June 25, 2018

TO: Members of the General Assembly

FROM: Marc Carey, Principal Economist, (303) 866-4102

SUBJECT: Financing of Public Schools for Fiscal Year 2018-19

Summary

House Bill 18-1379 amends the Public School Finance Act of 1994 to provide funding for school districts in FY 2018-19. The bill was signed by the Governor on May 24, 2018, and became effective on that date. House Bill 18-1322, the "Long Bill," appropriates most of the state aid distributed to school districts. The following summarizes the primary funding changes contained in these bills.

- The **school finance act** is expected to provide \$7.1 billion in total program funding to school districts in FY 2018-19. The state provides about 64 percent of this amount, or \$4.6 billion, while local property and specific ownership taxes are projected to provide \$2.5 billion.
- **School district funding** under the school finance act is expected to increase 7.0 percent, or \$461 million, in FY 2018-19 compared with the prior year. The increased funding will come from a \$35 million increase in school district property taxes and specific ownership taxes and a \$426 million increase in state funding for school finance.
- The increase in **base per pupil funding** reflects a 3.4 percent inflation rate as required by Amendment 23. The resulting base per pupil amount is \$6,769.

Open records requirements: Pursuant to Section 24-72-202 (6.5)(b), C.R.S., research memoranda and other final products of Legislative Council Staff are considered public records and subject to public inspection unless: a) the research is related to proposed or pending legislation; and b) the legislator requesting the research specifically asks that the research be permanently considered "work product" and not subject to public inspection. If you would like to designate this memorandum to be permanently considered "work product" not subject to public inspection, or if you think additional research is required and this is not a final product, please contact the Legislative Council Librarian at (303) 866-4011 within seven days of the date of the memorandum.

- The **statewide average per pupil funding** will increase 6.2 percent, or \$475, going from \$7,662 in FY 2016-17 to \$8,137 in FY 2018-19.
- HB 18-1379 requires the Colorado Department of Education (CDE) to distribute \$30 million in supplemental funding to eligible large rural and small rural school districts on a per-pupil basis in FY 2018-19, outside the funding formula.
- HB 18-1379 increases by 1,000 slots the number of early childhood at-risk enhancement (ECARE) slots that may be used for preschool students or to extend kindergarten to full-day kindergarten.
- HB 18-1379 changes the statutory allocation requirements for English language learner funds to a proportional allocation based on the number of students who have no or limited English proficiency and the number of students that have been designated as fluent, but require continued monitoring. This change will allow the full distribution of funding to school districts.
- HB 18-1379 amends core course level participation and performance reporting requirements by limiting reporting on core courses to only the middle and secondary school levels, and delaying the date by which CDE must make the report available on its website.

This memorandum also contains an appendix with estimates of school district funding in FY 2018-19 compared with FY 2017-18.

Funding for Districts under the School Finance Act

The Public School Finance Act of 1994 is the mechanism through which school districts receive state aid and local funds for operating purposes. In FY 2018-19, the act is expected to provide \$7.1 billion to school districts. The state is expected to provide about 64 percent of this amount, while local revenue sources provide 36 percent. Figure 1 presents the relative shares for state and local funding with HB 18-1379 and HB 18-1322 combined.

Figure 1
State and Local Contributions to the
School Finance Act, Fiscal Year 2018-19
(Total Funding: \$7.1 billion)

Budget Stabilization Factor. Because of the state's budget difficulties following the 2009-2010 economic recession, the school finance act includes a budget stabilization factor that reduces the amount of state aid allocated to school districts. The overall size of the budget stabilization factor is based on available state revenue and other budget priorities set by the General Assembly, and is calculated to reduce total program funding to a pre-determined amount. In FY 2018-19, the budget stabilization factor is set to reduce each school district's total program funding by about 8.66 percent, which amounts to an overall reduction in state aid of just over \$672 million. Without the budget stabilization factor, school finance funding would have been about \$7.8 billion.

