CBAC Meeting: 2/28/25

	<p>Marble counter and sink</p>	<p>Removed from bathroom, fall 2024; Basement</p>		<p>Send to Facilities; remove if they do not want to keep for marble; not unique; does not tell significant Capitol story</p>
	<p>plaque</p>	<p>Historic marker used by Preservation Services to document significant places. It was installed in 1935 and is documenting the library as a significant place because of a donated collection from E.B. Morgan (died 1935). It was taken down because the Historical Society building moved and it was not reinstalled; Basement</p>		<p>This marker recognizes Morgan as a VIP for his role at the Historical Society and for being the 'foremost collector'. The EB Morgan collection was not the only founding library collection and this marker is not important to document that history or the relationship.</p>
	<p>chair</p>	<p>large office chair with arms; black padded upholstered back with nailed edges; curved top edge of back of chair; base has scrolled feet on wheels; black seat pad tied to chair; Basement</p>	<p>30c-269 3</p>	<p>upholstery is ripped in spots; base is damaged and sits unevenly; wheels and base mechanism are broken; upholstery and base/wheels would need to be fixed; wood seat is cracked and split; seat pad melted and stained wood seat; HC already has 2 of these chairs from Supreme Court in collection</p>

We often suggest these types of items go to local VFWs, libraries, community centers, churches, etc.</p>
