Colorado Revised Statutes 2023

TITLE 22

EDUCATION

Cross references: For provisions on junior colleges, contained in this title prior to 1975, see articles 71 and 72 of title 23.

GENERAL AND ADMINISTRATIVE

ARTICLE 1

General Provisions

22-1-101. Schools defined. (1) A public school is a school that derives its support, in whole or in part, from moneys raised by a general state, county, or district tax.

(2) A charter school is a public school that operates pursuant to a charter contract entered into pursuant to the provisions of article 30.5 of this title. As used in this title, unless the context otherwise requires, "charter school" includes any type of charter school created pursuant to the provisions of article 30.5 of this title.

22-1-102. Residence of child. (1) Every public school shall be open for the admission of all children, between the ages of five and twenty-one years, residing in that district without the payment of tuition. The board of education shall have power to admit adults and children not residing in the district if it sees fit to do so and to fix the terms of such admission.

(2) A child shall be deemed to reside in a school district if:

(a) Both his or her parents, or the survivor of them, or the one of them with whom such child resides a majority of the time pursuant to an order of any court of competent jurisdiction resides in the school district;

(b) The legally appointed guardian of his person resides in the school district;

(c) After emancipation by his parents, or the survivor thereof, from their or his control, and he has no guardian, he lives within the school district;

(d) In the judgment of the board of education of the school district wherein the child lives, the child has been abandoned by his parents;

(e) The child has become permanently dependent for his maintenance and support on someone other than his nonresident parents, or upon any charitable organization, if the
dependent child is actually to make his home and receive his support within the school district
where he desires to attend;

(f) If one of the child's parents or the guardian of his person is a public officer or
employee living temporarily for the performance of his duties in a school district other than that
of his residence. Unless the parents of a child are permanently separated, the residence of the
husband shall be deemed to be the residence of the child, but, if the parents have permanently
separated, the residence of the child shall be that of the parent with whom the child actually
lives.

(g) Regardless of the residence of the parents, if any, the child adopts a dwelling place
within the district with the intent to remain there indefinitely and with the intent not to return to
the dwelling place from which he came, and regularly eats or sleeps there, or both, during the
entire school year as defined in section 22-1-112; but the child shall be deemed not to have the
requisite intent if he regularly returns to another dwelling place during summer vacations or
weekends;

(h) The child is found to be homeless pursuant to the provisions of section 22-1-102.5
and the child presently seeks shelter or is located in the school district; except that a homeless
child shall be deemed to reside in another school district if the child attended school in such
school district at the time the child became homeless, the child remains homeless, the affected
school districts find that attendance in such other school district is in the best interests of the
child pursuant to section 22-33-103.5, and the child chooses to continue attendance in such other
school district;

(i) The child is found to have become homeless pursuant to the provisions of section
22-1-102.5 during a period that school is not in session, the child remains homeless, and the
child presently seeks shelter or is located in the school district; except that the child shall be
deemed to reside in another school district if the child attended school in such school district
immediately prior to the time the child became homeless, the child remains homeless, the
affected school districts find that attendance in such other school district is in the best interests of
the child pursuant to section 22-33-103.5, and the child chooses to continue attendance in such other
school district; or

(j) The child is a student in out-of-home placement, as defined in section 22-32-138, but
is enrolled in a school of origin, as defined in section 22-32-138, other than an approved facility
school, as defined in section 22-2-402, or a state-licensed day treatment facility and was
considered a resident of the school district at the time the child became a student in out-of-home
placement or at the time of enrollment in the school of origin, whichever is most recent.

(3) School districts shall follow the procedures specified in section 22-33-103.5 in
determining where a homeless child shall attend school and the educational services provided to
homeless children.

37, 824, §§ 1, 2. L. 73: p. 1280, § 3. L. 90: (2)(h) added, p. 1040, § 1, effective April 3. L. 98:
(2)(a) amended, p. 1410, § 74, effective February 1, 1999. L. 2002: (2)(h) amended and (2)(i)
and (3) added, pp. 204, 205, §§ 2, 3, effective July 1. L. 2005: (1) amended, p. 69, § 2, effective
March 25. L. 2023: (2)(i) amended and (2)(j) added, (HB 23-1089), ch. 112, p. 401, § 1,
effective April 25.
Cross references: For the constitutional requirement for establishment and maintenance of public schools, see § 2 of article IX of the state constitution.

22-1-102.5. Definition of homeless child. (1) The general assembly finds and declares that, because of the growing number of children and families who are homeless in Colorado, there is a need to ensure that all homeless children and youth receive a proper education. It is the intent of the general assembly that no child or youth shall be denied the benefits of a free education in the public schools because the child or youth is homeless.

(2) (a) As used in this article 1, unless the context otherwise requires, "homeless child" means:

(I) A school-aged child or youth, including preschool, who lacks a fixed, regular, and adequate nighttime residence, including but not limited to:

(A) A child or youth who is living in a motel, hotel, or camping ground due to a lack of alternative adequate accommodations;

(B) A child or youth who is living in an emergency or transitional shelter; and

(C) A child or youth who is abandoned in a hospital;

(D) (Deleted by amendment, L. 2018.)

(II) A school-aged child or youth, including preschool, who has a primary nighttime residence that is:

(A) A supervised, publicly or privately operated shelter designed to provide temporary living accommodations, including welfare hotels, congregate shelters, and transitional housing for persons with behavioral or mental health disorders; or

(B) (Deleted by amendment, L. 2018.)

(C) A public or private place not designed for, nor ordinarily used as, a regular sleeping accommodation for human beings, including but not limited to an automobile, a park, an abandoned building, a bus or train station, or a similar setting; or

(III) A child or youth who is sharing the housing of another due to loss of housing, economic hardship, or for similar reasons.

(b) "Homeless child" shall not include any individual imprisoned or otherwise detained pursuant to an act of congress or a state law.

(c) "Homeless child" shall include a migrant school-aged child, including preschool, who meets the requirements of this subsection (2).

(d) "Homeless child" shall include a school-aged child, including preschool, who meets the requirements of this subsection (2) who is not in the physical custody of a parent or legal guardian.

Cross references: For the legislative declaration in SB 17-242, see section 1 of chapter 263, Session Laws of Colorado 2017. For the legislative declaration in HB 18-1306, see section 1 of chapter 364, Session Laws of Colorado 2018.
22-1-103. Policy of state to instruct in English - exceptions. Instruction in the common branches of study in the public schools of this state shall be conducted principally through the medium of the English language; except that it shall be the policy of the state also to encourage the school districts of the state to develop bilingual skills and to assist pupils whose experience is largely in a language other than English to make an effective transition to English with the least possible interference in other learning activities.

22-1-104. Teaching of history, culture, and civil government. (1) (a) The history and civil government of the United States and of the state of Colorado, which includes the history, culture, and social contributions of minorities, including but not limited to American Indians, Latinos, African Americans, and Asian Americans, the lesbian, gay, bisexual, and transgender individuals within these minority groups, and the intersectionality of significant social and cultural features within these communities, and the contributions and persecution of religious minorities, must be taught in all the public schools of the state.

(b) In addition to the requirements specified in subsection (1)(a) of this section, courses for teaching the civil government of the United States and of the state of Colorado must include instruction on:

(I) The three branches of government and how they interact; an understanding of how laws are enacted at the federal, state, and local government levels; and the methods by which citizens shape and influence government and governmental actions;

(II) The formation and development of the governments of the United States and the state of Colorado using federal and state foundational documents and the significance and relevance of those foundational documents in modern society. At a minimum, this instruction must include:

(A) The historical and modern significance of the declaration of independence;
(B) How the United States constitution establishes the federal government and the characteristics of the republic that it creates;
(C) How the Colorado constitution establishes the state government and its relationship to local governments in the state;
(D) How the United States constitution with the bill of rights and the state bill of rights in article II of the state constitution are applicable in modern society;
(E) How the United States constitution is amended and the changes that have been made to it since 1787;
(F) How the Colorado constitution is amended and the changes that have been made to it since 1876;
(G) How other foundational documents of the United States and Colorado, including landmark United States supreme court decisions and significant Colorado supreme court decisions, aided in the formation and have subsequently affected the development of the United States and Colorado governments; and

(H) How to engage with federal, state, and local governments and how to engage with public officials.

Colorado Revised Statutes 2023 Page 4 of 1377 Uncertified Printout
(c) Notwithstanding the requirement in section 22-7-1005 (6) to review the preschool through elementary and secondary education standards every six years, as soon as is practicable after September 7, 2021, the state board of education shall review the civics portion of the social studies standards and revise them as necessary to comply with the requirements of subsection (1)(b) of this section. The state board of education shall take into consideration any recommendations of the history, culture, social contributions, and civil government in education commission established in section 22-1-104.3 in reviewing the civics standards pursuant to this subsection (1)(c).

(d) Each public school and school district is encouraged to partner with local service organizations to solicit donations to improve the quality of the civics education program that the public school or school district provides. Donations may be used to pay the cost of developing a high-quality curriculum, inviting speakers to interact with students, and providing students with opportunities for civics learning and engagement outside of the classroom.

(2) Satisfactory completion of a course on the civil government of the United States and the state of Colorado, including the subjects described in subsection (1) of this section, is a condition of high school graduation in the public schools of this state.

(3) (a) In an effort to increase civic participation among young people, each school district board of education shall convene a community forum on a periodic basis, but not less than once every six years, for all interested persons to discuss adopted content standards in civics, including the subjects described in subsection (1) of this section. The history, culture, social contributions, and civil government in education commission established in section 22-1-104.3 shall actively participate in any such forums.

(b) Based upon input from this community forum, each school district board of education shall determine how the subject areas specified in subsection (1) of this section are addressed when establishing graduation requirements.

(4) (a) In an effort to strengthen the teaching of the history, culture, social contributions, and civil government of the state of Colorado and of the United States in all public schools of the state in accordance with the requirements of this section, the department of education, in conjunction with the history, culture, social contributions, and civil government in education commission established in section 22-1-104.3, shall assist the school districts of the state in developing and promoting programs for elementary and secondary students that engage the students in the process of discovery and interpretation of the subjects and topics set forth in subsection (1) of this section.

(b) The department of education is authorized to accept gifts, grants, and donations in furtherance of the objectives specified in subsection (4)(a) of this section.

(c) It is the intent of the general assembly that the objectives specified in subsection (4)(a) of this section are funded through the state education fund created in section 17 (4) of article IX of the state constitution. The general assembly hereby finds that the development, promotion, and maintenance by the school districts of the state of programs for elementary and secondary students that engage such students in the process of discovery and interpretation of the subjects and topics set forth in subsection (1) of this section assist these students in meeting state academic standards and may therefore be funded from money in the state education fund.

(5) (a) In an effort to strengthen the teaching of history, culture, social contributions, and civil government, as described in subsection (1) of this section, in all public schools of the state in accordance with the requirements of this section, the department of education, in conjunction
with the history, culture, social contributions, and civil government in education commission established in section 22-1-104.3, shall assist the school districts of the state in developing and promoting programs for elementary and secondary students that address the state model content standards for history and civics and promote best practices while also addressing the subjects and topics described in subsection (1) of this section.

(b) It is the intent of the general assembly that the objectives specified in this subsection (5) are funded through the state education fund created in section 17 (4) of article IX of the state constitution. The general assembly hereby finds that the development, promotion, and maintenance by the school districts of the state of programs for elementary and secondary students that address the state model content standards for history and civics and promote best practices while addressing the subjects and topics described in subsection (1) of this section assist these students in meeting state academic standards and may therefore be funded from money in the state education fund.

(6) The state board of education shall take into consideration any recommendations of the history, culture, social contributions, and civil government in education commission established in section 22-1-104.3 when performing its six-year review of the state's education standards pursuant to section 22-7-1005 (6).

Cross references: (1) For the legislative declaration contained in the 2004 act enacting subsection (5), see section 1 of chapter 251, Session Laws of Colorado 2004.

(2) For the short title ("Senator Lois Court Civics Act of 2021") and the legislative declaration in SB 21-067, see sections 1 and 2 of chapter 98, Session Laws of Colorado 2021.

22-1-104.3. History, culture, social contributions, and civil government in education commission - established - membership - duties. (1) There is established the history, culture, social contributions, and civil government in education commission, referred to in this section as the "commission". The purpose of the commission is to make recommendations to the state board of education and department of education to be used in conjunction with the regular six-year review of the state's education standards and programs pursuant to section 22-7-1005 (6). The recommendations must seek to further the discovery, interpretation, and learning of the history, culture, social contributions, and civil government of the United States and Colorado, including the contributions of American Indians, Latinos, African Americans, and Asian Americans, the lesbian, gay, bisexual, and transgender individuals within these minority groups, and the intersectionality of significant social and cultural features within these communities, and the contributions and persecution of religious minorities. The commission shall work cooperatively and in conjunction with the department of education and local school boards of education as described in section 22-1-104.
The commission consists of sixteen members and, to the extent practicable, must include persons from throughout the state and persons with disabilities and must reflect the ethnic diversity of the state. A majority of the commission members must have either classroom experience or experience in developing education content standards. On or before August 15, 2019, the appointing officials shall appoint membership of the commission as follows:

(a) The governor shall appoint, through the office of boards and commissions, the following members of the commission:
   (I) Two members from the American Indian community;
   (II) Two members from the Latino community;
   (III) Two members from the African American community;
   (IV) Two members from the Asian American community;
   (V) One member from the lesbian, gay, bisexual, and transgender community;
   (VI) One member who is a teacher and holds an initial or professional teacher license pursuant to article 60.5 of this title 22;
   (VII) One member from an organization that represents either school superintendents or local school boards; and
   (VIII) Two members representing higher education. One member must represent a large state institution of higher education, and one member must represent a smaller state institution of higher education.

(b) The commissioner of education shall appoint two members from the department of education, who are nonvoting members; and

(c) The president of the state historical society, established in part 2 of article 80 of title 24, or the president's designee, who is a nonvoting member.

(3) Commission members serve for terms of four years; except that, of the members first appointed, two members appointed pursuant to each of subsections (2)(a)(I), (2)(a)(II), and (2)(a)(III) of this section and one member appointed pursuant to subsection (2)(a)(IV) of this section, as designated by the governor, serve initial terms of two years. The appointing officials shall fill any vacancies on the commission for the remainder of any unexpired term.

(4) Beginning in September 2019, the commission shall meet a minimum of two times per year and additionally as needed in conjunction with the community forums established in section 22-1-104 (3)(a).

(5) Commission members serve without compensation but may be reimbursed for actual and reasonable expenses incurred in the performance of their duties.

22-1-104.5. Teaching of visual arts and performing arts - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Course" includes, but need not be limited to, a traditional class, an online course of study, an internship, an externship, a mentor experience, or an independent study course that culminates in an integrative or specialized performance, showcase, or exhibition.

(b) "Performing arts" means art forms that are expressed by individuals or groups that involve performance through multi-sensory experiences, which performances may include, but need not be limited to, dance, music, theater, and digital or electronic productions.
"Visual arts" means art works created by individuals or groups using a variety of media and processes, which art works may include, but need not be limited to, drawing, painting, ceramic arts, sculpture, photography, graphic arts, printmaking, media arts, electronic or digital design, textiles, jewelry, glass arts, and fine woodworking.

(2) Each public school in the state is strongly encouraged to provide courses in visual arts and in performing arts, which courses shall be based on content standards for visual arts and performing arts and provided in compliance with state and federal law. School districts and public schools are strongly encouraged to explore and implement innovative delivery mechanisms for performing arts and visual arts courses, including but not limited to using on-site technology and software, online education, and collaboration among community colleges, other school districts or public schools, boards of cooperative services, and regional service areas.

Cross references: For the legislative declaration in the 2010 act adding this section, see section 1 of chapter 233, Session Laws of Colorado 2010.

22-1-104.7. Teaching of Holocaust and genocide studies - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Genocide" means any of the following acts committed with the intent to destroy, in whole or in part, a national, ethnic, racial, or religious group:

(I) Killing members of a national, ethnic, racial, or religious group;

(II) Causing serious bodily or mental harm to members of a national, ethnic, racial, or religious group;

(III) Deliberately inflicting on a national, ethnic, racial, or religious group conditions of life calculated to bring about its physical destruction in whole or in part;

(IV) Imposing measures intended to prevent births within a national, ethnic, racial, or religious group; or

(V) Forcibly transferring children of a national, ethnic, racial, or religious group to another group.

(b) "Holocaust" means the systematic, bureaucratic, state-sponsored persecution and murder of approximately six million Jews and five million individuals targeted for their religion, disability, or identity by the Nazi regime and its collaborators.

(c) "Holocaust and genocide studies" means studies on the Holocaust, genocide, and other acts of mass violence, including but not limited to the Armenian Genocide.

(2) (a) For school years beginning on or after July 1, 2023, each school district board of education and charter school shall incorporate the standards on Holocaust and genocide studies developed by the state board pursuant to section 22-7-1005 (2.7) into an existing course that is currently a condition of high school graduation.

(b) The provisions of subsection (2)(a) of this section applies only if the standards are adopted by the state board on or before July 1, 2023.

(3) A school district or charter school may utilize the resource bank created pursuant to section 22-2-127.3 or other alternative programs or materials to implement the provisions of this section. Any programs or materials used in teaching Holocaust and genocide studies must
represent best practices and be developed using input from experts in the area of Holocaust and genocide studies.

**Source:** L. 2020: Entire section added, (HB 20-1336), ch. 252, p. 1227, § 1, effective July 8.

### 22-1-105. Commissioner of education to provide course. (Repealed)

### 22-1-106. Information as to honor and use of flag.

1. The commissioner of education shall provide the necessary instruction and information so that all teachers in the grade and high schools in the state of Colorado may teach the pupils therein the proper respect of the flag of the United States, to honor and properly salute the flag when passing in parade, and to properly use the flag in decorating and displaying.
2. (Deleted by amendment, L. 2004, p. 166, § 1, effective March 17, 2004.)
3. Each school district shall provide an opportunity each school day for willing students to recite the pledge of allegiance in public elementary and secondary educational institutions. Any person not wishing to participate in the recitation of the pledge of allegiance shall be exempt from reciting the pledge of allegiance and need not participate.

### 22-1-107. Pupils to be instructed.

Upon such information and instruction being furnished, it is the duty of each teacher in such schools to see that the pupils therein receive such instruction and information.

### 22-1-108. Federal constitution to be taught.

In all public and private schools located within the state of Colorado, there shall be given regular courses of instruction in the constitution of the United States.

### 22-1-109. Taught at what stages.

Such instruction in the constitution of the United States shall begin not later than the opening of the junior high schools or seventh grade and shall continue in the high school course and in courses in state colleges, universities, and the educational departments of state and municipal institutions to an extent to be determined by the commissioner of education.
22-1-110. Effect of use of alcohol and controlled substances to be taught. The nature of alcoholic drinks and controlled substances, as defined in section 18-18-102 (5), C.R.S., and special instruction as to their effects upon the human system in connection with the several divisions of the subject of physiology and hygiene, as to the physical, emotional, psychological, and social dangers of their use with an emphasis upon the nonuse of such substances by school-age children, and as to the illegal aspects of their use shall be included in the branches of study taught to school-age children during grades kindergarten through twelve in the public schools of the state. They shall be studied and taught, as thoroughly and in the same manner as other like required branches are taught in said schools, by the use of instructional materials and strategies designated by the board of directors of the respective school districts.

22-1-110.5. Education regarding human sexuality - prior written notice to parent - content standards. (Repealed)

22-1-111. Failure to teach temperance. (Repealed)

22-1-112. School year - national holidays. The school year shall begin on the first day of July and end on the thirtieth day of June. The term "national holidays" in this title shall be construed to mean Thanksgiving day, Christmas day, New Year's day, the third Monday in January, observed as the birthday of Dr. Martin Luther King, Jr., Washington-Lincoln day, Memorial day, Labor day, Independence day, and Veterans' day.

22-1-113. School census - oath of parent. (Repealed)
22-1-114. Statements from private schools. Whenever requested by the board of education of the school district in which a private school is located, if not more often than once per month, the person or corporation in charge and control of any school other than a public school shall certify in writing, and, if so requested, upon forms or blanks furnished by the said school district for that purpose, a statement containing the name, age, place of residence, and number of days of attendance at school during the preceding month or since the preceding report of all children of school age who then are or since the preceding report have been attending any such school.

22-1-115. School census - school age. A school census is a census embracing all persons between the ages of five and twenty-one years. School age is any age over five and under twenty-one years; but any child attaining school age during the school year may be admitted to school subject to the requirements for admission fixed by the school board of the district in which he or she applies for enrollment.

22-1-116. School children - sight and hearing tests. The sight and hearing of all children in the kindergarten, first, second, third, fifth, seventh, and ninth grades, or children in comparable age groups referred for testing, shall be tested during the school year by the teacher, principal, or other qualified person authorized by the school district. Each school in the district shall make a record of all sight and hearing tests given during the school year and record the individual results of each test on each child's records. The parents or guardian shall be informed when a deficiency is found. The provisions of this section shall not apply to any child whose parent or guardian objects on religious or personal grounds.

22-1-117. Secret fraternities forbidden. It is unlawful for any pupil who is registered in and attending any high school, district, primary, or graded school which is partially or wholly maintained by public funds to join or become a member of any secret fraternity, sorority, or society wholly or partially formed from the membership of pupils attending any such schools or to belong to or to take part in the organization or formation of any fraternity, sorority, or society, except such societies or associations as shall be sanctioned by the board of directors of the school districts wherein such schools are maintained.

22-1-118. School board to enforce. The boards of directors of all school districts shall enforce the provisions of section 22-1-117, and shall have full power to make, adopt, and modify all rules and regulations which in their judgment and discretion may be necessary for the proper governing of such schools and for the enforcing of all the provisions of section 22-1-117.

22-1-119. Students - dispensing of drugs to - liability. Any school employee who dispenses any drug, as such term is defined in section 12-280-103 (16), to a student in accordance with written instructions from a parent or legal guardian shall not be liable for damages in any civil action or subject to prosecution in any criminal proceedings for an adverse drug reaction suffered by the student as a result of dispensing such drug.

22-1-119.1. Policy for employee and agent possession and administration of opiate antagonists - definitions. (1) A school district board of education of a public school, the state charter school institute for an institute charter school, or the governing board of a nonpublic school may adopt and implement a policy whereby:

(a) A school under its jurisdiction may acquire and maintain a stock supply of opiate antagonists; and

(b) An employee or agent of the school may, after receiving appropriate training, administer an opiate antagonist on school grounds to assist an individual who is at risk of experiencing an opiate-related drug overdose event. The training provided pursuant to this subsection (1)(b) must include risk factors for overdose, recognizing an overdose, calling emergency medical services, rescue breathing, and administering an opiate antagonist.

(2) An employee or agent of a school acting in accordance with a policy adopted pursuant to this section is not subject to civil liability or criminal prosecution, as specified in sections 13-21-108.7 (3) and 18-1-712 (2), respectively.

(3) As used in this section:

(a) "Opiate antagonist" means naloxone hydrochloride or any similarly acting drug that is not a controlled substance and that is approved by the federal food and drug administration for the treatment of a drug overdose.

(b) "Opiate-related drug overdose event" means an acute condition, including a decreased level of consciousness or respiratory depression, that:

(I) Results from the consumption or use of a controlled substance or another substance with which a controlled substance was combined;

(II) A layperson would reasonably believe to be caused by an opiate-related drug overdose event; and
(III) Requires medical assistance.

22-1-119.2. Policy for employee and agent furnishing non-laboratory synthetic opiate detection tests - definition. (1) A school district board of education of a public school, the state charter school institute for an institute charter school, or the governing board of a nonpublic school may adopt and implement a policy whereby a school under its jurisdiction may acquire and maintain a supply of non-laboratory synthetic opiate detection tests, and an employee or agent of the school may furnish non-laboratory synthetic opiate detection tests on school grounds to any individual.

(2) As used in this section, "non-laboratory synthetic opiate detection test" means a product that is intended or designed to detect the presence of a synthetic opiate.

Cross references: For the legislative declaration in HB 22-1326 stating the purpose of, and the provision directing legislative staff agencies to conduct, a post-enactment review pursuant to § 2-2-1201 scheduled in 2025, see sections 1 and 55 of chapter 225, Session Laws of Colorado 2022. To obtain a copy of the review, once completed, go to "Legislative Resources and Requirements" on the Colorado General Assembly's website.

22-1-119.3. Policy for student possession and administration of prescription medication - rules - definitions. (1) A school district board of education shall adopt and implement a policy whereby, except as described in subsection (3) of this section, a student enrolled in a school of the school district may possess and self-administer on school grounds, upon a school bus, or at any school-sponsored event any medication that is prescribed by a licensed health-care practitioner to be used by the student and shall adopt and implement a policy consistent with subsections (3)(c), (3)(d), and (3)(d.5) of this section.

(2)(a) If a school district board of education adopts and implements a policy described by subsection (1) of this section, a parent or legal guardian of a student who is enrolled in a school of the school district and for whom medication is prescribed by a licensed health-care practitioner shall notify the school's administration of the student's medical needs and of the fact that the student may be in possession of his or her prescribed medications as described in subsection (1) of this section. The notification, when appropriate, shall include the treatment plan that has been devised for the student by a licensed health-care practitioner.

(b) If a school's administration receives notice from a student's parent or legal guardian that the student may be in possession of his or her prescribed medications, the school's administration shall ensure that such notice is provided to the student's teachers and the school nurse or other person who is designated to provide health services to students at the school.

(c) Nothing in this section shall be construed to limit the ability of a public school to require a parent or legal guardian of a student who has medication prescribed for a
life-threatening condition to provide to the school a sufficient supply of the medication to be stored at the school to be administered to the student in the event of a health emergency.

(3) (a) A policy adopted by a school district board of education pursuant to subsection (1) of this section must include but need not be limited to:

(I) A process by which a school may restrict a student from possessing and self-administering on school grounds, on a school bus, or at a school-sponsored event a medication that is prescribed by a licensed health-care practitioner to be used by the student. The process must require the school administration to make a determination as to whether a student's possession or self-administration of the medication poses a significant risk of harm to the student or to other students.

(II) A requirement that if a student has medication prescribed for a life-threatening condition, a sufficient supply of the medication is provided to the school by the student's parent or legal guardian, stored safely at the school, and kept readily available to be administered to the student in a timely fashion in the event of a health emergency; and

(III) Processes for the storage, possession, and administration of medical marijuana in a nonsmokeable form to a student who holds a valid recommendation for medical marijuana upon the grounds of the preschool or primary or secondary school in which the student is enrolled. For purposes of this section, a public school shall treat a recommendation for a nonsmokeable form of medical marijuana from a licensed physician as medication that is prescribed by a licensed health-care practitioner.

(b) A student who possesses a prescribed medication on school grounds, upon a school bus, or at a school-sponsored event in accordance with a policy adopted by a school district pursuant to this section may possess only enough of his or her prescribed medication to render a sufficient dosage to the student to adequately treat the student's condition for a single day or for the duration of the event, whichever is appropriate; except that this provision shall not apply to a student who requires and possesses an insulin pump or other medical device that delivers dosages of prescribed medication to the student over a period of time that exceeds a single day or the duration of the event.

(c) A student shall not possess or self-administer medical marijuana on school grounds, upon a school bus, or at any school-sponsored event, except as provided for in paragraph (d) of this subsection (3).

(d) (I) A primary caregiver may possess, and administer to a student who holds a valid recommendation for medical marijuana, medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event. School personnel may volunteer to possess, administer, or assist in the administration of medical marijuana in a nonsmokeable form to any student with a valid recommendation for medical marijuana. The primary caregiver or volunteer shall not administer the nonsmokeable medical marijuana in a manner that creates disruption to the educational environment or causes exposure to other students.

(II) Nothing in this section requires the school district staff to administer medical marijuana.

(III) A school district board of education or charter school may adopt policies regarding who may act as a primary caregiver pursuant to this paragraph (d) and the reasonable parameters of the administration and use of medical marijuana in a nonsmokeable form upon the grounds of
the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event.

(IV) This subsection (3)(d) does not apply to a school district or charter school if:
(A) The school district or charter school loses or will lose federal funding as a result of implementing this subsection (3)(d);
(B) The school district or charter school can demonstrate a reasonable, documented expectation of lost federal funding based on federal guidance or grant requirements directly as a result of implementing this subsection (3)(d); and
(C) The school district or charter school posts on its website in a conspicuous place a statement regarding its decision not to comply with this paragraph (d).

(V) Student possession, use, distribution, or sale or being under the influence of a cannabinoid product inconsistent with this paragraph (d) is not permitted.

(VI) This paragraph (d) shall be known as "Jack's Law".

(d.5) (I) Medical marijuana in a nonsmokeable form shall be administered at a school pursuant to this subsection (3)(d.5) according to a written plan for the administration of medical marijuana in a nonsmokeable form that is agreed to and signed by the school principal or his or her designee and a parent or legal guardian that is consistent with the school board's adopted policy required by subsection (3)(a)(III) of this section and the instructions or plan for administration from one of the student's recommending physicians, including dosing, timing, and delivery route instruction.

(II) Prior to the administration of medical marijuana in a nonsmokeable form at school, the student's parent or legal guardian shall complete and submit to the school the documentation required by rule of the state board of education, including but not limited to:
(A) A written medical marijuana recommendation that includes the signature of one of the recommending physicians and the purpose, recommended dosage, frequency, and length of time between dosages of the medical marijuana in a nonsmokeable form to be administered; and
(B) A written statement from the student's parent or legal guardian releasing the school, and employees and volunteers of the school, from liability, except in cases of willful or wanton conduct or disregard of the criteria of the treatment plan.

(III) (A) Subject to the requirements specified in subsections (3)(d.5)(I) and (3)(d.5)(II) of this section, school personnel may possess, and administer to a student who holds a valid recommendation for medical marijuana, medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event. The school personnel shall not administer the nonsmokeable medical marijuana in a manner that creates disruption to the educational environment or causes exposure to other students. If a student who is subject to the provisions of this subsection (3)(d.5) takes a school trip outside of the state of Colorado or participates in a school activity outside of the state of Colorado, the provisions of this subsection (3)(d.5) do not apply for the time during which the student is engaged in the trip or activity outside of the state of Colorado.

(B) Nothing in this subsection (3)(d.5) requires any school personnel to administer medical marijuana.

(C) It is an exception from the state's criminal laws for school personnel to possess and administer medical marijuana in a nonsmokeable form in compliance with this subsection.
(d.5) to a student who holds a valid recommendation for medical marijuana, except as otherwise provided in section 18-18-406.3.

(D) A school district board of education or a school administration shall not discipline or retaliate against any school personnel who volunteers to possess, administer, or assist in the administration of medical marijuana in a nonsmokeable form pursuant to the instructions or plan for administration from one of the student's recommending physicians, including dosing, timing, and delivery route instruction.

(IV) A school may adopt policies regarding the reasonable parameters of the administration and use of medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event.

(V) This subsection (3)(d.5) does not apply to a school if:

(A) The school loses or will lose federal funding as a result of implementing this subsection (3)(d.5);

(B) The school can demonstrate a reasonable, documented expectation of lost federal funding based on federal guidance or grant requirements directly as a result of implementing this subsection (3)(d.5); and

(C) The school posts on its website in a conspicuous place a statement regarding its decision not to comply with this subsection (3)(d.5).

(VI) Student possession, use, distribution, or sale, or a student being under the influence, of a cannabinoid product inconsistent with this subsection (3)(d.5) is not permitted.

(VII) The student's parent, guardian, or designee shall deliver the student's medical marijuana in a nonsmokeable form, in a container that contains clearly labeled instructions or the plan for administration must clearly specify instructions for the dosing, timing, and delivery route instructions from one of the student's recommending physicians, to the volunteer or school personnel designated by the school as the person who secures the medical marijuana before the student attends school for the school day. The volunteer or school personnel shall administer the medical marijuana pursuant to the instructions or plan for administration from one of the student's recommending physicians, including dosing, timing, and delivery route instruction. The volunteer or school personnel who secures the medical marijuana in a nonsmokeable form shall place the medical marijuana in a locked storage container that does not significantly delay access to or the administration of the medical marijuana in a nonsmokeable form in a medical emergency. The person who secures the medical marijuana in a nonsmokeable form may return any unused medical marijuana to the student's parent, guardian, or designee at the end of each school day, or, if allowed by the treatment plan, the medical marijuana in a nonsmokeable form may be kept on school grounds overnight in a locked storage container.

(VIII) Neither this section nor any other state or federal law, including without limitation the "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended, and section 504 of the "Rehabilitation Act of 1973", 29 U.S.C. sec. 794, as amended, may be used to require a school or any employee or volunteer thereof to store medical marijuana on the grounds of a school, school bus, or school-sponsored event or to administer medical marijuana.

(IX) For purposes of this subsection (3)(d.5), "school personnel" means school personnel designated by agreement between the principal or his or her designee and a parent or legal guardian, including any school personnel acting as a volunteer pursuant to subsection (3)(d)(I) of this section.
(e) Notwithstanding the provisions of section 22-33-106 (1)(d)(II), a school district or charter school may not discipline a student who holds a valid recommendation for medical marijuana solely because the student requires medical marijuana in a nonsmokeable form as a reasonable accommodation necessary for the child to attend school.

(f) A school district or charter school may not deny eligibility to attend school to a student who holds a valid recommendation for medical marijuana solely because the student requires medical marijuana in a nonsmokeable form as a reasonable accommodation necessary for the child to attend school.

(4) The state board of education may promulgate rules for the implementation of this section.

(5) A school district board of education that adopts a policy pursuant to subsection (1) of this section shall be exempt from rules promulgated by the state board of education pursuant to the "Colorado Schoolchildren's Asthma, Food Allergy, and Anaphylaxis Health Management Act", section 22-1-119.5.

(6) For purposes of this section, "medication" and "medical marijuana" do not include a physical, behavioral, psychological, verbal, or any other nontangible therapy course of treatment.

(7) Nothing in this section requires school personnel to volunteer to possess, administer, or assist in the administration of medical marijuana in a nonsmokeable form to any student with a valid recommendation for medical marijuana. A school may not require school personnel to possess, administer, or assist in the administration of medical marijuana in a nonsmokeable form against their will, nor may a school discipline school personnel for refusing to possess, administer, or assist in the administration of medical marijuana under this section.

(8) This section does not apply to a private or nonpublic school.

(9) A school located on federal land is exempt from the provisions of this section related to the administration of medical marijuana if the federal government prohibits the administration of medical marijuana at a school located on federal land.

(10) The department of education shall not subject any person licensed pursuant to article 60.5 of this title 22 to any disciplinary action related to the possession, administration, or assistance in the administration of cannabis-based medicine as allowed by this section.

(11) A school, school district, school district director, school or school district employee, or volunteer acting in good faith in accordance with the provisions of this section is immune from criminal prosecution and civil suit for such actions.

Cross references: For the legislative declaration in SB 15-014, see section 1 of chapter 199, Session Laws of Colorado 2015. For the legislative declaration in SB 21-056, see section 1 of chapter 96, Session Laws of Colorado 2021.
22-1-119.5. Asthma, food allergy, and anaphylaxis health management - self-administered medication - staff-administered medication - rules - definitions. (1) This section shall be known and may be cited as the "Colorado Schoolchildren's Asthma, Food Allergy, and Anaphylaxis Health Management Act".

(2) (a) A student with asthma, a food allergy, other severe allergies, or a related, life-threatening condition may possess and self-administer medication to treat the student's asthma, food or other allergy, anaphylaxis, or other related, life-threatening condition if the student has a treatment plan approved pursuant to this subsection (2) or the student's school district board of education has adopted a policy for student possession and administration of prescription medication pursuant to section 22-1-119.3.

(b) A public school shall, and a nonpublic school is encouraged to, approve a treatment plan for a student enrolled in the school to possess and self-administer medication for asthma, a food allergy, or anaphylaxis if all of the following conditions are met:

(I) A health-care practitioner has prescribed medication for use by the student during school hours, at school-sponsored activities, and while in transit to or from school or school-sponsored activities and has instructed the student in the correct and responsible use of the medication.

(II) The student demonstrates to the health-care practitioner or the health-care practitioner's designee and the school nurse or a school administrator the skill level necessary to use the medication and any device that is necessary to administer the medication as prescribed.

(III) The school nurse or a school administrator collaborates with the student's health-care practitioner to formulate a written treatment plan for managing asthma, food allergy, or anaphylaxis episodes of the student and for medication use by the student during school hours, at school-sponsored activities, and while in transit to or from school or school-sponsored activities.

(IV) The student's parent or legal guardian completes and submits to the public or nonpublic school the documentation required by rule of the state board of education, including but not limited to:

(A) A written medical authorization that includes the signature of the health-care practitioner for the medication prescribed; the name, purpose, prescribed dosage, frequency, and length of time between dosages of the medications to be self-administered; and confirmation from the health-care practitioner that the student has been instructed and is capable of self-administration of the prescribed medications;

(B) A written statement from the student's parent or legal guardian releasing the school, school district, any associated entity, and employees and volunteers of the school, school district, and associated entity from liability, except in cases of willful or wanton conduct or disregard of the criteria of the treatment plan; and

(C) A written contract between the school nurse or a school administrator, the student, and the student's parent or legal guardian assigning levels of responsibility to the parent or legal guardian, student, and school employees.

(c) A treatment plan shall be effective only for the school year in which it is approved. The public school shall approve a new treatment plan for each school year so long as the plan meets the conditions specified in paragraph (b) of this subsection (2). The parent or legal guardian shall submit a new treatment plan annually or more often if changes occur to the student's health or prescribed treatment.
(3) A student with a treatment plan approved pursuant to subsection (2) of this section or whose school district board of education has adopted a policy for student possession and administration of prescription medication pursuant to section 22-1-119.3 may possess and self-administer his or her medication while in school, while at school-sponsored activities, and while in transit to or from school or school-sponsored activities.

(4) With the approval of the parent or legal guardian of a student with a treatment plan approved pursuant to subsection (2) of this section, a school may maintain additional asthma, food or other allergy, or anaphylaxis medication to be kept at the school in a location to which the student has immediate access in the event of an asthma, food or other allergy, or anaphylaxis emergency.

(5) Immediately after using an epinephrine auto-injector during school hours, a student shall report to the school nurse, to the designee of the school nurse, or to some adult at the school to enable the school nurse, nurse's designee, or other adult to provide the appropriate follow-up care, which shall include making a 911 emergency call.

(5.5) (a) As used in this subsection (5.5) and in subsection (6) of this section, unless the context otherwise requires:

(I) "Administer" or "administration" means to give a dose of medicine to a student who has asthma or a food or other allergy or who is experiencing anaphylaxis, including the use of an epinephrine auto-injector, an asthma inhaler, or oral medication.

(II) "Designated school personnel" means:

(A) An employee in a school who has been trained on the administration of epinephrine auto-injectors consistent with the rules on administration of epinephrine auto-injectors and to whom a school nurse has delegated the nursing task of administering epinephrine auto-injectors to students; or

(B) An employee in a school who has been trained on the administration of epinephrine auto-injectors consistent with the rules on administration of epinephrine auto-injectors and to whom a nurse has delegated the nursing task of administering epinephrine auto-injectors to students or has been trained by a medical professional licensed under article 240 of title 12 or part 1 of article 255 of title 12 and to whom the licensee has delegated the administration of epinephrine auto-injectors under the authority of that person's license.

(III) "Governing authority of a school" means a school district board of education of a public school, the state charter school institute for an institute charter school, or the governing board of a nonpublic school.

(IV) "Prescription" means any order issued in writing, dated and signed by a physician licensed pursuant to article 240 of title 12, a physician assistant licensed in accordance with section 12-240-113, or an advanced practice registered nurse with prescriptive authority in accordance with section 12-255-112.

(V) "School" means any public or nonpublic school.

(b) A governing authority of a school may adopt and implement a policy whereby schools under its jurisdiction may acquire and maintain a stock supply of epinephrine auto-injectors.

(c) A governing authority of a school may adopt a policy for schools within its jurisdiction to authorize the school nurse or other designated school personnel to administer an epinephrine auto-injector to any student that the school nurse or designated school personnel in good faith believes is experiencing anaphylaxis, in accordance with standing orders and
protocols from a licensed physician, physician assistant, or advanced practice registered nurse with prescriptive authority, regardless of whether the student has a prescription for an epinephrine auto-injector.

(d) A governing authority of a school may enter into arrangements with manufacturers of epinephrine auto-injectors or third-party suppliers of epinephrine auto-injectors to obtain epinephrine auto-injectors at fair-market or reduced prices or for free.

(e) The governing authority of a public school that decides to maintain a supply of epinephrine auto-injectors as described in this subsection (5.5) shall:

(I) Implement a plan based on the rules developed pursuant to subsection (8) of this section for the management of students with life-threatening allergies enrolled in schools under its jurisdiction; and

(II) Make such plan available on such governing authority's website or the website of each school under the governing authority's jurisdiction, or if such websites do not exist, make such plan available to parents and other interested persons through other practical means as determined by such governing authority.

(f) To qualify for the protections in subsection (6) of this section, the governing authority of a nonpublic school that decides to maintain a supply of epinephrine auto-injectors as described in this subsection (5.5) must implement a plan based on the rules adopted by the state board of education as described in subsection (8) of this section.

(g) The department of education shall develop and publish an annual report compiling, summarizing, and analyzing all incident reports submitted to the department pursuant to paragraph (e) of subsection (8) of this section.

(6) Unless the damages were caused by willful or wanton conduct or disregard of the criteria of an approved treatment plan, if the provisions of this section are met, a school, school district, school district director, or school or school district employee not otherwise provided for under section 13-21-108, C.R.S., shall not be liable in a suit for damages as a result of an act or omission related to:

(a) A student's own use of the student's epinephrine auto-injector or any other medication contained in an approved treatment plan; or

(b) The good-faith administration of an epinephrine auto-injector in accordance with a policy and standing orders and protocols on the administration of epinephrine auto-injectors as described in paragraph (c) of subsection (5.5) of this section and pursuant to a plan adopted pursuant to paragraph (e) or (f) of subsection (5.5) of this section.

(7) Nothing in this section shall be interpreted to create a cause of action or increase or diminish the liability of any person.

(8) The state board of education, with assistance from the department of public health and environment, shall promulgate and revise, as necessary, rules for treatment plans for the management of students with life-threatening allergies pursuant to this section. The state board of education shall adopt rules on or before December 31, 2013, to include, but not be limited to:

(a) Education and training for school nurses and designated school personnel on the management of students with life-threatening allergies, including training related to the administration of an epinephrine auto-injector. In developing the rules on education and training, the state board shall solicit input from an organization that represents school nurses.

(b) Procedures for responding to life-threatening allergic reactions;
(c) A process for the development of individualized health-care and allergy action plans for every student with a known life-threatening allergy, including the self-administration of medications pursuant to subsection (2) of this section;

(d) Protocols to prevent exposure to allergens;

(e) Requirements for each school to submit, on a form developed by the department of education, a report of each incident at the school or a related-school event involving a severe allergic reaction or the administration of an epinephrine auto-injector or both;

(f) Requirements for school nurses in schools that have adopted a policy allowing for the administration of epinephrine auto-injectors pursuant to subsection (5.5) of this section to report to the department whether the school nurse has trained and designated any school personnel to administer epinephrine auto-injectors and, if so, the number of employees in the school or school district that have been trained and designated to administer epinephrine auto-injectors;

(g) Detailed standards for training programs that must be completed by school nurses and designated school personnel in order to administer an epinephrine auto-injector in accordance with subsection (5.5) of this section. Training may be conducted online and, at a minimum, shall cover:

(I) Techniques on how to recognize symptoms of severe allergic reactions, including anaphylaxis;

(II) Standards and procedures for the storage and administration of an epinephrine auto-injector; and

(III) Emergency follow-up procedures after administering an epinephrine auto-injector.

(9) The department of public health and environment is authorized to audit school records for the determination of asthma and severe allergy rates within the schools and to determine the proportion of those students with asthma and severe allergies in the schools that have treatment plans allowing for self-administration of asthma and severe allergy medications. The audit shall define the extent of asthma and severe allergies among students and determine the effect of this section on the well-being of children with asthma and severe allergies in schools. The audit shall be conducted in conformance with the requirements of the "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g.

Cross references: For the legislative declaration contained in the 2005 act enacting this section, see section 1 of chapter 71, Session Laws of Colorado 2005. For the legislative declaration contained in the 2009 act amending subsections (1), (2)(a), (2)(b), and (4), see section 1 of chapter 245, Session Laws of Colorado 2009.

22-1-120. Rights of free expression for public school students. (1) The general assembly declares that students of the public schools have the right to exercise freedom of
speech and of the press, and no expression contained in a student publication, whether printed, broadcast, or online, and whether or not such publication is school-sponsored, is subject to prior restraint except for the types of expression described in subsection (3) of this section. An advisor may encourage expression consistent with high standards of English and journalism.

(2) If a publication written substantially by students is made generally available throughout a public school, it shall be a public forum for students of such school.

(3) Nothing in this section shall be interpreted to authorize the publication or distribution in any media by students of the following:
   (a) Expression that is obscene;
   (b) Expression that is libelous, slanderous, or defamatory under state law;
   (c) Expression that is false as to any person who is not a public figure or involved in a matter of public concern; or
   (d) Expression that creates a clear and present danger of the commission of unlawful acts, the violation of lawful school regulations, or the material and substantial disruption of the orderly operation of the school or that violates the rights of others to privacy or that threatens violence to property or persons.

(4) The board of education of each school district shall adopt a written publications code, which shall be consistent with the terms of this section, and shall include reasonable provisions for the time, place, and manner of conducting free expression within the school district's jurisdiction. The publications code shall be distributed, posted, or otherwise made available to all students and teachers at the beginning of each school year.

(5) (a) Student editors of school-sponsored student publications shall be responsible for determining the news, opinion, and advertising content of their publications subject to the limitations of this section. It shall be the responsibility of the publications advisor of school-sponsored student publications within each school to supervise the production of such publications and to teach and encourage free and responsible expression and professional standards for English and journalism.

   (b) For the purposes of this section, "publications advisor" means a person whose duties include the supervision of school-sponsored student publications.

(6) If participation in a school-sponsored publication is part of a school class or activity for which grades or school credits are given, the provisions of this section shall not be interpreted to interfere with the authority of the publications advisor for such school-sponsored publication to establish or limit writing assignments for the students working with the publication and to otherwise direct and control the learning experience that the publication is intended to provide.

(7) No expression made by students in the exercise of freedom of speech or freedom of the press shall be deemed to be an expression of school policy, and no school district or employee, or parent, or legal guardian, or official of such school district shall be held liable in any civil or criminal action for any expression made or published by students.

(8) Nothing in this section limits the promulgation or enforcement of lawful school regulations designed to control gangs. For the purposes of this section, "gang" has the same meaning as set forth in section 19-2.5-102.

(9) A public school employee must not be dismissed, suspended, disciplined, reassigned, transferred, or otherwise retaliated against solely for acting to protect a student engaged in the
conduct authorized pursuant to this section or for refusing to infringe upon conduct that is protected by this section or the first amendment to the United States constitution.

22-1-121. Nonpublic schools - employment of personnel - notification by department of education. (1) Prior to the employment of any person by a nonpublic school in this state, the governing board of such school may make an inquiry concerning such person to the department of education for the purpose of determining:

(a) Whether such person has been convicted of, has pled nolo contendere to, or has received a deferred sentence or deferred prosecution for:

(I) A felony; or

(II) A misdemeanor crime involving unlawful sexual behavior or unlawful behavior involving children;

(b) Whether such person has been dismissed by, or has resigned from, a school district as a result of an allegation of unlawful behavior involving a child, including unlawful sexual behavior, which was supported by a preponderance of the evidence according to information provided to the department by a school district pursuant to section 22-32-109.7 and confirmed by the department pursuant to the provisions of section 22-2-119 (1)(b);

(c) If a holder of a license or authorization pursuant to the provisions of article 60.5 of this title, whether such person's certificate, letter of authorization, authorization, or license has ever been annulled, suspended, or revoked pursuant to the provisions of section 22-60-110 (2)(b) as said section existed prior to July 1, 1999, or pursuant to article 60.5 of this title following a conviction, a plea of nolo contendere, or a deferred sentence for a crime involving unlawful sexual behavior or unlawful behavior involving children.

(1.5) During the time that a person is employed by a nonpublic school in this state, the governing board of such school may make an inquiry concerning such person to the department of education for the purposes described in subsection (1) of this section.

(1.7) (a) To facilitate the inquiry permitted by subsection (1) or (1.5) of this section, the governing board of a participating nonpublic school shall require an applicant or employee to submit to the governing board of the school a complete set of his or her fingerprints taken by a qualified law enforcement agency, an authorized employee, or any third party approved by the Colorado bureau of investigation. At the request of a nonpublic school, a law enforcement agency that has fingerprinting equipment that meets the federal bureau of investigation image quality standards shall take the fingerprints of an applicant or employee pursuant to this section if an approved third-party vendor is not operating within twenty miles of the nonpublic school within the law enforcement agency's jurisdiction. A school employee may use any fingerprinting equipment that meets the federal bureau of investigation image quality standards. If an approved third party takes the person's fingerprints, the fingerprints may be electronically captured using Colorado bureau of investigation-approved livescan equipment. Third-party vendors shall not keep the applicant's or employee's information for more than thirty days unless requested to do

so by the applicant or employee. The governing board shall forward the set of fingerprints
together with a check to cover the direct and indirect costs of conducting a fingerprint-based
criminal history record check of the applicant or employee to the Colorado bureau of
investigation for the purpose of conducting a state and national fingerprint-based criminal
history record check utilizing records of the Colorado bureau of investigation and the federal
bureau of investigation. The department is the authorized agency to receive and disseminate
information regarding the result of any national criminal history record check. Any such national
check must be handled in accordance with Pub.L. 92-544, as amended. The department shall
notify the governing board whether a fingerprint-based criminal history record check has
identified any conviction, plea of nolo contendere, deferred sentence, or deferred prosecution
described in subsection (1) of this section.

(a.5) When the results of a fingerprint-based criminal history record check of an
applicant or employee performed pursuant to this section reveal a record of arrest without a
disposition, the governing board shall require that applicant or employee to submit to a
name-based judicial record check, as defined in section 22-2-119.3 (6)(d).

(b) All costs arising from a fingerprint-based criminal history record check performed by
the Colorado bureau of investigation and the federal bureau of investigation pursuant to this
section or a name-based judicial record check performed pursuant to this section must be borne
by the nonpublic school. The costs may be passed on to the employee or the prospective
employee.

(c) (Deleted by amendment, L. 2006, p. 926, § 6, effective July 1, 2006.)

(2) Any information received by the governing board of a nonpublic school pursuant to
subsection (1) of this section shall be confidential information and not subject to the provisions
of part 2 of article 72 of title 24, C.R.S. Any person who releases information obtained pursuant
to the provisions of said subsection (1) or who makes an unauthorized request for information
from the department shall be subject to the penalties set forth in section 24-72-206, C.R.S.;
except that any person who releases information received from the department of education
concerning information contained in the records and reports of child abuse or neglect maintained
by the state department of human services shall be deemed to have violated section 19-1-307 (4),
C.R.S.

125, p. 545, § 21, effective April 18. L. 2022: (1.7)(a.5) and (1.7)(b) amended, (HB 22-1270),
ch. 114, p. 519, § 22, effective April 21.

Cross references: For the legislative declaration contained in the 2003 act amending
subsection (2), see section 1 of chapter 196, Session Laws of Colorado 2003. For the legislative
declaration in HB SB 19-1186, see section 1 of chapter 94, Session Laws of Colorado 2019.
(1) (a) It is the intent of the general assembly in enacting this section to improve opportunities for students to gain the knowledge and skills necessary for a successful experience in postsecondary education or as members of the work force. The general assembly finds that a student should not be compelled by the lack of transportation to remain in a school that is required to implement a priority improvement or turnaround plan pursuant to section 22-11-405 or 22-11-406, respectively, or is subject to restructuring pursuant to section 22-11-210. It is therefore in the best interests of the citizens of the state to make transportation tokens available to eligible students to enable them to attend a public school that is not required to implement a priority improvement or turnaround plan pursuant to section 22-11-405 or 22-11-406, respectively, and that the school district has identified as an available choice.

(b) It is further the intent of the general assembly that the department of education pursue all other sources of moneys for the transportation token program created in this section, including but not limited to federal grants.

(2) As used in this section, unless the context otherwise requires:

(a) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

(b) "Eligible student" means a student:

(I) Who is enrolled in a public school in any of the first through eighth grades;

(II) Who is eligible for free or reduced-cost lunch pursuant to the "Richard B. Russell National School Lunch Act", 42 U.S.C. sec. 1751 et seq.;

(III) (A) Who is enrolled in a neighborhood school that is required to implement a priority improvement or turnaround plan pursuant to section 22-11-405 or 22-11-406, respectively, or is subject to restructuring pursuant to section 22-11-210; or

(B) Who has been in attendance elsewhere in the public school system or who is entering first grade and whose parent or legal guardian has been notified that the student has been assigned to a school that is required to implement a priority improvement or turnaround plan pursuant to section 22-11-405 or 22-11-406, respectively, or is subject to restructuring pursuant to section 22-11-210; and

(IV) Who, while enrolled in the neighborhood school that is required to implement a priority improvement or turnaround plan pursuant to section 22-11-405 or 22-11-406, respectively, or is subject to restructuring pursuant to section 22-11-210, met the attendance policies of the school district of the neighborhood school, adopted pursuant to section 22-33-104 (4).

(c) "Neighborhood school" means a public school to which the school district provides transportation for the student or which is located so close to the residence of the student that the school district does not provide transportation for the student.

(c.5) "Pupil enrollment count day" has the same meaning as set forth in section 22-54-103 (10.5).

(d) "State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

(3) (a) There is hereby created in the department the transportation token program, referred to in this section as the "program", to assist a parent or legal guardian of an eligible student in transporting the student to a public school, other than a neighborhood public school, which other school is not required to implement a priority improvement or turnaround plan
pursuant to section 22-11-405 or 22-11-406, respectively, and which other school has been
identified by the school district as an available choice. Pursuant to rules adopted by the state
board, the parent or legal guardian of an eligible student may apply to the program to receive a
transportation token for use in transporting the student to the nearest of said public schools that
is not a neighborhood school.

(b) An eligible student shall continue receiving transportation tokens pursuant to this
section so long as he or she continues to meet the requirements specified for an eligible student
in paragraph (b) of subsection (2) of this section; except that, after the first year in which an
eligible student receives transportation tokens, the requirement specified in subparagraph (III) of
paragraph (b) of subsection (2) of this section shall no longer apply. An eligible student shall no
longer receive transportation tokens pursuant to this section if he or she moves to another
residence, the neighborhood school for which was required to implement a performance or
improvement plan pursuant to section 22-11-403 or 22-11-404, respectively, during the school
year preceding the year in which the student initially enrolls; except that the eligible student may
receive transportation tokens in school years following initial enrollment in the new
neighborhood school if he or she again meets the requirements specified for an eligible student
in paragraph (b) of subsection (2) of this section.

(4) The state board shall determine a monetary value for the transportation token issued
at each public school that is required to implement a priority improvement or turnaround plan
pursuant to section 22-11-405 or 22-11-406, respectively, or is subject to restructuring pursuant
to section 22-11-210. The monetary value may cover a portion of the transportation costs. The
transportation token may take the form of, but is not limited to, subsidized tokens, passes, or
fares for buses, taxis, or other forms of transportation approved by the state board. In
determining the value of a transportation token, the state board shall take into account the
various transportation options available to the eligible student and the distance to be traveled by
the eligible student to attend a public school outside of the student's neighborhood. The
transportation token used by an eligible student shall be redeemable by a transportation provider
through the department.

(5) The state board shall adopt rules governing the program, including but not limited to:

(a) A procedure for parents and legal guardians of eligible students to apply to the
department for transportation tokens;

(b) A procedure to establish the value of the transportation tokens issued at each public
school; and

(c) A procedure for transportation providers to receive reimbursement for transportation
tokens received in providing transportation to eligible students.

(6) (a) The department shall ensure that for each eligible student the school district of the
neighborhood school shall:

(I) Timely notify the eligible student's parent or legal guardian of all options available
pursuant to this section as soon as the neighborhood school is required to implement a priority
improvement or turnaround plan pursuant to section 22-11-405 or 22-11-406, respectively, or is
subject to restructuring pursuant to section 22-11-210; and

(II) Offer each eligible student's parent or legal guardian an opportunity to enroll the
student in another public school within the district that is not required to implement a priority
improvement or turnaround plan pursuant to section 22-11-405 or 22-11-406, respectively, and
that the school district has identified as an available choice.
(b) So long as an eligible student is enrolled before the pupil enrollment count day, the parent or legal guardian of an eligible student may choose to enroll the eligible student in and transport the eligible student to a public school in another school district that has available space. Such school district shall enroll the eligible student and include the eligible student in the district's pupil enrollment for purposes of the "Public School Finance Act of 1994".

(c) The public school in which an eligible student enrolls shall certify to the state board the attendance of the eligible student.

(7) There is hereby created in the state treasury the transportation token fund, referred to in this subsection (7) as the "fund". The fund shall consist of all moneys appropriated to the fund by the general assembly and all other gifts, grants, donations, and other moneys obtained by the department to provide transportation assistance to parents and legal guardians of eligible students. Moneys in the fund shall be annually appropriated by the general assembly to the department to provide transportation assistance to parents and legal guardians of eligible students pursuant to this section. At the end of any fiscal year, all unexpended and unencumbered moneys in the fund shall remain in the fund and shall not be credited or transferred to the general fund. However, in accordance with section 24-36-114, C.R.S., any interest derived from the deposit and investment of moneys in the fund shall be credited to the general fund.

Cross references: For the "Public School Finance Act of 1994", see article 54 of this title.

22-1-123. Protection of student data - parental or legal guardian consent for surveys. (1) As used in this section, "education records" and "directory information" shall have the same meanings as those terms are defined in the federal "Family Educational Rights and Privacy Act of 1974", as amended, 20 U.S.C. sec. 1232g and "education records" shall include an individualized education program.

(2) A school district shall comply with the provisions of 20 U.S.C. sec. 1232g (a) and 34 CFR 99 if a parent or legal guardian of a student either requests the education records of the student or requests an amendment or other change to the education records after reviewing them.

(3) A school district shall not release the education records of a student to any person, agency, or organization without the prior written consent of the parent or legal guardian of the student except as otherwise permitted in 20 U.S.C. sec. 1232g (b).

(4) A school district shall not release directory information to any person, agency, or organization without first complying with the provisions of 20 U.S.C. sec. 1232g (a)(5)(B) related to allowing a parent or legal guardian to prohibit such release without prior consent.

(5) (a) A school district shall comply with 20 U.S.C. sec. 1232h. A school or school district employee who requires participation in a survey, assessment, analysis, or evaluation in a public school's curriculum or other official school activity shall obtain the written consent of a
student's parent or legal guardian before giving the student any survey, assessment, analysis, or evaluation intended to reveal information, whether the information is personally identifiable or not, concerning the student or the student's parent's or legal guardian:

(I) Political affiliations;

(II) Mental and psychological conditions potentially embarrassing to the student or the student's family;

(III) Sexual behavior and attitudes;

(IV) Illegal, anti-social, self-incriminating, or demeaning behavior;

(V) Critical appraisals of individuals with whom a student has close family relationships;

(VI) Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and members of the clergy;

(VII) Income, except as required by law;

(VIII) Social security number; or

(IX) Religious practices, affiliations, or beliefs.

(b) The requirement of written consent pursuant to this subsection (5) applies throughout a public school's curriculum and other school activities; except that the requirement of written consent does not apply to a student's participation in an assessment administered pursuant to part 10 of article 7 of this title. In implementing this subsection (5), the school or school district and employees shall ensure that their first responsibility is to students and their parents and shall allow only minimal use of students' academic time by institutions, agencies, or organizations outside the school or school district to gather information from students.

(c) Written consent pursuant to this subsection (5) is valid only if the school district has given a parent or legal guardian written notice of the survey, assessment, analysis, or evaluation, has made a copy of the document available for viewing at convenient locations and times, and has given the parent or legal guardian at least two weeks, after receipt of the written notice, to obtain written information concerning:

(I) Records or information that may be examined and requested in the survey, analysis, or evaluation;

(II) The means by which the records or information shall be examined reviewed, or disseminated;

(III) The means by which the information is to be obtained;

(IV) The purposes for which the records or information is needed;

(V) The entities or persons, regardless of affiliation, who will have access to the information; and

(VI) A method by which a parent or legal guardian of a student can grant or deny permission to access or examine the records or information.

(d) Nothing in this subsection (5) shall be construed to prevent a public school employee from reporting known or suspected child abuse or neglect pursuant to section 19-3-304, C.R.S.

(e) Nothing in this subsection (5) shall be construed to prevent a student who is working under the supervision of a journalism teacher or sponsor from preparing or participating in a survey, analysis, or evaluation without obtaining the written consent of such student's parent or legal guardian as long as such participation without parental consent is not otherwise prohibited by federal law.

(f) Nothing in this subsection (5) shall be construed to limit the ability of a health professional who is acting as an agent of the school district from evaluating an individual child.
(g) Nothing in this subsection (5) limits the ability of a school district to administer a suicide assessment or threat assessment.

(6) If a school district sends a form to a parent or legal guardian requesting written consent for the school district to release personally identifiable information concerning that parent's or legal guardian's child in education records other than directory information, such consent shall be valid under this section only if the form contains notice to the parent or legal guardian regarding:

(a) The specific records to be released;
(b) The specific reasons for such release;
(c) The specific identity of any person, agency, or organization requesting such information and the intended uses of the information;
(d) The method or manner by which the records will be released; and
(e) The right to review or to receive a copy of the relevant records to be released.

(7) (a) Consent for release of information pursuant to this section shall be valid only for the specific instance for which it was given.
(b) A general consent for a student to participate in any course or part of a course, in a school activity, in any special education program, or in any other school program does not constitute written consent pursuant to this section.
(c) Consent forms obtained pursuant to this section shall be retained by the school district.

(8) Any right accorded to a parent or legal guardian pursuant to this section shall transfer to the relevant student when that student attains the age of eighteen years.

(9) A school district shall, at the beginning of each academic year, provide to a parent or legal guardian of each student in the school district written notice of the rights contained in this section.

(10) The provisions of this section shall apply to any public school in the state, regardless of whether the public school receives any federal funds.

(11) The state board of education shall adopt such rules as may be necessary to implement this section.

(12) If an individual licensed, certified, endorsed, or authorized by the state board is found by the state board to have knowingly and intentionally violated the provisions of this section, the department of education may suspend or revoke such individual's license, master certificate, endorsement, or authorization for a period not less than ninety days.

(13) Nothing in this section shall be construed to prevent a school or a school district from releasing education records to the extent authorized by 20 U.S.C. sec. 1232g (b) and any other applicable federal law.

22-1-124. Sex offender information. At the beginning of each school year, each public school in the state shall provide to the parents of children attending the school a statement
identifying where and the procedures by which members of the community may obtain the law enforcement agency information collected pursuant to section 16-22-110 (6), C.R.S., concerning registered sex offenders. In addition, a school may post the statement on a website.

22-1-125. Automated external defibrillators in public schools. (Repealed)

22-1-125.5. Requirement for certification of public school athletic coaches in cardiopulmonary resuscitation - use of automated external defibrillators - definitions. (1) As used in this section, unless the context otherwise requires:
(a) "Currently certified in CPR" means that the person has completed training in cardiopulmonary resuscitation from a nationally recognized evidence-based certification program within the preceding two years.
(b) "Local education provider" means a school district, a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title, a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title, or a board of cooperative services created and operating pursuant to article 5 of this title that operates one or more public schools.
(c) "State board of education" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.
(2) No later than January 1, 2015, coaches of athletic programs employed by local education providers must be currently certified in CPR and must have received instruction in the effective use of an automated external defibrillator. The state board shall promulgate rules concerning the coaching staff positions that are included in this requirement.
(3) Nothing in this section abrogates or limits:
(a) The protections applicable to:
(I) Any person or entity that renders emergency assistance through the use of an automated external defibrillator pursuant to section 13-21-108.1 and article 53 of title 25; or
(II) Volunteers and board members pursuant to sections 13-21-115.7 and 13-21-116, C.R.S.; or
(b) The limits or protections applicable to public entities and public employees pursuant to the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S.

Cross references: For the legislative declaration in HB 14-1276, see section 1 of chapter 215, Session Laws of Colorado 2014.
22-1-126. **Safe2tell program.** As described in section 24-31-606, C.R.S., there is established the safe2tell program with the primary purpose of providing students and the community with the means to relay information anonymously concerning unsafe, potentially harmful, dangerous, violent, or criminal activities, or the threat of these activities, to appropriate law enforcement and public safety agencies and school officials.

22-1-127. **Incentives for school enrollment or attendance - prohibited - exceptions - definitions.** (1) As used in this section, unless the context otherwise requires:

(a) "Item of value" means an item, cash, or an instrument or device that can be used to obtain cash, credit, property, services, or any other thing of value, which item, cash, or instrument or device exceeds twenty dollars in value.

(b) "Local education provider" means:

(I) A school district, other than a local college district, organized and existing pursuant to law;

(II) A board of cooperative services created and operating pursuant to article 5 of this title that operates one or more public schools;

(III) A public school of a school district, including but not limited to a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title;

(IV) An institute charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title; and

(V) The state charter school institute established in section 22-30.5-503.

(c) "Parent" means the biological or adoptive mother or father or stepmother or stepfather of a child or any other person having legal or physical custody of a child.

(2) A local education provider shall not offer or provide to a school-aged child or the child's parent an item of value prior to, upon, or after enrolling in or attending an educational program operated by the local education provider unless:

(a) The local education provider makes the item of value available to the child continuously or at regular intervals throughout the school year and ceases providing the item of value if the child leaves the education program prior to the end of the school year;

(b) The local education provider awards the item of value at the end of the school year or upon matriculation in recognition of student performance; or

(c) The local education provider pays the item of value to the school-aged child or to his or her parent in exchange for services rendered by the child or by the child's parent at the request of the local education provider. For purposes of this paragraph (c), "services rendered" does not include school attendance or enrollment.

**Source:** L. 2009: Entire section added, (HB 09-1125), ch. 113, p. 477, § 1, effective April 16.
22-1-128. Comprehensive human sexuality education - legislative declaration - definitions - guidelines and content standards. (1) (a) The general assembly hereby finds and declares that:

(I) Colorado youth have a right to receive medically and scientifically accurate information to empower them to make informed decisions that promote their individual physical and mental health and well-being;

(II) This right applies to all youth, regardless of geographic location, ethnic or racial background, family income, physical or intellectual ability, sexual orientation, or gender expression;

(III) Parents, caregivers, community organizations, and other trusted adults serve as an essential part of the education process and may rely on health, education, and other professionals to provide evidence-based information that empowers youth to make decisions that are consistent with their own values and life goals;

(IV) The information, education, and skills that Colorado youth receive during their formative years provide the foundation for responsible decision-making about personal behaviors and important life decisions throughout the rest of their lives;

(V) It is important for youth to understand the consequences of the inconsistent or improper use of sexual abstinence, birth control, or condoms. All comprehensive human sexuality education must stress the importance of the correct and consistent use of sexual abstinence, birth control, and condoms to prevent pregnancy and sexually transmitted infections;

(VI) The decisions an individual makes regarding his or her sexual and reproductive health impact the public health and welfare of the community in which the individual lives;

(VII) When compared to the national average, Colorado has a lower rate of teen births and a lower rate of certain sexually transmitted infections, according to the centers for disease control and prevention and the Colorado department of public health and environment. In spite of this data, Colorado youth still face many barriers in obtaining the medically accurate information and resources they need to make informed and responsible decisions and lead healthy lives.

(VIII) According to the centers for disease control and prevention, evidence-based, medically accurate, age-appropriate, culturally sensitive, and comprehensive sexuality education programs have been proven to help youth delay the onset of sexual activity, decrease the frequency of sexual activity, reduce the number of sexual partners, and increase condom and contraceptive use;

(IX) Sexual violence and teen dating violence is a pervasive and serious public health issue, placing teen victims at increased risk for adolescent pregnancy, sexually transmitted infections, low academic performance, truancy, dropout, and other harmful behaviors;

(X) According to the centers for disease control and prevention, these changes in behavior help prevent unintended pregnancy and the spread of sexually transmitted infections;

(XI) The Colorado general assembly passed House Bill 07-1292, enacted in 2007, to establish content standards for the provision of human sexuality courses taught in public schools throughout the state;

(XII) The Colorado general assembly passed the "Public Health Reauthorization Act", Senate Bill 08-194, enacted in 2008, to create a statewide public health improvement plan to eliminate geographic-based and other disparities in the accessibility and availability of services through the state's public health agencies;
(XIII) The Colorado general assembly passed the "Preschool to Postsecondary Education Alignment Act", Senate Bill 08-212, enacted in 2008, which states that all school district standards must meet or exceed established state standards, and that school districts must adopt curriculum and assessments that are consistent with these standards; and

(XIV) In 2009, the Colorado state board of education adopted academic content standards for comprehensive health education that support youth in making informed and responsible decisions about their health and in having access to the tools they need to live healthy lives.

(b) The general assembly further finds and declares that:

(I) There is a need to continue and expand efforts to ensure that all young people in Colorado have access to evidence-based, medically accurate, culturally sensitive, and age-appropriate comprehensive sexuality education, information, and resources to guide them in making informed decisions about their health and relationships. Additionally, schools need to promote healthy relationships through age-appropriate, culturally sensitive, and comprehensive human sexuality education, including providing information and resources for early intervention and response strategies to teen dating violence.

(II) The state of Colorado and eligible state agencies and other organizations must pursue funding and other federal support to implement comprehensive human sexuality education programs;

(III) The provisions of sexual and reproductive health education that incorporate comprehensive, evidence-based, culturally sensitive, and age-appropriate standards can result in youth delaying sexual activity until they are ready, avoiding unwanted consequences of sexual behavior, learning medically accurate information about their health, and promoting positive youth-friendly messages concerning growth, development, body image, gender roles, and all aspects related to healthy, safe relationships and sexual behavior; and

(IV) Broad-based community partnerships are essential when developing policies and implementing programs that affect the sexual and reproductive health of Colorado's youth.

(2) As used in this section, unless the context otherwise requires:

(a) "Age-appropriate" means topics, messages, and teaching methods suitable to a particular age or age group, based on developing cognitive, emotional, and behavioral capacity typical for the age or age group.

(b) "Comprehensive human sexuality education" means medically accurate information about all methods to prevent unintended pregnancy and sexually transmitted infections, including HIV, and the link between human papillomavirus and cancer, and other types of cancer involving the human reproductive systems, including prostate, testicular, ovarian, and uterine cancer. Methods must include information about the correct and consistent use of abstinence, contraception, condoms, other barrier methods, and other prevention measures. Additional contents of comprehensive human sexuality education must include:

(I) Encouraging family communication about sexuality;

(II) Focusing on the development of safe relationships, including the prevention of sexual violence in dating and teaching young people how to recognize and respond safely and effectively in situations where sexual or physical violence may be occurring or where there may be a risk for these behaviors to occur; and

(III) Teaching young people how alcohol and drug use can affect responsible decision-making.
(b.5) "Consent" means the affirmative, unambiguous, voluntary, continuous, knowing agreement between all participants in each physical act within the course of a sexual encounter or interpersonal relationship.

(c) "Culturally sensitive" means the integration of knowledge about individuals and groups of people into specific standards, requirements, policies, practices, and attitudes used to increase the quality of services. "Culturally sensitive" includes resources, references, and information that are meaningful to the experiences and needs of communities of color; immigrant communities; lesbian, gay, bisexual, and transgender communities; people who are intersex; people with physical or intellectual disabilities; people who have experienced sexual victimization; and others whose experiences have traditionally been left out of sexual health education, programs, and policies.

(d) "Evidence-based program" means a program that:
(I) Was evaluated using a rigorous research design, including:
(A) Measuring knowledge, attitude, and behavior; 
(B) Having an adequate sample size; 
(C) Using sound research methods and processes; 
(D) Replicating in different locations and finding similar evaluation results; and 
(E) Publishing results in a peer-reviewed journal; 
(II) Research has shown to be effective in changing at least one of the following behaviors that contribute to early pregnancy and sexually transmitted infections, including HIV:
(A) Delaying sexual initiation; 
(B) Reducing the frequency of sexual intercourse; 
(C) Reducing the number of sexual partners; or 
(D) Increasing the use of condoms and other contraceptives.

(d.3) "Gender stereotype" means a generalized view or preconception about what attributes, characteristics, or roles are, or ought to be, taught, possessed by, or performed by women and men.

(d.5) "Healthy relationship" means an interpersonal relationship that is free of physical, sexual, and emotional abuse, coercion, and violence.

(d.7) "Human sexuality instruction" or "instruction" means an oral, written, or digital lesson, lecture, or presentation given by school staff or nonschool staff that teaches about abstinence or sexual activity in the context of student health or healthy relationships. Instruction does not include student speech.

(d.9) "Medically accurate" means verified or supported by research conducted in compliance with scientific methods and published in peer-reviewed journals, where appropriate, and recognized as accurate, objective, and unbiased by the American Public Health Association, the American Academy of Pediatrics, or the American College of Obstetricians and Gynecologists.

(e) "Positive youth development" means an approach that emphasizes the many positive attributes of young people and focuses on developing inherent strengths and assets to promote health. Positive youth development is culturally sensitive, inclusive of all youth, collaborative, and strength-based.

(f) "Sexual abstinence" means not engaging in oral, vaginal, or anal intercourse or genital skin-to-skin contact.
Except as otherwise provided in subsection (6) of this section, a school district, board of cooperative services, charter school, or institute charter school that offers a planned curriculum that includes comprehensive human sexuality education shall provide to the parent or guardian of each student, prior to commencing the planned curriculum:

(a) Written notification of the ability to excuse a student, without penalty or additional assignment, from that portion of the planned curriculum that includes comprehensive human sexuality education, upon the written request of the student's parent or guardian; and

(b) A detailed, substantive outline of the topics and materials to be presented in that portion of the planned curriculum related to comprehensive human sexuality education.

(4) Nothing in this section shall be construed to require an act or procedure in addition to the signature of the parent or guardian to excuse a student from a planned curriculum related to comprehensive human sexuality education.

(5) Each school district board of education, board of cooperative services, charter school, or institute charter school is encouraged to disseminate policies or instructions to the public schools of the school district, or board of cooperative services, or appropriate staff of the charter school or institute charter school to ensure the implementation of the provisions of this section in a manner that will not draw undue attention to, nor cause undue embarrassment for, students excused from a planned curriculum related to comprehensive human sexuality education.

(6) Human sexuality instruction is not required. However, if a school district, board of cooperative services, charter school, or institute charter school offers human sexuality instruction, the instruction must be comprehensive and meet the comprehensive human sexuality education content requirements. These requirements must:

(a) Encourage parental involvement and family communication;

(b) Include medically accurate information about methods to prevent unintended pregnancy and sexually transmitted infections, including HIV/AIDS, and the link between human papillomavirus and cancer. Methods taught shall include information about the correct and consistent use of abstinence, contraception, including all FDA approved forms of contraception, condoms, and other barrier methods and must be taught in a cohesive, integrated, objective manner so that youth learn the full scope of preventive methods available to them and are empowered to decide for themselves which preventative methods are best suited for their individual needs, beliefs, and values.

(c) Promote the development of healthy relationships by providing human sexuality instruction on:

(I) How to communicate consent, recognize communication of consent, recognize withdrawal of consent, and understand age of consent as it relates to section 18-3-402;

(II) How to avoid making unwanted verbal, physical, and sexual advances;

(III) How to avoid making assumptions about a person's supposed sexual intentions based on that person's appearance or sexual history; and

(IV) How to avoid pursuing a sexual encounter with a person or persuading a person to participate in a sexual encounter when that person has not provided consent or has withdrawn consent;

(d) Include discussions and information on how to recognize and respond safely and effectively in situations where sexual or physical violence may be occurring or where there may be a risk for these behaviors to occur;
(e) Include discussion of how alcohol and drug use impairs responsible and healthy decision-making;

(f) Be comprehensive, age-appropriate, culturally sensitive, inclusive of a positive youth development framework, and medically accurate;

(g) Provide instruction about the health benefits and potential side effects of using contraceptives and barrier methods to prevent pregnancy, including instruction regarding emergency contraception and the availability of contraceptive methods;

(h) For school districts that have established a character education program pursuant to section 22-29-103, promote the guidelines of behavior established in the character education program;

(i) Not emphasize sexual abstinence as the primary or sole acceptable preventive method available to students. A school district, board of cooperative services, charter school, or institute charter school shall not engage the instructional services of an organization or individual that is a direct or indirect recipient of money from the federal government pursuant to 42 U.S.C. sec. 710, as amended, because the guidelines of 42 U.S.C. sec. 710 are inconsistent with the provisions of this section.

(j) Provide age-appropriate information concerning sections 18-6-401 (9) and 19-3-304.5, or any successor laws, referred to generally as "safe haven laws", relating to the safe abandonment of a child to a firefighter at a fire station or to a staff member at a hospital or a community clinic emergency center within the first seventy-two hours of the child's life.

(6.5) Comprehensive human sexuality education does not require instruction on pregnancy outcome options. However, if a school district, board of cooperative services, charter school, or institute charter school opts to provide instruction on pregnancy outcome options, the instruction must cover all pregnancy outcome options, including but not limited to adoption, abortion, parenting, and information concerning sections 18-6-401 (9) and 19-3-304.5, or any successor laws, referred to generally as "safe haven laws". Instruction on pregnancy outcome options must be provided in an objective, unbiased manner and must not endorse or favor one or more pregnancy outcome options.

(7) (a) Nothing in subsection (6) or (6.5) of this section shall be interpreted to prohibit discussion of health, moral, ethical, or religious values as they pertain to comprehensive human sexuality, healthy relationships, or family formation. Such discussion is encouraged.

(b) However, human sexuality instruction must not explicitly or implicitly:

(I) Use shame-based or stigmatizing language or instructional tools;

(II) Employ gender stereotypes; or

(III) Exclude the health needs of intersex individuals or lesbian, gay, bisexual, or transgender individuals.

(8) Public schools, school districts, boards of cooperative services, charter schools, and institute charter schools are encouraged to involve teachers, school nurses, parents, and community members in the development of the requirements for comprehensive human sexuality curriculum required by subsection (6) of this section and to integrate available community resources into programs related to comprehensive human sexuality education.

(9) A school district, board of cooperative services, charter school, or institute charter school that has received, prior to July 1, 2013, direct or indirect funding from the federal government for the provision of an abstinence education program pursuant to 42 U.S.C. sec. 710 is not required to adopt requirements for comprehensive human sexuality curriculum for the
provision of such instruction as described in this section for the year or years for which the school district, board of cooperative services, charter school, or institute charter school received such funding. On July 1, 2013, or thereafter, a school district, board of cooperative services, charter school, or institute charter school shall not use any direct or indirect funding from the federal government for the provision of an abstinence education program pursuant to 42 U.S.C. sec. 710. A school district, board of cooperative services, charter school, or institute charter school may use federal moneys for human sexuality education, as long as the human sexuality program of the school district board of cooperative services, charter school, or institute charter school meets the comprehensive human sexuality education model set forth in this section.

(10) Nothing in this section shall require amending any content standards related to comprehensive human sexuality education developed by the department and adopted by the state board prior to July 1, 2013.

(11) The provisions of this section shall not apply to students in kindergarten through third grade.

(12) A school district, board of cooperative services, charter school, or institute charter school may seek grant money pursuant to article 44 of title 25 to implement the comprehensive human sexuality education content requirements set forth in this section. However, compliance with this section is not contingent upon receipt of grant money pursuant to article 44 of title 25, nor is it contingent on receipt of any other state or federal funds, or public or private gifts, grants, or donations.

22-1-129. Instruction in cardiopulmonary resuscitation and the use of automated external defibrillators - grants - definitions - rules. (1) As used in this section, unless the context otherwise requires:

(a) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
(b) Repealed.
(c) "Local education provider" means a school district, a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title, a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title, or a board of cooperative services created and operating pursuant to article 5 of this title that operates one or more public schools.
(d) "Psychomotor skills development" means the use of hands-on practice that supports cognitive learning.
(e) "State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.
(2) On and after September 1, 2014, each local education provider may apply for a grant or grants to provide instruction to students in any of grades nine through twelve and school staff in any of grades nine through twelve in cardiopulmonary resuscitation and the use of an automated external defibrillator. The instruction funded pursuant to this section must include a nationally recognized, psychomotor-skills-based instructional program that reflects current, national, evidence-based, emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator. The department shall administer the grant program pursuant to state board rules adopted pursuant to subsection (3) of this section.

(3) The state board shall promulgate rules concerning the grants awarded pursuant to this section, which rules must include, at a minimum:
   (a) The process by which a local education provider may apply for and receive grant moneys pursuant to this section, including application requirements and deadlines;
   (b) The number and amount of each grant and whether grants moneys will be awarded in the order applications are received or through some other method;
   (c) The process for achieving a balanced distribution of grant moneys to applicants including rural, urban, and suburban local education providers; and
   (d) Procedures for monitoring a local education provider's compliance with the provisions of this section and specifically that moneys awarded pursuant to this section are used for reasonable costs associated with psychomotor-skills-based cardiopulmonary resuscitation training and training on the use of automated external defibrillators, including but not limited to training materials and the temporary employment of cardiopulmonary resuscitation instructors or other trainers qualified to teach skills-based cardiopulmonary resuscitation training.