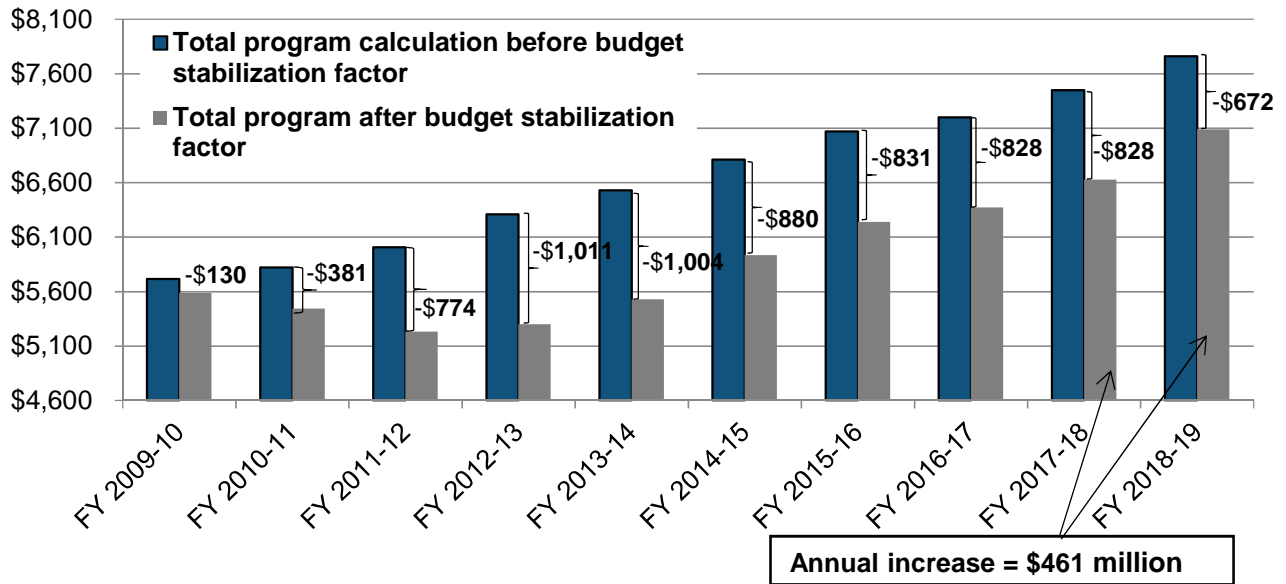

The application of the budget stabilization factor for an individual school district begins with a district's total program funding level as determined by the school finance formula. The budget stabilization factor is then applied to total program to implement a specific percentage reduction. Table 1 illustrates how the application of the budget stabilization factor reduces the amount of state aid for two school districts in FY 2018-19. The budget stabilization factor reduces total program funding for the Greeley and Hinsdale school districts by 8.66 percent, which decreases state aid for Greeley by \$16.7 million and Hinsdale by \$158,126. The local share is unaffected by the budget stabilization factor. The appendix shows the year-over-year funding change for all school districts in the state. For some districts with limited state aid, the budget stabilization factor percentage reduction may be less than 8.66 percent. Cripple Creek was the only district in this situation in FY 2018-19.

**Table 1
Examples of Budget Stabilization Factor Application**

School District	Total Program before Budget Stabilization Factor	Budget Stabilization Factor (8.66 %)	Total Program after Budget Stabilization Factor	% Change in Total Program	State Aid before Budget Stabilization Factor	State Aid after Budget Stabilization Factor
Greeley	\$193,255,992	(\$16,744,168)	\$176,511,824	8.66%	\$149,506,862	\$132,762,694
Hinsdale	\$1,825,036	(\$158,126)	\$1,666,910	8.66%	\$777,931	\$619,805

Figure 2 illustrates the level of total program funding for all school districts over the last few years and the size of the budget stabilization factor. As illustrated below, total program funding was cut by about \$672 million in FY 2018-19, compared with the level of funding without the budget stabilization factor. The budget stabilization factor was reduced in FY 2018-19 by \$150 million compared with the prior year, leading to an increase in school district funding of about \$461 million, or 7 percent, in FY 2018-19 on a year-over-year basis.

Figure 2
Total Program Funding Before and After Application of Budget Stabilization Factor
(Includes State and Local Sources of Revenue; Dollars in Millions)

In prior years, the budget stabilization factor was the outcome of two policy decisions reached by the General Assembly. First, the Long Bill required that a budget stabilization factor be established to determine an initial appropriation for state aid under the school finance act. The final budget stabilization factor was set by the school finance bill, which adjusted the appropriation for state aid accordingly.

For FY 2019-20, under the provisions of HB 18-1379, the value of the budget stabilization factor cannot exceed the FY 2018-19 level, or \$672 million. This is expected to increase overall funding by nearly \$279 million and raise per pupil funding by \$270, which will be reflected in the 2019 Long Bill. However, the legislature may adjust this amount up or down, depending on funding changes adopted in the 2019 school finance bill or other legislation.

State aid for schools is primarily paid from the General Fund. The General Assembly appropriates money for school finance from three funds: the General Fund, the State Education Fund, and the State Public School Fund. The General Fund is the primary source of revenue for state aid to schools, accounting for 88 percent of the \$4.56 billion in state aid in FY 2018-19. The State Education Fund provides the next largest share at 9 percent, while the State Public School Fund contributes the remaining 3 percent. The State Education Fund was created by Amendment 23, and receives a portion of state income taxes. Money in the fund can only be spent for certain educational purposes specified in the state constitution. The State Public School Fund consists of interest earned by the Public School Fund and federal mineral leasing revenue that are dedicated by state law for public education. Figure 3 illustrates the relative contributions from the three funds.

Figure 3
Sources of State Revenue for FY 2018-19 School Finance Appropriation
(Total State Aid: \$4.56 billion)

Base Per Pupil Funding Is Increased by Inflation

Amendment 23 requires the General Assembly to increase the statewide base per pupil funding amount by at least inflation for FY 2018-19. House Bill 18-1379 implements that requirement. Inflation for calendar year 2017 was 3.4 percent, and House Bill 18-1379 increased the statewide base by 3.4 percent, from \$6,546 in FY 2017-18 to \$6,769 in FY 2018-19. The statewide base is the dollar amount from which each school district's funding is primarily derived by applying its size, cost-of-living, and personnel costs factors to determine per pupil funding.

