# Memorandum

September 23, 2019

**TO:** Members of the General Assembly

**FROM:** Marc Carey, Chief School Finance Officer, (303) 866-4102  
Anna Gerstle, Senior Fiscal Analyst, (303) 866-4375

**SUBJECT:** Financing of Public Schools for Fiscal Year 2019-20

## Summary of Memorandum

Three bills that were enacted during the 2019 legislative session significantly affected the financing of public schools in Colorado:

- Senate Bill 19-246 amended the Public School Finance Act of 1994 to provide funding for school districts in FY 2019-20. The bill was signed by the Governor on May 10, 2019, and became effective on that date.
- Senate Bill 19-207 (the "Long Bill"), appropriated most of the state aid distributed to school districts.
- House Bill 19-1262 modified the school finance formula to provide full per pupil funding for students enrolled in a full-day kindergarten (FDK) program.

This memorandum summarizes the primary funding changes for school finance contained in these three bills.

The information contained in this memorandum is based on the combined impact of the three bills, updated with the most recent data available, and may not always match estimates provided in past fiscal notes. Estimates in this memorandum will be adjusted during the 2020 legislative session based on actual pupil counts and local property tax collections.

## Summary of School Finance Funding Changes

**School Finance Act.** The School Finance Act is expected to provide \$7.6 billion in total program funding to school districts in FY 2019-20, including the changes made to the school finance formula to fully fund full-day kindergarten students. The state provides about 61 percent of this amount, or \$4.6 billion, while local property and specific ownership taxes are projected to provide about \$3.0 billion. Appendix A shows year-over-year funding changes for all school districts in the state.

**Change from FY 2018-19.** School district funding is expected to increase 6.8 percent, or \$515.9 million, in FY 2019-20 compared with the prior year. The increased funding will come from a \$367.2 million increase in school district property and specific ownership taxes and a \$148.7 million increase in state funding for school finance.

**Base per pupil funding.** Senate Bill 19-246 established the base per pupil funding amount at \$6,952, which reflects a 2.7 percent inflation rate increase, as required by Amendment 23.

**Full-day kindergarten.** Funding students enrolled in FDK programs at 1.0 FTE instead of 0.58 FTE is expected to increase the funded pupil count by 22,369 and state expenditures for school finance by \$182.9 million in FY 2019-20.

**Statewide average per pupil funding.** In FY 2019-20, the statewide average per pupil funding will increase from \$8,123 to \$8,477, an increase of 4.2 percent, or \$354.

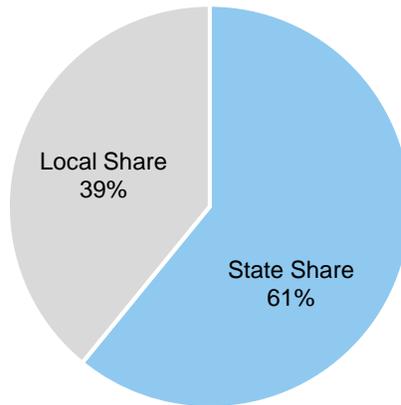

**Additional changes.** Senate Bill 19-246 contains the following additional changes:

- provides \$20.0 million in supplemental funding to be distributed to eligible large rural and small rural school districts on a per-pupil basis in FY 2019-20, outside the funding formula;
- provides \$22.0 million for Tier B special education funding, to be distributed on a per-pupil basis to administrative units;
- changes the allocation of English language learning (ELL) professional development and student support funding to align with the allocation of English language proficiency funds, a change that does not require additional funding, nor does it change the funding distribution; and
- establishes the physical education instruction pilot program and the Ninth Grade Success Grant Program in the Colorado Department of Education (CDE).

## School Finance Act Funding

The Public School Finance Act of 1994 is the mechanism through which school districts receive state aid and local funds for operating purposes. In FY 2019-20, the act is expected to provide \$7.6 billion to school districts. The state is expected to provide about \$4.6 billion (61 percent), while the local revenue sources provide \$3.0 billion (39 percent). Figure 1 shows the relative shares for state and local funding with Senate Bill 19-246, Senate Bill 19-207, and House Bill 19-1262.

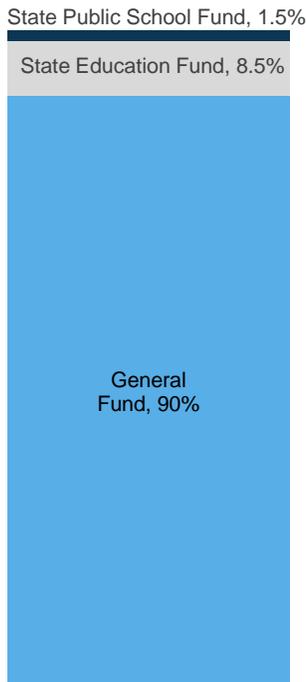

**Figure 1**  
**State and Local Shares of School Finance, FY 2019-20**

Source: Legislative Council Staff

**Residential assessment rate.** The local share estimate reflects a residential assessment rate of 7.15 percent for 2019 and 2020, as established by Senate Bill 19-255. The Gallagher Amendment to the Colorado Constitution requires that the proportion of taxable value for residential and nonresidential property remain constant between each reassessment cycle. The vehicle for achieving this is an adjustment of the residential assessment rate. Based on estimated 2019 property values, a reduction in the residential assessment rate from 7.2 to 7.15 percent was necessary to maintain this proportional relationship.