(4) Notwithstanding any other provision of this section to the contrary, the department shall not award grants pursuant to this section unless the department determines that it has received sufficient money through appropriations or gifts, grants, and donations to implement the program.

(5) The department may seek, accept, and expend gifts, grants, or donations from private or public sources for the purposes of this section; except that the department may not accept a gift, grant, or donation that is subject to conditions that are inconsistent with this section or any other law of the state. Nothing in this section requires the department to solicit money for purposes of implementing this section.

(6) Repealed.

Source: L. 2014: Entire section added, (HB 14-1276), ch. 215, p. 805, § 2, effective August 6. L. 2020: (1)(b) repealed; (4) and (5) amended; and (6) added, (HB 20-1418), ch. 197, p. 946, § 21, effective June 30.

Editor's note: Subsection (6)(b) provided for the repeal of subsection (6), effective July 1, 2021. (See L. 2020, p. 946.)

Cross references: For the legislative declaration in HB 14-1276, see section 1 of chapter 215, Session Laws of Colorado 2014. For the legislative declaration in HB 20-1418, see section 1 of chapter 197, Session Laws of Colorado 2020.
22-1-129.5. Instruction in cardiopulmonary resuscitation and the use of automated external defibrillators - guidelines and content standards - definition. (1) Each public school in the state is strongly encouraged to adopt curriculum for instruction to students in grades nine through twelve on cardiopulmonary resuscitation and the use of an automated external defibrillator. The curriculum must include a training and education program included on the list maintained by the office of cardiac arrest management pursuant to section 25-53-202, and the instruction must:
   (a) Incorporate the psychomotor skills necessary to perform cardiopulmonary resuscitation; and
   (b) Use an automated external defibrillator.
(2) As used in this section, "psychomotor skills" means skills using hands-on practice to support cognitive learning.

Source: L. 2023: Entire section added, (SB 23-023), ch. 25, p. 88, § 1, effective August 7.

22-1-130. Notice to parents of alleged criminal conduct by school employees - legislative declaration - definitions. (1) (a) The general assembly finds that:
   (I) It is the right and responsibility of parents to guide the education and upbringing of their children;
   (II) An essential role of parents in ensuring the safety and quality of their children's education is to remain active, engaged, and fully informed about what is occurring in their children's classrooms and within the school environment;
   (III) Ensuring the safety of school children is one of the primary responsibilities of state and local government, law enforcement, and school communities;
   (IV) In order to ensure a safe school environment that is conducive to learning, students and parents must be assured that criminal behavior that is harmful to children is reported and dealt with appropriately and in a manner that is transparent to parents and the school community; and
   (V) Parents are understandably concerned when law enforcement agencies make accusations about school employees at their children's schools.
   (b) Therefore, the general assembly declares that it is appropriate to require a public school to notify parents of school children when a school employee is charged with certain crimes that may put children at risk.
(2) As used in this section, unless the context otherwise requires:
   (a) "Employee" means an employee of a local education provider whose employment requires or required the employee to be in contact with students or whose work area gives or gave the employee access to students. "Employee" includes a former employee if the employee was employed by the local education provider at any time within twelve months before an offense is charged. If a school district, district charter school, or institute charter school has contracted with a private entity to operate an online school, the employee of the private entity is deemed to be an employee of the school district, district charter school, or institute charter school for purposes of this section.
   (b) "Local education provider" means a school district, a board of cooperative services, a charter school collaborative, a charter school authorized by a school district pursuant to part 1 of
article 30.5 of this title 22, and a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(c) "Parent" means the biological or adoptive parent or the legal guardian or legal custodian of a student enrolled in a local education provider at the time notification is made pursuant to this section.

(3) (a) Pursuant to section 22-2-119 (4)(b), local education providers routinely receive reports from the Colorado bureau of investigation relating to employees who have previously been subject to a background check. If a local education provider receives a report from the Colorado bureau of investigation that includes information that an employee has been arrested for an offense described in subsection (3)(b) of this section, the local education provider shall monitor the criminal proceedings to determine whether the employee is charged with an offense described in subsection (3)(b) of this section and whether a preliminary hearing has been held if the charge is eligible for a preliminary hearing.

(b) The local education provider shall notify parents, as provided in subsection (4) of this section, if an employee is charged, as that term is defined in section 16-1-104 (6), with:

(I) Felony child abuse, as specified in section 18-6-401;

(II) A crime of violence, as defined in section 18-1.3-406, not including assault in the second degree unless the victim is a child;

(III) A felony offense involving unlawful sexual behavior, as defined in section 16-22-102 (9);

(IV) A felony, where it is alleged that the underlying factual basis of which includes an act of domestic violence, as defined in section 18-6-800.3;

(V) Felony indecent exposure, as described in section 18-7-302; or

(VI) A felony drug offense described in part 4 of article 18 of title 18 that is a level 1 or level 2 drug felony.

(4) (a) Within two school days after the preliminary hearing is held or is waived or deemed waived by the employee, or within two school days after the date on which the employee is charged, if the charged offense is not eligible for a preliminary hearing, the local education provider shall provide notice to parents pursuant to subsection (5) of this section.

(b) If the local education provider has already provided notice to parents that substantially conforms with the notice requirements set forth in subsection (5) of this section, the local education provider need not provide additional notice pursuant to the provisions of this section.

(c) The local education provider must provide notice to the parents of a student:

(I) Enrolled in the public school in which the employee is employed or was employed at the time of the alleged offense; or

(II) With whom the local education provider has reason to believe the employee may have had contact as part of his or her employment with the local education provider.

(d) The local education provider shall provide the required notice to parents in the same manner by which the local education provider notifies parents of important school business, which may include e-mail notification or other electronic communication sent directly to parents or by first-class mail. Within two school days after the local education provider confirms the disposition of the charge, the local education provider shall provide notice to parents of the disposition of the charge using the same notification method used in the original notice to parents.
(e) Notwithstanding the provisions of subsection (4)(a) of this section to the contrary, if a delay in parent notification is requested by the appropriate law enforcement agency, the local education provider shall delay notification to parents until the request is withdrawn.

(f) A local education provider shall notify parents pursuant to this section regardless of whether the actions giving rise to the charge occurred while the employee was on duty.

(g) The board or governing body of the local education provider shall establish policies to comply with the provisions of this section when school is not in session.

(5) (a) The local education provider's notification to parents of a charge brought against an employee must include the following:
   (I) The name of the employee;
   (II) The employee's position;
   (III) Whether the employee continues to be employed by the local education provider;
   (IV) The length of employment with the local education provider;
   (V) The alleged offense as set forth in the charging document, including the violation of statute or code; and
   (VI) A statement that, under state and federal law, a person is presumed innocent until proven guilty.

(b) A local education provider may provide additional information to parents regarding the underlying facts or circumstances relating to the charge but shall not disclose the identity of the alleged victim.

(6) Each local education provider shall incorporate the notification requirements set forth in this section as part of a safe school plan required pursuant to section 22-32-109.1, as applicable.

22-1-131. Online instruction - student protections - short title - definitions. (1) The short title of this section is "Isaiah's Law".

(2) As used in this section, unless the context otherwise requires:
   (a) "Local education provider" means a school district created pursuant to article 30 of this title 22, a board of cooperative services created pursuant to article 5 of this title 22, a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22, or an institute charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

   (b) "Online instruction" means the delivery of educational programming via an internet format by a local education provider to a student who is enrolled in the local education provider and is receiving the educational programming at a location that is remote from a school. "Online instruction" includes, but is not limited to, educational programming delivered through an online program, as defined in section 22-30.7-102 (9); an online school, as defined in section 22-30.7-102 (9.5); and a supplemental online education course, as defined in section 22-2-130 (2)(f).

   (c) "Parent" means a biological parent, adoptive parent, legal guardian, or any other person having legal custody of a child.
(3) A local education provider that delivers educational programming to a student using online instruction shall not:

(a) Prohibit or attempt to prohibit the student's parent from being in the same room as the student while the student participates in online instruction or otherwise suggest that the parent should not be in the same room while the student participates in online instruction; except that the person leading the online instruction may require a student's parent to leave the area if the parent continues to actively engage in behavior that disrupts the student or the class after the person leading the online instruction asks the parent to discontinue the behavior;

(b) Require a student to use a camera to provide a live digital image of the student while the student participates in online instruction if the student's technology does not allow for such use of a camera.

(4) A local education provider shall not suspend or expel a student based on the presence of an item that an employee of the local education provider observes within the student's physical environment while the student is participating in online instruction or based on the student's behavior while participating in online instruction; except that a local education provider may suspend a student in accordance with sections 22-33-105 and 22-33-106.

(1) The short title of this section is "Joey's Law".

(2) As used in this section, unless the context otherwise requires:

(a) "Appropriate staff" means one or more employees of the school whom the principal or equivalent executive, in consultation with the school nurse or health-care practitioner, determines to be the appropriate recipient or recipients of free seizure recognition and first aid training developed by recognized sources on epilepsy and seizure disorders, as identified by the department of education. "Appropriate staff" may include but need not be limited to employees who have direct contact with and supervision of students who have a seizure disorder.

(b) "Designated employee" means an employee of the school who is designated and trained by the school nurse or health-care practitioner on how to administer or assist with the administration of seizure treatment and medications, seizure rescue medications, and manual vagus nerve stimulation.

(c) "School" means a public school in the state that enrolls students in any of grades kindergarten through twelfth grade, including a traditional public school of a school district; a charter school of a school district; an institute charter school; or an approved facility school, as defined in section 22-2-402 (1); or a nonpublic school that enrolls students in any of grades kindergarten through twelfth grade.

(d) "Seizure action plan" means a written, individualized seizure action plan for a specific student, created by the school nurse or health-care practitioner, in conjunction with student's parent or legal guardian and the student's physician, as appropriate, that is designed to acknowledge and prepare for the health-care needs of a student diagnosed with a seizure disorder. The seizure action plan must be in accordance with the guidelines developed by the department of education.
(e) "Seizure disorder" means a medical condition, including epilepsy, in which episodes of uncontrolled activity in the brain produce symptoms that produce one or more seizures.

(3) (a) If a student has a diagnosed seizure disorder and the student might need medical intervention with seizure-related care in a school setting or school activity, the student's parent or legal guardian is encouraged to create, in conjunction with school personnel, sign, and submit to the student's school an individualized seizure action plan for the student. The school nurse or health-care practitioner shares responsibility with the school administrators for the management of the student's seizure disorder while the student is at school, during any school-sponsored activities, and while in transit to or from school or school-sponsored activities if the student is being transported by school district personnel.

(b) A public school shall, and a nonpublic school is encouraged to, follow the school district's or public school's medication policy in approving any individualized seizure action plan submitted pursuant to subsection (3)(a) of this section and ensuring that the individualized seizure action plan is in accordance with the "Nurse and Nurse Aide Practice Act", article 255 of title 12.

(c) A student's parent or legal guardian is encouraged to submit the required information for the student's individualized seizure action plan or an amended seizure action plan to the student's school:
   (I) At the beginning of the school year or upon the student's enrollment;
   (II) As soon as practicable following the student's diagnosis of a seizure disorder; or
   (III) If a student's health status changes significantly during the school year.

(d) A student's parent or legal guardian is encouraged to inform the student's school, in a timely manner, of any changes needed to the student's individualized seizure action plan or emergency contact information.

(4) (a) Within sixty days after the beginning of the 2021-22 academic year and each year thereafter, each public school shall, and each nonpublic school is encouraged to, provide training to one or more appropriate staff on the recognition of the signs and symptoms of seizures and the appropriate steps for seizure first aid.

(b) No later than eight weeks after the school is notified of a student who has been diagnosed with a seizure disorder or the receipt of an individualized seizure action plan signed by the student's parent or legal guardian, whichever is later, each public school shall, and each nonpublic school is encouraged to, have at least one designated employee who has met the training requirements necessary to administer or assist with the administration of seizure treatment medications, seizure rescue medications, and manual vagus nerve stimulation.

(c) Any programs or guidelines adopted pursuant to this subsection (4) to train school personnel in the health-care needs of students who have been diagnosed with a seizure disorder must be consistent with programs and guidelines developed by recognized sources on epilepsy and seizure disorders and developed in consultation with a state organization that represents school nurses, as identified by the department of education.

(d) On or before December 31, 2021, the state board of education, with assistance from recognized sources on epilepsy and seizure disorders, and in consultation with a state organization that represents school nurses shall promulgate rules for individualized seizure action plans, including training and seizure care guidelines.
22-1-133. Prohibition on use of American Indian mascots - exemptions - definitions.

(1) As used in this section, unless the context otherwise requires:

(a) "American Indian mascot" means a name, symbol, or image that depicts or refers to an American Indian tribe, individual, custom, or tradition that is used as a mascot, nickname, logo, letterhead, or team name for the school.

(b) "Commission" means the Colorado commission of Indian affairs, established pursuant to section 24-44-102.

(c) "Institute charter school" means a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(d) "Public school" means:

(I) An elementary, middle, junior high, high school, or district charter school of a school district that serves any of grades kindergarten through twelve; and

(II) An institute charter school that serves any of grades kindergarten through twelve.

(2) (a) Except as provided for in subsection (2)(b) of this section, on or after June 1, 2022, a public school in the state is prohibited from using an American Indian mascot. Notwithstanding the definition of the term "American Indian mascot" in subsection (1) of this section, a public school that is named after an American Indian tribe or American Indian individual may use the tribe's or individual's name, but not an image or symbol, on the public school's letterhead. Any public school that is using such an American Indian mascot as of June 1, 2022, shall immediately cease use of such American Indian mascot.

(b) The prohibition set forth in subsection (2)(a) of this section does not apply to:

(I) Any agreement that exists prior to June 30, 2021, between a federally recognized Indian tribe and a public school. A public school that is a party to such an agreement is held to a high standard and expected to honor the agreement. The federally recognized Indian tribe has the right and ability to revoke any such agreement at any time at its discretion. If an agreement entered into pursuant to this subsection (2)(b)(I) between a federally recognized Indian tribe and a public school is terminated by either party, the public school has one year from the date of termination to discontinue its use of its American Indian mascot before the penalties set forth in subsection (3) of this section apply.

(II) Any public school that is operated by a federally recognized Indian tribe or with the approval of a federally recognized Indian tribe and existing within the boundaries of such tribe's reservation.

(III) (A) The ability of any federally recognized Indian tribe to create and maintain a relationship or agreement with a public school that fosters goodwill, emphasizes education and supports a curriculum that teaches American Indian history, and encourages a positive cultural exchange. Such relationships and agreements may include important historical figures, names, imagery, tribal names, and more.

(B) Any such agreement entered into pursuant to this section between a public school and a federally recognized Indian tribe may allow any American Indian mascot that is culturally affiliated with that federally recognized Indian tribe as determined at the discretion of the tribe's governing body. If an agreement entered into pursuant to this subsection (2)(b)(III) between a federally recognized Indian tribe and a public school is terminated by either party, the public
school has one year from the date of termination to discontinue its use of its American Indian mascot before the penalties set forth in subsection (3) of this section apply.

(C) For the purposes of this section, a "federally recognized Indian tribe" is one of the forty-eight contemporary tribes with ties to Colorado, developed by history Colorado in partnership with the Colorado commission of Indian affairs. This list may change over time but is the official list to be used for the purposes of this section.

(3) For each month during which a public school uses an American Indian mascot after June 1, 2022, the school district of the public school, or in the case of an institute charter school, the state charter school institute, shall pay a fine of twenty-five thousand dollars to the state treasurer, who shall credit the money received to the state education fund created in section 17 (4) of article IX of the state constitution.

(4) (a) No later than thirty days after June 28, 2021, the commission shall identify each public school in the state that is using an American Indian mascot and that does not meet the criteria for an exemption as outlined in subsection (2)(b) of this section. The commission shall post such information on its website.

(b) In addition to posting on its website the information concerning public schools that are using an American Indian mascot, the commission, in coordination with the department of education, shall notify the school district of a public school identified by the commission pursuant to subsection (4)(a) of this section of the requirements related to the use of American Indian mascots, as set forth in subsection (2) of this section, as well as the penalty for continued use of such mascots as outlined in subsection (3) of this section. The commission, in coordination with the department of education, shall also provide the same notification to the charter school institute if any institute schools are identified pursuant to subsection (4)(a) of this section.

(c) When a public school identified pursuant to subsection (4)(a) of this section discontinues its use of its American Indian mascot prior to June 1, 2022, the public school shall notify its school district, or, in the case of an institute charter school, its authorizer, the commission, and the department of education of such discontinuation.

(5) A public school that is identified to be in violation of subsection (2) of this section for using an American Indian mascot may apply to the department of education for a grant through the "Building Excellent Schools Today Act", article 43.7 of title 22, to accomplish any structural changes that might be necessary to come into compliance with this section. The time required for making an application or for the awarding of such grant does not impact the time requirement set forth in subsection (2)(a) of this section.

(6) (a) Notwithstanding the provisions of this section to the contrary, a public school in the state is prohibited from using an American Indian mascot one year after notification by the commission, in coordination with the department of education, if:

(I) The public school was in existence and using an American Indian mascot as of June 28, 2021;

(II) The public school does not meet the criteria for an exemption as outlined in subsection (2)(b) of this section;

(III) The public school was not identified pursuant to subsection (4)(a) of this section; and

(IV) The school district of the public school or, in the case of an institute charter school, the state charter school institute is first notified on or after May 1, 2022, by the commission, in
coordination with the department of education, that it is using an American Indian mascot in violation of subsection (2) of this section.

(b) When a public school described pursuant to subsection (6)(a) of this section discontinues its use of an American Indian mascot prior to the one-year deadline after notification by the commission, in coordination with the department of education, the public school shall notify its school district or, in the case of an institute charter school, the state charter school institute, the commission, and the department of education, of the discontinuation.

(c) For each month during which a public school described pursuant to subsection (6)(a) of this section uses an American Indian mascot after the one-year deadline after notification by the commission, in coordination with the department of education, the school district of the public school, or, in the case of an institute charter school, the state charter school institute, shall pay a fine of twenty-five thousand dollars to the state treasurer, who shall credit the money received to the state education fund created in section 17 (4) of article IX of the state constitution.

(7) (a) A public school that is identified to be in violation of subsection (2) of this section for using an American Indian mascot may apply to the department of education for reimbursement of expenses incurred for the 2021-22 budget year through the 2023-24 budget year that were necessary to comply with this section.

(b) (I) On or after July 1, 2023, the department of education shall distribute funds for reimbursement of expenses incurred for the 2021-22 budget year and the 2022-23 budget year that were necessary to comply with this section. The department of education shall fully fund all requests for reimbursement; except that if insufficient funds exist pursuant to the appropriation made pursuant to this subsection (7), the department shall reimburse expenses proportionately.

(II) On or after July 1, 2024, the department of education shall distribute funds for reimbursement of expenses incurred for the 2023-24 budget year that were necessary to comply with this section. The department of education shall fully fund all requests for reimbursement; except that if insufficient funds exist pursuant to the appropriation made pursuant to this subsection (7), the department shall reimburse expenses proportionately.

(III) The department of education shall establish a process and deadlines for receiving requests for reimbursement pursuant to this subsection (7), the timing for disbursements, and any parameters necessary to determine proportionate reimbursement.

(c) The department of education shall not reimburse expenses incurred by a public school for paying the fine pursuant to subsection (3) of this section.

(d) For the 2023-24 budget year, the general assembly shall appropriate three hundred thousand dollars from the state education fund for the purpose of this subsection (7). Any unexpended money remaining at the end of the 2023-24 budget year may be used by the department of education through the 2024-25 budget year without further appropriation and must not be used for any other purpose other than the purposes set forth in this subsection (7).

(e) The general assembly finds and declares that for the purposes of section 17 of article IX of the state constitution, providing reimbursement of expenses pursuant to this subsection (7) that were incurred in order to comply with this section is a program for accountable education reform and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

Cross references: For the legislative declaration in SB 21-116, see section 1 of chapter 370, Session Laws of Colorado 2021. For the legislative declaration in HB 22-1390, see section 1 of chapter 237, Session Laws of Colorado 2022. For the legislative declaration in SB 23-287, see section 1 of chapter 189, Session Laws of Colorado 2023.

22-1-134. Hunter education course - gifts, grants, or donations - definitions. (1) As used in this section, unless the context otherwise requires, "local education provider" means a school district or any of the following that enrolls students in the seventh grade:
   (a) A charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22;
   (b) A charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22; or
   (c) A board of cooperative services created and operating pursuant to article 5 of this title 22 that operates one or more public schools.

   (2) A local education provider may offer a hunter education course as an elective course to seventh-grade students, either for credit or not for credit, if the local education provider:
      (a) Enters into an agreement pursuant to subsection (3)(c) of this section with an individual or entity to provide a hunter education course at no cost to the local education provider or any student enrolled in the course; and
      (b) Receives gifts, grants, or donations in an amount sufficient to pay any costs to the local education provider that arise from providing a hunter education course pursuant to this section.

   (3) (a) A hunter education course offered pursuant to this section must:
      (I) Satisfy the same requirements as a hunter education course certified by the division of parks and wildlife, as described in section 33-6-107 (8); except that the course is not required to include hands-on activities that may otherwise be required by the division of parks and wildlife; and
      (II) Be taught by an instructor certified by the division of parks and wildlife.

      (b) A hunter education course offered pursuant to this section may include hands-on activities, but a local education provider cannot require a student to participate in the hands-on activities as a condition of enrollment in, or satisfactory completion of, a hunter education course. A student may only participate in hands-on activities with the permission of the student's parent or legal guardian.

      (c) Prior to offering a hunter education course pursuant to this section, a local education provider must enter into an agreement with an individual or entity that offers hunter education courses certified by the division of parks and wildlife to provide the hunter education course at no cost to the local education provider or any student enrolled in the course. For the purposes of this section, a hunter education course provided pursuant to an agreement entered into pursuant to this subsection (3)(c) is considered a hunter education course offered by the local education provider.

   (4) This section does not constitute a waiver of any applicable state or federal law.
(5) A local education provider may seek, accept, and expend gifts, grants, or donations from private or public sources for the purposes of this section.

(6) Nothing in this section precludes a local education provider from offering hunter education courses as an elective course in any other grade.

(7) (a) A hunter education course offered pursuant to this section shall only allow the possession of inert firearms and dummy rounds on the real estate or any improvements erected on the real estate of any public or private elementary, middle, junior high, or high school.

(b) As used in this subsection (7), "inert firearm" means any handgun, revolver, pistol, rifle, or shotgun, incapable of discharging bullets, cartridges, or other explosive charges.

22-1-135. Terms and conditions in public school contracts - definitions. (1) As used in this section:

(a) "Construction" means the process of building, altering, repairing, improving, or demolishing any public structure or building or any other public improvements of any kind to any real property that is owned or leased by a contracting entity or by a public school and is used for the direct benefit of or in support of a public school.

(b) "Contractor" means any person having a contract with a public school contracting entity. "Contractor" does not include an employee of a public school contracting entity or of a public school to be directly benefited by or supported by a public school contract.

(c) "Public school contract" means any type of agreement, regardless of what it may be called, entered into between a public school contracting entity and a contractor where the principal purpose is to acquire supplies, services, or construction or to dispose of supplies for the direct benefit of or in support of a public school; except that "public school contract" does not include an agreement for the acquisition of professional services, as defined in section 24-30-1402 (6).

(d) "Public school contracting entity" means an entity that is authorized to contract for the direct benefit of or support of a public school and enters into a public school contract. "Public school contracting entity" includes a school district and, to the extent authorized by law, a public school, an administrative unit, as defined in section 22-20-103 (1), a participating provider, as defined in section 22-100-101, or any other entity that is authorized to contract for the direct benefit of or support of a public school.

(2) (a) A term or condition in a public school contract is void ab initio if the term or condition:

(I) Requires the public school contracting entity to indemnify or hold harmless another person;

(II) Specifies that the public school contracting entity agrees to binding arbitration or to any other binding extra-judicial dispute resolution process;

(III) Specifies that the public school contracting entity agrees to limit liability of another person for bodily injury, death, or damage to property of the public school contracting entity or a public school directly benefited by or supported by the public school contract that is caused by the negligence or willful misconduct of the person or of the person's employees or agents;
(IV) Purports to waive, alter, or limit the application of any provision of the "Colorado Governmental Immunity Act", article 10 of title 24;

(V) Purports to waive, alter, or limit the application of the "Student Data Transparency and Security Act", article 16 of this title 22, the provisions of sections 6-1-713 and 6-1-713.5 relating to protection and disposal of personal identifying information, the provisions of article 73 of title 24 relating to security breaches and personal information, or, upon it taking effect on July 1, 2023, the "Colorado Privacy Act", part 13 of article 1 of title 6; or

(VI) Conflicts with Colorado law or rules promulgated pursuant to Colorado law or conflicts with any provision required to be included or deemed to be included in a public school contract by subsection (2)(d) of this section as of the date the contract is executed.

(b) If a public school contract contains a term or condition that is void ab initio under subsection (2)(a) of this section, the public school contract is otherwise enforceable as if it did not contain the void term or condition.

(c) All public school contracts, except for contracts with another government, are governed by Colorado law notwithstanding any contract term or condition to the contrary.

(d) A public school contract must include provisions, and if such provisions are nonetheless inadvertently or otherwise omitted, shall be deemed to include provisions, that:

(I) State that, subject to the requirements of section 24-91-103.6 pertaining to contracts for the construction and design of public works projects, any and all contractual financial obligations of the public school contracting entity that are payable after the current fiscal year are contingent on money to pay the obligations being appropriated, budgeted, and otherwise made available;

(II) Require the contractor to comply with all applicable federal, state, and local laws, rules, and regulations in effect when the contract is executed or thereafter established, including, without limitation:

(A) Laws, rules, and regulations applicable to discrimination and unfair employment practices; and

(B) Laws, rules, and regulations that require the protection of personal identifying information, including student personal identifying information, as defined in section 22-16-103 (13), such as the federal "Family Education Rights and Privacy Act", 20 U.S.C. sec. 1232g, the "Student Data Transparency and Security Act", article 16 of this title 22, the provisions of sections 6-1-713 and 6-1-713.5 relating to protection and disposal of personal identifying information, the provisions of article 73 of title 24 relating to security breaches and personal information, or, upon it taking effect on July 1, 2023, the "Colorado Privacy Act", part 13 of article 1 of title 6; and

(III) Require the contractor to perform its duties as an independent contractor, to pay when due all applicable employment taxes and income taxes for its employees incurred in the performance of the contract, and to provide and keep in force workers’ compensation and unemployment compensation insurance in the amounts required by law.

(3) (a) For contracts executed on or after July 1, 2023, when reviewing proposals received and for selecting the entity to provide technology, in accordance with the procurement laws applicable to the department, school district, or institute charter school, the department, school district, or institute charter school may consider life-cycle cost.

(b) For the purpose of this subsection (3), unless the context otherwise requires:
"Life-cycle cost" means the purchase cost of technology minus the resale value at the end of the technology's expected useful life, in addition to the maintenance incurred during the technology's expected useful life.

"Technology" means any device, computer, hardware, software, or related accessory.

Cross references: For the legislative declaration in SB 23-287, see section 1 of chapter 189, Session Laws of Colorado 2023.

22-1-135.5. Nondisclosure agreements - protection of school district, board of cooperative services, and public school employees - definitions. (1) (a) No school district, board of cooperative services, public school, or any department, institution, or agency of a school district, board of cooperative services, or public school shall make it a condition of employment that an employee executes a contract or other form of agreement that prohibits, prevents, or otherwise restricts the employee from disclosing factual circumstances concerning the employee's employment with the school district, board of cooperative services, or public school or any of its departments, institutions, or agencies unless the prohibition or restriction in the contract or agreement is necessary to prevent disclosure of:

(I) The employee's identity, facts that might lead to the discovery of the employee's identity, or factual circumstances relating to the employment that reasonably implicate legitimate privacy interests of the employee who is a party to the agreement if the employee elects in the employee's sole discretion to restrict disclosure of the employee's identity or such facts and circumstances;

(II) Data; information, including personal identifying information, as defined in section 24-74-102 (1); or matters that are required to be kept confidential by federal law or regulations, the state constitution, state law, state regulations, or state rules, or a court of law or as attorney-client privileged communications, as privileged work product, as communications related to a threatened or pending legal or administrative action, or as materials related to personnel or regulatory investigations by the employer;

(III) Trade secrets or other confidential or sensitive information provided to or made accessible to the employee by a current or prospective contractor, vendor, grantee or as part of a public-private partnership, or entity working with the state as part of an economic development activity;

(IV) Information bearing on the specialized details of security arrangements or investigations, including security arrangements for or investigations into elected officials or other individuals, physical infrastructure, or cybersecurity;

(V) Information derived from communications of the employer related to threatened or pending legal or administrative action;

(VI) Discussions that occur in an executive session authorized by section 24-6-402;

(VII) Trade secrets or information derived from trade secrets or proprietary information of the employer;

(VIII) Information and records not subject to disclosure under the "Colorado Open Records Act", part 2 of article 72 of title 24; or
(IX) Trade secrets owned by the employer.

(b) Any provision in any contract or agreement that violates subsection (1)(a) of this section is deemed to be against public policy and is unenforceable against an employee unless the provision is intended to prevent disclosure of:

(I) The employee's identity, facts that might lead to the discovery of the employee's identity, or factual circumstances relating to the employment that reasonably implicate legitimate privacy interests of the employee who is a party to the agreement if the employee elects in the employee's sole discretion to restrict disclosure of the employee's identity or such facts and circumstances;

(II) Data; information, including personal identifying information, as defined in section 24-74-102 (1); or matters that are required to be kept confidential by federal law or regulations, the state constitution, state law, state regulations, or state rules, or a court of law or as attorney-client privileged communications, as privileged work product, as communications related to a threatened or pending legal or administrative action, or as materials related to personnel or regulatory investigations by the employer;

(III) Trade secrets or other confidential or sensitive information provided to or made accessible to the employee by a current or prospective contractor, vendor, grantee or as part of a public-private partnership, or entity working with the state as part of an economic development activity;

(IV) Information bearing on the specialized details of security arrangements or investigations, including for elected officials or other individuals, physical infrastructure, or cybersecurity;

(V) Information derived from communications of the employer related to threatened or pending legal or administrative action;

(VI) Discussions that occur in an executive session authorized by section 24-6-402;

(VII) Trade secrets or information derived from trade secrets or proprietary information of the employer;

(VIII) Information and records not subject to disclosure under the "Colorado Open Records Act", part 2 of article 72 of title 24; or

(IX) Trade secrets owned by the employer.

(2) (a) No school district, board of cooperative services, public school, or department, institution, or agency of a school district, a board of cooperative services, or a public school shall take any materially adverse employment-related action, including, without limitation, withdrawal of an offer of employment, discharge, suspension, demotion, discrimination in the terms, conditions, or privileges of employment, or other adverse action against an employee on the grounds that the employee does not enter into a contract or agreement deemed to be against public policy and unenforceable under subsection (1)(b) of this section. The taking of such a materially adverse employment-related action after an employee has refused to enter into such a contract or agreement is prima facie evidence of retaliation.

(b) Any employer who enforces or attempts to enforce a provision deemed by a court to be against public policy and unenforceable pursuant to subsection (1) of this section is liable for the employee's reasonable attorney fees and costs in defending against the action.

(c) An action to enforce a provision of this section must be brought in the district court for the district in which the employee is primarily employed.
(3) A settlement agreement between an employer that is a school district, board of cooperative services, or public school or a department, institution, or agency of a school district, a board of cooperative services, or a public school and an employee of the employer must be signed by both the employer and the employee.

(4) A nondisclosure agreement may not prohibit the release of information required to be released under the "Colorado Open Records Act", part 2 of article 72 of title 24.

(5) Nothing in this section prevents an employer from requiring an employee to enter into a nondisclosure agreement with a third party in the employee's official capacity and on behalf of the employer.

(6) As used in this section:
(a) "Condition of employment" means an employment-related policy, practice, requirement, or restriction dictated by an employer that an individual must agree to abide by in order to be hired by or retain employment with the employer.
(b) "Employee" means an applicant for employment with, or current or past employee of, a school district, board of cooperative services, or public school or a department, institution, or agency of a school district, board of cooperative services, or public school.

Editor's note: Section 5(2) of chapter 320 (SB 23-053), Session Laws of Colorado 2023, provides that the act adding this section applies to contracts and agreements entered into, renewed, modified, or amended on or after August 7, 2023.

Cross references: For the legislative declaration in SB 23-053, see section 1 of chapter 320, Session Laws of Colorado 2023.

22-1-136. Student identification cards - information required. Each student identification card issued to a public school student must contain the phone number, website address, and text talk number for Colorado crisis services, as defined in section 27-60-104, and the safe2tell program created in section 24-31-606. The public school may also include information regarding other available crisis services on the identification card. If a public school does not issue student identification cards, the public school shall display the materials described in section 27-60-104 (10) at the school and send information related to Colorado crisis services to parents or guardians at the beginning of each school year.

22-1-137. Title IX regulation study - definitions - repeal. (Repealed)

Editor's note: Subsection (3) provided for the repeal of this section, effective July 1, 2023. (See L. 2022, p. 3012.)

22-1-138. Information collected and posted on department website. On or before August 31, 2023, the department of education shall standardize the reporting method that school districts, including charter schools of a school district and institute charter schools, use to collect and report data concerning suspensions and expulsions, arrests and referrals, chronic absenteeism, incidents of violence, and harassment and bullying, and the safe school reporting requirements set forth in section 22-32-109.1. In making its determination regarding the standardization, the department of education shall consult with school districts and school administrators, school board members, teachers, law enforcement representatives, school resource officers, K-12 advocates, and other relevant stakeholders. In making its determination, the department of education shall ensure all student-level data is kept confidential and reporting complies with the "Colorado Privacy Act", established pursuant to part 13 of article 1 of title 6, the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, and the "Student Data Transparency and Security Act", created pursuant to article 16 of this title 22, which must include the application of data suppression policies to avoid the re-identification of any individual in any public reports. As part of the process, the department of education may consider whether to adopt new reporting categories or require additional or different data to be collected to improve accuracy, consistency, and quality of data.

22-1-139. Accessible district profile reports - school climate reports and surveys - reporting - definition. (1) (a) On or before August 31, 2024, the department of education shall work to develop easily accessible, user-friendly profile reports for each school district and the charter school institute. The reports must be made easily accessible to the general public through a link on the department of education's website; updated annually; and disaggregated by gender, grade level, ethnicity, disability, English language learner status, free and reduced-price lunch status, and homeless status to the maximum extent possible in compliance with the "Colorado Privacy Act", established pursuant to part 13 of article 1 of title 6, the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, and the "Student Data Transparency and Security Act" created pursuant to article 16 of this title 22. To prepare the profile reports, the department of education shall collect the individual student data described in subsection (1)(b) of this section. The department of education shall maintain strict standards for student data privacy, comply with standards for reporting data for a student with an accommodation pursuant to section 504 of the federal "Rehabilitation Act of 1973", 29 U.S.C. sec. 701 et seq., as amended, and its implementing regulations, or a student with an individualized education plan, and shall not publicly report individual student data for any purpose, including as part of the district profile reports.

(b) The profile reports must include, but are not limited to:

(I) Chronic absenteeism rates;

(II) The number of in-school and out-of-school suspensions;

(III) The number of expulsions;
(IV) The number of students handcuffed;

(V) The number of referrals to law enforcement. As used in this section, "referrals to law enforcement" means when a school employee proactively calls, summons, or requests a law enforcement official, including a school resource officer, to:

(A) Respond to an incident on school grounds involving a possible violation of local, state, or federal law;

(B) Engage with a student or third party on school grounds who is creating a potentially dangerous situation; or

(C) Enforce a local, state, or federal rule, regulation, or law on school grounds, in a school vehicle, or at a school activity or school-sanctioned event;

(VI) The number of school-related arrests, including an arrest that occurs on school grounds, in a school vehicle, or at a school activity or school-sanctioned event;

(VII) The number of students physically restrained; and

(VIII) The number of students placed in seclusion.

(2) (a) The district profiles must include data collected pursuant to section 22-2-112 (1)(u)(I) and any other existing district-level measures that the department of education determines relevant and related to school climate. In developing the profiles, the department of education shall consult with stakeholders, including members of the state advisory council for parent involvement in education, created in section 22-7-303; members of the Colorado special education advisory committee appointed pursuant to section 22-20-104 (2)(a); stakeholders who represent the disability community; K-12 advocates and students; and representatives of associations representing school executives, school boards, special education directors, charter schools, and teachers.

(b) The department of education may consult with state and national organizations or other states with expertise in measuring and improving students' experiences at school. By December 31, 2023, the department of education may make recommendations to the state board of education and the general assembly for additional indicators to consider for inclusion in the district profile report, including, but not limited to, measures of student engagement, students' emotional and physical safety and sense of belonging, and teachers' perspectives of learning conditions. Recommendations may also leverage information learned from pilot and grant programs related to improving students' experiences in school.

(3) Beginning in the 2023-24 school year, the department of education shall annually collect information concerning school climate surveys administered to students or families, or school climate tools utilized by schools and school districts, including which survey or tool is used, if any, and how the results of such surveys are made publicly accessible, if at all. The department of education shall include this information in the district profile reports.

22-1-140. Corporal punishment prohibited - definition. (1) A person employed by or volunteering in a public school, as defined in section 22-1-101, shall not impose corporal punishment on a child.
(a) As used in this section, unless the context otherwise requires, "corporal punishment" means the willful infliction of, or willfully causing the infliction of, physical pain on a child.
(b) "Corporal punishment" does not include:
   (I) An amount of force that is reasonable and necessary to quell a disturbance that threatens physical injury to persons or damage to property, necessary for purposes of self-defense, or used to obtain possession of a weapon or other dangerous object within the control of a child; or
   (II) Physical pain or discomfort caused by athletic competition or other similar physical activity in which a child is voluntarily engaged.

Cross references: For the legislative declaration in HB 23-1191, see section 1 of chapter 93, Session Laws of Colorado 2023.

22-1-141. Legal representation - due process complaints - appointments - report - definitions - repeal.

(1) As used in this section, unless the context otherwise requires:
   (a) "Administrative unit" has the same meaning set forth in section 22-20-103.
   (b) "Colorado nonprofit legal organization" or "nonprofit organization" means a Colorado nonprofit legal organization that focuses on special education law, provides affordable legal services, and operates pursuant to section 501 (c)(3) of the federal "Internal Revenue Code of 1986", 26 U.S.C. sec. 501, as amended.
   (c) "Department" means the department of education created in section 24-1-115.
   (d) "Parent" means a parent, guardian, or legal custodian of, or entity with educational decision-making authority for, a student with a disability or a student who may be eligible for special education services.
   (e) "Procedural safeguard notice" means the required notice provided to parents containing an explanation of the available procedural safeguards pursuant to the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended, and federal department of education regulations.
   (f) "State-operated program" has the same meaning set forth in section 22-20-103.
   (g) "Student with disabilities" has the same meaning as "children with disabilities" set forth in section 22-20-103.

(2) On or before August 1, 2023, the department shall enter into a service agreement with a nonprofit organization to create and maintain a list of attorneys qualified to represent a parent in a due process complaint filed by an administrative unit or state-operated program pursuant to section 22-20-108 (3) concerning issues disputed in a state complaint in which the parent prevailed. The service agreement is for five years. The nonprofit organization may consider an attorney to be qualified if the attorney demonstrates a history of practice in special education law. The nonprofit organization shall update the list on an annual basis.

(3) A parent described in subsection (2) of this section may contact the nonprofit organization for an attorney appointment. The nonprofit organization shall appoint an attorney from the list of attorneys described in subsection (2) of this section to represent the parent in a
due process complaint that an administrative unit or a state-operated program files pursuant to section 22-20-108 (3) concerning issues disputed in a state complaint in which the parent prevailed. The nonprofit organization shall rotate the attorneys on the list to distribute due process complaint cases evenly among the attorneys on the list.

(4) (a) The department shall annually provide the nonprofit organization twenty thousand dollars to pay attorneys appointed pursuant to subsection (3) of this section and to create, maintain, and administer the list of attorneys pursuant to subsection (2) of this section. The nonprofit organization may retain unspent money at the end of a budget year.

(b) If there is any unspent money at the end of the five-year service agreement, the nonprofit organization shall return the unspent money to the department. The department shall transmit all money received from the nonprofit organization to the state treasurer, who shall credit the money to the general fund.

(5) The department shall include information regarding the appointment of attorneys described in subsection (3) of this section in the procedural safeguard notice, in materials distributed to parents describing due process complaint procedures, and following a decision the department renders concerning a dispute pursuant to section 22-20-108 (3). The department shall prominently display the nonprofit organization's website on the department's website.

(6) On or before September 1, 2024, and each September 1 thereafter through September 1, 2028, the nonprofit organization shall report to the department the following:

(a) The number of attorneys appointed to parents in due process complaint procedures pursuant to section 22-20-108 (3);
(b) The costs associated with each due process complaint case; and
(c) The amount of unspent money the nonprofit organization retains at the end of the budget year.

(7) This section is repealed, effective July 1, 2029.

22-1-142. Tribal regalia at school graduation ceremonies - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Graduation attire" means attire that a school or school district requires a student to wear as part of the dress code for a graduation ceremony.
(b) "Qualifying student" means a student who is a descendant of people who were living in North America prior to the time people from Europe began settling in North America, is an enrolled member of a federally recognized or state-recognized Indian tribe, or is a lineal descendant of a tribally enrolled parent or grandparent.
(c) "Tribal regalia" means a tribe's traditional dress or recognized objects of religious or cultural significance and includes the following items of cultural significance:
(I) Tribal symbols;
(II) Beads; and
(III) Feathers, in line with the federal "Migratory Bird Treaty Act of 1918".
(d) "Tribe" means a tribe, band, nation, or Alaskan Native village that is recognized by federal law or that a state formally acknowledges.
(2) A qualifying student may wear tribal regalia during a graduation ceremony; except that a qualifying student who is not an enrolled member of a tribe shall not wear eagle feathers. Wearing tribal regalia includes decorating graduation attire with tribal regalia; except that a qualifying student who is not an enrolled member of a tribe shall not decorate with eagle feathers.

(3) (a) An immediate family member of a qualifying student may wear and display tribal regalia during the qualifying student's graduation ceremony if the immediate family member is:
   (I) An enrolled member of a tribe;
   (II) Eligible to be enrolled as a member of a tribe; or
   (III) A lineal descendant of a tribally enrolled parent or grandparent.
   (b) Notwithstanding subsection (3)(a) of this section, an immediate family member who is not an enrolled member of a tribe shall not wear eagle feathers.

(4) A school or school district shall not prohibit a qualifying student or the qualifying student's immediate family from wearing and displaying tribal regalia at a graduation ceremony.

(5) This section applies to all public school graduations, including, but not limited to, kindergarten, middle school, junior high school, and high school graduations.

22-1-143. Harassment or discrimination - policy required - training and notification - definitions. (1) As used in this section, unless the context otherwise requires:
   (a) "Contractor" means a person who has direct contact with or supervision over students pursuant to a contract with a school or local education provider.
   (b) "Complainant" means a person who is subject to, and files a report of, alleged misconduct or discrimination pursuant to a local education provider's policy.
   (c) "Employee" means any employee of the public school or school district, including teachers, teacher aides, bus drivers, cafeteria workers, custodial staff, athletic staff, administrative and clerical staff, school medical staff and security staff, and contractors.
   (d) (I) "Harassment or discrimination" means to engage in, or the act of engaging in, any unwelcome physical or verbal conduct or any written, pictorial, or visual communication by a student or employee that is directed at a student or group of students because of that student's or group's membership in, or perceived membership in, a protected class based on disability, race, creed, color, sex, sexual orientation, gender identity, gender expression, family composition, religion, age, national origin, or ancestry, which conduct or communication is objectively offensive to a reasonable individual who is a member of the same protected class. The conduct or communication need not be severe or pervasive to constitute harassment or discrimination and constitutes harassment or discrimination if:
      (A) Submission to the conduct or communication is explicitly or implicitly made a term or condition of the individual's access to an educational service, opportunity, or benefit;
      (B) Submission to, objection to, or rejection of the conduct or communication is used or explicitly or implicitly threatened to be used as a basis for educational decisions affecting the individual; or
(C) The conduct or communication has the purpose or effect of unreasonably interfering with the individual's access to their educational service, opportunity, or benefit or creating an intimidating, hostile, or offensive educational environment.

(II) Petty slights, minor annoyances, and lack of good manners do not constitute harassment or discrimination unless the slights, annoyances, or lack of manners, when taken in combination and under the totality of the circumstances, meet the standard set forth in subsection (1)(d)(I) of this section.

(III) Whether conduct constitutes harassment or discrimination is judged under the totality of the circumstances, which may include, but is not limited to:

(A) The frequency of the conduct or communication, recognizing that a single incident may rise to the level of harassment or discrimination;

(B) The number of individuals engaged in the conduct or communication;

(C) The type or nature of the conduct or communication;

(D) The duration of the conduct or communication;

(E) The location where the conduct or communication occurred;

(F) Whether the conduct or communication is threatening;

(G) Whether any power differential exists between the individual alleged to have engaged in harassment or discrimination and the individual alleging the harassment or discrimination;

(H) Any use of epithets, slurs, or other conduct or communication that is humiliating or degrading;

(I) Whether the conduct or communication reflects stereotypes about an individual or group of individuals in a protected class; or

(J) Whether the conduct includes an act of physical violence.

(e) "Local education provider" means a school district, a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22, a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22, or a board of cooperative services created and operating pursuant to article 5 of this title 22 that operates one or more public schools.

(f) "Policy" means the policy adopted by a local education provider as required in subsection (3) of this section.

(g) "Public school" means an elementary school, middle school, junior high school, high school, or district charter school of a school district that enrolls students in any of grades kindergarten through twelve or an institute charter school that enrolls students in any of grades kindergarten through twelve.

(h) "Respondent" means the individual who has been reported to be the perpetrator of alleged harassment or discrimination.

(i) "Title IX" means Title IX of the federal "Education Amendments of 1972", 20 U.S.C. secs. 1681 et seq., as amended.

(2) (a) A public school shall accept formal reports of harassment or discrimination in writing or in-person; by phone, e-mail, or online form.

(b) A report of harassment or discrimination received by a public school is confidential and employees shall keep information learned during an investigation of harassment or discrimination confidential to the extent practicable. Nothing in this section prevents employees from reporting known or suspected child abuse or neglect as required pursuant to section
19-3-304 or reporting any other criminal activity to law enforcement. Nothing in this section prohibits a public school or a local education provider from providing records to law enforcement, the department of human services, or a district attorney for the investigation or prosecution of any crime.

(c) Each public school shall post notices in multiple places in the school, written in simple and age-appropriate language, describing how and to whom a student can report harassment or discrimination to the school. The notices must be conspicuously posted in easily accessible and well-lit places customarily frequented by students and employees.

(d) Each local education provider shall adopt procedures for investigating reports of harassment or discrimination, which must be fair, impartial, and prompt, and must:

(I) Require a public school to make a good faith effort to complete an investigation and make any findings within sixty days after the report, without infringing upon the rights enshrined in federal and state law of the complainant or the respondent; except that the public school may extend the sixty-day deadline for up to thirty additional days for good cause with prior written notice to the complainant and to the respondent of the delay and the reason for the delay or may extend the deadline at the request of a law enforcement agency;

(II) Include preponderance of the evidence as the evidentiary standard, notwithstanding any other evidentiary standard in any other policy of the local education provider;

(III) Specify that all questions related to the investigation be directed to the individual conducting the investigation, or the individual's designee, and that the individual or designee conducting the investigation shall consider patterns of misconduct as relevant evidence;

(IV) Provide the parties with the same opportunity to have an advisor or other person present during any part of the investigative process;

(V) Provide written updates about the status of an investigation or proceeding to the parties and the parties' parents or legal guardians at each stage of the investigation or proceeding, but at least every fifteen business days;

(VI) Provide for concurrent notification to the parties of the outcome of the investigation and any findings; and

(VII) Prohibit retaliation against a student who makes a report, or participates in an investigation into a report made, pursuant to this section. Charges against a student for code of conduct violations related to the incident for the purpose of punishing a student for making a report or otherwise interfering with any right or privilege secured by this section constitutes retaliation.

(e) Each local education provider shall retain the records of a harassment or discrimination report for seven years. The record of a report includes any accommodations or supportive measures taken in response to a report or formal complaint of harassment or discrimination and documentation of the basis for the local education provider's action and response.

(f) A public school shall grant an excused absence to a student who has experienced harassment or discrimination for any time the student is out of school because of a therapy, medical, legal, or victim services appointment related to the harassment or discrimination.

(g) (I) A public school shall offer accommodations and supportive measures to a student experiencing harassment or discrimination that are designed to protect the safety of all students and that preserve and restore equal access to education for the student. Accommodations and supportive measures may include, but are not limited to, counseling, extensions of deadlines or
other course-related adjustments, extra time for homework or tests, the opportunity to resubmit homework or retake a test, remedying an impacted grade, excused absences, the opportunity for home instruction, modifications to class schedules, and restrictions on contact between the parties to a report of harassment or discrimination.

(II) A public school shall provide supportive measures required pursuant to Title IX, and may provide any other supportive measures as soon as it receives a report of harassment or discrimination.

(III) A public school shall not require a formal report or finding of harassment or discrimination before providing supportive measures.

(3) (a) On or before July 1, 2024, each local education provider shall adopt a written policy that protects students experiencing harassment or discrimination. The policy adopted pursuant to this subsection (3) is separate from and in addition to any policy a public school or local education provider must adopt pursuant to Title IX. Each local education provider shall periodically review and update the policy.

(b) The policy must be written in plain language and include the following:

(I) Information on all reporting options available to a student;

(II) The name and contact information for the person designated to receive reports of harassment or discrimination, who may be the Title IX coordinator or serve in an equivalent position in the school;

(III) An explanation of the school's role in responding to reports of harassment or discrimination, preventing recurrence of harassment or discrimination, and remedying effects of the harassment or discrimination;

(IV) The contact information for resources for victims of violence, including a local, state, or national twenty-four-hour helpline for domestic violence and sexual violence support;

(V) The protocol for employees to respond to reports of harassment or discrimination, including:

(A) The procedures adopted pursuant to subsection (2)(d) of this section for investigating reports of harassment or discrimination and making findings that are fair, impartial, and prompt; and

(B) Prohibiting reliance solely on a criminal investigation by a law enforcement agency in lieu of responding to a report of harassment or discrimination promptly and effectively;

(VI) A prohibition on a school using a student report of harassment or discrimination, whether verbal or in writing, or information revealed in any investigation or disciplinary proceedings of the report, as the basis for, or a consideration in, investigating or exacting any disciplinary response for a school violation by the reporting student or complainant related to the reported incident for any of the following: Engaging in reasonable self-defense against the respondent, consensual sexual activity, drug use, alcohol use, late arrival, truancy, unauthorized access to facilities, talking publicly about the reported harassment or discrimination, or expressing a trauma symptom; except that nothing in this section prohibits a school or local education provider from disciplining a student who knowingly makes a false report of harassment or discrimination, or disciplining a student when necessary to ensure the safety of any student or employee. A finding of no harassment or discrimination does not itself constitute a false report.

(VII) Information about available accommodations and supportive measures described in subsection (2)(g) of this section, including information about how a student can request
supportive measures and an explanation of additional accommodations available for students with disabilities.

(c) Each public school shall make the policy available to students, students' parents and legal guardians, and employees by:

(I) Prominently displaying the policy on the home page of its website;

(II) Annually distributing the policy through electronic means to parents and legal guardians of students enrolled at the public school and separately to students enrolled in sixth through twelfth grade. The copy of the policy distributed pursuant to this subsection (3)(c)(II) must be distributed separately from any other document.

(III) Providing a physical copy of the policy to each incoming student and the parent or legal guardian of each incoming student, upon request; and

(IV) Annually distributing the policy to employees.

(d) A policy distributed to a student, parent, legal guardian, or employee, whether a physical or electronic copy, must be available in English and, upon request, in Spanish. The policy posted on the website must be in English and a school may also post the policy in Spanish.

(4) Beginning no later than July 1, 2024, each public school shall provide training to all employees about harassment and discrimination. Each new employee of a public school must complete training upon hiring and at least every three years thereafter; except that an employee must complete training when transferring from a position working with elementary school-aged students to a position working with secondary school-aged students, or transferring from a position working with secondary school-aged students to a position working with elementary school-aged students. The training must be provided during the employee's normal working hours. The training must include, at a minimum, instruction on the following:

(a) Recognizing harassment or discrimination, including indicators of grooming and child sexual abuse;

(b) The appropriate immediate response when harassment or discrimination is reported to or witnessed by an employee;

(c) Reporting harassment or discrimination to the public school or school district; and

(d) If the employee has direct supervision of students, the following:

(I) The public school's procedure for responding to allegations of harassment or discrimination;

(III) Best practices for avoiding victim-blaming; the effect of trauma on victims of harassment or discrimination; communicating with victims sensitively, compassionately, and in a gender-inclusive and culturally responsive manner; and the impact of harassment or discrimination on students with disabilities; and

(IV) The types of supportive measures available to students and the provision of effective academic, mental health, and safety accommodations for students who report harassment or discrimination.
(5) (a) On or before July 1, 2025, and on or before July 1 of each year thereafter, each public school of a school district shall report to the school district, and each institute charter school shall report to the state charter school institute, the following information, aggregated and without personally identifiable information about the parties, from the prior twelve months:
   (I) The number of formal harassment or discrimination reports received by the school and the type of bias reported when harassment or discrimination was found; and
   (II) The time to complete each investigation and to make findings related to each report.
(b) On or before August 1, 2025, and on or before August 1 of each year thereafter, the state charter school institute and each school district shall report to the department of education the information it received from each school pursuant to subsection (5)(a) of this section.
(c) On or before October 1, 2025, and on or before October 1 of each year thereafter, the department shall report the information received pursuant to this section to the sexual misconduct advisory committee created in section 23-5-147.

(6) (a) This section does not authorize a public school or local education provider, or the charter school institute, to violate any federal law, regulation, or guideline, including Title IX; section 504 of the federal "Rehabilitation Act of 1973", 29 U.S.C. sec. 701 et seq.; and Title VI of the federal "Civil Rights Act of 1964", 42 U.S.C. sec. 2000d et seq., in carrying out the duties described in this section. If this section conflicts with Title IX, section 504 of the federal "Rehabilitation Act of 1973", or Title VI of the federal "Civil Rights Act of 1964", the applicable federal law prevails.
(b) If a person files a complaint alleging conduct or communication that is governed by federal law and this section, both the federal law and this section apply and the school or local education provider shall concurrently evaluate the complaint pursuant to federal law and the procedures and policies required by this section.

(7) A complaint that is unsubstantiated is confidential and not subject to disclosure pursuant to the "Colorado Open Records Act", part 2 of article 72 of title 24, and must not serve as a basis for discipline, dismissal, termination, or any employment reference or licensing action unless the conduct establishes a pattern of the same or similar behavior.

ARTICLE 2
Department - Commissioner

PART 1
DEPARTMENT OF EDUCATION - COMMISSIONER

Editor's note: This part 1 was numbered as article 1 of chapter 123, C.R.S. 1963. The substantive provisions of this part 1 were repealed and reenacted in 1964, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 1 prior to 1964, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume.
22-2-101. Short title. This part 1 shall be known and may be cited as the "State Department of Education Act of 1964".

22-2-102. Definitions. As used in this part 1, unless the context otherwise requires:
(1) "Commissioner of education" or "commissioner" means the office of the commissioner of education created and existing pursuant to section 1 of article IX of the state constitution.
(2) "Department of education" or "department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
(3) "Nonpublic school" means a school organized and maintained by a recognized religious or independent association performing an academic function.
(4) "Public school" means a school maintained and operated by a school district.
(4.5) "Pupil enrollment count day" has the same meaning as set forth in section 22-54-103 (10.5).
(5) "State board of education" or "state board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

22-2-103. Department of education. (1) The department of education shall include the following:
(a) The state board of education;
(b) The commissioner of education, assistant commissioners of education, and other officers and employees of the department;
(c) The state library, created in section 24-90-104, C.R.S.;
(d) The Colorado school for the deaf and the blind, as provided for in article 80 of this title;
(e) The state charter school institute established in section 22-30.5-503;
(f) The division of online learning established in section 22-30.7-103;
(g) The office of facility schools created in section 22-2-403;
(h) The facility schools board created in section 22-2-404;
(i) The Colorado state advisory council for parent involvement in education created in section 22-7-303;
(j) The office of dropout prevention and student re-engagement created in section 22-14-103; and
(k) The concurrent enrollment advisory board created in section 22-35-107.

Source: L. 64: R&RE, pp. 109, 529, §§ 3, 1. C.R.S. 1963: § 123-1-3. L. 68: p. 94, § 41. L. 2008: (1)(g) and (1)(h) added, p. 1382, § 3, effective May 27; entire section amended, p. 1894, § 68, effective August 5. L. 2009: (1)(g) and (1)(h) amended and (1)(j) added, (HB 09-1243), ch. 290, p. 1424, § 6, effective May 21; (1)(g) and (1)(h) amended and (1)(k) added, (HB 09-1319), ch. 286, p. 1317, § 3, effective May 21; (1)(g) and (1)(h) amended and (1)(i)
Editor's note: (1) Amendments to this section by House Bill 08-1204 and House Bill 08-1412 were harmonized.
(2) Amendments to subsections (1)(g) and (1)(h) by House Bill 09-1243, House Bill 09-1319, and Senate Bill 09-090 were harmonized.

22-2-104. Offices and positions - nature. (1) As a matter of legislative determination, the offices of commissioner of education, assistant commissioners of education, and all positions of employment classified by the board as director, consultant, supervisor, or instructor are declared to be educational in nature and administrators of the department and not under the state personnel system in accordance with section 13 (2)(a)(VII) of article XII of the state constitution. The board may authorize the commissioner, as its designee, to classify positions of employment pursuant to this section.
(2) Any employee holding a position that was exempt from the state personnel system prior to January 1, 2017, may remain exempt from the state personnel system so long as the employee continues to hold that position.
(3) The board or the commissioner, as the designee of the board, shall determine which positions in the department meet the criteria set forth in subsection (1) of this section; except that a position shall not be determined to be exempt while it is held by an employee in the state personnel system.
(4) No later than December 31, 2017, and no later than December 31 of each year thereafter, the commissioner shall submit a report to the state personnel director, in the form prescribed by the director, listing all positions in the department that are exempt from the state personnel system in accordance with this section.

Cross references: For exemption of the commissioner from state personnel system, see § 1 of article IX of the state constitution; for exemption of faculty and administrators in educational institutions and departments not reformatory or charitable in character, see § 13 (2) of article XII of the state constitution.

22-2-105. State board of education - composition. (1) The state board of education consists of one member elected from each congressional district in the state and, if the total number of congressional districts of the state is an even number, one member elected from the state at large. The members of the state board of education serving on April 30, 1982, shall continue to serve the terms for which they were elected. At the general election held in 1982, one member shall be elected from the second congressional district for a six-year term, one member shall be elected from the fourth congressional district for a six-year term, one member shall be elected from the fifth congressional district for a four-year term, and one member shall be elected from the state at large for a six-year term, all such terms commencing on the second Tuesday in January 1983. At the general election held in 1984, one member shall be elected from
the first congressional district for a six-year term, and one member shall be elected from the
third congressional district for a six-year term, all such terms commencing on the second
Tuesday in January 1985. At the general election held in 1986, one member shall be elected from
the fifth congressional district for a six-year term, and one member shall be elected from the
sixth congressional district for a six-year term, all such terms commencing on the second
Tuesday in January 1987. At the general election held in 2002, one member shall be elected from
the seventh congressional district for a six-year term commencing on the second Tuesday in
January 2003. At the general election held in 2022, one member shall be elected from the eighth
congressional district for a two-year term, and one member shall be elected from the state at
large for a six-year term, both terms commencing on the second Tuesday in January 2023.

(2) The member of the state board from each congressional district of the state shall be
nominated and elected by the registered electors of such district in the same manner as members
of the house of representatives of the congress of the United States are nominated and elected.
Each member from a congressional district shall be a registered elector of such district. If the
total number of congressional districts of the state is an even number, the additional member of
the board shall be nominated and elected at large in the same manner as state officers are
nominated and elected. If the total number of congressional districts changes to an odd number
during the term of the member elected at large, such member shall be permitted to continue
serving on the state board until the expiration of his or her term.

(3) Except as provided in subsection (1) of this section, members shall be elected for
terms of six years. They shall serve without compensation but shall be reimbursed for any
necessary expenses incurred by them in the performance of their duties as members.

(3.5) Any member of the state board who was elected to office as a resident of a
designated congressional district, and who no longer resides in such congressional district solely
because of a change made to the boundaries of such district pursuant to sections 44 to 44.6 of
article V of the state constitution, is eligible to hold office for the remainder of the term for
which the member was elected, notwithstanding such nonresidency.

(4) The state board shall elect from its own membership a chairman and a vice-chairman
who shall hold office for terms of two years. The commissioner shall act as secretary to the state
board. The state board shall meet at least quarterly and at such other times as may be necessary,
upon call of the chairman or the commissioner or by a majority of its members.

(5) If the total number of congressional districts changes to an odd number during the
term of the member elected at large, a vacancy of such member's seat shall not be filled by the
state board.

(6) For any board member elected on or after May 22, 2008, during his or her term of
office, a member of the state board shall not be a member of the general assembly; an officer,
employee, or board member of a school district or charter school in the state; an officer,
employee, or board member of the state charter school institute or the institute board; or an
employee of the state board or the department of education.

(1) amended, p. 295, § 17, effective June 19. L. 82: (1) R&RE and (3) amended, pp. 352, 353, §§
142, § 1, effective August 4. L. 2002: (5) repealed, p. 536, § 1, effective July 1; (1), (2), and (5)
amended and (3.5) added, p. 944, § 5, effective August 7. L. 2007: (6) added, p. 737, § 8,
As used in this section:

(a) "Party congressional central committee" means the committee established pursuant to section 1-3-103 (3), C.R.S.

(b) "State central committee" means the committee established pursuant to section 1-3-103 (2), C.R.S.

(2) Any vacancy occurring on the state board that may occur by reason of death, removal, or resignation from office, or removal from the district from which elected, or when a board member is elected, qualified, and takes office for another state office, shall be filled as provided in this section. Any member selected to fill a vacancy pursuant to this section shall serve until the next regular election providing such appointee is subject to the qualifications set forth by law.

(3) (a) Any vacancy occurring on the state board, other than a vacancy in a seat filled by a member elected from the state at large, shall be filled by the vacancy committee of the party congressional central committee of the same political party as the vacating board member for the congressional district represented by the vacating board member. For purposes of this section, in selecting the members of a vacancy committee, the central committee of a jurisdiction shall select, at a minimum, the members of the jurisdiction's central committee. If no vacancy committee of the party congressional central committee exists, the party congressional central committee shall perform the functions of the vacancy committee.

(b) If the vacating board member was affiliated with a minor political party, then the vacancy shall be filled by the vacancy committee designated in the constitution or bylaws of the minor political party.

(c) If the vacating member was unaffiliated with a political party, then the vacancy shall be filled by the vacancy committee designated on the vacating board member's petition for nomination pursuant to section 1-4-802 (1)(e), C.R.S.

(4) (a) The vacancy committee identified in subsection (3) of this section, by a majority vote of its members present and voting at a meeting called for that purpose, shall select a person who possesses the qualifications for a member of the state board and who is affiliated with the same political party or minor political party, if any, of the vacating board member, as shown on the registration books of the county clerk and recorder.

(b) At least six days prior to the meeting at which the vacancy committee selects a person to fill the vacancy, the chairperson of the party congressional central committee that selected the members of the vacancy committee shall mail to each member of the vacancy committee a written notice announcing the time and location of the vacancy committee meeting. Mailing of the notice is effective when the notice is properly addressed and deposited in the
United States mail, with first-class postage prepaid. The vacancy committee may not select a person to fill the vacancy at any meeting for which notice is not provided pursuant to this paragraph (b).

(c) No meeting shall be held until a quorum is present consisting of not less than one-half of the voting membership of the vacancy committee. No member of the vacancy committee may vote by proxy.

(d) The vacancy committee shall certify the selection to the secretary of state within thirty days after the date the vacancy occurs. If the vacancy committee fails to certify a selection within thirty days in accordance with the provisions of this paragraph (d), the governor, within thirty-five days after the vacancy occurs, shall fill the vacancy by appointing a person having the qualifications set forth in paragraph (a) of this subsection (4). The name of the person appointed by the governor shall be certified to the secretary of state. The person selected or appointed pursuant to this subsection (4), after having qualified and taken the oath of office, shall immediately assume the duties of office.

(5) (a) In the event of a vacancy in the seat held by the state board member elected from the state at large, within five days after the state board receives notice of the vacancy, or within five days after the effective date of the resignation, whichever is later, the secretary of the state board shall refer the vacancy to the state central committee of the same political party as the vacating state board member. The state central committee shall refer the matter to the state central committee executive committee selected pursuant to section 1-3-105 (2), C.R.S.

(b) If the vacating board member was affiliated with a minor political party, then the vacancy shall be filled by the vacancy committee designated in the constitution or bylaws of the minor political party.

(c) If the vacating member was unaffiliated with a political party, then the vacancy shall be filled by the vacancy committee designated on the vacating board member's petition for nomination pursuant to section 1-4-802 (1)(e), C.R.S.

(6) (a) A vacancy occurring in the seat held by the state board member elected from the state at large shall be filled in accordance with the procedures established in this subsection (6).

(b) Within thirty days after being notified by the secretary of the state board of the occurrence of a vacancy, the vacancy or executive committee identified in subsection (5) of this section shall meet and, by a majority vote of its members present and voting at a meeting called for that purpose, shall nominate no fewer than three and no more than five candidates who possess the qualifications for a member of the state board and who are affiliated with the same political party or minor political party, if any, as the vacating board member, as shown on the registration books of the county clerk and recorder. The names of the candidates nominated shall be forwarded to the secretary of the state board.

(c) The state board shall, within twenty calendar days after receiving the names from the vacancy or executive committee identified in subsection (5) of this section interview all of the nominated candidates; except that the vacating board member shall not participate in the interview process.

(d) After completion of the interviews, and at a date and time established by the state board, the state board shall hold an open meeting to vote on the selection of a nominee to fill the vacancy. The vacating board member shall not participate in the open meeting to vote on the selection of a nominee to fill the vacancy. Nominees for selection shall be limited to the nominees referred to the state board by the vacancy or executive committee identified in
subsection (5) of this section. Selection of a nominee shall occur by a majority vote of the state board members present and voting at the meeting called for such purpose. No meeting shall be held until a quorum is present consisting of not less than one-half of the voting membership of the state board. No member of the state board may vote by proxy. The state board shall certify the selection to the secretary of state within ten days after the meeting called to make the selection. The person, after having qualified and taken the oath of office, shall immediately assume the duties of office.

(e) In the event that the state board, after reasonable efforts to elect by a majority vote a nominee to fill the vacancy, is unable to elect a nominee by a majority vote, the selection of one of the persons nominated pursuant to paragraph (b) of this subsection (6) shall be made by the highest elected state official of the same political party as the vacating board member, in the following order: Governor; president of the senate; speaker of the house of representatives; minority leader of the senate; minority leader of the house of representatives. The name of the nominee selected by the highest elected state official shall be certified to the secretary of state. The person, after having qualified and taken the oath of office, shall immediately assume the duties of office.

(7) If a vacancy on the state board is caused by the resignation of a member of the state board and the letter of resignation gives an effective date of resignation that is later than the date the letter of resignation is submitted, the vacancy committee identified in subsection (3) of this section or the vacancy or executive committee identified in subsection (5) of this section, whichever is applicable, may meet no more than twenty days prior to the effective date of the resignation for the purpose of nominating a person to fill the vacancy. The certification of the nominee of the vacancy or executive committee, whichever is applicable, to the secretary of state may not be made prior to the effective date of the resignation and, if the member of the state board withdraws the letter of resignation prior to the effective date of the resignation, the person nominated by the vacancy or executive committee, whichever is applicable, may not be certified to the secretary of state.

(8) If the vacancy is caused by the death of a member-elect of the state board who has been elected to office but who has not yet been sworn in, the vacancy committee identified in subsection (3) of this section or the vacancy or executive committee identified in subsection (5) of this section, whichever is applicable, shall meet within thirty days after the death of the state board member-elect to fill the vacancy. The certification of the nomination of the vacancy or executive committee, whichever is applicable, to the secretary of state may be made prior to the convening of the state board but shall not take effect until the effective date of the vacancy, which is the first day the state board convenes.

To adopt, on or before May 15, 2013, a comprehensive set of guidelines for the establishment of high school graduation requirements to be used by each school district board of education in developing local high school graduation requirements. Each school district board of education retains the authority to develop its own unique high school graduation requirements, so long as those local high school graduation requirements meet or exceed any minimum standards or basic core competencies or skills identified in the comprehensive set of guidelines for high school graduation developed by the state board pursuant to this paragraph (a.5). In developing the guidelines for high school graduation, the state board shall utilize the recommendations of the state graduation guidelines development council established in section 22-7-414, as it existed prior to July 1, 2008, and shall:

(I) Take into account recommendations from the 2006 report of the Colorado education alignment council appointed by the governor pursuant to executive order B 009 05;

(II) Ensure that the state graduation guidelines are aligned with the description of postsecondary and workforce readiness, including but not limited to the minimum required English language competencies, adopted by the state board and the Colorado commission on higher education pursuant to section 22-7-1008 and with the preschool through elementary and secondary education standards adopted by the state board pursuant to section 22-7-1005;

(III) Work with the Colorado commission on higher education to ensure that the state board's guidelines for high school graduation adopted pursuant to this paragraph (a.5) and the postsecondary academic admission standards established pursuant to section 23-1-113, C.R.S., are aligned for students entering a four-year public postsecondary education institution on or after August 1, 2013;

(IV) Recognize and address the multiple and diverse pathways to diplomas offered by school districts in the state. The guidelines for high school graduation shall accommodate the differing and broad categories of student interests and economic needs, including but not limited to agriculture, architecture, arts, communications, business and management, construction technology, education, finance, government, health sciences, tourism, human services, information technology, law and public safety, manufacturing, marketing and sales, physical education, science and technology, and transportation. The guidelines for high school graduation adopted by the state board pursuant to this paragraph (a.5) shall ensure, at a minimum, that, while not identical, each pathway is equally rigorous.

(V) Utilize standards-based education, as described in part 10 of article 7 of this title, as the framework for the development of the guidelines for high school graduation and consider how high school graduation requirements can be articulated in a standards-based education system;

(VI) Recognize and acknowledge the importance of obtaining the core competency skills and standards to succeed in the twenty-first century, including but not limited to proficiency in math, science, and written and verbal communication skills;

(VI.5) Recognize and acknowledge the importance of education in performing arts, as defined in section 22-1-104.5 (1)(b), and visual arts, as defined in section 22-1-104.5 (1)(c), in strengthening student learning in other subjects and in supporting students' ability to succeed in the twenty-first century; and

(VII) Take into account the importance of pre-high school and postsecondary career planning that provides middle school and junior high school students and parents with awareness of the school district's high school graduation requirements, the multiple pathways a student can
follow, and other pertinent information that will help prepare a student for a successful high school experience.

(b) To appoint a commissioner of education;

(b.5) To review and evaluate annually the job performance of the commissioner of education using procedures and criteria determined by the state board. The procedures and criteria shall include, at a minimum, consideration of the comments and opinions of school district superintendents and school board members regarding the commissioner's job performance. Notwithstanding section 24-1-136 (11)(a)(l), the state board shall report the results of its evaluation to the education committees of the house of representatives and senate, or any successor committees.

(c) To appraise and accredit the public schools and school districts in this state and the state charter school institute pursuant to the provisions of article 11 of this title, and to submit recommendations to the governor and general assembly for improvements in education;

(d) To approve the annual budget request for the department prior to submission;

(e) To order the distribution or apportionment of federal and state moneys granted or appropriated to the department for the use of the public schools of the state, except moneys granted or made available to another agency specifically designated;

(f) To review the annual report prepared by the commissioner and to transmit it to the governor in the form and manner prescribed by the heads of the principal departments pursuant to the provisions of section 24-1-136, C.R.S.;

(f.5) To comply with the requirements of section 24-1-136.5, C.R.S., concerning the preparation of operational master plans, facilities master plans, and facilities program plans, as if the state board were the executive director of the department;

(f.7) To provide such aggregate, nonidentifying information concerning student enrollment in every school district in the state that the department of human services may request pursuant to section 19-1-115.5, C.R.S.;

(f.9) Repealed.

(g) To perform any other duty which may be required by law;

(h) On or before January 15, 2012, to adopt by rule standards for charter schools and charter school authorizers based on the recommendations made by the charter school and charter authorizer standards review committee pursuant to section 22-30.5-104.5;

(i) To ensure that the rules promulgated by the state board and the policies and guidelines adopted by the department pursuant to this title impose the least possible administrative or financial burden on school districts, charter schools, or boards of cooperative services and, when appropriate to reduce potential administrative burden, to promulgate rules and instruct the department to adopt policies and guidelines that specifically apply to rural school districts, charter schools, and boards of cooperative services, as identified by the department.

**22-2-106.5. State board - duties with regard to student data - memorandum of understanding.** Notwithstanding the provisions of section 22-2-111 (3)(a), the state board shall enter into a memorandum of understanding on or before September 1, 2006, with the Colorado...
commission on higher education to adopt a policy to share student data. At a minimum, the policy shall ensure that the exchange of information is conducted in conformance with the requirements of the federal "Family Educational Rights and Privacy Act of 1974", as amended, 20 U.S.C. sec. 1232g, and all federal regulations and applicable guidelines adopted in accordance therewith. The policy shall additionally require the state board, upon request, to share student data with qualified researchers. For purposes of this section, qualified researchers shall include, but need not be limited to, institutions of higher education, school districts, and public policy research and advocacy organizations.

22-2-107. State board - power. (1) The state board has the power:
(a) To perform all duties delegated to it by law;
(b) To employ personnel, subject to the provisions of section 13 of article XII of the state constitution, as may be necessary for the performance of powers and duties delegated to the state board, the commissioner, and the department;
(c) To promulgate and adopt policies, rules, and regulations concerning general supervision of the public schools, the department, and the educational programs maintained and operated by all state governmental agencies for persons who have not completed the twelfth-grade level of instruction;
(d) To approve within the appropriation made by the general assembly a salary schedule for personnel of the department who are not within the state personnel system;
(e) To create, maintain, and modify, from time to time, such administrative organization for personnel of the department as may be deemed necessary or beneficial;
(f) To provide consultative services to the public schools and boards of education of school districts;
(g) To appraise for the purpose of accreditation any nonpublic school, but only upon its request;
(g.5) Repealed.
(h) To accept gifts, grants, and donations of any nature for the use of the department or the public schools in accordance with conditions prescribed by the donor; but no gift, grant, or donation shall be accepted if the conditions attached thereto require the use or expenditure thereof in a manner contrary to law;
(i) To prepare, approve, and implement plans necessary as a prerequisite to the receipt of federal moneys or property under any act of congress for the use of the public schools of the state, except moneys granted or made available to another agency specifically designated;
(j) To require a school district to take a school census, from time to time, containing such items of information as determined by the state board, and to give reasonable notice to each school district before requiring the taking of a census;
(k) To appoint such advisory committees as may be beneficial to the improvement of education in the state;
(l) To cooperate with other agencies either within or without the state for the improvement of education;
(m) To cause to be prepared or corrected any report required by law to be filed by a school district at any time that a school district has failed to file such report when due or has
filed a grossly inaccurate or incomplete report and to cause such school district to pay the cost of such preparation or correction;

(n) To enter into reciprocal agreements for the exchange of information relative to the issuance, denial, or revocation of teacher licenses or certificates with the legally constituted licensing or certificating agencies in other states;

(o) To enter into contracts with the state board for community colleges and occupational education for the development and for the supervision of the administration and implementation of state plans for occupational education in the public elementary and secondary schools;

(p) Repealed.

(q) To promulgate rules and regulations to define the types and amounts of costs in excess of applicable revenues that a school district of residence of a child with a disability shall pay as tuition to educate that child elsewhere within Colorado at a facility, as defined by the department in its regulations, approved by the office of facility schools in the department pursuant to section 22-2-407, or at an administrative unit as defined in section 22-20-103 (1) other than the administrative unit of residence; however, a school district may pay a higher amount, as provided in section 22-20-109 (1);

(r) To take the actions necessary to comply with the requirements of section 24-1-136.5, C.R.S., concerning the preparation of operational master plans, facilities master plans, and facilities program plans;

(s) To approve programs by nonpublic, nonparochial schools to provide educational services to students pursuant to section 22-33-203, and to approve services to be provided to at-risk students pursuant to agreements entered into pursuant to section 22-33-204; and

(t) To render a decision on the appeal of the state charter school institute's approval or denial of an institute charter school application or the revocation or nonrenewal of an institute charter school contract pursuant to part 5 of article 30.5 of this title.

Editor's note: Subsection (1)(p)(II) provided for the repeal of subsection (1)(p), effective July 1, 2008. (See L. 2008, p. 1382.)

22-2-108. Federal financial assistance. (1) The state board of education is authorized to accept, use, and administer all moneys and properties granted or made available to the state or any agency thereof for an educational purpose, except those moneys and properties granted or made available for such purpose to another such agency specifically designated.
(2) If it is necessary to execute a formal agreement with a federal agency or officer as a condition precedent to receiving federal moneys or property pursuant to subsection (1) of this section, the state board is authorized to execute such an agreement, with the approval of the attorney general, provided such agreement shall not be inconsistent with law.

(3) The state treasurer is authorized to receive any moneys accepted pursuant to the provisions of subsection (1) of this section as official custodian thereof, and he shall disburse said moneys upon the order of the state board.

(4) By July 1, 2005, and by July 1 of each year thereafter, the state board shall submit a report to the education committees of the senate and house of representatives, or any successor committees, detailing the total amount of federal funds received by the state board in the prior fiscal year, accounting how the funds were used, specifying the federal law or regulation that governs the use of the federal funds, if any, and providing information regarding any flexibility the state board has in using the federal funds.

22-2-109. State board of education - additional duties - teacher standards - principal standards - rules. (1) The state board of education shall:

(a) Repealed.

(b) to (f) (Deleted by amendment, L. 99, p. 1186, § 2, effective June 1, 1999.)

(g) Adopt rules that prescribe standards of qualification, preparation, training, or experience that are required for the issuance of all licenses, master certificates, and authorizations, as provided for in article 60.5 of this title 22;

(h) Adopt rules that prescribe standards for endorsements deemed appropriate for each type of license or authorization;

(i) Utilize representatives from all levels of education in developing standards of qualification, preparation, and experience for all licenses, master certificates, authorizations, and endorsements;

(j) Conduct or arrange for research pertinent or essential to implement the provisions of article 60.5 of this title, including but not limited to educator licensure and educator preparation programs in institutions of higher education;

(k) and (l) (Deleted by amendment, L. 99, p. 1186, § 2, effective June 1, 1999.)

(m) Repealed.

(n) and (o) (Deleted by amendment, L. 99, p. 1186, § 2, effective June 1, 1999.)

(p) Adopt rules to ensure that administrator programs of preparation meet the requirements concerning instruction in evaluating licensed personnel specified in section 22-9-108;

(q) Adopt rules that require the reporting between school districts of the enrollment of any students who have transferred to another school or school district within the state. Such rules shall improve the ability of school districts to accurately identify which students have in fact dropped out of school and which students have merely transferred to another school or school district. Such rules shall also set forth uniform standards for determining which school or school district shall count a dropout as part of its own dropout count.

(r) Repealed.
(2) (Deleted by amendment, L. 99, p. 1186, § 2, effective June 1, 1999.)

(3) The state board of education shall adopt by rule quality standards, as defined in section 22-9-103 (2.9), that at a minimum must include a requirement that each candidate for an initial teacher license have and be able to demonstrate the following skills:
   (a) The ability to align instructional objectives with adopted student learning standards;
   (b) The ability to teach in a manner that addresses individual student needs and enables the student to improve his or her performance;
   (c) Proficiency in measuring and monitoring each student's progress toward achieving learning standards;
   (d) The ability to adjust instructional practices and methods when necessary to stimulate or enhance student progress;
   (e) The ability to engage parents as learning partners to promote student learning;
   (f) The ability to integrate technology into instruction at the grade level for which the teacher expects to be endorsed;
   (g) The ability to assess student performance;
   (h) The ability to demonstrate a high level of content area knowledge and professional competencies in the areas identified by rule of the state board pursuant to section 22-60.5-203.

