, or an inspector general appointed by the Comptroller
- This provision also includes all state run districts and schools

## **Improving Reporting**

- Detailed reporting on funding and spending will be publicly posted at the school and district levels, per federal requirements, and be included on the annual report cards.
- Instead of a small committee, every LEA will have the opportunity to provide annual input on:
  - What the LEA hopes to see funded
  - The research base and return on investment
  - Reasons why the LEA is unable to afford those resources in the existing budget.
- The department will produce a report each year, to include:
  - An academic analysis
  - Accountability report cards
  - LEA TISA Review requests
  - Comptroller review of TISA

## **Professional Development**

- A professional development series on TISA will include training on:
  - The TISA and TISA Guide
  - How to budget to increase achievement
  - How to connect achievement with investments
  - How to hold decision-makers accountable
- Professional development and a passing score on the assessment will be required for:
  - Directors, state and local school board or governing board members, local legislative bodies responsible for school funding, and state and local employees responsible for LEA and school budgets.
- Optional professional development will be provided at no cost for school employees related to maximizing investment to increase achievement

## The Benefits of Tennessee Investment in Student Achievement