**Figure 2**  
**State Share Funding Sources**  
**FY 2019-20**  
 (Total state share is \$4.6 billion)

Source: Joint Budget Committee Staff and Legislative Council Staff

**Sources of state funding.** The General Assembly appropriates money for the state share of school finance from three funds: the General Fund, the State Education Fund, and the State Public Education Fund. Figure 2 illustrates the relative contributions from the three funds

*General Fund.* The General Fund is the primary source for revenue for state aid to schools, accounting for 90 percent of state aid, or \$4.2 billion, in FY 2019-20.

*State Education Fund.* The State Education Fund provides the next largest share at 8.5 percent, or \$393.6 million. This fund was created by Amendment 23 and receives a portion of state income tax. Money in the fund can only be spent for certain educational purposes specified in the state constitution.

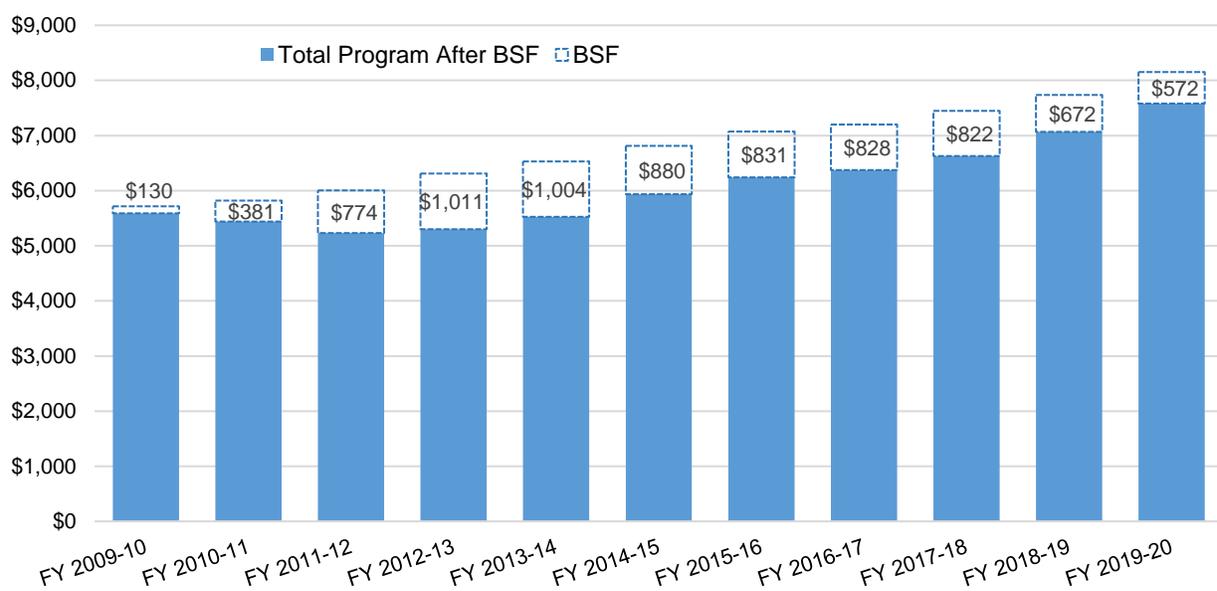

*State Public School Fund.* The State Public School Fund provides the remaining 1.5 percent, or \$68.8 million. This fund consists of interest earned by the Public School Fund and federal mineral leasing revenue that are dedicated by state law for public education.

## Budget Stabilization Factor

The school finance act includes a budget stabilization factor that reduces the amount of state aid allocated to school districts based on the available state revenue and other budget priorities set by the General Assembly. The budget stabilization factor reduces total program funding by a specific percentage; for FY 2019-20, it is set to reduce each school district’s total program funding by 7.1 percent, which amounts to an overall reduction in state aid of \$572 million; the local share is not impacted. Without the budget stabilization factor, school finance funding would have been about \$8.2 billion.

For FY 2019-20, the budget stabilization factor was decreased by \$100 million compared to FY 2018-19. Figure 3 illustrates the level of total program funding and the budget stabilization factor for all school districts since it was implemented in FY 2009-10.