   (4) In adopting the quality standards pursuant to subsection (3) of this section, the state board shall also adopt rules specifying the methods by which a teacher candidate may demonstrate that the teacher candidate has achieved the specified skills and the manner in which such demonstrations may be documented for submission when the teacher candidate applies for licensure.

   (5) Repealed.

   (6) (a) The state board of education shall adopt by rule quality standards, as defined in section 22-9-103 (2.9), to guide the development of principal preparation programs. The state board of education shall develop the standards in collaboration with institutions of higher education and alternative programs that offer principal preparation programs and superintendents and local boards of education. The state board of education shall ensure that the standards are consistent with national standards for principal preparation. The standards must include, but need not be limited to, the following:
      (I) Strong leadership development that shall include but need not be limited to decision-making, communication, and human relations skills; and
      (II) Instructional skills and knowledge and the use of data necessary to lead and organize a standards-based school that is characterized by student proficiency in literacy and the state content standards as described in section 22-7-1005.

      (b) Repealed.

   (7) Repealed.

22-2-110. Commissioner of education - oath - qualifications - tenure. (1) The commissioner of education shall be the chief state school officer and executive officer of the department of education. He or she shall possess the professional qualifications described in subsection (4) of this section and such additional professional qualifications as may be deemed appropriate for the office by the state board.

(2) The state board shall appoint the commissioner who shall serve at the pleasure of the board, and receive such compensation as may be determined by the board. The commissioner is a type 2 entity, as defined in section 24-1-105.

(3) Before entering upon his or her duties, the commissioner shall subscribe to an oath of office, which oath shall be filed with the secretary of state.

(4) The person appointed to the office of commissioner of education by the state board pursuant to subsection (2) of this section shall, at a minimum, satisfy the following professional qualifications:

(a) The person shall have demonstrated personal and professional leadership success, preferably in the administration of public education; and

(b) The person shall possess an earned advanced degree, preferably in education or educational administration awarded from a regionally or nationally accredited college or university.

(5) Notwithstanding section 24-1-136 (11)(a)(I), the state board shall annually review and evaluate the job performance of the commissioner, as provided in section 22-2-106 (1)(b.5), and report the results of its evaluation to the public and the education committees of the house of representatives and senate, or any successor committees.

§ 2, effective August 9. **L. 2022:** (2) amended, (SB 22-162), ch. 469, p. 3358, § 20, effective August 10.

**Cross references:** (1) For the constitutional oath of office, see § 8 of article XII of the state constitution.

(2) For the legislative declaration contained in the 2007 act amending this section, see section 1 of chapter 48, Session Laws of Colorado 2007.

(3) For the short title (the "Debbie Haskins 'Administrative Organization Act of 1968' Modernization Act") in SB 22-162, see section 1 of chapter 469, Session Laws of Colorado 2022.

**22-2-111. Commissioner of education - office - records - confidential nature.** (1) The commissioner shall have an office at the seat of the government where he shall keep an official seal and all books and papers pertaining to the business affairs of his office. He shall be entitled to reimbursements for necessary travel and subsistence expenses, incurred either within or without the state, in accordance with regulations promulgated by the state controller.

(2) Copies of all papers, reports, and documents filed in his office, and his official acts, may be certified by him under seal, and when so certified shall be evidence of his official acts equally and in a like manner as the original paper, report, or document or testimony under oath.

(3) (a) Except when requested by the governor or a committee of the general assembly or pursuant to compliance with section 22-32-109.8 or 22-2-119, all papers filed in the department of education that contain personal information about applicants for employment, employees, or holders of educator licenses or authorizations or about pupils' test scores are classified as confidential in nature; however, each educator has the right to inspect and to have copies made at the educator's expense of all information pertaining to the educator on file in the department of education. The educator may challenge any such record by formal letter or other evidence, which shall be added to the state records. The state board may authorize any material to be added to or removed from an educator's official records in its custody. It is unlawful for any officer, employee, or other person to divulge, or to make known in any way, any such personal information without the written consent of said applicant, employee, educator, or pupil; but the information may be divulged or made known in the normal and proper course of administration of programs relating thereto without such written consent. Nothing in this subsection (3) shall be construed in a manner to prohibit the publication of statistics relative to the aforementioned information when so classified as to prevent the identification of educators or pupils involved in said statistics.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (3), on or before July 1, 2004, and on or before July 1 each year thereafter, the department shall provide to the department of higher education a list of the persons initially licensed as educators during the preceding twelve months and, for each such person who completed an approved program of preparation provided by a Colorado institution of higher education, the name of the institution that provided the approved program of preparation, and a list of the persons who have held an educator license for two years as of the reporting date.
22-2-112. Commissioner - duties - report - legislative declaration. (1) Subject to the supervision of the state board, the commissioner has the following duties:
   (a) To advise the state board concerning the current operation and status of the public schools and upon other educational matters;
   (b) To supply the state board with such information as it may require and to prepare for the board to transmit annually a report accounting to the governor and the house and senate committees on education for the efficient discharge of all responsibilities assigned by law or directive to the department, and to issue all publications of the department circulated in quantity outside the executive branch in accordance with the provisions of section 24-1-136, C.R.S.;
   (c) To prepare and submit to the state board a budget for the department and to properly execute the approved budget in accordance with appropriations;
   (d) To establish and maintain a system of personnel administration within the department;
   (e) To cause all policies, rules, and regulations adopted by the state board to be duly executed;
   (f) To serve as state librarian pursuant to section 24-90-104 (2), C.R.S.;
   (g) To visit public schools and communities which most need his personal attendance for the purpose of stimulating and guiding public sentiment to education and diffusing by public addresses and personal communication with parents, school officers, and teachers a knowledge of existing defects of and a knowledge of desirable improvements in the government, finance, curriculum of, and instruction in the public schools;
   (h) To establish and maintain adequate statistical, academic performance, safety environment, and financial records of school districts, including records required by article 11 of this title;
   (i) To cause to be reprinted annually laws enacted by the general assembly concerning education, in accordance with the provisions of section 24-1-136, C.R.S., and to furnish copies thereof to interested persons. All publishing costs therefor shall be paid out of the state public school fund pursuant to section 22-54-114 (5).
   (j) To perform other duties as may be delegated to him by law or by the state board;
   (k) To submit to the governor and the general assembly, not later than the first day of September of each year, a report which shall discuss educational issues in Colorado and such other subjects as the commissioner may deem appropriate. The commissioner shall also submit such fiscal, instructional, academic progress, and other information as may be required by the state board to reflect the quality of education in the state. Statistical data by school district.
regarding drop-out rates, teacher-pupil ratios, number of courses offered, teacher turnover rates, and reading and achievement scores will be available upon request.

(l) To prepare a manual setting forth simplified election procedures for use by the election judges in the district. He shall notify the superintendent of each district that such a manual is available and that copies will be furnished upon request and free of charge. When the school election laws have changed, he shall revise the manual to comply with the then existing laws. Such revisions may be made by inserts to the manual.

(m) To supervise, manage, and control the Colorado school for the deaf and the blind at Colorado Springs;

(n) To enter into an interagency agreement with the department of health care policy and financing and to promulgate such rules and regulations as may be necessary under the agreement to enable school districts, boards of cooperative services, and state educational institutions to enter into contracts and to receive federal matching funds for moneys spent in providing student health services as provided in section 25.5-5-301 (6) or 25.5-5-318, C.R.S.;

(o) To comply with the duties set forth in article 11 of this title;

(p) To establish and maintain an educator identifier system to assign unique identifiers to educators employed in a school district or local education agency. Each educator's identifier must be unique. The identifier must not use any personal identifying information, such as social security numbers or contact information, except for alignment purposes in data processing. Any personal identifying information that is collected must be linked in a secure data location so data sets can be matched based on the personal identifying information when the identifier is not included.

(q) (I) To assist the state board in reviewing the content of educator preparation programs in the state by preparing an annual report on the effectiveness of educator preparation programs.

(II) For purposes of this subsection (1)(q), the department shall use data collected from an educator in the educator's first three years of placement as the educator of record.

(III) To the extent the relevant data is available at the time of the annual report, the report required pursuant to this subsection (1)(q) must include, but need not be limited to, the correlation between different educator preparation programs in the state, including alternative educator preparation programs, and student academic growth, educator placement, educator mobility and retention, and educator performance evaluation ratings.

(IV) The department shall make the report prepared pursuant to this subsection (1)(q) available to the public on the department's website no later than thirty days after the report's completion. The department shall share the information with educator preparation programs to inform curriculum and program improvements.

(r) Repealed.

(s) To facilitate employment first policies and practices by:

(I) Providing input and assistance to the employment first advisory partnership described in section 8-84-303, C.R.S., in carrying out its duties; and

(II) Presenting the reports and recommendations of the employment first advisory partnership to the department's legislative committee of reference pursuant to section 8-84-303 (7), C.R.S.
(i) To annually distribute to each school district and to the state charter school institute informational materials received from the department of personnel pursuant to section 24-5-102 relating to federal student loan repayment programs and student loan forgiveness programs.

(u) (I) To prepare an annual report on the number of pupils enrolled in public schools in the state based on the pupil enrollments reported to the state board pursuant to section 22-54-112 (2)(a) for the applicable school year, and the number of school counselors, school social workers, school nurses, and school psychologists in the state, licensed by the department pursuant to part 2 of article 60.5 of this title 22, and employed by a school district, board of cooperative services, charter school, or entity that contracts with any of the above who are reported as full-time equivalent or part-time employees. The report must state the number of pupils and licensed and employed school psychologists, school counselors, school social workers, and school nurses in total for the state and disaggregated by school district, board of cooperative services, and the state charter school institute.

(II) The department shall make the report prepared pursuant to this subsection (1)(u) available to the public on its website no later than thirty days after its completion each year.

(v) Upon the repeal of part 2 of article 82.9 of this title 22 and in accordance with section 39-22-104 (3)(p.5)(II), to promptly notify the executive director of the department of revenue in writing that the healthy school meals for all program is repealed.

(2) In accordance with section 22-2-107 (1)(c), the commissioner shall establish requirements enabling residents of this state who are seventeen years of age or older or who are sixteen years of age and satisfy the requirements of section 22-33-104.7 to successfully complete a high school equivalency examination, as defined in section 22-33-102 (8.5).

(3) Repealed.

(4) (a) The commissioner shall ensure that the department, subject to available appropriations, annually allocates money to school districts, district charter schools, and institute charter schools to reimburse them for the costs of administering developmental education placement or assessment tests pursuant to sections 22-32-109.5, 22-30.5-117, and 22-30.5-526, respectively, to students enrolled in grades nine through twelve. The department shall allocate money to offset the costs incurred in administering each of the test units only once per student while the student is enrolled in grades nine through twelve.

(b) The general assembly finds that, for purposes of section 17 of article IX of the state constitution, administering developmental education placement or assessment tests to students in grades nine through twelve is an accountable program to meet state academic standards and is a component of accountability reporting and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(5) On and after August 10, 2016, the board of education of a school district that intends to seek voter approval of bonded indebtedness for the purpose of constructing a building that the school district may lease to a state institution of higher education or that intends to lease other school district property to a state institution of higher education, and that intends, in either situation, to receive in-kind services in lieu of part or all of the lease payments, must submit to the commissioner a letter of intent to lease property to a state institution of higher education. The commissioner shall approve the first three letters of intent that are submitted after August 10, 2016, and shall not approve subsequent submittals until July 1, 2021, at which point the commissioner may approve the first three letters of intent submitted after that date. A school district board of education may proceed with plans to lease property to a state institution of
higher education or to seek voter approval of bonded indebtedness to construct a building for lease to a state institution of higher education only if the school district's letter of intent is approved by the commissioner. The provisions of this subsection (5) do not apply to a building lease between a school district and a state institution of higher education that exists as of August 10, 2016.

(6) If a school district fails to replace categorical program support funds as required in section 22-54-107, the commissioner shall withhold from any state money due to the school district for any reason the unpaid amount of categorical program support funds recoverable from the school district. The commissioner shall withhold the state money commencing in the budget year immediately following the budget year in which the school district fails to pay the recoverable amount. The commissioner shall assess and recover an interest fee on the unpaid amount, beginning July 1, at a rate that is equal to the earnings on the treasury pooled funds for the previous fiscal year; except that the commissioner may waive accrued interest upon recovery of the unpaid amount.

(7) Repealed.

(8) Notwithstanding any provision of section 22-2-111 to the contrary, the commissioner shall ensure that the department of education cooperates with the department of early childhood as provided in section 26.5-1-111 in sharing, managing, and protecting qualitative and quantitative data needed to measure longitudinal outcomes of early childhood programs and services.

**Editor's note:** (1) Subsection (3)(b) provided for the repeal of subsection (3), effective July 1, 2008. (See L. 2007, p. 1065.)

(2) Subsection (1)(r)(II) provided for the repeal of subsection (1)(r), effective July 1, 2015. (See L. 2014, p. 1700.)

(3) Subsection (7)(b) provided for the repeal of subsection (7), effective July 1, 2021. (See L. 2020, p. 957.)

(4) Subsection (1)(v) was added by HB 22-1414. That bill contained a referendum clause, Proposition FF, and was approved by a vote of the registered electors of the state of Colorado on November 8, 2022. Subsection (1)(v) took effect upon the proclamation of the Governor, December 27, 2022. The vote count for the measure was as follows:

FOR: 1,384,852
AGAINST: 1,055,583

For the legislative declaration in HB 20-1418, see section 1 of chapter 197, Session Laws of Colorado 2020. For the legislative declaration in SB 23-258, see section 1 of chapter 334, Session Laws of Colorado 2023.

22-2-113. Commissioner - powers. (1) Subject to the supervision of the state board, the commissioner has the following powers:

(a) To perform all duties which may be required by law;

(b) To issue instructions to school district officers and employees concerning the government of the public schools under their control;

(c) To prescribe forms and items to be included in reports submitted by school district officers and employees and other persons;

(d) To construe provisions of the school laws on questions submitted to him in writing by any school district officer or employee or other person. Said construction may be published in either memorandum form or in any periodical devoted to the interest of education with general distribution to the public schools.

(e) To cause to be prepared, printed, and distributed report forms, registers, curriculum and instructional guides, pamphlets, and other materials as may be beneficial to personnel and pupils of the public schools. All publishing costs therefor shall be paid out of the funds appropriated to the department on warrants of the controller covering vouchers approved by the
commissioner. A reasonable fee may be charged for any such materials delivered to a person not in the service of a school district or enrolled as a pupil in the public schools thereof. All receipts from such fees shall be deposited to the credit of the general fund.

(f) To recover a penalty fee from current state payments to a school district, a board of cooperative services as defined in section 22-5-103 (2), or a group care facility or home as defined by the department in its regulations when a certification to the department of education by such district, board, facility, or home for the determination of state funding by the department is not supported by generally accepted accounting principles upon audit by the department. The penalty fee shall be determined by the commissioner, but in no event shall such fee be less than fifty dollars nor more than twenty thousand dollars per initial audit.

(g) (I) To recover an interest fee from current state payments to a school district, a board of cooperative services as defined in section 22-5-103 (2), or a group care facility or home as defined by the department in its rules when a certification to the department by such district, board, or facility, for the determination of state funding, results in an overpayment to the district, board, facility, or home by the state. The interest amount shall be computed on the amount of overpayment at a rate that is equal to the earnings on the treasury pooled funds for the previous fiscal year, beginning from the final settlement date of the audit. The interest fee shall be recovered in addition to the recovery of the amount of the overpayment.

(II) (A) Notwithstanding the provisions of subparagraph (I) of this paragraph (g), for audits that begin on or after July 1, 2007, if the department determines through an audit of a school district or a group care facility or home that an overpayment of state funding has been made to the district, facility, or home due to an error in information submitted to the department, the commissioner shall not recover an interest fee from the district, facility, or home in addition to the amount of the overpayment if the district, facility, or home repays the overpayment within the period specified in sub-subparagraph (B) of this subparagraph (II).

(B) The period during which the commissioner shall not recover an interest fee pursuant to sub-subparagraph (A) of this subparagraph (II) shall be a period that is equal to the number of years and any fraction of a year between the settlement date of the audit in which the overpayment to the school district or group care facility or home was determined and the settlement date of the immediately preceding audit of the district, facility, or home. The period shall begin on the final settlement date of the audit in which the overpayment to the district, facility, or home was determined.

(C) If a school district or group care facility or home is unable to repay the total amount of the overpayment within the period specified in sub-subparagraph (B) of this subparagraph (II), the district, facility, or home and the department may negotiate an extension of the repayment period for the remaining amount of the overpayment; except that the commissioner shall recover the interest fee described in subparagraph (I) of this paragraph (g) on the remaining amount of the overpayment beginning on the day immediately following the expiration of the period specified in sub-subparagraph (B) of this subparagraph (II). The interest fee shall be recovered in addition to the recovery of the remaining amount of the overpayment.

(III) Notwithstanding any provision of subparagraph (I) or (II) of this paragraph (g) to the contrary, for the 2008-09 budget year, the commissioner may accept as repayment from a school district that has received an overpayment items for use by the department, including but not limited to lifetime online curriculum licenses, in the same value as the amount of the overpayment owed by the school district.
To cooperate with local boards of education, pursuant to section 18-18-407 (2)(b), C.R.S., and make recommendations regarding the uniform implementation and furnishing of notice of the provisions of section 18-18-407 (2)(b), C.R.S.;

(i) To issue emergency orders concerning a charter school pursuant to section 22-30.5-703; and

(j) Subject to available appropriations, to expend appropriations to correct an underpayment of state funding to a school district, board of cooperative services, as defined in section 22-5-103, the state charter school institute, or a group care facility or home when a certification to the department by the school district, board, institute, facility, or home, for the determination of state funding by the department, includes an error in the information submitted to the department.

Cross references: (1) For power of commissioner of education to waive reporting requirements, see § 22-2-116.

(2) For the legislative declaration in HB 20-1418, see section 1 of chapter 197, Session Laws of Colorado 2020.

22-2-113.5. Educational programs for pupils in foster homes or placed by child placement agencies - study - repeal. (Repealed)

Editor's note: Subsection (4) provided for the repeal of this section, effective July 1, 1997. (See L. 96, p. 1799.)

22-2-113.8. Department of education - additional local revenues - distribution to schools - annual report. (1) For the 2014-15 budget year and each budget year thereafter, each school district shall report the total amount of additional local property tax revenues the district is authorized to collect in addition to the district's total program mill levy, but not including amounts authorized pursuant to section 22-40-110, article 42 of this title, or article 43 of this title, and the amount of the additional local property tax revenues that the school district distributes directly to schools of the school district, stated as a dollar amount.

(2) The department shall annually compile a report of the information received pursuant to subsection (1) of this section concerning the collection of additional local property tax revenues by each school district and the distribution of the revenues to the schools of the school district, including the charter schools. In addition to the compiled information, the report must include a comparison of the amount of additional local property tax revenues received by the
school district and the amount distributed to the schools of the district, including the charter
schools, at the district level and aggregated statewide.

(3) (a) The department shall allow each school district and each district charter school to
review the report before publication. A school district or a charter school may request that the
department compile an addendum to the report that is specific to the requesting school district or
charter school and that examines the overall level of funding distributed by the school district to
the charter schools of the district, including:

(I) Capital construction and facilities funding;
(II) Funding for technology; and
(III) Any other funding that the school district distributes to the charter schools of the
district.

(b) The department shall simultaneously publish on the department website the report
and any addenda prepared for the report in response to a school district or charter school request.

1 of chapter 243, Session Laws of Colorado 2014.

22-2-114. Department of education - special programs. (Repealed)

Source: L. 85: Entire section added, p. 720, § 1, effective July 1.

Editor's note: Subsection (5) provided for the repeal of this section, effective July 1,
1987. (See L. 85, p. 720.)

22-2-114.1. Dropout rates - collection of data on grades seven through twelve. (1)
The general assembly hereby declares that the dropout rate indicates a waste of economic and
human potential. Therefore a correct assessment of the number of students who fail to complete
high school in the typical length of time is necessary in order to fully recognize and correct the
problem.

(2) The state board of education shall develop and implement in cooperation with local
boards of education a model student accounting method and data collection system on dropouts
in grades seven through twelve, with results to be reported to the general assembly by January 1,

(2.5) to (3) (Deleted by amendment, L. 2010, (HB 10-1171), ch. 401, p. 1933, § 1, effective August 11,
2010.)

2, effective July 1. L. 99: (3) amended, p. 1057, § 1, effective June 1. L. 2007: (3)(a)
401, p. 1933, § 1, effective August 11.
22-2-115. Early childhood education program - study - report to general assembly. (Repealed)

Source: L. 85: Entire section added, p. 726, § 1, effective July 1.

Editor's note: Subsection (2) provided for the repeal of this section, effective July 1, 1986. (See L. 85, p. 726.)

22-2-116. Additional power - waiver of reporting requirements - review of reporting requirements. (1) The commissioner may waive any requirements imposed by this title as to the reporting of data to the department or the state board by any school district which is eligible to receive the minimum amount of state moneys under the provisions of article 54 of this title, if the commissioner finds that any benefits from receiving such reports are outweighed by the district's increased administrative costs of reporting in light of its minimum share of state moneys.

(2) Repealed.

22-2-116.5. Department of education - student-level course completion data. Beginning with the 2014-2015 school year, the department shall annually collect student-level course completion data, consistent with state and federal privacy laws, from each local education agency in the state. The department shall establish a definition of course completion that may be consistently understood and applied and that must be periodically revised as appropriate. In developing the definition, the department shall work with interested parties to consider issues, including but not limited to whether students should be included in the database if they have enrolled in a course after a specified date or dropped a course before a specified date and whether course completion must be determined based on the receipt of particular grades or other criteria.

22-2-117. Additional power - state board - waiver of requirements - rules. (1) (a) Upon application of the board of education of any school district, the state board, except as prohibited in paragraph (b) of this subsection (1), may waive any of the requirements imposed by this title or by rule promulgated by the state board. The state board shall grant the waiver if it determines that it would enhance educational opportunity and quality within the school district and that the costs to the school district of complying with the requirements for which the waiver is requested significantly limit educational opportunity within the school district. Any school district board of education that applies for a waiver pursuant to this section shall specify in such application the manner in which it shall comply with the intent of the waived rules or statutes and shall be accountable to the state board for such compliance.
(b) The state board shall not waive any of the requirements specified in any of the following statutory provisions:

(I) The "Public School Finance Act of 1994", article 54 of this title;
(II) The "Exceptional Children's Educational Act", article 20 of this title;
(III) Any provision of part 5 of article 11 of this title pertaining to the data necessary for performance reports;
(IV) Any provision of this title 22 that relates to fingerprinting and criminal history record checks of educators and school personnel;
(V) The "Children's Internet Protection Act", article 87 of this title 22;
(VI) The requirement to post on the internet the statutes for which waivers are granted as provided in section 22-44-305;
(VII) Any provisions of section 22-1-130 relating to notification to parents of alleged criminal conduct by school district employees;
(VIII) Section 22-33-106.1 concerning suspension and expulsion of students in preschool through second grade;
(IX) Any provisions of section 22-1-128 relating to comprehensive human sexuality education content requirements; or
(X) Any provision of section 22-30.5-104 (3), 22-30.5-507 (3), 22-32-109 (1)(ll), 22-32-110 (1)(k), 22-38-104 (1)(d), or 22-63-206 (1) relating to discrimination based on hair texture, hair type, or a protective hairstyle that is commonly or historically associated with race.

(c) A principal of a public school may initiate a request for a waiver pursuant to this section and shall submit such request to the superintendent and the board of education of the school district in which the public school is located. Such waiver, if granted, shall be limited in application to the public school, unless otherwise designated by the school district. The school district may choose either to adopt such request and apply to the state board for a waiver pursuant to this section or not adopt such request.

(d) In addition to any requirements for a waiver application that are specified in this subsection (1), any application submitted by a school district that has a funded pupil count, as defined in section 22-54-103 (7), of three thousand or more pupils shall demonstrate that such application has the consent of a majority of the appropriate accountability committee, a majority of the affected licensed administrators, and a majority of the teachers of the affected school or district.

(1.5) Notwithstanding any provision of this section or any other provision of law, the state board shall not waive requirements contained in article 11 of this title or sections 22-7-1006.3, 22-32-105, 22-32-109 (1)(bb)(I) and (2), 22-32-109.1 (2)(a), 22-32-146, and 22-33-104 (4).

(2) Prior to submitting an application for a waiver as provided in subsection (1) of this section, a school district board of education, in a public meeting including a public hearing, shall adopt a resolution stating the board's intent to apply for a waiver and specifying the statutes and rules for which the board will request waivers. The school district board of education shall post notice of such public meeting in three public places within the district for a period of not less than thirty calendar days prior to such meeting, giving the time and location of such meeting and a description of the waiver request, and, if a newspaper is published within the county, shall publish such notice once each week for at least four weeks prior to the meeting in such newspaper. At least sixty days prior to such public meeting and hearing, the school district board
of education shall meet with the school district accountability committee to consult with the committee concerning the intent to seek the waiver.

(3) (a) Any waiver made pursuant to the provisions of this section shall continue until such time as:
   (I) The school district board of education that holds the waiver by resolution requests revocation of the waiver; or
   (II) The state board receives evidence that constitutes good and just cause for revocation of the waiver, as determined by the state board.

(b) The state board may revoke a waiver granted pursuant to this section only by action taken in a public meeting and hearing.

(4) The provisions of this section shall not apply to any waiver requested by a charter school pursuant to sections 22-30.5-104 (6) and 22-30.5-105 (3). Waiver requests by a charter school shall be governed by the provisions of said sections.

(5) The state board shall promulgate such rules as are necessary to implement the provisions of this section regarding the waiver application process.

(6) Notwithstanding any provision of this section to the contrary, a school district that has been granted by the state board exclusive authority to charter schools within its geographic boundaries pursuant to section 22-30.5-504 shall not be required to demonstrate that it has obtained the consent of a majority of the appropriate accountability committee, a majority of the affected licensed administrators, and a majority of the teachers of the affected school or district in order to apply for a waiver of any of the requirements imposed by this title or by rule promulgated by the state board; except that such consent shall be required for an application for a waiver from any provisions of article 9 or articles 60.5 to 64 of this title.

Editor's note: (1) Amendments to subsection (1) in Senate Bill 00-186 were superseded by House Bill 00-1040.
(2) Subsection (1)(b)(V) was originally numbered as (1)(b)(IV) in Senate Bill 03-326, but has been renumbered on revision for ease of location.

22-2-118. Department of education - study of school district administration and staffing patterns. (Repealed)

**Source:** L. 89: Entire section added, p. 965, § 11, effective June 7.

**Editor's note:** Subsection (2) provided for the repeal of this section, effective February 15, 1990. (See L. 89, p. 965.)

22-2-119. Department of education - inquiries concerning prospective employees - background investigation fee. (1) When an inquiry is made by a board of education of a school district pursuant to the provisions of section 22-32-109.7 (1) or (1.5), by the governing board of a nonpublic school pursuant to the provisions of section 22-1-121, by the governing board of a charter school pursuant to the provisions of section 22-30.5-110.5, or by the governing board of an institute charter school pursuant to the provisions of section 22-30.5-511.5, concerning a prospective or current employee, the department shall provide the following information concerning such person:

(a) Whether according to the records of the department such person has been convicted of, has pled nolo contendere to, or has received a deferred sentence for:
   (I) A felony; or
   (II) A misdemeanor crime involving unlawful sexual behavior or unlawful behavior involving children; or
   (III) A misdemeanor crime, the underlying factual basis of which has been found by the court on the record to involve domestic violence, as defined in section 18-6-800.3 (1), C.R.S.;

(b) Whether such person has been dismissed by, or has resigned from, a school district as a result of an allegation of unlawful behavior involving a child, including unlawful sexual behavior, which was supported by a preponderance of the evidence according to information required to be provided to the department by the school district pursuant to the provisions of section 22-32-109.7 (3);

(ii) The department of education shall not disclose to any prospective employer any information reported to the department by a school district pursuant to section 22-32-109.7 (3) unless and until the department confirms that the allegation resulted in a finding of a confirmed report of child abuse or neglect. The department shall request a check of the records and reports of child abuse or neglect maintained by the state department of human services pursuant to the provisions of section 19-1-307 (2)(l), C.R.S.
(III) If the department confirms that the allegation resulted in a finding of a confirmed report of child abuse or neglect and the report concerning such person is subsequently expunged pursuant to the provisions of section 19-3-313.5 (3)(f), C.R.S., such person may notify the department that the report has been expunged. If the department verifies that the report has been expunged, the department shall remove such information about the person from the files kept by the department.

(b.5) Whether the person's educator license or certification has ever been denied, suspended, revoked, or annulled in this state or in another state, including but not limited to any information gained as a result of an inquiry by the department to a national teacher information clearinghouse;

(c) If a holder of a license or authorization pursuant to the provisions of article 60.5 of this title, whether such person's certificate, letter of authorization, authorization, or license has ever been annulled, suspended, or revoked pursuant to the provisions of section 22-60-110 (2)(b) as said section existed prior to July 1, 1999, or pursuant to article 60.5 of this title following a conviction, a plea of nolo contendere, or a deferred sentence for a crime involving unlawful sexual behavior or unlawful behavior involving children.

(2) Except for authorized inquiries made by boards of education, governing boards of nonpublic schools, governing boards of charter schools, or governing boards of institute charter schools, the department shall consider information held by the department to be confidential information and not subject to the provisions of part 2 of article 72 of title 24, C.R.S. Any person who releases such information in violation of this subsection (2) shall be subject to the penalties set forth in section 24-72-206, C.R.S.; except that any person who releases information received by the department concerning information contained in the records and reports of child abuse or neglect maintained by the state department of human services shall be deemed to have violated section 19-1-307 (4), C.R.S.

(3) (a) When providing the information required in subsection (1) of this section, the department shall provide the information within the following timelines:

(I) For information that the department possesses at the time of the request, the department shall provide the information no later than ten business days following the receipt of the inquiry;

(II) For information that the department must obtain by a background check, the department shall provide the information no later than ten business days following the receipt of the information.

(b) If provisions of this subsection (3) increase the costs for the department and the department increases educator licensing fees to address the increased costs, the increase shall be no greater than necessary and shall be included in the department's annual budget request to the joint budget committee.

(4) (a) A school district shall verify the results of a fingerprint-based criminal history record check performed for the department on a school employee or applicant, and the Colorado bureau of investigation shall share the information from the initial fingerprint-based criminal history record check with the requesting entity.

(b) When the Colorado bureau of investigation provides the department with an update regarding a school employee who was previously subject to a fingerprint-based criminal history record check, the department shall provide that update to each school district and charter school
in the state. Each school district and charter school shall cross-check its employee list with the provided update and take appropriate action, if necessary.

(5) The department may collect a background investigation fee in responding to inquiries pursuant to this section submitted regarding a person who does not hold an educator license issued pursuant to article 60.5 of this title. The state board, by rule, shall establish the amount of the background investigation fee to generate an amount of revenue that approximates the direct and indirect costs incurred by the department in responding to inquiries pursuant to this section regarding unlicensed persons. The department shall transmit the fees collected pursuant to this section to the state treasurer who shall credit the fees to the educator licensure cash fund, created pursuant to section 22-60.5-112.

22-2-119.3. Department of education - educator preparation program students - record check - fee - definitions. (1) A student requesting a criminal history record check must submit to the Colorado bureau of investigation a complete set of his or her fingerprints taken by a qualified law enforcement agency, an authorized employee of the department and notarized, or any third party approved by the Colorado bureau of investigation. If an approved third party takes the person's fingerprints, the fingerprints may be electronically captured using Colorado bureau of investigation-approved livescan equipment. Third-party vendors shall not keep the student information for more than thirty days unless requested to do so by the student. The student shall submit the fingerprints for the purpose of obtaining a fingerprint-based criminal history record check through the Colorado bureau of investigation and the federal bureau of investigation to determine whether the student has a criminal history. The student shall pay to the Colorado bureau of investigation the fee established by the bureau for conducting the criminal history record check. Upon completion of the criminal history record check, the bureau shall forward the results to the department.

(2) On a form provided by the department, the student shall:

(a) Certify, under penalty of perjury, either:

(I) That he or she has never been convicted of committing any felony or misdemeanor, but not including any misdemeanor traffic offense or traffic infraction; or

(II) That he or she has been convicted of committing any felony or misdemeanor, but not including any misdemeanor traffic offense or traffic infraction. Such certification shall specify
such felony or misdemeanor for which convicted, the date of such conviction, and the court entering the judgment of conviction.

(b) Furnish the following information to the department:
   (I) The educator preparation program in which the student is enrolled;
   (II) The school districts or charter schools in which the student has been placed for field experiences; and
   (III) Any other information required by the department to release the results of a record check pursuant to this section.

(3) When the results of a fingerprint-based criminal history record check of a student performed pursuant to this section reveal a record of arrest without a disposition, the department shall perform a name-based judicial record check of that student.

(4) (a) Within seven days after receiving the results of a record check conducted pursuant to this section, the department shall provide the results of the record check, to the extent permitted by state or federal law or regulation, to the educator preparation program in which the student is enrolled and to any school district or charter school that has made an inquiry to the department concerning the results of a record check of a student who has been placed in the school district or charter school for field experiences.

(b) The student shall provide, on a form approved by the department, additional school districts or charter schools in which the student has been placed for field experiences.

(c) When the Colorado bureau of investigation provides the department with an update regarding a student who was previously subject to a fingerprint-based criminal history record check, the department shall provide that update to each education preparation program, school district, and charter school identified by the student as a school district or charter school in which the student has been placed for field experiences pursuant to this section.

(5) The department may establish and collect a fee that is based on the department's actual costs associated with administration of this section.

(6) As used in this section, unless the context otherwise requires:
   (a) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22 or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.
   (b) "Convicted" or "conviction" means a conviction by a jury verdict or by entry of a verdict or acceptance of a guilty plea by a court and also includes the forfeiture of any bail, bond, or other security deposited to secure the appearance by a person charged with having committed a felony or misdemeanor, the payment of a fine, a plea of nolo contendere, the imposition of a deferred or suspended sentence by the court, or an agreement for a deferred prosecution approved by the court.
   (c) "Educator preparation program" means an approved educator preparation program as defined in section 22-60.5-121 (1)(b).
   (d) "Name-based judicial record check" means a background check performed using judicial department records that includes an individual's conviction and final disposition of case records.
   (e) "Student" means a student enrolled in an educator preparation program who has been placed in a school district or charter school for a position that will provide field experiences to prepare the student to be a teacher or other school professional.
22-2-119.5. Department of education - duty to report - convictions. (1) Upon receiving a report from a court pursuant to section 13-1-130, C.R.S., that a person has been convicted of, pled guilty or nolo contendere to, or received a deferred sentence for an offense specified in subsection (2) of this section, the department shall immediately report such fact to the school district that is the current employer or the last known employer of the person.

(2) The provisions of this section shall apply to the following offenses:

(a) A felony;

(b) A misdemeanor offense specified in section 18-7-302 (2)(b), C.R.S., or part 4 of article 3, part 4 of article 6, or part 4 of article 7 of title 18, C.R.S., or any counterpart municipal law of this state;

(c) A misdemeanor, the underlying factual basis of which has been found by the court on the record to involve domestic violence, as defined in section 18-6-800.3 (1), C.R.S.

22-2-120. Department of education - study of optimum school size and the feasibility of school district reorganization. (Repealed)

Editor's note: Subsection (2) provided for the repeal of this section, effective January 1, 1992. (See L. 90, p. 1085.)

22-2-121. Department of education - funding for national academic award winners. (Repealed)

22-2-121.5. National academic contest fund - balance of moneys - transfer. (Repealed)

22-2-122. Grants to schools and school districts. (1) (a) In preparing the application forms to be submitted by school districts or public schools when applying for grant moneys,
(b) In preparing said application forms and in reviewing submitted applications, the department shall utilize a database of pertinent data previously received from, or otherwise obtained regarding, schools and school districts, so as to minimize the need to require schools and school districts to send duplicative information.

(2) Whenever, as part of a grant program, the department or a school or school district is required to prepare an evaluation of the effectiveness of the services provided using the grant moneys, the department shall compile the evaluations and make such evaluations readily available to all schools and school districts upon request. Any costs associated with the compilation and availability of such reports shall be paid from the amount appropriated to the department for costs incurred in administering such grant programs.

(3) (a) For each budget year, the department shall allocate to the boards of cooperative services established pursuant to article 5 of this title that provide a wide range of services described in section 22-5-118 to their member school districts, or school districts with student populations of less than four thousand students, an amount equal to one percent of the amount appropriated to all education grant programs for that fiscal year, or two hundred fifty thousand dollars, whichever is less. The amount allocated to the boards of cooperative services pursuant to this subsection (3) shall be taken from the amounts appropriated to all education grant programs. In the event the department allocates two hundred fifty thousand dollars, such amount shall be taken from each education grant program in the same proportion that the amount appropriated for that fiscal year to the education grant program bears to the total amount appropriated for that fiscal year to all education grant programs.

(b) The department shall proportionately divide the moneys allocated pursuant to this subsection (3) among the boards of cooperative services described in paragraph (a) of this subsection (3) on a per school district basis, based on the total number of school districts that have student populations of less than four thousand students and are members of boards of cooperative services that shall receive moneys pursuant to this subsection (3).

(c) The boards of cooperative services that receive moneys pursuant to this subsection (3) shall only use such moneys to assist member school districts and schools in applying for grants from education grant programs. One or more boards of cooperative services may use the moneys allocated pursuant to this subsection (3) jointly to provide services to member school districts from more than one board of cooperative services.

Source: L. 2002: Entire section added, p. 326, § 1, effective August 7. L. 2003: (1)(a), (2), (3)(a), and (3)(c) amended, p. 2140, § 44, effective May 22.

22-2-122.5. COVID-19 learning impacts - extended learning opportunities - funding - combined application, reporting, and evaluation process - rules - legislative declaration - definitions - repeal. (1) The general assembly finds and declares that:

(a) Ongoing gaps in learning opportunities for students, including opportunities for underserved students and communities, and disrupted learning have accelerated due to the unprecedented changes to the student learning environment and access to education due to the presence of the COVID-19 virus in Colorado;
(b) Pursuant to state and federal law, there may be a variety of programs and funding available to local education providers to address these learning impacts through extended learning opportunities. However, not all local education providers have the necessary resources, whether time, staff, or expertise, to navigate various funding opportunities.

(c) Because local education providers in communities across the state may have different needs with respect to addressing COVID-19 learning impacts, and because the funding available to address learning impacts may be tied to different goals and objectives, it is more efficient and a better use of the resources of both the department and local education providers to create a streamlined process for local education providers to access funding for extended learning opportunities based on the specific needs of the local education provider;

(d) Rather than completing multiple applications with different deadlines, the department has the ability to create a needs-based approach to the award of grants and other sources of funding, creating a robust process of matching a local education provider's needs with the extended learning opportunities that meet those needs; and

(e) The combined administration of grant programs and other funding sources allows for more efficient reporting on the use and the impact of the funding, as well as the opportunity, with sufficient appropriations, to conduct more robust evaluations of the outcomes and overall effectiveness of the extended learning opportunities implemented at the local level. The department of education is uniquely positioned to use the data collected locally to share best practices statewide for the effective implementation of extended learning opportunities that lead to academic gains across student demographic groups.

(2) As used in this section, unless the context otherwise requires:

(a) "Extended learning opportunities" means a program or method of academic support beyond standard programming or school practice that takes place either outside of normal school hours or outside of the regular school program. "Extended learning opportunities" include supplemental programming that allows a local education provider to provide supplemental education targeted at opportunity gaps and recovering from disrupted learning due to the presence of COVID-19 in the state. Examples of "extended learning opportunities" include but are not limited to summer school programming, extended school days or extended school weeks, high-impact tutoring, creative enrichment tied to academic gains, social-emotional supports, and additional mental health supports tied to academic success. "Extended learning opportunities" do not include an education voucher, scholarship, or savings account.

(b) "Local education provider" means:

(I) A school district organized pursuant to article 30 of this title 22;

(II) A board of cooperative services created pursuant to article 5 of this title 22;

(III) A charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22;

(IV) An institute charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22; and

(V) Any other provider of public preschool through secondary school education in the state that is eligible to receive grants or other funding administered by the department pursuant to this section, regardless of the source, to address learning impacts resulting from the presence of the COVID-19 virus in the state.
To the extent possible, the department shall streamline the application process and other requirements for various extended learning opportunities that address learning impacts resulting from the presence of the COVID-19 virus in the state. The department is authorized to:

(a) Create a single, combined application for local education providers to apply for grant programs or other sources of funding, regardless of the funding source, for extended learning opportunities that address the needs of the local education provider and for which the local education provider is eligible, and, to the extent possible, to align the application process and deadlines;

(b) Identify one or more extended learning opportunities and funding sources that match the needs identified by the local education provider;

(c) Create streamlined data collection and common reporting requirements for local education providers for extended learning opportunities administered pursuant to this section that reduce burdens on local education providers, minimizing the need for a local education provider to provide the same information more than one time or to provide information that has previously been provided to the department, with reporting deadlines to the department that facilitate the department's reporting pursuant to subsection (3)(d) of this section;

(d) Streamline annual reporting by the department to the governor and executive branch agencies and to the general assembly concerning extended learning opportunities administered pursuant to this section, allowing combined reports and common deadlines, with reporting commencing by or before the department's annual presentation to the legislative committee of reference in January 2023, pursuant to the "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act", created in part 2 of article 7 of title 2; and

(e) Subject to available funding for the evaluation of one or more extended learning opportunities, create common data collection and evaluation criteria and metrics for all extended learning opportunities being evaluated.

(4) The single, combined application to apply for funding for extended learning opportunities pursuant to subsection (3)(a) of this section, regardless of the funding source, must include, at a minimum:

(a) The local education provider's plan to utilize the funding to implement extended learning opportunities, including the type of extended learning opportunity, the number of students to be served, the estimated cost of implementing the extended learning opportunity, and whether the local education provider will contract with any third-party extended learning opportunity provider, and, if so, the name of the proposed provider and the amount of the proposed contract;

(b) A description of the local education provider's internal progress-monitoring and reporting system, as described in subsection (7) of this section;

(c) The local education provider's time frame for implementing the extended learning opportunity; and

(d) A description of the local education provider's staff and family engagement efforts to determine the community-informed extended learning opportunity that best meets the needs of the local education provider.

(5) The streamlined data collection and common reporting requirements for local education providers pursuant to subsection (3)(c) of this section are subject to the department's data privacy and suppression policies that are aligned to the "Student Data Transparency and Security Act", article 16 of this title 22, and the federal "Family Educational Rights and Privacy
Act of 1974", 20 U.S.C. sec. 1232g. The streamlined data collection and common reporting requirements must include, at a minimum:

(a) A description of the extended learning opportunity and its implementation by the local education provider receiving funding;

(b) Whether the local education provider contracted with a third-party extended learning opportunity provider, and, if so, the name of the provider and the amount of the contract;

(c) Data concerning the number of students served by the local education provider as a result of the funding and demographic information for students served; and

(d) Data and information concerning student academic outcomes, as defined by the local education provider as part of the application, that are associated with the implementation and monitoring of the extended learning opportunity.

(6) The department's reporting to the general assembly pursuant to subsection (3)(d) of this section must include, at a minimum, a summary of the reports submitted by local education providers pursuant to subsection (5) of this section, data and information relevant to student outcomes resulting from the implementation of the extended learning opportunity, and the overall effectiveness of the extended learning opportunity. Notwithstanding section 24-1-136 (11)(a)(I), the department's annual reporting to the general assembly pursuant to subsection (3)(d) of this section continues so long as extended learning opportunities are administered by the department pursuant to this section.

(7) A local education provider receiving funding to implement an extended learning opportunity shall establish an internal progress-monitoring system to monitor progress using family- and community-informed practices to measure the effectiveness of the extended learning opportunity through student educational gains. The internal progress-monitoring system must allow for reporting on specific student demographic categories, allowing the sharing of best practices across student demographics and across the state.

(8) (a) Notwithstanding the provisions of this section, the department shall ensure that eligibility requirements, application requirements, allowable uses of funding, data collection and reporting, and any other requirements specific to the extended learning opportunity or funding source are met for all extended learning opportunities and related grant programs administered pursuant to this section.

(b) The department shall reserve a proportionate share of the money available for state-funded grants for extended learning opportunities for rural local education providers, as determined by the department, and is encouraged to reserve a proportionate share of federal funding for implementation of extended learning opportunities by rural local education providers.

(9) If required by law and subject to available appropriations, the department shall evaluate one or more extended learning opportunities implemented across local education providers using a common set of evaluation criteria and metrics.

(10) The state board may adopt any rules necessary for the implementation of this section.

(11) The general assembly may annually appropriate money to the department for the implementation of state-funded extended learning opportunities by local education providers.

(12) This section is repealed, effective July 1, 2026.

22-2-123. Eligible facilities education task force - creation - membership - duties - repeal. (Repealed)

Editor's note: Subsection (7) provided for the repeal of this section, effective January 1, 2004. (See L. 2002, p. 907.)

22-2-124. Family literacy education grant program - rules - repeal. (Repealed)

Editor's note: Subsection (10) provided for the repeal of this section, effective July 1, 2014. (See L. 2014, p. 1534.)

22-2-125. Loan program for capital improvements in growth school districts - use of public school fund. (1) For purposes of this section:

(a) "Capital improvement" means:

(I) The acquisition or purchase of buildings or grounds;

(II) The enlargement, improvement, remodeling, repairing, or making of additions to any school building;

(III) The construction or erection of school buildings;

(IV) The equipping or furnishing of any school building, but only in conjunction with a construction project for a new building or for an addition to an existing building or in conjunction with a project for substantial remodeling, improvement, or repair of an existing building; or

(V) The improvement of school grounds.

(b) "Growth district" means any district whose supplemental pupil enrollment exceeded the district's pupil enrollment for the most recently completed budget year by a number greater than one percent of the district's pupil enrollment for that budget year or fifty pupils, whichever is less.

(2) As authorized under the provisions of section 3 of article IX of the state constitution, the state treasurer may make loans to growth districts for the purpose of funding capital improvements. The procedures for the making of loans shall be determined by the state treasurer subject to the following:
(a) No loan shall be authorized for any capital improvement that has not been approved by the state board in accordance with subsection (3) of this section.

(b) No loan shall be authorized in an amount other than the amount determined by the state board unless the state board approves the change in the loan amount; except that the state board shall not authorize an amount of a loan for any growth district that exceeds ten percent of the amount of the public school fund that the state treasurer has determined may be loaned out in accordance with subsection (5) of this section.

(c) No loan shall be authorized unless the debt is approved by the voters of the growth district.

(d) No loan shall be authorized unless the method for repayment of the loan is specified in the application. If the loan is to be repaid from a property tax mill levy, such levy must be approved at the same election that authorized the creation of the debt.

(e) The loan shall be made as soon as possible upon approval of the loan by the state board.

(3) (a) On and after January 1, 2003, a growth district may apply to the state board for a loan of public school fund moneys to be used by the growth district to pay for one or more capital improvements. The amount of the loan requested shall be an amount equal to the full cost of the capital improvement or a lesser amount that in combination with other financial resources of the growth district shall allow the capital improvement to be completed. The loan application shall be in a form prescribed by the state board and shall include:

(I) A description of the capital improvement for which a loan is sought and a statement of the reasons why the capital improvement is necessary;

(II) A timeline for completion of the capital improvement;

(III) A building permit for the capital improvement, if applicable;

(IV) A statement of the amount of the loan requested together with an estimate of the cost of the capital improvement prepared by a qualified builder or contractor. If the amount of the loan requested differs from the amount of the estimate of the cost of the capital improvement, the growth district shall also provide an explanation for the difference.

(V) A plan for repaying the loan, including a proposed repayment schedule;

(VI) A statement of the amount of moneys from other sources, if any, that the growth district intends to use to help defray the costs of the capital improvement; and

(VII) Any additional information that the state board may reasonably require, by rules promulgated in accordance with article 4 of title 24, C.R.S., to help it determine whether or not to approve the loan application.

(b) To ensure that a growth district applying for a loan can move forward with any capital improvements quickly or develop alternative financing strategies without undue delay, the state board shall approve or disapprove a loan application no later than forty-five days after the application is submitted. To ensure that loan applications can be processed efficiently, the state board may delegate the authority to approve loan applications to a designated employee of the department. The state board or its designee shall consider all of the information in an application before approving or disapproving the application and a growth district whose loan application is denied shall have no right to further review by the state board or its designee.

(4) The state board shall establish a repayment schedule that shall require the growth district to make monthly payments on the loan and fully repay all moneys borrowed within ten years after the date a loan is made available pursuant to subsection (2) of this section.
(5) The state treasurer shall determine the amount of the public school fund that may be loaned out pursuant to this section and the rate of interest to be charged on loans. The state treasurer shall charge interest on loans made at a rate designed to match the rate of interest derived from the deposit and investment of moneys in the public school fund. Payments of the principal of and interest on all loans shall be returned to the fund.

(6) The general assembly shall appropriate money from the general fund to restore moneys to the public school fund, together with interest, that are lost by reason of the failure of any school district to repay a loan made pursuant to this section.

Editor's note: This section was originally numbered as 22-2-122 in House Bill 02-1349 but has been renumbered on revision for ease of location.

22-2-126. On-line education programs - study - report - repeal. (Repealed)

Editor's note: Subsection (5) provided for the repeal of this section, effective January 1, 2003. (See L. 2002, p. 1781.)

22-2-127. Financial literacy - resource bank - technical assistance - definitions - appropriation - repeal. (1) As used in this section, unless the context otherwise requires:
   (a) "Colorado application for state financial aid" or "CASFA" means the application to determine student financial need and eligibility for state financial aid programs using federal FAFSA methodology, or any successor form.
   (b) "Financial literacy" means knowledge of personal finances that is sufficient to enable a person to manage savings, investment, and checking accounts; to design and maintain a household budget; to manage personal debt; to understand consumer credit and finance; to manage personal credit options; to assess the affordability of and how to budget for postsecondary education; to understand the purpose of and how to access and complete the FAFSA or CASFA to access student financial aid; to understand the home buying process, including home loans and managing mortgage debt; and to understand and select from short-term and long-term investment options.
   (c) "Free application for federal student aid" or "FAFSA" means the federal application used to determine student financial need and eligibility for federal student aid programs, or any successor form.

   (2) The state board shall create and maintain a resource bank of materials pertaining to financial literacy. At a minimum, the resource bank shall include national model standards for financial literacy, model programs of instruction for financial literacy, model financial literacy curricula, and model materials for professional educator development in teaching financial literacy. The resource bank shall also include a list of the available mathematics and economics textbooks that contain substantive provisions on personal finance, including personal budgeting, credit, debt management, and similar personal finance topics. The state board shall ensure that the materials included in the resource bank represent the best practices in the teaching of
financial literacy. The materials in the resource bank shall be available to school districts not later than March 15, 2005.

(2.5) In addition to the materials included in the resource bank pursuant to subsection (2) of this section, the resource bank must also include information concerning financial aid planning for postsecondary education expenses; information concerning the benefits of completing and submitting the FAFSA, or, for students who are not eligible for financial aid pursuant to Title IV, Part B of the federal "Higher Education Act of 1965", as amended, the CASFA; and electronic links to the FAFSA and CASFA and instructions for completing the FAFSA and CASFA.

(3) Upon the request of a school district or a charter school, the department shall provide technical assistance to the school district or charter school in designing a curriculum of financial literacy.

(4) The department shall implement the provisions of this section to the fullest degree possible within existing resources. The department shall contract with one or more entities for the implementation of this section.

(5) The general assembly hereby finds and declares that, for purposes of section 17 of article IX of the state constitution, creation of a resource bank of materials pertaining to financial literacy is an important element of an accountable program to meet state academic standards and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(6) The department is authorized to accept and expend any gifts, grants, or donations that may be available from any private or public sources for the implementation of this section. All private and public funds received through gifts, grants, or donations pursuant to this subsection (6) shall be transmitted to the state treasurer, who shall credit the same to the financial literacy cash fund, which fund is hereby created and referred to in this subsection (6) as the "fund". The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the implementation of this section. Any moneys in the fund not expended for the purposes of this section may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

(7) (a) The department, in collaboration with the department of higher education, shall:
(I) Update financial literacy information and training provided to local education providers to include detailed resources and tools about financial aid, access to financial aid tools, and applications and processes beginning in middle school or earlier; and
(II) Develop financial literacy training options aligned with financial aid information, federal and state application processes, and underlying financial literacy principles, such as in-demand, high-wage jobs and the necessary training leading to those jobs. The department shall prioritize providing training to financial literacy educators, career and technical education instructors, counselors, and professionals, such as those working in family engagement.

(b) For the 2022-23 state fiscal year, the general assembly shall appropriate to the department two hundred seventy-five thousand dollars from the general fund for the programs pursuant to this subsection (7). Any unexpended money remaining at the end of the 2022-23 state fiscal year from this appropriation:
(I) Does not revert to the general fund or any other fund;
(II) May be used by the department in the 2023-24 or 2024-25 state fiscal year without further appropriation; and
(III) Must not be used for any other purpose other than the purposes set forth in this subsection (7).
(c) This subsection (7) is repealed, effective July 1, 2025.

Cross references: For the legislative declaration in HB 21-1200, see section 1 of chapter 284, Session Laws of Colorado 2021. For the legislative declaration in HB 22-1366, see section 1 of chapter 244, Session Laws of Colorado 2022.

(1) As used in this section, unless the context otherwise requires:
(a) "Eligible participant" means an educator who successfully completes training in financial aid information approved by the department.
(b) "Local education provider" means a school district, a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22, a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22, or a board of cooperative services created and operating pursuant to article 5 of this title 22 that operates one or more public schools.
(c) "Training to improve financial aid information available to students and families" or "training" means a training conducted by the department of higher education and approved by the department with an emphasis on improving the completion rate of students completing the free application for federal student aid and the Colorado application for state financial aid.
(2) Beginning with the 2022-23 state fiscal year, for eligible participants who successfully complete training to improve financial aid information available to students and families, the department, subject to available appropriations, shall award to the eligible participant a one-time stipend in the amount of five hundred dollars.
(3) For the 2022-23 state fiscal year, the general assembly shall appropriate to the department two hundred thousand dollars from the general fund to be used for the stipends pursuant to this section. Any unexpended money remaining at the end of the 2022-23 state fiscal year from this appropriation:
(a) Does not revert to the general fund or any other fund;
(b) May be used by the department in the 2023-24 or 2024-25 state fiscal years without further appropriation; and
(c) Must not be used for any other purpose other than the purposes set forth in this section.
(4) This section is repealed, effective July 1, 2025.
(1)  As used in this section, unless the context otherwise requires:
   (a)  "Genocide" has the same meaning as set forth in section 22-1-104.7 (1)(a).
   (b)  "Holocaust" has the same meaning as set forth in section 22-1-104.7 (1)(b).
   (c)  "Holocaust and genocide studies" has the same meaning as set forth in section
        22-1-104.7 (1)(c).
(2)  (a)  The department shall create and maintain a publicly available resource bank of
        materials pertaining to Holocaust and genocide courses and programs. At a minimum, the
        resource bank must include:
        (I)  Sample academic content standards for Holocaust and genocide studies;
        (II)  Sample programs of instruction for Holocaust and genocide studies;
        (III) Samples of Holocaust and genocide studies learning resources, including
               first-person testimony;
        (IV)  Sample materials for professional educator development in teaching Holocaust and
               genocide studies; and
        (V)  Case studies on the Holocaust and genocides, including but not limited to the
             Armenian Genocide.
        (b)  The department shall ensure that the materials included in the resource bank
             represent the best practices in teaching Holocaust and genocide studies, and the department shall
             seek input from experts in the area of Holocaust and genocide studies in compiling the materials.
        (c)  The department shall ensure that the resource bank is available for access by school
             districts, charter schools, boards of cooperative services, and the public by July 1, 2021.
(3)  To the extent such resources and tools are readily available to the department, the
     resource bank may also:
     (a)  Identify existing resources and tools that provide opportunities for experts in
          Holocaust and genocide studies to be paired with a teacher in the classroom to co-teach courses
          in Holocaust and genocide studies; and
     (b)  Include a listing of schools and school districts that are interested in finding experts
          who wish to volunteer to co-teach courses in Holocaust and genocide studies and a listing of
          experts who are interested in volunteering to co-teach such courses.
(4)  The department may seek, accept, and expend gifts, grants, or donations from private
     or public sources for the purposes of this section.

244, Session Laws of Colorado 2022.

22-2-127.3. Holocaust and genocide studies - resource bank - technical assistance -
definitions.  (1)  As used in this section, unless the context otherwise requires:
   (a)  "Genocide" has the same meaning as set forth in section 22-1-104.7 (1)(a).
   (b)  "Holocaust" has the same meaning as set forth in section 22-1-104.7 (1)(b).
   (c)  "Holocaust and genocide studies" has the same meaning as set forth in section
        22-1-104.7 (1)(c).
   (2)  (a)  The department shall create and maintain a publicly available resource bank of
        materials pertaining to Holocaust and genocide courses and programs. At a minimum, the
        resource bank must include:
        (I)  Sample academic content standards for Holocaust and genocide studies;
        (II)  Sample programs of instruction for Holocaust and genocide studies;
        (III) Samples of Holocaust and genocide studies learning resources, including
               first-person testimony;
        (IV)  Sample materials for professional educator development in teaching Holocaust and
               genocide studies; and
        (V)  Case studies on the Holocaust and genocides, including but not limited to the
             Armenian Genocide.
        (b)  The department shall ensure that the materials included in the resource bank
             represent the best practices in teaching Holocaust and genocide studies, and the department shall
             seek input from experts in the area of Holocaust and genocide studies in compiling the materials.
        (c)  The department shall ensure that the resource bank is available for access by school
             districts, charter schools, boards of cooperative services, and the public by July 1, 2021.
        (3)  To the extent such resources and tools are readily available to the department, the
             resource bank may also:
             (a)  Identify existing resources and tools that provide opportunities for experts in
                  Holocaust and genocide studies to be paired with a teacher in the classroom to co-teach courses
                  in Holocaust and genocide studies; and
             (b)  Include a listing of schools and school districts that are interested in finding experts
                  who wish to volunteer to co-teach courses in Holocaust and genocide studies and a listing of
                  experts who are interested in volunteering to co-teach such courses.
        (4)  The department may seek, accept, and expend gifts, grants, or donations from private
             or public sources for the purposes of this section.

Source: L. 2020: Entire section added, (HB 20-1336), ch. 252, p. 1228, § 3, effective
July 8.

22-2-127.5. Computer science programs - resource bank.  (1)  (a)  The department shall
create and maintain a publicly available resource bank of materials pertaining to computer
science courses and programs. At a minimum, the resource bank must include sample academic
content standards for computer science education, sample programs of instruction for computer science, samples of computer science learning resources, and sample materials for professional educator development in teaching computer science. The department shall ensure that the materials included in the resource bank represent the best practices in teaching computer science and shall seek input from experts in the area of computer science in creating and compiling the materials.

(b) The department shall ensure that the resource bank is available for access by school districts, charter schools, boards of cooperative services, and the public by July 1, 2018.

(c) The department shall implement the provisions of this section to the fullest degree possible within existing resources. The department may contract with one or more entities in implementing this section.

(2) A school district, charter school, or board of cooperative services may choose whether to provide classes in computer science and whether to use the materials in the resource bank to provide those classes.

(3) The resource bank may also identify existing resources and tools that provide opportunities for industry experts in computer science and technology to be paired with a teacher in the classroom to co-teach courses in computer science. The resource bank may also include a listing of schools and school districts that are interested in finding industry experts who wish to volunteer to co-teach computer science courses, and a listing of industry experts who are interested in volunteering to co-teach computer science courses.

(4) The department may seek, accept, and expend gifts, grants, or donations from private or public sources for the purposes of this section. The department shall not create the resource bank pursuant to this section unless the department receives sufficient gifts, grants, or donations to implement this section.

Cross references: For the legislative declaration in HB 17-1184, see section 1 of chapter 145, Session Laws of Colorado 2017.

22-2-127.7. Marijuana education materials - resource bank - technical assistance. (1) (a) The department, with assistance from the department of public health and environment, shall create and maintain a resource bank of evidence-based, research-based, and promising program materials and curricula pertaining to marijuana, which materials and curricula may be used in elementary and secondary schools in the state. In creating the resource bank and curricula, the department, with the marijuana educational oversight committee established pursuant to section 24-20-112 (4), shall solicit input from persons both inside and outside of the marijuana industry. Subject to available appropriations, the department shall solicit requests for information and may contract for:

(I) The organization and enhancement of the resource bank, including materials on the prevention of marijuana use and education on medical and retail marijuana;

(II) The development of marijuana curricula for schools and providing such curricula to schools; and

(III) Training for educators and school staff concerning marijuana.
The resource bank created pursuant to subsection (1)(a) of this section may be known as the "Jack Splitt Memorial Marijuana Resource Bank".

(2) On and after July 1, 2017, the department shall make material in the resource bank available without charge to school districts, charter schools, and boards of cooperative services. At the request of a school district, charter school, or board of cooperative services, the department shall provide technical assistance to the school district, charter school, or board of cooperative services in designing age-appropriate curricula pertaining to marijuana use.

(3) After the resource bank and curricula are available, school districts, charter schools, and boards of cooperative services are encouraged to report to the department on the effectiveness of the resource bank and curricula and to recommend changes to improve the resource bank or curricula. The department is encouraged to update the resource bank and curricula based on recommendations from school districts, charter schools, and boards of cooperative services.

(1) The department, with assistance from the office of suicide prevention created pursuant to section 25-1.5-101 (1)(w)(I), the Colorado youth advisory council created pursuant to section 2-2-1302, and the suicide prevention commission created pursuant to section 25-1.5-111, shall create and maintain a resource bank of evidence-based, research-based, and promising program materials and curricula pertaining to mental health and comprehensive suicide prevention, as that term is defined in section 25-1.5-112. These materials and curricula may be used in elementary and secondary schools in the state. The resource bank and curricula must be youth-friendly, culturally sensitive, and available in both English and Spanish. In creating the resource bank and curricula, the department may provide internet links to resources and materials pertaining to mental health available from other entities that the department finds reliable. Additionally, the department shall solicit input from persons, including youth, within and outside of the mental health profession, including both community and school mental health professionals. Subject to available appropriations, the department shall solicit requests for information and may contract for:

(a) The organization and enhancement of the resource bank, including materials on the prevention of suicide, the after-effects of suicide attempts and suicide deaths, and postvention training, and education on mental and behavioral health;

(b) The development of mental and behavioral health and suicide prevention, intervention, and postvention curricula for schools and providing such curricula to schools; and

(c) Training for educators and school staff concerning mental and behavioral health and suicide prevention.

(2) On and after July 1, 2020, the department shall make material in the resource bank available without charge to school districts, charter schools, institute charter schools, boards of cooperative services, professional educators, parents or guardians of youth, students, and community providers. At the request of a school district, charter school, institute charter school, or board of cooperative services, the department shall provide technical assistance to the school
district, charter school, institute charter school, or board of cooperative services in designing age-appropriate curricula pertaining to mental health.

(3) The materials and resources available to students must be developed and updated with input from youth.

(4) School districts, charter schools, institute charter schools, and boards of cooperative services are encouraged to report to the department on the effectiveness of the resource bank and curricula and to recommend changes to improve the resource bank or curricula. The department is encouraged to update the resource bank and curricula based on recommendations from school districts, charter schools, institute charter schools, boards of cooperative services, professional educators, parents or guardians of youth, students, and community providers.

Cross references: For the legislative declaration in HB 19-1120, see section 1 of chapter 197, Session Laws of Colorado 2019. For the legislative declaration in HB 21-1119, see section 1 of chapter 49, Session Laws of Colorado 2021.

22-2-128. Department of education - reciprocal agreements with adjacent states - report. (1) The department shall, to the extent that each state that is adjacent to Colorado is agreeable, negotiate a reciprocal agreement with each such state to allow a child who is a resident of one state to attend a public school in the other state without paying tuition when the geographic conditions or distances are such that it would be impracticable for the child to attend the schools of his or her own state.

(2) On or before January 31, 2007, the department shall submit to the education committees of the house of representatives and the senate, or any successor committees, a report that includes but need not be limited to a list of the states that are adjacent to Colorado that have entered into a reciprocal agreement with Colorado pursuant to subsection (1) of this section.

22-2-129. Department of education - approved supplemental education services providers - list. (1) As used in this section, unless the context otherwise requires, "supplemental education services" means tutoring services and other academic enrichment services required to be provided to eligible students pursuant to 20 U.S.C. sec. 6316 (e) and that are provided to students in addition to the standard curriculum of instruction provided during the school day.

(2) The department shall annually issue a request for proposals through which providers of supplemental education services may apply to the department to be included on the list of approved supplemental education services providers. The department shall review the applications and include on the list the applying providers that meet the criteria specified in subsection (3) of this section. The department shall annually post on its website the list of approved supplemental education services providers for use by school districts in selecting providers of supplemental education services to meet the requirements of 20 U.S.C. sec. 6316 (e).
(3) To be included on the list of approved providers of supplemental education services, a provider shall:
   (a) Demonstrate that each tutor employed by the provider meets the requirements specified for paraprofessionals under 20 U.S.C. sec. 6319 (c);
   (b) Ensure that all personnel employed by the provider who interact with students comply with the fingerprinting and criminal history record check requirements specified for educator licensees in section 22-60.5-103;
   (c) In providing advertising and informational materials to parents and students, refrain from making any representations as to whether a school district shall pay all or any portion of the cost of the supplemental education services provided by the provider; and
   (d) Comply with any additional requirements specified by the department in the annual request for proposals.

22-2-130. Supplemental online education grant program - legislative declaration - definitions - creation - eligibility - award - fund. (1) The general assembly finds that:
   (a) Online education courses that are supplemental to the education program provided by a school district, charter school, or BOCES are a valuable resource for schools because they allow a school district, charter school, or BOCES to provide a much richer, more varied curriculum of courses for students at all levels of achievement. Further, enrollment in such courses decreases the need for college remediation and helps prepare students to meet higher education admission guidelines.
   (b) Although small or rural school districts, charter schools, and BOCES may have the greatest need for supplemental online education, these school districts, charter schools, and BOCES may face financial or technical barriers when attempting to provide supplemental online education courses to their students. Often these barriers are conquerable but out of reach for these school districts, charter schools, and BOCES.
   (b.5) Educational programs provided for students in out-of-home placement or through day treatment facilities are generally small and have difficulty accessing resources or employing a large number of teachers. Supplemental online education courses are especially helpful and necessary for facility schools to enable them to provide a much wider variety of courses and to help their students meet graduation standards.
   (c) It is therefore in the best interests of the state to help small or rural school districts, charter schools, BOCES, and facility schools provide supplemental online education courses to their students by allowing these school districts, charter schools, facility schools, and BOCES to apply for grants to help them overcome their financial and technical barriers.

(2) As used in this section, unless the context otherwise requires:
   (a) "BOCES" means a board of cooperative services created pursuant to article 5 of this title, all member school districts of which are eligible school districts.
   (b) "Eligible charter school" means:
      (I) A charter school that is authorized by an eligible school district pursuant to part 1 of article 30.5 of this title and that does not operate an online program or as an online school; or
      (II) An institute charter school that is authorized pursuant to part 5 of article 30.5 of this title, that enrolls fewer than three thousand students, as determined by the institute charter
school's pupil enrollment certified by the state charter school institute on behalf of the institute
charter school to the state board pursuant to section 22-30.5-513 (3)(a), and that does not operate
an online program or as an online school.

(c) "Eligible school district" means a school district that does not export an online
program or online school to students receiving the program at a location outside of the school
district's geographic boundaries and that enrolls fewer than three thousand students, as
determined by the school district's pupil enrollment certified to the state board pursuant to
section 22-54-112.

(c.5) "Facility school" means an approved facility school as defined in section 22-2-402
(1).

(d) "Grant program" means the supplemental online education grant program created in
subsection (3) of this section.

(e) "Provider" means an entity that sells supplemental online education courses that are
taught by employees of the provider who are teachers licensed in Colorado pursuant to article
60.5 of this title.

(f) "Supplemental online education course" means an education course that is:
(I) Taught by a teacher who is licensed pursuant to article 60.5 of this title;
(II) Delivered via an internet format to one or more students at a location that is remote
from the delivery point; and
(III) Purchased by an eligible school district, eligible charter school, BOCES, or facility
school from a provider to augment the education program provided by the eligible school
district, eligible charter school, BOCES, or facility school.

(3) There is hereby created the supplemental online education grant program to assist an
eligible school district, an eligible charter school, a BOCES, or a facility school in providing
supplemental online education courses to students. Subject to available appropriations, the state
board shall award grants pursuant to this section to assist eligible school districts, eligible charter
schools, BOCES, and facility schools in removing financial and technical barriers to providing
supplemental online education courses. Grants awarded pursuant to this section shall be used for
one or more of the following purposes:
(a) As additional reimbursement for the cost of purchasing supplemental online
education courses; or
(b) To increase the eligible school district's, eligible charter school's, BOCES's, or
facility school's ability to access supplemental online education courses by:
(I) Providing technical equipment or hiring technical specialists to audit and configure
computer networks;
(II) Providing staff development and training for on-site personnel; or
(III) Providing financial assistance to help hire site coordinators or other personnel
needed to facilitate online access.

(4) An eligible school district, an eligible charter school, a BOCES, or a facility school
may apply to the department, in accordance with the procedures and time frames adopted by rule
of the state board pursuant to subsection (5) of this section, to receive moneys through the grant
program. The department shall administer the grant program as provided in this section.

(5) The state board shall promulgate rules specifying the procedures and time frames for
applying for a grant, the form of the grant application, the information to be provided by the
applicant, and any criteria for awarding grants that are in addition to those specified in paragraph (b) of subsection (6) of this section.

(6) (a) The department shall review each grant application received pursuant to this section and shall make recommendations to the state board concerning whether the grant should be awarded and the amount of the grant.

(b) In selecting grant recipients, the state board shall give priority to grant applications from eligible school districts, eligible charter schools, BOCES, or facility schools that have been financially or technologically unable to provide supplemental online education courses in the past and that demonstrate the greatest need for a grant to be able to begin providing supplemental online education courses. In addition, the state board shall consider:

(I) The degree to which students enrolled in the eligible school district or eligible charter school, or in a school operated by a BOCES or in a facility school require supplemental online education courses to be able to meet the higher education admission standards adopted by the Colorado commission on higher education; and

(II) Other revenue sources available to the eligible school district, eligible charter school, BOCES, or facility school to assist in overcoming the financial and technological barriers to providing supplemental online education programs.

(c) A grant awarded pursuant to this section shall not exceed five thousand dollars in a fiscal year. An eligible school district, an eligible charter school, a BOCES, or a facility school may receive grants in consecutive years.

(7) (a) The general assembly shall annually appropriate to the department of education, from federal mineral leasing revenues transferred to the state public school fund pursuant to section 34-63-102, C.R.S., and section 22-54-114 (1), an amount to be used for purposes of this section.

(b) The department may expend up to two percent of the moneys annually appropriated for the grant program to offset the direct and indirect costs incurred in implementing the grant program pursuant to this section.

(8) Repealed.

Source: L. 2007: Entire section added, p. 1096, § 2, effective May 23. L. 2008: (1)(b.5) and (2)(c.5) added and (1)(c), (2)(f)(III), (3), (4), (6)(b), and (6)(c) amended, pp. 1382, 1383, §§ 5, 6, effective May 27. L. 2010: (8) repealed, (HB 10-1037), ch. 43, p. 169, § 1, effective March 29. L. 2012: (2)(b) and (2)(c) amended, (HB 12-1240), ch. 258, p. 1313, § 21, effective June 4.

22-2-131. Data technology system - comprehensive review - requirements - report - repeal. (Repealed)

Editor's note: Subsection (6) provided for the repeal of this section, effective July 1, 2008. (See L. 2007, p. 1056.)

22-2-132. Department of education - career and technical education authorization - rules. (1) In accordance with the state plans for occupational education that the state board for community colleges and occupational education adopts pursuant to section 23-60-304, C.R.S.,
the department shall issue authorizations to teachers of occupational subjects, teacher-trainers, supervisors, directors, occupational counseling specialists, and others who have responsibilities in connection with occupational education at the secondary level. Before issuing an authorization pursuant to this section, the department shall determine that the person applying for the authorization meets the minimum qualifications that the state board for community colleges and occupational education establishes pursuant to section 23-60-304 (3)(a), C.R.S. A person who is required by law to obtain an educator license or authorization pursuant to article 60.5 of this title may obtain a career and technical education authorization pursuant to section 22-60.5-111 (9) rather than an authorization pursuant to this section.

(2) (Deleted by amendment, L. 2015.)

(3) The state board of education shall promulgate such rules as may be necessary to implement this section. At a minimum, the rules must establish the amount of and procedures for the department to collect a fee for issuing an authorization pursuant to this section and section 22-60.5-112.

22-2-133. Assessment and identification of students with literacy challenges including dyslexia - training and technical assistance - collaboration with higher education - report. (1) On or before August 1, 2008, as part of its responsibility for education standards and practice, the department may make available technical assistance and training concerning issues faced by students with literacy challenges, including dyslexia, to school districts, administrative units as defined in section 22-20-103 (1), residential treatment facilities, correctional facilities, and other local education agencies throughout the state. The provision of any technical assistance and training pursuant to this subsection (1) shall not preclude the department from using federal funds to implement such technical assistance and training. Any technical assistance and training provided shall include, but need not be limited to, the areas of awareness, assessment, identification, and evidence-based progress monitoring, and shall include scientifically based interventions to address the needs of students with literacy challenges, including dyslexia. Any technical assistance and training provided shall represent a tiered continuum of intensity for intervention consistent with the response to intervention model that school districts are required to implement no later than August 15, 2009, pursuant to rules adopted by the department.

(2) The department is encouraged to coordinate any technical assistance and training provided with current best practices and work occurring in teacher preparation programs at institutions of higher education. Where appropriate, the department is encouraged to provide technical assistance and training to school districts, administrative units, residential treatment facilities, correctional facilities, and local education agencies in a coordinated effort with teacher preparation programs at institutions of higher education. The department and institutions of higher education are encouraged to work collaboratively to develop or affirm minimum standards for teacher preparation programs in the areas of literacy assessment and instructional skills, including dyslexia awareness, identification, and remediation for general and special education.
(3) On or before January 30, 2009, and on or before January 30 each year thereafter, the department shall report to the state board of education and to the education committees of the house of representatives and the senate, or any successor committees, concerning the activities and status of any technical assistance and training made available pursuant to this section.

(4) As used in this section, unless the context otherwise requires:

(a) "Literacy challenge" means a situation where a student is experiencing difficulty in reading in phonemic awareness, phonics, vocabulary, fluency, or comprehension.

(b) "Response to intervention" means a model for education developed pursuant to rules adopted pursuant to the "Exceptional Children's Educational Act", article 20 of this title, that promotes a well-integrated system connecting general, compensatory, gifted, and special education in providing high-quality, standards-based instruction and intervention that is matched to a student's academic, social-emotional, and behavioral needs.

Cross references: For the legislative declaration in the 2011 act amending subsection (2), see section 1 of chapter 201, Session Laws of Colorado 2011.

22-2-134. Unique student identifier - early childhood education - rules. (Repealed)

22-2-134.5. Early childhood education programs - quality rating system - report. (Repealed).

22-2-135. Food allergy and anaphylaxis management - rules. (1) This section shall be known and may be cited as the "Colorado School Children's Food Allergy and Anaphylaxis Management Act".

(2) As used in this section, unless the context otherwise requires, "appropriate staff" means employees of a school whom the principal or equivalent executive in consultation with the school nurse of the school determines to be appropriate recipients of emergency anaphylaxis treatment training, which employees shall include, but need not be limited to, employees who are directly involved during the school day with a student who has a known food allergy.

(3) (a) On or before January 1, 2010, the state board of education, in consultation with the department of public health and environment, shall promulgate rules for the management of food allergies and anaphylaxis among students enrolled in the public schools of the state. The rules shall include, but need not be limited to, the following:
(I) Reasonable accommodations for communication between schools and emergency medical services, including instructions for emergency medical responders;

(II) Reasonable accommodations to reduce the risk of students' exposure to agents that may cause anaphylaxis, including but not limited to exposure that may occur in classrooms, cafeterias, and common areas and during extracurricular activities, field trips, school-sponsored programs occurring before and after regular school hours, and other school-sponsored programs;

(III) The provision of emergency anaphylaxis treatment training for appropriate staff to prepare them to respond appropriately in the event that a student suffers anaphylaxis as a result of an allergic reaction to food, which training shall include but need not be limited to training in the administration of self-injectable epinephrine; and

(IV) Procedures to ensure the availability of a student's self-injectable epinephrine to faculty and administrative staff of the school in the event that a student suffers anaphylaxis and requires emergency medical treatment.

(b) Prior to the beginning of each school year, each school district shall provide notice to a parent or legal guardian of each student enrolled in a school of the school district of the policy adopted by the school district pursuant to section 22-32-139. The notice shall include the standard form developed by the department of public health and environment pursuant to section 25-1.5-109, C.R.S., to allow the parent or legal guardian of a student with a known food allergy to provide the following information to the school's administration:

(I) Documentation regarding the diagnosis and history of the student's food allergy;

(II) Identification of all foods to which the student is known to be allergic;

(III) Identification of any medication that has been prescribed for the student for the treatment of a food allergy or anaphylaxis;

(IV) Any specific signs or symptoms that may indicate the student is having an allergic reaction to a food;

(V) Emergency treatment procedures to employ in the event that the student suffers an allergic reaction to a food;

(VI) The names and telephone numbers of persons whom the administration of the student's school should contact in addition to emergency medical personnel in the event that the student suffers an allergic reaction to food; and

(VII) The name, telephone number, and signature of the student's primary health-care provider.

(c) The notice required by paragraph (b) of this subsection (3) shall include language that encourages parents and legal guardians of students for whom medication has been prescribed for treatment of a food allergy or anaphylaxis to give to the school nurse or other administrator of the student's school a supply of the medication.

Cross references: For the legislative declaration contained in the 2009 act adding this section, see section 1 of chapter 245, Session Laws of Colorado 2009.

22-2-136. Additional duty - state board - individual career and academic plans - standards - rules. (1) (a) The state board shall promulgate rules pursuant to the "State
Administrative Procedure Act", article 4 of title 24, to establish standards for individual career and academic plans for students enrolled in the public schools in the state.

(b) An individual career and academic plan must be designed to assist a student and the student's parent or legal guardian in exploring the postsecondary career and educational opportunities available to the student, including apprenticeship programs registered through the United States department of labor's office of apprenticeship or a state apprenticeship agency recognized by that office; aligning course work and curriculum; applying to postsecondary education institutions; securing financial aid; and ultimately entering the workforce. As part of the process of establishing the individual career and academic plan, the student and the student's parents must be made aware of the importance of completing the free application for federal student aid or the Colorado application for state financial aid, or successor forms for accessing federal and state financial aid, and be provided help in completing the forms, if requested.

(2) In establishing the standards for individual career and academic plans, the state board shall ensure, at a minimum, that:

(a) Each individual career and academic plan includes a career planning and guidance component and a portfolio that reflects, at a minimum:

(I) The student's efforts in exploring careers, including interest surveys that the student completes;

(II) The student's academic progress, including the courses taken, any remediation or credit recovery, and any concurrent enrollment credits earned;

(III) For school districts and charter schools that choose to administer the developmental education placement or assessment tests, the student's scores on the developmental education placement or assessment tests administered pursuant to section 22-30.5-117, 22-30.5-526, or 22-32-109.5 (4), any intervention plan created for the student pursuant to those sections, and the student's progress in meeting the intervention plan;

(IV) The student's progress in visual arts and performing arts courses;

(V) The student's experiences in contextual and service learning;

(VI) The student's college applications and resume, as they are prepared and submitted; and

(VII) The student's postsecondary studies as the student progresses;

(b) Each individual career and academic plan is accessible to educators, students, and parents; and

(c) Each public school, in assisting students and parents in creating and maintaining the individual career and academic plans, is in compliance with the requirements of the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g.

Cross references: For the legislative declaration in the 2010 act adding subsection (2)(a)(II.5), see section 1 of chapter 233, Session Laws of Colorado 2010. For the legislative
declaration in the 2012 act amending subsection (2)(a), see section 11 of chapter 188, Session Laws of Colorado 2012. For the legislative declaration in HB 19-1206, see section 1 of chapter 133, Session Laws of Colorado 2019. For the legislative declaration in HB 21-1200, see section 1 of chapter 284, Session Laws of Colorado 2021.

22-2-137. State schools - legislative declaration - feasibility study - authority to contract - funding. (1) The general assembly finds that some states have created state and residential schools to provide educational programs and student support services for students who are at risk of academic failure. The general assembly further finds that early reports of results achieved by some of these schools indicate that this may be a promising approach to reducing the dropout rate, closing the achievement gaps, and helping to raise the level of academic achievement among students in the state. The general assembly therefore finds that it is appropriate for the commissioner to study the feasibility of creating one or more state schools in Colorado, which may include a residential component or a specific student population.