An increase in the statewide base also triggers school district funding changes for online per pupil funding and Accelerating Students through Concurrent Enrollment (ASCENT) per pupil funding. Online and ASCENT per pupil funding represents the amount provided to districts for students enrolled in those respective programs. Before application of the budget stabilization factor, it increases each year by the same percentage increase as the statewide base, or 3.4 percent in FY 2018-19. This increases online and ASCENT per pupil funding from \$7,894 in the current budget year to \$8,162 in FY 2018-19, before application of the budget stabilization factor. After application of the budget stabilization factor, online and ASCENT per pupil funding will be \$7,455 in FY 2018-19.

Categorical Programs

Categorical programs provide funding for specific educational purposes. Amendment 23 defines certain programs, including special education and pupil transportation, among others, as categorical programs and requires that state funding for these programs in the aggregate increase by at least inflation in FY 2018-19. Generally, funding for categorical programs is contained in the Long Bill.

Substantive changes to the administration and financing of categorical programs is contained in other legislation.

Table 2 shows the FY 2018-19 state appropriation for categorical programs. It also includes the dollar increase and percent change in the appropriation from FY 2017-18. Note that some of these programs, such as special education and English language proficiency, receive federal funds in addition to the amounts shown in Table 2.

Table 2
FY 2018-19 Appropriations for Categorical Programs
(dollars in million)

Categorical Program	FY 2018-19 Appropriation	FY 2017-18 Appropriation	Change from Prior Year	Percent Change
Special Education - Children with Disabilities	\$176.1	\$171.6	\$4.5	2.6%
English Language Proficiency	\$21.6	\$20.3	\$1.3	6.4%
Transportation	\$59.1	\$57.6	\$1.5	2.6%
Gifted and Talented	\$12.5	\$12.4	\$0.1	0.8%
Small Attendance Centers	\$1.1	\$1.1	\$0.0	0.0%

Vocational Education	\$26.7	\$26.1	\$0.6	2.3%
Comprehensive Health Education	\$1.1	\$1.0	\$0.1	10.0%
Total	\$307.7	\$297.6	\$10.1	3.4%

Miscellaneous Provisions of House Bill 18-1379

The remaining provisions of House Bill 18-1379 alter funding for other K-12 programs or purposes, summarized in the following bullet points.

- **Supplemental Assistance to Rural Schools.** HB 18-1379 distributes \$30 million to qualifying rural school districts on a one-time basis in FY 2018-19. The money is distributed outside the funding formula, on a per pupil basis, using the FY 2017-18 district's funded pupil count. To qualify, districts must be classified as rural or small rural by CDE and have a funded pupil count less than 6,500. The bill specifies that 55 percent of the funding is to be allocated to large rural districts (funded pupil count between 1,000 and 6,500) and 45 percent is to be allocated to small rural districts (funded pupil count less than or equal to 1,000)
- Currently, 147 districts with a total funded pupil count of 134,856 are classified as rural and have less than 6,500 students. Of these, 39 large rural districts have a funded pupil count of 97,382, implying a per pupil payment of about \$169, while 108 small rural districts have a funded pupil count of 37,474, implying a per pupil payment of about \$360. Appendix B lists the funded pupil count and distribution of payments to qualified districts on a district-by-district basis. Large rural districts are denoted as rural in the appendix. District funded pupil counts include totals for CSI schools located within the district.
- **ECARE Slots.** A portion of the increase in total program funding results from the 1,000 additional ECARE slots contained in HB 18-1379. Because each slot is for a half day program, these slots may

be used either for preschool or to extend kindergarten to full-day kindergarten for 500 additional students. It is not possible to know in advance which districts will receive these slots. Using data on "unmet need" within districts provided by CDE for a proximate distribution, these additional slots add \$4,151,996 to the state's share of total program.

- ***English Language Learner (ELL) Funding.*** This bill changes the allocation of funding between non and limited English proficient students and newly designated fluent students. Changing the allocation is expected to increase funding distributions by \$1,464,458 in FY 2018-19.

Currently, CDE must distribute 75 percent of its ELL categorical funding to support students with non or limited English proficiency, and 25 percent to support students designated as having fluent English proficiency and require monitoring for two years after this designation. Because the number of students designated as fluent has significantly declined recently, the per pupil allocation has increased above the statutory cap of 10 percent of the prior year's per pupil revenue. In FY 2017-18, CDE was unable to distribute \$378,944 in already appropriated funds. Allocating funding in proportion to the number of students in each category will enable the full distribution of available funds. While this change is expected to increase expenditures by \$1,464,458, no additional appropriation is required.

- **Reporting Requirements.** This bill modifies reporting requirements related to core course level participation and performance reports and educator effectiveness preparation programs. These modifications will not substantially impact workload requirements for CDE.