**Figure 3**  
**Total Program Funding After the Budget Stabilization Factor**  
*Dollars in Million*

Source: Legislative Council Staff.

The budget stabilization factor is generally the product of two separate policy decisions by the General Assembly. First, the Long Bill requires that the budget stabilization factor be established to determine an initial appropriation for state aid under the school finance act. The final budget stabilization factor is then set in the school finance bill, which adjusts the appropriation for state aid accordingly.

Under provisions of Senate Bill 19-246, the value of the budget stabilization factor in FY 2020-21 cannot exceed the FY 2019-20 level of \$572 million. This is expected to increase overall funding by \$155 million, and raise per pupil funding by \$163, as a result of required inflationary increases and

projected enrollment growth. These changes will be reflected in the 2020 Long Bill, but the General Assembly may adjust this amount up or down in the 2020 school finance bill or other legislation.

**Example of budget stabilization factor application.** Calculation of funding for an individual school district begins with the district’s total program funding level as determined by the statutory school finance formula. The budget stabilization factor is then applied to implement a specific percentage reduction in funding. Table 1 illustrates how the budget stabilization factor reduces funding for two school districts in FY 2019-20. The budget stabilization factor reduces funding for the Greeley and Hinsdale school districts by 7.1 percent, which decreases state aid for Greeley by \$14.2 million and Hinsdale by \$116,938. The local share is unaffected by the budget stabilization factor.

**Table 1  
Example of Budget Stabilization Factor Applications**

School District	Before BSF		BSF (7.1%)	After BSF	
	Total Program	State Share		Total Program	State Share
Greeley	\$201,888,987	\$127,890,634	(\$14,242,782)	\$187,646,205	\$113,647,852
Hinsdale	\$1,657,571	\$570,574	(\$116,938)	\$1,540,634	\$453,636

*Source: Legislative Council Staff.*

For some districts with limited state aid, the budget stabilization factor percent reduction may be less than 7.1 percent. Cripple Creek, Fort Lupton, Pawnee, Platte Valley, and Prairie are the only districts in this situation in FY 2019-20.

## Base Per Pupil Funding

Amendment 23 requires the General Assembly to increase the statewide base per pupil funding amount by at least inflation for FY 2019-20. Inflation for calendar year 2018 was 2.7 percent, and Senate Bill 19-246 increased the statewide base by this amount, from \$6,769 in FY 2018-19 to \$6,952 in FY 2019-20. The statewide base is the dollar amount to which each district’s size, cost of living, and personnel costs factors is applied, in order to determine per pupil funding.

An increase in the statewide base also triggers an increase in per pupil funding provided to districts for students enrolled in online or extended high school. These amounts increase by the same percentage as the statewide base, or 2.7 percent, in FY 2019-20. As a result, online and extended high school per pupil funding increased from \$8,162 in FY 2018-19 to \$8,382 in FY 2019-20. After the application of the budget stabilization factor, this per pupil funding amount will be \$7,791 in FY 2019-20.

## Full-Day Kindergarten

With the adoption of House Bill 19-1262, the school finance formula will fully fund full-day kindergarten educational programs. Students enrolled in FDK programs will be funded at the same amount (1.0 FTE) as students enrolled full-time in other grades. Students enrolled in half-day

kindergarten programs will continue to be funded as a half-day student (0.5 FTE), plus the existing amount of supplemental kindergarten funding (0.08 FTE), for a total of 0.58 FTE.

By funding kindergarten students enrolled in FDK programs at 1.0 FTE, House Bill 19-1262 increased the statewide funded pupil count. The actual increase in pupils and associated funding will depend on the utilization of FDK programs. In FY 2018-19, about 81 percent of kindergarten students were enrolled in FDK. Table 2 presents estimated increases in funded pupil count for four potential utilization rates.

**Table 2**  
**Utilization Scenarios Under HB 19-1262**

<u>Utilization Rate</u>	<u>Increase in Funded Pupil Count</u>
100%	25,896
95%	24,702
90%	23,508
85%	22,369

*Source: Legislative Council Staff*

Assuming an 85 percent utilization rate in FY 2019-20, state aid for school finance is expected to increase by about \$182.9 million, and the local share will increase by approximately \$7.4 million. The funded pupil count and associated funding for school finance will be adjusted during the 2020 legislative session to reflect actual October pupil counts.

## **Categorical Programs**

Categorical programs provide funding for specific educational purposes. Amendment 23 defines certain programs, including special education and pupil transportation, among others, as categorical programs and requires that state funding for these programs in the aggregate increase by at least inflation in FY 2019-20. Generally, funding for categorical programs is contained in the Long Bill, and substantive changes to the administration and financing of categorical programs is contained in other legislation.