(2) Beginning in July 2009, the commissioner shall study the feasibility of operating one or more state schools to serve students who are in need of greater academic support and who may be at risk of academic failure. At a minimum, the feasibility study shall address and make recommendations concerning the following issues:

(a) The goals that a state school would be designed to achieve and a method for measuring the level of achievement of those goals. In addressing this issue, the commissioner shall provide an overview of the state and residential schools operating in other states, the goals that they are designed to achieve, and the degree to which they have achieved or are achieving those goals.

(b) The appropriate student population to be served by a state school and the manner of selecting students, the number of state schools that should be considered, and appropriate locations for state schools;

(c) The governance structure and funding for a state school, including the optimal level of per pupil funding, funding for capital construction needs, and potential public and private funding sources;

(d) The appropriate curriculum for a state school, including which grade levels a state school would serve, the length of the school day and school year for which a state school would operate, and whether a state school should include a focus on specific subject matter areas; and

(e) The types of student and family support services that a state school would provide, including the manner in which a state school would collaborate with state and local agencies in providing these services.

(3) On or before February 1, 2010, the department shall submit to the education committees of the house of representatives and the senate the feasibility study described in subsection (2) of this section for operating one or more state schools and any legislative recommendations the department may have pertaining to the creation of one or more state schools.

(4) (a) Following completion of the feasibility study, if the commissioner concludes that the creation and operation of state residential schools would be beneficial to the state, the commissioner may contract for the creation and operation of one or more state residential schools to provide educational services to students who are at risk of academic failure. Any state
residential school operated pursuant to this section shall provide an educational program focused on mathematics and science.

(b) If the commissioner does not contract for state residential schools as authorized in paragraph (a) of this subsection (4), the commissioner may provide technical assistance to school districts and public schools to address the needs of students who are at risk of academic failure by improving the availability and quality of secondary-level mathematics and science curricula.

(5) (a) It is the intent of the general assembly that up to three million dollars be appropriated to the commissioner to expend for the implementation of subsection (4) of this section. The general assembly finds that, for purposes of section 17 of article IX of the state constitution, the creation of state residential schools and the provision of technical assistance to improve secondary-level mathematics and science curricula as provided in subsection (4) of this section are important elements of accountable programs to meet state academic standards, and the general assembly may therefore appropriate moneys from the state education fund created in section 17 (4) of article IX of the state constitution for the implementation of subsection (4) of this section.

(b) In addition to the funding provided pursuant to paragraph (a) of this subsection (5), if the commissioner contracts for the creation and operation of one or more state residential schools, the department shall provide funding for said schools by withholding moneys from the state share of total program funding payable to the district of residence of each student who enrolls in a state residential school. The amount withheld shall be equal to the amount of the school district's per pupil revenue for the applicable budget year multiplied by the number of students who reside in the school district and are enrolled in the state residential school as of the pupil enrollment count day of the applicable budget year. A student who enrolls in a state residential school shall be counted in the pupil enrollment of the student's school district of residence for purposes of this paragraph (b). The department shall adopt guidelines as necessary for the implementation of this paragraph (b).

(c) The commissioner is encouraged to apply federal moneys received pursuant to the federal "American Recovery and Reinvestment Act of 2009", Pub.L. 111-5, to the extent allowed to offset the costs incurred in implementing this section. The commissioner is authorized to seek and accept additional public or private gifts, grants, or donations for the implementation of this section.

22-2-138. State environmental education plan - fund created. (1) Subject to the provisions of subsection (3) of this section, the department, in consultation with the department of natural resources, shall develop and the state board shall adopt a state plan for environmental education. At a minimum, the state plan for environmental education shall address strengthening the reach and coordination of environmental education in public schools and providing to educators professional development in environmental education. The department shall ensure that the state plan for environmental education complies with any requirements imposed by federal law or by regulations adopted by the federal department of education.

(2) (a) The department is authorized to seek, accept, and expend public or private gifts, grants, or donations for the implementation of this section; except that the department may not
accept a gift, grant, or donation for the implementation of this section that is subject to conditions that are inconsistent with this section or any other law of the state. The department shall transmit all private and public moneys received through gifts, grants, or donations to the state treasurer, who shall credit the same to the state environmental education fund, which fund is hereby created and referred to in this section as the "fund". The moneys in the fund are continuously appropriated to the department for the direct and indirect costs associated with implementing this section.

(b) Any moneys in the fund not expended for the purpose of this section may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

(3) The department shall implement the provisions of subsection (1) of this section only if the department receives public or private gifts, grants, or donations in an amount it deems sufficient to offset the costs incurred in creating and adopting the state plan for environmental education.

Cross references: For the legislative declaration in the 2010 act adding this section, see section 1 of chapter 332, Session Laws of Colorado 2010.

22-2-139. Memorandum of understanding - notification of risk - rules. (1) On or before July 1, 2011, the state department of human services and the department of education shall enter into a memorandum of understanding concerning the enrollment of students in the public school system from a state-licensed day treatment facility, facility school, or hospital licensed or certified pursuant to section 25-3-101. The memorandum of understanding must include, but need not be limited to:

(a) A consistent and uniform approach to notification and appropriate and allowable data-sharing about students, including but not limited to medical, mental health, sociological, and scholastic achievement, within the limits of state and federal privacy and confidentiality law, between school districts, charter schools, institute charter schools, and county departments of human or social services for the purposes of collaboration in the placement of students pursuant to this section and section 22-20-108, better facilitation of the creation of transition plans for students, and ensuring the safety of the people in the school community;

(b) A plan for utilizing existing state and federal data and any existing information-sharing activities;

(c) A plan for determining accountability and collecting data concerning the implementation of the notifications and invitation required pursuant to this section and a mechanism by which school districts and the state charter school institute shall report the aggregate data to the department of human services and department of education on or before February 15, 2012, and on or before February 15 each year thereafter. The data to report shall include, but need not be limited to:

(I) The number of placements occurring in a school year;
(II) The number of emergency placements occurring in a school year;
(III) The types of placements from which the students are transitioning;
(IV) The educational setting into which the student is being placed; and
(V) Demographic information of students, including but not limited to age, race, gender, and ethnicity;
(d) A process for determining information sharing and collaboration for placement of students pursuant to sections 22-20-108 and 26-1-138, C.R.S.;
(e) Recommendations for an approach to sharing data that conforms with the interdepartmental data protocol established pursuant to section 24-37.5-704, C.R.S., and that is in compliance with all state and federal laws, rules, and regulations concerning the privacy of information;
(f) Identification of training and professional development needs associated with implementing information sharing between responsible entities and funding sources that could be utilized for this purpose; and
(g) Consideration of recommendations made by existing working groups or projects that have been involved with information sharing or technology relating to information sharing among multiple entities as it relates to students transitioning back into public schools. A report of these recommendations shall be provided to the department of human services, the state board of human services, the department of education, and the state board of education prior to the final adoption of the memorandum of understanding.
(2) Beginning August 15, 2010, a state-licensed day treatment facility, facility school, or hospital licensed or certified pursuant to section 25-3-101 that is transferring a student to a public school shall notify the appropriate school district child welfare education liaison, designated pursuant to section 22-32-138 (2)(a), of the pending enrollment in a public school of a student who:
(a) Is transferring to a public school from a state-licensed day treatment facility licensed by the department of human services pursuant to section 26-6-905, facility school as defined in section 22-2-402 (1), or hospital, licensed or certified pursuant to section 25-3-101; and
(b) Has been determined by the state-licensed day treatment facility, the facility school, the hospital licensed or certified pursuant to section 25-3-101, C.R.S., or the court to be a risk to himself or herself or the community within the twelve months prior to the proposed transfer.
(3) This section only applies to a hospital licensed or certified pursuant to section 25-3-301 that is providing inpatient acute care or psychiatric services for a student for more than ten days and if there is actual knowledge that the student will attend an identified public school within sixty days after discharge from the hospital. For purposes of this subsection (3), information shared with the state department of human services, county department of human or social services, or child education welfare liaison must be shared only for a student who has been deemed to be a risk to himself or herself or the community within the twelve months prior to discharge.
(4) The notification required in subsection (2) of this section must be made at least ten calendar days prior to the student's transition from the state-licensed day treatment facility, facility school, or hospital licensed or certified pursuant to section 25-3-101, and subsequent enrollment in a public school and must include an invitation to the child welfare education liaison, or his or her designee, to participate in the development of a transition plan for the student. The information provided to the child welfare education liaison must include, but need
not be limited to, the transitioning student's educational records from the transferring educational facility and an outline of the student's transitional needs to be successful in the public school setting, which information would assist the school district in meeting the student's needs and ensuring a successful transition. If the transitioning student is in the custody of the state department of human services or a county department of human or social services, the state-licensed day treatment facility, facility school, or hospital licensed or certified pursuant to section 25-3-101 shall also provide the notification to the state department of human services.

(5) If a change of placement is required for the safety of the student or if a court, the state department of human services, or a county department of human or social services makes a placement change with fewer than ten calendar days notice, the responsible state or county department of human services or social services shall provide information to the child welfare education liaison, designated pursuant to section 22-32-138 (2)(a), of the receiving school district, charter school, or institute charter school within five calendar days following the student's placement. The information provided to the child welfare education liaison must include, but need not be limited to, the transitioning student's educational records from the transferring educational facility and an outline of the student's transitional needs to be successful in the public school setting, which information would assist the district in meeting the student's needs and ensuring a successful transition.

(6) The responsible county department of human or social services and the receiving school district, charter school, or institute charter school shall cooperate to ensure that an appropriate placement including educational services is made pursuant to this section and sections 19-1-115.5, 22-20-108, and 22-32-138, as applicable.

(7) Within the confidentiality and privacy limits of state and federal law, the responsible county department of human or social services or the school district, charter school, institute charter school, or facility school shall provide information about the student to assist the receiving entity in determining an appropriate educational placement for the student.

(8) Nothing in this section alters the rights and obligations of the department of education, the state department of human services, a county department of human or social services, or a school district, as such rights and obligations are set forth in this title 22; 20 U.S.C. sec. 1400 et seq.; 29 U.S.C. sec. 701 et seq.; 42 U.S.C. sec. 11431 et seq.; and 42 U.S.C. sec. 675, as amended by the federal "Fostering Connections to Success and Increasing Adoptions Act of 2008", Pub.L. 110-351.

(9) The state board of education may promulgate rules pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., concerning the implementation of this section, including but not limited to rules regarding notification and sharing of information as described in subsection (1) of this section.

Cross references: For the legislative declaration in the 2010 act adding this section, see section 1 of chapter 271, Session Laws of Colorado 2010. For the legislative declaration in SB 18-092, see section 1 of chapter 38, Session Laws of Colorado 2018.
22-2-140. Digital learning study - legislative declaration - definitions - notice of funding through gifts, grants, and donations - repeal. (Repealed)

Editor's note: Subsection (7) provided for the repeal of this section, effective July 1, 2013. (See L. 2012, p. 909.)

22-2-141. Early literacy assessment tool - request for proposals - software - hardware - training - distribution - legislative declaration. (1) (a) By October 1, 2012, the department shall issue a request for proposals for the purchase of an early literacy assessment tool that teachers may use to obtain real-time assessments of the reading skill levels of students enrolled in kindergarten and first, second, and third grades and, based on the assessment results, generate intervention plans and materials.

(b) At a minimum, the request for proposals shall include the purchase of:

(I) Software that, at a minimum:

(A) Provides individualized assessments with immediate results;

(B) Stores and analyzes assessments results, recommends activities that are aligned with the assessment results, and assists in tracking student performance and identifying strategies to improve student performance;

(C) Provides student grouping recommendations based on the assessment scores and provides proposed lesson plans on a short-term cycle; and

(D) Assists in generating and populating individualized plans to improve students' reading skills; and

(II) Training in using the software for teachers or other personnel selected by each local education provider.

(c) The request for proposals shall include the purchase of a sufficient number of software licenses for each local education provider in the state to use the early literacy assessment tool in all of its kindergarten and first-, second-, and third-grade classes; except that the department may draft the contract to phase in the requirements of this paragraph (c) over multiple budget years based on available appropriations.

(2) The department shall select from among the responses received and enter into a contract for the purchase of software licenses and training no later than March 1, 2013. In negotiating the terms of the contract, the department shall include performance measures, which may include student outcomes, as conditions affecting the amounts payable under the contract.

(3) (a) As soon as practicable after entering into the contract, the department shall notify the local education providers and provide information explaining:

(I) The software licenses purchased;

(II) The availability of training in the use of the software including dates, times, and locations; and

(III) The procedures and timelines by which each local education provider may apply to receive the software licenses and training to implement the early literacy assessment tool.
(b) Based on the level of available appropriations, the department shall select the local education providers who will receive the early literacy assessment tool, including the training, from among those that apply. In selecting among the applicants, the department shall:

(I) Select local education providers from various regions of the state and of varying student population size;

(II) Give preference to local education providers with the highest percentages of kindergarten and first-, second-, and third-grade students who are below grade level expectations in reading; and

(III) Give preference to local education providers with the highest percentages of schools that are eligible to receive moneys under Title I of the federal "Elementary and Secondary Education Act of 1965", 20 U.S.C. sec. 6301 et seq.

(c) A local education provider that is selected to receive the early literacy assessment tool in one budget year is not required to reapply in subsequent budget years. The department shall, to the extent possible within available appropriations, annually increase the number of local education providers that receive the early literacy assessment tool.

(d) The department may choose to provide the early literacy assessment tool only to those schools of a selected school district that are eligible to receive moneys under Title I of the federal "Elementary and Secondary Education Act of 1965", 20 U.S.C. sec. 6301 et seq.

(4) During the 2014 regular legislative session and during the 2016 regular legislative session, the department shall submit to the governor's office, the joint budget committee, and the education committees of the house of representatives and the senate, or any successor committees, a report that includes, but need not be limited to, the following information:

(a) The percentage of students enrolled in kindergarten and first, second, and third grades throughout the state that are receiving services using the early literacy assessment tool;

(b) The local education providers that have received the early literacy assessment tool;

(c) The improvements, if any, in the reading skill levels of students who received or are receiving services using the early literacy assessment tool; and

(d) The amount of appropriations required to purchase an adequate number of software licenses to enable the local education providers in the state to use the early literacy assessment tool in all of the kindergarten and first-, second-, and third-grade classes in the state.

(5) As used in this section, "local education provider" means a school district; a charter school that enrolls students in kindergarten and first, second, and third grades; and a public school operated by a board of cooperative services that enrolls students in kindergarten and first, second, and third grades.

(6) The general assembly finds and declares that, for purposes of section 17 of article IX of the state constitution, purchasing an early literacy assessment tool as described in this section for the use of local education providers is an important element of accountable education reform and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

22-2-142. (Reserved)
22-2-143. Discipline strategies pilot program - created - reporting - rules - definitions - legislative declaration - repeal. (Repealed)

Editor's note: Subsection (8) provided for the repeal of this section, effective July 1, 2020. (See L. 2017, p. 755.)

22-2-144. Bullying prevention and education policies - short title - study. (1) The short title of this section is "Ashawnty's Law".

(2) (a) The department shall research approaches, policies, and practices related to bullying prevention and education used by education providers in other states. On or before July 1, 2019, after consideration of the research conducted pursuant to this subsection (2)(a), the department, in consultation with the school safety resource center created in section 24-33.5-1803, shall develop a model bullying prevention and education policy. The research and model policy described in this subsection (2)(a) must be updated every three years. The department shall utilize a stakeholder process when updating the model bullying prevention and education policy, which process must include participation by the parents of students who have been bullied.

(b) On or before July 1, 2019, and every three years thereafter, the department shall publish the results of the research and model policy required by subsection (2)(a) of this section on its website as guidance for school districts, charter schools, and the charter school institute to consider when developing and implementing bullying prevention and education policies.

(3) At a minimum, the model policy developed pursuant to subsection (2)(a) of this section must:

(a) Clearly differentiate between a conflict and bullying and between harassment and bullying; and
(b) Clarify the role of cyberbullying during online instruction, which may occur on or off school property.

Cross references: For the short title ("Jack and Cait's Law") in HB 21-1221, see section 1 of chapter 209, Session Laws of Colorado 2021.

22-2-145. Media literacy - committee - report - strategic plan - resource bank - definition - rules. (1) For purposes of this section, unless the context otherwise requires, "media literacy" means the:

(a) Ability to access, analyze, evaluate, create, and act through the various forms of media;
(b) Ability to analyze the reliability of information, claims, and sources presented in the various forms of media; and
(c) Practice of digital citizenship, including norms of appropriate and responsible behavior and discourse when engaging with media, and the prevention of cyberbullying.

(2) (a) There is created in the department of education the media literacy advisory committee, referred to in this section as the "committee". The committee shall create a report containing recommendations and best practices for implementing media literacy into elementary and secondary education. The report must include, but is not limited to:

(I) Recommended revisions to state education standards for reading, writing, and civics, pursuant to section 22-7-1005 (2)(a), to implement media literacy in elementary and secondary education;

(II) Recommended materials and resources for teachers to adopt for media literacy instruction;

(III) Recommended legislation or rules to implement media literacy in elementary and secondary education;

(IV) Best practices for school districts to develop policies and procedures regarding media literacy;

(V) Strategies to support school districts implementing the best practices and recommendations developed by the committee; and

(VI) Recommended opportunities to recognize students and teachers who demonstrate excellence in media literacy.

(b) The commissioner of education shall appoint the following members to serve on the committee no later than July 15, 2019:

(I) One member who is an academic expert in media literacy;

(II) One member who is a teacher in a rural school district or a small rural school district, as defined in section 22-7-1211 (4), and holds an initial or professional teacher's license pursuant to article 60.5 of this title 22;

(III) One member who is a teacher in a school district that is not a rural school district or a small rural school district, as defined in section 22-7-1211 (4), and holds an initial or professional teacher's license pursuant to article 60.5 of this title 22;

(IV) One member who is a librarian and is a member of a professional association of librarians;

(V) One member who is a school administrator in a rural school district or a small rural school district, as defined in section 22-7-1211 (4), and is a member of a professional association of school administrators;

(VI) One member who is a school administrator in a school district that is not a rural school district or a small rural school district, as defined in section 22-7-1211 (4), and is a member of a professional association of school administrators;

(VII) One member who is a parent or legal guardian of a student who attends a public school and is a member of a parent organization;

(VIII) One member who is a student in a rural school district or a small rural school district, as defined in section 22-7-1211 (4);

(IX) One member who is a student in a school district that is not a rural school district or a small rural school district, as defined in section 22-7-1211 (4);

(X) One member who represents a nonprofit organization specializing in media literacy;

(XI) One member who represents a nonprofit organization specializing in journalism;
(XII) One member who is a professional print journalist and is a member of a professional association of journalists; and

(XIII) One member who is a professional broadcast journalist and is a member of a professional association of broadcasters.

(3) (a) On or before July 15, 2019, the commissioner of education shall hire a consultant to perform the research and coordination of the committee required to draft the report.

(b) The consultant shall consult with committee members to elicit recommendations for the report, as described in subsection (2)(a) of this section. The consultant is not required to conduct consultations in person and may conduct consultations through telephone, e-mail, or video conference.

(c) The consultant shall distribute his or her research and draft reports to committee members for feedback at least monthly and the latest draft report at least three days prior to the committee meeting described in subsection (3)(d) of this section.

(d) On or before November 1, 2019, the committee shall convene to discuss the draft report and finalize recommendations for the final report to be submitted pursuant to subsection (4) of this section.

(e) The consultant shall incorporate feedback and recommendations from the committee's meeting described in subsection (3)(d) of this section. The consultant shall distribute his or her draft report to committee members for final feedback to be received by the consultant no later than December 1, 2019.

(4) On or before January 1, 2020, the committee shall submit the written report of its findings, recommendations, and summaries of the committee's discussions and diverse opinions regarding the findings and recommendations contained in the final report to the education committees of the house of representatives and the senate, or any successor committees.

(5) Repealed.

(6) (a) The department shall create and maintain an online resource bank of materials and resources pertaining to media literacy. At a minimum, the resource bank must include the materials and resources recommended in the committee's report created pursuant to subsection (2) of this section. The department shall create the online resource bank on or before the date when revisions are adopted to include knowledge and skills relating to media literacy within the reading, writing, or civics standards, whichever revisions occur first, pursuant to section 22-7-1005 (2.6).

(b) The department shall promulgate rules, if necessary, to implement a procedure through which a person may provide comment on a material or resource within the resource bank, including a comment recommending the removal or inclusion of a material or resource within the resource bank.

(c) Upon the request of a school district, district charter school, institute charter school, or board of cooperative services, the department shall provide, subject to available resources, technical assistance to a school district, district charter school, institute charter school, or board of cooperative services, with implementing policies and procedures, best practices, and recommendations related to media literacy.

(7) A school district, district charter school, institute charter school, or board of cooperative services is not required to adopt or implement any material or resource from the resource bank into its curriculum.
**22-2-146. Department of education - COVID-19-related education loss - strategies - resources - report - legislative declaration.** (1) The general assembly finds that:

(a) Due to the public health risks of the COVID-19 pandemic, the public schools in Colorado have had to cease in-person instruction for repeated and extended periods of time during the 2019-20 and 2020-21 school years;

(b) Research suggests that these periods of remote learning, as well as trauma experienced by students as a result of the pandemic, have had detrimental effects on students' ability to learn and grow academically and on their ability even to retain the level of learning that they had previously achieved;

(c) These negative effects have had an even greater impact on students of color, low-income students, and students with disabilities, who are expected to experience a significantly greater loss of learning, thereby exacerbating the academic achievement gaps that existed before the pandemic;

(d) The school districts and public schools of the state will face significant challenges in trying to compensate for these learning losses and in helping all students to overcome the learning losses they have experienced and advance to grade-level or higher academic achievement;

(e) There are indications that tutoring services, programs that extend the school day or the school year, and summer school programs may be successful in helping students, especially low-income students, students of color, and students with disabilities, to overcome learning loss and close the achievement gap;

(f) There are other innovative strategies that some public schools and school districts have been implementing to address learning loss, including home visitation programs through which teachers visit their students' homes to assist the students and the parents in efforts to overcome learning loss; and

(g) The department of education can play a crucial role in supporting school districts and public schools by identifying best practices for addressing these learning losses and effective strategies for boosting student learning and closing achievement gaps and by providing a resource bank of model materials and strategies specifically designed to address learning recovery for all students.

(1.5) (a) The general assembly further finds that on March 11, 2021, President Biden signed H.R.1319, the "American Rescue Plan Act of 2021", into law. In part, the act provides approximately $122.7 billion in supplemental money to the elementary and secondary emergency education relief fund for distribution to states. Approximately $1.166 billion of that amount is expected to be distributed to Colorado, of which at least $1.05 billion must be distributed to local education providers and $116.6 million will be retained by the state department of education. The act requires the department to use approximately $58 million to
address learning recovery, approximately $11.6 million for after-school activities, and approximately $11.6 million for summer learning programs.

(b) The department is strongly encouraged to use as much as possible of the amount of federal money that the department receives under the "American Rescue Plan Act of 2021" to fund programs to address learning recovery, which may include intensive tutoring programs, extended-day learning programs, supplemental online courses, summer learning programs, and other programs that are identified by local education providers or have demonstrated success in effectively addressing learning recovery. The department is specifically encouraged to use a portion of the federal money to assist local education providers in accessing supplemental online learning recovery courses for students enrolled in kindergarten through twelfth grade, as described in section 22-5-119 (11).

(2) (a) By the fall semester of the 2021-22 school year and continuing thereafter, the department shall identify educational products, strategies, and services that have demonstrated effectiveness in identifying and reversing student learning loss, including those products, strategies, and services that are specifically designed to address learning loss experienced by students of color, low-income students, and students with disabilities. The department shall create and maintain a resource bank of examples of these products, explanations of and instructions for implementing these strategies and services, and models of professional development programs related to using the products and implementing the strategies and services. The department shall ensure that the resource bank includes products, strategies, and services and models of professional development programs that take into account the circumstances of, and are appropriate for implementation by, rural and small rural school districts and charter schools located within rural and small rural school districts.

(b) The department shall include in the resource bank information concerning public and private nonprofit entities that may partner with school districts, boards of cooperative services, and charter schools to provide personnel or other resources to assist in implementing strategies to overcome learning loss.

(c) School districts, boards of cooperative services, and charter schools may submit to the department descriptions and explanations of strategies, services, and programs that they have implemented, with evidence demonstrating the positive effects achieved through implementing the strategies, services, and programs. The department shall include the submitted examples in the resource bank.

(d) The resource bank must be available for review by school districts, boards of cooperative services, and charter schools. To the greatest extent possible within existing resources, the department shall provide technical assistance, upon request, to assist school districts and charter schools in identifying and implementing strategies to address student learning loss.

(3) The department shall create a report specifying the purposes for which the department used the federal money received pursuant to the federal "Coronavirus Aid, Relief and Economic Security Act", Pub.L.116-136; the "Coronavirus Response and Relief Supplemental Appropriations Act, 2021", Pub.L.116-260; and the "American Rescue Plan Act of 2021", Pub.L.117-2. At a minimum, the report must identify the total amount that the department received and was authorized to spend at the state level under each act, the purposes for which the department spent the amounts received, the specific amount allotted to each purpose, and any data the department may have concerning the results achieved in using the money for each
purpose. On or before December 1, 2021, and on or before December 1 each year thereafter through December 1, 2024, the department shall submit the report to the education committees of the house of representatives and senate, or any successor committees, and post the report on the department's website. The department shall also present the report as part of the department's hearing held each January pursuant to section 2-7-203, starting in 2022 and continuing through 2025.

22-2-146.5. Department of education - improving mathematics outcomes - training and technical assistance - report - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Children with disabilities" has the same meaning as set forth in section 22-20-103.

(b) "Evidence-informed" means a program or practice in mathematics that relies on peer-reviewed evidence to establish a basis for accelerating learning. "Evidence-informed" includes evidence-informed curricula, interventions, acceleration strategies, and assessment options.

(c) "Rural school district" means a school district in Colorado that the department determines is rural based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area.

(d) "Small rural school district" means a school district in Colorado that the department determines is rural based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area and that enrolls fewer than one thousand students in pre-kindergarten through twelfth grade.

(e) "Train-the-trainer" means a training framework that develops educators into subject matter experts who can teach other educators about mathematics.

(2) By January 2024, the department shall contract with an organization, in accordance with the "Procurement Code", articles 101 to 112 of title 24, to create free optional trainings, incorporating the train-the-trainer model, in evidence-informed practices in mathematics, including a training specifically designed for elementary school educators and a training specifically designed for secondary school mathematics educators. Each training must include interventions and strategies to grow and accelerate student proficiencies in mathematics to help students who are below grade level or struggling in mathematics, children with disabilities, and students who are English language learners. Training may include, but need not be limited to, content aligned with student academic standards, standards for mathematical practice, and cultivation of mathematical best practices and mindsets. The training is available to relevant staff of school districts, related administrative units, district charter schools, institute charter schools, boards of cooperative services, and community-based organizations, as defined in section 22-2-146.6. The department shall keep record of the school districts, related administrative units, district charter schools, institute charter schools, and boards of cooperative services that participate in the educator training.

(3) The department, upon request, shall provide technical assistance to rural school districts and small rural school districts, including administrative units and district charter schools, and institute charter schools in rural areas. Technical assistance must include identifying
best practices in mathematics, including interventions to help students who are below grade level or struggling in mathematics, children with disabilities, and students who are English language learners.

(4) The department shall publish, on a continuous basis, a list of evidence-informed curricula and assessment options for mathematics. The department shall consult with schools of a school district, district charter schools, institute charter schools, educators who teach mathematics, and national experts and repositories to update the list of evidence-informed curricula and assessment options for mathematics. The department shall review the list and remove material, as necessary, every four years.

(5) The department shall provide and regularly update evidence-informed interventions for improving mathematics achievement, including intervention options that may be available to parents remotely. The department shall publish the evidence-informed interventions on the department's website.

(6) (a) Notwithstanding section 24-1-136 (11)(a)(I), on or before July 1, 2024, and on or before July 1 each year thereafter, the department shall report to the education committees of the house of representatives and the senate, or their successor committees, and the state board concerning the activities and status of any technical assistance and training provided pursuant to this section.

(b) Beginning January 2025, the department shall report on the information collected pursuant to subsection (6)(a) of this section, including a list of the school districts, related administrative units, district charter schools, institute charter schools, and boards of cooperative services that participate in the educator training pursuant to subsection (2) of this section, at the department's annual hearing held pursuant to the "SMART Act", part 2 of article 7 of title 2.

Source: L. 2023: Entire section added, (HB 23-1231), ch. 190, p. 938, § 1, effective May 15.

22-2-146.6. Colorado academic accelerator grant program - report - rules - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Colorado academic accelerator grant program" or "grant program" means the Colorado academic accelerator grant program created in subsection (2) of this section.

(b) "Community-based organization" means a public or private nonprofit organization of demonstrated effectiveness that is representative of a community or significant segments of a community and provides educational or related services to individuals in the community.

(c) "Community learning center" means an entity that assists students to meet the rigorous state academic standards by providing students with free academic enrichment and support activities and a broad array of other activities during nonschool hours, periods when school is not in session, or during extended learning hours.

(d) "Eligible entity" means a local education provider, a community-based organization, an Indian tribe or tribal organization, another public or private entity, or a consortium of two or more agencies, organizations, or entities.

(e) "Evidence-informed" means a program or practice in mathematics that relies on peer-reviewed evidence to establish a basis for accelerating learning. "Evidence-informed" includes evidence-informed curricula, interventions, and assessment options.
(f) "Local education provider" means a school district, a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22, a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 this title 22, or a board of cooperative services created and operated pursuant to article 5 of this title 22 that operates more than one public school.

(g) "STEM" means the combination of the disciplines of science, technology, engineering, and mathematics.

(2) (a) There is created in the department the Colorado academic accelerator grant program. The purpose of the grant program is to create community learning centers that:

(I) Provide opportunities for free academic enrichment and support activities, which must include providing tutorial services to help students, particularly students who attend high-needs schools, as determined by the department, to meet rigorous state academic standards, specifically in STEM and mathematics, and to increase proficiencies in mathematics outcomes; and

(II) Offer families of students opportunities for active and meaningful engagement in students' education, including opportunities for mathematics literacy and related educational development.

(b) The department shall administer the grant program. An eligible entity that receives grant money pursuant to this section shall use the grant money toward meeting the purposes set forth in subsection (2)(a) of this section. Eligible entities are selected for a grant that runs for a period of three years. If a community-based organization applies, the community-based organization must be experienced in out-of-school supports and shall partner with a local education provider as an eligible entity.

(c) The department shall implement a timeline for the grant program, which must include the following:

(I) The date the department shall announce the grant program and begin accepting applications from eligible entities;

(II) The date by which an eligible entity must submit an application;

(III) The date the department shall begin distributing grant money to the grantees; and

(IV) The dates an eligible entity shall submit a report to the department summarizing the use of funds pursuant to this section, including data on the academic improvement of students in mathematics disaggregated by race, ethnicity, gender, grade level, disability, socioeconomic status, geographic location, and English language learner status.

(3) (a) The department shall prioritize eligible entities that:

(I) Adopt intervention strategies described in section 22-32-118.6 or 22-30.5-526.5;

(II) Use evidence-informed programs that build student skills in STEM and mathematics;

(III) Use digital math accelerator programs;

(IV) Serve high-needs students, as determined by the department;

(V) Target students who transition from elementary school to middle school and middle school to high school;

(VI) Have an established presence and relationship in the community; and

(VII) Have demonstrated in the application how the eligible entity will meet the needs of diverse student populations.
(b) The department shall review the applications submitted pursuant to subsection (2)(c)(II) of this section.

(c) The department shall not use more than five percent of state funds to administer the grant program, including, but not limited to:
   (I) Monitoring and evaluating grant program activities; and
   (II) Providing training and technical assistance.

(d) The department shall ensure eligible entities use evidence-informed curricula and interventions in mathematics as identified by the department pursuant to section 22-2-146.5, including any state-purchased curricula or digital software focused on mathematics.

(4) (a) Eligible entities shall use grant funds for free academic enrichment and support activities and tutoring programs with a focus on STEM and mathematics, particularly for students who are below grade level or struggling in mathematics; children with disabilities, as defined in section 22-20-103; and students who are English language learners.
   (b) Eligible entities may use grant funds to:
      (I) Facilitate programs to engage communities to support high-needs schools, as determined by the department;
      (II) Create mentorship programs; and
      (III) Provide other academic or social enrichment opportunities, including experiential mathematics activities, to help ensure students can meet the state's rigorous academic standards.
   (c) If a local education provider receives a grant to become a community learning center, the local education provider shall provide free academic enrichment and support programs, mentorship programs, remedial education programs, and tutoring services that align with the state's rigorous academic standards.
   (d) (I) If a local education provider in partnership with a community-based organization receives a grant to become a community learning center, the local education provider shall provide free academic enrichment and support programs, mentorship programs, remedial education programs, and tutoring services that align with the state's rigorous academic standards. The local education provider shall coordinate with the community-based organization to share data on student performance that is relevant to each student's performance in school in accordance with the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, as amended, and the "Student Data Transparency and Security Act", created in article 16 of this title 22.
      (II) The local education provider shall coordinate with community-based organization instructors to:
         (A) Offer access to relevant district or state training focused on STEM and mathematics instruction, including training created pursuant to section 22-2-146.5 (1); and
         (B) Provide access to district or statewide software licenses for digital math accelerator programs.

(5) The state board may promulgate rules for the implementation of this section.

(6) (a) On or before July 1, 2024, the department shall contract with a third-party evaluator, in accordance with the "Procurement Code", articles 101 to 112 of title 24, to review, evaluate, and draft a report summarizing the following:
   (I) The impact of the grant program on financial savings for parents;
   (II) Data on student engagement, dropout rates, graduation rates, chronic absenteeism, and mobility rates;
(III) Student academic improvement in mathematics, including data disaggregated by race, ethnicity, gender, grade level, disability, socioeconomic status, geographic location, and English language learner status; and

(IV) The disaggregated data of eligible entities submitted to the department pursuant to subsection (2)(c)(IV) of this section.

(b) The department shall collect the data reported to the department by eligible entities pursuant to subsection (2)(c)(IV) of this section and by the third-party evaluator pursuant to this subsection (6).

(7) (a) Notwithstanding section 24-1-136 (11)(a)(I), on or before January 1, 2025, and each January 1 thereafter, the department shall submit the report described in subsection (6) of this section to the education committees of the house of representatives and the senate, or their successor committees, the governor, and the state board.

(b) Beginning January 2025, the department shall report on the information collected pursuant to subsection (7)(a) of this section at the department's annual hearing held pursuant to the "SMART Act", part 2 of article 7 of title 2.

(8) The department and eligible entities shall report data pursuant to this section in compliance with the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, as amended, and the "Student Data Transparency and Security Act", created in article 16 of this title 22.

(9) For the 2023-24 budget year, the general assembly shall appropriate twenty-four million five hundred thousand dollars to the department. The department shall have the authority to spend funds continuously through the 2026-27 budget year for the purposes of this section. Any unexpended funds that remain at the end of the 2026-27 budget year revert back to the general fund.

22-2-147. Menstrual hygiene products accessibility grant program - eligibility - rules - report - definitions. (1) There is created in the department the menstrual hygiene products accessibility grant program in order to provide menstrual hygiene products at no expense to students. A grant recipient shall ensure that menstrual hygiene products are accessible to a student regardless of the student's gender identity.

(2) A grant recipient shall use the award to acquire and distribute menstrual hygiene products at no expense to students or install and maintain a dispensing machine or disposal receptacle for menstrual hygiene products.

(3) An eligible grant recipient is:

(a) A local education provider if it has fifty percent or more students enrolled who are eligible for free or reduced-cost lunch pursuant to the federal "Richard B. Russell National School Lunch Act", 42 U.S.C. sec. 1751 et seq.;

(b) The Colorado school for the deaf and the blind, created and existing pursuant to section 22-80-102 (1)(a); or

(c) An approved facility school, as defined in section 22-2-402 (1).

(4) To receive a grant, an eligible grant recipient must submit an application to the department by a date specified by the department. The eligible grant recipient must include data
in its application concerning the number of students enrolled at the eligible grant recipient and
the number of restrooms, including gender-neutral restrooms, on the property of the eligible
grant recipient.

(5) Subject to available appropriations, the department shall implement and administer
the grant program, and shall award a grant to an eligible grant recipient that applies in an amount
that is proportionate to the numbers of students and restrooms as provided in its application. The
state board may promulgate rules as necessary to implement the grant program.

(6) (a) On or before October 1, 2022, and on or before October 1, 2023, each grant
recipient shall submit a report to the department. The report must include information
concerning the amount of money spent on the acquisition and distribution of menstrual hygiene
products and the amount of money spent on the installation and maintenance of a dispensing
machine or disposal receptacle for menstrual hygiene products.

(b) On or before January 2, 2023, and on or before January 2, 2024, the department shall
submit a summarized report of the information received pursuant to subsection (6)(a) of this
section to the education committees of the senate and house of representatives, or any successor
committees.

(7) The department may seek, accept, and expend gifts, grants, or donations from private
or public sources for the purposes of this section.

(8) As used in this section, unless the context otherwise requires:
(a) "Grant program" means the menstrual hygiene products accessibility grant program
created and existing pursuant to this section.
(b) "Local education provider" means a school district, a charter school authorized by a
school district pursuant to part 1 of article 30.5 of this title 22, a charter school authorized by the
state charter school institute pursuant to part 5 of article 30.5 of this title 22, or a board of
cooperative services created and operating pursuant to article 5 of this title 22 that operates one
or more public schools.
(c) "Menstrual hygiene products" means tampons, menstrual pads, and pantiliners.

Source: L. 2021: Entire section added, (SB 21-255), ch. 444, p. 2934, § 1, effective
September 7.

(1) (a) There is created in the department the secondary school student substance use committee,
referred to in this section as the "committee". On or before September 1, 2023, the commissioner
shall appoint the following members to serve on the committee:
(I) Two members who are students at a public secondary school, one who attends a
school that is located in a rural school district and one who attends a school that is not located in
a rural school district;
(II) Two members who are teachers at a public secondary school, one who teaches at a
school that is located in a rural school district and one who teaches at a school that is not located
in a rural school district;
(III) Two members who are licensed special services providers with a school counselor
endorsement at a public secondary school whose responsibilities include mental health
counseling, one who is a licensed special services provider with a school counselor endorsement
at a school that is located in a rural school district and one who is a licensed special services
provider with a school counselor endorsement at a school that is not located in a rural school district;

(IV) Two members who are school administrators at a public secondary school, one who is a school administrator at a school that is located in a rural school district and one who is a school administrator at a school that is not located in a rural school district;

(V) Two members who are parents or legal guardians of a student attending a public secondary school, one who is a parent or legal guardian of a student attending a school that is located in a rural school district and one who is a parent or legal guardian of a student attending a school that is not located in a rural school district;

(VI) Two members who are licensed medical professionals with expertise in adolescent substance use disorders, one who practices in a rural region and one who practices in an urban or suburban region;

(VII) Two members who are school nurses, one who is a school nurse at a school that is located in a rural school district and one who is a school nurse at a school that is not located in a rural school district;

(VIII) Two members who are experts in the practice of substance use screening, brief intervention, and referral to treatment, one who practices in a rural region and one who practices in an urban or suburban region;

(IX) One member who represents the office of children, youth, and families in the department of human services; and

(X) One member who represents the prevention services division within the department of public health and environment.

(b) To the extent practicable, the membership of the committee must include persons from throughout the state and reflect the racial, ethnic, and geographic diversity of the state.

(c) Members of the committee serve at the pleasure of the commissioner and serve without compensation or per diem; except that members of the committee are entitled to reimbursement for reasonable and necessary expenses incurred in performing their duties under this section, including mileage reimbursement.

(2) The committee shall develop a practice, or identify or modify an existing practice, for secondary schools to implement that identifies students' substance use, offers brief intervention with information regarding substance use and consequential health risks, and refers the students to substance use treatment resources. The committee shall consider existing and available information concerning secondary school student substance use in Colorado and how the practice must address the challenges, resources, and needs identified from the existing and available information.

(3) On or before January 5, 2024, the committee shall submit a report to the department that details the recommended practice pursuant to subsection (2) of this section. The department shall publish the report on its website and submit the report to the superintendent of every school district and the chief administrator of every institute charter school that is a secondary school.

(4) As used in this section, unless the context otherwise requires:

(a) "Licensed medical professional" means a psychologist or physician licensed to practice in Colorado.

(b) "Rural school district" means a school district in Colorado that the department determines is rural, based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area.
(c) "Secondary school" means a middle school, junior high school, or high school.
(d) "Substance use" means the use of alcohol, tobacco, controlled substances, or prescription medication.
(5) This section is repealed, effective July 1, 2025.

**Source:** L. 2023: Entire section added, (HB 23-1009), ch. 115, p. 418, § 2, effective August 7.

**Cross references:** For the legislative declaration in HB 23-1009, see section 1 of chapter 115, Session Laws of Colorado 2023.

**22-2-149. Summer electronic benefits transfer for children program - duties.** (1) The department is the designated partner agency for the summer electronic benefits transfer for children program created in the department of human services pursuant to section 26-2-309.
(2) To administer the summer electronic benefits transfer for children program, the department shall:
(a) Develop an outreach plan and conduct outreach to local education providers, as defined in section 22-16-103, and school food authorities, as defined in section 26-2-309;
(b) Provide technical assistance to school food authorities, specifically school food authorities located in rural areas; and
(c) Collect the minimum student-level data necessary to gather and maintain eligibility information required by the summer electronic benefits transfer for children program and share the data with the department of human services for the administration of the summer electronic benefits transfer for children program as set forth in section 26-2-309 (5).
(3) The department of human services and the department shall jointly:
(a) Develop protocols for the sharing of relevant data necessary for the administration of the summer electronic benefits transfer for children program and outreach to households with students who are eligible for the program;
(b) Streamline data collection; and
(c) Develop and provide an opt-out process for parents, legal guardians, and emancipated students, to the extent allowable pursuant to the federal requirements for the summer electronic benefits transfer for children program.
(4) (a) For state fiscal year 2023-24, the general assembly shall appropriate one hundred sixty-nine thousand eight hundred seventy dollars to the department from the general fund for purposes of this section. Any money appropriated pursuant to this subsection (4)(a) that is not expended prior to July 1, 2024, remains available for expenditure for the same purpose in the 2024-25 state fiscal year without further appropriation.
(b) For state fiscal year 2024-25, the general assembly shall appropriate three hundred ninety-three thousand eight hundred six dollars to the department from the general fund for purposes of this section. Any money appropriated pursuant to this subsection (4)(b) that is not expended prior to July 1, 2025, remains available for expenditure for the same purpose in the 2025-26 state fiscal year without further appropriation.
PART 3

DATA REPORTING AND TECHNOLOGY

22-2-301. Short title. This part 3 shall be known and may be cited as the "Data Reporting and Technology Act".

22-2-302. Legislative declaration. (1) The general assembly hereby finds that:  
(a) Pursuant to state statute and rules of the state board, school districts are required to submit extensive and duplicative data at different times throughout the year or to different divisions within the department of education;  
(b) Reporting requirements are frequently placed in statute or rule and are not revisited after their initial adoption. Often, these requirements cease over time to have a relevant use or purpose but are still required to be reported to the department.  
(c) School districts recognize the value of collecting and submitting data that will be used to track student achievement, to qualify for state funds, or to support accountability for student achievement or compliance measures but often find that the staff time required to prepare reports and submit required data under federal and state statutes and rules takes human and capital resources that could be better spent on providing student instruction;  
(d) The department works to make data reporting productive and meaningful but faces its own internal challenges in terms of funding, adequate staffing levels, and the ability to overhaul antiquated data technology systems;  
(e) The elementary and secondary education system in Colorado spends considerable amounts of money maintaining multiple, often out-of-date, computer systems for data collection and transmission. Due to the lack of a single statewide data system, data often cannot be accessed, even when acting in compliance with federal privacy restraints, by others within the department, school districts seeking comparisons with other districts for best practices, or researchers and foundations seeking to conduct research on the Colorado public school system and its students.

(2) It is therefore the intent of the general assembly in enacting this part 3 to achieve the following purposes:
(a) To improve the collection of data by streamlining the submission and reporting of data;
(b) To create shared goals and shared expectations for data collection and technology for elementary and secondary education in Colorado;
(c) To require school districts and public schools to submit data that is relevant to student achievement and will enhance and improve the manner in which school districts and public schools provide and evaluate student instruction;
(d) To explore the possibility of implementing a single statewide education data collection system with the purpose of reducing the manpower and cost of submitting required data to the department; and
(e) To deploy the single statewide education data collection system as a system of data exchange that is based on automatic file exchanges rather than manual processes requiring personnel to upload electronic files via messaging, web uploads, or other file transfer methods requiring human intervention.

22-2-303. Definitions. As used in this part 3, unless the context otherwise requires:
(1) "Commissioner" means the commissioner of education appointed pursuant to section 1 of article IX of the state constitution.
(2) "Current data technology system" means the data technology system or systems in use by the department as of May 23, 2007.
(3) "Data dictionary" means an essential component of data management adopted by the department pursuant to section 22-2-305 that defines all of the data elements the department collects from school districts and public schools and describes the methods by which the department collects the data through the single statewide data collection system.
(4) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
(5) "EDAC" means the education data advisory committee created pursuant to section 22-2-304.
(6) "Public school" means a public school as provided in section 22-1-101, including a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title or an institute charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title.
(7) "State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

22-2-304. Education data advisory committee - creation - duties - approval. (1) The state board shall designate at least five volunteer school districts and two volunteer boards of cooperative services and a volunteer charter school, that are representative of the state as to pupil size and population, to send representatives to form a voluntary committee, to be known as the
education data advisory committee. The EDAC shall work with the department to review school
district data reporting requirements and make recommendations as provided in this section.

(2) The EDAC shall:

(a) Review the statutory and regulatory data reporting requirements applicable to school
districts and public schools and determine whether the benefits derived from the reports are
outweighed by the increased administrative costs incurred by the school districts and public
schools in preparing and submitting the reports;

(b) Identify those statutory and regulatory data reporting requirements that are
duplicative or obsolete and may be combined, eliminated, or otherwise streamlined;

(c) Review each data reporting request made to school districts and public schools and
notify school districts and public schools which of the following designations applies:
(I) The request is mandatory because it is required by statute or rule;
(II) The request is required to acquire a benefit because a statute or rule requires a school
district or public school that chooses to seek or receive a specified governmental benefit to report
the data; or
(III) The request is voluntary because it is not specifically required by a statute or rule;

(d) Review all proposed statutory and regulatory data reporting requirements, whether
proposed in state or federal legislation or in rules, and, to the extent practicable prior to final
adoption, inform the general assembly or the enacting state or federal agency of the estimated
cost to the school districts and public schools of complying with the proposed statutory and
regulatory data reporting requirements and make recommendations to the general assembly or to
the enacting state or federal agency concerning whether the proposed requirements are already
included in existing law or regulation and whether the proposed requirements are necessary and
appropriate;

(e) Advise the department on the impact of data practices and technology on school
districts and public schools;

(f) Periodically review the rules for implementing the federal "Family Educational
Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, and recommend to the state board an
interpretation of said act that will facilitate the exchange and sharing of student information to
the greatest extent possible in compliance with the federal regulations for implementing said act; and

(g) Review the processes and timing for collecting student demographic data and make
recommendations to the state board for efficiently updating the data as necessary.

(2.5) If there is a difference between the designation identified by the EDAC pursuant to
subsection (2)(c) of this section and the department's final determination, the state board shall
engage in a public information session with the opportunity for public input and to allow the
EDAC and the department to discuss their perspectives.

(3) (a) The EDAC shall annually, or more often if necessary, make recommendations to
the state board and to the appropriate legislative committees of reference based on the subject
matter of the recommendation for the repeal or amendment of statutory and regulatory data
reporting requirements that the EDAC has identified as duplicative, obsolete, or inefficient.

(b) Repealed.

(4) The EDAC shall identify those reporting requirements that may be consolidated into
a single report or a single submission for purposes of streamlining data submission for school
districts and public schools.
22-2-305. Data dictionary - legislative declaration - creation - contents - report. (1) The general assembly finds that there is a need for consistency in electronic data submission protocols and requirements to allow school districts and public schools to submit data for multiple reports in one transaction. Under the existing data submission system, school districts and public schools are often forced to report data that is known to be incorrect because of an existing inability to correct or resubmit data through the current data technology system. The general assembly finds that the priority in data collection and submission must be the efficient collection and use of accurate, relevant data.

(b) The general assembly finds therefore that, with the creation and implementation of a data dictionary, the department may bring consistency and greater accuracy to the data elements collected from school districts and public schools and increase the efficiency of education data submission and collection by not collecting the same data elements more often than necessary.

(2) (a) The department shall develop and distribute to the school districts and public schools a data dictionary to define the data the department will collect and the methods and protocols by which school districts and public schools will submit the data. At a minimum, the data dictionary shall include the following items:

(I) A map of the current data collection requirements, including the definition of each data element, when each data element is collected, identification of the external reports for which each data element is used, and identification of the method by which each data element is collected;

(II) A description of the format for data submission, acceptable values in data submission, the available options for dealing with data fields for which the submitting school district or public school does not have information, and logical comparisons to prior reports;

(III) Identification of data relationships;

(IV) Data element tables; and

(V) Identification of data element locations within data access tools.

(b) In developing the data dictionary, the department shall seek and apply input from school districts, public schools, and the EDAC. In addition, the department shall ensure that the

Editor's note: Subsection (3)(b)(II) provided for the repeal of subsection (3)(b), effective July 1, 2010. (See L. 2009, p. 887.)
data elements included in the data dictionary are aligned with the descriptions and definitions of data elements that are used by national education organizations such as the federal department of education and other organizations that set national education standards and ratings.

(3) On or before August 1, 2007, the department shall report the status of the data dictionary to the state board, the education committees of the senate and house of representatives, or any successor committees, the governor, school districts, and the EDAC. At a minimum, the report shall include:
   
   (a) A description of how many school districts and public schools were involved in the process of creating the data dictionary, the extent to which the EDAC was involved in the process, and the manner of the school districts', public schools', and the EDAC's involvement;
   
   (b) An explanation of the department's methods and considerations in creating the data dictionary, including the extent to which the department considered models from other states;
   
   (c) An explanation of the manner in which school districts and public schools will access the data dictionary; and
   
   (d) The method by and frequency with which the department plans to review and update the data dictionary.

(4) The department shall ensure that the data dictionary is fully operational and available for use on or before October 1, 2007.

(5) The general assembly finds and declares that, for purposes of section 17 of article IX of the state constitution, the creation and implementation of the data dictionary pursuant to this section is an important element of accountability reporting and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

22-2-306. Advance notice - legislative declaration - data collection - data submission changes - website update - submission windows. (1) The general assembly finds that it is imperative that school districts and public schools receive adequate advance notice of changes in data submission requirements to enable them to effectively comply with the new requirements. The general assembly further finds that the department must allow school districts and public schools the necessary time in which to comply with changes in data submission requirements in order to ensure that the school districts and public schools provide accurate data.

(2) The department shall provide to school districts, public schools, and vendors notice of new federal or state data submission requirements or changes to existing federal or state data submission requirements within one business day after receiving the new or changed requirements. The department shall notify school districts, public schools, and vendors of new or changed federal or state data submission requirements and communicate any other pertinent information through an electronic mail list developed by the department to which school districts, public schools, and vendors may subscribe. The department shall also conduct informational meetings that allow school districts, public schools, and vendors to ask questions and receive technical support to ensure accuracy and efficiency in data submission.

(3) (a) To improve the accuracy of submitted data and minimize inaccurate data submissions and errors in data submitted by school districts and public schools, the department shall update data reporting requirements on the department website on an annual basis. The department shall ensure that the department website is updated annually by April 1 with all
changes to state or federal data reporting requirements made since the preceding April 1. No later than the following July 1, school districts and public schools shall comply with the changes to state or federal data reporting requirements that are included in the April 1 update.

(b) Notwithstanding any provision of paragraph (a) of this subsection (3) to the contrary, if federally required or state-required timelines for implementing data reporting requirements conflict with the provisions of paragraph (a) of this subsection (3), the department, the school districts, and the public schools shall comply with the federally required timelines.

(4) (a) To assist the department, school districts, and public schools in exercising reasonable management over data collection and submission activities, following the enactment of legislation that alters data collection requirements, the state board shall promulgate rules to implement the changes in accordance with a timeline that ensures the rules are effective by April 1 following the effective date of the legislation. Each school district and public school shall reformat its data systems by the July 1 following enactment of the rules.

(b) Notwithstanding any provision of paragraph (a) of this subsection (4) to the contrary, if federally required or state-required timelines for implementing data reporting requirements conflict with the provisions of paragraph (a) of this subsection (4), the state board, the school districts, and the public schools shall comply with the federally required timelines.

(1) On or before October 1, 2009, and periodically thereafter, the state board shall review the rules for implementing the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, and shall adopt an interpretation of said act that will facilitate the exchange and sharing of student information to the greatest extent possible in compliance with the federal regulations for implementing said act. The state board shall consult with the EDAC in determining its interpretation of said act.

(2) The department shall periodically review its interpretation of federal regulations pertaining to education data collection and reporting and shall ensure that it takes into consideration the interpretations adopted by the departments of education in neighboring states.

(3) (a) Notwithstanding any provision of law to the contrary, in any year in which the general assembly does not appropriate moneys to implement a state program in which the department, a school district, the state charter school institute, or a public school was participating, any reporting requirements that are required under the provisions of the state program are suspended, and the department, school districts, the state charter school institute, and public schools need not comply with said reporting requirements; except that a participating school district, the state charter school institute if it is participating, or a participating public school shall comply with requirements to report information concerning the entity's participation in the state program during the period in which it was funded.

(b) For purposes of this subsection (3), "state program" means a program specifically created in state statute and for which the statute creating the program specifically provides funding to a participating school district, the state charter school institute, or a public school.

22-2-308. Data reporting requirements - office of legislative legal services. Notwithstanding the provisions of section 2-3-505, C.R.S., the office of legislative legal services, created in section 2-3-501, C.R.S., shall notify EDAC of any legislation introduced that creates by specific language a new requirement for a local education agency to report data to any state or federal agency.

22-2-309. Student data - accessibility - transparency - accountability - short title - definitions. (Repealed)

Editor's note: This section was relocated to article 16 of this title in 2016. Former subsection numbers are shown in editor's notes following the C.R.S. sections in article 16 containing those subsections that were relocated.

PART 4

FACILITY SCHOOLS UNIT

22-2-401. Legislative declaration. (1) The general assembly hereby finds that:

(a) A significant number of children in Colorado are placed in day treatment centers, residential child care facilities, other out-of-home placement facilities, or hospitals and receive their education through programs provided by these facilities;

(b) Although these facilities strive to provide the best educational programs possible within limited resources and under difficult circumstances, studies indicate that students who receive educational services through facility programs are more likely to repeat a grade level, more likely to perform below grade level, more likely to drop out of school, less likely to be employed, less likely to continue into higher education, and more likely to be eventually arrested and incarcerated;

(c) Each facility independently provides an educational program that, in most instances, is not consistent in the areas of course work, academic credits, graduation standards, or curriculum with any other educational program provided by a facility or with any educational program provided by a school district or an institute charter school. This lack of consistency makes it extremely difficult for a student to move from one facility to another or to move from a facility to a school district or institute charter school and puts the student almost hopelessly behind in meeting standards for completing a grade level or for graduation.
(d) Each student who receives an educational program through a facility participates in the Colorado student assessment program. However, the student's scores are usually not included in calculating a school's levels of attainment of the performance indicators, and the transitory nature of the student's educational career makes it difficult, if not impossible, for an education provider to longitudinally track the student's academic growth.

(e) Because of the uniqueness of the population served by each facility, it is important for each facility to maintain a significant degree of control over the educational program provided by the facility. However, by partnering with the department of education to provide an educational program that, as much as practicable, is consistent among the facilities, each facility can vastly improve the quality of each student's overall academic experience while the student receives educational services from the facility and when the student transfers to another facility or to a school district or an institute charter school.

(2) Therefore, the general assembly finds that creating a unit within the department of education to work with facilities to create consistency with regard to curriculum, standards, and tracking of student performance within facility education programs will raise the overall quality of the education provided to these students, thereby helping these students meet their full potential both academically and as fully contributing adults within the community.

(3) The general assembly further finds that, for purposes of section 17 of article IX of the state constitution, creating the facility schools unit within the department of education and the facility schools board to work with approved facility schools to standardize the educational services provided to students in approved facility schools and implementing a data system to maintain the records of students who receive educational services from approved facility schools will enable approved facility schools to provide each student a more consistent and coherent education, thereby improving each student's likelihood of achieving state academic standards. The facility schools unit, the facility schools board, and the data system are therefore important elements of accountable programs to meet state academic standards and may receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(4) (a) The general assembly further finds that the number of approved facility schools and placements of students in facility schools in Colorado has substantially declined due in part to county departments of human or social services and other state and local agencies reducing the use of congregate care placements. However, a small percentage of students with exceptionally severe or specialized needs, who may have been served in approved facility schools in the past, still require specialized services beyond the level available from their school district of residence.

(b) Therefore, the general assembly further finds that it is in the best interests of students with exceptionally severe or specialized needs to stabilize and enhance the number of approved facility school placements and to improve student services by:

(I) Providing adequate and predictable funding for approved facility schools;

(II) Establishing an interagency resource guide for facilities seeking licensure or authorization to operate as approved facility schools;

(III) Requiring state agencies to establish consistent administrative practices to license, authorize, approve, and fund approved facility schools that may result from the development of the interagency resource guide described in subsection (4)(b)(II) of this section;
(IV) Allowing state agencies to recommend changes to law, rule, policy, and practice based on the establishment of consistent administrative practices described in subsection (4)(a)(III) of this section;

(V) Requiring the department of health care policy and financing, in consultation with the work group, to recommend a plan to provide guidance to approved facility schools on the eligibility standards required to request and receive medicaid reimbursement funding for therapeutic services to the maximum extent possible to reduce reliance on school district revenue for therapeutic services;

(VI) Authorizing the facility schools board to authorize a facility to operate as a specialized day school;

(VII) Authorizing the facility schools board to adopt accreditation measures for approved facility schools; and

(VIII) Expanding technical assistance for school districts and administrative units, with a priority to serve rural school districts, remote school districts, or school districts that face significant obstacles to providing intensive supports to serve students with exceptionally severe or specialized needs.

22-2-402. Definitions. As used in this part 4, unless the context otherwise requires:

(1) "Approved facility school" means an educational program that is operated by a facility to provide educational services to students placed in the facility and that, pursuant to section 22-2-407 (2), has been placed on the list of facility schools that are approved to receive reimbursement for providing educational services to students placed in a facility.

(2) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

(3) "Facility" means a day treatment center, residential child care facility or other facility licensed by the department of human services pursuant to section 26-6-905, a hospital licensed by the department of public health and environment pursuant to section 25-1.5-103, or a specialized day school authorized by the office.

(3.3) "Facility student", as used in section 22-2-407.5, means a student who is in an approved facility school, eligible facility school, or school district setting, and who is receiving or requires specialized services, and whose educational needs may be beyond the delivery capacity of the student's current educational setting.

(3.8) "Model" means the sustainable educational continuum designed to meet the educational needs of facility students in the target population as defined by the work group pursuant to section 22-2-407.5.

(3.9) "Office" means the office of facility schools created within the department pursuant to section 22-2-403.

(4) "Placed in a facility" means a student is in a facility due to:

(a) A court order or other action by a public entity in Colorado; or

(b) The student's determination, if the student is a homeless child as defined in section 22-1-102.5.
"Public entity" means a public entity responsible for referring students to or placing students in out-of-home, day treatment, residential treatment, hospital, and specialized day school placements with providers.

"School district" means a school district organized and existing pursuant to law but does not include a local college district.

"Specialized day school" means a school that serves students who are referred to or placed by a public entity or placed in a specialized day school by a hospital, health-care provider, behavioral health provider, case management service, court, division of youth services, school district, county department of human or social services, or other state agency because the students' behavioral and educational needs are beyond the capacity of the students' current educational placement due to the severity of the students' needs or the requirement for highly specialized programming.

"State board of education" or "state board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

"Student" means a child or youth who has attained three years of age on or before August 1 and who is under twenty-one years of age.

"Student with exceptionally severe or specialized needs" means a student with exceptionally severe or specialized needs that a school district is unable to serve adequately within the school district's regular or specialized educational services.

Repealed.

"Work group" means the work group created and convened pursuant to section 22-2-407.5.

L. 2023: (3) amended, (3.9), (4.5), (5.5), and (7.5) added, and (8) repealed, (SB 23-219), ch. 88, p. 316, § 2, effective April 20.

Cross references: For the legislative declaration in SB 21-274, see section 1 of chapter 341, Session Laws of Colorado 2021.

22-2-403. Office of facility schools - created. (1) There is created within the department the office of facility schools. The head of the office is the director of facility schools and is appointed by the commissioner of education in accordance with section 13 of article XII of the state constitution.

(2) The office of facility schools and the office of the director of facility schools exercise their powers and perform their duties and functions under the department, the commissioner of education, and the state board of education. The office of facility schools and the office of the director of facility schools are type 2 entities, as defined in section 24-1-105.

22-2-404. Facility schools board - created - membership. (1) There is created the facility schools board to adopt curriculum standards and set graduation requirements for facility schools and to collaborate with and advise the office. The facility schools board consists of seven members appointed by the state board as set forth in this section. The state board shall appoint the initial members of the facility schools board on or before November 1, 2008. The facility schools board is a type 1 entity, as defined in section 24-1-105, and exercises its powers and performs its duties and functions under the department of education.

(2) The state board shall appoint the members of the facility schools board as follows:
   (a) Two persons who represent school districts within Colorado, one of whom shall have expertise in special education;
   (b) One person who represents state-level child placement agencies within Colorado;
   (c) One person who represents county departments of human or social services within Colorado;
   (d) Two persons who represent facilities within Colorado; and
   (e) One person who represents students who receive educational services provided by facility schools in Colorado. The state board may choose a person who, as a child, received educational services provided by a facility school or who is a parent of a student who is receiving or formerly received educational services provided by a facility school.

(3) (a) In appointing the members of the facility schools board, the state board shall seek to ensure that the membership of the facility schools board collectively has expertise in the areas of:
   (I) Curriculum and assessment;
   (II) Educating students who are placed in facilities;
   (III) Mental health;
   (IV) Special education services; and
   (V) School finance.
   (b) The state board shall ensure that members of the facility schools board are representative of the various geographic areas of the state and are representative of the ethnic and racial diversity and gender balance within the state.

(4) Members of the facility schools board shall serve three-year terms; except that, of the members initially appointed, two members shall serve one-year terms and two members shall serve two-year terms. The state board may reappoint a person to serve successive terms on the facility schools board.

(5) Members of the facility schools board shall serve without compensation but may receive reimbursement for reasonable travel expenses incurred in fulfilling their duties on the facility schools board. The department staff shall assist the facility schools board in performing its duties.

**22-2-405. Facility schools office - duties.** (1) In addition to any other duties that may be required by law, the office shall:
(a) Develop and maintain, as described in section 22-2-407, the list of approved facility schools and the list of approved facility schools that receive accreditation;
(b) Make recommendations to the facility schools board regarding the curriculum for use in the approved facility schools;
(c) Make recommendations to the facility schools board regarding graduation requirements for students in approved facility schools. The unit's recommendations shall follow the comprehensive guidelines for high school graduation requirements specified by the state board pursuant to section 22-2-106 (1)(a.5);
(d) Maintain, and make available as provided by law, student information and records for the students who receive educational services from approved facility schools;
(e) Ensure that each student who receives educational services from an approved facility school and who, upon leaving the facility, will reside in Colorado receives a unique identifying number, as provided in rules adopted pursuant to section 22-11-104, if the student has not already been assigned a number by the department; and
(f) Communicate and collaborate with the state department of human services, the county departments of human or social services, and referring agencies regarding the placement and transfer of students in facilities, including but not limited to communication concerning academic testing prior to and following placement and other academic and achievement testing.
(2) In complying with the duties specified in subsection (1)(d) of this section, the office shall:
(a) Adopt data reporting protocols and records transfer procedures for use by approved facility schools; and
(b) In purchasing a data system to maintain the records of students who are receiving educational services from approved facility schools, ensure that the data system selected is compatible with the system used by school districts in serving a majority of the students enrolled in public schools of the state.
(3) The office shall create, maintain, and annually publish:
(a) The accreditation outcome reports that the office develops for each approved facility school pursuant to section 22-2-406 (4)(c) on the office's public website; and
(b) A list of independent national accreditation organizations that are approved by the facility schools board pursuant to 22-2-406 (4)(c).
(4) (a) The office shall contract with a qualified third-party evaluator to evaluate and report whether the work group recommendations made pursuant to section 22-2-407.5 resulted in more effective services and better access to those services for students with exceptionally severe
and specialized needs. The office shall consult with the work group and qualified third-party evaluator to evaluate and report the following:

(I) Whether the number of approved facility school placements for students with exceptionally severe or specialized needs has stabilized or increased;

(II) Whether reliance on homebound and out-of-state placements has decreased;

(III) Whether administrative units that are unable to access approved facility school placements due to geographic or other constraints receive sufficient support from the technical assistance center created in section 22-2-412 to provide effective services to students with exceptionally severe or specialized needs;

(IV) Whether parents, guardians, advocates, county departments of human or social services, and other interested parties assess that the work group's implementation plan described in section 22-2-407.5 (4) has had a positive impact on services for students with exceptionally severe or specialized needs; and

(V) Any other measure of success the office, work group, and third-party evaluator determine necessary.

(b) On or before September 1, 2025, the qualified third-party evaluator shall submit a report to the work group and the office summarizing the measures and recommendations described in subsection (4)(a) of this section. The report must be included in the October 1, 2025, report required pursuant to section 22-2-407.5 (4)(e).

(5) (a) The office shall assemble stakeholders, including members of the work group, to analyze and recommend changes to the methods used for calculating tuition costs for approved facility schools pursuant to section 22-20-109 (2).

(b) As part of the October 1, 2023, report required pursuant to section 22-2-407.5 (4)(e), the office shall summarize the stakeholder recommendations described in subsection (5)(a) of this section, including whether statutory or rule updates are required to implement the recommendations.

(c) On or before July 1, 2024, the state board shall consider the proposed changes and promulgate rules implementing the new methods used for calculating tuition costs.

(d) As part of the October 1, 2024, report required pursuant to section 22-2-407.5 (4)(e), the office shall include an update describing the tuition changes adopted as of July 1, 2024.

Cross references: For the legislative declaration in SB 18-092, see section 1 of chapter 38, Session Laws of Colorado 2018.
described in section 22-7-1006.3 (3). The curriculum must include a range of course work from which an approved facility school may select courses that meet the needs of the students who are placed at the facility, including a variety of instructional methods and strategies to meet student needs.

(b) Adopt accountability and accreditation measures, including academic performance measures, to be applied to approved facility schools and the students receiving educational services through the approved facility schools;

(c) Award a high school diploma to a student who, while receiving services through an approved facility school, meets the graduation requirements the facility schools board shall establish pursuant to subsection (3) of this section and who applies for the award of a high school diploma from the facility schools board; and

(d) Develop procedures to authorize facilities to operate as specialized day schools.

(2) The facility schools board may make recommendations to the state board and to the department of human services regarding any of the following issues:

(a) The process for placing a child or youth in a facility when the placement is initiated by a public entity and methods for improving the involvement of school districts in such placement decisions;

(b) The process for placing a child or youth in a facility when the placement is initiated by action by or request of a private person and methods by which school districts may be involved in such placement decisions;

(c) Methods and strategies for improving the quality of educational services provided by approved facility schools and for improving the educational outcomes for students who receive educational services from approved facility schools;

(d) Methods for recruiting and retaining highly qualified teachers and paraprofessionals for employment in approved facility schools;

(e) The provision of appropriate services for students with disabilities, including the process for developing and reviewing individualized education programs;

(f) Methods of reimbursing approved facility schools for the excess costs incurred in providing educational services to students with disabilities, including direct and indirect costs;

(g) The liability of the school districts of residence for providing a free and appropriate public education for the students who are placed in a facility and procedures to ensure students' rights to receive educational services;

(h) The oversight and monitoring of approved facility schools;

(i) Any other issues that are determined by the facility schools board to be within its purview and that are intended to improve educational outcomes for students receiving educational services from approved facility schools or to promote the efficient delivery of educational services to students who are placed in facilities; and

(j) The creation of an interagency resource guide to assist facilities in becoming licensed or authorized as approved facility schools, which must be adopted by the department, the department of human services, the department of health care policy and financing, and the department of public health and environment as set forth in section 22-2-410.

(3) The facility schools board shall promulgate rules in accordance with the "State Administrative Procedure Act", article 4 of title 24, to establish procedures by which a student who participates in an approved facility school may apply to receive a high school diploma awarded by the facility schools board. The facility schools board shall also, by rule, establish the
graduation requirements that a student receiving educational services through an approved facility school shall meet to be awarded the facility school's high school diploma. In adopting the graduation requirements, the facility schools board shall take into consideration the recommendations of the office and shall ensure that the graduation requirements follow the guidelines for high school graduation requirements specified by the state board pursuant to section 22-2-106 (1)(a.5).

(4) (a) (I) In complying with the duties specified in subsection (1)(b) of this section, on or before December 1, 2026, the facility schools board shall review the implementation of accountability measures by an approved facility school that has been approved for at least one year and recommend to the state board whether to accredit the approved facility school. The state board may grant accreditation to the approved facility school based on the facility schools board recommendation.

(II) If a facility school has been an approved facility school pursuant to section 22-2-407 (2)(b) for less than one year as of December 1, 2026, the approved facility school shall implement accountability measures within one year of approval before the facility schools board review pursuant to subsection (4)(a)(I) of this section.

(III) If a facility school becomes an approved facility school pursuant to section 22-2-407 (2)(b) after December 1, 2026, the approved facility school has one year to implement the accountability measures before a review by the facility schools board and accreditation approval by the state board pursuant to subsection (4)(a)(I) of this section.

(IV) (A) The facility schools board shall approve a list of recognized independent national accreditation organizations that accredit approved facility schools.

(B) If a recognized independent national accreditation organization accredits an approved facility school, the facility schools board may consider the recognized independent national accreditation as part of the facility schools board's accreditation review of the approved facility school pursuant to this subsection (4)(a)(I).

(C) The office shall post the list of recognized independent national accreditation organizations to the office's website pursuant to section 22-2-405 (3).

(b) (I) Notwithstanding subsection (4)(b)(II) of this section, on or after December 1, 2026, a school district or an administrative unit shall only place a student in an approved facility school that receives accreditation from the state board or an independent national accreditation organization, unless the school district or administrative unit determines that there is not an accredited facility available and the selected placement is in the best interests of the student.

(II) If a student is a student in an out-of-home placement, as defined in section 22-32-138, and the change of educational placement is a result of placement in out-of-home care, the procedures set forth in section 22-32-138 must be followed.

(c) (I) On or after October 1, 2026, and each October 1 thereafter, the facility schools board shall create an accreditation outcome report for each approved facility school as part of the process to determine whether an approved facility school remains accredited. The accreditation outcome report must include information on student outcomes, postsecondary and workforce readiness, and student engagement.

(II) On or after December 1, 2026, and each December 1 thereafter, the facility schools board shall submit the accreditation outcome reports and accreditation recommendations to the state board.
The state board may approve accreditation, deny accreditation, or grant conditional accreditation. If accreditation is conditional or denied by the state board, an approved facility school may respond to the office within sixty days after receiving the report. The facility schools board and state board may reconsider an approved facility school's accreditation status based on the accreditation outcome report and any other data submitted by an approved facility school or the office.

The office shall annually update on the office's website the accreditation outcome reports for each approved facility school pursuant to section 22-2-405 (3).

In developing procedures as set forth in subsection (1)(d) of this section, the facility schools board shall promulgate rules for the creation and maintenance of a list of schools that are authorized to operate as specialized day schools and are approved as facility schools to receive reimbursement for providing educational services to students placed in the specialized day school. The facility schools board shall promulgate rules specifying the following procedures:

(I) How to authorize a facility to operate, become accredited, and be maintained as a specialized day school;

(II) How to secure health and safety inspections of a specialized day school;

(III) How to secure zoning approval in cities and counties for a specialized day school;

(IV) How to procure employee background checks; and

(V) How to track and report incidents at specialized day schools.

The facility schools board may enter into interagency agreements with the department of human services, department of public health and environment, and other state and local government agencies to implement this subsection (5).

If a facility meets the criteria to become authorized to operate, become accredited, and be maintained as a specialized day school pursuant to subsection (5)(a) of this section, the office shall authorize the facility to operate as a specialized day school. The office shall periodically, as provided by rule of the facility schools board, review each specialized day school to determine whether the specialized day school is in compliance with the requirements set forth in subsection (5)(a) of this section. The facility schools board shall promulgate rules specifying the procedural requirements associated with the renewal of specialized day schools.

22-2-407. List of approved facility schools - application - criteria - rules. (1) Pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., the facility schools board shall promulgate rules for the creation and maintenance as provided in this section of a list of facility schools that are approved to receive reimbursement for providing educational services to students placed in the facility. In addition to the rules specified in this section, the facility schools board shall adopt such additional rules as may be necessary for the implementation of the list pursuant to this section.

(2) (a) The facility schools board by rule shall specify:

(I) The procedures by which a facility school may apply to the office for placement on the list of approved facility schools;
The information that each facility school shall provide in the application;

The reporting requirements for approved facility schools; and

The criteria that a facility school shall meet to be placed on the list of approved facility schools.

(b) The office shall review the applications received pursuant to subsection (2)(a) of this section and shall place on the list of approved facility schools those applicants that meet the criteria specified by rule of the facility schools board. The office shall notify each applicant regarding placement on the list of approved facility schools. If the office denies an applicant placement on the list, the office shall explain the basis for the denial. An applicant that is denied may reapply for placement on the list following correction of the cause for denial.

(3) An approved facility school shall comply with the following requirements in order to remain on the list of approved facility schools:

(a) Adopt and implement the curriculum and graduation requirements specified by the facility schools board pursuant to section 22-2-406 (1)(a) and (3);

(b) Demonstrate compliance with the accountability measures adopted by the facility schools board pursuant to section 22-2-406 (1)(b);

(b.5) Demonstrate compliance with the accountability and accreditation measures within the time frames adopted by the facility schools board pursuant to section 22-2-406 (4);

(c) Comply with the reporting and records tracking requirements specified by the office pursuant to section 22-2-405 (1)(d) and (2); and

(d) Comply with any other requirements specified by rule of the facility schools board.

(4) The office shall periodically, as provided by rule of the facility schools board, review each approved facility school to determine whether the approved facility school is in compliance with the requirements specified in subsection (3) of this section. If the office determines that an approved facility school is out of compliance, the office shall give the approved facility school notice of the lack of compliance. If the approved facility school does not come into compliance within thirty days after receiving the notice, the office shall remove the facility school from the list of approved facility schools. A facility school that is removed from the list of approved facility schools may reapply for placement on the list as provided in subsection (2) of this section.

22-2-407.5. Facility schools - sustainable model of education for facility students - work group - created - membership - duties - reporting requirements - funding. (1) (a) On or before July 1, 2021, the department shall convene a work group of the stakeholders described in subsection (1)(b) of this section. The purpose of the work group is to develop and implement a sustainable model with capacity to meet the educational needs of children and youth in or at risk of out-of-home placement and children and youth who are at risk of educational failure due to challenging behavior, mental or behavioral health needs, or disabilities, regardless of the child's or youth's eligibility for special education services.

(b) The office shall review the applications received pursuant to subsection (2)(a) of this section and shall place on the list of approved facility schools those applicants that meet the criteria specified by rule of the facility schools board. The office shall notify each applicant regarding placement on the list of approved facility schools. If the office denies an applicant placement on the list, the office shall explain the basis for the denial. An applicant that is denied may reapply for placement on the list following correction of the cause for denial.

(3) An approved facility school shall comply with the following requirements in order to remain on the list of approved facility schools:

(a) Adopt and implement the curriculum and graduation requirements specified by the facility schools board pursuant to section 22-2-406 (1)(a) and (3);

(b) Demonstrate compliance with the accountability measures adopted by the facility schools board pursuant to section 22-2-406 (1)(b);

(b.5) Demonstrate compliance with the accountability and accreditation measures within the time frames adopted by the facility schools board pursuant to section 22-2-406 (4);

(c) Comply with the reporting and records tracking requirements specified by the office pursuant to section 22-2-405 (1)(d) and (2); and

(d) Comply with any other requirements specified by rule of the facility schools board.

(4) The office shall periodically, as provided by rule of the facility schools board, review each approved facility school to determine whether the approved facility school is in compliance with the requirements specified in subsection (3) of this section. If the office determines that an approved facility school is out of compliance, the office shall give the approved facility school notice of the lack of compliance. If the approved facility school does not come into compliance within thirty days after receiving the notice, the office shall remove the facility school from the list of approved facility schools. A facility school that is removed from the list of approved facility schools may reapply for placement on the list as provided in subsection (2) of this section.

22-2-407.5. Facility schools - sustainable model of education for facility students - work group - created - membership - duties - reporting requirements - funding. (1) (a) On or before July 1, 2021, the department shall convene a work group of the stakeholders described in subsection (1)(b) of this section. The purpose of the work group is to develop and implement a sustainable model with capacity to meet the educational needs of children and youth in or at risk of out-of-home placement and children and youth who are at risk of educational failure due to challenging behavior, mental or behavioral health needs, or disabilities, regardless of the child's or youth's eligibility for special education services.
(b) The work group shall obtain input from parents and students who reflect the diversity of the state with regard to race, ethnicity, immigration status, income, and disability. The work group must include the following representatives:

(I) School districts;
(II) Boards of cooperative services;
(III) Special education directors;
(IV) Facility schools and facility school board members;
(V) The department of health care policy and financing;
(VI) The department of education;
(VII) The department of human services, including the division of youth services;
(VIII) County departments of human or social services;
(IX) Parents, guardians, and legal custodians of students with exceptionally severe or specialized needs; and
(X) Therapeutic facilities for students with exceptionally severe or specialized needs that are not approved facility schools.

(2) The work group shall:

(a) Define the target population of facility students;
(b) Analyze data to determine the educational needs of students in the target population;
(c) Analyze cost data for providing educational services to students in the target population;
(d) Evaluate existing capacity within the state, including, but not limited to, the location and number of desks in each facility school and other programs that currently serve students in the target population in Colorado;
(e) Evaluate other effective evidence-based options that currently exist in Colorado or in other states and that may be incorporated into the model to ensure the necessary capacity to serve students in the target population in the state;
(f) Identify barriers and develop solutions to address the development of additional capacity in educational programs in meeting the needs of students in the target population;
(g) Identify and analyze:
   (I) The state's current capacity to provide appropriate instruction, support, and services to students in the target population;
   (II) The current funding methodology for facility schools;
   (III) The federal, state, local, and other sources of funding available to support the current educational options for serving students in the target population, including the restrictions on use of each type of funding;
   (IV) The capacity and funding necessary to adequately serve and support students in the target population who will receive educational services through the model developed pursuant to this section; and
   (V) The funding methodology and necessary resources to ensure long-term viability;
(h) Identify the outcomes that are to be evaluated pursuant to subsection (3) of this section; and
(i) Develop short-term strategies to address the lost capacity in facility schools.

(3) The educational options for the model must clearly define the roles of the department of education, the department of human services, the department of health care policy and financing, and the department of public health and environment in the model's continuum, which
includes, but is not limited to, residential treatment, day treatment, and hospitals. The model must include a means by which to evaluate appropriate outcomes of the target population served in the continuum.

(4) (a) After analyzing the data required pursuant to subsection (2) of this section, and no later than October 1, 2022, the work group shall develop the model through which educational services will be made available to the target population. On or before October 1, 2022, the work group shall develop the implementation plan, including the deadlines for identified deliverables within the plan to ensure that implementation of the model can begin on or before July 1, 2023, and be fully implemented on or before July 1, 2027. Additionally, the work group shall develop a report identifying any necessary statutory changes for full implementation of the model, as well as any fiscal impact of the model's implementation.

(b) The work group shall submit the information required by this subsection (4) to the department on or before October 1, 2022. On or before November 1, 2022, the department shall submit a written report summarizing the work group's work, as required pursuant to this subsection (4), to the joint budget committee.

(c) The department may contract with an independent facilitator to support the work group and write the report required pursuant to this subsection (4), and an independent entity to perform the financial analysis required pursuant to subsection (2)(g) of this section.

(d) On or before December 31, 2022, the commissioner of education, as defined in section 22-2-102, shall present the report compiled pursuant to subsection (4)(b) of this section to the joint budget committee, including details of the model, the implementation plan and timeline, any fiscal impact of implementing the model, any necessary statutory changes, and any recommendations to increase Colorado's system to serve and its capacity to support students in the target population, including short-term strategies developed to address lost facility school capacity.

