## General Description

### Mission

The mission of the Office of the State Public Defender is to defend and protect the rights, liberties, and dignity of those accused of crimes who cannot afford to retain counsel. We do so by providing constitutionally and statutorily mandated representation that is effective, zealous, inspired and compassionate.

OSPD Enabling Legislation. The general assembly hereby declares that the state public defender at all times shall serve his clients independently of any political considerations or private interest, provide legal services to indigent persons accused of crime that are commensurate with those available to nonindigents, and conduct the office in accordance with the Colorado Rules of Professional Conduct and with the American Bar Association standards relating to the administration of criminal justice, the defense function. C.R.S. 21-1-101(1).

### Vision

The Office of the State Public Defender's vision is to develop, maintain and support our passionate and dedicated team so that they can provide the best possible quality of effective and efficient criminal defense representation for each and every one of our clients.

### Description

The Office of the State Public Defender (OSPD) is a single purpose program that is devoted to providing effective criminal defense representation to indigent persons charged with crimes except where there is a conflict of interest. Our clients are indigent people who, faced with the possibility of incarceration, are unable to afford private counsel and without counsel would otherwise be denied their constitutional right to representation throughout the criminal proceedings. Attorneys, investigators and legal support staff are necessary to provide effective representation of counsel as mandated by the federal and state constitutions, Colorado Revised Statutes, Colorado Court Rules, American Bar Association standards, and the Colorado Rules of Professional Conduct. The OSPD system is the most efficient means of meeting these requirements.

The OSPD is an independent agency within the Judicial Branch of Colorado state government. The Courts appoint the OSPD when a defendant qualifies for public defender services pursuant to statute, applicable case law and Chief Justice Directives.

To support the OSPD in the representation of its FY 2019-20 projected caseload, the OSPD was appropriated \$107,392,414 and 889.1 FTE. The FTEs consist of 535 attorneys, 179 investigators/paralegals (including 14 social workers, 132 administrative assistants and 43 centralized management and support positions.

## Priorities

In keeping with the Office's mission and vision, we have developed the following goals, strategies and measures.

### Goals:

1. Provide effective legal representation in both the trial and appellate courts.
2. Hire and retain a sufficient number of high quality staff to effectively manage the assigned caseload.
3. Provide both a high quality and quantity of staff development, training, new technology and other resources to adapt our response to the ever-changing criminal justice system so that our legal services are commensurate with those available for non-indigent persons.

**Strategies:**

1. Hire a sufficient number of high quality staff and retain an adequate level of experienced staff in order to effectively manage the assigned caseload.
2. Track and analyze trends in caseloads and adjust staffing levels.
3. Provide training to address the changing legal climate.
4. Continually evaluate administrative processes and organizational infrastructure needs such as office space, technology and staffing.
5. Work all cases as efficiently as possible, while retaining a high quality of effective and reasonable representation.