Table 3 shows the FY 2019-20 state appropriation for categorical programs. The special education appropriation reflects the required inflationary increase, as well as the additional \$22 million in Tier B special education funding that was included in Senate Bill 19-246. Note that some of these programs, such as special education and English language proficiency, receive federal funds in addition to the amounts shown in Table 3.

**Table 3  
Appropriations for Categorical Programs**

<b>Categorical Program</b>	<b>FY 2018-19 Appropriation</b>	<b>FY 2019-20 Appropriation</b>	<b>Change from Prior Year</b>	<b>Percent Change</b>
Special Education	\$176.1 million	\$202.7 million	\$26.6 million	15.1%
English Language Proficiency	\$21.6 million	\$23.0 million	\$1.4 million	6.4%
Transportation	\$59.1 million	\$60.5 million	\$1.4 million	2.3%
Gifted and Talented	\$12.5 million	\$27.2 million	\$0.2 million	1.4%
Small Attendance Centers	\$1.1 million	\$1.3 million	\$0.2 million	22.1%
Expelled and At-Risk Student Services	\$9.5 million	\$9.5 million	\$0	0.0%
Vocational Education	\$26.7 million	\$27.2 million	\$0.6 million	2.1%
Comprehensive Health Education	\$1.1 million	\$1.1 million	\$0	0.0%
<b>Total</b>	<b>\$307.7 million</b>	<b>\$316.1 million</b>	<b>\$30.3 million</b>	<b>9.85%</b>

*Source: FY 2019-20 Appropriations Report, Joint Budget Committee Staff.*

**Tier B special education funding.** Categorical funding for special education is distributed first to Tier A (\$1,250 per student), ChildFind (identification of young children with disabilities), and high cost programs (reimbursement of high cost special education services); the remaining funds are distributed on a per pupil basis to administrative units for students with specific, identified disabilities. These distributions are known as Tier B and may not exceed \$6,000 per student. In FY 2019-20, \$64.5 million will be distributed in Tier B funds, an increase of \$22.0 million from FY 2018-19. It is expected that 23,128 students will be eligible for funding, resulting in \$2,789 per student, an increase of \$951 per pupil. Appendix C estimates the district-by-district distributions.

### **Other Provisions of Senate Bill 19-246**

**Supplemental assistance to rural schools.** Senate Bill 19-246 distributed \$20 million to qualifying rural school districts on a one-time basis in FY 2019-20. The money is distributed outside the formula, on a per pupil basis, using the FY 2018-19 funded pupil count. To qualify, districts must be classified as rural or small rural by CDE and have a funded pupil count of less than 6,500. The bill specifies that 55 percent of the funding is to be allocated to large rural districts (funded pupil count between 1,000 and 6,500) and 45 percent is to be allocated to small rural districts (funded pupil count less than or equal to 1,000).

Currently, 147 districts with a total funded pupil count of 136,624 are classified as rural and have fewer than 6,500 students. Of these, 40 large rural districts have a funded pupil count of 100,134, implying a per pupil payment of about \$110, while 107 small rural districts have a funded pupil count of 36,490, implying a per pupil payment of about \$247. Appendix B lists the funded pupil count and distribution of payments to qualified districts on a district-by-district basis. Large rural districts are denoted as rural in the appendix. District funded pupil counts include totals for state Charter School Institute schools located within the district.

**English language learner funding distribution.** The bill changed the allocation of ELL professional development and student support funding between non- and limited- English proficient students and newly designated fluent students.

Under current law, CDE distributes funding to districts for English language learning professional development and student support on a per pupil basis. Seventy-five percent is distributed based on students who are either non-English proficient or have limited English proficiency. Twenty-five percent is distributed based on students who are monitored after being designated as fluent in English. The bill changed the distribution method by allocating the funding proportionately, based on the number of students who have no or limited English proficiency and the number who have been designated as fluent, but require continued monitoring. This change aligned the allocation method with the way that English language proficiency funds are distributed and did not change the amount of funding distributed, or districts were expected to receive in FY 2019-20 or FY 2020-21.

**Ninth Grade Success Grant Program.** The bill created the Ninth Grade Success Grant Program in CDE to provide grants to local education providers to implement programs aimed at helping ninth graders adapt and progress throughout the four years of high school. Program components may include establishing a cross-disciplinary success team of ninth grade teachers and staff, prioritizing services for students who are at risk of academic failure, providing instructional support, and implementing a data system to provide access to student behavior, attendance, and grades. Grantees must provide local matching funds in order to qualify. The bill provided \$800,000 from the General Fund for program funding.

**Physical education grant program.** The bill created the Health and Wellness through Comprehensive Physical Education Instruction Pilot Program in CDE to award three-year grants to schools or districts to implement a comprehensive program of physical education instruction. At least 30 percent of grants must be awarded to schools or districts receiving federal Title I support. The bill established program requirements, application and evaluation procedures, and provided \$1.1 million in Marijuana Tax Cash Fund money for program funding.