(e) (I) On or before October 1, 2023, and on or before each October 1 during the implementation phase of the model, the department shall submit a written report concerning the progress of the model's implementation, including, but not limited to, the status of each deliverable identified in the implementation plan, any modifications to the implementation plan, and any statutory changes and funding necessary in the upcoming fiscal year in order to successfully implement each phase of the model. The department shall draft the report with ongoing input from the work group. The department shall submit the reports to the education committees of the house of representatives and the senate, or their successor committees, the joint budget committee, and the state board. The office shall post the reports on the office's website.

(II) As part of the October 1, 2023, report required pursuant to subsection (4)(e)(I) of this section, the office shall include recommendations to change the method used for calculating tuition costs for approved facility schools as described in section 22-2-405 (5) of this section and identify next steps. The department shall state whether statutory or rule updates are required to implement changes to the methods for calculating tuition costs.

(III) (A) As part of the October 1, 2024, report required pursuant to subsection (4)(e)(I) of this section, the department shall include an update describing the tuition changes described in subsection (4)(e)(II) of this section that are adopted as of July 1, 2024, pursuant to section 22-2-405 (5).
(B) As part of the October 1, 2024, report required pursuant to subsection (4)(e)(I) of this section, the department shall include the report summarizing the implementation of the interagency resource guide described in section 22-2-410 (2).

(IV) As part of the October 1, 2025, report required pursuant to subsection (4)(e)(I) of this section, the department shall include the report summarizing the evaluation measures and recommendations described in section 22-2-405 (4).

(V) As part of the October 1, 2025, and October 1, 2026, reports required pursuant to subsection (4)(e)(I) of this section, the department shall include the report summarizing information submitted to the department, as described in section 22-2-411 (7), by eligible applicants who received grant money from the shared operational services grant program created in section 22-2-411 (2).

(5) The work group shall consult with the department of health care policy and financing pursuant to section 25.5-1-104 (6) on a plan to provide guidance to approved facility schools on the eligibility standards required to request and receive medicaid reimbursement funding for therapeutic services to the maximum extent possible to reduce reliance on school district revenue for therapeutic services.

L. 2023: IP(1)(b), (1)(b)(VII), and (4)(e) amended and (1)(b)(IX), (1)(b)(X), and (5) added, (SB 23-219), ch. 88, p. 323, § 8, effective April 20.

Cross references: For the legislative declaration in SB 21-274, see section 1 of chapter 341, Session Laws of Colorado 2021.

22-2-408. Approved facility schools - funding. (1) For the 2008-09 budget year and for each budget year thereafter, each approved facility school shall submit its pupil enrollment to the department and receive funding from the department in accordance with the provisions of section 22-54-129.

(2) (a) For the 2009-10 budget year, through the 2021-22 budget year, the department shall annually withhold two percent of the amount payable to each approved facility school. For the 2022-23 budget year, the department shall withhold four percent of the amount payable to each approved facility school. The amount withheld shall be allocated to the office to offset the costs incurred by the office and the facility schools board in implementing this part 4.

(b) For the 2023-24 budget year, and for each budget year thereafter, funding for the administration of the office is provided through a separate appropriation.

(3) In state fiscal year 2021-22 only, and within available appropriations, the department shall distribute supplemental payments to facility schools approved by the department as of October 1, 2021. The supplemental payments must be above and beyond the current daily per pupil revenue rate as established for the 2021-22 state fiscal year. The department shall determine the method through which the supplemental payments are distributed to all approved facility schools and shall ensure that the supplemental payments made pursuant to this subsection (3) are paid to the approved facility school prior to June 30, 2022.

(4) In state fiscal year 2022-23 only, and within available appropriations, the department shall distribute supplemental payments to approved facility schools that are approved by the department as of October 1, 2022. The supplemental payments must be above and beyond the
current daily per pupil revenue rate as established for the 2022-23 state fiscal year. The department shall determine the method through which the supplemental payments are distributed to all approved facility schools and shall ensure that the supplemental payments made pursuant to this subsection (4) are paid to the approved facility schools prior to June 30, 2023.

**Cross references:** For the legislative declaration contained in the 2008 act enacting this section, see section 1 of chapter 286, Session Laws of Colorado 2008. For the legislative declaration in SB 21-274, see section 1 of chapter 341, Session Laws of Colorado 2021.

22-2-409. Notification of risk. (1) Beginning August 15, 2010, a state-licensed day treatment facility, facility school, or hospital licensed or certified pursuant to section 25-3-101 shall notify the appropriate child welfare education liaison, designated pursuant to section 22-32-138 (2)(a), of a student who:
   (a) Is transferring to a public school from a state-licensed day treatment facility licensed by the department of human services pursuant to section 26-6-905, facility school as defined in section 22-2-402 (1), or hospital licensed or certified pursuant to section 25-3-101; and
   (b) Has been determined by the state-licensed day treatment facility, the facility school, the hospital licensed or certified pursuant to section 25-3-101, C.R.S., or the court to be a risk to himself or herself or the community within the twelve months prior to the proposed transfer.

(2) This section applies only to a hospital licensed or certified pursuant to section 25-3-301 that is providing inpatient acute care or psychiatric services for a student for more than ten days and if there is actual knowledge that the student will attend an identified public school within sixty days after discharge from the hospital. For purposes of this subsection (2), information shared with the state department of human services, county department of human or social services, or child education welfare liaison must be shared only for a student who has been deemed to be a risk to himself or herself or the community within the twelve months prior to discharge.

(3) The notification required in subsection (1) of this section must be made at least ten calendar days prior to the student's transition from the state-licensed day treatment facility, facility school, or hospital licensed or certified pursuant to section 25-3-101 and subsequent enrollment in a public school and must include an invitation to the child welfare education liaison, or his or her designee, to participate in the development of a transition plan for the student. The information provided to the child welfare education liaison must include, but need not be limited to, the transitioning student's educational records from the transferring educational facility and an outline of the student's transitional needs to be successful in the public school setting, which information would assist the school district in meeting the student's needs and ensuring a successful transition. If the transitioning student is in the custody of the state department of human services or a county department of human or social services, the state-licensed day treatment facility, facility school, or hospital licensed or certified pursuant to section 25-3-101 shall also provide the notification to the state department of human services.
(4) If a change of placement is required for the safety of the student or if a court, the state department of human services, or a county department of human or social services makes a placement change with fewer than ten calendar days notice, the responsible state or county department of human services or social services shall provide information to the child welfare education liaison, designated pursuant to section 22-32-138 (2)(a), of the receiving school district, charter school, or institute charter school within five calendar days following the student's placement. The information provided to the child welfare education liaison must include, but need not be limited to, the transitioning student's educational records from the transferring educational facility and an outline of the student's transitional needs to be successful in the public school setting, which information would assist the district in meeting the student's needs and ensuring a successful transition.

(5) The responsible county department of human or social services and the receiving school district, charter school, or institute charter school shall cooperate to ensure that an appropriate placement including educational services is made pursuant to this section and sections 19-1-115.5, 22-20-108, and 22-32-138, as applicable.

(6) Within the confidentiality and privacy limits of state and federal law, the responsible county department of human or social services or the school district, charter school, institute charter school, or facility school shall provide information about the student to assist the receiving entity in determining an appropriate educational placement for the student.

(7) On or before July 1, 2011, the department of human services and the department of education shall enter into a memorandum of understanding, pursuant to section 22-2-139, concerning the enrollment of students in the public school system who meet the requirements of subsection (1) of this section.

Cross references: For the legislative declaration in the 2010 act adding this section, see section 1 of chapter 271, Session Laws of Colorado 2010. For the legislative declaration in SB 18-092, see section 1 of chapter 38, Session Laws of Colorado 2018.
On or before November 1, 2023, the department shall submit a report to the education committees of the house of representatives and the senate, or their successor committees, and the joint budget committee, summarizing the following:

(a) A plan for the implementation of the interagency resource guide described in subsection (1) of this section; and

(b) Any recommended changes to statutes, rules, or administrative procedures as determined by each department participating in the development of the interagency resource guide pursuant to subsection (1) of this section to improve administrative efficiency and eliminate duplication or other unnecessary administrative obstacles to the licensing, authorization, approval, and funding of approved facility schools.

(3) On or before October 1, 2024, the department shall submit a report summarizing the implementation of the interagency resource guide described in subsection (1) of this section to the education committees of the house of representatives and the senate, or their successor committees, and the joint budget committee. The report may be submitted as part of the report required pursuant to section 22-2-407.5 (4)(e).

(4) The office shall prominently post the interagency resource guide described in subsection (1) of this section on the office's website.

22-2-411. Shared operational services grant program - creation - report - rules - definitions - repeal.

(1) As used in this section, unless the context otherwise requires:

(a) "Agency" means an independent agency that oversees approved facility schools.

(b) "Eligible applicant" means an approved facility school that applies to the grant program on behalf of itself and one or more other approved facility schools, an organization, or an agency.

(c) "Grant program" means the shared operational services grant program created in subsection (2) of this section.

(d) "Organization" means a public or private organization that provides or coordinates operational services for grantees.

(e) "Shared operational services" means services that support approved facility schools, including but not limited to food services, janitorial services, shared office space, billing, technical assistance on medicaid services, technology, security, transportation, or purchasing. Shared operational services may include purchasing and sharing items such as office supplies and technology.

(2) (a) (I) There is created in the department the shared operational services grant program to award an eligible applicant grant money for the span of two budget years to contract with an organization that provides or coordinates shared operational services for grantees.

(II) In the first year of the grant program, an eligible applicant who is awarded a grant shall determine the shared operational services needed by approved facility schools and contract with an organization to provide or coordinate services. In the second year of the grant program, the grantee shall work with the organization to provide the shared operational services for the approved facility schools.
(b) The department shall implement a timeline for the grant program, which must include the following:
   (I) The date the department announces the grant program and begins accepting applications from eligible applicants;
   (II) The date the eligible applicants must submit applications by; and
   (III) The date the department begins distributing grant money to the eligible applicants that are awarded a grant.
(c) An eligible applicant that chooses to apply for a grant must submit an application to the department. The application must include, at a minimum, the following information:
   (I) The types of shared operational services needed by approved facility schools;
   (II) The name of the organization the eligible applicant plans on contracting with for shared operational services;
   (III) Projected budget and cost savings by implementing shared operational services between approved facility schools; and
   (IV) The sustainability of the shared operational services after the grant program concludes.
(3) The department shall review the applications submitted pursuant to subsection (2)(c) of this section and make recommendations to the state board. The state board shall take into consideration the recommendations of the department in selecting eligible applicants that receive grants and determining the amount of each grant.
(4) In selecting grantees, the state board shall give priority to eligible applicants who:
   (a) Create a detailed plan to meet the various needs of approved facility schools that require shared operational services; and
   (b) Anticipate the sustainability of shared operational services after the grant program concludes based on the information submitted pursuant to subsection (2)(c)(IV) of this section.
(5) The state board may promulgate rules as necessary for the implementation of this section.
(6) To ensure accountability, the department shall conduct an audit of an eligible applicant who receives grant money.
   (7) (a) On or before September 1, 2024, each eligible applicant that is awarded grant money shall submit an interim report to the department. On or before September 1, 2025, each eligible applicant that is awarded grant money shall submit a final report to the department. The interim and final reports must include the following information:
           (I) The types of shared operational services that were provided or coordinated by the organization;
           (II) A performance review of the organization that provided or coordinated shared operational services between approved facility schools;
           (III) An analysis of cost savings based on the implementation of the shared operational services; and
           (IV) The projected sustainability of the shared operational services after the grant program concludes.
   (b) As part of the October 1, 2024, and October 1, 2025, reports required pursuant to section 22-2-407.5 (4)(e), the department shall submit information that, at a minimum, summarizes the information received by the department pursuant to subsection (7)(a) of this section.
(8) This section is repealed, effective September 1, 2026.

**Source:** L. 2023: Entire section added, (SB 23-219), ch. 88, p. 325, § 10, effective April 20.

### 22-2-412. Technical assistance center - creation - definitions.

(1) As used in this section, unless the context otherwise requires:
(a) "Administrative unit" has the same meaning as set forth in section 22-20-103.
(b) "Board of cooperative services" or "BOCES" means a board of cooperative services created pursuant to article 5 of this title 22 that operates one or more public schools.
(c) "Center" means the technical assistance center created in subsection (2) of this section.
(d) "Remote school district" means a school district in Colorado, irrespective of pupil enrollment, that is more than fifty miles from the nearest large, urbanized area.
(e) "Rural school district" means a school district in Colorado that the department determines is rural, based on the geographic size of the school district, the distance of the school district from the nearest large, urbanized area, and a total enrollment of six thousand five hundred or fewer students.
(2) (a) There is created in the office the technical assistance center to provide technical assistance to school districts and related administrative units serving students with exceptionally severe or specialized needs who need to be served by an approved facility school but are unable to access an approved facility school due to lack of proximity to an approved facility school or other factors. The center shall prioritize technical assistance to rural school districts, remote school districts, and other school districts and related administrative units that face significant obstacles to providing supports to serve students with exceptionally severe or specialized needs.
(b) Technical assistance may include:
(I) Training;
(II) Professional development;
(III) Coaching;
(IV) Supports for resource sharing and collaboration between administrative units, approved facility schools, school districts, or BOCES; and
(V) Direct supports to administrative units to ensure the administrative unit provides a free and appropriate public education for students with exceptionally severe or specialized needs.
(3) (a) Beginning in the 2023-24 budget year, the center shall assess the needs of school districts, prioritizing rural school districts, remote school districts, and other school districts and related administrative units that face significant obstacles to providing supports to serve students with exceptionally severe or specialized needs.
(b) Beginning in the 2024-25 budget year, the center shall provide technical assistance to school districts, prioritizing rural school districts, remote school districts, and other school districts and related administrative units that face significant obstacles to providing supports to serve students with exceptionally severe or specialized needs.
(4) The qualified third-party evaluator described in section 22-2-405 (4) shall study the effectiveness of the center, which must include feedback from school districts and administrative units that use the services of the center.
Subject to available appropriations, the center may extend support services to school districts and related administrative units to improve services for students with exceptionally severe or specialized needs, including through grant programs and direct and contracted services.

PART 5

TEACHER RECRUITMENT AND RETENTION

22-2-501. Legislative declaration. (1) The general assembly hereby finds that:

(a) Teachers have a great impact in student achievement. Evidence shows that teacher quality can account for the majority of variances in student learning and test scores.

(b) The teaching and learning conditions under which teachers practice their profession, though often overlooked, are essential elements to student achievement and teacher retention. These conditions must be systematically studied and addressed for Colorado to develop a critical mass of teachers who are well prepared to teach and who will remain in hardest-to-staff schools long enough to make a significant difference for students and their families.

(c) Research also demonstrates that the negative effects of teacher shortages and distribution challenges have a disproportionate impact on the nation's most disadvantaged students, leaving poor and minority children more likely to be taught by less-qualified and under-prepared teachers.

(d) Teachers who are truly highly qualified teach well-designed, standards-based lessons and are able to teach those lessons successfully because they know how and why their students learn. These teachers work effectively with their colleagues to push and lead school improvement and work steadily to sharpen their skills and increase their knowledge because they believe it is part of their professional responsibility to do so.

(e) National board certification is a nationally accepted sign of quality in the teaching profession and offers a nationwide standard for evaluating and encouraging quality teaching. It is a means to recognize and reward the accomplished teachers the state needs to build competitive, world-class schools. National board certified teachers advance the quality of teaching and learning by maintaining high and rigorous standards for what accomplished teachers should know and be able to do.

(2) The general assembly further finds and declares that, for purposes of section 17 of article IX of the state constitution, implementation of measures designed to improve teacher quality, recruitment, and retention through this part 5 and through House Bill 08-1384, as enacted at the second regular session of the sixty-sixth general assembly, is a critical element of accountable education reform, accountable programs to meet state academic standards, and performance incentives for teachers and, therefore, may receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

Source: L. 2008: Entire part added, p. 1361, § 1, effective May 27.

22-2-502. Definitions. As used in this part 5, unless the context otherwise requires:
"Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

"Education support professional" means a Colorado school district paraprofessional who may not be licensed, as described in article 60.5 of this title 22, but provides direct instruction, supports licensed staff in an educational capacity, or supports instruction and the learning environment, including, without limitation:

(a) Teaching assistant, regular education;
(b) Teaching assistant, special education;
(c) Title 1 teaching assistant;
(d) Teaching or classroom technician;
(e) Tutor;
(f) Library or media assistant;
(g) Bilingual assistant;
(h) Educational interpreter;
(i) Brailist;
(j) Occupational therapist assistant;
(k) Physical therapist assistant;
(l) Health screener;
(m) Counselor assistant;
(n) Health-care technician;
(o) Student monitor;
(p) Child find coordinator;
(q) Child care provider or group leader; and
(r) Community liaison.

"Low-performing, high-needs school" means a school that is required to submit a priority improvement or turnaround plan pursuant to section 22-11-210.

Cross references: For the legislative declaration in the 2012 act amending this section, see section 1 of chapter 257, Session Laws of Colorado 2012.

22-2-503. Teaching and learning conditions survey. (1) Subject to available appropriations, the department shall administer a biennial teaching and learning conditions survey, referred to in this section as the "survey", to all preschool teachers, elementary teachers, secondary teachers, and education support professionals in public schools of the state. The survey must be designed to assess, at a minimum:

(a) Teaching and learning conditions as predictors of student achievement;
(b) The correlation, if any, between teaching and learning conditions and teacher retention;
(c) The relationship, if any, between teaching and learning conditions and school administration; and
The relationship, if any, between teaching and learning conditions and measures of school climate, as experienced by students and teachers.

The survey results may be used by schools, school districts, the department, state policymakers, and researchers as a resource for:
(a) School and program design;  
(b) Professional development programs;  
(c) School improvement plans;  
(d) School district continuous improvement programs;  
(e) State education reform initiatives concerning achievement gaps, teacher gaps, dropout rates, and graduation rates;  
(f) Other analyses to inform school improvement efforts; and  
(g) Improving ways to measure and improve school climate and teaching and learning environments.

22-2-504. National certification compensation - definition - study. (1) Beginning with the 2009-10 school year for teachers, school counselors, and principals who hold a certification from the national board for professional teaching standards, and school counselors who hold a certification from the national board for certified counselors, and beginning with the 2019-20 school year for nationally certified school psychologists who hold a certification from the national association of school psychologists, collectively referred to in this section as "school professionals", the department, subject to available appropriations, shall award an annual stipend of one thousand six hundred dollars to any school professional who is employed in a school district, a program operated by a board of cooperative services, a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22, or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22. For any stipends that are awarded, the department shall allocate the stipend money to the school district that employs the school professional who is to receive the stipend, and the school district shall then make payment directly to the eligible school professional. A school district may, at its discretion, withhold any required employer retirement and medicare contributions associated with the stipend pursuant to this section from the one thousand six hundred dollar stipend amount. For any stipends that are awarded, the stipend shall be:
(a) Payable on May 1, 2009, and each May 1 thereafter, for nationally certified teachers, school counselors, and principals;  
(b) Payable on May 1, 2020, and each May 1 thereafter, for nationally certified school psychologists;  
(c) Prorated for less than full-time employment;  
(d) Considered regular salary pursuant to section 24-51-101 (42)(a); and  
(e) In addition to, and not in lieu of, any existing compensation being awarded at the local level to a school professional.
(2) Beginning with the 2009-10 school year for nationally certified teachers, school counselors, and principals, and beginning with the 2019-20 school year for nationally certified school psychologists, subject to available appropriations, an additional annual stipend of three thousand two hundred dollars shall be awarded to any school professional who meets the criteria set forth in subsection (1) of this section and who is employed as of May 1 in a given school year in a low-performing, high-needs school. Subject to available appropriations, a school professional shall continue to receive the additional stipend award pursuant to this subsection (2) if the school professional remains employed in a school that was previously a low-performing, high-needs school but improved sufficiently to implement an improvement or performance plan pursuant to section 22-11-210. The additional stipend for a school professional is subject to the same restrictions and requirements as set forth in subsection (1) of this section.

(3) (a) On or before August 30, 2011, the department shall contract with an outside source to conduct two studies concerning the effectiveness of any annual stipends awarded to teachers pursuant to this section.

(b) The first study shall evaluate the effect of national board certification on student achievement, using longitudinal growth as a measurement. The results of the study shall describe, at a minimum, any differential effectiveness correlated to school characteristics, including but not limited to:

(I) Title I of the federal "Elementary and Secondary Education Act of 1965", 20 U.S.C. sec. 6301 et seq., eligibility;

(II) School size; and

(III) The proportion of students who attend the school for whom English is a second language.

(c) The second study shall evaluate the effectiveness of any stipends awarded on encouraging teachers to obtain national board certification and encouraging teachers to teach in low-performing schools, the effect of the national board certification on teacher retention, and the effect of having national board certified teachers on the culture of the school.

(d) On or before January 30, 2012, the department shall submit a report containing the findings of the study to the education committees of the house of representatives and the senate, or any successor committees, the governor, and the commissioner of education.

(4) If insufficient funding is available to award a stipend pursuant to subsection (1) of this section to all school professionals, stipends shall be awarded only to those school professionals who meet the criteria of subsection (1) of this section and who are employed in a low-performing, high-needs school.

Editor's note: Amendments to subsection (2) by Senate Bill 09-163 and Senate Bill 09-214 were harmonized.
Cross references: For the legislative declaration in the 2012 act amending subsections (1) and (2) and adding subsection (4), see section 1 of chapter 257, Session Laws of Colorado 2012.

22-2-505. Minority teacher recruitment - short title - legislative declaration - study - report. (1) The general assembly finds and declares that:
(a) Diversity of teachers in K-12 classrooms is important not only because it helps provide positive role models for students but also because it offers a broader cultural understanding of learning strategies and needs;
(b) The most recent data for Colorado shows that while approximately forty-four percent of students in Colorado are minorities, only twelve percent of teachers are minorities; and
(c) Statewide, the number of minority teachers has not kept up with population growth and changes in student diversity.
(2) The general assembly therefore declares that it is a matter of statewide concern to study and develop strategies to increase and improve the recruitment, preparation, and retention of high-quality minority teachers in Colorado's public school system.
(3) The department shall study and develop strategies to increase and improve the recruitment, preparation, development, and retention of high-quality minority teachers in elementary and secondary schools in Colorado. On or before December 1, 2014, the department shall prepare a report on its findings, including current statewide and district demographics and recommendations, and submit it to the office of the governor, the state board of education, and the education committees of the house of representatives and senate, or any successor committees. The department shall present the report on its findings to the education committees of the house of representatives and senate, or any successor committees, on or before January 30, 2015.
(4) This section shall be known as "Aliyah's Law".

ARTICLE 3
Eye Protective Devices

22-3-101. Duties regarding eye protective devices. (1) It is the duty of the governing board of every school district, university, college, or other institution of higher education, and of every person, firm, or organization maintaining any private school, university, college, or other institution of higher education, in this state to provide eye protective devices for the use of all students, teachers, and visitors when participating in the courses and activities enumerated in section 22-3-102.
(2) It is the duty of the persons charged with the supervision of any such course or activity to require such eye protective devices to be worn by students, teachers, and visitors under the circumstances prescribed in section 22-3-102.

22-3-102. Courses in which devices to be used - substances and activities dangerous to eyes. (1) Eye protective devices shall be worn in courses including, but not limited to, vocational or industrial art shops or laboratories and chemistry, physics, or combined chemistry-physics laboratories, at any time at which the individual is engaged in, or observing, an activity or the use of hazardous substances likely to cause injury to the eyes.

(2) Hazardous substances likely to cause physical injury to the eyes include materials which are flammable, toxic, corrosive to living tissues, irritating, strongly sensitizing, or radioactive or which generate pressure through heat, decomposition, or other means.

(3) Activity or the use of hazardous substances includes, but is not limited to, the following:
   (a) Working with hot molten metal;
   (b) Milling, sawing, turning, shaping, cutting, grinding, and stamping of any solid materials;
   (c) Heat treating, tempering, or kiln firing of any metal or other materials;
   (d) Gas or electric arc welding;
   (e) Working with hot liquids, solids, or chemicals which are flammable, toxic, corrosive to living tissues, irritating, sensitizing, or radioactive or which generate pressure through heat, decomposition, or other means.

22-3-103. Standards for devices. For the purposes of this article, the eye protective devices utilized shall be industrial quality eye protective devices which meet the standards of the U.S.A. standard practice for occupational and educational eye and face protection, Z87.1-1968, and subsequent revisions thereof, approved by the United States of America Standards Institute, Inc.

22-3-104. Implementation. The commissioner of education shall prepare and circulate to each public and private educational institution in this state instructions and recommendations for implementing the eye safety provisions of this article.

explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

**ARTICLE 5**

Boards of Cooperative Services Act of 1965

**22-5-101. Short title.** This article shall be known and may be cited as the "Boards of Cooperative Services Act of 1965".

**22-5-102. Legislative declaration.** The general assembly declares that this article is enacted for the general improvement and expansion of educational services of the public schools in the state of Colorado; for the creation of boards of cooperative services where feasible for purposes of enabling two or more school districts to cooperate in furnishing services authorized by law if cooperation appears desirable; and for the setting forth of the powers and duties of said boards of cooperative services.

**22-5-103. Definitions.** As used in this article, unless the context otherwise requires:

1. "Board" means the board of education of a school district or the governing board or governing agency of a postsecondary institution.

2. "Board of cooperative services" or "BOCES" means a regional educational service unit designed to provide supporting, instructional, administrative, facility, community, or any other services contracted by participating members.

3. "District charter school" means a charter school authorized by a school district board of education pursuant to part 1 of article 30.5 of this title.

4. "Postsecondary institution" means a community or technical college, a local district college, or a state-supported institution of higher education.

5. "School district" means any public school district existing pursuant to law.

6. "State board" means the state board of education.

Editor's note: Subsection (2.5) was amended in House Bill 97-1219. Those amendments were superseded by the repeal of subsection (2.5) in House Bill 97-1253.

22-5-104. Creation of board of cooperative services - meetings. (1) Whenever the boards of education of two or more school districts or the board of education of a school district and the governing board or governing agency of a postsecondary institution desire to establish a board of cooperative services for the purpose of providing cooperative services as set forth in this article and have so certified to the commissioner of education and other interested boards by appropriate resolution, the presidents of any two of the interested boards may call a meeting of the duly appointed representatives of the interested boards. The interested boards shall seek from the commissioner of education and the state board for community colleges and occupational education any aid and assistance that may be reasonably required, to the end that a proper plan of organization for the board of cooperative services shall be accomplished. At this meeting the boards which have previously and respectively adopted resolutions so authorizing may enter into a proposed agreement to form a board of cooperative services, which proposed agreement shall set forth the names of the participating districts and postsecondary institutions and such other items as may be required. The participating school districts and postsecondary institutions may then proceed to form the board of cooperative services.

(2) (a) At a subsequent meeting, the boards which have approved participation in a board of cooperative services shall agree upon the number of members which are to compose the cooperative board; except that there shall be no less than five members, and each participating board shall be entitled to at least one member on the board of cooperative services.

(b) Each participating board of education of a school district shall then appoint its assigned number of representatives, and one alternate for each, from its membership; except that, if the board of cooperative services consists of a single school district and a single postsecondary institution, the board of education may appoint its representatives, and one alternate for each, from its membership or it may appoint the superintendent of the school district as one of its assigned number of representatives. The term of office of any member representing a board of education of a school district who is also a member of the board of education shall have the same expiration date as the term which the member is serving on the board of education at the time of appointment to the board of cooperative services. The term of office of any school district superintendent who is appointed to represent the board of education of a school district shall not exceed three years; except that, if the superintendent ceases to be an employee of the school district while serving on the board of cooperative services, a vacancy shall exist on the board of cooperative services.

(c) Each participating governing board or governing agency of a postsecondary institution shall then appoint its assigned number of representatives, and one alternate for each, from its membership or the governing board or governing agency may appoint the chief executive officer of such postsecondary institution as one of its assigned number of representatives. The term of office of each member representing a governing board or governing agency of a postsecondary institution shall not exceed three years; except that, if any member of a board of cooperative services who represents a governing board or governing agency of a postsecondary institution ceases to be a member of such governing board or governing agency or the chief executive officer of such postsecondary institution, a vacancy shall exist on the board of cooperative services.
(d) As a term of office expires a replacement to the board of cooperative services shall be appointed by the participating board within thirty days after the expiration date. When other vacancies occur, they shall be filled by appointment by the respective boards within thirty days from the date on which the vacancy occurs.

(e) (I) Upon agreement of all of the boards participating in a board of cooperative services, one member of the board of cooperative services may be jointly appointed by the participating boards from the public at large; however, such member shall reside in the area served by the board of cooperative services. The term of office of such member shall not exceed three years. As the term of office of such member expires, a replacement to the board of cooperative services shall be jointly appointed by the participating boards within thirty days after the expiration date.

(II) In addition to the member appointed pursuant to subparagraph (I) of this paragraph (e), the participating boards of a board of cooperative services consisting of a single school district and a single postsecondary institution may jointly appoint up to four members of the board of cooperative services from the public at large. A member so appointed shall reside in the area served by the board of cooperative services. The term of office of a member so appointed shall not exceed three years. As the term of office of a member appointed pursuant to this subparagraph (II) expires, a replacement to the board of cooperative services may be jointly appointed by the participating boards within thirty days after the expiration date.

(3) The agreement to establish a board of cooperative services may be amended to admit one or more additional school districts or postsecondary institutions if the board of the school district or postsecondary institution seeking admission shall certify by resolution a desire to be admitted to membership in the board of cooperative services and if the board of cooperative services by resolution agrees to the admission of the school district or postsecondary institution.

(4) A board of cooperative services shall meet at least quarterly. A quorum shall consist of a simple majority of those members serving on a board of cooperative services. In the absence of a regular member, the alternate, if present, may be counted toward the required quorum and assume the prerogatives of the regular member.

(5) A board of cooperative services may adopt a policy authorizing board members to attend and participate in regular or special meetings electronically, including participating by using video or audio conferencing technology that will allow members of the board to view or hear each other during the meeting and fully participate in the discussion and in voting; except that the board members shall gather in one physical location for at least one of the quarterly meetings held each year. The policy must address the method by which members of the public are allowed access to any video or audio conference of the board of cooperative services that is conducted pursuant to this subsection (5). In addition, the policy must specify any agenda items that the board of cooperative services may not consider during any video or audio conference conducted pursuant to this subsection (5). A quorum exists at any video or audio conference held pursuant to this subsection (5) if the number of members participating in the video or audio conference equals the number necessary for a quorum pursuant to subsection (4) of this section.

22-5-105. Organization of board of cooperative services - meetings. (1) (a) At its first
meeting, the members of the board of cooperative services elected as set forth in section
22-5-104 shall elect from their membership a president, a vice-president, a secretary, and a
treasurer, whose terms of office are for two years, unless their terms of office as board members
expire earlier, in which case the officership shall similarly expire. The duties of the president,
vice-president, secretary, and treasurer of the board of cooperative services are the same as set
forth for similar offices of boards of education in sections 22-32-105 to 22-32-107. Similarly,
meetings of the board of cooperative services are called, held, and conducted as set forth in
section 22-32-108; except that, pursuant to section 22-5-104 (5), a board of cooperative services
may conduct meetings electronically, including by using video or audio conferencing
technology.

(b) A board of cooperative services that includes in its membership at least one school
district that the department of education determines is rural, based on the geographic size of the
school district and the distance of the school district from the nearest large, urbanized area, and
that enrolls six thousand five hundred or fewer students in kindergarten through twelfth grade,
may provide notice of special meetings by electronic mail as provided in section 22-32-108
(2)(b).

(2) At each meeting at which a board of cooperative services elects officers, each board
member shall sign an affidavit stating that the board member is aware of and will comply with
the confidentiality requirements and restrictions applicable to executive sessions of the board, as
described in section 24-6-402, C.R.S., regardless of whether the board member participates in
the executive session in person or electronically in accordance with a policy adopted pursuant to
section 22-5-104 (5). The board of cooperative services shall keep and preserve the affidavits
with the minutes of board meetings and other board documents.

2013: Entire section amended, (SB 13-015), ch. 52, p. 177, § 3, effective August 7. L. 2015: (1)

22-5-105.5. Regional education and support services plan - submittal -
recommendations. (Repealed)

Source: L. 92: Entire section added, p. 468, § 1, effective May 29; (4) and (5) amended,
p. 2183, § 61, effective June 2.

Editor's note: Subsection (6) provided for the repeal of this section, effective July 1,
1994. (See L. 92, p. 468.)

22-5-106. Financing, budgeting, and accounting. (1) (a) Financing of the services
performed under the direction of the board of cooperative services shall be by contributions from
available moneys in any funds, which may be legally expended for such services, of the
participating members on the basis of a proportionality agreed upon by the participating members and from the boards of cooperative services.

(b) A board of cooperative services may finance all or a portion of the costs of an approved career and technical education program from funds received pursuant to part 1 of article 8 of title 23.

(2) A board of cooperative services shall adopt a budget and an appropriation resolution prior to the beginning of the fiscal year for which adopted.

(3) A board of cooperative services shall follow the provisions of the "School District Budget Law of 1964", being part 1 of article 44 of this title, wherever such provisions are applicable; except that the provisions of sections 22-44-112 (3)(c), (4), and (6) and 22-44-115 (4) shall not apply to a board of cooperative services.

Cross references: For the legislative declaration in HB 21-1264, see section 2 of chapter 308, Session Laws of Colorado 2021.

22-5-106.5. Short-term loans. A board of cooperative services may, upon approval of its members, negotiate or contract with any person, corporation, association, or company for a loan not to exceed the difference between the anticipated revenues for the current fiscal year for the budget of the board of cooperative services and the amount credited to date to said budget in order to pay current obligations. Such loan shall be liquidated within six months thereafter from moneys subsequently credited to said budget. The total principal, interest, and fees to be paid on such loan shall not exceed the total amount of the authorized budget for the same length of time.

22-5-107. Duties of board of cooperative services. In addition to any other duty required to be performed by law, the board of cooperative services shall have the same duties as those for boards of education as set forth in section 22-32-109 (1)(a) to (1)(m), (1)(q), (1)(r), and (1)(pp) and section 22-9-106.

22-5-108. Powers of board of cooperative services. (1) In addition to any other powers granted by law, the board of cooperative services shall have the following specific powers, to be exercised in its judgment:
(a) Those powers set forth for boards of education in section 22-32-110 (1)(b) to (1)(k), (1)(n) to (1)(q), (1)(s) to (1)(w), (1)(y), (1)(aa) to (1)(ee), and (1)(jj), and in sections 22-32-113, 22-32-114, 22-32-116 to 22-32-118, 22-32-120 to 22-32-122, and 22-32-124;
(b) To take and hold in the name of the board of cooperative services so much real and personal property as may be reasonably necessary for any purpose authorized by law;
(c) To operate schools and classes as authorized by the members;
(d) To determine which programs and facilities of the board of cooperative services shall be operated and maintained;
(e) To award diplomas or certificates of accomplishment as authorized by the members;
(f) To exclude from any library operated by the board of cooperative services any books, magazines, papers, or other publications which, in the judgment of the board, are of immoral or pernicious nature;
(g) To select a depository for moneys belonging to the board of cooperative services, and to invest any funds on hand which are not then needed in the conduct of its affairs in any securities which are legal investments for the state and its political subdivisions, pursuant to part 6 of article 75 of title 24, C.R.S.;
(h) To enter into contracts and to receive federal matching funds for moneys spent in providing student health services pursuant to section 25.5-5-301 (6) or 25.5-5-318, C.R.S.;
(i) To contract with a district charter school or an institute charter school pursuant to section 22-30.5-104 (7)(b) or 22-30.5-507 (8)(b), respectively, for the use of a school building and grounds, the operation and maintenance of the building and grounds, and the provision of any service, activity, or undertaking that the district charter school or institute charter school is required to perform to carry out the educational program described in its charter contract.

Editor's note: Amendments to subsection (1)(i) by Senate Bill 10-111 and Senate Bill 10-161 were harmonized.

22-5-109. Matching power. The board of cooperative services shall be authorized to use the contributions from the participating members to match state and federal funds, or funds from any other agencies when applicable, when the acceptance of financial assistance from such other agencies requires matching of funds as a condition of participating in services authorized by law.

22-5-110. State and federal payments. Any state or federal financial assistance which would accrue to an individual school district if it were performing a service performed under the direction of a board of cooperative services shall be apportioned by the appropriate state or federal agency to the participating school districts on the basis of the proportionality of the
22-5-111. Buildings and facilities. (1) A school district which is participating in a cooperative service agreement, when authorized by a vote of the eligible electors as provided in article 42 of this title, may contract for bonded indebtedness for the purpose of purchasing sites, constructing buildings or other structures, and equipping buildings which are necessary for the operation of a cooperative educational service program. The district which contracts for bonded indebtedness may charge the other members participating in the cooperative service agreement for the use of the building and equipment. The rental proceeds may be applied to the retirement of said bonded indebtedness. This article shall not be construed to create liability for retirement of such bonded indebtedness upon the other members participating in the cooperative service agreement.

(2) The boards of education of the school districts participating in a cooperative service agreement may jointly, separately, or, after approval of each participating board of education, as a board of cooperative services construct, purchase, or lease sites, buildings, and equipment for the purpose of providing the facilities necessary for the operation of a cooperative service program at any appropriate location, whether within or without a school district providing the money for the facilities. School district moneys in any fund from which moneys may be legally expended for such facilities may be used for carrying out the provisions of this section. The provisions of sections 22-32-127 and 22-45-103 (1) shall apply to any installment purchase agreement or any lease or rental agreement, including but not limited to any sublease-purchase agreement entered into by a school district that is a member of a board of cooperative services pursuant to section 22-43.7-110 (2)(c), entered into by a board of cooperative services or by the boards of education of the school districts participating in a cooperative service agreement. No board of education of a school district participating in a cooperative service agreement shall make any levy for its bond redemption fund, or use any moneys in its bond redemption fund, except in accordance with the provisions of section 22-45-103 (1)(b).

(3) The board of cooperative services, when authorized by a vote of the registered electors of all of the school districts participating in the agreement, may borrow any moneys available from the permanent school fund for purposes of purchasing sites and erecting buildings for use of the board of cooperative services. Repayment of such loans and interest thereon shall be by payments from the participating school districts on a proportion agreed upon by the boards of education of said participating school districts.

(4) Repealed.
Editor's note: Subsection (4)(c) provided for the repeal of subsection (4), effective July 1, 2023. (See L. 2022, p. 1745.)

Cross references: For the legislative declaration in HB 22-1390, see section 1 of chapter 237, Session Laws of Colorado 2022.

22-5-112. Veto power and dissolution. (1) A participating board may refrain from participating in a specific activity proposed by the board of cooperative services by giving due notice through a board resolution as may be provided in the bylaws of the board of cooperative services.

(2) A participating board may withdraw from a board of cooperative services after having given due notice as provided in the bylaws of the board of cooperative services and after having satisfactorily completed all specific contracts to which it has become a party, or upon otherwise being released from its commitments by the board of cooperative services.

(3) A board of cooperative services may be dissolved by its resolution upon the completion of all contracts or upon other adequate discharge of its obligations.

22-5-113. Approval for postsecondary occupational programs. No board of cooperative services shall establish a new postsecondary program of occupational education without first obtaining approval from the state board for community colleges and occupational education.

Cross references: For the establishment of the state board for community colleges and occupational education, see § 23-60-104.

22-5-114. Eligibility for funds. (1) (a) Any board of cooperative services organized under the provisions of this article shall be eligible to receive such state moneys as may be available upon receiving approval by the state board.

(b) Approval to receive state moneys under this subsection (1) does not constitute approval to receive state moneys pursuant to section 22-5-118.

(2) Unless otherwise approved by the state board, to be eligible to receive state funds under this section and under section 22-5-118, a board of cooperative services shall meet all the following criteria:

(a) It shall serve school districts with a combined total enrollment of not less than four thousand students; and

(b) It shall either serve school districts in two or more counties or serve multiple school districts located in the same county.

22-5-114.5. Designation as local education agency - rules. (1) Any board of cooperative services may act as a local education agency for a participating member or consortium of members that chooses to apply for, receive, or administer a grant through a grant program created by a federal or state statute or program. The provisions of this section shall not apply to federal formula grant moneys unless allowed by the "Elementary and Secondary Education Act of 1965", Pub.L. 89-10.

(2) A board of cooperative services may apply to the department for federal or state moneys received by the department only with the approval of two or more of the BOCES member school districts that have expressly agreed to participate in a grant application through a vote by the board of directors of the board of cooperative services. If a board of cooperative services applies for state or federal grant moneys on behalf of participating member school districts, the participating member school districts are not eligible to apply for the same state or federal grant moneys. If a participating member school district of a BOCES expressly declines to participate in a grant application, that member school district is not precluded from applying for the same state or federal grant moneys as an individual school district.

(3) A board of cooperative services may apply to any division within the department for any federal and state grant moneys for which it is eligible. All divisions within the department must treat boards of cooperative services as local education agencies and inform them of and allow them to apply for all federal and state grant moneys for which they are eligible.

(4) An eligible grantee or consortium of grantees may designate a board of cooperative services as the fiscal manager for a state or federal grant. The grantee or consortium of grantees remains responsible for ensuring that all the requirements of the grant are met.

(5) The state board may promulgate rules to establish processes and guidelines for a board of cooperative services to apply for state or federal grant moneys pursuant to this section.

22-5-115. Financing boards of cooperative services. (1) (a) No later than July 1, 1973, and July 1 of each year thereafter prior to July 1, 2007, the state board shall determine the number of eligible boards of cooperative services and, subject to available appropriations, award a ten-thousand-dollar grant to each such eligible board. For budget years commencing on or after July 1, 2007, the state board, subject to available appropriations, shall award at least ten thousand dollars to each eligible board of cooperative services.

(b) If available moneys are insufficient to award each eligible board the amount specified in paragraph (a) of this subsection (1), the state board shall reduce proportionately all awards for eligible boards for that year.

(2) The state board shall certify to the state treasurer the name and address of, and the amount payable to, each eligible board of cooperative services. Upon receipt of such certification, but no later than July 15, 1973, and July 15 of each year thereafter, the state treasurer shall make distribution of the amount so certified to the respective boards of cooperative services.

(3) The general assembly shall annually make a separate appropriation to the state board to cover the estimated cost of the basic grants to eligible boards of cooperative services as set forth in subsection (1) of this section.
(4) For budget years commencing on or after July 1, 1996, any amount received by a board of cooperative services pursuant to this section must be used to fund professional educator development in standards-based education, as implemented through part 10 of article 7 of this title, in each school district that is a member of such board and in any nonmember school district that chooses to participate in a professional educator development program with any board of cooperative services.

22-5-116. Corporate status of boards of cooperative services. Each regularly organized board of cooperative services formed at any time is hereby declared to be a body corporate and in its name may hold title to personal property for any purpose authorized by law, sue, and be a party to contracts for any purpose authorized by law.

22-5-117. Employment of teacher transferred from school district. Any teacher transferred from employment in a school district which is a member of a board of cooperative services to employment in said board of cooperative services shall retain the employment status he had attained prior to his transfer to the board of cooperative services, including credit for years of service as a probationary teacher, as provided in article 63 of this title, in the school district from which he transferred.

22-5-118. Implementation and financing of regional education and support services - plan - annual report. (1) The general assembly recognizes that the increasing number of students, the desire to reduce school districts' reliance on property taxes, the need to consolidate services rather than schools, and the limitations on state revenues require the boards of cooperative services to develop the highest possible efficiencies and most economic methods for school districts to deliver education and support services. The general assembly further recognizes that it is essential to assist school districts in providing educational services with the maximum economies of scale without violating the principle of local control. The general assembly therefore declares that using boards of cooperative services to assist in delivering education and support services furthers a valid public purpose and promotes a commitment to achieving efficiencies and economies in providing educational services.

(2) Beginning fiscal year 1996-97 and for fiscal years thereafter, in addition to any state moneys received pursuant to section 22-5-115, a board of cooperative services may receive state moneys by submitting to the department of education a plan for the provision of education and support services programs, as specified in this section. Any amount appropriated to fund any
education or support services program pursuant to this section shall be distributed by the
department of education to each board of cooperative services that submits a plan. The amount
appropriated shall be divided equally based on the total number of students enrolled in the
member school districts of the participating boards and distributed based on the number of
students participating in the funded education or support services program from each member
school district of each participating board.

(3) (a) To receive funds under this section, a board of cooperative services, in
cooperation with its participating school districts, the department of education, the Colorado
commission on higher education, the state board for community colleges and occupational
education, and postsecondary institutions, shall prepare and submit a plan to increase efficiencies
and economies in providing education and support services to the board's participating school
districts.

(b) Each plan shall include but is not limited to measures concerning:
(I) The enhancement of student achievement and instruction through cooperative
research and development, the continuous upgrading of standards and assessment techniques,
and the establishment of a regional curriculum center;
(II) Staff development and training programs;
(III) The development of improved communications through such methods as
communications technology, distance learning, and media assistance;
(IV) The use of federal and state categorical funds and the distribution and delivery of
federal block grant moneys;
(V) Data processing;
(VI) Agreements to act as a regional administrative unit for transportation, cooperative
purchasing, and other noninstructional support services, as may be appropriate;
(VI.5) Agreements pertaining to the board's operations, if any, as a school food
authority, pursuant to section 22-5-120; and
(VII) Cooperative programs for students who are at risk of suspension or expulsion.

(4) A board of cooperative services may contract with a school district that is not a
member of the board of cooperative services to provide to the school district any of the services
specified in the plan developed pursuant to this section.

(5) The general assembly may appropriate moneys to the department of education for
distribution to boards of cooperative services as provided in this section. Any moneys
appropriated shall be in addition to any moneys appropriated pursuant to section 22-5-115.

(6) (a) By July 1 of each year, each board of cooperative services that receives moneys
pursuant to this section shall submit a report to the department of education concerning the
programs and services funded by moneys received pursuant to this section.

(b) Repealed.

(7) The state board may adopt rules for the implementation of this section.

Source: L. 96: Entire section added, p. 975, § 1, effective May 23. L. 98: (6)(b)
L. 2010: (3)(b)(VI) amended and (3)(b)(VI.5) added, (HB 10-1335), ch. 326, p. 1512, § 2,
effective August 11.
22-5-119. Statewide supplemental online and blended learning program - contract - legislative declaration - definitions. (1) The short title of this section is the "Empowering Digital Learning for All Act".

(2) (a) (I) The general assembly finds that:
(A) The overwhelming influence of the rapidly evolving use of technology and the internet will render high-quality remote digital educational content almost cost-free after a period of declining costs. Access to digital content and educational courses is already an essential part of the higher education system but is not widely applied in elementary and secondary education. While some school districts have been able to keep pace with the changing context of public education, most have not.
(B) The scope of the coming change in the delivery of public education services is massive and more far-reaching than the currently available constructs of online learning or blended learning. The scope of the change is such that the advances that the technology revolution brings must be equally available to students throughout Colorado who choose a blended learning environment.
(C) The public education system must take advantage of this opportunity to significantly improve statewide educational equity by delivering educational services through the digital learning environment. It is likely that failure to embrace this change in the delivery of public education services will lead to a decline in the equity and quality of the system of public education in Colorado.
(D) Colorado lacks a clearly articulated and accepted vision and plan to implement the shift in delivering educational services to a digital environment, which must occur to adequately prepare students for postsecondary success. It is crucial that the state identify a single public entity to provide leadership in designing and implementing a statewide plan for increasing the availability of supplemental online educational courses and blended learning for school districts, charter schools, and BOCES.

(II) It is therefore in the best interests of the state to increase its investment in the expansion of affordable, high-quality supplemental online education courses and blended learning support for school districts, charter schools, and BOCES, especially those that lack the capacity to develop their own supplemental online education course offerings, by subsidizing the provision of supplemental online education courses, professional development, and technical assistance to implement supplemental online and blended learning statewide.

(III) Due to its experience in assisting school districts with supplemental online education courses and blended learning in Colorado, it is further in the best interests of the state to designate a BOCES to articulate the statewide plan for supplemental online and blended learning and to lead, manage, and administer the statewide supplemental online and blended learning program in accordance with this section.

(b) The general assembly declares that the amount necessary to implement the statewide supplemental online and blended learning program may be appropriated from federal mineral leasing revenues transferred to the state public school fund pursuant to section 34-63-102, C.R.S., and section 22-54-114 (1).

(c) The general assembly further declares that, for purposes of section 17 of article IX of the state constitution, the statewide supplemental online and blended learning program is an important element in implementing accountable education reform and enabling school districts,
charter schools, and BOCES to meet state academic standards and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(3) As used in this section, unless the context otherwise requires:
(a) "Administering BOCES" means the BOCES that the department designates as provided in subsection (4) of this section.
(b) "Blended learning" means a formal education program through which a student learns at least in part through digital content with some element of student control and at least in part at a supervised physical location that is not the student's home.
(c) "BOCES" means a board of cooperative services created pursuant to this article.
(d) "Charter school" means a district charter school authorized pursuant to part 1 of article 30.5 of this title or an institute charter school authorized pursuant to part 5 of article 30.5 of this title.
(e) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
(f) "Local public education agency" means a school district, BOCES, or charter school.
(g) "Provider" means a nonprofit entity or a local public education agency that provides:
   (I) Supplemental online education courses that are taught by employees of the provider who are teachers licensed in Colorado pursuant to article 60.5 of this title;
   (II) Professional development resources for teachers; or
   (III) Consulting services for school districts, charter schools, and BOCES with regard to providing supplemental online education courses and blended learning.
(h) "Small rural school district" means a school district in Colorado that the department determines is rural, based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area, and that enrolls fewer than one thousand students in kindergarten through twelfth grade.
(i) "Statewide supplemental online and blended learning program" or "program" means the program described in subsection (4) of this section.
(j) "Supplemental online education course" means an education course that is:
   (I) Taught by a teacher who is licensed pursuant to article 60.5 of this title;
   (II) Delivered via a technologically enhanced format to one or more students at a location that is remote from the delivery point; and
   (III) Developed by a school district, charter school, or BOCES or obtained from a provider to augment the education program provided by the school district, charter school, or BOCES.

(4) (a) The department, in consultation with the statewide association of BOCES, shall designate a BOCES to lead, manage, and administer the statewide supplemental online and blended learning program as provided in this section. In administering the program, the BOCES, subject to available appropriations, shall select and contract with providers in accordance with subsection (6) of this section to provide the resources described in paragraph (b) of subsection (5) of this section. At least every five years, the department, in consultation with the statewide association of BOCES, shall review the designation of the administering BOCES and may continue the designation or select a different BOCES.
(b) The administering BOCES shall manage and administer the program to achieve, at a minimum, the following goals:
(I) Expanding the availability of supplemental online education courses and blended learning strategies;

(II) Increasing significantly the number of students who enroll in high-quality, effective, and affordable supplemental online education courses;

(III) Working with school districts, charter schools, and BOCES to create, offer, and sustain their own high-quality, effective, and affordable supplemental online education courses and blended learning, as well as targeted professional development and mentoring support;

(IV) Assisting educators in local public education agencies to increase their competency specifically in using digital learning strategies to lead and instruct in, and otherwise implement, digital learning; and

(V) Documenting and sharing best practices in providing supplemental online education courses and blended learning.

(5) (a) In leading the statewide supplemental online and blended learning program, the administering BOCES, in partnership with the commissioner of education, the state board of education, and one or more private, nonprofit entities, shall prepare a plan for integrating supplemental online and blended learning into the educational programs provided by school districts, charter schools, and BOCES. Each school district, charter school, and BOCES may determine the extent to which it participates in the statewide plan.

(b) The administering BOCES shall ensure that, through the program, all school districts, charter schools, and BOCES in the state have access to:

(I) Supplemental online and blended learning resources, including, at a minimum, supplemental online education courses available from contract providers or from a school district, charter school, or BOCES and a library of digital course content;

(II) Professional development resources for teachers, including resources for certifying teachers' ability to successfully integrate supplemental online and blended learning resources into school-building-based educational programs; and

(III) Consulting assistance for school districts, charter schools, and BOCES that choose to use supplemental online and blended learning for students, including an inventory of successful models for integrating supplemental online education courses and blended learning into school-building-based educational programs.

(c) The administering BOCES shall actively market to school districts, charter schools, and BOCES the availability of resources through the statewide supplemental online and blended learning program.

(d) The administering BOCES may enter into an agreement with the statewide internet portal authority created in article 37.7 of title 24, C.R.S., to provide the platform for accessing services and programs available through the statewide supplemental online and blended learning program.

(6) (a) The administering BOCES shall establish a fair and transparent request for proposal process to use when selecting providers to provide resources as described in paragraph (b) of subsection (5) of this section through the statewide supplemental online and blended learning program. The request for proposal process must include input from a review committee as described in paragraph (b) of this subsection (6) that the administering BOCES convenes as needed.

(b) The review committee consists of:

(I) A representative from the administering BOCES;
(II) A representative from the office in the department responsible for online and blended learning;

(III) The following members selected jointly by the administering BOCES and the department:
   (A) A national expert in online and blended learning;
   (B) An administrator from a school that is designated an alternative education campus as provided in section 22-7-604.5; and
   (C) An administrator from a school that obtains online or blended services through the program; and

(IV) Two educators as follows:
   (A) One educator appointed by the governor, or his or her designee, who has experience with supplemental online education or blended learning; and
   (B) One educator selected by the department who is employed in a small rural school district. The department is encouraged to select an educator who has experience with supplemental online education or blended learning.

(c) The review committee shall review all proposals using established rubrics and shall recommend one or more providers for approval to the administering BOCES. If the administering BOCES chooses not to follow the recommendations of the review committee concerning a provider, it shall provide the review committee with a written explanation of the rationale for the decision.

(d) A provider that the administering BOCES contracts with pursuant to this subsection (6) may subcontract with one or more for-profit or nonprofit entities, local public education agencies, or private organizations in meeting the obligations of its contract with the administering BOCES.

(7) Supplemental online education courses must be provided to a school district, charter school, or BOCES at an affordable total program cost for high-quality, accredited courses with local support.

(8) Each high school student in Colorado may take at least one supplemental online course per year. Each supplemental online course contract provider shall report to the administering BOCES information concerning the students who participate in the supplemental online courses to enable the administering BOCES to track the students' academic performance in the supplemental online courses. The administering BOCES shall annually collect data related to completion and passage rates from the providers contracted to provide supplemental online and blended learning and report that data to the department. The department shall collect the data through existing student data collection systems and in compliance with all state and federal laws and regulations concerning the privacy of information, including but not limited to the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, as amended.

(9) The general assembly shall annually appropriate to the department for allocation to the administering BOCES an amount sufficient to administer the statewide supplemental online and blended learning program and fund the contracts entered into with providers pursuant to this section. The administering BOCES may expend up to ten percent of the amount annually appropriated to offset its costs incurred in leading, managing, and administering the program.

(10) (a) On or before March 15, 2017, and on or before March 15 each year thereafter, the administering BOCES shall submit to the education committees of the house of
representatives and the senate, or any successor committees, the joint budget committee of the
general assembly, the state board of education, and the department a report concerning
implementation and use of the statewide supplemental online and blended learning program for
the preceding school year.

(b) This subsection (10) is exempt from the provisions of section 24-1-136 (11), C.R.S.,
and the annual reporting requirements of this subsection (10) are effective until changed by the
general assembly acting by bill.

(11) (a) Beginning in the summer of 2021 and continuing throughout the 2021-22 school
year, in addition to administering the statewide supplemental online and blended learning
program in accordance with subsection (5) of this section, the administering BOCES shall
prioritize entering into partnerships with local public education agencies for delivery of
supplemental online learning recovery courses for students enrolled in kindergarten through
twelfth grade. The administering BOCES and local public education agencies shall, to the extent
practicable, partner with nonprofit entities and community-based organizations to expand the
availability of, and students' access to, supplemental online learning recovery courses. Local
public education agencies are encouraged to identify the students who are most in need of
learning recovery courses as a result of the effects of the COVID-19 pandemic and to prioritize
these students to receive supplemental online programming to support learning recovery.

(b) The administering BOCES shall communicate to all local public education agencies,
and the local public education agencies shall communicate to the parents of students enrolled by
the local public education agencies, the availability of supplemental online education courses
through the administering BOCES, including the availability of learning recovery courses, the
types of courses that are available for learning recovery and other purposes, the manner in which
students may enroll in these courses through the local public education agency, and the benefits
to students who successfully complete the courses. At a minimum, the local public education
agency shall provide the information through the digital means normally used for
communicating with parents and shall ensure, to the extent practicable, that the information is
available in languages that students' parents understand.

22-5-120. School food authority operations - contracts for provision of food and
beverages. (1) Each board of cooperative services is authorized to maintain, equip, and operate
a food-service facility as a school food authority, as defined in section 22-32-120 (8).

(2) Each board of cooperative services that elects to operate as a school food authority is
encouraged to procure and distribute to schools of its constituent school districts food and
beverages that:

(a) Satisfy nutritional standards established by the United States department of
agriculture; and

Colorado Revised Statutes 2023          Page 180 of  1377          Uncertified Printout
(b) Have been locally grown or produced.

(3) Each board of cooperative services that elects to operate as a school food authority may seek, accept, and expend gifts, grants, and donations to facilitate its operations as a school food authority; except that a board of cooperative services shall not accept a gift, grant, or donation if it is subject to conditions that are inconsistent with this article or any other law of the state.

22-5-121. BOCES healthy food grant program - application process - fund - rules - repeal. (Repealed)

Source: L. 2010: Entire section added, (HB 10-1335), ch. 326, p. 1508, § 1, effective August 11.

Editor's note: Subsection (8) provided for the repeal of this section, effective July 1, 2015. (See L. 2010, p. 1508.)

22-5-122. Assistance for implementing and meeting state educational priorities - financing. (1) (a) For the 2012-13 fiscal year and each fiscal year thereafter, a BOCES may receive state moneys in addition to any other moneys received pursuant to this article by submitting a plan to the state board, in a form and manner specified by rule of the state board, that details how the BOCES will use the additional moneys to assist its participating school districts in implementing and meeting the state's educational priorities as determined by the commissioner of education pursuant to subsection (2) of this section. The state board may specify additional information that a BOCES is required to include in a plan submitted pursuant to this paragraph (a).

(b) For the 2012-13 fiscal year, a BOCES that seeks additional moneys shall submit a plan pursuant to paragraph (a) of this subsection (1) to the state board on or before August 1, 2012. For the 2013-14 fiscal year and each fiscal year thereafter, a BOCES that seeks additional moneys shall submit a plan pursuant to paragraph (a) of this subsection (1) to the state board on or before May 1 of the preceding fiscal year.

(c) For the 2013-14 fiscal year, and each fiscal year thereafter, if a BOCES that submits a plan to the state board pursuant to paragraph (a) of this subsection (1) also submitted a plan in the previous fiscal year, the BOCES shall include a report detailing the results of the previous year's plan in its new plan submission.

(2) On or before June 1, 2012, on or before March 1, 2015, and on or before March 1 every third year thereafter, the commissioner of education, in consultation with a statewide association in the state that represents one or more BOCES in the state and a council created by the commissioner of education that advises the commissioner and the department of education regarding the needs and concerns of rural school districts in the state, shall determine the state's educational priorities for the purposes of this section. The priorities may include, but need not be limited to, educator effectiveness, school district accreditation and accountability, and standards and assessments for preschool through elementary and secondary education.
(3) A BOCES may develop a memorandum of understanding with a school district that is contiguous to the area of the BOCES, but that is not a member of the BOCES, to enable the district to participate with the BOCES in the plan submitted pursuant to subsection (1) of this section. In addition, two or more adjoining BOCES may collaborate regarding the implementation of a plan submitted pursuant to this section.

(4) (a) The department of education shall establish a method to allow the member school districts of a BOCES that chooses not to submit a plan pursuant to paragraph (a) of subsection (1) of this section to submit a plan as a consortium of districts or as a newly formed BOCES to the state board and to receive moneys to assist the districts in implementing and meeting the state educational priorities as determined pursuant to subsection (2) of this section.

(b) A member district of a BOCES that has submitted a plan pursuant to subsection (1) of this section may choose not to participate in the BOCES plan to assist the member districts in implementing and meeting the state's educational priorities. If a member district chooses not to participate, the BOCES shall work with the other member districts in the BOCES to implement the plan.

(5) (a) The general assembly may appropriate moneys to the department of education for the purposes of this section. Of the amount appropriated, the department may retain up to one hundred twenty thousand dollars annually for the purpose of funding a departmental liaison for rural school districts and up to fifty thousand dollars annually for the purpose of funding the department's ongoing support of a council created by the commissioner of education that advises the commissioner and the department regarding the needs and concerns of rural school districts. The department shall distribute the remaining amount as specified in paragraph (b) of this subsection (5).

(b) The department of education shall distribute the remaining amount appropriated by the general assembly for the purposes of this section, after subtracting the amounts specified in paragraph (a) of this subsection (5), as follows:

(I) Equally distribute forty-five percent to the BOCES that submit plans pursuant to subsection (1) of this section;

(II) Distribute forty-five percent based on the total number of member school districts of the participating BOCES and nonmember school districts that participate with the BOCES as detailed in a memorandum of understanding entered into pursuant to subsection (3) of this section; and

(III) Distribute ten percent based on the total number of students enrolled in the member school districts of the participating BOCES and enrolled in the nonmember school districts that participate with the BOCES as detailed in a memorandum of understanding entered into pursuant to subsection (3) of this section.

(c) Any state moneys appropriated by the general assembly for the purposes of this section shall not be used to supplant the level of state moneys appropriated to support and for use by BOCES during the 2011-12 fiscal year.

(6) The state board shall promulgate rules pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., for the administration of this section.

(7) The general assembly finds and declares that, for purposes of section 17 of article IX of the state constitution, a program to assist school districts in implementing and meeting the state's educational priorities is a program for accountable education reform and may therefore
receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

ARTICLE 5.5
Regional Service Areas Act

22-5.5-101. Short title. This article shall be known and may be cited as the "Regional Service Areas Act".

Source: L. 2008: Entire article added, p. 1693, § 1, effective June 2.

22-5.5-102. Legislative declaration. (1) The general assembly hereby finds and declares that:
   (a) Colorado should align its education system to maximize the state's limited resources in improving student achievement and closing the learning gap;
   (b) One of the most effective ways to align the state's education system and maximize resources is to expand the department of education's eight existing regional service areas to twelve regional service areas, and to include in the expansion process representation from community and local district colleges, technical colleges, state institutions of higher education, early childhood councils, and business and industry;
   (c) Colorado experimented with successful results with regional consortiums for professional development during 2000 and 2001 as a means to deliver professional development programs across school district lines in an efficient and effective manner;
   (d) Regions can serve as an efficient and effective link between the state, the department of education, boards of cooperative services, administrative units, school districts, state institutions of higher education, and business and industry to leverage and implement scarce resources for education reform initiatives at state, regional, and local levels;
   (e) A regional service area system would extend and expand service delivery in many areas, including but not limited to data centers, financial services, cooperative purchases, technological support, capital construction planning assistance, dropout prevention, early childhood and preschool programs, postsecondary partnerships and student transitions into postsecondary schools, professional development, curriculum and instructional expertise and support, and shared administration and services among school districts;
   (f) Funding for regional service areas should be consistent and sustainable over time;
   (g) School districts, boards of cooperative services, administrative units, community colleges, local district colleges, technical colleges, postsecondary institutions, early childhood councils, and representatives from business and industry located within the same geographic area should work collaboratively to develop a regional plan that meets the needs of participants in order to increase the effectiveness of a regional system.
   (2) The general assembly therefore declares that it is in the best interest of the state of Colorado and its citizens to assist in providing a thorough and uniform educational system by
creating a system of regional service areas that utilizes existing relationships to provide
programs and services beyond the boundaries of the current twenty-one boards of cooperative
services, fifty-seven administrative units, and one hundred seventy-eight school districts.

(3) The general assembly further finds and declares that, for purposes of section 17 of
article IX of the state constitution, the establishment of twelve regional service areas which will
effectively align the state's education system and maximize resources is a critical element of
accountable education reform, accountable programs to meet state academic standards,
expanding technology education, improving student safety, expanding the availability of
preschool and kindergarten programs, and accountability reporting and, therefore, may receive
funding from the state education fund created in section 17 (4) of article IX of the state
constitution.

22-5.5-103. Definitions. As used in this article 5.5, unless the context otherwise requires:
(1) "Administrative unit" means a school district, a board of cooperative services, a
charter school network, a charter school collaborative, or the state charter school institute, that is
providing educational services to exceptional children.
(2) "Board" means the board of education of a school district.
(3) "Board of cooperative services" means a regional educational service unit created
pursuant to article 5 of this title.
(4) "Department" means the department of education created and existing pursuant to
section 24-1-115, C.R.S.
(5) "Postsecondary institution" means a community or technical college, a local district
college, or a state-supported institution of higher education.
(5.5) "Pupil enrollment count day" has the same meaning as set forth in section
22-54-103 (10.5).
(6) "Regional service area" means one of twelve regional service areas created pursuant
to section 22-5.5-104.
(7) "Regional service council" means the governing body of a regional service area plan,
which governing body is established pursuant to section 22-5.5-105.
(8) "School district" means a school district existing pursuant to law.
(9) "State board" means the state board of education created and existing pursuant to
section 1 of article IX of the state constitution.

Source: L. 2008: Entire article added, p. 1695, § 1, effective June 2. L. 2012: (5.5)
added, (HB 12-1090), ch. 44, p. 150, § 4, effective March 22. L. 2022: IP and (1) amended, (HB
22-1294), ch. 242, p. 1795, § 13, effective August 10.

22-5.5-104. Regional service areas - creation - rules. (1) On or before December 1,
2008, the state board, in consultation with the department, school districts, and boards of
cooperative services, shall divide the state into twelve regional service areas throughout the state.
Each regional service area shall consist of at least two school districts and one or more boards of
cooperative services.
(2) The state board and the department shall consult with the department of higher 
education and the governor's office to establish the state's education initiatives, including 
priorities for preschool through postsecondary education.

(3) On or before December 1, 2008, the state board shall promulgate rules for the 
development, expansion, implementation, and management of the regional service areas created 
pursuant to this article.

Source: L. 2008: Entire article added, p. 1695, § 1, effective June 2.

22-5.5-105. Regional service areas - establishment - plan - governance. (1) (a) 
Following the creation of the twelve regional service areas by the state board pursuant to section 
22-5.5-104, but on or before June 30, 2009, individuals in a regional service area may organize a 
regional service area. Participants in a regional service area may include, but need not be limited 
to, representatives from school districts, boards of cooperative services, administrative units, 
early childhood councils, postsecondary institutions, business and industry, other education 
agencies in the regional service area, teachers, and parents. A regional service area plan shall be 
governed by no more than one regional service council.

(b) Participation by school districts or boards of cooperative services in a regional 
service area is voluntary.

(2) (a) Each plan for a regional service area shall be administered by a locally appointed 
regional service council, representing the following entities within the regional service area and 
composed of a minimum of five members; except that a regional service council initially formed 
or reorganized on or after August 5, 2009, shall be composed of a minimum of six members as 
follows:

(I) Each participating board of cooperative services shall appoint at least one council 
member. A board of cooperative services that has more than five member districts shall appoint 
an additional council member. The terms shall run coterminously with the council member's term on his or her board.

(II) Each board of cooperative services superintendent advisory council within a regional 
service area shall appoint two superintendents or their designees to serve on the regional service 
council. A superintendent advisory council that has more than five members shall appoint an 
additional superintendent or his or her designee to the regional service council. The 
superintendents or their designees shall each represent a participating school district.

(III) Each school district that chooses to participate in the regional service area and that 
is not a member of a board of cooperative services within the regional service area shall appoint 
one board member, superintendent, or designee to the regional service council. The terms shall 
run coterminously with the council member's term on his or her board, if applicable.

(IV) The regional service council, within ninety days after its initial formation and each 
time the regional service council reorganizes thereafter, shall appoint one council member 
representing business and industry, one council member representing each existing early 
childhood council from within the regional service area, and, for a regional service council 
initially formed or reorganized on or after August 5, 2009, one council member who is a parent 
of a student enrolled in a public preschool, elementary, secondary, or postsecondary institution 
located within the regional service area.
Each four-year institution of higher education, each community college, and each technical college within the regional service area may appoint a trustee or advisory council member, or the president of the institution or his or her designee, to serve on the regional service council.

The department of education regional manager for the regional service area and the executive director for any board of cooperative services in the regional service area shall serve as ex-officio, nonvoting members of the regional service council.

The regional service council shall have the authority to set terms of office, organize, have meetings, and accept moneys and shall be accountable for funding and programs.

To receive funding pursuant to section 22-5.5-106 (2) and (3), the regional service council on behalf of each regional service area shall submit a plan to the state board for approval on or before June 30, 2009. The plan shall address the needs of large and small school districts within the regional service area and focus on increasing effectiveness and efficiencies in providing education and services throughout the region. The plan shall include, at a minimum:

a) A list of representatives from various educational agencies and business and industry in the regional service area;

b) A description of how the regional service area intends to use and develop state, regional, and local expertise;

c) An outline of available funding sources, including local and regional contributions, federal moneys, and any available state resources;

d) A description of how the agencies within the regional service area will coordinate and collaborate to enhance effectiveness and efficiencies among and between regional service areas;

e) A strategy to address the needs of participating school districts within the regional service area;

f) A budget outlining projected expenditures by the regional service area; and

g) Accountability criteria associated with the plan, including but not limited to:

I) Evaluation of alignment with established state priorities;

II) Rationale for selection of priorities based upon regional needs assessment data;

III) Goals that are specific, measurable, achievable, and realistic, all within an established time frame;

IV) Specific outcomes demonstrated with effectiveness and efficiencies;

V) An evaluation process and criteria; and

VI) Budget alignment with priorities and activities.

(a) Each regional service council shall submit a plan developed pursuant to subsection (3) of this section to the state board for approval as a prerequisite to the receipt of state moneys pursuant to this article.

(b) On or before August 1, 2009, the state board shall notify each regional service council that submitted a plan for a regional service area of its approval or rejection.

22-5.5-106. Funding. (1) On or before June 30, 2009, a regional service council may apply to the state board on behalf of a regional service area for a one-time grant of up to ten
thousand dollars for direct reimbursement of expenses related to the development of the plan for the regional service area. The state board shall provide an applying regional service council with the one-time grant for reimbursement of expenses related to the development of the plan no later than thirty days following the submission of the grant application.

(2) If the plan for a regional service area is approved by the state board pursuant to section 22-5.5-105, on or after July 1, 2009, and annually thereafter, the state board shall award to the regional service area a grant of up to fifty thousand dollars, subject to available appropriations by the general assembly. If available moneys are insufficient to award each eligible regional service area a full fifty-thousand-dollar grant, the state board shall reduce proportionately all grant awards for eligible regional service areas for that year. A regional service council may choose not to accept funding on behalf of the regional service area if the prorated amount is insufficient to allow the regional service area to function effectively.

(3) In addition to the grants described in subsections (1) and (2) of this section, on or after July 1, 2009, and annually thereafter, the department shall, subject to available appropriations, allocate to each eligible regional service area an amount equal to up to fifty cents per pupil based on the pupil enrollment for each school district in the regional service area as of the pupil enrollment count day of the previous year.

(4) Funding for a regional service area after the first grant pursuant to this section is contingent upon the successful implementation of the regional service area's plan, as evaluated by the state board and the department. The state board shall annually notify each regional service council on or before September 1 regarding whether the regional service area will receive moneys pursuant to subsections (2) and (3) of this section in the coming year and the amounts.

(5) A regional service council may use a maximum of ten percent of the amount annually received by the regional service area for grant management and fiscal oversight. For regions with a total pupil enrollment of less than fifteen thousand students, the regional service council may use up to twenty percent of the amount annually received by the regional service area for grant management and fiscal oversight.

(6) Each regional service council that receives funding on behalf of a regional service area pursuant to subsections (2) and (3) of this section shall submit to the department a revised annual budget on or before March 1, 2010, and on or before March 1 each year thereafter. If a regional service council expects to exceed by more than ten percent the projected expenditures specified in the budget included in the original plan submitted to the state board pursuant to section 22-5.5-105, the regional service council shall seek prior approval for the expenditure from the department.

(6.5) Each regional service council is authorized to seek and accept gifts, grants, or donations from private or public sources for the purposes of this article; except that a gift, grant, or donation shall not be accepted if the conditions attached to the gift, grant, or donation require its expenditure in a manner contrary to law. Any gifts, grants, or donations received by a regional service council shall be submitted directly to the board of cooperative services that is acting as the regional service council's fiscal agent pursuant to subsection (7) of this section.

(7) Each regional service council shall select one board of cooperative services in the regional service area to act as its fiscal agent to receive the moneys from the state treasurer or any gifts, grants, or donations accepted pursuant to subsection (6.5) of this section.
22-5.5-107. Regional service areas - programs and services. (1) A regional service area may provide any of the following services and programs, including but not limited to:
   (a) Data and assessment centers;
   (b) Shared financial services among school districts and boards of cooperative services;
   (c) Cooperative purchases;
   (d) Technology infrastructure and support;
   (e) Distance, online learning, and other alternative learning opportunities for students;
   (f) Precollegiate programs, counseling, and dropout prevention;
   (g) Capital construction planning assistance;
   (h) Curriculum and instructional expertise and support;
   (i) Professional development for teachers and administrators;
   (j) Regional and state initiatives;
   (k) Shared administration and support services for school districts;
   (l) Early childhood and preschool programs; and
   (m) Postsecondary partnerships and services to support student transitions into postsecondary schools.

22-5.5-108. Reporting requirements. On or before July 1 of the year following the approval of a regional service area's plan pursuant to section 22-5.5-105, and on or before January 1 each year thereafter, the regional service council shall submit a written report on behalf of the regional service area to the state board and the department summarizing its activities for the calendar year, especially those activities related to the measurable goals and objectives outlined in the plan, a summary of any efficiencies or improved effectiveness achieved at the district or regional level by the regional service area, and any proposed amendments to the plan originally submitted to the state board pursuant to this article.

Educational Accountability

Editor's note: This article was numbered as article 41 of chapter 123 in C.R.S. 1963. This article was amended with relocations in 1997, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this article prior to 1997, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated.

PART 1

LOCAL ACCOUNTABILITY PROGRAMS

22-7-101 to 22-7-107. (Repealed)

Editor's note: This article was amended with relocations in 1997, and this part 1 was subsequently repealed in 2009. For amendments to this part 1 prior to its repeal in 2009, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume and the editor's note following the article heading.

PART 2

EDUCATIONAL ACHIEVEMENT

22-7-201 to 22-7-207. (Repealed)

Editor's note: This article was amended with relocations in 1997, and this part 2 was subsequently repealed in 2009. For amendments to this part 2 prior to its repeal in 2009, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume and the editor's note following the article heading.

PART 3
Editor's note: This article was amended with relocations in 1997, and this part 3 was repealed in 1997 and subsequently recreated and reenacted in 2009, resulting in the addition, relocation, and elimination of sections as well as subject matter. For additional historical information concerning this article, see the editor's note following the article heading.

22-7-301. Legislative declaration. (1) The general assembly hereby finds that:
   (a) Although education reform efforts are ongoing at both the state and local levels, Colorado continues to experience an unacceptably high dropout rate, inequalities in the academic achievement levels of students from different racial and socioeconomic groups, and low rates of enrollment and persistence in postsecondary education;
   (b) To accomplish the goals of reducing the dropout rate, reducing the gaps in academic achievement and growth among student groups, and increasing the number of students who continue into higher education following high school graduation or completion, the state must look to additional strategies for improving public education;
   (c) Studies show that, when parents are involved as partners with their children's schools, students achieve higher levels of academic performance, students demonstrate better attendance and homework completion, and students are less likely to dropout of school;
   (d) Students from diverse cultural backgrounds tend to perform better academically when their parents and the professionals at their schools collaborate to bridge the gap between the culture at home and that at the school; and
   (e) Secondary students whose parents are involved with their schools make better transitions into postsecondary education, maintain the quality of their academic work, and are more like to develop realistic plans for their futures.

(2) The general assembly therefore finds that it is in the best interests of the state to create a state advisory council for parent involvement in education that will review best practices and recommend to policy makers and educators strategies to increase parent involvement in public education, thereby helping to improve the quality of public education and raise the level of students' academic achievement throughout the state.

22-7-302. Definitions. As used in this part 3, unless the context otherwise requires:
   (1) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title.
   (2) "Close the achievement and growth gap" means to lessen the variance in academic achievement and growth among student groups, as reflected in state assessment scores, in the scores achieved on the curriculum-based, achievement college entrance exam, and in calculations of students' longitudinal academic growth, by improving the academic achievement and growth of students in those groups that are underperforming.
(3) "Council" means the Colorado state advisory council for parent involvement in education created in section 22-7-303.

(4) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

(5) "National standards for family-school partnerships" means the following research-based standards for family-school partnerships recognized nationally by parent teacher associations:

(a) Families are active participants in the life of the school and feel welcomed, valued, and connected to each other, to school staff, and to what students are learning and doing in the classroom;

(b) Families and school staff engage in regular, meaningful communication about student learning;

(c) Families and school staff continuously collaborate to support students' learning and healthy development both at home and at school and have regular opportunities to strengthen their knowledge and skills to provide said support effectively;

(d) Families are empowered to be advocates for their own and other children to ensure that students are treated fairly and have access to learning opportunities that will support their success;

(e) Families and school staff are equal partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs; and

(f) Families and school staff collaborate with community members to connect students, families, and staff to expanded learning opportunities, community services, and civic participation.

(6) "Parent" means a child's biological parent, adoptive parent, or legal guardian or another adult person recognized by the child's school as the child's primary caregiver.

(7) "Parent education program" means a program to teach parents strategies and skills for working with their children and the staff of the schools and institutions of higher education in which their children are enrolled.

(8) "Parent involvement grant program" means the parent involvement in education grant program created in section 22-7-305.

(9) "School-based parent information resource center" means a center that provides to parents information on education opportunities for their children, training for parents and families on education issues, and other support services that may be available to parents, such as mental health services, social services, and housing referrals.

(10) "State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

(11) "Student populations that are significantly represented in the state" means student populations that each constitute at least ten percent of the total population of students in the state, which student populations may include, but need not be limited to, the student populations described in section 22-11-301 (3).

22-7-303. Colorado state advisory council for parent involvement in education - created - membership. (1) There is created in the department of education the Colorado state advisory council for parent involvement in education. The council consists of members appointed as provided in this section and has the powers and duties specified in this part 3. The council is a type 2 entity, as defined in section 24-1-105, and exercises its powers and performs its duties and functions under the department, the commissioner of education, and the state board of education.

(2) The council shall consist of the following members:

(a) The following members appointed by the state board:

(I) One person from each congressional district who is a parent of a child enrolled in a publicly funded preschool program, in any of grades kindergarten through twelve, or in a state-supported institution of higher education. Four of the members appointed pursuant to this subsection (2)(a)(I) must be members of a school accountability committee or a school district accountability committee. In making the appointments pursuant to this subsection (2)(a)(I), the state board shall consider the student populations that are significantly represented in the state.

(II) A representative from each of two state-based nonprofit organizations that specialize in promoting the involvement of parents of traditionally underserved populations;

(III) A representative from a nonprofit organization that specializes in promoting the involvement of parents of students with disabilities;

(IV) A representative from a nonprofit organization that partners with funding providers, state agencies, and service providers to assist organizations in providing services to improve the health and well-being of families and children;

(V) A representative of a statewide organization of parents and teachers;

(VI) Repealed.

(VII) A representative of a statewide organization that represents school executives;

(VIII) A representative of a statewide organization that represents members of school district boards of education;

(IX) A representative of a statewide organization that represents teachers;

(X) A representative of a statewide organization that represents charter schools;

(XI) A representative of a statewide organization that represents career and college guidance counselors; and

(XII) Repealed.

(XIII) A person with expertise in early childhood care and education;

(b) One or more representatives from the department of education, appointed by the commissioner of education, with expertise in the following areas:

(I) Strategies to close the achievement and growth gap;

(II) The program for the education of migrant children described in article 23 of this title;

(III) The English language proficiency program described in article 24 of this title;

(IV) Federal title I programs;

(V) The education of exceptional children, as defined in section 22-20-103 (12); and

(VI) The family literacy education grant program created in section 22-2-124;

(c) Two persons appointed by the executive director of the department of higher education; and

Colorado Revised Statutes 2023 Page 192 of 1377 Uncertified Printout
(d) A representative of the department of human services appointed by the executive
director of said department.

(3) (a) A person may not be appointed to fill more than one of the member positions
required in subsection (2) of this section in a single term. Each appointing authority shall make
its initial appointments on or before October 1, 2009. Each member of the council shall serve at
the pleasure of the member's appointing authority. The appropriate appointing authority shall fill
any vacancies arising during a member's term on the council.

(b) The state board, in appointing members to the council, shall, to the extent
practicable, select persons who will reflect the gender balance and ethnic and racial diversity of
the state and will provide representation from throughout the state.

(4) The council members appointed pursuant to paragraph (a) of subsection (2) of this
section shall serve three-year terms; except that, of the persons initially appointed, the state
board shall select four who shall serve initial terms of one year and four who shall serve initial
terms of two years.

(5) The state board shall call the first meeting of the council to be held no later than
November 15, 2009. At its first meeting, and annually thereafter, the council shall select from
among its members a person to serve as chair of the council. The council shall meet upon call of
the chair as often as necessary to accomplish its duties as specified in this part 3.

(6) The council members shall serve without compensation but may receive
reimbursement for actual and necessary expenses incurred in performing their duties pursuant to
this part 3, including but not limited to expenses incurred in providing a regional training
program pursuant to section 22-7-304 (3).

22-7-304. Council - advisory duties - technical assistance - report. (1) The council
shall inform, at a minimum, the early childhood councils, public schools, school districts, the
state charter school institute, the department, the state board, the department of higher education,
the Colorado commission on higher education, and the governing boards for the state institutions
of higher education concerning best practices and strategies, aligned with the national standards
for family-school partnerships, for increasing parent involvement in public education and
promoting family and school partnerships, including but not limited to best practices and
strategies in the following areas:
(a) Creating and implementing programs to effectively involve parents in improving their children's education and levels of academic achievement. To identify these best practices and strategies, the council shall review the programs implemented in other states and the results of state and national research conducted in this area.

(b) Involving parents in programs to raise academic achievement, increase high school graduation rates, decrease student dropout rates, and close the achievement and growth gap;

(c) Involving parents in response to intervention programs in public schools and school districts;

(d) Involving parents in programs to raise academic achievement, improve the persistence rate, and improve the on-time graduation rate of students enrolled in institutions of higher education;

(e) Increasing parent involvement in education-related committees at the local and state levels;

(f) Designing and implementing parent education programs and centers and parent leadership training programs;

(g) Creating and implementing family-to-school liaison positions; and

(h) Establishing and implementing school-based parent information resource centers.

(2) The council shall recommend to the state board and to the Colorado commission on higher education plans for statewide parent involvement initiatives, which may include, but need not be limited to:

(a) Requiring each school district and the state charter school institute, as part of the accreditation process, to increase the level of parent involvement in education; and

(b) Initiatives to increase admissions to institutions of higher education and the degree-completion rate and to reduce the need for remediation.

(3) (a) The council shall provide training and other resources designed to help the school district accountability committees and school accountability committees increase the level of parent engagement with the public schools and with school districts, including increasing the number of parents serving on school district accountability committees and school accountability committees.

(b) The council shall work with the department to provide regional training programs for school district accountability committees and school accountability committees. At a minimum, the training programs must address parent leadership and increasing parent engagement with school district accountability committees and school accountability committees, including best practices for parent engagement with school district accountability committees and school accountability committees.

(c) The council shall work with the department to provide regional training programs for school districts and charter schools concerning best practices and skills for district and school personnel in working with parents.

(4) The council, in consultation with the department of education and the department of higher education, shall identify key indicators of successful parent engagement in education and use the indicators to develop recommendations for methods by which the department of education and the department of higher education may measure and monitor the level of parent engagement with elementary and secondary public schools and with institutions of higher education in Colorado.
(5) On or before December 31, 2013, and on or before December 31 each year thereafter, the council shall report to the state board, the Colorado commission on higher education, and the education committees of the senate and the house of representatives, or any successor committees, the council's progress in promoting parent engagement in the state and in fulfilling the duties specified in this section.

Editor's note: Amendments to subsection IP(1) by SB 18-099 and HB 18-1141 were harmonized.

Cross references: For the legislative declaration in HB 18-1141, see section 1 of chapter 59, Session Laws of Colorado 2018.

22-7-305. Parent involvement in education grant program - creation - rules - fund - reports. (1) (a) There is hereby created in the department the parent involvement in education grant program to provide moneys to assist public schools in creating and implementing programs to support greater parent involvement in the schools. The council shall assist the department in implementing the parent involvement grant program as provided in this section and shall provide advice to recipient schools to assist them in creating and implementing programs to ensure that the programs reflect the best practices identified by the council pursuant to section 22-7-304.

(b) The school district of a public school, or a board of cooperative services or regional service council that operates a public school, that seeks a grant through the parent involvement grant program shall apply on behalf of the public school; except that, if the public school is a charter school, the public school may apply on its own behalf. To be eligible to receive a grant, a public school shall meet one or more of the following criteria:

(I) A significant percentage, as defined by rule of the state board, of the students enrolled in the public school for the three academic years immediately preceding application were:

(A) Eligible for free or reduced-cost lunch pursuant to the provisions of the federal "Richard B. Russell National School Lunch Act", 42 U.S.C. sec. 1751 et seq.; or

(B) English language learners, as defined in section 22-24-103 (4);

(II) The dropout rate for the public school for each of the three academic years immediately preceding application exceeded the state average dropout rate for each respective year by a percentage established by rule of the state board;

(III) For each of the three academic years immediately preceding application, the statewide assessment scores of students enrolled in the public school demonstrated that:

(A) A significant achievement or growth gap, as defined by rule of the state board, existed among identified groups of students; or

(B) The school was an academically underperforming school, as defined by rule of the state board.
(c) The programs that a recipient school may fund with grant moneys received through
the parent involvement grant program shall include, but need not be limited to, programs to
establish:
   (I) Family-to-school liaison positions;
   (II) Parent leadership training opportunities;
   (III) Centers to provide parent education programs; and
   (IV) School-based parent information resource centers.
(2) The state board shall promulgate rules pursuant to the "State Administrative
Procedure Act", article 4 of title 24, C.R.S., as necessary for implementation of the parent
involvement grant program, including but not limited to:
   (a) Rules as specified in paragraph (b) of subsection (1) of this section and subsection
      (5) of this section;
   (b) Rules establishing the time frames for submission and review of applications and
       selection of recipient schools;
   (c) Rules specifying the information to be included in grant applications; and
   (d) Rules identifying any criteria for selection of recipient schools in addition to the
       criteria specified in paragraph (b) of subsection (1) of this section.
(3) The council shall review the grant applications received pursuant to this section and
shall recommend recipient schools and the grant amounts to the state board. Subject to available
appropriations, the state board shall annually award grants through the parent involvement grant
program, which grants shall be paid from the parent involvement grant program fund created in
subsection (4) of this section.
(4) (a) There is hereby created in the state treasury the parent involvement grant program
fund, referred to in this subsection (4) as the "fund", that shall consist of such moneys as may be
credited to the fund pursuant to paragraph (b) of this subsection (4). The moneys in the fund
shall be subject to annual appropriation by the general assembly for the direct and indirect costs
associated with the implementation of the parent involvement grant program. Any moneys in the
fund not expended for the purpose of this section may be invested by the state treasurer as
provided by law. All interest and income derived from the investment and deposit of moneys in
the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in
the fund at the end of a fiscal year shall remain in the fund and shall not be credited or
transferred to the general fund or another fund; except that any unexpended and unencumbered
moneys remaining in the fund as of June 30, 2019, shall be transferred to the general fund.
   (b) The council shall seek and may accept gifts, grants, and donations from private or
public sources for the purposes of the parent involvement grant program; except that the council
shall not accept a gift, grant, or donation if it is subject to conditions that are inconsistent with
this part 3 or any other law of the state. The council shall transmit all private and public moneys
received through gifts, grants, or donations to the state treasurer, who shall credit the same to the
fund.
   (c) Notwithstanding any provision of this section to the contrary, the state board and the
department shall not implement the parent involvement grant program until such time as there is
at least twenty thousand dollars credited to the fund.
   (d) In any fiscal year in which there is at least twenty thousand dollars credited to the
fund, the department may use up to one percent of the moneys credited to the fund to offset the
costs incurred in implementing the parent involvement grant program.
(5) (a) Beginning in the budget year following the first budget year in which the state board awards grants pursuant to this section, each recipient school shall annually submit to the council and the department, in accordance with timelines specified by rule of the state board, a report summarizing the amount of moneys received in the preceding fiscal year from the parent involvement grant program, the manner in which the moneys were used, and the results achieved through the use of the moneys. The report shall include such additional information as may be required by rule of the state board.

(b) On or before March 15 of the first year in which the council receives reports pursuant to paragraph (a) of this subsection (5), and on or before March 15 each year thereafter, the council shall summarize the reports received pursuant to paragraph (a) of this subsection (5) and submit the summary, with any additional pertinent information, to the state board and the education committees of the house of representatives and the senate, or any successor committees.

**22-7-306. Repeal of part.** (1) This part 3 is repealed, effective September 1, 2024.

(2) Prior to said repeal, the council shall be reviewed as provided in section 2-3-1203.

**PART 4**

**EDUCATION REFORM**

**22-7-401 to 22-7-414. (Repealed)**

**Source:** L. 2015: Entire part repealed, (HB 15-1323), ch. 204, p. 718, § 13, effective May 20.

**Editor's note:** This part 4 was added in 1997. For amendments to this part 4 prior to its repeal in 2015, consult the 2014 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

**PART 5**

**COLORADO BASIC LITERACY ACT**

**22-7-501 to 22-7-508. (Repealed)**
22-7-601. Legislative declaration. (Repealed)

22-7-602. Definitions. As used in this part 6, unless the context otherwise requires:
(1) "Alternative education campus" means a public school, including a charter school, that receives a designation pursuant to section 22-7-604.5.
(1.5) Repealed.
(2) to (4) Repealed.
(5) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
(6) "District school board" means the board of education of a school district existing pursuant to law.
(7) "Public school" means a school that receives a majority of its funding from moneys raised by a general state, county, or district tax and whose property is operated by a political subdivision of the state or a charter school established pursuant to article 30.5 of this title.
(8) Repealed.
(9) "State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.
(10) Repealed.

22-7-604.5. Alternative education campuses - criteria - application - rule-making - definition. (1) A public school may apply to the state board for designation as an alternative education campus. The state board shall adopt rules specifying the criteria and application process for a public school to be designated an alternative education campus. The rules must include but need not be limited to:

(a) Criteria that a public school must meet to be designated an alternative education campus, including but not limited to the following:
I) Having a specialized mission and serving a special needs or at-risk population;
(II) Being an autonomous public school;
(III) Having an administrator who is not under the supervision of an administrator at another public school;
(IV) Having a budget separate from any other public school;
(V) Having nontraditional methods of instruction delivery; and
(VI) (A) Serving students who have severe limitations that preclude appropriate administration of the assessments administered pursuant to section 22-7-1006.3;
(B) Serving a student population in which more than ninety percent of the students have an individualized education program pursuant to section 22-20-108 or meet the definition of a high-risk student contained in subsection (1.5) of this section, or any combination of these two criteria that equals at least ninety percent of the student population; or
(C) Serving students who attend on a part-time basis and who come from other public schools where the part-time students are counted in the enrollment of the other public school; except that the results of the assessments administered pursuant to section 22-7-1006.3 to all part-time students and high-risk students as defined in subsection (1.5) of this section must be used in determining the levels of attainment on the performance indicators for the public school for which the student is counted for enrollment purposes;
(D) (Deleted by amendment, L. 2010, (SB 10-154), ch. 157, p. 541, § 1, effective April 21, 2010.)
(b) A procedure for a district school board to request that the state board designate a public school of the school district as an alternative education campus; and
(c) (Deleted by amendment, L. 2009, (SB 09-163), ch. 293, p. 1520, § 2, effective May 21, 2009.)
(d) A procedure for a district school board to appeal to the state board a denial of a request for designation.

(1.5) As used in this section, unless the context otherwise requires, a "high-risk student" means a student enrolled in a public school who:
(a) Has been committed to the department of human services following adjudication as a juvenile delinquent or is in detention awaiting disposition of charges that may result in commitment to the department of human services;
(b) Has dropped out of school or has four excused or unexcused absences from public school in any one month or ten excused or unexcused absences from public school during any school year. Absences due to suspension or expulsion of a student are considered absences for purposes of this paragraph (b).
(c) Has been expelled from school or engaged in behavior that would justify expulsion;
(d) Has a documented history of personal drug or alcohol use or has a parent or guardian with a documented substance use disorder;
(e) Has a documented history of personal street gang involvement or has an immediate family member with a documented history of street gang involvement;
(f) Has a documented history of child abuse or neglect, has been adjudicated a ward of the court, or has been involved in the foster care system;
(g) Has a parent or guardian in prison or on parole or probation or has experienced the loss of a parent or sibling;
(h) Has a documented history of domestic violence in the immediate family;
(i) Has a documented history of repeated school suspensions;
(j) Is a parent or pregnant woman under the age of twenty years;
(k) Is a migrant child, as defined in section 22-23-103 (2);
(l) Is a homeless child, as defined in section 22-1-102.5 (2)(a);
(m) Has a documented history of a mental health disorder or behavioral issue or has experienced significant trauma; or
(n) Is over traditional school age for his or her grade level and lacks adequate credit hours for his or her grade level.

(2) (a) A district school board for a public school that desires to be considered an alternative education campus pursuant to this section shall file with the state board a request for designation as an alternative education campus. The request shall be in a form approved by the state board and shall contain sufficient information to establish that the public school meets the requirements of the rules adopted pursuant to paragraph (a) of subsection (1) of this section. The state board shall approve the designation of alternative education campus for any public school for which a request is filed pursuant to this subsection (2) that is found by the state board to meet the requirements of the rules adopted pursuant to paragraph (a) of subsection (1) of this section.

(b) Repealed.

(2.5) (a) The department shall annually review the performance of each alternative education campus based on the criteria specified by rule of the state board pursuant to section 22-11-210 (1)(b) and shall recommend to the commissioner and the state board whether the alternative education campus shall adopt a performance, improvement, priority improvement, or turnaround plan, as said plans are described in sections 22-11-403 to 22-11-406. Based on the recommendations, the state board, pursuant to section 22-11-210 (2), shall notify each alternative education campus and its district school board, or the institute if the alternative education campus is an institute charter school, of the type of plan the alternative education campus shall adopt. In adopting its plan, each alternative education campus shall comply with the provisions of sections 22-11-403 to 22-11-406, as applicable.

(b) The district school board for an alternative education campus or the institute, if the alternative education campus is an institute charter school, shall specify the accreditation category for the alternative education campus in accordance with the accreditation process adopted by the district school board or the institute pursuant to section 22-11-307.

(c) Notwithstanding the provisions of section 22-11-503, the school performance report for an alternative education campus shall include the information specified by rule of the state board that will effectively communicate to the parents of students enrolled in the alternative education campus and to the public the performance of the alternative education campus and the performance of students enrolled in the alternative education campus.

(d) (Deleted by amendment, L. 2009, (SB 09-163), ch. 293, p. 1520, § 2, effective May 21, 2009.)

(e) Repealed.

(3) (a) Except as excluded pursuant to section 22-7-1006.3, the results of the assessments administered pursuant to section 22-7-1006.3 to all part-time students attending a school or a program that is designated an alternative education campus pursuant to this section must be included in determining the levels of attainment on the performance indicators achieved by the school to which the student is assigned for enrollment purposes.
(b) Notwithstanding the provisions of paragraph (a) of this subsection (3), for a part-time student with an individualized education program pursuant to section 22-20-108, the school district in which the student is enrolled, or, in the case of a board of cooperative services, the administrative unit, may designate either the school of residency or the school of attendance as the school to which the student's scores shall be assigned to determine levels of attainment on the performance indicators.

22-7-604.7. Alternative education campuses - methods to measure quality performance - repeal. (Repealed)

Editor's note: Subsection (3) provided for the repeal of this section, effective July 1, 2017. (See L. 2016, p. 1021.)

22-7-605. School accountability reports - format - rules. (Repealed)

22-7-606. School accountability reports - delivery web site. (Repealed)

22-7-607. School accountability reports - nonpublic schools. (Repealed)

22-7-607.5. Teacher pay incentive program - repeal. (Repealed)

22-7-608. Low-graded schools. (Repealed)

22-7-609. School improvement plans. (Repealed)
22-7-609.3. Voluntary restructuring - state board approval. (Repealed)

22-7-609.4. Public school restructuring - tracking students. (Repealed)

22-7-609.5. School improvement grant program - repeal. (Repealed)

Editor's note: Subsection (7) provided for the repeal of this section, effective July 1, 2003. (See L. 2001, p. 353.)

22-7-609.6. School improvement - appropriations. (Repealed)

22-7-610. High-rated or improved school. (Repealed)

22-7-611. Closing the achievement gap program - strategies - assistance - criteria - rule-making. (1) As used in this section, unless the context otherwise requires:

(a) "Eligible district" means a school district that has been identified by rule of the state board as having a significant achievement gap.

(b) "Eligible school" means a public school that has been identified by rule of the state board as having a significant achievement gap.
(2) There is hereby established in the department the closing the achievement gap program, referred to in this section as the "program", to provide extensive assistance to eligible districts and eligible schools.

(3) The department shall prepare and distribute to each eligible district and eligible school an outline of different strategies the eligible district or eligible school may implement to improve academic achievement. The department shall provide the outline by April 1 of the school year preceding the school year in which the eligible district or eligible school intends to participate in the program. The outline may include, but need not be limited to, the following strategies:

(a) Using disaggregated student data to set academic improvement targets in reading, writing, mathematics, and science;
(b) Using improvement targets to define professional development needs related to content, instruction, differentiation, and best practices in educating special education students, gifted and talented students, English language learners, and other student subgroups, as needed;
(c) Developing interim district-level and building-level assessments to monitor student progress toward proficiency on the state model content standards and developing a plan to immediately address gaps in learning;
(d) Examining and realigning, as needed, school scheduling, academic support systems, and assignments of personnel;
(e) Designing a plan for increasing parental knowledge and skill to support academic objectives; and
(f) Identifying leaders who specialize in rehabilitating failing schools and who may serve as school principals.

(4) (a) An eligible school that chooses to apply for participation in the program shall provide to its district school board a list of the strategies selected from the outline provided by the department that the eligible school intends to implement to improve academic achievement among the students enrolled in the eligible school. The eligible school shall provide the list by May 1 of the school year preceding the school year in which the eligible school intends to participate in the program. If the district school board chooses to allow the eligible school to apply for participation in the program, the district school board shall, in accordance with timelines adopted by rule of the state board, provide to the department a list of the strategies that the district school board and the eligible school have chosen to implement to improve academic achievement among the students enrolled in the eligible school.

(b) An eligible district that chooses to apply for participation in the program shall, in accordance with timelines adopted by rule of the state board, provide to the department a list of the strategies selected from the outline provided by the department that the eligible district has chosen to implement to improve academic achievement within the eligible district.

(5) The state board shall determine the criteria by which eligible districts and eligible schools shall be selected to participate in the program and shall promulgate rules that set forth the criteria.

(6) Subject to available appropriations or gifts, grants, and donations, and upon the request of a participating eligible district or eligible school, the department shall provide assistance through the program to the participating eligible district or eligible school. The assistance may consist of, but is not limited to, information, personnel, and program and technical support.
(7) The state board may promulgate all reasonable and necessary rules to implement this section.

(8) The department may seek, accept, and expend gifts, grants, or donations from private or public sources for the purposes of this section.

PART 7

TEACHER DEVELOPMENT GRANT PROGRAM

22-7-701. Short title. This part 7 shall be known and may be cited as the "Teacher Development Act".

22-7-702. Legislative declaration. (1) The general assembly hereby finds that:
(a) There is a high correlation between student success and excellent teaching;

(b) While educator preparation programs offered by institutions of higher education may provide candidates with the basic knowledge necessary to enter the classroom, ongoing development through school-based, skills-development activities is necessary to enable educators to develop excellent teaching skills;

(c) In-service training programs and similar forms of off-site course work are often unable to provide the kind of skill development needed;

(d) Working collaboratively as colleagues to review assignments, student work, curriculum, and teaching methodology has been proven successful in enabling teachers to determine whether all of these facets of teaching in combination successfully provide the information students need to master reading, writing, mathematics, and science, as indicated by high achievement levels on assessments.

(2) Based on the findings specified in subsection (1) of this section, the general assembly hereby finds that it is necessary to provide grants pursuant to this part 7 to assist schools in providing opportunities for teachers to participate in school-based skills-development activities that are focused on mastering skills in instructing students in reading, writing, mathematics, and science.

Cross references: For the legislative declaration in the 2011 act amending subsection (1)(b), see section 1 of chapter 201, Session Laws of Colorado 2011.

22-7-703. Definitions. As used in this part 7, unless the context otherwise requires:

(1) Repealed.

(2) "Department" means the department of education created in section 24-1-115, C.R.S.

(3) "Grant program" means the teacher development grant program created in section 22-7-704.

(4) "School" means any public school in the state, including but not limited to a traditional public school of a school district, a charter school, and an approved facility school, as defined in section 22-2-402 (1).

(5) "State board" means the state board of education created in section 1 of article IX of the state constitution.

(6) "Teacher development schedule" means a schedule of school-based skills-development activities to assist teachers throughout the school year in improving their classroom teaching skills. A "teacher development schedule" may include, but need not be limited to:

(a) Time set aside during which teachers meet to review their assignments, present lesson plans, and provide feedback to one another; and

(b) On-site training, observation, and evaluation by recognized experts in instructional strategies and techniques.

22-7-704. Teacher development grant program - created - rules. (1) There is hereby created the teacher development grant program to provide moneys to schools for use in providing a teacher development schedule. A teacher development schedule may include only research-based activities that have been proven effective in improving teachers' skills, especially in teaching reading, writing, mathematics, and science.

(2) (a) On or before October 1, 2000, and on or before each October 1 thereafter, subject to available appropriations, the state board shall award teacher development grants to schools selected from those submitting applications pursuant to section 22-7-705. Each grant shall continue for two school years, unless discontinued pursuant to paragraph (b) of this subsection (2). No two-year grant shall exceed twenty thousand dollars. On expiration of a grant, a school may reapply for a grant by submitting an application pursuant to section 22-7-705.

(b) The state board shall annually review each grant recipient's use of the moneys awarded pursuant to this section. Based on the recommendations of the department made pursuant to section 22-7-706 (4), the state board shall discontinue the grant awarded to any recipient that is not making adequate progress in achieving the goals identified in the recipient's grant application.

(c) Moneys received by a school pursuant to the grant program shall be in addition to the moneys budgeted to the school by the school district in which the school is located and shall not reduce the amount of said budgeted moneys that the school would have received if it had not received a grant pursuant to this part 7. Grants awarded through the program shall be paid from moneys in the teacher development fund created in section 22-7-708.

(3) The state board shall implement the grant program in accordance with the provisions of this part 7. Pursuant to article 4 of title 24, C.R.S., the state board shall promulgate such rules as are required in this part 7 and such additional rules as may be necessary for the implementation of the grant program. Participation by a school in the grant program is voluntary.

(4) The department shall solicit and is hereby authorized to receive such public and private gifts, grants, and donations as may be available to fund the grant program. Any moneys so received shall be credited to the teacher development fund created in section 22-7-708.

22-7-705. Teacher development grant program - application. (1) Any school that chooses to participate in the grant program shall submit an application to the department as provided by rule of the state board. Prior to submitting a grant application to the department, an applying school shall submit to the board of education of the school district in which the school is located the items specified in paragraphs (a) to (d) of subsection (2) of this section. Within thirty days after receiving said items, the board of education shall provide to the school a written statement of support or opposition for the proposed schedule that shall include the reasons underlying such support or opposition.

(2) At a minimum, a grant application shall include the following information:

(a) The activities that the school will provide through the teacher development schedule and the research that demonstrates the effectiveness of such activities as implemented in other public or nonpublic schools;
(b) Evidence that the teachers and administrators at the school have participated in selection of the activities to be provided and are in support of the teacher development schedule;

(c) The specific, measurable goals that the school expects to achieve in implementing the teacher development schedule, including both one-year goals and the goals to be achieved upon conclusion of the grant. At a minimum, the school's goals shall include a measurable increase in student learning in the areas of reading, writing, mathematics, and science.

(d) The school's plan for measuring the success of the activities provided through the teacher development schedule in meeting the school's identified goals, including but not limited to how the school will determine improvement in student learning;

(e) The amount of any moneys received by the school pursuant to Title I of the federal "Elementary and Secondary Education Act of 1965", 20 U.S.C. sec. 6301 et seq., how the school is using such moneys, and any improvements in student learning that have occurred in the preceding three years through the use of such moneys;

(f) Whether the school has previously received a grant pursuant to this part 7 and the demonstrated goals achieved in using the grant as specified in the progress and final reports submitted to the department pursuant to section 22-7-707;

(g) A written statement of support for or opposition to the school's proposed teacher development schedule by the board of education of the school district in which the applying school is located, including the reasons underlying such support or opposition.

(3) Repealed.

(4) An institute charter school or approved facility school that submits an application pursuant to this part 7 shall not be required to submit the application to any school district or to include in the application a statement of support for or opposition to the application by a local board of education.

22-7-706. Grants - criteria - repeal. (Repealed)

Editor's note: Subsection (6)(a) provided for the repeal of this section, effective July 1, 2010. (See L. 2004, p. 5.)

22-7-707. Reporting requirements - progress reports - final reports. (1) Each school that receives a grant pursuant to this part 7 shall submit to the department:

(a) A progress report specifying the progress made by the school during the initial year of the grant in achieving the goals specified in the school's grant application;

(b) A final report demonstrating the school's success in achieving the goals specified in the school's grant application.
(2) The state board by rule shall specify the date by which each grant recipient shall submit the progress report and the final report and the specific contents of each report. At a minimum, the progress report and the final report shall:
   (a) Apply the methods identified in the school's plan for measuring the success of the teacher development schedule, as specified in the school's grant application; and
   (b) Specify the student learning results achieved by the school in the areas of reading, writing, mathematics, and science.

(3) Repealed.

22-7-708. Teacher development fund - creation. There is hereby created in the state treasury the teacher development fund referred to in this section as the "fund", for payment of teacher development grants awarded pursuant to section 22-7-704. The fund shall consist of such moneys as may be appropriated thereto by the general assembly and such moneys as may be credited thereto pursuant to section 22-7-704 (4). Moneys in the fund shall be subject to annual appropriation by the general assembly for the purposes specified in this part 7. The department may expend up to three percent of the moneys annually appropriated to the fund to offset the documented costs incurred in implementing the grant program. All interest derived from the deposit and investment of moneys in the fund shall be credited to the fund. At the end of any fiscal year, all unexpended and unencumbered moneys in the fund shall remain therein and shall not be credited or transferred to the general fund or any other fund.

PART 8

SUMMER SCHOOL GRANT PROGRAM

Editor's note: (1) This part 8 was repealed in 2003 and was subsequently recreated and reenacted in 2006, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 8 prior to 2003, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

(2) Prior to the recreation and reenactment of this part 8, section 22-7-806 provided for the repeal of this part 8, effective April 4, 2003. (See L. 2003, p. 515.)

22-7-801. Legislative declaration. (1) The general assembly hereby finds and declares that:
(a) Establishing a summer school grant program to provide funding to school districts and institute charter schools to provide intensive reading, writing, or mathematics education services to students entering the fifth through eighth grades who received an unsatisfactory proficiency level score on the reading, writing, or mathematics component of the Colorado student assessment program for the previous academic year is an important element of an accountable education program to meet state academic standards; and

(b) Research shows that implementing research-based practices, as defined by the federal "No Child Left Behind Act of 2001", 20 U.S.C. sec. 6301 et seq., as amended, can cause significant improvement in a student's performance in reading, writing, or mathematics in a short period.

(2) The general assembly therefore finds that a program to provide grants to school districts and institute charter schools to assist them in providing summer school programs for students who are entering the fifth through eighth grades and are performing unsatisfactorily in reading, writing, or mathematics may receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

Cross references: For the legislative declaration contained in the 2008 act amending subsections (1)(a) and (2), see section 1 of chapter 286, Session Laws of Colorado 2008.

22-7-802. Definitions. As used in this part 8, unless the context otherwise requires:
(1) Repealed.
(2) "Department" means the department of education created in section 24-1-115, C.R.S.
(3) "Eligible student" means a student who will begin fifth, sixth, seventh, or eighth grade in the next academic year and who has received an unsatisfactory proficiency level score on the state reading, writing, or mathematics assessment administered pursuant to section 22-7-1006.3 for the preceding academic year.
(4) "Grant program" means the summer school grant program created in section 22-7-803.
(5) "State board" means the state board of education created pursuant to section 1 of article IX of the state constitution.

Cross references: For the legislative declaration contained in the 2008 act amending subsection (3), see section 1 of chapter 286, Session Laws of Colorado 2008.

22-7-803. Summer school grant program - creation - administration - rules. (1) There is hereby created the summer school grant program to provide grants to school districts and institute charter schools to operate summer school programs for eligible students, subject to the requirements of this part 8. The grant program shall be designed to assist school districts and
institute charter schools in providing intensive educational services to eligible students in the areas of reading, writing, or mathematics.

(2) The department shall administer the grant program and the state board shall award grants as provided in this part 8.

(3) The department shall evaluate the progress of the summer school programs operated by school districts and institute charter schools that receive grants pursuant to this part 8.

(4) (a) The state board shall promulgate rules in accordance with article 4 of title 24, C.R.S., to implement and administer the grant program. At a minimum, the rules shall specify the following:

(I) The time frames for submitting grant program applications;
(II) The form of the grant program application;
(III) The time frames for distribution of the grant moneys;
(IV) The method by which the department shall evaluate the progress of the summer school programs operated by school districts and institute charter schools that receive grants pursuant to this part 8; and
(V) Any other procedures or policies the state board deems necessary to implement and administer the grant program.

(b) In implementing the grant program and rules promulgated pursuant to this subsection (4), the state board shall ensure that all grants awarded pursuant to this part 8 are issued to school districts or institute charter schools on or before April 30 of each budget year for which moneys are appropriated for the grant program.

22-7-804. Summer school programs - requirements. (1) A school district or institute charter school that receives a grant to provide a summer school program pursuant to this part 8 is subject to the following requirements:

(a) The summer school program shall be research-based, pursuant to the federal "No Child Left Behind Act of 2001", 20 U.S.C. sec. 6301 et seq., as amended, and shall be delivered by teachers who are trained in the use of the program.

(b) The school district or institute charter school conducting the summer school program shall administer, in the subject areas in which the summer school program will focus, a test to every eligible student participating in the program. The school district or institute charter school shall administer the test before the program begins and upon completion of the program to evaluate the progress of each eligible student who participates in the program.

(c) The goal of the summer school program shall be to enable eligible students participating in the program to progress from scoring at the unsatisfactory proficiency level in reading, writing, or mathematics, as applicable, to scoring at the proficient level in reading, writing, or mathematics, as applicable.

22-7-805. Summer school grant program - application - criteria. (1) A school district or institute charter school that seeks to receive a grant pursuant to this part 8 shall submit an application to the department in accordance with rules promulgated by the state board. A school
district shall submit an application on behalf of all grade-appropriate schools in the district, including the district charter schools within the district. The application shall include the following information:

(a) The number of eligible students enrolled in the school district or institute charter school, as applicable;
(b) A description of the educational services that the school district or institute charter school anticipates providing through a summer school program;
(c) A description of the method that the school district or institute charter school will use to measure an eligible student's academic progress throughout the program;
(d) A description of the goals that the school district's or institute charter school's summer school program is expected to achieve and the method by which the school district or institute charter school will measure achievement of the goals; and
(e) Any additional information required by rule of the state board promulgated pursuant to section 22-7-803 (4).

(2) The department shall review the applications received from school districts and institute charter schools pursuant to this section and shall make recommendations to the state board concerning the awarding of grants and the amounts of the grants. The state board shall take into consideration the recommendations of the department and shall annually award grants to school districts and institute charter schools in amounts specified by the state board. In awarding grants pursuant to this part 8, the state board shall:

(a) Consider whether the school district's or institute charter school's summer school program complies with the requirements of section 22-7-804;
(b) Consider the geographic location of the school district or institute charter school, as applicable, and, to the extent possible, ensure that grant moneys are awarded to school districts and institute charter schools throughout the state;
(c) Award grants to school districts and institute charter schools that are implementing summer school programs using curricula that are research-based and that have been used with demonstrated success either by the applying school district or institute charter school or by another school district; and
(d) Award grants to school districts and institute charter schools that demonstrate success in improving the academic performance of eligible students in the area of reading, writing, or mathematics, as applicable.

22-7-806. Reporting requirements. (1) On or before October 1 of each year following a budget year for which moneys were appropriated for the grant program, each school district and institute charter school that receives a grant pursuant to this part 8 shall submit a report to the department after completion of its summer school program. The report shall include the following information:

(a) The number of eligible students who participated in the school district's or institute charter school's summer school program, as applicable;
(b) The levels of performance in the subject area in which the summer school program was offered demonstrated by the eligible students participating in the summer school program.
both at the beginning of the program and at the end of the program, based on tests administered
to the eligible students before and after participating in the program; and
(c) Such other information as the state board may by rule, promulgated pursuant to
section 22-7-803 (4), require to assess the effectiveness of the summer school programs operated
by school districts and institute charter schools.

22-7-807. Summer school grant program - funding. (1) For the 2006-07 budget year
and for each budget year thereafter, subject to available appropriations, the general assembly
shall annually appropriate moneys from the state education fund created in section 17 (4) of
article IX of the state constitution to the department to be used to award grants for summer
school programs pursuant to this part 8.

(2) The department may annually withhold a portion of the moneys appropriated for the
purposes of this part 8 to offset the direct costs incurred in administering the grant program and
in evaluating the progress of each summer school program pursuant to the requirement of section
22-7-803 (3). The amount withheld by the department in any budget year shall not exceed three
percent of the amount appropriated for the purposes of this part 8 in that budget year.

PART 9

READ-TO-ACHIEVE GRANT PROGRAM

22-7-901 to 22-7-909. (Repealed)

Editor's note: (1) This part 9 was added in 2007. For amendments to this part 9 prior to
its repeal in 2012, consult the 2011 Colorado Revised Statutes and the Colorado statutory
research explanatory note beginning on page vii in the front of this volume.

(2) Section 22-7-909 provided for the repeal of this part 9, effective July 1, 2012. (See L.
2012, p. 672.)

PART 10

PRESCHOOL TO POSTSECONDARY
EDUCATION ALIGNMENT

22-7-1001. Short title. This part 10 shall be known and may be cited as the "Preschool to
Postsecondary Education Alignment Act".

22-7-1002. Legislative declaration. (1) The general assembly hereby finds that:
(a) Since 1993, implementation of standards-based education has resulted in significant increases in the ability of school districts and the state to measure what each student knows and is able to demonstrate at various levels in the student's academic career and in significant increases in learning and academic achievement among some students enrolled in the public schools of the state;

(b) However, Colorado continues to see a widening of the achievement gap, unacceptably high dropout rates throughout the state, unacceptably low numbers of high school graduates who continue into and successfully complete higher education, and an unacceptably high need for remediation among those students who do continue into higher education;

(c) From the inception of the nation, public education was intended both to prepare students for the workforce and to prepare them to take their place in society as informed, active citizens who are ready to both participate and lead in citizenship. In recent years, the emphasis in public education has been squarely placed on the areas of reading, writing, mathematics, and science, but it is important that education reform also emphasize the public education system's historic mission of education for active participation in democracy.

(d) With the advent of the twenty-first century and increasing expectations and demands with regard to the use of technology and higher-level critical thinking skills, coupled with increasing levels of national and international economic competition, it is now imperative that the state move to the next generation of standards-based education.

(2) The general assembly finds that:

(a) More and more studies indicate that high-quality early learning experiences are crucial to ensuring students' ultimate success in school, in postsecondary education, in the workforce, and in life, generally;

(b) The next generation of standards-based education must take into account the fact that children enter school with varying skills and experiences. Under the Colorado student assessment program, Colorado does not have the ability to describe achievement gaps until students are in third grade, which, in most circumstances, is too late to adequately address the varying skill levels and experiences with which the students entered school. Understanding the skills, knowledge, and behavior that students bring to their earliest years of public education will provide crucial information to families, communities, schools, and teachers so that they can better support young children's learning and development.

(c) With the increasing number of children who participate in preschool and the recognized importance of providing a high-quality preschool experience, the next generation of standards-based education must ensure that preschools provide very high-quality services that are most likely to help students develop the necessary skills to excel as they enter elementary school.

(3) The general assembly finds that:

(a) The next generation of standards-based education must consider the needs of the whole student by creating a rich and balanced curriculum;

(b) The next generation of standards-based education must also take into account the fact that, while all students must be well prepared for active citizenship, different students will have different career aspirations: Some will seek higher education upon graduation; some will seek career or technical training to pursue a particular vocation; others will immediately seek to enter the workforce;
(c) In the modern world, however, there is little variation in the level of academic preparedness that a student must achieve in order to succeed after high school, regardless of the student's aspirations. To be successful in the workforce and earn a living wage immediately upon graduation from high school, a student needs nearly the same level of academic achievement and preparation that he or she would need to continue into career and technical or higher education.

(d) In providing the curricula to ensure that each student attains the level of academic achievement and preparation he or she needs to continue into the student's chosen post-graduation path of entering the workforce, career and technical education, or higher education, a wide variety of curricular and program options will be necessary to spark in each student the ambition and desire to graduate from high school and achieve his or her aspirations;

(e) Public education must encourage and accommodate students' exposure to and involvement in postsecondary planning and in activities that develop creativity and innovation skills; critical-thinking and problem-solving skills; communication and collaboration skills; social and cultural awareness; civic engagement; initiative and self-direction; flexibility; productivity and accountability; character and leadership; information technology application skills; and other skills critical to preparing students for the twenty-first-century workforce and for active citizenship;

(f) The ultimate goal of public education, whatever the student's post-high school aspirations may be or whatever they may become over time, is to ensure that, to the extent possible, each student is prepared to meet his or her full potential. To this end, the system of preschool through postsecondary public education, and the educators who ensure its success, should never cease in striving to help a student achieve mastery of both knowledge and skills.

(4) The general assembly concludes, therefore, that:

(a) To educate students to their full potential, the state must align the public education system from preschool through postsecondary and workforce readiness. This alignment will ensure that a student who enters school ready to succeed and achieves the required level of proficiency on standards as he or she progresses through elementary and secondary education will have achieved postsecondary and workforce readiness when the student graduates from high school, if not earlier. As such, the student will be ready to enter the workforce or to enter postsecondary education without need for remediation.

(b) Alignment of standards from preschool through postsecondary and workforce readiness requires that the state board of education and the Colorado commission on higher education, with the departments of education and higher education, work in close collaboration to create a seamless system of public education standards, expectations, and assessments;

(c) Creating this seamless system of standards, expectations, and assessments from preschool through postsecondary and workforce readiness is a multi-faceted and complex project that will require multiple stages of planning, design, and implementation and that will likely continue over years. Further, achieving the goals outlined in this part 10 will likely require the reallocation of existing state resources and the identification and allocation of new resources to meet increased needs at the state and local levels, including but not limited to significant investment in professional development for educators.

(d) Aligning standards from preschool through postsecondary and workforce readiness and creating a seamless system of public education will place even greater demands on principals, teachers, and other educators. The general assembly recognizes that enabling them to meet these demands will require an investment in professional development.
Throughout the process of creating a seamless system of public education in Colorado, the state board of education and the Colorado commission on higher education must ensure that the standards for preschool through elementary and secondary education, culminating in postsecondary and workforce readiness, are sufficiently relevant and rigorous to ensure that each student who receives a public education in Colorado is prepared to compete academically and economically within the state or anywhere in the nation or the world.

The general assembly finds and declares that, for purposes of section 17 of article IX of the state constitution, adoption and implementation of a school readiness description, of standards and aligned assessments for preschool through elementary and secondary education, and of a postsecondary and workforce readiness description are critical elements of accountable education reform and accountable programs to meet state academic standards and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

22-7-1003. Definitions. As used in this part 10, unless the context otherwise requires:
(1) "Assessment" means the method used to collect evidence of what a student knows and is able to do and to measure a student's academic progress toward attaining a standard.
(2) "Board of cooperative services" or "BOCES" means a board of cooperative services created and operating pursuant to article 5 of this title that operates one or more public schools.
(3) "Commission" means the Colorado commission on higher education created pursuant to section 23-1-102, C.R.S.
(4) "Commissioner" means the commissioner of education appointed by the state board pursuant to section 22-2-110.
(5) "District charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title. A district charter school is a "district charter high school" if it serves any of grades nine through twelve.
(6) "Division of child care" means the division within the department of human services that is responsible for child care regulation.
(7) "Executive director" means the executive director of the department of higher education appointed by the governor pursuant to section 24-1-114, C.R.S.
(8) "Institute charter school" means a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title. An institute charter school is an "institute charter high school" if it serves any of grades nine through twelve.
(9) "Local education provider" means a school district, a board of cooperative services, a district charter school, or an institute charter school.
(10) "Local school board" means a school district board of education.
(11) "P-20 council" means the P-20 education coordinating council appointed by the governor pursuant to executive order B 003 07.
(11.5) "Performing arts" shall have the same meaning as provided in section 22-1-104.5 (1)(b).
(12) to (14) Repealed.
"Postsecondary and workforce readiness" means the knowledge and skills that a student should have attained prior to or upon attaining a high school diploma, as adopted by the state board and the commission pursuant to section 22-7-1008.

(16) Repealed.

"Postsecondary and workforce readiness program" means a program of study that, prior to or beginning in ninth grade and continuing through twelfth grade, is designed to prepare a student to demonstrate postsecondary and workforce readiness prior to or upon attaining a high school diploma.

"Postsecondary education" means all formal public education that requires as a prerequisite the acquisition of a high school diploma or its equivalent. "Postsecondary education" includes programs resulting in acquisition of a certificate, an associate degree of applied sciences, an associate degree of general studies, an associate degree of arts, or an associate degree of science and all baccalaureate degree programs.

"Regional educator meeting" means a meeting convened pursuant to section 22-7-1011 by the commissioner and the executive director in a regional service area.

"School district" means a school district, other than a local college district, organized and existing pursuant to law.

"School readiness" means the level of development that indicates a child is able to engage in and benefit from elementary school classroom environments, as adopted by the state board pursuant to section 22-7-1004.

"Standard" means a clear, measurable, learning target for what a student should know or be able to do relative to a particular instructional area.

"State board" means the state board of education created pursuant to section 1 of article IX of the state constitution.

"State plan" means the state plan required by the federal "No Child Left Behind Act of 2001", 20 U.S.C. sec. 6301 et seq.

"Visual arts" shall have the same meaning as provided in section 22-1-104.5 (1)(c).

Cross references: For the legislative declaration in the 2010 act adding subsections (11.5) and (25), see section 1 of chapter 233, Session Laws of Colorado 2010.
nationwide as reliable instruments for measuring school readiness; and suitable for determining the instruction and interventions students need to improve their readiness to succeed in school. School readiness assessments shall not be used to deny a student admission or progression to kindergarten or first grade.

(b) School readiness assessment results shall not be publicly reported for individual students. Following adoption of the school readiness assessment, the state board shall adopt a system for reporting population-level results that provide baseline data for measuring overall change and improvement in students' skills and knowledge over time.

(3) (a) On or before July 1, 2017, and on or before July 1 every six years thereafter, the state board shall review the school readiness description and shall adopt any appropriate revisions to the description. The state board shall review the school readiness assessments and adopt any appropriate revisions to the school readiness assessments when the board reviews the assessments as specified in section 22-7-1006 (5).

(b) The state board shall ensure that any revisions adopted pursuant to this subsection (3) continue to meet the requirements for the description of school readiness and the school readiness assessments specified in this section.

22-7-1005. Preschool through elementary and secondary education - aligned standards - adoption - revisions.

(1) On or before December 15, 2009, the state board shall adopt standards that identify the knowledge and skills that a student should acquire as the student progresses from preschool through elementary and secondary education.

(2) (a) The state board shall ensure that the preschool through elementary and secondary education standards, at a minimum, include standards in reading, writing, mathematics, science, history, geography, visual arts, performing arts, physical education, world languages, English language competency, economics, civics, financial literacy, and any other instructional areas for which the state board had adopted standards as of January 1, 2008.

(b) In developing the preschool through elementary and secondary education standards, the state board shall also take into account any career and technical education standards adopted by the state board for community colleges and occupational education, created in section 23-60-104, C.R.S., and, to the extent practicable, shall align the appropriate portions of the preschool through elementary and secondary education standards with the career and technical education standards.

(c) In developing the preschool through elementary and secondary education standards, the state board shall include identification of the levels of attainment that a student shall achieve in order to demonstrate readiness for promotion from elementary grades to middle school grades and from middle school grades to high school grades.

(2.3) On or before July 1, 2020, the state board shall adopt standards that identify the knowledge and skills that an elementary through secondary education student should acquire related to mental health, including suicide prevention. When the state board is adopting standards, the state board shall take into account what local education providers are currently teaching with regard to mental health.
(2.5) On or before July 1, 2018, the state board shall adopt standards that identify the knowledge and skills that a secondary student should acquire related to computer science, including computer code writing, in one or more courses that qualify as a graduation requirement in either mathematics or science. Local education providers may elect to implement the standards adopted pursuant to this subsection (2.5).

(2.6) (a) The state board shall adopt revisions to the reading, writing, and civics standards that identify the knowledge and skills that an elementary through secondary education student should acquire relating to media literacy. The knowledge and skills relating to media literacy must give due consideration to recommendations made by the media literacy Advisory committee's report pursuant to section 22-2-145 (2)(a)(I).

(b) The initial adopted revisions required by subsection (2.6)(a) of this section, and subsequent reviews and adoptions of any appropriate revisions, must occur pursuant to the standard schedule described in subsection (6) of this section.

(2.7) (a) On or before July 1, 2021, the state board shall adopt standards that identify the knowledge and skills that students should acquire as a condition of high school graduation related to Holocaust and genocide studies, as defined in section 22-1-104.7 (1), including but not limited to the Armenian Genocide.

(b) In creating the standards described in subsection (2.7)(a) of this section, the department of education shall utilize a stakeholder process that is cost-effective and efficient, including the use of experts in the community.

(c) The adoption of the standards identified in this subsection (2.7) is conditional on the receipt of gifts, grants, or donations.

(2.8) Pursuant to the schedule of revisions set forth in subsection (6)(b)(II)(A) of this section, the state board shall ensure that the ninth through twelfth grade financial literacy standards include an understanding of:

(a) (I) The costs associated with obtaining a postsecondary degree or credential in Colorado and out of state, including but not limited to tuition and fees, room and board, and other costs;

(II) How to assess the affordability of and budget for different options for obtaining a postsecondary degree or credential;

(III) The ways in which students pay for higher education, including but not limited to using funds from savings accounts and obtaining student loans, grants, or scholarships;

(IV) Types of student loan programs and types of student loan debt, including public and private loans;

(V) The purpose of the free application for federal student aid, or FAFSA, or a successor form, to access federal student aid; its use in determining a student's eligibility for federal, state, and private financial aid, including grants, scholarships, and work study, which are forms of financial aid that do not need to be repaid by the student; how to access the FAFSA electronically or in another format; and where to access help from the student's school or from other sources in completing the FAFSA;

(VI) The purpose of the Colorado application for state financial aid, or CASFA, or a successor form, to access state student aid; its use by students who are not eligible for financial aid pursuant to Title IV, Part B of the federal "Higher Education Act of 1965", as amended, or an equivalent statewide financial aid application that uses FAFSA methodology to determine student financial need and eligibility for state financial aid programs; how to access the CASFA
electronically or in another format; and where to access help from the student's school or from other sources in completing the CASFA.

(VII) Repayment of student loans and the requirement to repay student loans, even if the student does not complete the credential, and the consequences of defaulting on student loans;

(VIII) State and federal programs that may be available to manage student loan debt; and

(IX) Potential career earnings, including starting salary by field and level of degree or credential;

(b) Common methods for saving for retirement, including long-term investments, tax-deferred accounts, pensions, and government retirement benefits;

(c) Credit cards and managing credit card debt; and

(d) Homeownership and mortgages.

(3) The state board in adopting the preschool through elementary and secondary education standards shall:

(a) Align the standards to ensure that a student who demonstrates attainment of the standards as the student advances from preschool through elementary and secondary education will be able to demonstrate postsecondary and workforce readiness prior to or upon attaining a high school diploma;

(b) Collaborate with the commission to ensure that the standards are aligned with the description of postsecondary and workforce readiness adopted pursuant to section 22-7-1008;

(c) Ensure that the standards will facilitate longitudinal measurement of each student's academic growth from preschool through elementary and secondary education;

(d) Ensure that the standards include development of postsecondary planning skills and the application of those skills;

(e) Ensure that, in addition to measuring a student's subject matter knowledge, the standards, to the extent practicable, will require a student to develop and demonstrate creativity and innovation skills; critical-thinking and problem-solving skills; communication and collaboration skills; social and cultural awareness; civic engagement; initiative and self-direction; flexibility; productivity and accountability; character and leadership; the ability to use information and communications technologies to find, evaluate, create, and communicate information; and other skills critical to preparing students for the twenty-first-century workforce and for active citizenship; and

(f) Ensure that the standards are comparable in scope, relevance, and rigor to the highest national and international standards that have been implemented successfully and are consistent with and relevant to achievement of the goals specified in section 22-7-1002.

(4) Repealed.

(5) The state board shall modify the preschool through elementary and secondary education standards adopted pursuant to this section as necessary in response to comments received through the peer review process and to reflect the contents of the state plan approved pursuant to section 22-7-1012.

(6) (a) Pursuant to subsection (6)(b) of this section, the state board shall review and adopt any appropriate revisions to the preschool through elementary and secondary education standards specified in this section. In adopting revisions, the state board may add or delete one or more of the specific instructional areas based on the needs of the state and changes in national and international academic expectations. In adopting revisions to the standards pursuant to this subsection (6), the state board shall ensure that the standards continue to meet the requirements
specified in subsection (3) of this section. In adopting revisions to the standards related to history and civics, the state board shall take into consideration any recommendations provided by the history, culture, social contributions, and civil government in education commission established in section 22-1-104.3.

(b) (I) The state board shall ensure that all preschool through elementary and secondary education standards specified in this section are reviewed at least, but not more than, once every six years pursuant to subsection (6)(b)(II) of this section.

(II) (A) On or before July 1, 2022, and on or before July 1 every six years thereafter, the state board shall perform the requirements pursuant to subsection (6)(a) of this section for approximately one-third of the preschool through elementary and secondary education standards specified in this section.

(B) On or before July 1, 2024, and on or before July 1 every six years thereafter, the state board shall perform the requirements pursuant to subsection (6)(a) of this section for approximately one-third of the preschool through elementary and secondary education standards specified in this section.

(C) On or before July 1, 2026, and on or before July 1 every six years thereafter, the state board shall perform the requirements pursuant to subsection (6)(a) of this section for the remaining approximately one-third of the preschool through elementary and secondary education standards specified in this section.

For the legislative declaration in HB 17-1184, see section 1 of chapter 145, Session Laws of Colorado 2017. For the legislative declaration in HB 19-1120, see section 1 of chapter 197, Session Laws of Colorado 2019. For the legislative declaration in HB 21-1103, see section 1 of chapter 187, Session Laws of Colorado 2021. For the legislative declaration in HB 21-1200, see section 1 of chapter 284, Session Laws of Colorado 2021.

22-7-1006. Preschool through elementary and secondary education - aligned assessments - adoption - revisions. (1) (a) On or before December 15, 2010, or as soon thereafter as fiscally practicable, the state board shall adopt a system of assessments that are aligned with the preschool through elementary and secondary education standards and are designed to measure students' levels of attainment of the standards and to longitudinally measure
students' academic progress toward attaining the standards and toward attaining postsecondary and workforce readiness. In adopting the system of assessments, the state board shall ensure, at a minimum, that the system is designed to:

(I) Provide relevant, timely results that will aid teachers, parents, and students in identifying areas in which students may need additional support or assistance in attaining the standards;

(II) Facilitate and ensure longitudinal measurement of students' academic growth over time;

(III) Provide guidance to teachers, parents, and students in determining whether each student is making the necessary progress toward achieving postsecondary and workforce readiness;

(IV) Provide results that may be used across multiple education systems as a student progresses from preschool through elementary and secondary education and into postsecondary education;

(V) Maintain a high level of accountability across the state for students, schools, and school districts;

(VI) Comply with the requirements of federal law with regard to statewide standardized testing; and

(VII) Provide assessment scores that are useful in measuring student academic performance, the academic performance of a school, and the academic performance of a school district for purposes of state and federal accountability systems.

(b) In adopting a system of assessments, the state board shall give consideration to the use of authentic assessment methods, such as portfolios, projects, and performances, so long as the assessment methods are valid and reliable, employ standard scoring criteria, and align with the preschool through elementary and secondary education standards.

(c) In adopting a system of assessments, the state board shall also adopt scoring criteria for measuring a student's level of attainment of a standard based on the student's performance on a particular assessment and for measuring a student's progress toward attaining postsecondary and workforce readiness.

(d) In adopting a system of assessments, the state board shall also make recommendations concerning a system of ratings for public schools that recognizes each school's success in supporting the longitudinal academic growth of the students enrolled in the public schools and in achieving adequate yearly progress as required by federal law.

(e) In adopting a system of assessments, the state board shall recommend legislative changes as necessary to implement the system and the proposed changes to the system of ratings for public schools.

(f) The state board shall ensure that the assessments adopted pursuant to this section are a combination of constructed response and selected response tasks that require the student to produce information or perform tasks in a way that the student's skills and competencies can be measured.

(1.5) Colorado shall participate as a governing board member, at least until January 1, 2014, in a consortium of states that focuses on the readiness of students for college and careers by developing a common set of assessments. On or before January 1, 2014, and on or before each January 1 thereafter, if Colorado is a governing board member of the consortium of states, the state board is strongly encouraged to conduct a fiscal and student achievement benefit
analysis of Colorado remaining a governing board member of the consortium. If adopting the system of assessments that is aligned with the state standards for reading, writing, and mathematics, the state board shall rely upon assessments developed by the consortium of states.

(2) In adopting the system of assessments, the state board shall ensure that the assessments it adopts that are administered in high school are designed to enable a student to demonstrate postsecondary and workforce readiness by the time the student graduates from high school.

(3) In adopting an assessment that is aligned with the state standards for writing, the state board shall:

(a) Ensure that any writing assessment that is included within the system of assessments can be evaluated and the results returned to the local education providers in a timely manner and that the assessment is designed to provide relevant, useful results; and

(b) Seek input from local education providers concerning the writing assessments used by each local education provider, the usefulness of the assessments, and recommendations from the local education provider concerning writing assessments that would be effectively used at a statewide level.

(4) The state board shall modify the system of assessments adopted pursuant to this section as necessary in response to comments received through the peer review process and to reflect the contents of the state plan approved pursuant to section 22-7-1012.

(5) (a) Every six years after the adoption of the system of assessments pursuant to paragraph (a) of subsection (1) of this section, the state board shall review and adopt any appropriate revisions or updates to the system of assessments, including any assessments administered in languages other than English. The state board may adopt revisions to an assessment or adopt additional assessments, regardless of whether it adopts any revision to the standards with which the assessment is aligned. In adopting revisions to the system of assessments, the state board shall ensure that the system of assessments continues to meet the requirements specified in this section. The department of education shall review and update the administration and security policies for assessments as necessary to maintain the integrity of the assessments.

(b) In reviewing the assessments administered to students enrolled in high school, the state board shall adopt any revisions that may be necessary to ensure that the assessments are aligned with any revisions to the description of postsecondary and workforce readiness adopted by the state board and the commission pursuant to section 22-7-1008 (3)(a).

Editor's note: Amendments to subsection (5) by § 2 and § 48 of HB 15-1323 were harmonized.

22-7-1006.1. Assessment selection - department of education - study - legislative declaration - repeal. (Repealed)
22-7-1006.3. State assessments - administration - rules. (1) (a) Beginning in the 2015-16 school year, the department of education, in collaboration with local education providers, shall administer the state assessments in the instructional areas of English language arts, mathematics, science, and social studies, as adopted by the state board pursuant to section 22-7-1006, as follows:

(I) The department shall administer a state assessment in English language arts and a state assessment in mathematics to all students enrolled in grades three through eight in public schools throughout the state.

(II) The department shall administer a state assessment in science to students enrolled in public elementary, middle, and high schools throughout the state. The department shall select the specific grades in which to administer the state science assessment, ensuring that students take the state science assessment once in elementary school, once in middle school, and once in high school; except that the department shall not administer the state science assessment to students enrolled in twelfth grade.

(III) The department shall administer a state assessment in social studies to students enrolled in public elementary and middle schools throughout the state. The department shall select the specific grades in which to administer the state social studies assessment, ensuring that students take the state social studies assessment once in elementary school and once in middle school. The department shall administer the social studies assessment required by this subsection (1)(a)(III) in a representative sample of public schools each school year, ensuring that it administers the social studies assessment in each public school at least once every three years. A school district, for one or more of the schools of the school district that are not included in the representative sample, or a charter school that is not included in the representative sample, may request that the department administer the assessment in the district school or charter school. The department shall administer the social studies assessment in the requested school in the school year following the school year in which it receives the request.

(b) Repealed.

(c) The department of education, in collaboration with local education providers, shall administer the state assessments on a schedule that the department annually sets.

(d) If all or any portion of a state assessment administered pursuant to subsection (1)(a) of this section requires a student to use a computer to take the assessment, at the request of a local education provider, the department of education must administer the portions of the state assessment that require a computer in a format that a student may complete using pencil and paper. Each local education provider shall report to the department the number of students it enrolls who will take the state assessment in a pencil-and-paper format.
The department shall review and update assessment administration and security policies as necessary to maintain the integrity of the assessments.

(2) (a) The department of education shall select and the state shall pay the costs of administering an assessment that is aligned with the state academic standards for students enrolled in ninth grade and with the assessment selected pursuant to subsection (2)(a.5) of this section. Every five years, the department shall request competitive bids and contract for the assessment required in this subsection (2)(a). Each local education provider shall administer the ninth-grade assessment during the spring semester on a schedule that the department annually sets.

(a.5) The department of education shall select and the state shall pay the costs of administering an assessment that is aligned with the state academic standards for students enrolled in tenth grade and with the assessment selected pursuant to subsection (2)(b) of this section. Every five years, the department shall request competitive bids and contract for the assessment required in this subsection (2)(a.5). Each local education provider shall administer the assessment for students enrolled in tenth grade. Each local education provider shall administer the tenth-grade assessment on a schedule that the department annually sets.

(b) The department of education shall select and the state shall pay the costs of administering an assessment that is administered throughout the United States and relied upon by institutions of higher education, referred to in this section as the "curriculum-based, achievement college entrance exam". Every five years, the department shall request competitive bids and contract for the curriculum-based, achievement college entrance exam. At a minimum, the curriculum-based, achievement college entrance exam must test in the areas of reading, writing, mathematics, and science. Each local education provider shall administer the curriculum-based achievement college entrance exam for students enrolled in eleventh grade. The local education provider shall administer the writing portion of the curriculum-based, achievement college entrance exam to each student who requests the opportunity to take the writing portion. The department shall pay the costs of administering the writing portion of the exam.

(c) (I) The department of education shall annually schedule a day on which the curriculum-based, achievement college entrance exam is administered for all eleventh-grade students enrolled in public high schools throughout the state.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (c), a student who can show a need to take the curriculum-based, achievement college entrance exam on an alternate date on which the exam is administered throughout the country may take the exam on that alternate date, so long as the alternate date is before the date scheduled by the department pursuant to subparagraph (I) of this paragraph (c). The department shall pay all costs associated with a student taking the curriculum-based, achievement college entrance exam on an alternate date as provided in this subparagraph (II).

(d) The state board shall adopt rules to ensure that the requirements of the administrator of the curriculum-based, achievement college entrance exam, such as a secure environment, are met and to identify the level of need that a student must demonstrate to take the curriculum-based, achievement college entrance exam on an alternate date as provided in subparagraph (II) of paragraph (c) of this subsection (2).

(2.5) As soon as practicable after June 10, 2016, the department of education shall apply to the federal department of education for innovative assessment and accountability demonstration authority as authorized in section 1201 of Title I of part B of the federal "Every
Student Succeeds Act”, Pub.L. 114-95, enacted by the 114th Congress. The commissioner of education shall notify the chairs of the education committees of the house of representatives and the senate, or any successor committees, when the department submits the application and when the department receives the response from the federal department of education granting or denying the state demonstration authority.

(3) (a) Except as otherwise provided in paragraphs (b) and (c) of this subsection (3), each student enrolled in a public school is required to take the state assessments administered pursuant to subsection (1) of this section at the student's grade level, as determined by the enrolling local education provider.

(b) A child who is enrolled in a nonpublic school or participating in a nonpublic home-based educational program pursuant to section 22-33-104.5 is not required to take a state assessment administered pursuant to this section, even though the child may also be attending a public school for a portion of the school day and therefore included in the enrollment of a local education provider.

(c) A student who has an individualized education program as provided in section 22-20-108, and whose individualized education program specifies that the student takes the state's alternate assessment for students with significant cognitive disabilities or another assessment approved by rule of the state board, is not required to take the state assessments administered pursuant to subsection (1) of this section, but the student must take the alternate assessment or the other approved assessment. Each local education provider shall report to the department of education the results of the alternate assessments or other approved assessments administered to students enrolled by the local education provider. The department shall aggregate the results separately for each public school.

(d) If a student has an individualized education program as provided in section 22-20-108 that specifies that the student takes the state assessment, the enrolling local education provider shall assess the student in each instructional area for which there is a state test at the student's grade level. If, as part of a student's individualized education program, the student attends part-time a school or program away from the school in which the student is enrolled, the local education provider that enrolls a student, or the administrative unit that the local education provider is a member of, may designate either the school of residence or the school of attendance as the school to which the department of education must assign the student's scores for purposes of measuring the levels of attainment on the performance indicators specified in section 22-11-204, determining accreditation categories pursuant to section 22-11-208, and measuring public school performance pursuant to section 22-11-210. If a student who has an individualized education program attends school in an administrative unit other than the student's administrative unit of residence, and there is a contract between the two administrative units, the administrative units must specify in the contract the public school to which the department shall assign the student's scores for purposes of measuring the levels of attainment on the performance indicators, determining accreditation categories, and measuring public school performance.

(4) (a) (I) The department of education in collaboration with local education providers shall administer the English versions of the state assessments and may administer an assessment adopted by the state board in languages other than English, as may be appropriate for English language learners; except that a student who has participated in an English language proficiency program, as provided in article 24 of this title, for more than a total of three school years is ineligible to take the state assessments in a language other than English.
(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (a) to the contrary, a local education provider may administer an assessment adopted by the state board in a language other than English for up to five years to a student who is an English language learner if allowed by a waiver received from the federal department of education pursuant to paragraph (c) of this subsection (4).

(b) The state board shall revise as necessary and the department of education shall administer reading and writing assessments in Spanish for students enrolled in the third and fourth grades.

(c) As soon as practicable after May 20, 2015, the department of education shall submit to the federal department of education a request for a waiver of federal law to enable a local education provider to administer a state assessment in a language other than English for up to five school years to a student who is an English language learner.

(5) (a) Notwithstanding any provision of this section to the contrary, a student who is an English language learner, as defined in section 22-24-103, and who has been enrolled in a school in the United States for fewer than twelve months is not required to take the English language arts assessment required in subsection (1) of this section. The year in which the student does not take the English language arts assessment is included as one of the three or five years, as applicable, in which the student may take the state assessment in his or her native language as provided in subsection (4) of this section.

(b) If allowed by federal law or by a waiver of federal law received from the federal department of education pursuant to paragraph (c) of this subsection (5), in the first twenty-four months in which a student who is an English language learner is enrolled in a school in the United States and takes the English language arts assessment, the department of education shall not include the student's scores in calculating achievement of the performance indicators pursuant to part 2 of article 11 of this title for the local education provider that enrolls the student.

(c) As soon as practicable after May 20, 2015, the department of education shall submit to the federal department of education a request for a waiver of federal law as necessary to implement paragraph (b) of this subsection (5).

(6) The department of education, by policy, may determine whether the scores of one or more groups of students are not appropriate to be used in measuring the levels of attainment on the performance indicators, as defined in section 22-11-103. A policy that the department adopts pursuant to this subsection (6) must be in accordance with the requirements of federal statutes and regulations.

(7) (a) The department of education shall provide to each local education provider the results of all of the state assessments that the local education provider administers and make available to local education providers the state assessment data of individual students that is required to measure academic progress over time. The department shall align the disaggregation of state assessment results with the exclusion of scores permitted by subsection (6) of this section.

(b) The department of education shall release to the public only those state assessment results that the department deems valid. The department shall not rely on state assessment results that the department has deemed invalid in performance calculations when assigning accreditation levels or school plan types, as described in article 11 of this title, to a local education provider. At any time that the department releases state assessment results to the public, in addition to
releasing the results of the English versions of the state assessments, the department shall release the results of any state assessments administered in languages other than English.

(c) At the request of a local education provider, the entity that is responsible for developing a state assessment must return to the local education provider the student responses to the essay portion and appropriate paragraphs that are released from the English language arts portion of the state assessment and the results of all requested state assessments. The requesting local education provider must pay the entity for the actual cost of photocopying and mailing the English language arts portion of the state assessment. The requesting local education provider shall maintain the confidentiality of all state assessment results that it receives and may use the essay portion and appropriate paragraphs only to improve an individual student's writing skills.

(d) Each local education provider shall include the results of the state assessments administered pursuant to subsection (1) of this section on each student's final report card for the applicable school year and include the results in the student's permanent academic record; except that a local education provider may include state assessment data on a student's final report card only if the local education provider has sufficient time to process the state assessment results after they are released.

(8) (a) Each local education provider shall adopt policies to ensure that appropriate personnel within each school district and each institute charter school share with and explain to the parent or legal guardian of each student enrolled in the school district or the institute charter school the student's state assessment results returned to the student's public school pursuant to subsection (7) of this section.

(b) The department of education shall create, maintain, and make available to local education providers and parents or legal guardians, upon request, a list of resources and programs that public schools and parents or legal guardians may access to assist students in addressing specific learning issues identified by the state assessment results provided pursuant to this section.

(9) (a) The department of education shall permit a nonpublic school to administer the state assessments required by subsection (1) of this section and shall provide to the nonpublic school the results of any state assessments administered. The nonpublic school must pay all costs associated with administering and providing results for the state assessments.

(b) A local education provider, upon the request of the parent or legal guardian of a child who is participating in a nonpublic home-based educational program pursuant to section 22-33-104.5, must permit the child to take a state assessment required by subsection (1) of this section and must provide to the parent or legal guardian of the child the results of state assessments administered. The parent or legal guardian of the child must pay all costs associated with administering and providing results for the state assessments.

(10) For each fiscal year, the general assembly shall appropriate money in the annual general appropriation act to the department of education to fund administration of the state assessments as described in this section, including administration of the ninth-grade assessment, the tenth-grade assessment, and the curriculum-based, achievement college entrance exam described in subsection (2) of this section.

(11) Repealed.

22-7-1006.5. Pilot program - alternative assessment. (1) There is created a pilot program to allow local education providers to create or select assessments, which the local education provider may administer to prove the validity and reliability of the assessments and the comparability of the assessments with the state assessments. The goals of the pilot program are to provide more timely and relevant data to educators to inform instruction throughout the school year, while continuing to provide comparative data for state accountability purposes.

(2) (a) For a local education provider to participate in the pilot program as described in this section, the local school board or other governing body of the local education provider must first adopt a written resolution that authorizes the local education provider to participate in the pilot program.

(b) If authorized by its local school board or other governing body, a local education provider, individually or in combination with one or more other local education providers, may participate in the first phase of the pilot program by creating or selecting assessments that meet the requirements specified in subsection (3) of this section and administering those assessments for two school years to all or a portion of the students enrolled in at least one elementary grade, one middle school grade, and one high school grade. After administering the assessments for two school years, the local education provider must submit to the department of education the assessment results for each year in which they were administered and the local education provider's demonstration that the results are comparable to the results obtained on the state assessments administered in the same school years.

(c) A local education provider that is selected to participate in phase two of the pilot program pursuant to subsection (4) of this section shall administer its selected assessments for up to two years to students enrolled by the local education provider in grades three through eleven. The local education provider shall submit to the department the assessment results for each year in which they were administered and the local education provider's demonstration that the results are comparable to the results obtained on the state assessments administered in the same school years.

(d) A local education provider that participates in the pilot program must:

(I) Notify the department of education at the beginning of each school year in which it intends to administer assessments pursuant to this section and identify the assessments that the local education provider intends to administer;
(II) Notify the parents of the students enrolled by the local education provider at the beginning of each school year in which it intends to administer assessments pursuant to this section that the local education provider is choosing to administer assessments pursuant to this section; and

(III) If the local education provider is a school district, work with the school district's personnel performance evaluation council created pursuant to section 22-9-107 in selecting or creating and administering assessments pursuant to this section.

(3) The assessments that a local education provider chooses to administer pursuant to this section must:

(a) In phase one of the pilot program, assess students in each of the subject areas required in section 22-7-1006.3 in at least one elementary grade, one middle school grade, and one high school grade;

(b) In phase two of the pilot program, assess students in all of the subject areas and at all of the grade levels required in section 22-7-1006.3;

(c) Provide sufficient data each school year to disaggregate and report results for student groups as defined in section 22-11-103 (34); and

(d) Provide sufficient data each school year to measure, for each student enrolled in the grades that are assessed, the student's progress in meeting the state academic standards.

(4) (a) Each local education provider that participates in phase one of the pilot program shall submit the results of the local assessments to the department of education for analysis and evaluation. After the department receives the local assessment data from all participating local education providers, the department shall review the data to ensure that each assessment meets the requirements specified in subsection (3) of this section and that each assessment is valid and reliable. Based on the assessment data, the department shall recommend to the state board two of the local education providers to participate in phase two of the pilot program. The state board, taking into consideration the department's recommendations, shall select the two local education providers that may participate in phase two of the pilot program.

(b) Each local education provider that participates in phase two of the pilot program shall submit the results of the local assessments to the department of education for analysis and evaluation. After the department receives the local assessment data from all participating local education providers, the department shall review the data to ensure that each assessment meets the requirements specified in subsection (3) of this section and that each assessment is valid and reliable. Based on the assessment data, the department shall recommend to the state board one of the local assessments for approval as the new state assessment or recommend that the state continue administering the existing state assessments. The state board shall review the assessment data and, taking into account the department's recommendation, select the new state assessment or continue administering the existing state assessments. The department and the state board shall base the recommendation and selection on the validity, reliability, and comparability of the assessment and ensure that the selected assessment, if any, meets the goals of the pilot program stated in subsection (1) of this section.

(c) If the state board adopts a new state assessment, the state board shall notify the general assembly. Implementation of a new state assessment is conditional on the enactment of legislation that approves the use of the new assessment.

(d) As soon as possible after May 20, 2015, the department of education shall apply to the federal department of education for a waiver of federal statutory and regulatory requirements
to the extent necessary to implement phase one of the pilot program, including a waiver of the requirement to administer a single statewide assessment as applied to the local education providers that participate in phase one and phase two of the pilot program. Before the beginning of phase two of the pilot program, the department shall apply to the federal department of education for a waiver of federal statutory and regulatory requirements to the extent necessary to implement phase two of the pilot program. If the state board adopts a new state assessment, the department shall apply to the federal department of education for a waiver of federal statutory and regulatory requirements as necessary to implement the new state assessment if adopted as provided in paragraph (b) of this subsection (4).

(e) Upon the request of a local education provider that participates in the pilot program, the department shall provide technical assistance to the local education provider in selecting local assessments and evaluating the assessment results.

(f) If the federal department of education requires a local education provider to administer the state assessments required in section 22-7-1006.3 while the local education provider is participating in the pilot program, the local education provider shall:

(I) Administer the state assessments as required in section 22-7-1006.3 in addition to the local assessments while participating in the pilot program; and

(II) Specify in the notice required in paragraph (d) of subsection (2) of this section that the local education provider is choosing to administer assessments through the pilot program in addition to the state assessments required in section 22-7-1006.3.

22-7-1007. Postsecondary and workforce readiness assessments pilot program - rules. (Repealed)

22-7-1008. Postsecondary and workforce readiness description - adoption - revision.

(1) (a) On or before December 15, 2009, the state board and the commission shall negotiate a consensus and adopt a description of postsecondary and workforce readiness. In describing postsecondary and workforce readiness, the state board and the commission shall, at a minimum:

(I) Describe the knowledge and skills that are required for a student to demonstrate postsecondary and workforce readiness;

(II) Ensure that postsecondary and workforce readiness includes demonstration of postsecondary planning skills and the ability to apply those skills;

(III) Describe the level of English language competency that a student must demonstrate in order to demonstrate postsecondary and workforce readiness;

(IV) Ensure that postsecondary and workforce readiness includes demonstration of a sufficiently high level of comprehension or skill to successfully complete, without need for
remediation, the core academic courses identified by the commission pursuant to section 23-1-125 (3), C.R.S.; and

(V) Ensure that, to the extent practicable, postsecondary and workforce readiness requires a student to demonstrate creativity and innovation skills; critical-thinking and problem-solving skills; communication and collaboration skills; social and cultural awareness; civic engagement; initiative and self-direction; flexibility; productivity and accountability; character and leadership; information technology application skills; and other skills critical to preparing students for the twenty-first-century workforce and for active citizenship.

(b) The state board and the commission may modify the description of postsecondary and workforce readiness as necessary based on the recommendations received through the peer review process on the amended state plan pursuant to section 22-7-1012 to ensure alignment of the postsecondary and workforce readiness description with the standards and assessments.

(2) The state board, in adopting state assessments pursuant to section 22-7-1006, shall ensure that the state assessments administered to students enrolled in high school are aligned with the Colorado academic standards and are sufficient to enable a student to demonstrate postsecondary and workforce readiness by the time the student graduates from high school.

(3) (a) On or before July 1, 2015, and on or before July 1 every six years thereafter, the state board and the commission shall review, negotiate a consensus, and adopt any appropriate revisions to the description of postsecondary and workforce readiness. The state board and the commission shall ensure that any revisions adopted pursuant to this paragraph (a) meet the requirements for the description of postsecondary and workforce readiness specified in subsection (1) of this section.

(b) Repealed.

22-7-1009. Diploma endorsements - adoption - revisions. (1) On or before July 1, 2011, or as soon thereafter as fiscally practicable, the state board shall adopt criteria that a local school board, BOCES, or institute charter high school may apply if the local school board, BOCES, or institute charter high school chooses to endorse high school diplomas to indicate that students have achieved postsecondary and workforce readiness. The criteria shall include, but need not be limited to, the required minimum level of postsecondary and workforce readiness that a student must achieve to receive a readiness endorsement on his or her diploma from the local school board, BOCES, or institute charter high school. In identifying the required minimum level of postsecondary and workforce readiness, the state board shall ensure that the minimum level of postsecondary and workforce readiness reflects the expectations for postsecondary and workforce readiness that are applied nationally and internationally.

(2) The state board shall also adopt criteria for an endorsement that a local school board, BOCES, or institute charter high school may choose to grant to graduating students that would indicate extraordinary academic achievement or exemplary demonstration by a student of postsecondary and workforce readiness.

(3) Following adoption of the criteria for diploma endorsements pursuant to subsections (1) and (2) of this section, the state board shall consult with the commission and the governing
boards of the state institutions of higher education. The provisions of section 22-7-1017 (2) shall take effect only if the commission and the governing boards approve the criteria.

(4) The state board shall also consider and may adopt criteria for a range of additional endorsements that a school district, BOCES, or institute charter high school may choose to grant to graduating students to recognize concentrated focus and outstanding achievement in a variety of subject areas, including but not limited to visual arts, performing arts, career and technical education, history and civics, mathematics, and science.

(5) In adopting endorsement criteria pursuant to this section, the state board shall take into consideration any career and technical education standards that are adopted by the state board for community colleges and occupational education, created in section 23-60-104, C.R.S.

(6) Every six years after the adoption of criteria for endorsements pursuant to subsection (1) of this section, the state board shall revise and adopt any appropriate revisions to such criteria for endorsements.

Cross references: For the legislative declaration in the 2010 act amending subsection (4), see section 1 of chapter 233, Session Laws of Colorado 2010. For the legislative declaration in the 2012 act amending subsection (1), see section 11 of chapter 188, Session Laws of Colorado 2012.

22-7-1009.3. Diploma endorsement - science, technology, engineering, and mathematics - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Granting local education provider" means a local school board, BOCES, district charter high school, or institute charter high school that chooses to grant a STEM diploma endorsement to a student who demonstrates mastery in the STEM disciplines as described in this section.

(b) "STEM" means the combination of the disciplines of science, technology, engineering, and mathematics.

(2) A local education provider may grant a diploma endorsement in STEM to a graduating high school student who demonstrates mastery in the STEM disciplines. To obtain an endorsement in STEM, a graduating student must:

(a) Meet the minimum high school graduation requirements at a high level of proficiency as specified by the granting local education provider;

(b) Successfully complete, with a grade point average of at least 3.5 on a 4.0 scale or the equivalent for a higher scale, a coherent sequence of at least four courses in the areas of science, technology, engineering, and mathematics as determined by the granting local education provider, which courses are in addition to the minimum graduation requirements in these areas;

(c) Demonstrate proficiency in mathematics by:

(I) Achieving a score of twenty-eight or higher on the mathematics portion of the ACT college readiness assessment;
Achieving a score of six hundred or higher on the mathematics portion of the college readiness assessment provided by the College Board, commonly known as the SAT; 
Achieving a score of five or higher on the mathematics portion of the international baccalaureate test; 
Achieving a score of four or higher on the advanced placement mathematics assessment; 
Achieving a score of one hundred or higher on the suite of tests that assesses reading, writing, mathematics, and computer skills provided by the College Board for college placement purposes, commonly known as the Accuplacer; or 
Achieving a score of eighty-five or higher on the armed services vocational aptitude battery test used for military enlistment; and 
Successfully complete a final capstone project, which is a culminating exhibition of the student's project or experience that demonstrates academic and intellectual learning. To successfully complete a final capstone project, the student must achieve a high proficiency level of mastery, as set by the granting local education provider, for each of the following competencies:
(1) Inquiry-based learning, which is demonstrated through the capstone project by asking questions and defining problems; 
(II) Creative problem-solving, which is demonstrated through the capstone project by developing and applying scientific and mathematical models to explain complex ideas and solutions; 
(III) Experimentation, which is demonstrated through the capstone project by planning and carrying out investigations; 
(IV) Critical thinking, which is demonstrated through the capstone project by analyzing and interpreting data and communicating conclusions; 
(V) Deductive and inductive reasoning, which is demonstrated through the capstone project by using mathematics and computational thinking; 
(VI) Understanding of engineering principles, which is demonstrated through the capstone project by constructing explanations and designing solutions; and
(VII) Effective communication skills, which are demonstrated through the capstone project by engaging in argument from evidence.
(3) Each granting local education provider shall work with STEM-related business and industrial leaders identified by the local education provider within the surrounding communities and with appropriate institutions of higher education to establish the high proficiency levels of mastery that a student must demonstrate in each of the competencies described in subsection (2)(d) of this section.
(4) Each granting local education provider shall annually provide to students enrolled in grades six through twelve and their parents information concerning the requirements for obtaining the STEM diploma endorsement.

22-7-1009.5. Diploma endorsement - biliteracy - definitions. (1) As used in this section, unless the context otherwise requires:
(a) "Advanced placement test" means the final test administered at the completion of a course that delivers a college-level curriculum in a particular world language and that may result in the awarding of college credit based on the score achieved on the final test.

(b) "International baccalaureate" means a program of international education offered through a local education provider by a nonprofit educational foundation.

(c) "World language" means a language other than English and includes American sign language.

(2) A local education provider may grant a diploma endorsement in biliteracy to a graduating high school student who attains proficiency or higher in one or more world languages in addition to attaining proficiency or higher in English. To obtain an endorsement in biliteracy, a graduating student must:

(a) Demonstrate proficiency or higher in English by:
   (I) Completing all of the English language arts course requirements for graduation from high school with an overall grade point average of at least 3.0 in the required English language arts courses; and
   (II) (A) Achieving a score that indicates proficiency or higher on the English language arts portion of the curriculum-based, achievement college entrance exam administered to eleventh-grade students pursuant to section 22-7-1006.3 (2); or
        (B) Passing the English language arts advanced placement test with a score of three or higher or passing the English language arts portion of an international baccalaureate test with a score of four or higher; and

(b) Demonstrate proficiency or higher in one or more world languages by:
   (I) Passing a world language advanced placement test with a score of three or higher or passing the world language portion of an international baccalaureate test with a score of four or higher;
   (II) Successfully completing a four-year high school course of study in the world language and attaining an overall grade point average of at least 3.0 in the course of study; or
   (III) Achieving a passing score on the world language portion of a nationally recognized test that is relied upon by institutions of higher education.

(3) (a) For each world language for which an advanced placement test is not available, the department of education may identify one or more summative tests in the world language that are comparable in rigor to an advanced placement test. The department may include in the list a summative test created or identified by a local education provider.

(b) Notwithstanding any provision of subsection (2)(b)(I) of this section to the contrary:
   (I) A local education provider may use a test identified by the department of education in place of an advanced placement test for purposes of subsection (2)(b)(I) of this section;
   (II) If an advanced placement test does not exist and the department has not identified a comparable test for the world language a student studies, the local education provider may create a test to administer to the student in place of an advanced placement test for purposes of subsection (2)(b)(I) of this section or may allow a student to submit a body of evidence that demonstrates the student's knowledge of the world language. If the local education provider chooses to create a test, it must certify to the department that the test assesses speaking, reading, and writing in the world language at a level that is comparable in rigor to an advanced placement test in a world language or comparable to the level of a summative assessment administered at the completion of a four-year high school course of study in the world language. The student
must pass the test at the proficient level or higher. If the local education provider allows a student to submit a body of evidence, it must certify to the department that the evidence presented demonstrates the student's ability to speak, understand, read, and write the world language with a level of rigor that is comparable to an advanced placement test in a world language or comparable to the level of a summative assessment administered at the completion of a four-year high school course of study in the world language.

(III) If an advanced placement test exists or the department has identified a comparable test for a world language, and the local education provider creates and uses an alternative test for that world language, the department must approve the local education provider's test before the local education provider may use the test to determine a student's level of proficiency in the world language in place of an advanced placement test for purposes of subsection (2)(b)(I) of this section.

(4) Each local education provider that creates a test for a world language or accepts a body of evidence to demonstrate the ability to speak, understand, read, and write a world language shall provide a copy of the test and a description of the body of evidence to the department of education. The department shall make the tests and descriptions available to local education providers upon request.

22-7-1010. State board - commission - public input - staff assistance. (1) In fulfilling their duties pursuant to this part 10, the state board and the commission, at a minimum, shall:
   (a) Meet with interested persons throughout the state, including but not limited to:
      (I) Early care and education providers;
      (II) Representatives of early childhood councils;
      (III) Elementary and secondary teachers, specialists in special education services, counselors, and administrators;
      (IV) Boards of cooperative services;
      (V) Local school boards and governing boards of district charter schools and institute charter schools;
      (VI) Parents and students;
      (VII) Precollegiate and postsecondary service providers and concurrent enrollment program managers;
      (VIII) Career and technical education faculty and administrators;
      (IX) Postsecondary faculty and administrators;
      (X) Governing boards of institutions of higher education; and
      (XI) Employers and other members of the business community and labor, workforce, and economic development experts;
   (b) Take into consideration the recommendations of and consult with the P-20 council;
   (c) Solicit and take into consideration information from local boards of education specifically regarding the input received by the local boards from their respective communities in developing the blueprints for the education systems in their respective communities pursuant to section 22-32-109 (1)(kk);
(d) Take into consideration, as applicable, the recommendations of the state graduation guidelines development council made pursuant to section 22-7-414, as it existed prior to July 1, 2008;

(e) Consult and collaborate with state and national organizations of early care and education providers and experts, state and national organizations of educators, and other state, national, and international academic organizations that specialize in creation, maintenance, and implementation of relevant and rigorous education standards and curriculum and in alignment of standards and assessments from preschool through postsecondary education.

(2) (a) Staff from the department of education, the department of higher education, the state board for community colleges and occupational education, the division of child care, and the early childhood policy team in the office of the lieutenant governor shall provide technical assistance and support for the state board and the commission in fulfilling their duties under this part 10.

(b) To further assist in fulfilling their duties under this part 10, the state board and the commission may appoint one or more task forces consisting of state, national, and international education experts.

(3) The department of education and the department of higher education are authorized to receive and expend gifts, grants, or donations of any kind from a public or private entity to carry out the purposes of this part 10, subject to the terms and conditions under which given; except that the department of education or the department of higher education may not accept a gift, grant, or donation if the conditions attached thereto require the use or expenditure thereof in a manner contrary to law.

Cross references: For the legislative declaration in SB 18-1141, see section 1 of chapter 59, Session Laws of Colorado 2018.

22-7-1011. Regional educator meetings - purpose - recommendations - definition. (1) Beginning in the 2008-09 academic year, the commissioner and the executive director, at least annually, shall convene meetings of professional educators in preschool, elementary, secondary, and postsecondary education within each of the regional service areas created by the state board. In convening the regional educator meetings, the commissioner and the executive director shall work with:

(a) The president of the state system of community and technical colleges;

(b) One or more representatives of the local college districts;

(c) The chief academic officers or executive directors of the state institutions of higher education;

(d) The school district superintendents throughout the state; and

(e) Representatives of the division of child care and the early childhood policy team in the office of the lieutenant governor.

(2) At a minimum, the commissioner and the executive director shall invite the following persons to attend the regional educator meetings in each regional service area:
(a) Early care and education providers;
(b) Members of the local school boards of the school districts included in the regional service area;
(c) The preschool, elementary, and secondary teachers, principals, administrators, counselors, and other special services providers employed by the local education providers located in the regional service area;
(d) The postsecondary faculty, academic advisors, and administrators employed by the state institutions of higher education and local district colleges, if any, located in the regional service area; and
(e) Two youth representatives from nominations submitted by schools by September 1, 2023, and by every September 1 thereafter. When possible, one youth representative must be from an urban school district and one youth representative from a rural or small rural school district, as those districts are designated by the department of education. The department of education shall promote the opportunity for youth involvement to schools throughout the state and request schools nominate youth to attend regional educator meetings. Youth representatives serve without compensation but may be reimbursed for actual and reasonable expenses incurred in the performance of their duties. For the purposes of this subsection (2)(e), "youth" means the age of eligibility for membership in the Colorado youth advisory council, as set forth in section 2-2-1303 (1)(b)(I).

(3) The commissioner and the executive director shall convene regional educator meetings for the purpose of collaborating in the planning, design, and implementation of the alignment of the preschool through postsecondary public education systems, including but not limited to:
(a) Collaborating in the planning, design, and implementation of:
   (I) The school readiness description, the preschool through elementary and secondary education standards, and the postsecondary and workforce readiness description;
   (II) Programs of instruction for preschool, elementary, secondary, and postsecondary students; and
   (III) Assessments that are aligned with the school readiness and postsecondary and workforce readiness descriptions and the preschool through elementary and secondary education standards;
(b) Collaborating in identification and provision of the supportive services that are necessary to implement the school readiness and postsecondary and workforce readiness descriptions, the preschool through elementary and secondary education standards, and the aligned assessments;
(c) Identifying and reviewing the levels of financial support needed to implement the school readiness and postsecondary and workforce readiness descriptions, the preschool through elementary and secondary education standards, and the aligned assessments, and formulating recommendations concerning the reallocation of state resources and the identification of additional state resources for said implementation; and
(d) Reviewing the school readiness description, the preschool through elementary and secondary education standards, the postsecondary and workforce readiness description, the assessments aligned with the descriptions and standards, and the criteria for diploma endorsements, and making recommendations for revisions to the state board and the commission.
(4) Each regional service area may submit to the state board and the commission the recommendations arising from the regional educator meetings held in the regional service area. The state board and the commission shall take the recommendations into account in fulfilling their duties pursuant to this part 10. In addition, a regional service area may submit any recommendations for legislative changes to the education committees of the house of representatives and the senate, or any successor committees.

22-7-1012. State plan - amendments - peer review - final adoption.
(1) Repealed.
(2) (a) As soon as practicable under federal law, based on information received by the state board pursuant to section 22-7-1010 and on any information received from the regional educator meetings pursuant to section 22-7-1011, the department of education shall submit to the federal department of education amendments to the state plan for peer review and approval. The amendments, at a minimum, shall include:
(I) Amendments to incorporate the preschool through elementary and secondary education standards adopted by the state board pursuant to section 22-7-1005; and
(II) Amendments to incorporate the system of assessments adopted pursuant to section 22-7-1006.
(b) Notwithstanding any provision of this section to the contrary, in order to preserve flexibility and adaptability at the state level, the amended state plan shall include only those components of the aligned preschool through postsecondary public education systems that are required by or subject to approval under federal law and shall not include any components of the aligned preschool through postsecondary public education systems that are not required by or subject to approval under federal law.
(c) The limitations on the contents of the state plan specified in paragraph (b) of this subsection (2) shall not be construed to prohibit the state board and the commission from adopting, and the state board and the commission are encouraged to adopt, descriptions, standards, assessments, and other components of the aligned preschool through postsecondary public education systems that exceed the minimum requirements of federal law and that are comparable in scope, relevance, and rigor to the highest national and international standards that have been implemented successfully and are consistent with and relevant to achievement of the goals specified in section 22-7-1002.
(3) The department of education shall provide public notice of the amendments to the state plan, any comments and suggestions received through the peer review process, and any changes made to the amendments in response to the peer review comments.

22-7-1013. Local education provider - preschool through elementary and secondary education standards - adoption - academic acceleration - definition. (1) (a) On or before December 15, 2011, each local education provider shall review its preschool through elementary
and secondary education standards in comparison with the preschool through elementary and secondary education standards adopted by the state board pursuant to section 22-7-1005. Following review, each local education provider shall revise its standards, as necessary, to ensure that:

(I) The standards meet or exceed the state preschool through elementary and secondary education standards; and

(II) The standards are aligned to ensure that a student who demonstrates attainment of the standards while advancing through preschool and elementary and secondary education will be able to demonstrate postsecondary and workforce readiness prior to or upon attaining a high school diploma.

(b) In revising its preschool through elementary and secondary education standards, each local education provider shall ensure that it adopts standards, at a minimum, in those subject matter areas that are included in the state preschool through elementary and secondary education standards, including but not limited to English language competency and visual arts and performing arts education.

(c) In revising its preschool through elementary and secondary education standards, a local education provider may choose to adopt the state preschool through elementary and secondary education standards.

(2) Following the review and revision of its preschool through elementary and secondary education standards, each local education provider shall adopt curricula that are aligned with the standards. The local education provider shall design the curricula to ensure that, beginning in preschool or kindergarten and continuing through elementary and secondary education, each student receives a program of study that will enable the student to demonstrate attainment of each of the preschool through elementary and secondary education standards.

(2.5) (a) Each local education provider shall review its procedures concerning academic acceleration for students. Academic acceleration allows a student to progress through an education program at a rate faster or at ages younger than the student's peers. The local education provider shall consider procedures that may include, but need not be limited to, the following:

(I) The process for referral for academic acceleration and procedures that ensure the fair, objective, and systematic evaluation of the students referred;

(II) A decision-making process for accelerated placement that involves multiple persons, including a student's parents, rather than a sole decision-maker;

(III) Guidelines for the practice of academic acceleration, including the categories, forms, and types of academic acceleration and the award of credit;

(IV) Guidelines for preventing nonacademic barriers to the use of acceleration as an educational intervention; and

(V) An appeals process for decisions related to academic acceleration, as well as a process for evaluating the academic acceleration procedures and its effectiveness in successfully accelerating students.

(b) In designing and implementing the academic acceleration procedures, a school district may utilize any resources made available through the department of education and any national research containing recommendations for developing successful academic acceleration procedures.

(3) Each local education provider shall adopt assessments that are aligned with the local education provider's standards and curricula and that will adequately measure each student's
progress toward and attainment of the local education provider's standards for the subject areas that are not assessed by the state through the system of assessments adopted by the state board pursuant to section 22-7-1006.

(4) A local education provider may allow a student who is receiving special education services to demonstrate attainment of the preschool through elementary and secondary education standards and postsecondary and workforce readiness through a differentiated plan if required in the student's individualized education program.

(5) (a) On or before July 1, 2017, and on or before July 1 every six years thereafter, each local education provider shall review its preschool through elementary and secondary education standards and, taking into account any revisions to the state preschool through elementary and secondary education standards, shall revise and rereadopt its standards, if necessary, to ensure that the local education provider's standards continue to meet or exceed the state preschool through elementary and secondary education standards. The local education provider shall revise its curricula accordingly to ensure that the curricula continue to align with the local education provider's preschool through elementary and secondary education standards.

(b) As part of each local education provider's review, regardless of time frame, each local education provider shall select two youth representatives from nominations received from schools in the local education provider's range to participate in the review. When possible, one youth representative must be from an urban school district and one youth representative must be from a rural or small rural school district, as those districts are designated by the department of education. The department of education shall promote the opportunities for youth involvement to schools within the local education provider's range and request schools within the local education provider's range nominate youth to participate in the review of local education standards. Youth representatives serve without compensation but may be reimbursed for actual and reasonable expenses incurred in the performance of their duties. For the purposes of this subsection (5)(b), "youth" means the age of eligibility for membership in the Colorado youth advisory council, as set forth in section 2-2-1303 (1)(b)(I).

(6) Each local education provider shall adopt and implement a written policy by which the local education provider will decide whether the students enrolled by the local education provider will use pencil and paper to complete any portion of a state assessment administered pursuant to section 22-7-1006.3 (1)(a) that the students would otherwise complete using a computer. The policy must ensure that the local education provider makes the decision in consultation with parents and, if the local education provider is a school district or board of cooperative services, the public schools that the local education provider operates. The local education provider may decide that the students in one or more of the public schools, or in one or more of the classrooms of the public schools, operated by the local education provider will use pencil and paper to complete the computerized portions of a state assessment. Each year before the start of fall semester classes, the local education provider shall distribute copies of the policy to the parents of students enrolled in the local education provider and post a copy of the policy on the local education provider's website.

(7) (a) Each local education provider shall adopt and implement procedures by which the local education provider, or the public schools that the local education provider operates, shall annually distribute to the parents of students enrolled by the local education provider an assessment calendar. At a minimum, the assessment calendar must specify the estimated hours each testing day that specific classes or grades will take each assessment and identify whether
the assessment is required by federal law or state law or selected by the local education provider. The procedures shall specify the timing for distribution of the calendar and require that the calendar is distributed to parents and posted on the local education provider's website.

(b) (I) In addition to the calendar described in paragraph (a) of this subsection (7), each local education provider shall provide written information to the parents of students enrolled by the local education provider that describes:

(A) The state and local assessments that the local education provider will administer during the school year, identifying the assessments that the local education provider is required by federal law to administer, any additional state assessments that the local education provider is required by section 22-7-1006.3 to administer, the assessments that the local education provider is required by other state law to administer, and the additional assessments that the local education provider chooses to administer;

(B) The anticipated calendar for administering the state and local assessments during the school year; and

(C) The purposes of the state assessments administered pursuant to section 22-7-1006.3 and any additional local assessments that the local education provider administers and the manner in which the department of education and the local education provider uses the assessment results.

(II) Each local education provider shall annually distribute the written information to parents as early in the school year as possible and shall post the written information on the local education provider's website.

(c) The provisions of this subsection (7) do not apply to course-specific assessments that are not adopted by the state board pursuant to section 22-7-1006 or to nonstandardized, classroom-based assessments that individual educators choose to administer to students.

(8) (a) Each local education provider shall adopt and implement a written policy and procedure by which a student's parent may excuse the student from participating in one or more of the state assessments administered pursuant to section 22-7-1006.3. The local education provider shall determine whether the process for excusing a student requires a student's parent to submit written notice to the local education provider.

(b) If a parent excuses his or her student from participating in a state assessment, a local education provider shall not impose negative consequences, including prohibiting school attendance, imposing an unexcused absence, or prohibiting participation in extracurricular activities, on the student or on the parent. If a parent excuses his or her student from participating in a state assessment, the local education provider shall not prohibit the student from participating in an activity, or receiving any other form of reward, that the local education provider provides to students for participating in the state assessment.

(c) A local education provider shall not impose an unreasonable burden or requirement on a student that would discourage the student from taking a state assessment or encourage the student's parent to excuse the student from taking the state assessment.

(d) If the department of education or the state board receives a complaint from a parent concerning a local education provider's implementation of this subsection (8), the department shall notify the local education provider of the nature of the complaint.

22-7-1014. Preschool individualized readiness plans - school readiness - assessments.

(1) (a) Beginning in the fall semester of 2013, each local education provider that provides a preschool or kindergarten program shall ensure that each student enrolled in a preschool or kindergarten program operated by the local education provider receives an individualized readiness plan that addresses the preschool standards or kindergarten standards, as appropriate, and knowledge and skill areas in which a student needs assistance to make progress toward school readiness. If a student is identified as having a significant reading deficiency as provided in section 22-7-1205, the local education provider shall include the student's READ plan created pursuant to section 22-7-1206 as a component of the student's individualized readiness plan.

(b) In creating and implementing the individualized readiness plans, a local education provider shall use assessment instruments that are research-based, valid, and reliable to facilitate the systematic measurement of a student's increasing knowledge, skills, and accomplishments within the classroom context. The purpose of the continuing assessments shall be to help direct teachers' practice within the classroom with each student and thereby maximize each student's progress toward demonstrating school readiness.

(2) (a) Beginning with students who enter kindergarten in the fall semester of 2013, each local education provider shall ensure that each student enrolled in a kindergarten program operated by the local education provider progresses toward demonstrating school readiness. Each local education provider shall administer the school readiness assessment within the first sixty days of the school year to each student enrolled in a kindergarten program operated by the local education provider to measure each student's level of school readiness. If the local education provider administers a reading assessment pursuant to section 22-7-1205 (1)(a.5) within the first sixty days of the school year to students enrolled in the kindergarten program, the local education provider is not required to administer the literacy component of the school readiness assessment. The local education provider may choose to monitor a student's progress toward demonstrating school readiness by administering an approved school readiness assessment multiple times over the course of the school year.

(b) The results of the school readiness assessments shall not be used to deny a student admission or progression to first grade.

(3) The department of education, the division of child care, and the staff of the early childhood policy team in the lieutenant governor's office shall, upon request and subject to available appropriations, provide support to local education providers in implementing the preschool standards, individualized readiness plans, and school readiness assessments and in
assisting students in progressing toward school readiness. Support may include, but need not be limited to:

(a) Assisting the local education provider in reviewing and revising curriculum;
(b) Communicating with early care and education providers, educators, local school board members, board of cooperative services members, charter school governing board members, school district and school administrators, and parents;
(c) Providing professional development for educators; and
(d) Collecting and making available a resource bank of examples of best practices in national, state, school district, school, and classroom reform efforts in early childhood and school readiness consistent with the intent of this part 10.

22-7-1015. Postsecondary and workforce readiness program - technical assistance - appropriation - repeal. (1) On or before December 15, 2011, each local education provider shall review the curricula provided by the public high schools operated by the local education provider in the subject matter areas included in postsecondary and workforce readiness. The local education provider shall revise its curricula, or adopt new curricula, as necessary to ensure that the curricula content for said subject matter areas are aligned with postsecondary and workforce readiness such that a student who successfully completes the curricula will be prepared to demonstrate postsecondary and workforce readiness prior to or upon attaining a high school diploma.

(2) (a) The revised or newly adopted curricula described in subsection (1) of this section shall constitute the postsecondary and workforce readiness program for each public high school operated by the local education provider. In revising or adopting the postsecondary and workforce readiness program, a local education provider is not required to base its courses or means of awarding course credits on Carnegie units. A local education provider may choose to base the awarding of course credits on a student's demonstration of attainment of the standards addressed by the course.

(b) A local education provider may accommodate the range of student interests and aspirations by adopting multiple curricula that, combined, create multiple postsecondary and workforce readiness programs within a school district or within a high school that are designed to prepare a student for differing post-graduation goals, including but not limited to immediate entry into the workforce or matriculation into career and technical education or higher education. The local education provider shall ensure, however, that every postsecondary and workforce readiness program adopted by the local education provider:

(I) Is aligned with postsecondary and workforce readiness such that a student who successfully completes the program will be prepared to demonstrate postsecondary and workforce readiness prior to or upon attaining a high school diploma; and

(II) Includes courses in visual arts and performing arts.

(c) For purposes of this section, a district charter high school shall be deemed to be operated by the chartering local school board; except that the chartering local school board, by charter contract, may allow the district charter high school to adopt its own postsecondary and
workforce readiness program, separate from that adopted by the local school board. Each district charter high school that adopts its own postsecondary and workforce readiness program shall ensure that the program is aligned with postsecondary and workforce readiness such that a student who successfully completes the postsecondary and workforce readiness program will be prepared to demonstrate postsecondary and workforce readiness prior to or upon attaining a high school diploma.

(3) (a) It is the intent of the general assembly that, on or before December 15, 2013, each student who enrolls in a public high school operated by a local education provider shall enroll in and successfully complete a postsecondary and workforce readiness program. Each local education provider shall require each high school student, beginning in ninth grade and continuing through twelfth grade, to enroll in the local education provider's postsecondary and workforce readiness program.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (3), a local education provider may allow a student who is receiving special education services to demonstrate attainment of postsecondary and workforce readiness through a differentiated plan for purposes of the postsecondary and workforce readiness program, if required in the student's individualized education program.

(4) The department of education, the department of higher education, and the state institutions of higher education, upon request, shall provide support to local education providers in implementing postsecondary and workforce readiness. Beginning with the 2009-10 budget year, the department of education and the department of higher education may include in their annual budget requests an amount necessary to offset the costs incurred in complying with this section. Support may include, but need not be limited to:

(a) Assisting the local education provider in reviewing and revising curriculum;
(b) Communicating with educators, local school board members, board of cooperative services board members, charter school governing board members, school district and school administrators, parents, and members of the business community;
(c) Providing professional development for educators;
(d) Collecting and making available a resource bank of examples of best practices in national, state, school district, school, and classroom reform efforts consistent with the intent of this part 10;
(e) Establishing support through regional postsecondary and workforce readiness coordinators for training that aligns with financial aid, financial literacy, and supports for student federal financial aid application and student state financial aid application completion;
(f) (I) Supporting the number of regional individual career and academic plan coordinators in the state and updating the resources available to the coordinators to support financial aid information and applications;
(II) Requiring the regional individual career and academic plan coordinators to provide additional training and outreach to schools and coordinate with the outreach team in the department of higher education created pursuant to section 23-1-119 (6).
(g) Repealed.

(5) (a) For the 2022-23 state fiscal year, the general assembly shall appropriate to the department twenty-five thousand dollars from the general fund for the programs described in subsection (4)(f) of this section. Any unexpended money remaining at the end of the 2022-23 state fiscal year from this appropriation:
(I) Does not revert to the general fund or any other fund;  
(II) May be used by the department in the 2023-24 or 2024-25 state fiscal year without 
   further appropriation; and  
(III) Must not be used for any other purpose other than the purposes set forth in 
     subsection (4)(f) of this section.

(b) This subsection (5) is repealed, effective July 1, 2026.

   amended, (HB 10-1273), ch. 233, p. 1022, § 9, effective May 18; (3)(a) amended, (HB 10-1013), 
   731, § 52, effective May 20. L. 2022: (4)(c) amended and (4)(e), (4)(f), and (4)(g) added, (HB 
   22-1366), ch. 244, p. 1813, § 3, effective May 26. L. 2023: (4)(g) repealed and (5) added, (HB 
   23-1301), ch. 303, p. 1823, § 26, effective August 7.

Cross references: For the legislative declaration in the 2010 act amending subsection 
   (2)(b), see section 1 of chapter 233, Session Laws of Colorado 2010. For the legislative 
   declaration in HB 22-1366, see section 1 of chapter 244, Session Laws of Colorado 2022.

22-7-1015.5. Postsecondary, workforce, career, and education grant program - 
created - application - criteria - awards - appropriation - repeal. (1) There is created in the 
department of education, referred to in this section as the "department", the postsecondary, 
workforce, career, and education grant program, referred to in this section as the "grant 
program", to award grants to local education providers to improve the postsecondary options 
available to students and to increase the number of students completing the free application for 
federal student aid, referred to in this section as "FAFSA", and the Colorado application for state 
financial aid, referred to in this section as "CASFA". Each grant has a term of three years 
beginning in the 2022-23 state fiscal year. In making a grant award, the department shall specify 
the amount of each grant.

(2) The department shall distribute the grant money to the local education providers that 
receive a grant for the following purposes:

   (a) Developing and distributing information to students, families, and school leaders 
       regarding the FAFSA and applications for state student aid, and the benefits of completing 
       the FAFSA and applications for state student aid;

   (b) Developing and distributing information to students and families regarding the steps 
       required to complete the FAFSA and applications for state student aid;

   (c) Training school counselors and other educators on best practices to support students 
       and families with filling out the FAFSA and applications for state student aid, with an emphasis 
       on supporting communities that have historically low completion rates of the FAFSA and 
       applications for state student aid;

   (d) Organizing and hosting opportunities for students and families to meet with 
       stakeholders who assist in completing the FAFSA or applications for state student aid;

   (e) Incorporating completion of applications for federal student aid and applications for 
       state student aid into individual career and academic plans pursuant to sections 22-32-109 and 
       22-30.5-525;
(f) Collaborating with the department of higher education's efforts pursuant to section 23-3.3-1007 to support local education providers in exploring postsecondary options under the individual career and academic plans pursuant to sections 22-32-109 and 22-30.5-525; and

(g) Collaborating or partnering with nonprofit organizations to support local education providers and students with education and completion of student applications for federal student aid and applications for state student aid.

(3) A local education provider seeking a grant must submit an application to the department. The department shall review each grant application received and determine whether and in what amount a grant should be awarded to the local education provider. If the department determines an application is missing any information required by rule to be included with the application, the department may contact the local education provider to obtain the missing information.

(4) At a minimum, each grant application must specify:

(a) The current programs related to college and career readiness developed pursuant to section 22-7-1015 and individual career and academic plans pursuant to sections 22-32-109 and 22-30.5-525 that the local education provider uses;

(b) Whether the local education provider has entered into, or has committed to establishing, one or more partnerships with institutions of higher education or postsecondary service providers in Colorado to support and increase the capacity and effectiveness of career counseling and postsecondary preparation services provided to students enrolled in or receiving educational services from the education provider;

(c) The local education provider's plan for use of the grant money, including the extent to which the grant money will be used to increase the number of students who complete federal and state financial aid applications at the local education provider's high schools served by the grant and to provide professional development for school counselors and other educators on work-based learning, completion of federal and state financial aid applications, and integration of all postsecondary options into the individual career and academic plans for students;

(d) The local education provider's plan for involving educators and administrators at the local education provider's schools providing postsecondary preparation supports;

(e) The extent to which the local education provider has developed or plans to develop partnerships to serve the postsecondary needs of all of the students enrolled in or receiving educational services from the local education provider;

(f) The local education provider's use of district-level or school-level existing and potential programming for postsecondary and workforce readiness, as defined in section 22-7-1008;

(g) Whether the local education provider intends to provide matching funds to augment any grant money received from the program and the anticipated amount and source of any matching funds; and

(h) Whether the local education provider needs to update the individual career and academic plan process to accommodate requirements pursuant to section 22-2-136 (1), including financial aid form information, or financial literacy curriculum pursuant to section 22-2-127.

(5) In reviewing applications, the department may consider the following criteria, in addition to any other criteria adopted by rule of the state board:

(a) High schools with low postsecondary credential attainment rates;
(b) The local education provider's high schools with low federal and state financial aid application completion rates; and

(c) The geographic location of the local education provider. The department may prioritize awarding grants to rural areas of the state and provide technical assistance to rural local education providers requesting support.

(6) (a) Subject to available appropriations, the department shall award grants to local education providers pursuant to this section. Each grant has a term of three years beginning in the 2022-23 budget year. In making a grant award, the department shall specify the amount of each grant.

(b) A local education provider that receives a grant shall use the money for the following purposes:

(I) Developing and distributing to students, families, and educators information about and steps to complete the federal and state financial aid applications;

(II) Training school counselors and other educators on best practices to support students and families with filling out federal and state financial aid applications with an emphasis on supporting communities that have historically low completion rates of federal and state financial aid applications;

(III) Organizing and hosting opportunities for students and families to meet with stakeholders who assist in completing the FAFSA or applications for state student aid; and

(IV) Updating the local education provider's individual career and academic plan process with financial aid information and completion of the application forms.

(7) The department may expend no more than ten percent of the money annually appropriated for the program to offset the costs incurred in implementing the program, including the provision of technical assistance to rural local education providers, grant-related professional development, training, and reporting activities.

(8) On or before September 1, 2023, and on or before September 1 each year thereafter for the length of the grant, each local education provider receiving grant money pursuant to this section shall report the following information to the department:

(a) A comparison of the dropout rates, and the college matriculation and remediation rates, if applicable, at the high schools served by the grant for the years prior to receipt of the grant and the years for which the local education provider receives the grant; and

(b) A comparison of the number of students who completed federal and state financial aid applications for the year prior to which the local education provider received the grant, if available, and the number of students who completed federal and state financial aid applications for each of the three years the education provider receives the grant.

(9) Notwithstanding section 24-1-136 (11)(a)(I), on or before October 15, 2023, and on or before October 15 each year thereafter for the length of the grant, the department shall submit to the education committees of the senate and the house of representatives, or any successor committees, a report that, at a minimum, summarizes the information received by the department pursuant to subsection (8) of this section and that the department receives from the department of higher education pursuant to section 23-1-113 (9). The department shall also post the report to its website.

(10) For the 2022-23 state fiscal year, the general assembly shall appropriate to the department one million one hundred twenty-five thousand dollars from the general fund for the...
grant program pursuant to this section. Any unexpended money remaining at the end of the 2022-23 state fiscal year from this appropriation:

(a) Does not revert to the general fund or any other fund;
(b) May be used by the department in the 2023-24 or 2024-25 state fiscal year without further appropriation; and
(c) Must not be used for any other purpose other than the purposes set forth in this section.

(11) This section is repealed, effective September 1, 2027.

Cross references: For the legislative declaration in HB 22-1366, see section 1 of chapter 244, Session Laws of Colorado 2022.

22-7-1016. Assessments in high school - transcripts - definition. (1) Upon receiving the results following administration of the assessments administered pursuant to section 22-7-1006.3 to students enrolled in high school, the local education provider shall provide to each student a printed copy of the student's assessment results, and a teacher or counselor shall review each student's results with the student and, to the extent practicable, with the student's parent or legal guardian and determine the areas in which the student continues to need instruction in order to demonstrate postsecondary and workforce readiness prior to or upon attaining a high school diploma.

(2) (a) Each high school student's final transcript must describe the student's level of postsecondary and workforce readiness by indicating the student's level of performance in the postsecondary and workforce readiness program.
(b) (I) Notwithstanding any graduation requirement adopted by a local education provider, each high school student's transcript must not indicate the student's level of performance on a readiness assessment administered to the student pursuant to section 22-7-1006.3 in high school or on a national assessment.
(II) For purposes of this subsection (2)(b), "national assessment" means any assessment that is administered throughout the United States to measure postsecondary or workforce readiness.
(3) A local education provider, at its discretion, may choose to identify demonstration of postsecondary and workforce readiness as a graduation requirement for the school district or for the school.
(4) (a) A local education provider shall not apply a student's level of performance in the postsecondary and workforce readiness program or on the readiness assessments administered to the student pursuant to section 22-7-1006.3 in high school to prohibit the student from participating in any program operated by the local education provider through which the student may earn postsecondary or career and technical education course credits while enrolled in high school.
(b) A student who demonstrates attainment of postsecondary and workforce readiness while enrolled in any of grades nine through twelve shall be eligible to participate in a program
through which the student may earn postsecondary or career and technical education course credits while enrolled in high school.

(5) (a) Beginning in the 2012-13 academic year, if an English language learner, as defined in section 22-24-103 (4), is enrolled in eleventh or twelfth grade and the student has not demonstrated attainment of the standard for English language competency and has not demonstrated postsecondary and workforce readiness, the local education provider with which the student is enrolled shall provide to the student additional services and supports as necessary to assist the student in attaining the standard.

(b) Following receipt of the cost study report delivered March 1, 2010, pursuant to section 22-7-1018 (2)(a), the general assembly shall address the services and resources necessary for implementation of paragraph (a) of this subsection (5).

**Editor's note:** Amendments to subsection (5)(a) by Senate Bill 10-062 and House Bill 10-1013 were harmonized.

**22-7-1016.5. Exchange of student records.** (1) The department of education and the department of higher education shall establish a procedure that allows for the direct, electronic exchange of student unit record data for students enrolled in Colorado public high schools.

(2) Notwithstanding the provisions of section 22-2-111 (3)(a), the department of education, in collaboration with the department of higher education, shall identify the student data relevant to high school students' transitions to the postsecondary system to which the department of education has access and that shall be shared with the department of higher education.

(3) The department of education shall collect student authorization for the transfer of data where necessary and practicable through existing systems for the collection of student data.

(4) The implementation of the data exchange procedure established pursuant to this section and section 23-1-119.3, C.R.S., must utilize student unit record data collected and maintained by the department of education and must be administered at no charge to local education providers, public institutions of higher education, or students.

(5) The data exchange procedure established pursuant to this section and section 23-1-119.3 must ensure that the exchange of information is conducted in compliance with all state and federal laws and regulations concerning the privacy of information, including but not limited to the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, as amended, and all federal regulations and applicable guidelines adopted in accordance therewith.

Cross references: For the legislative declaration in the 2013 act adding this section, see section 1 of chapter 112, Session Laws of Colorado 2013.

22-7-1017. High school diploma - endorsement - effect. (1) (a) Following adoption by the state board, pursuant to section 22-7-1009, of the criteria for endorsing a diploma as reflecting postsecondary and workforce readiness, a local school board, a BOCES, or an institute charter high school may choose to grant a postsecondary and workforce readiness endorsement to each graduating high school student who meets the criteria.

(b) Following adoption by the state board of the criteria for endorsing a diploma as reflecting extraordinary academic achievement or exemplary demonstration by a student of postsecondary and workforce readiness, a local school board, a BOCES, or an institute charter high school may choose to grant such an endorsement to each graduating high school student who meets the criteria.

(c) A local school board, a BOCES, or an institute charter high school may also choose to grant endorsements in specified areas of focus and achievement, following adoption of the criteria for said endorsements by the state board pursuant to section 22-7-1009.

(2) Following approval of the criteria by the commission and the governing boards of the state institutions of higher education, as provided in section 22-7-1009 (3), a student who graduates with a high school diploma that includes a postsecondary and workforce readiness endorsement shall be guaranteed:

(a) To meet minimum academic qualifications for admission to, and to be eligible, subject to additional institutional review of other admission and placement qualifications, for placement into credit-bearing courses at all open, modified open, or moderately selective public institutions of higher education in Colorado; and

(b) To receive priority consideration, in conjunction with additional admissions criteria, and to be eligible, subject to additional institutional review of other admission and placement qualifications, for placement into credit-bearing courses at all other public institutions of higher education in Colorado. The additional admissions criteria shall be determined by each institution of higher education.

22-7-1018. Cost study. (1) (a) On or before September 15, 2009, the department of education, in consultation with the department of higher education, shall contract with an independent entity to conduct a study of the costs of implementing the provisions of this part 10. At a minimum, the study shall address the anticipated costs to be incurred by the department of education, the department of higher education, local education providers, and state institutions of higher education in implementing the provisions of this part 10.

(b) In selecting an independent entity to conduct the cost study, the department of education shall consult with the department of higher education and shall ensure that the selected entity has expertise in school finance and higher education finance statutes and issues in this state and nationally.

(c) At a minimum, the cost study shall address the costs associated with:

(I) Reviewing, adopting, and implementing standards and curricula to meet or exceed the newly adopted preschool through elementary and secondary education standards, including but
not limited to implementing the English language competency standards and providing services and supports as required in section 22-7-1016 (5);

(II) Implementing the assessment system for the preschool through elementary and secondary education standards;

(III) Implementing the school readiness description and assessments, including creating and implementing individualized readiness plans;

(IV) Incorporating career and technical education standards into the curricula;

(V) Aligning the preschool, elementary, secondary, and postsecondary education curricula with the postsecondary and workforce readiness description;

(VI) Making changes to the postsecondary admissions processes and publications to take into account the postsecondary and workforce readiness description and the assessments administered pursuant to section 22-7-1006.3 to students enrolled in high school; and

(VII) Reviewing, adopting, and implementing standards in educator preparation programs to incorporate the preschool through elementary and secondary education standards, the school readiness description, the system of assessments, the individualized readiness plans, and the postsecondary and workforce readiness description.

(2) The entity selected to conduct the cost study shall submit reports to the department of education and the department of higher education in accordance with the following timeline:

(a) On or before March 1, 2010, a report of the costs pertaining to adoption and implementation of the school readiness description; the preschool through elementary and secondary education standards, including but not limited to the English language competency standards; and the postsecondary and workforce readiness description;

(b) On or before October 1, 2011, a report of the costs pertaining to implementation of the school readiness assessments and the system of assessments that is aligned with the preschool through elementary and secondary education standards; and

(c) On or before October 1, 2014, a report of the costs pertaining to implementation of the diploma endorsements.

(3) As soon as possible following receipt of each report specified in subsection (2) of this section, the department of education shall submit the report to the joint budget committee of the general assembly and to the education committees of the senate and the house of representatives, or any successor committees.

Cross references: For the legislative declaration in the 2011 act amending subsection (1)(c)(VII), see section 1 of chapter 201, Session Laws of Colorado 2011.
successor committees, a report summarizing the actions taken by the state board, the
commission, and local education providers in implementing the requirements specified in this
part 10. The department may include in the report recommendations, as may be necessary, for
legislative changes in the timeline for implementation of this part 10.

(2) Notwithstanding section 24-1-136 (11)(a)(I), on or before February 15, 2014, and on
or before February 15 each year thereafter, the department of education shall submit to the
education committees of the senate and the house of representatives, or any successor
committees, a report concerning the results achieved through implementation of school
readiness, the preschool through elementary and secondary education standards, and
postsecondary and workforce readiness.

(3) (a) At a minimum, the report shall include the following information for the
preceding academic year:

(I) The levels of school readiness demonstrated by students enrolled in kindergarten;
(II) The number of students enrolling in the postsecondary and workforce readiness
programs and the number of students making adequate longitudinal progress through and
completing the postsecondary and workforce readiness programs;
(III) The levels of postsecondary and workforce readiness demonstrated by high school
students; and
(IV) Beginning with the report submitted in 2016, the number of students receiving a
high school diploma that includes an endorsement, identified by type of endorsement.

(b) The department of education shall present the information in the report on a
statewide basis and shall disaggregate the information by school district, school, grade level, free
or reduced-cost lunch eligibility status, gender, and ethnicity, and by any other characteristic
deemed by the department to be meaningful.

(4) Each local education provider shall cooperate with the department of education in
providing the information necessary for the reports prepared pursuant to this section.

(HB 10-1013), ch. 399, p. 1911, § 32, effective June 10. L. 2017: (1) and (2) amended, (HB
17-1267), ch. 242, p. 994, § 5, effective August 9.

PART 11

EDUCATIONAL SUCCESS TASK FORCE

22-7-1101 to 22-7-1105. (Repealed)

Editor's note: (1) This part 11 was added in 2011 and was not amended prior to its
repeal in 2013. For the text of this part 11 prior to 2013, consult the 2012 Colorado Revised
Statutes and the Colorado statutory research explanatory note beginning on page vii in the front
of this volume.

(2) Section 22-7-1105 provided for the repeal of this part 11, effective July 1, 2013. (See
L. 2011, p. 858.)

PART 12
COLORADO READ ACT

22-7-1201. Short title. This part 12 is known and may be cited as the "Colorado Reading to Ensure Academic Development Act" or "Colorado READ Act".

22-7-1202. Legislative declaration. (1) The general assembly finds that:
   (a) All students can succeed in school if they have the foundational skills necessary for academic success. While foundational skills go beyond academic skills to include such skills as social competence and self-discipline, they must also include the ability to read, understand, interpret, and apply information.
   (b) Colorado has prioritized early learning through its investments in the Colorado preschool program, established in 1988, in the Colorado universal preschool program, established in 2022, and full-day kindergarten, and the general assembly recognizes that these investments can best be leveraged by adopting policies that support a continuum of learning from preschool through third grade and beyond;
   (c) It is more cost-effective to invest in effective early literacy education rather than to absorb costs for remediation in middle school, high school, and beyond;
   (d) A comprehensive approach to early literacy education can improve student achievement, reduce the need for costly special education services, and produce a better educated, more skilled, and more competitive workforce;
   (e) An important partnership between a parent and child begins before the child enters kindergarten, when the parent helps the child develop rich linguistic experiences, including listening comprehension and speaking, that help form the foundation for reading and writing, which are the main vehicles for content acquisition;
   (f) The greatest impact for ensuring student success lies in a productive collaboration among parents, teachers, and schools in providing a child's education, so it is paramount that parents are informed about the status of their children's educational progress and that teachers and schools receive the financial resources and other resources and support they need, including valid assessments, instructional programming that is proven to be effective, and training and professional development programs, to effectively teach the science of reading, assess students' achievement, and enable each student to achieve the grade level expectations for reading; and
   (g) The state recognizes that the provisions of this part 12 are not a comprehensive solution to ensuring that all students graduate from high school ready to enter the workforce or postsecondary education, but they assist local education providers in setting a solid foundation for students' academic success and will require the ongoing commitment of financial and other resources from both the state and local levels.
   (1.5) (a) The general assembly further finds that:
   (I) Reading is a critical skill that every child must develop early in the child's educational career to be successful;
   (II) Research shows that reading instruction that is focused around the foundational reading skills of phonemic awareness, phonics, vocabulary development, reading fluency
including oral skills, and reading comprehension is highly effective in teaching young children to read;

(III) Section 15 of article IX of the state constitution grants to the elected board of education in each school district the authority to have control of instruction in the public schools of the school district, and section 16 of article IX of the state constitution prohibits the general assembly and the state board of education from prescribing the textbooks to be used in public schools;

(IV) However, section 2 of article IX of the state constitution requires the general assembly to provide for the establishment and maintenance of a thorough and uniform system of free public schools throughout the state, and section 1 of article IX of the state constitution vests the general supervision of the public schools of the state in the state board of education;

(V) In interpreting these constitutional provisions, the Colorado supreme court has found that, because they are competing interests, none are absolute; these interests must be balanced to identify the contours of the responsibility assigned to each entity; and

(VI) It is the general assembly that initially strikes this balance.

(b) The general assembly finds, therefore, that ensuring that each child has access through the public schools to evidence-based reading instruction that is focused on developing the foundational reading skills of phonemic awareness, phonics, vocabulary development, reading fluency including oral skills, and reading comprehension is a significant component of ensuring that the system of free public schools throughout the state is thorough and uniform. In exercising its authority of general supervision of the public schools of the state, it is appropriate that the state board of education, supported by the department of education, hold local education providers accountable for demonstrating that the reading instruction they provide is focused on these five foundational reading skills. And, in maintaining control of the instruction in the classrooms of the public schools of their respective school districts, it is appropriate that each school district board of education select the core reading instructional programs and reading interventions to be used in those public schools, so long as they are focused on phonemic awareness, phonics, vocabulary development, reading fluency including oral skills, and reading comprehension to ensure that the students educated in the public schools throughout the state consistently receive evidence-based instruction that is proven to effectively teach children to read.

(2) It is therefore the intent of the general assembly that each local education provider that enrolls students in kindergarten or first, second, or third grade will work closely with the parents and teachers of these students to provide the students the instructional programming, intervention instruction, and support, at home and in school, necessary to ensure that students, by the completion of third grade, can demonstrate a level of competency in reading skills that is necessary to support them in achieving the academic standards and expectations applicable to the fourth-grade curriculum. It is further the intent of the general assembly that each local education provider adopt a policy whereby, if a student has a significant reading deficiency at the end of any school year prior to fourth grade, the student's parent and teacher and other personnel of the local education provider decide whether the student should or should not advance to the next grade level based on whether the student, despite having a significant reading deficiency, is able to maintain adequate academic progress at the next grade level.

(3) The general assembly further finds that:
(a) The purpose of this part 12 is to provide students with the necessary supports they need to be able to read with proficiency by third grade so that their academic growth and achievement is not hindered by low literacy skills in fourth grade and beyond;

(b) It is a priority in the public schools of Colorado to provide high-quality instruction that enables each student to attain proficiency in English, regardless of the student's native language;

(c) Research demonstrates that a person who has strong reading skills in one language will more easily learn and become literate in a second language; and

(d) While the "Colorado READ Act", this part 12, is not designed to measure or support a student's acquisition of English as a second language, ensuring that a student has strong reading skills in his or her native language by third grade will help to ensure that the student will attain proficiency in English more quickly.

22-7-1203. Definitions. As used in this part 12, unless the context otherwise requires:

(1) "Body of evidence" means a collection of information about a student's academic performance which, when considered in its entirety, documents the level of a student's academic performance. A body of evidence, at a minimum, shall include scores on formative or interim assessments and work that a student independently produces in a classroom, including but not limited to the school readiness assessments adopted pursuant to section 22-7-1004 (2)(a). A body of evidence may include scores on summative assessments if a local education provider decides that summative assessments are appropriate and useful in measuring students' literacy skills.

(2) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

(3) "District charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title.

(4) "Evidence based" means the instruction or item described is based on reliable, trustworthy, and valid evidence and has demonstrated a record of success in adequately increasing students' reading competency in the areas of phonemic awareness, phonics, vocabulary development, reading fluency, including oral skills, and reading comprehension.

(5) "Institute charter school" means a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title.

(6) "Local education provider" means a school district, a board of cooperative services, a district charter school, or an institute charter school.

"Multi-tiered systems of supports" means a systemic preventive approach that addresses the academic and social-emotional needs of all students at the universal, targeted, and intensive levels. Through the multi-tiered systems of supports, a teacher provides high-quality, scientifically based or evidence-based instruction and intervention that is matched to student needs; uses a method of monitoring progress frequently to inform decisions about instruction and goals; and applies the student's response data to important educational decisions.

(a) "Parent" means a student's biological or adoptive parent, stepparent, foster parent, or legal guardian.

(b) As provided in section 2-4-102, C.R.S., the singular use of "parent" includes the plural, and local education providers shall, to the extent practicable, involve both of a student's parents, as defined in this subsection (8), in implementing the provisions of this part 12.

(9) "Per-pupil intervention money" means the money calculated and distributed to local education providers pursuant to section 22-7-1210.5.

(10) "Reading competency" means a student meets the grade level expectations in reading adopted by the state board.

(11) "Reading to ensure academic development plan" or "READ plan" means an intervention plan created pursuant to section 22-7-1206 to remediate a student's significant reading deficiency.

(12) Repealed.

(13) "School district" means a school district, other than a local college district, organized and existing pursuant to law.

(14) "Scientifically based" means that the instruction or item described is based on research that applies rigorous, systematic, and objective procedures to obtain valid knowledge that is relevant to reading development, reading instruction, and reading difficulties.

(15) "Significant reading deficiency" means that a student does not meet the minimum skill levels for reading competency in the areas of phonemic awareness, phonics, vocabulary development, reading fluency, including oral skills, and reading comprehension established by the state board pursuant to section 22-7-1209 for the student's grade level.

(16) "State board" means the state board of education created pursuant to section 1 of article IX of the state constitution.

(17) "Teacher" means the educator who is the main instructor for a class of students or an educator who provides specific literacy instruction to selected students.

L. 2019: (7.5) added, (9) amended, and (12) repealed, (SB 19-199), ch. 154, p. 1823, § 2, effective May 10.

22-7-1204. Early literacy education. Each local education provider that enrolls students in kindergarten or first, second, or third grade shall provide to the students enrolled in said grades the instructional programming and services necessary to ensure to the greatest extent possible that students, as they progress through kindergarten, first, second, and third grade, develop the necessary reading skills to enable them to master the academic standards and expectations applicable to the fourth-grade curriculum and beyond. The instructional programming and services for teaching students to read must be evidence based and scientifically based and must focus on reading competency in the areas of phonemic awareness,
phonics, vocabulary development, reading fluency including oral skills, and reading comprehension.

22-7-1205. Reading competency - assessments - READ plan creation - parental involvement. (1) (a) Each local education provider that enrolls students in kindergarten or first, second, or third grade shall ensure that teachers measure each student's reading competency using interim reading assessments at least once during the spring semester of the 2012-13 school year and throughout the year in subsequent school years. A local education provider may also administer a summative assessment to measure students' reading competency at the conclusion of kindergarten, first, and second grades. Each local education provider shall select from the list of approved assessments adopted by rule of the state board pursuant to section 22-7-1209 (1) those assessments it shall use to measure a student's reading competency. A local education provider may choose to use other reading assessments in addition to but not in lieu of the approved assessments.

(a.5) Each local education provider is required to administer a reading assessment to students enrolled in kindergarten during the first ninety days of the school year. If the local education provider administers the reading assessment within the first sixty days of the school year, it is not required to administer the literacy component of the school readiness assessment as provided in section 22-7-1014 (1)(a).

(a.7) (I) The local education provider shall determine whether a student who is an English language learner, as defined in section 22-24-103, and whose native language is Spanish, takes the reading assessments in English or in Spanish. If the student takes the reading assessments in Spanish, the local education provider may also administer a reading assessment in English to the student at the request of the student's parent. If the state board adopts a list of approved reading assessments pursuant to section 22-7-1209 that includes assessments in languages other than English or Spanish, the local education provider shall determine whether a student who is an English language learner and whose native language is not Spanish takes the reading assessments in English or in the student's native language if there is an approved reading assessment in the student's native language. If the student takes the reading assessments in the student's native language, the local education provider may also administer a reading assessment in English to the student at the request of the student's parent. If the local education provider decides that a student who is an English language learner must take the reading assessments in a language other than English, the local education provider shall determine, and communicate to the student's parent in a language the parent understands, if possible, the level of English language proficiency at which the student must take at least one of the reading assessments in English, as provided in subsection (1)(a.7)(II) of this section. If the student has a significant reading deficiency, the local education provider may communicate the information specified in this subsection (1)(a.7) to the student's parent with the information required in subsection (2) of this section.

(II) In determining whether a student must take the reading assessments in a language other than English as required in subsection (1)(a.7)(I) of this section, each local education provider shall review the student's score on the most recent annual assessment administered
pursuant to the local education provider's English language proficiency program, as required in article 24 of this title 22. If the student scores within the range that the local education provider determines demonstrates partial proficiency in English or higher, the local education provider shall ensure that the student annually takes at least one of the reading assessments required in this subsection (1) in English.

(b) If a teacher finds, based on a student's scores on the approved reading assessments, that the student may have a significant reading deficiency, the teacher shall administer to the student one or more diagnostic assessments within sixty days after the previous assessment to determine the student's specific reading skill deficiencies. Each local education provider shall select from the list of approved assessments adopted by rule of the state board pursuant to section 22-7-1209 (1) those assessments it uses to determine a student's specific reading skill deficiencies. A local education provider may choose to use other diagnostic reading assessments in addition to but not in lieu of the approved assessments.

(c) Beginning with the 2012-13 school year, each local education provider shall annually report to the department the state-assigned student identifier for each student who is identified pursuant to this subsection (1) as having a significant reading deficiency.

(d) If, based on a student's scores on the approved reading assessments in a specific school year, a teacher finds that a student demonstrates reading competency appropriate for his or her grade level, the local education provider is not required to administer the approved interim reading assessments to the student for the remainder of the specific school year.

(2) (a) Beginning no later than the 2013-14 school year, upon finding that a student has a significant reading deficiency, the local education provider shall ensure that the student receives a READ plan, as described in section 22-7-1206. The teacher and any other skilled school professionals the local education provider may choose to select shall, if possible, meet with the student's parent to communicate and discuss the information specified in paragraph (b) of this subsection (2) and jointly create the student's READ plan. Upon completion of the meeting or as soon as possible thereafter, the teacher or other personnel of the local education provider shall give the parent a written explanation of the information specified in paragraph (b) of this subsection (2) and a copy of the student's READ plan. To the extent practicable, the teacher and other personnel shall communicate with the parent, orally and in writing, in a language the parent understands.

(b) The teacher and the other personnel shall communicate and discuss with the parent the following information:

(I) The state's goal is for all children in Colorado to graduate from high school having attained skill levels that adequately prepare them for postsecondary studies or for the workforce, and research demonstrates that achieving reading competency by third grade is a critical milestone in achieving this goal;

(II) The nature of the student's significant reading deficiency, including a clear explanation of what the significant reading deficiency is and the basis upon which the teacher identified the significant reading deficiency;

(III) If the student enters fourth grade without achieving reading competency, he or she is significantly more likely to fall behind in all subject areas beginning in fourth grade and continuing in later grades. If the student's reading skill deficiencies are not remediated, it is likely that the student will not have the skills necessary to complete the course work required to graduate from high school.
(IV) Reading skills are critical to success in school. Under state law, the student qualifies for and the local education provider is required to provide targeted, scientifically based or evidence-based interventions to remediate the student's specific, diagnosed reading skill deficiencies, which interventions are designed to enable the student to achieve reading competency and attain the skills necessary to achieve the state's academic achievement goals;

(V) The student's READ plan will include targeted, scientifically based or evidence-based intervention instruction to address and remediate the student's specific, diagnosed reading skill deficiencies;

(VI) The parent plays a central role in supporting the student's efforts to achieve reading competency, the parent is strongly encouraged to work with the student's teacher in implementing the READ plan, and, to supplement the intervention instruction the student receives in school, the READ plan will include strategies the parent is encouraged to use at home to support the student's reading success; and

(VII) There are serious implications to a student entering fourth grade with a significant reading deficiency and, therefore, if the student continues to have a significant reading deficiency at the end of the school year, under state law, the parent, the student's teacher, and other personnel of the local education provider are required to meet and consider retention as an intervention strategy and determine whether the student, despite having a significant reading deficiency, is able to maintain adequate academic progress at the next grade level.

(c) In addition to the information specified in paragraph (b) of this subsection (2), the teacher and the other personnel of the local education provider are encouraged to communicate and discuss information concerning resources that are available through the local education provider or through other entities within the community that may support the student in achieving reading competency.

(3) (a) If, after making documented attempts, the teacher is unable to meet with the student's parent to create the READ plan, the teacher and any other skilled school professionals the local education provider may choose to select shall create the student's READ plan and ensure that the student's parent receives the following information in a language the parent understands, if practicable:

(I) A written copy of the READ plan with a clear, written explanation of the scientifically based or evidence-based reading instructional programming and other reading-related services the student will receive under the plan and the strategies that the parent is encouraged to apply in assisting the student in achieving reading competency; and

(II) A written explanation of the information specified in paragraph (b) of subsection (2) of this section.

(b) At a parent's request, the teacher and any other skilled school professionals the local education provider may choose to select shall meet with the parent to provide a verbal explanation of the elements of the READ plan.

(4) The local education provider shall ensure that the parent of each student who has a READ plan receives ongoing, regular updates from the student's teacher, which may occur through existing methods of communication, concerning the results of the intervention instruction described in the plan and the student's progress in achieving reading competency. The student's teacher is encouraged to communicate with the parent concerning the parent's progress in implementing the home reading strategies identified in the student's READ plan. To the extent practicable, the teacher shall communicate with the parent in a language the parent understands.
L. 2015: (1)(a.5) and (1)(d) added and (1)(b) amended, (HB 15-1323), ch. 204, p. 714, § 4,

22-7-1206. Reading to ensure academic development (READ) plan - contents - implementation. (1) (a) A teacher, and other skilled school professionals that the local education provider may choose to select, shall create a READ plan for each student who has a significant reading deficiency. The teacher and any other personnel shall create the plan in collaboration with the student's parent, if possible, and as soon as possible after the student's significant reading deficiency is identified. The student, the student's teacher, and the student's parent shall continue implementing the student's READ plan until the student demonstrates reading competency. The student's teacher shall review the student's READ plan at least annually and update or revise the READ plan as appropriate to facilitate the student's progress in demonstrating reading competency.

(b) Each local education provider shall ensure that a student's current READ plan, any earlier versions of the READ plan, and any supporting documentation for the plan and the body of evidence that demonstrates a student's progress in implementing the plan are included in the student's permanent academic record and are transferred if the student subsequently enrolls in another school.

(2) (a) If a student's reading skills are below grade-level expectations, as adopted by the state board, but the student does not have a significant reading deficiency, the local education provider shall ensure that the student receives appropriate interventions through the multi-tiered systems of supports or a comparable intervention system implemented by the local education provider. At a minimum, the local education provider shall ensure that the student receives educational services in a daily literacy block for the length of time identified as effective in research relating to best practices in teaching reading.

(b) If a student has a significant reading deficiency, the student's READ plan must include the intervention instruction that the local education provider provides through the multi-tiered systems of supports or a comparable intervention system implemented by the local education provider.

(3) Notwithstanding any provision of this part 12 to the contrary, if a student is identified as having a disability that impacts the student's progress in developing reading skills, the local education provider shall, as appropriate, integrate into the student's individualized education program created pursuant to section 22-20-108 intervention instruction and strategies to address the student's reading issues in lieu of a READ plan.

(4) If a student enrolled in kindergarten is identified as having a significant reading deficiency, the local education provider shall create the student's READ plan as a component of the student's individualized readiness plan created pursuant to section 22-7-1014. The local education provider may include components of the student's individualized readiness plan that apply to teaching literacy as part of the student's READ plan after the student completes kindergarten, so long as the local education provider administers an approved reading assessment to the student in grades one through three as required in section 22-7-1205 (1) and the student's READ plan meets the requirements specified in subsection (5) of this section.

(5) Each READ plan must include, at a minimum:
(a) The student's specific, diagnosed reading skill deficiencies that need to be remediated in order for the student to attain reading competency;

(b) The goals and benchmarks for the student's growth in attaining reading competency;

(c) The type of additional instructional services and interventions the student will receive in reading. At a minimum, the local education provider shall ensure that the student receives educational services in a daily literacy block for the length of time identified as effective in research relating to best practices in teaching reading.

(d) The scientifically based or evidence-based reading instructional programming the teacher will use to provide to the student daily reading approaches, strategies, interventions, and instruction, which programs at a minimum shall address the areas of phonemic awareness, phonics, vocabulary development, reading fluency, including oral skills, and reading comprehension. The local education provider may choose to select the programs from among those included on the advisory list prepared by the department pursuant to section 22-7-1209;

(e) The manner in which the local education provider will monitor and evaluate the student's progress;

(f) The strategies the student's parent is encouraged to use in assisting the student to achieve reading competency that are designed to supplement the programming described in paragraph (d) of this subsection (5); and

(g) Any additional services the teacher deems available and appropriate to accelerate the student's reading skill development.

(6) Each local education provider shall ensure that a teacher continues to revise and implement a student's READ plan until the student attains reading competency, regardless of the student's grade level and regardless of whether the student was enrolled with the local education provider when the READ plan was originally created or the student transferred enrollment to the local education provider after the READ plan was created.

(7) (a) If a student is identified as having a significant reading deficiency for a second or subsequent consecutive school year, the local education provider shall ensure that, in the second or subsequent consecutive school year:

(I) The student's teacher revises the student's READ plan to include additional, more rigorous strategies and intervention instruction to assist the student in attaining reading competency, including increased daily time in school for reading instruction;

(II) The principal of the school in which the student is enrolled ensures that the student receives reading instruction in conjunction with and supported through the other subjects in which the student receives instruction during the school day; and

(III) If practicable, the student receives reading instruction from a teacher who is identified as effective or highly effective in his or her most recent performance evaluation and has expertise in teaching reading.

(b) In addition, with the approval of the student's parent, the local education provider may provide to the student mental health support from the school psychologist, school social worker, or school counselor.

22-7-1207. Advancement - decision - parental involvement. (1) Beginning no later than the 2013-14 school year, if, within forty-five days before the end of any school year prior to a student's fourth-grade year, a teacher finds that a student has a significant reading deficiency, personnel of the local education provider shall provide to the student's parent the written notice described in subsection (2) of this section; except that the provisions of this section shall not apply if:

(a) The student is a student with a disability who is eligible to take the alternative statewide assessment, or the student is identified as having a disability that substantially impacts the student's progress in developing reading skills, resulting in the student's significant reading deficiency;

(b) The student is an English language learner, as defined in section 22-24-103, and the student's significant reading deficiency is due primarily to the student's language skills; or

(c) The student is completing the second school year at the same grade level.

(2) The written notice that the personnel provides to a parent pursuant to subsection (1) of this section at a minimum shall state that:

(a) There are serious implications to a student entering fourth grade with a significant reading deficiency and, therefore, under state law, the parent, the student's teacher, and other personnel of the local education provider are required to meet and consider retention as an intervention strategy and determine whether the student, despite having a significant reading deficiency, is able to maintain adequate academic progress at the next grade level;

(b) Personnel of the student's school will work with the parent to schedule a date, time, and place for the meeting; and

(c) If the parent does not attend the meeting, the teacher and personnel of the local education provider will decide whether the student will advance to the next grade level in the next school year.

(3) After sending the written notice, personnel of the student's school shall contact the parent to schedule the meeting to decide whether the student will advance to the next grade level. If, after making documented attempts to schedule the meeting with the parent, personnel of the student's school are unable to schedule the meeting, or if the parent does not attend the scheduled meeting, the teacher and personnel selected by the local education provider shall decide, based on the student's body of evidence, whether the student will advance to the next grade level for the next school year.

(4) (a) At the meeting required by this section, the teacher and any other personnel selected by the local education provider shall, at a minimum, communicate to and discuss with the parent the following information:

(I) That there are serious implications to a student entering fourth grade with a significant reading deficiency and, therefore, under state law, the parent, the student's teacher, and other personnel of the local education provider are required to meet and consider retention as an intervention strategy and determine whether the student, despite having a significant reading deficiency, is able to maintain adequate academic progress at the next grade level;

(II) The importance of achieving reading competency by the end of third grade, because students who achieve reading competency by the end of third grade are more likely to graduate from high school and attain a postsecondary credential;
(III) The student's body of evidence and the likelihood that the student, despite having a significant reading deficiency, will be able to maintain adequate academic progress at the next grade level;

(IV) The increased level of intervention instruction the student will receive in the next school year regardless of whether the student advances to the next grade level; and

(V) The potential effects on the student if he or she does not advance to the next grade level.

(b) After discussing the issues specified in paragraph (a) of this subsection (4), the parent, the teacher, and the other personnel shall decide whether the student will advance to the next grade level in the next school year. If the parent, teacher, and other personnel are not in agreement, the parent shall decide whether the student will advance to the next grade level unless otherwise specified in the policy adopted by the local education provider.

(5) As soon as possible after the decision is made pursuant to subsection (3) of this section or at the conclusion of the meeting described in subsection (4) of this section, the personnel of the local education provider shall provide to the parent a written statement that the student will or will not advance to the next grade level in the next school year and the basis for the decision. The personnel shall also provide a copy of the statement to the school district superintendent, if the student is enrolled in a public school of a school district that is not a charter school, or to the school principal, if the student is enrolled in a district charter school, an institute charter school, or a public school operated by a board of cooperative services. The local education provider shall include the statement in the student's permanent academic record and shall remove the statement from the student's permanent academic record when the student achieves reading competency.

(6) Notwithstanding any provision of paragraph (b) of subsection (4) of this section to the contrary, beginning with the 2016-17 school year, if a student is completing third grade and the student's teacher and other personnel decide pursuant to subsection (3) of this section or the student's parent decides pursuant to subsection (4) of this section that the student will advance to fourth grade even though the student has a significant reading deficiency, the decision to advance the student is subject to approval of the school district superintendent or the superintendent's designee, if the student is enrolled in a public school of a school district that is not a charter school, or subject to approval of the school principal, if the student is enrolled in a district charter school, an institute charter school, or a public school operated by a board of cooperative services. If the superintendent, or his or her designee, or the principal, whichever is applicable, does not approve the decision to advance the student, the student shall not advance to fourth grade in the next school year. As soon as possible, the local education provider shall provide a written statement to the parent concerning the decision of the superintendent or designee or the principal and the basis for the decision. The local education provider shall include the statement in the student's permanent academic record and shall remove the statement from the student's permanent academic record when the student achieves reading competency.

(7) Each local education provider shall ensure that, to the extent practicable, all of the oral and written communications to a parent that are required in this section are delivered in a language the parent understands.

(8) The provisions of this section specify the circumstances under which a local education provider, in collaboration with a student's teacher and parent, is required to decide whether a student who has a significant reading deficiency should advance to the next grade level.
level. The provisions of this part 12 do not limit the ability of a local education provider to
decide, in accordance with policies and procedures of the local education provider, that a student
at any grade level should not advance to the next grade level for any reason deemed sufficient by
the local education provider.

L. 2014: (1)(b) amended, (HB 14-1298), ch. 244, p. 935, § 17, effective May 21.

22-7-1208. Local education providers - procedures - plans - training - rules. (1) Each
local education provider shall adopt the procedures necessary to comply with the requirements
specified in this part 12. In adopting procedures, a local education provider shall comply with
and may exceed the requirements of this part 12. Procedures may include, but need not be
limited to, procedures for:

(a) Creating a READ plan and the contents of a READ plan;
(b) Effectively communicating with parents concerning the creation, contents, and
implementation of READ plans; and
(c) Determining whether a student who has a significant reading deficiency will advance
to the next grade level.

(2) A local education provider is not required to start a READ plan or convert an
individual literacy plan to a READ plan for a student who is enrolled in fourth grade or higher as
of the 2013-14 school year.

(3) Each local education provider is encouraged to report to the department the strategies
and intervention instruction that the local education provider finds effective in assisting students
to attain reading competency and to provide copies of effective materials to the department to
assist the department in sharing with local education providers best practices in assisting students
to attain reading competency.

(4) Local education providers are encouraged to provide parents opportunities to
participate in parent reading workshops throughout the school year to assist parents in
developing their own reading skills and in developing the skills necessary to assist their children
in reading.

(5) (a) Beginning with the plans adopted for the 2020-21 school year, the plan that a
local education provider must adopt based on its accreditation category pursuant to section
22-11-208 or as required pursuant to section 22-11-210, whichever is applicable, must include
the following information concerning implementation of this part 12 as it applies to each of the
schools operated by the local education provider:

(I) The core and supplemental reading curriculum used at each grade level, including
kindergarten for each school that includes a kindergarten educational program. The core and
supplemental reading curriculum must be designed around teaching the foundational reading
skills of phonemic awareness, phonics, vocabulary development, reading fluency including oral
skills, and reading comprehension.

(II) The targeted, evidence-based or scientifically based core and supplemental reading
instructional programs and intervention reading instruction, services, and other supports,
including those available through the multi-tiered systems of supports or a comparable
intervention system implemented by the local education provider, that each school provides to
students who are identified as having a significant reading deficiency or as reading below grade level;

(III) The assessments that each school uses at each grade level to meet the requirements specified in section 22-7-1205 (1); and

(IV) If the local education provider receives and uses per-pupil intervention money or money received through the early literacy grant program for professional development, the local education provider's plan for providing the professional development, which development must be targeted, evidence based or scientifically based, and aligned with the instruction, services, and other supports provided to students who are identified as having a significant reading deficiency or as reading below grade level.

(b) If a local education provider is authorized pursuant to section 22-11-303 (4) or 22-11-403 (5) to adopt and submit a plan every two years, the local education provider shall submit to the department the information described in subsection (5)(a) of this section annually.

(6) (a) By the beginning of the 2022-23 school year and continuing for each school year thereafter, each local education provider that receives per-pupil intervention money or a grant through the early literacy grant program in any budget year starting with the 2019-20 budget year shall ensure that each teacher employed to teach kindergarten or any of grades one through three successfully completes or has successfully completed evidence-based training in teaching reading. To comply with this subsection (6)(a), a local education provider must submit evidence, as described in subsection (6)(b) of this section, that each teacher employed to teach kindergarten or any of grades one through three has successfully completed evidence-based training in teaching reading that is:

(I) Included as a course in an approved program of preparation, as defined in section 22-60.5-103 (8), or an alternative teacher program, as defined in section 22-60.5-103 (5);

(II) Included as a course in a post-graduate degree program in teaching reading or literacy;

(III) Provided by the department or included on the advisory list of professional development programs provided by the department pursuant to section 22-7-1209 (2)(c); or

(IV) Provided by a local education provider or is appropriate for license renewal pursuant to section 22-60.5-110 (3).

(b) A teacher is deemed to have successfully completed evidence-based training in teaching reading if the local education provider submits to the department evidence that the teacher passed an end-of-course assessment of learning at the completion of the evidence-based training.

(c) At the request of a local education provider, the department shall provide, at no cost to the local education provider, evidence-based training in teaching reading to one or more of the teachers employed by the local education provider to teach kindergarten or any of grades one through three.

(d) Notwithstanding the provisions of subsection (6)(a) of this section, a local education provider that is not in compliance with the requirements of this subsection (6) as of the beginning of the 2022-23 school year or for a subsequent school year may request a one-year extension from the state board based on a demonstration of good cause for inability to comply.

(e) A local education provider is strongly encouraged to make evidence-based training in teaching reading available to parents and members of the community in order to effectively partner with them in teaching early-grade reading.
(6.5) (a) By the beginning of the 2024-25 school year and continuing for each school year thereafter, each local education provider that receives per-pupil intervention money or a grant through the early literacy grant program in any budget year starting with the 2023-24 budget year shall ensure that each principal in a school that serves kindergarten or any of grades one through three and each administrator with responsibility that pertains to programs in kindergarten or any of grades one through three successfully completes or has successfully completed evidence-based training designed for school administrators in the science of reading. The evidence-based training in the science of reading must include the concepts of phonemic awareness, phonics, vocabulary development, reading fluency, including oral skills, and reading comprehension to assist principals in coaching and evaluating teachers. The training must also include topics related to implementing schoolwide scientifically based and evidence-based reading programming. To comply with this subsection (6.5)(a), a local education provider shall submit evidence that each principal and administrator described in this subsection (6.5)(a) has successfully completed evidence-based training in the science of reading that is:

(I) Included as a course in an approved program of preparation, as defined in section 22-60.5-102 (8) for principals or administrators, or an individualized alternative principal program, or other alternative principal program, approved pursuant to section 22-60.5-305.5;

(II) Included as a course in a post-graduate degree program in teaching reading or literacy;

(III) Provided by the department or included on the advisory list of rigorous professional development programs provided by the department pursuant to section 22-7-1209 (2)(c); or

(IV) Provided by a local education provider or is appropriate for license renewal pursuant to section 22-60.5-110 (3).

(b) The department shall provide, at no cost, training for elementary school administrators to meet the requirements specified in subsection (6.5)(a) of this section. The department may provide the training in-person or online.

(c) Notwithstanding subsection (6.5)(a) of this section, a local education provider that is not in compliance with the requirements of this subsection (6.5) as of the beginning of the 2024-25 school year or for a subsequent school year may request a one-year extension from the state board based on a demonstration of good cause for inability to comply.

(d) The state board may adopt rules as necessary to specify the content and minimum number of hours required for the training described in subsection (6.5)(a) of this section; the time frames and procedures for complying with the requirements specified in subsection (6.5)(a) of this section and for applying for an extension pursuant to subsection (6.5)(c) of this section; and the form in which a local education provider must submit evidence of the completion of the training required in subsection (6.5)(a) of this section.

(6.7) (a) By the beginning of the 2024-25 school year and continuing for each school year thereafter, each local education provider that receives per-pupil intervention money or a grant through the early literacy grant program in any budget year starting with the 2023-24 budget year shall ensure that each reading interventionist employed to teach students in any of
grades four through twelve successfully completes or has successfully completed evidence-based training in teaching reading as described for teachers in subsection (6) of this section. To comply with this subsection (6.7)(a), a local education provider shall submit evidence that each reading interventionist employed to teach students in any of grades four through twelve has passed an end-of-course assessment of learning at the completion of the evidence-based training.

(b) The department shall provide, at no cost, training for reading interventionists to meet the requirements specified in subsection (6.7)(a) of this section. The department may provide the training in-person or online.

(c) Notwithstanding subsection (6.7)(a) of this section, a local education provider that is not in compliance with the requirements of this subsection (6.7) as of the beginning of the 2024-25 school year or for a subsequent school year may request a one-year extension from the state board based on a demonstration of good cause for inability to comply.

(d) The state board may adopt rules as necessary to specify the content and minimum number of hours required for training for reading interventionists required in subsection (6.7)(a) of this section; time frames and procedures for complying with the requirements specified in subsection (6.7)(a) of this section and for applying for an extension pursuant to subsection (6.7)(c) of this section; and the form in which a local education provider must submit evidence of the completion of an end-of-course assessment of learning as required in subsection (6.7)(a) of this section.

(7) Each local education provider is strongly encouraged to partner with adjacent public libraries to enhance the instructional programming and services in literacy provided by the local education provider and to provide access for students and their parents to reading materials for out-of-school literacy development.

(8) (a) Each local education provider shall submit to the department, and update as necessary to remain current, the following information, and the department shall post the information on the department's website, as provided in section 22-7-1209 (9):

(I) The core and supplemental reading curriculum, as described in subsection (5)(a)(I) of this section, or a detailed description of the reading curriculum, by grade, used at each of the schools operated by the local education provider;

(II) The targeted, evidence-based or scientifically based core and supplemental reading instructional programs and intervention reading instruction, services, and other supports, as described in subsection (5)(a)(II) of this section, or a detailed description of the programs, services, and other supports, provided by each of the schools operated by the local education provider; and

(III) The information required to be provided to the department by a local education provider pursuant to section 22-7-1210.5 (2) prior to receiving per-pupil intervention money, as well as the number of students enrolled by the local education provider who are no longer identified as having a significant reading deficiency; except that the department is not required to post on the website the number of students who are no longer identified as having a significant reading deficiency if the number of those students as submitted by a local education provider is smaller than the minimum number of students necessary to protect student privacy, as determined by the department.

(b) Each local education provider shall include on its website a link to the page on which the materials described in subsection (8)(a) of this section are posted on the department's website. The link must be easily identifiable in a location on the local education provider's
website that is identified as relating to student literacy or the "Colorado READ Act". The local education provider shall also ensure that each school-level website for a school operated by the local education provider includes the link to the information on the department's website.

22-7-1209. State board - rules - department - duties. (1) The state board shall promulgate rules in accordance with the "State Administrative Procedure Act", article 4 of title 24, as necessary to implement the provisions of this part 12, which rules must include, but need not be limited to:

(a) The minimum reading competency skill levels in the areas of phonemic awareness, phonics, vocabulary development, reading fluency, including oral skills, and reading comprehension for kindergarten and first, second, and third grades. The state board shall base the minimum skill levels for second and third grades primarily on scores attained on the assessments approved by the state board pursuant to subsection (1)(b) of this section. The state board shall describe the minimum skill levels for students as they complete kindergarten and first grade using matrices of appropriate indicators, which indicators may include measures of students' social and emotional development, physical development, language and comprehension development, and cognition and general knowledge. The state board shall adopt the rules described in this subsection (1)(a) by March 31, 2013. The state board shall review the minimum reading competency skill levels on or before July 1, 2019, and every four years thereafter and update them as necessary.

(b) The list of approved evidence-based or scientifically based reading assessments, based on the recommendations of the department, that local education providers may use to meet the requirements specified in section 22-7-1205. The state board shall adopt the list of approved reading assessments by March 31, 2013. The state board shall review the list of approved reading assessments, on or before July 1, 2019, and every four years thereafter and update the list as necessary.

(c) Rules for approving one or more independent third-party evaluators to review reading assessments for inclusion on the approved list of assessments and to review instructional programming and professional development programs for inclusion on the advisory lists created by the department pursuant to subsections (2) and (3) of this section;

(d) Rules to provide notice and an appeals process, which may be a process for written appeals, for publishers and local education providers who submit materials for inclusion on the list of approved assessments and the advisory lists of instructional programming, and professional development programs. On appeal, the department and the state board must, at a minimum, consider any findings that an appellant may submit from a nationally recognized, evidence-based information clearinghouse that demonstrate that a program has achieved positive results for a substantially similar population of students who are identified as having significant reading deficiencies.
(d.5) The time frames and procedures for submitting information concerning the use of per-pupil intervention money;
(e) The time frames and procedures for reporting information concerning students' reading skills as described in section 22-7-1213; and
(f) Rules for implementing the early literacy grant program pursuant to section 22-7-1211.

(2) (a) (I) Using the procedure developed pursuant to subsection (3) of this section, the department shall review and recommend to the state board reading assessments, including interim, summative, and diagnostic assessments, for kindergarten and first, second, and third grades that, at a minimum, meet the criteria specified in subsection (2)(a)(II) of this section. Following action by the state board to approve reading assessments pursuant to subsection (1)(b) of this section, the department shall create a list of the approved reading assessments for kindergarten and first, second, and third grades for use by local education providers. The department shall update the list of approved reading assessments on or before July 1, 2019, and every four years thereafter as necessary. The department shall work with the approved assessment publishers to better align, to the extent practicable, the minimum reading competency levels for third grade, which are based on the scores attained on the approved assessments, with the preschool through elementary and secondary education standards for third-grade reading adopted pursuant to section 22-7-1005.

(II) The department shall ensure that:
(A) Each of the recommended reading assessments is evidence-based or scientifically based and is aligned with the preschool through elementary and secondary education standards for reading adopted by the state board pursuant to section 22-7-1005;
(B) Each of the recommended reading assessments is valid and reliable and proven to effectively and accurately measure students' reading skills in the areas of phonemic awareness; phonics; vocabulary development; reading fluency, including oral skills; and reading comprehension;
(C) Each of the recommended reading diagnostics is proven to accurately identify students' specific reading skill deficiencies;
(D) At least one of the recommended reading assessments for kindergarten and first, second, and third grades is normed for the performance of students who speak Spanish as their native language, which assessment is available in both English and Spanish; and
(E) The list of recommended reading assessments and reading diagnostics includes at least one assessment and one diagnostic that a student can complete using pencil and paper rather than using a computer.

(b) Using the procedure developed pursuant to subsection (3) of this section, the department shall create an advisory list of evidence-based or scientifically based instructional programming in reading and supporting technologies, including software, for assessing and monitoring student progress that local education providers are encouraged to use, which programming and technology, including software, are aligned with the recommended reading assessments, including the assessment required in subsection (2)(a)(II)(D) of this section. The advisory list may include only programming and technology, including software, that, at a minimum:
(I) Have been proven to accelerate student progress in attaining reading competency;
(II) With regard to instructional programming, provides explicit and systematic skill development in the areas of phonemic awareness, phonics, vocabulary development, reading fluency including oral skills, and reading comprehension;

(II.5) With regard to instructional programming, is evidence based or scientifically based and is aligned with the preschool through elementary and secondary education standards for reading adopted by the state board pursuant to section 22-7-1005;

(III) With regard to instructional programming, includes evidence-based or scientifically based and reliable assessments;

(IV) Provide initial and ongoing analysis of the student's progress in attaining reading competency; and

(V) With regard to instructional programming, includes texts on core academic content to assist the student in maintaining or meeting grade-appropriate proficiency levels in academic subjects in addition to reading.

(c) Using the procedure developed pursuant to subsection (3) of this section, the department shall create an advisory list of rigorous professional development programs for teachers, reading interventionists, principals, and administrators, which programs are related to addressing significant reading deficiencies and to applying intervention instruction and strategies, in addition to programs related to teaching general literacy, that local education providers are encouraged to use. The department shall include on the advisory list professional development programs that are available online. The department shall ensure that each professional development program included on the advisory list is:

(I) Focused on or aligns with the science of reading, including teaching in the areas of phonemic awareness, phonics, vocabulary development, reading fluency including oral skills, and reading comprehension; and

(II) Includes rigorous evaluations of learning throughout and at the end of the course that a person taking the course must pass to successfully complete the course.

(d) The department shall make the approved list of assessments and the advisory lists of instructional programming and professional development programs, and subsequent updated lists, available on the department's website. The department is not required to provide copies of any reading assessments, instructional programming, or professional development programs that are included on the lists. If the department does provide copies of any materials that it acquires by purchase of a license for use by local education providers, the materials may be used only in accordance with the license.

(e) Each local education provider shall select from the list of approved reading assessments those reading assessments that it will administer to students in kindergarten and first, second, and third grades. Each local education provider is encouraged to use the instructional programming in reading and professional development programs included on the advisory lists. The department and each local education provider, in using the assessments, instructional programming in reading, and professional development programs that are included on the lists, shall comply with the federal copyright laws, 17 U.S.C. sec. 101 et seq.

(3) The department shall develop and implement a procedure for identifying the reading assessments it recommends to the state board for the approved list of reading assessments described in subsection (2)(a) of this section and for creating the advisory lists of instructional programming and professional development programs described in subsections (2)(b) and (2)(c) of this section. At a minimum, the procedure must include:
(a) Soliciting through public notice, accepting, and promptly reviewing assessments, instructional programming, and professional development programs from each local education provider and from publishers;

(b) Evaluating the assessments, instructional programming, and professional development programs that the department identifies or receives, which evaluation is based on the criteria specified in subsection (2) of this section and any additional criteria the state board may adopt by rule. The department may contract with an independent, third-party evaluator approved by the state board to evaluate the materials. The department shall recommend to the state board the reading assessments that meet the requirements specified in paragraph (a) of subsection (2) of this section.

(c) Reviewing the list of approved assessments at least every four years and the advisory lists at least every two years to update the lists and add additional items, when appropriate. In reviewing and updating the list of approved assessments and the advisory lists, the department shall, at a minimum, comply with the procedures described in subsections (3)(a) and (3)(b) of this section.

(d) Publishing on the department's website the initial and updated approved list of reading assessments and advisory lists of instructional programming and professional development programs.

(3.5) In designing and periodically updating the procedure and the rubric of criteria for reviewing assessments and materials and creating the advisory lists, the department shall consult with local education providers, including those with high enrollments of students who are English language learners as defined in section 22-24-103, and with third-party experts as necessary. The department shall ensure that the procedure for reviewing the assessments and materials and creating the advisory lists is inclusive and transparent.

(4) The department shall specify the information that local education providers shall submit pursuant to section 22-7-1213 and shall analyze the information as necessary to make the determinations specified in section 22-7-1213. If another rule or statute requires local education providers to submit any portion of the specified information, the department shall not require local education providers to resubmit the information, but shall apply the information received pursuant to the other rule or statute in preparing the analysis required in section 22-7-1213.

(5) The department shall make available to local education providers any information and materials it receives pursuant to section 22-7-1208 (3) concerning strategies and intervention instruction that local education providers find effective in assisting students to achieve reading competency, including copies of any effective materials that the department receives.

(6) The department, upon request, may provide technical assistance to a local education provider in implementing the provisions of this part 12; except that, if a local education provider is accredited with turnaround plan pursuant to section 22-11-208 or required to adopt a turnaround plan pursuant to section 22-11-210, the department shall provide technical assistance to the local education provider in implementing the provisions of this part 12.

(7) Beginning in the 2019-20 budget year, the department shall contract with an entity to develop and implement a public information campaign to emphasize the importance of learning to read by third grade and to highlight the local education providers that are achieving high percentages of third-grade students who demonstrate reading competency. The public information campaign must be disseminated statewide and must emphasize the important roles that educators and parents have in teaching children to read and in providing a school and home...
environment that promotes reading. The department is encouraged to work with the public and private library agencies throughout the state in developing and implementing the public information campaign.

(8) (a) By October 1, 2019, the department shall issue a request for proposals to contract with an entity to act as an independent evaluator to provide independent evaluations of the use of per-pupil intervention money and money received through the early literacy grant program by local education providers and to conduct a multi-year evaluation to determine whether the student outcomes achieved by local education providers in implementing this part 12 meet the goals of this part 12 as described in section 22-7-1202 (2) and (3)(a).

(b) The commissioner of education shall direct the process for reviewing the proposals received and for selecting the entity in accordance with the procurement laws applicable to the department. In selecting the entity, the commissioner shall ensure that:

(I) The selected entity demonstrates the ability and capacity to successfully complete the evaluation as described in subsection (8)(c) of this section within the specified time frame;

(II) The selected entity has expertise in reviewing and understanding the components of high-quality, effective reading curricula, education programs, instruction, strategies, and interventions;

(III) The selected entity has expertise in reviewing the implementation of English language development programs, especially with regard to teaching reading; and

(IV) The selected entity has expertise in understanding measurements of student learning and academic growth.

(c) The multi-year evaluation of the implementation of this part 12 must include:

(I) Review of the approved reading assessments and the items included on the advisory lists of instructional programming in reading and supporting technologies and of professional development programs to ensure that they meet the requirements specified in subsection (2) of this section and a review of the processes by which the department identifies assessments, instructional programming in reading, and professional development programs for inclusion on the lists;

(II) Evaluation of the effectiveness of the processes, procedures, methods, and strategies that local education providers use to implement the requirements of this part 12, including an inventory to establish a baseline indication of the teaching methods, strategies, and materials used by local education providers to teach reading in kindergarten and grades one through three;

(III) Measurement of the results attained that indicate the degree to which the goals of this part 12 have been met, including, at a minimum:

(A) The number of students annually identified as having significant reading deficiencies, including those initially identified and those who were identified in a previous school year;

(B) The amount of academic growth to standard in reading annually attained by students who are identified as having significant reading deficiencies and whether students identified as having significant reading deficiencies demonstrate sufficient, as determined by the department, growth to standard in reading over multiple years;

(C) Whether students identified as having significant reading deficiencies demonstrate grade-level reading competency by completion of third grade or by completion of a later grade;

(D) The number of students annually identified as reading below grade level; and
(E) The amount of academic growth to standard in reading annually attained by students who are reading below grade level and whether students identified as reading below grade level demonstrate sufficient, as determined by the department, growth to standard in reading over multiple years;

(IV) Identification of the effective processes, procedures, methods, and strategies used by local education providers that the independent evaluator identifies as achieving significant academic growth to standard in reading for students identified as having significant reading deficiencies and as reading below grade level;

(V) Establishment of a baseline indication of the level and quality of pre-service and in-service training in teaching reading received by each educator who is employed in a public school to teach kindergarten or one of grades one through three;

(VI) Evaluation of the degree to which local education providers effectively work with parents and members of the community to create partnerships for providing and encouraging reading instruction for students enrolled in kindergarten and grades one through three; and

(VII) Recommendations for legislative or regulatory changes regarding this part 12 or changes in implementation of the requirements of this part 12 to decrease the number of students identified as having significant reading deficiencies and increase to the greatest possible extent the number and overall percentage of students reading at grade level at the completion of kindergarten and grades one through three.

d) In completing the multi-year evaluation, the independent evaluator shall take into account student mobility within, and the student demographics of, each local education provider, including at the school-building level. The independent evaluator shall work directly with the department, local education providers, and parents and community members in completing the evaluation.

e) The independent evaluator contracted pursuant to this subsection (8) shall complete the evaluation of the implementation of this part 12 as described in subsection (8)(c) of this section by July 1, 2021. The department shall include a report of the evaluation in the hearing before the joint education committee held pursuant to section 2-7-203 in November or December 2021. The independent evaluator shall continue evaluations of the growth in reading achieved by local education providers' use of per-pupil intervention money and money received through the early literacy grant program.

(9) The department shall post on its website the information submitted by local education providers pursuant to section 22-7-1208 (8). The department shall ensure that the information is posted in a user-friendly format and in a location on the website easily identified as relating to student literacy or the "Colorado READ Act". The department shall notify the local education providers of the specific internet address for the page on which the information is posted and shall update the information in a timely manner as it receives updates from the local education providers.

L. 2015: (2)(a)(II)(C) and (2)(a)(II)(D) amended and (2)(a)(II)(E) added, (HB 15-1323), ch. 204, p. 714, § 5, effective May 20. L. 2018: IP(1), (1)(a), (1)(b), (1)(d), (2)(a)(I), (2)(a)(II)(A), IP(2)(b), (2)(b)(III), (2)(d), IP(3), (3)(a), and (3)(c) amended and (2)(b)(II.5) and (3.5) added, (HB 18-1393), ch. 275, p. 1738, § 1, effective May 29. L. 2019: (1)(d.5), (7), and (8) added and (2)(a)(I), (2)(b), (2)(c), IP(3), and (6) amended, (SB 19-199), ch. 154, p. 1827, § 7, effective May
22-7-1210. Early literacy fund - created. (1) The early literacy fund is hereby created in the state treasury and is referred to in this section as the "fund". The fund shall consist of:

(a) Any moneys remaining in the read-to-achieve cash fund as of June 30, 2012;
(b) and (c) Repealed.
(d) (I) For the 2013-14 budget year, an amount equal to sixteen million dollars from the state education fund, and for the 2014-15 budget year, and each budget year thereafter, an amount equal to thirty-four million dollars from the state education fund. On July 1, 2013, and on July 1 each year thereafter, the state treasurer shall transfer the appropriate amount from the state education fund to the early literacy fund. 

(II) The general assembly hereby finds and declares that, for the purposes of section 17 of article IX of the state constitution, providing students enrolled in kindergarten, first, second, or third grade with the instructional programming, intervention instruction, and support necessary to ensure that students, by the completion of third grade, can demonstrate a level of competency in reading skills that is necessary to support them in achieving the academic standards and expectations applicable to the fourth-grade curriculum is a program for accountable education reform and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(e) Any other moneys that the general assembly may appropriate or transfer to the fund.

(2) The state treasurer may invest any moneys in the fund not expended for the purposes specified in subsection (4) of this section as provided by law. The state treasurer shall credit all interest and income derived from the investment and deposit of moneys in the fund to the fund. Any amount remaining in the fund at the end of any fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or to any other fund.

(3) Repealed.

(4) The money in the fund is subject to annual appropriation by the general assembly to the department. The department shall annually expend the money in the fund as follows:

(a) to (c) Repealed.
(d) (I) Beginning in the 2020-21 budget year and for budget years thereafter, the department shall annually expend the money credited to the early literacy fund for the following purposes:

(A) To implement the public information campaign to promote reading described in section 22-7-1209 (7);
(B) To contract with and pay the direct costs incurred in overseeing an independent evaluator as provided in section 22-7-1209 (8);
(C) To implement the early literacy grant program created in section 22-7-1211;
(D) To allocate per-pupil intervention money to local education providers as provided in section 22-7-1210.5; and
(E) To pay the costs incurred in providing to local education providers technical assistance in implementing this part 12, training in teaching reading for teachers employed to teach kindergarten and grades one through three and for reading interventionists employed to teach grades four through twelve, training for principals and administrators pursuant to section 22-7-1208 (6.5), and training for librarians pursuant to section 24-90-121; monitoring the use of
money received as per-pupil intervention money or grants through the early literacy grant program; and fulfilling the administrative requirements specified in this part 12.

(II) The general assembly shall annually appropriate in the general appropriations bill the amount that the department may expend for the purposes specified in subsection (4)(d)(I) of this section.

(5) to (7) Repealed.

L. 2013: (1)(c) repealed, (1)(d) amended, and (1)(e) added, (SB 13-260), ch. 236, p. 1141, § 7, effective May 17.

22-7-1210.5. Per-pupil intervention money - uses - distribution - monitoring. (1) (a) To distribute the money appropriated pursuant to section 22-7-1210 (4) for per-pupil intervention money, the department shall annually calculate the per-pupil amount by dividing the amount of money available by the total number of students enrolled in kindergarten and first, second, and third grades in public schools in the state who were identified as having significant reading deficiencies and received instructional services pursuant to READ plans in the budget year preceding the year in which the money is distributed. Subject to the requirements of this section, a local education provider may receive per-pupil intervention money in an amount equal to the calculated per-pupil amount multiplied by the number of students enrolled in kindergarten and first, second, and third grades in public schools operated by the local education provider who
were identified as having significant reading deficiencies and received instructional services pursuant to READ plans in the budget year preceding the year in which the money is distributed.

(b) Repealed.

(2) Before the beginning of each budget year, to receive a distribution of per-pupil intervention money, a local education provider must submit to the department by the date specified by state board rule:

(a) The number of students enrolled in kindergarten and first, second, and third grades in public schools operated by the local education provider who were identified as having significant reading deficiencies and received instructional services pursuant to READ plans in the budget year preceding the year in which the money is distributed; and

(b) A budget, including a narrative explanation, for the use of the per-pupil intervention money in accordance with the uses described in subsection (4) of this section.

(3) (a) At the beginning of each budget year, the department shall distribute to a local education provider that meets the requirements specified in subsection (3)(b) of this section the amount of per-pupil intervention money calculated for the local education provider pursuant to subsection (1) of this section for the applicable budget year.

(b) To receive per-pupil intervention money in a budget year, a local education provider must meet the following requirements:

(I) The local education provider must submit the information described in subsection (2) of this section and in section 22-7-1213 (2);

(II) For the 2022-23 budget year and budget years thereafter, the local education provider must submit evidence that it is in compliance with the teacher training requirements specified in section 22-7-1208 (6);

(II.5) For the 2024-25 budget year and budget years thereafter, the local education provider must submit evidence that it is in compliance with the principal and administrator training requirements specified in section 22-7-1208 (6.5) and the reading interventionist training requirements specified in section 22-7-1208 (6.7);

(III) The department must approve the local education provider's proposed use of the per-pupil intervention money as being in compliance with the requirements in subsection (4) of this section;

(IV) For the preceding budget year, the local education provider must have used the money for one or more of the purposes specified in subsection (4) of this section; except that the provisions of this subsection (3)(b)(IV) do not apply if the local education provider did not receive a distribution of per-pupil intervention money in the preceding budget year; and

(V) If the local education provider is expecting to use the per-pupil intervention money for targeted intervention services as described in subsection (4)(d) of this section, the department reviewed and approved the services. The department shall not approve services that have not been implemented and proven to be successful with a student population and under circumstances that are comparable to those of the local education provider or that are not supported by valid research that suggests the services will be effective with the student population served by, and under the circumstances of, the local education provider.

(c) Throughout the budget year, the department shall monitor and, if deemed necessary by the department, audit each local education provider's use of the per-pupil intervention money it receives. The department may conduct site visits to the extent deemed necessary to adequately monitor a local education provider's use of per-pupil intervention money. Each local education
provider shall provide, upon request by the department, information necessary for the department to comply with this subsection (3)(c).

(4) A local education provider may use the per-pupil intervention money only as follows:

(a) To operate a summer school literacy program as described in section 22-7-1212;

(b) To purchase core reading instructional programs that are included on the advisory list of instructional programming in reading and supporting technologies developed by the department pursuant to section 22-7-1209 (2)(b);

(c) To purchase tutoring services that focus on increasing students' foundational reading skills of phonemic awareness, phonics, vocabulary development, reading fluency including oral skills, and reading comprehension for students who are receiving instructional services pursuant to READ plans;

(d) To provide other targeted, evidence-based or scientifically based intervention services to students who are receiving instructional services, which may include services provided by a reading interventionist, pursuant to READ plans, which services are approved by the department;

(e) To provide technology, including software, which is included on the advisory list of instructional programming in reading and supporting technologies pursuant to section 22-7-1209 (2)(b), to assist in assessing and monitoring student progress toward reading competency, which may include providing professional development in the effective use of the technology or software;

(f) To purchase from a board of cooperative services the services of a reading specialist or reading interventionist who is trained in the science of reading and in teaching the foundational reading skills of phonemic awareness, phonics, vocabulary development, reading fluency including oral skills, and reading comprehension to provide educator professional development in teaching reading and other support in implementing the requirements of this part 12; or

(g) To provide professional development programming to support educators in teaching reading. Professional development programming authorized in this subsection (4)(g) may include hiring a reading coach who is trained in teaching the foundational reading skills of phonemic awareness, phonics, vocabulary development, reading fluency, including oral skills, and reading comprehension to provide job-embedded, ongoing professional development to support kindergarten-through-third-grade teacher competence in teaching phonemic awareness, phonics, vocabulary development, reading fluency, including oral skills, and reading comprehension. A local education provider that has not fully complied with section 22-7-1208 (6), (6.5), or (6.7) is strongly encouraged to use per-pupil intervention money to ensure that all teachers employed by the local education provider to teach kindergarten or any of grades one through three and all reading interventionists employed to teach grades four through twelve successfully complete evidence-based training in teaching reading, and the principals and administrators described in section 22-7-1208 (6.5)(a) successfully complete evidence-based training in the science of reading, before using the money for other authorized purposes.

(5) In using the per-pupil intervention money distributed pursuant to this section, each local education provider shall ensure that some type of intervention, as described in subsection (4) of this section, is available to each student who is identified as having a significant reading
deficiency and who is enrolled in kindergarten or first, second, or third grade in a school operated by the local education provider.

(6) (a) Each local education provider shall ensure that the per-pupil intervention money it receives in each budget year is used to improve the reading competency of students enrolled in kindergarten and grades one through three who are identified as having a significant reading deficiency or receive instructional services pursuant to READ plans and does not replace other money that would otherwise be used for this purpose.

(b) (I) A local education provider may retain up to fifteen percent of the amount of per-pupil intervention money it receives in a budget year for use in accordance with this section in the next budget year. If a local education provider retains more than the amount authorized in this subsection (6)(b), the department shall reduce the amount of per-pupil intervention money that the local education provider is eligible to receive in the next budget year by the excess retention amount.

(II) Repealed.

Editor's note: (1) Subsection (1)(b)(II) provided for the repeal of subsection (1)(b), effective July 1, 2021. (See L. 2020, p. 956.)

(2) Subsection (6)(b)(II)(B) provided for the repeal of subsection (6)(b)(II), effective July 1, 2023. (See L. 2022, p. 1746.)

Cross references: For the legislative declaration in HB 20-1418, see section 1 of chapter 197, Session Laws of Colorado 2020. For the legislative declaration in HB 22-1390, see section 1 of chapter 237, Session Laws of Colorado 2022.

22-7-1211. Early literacy grant program - created - definitions. (1) (a) There is created in the department the early literacy grant program to provide money to local education providers to implement literacy support and intervention instruction programs, including but not limited to related professional development programs, to assist students in kindergarten and first, second, and third grades to achieve reading competency. The state board may award a grant to an applying local education provider that is a school district on a district-wide basis or to individual schools of the school district. A local education provider may apply individually or as part of a group of local education providers. The state board by rule shall establish the application timelines and the information to be included in each grant application. The state board shall not, as a condition of applying for or receiving a grant, restrict an applicant's ability to use any of the assessments included on the approved list of assessments adopted pursuant to section 22-7-1209 (1)(b).

(b) In adopting rules, the state board shall ensure that a local education provider that is a rural school district or a small rural school district, or a district charter school or an institute
charter school that is located within the boundaries of a rural school district or small rural school district, may submit a simplified grant application. A rural school district that is a member of a board of cooperative services may seek assistance in writing the grant application from the board of cooperative services. A board of cooperative services may apply for a grant to provide instructional support in literacy for small rural school districts that are members of the board of cooperative services.

(2) The department shall review each grant application received and recommend to the state board whether to award the grant and the duration and amount of each grant. In making recommendations, the department shall consider the following factors:

(a) The percentage of kindergarten and first-, second-, and third-grade students enrolled by the applying local education provider or group of local education providers who have significant reading deficiencies and the percentage of kindergarten and first-, second-, and third-grade students who do not have significant reading deficiencies but who are not meeting the grade-level expectations in reading adopted by the state board;

(b) The instructional program that the applying local education provider or group of local education providers plans to implement using the grant money and whether it is an evidence-based program that is proven to be successful in other public schools in Colorado or in other states;

(b.3) Whether the local education provider or group of local education providers employs reading coaches or plans to use all or a portion of the grant money to employ reading coaches;

(b.5) The degree to which the instructional program incorporates the effective use of technology, including software, to assist in assessing and monitoring student progress toward reading competency;

(c) The cost of the instructional program that the applying local education provider or group of local education providers plans to implement using the grant moneys;

(c.5) In the case of a board of cooperative services that applies for a grant to provide instructional support in literacy, the number of small rural school districts, the number of kindergarten and first-, second-, and third-grade students enrolled in the small rural school districts, and the resources available to the small rural school districts that will receive instructional support as a result of the grant;

(d) Any additional factors the state board may require by rule.

(3) Based on the recommendations of the department, the state board shall award grants to applying local education providers or groups of local education providers, which grants are paid from money in the early literacy fund created in section 22-7-1210. Of the money allocated for the early literacy grant program pursuant to section 22-7-1210 (4), the state board shall annually:

(a) Award up to ten percent to applicants that have previously received a grant to fund school-wide literacy initiatives that have resulted in significant student academic growth toward reading competency, as determined by an independent evaluator as provided in section 22-7-1209 (8), and that are requesting an additional year of funding to assist the local education provider in sustainability planning for the initiatives, including the continuing use of literacy coaches;

(b) Award up to fifteen percent to fund professional development initiatives for local education providers that are already implementing evidence-based or scientifically based
universal instruction and interventions that are resulting in significant student academic growth toward reading competency, as determined by an independent evaluator as provided in section 22-7-1209 (8); and

(c) Award the remainder to applicants that request funding for other evidence-based or scientifically based literacy support and intervention instruction programs to assist students in kindergarten and first, second, and third grades to achieve reading competency.

(3.5) (a) Upon completion of the term of a grant, if an independent evaluator, as provided in section 22-7-1209 (8), determines that the instructional program funded by the grant money has resulted in significant student academic growth toward reading competency, and if the local education provider requests an extension of the grant, the state board shall extend the grant for a period recommended by the department. The state board shall increase the amount of the grant if necessary to enable the local education provider to expand or enhance implementation of the instructional program.

(b) Upon completion of the term of a grant, if an independent evaluator, as provided in section 22-7-1209 (8), determines that the instructional program funded by the grant money has not resulted in significant academic student growth toward reading competency, the state board shall not extend or renew the grant.

(4) For purposes of this section:

(a) "Rural school district" means a school district in Colorado that the department of education determines is rural, based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area.

(b) "Small rural school district" means a rural school district that enrolls fewer than one thousand two hundred students in kindergarten through twelfth grade.

L. 2016: (1) and (2)(c.5) amended and (4) added, (HB 16-1440), ch. 316, p. 1277, § 5, effective August 10. L. 2018: (1), (3), and (4) amended, (HB 18-1393), ch. 275, p. 1742, § 3, effective May 29. L. 2019: (1), (2)(a), (2)(b), IP(3), (3)(a), and (3)(b) amended and (2)(b.3), (2)(b.5), and (3.5) added, (SB 19-199), ch. 154, p. 1837, § 10, effective May 10.

22-7-1212. Summer school literacy programs. (1) A local education provider may choose to use per-pupil intervention money to provide an evidence-based or scientifically based summer school literacy program to assist students who are enrolled in kindergarten or first, second, or third grade and who have significant reading deficiencies to achieve reading competency. A local education provider may allow students who are below grade-level expectations in reading, but who do not have significant reading deficiencies, to participate in a summer school literacy program operated pursuant to this section if capacity remains after serving all of the students with significant reading deficiencies who choose to participate.

(2) A local education provider that intends to use per-pupil intervention money to operate a summer school literacy program shall annually provide to the department information concerning the summer school literacy program the local education provider intends to operate, which demonstrates that the summer school literacy program meets the requirements specified in subsection (3) of this section.

(3) The local education provider shall ensure that the program:
(a) Serves only students enrolled in kindergarten or first, second, or third grade who have significant reading deficiencies, except as specifically allowed in subsection (1) of this section for students who are below grade-level expectations in reading; and
(b) Uses scientifically based or evidence-based instructional programming in reading that:
   (I) Has been proven to accelerate student progress in attaining reading competency;
   (II) Provides explicit and systematic skill development in the areas of phonemic awareness; phonics; vocabulary development; reading fluency, including oral skills; and reading comprehension;
   (III) Includes scientifically based and reliable assessments; and
   (IV) Provides initial and ongoing analysis of the student's progress in attaining reading competency.

22-7-1213. Reporting requirements. (1) Each local education provider shall annually report to the department information necessary to determine:
   (a) The prevalence of significant reading deficiencies among students in kindergarten and first through third grades;
      (a.3) The amount of academic growth to standard in reading annually achieved by students who are enrolled in kindergarten and first through third grades and who are identified as having significant reading deficiencies;
      (a.5) The amount of academic growth to standard in reading annually achieved by students who are enrolled in kindergarten and first through third grades and who are identified as reading below grade level;
      (a.7) Whether the amount of academic growth to standard annually achieved by each student described in subsections (1)(a.3) and (1)(a.5) of this section demonstrates sufficient, as determined by the department, growth to standard in reading over multiple years;
   (b) Whether students who have significant reading deficiencies and who advance to the next grade level attain reading competency and, if so, at what grade level;
   (c) Whether students who have significant reading deficiencies and who do not advance to the next grade level attain reading competency within the school year during which they do not advance;
   (d) Whether students who have significant reading deficiencies and who do not advance to the next grade level attain reading competency at a lower grade level than students who do advance; and
   (e) Whether students who have significant reading deficiencies continue to advance to the next grade level despite having a continuing significant reading deficiency and the degree to which local education providers are recommending that said students do not advance.
   (1.5) Each local education provider shall submit to the department and to the independent evaluator contracted pursuant to section 22-7-1209 (8) any information required by the department or the independent evaluator to complete the evaluation described in section 22-7-1209 (8). The local education provider, in providing information, and the department and the independent evaluator in receiving and using the information, shall comply with state and
federal laws to protect the privacy of student information. The local education provider, the department, and the independent evaluator shall collaborate to minimize the impact on instructional time that may result from collecting and providing the information.

(2) Each local education provider that receives an early literacy grant pursuant to section 22-7-1211 or per-pupil intervention money shall, at the conclusion of each budget year in which it receives the grant or per-pupil intervention money, submit to the department information describing:

(a) In detail, the specific expenditures for which the local education provider used the grant or per-pupil intervention money;

(a.5) If the local education provider purchased instructional programming in reading using grant or per-pupil intervention money, the scores attained by students enrolled in kindergarten through third grade on the interim reading assessments administered pursuant to section 22-7-1205;

(b) The number and grade levels of students who participated in each of the types of programs or services provided; and

(c) The progress made by participating students in achieving reading competency.

(3) (a) The department shall annually analyze the information received pursuant to subsection (1) of this section and make the determinations described in subsection (1) of this section.

(b) Notwithstanding section 24-1-136 (11)(a)(I), the department shall annually submit to the state board, the governor, the president of the senate, the speaker of the house of representatives, and the education committees of the house of representatives and the senate, or any successor committees, and shall post on the department website a report that summarizes:

(I) The information received pursuant to subsection (1) of this section and the determinations made by the department based on the information;

(II) The implementation of the early literacy grant program in the preceding budget year, including the number of grants, the local education providers that received grants, and the amount of each grant; and

(III) The information received by the department pursuant to subsection (2) of this section.

(c) The department may provide the report described in paragraph (b) of this subsection (3) to committees of the general assembly in conjunction with the report required in section 2-7-203, C.R.S.

(4) The information provided in the report described in this section is intended to assist the department, the state board, the governor, the general assembly, and the public in monitoring the implementation of and identifying the results achieved in implementing this part 12.

Editor's note: Amendments to subsection (2) by SB 19-199 and HB 19-1262 were harmonized.

ARTICLE 9

Licensed Personnel Evaluations

22-9-101. Short title. This article shall be known and may be cited as the "Licensed Personnel Performance Evaluation Act".

22-9-102. Legislative declaration. (1) The general assembly hereby declares that:
(a) A system to evaluate the effectiveness of licensed personnel is crucial to improving the quality of education in this state and declares that such a system shall be applicable to all licensed personnel in the school districts and boards of cooperative services throughout the state; and
(b) The purposes of the evaluation shall be to:
(I) Serve as a basis for the improvement of instruction;
(II) Enhance the implementation of programs of curriculum;
(III) Serve as a measurement of the professional growth and development of licensed personnel;
(IV) Evaluate the level of performance based on the effectiveness of licensed personnel; and
(V) Provide a basis for making decisions in the areas of hiring, compensation, promotion, assignment, professional development, earning and retaining nonprobationary status, dismissal, and nonrenewal of contract.

(2) The general assembly further declares that a professionally sound and credible system to evaluate the effectiveness of licensed personnel shall be designed with the involvement of licensed personnel and citizens of the school district or board of cooperative services.

(3) The general assembly further declares that the involvement and support of parents of children in public schools, acting as partners with teachers and public school administrators, are key to the educational progress of their children.

22-9-103. Definitions. As used in this article 9, unless the context otherwise requires:
(1) "Board of cooperative services" shall have the same meaning as provided in section 22-5-103 (2).
(1.1) "Council" means the state council for educator effectiveness established pursuant to section 22-9-105.5.
(1.4) "Department" means the department of education created pursuant to section 24-1-115, C.R.S.
(1.5) "Licensed personnel" or "licensed person" means a person who is employed to instruct students, to provide professional services to students in direct support of the education instructional program, or to administer, direct, or supervise the instructional program in a school in the state and who holds a valid license or authorization pursuant to article 60.5 of this title 22.
(2) "Local board of education" or "local board" means the board of education of the school district.
(2.5) "Performance standards" means the levels of effectiveness established by rule of the state board pursuant to section 22-9-105.5 (10).
(2.6) "Principal" means a person who is employed as the chief executive officer or an assistant chief executive officer of a school in the state and who administers, directs, or supervises the education program in the school.
(2.7) "Principal development plan" means a written agreement developed by a principal and district administration that outlines the steps to be taken to improve the principal’s effectiveness. The principal development plan shall include professional development opportunities.
(2.9) "Quality standards" means the elements and criteria established to measure effectiveness as established by rule of the state board pursuant to section 22-9-105.5 (10).
"School district" means any school district organized and existing pursuant to law but does not include a local college district.

"State board" means the state board of education established by section 1 of article IX of the state constitution.

"Teacher" means a person who holds an alternative, initial, or professional teacher license issued pursuant to the provisions of article 60.5 of this title and who is employed by a school district or a charter school in the state to instruct, direct, or supervise an education program.

"Teacher development plan" means a written agreement mutually developed by a teacher and his or her principal that outlines the steps to be taken to improve the teacher's effectiveness. The teacher development plan may include but need not be limited to consideration of induction and mentorship programs, use of highly effective teachers as instructional leaders or coaches, and appropriate professional development activities.

L. 2010: (1.1), (1.4), (2.5), (2.6), (2.7), (2.9), (5), and (6) added, (SB 10-191), ch. 241, p. 1054, § 2, effective May 20. L. 2022: IP and (1.5) amended, (SB 22-070), ch. 214, p. 1409, § 1, effective May 24.

Editor's note: Subsections (2.7), (2.9), (5), and (6) were numbered as subsections (3.5), (2.7), (6), and (5), respectively, in SB 10-191 but were renumbered on revision to place the definitions in alphabetical order.

22-9-104. State model licensed personnel performance evaluation system - department - state board - powers and duties - rules. (1) The state board shall promulgate guidelines relating to the planning, development, implementation, and assessment of a state model licensed personnel performance evaluation system that may be adopted by each school district and board of cooperative services within the state. In promulgating said guidelines, the state board shall allow each school district and board of cooperative services to involve and consult with the licensed personnel and citizens of the school district or districts. Each school district and board of cooperative services has the flexibility needed to develop a system of personnel performance evaluation that is specifically designed to meet the individual needs of that school district or board of cooperative services.

(1.5) To assist school districts and boards of cooperative services in implementing the state model licensed personnel performance evaluation system and in developing and implementing local systems of personnel performance evaluation, by the beginning of the 2023-24 school year, the department shall:

(a) Create a modified rubric specifically for measuring the performance of a licensed person who has received a rating of highly effective for at least three consecutive school years and provide guidelines for focusing on professional growth and career development in evaluating licensed personnel who are consistently rated highly effective;

(b) Work with school districts and boards of cooperative services to create and make publicly available rubrics for measuring the performance of licensed personnel in a limited number of specialized teacher or principal roles;
(c) Provide evaluator training at no cost to school districts and boards of cooperative services to ensure that all evaluators have the skills necessary to observe and evaluate licensed personnel with fidelity to the licensed personnel performance evaluation system implemented by the evaluator's school district or board of cooperative services;

(d) Provide guidelines for considering a licensed person's professional growth achievements, such as attainment of national board certification or fullfillment of differentiated professional roles, as proof that the licensed person meets one or more of the quality standards, in lieu of some or all of the elements that demonstrate attaintment of the quality standards; and

(e) Provide information concerning best practices in methods of conducting licensed personnel evaluations, including innovative methods for observation.

(2) The state board shall:

(a) Provide training and leadership and give technical assistance to school districts and boards of cooperative services in the development of a licensed personnel performance evaluation system;

(b) Work and cooperate with the state's universities and colleges that have teacher, principal, or administrator education programs to ensure that principals and administrators who have evaluation responsibilities will receive adequate education and training that meets the requirements specified in section 22-9-108 and will enable them to make thorough, credible, fair, and professional quality evaluations of all licensed personnel whom those principals or administrators may be responsible for evaluating;

(c) Promulgate rules concerning the planning, development, implementation, and assessment of the state model licensed personnel performance evaluation system to evaluate the effectiveness of licensed personnel;

(d) Repealed.

(e) (Deleted by amendment, L. 2009, (SB 09-163), ch. 293, p. 1532, § 17, effective May 21, 2009.)

(f) Pursuant to the "State Administrative Procedure Act", article 4 of title 24, promulgate rules with regard to the issues specified in section 22-9-105.5 (3)(a) to (3)(h).

(3) For evaluations completed for the 2023-24 school year and each school year thereafter, the state board shall promulgate rules as necessary to ensure that, under the state model licensed personnel performance evaluation system and a local system of personnel performance evaluation:

(a) Thirty percent of a teacher's or principal's evaluation is determined by the academic growth of the teacher's students or the students enrolled in the principal's school, as applicable, and the remainder is based on the teacher's or principal's attainment of the quality standards;

(b) Except as otherwise provided in subsection (3)(c) of this section, of the thirty percent of a teacher's or principal's evaluation that is based on student academic growth, up to ten percent may be based on measures of collective student academic growth that are based on the performance of all students enrolled at a particular grade level within the school in which the teacher or principal is employed or the performance of all students enrolled in the school in which the teacher or principal is employed, but a teacher's or principal's evaluation must not include measures of collective student academic growth that are based on the performance of students who are not enrolled in the school in which the teacher or principal is employed; and

(c) The evaluation of a licensed person who has been employed by a school district or board of cooperative services for one school year or less must not include data that was created...
prior to the date on which the licensed person commenced employment with the school district or board of cooperative services.

22-9-105. State licensed personnel performance evaluation council created - duties. (Repealed)

22-9-105.5. State council for educator effectiveness - legislative declaration - membership - duties - recommendations - rules. (1) The general assembly hereby finds and declares that:

(a) On January 13, 2010, the governor established by executive order the governor's council for educator effectiveness;

(b) The executive order charged the council with, among other duties, considering options and providing recommendations concerning educator effectiveness and developing recommendations for definitions of principal and teacher effectiveness; and

(c) The general assembly further finds and declares that it is in the best interests of the people of the state of Colorado to codify in statute the governor's council for educator effectiveness because of the significant additional statutory duties and responsibilities that the general assembly is assigning to said council.

(2) (a) There is hereby created in the office of the governor the state council for educator effectiveness, referred to in this article as the "council".

(b) The members of the governor's council for educator effectiveness, created by executive order B 2010-001, shall serve on the council, as appointed by the governor, and shall include:

(I) The commissioner of education, or his or her designee;

(II) The executive director of the department of higher education, or his or her designee;

(III) Four teachers, selected with the advice of state associations that represent educators;

(IV) Two public school administrators and one local school district superintendent, each selected with the advice of a state association that represents school executives;
(V) Two members of local school boards, selected with the advice of a state association that represents school boards;

(VI) One charter school administrator or teacher, selected with the advice of a state advocacy group for charter schools;

(VII) One parent of a public school student, selected with the advice of a state parent and teachers association;

(VIII) A current student or recent graduate of a Colorado public school, selected with the advice of a statewide student coalition; and

(IX) One at-large member with expertise in education policy.

(c) The purpose of the council shall be the same as that of the governor's council for educator effectiveness established by executive order, and shall be to consider options and make recommendations to the state board and the general assembly that seek to ensure that all licensed personnel are:

(I) Evaluated using multiple fair, transparent, timely, rigorous, and valid methods, at least fifty percent of which evaluation is determined by the academic growth of their students;

(II) Afforded a meaningful opportunity to improve their effectiveness; and

(III) Provided the means to share effective practices with other educators throughout the state.

(3) The council shall have the following duties:

(a) On or before March 1, 2011, to provide the state board with recommendations that will ensure that every teacher is evaluated using multiple fair, transparent, timely, rigorous, and valid methods. The recommendations developed pursuant to this paragraph (a) shall require that at least fifty percent of the evaluation is determined by the academic growth of the teacher's students and that each teacher is provided with an opportunity to improve his or her effectiveness through a teacher development plan that links his or her evaluation and performance standards to professional development opportunities. The quality standards for teachers shall include measures of student longitudinal academic growth that are consistent with the measures set forth in section 22-11-204 (2) and may include interim assessment results or evidence of student work, provided that all are rigorous and comparable across classrooms and aligned with state model content standards and performance standards developed pursuant to article 7 of this title. For the purposes of quality standards, expectations of student academic growth shall take into consideration diverse factors, including but not limited to special education, student mobility, and classrooms with a student population in which ninety-five percent meet the definition of high-risk student as defined in section 22-7-604.5 (1.5). The quality standards for teachers shall be clear and relevant to the teacher's roles and responsibilities and shall have the goal of improving student academic growth. The council shall include in its recommendations a definition of effectiveness and its relation to quality standards. The definition of effectiveness shall include, but need not be limited to, criteria that will be used to differentiate between performance standards. The defined performance standards shall include, but need not be limited to, "highly effective", "effective", and "ineffective". The council shall consider whether additional performance standards should be established.

(a.5) On or before March 1, 2011, to provide the state board with recommendations that will ensure that every principal is evaluated using multiple fair, transparent, timely, rigorous, and valid methods. The recommendations pursuant to this paragraph (a.5) shall require that every principal is provided with a principal development plan. In making its recommendations, the
council shall recognize that not all teachers and principals require the same amount of supervision and evaluation. As part of its recommendations to the state board, the council shall develop a process to enable a local school district to differentiate teacher and principal evaluations as part of its performance evaluation system.

(b) On or before March 1, 2011, to provide the state board with recommendations concerning the implementation and testing of the new performance evaluation system that is based on quality standards and with recommendations for the subsequent statewide implementation of the new performance evaluation system. The recommendations made pursuant to this paragraph (b) shall conform to the timeline set forth in subsection (10) of this section.

(b.5) On or before March 1, 2011, to make recommendations to the state board concerning the involvement and support of parents of children in public schools, to the effect that parents should act as partners with teachers and public school administrators;

(c) On or before March 1, 2011, to provide the state board with recommendations that will ensure development of a set of guidelines for establishing performance standards for each category of licensed personnel to be evaluated pursuant to this article. The guidelines shall outline criteria to be applied in assigning educators to appropriate performance standards, which shall include measures of student longitudinal academic growth.

(d) On or before March 1, 2011, to develop and recommend to the state board statewide definitions of principal effectiveness and teacher effectiveness, each of which shall be centered on an educator's demonstrated ability to achieve and sustain adequate student growth and shall include a set of professional skills and competencies related to improved student outcomes;

(e) On or before March 1, 2011, to develop and recommend to the state board guidelines for adequate implementation of a high-quality educator evaluation system that shall address, at a minimum, the following issues:

(I) Ongoing training on the use of the system that is sufficient to ensure that all evaluators and educators have a full understanding of the evaluation system and its implementation. The training may include such activities as conducting joint training sessions for evaluators and educators.

(II) Evaluation results that are normed to ensure consistency and fairness;

(III) Evaluation rubrics and tools that are deemed fair, transparent, rigorous, and valid;

(IV) Evaluations that are conducted using sufficient time and frequency, at least annually, to gather sufficient data upon which to base the ratings contained in an evaluation;

(V) Provision of adequate training and collaborative time to ensure that educators fully understand and have the resources to respond to student academic growth data;

(VI) Student data that is monitored at least annually to ensure the correlation between student academic growth and outcomes with educator effectiveness ratings; and

(VII) A process by which a nonprobationary teacher may appeal his or her second consecutive performance rating of ineffective and submit such process by the first day of convening of the first regular session of the sixty-ninth general assembly to the education committees of the house of representatives and the senate, or any successor committees.

(f) On or before March 1, 2011, to adopt and recommend to the state board a rubric for identifying multiple additional quality standards, in addition to student academic growth, that are rigorous, transparent, valid, and fair;
(g) On or before March 1, 2011, to make recommendations to the state board for policy changes, as appropriate, that will support local school districts' use of evaluation data for decisions in areas such as compensation, promotion, retention, removal, and professional development;

(h) On or before March 1, 2011, to make recommendations to the state board for policy changes, as appropriate, that will ensure that the standards and criteria applicable to teacher and principal licensure and the accreditation of preparation programs are directly aligned with and support the preparation and licensure of effective educators;

(i) On or before July 1, 2013, and July 1 each year thereafter during the implementation of the performance evaluation system, the department shall report to the council the results of the implementation and testing of the performance evaluation system. Based on the results of the reports, the council may make additional recommendations to be incorporated in the following stage of implementation.

(j) The council shall develop an implementation plan for its recommendations and will identify tasks and the associated costs at the state and district levels. The recommendations shall include an implementation cost analysis, including assessment changes, assessment pilot study, staff training, research, data review, and any other tasks included in the council's recommendations. It is incumbent on the council to consult with the department and expert practitioners familiar with school finance and to report by March 1, 2011, on the costs to implement the council's recommendations.

(3.5) The recommendations made by the council to the state board pursuant to this section shall reflect a consensus vote. For any issue that the council was unable to reach a consensus, the council shall provide to the state board the reasons it was unable to reach a consensus.

(4) The council's recommendations shall consist, at a minimum, of recommendations that are applicable to school principals and teachers.

(5) The council's recommendations may include changes to existing statutes or rules, if appropriate, as well as recommendations for local implementation.

(6) In making its recommendations, the council shall include the effect of district- and school-level conditions, as measured by the nine performance standards set forth in the comprehensive appraisal for the district improvement rubric and biannual teaching, empowering, leading, and learning initiative survey of school working conditions, as well as any additional methods of assessing such conditions identified by the council as valid, transparent, and reliable.

(7) The council may establish working groups, task forces, or other structures from within its membership or outside its membership as needed to address specific issues or to assist in its work.

(8) All recommendations made by the council pursuant to this section shall reflect a consensus of its members.

(9) Unless otherwise provided for, the office of the governor and the department shall provide the council with the support, information, data, analytical information, and administrative support necessary to do its work.

(10) (a) On or before September 1, 2011, the state board shall promulgate rules with regard to the issues specified in paragraphs (a) to (h) of subsection (3) of this section, using the recommendations from the council. If the council fails to make recommendations to the state board by March 1, 2011, with regard to the issues specified in paragraphs (a) to (h) of subsection
(3) of this section, the state board shall, on or before September 1, 2011, promulgate rules concerning any issues in said paragraphs (a) to (h) that the council did not address. In promulgating rules pursuant to this subsection (10), the state board shall conform to the following timeline:

(I) Beginning with the 2011-12 school year, the department shall work with school districts and boards of cooperative services to assist with the development of performance evaluation systems that are based on quality standards.

(II) On or before January 15, 2012, the state board shall provide to the general assembly the rules promulgated pursuant to this subsection (10). On or before February 15, 2012, the general assembly shall review and approve such rules as provided for in paragraph (b) of this subsection (10).

(III) Beginning with the 2012-13 school year, if the general assembly approves the rules promulgated pursuant to this subsection (10), the new performance evaluation system that is based on quality standards shall be implemented and tested as recommended by the council pursuant to paragraph (b) of subsection (3) of this section.

(IV) (A) Beginning with the 2013-14 school year, if the general assembly approves the rules promulgated pursuant to this subsection (10), and based on the results of the first level of implementation in the 2012-13 school year, the new performance evaluation system that is based on quality standards shall be implemented statewide in a manner as recommended by the council pursuant to paragraph (b) of subsection (3) of this section.

(B) During the 2013-14 school year, teachers shall be evaluated based on quality standards. Demonstrated effectiveness or ineffectiveness shall begin to be considered in the acquisition of probationary or nonprobationary status.

(V) (A) Beginning with the 2014-15 school year, if the general assembly approves the rules promulgated pursuant to this subsection (10), and based on the results of the first and second levels of implementation in the 2012-13 and 2013-14 school years, the new performance evaluation system that is based on quality standards shall be finalized on a statewide basis.

(B) During the 2014-15 school year, teachers shall continue to be evaluated based on quality standards. Demonstrated effectiveness or ineffectiveness shall be considered in the acquisition or loss of probationary or nonprobationary status.

(b) On or before February 15, 2012, the general assembly shall review the rules promulgated pursuant to paragraph (a) of this subsection (10) in a bill that is separate from the annual rule review bill introduced pursuant to section 24-4-103 (8)(d), C.R.S., and in accordance with the criteria and procedures specified in section 24-4-103 (8)(a) and (8)(d), C.R.S.; except that the general assembly reserves the right to repeal individual rules contained in the rules promulgated by the state board. If one or more rules is not approved by the general assembly pursuant to this paragraph (b), the state board shall promulgate emergency rules pursuant to section 24-4-103 (6), C.R.S., on such issue or issues and resubmit to the general assembly on or before May 1, 2012. The general assembly shall review the emergency rules promulgated according to the process outlined in this paragraph (b).

(11) On or before November 1, 2011, the department shall create and make available to school districts and boards of cooperative services a resource bank that identifies assessments, processes, tools, and policies that a school district or board of cooperative services may use to develop an evaluation system that addresses the provisions of this section. The department shall include resources that are appropriate to school districts and boards of cooperative services of
different sizes, demographics, and locations. The department shall update the resource bank at least annually to reflect new research and ongoing experience in Colorado.

(12) The department shall not be obligated to implement the provisions of this section until sufficient funds have been received and credited to the great teachers and leaders fund, created in section 22-9-105.7. The department is hereby authorized to hire any employees necessary to carry out the provisions of this section. Any new positions created pursuant to this section shall be subject to the availability of funding and shall be eliminated at such time as moneys are no longer available in the great teachers and leaders fund. All position descriptions and notice to hire for positions created pursuant to this section shall clearly state that such position is subject to available funding.

22-9-105.7. Great teachers and leaders fund - created - gifts, grants, and donations - legislative declaration. (1) The department is authorized to seek, accept, and expend gifts, grants, and donations for the implementation of section 22-9-105.5; except that the department may not accept a gift, grant, or donation that is subject to conditions that are inconsistent with this or any law of the state. The department shall transmit all moneys received to the state treasurer, who shall credit the same to the great teachers and leaders fund, which fund is hereby created and referred to in this section as the "fund". Moneys in the fund are continuously appropriated to the department for the direct and indirect costs associated with implementing section 22-9-105.5.

(2) Any moneys in the fund not expended for the purposes of section 22-9-105.5 may be invested by the state treasurer, as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

(3) The general assembly hereby finds and declares that, for the purposes of section 17 of article IX of the state constitution, the implementation of the state council for educator effectiveness is a program for accountable education reform and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(4) Nothing in this section shall be interpreted to require the department to solicit gifts, grants, or donations for the fund.

(5) Repealed.

Editor's note: Subsection (5)(b) provided for the repeal of subsection (5), effective July 1, 2021. (See L. 2020, p. 947.)
Cross references: For the legislative declaration in HB 20-1418, see section 1 of chapter 197, Session Laws of Colorado 2020.

22-9-106. Local boards of education - duties - performance evaluation system - compliance - rules - repeal. (1) All school districts and boards of cooperative services that employ licensed personnel shall adopt a written system to evaluate the employment performance of school district and board of cooperative services licensed personnel, including all teachers, principals, and administrators, with the exception of licensed personnel employed by a board of cooperative services for a period of six weeks or less. In developing the licensed personnel performance evaluation system and any amendments thereto, the local board and board of cooperative services shall comply with subsection (1.5) of this section and shall consult with administrators, principals, and teachers employed within the district or participating districts in a board of cooperative services, parents, and the school district licensed personnel performance evaluation council or the board of cooperative services personnel performance evaluation council created pursuant to section 22-9-107. The performance evaluation system must address all of the performance standards established by rule of the state board and adopted by the general assembly pursuant to section 22-9-105.5, and must contain, but need not be limited to, the following information:

(a) The title or position of the evaluator for each licensed personnel position to be evaluated;
(b) The licensed personnel positions to be evaluated, which shall include all licensed personnel, all part-time teachers as defined in section 22-63-103 (6), and all administrators and principals;
(c) The frequency and duration of the evaluations, which must be on a regular basis and of such frequency and duration as to ensure the collection of a sufficient amount of data from which reliable conclusions and findings may be drawn. At a minimum, the performance evaluation system must ensure that:

(I) Probationary teachers receive at least two documented observations and one evaluation that results in a written evaluation report pursuant to subsection (3) of this section each academic year. Probationary teachers shall receive the written evaluation report at least two weeks before the last class day of the school year.

(II) Nonprobationary teachers receive at least one observation each academic year and one evaluation that results in a written evaluation report pursuant to subsection (3) of this section each academic year according to the performance standards established by rule of the state board and adopted by the general assembly pursuant to section 22-9-105.5. Nonprobationary teachers must receive the written evaluation report at least two weeks before the last class day of the school year.

(III) Principals shall receive one evaluation that results in a written evaluation report pursuant to subsection (3) of this section each academic year according to the performance standards established by rule of the state board and adopted by the general assembly pursuant to section 22-9-105.5.

(d) The purposes of the evaluation, which must include but need not be limited to:
(1) Providing a basis for the improvement of instruction;
(II) Enhancing the implementation of programs of curriculum;

(III) Providing the measurement of satisfactory performance for individual licensed personnel and serving as documentation for an unsatisfactory performance dismissal proceeding under article 63 of this title;

(IV) Serving as a measurement of the professional growth and development of licensed personnel; and

(V) (A) Repealed.
   (B) Measuring the level of effectiveness of all licensed personnel within the school district.

(e) (I) Repealed.
   (II) The standards set by the local board for effective performance for licensed personnel and the criteria to be used to determine whether the performance of each licensed person meets the standards and other criteria for evaluation for each licensed personnel position evaluated. One of the standards for measuring teacher effectiveness must be directly related to classroom instruction and must require that thirty percent of the evaluation is determined by the academic growth of the teacher's students. The remainder of the evaluation must be based on attainment of the quality standards. The district accountability committee shall provide input and recommendations concerning the assessment tools used to measure student academic growth as it relates to teacher evaluations. The standards must include multiple measures of student performance in conjunction with student growth expectations. For the purposes of measuring effectiveness, expectations of student academic growth must take into consideration diverse factors, including but not limited to special education, student mobility, and classrooms with a student population in which ninety-five percent meet the definition of high-risk student as defined in section 22-7-604.5 (1.5). The performance evaluation system must also ensure that the standards and criteria are available in writing to all licensed personnel and are communicated and discussed by the person being evaluated and the evaluator prior to and during the course of the evaluation.

(III) Except as otherwise provided in subsection (1)(e)(IV) of this section, for performance evaluations completed for the 2023-24 school year and school years thereafter, of the thirty percent of a teacher's evaluation that is based on student academic growth, up to ten percent may be based on measures of collective student academic growth that are based on the performance of all students enrolled at a particular grade level within the school in which the teacher is employed or the performance of all students enrolled in the school in which the teacher is employed, but a teacher's evaluation must not include measures of collective student academic growth that are based on the performance of students who are not enrolled in the school in which the teacher is employed.

(IV) For performance evaluations completed for the 2023-24 school year and school years thereafter, the evaluation of a licensed person who has been employed by a school district or board of cooperative services for one school year or less must not include data that was created prior to the date on which the licensed person commenced employment with the school district or board of cooperative services.

(f) The methods of evaluation, which must include, but are not limited to, direct observations by the evaluator and a process of systematic data-gathering. School districts and boards of cooperative services are encouraged to experiment, with the agreement of their school district personnel performance evaluation councils, with innovative methods of observation,
which may include observations by mentors or teaching coaches, peers, department leaders, and video or digital recording; and a peer assistance and review model that allows licensed personnel to be evaluated by peers who are licensed in the same field as the licensed person being evaluated and, if feasible, have more than one year of experience.

(1.5) (a) A local board or board of cooperative services may adopt the state model licensed personnel performance evaluation system established by the rules promulgated by the state board pursuant to section 22-9-105.5 or may develop its own local licensed personnel evaluation system that complies with the requirements established pursuant to this section and the rules promulgated by the state board. If a school district or board of cooperative services develops its own local licensed personnel evaluation system, the local board or board of cooperative services or any interested party may submit to the department, or the department may solicit and collect, data related to said personnel evaluation system for review by the department.

(b) The department shall monitor school districts' and boards of cooperative services' implementation of the requirements for local licensed personnel evaluation systems. If, upon initial review by the department, the data submitted or collected pursuant to paragraph (a) of this subsection (1.5) indicates that a school district or board of cooperative services is unable to implement a local licensed personnel evaluation system that meets the objectives of this article, the department shall conduct a more thorough review of the school district's or board of cooperative services' processes and procedures for said evaluation system to ensure that it is professionally sound; results in fair, adequate, and credible evaluations; satisfies the quality standards established by rule of the state board in a manner that is appropriate to the size, demographics, and location of the local board or board of cooperative services; and is consistent with the goals, objectives, and intent of this article.

(c) (I) Pursuant to section 22-11-206 (4)(b), if the department has reason to believe that a local licensed personnel evaluation system developed by a local board or board of cooperative services is not in substantial compliance with one or more of the applicable statutory or regulatory requirements of this article, the department shall notify the local board or board of cooperative services that it has ninety days after the date of the notice to bring its local licensed personnel evaluation system into compliance. The department shall work collaboratively with the school district or board of cooperative services during the ninety-day period to bring the local licensed personnel evaluation system into compliance with the applicable statutory or regulatory requirements.

(II) If, at the end of the ninety-day period, the department finds that the local licensed personnel evaluation system is not substantially in compliance with the applicable statutory or regulatory requirements, the department shall determine the appropriate remedies to correct the identified areas of noncompliance, including but not limited to:

(A) Extending the time frame for compliance;

(B) Imposing interventions specified in article 11 of this title; or

(C) As a last resort, requiring the school district or board of cooperative services to implement some or all of the state model system. A school district or board of cooperative services shall only be required to implement those aspects of the state model system that are deemed necessary to bring the local licensed personnel evaluation system into compliance.

(III) If the department determines that the noncompliance is substantial enough to call into question the validity of the educator evaluation ratings, the department may take appropriate
action that may include invalidating the school district's or board of cooperative services' educator ratings for the evaluation cycles in question. If the department determines that the noncompliance requires invalidating the school district's or board of cooperative services' educator ratings:

(A) A teacher who received a rating of effective or highly effective shall retain that rating; and

(B) A teacher who received a rating of partially effective or ineffective shall receive a "no score" rating for the year in question. However, if in the following academic year, the department determines that the school district's or board of cooperative services' local licensed personnel evaluation system is compliant with the requirements of this article and the teacher receives a performance evaluation rating of ineffective or partially effective, this rating shall have the consequence of a second consecutive ineffective rating.

(d) The general assembly finds that, for purposes of section 17 of article IX of the state constitution, the review of local licensed personnel evaluation systems as provided for in this subsection (1.5) is an important component of an accountable program to meet state academic standards and, therefore, may be funded from moneys in the state education fund created in section 17 (4) of article IX of the state constitution.

(2) In implementing such evaluation system and procedures, the school district or board of cooperative services shall conduct all evaluations so as to observe the legal and constitutional rights of licensed personnel, and no evaluation information shall be gathered by electronic devices without the consent of the licensed personnel. No informality in any evaluation or in the manner of making or recording any evaluation shall invalidate such evaluation.

(2.5) (a) Repealed.

(b) (I) The council shall actively participate with the local board in developing written standards for evaluation that clearly specify performance standards and the quality standards and the criteria to be used to determine whether the performance of each licensed person meets such standards pursuant to subsection (1)(e) of this section.

(II) Repealed.

(c) Notwithstanding any provision of paragraph (e) of subsection (1) of this section or subsection (7) of this section to the contrary:

(I) A local board may use the results of the state assessments administered pursuant to section 22-7-1006.3 in the 2014-15 school year only as baseline data for measuring student academic growth in the 2015-16 school year and school years thereafter; and

(II) A local board may use the results of state assessments administered pursuant to section 22-7-1006.3 as a measure of student academic growth for evaluations prepared for the school year in which the assessments are administered only if the local board receives the results by the date by which probationary teachers and nonprobationary teachers must receive the written evaluation report as provided in paragraph (c) of subsection (1) of this section. If a local board does not receive the results of state assessments in time to use them in the written evaluation report prepared for the school year in which the assessments are administered, the local board shall use the results of the state assessments as measures of student academic growth for educator evaluations and professional development in the school year following the school year in which the assessments are administered. In any year in which a local board does not receive the state assessment results by the deadline for the written evaluation reports, the local
board must use alternate measures of student academic growth, including the results of local assessments if available.

(3) (a) An evaluation report shall be issued upon the completion of an evaluation made pursuant to this section and must:
   (I) Be in writing;
   (II) Contain a written improvement plan that is specific as to what improvements, if any, are needed in the performance of the licensed personnel and clearly sets forth recommendations for improvements, including recommendations for additional education and training during the licensed person's license renewal process;
   (III) Be specific as to the strengths and weaknesses in the performance of the individual being evaluated;
   (IV) Specifically identify when a direct observation was made;
   (V) Identify data sources;
   (VI) Be discussed and be signed by the evaluator and the person being evaluated, each to receive a copy of the report. The signature on the report of any person does not indicate agreement with the information contained in the report. If the person being evaluated disagrees with any of the conclusions or recommendations made in the evaluation report, the person may attach any written explanation or other relevant documentation that the person deems necessary.
   (VII) Be reviewed by a supervisor of the evaluator, whose signature must also appear on said report.

(b) A school district or board of cooperative services shall complete the written evaluations for all licensed personnel employed by the school district or board of cooperative services and shall report the final performance ratings for all licensed personnel who were evaluated to the department no later than October 15 of the school year following the school year for which the evaluations are completed.

(c) Be specific as to the strengths and weaknesses in the performance of the individual being evaluated;
(d) Specifically identify when a direct observation was made;
(e) Identify data sources;
(f) Be discussed and be signed by the evaluator and the person being evaluated, each to receive a copy of the report. The signature on the report of any person shall not be construed to indicate agreement with the information contained in the report. If the person being evaluated disagrees with any of the conclusions or recommendations made in the evaluation report, the person may attach any written explanation or other relevant documentation that the person deems necessary.

(g) Be reviewed by a supervisor of the evaluator, whose signature shall also appear on said report.

(3.2) (a) In addition to the items specified in subsection (3) of this section, the evaluation of a teacher may include any peer, parent, or student input obtained from standardized surveys.

(b) In addition to the items specified in subsection (3) of this section, each principal's evaluation shall include input from the teachers employed in the principal's school and may include input from the students enrolled in the school and their parents. Each school district shall specify the manner in which input from teachers and from students and parents, if any, is collected but shall ensure that the information collected remains anonymous and confidential.
Each principal or administrator who is responsible for evaluating licensed personnel shall keep records and documentation for each evaluation conducted. Each principal and administrator who is responsible for evaluating licensed personnel shall be evaluated as to how well he or she complies with this section and with the school district's evaluation system.

(3.5) (a) Repealed.

(b) (I) A teacher or principal whose performance is deemed to be ineffective pursuant to paragraph (e) of subsection (1) of this section shall receive written notice that his or her performance evaluation shows a rating of ineffective, a copy of the documentation relied upon in measuring his or her performance, and identification of deficiencies.

(II) to (IV) Repealed.

(4) (a) Except as provided in subsection (4)(b) of this section, a person shall not be responsible for the evaluation of licensed personnel unless the person has a principal or administrator license issued pursuant to article 60.5 of this title 22, or is a designee of a person with a principal or administrator license, and has received education and training in evaluation skills provided or approved by the department that will enable the person to make fair, professional, and credible evaluations of the personnel whom the person is responsible for evaluating. Pursuant to section 22-9-104 (1.5), the department shall make available at no cost to each school district and board of cooperative services training for persons who are responsible for evaluating licensed personnel. A person shall not be issued a principal or administrator license or have a principal or administrator license renewed unless the state board determines that the person has received education and training provided or approved by the department.

(b) A local board of education is authorized to evaluate the performance of the superintendent of the school district. The responsibility for conducting the performance evaluation of the superintendent rests exclusively with the local board of education.

(c) Each school district and board of cooperative services is encouraged to provide training to multiple persons to serve as evaluators to enable a licensed person being evaluated to request an alternative evaluator.

(4.3) Notwithstanding any provision of this section to the contrary, a person who is employed in multiple roles simultaneously may receive a single evaluation that takes into account the person's performance of his or her responsibilities in each role. The person's supervisor shall conduct the evaluation or, if the person is employed as a school district superintendent, the local board of education shall conduct the person's evaluation.

(4.5) (a) Repealed.

(b) Any person whose performance evaluation includes a remediation plan shall be given an opportunity to improve his or her effectiveness through the implementation of the plan. If the next performance evaluation shows that the person is performing effectively, no further action shall be taken concerning the original performance evaluation. If the evaluation shows the person is still not performing effectively, he or she shall receive written notice that his or her performance evaluation shows a rating of ineffective, a copy of the documentation relied upon in measuring the person's performance, and identification of deficiencies. Each school district shall ensure that a nonprobationary teacher who objects to a rating of ineffectiveness has an opportunity to appeal that rating, in accordance with a fair and transparent process developed, where applicable, through collective bargaining. At a minimum, the appeal process provided shall allow a nonprobationary teacher to appeal the rating of ineffectiveness to the superintendent of the school district and shall place the burden upon the nonprobationary teacher
to demonstrate that a rating of effectiveness was appropriate. The appeal process shall take no longer than ninety days, and the nonprobationary teacher shall not be subject to a possible loss of nonprobationary status until after a final determination regarding the rating of ineffectiveness is made. For a person who receives a performance rating of ineffective, the evaluator shall either make additional recommendations for improvement or may recommend the dismissal of the person, which dismissal shall be in accordance with the provisions of article 63 of this title if the person is a teacher. This paragraph (b) shall take effect at such time as the performance evaluation system based on quality standards established pursuant to this section and the rules promulgated by the state board pursuant to section 22-9-105.5 has completed the initial phase of implementation and has been implemented statewide. The commissioner shall provide notice of such implementation to the revisor of statutes on or before July 1, 2014, and each July 1 thereafter until statewide implementation occurs.

(5) The school district or board of cooperative services licensed personnel performance evaluation system, processes, and procedures must be in accord with the rules adopted by the state board. The system shall be developed after consultation with the school district or board of cooperative services licensed personnel performance evaluation council created pursuant to section 22-9-107 with regard to the planning, development, adoption, and implementation of such system, and said council shall conduct a continuous evaluation of said system.

(6) Pursuant to subsection (1.5) of this section, the department shall approve any school district's or board of cooperative services' local licensed personnel performance evaluation system and related processes and procedures to determine whether such system, processes, and procedures are consistent with this article.

(7) Every principal must be evaluated using multiple fair, transparent, timely, rigorous, and valid methods. The recommendations developed pursuant to this subsection (7) must require that thirty percent of the evaluation is determined by the academic growth of the students enrolled in the principal's school, and the remainder of the evaluation is based on the principal's attainment of the quality standards. For principals, the quality standards must include, but need not be limited to:

(a) Achievement and academic growth for those students enrolled in the principal's school, as measured by the Colorado growth model set forth in section 22-11-202;

(b) The number and percentage of licensed personnel in the principal's school who are rated as effective or highly effective; and

(c) The number and percentage of licensed personnel in the principal's school who are rated as ineffective but are improving in effectiveness.

(8) On or before August 1, 2014, each local board of education shall develop, in collaboration with a local teachers association or, if none exists, with teachers from the district, an incentive system, the purpose of which shall be to encourage effective teachers in high-performing schools to move to jobs in schools that have low performance ratings.

(9) (a) Notwithstanding any provision of this article 9 or any provision of state board rule that implements this article 9 to the contrary:

(I) For the 2020-21 school year, evaluation ratings for licensed personnel must not include consideration of student academic growth measures or other student performance measures; and

(II) For the 2021-22 and 2022-23 school years, evaluation ratings for licensed personnel must not include measures of student academic growth derived from the Colorado growth model
created pursuant to section 22-11-202 or consideration of the performance plan type implemented by a school district or a board of cooperative services pursuant to section 22-11-208 or by a school pursuant to section 22-11-210, including consideration of performance or student academic growth within the school district, board of cooperative services, or school.

(b) This subsection (9) is repealed, effective July 1, 2024.

Editor's note: (1) (a) The revisor of statutes received the notices referred to in former subsections (1)(d)(V)(A), (1)(e)(I), (2.5)(a), (3.5)(a), and (4.5)(a) that caused the repeal of those provisions, effective June 27, 2013.

(b) The revisor of statutes received the notices referred to in subsections (1)(d)(V)(B), (1)(e)(II), (2.5)(b), (3.5)(b), and (4.5)(b) that allowed those provisions to become effective June 27, 2013.

(2) Subsection (3.5)(b)(IV) provided for the repeal of subsection (3.5)(b)(II), effective February 15, 2013. (See L. 2010, p. 1063.)

(3) (a) Subsection (2.5)(b)(II)(B) provided for the repeal of subsection (2.5)(b)(II), effective July 1, 2015. (See L. 2014, p. 569.)

(b) Subsection (2.5)(b)(II)(A) was amended in HB 15-1323. Those amendments were superseded by the repeal of subsection (2.5)(b)(II), effective July 1, 2015. For the amendments to subsection (2.5)(b)(II)(A) in effect from May 20, 2015, to July 1, 2015, see chapter 204, Session Laws of Colorado 2015. (See. L. 2015, p. 717.)

Cross references: For the legislative declaration in SB 22-069, see section 1 of chapter 281, Session Laws of Colorado 2022.
22-9-107. School district personnel performance evaluation councils - duties. (1) Every school district and board of cooperative services in the state subject to the provisions of this article shall have an advisory school district personnel performance evaluation council or advisory board of cooperative services personnel performance evaluation council, which shall, at a minimum, consist of the following members to be appointed by the local board of education or board of cooperative services:

(a) In the case of a school district, one teacher, one administrator, and one principal from the school district; one resident from the school district who is a parent of a child attending a school within said district; and one resident of the school district who is not a parent with a child in the district; or

(b) In the case of a board of cooperative services, one teacher, one administrator, and one principal representative of the school district or districts participating in the board of cooperative services; one person employed by the board of cooperative services who is defined as licensed personnel pursuant to section 22-9-103 (1.5); one resident who is a parent of a child attending a school within said district or districts; and one resident representative of the school district or districts participating in the board of cooperative services who is not a parent with a child in said district or districts.

(1.5) If a school district does not employ a principal and an administrator, but employs a single person as both principal and administrator, the school district is in compliance with paragraph (a) of subsection (1) of this section if the person employed as both principal and administrator serves on the advisory school district personnel performance evaluation council in addition to the required teacher and residents of the school district.

(2) Said council shall consult with the local board or board of cooperative services as to the fairness, effectiveness, credibility, and professional quality of the licensed personnel performance evaluation system and its processes and procedures and shall conduct a continuous evaluation of said system.

(3) The council for a school district may be composed of any other school district committee having proper membership, as defined in subsection (1) of this section.

22-9-108. Evaluator training - universities and colleges - duties. (1) (a) The general assembly finds that credible, fair, and professional evaluations of licensed personnel depend upon high quality, effective training for principals and administrators that is consistent across the state. Therefore, the state board, in evaluating and approving educator preparation programs pursuant to section 22-2-109, and in approving evaluator training programs provided by a school district or a board of cooperative services, shall ensure that said programs meet the requirements specified in this section.

(b) Every university and college within the state that has a principal or administrator preparation program shall ensure that the program includes training in the evaluation of licensed personnel that meets the requirements specified in this section. In addition, the university or college shall cooperate with the state board in connection with the state board's duties under sections 22-9-104 and 22-2-109.
(c) Every school district and board of cooperative services that provides training in the evaluation of licensed personnel shall ensure that such training meets the requirements specified in this section.

(2) Each university or college that offers a principal or administrator preparation program or school district or board of cooperative services that provides evaluator training shall structure the evaluator training program on a standards-based skill outcome model that takes into account research concerning evaluation of licensed personnel. At a minimum, each evaluator training program shall include standards-based performance assessments of each participant, demonstrated competency, and certification by the university, college, school district, or board of cooperative services of the skills mastered by each participant. The university, college, school district, or board of cooperative services shall work collaboratively with principals and administrators who are responsible for evaluating licensed personnel to develop research-based standards for assessing and certifying evaluator skills. The university, college, school district, or board of cooperative services shall regularly review both the model for the evaluator training program and the program performance standards to ensure that they continue to reflect research concerning evaluation of licensed personnel.

(3) At a minimum, each evaluator training program shall include training in the following areas:
   (a) Teaching and learning styles;
   (b) Student performance and student assessment;
   (c) Data collection and documentation; and
   (d) School district standards and state mandates.

22-9-109. Exemption from public inspection. (1) Notwithstanding the provisions of section 24-72-204 (3), C.R.S., the evaluation report and all public records as defined in section 24-72-202 (6), C.R.S., used in preparing the evaluation report shall be confidential and shall be available only to the licensed person being evaluated, to the duly elected and appointed public officials who supervise his or her work, and to a hearing officer conducting a hearing pursuant to the provisions of section 22-63-302 or the court of appeals reviewing a decision of the board of education pursuant to the provisions of section 22-63-302; except that:
   (a) The evaluation report of the chief executive officer of any school district, as it relates to the performance of the chief executive officer in fulfilling the adopted school district objectives, fiscal management of the district, district planning responsibilities, and supervision and evaluation of district personnel, must be open for inspection by any person at reasonable times; and
   (b) Evaluation reports and all public records as defined in section 24-72-202 (6), C.R.S., used in preparing the evaluation reports are available to individuals responsible for reviewing an appeal made by a nonprobationary teacher pursuant to section 22-9-106 (4.5)(b).

(2) Nothing in this section shall prevent a school district or a board of cooperative services from collecting information concerning an individual educator's performance evaluation ratings and student assessment results linked to the individual educator. A school district or
board of cooperative services may use the information collected to fulfill its duties as required by law, including reporting this information in the aggregate at the state, district, or school level. In such instances, the identity of individual educators or students, including but not limited to student assessments results linked to the individual educator, must otherwise remain confidential and must not be published or publicly disclosed in any way that would identify an individual educator.

(3) Nothing in this section shall prevent the use of data collected by the department for bona fide research, when the data is obtained pursuant to the department's protocols for release of data for research purposes and is used in a manner that protects the identity of individual educators and adheres to the applicable provisions of the federal "Family Education Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232 g.

ARTICLE 9.5

Principal Development Scholarship Program

Cross references: For the legislative declaration contained in the 2006 act enacting this article, see section 7 of chapter 270, Session Laws of Colorado 2006.

22-9.5-101. Definitions. As used in this article, unless the context otherwise requires:

(1) "Scholarship program" means the principal development scholarship program created in section 22-9.5-102.

(2) "State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

22-9.5-102. Principal development scholarship program - creation - eligibility. There is hereby created in the department of education the principal development scholarship program. Subject to available appropriations, the scholarship program shall award stipends to assist persons employed as principals in offsetting the costs incurred in obtaining on-going professional development. The state board shall award stipends on a need basis, based on the criteria specified in section 22-9.5-103. The scholarships shall be paid from any moneys available in the principal development scholarship fund created in section 22-9.5-104.

22-9.5-103. Scholarship program - rules - criteria for awards. (1) The state board, by rule, shall establish the procedures by which a person may apply for a stipend through the
scholarship program. At a minimum, the rules shall specify the information a person shall submit and the deadlines for submitting the application.

(2) The state board shall award stipends to applying persons based on the following criteria:
   (a) A person's demonstrated degree of financial need, based on the resources of the employing school district and the applying person, and the cost of the professional development program for which the person requests a stipend;
   (b) A person's demonstrated degree of professional need, based on the applying person's performance evaluations conducted pursuant to the district's licensed personnel performance evaluation system;
   (c) The quality of the professional development program or activity for which the person requests a stipend; and
   (d) Any other criteria adopted by rule of the state board to identify persons in the greatest need of assistance in obtaining high-quality professional development programs and activities to improve their performance as principals.

(3) The state board shall set the amount of each stipend awarded based on the person's degree of need, the cost of the professional development program or activity for which the person requests a stipend, the amount available in the principal development scholarship fund for the applicable budget year, and the anticipated number of persons who will apply to the scholarship program in the course of the applicable budget year.

22-9.5-104. Principal development scholarship fund - created. (1) There is hereby created in the state treasury the principal development scholarship fund, referred to in this section as the "fund", that shall consist of any moneys that may be credited to the fund pursuant to subsection (2) of this section. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the implementation of this article. Any moneys in the fund not expended for the purpose of this article may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

(2) The department is authorized to accept gifts, grants, or donations from any public or private entity to carry out the purposes of this article, subject to the terms and conditions under which given; except that the department shall not accept a gift, grant, or donation if the conditions attached thereto require the use or expenditure thereof in a manner contrary to law. The department shall transmit to the state treasurer any gifts, grants, or donations received pursuant to this subsection (2), and the state treasurer shall credit the same to the fund.

(3) The department may expend up to one percent of the moneys annually appropriated from the fund to offset the costs incurred in implementing this article.

ARTICLE 9.7
22-9.7-101. Early childhood educator development scholarship program - creation - eligibility. Subject to the receipt of sufficient moneys pursuant to section 22-9.7-103, there is hereby created in the department of education, referred to in this article as the "department", the early childhood educator development scholarship program, referred to in this article as the "scholarship program", to award stipends to assist persons employed in early childhood education in offsetting the costs incurred in obtaining an associate of arts degree in early childhood education. The department shall award stipends on a need basis, based on the criteria specified in section 22-9.7-102. The stipends shall be awarded on a yearly basis, and recipients shall reapply each year that they are enrolled in the associate of arts degree program. The scholarships shall be paid from any moneys available in the early childhood educator development scholarship fund created in section 22-9.7-103.

22-9.7-102. Scholarship program - rules - criteria for awards. (1) The department, by rule, shall collaborate with the department of human services, the Colorado community college system, and the office of information technology, to establish the procedures by which a person may apply for a stipend through the scholarship program. At a minimum, the rules shall specify the information a person shall submit and the deadlines for submitting the application.

(2) The department shall award stipends to an applicant based on the following criteria:

(a) The applicant's demonstrated degree of financial need, based on the resources of the applying person and the cost of the associate of arts degree program for which the applicant requests a stipend;

(b) The applicant's demonstrated degree of professional need;

(c) The quality of the associate of arts degree program for which the applicant requests a stipend;

(d) The applicant's commitment to teach in early childhood education for at least two years after receiving the associate of arts degree;

(e) The applicant's current employment in an early childhood capacity; and

(f) Any other criteria adopted by rule of the department to identify applicants in the greatest need of assistance in obtaining a regionally accredited associate of arts degree to improve their performance as early childhood educators.

(3) The department shall set the amount of each stipend awarded based on the applicant's degree of need, the cost of the associate of arts degree program for which the applicant requests a stipend, the amount available in the early childhood educator development scholarship fund for the applicable budget year, and the anticipated number of persons who will apply to the scholarship program in the course of the applicable budget year.

(4) Repealed.
22-9.7-103. Early childhood educator development scholarship fund - created. (1) It is the intent of the general assembly that any costs associated with implementing this article shall be paid for by the receipt of any available federal moneys or other gifts, grants, or donations and that no additional general fund moneys be appropriated for the implementation of the grant program.

(2) The department is authorized to seek, accept, and expend any federal moneys or other gifts, grants, or donations for the purposes of this article. If necessary, any gifts, grants, or donations shall be transmitted to the state treasurer who shall credit them to the early childhood educator development scholarship fund, which fund is hereby created and referred to in this section as the "fund".

(3) The moneys in the fund shall be continuously appropriated to the department for the direct and indirect costs associated with implementing this article. Any moneys in the fund not expended for the purpose of this article may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

(4) The department shall retain only the actual amount of direct and indirect costs necessary to implement this article.

22-9.7-104. Repeal of article. (1) (a) On or before July 1, 2011, or July 1 of any year thereafter, the executive director of the department shall notify the revisor of statutes in writing if federal moneys are not received and allocated to the department or if gifts, grants, and donations are not received by the department to provide for the award of grants pursuant to this article.

(b) If the revisor of statutes does not receive notice pursuant to paragraph (a) of this subsection (1), on July 1, 2011, or on July 1 of any year thereafter, the executive director of the department shall notify the revisor of statutes in writing if federal moneys or gifts, grants, or donations are not available to continue to provide for the award of grants pursuant to this article.

(2) This article is repealed, effective the July 1 following the receipt of the notice by the revisor of statutes pursuant to paragraph (a) or (b) of subsection (1) of this section.

Editor's note: As of the date of publications, the revisor of statutes has not received the notices referred to in subsection (1)(a) or (1)(b) that would cause the repeal of this article.
Editor's note: This article was added in 1989. It was repealed in 1994 and was subsequently recreated and reenacted in 2014, resulting in the addition, relocation, or elimination of sections as well as subject matter. For amendments to this article prior to 1994, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

PART 1

ADULT EDUCATION AND LITERACY

22-10-101. Short title. The short title of this article 10 is the "Adult Education and Literacy Act".

22-10-102. Legislative declaration. (1) The general assembly finds that:

(a) Increased educational attainment is a proven pathway out of poverty. In general, research shows that average annual earnings increase and unemployment rates decrease with each successive level of education or training that a person achieves.

(b) Postsecondary education and credential attainment are increasingly central to a person's ability to earn family-sustaining wages, participate more fully in Colorado's twenty-first-century workforce, and contribute to the state's economic health and vitality;

(c) Both nationally and in Colorado, projections indicate that by 2025, two-thirds of all jobs will require some level of postsecondary education or technical skill training;

(d) Colorado has a substantial "middle-skill gap" in its workforce. Middle-skill jobs require some postsecondary education or training but less than a four-year degree. These positions make up approximately forty-seven percent of the state's jobs, but only thirty-six percent of Colorado workers have the training necessary to fill them.

(e) Before Colorado can meet its workforce, educational attainment, and poverty-reduction goals, the state must address the need for adult education. A significant percentage of the state's working-age population lacks a high school diploma or its equivalent. Many of these individuals do not have basic literacy, digital literacy, or numeracy skills and are unprepared for participation in postsecondary education and for participation in the twenty-first-century workforce. Further, these individuals are unprepared to provide the learning support and advocacy that their own children or the children they care for require.

(e.5) Literacy and level of educational attainment not only impact an individual's ability to gain employment at a self-sufficiency level, but extensive research shows that they are also key determining factors in the educational success and future employment potential of the individual's children or children for whom the individual is a caregiver. A two-generation approach to increasing literacy, digital literacy, and numeracy skills is essential for the workforce of today and tomorrow and for helping to break the cycle of poverty.
While some adults require educational programs that will improve their literacy, digital literacy, or numeracy skills to gain higher-paying levels of employment, many adults have not completed ninth grade or may otherwise be identified as lowest-level learners. Before these adults can aspire to higher-level employment, they require more basic educational programs that specialize in English language skills and assistance in obtaining a high school diploma or an equivalency certificate.

Effectively addressing the need for adult education requires the appropriation of state money to fund adult education and literacy programs that participate in workforce development partnerships or education attainment partnerships and that enable individuals to acquire the basic and more advanced skills needed to function effectively as parents, caregivers, employees, and citizens of the United States. Although there are several postsecondary programs that focus on workforce development and skills acquisition, these programs typically assume that participants are or have been in the workforce in some capacity and have already attained a base level of literacy, digital literacy, and numeracy. Adult education and literacy programs, however, are typically designed for adults who have been unable to enter the workforce in a meaningful capacity or are limited in their ability to support their children's education or participate in society due to a lack of basic literacy, digital literacy, and numeracy skills.

In return for state investment in adult education and literacy programs, these programs must refocus their mission to ensure that more low-skilled, low-income adults attain the basic literacy, digital literacy, and numeracy skills that they lack so that they may improve their own and the next generation's ability to participate in the current and future in-demand sectors of employment, function effectively in supporting and advocating for their children's education, and actively participate in society; and

Successfully refocusing the mission of adult education and literacy programs requires the active collaboration and coordination of a variety of state agencies and organizations that are involved in adult education and literacy; elementary, secondary, and postsecondary education; training and credential attainment; workforce development; economic development; and human services.

The general assembly finds, therefore, that it is in the best interests of the state to establish an adult education and literacy grant program to provide state funding for public and private nonprofit adult education and literacy programs. Investing in these programs will enable them to serve a larger share of the state's eligible adult population and ensure that more adults can reach and complete the next level of education and training, thereby leading to better employment outcomes that enable more low-income, low-literacy adults to ultimately achieve economic self-sufficiency and leading to an adult population that is better prepared to support the educational attainment of the next generation and actively participate as citizens in a democratic society.

Source: L. 2014: Entire article RC&RE, (HB 14-1085), ch. 343, p. 1526, § 1, effective June 5. L. 2020: (1)(e), (1)(f), (1)(g), (1)(h), and (2) amended and (1)(e.5) and (1)(e.7) added, (SB 20-009), ch. 253, p. 1231, § 2, effective July 8. L. 2023: (1)(e), (1)(e.5), (1)(e.7), (1)(f), and (1)(g) amended, (SB 23-007), ch. 312, p. 1899, § 1, effective June 2.

22-10-103. Definitions. As used in this article 10, unless the context otherwise requires:
(1) "Adult education and literacy programs" means programs that provide adult basic education, adult education leading to a high school diploma or an equivalency credential, English as a second language instruction, or integrated basic education, digital literacy, and skills training.

(1.5) "Adult education provider" means one of the following entities that the department recognizes as providing appropriate and effective adult education and literacy programs:

(a) A secondary or postsecondary, public or private, nonprofit educational entity, including but not limited to a school district, charter school, board of cooperative educational services, state institution of higher education, local district college, and area technical college;

(b) A community-based nonprofit agency or organization;

(c) An Indian tribe or nation;

(d) A library;

(e) A literacy council or other literacy institute;

(f) A business or business association that provides adult education and literacy programs either on site or off site;

(g) A volunteer literacy organization;

(h) A local workforce board, as defined in section 8-83-203, that oversees a workforce development program described in the "Colorado Career Advancement Act", part 2 of article 83 of title 8;

(i) A one-stop partner, as described in section 8-83-216, under the "Colorado Career Advancement Act", part 2 of article 83 of title 8; or

(j) A consortia of entities described in this subsection (1.5).

(2) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

(2.3) "Digital literacy" means the skills associated with using technology that enables users to find, evaluate, organize, create, disseminate, and communicate information online.

(2.5) "Education attainment partnership" means a collaboration that assists adults in attaining basic literacy, digital literacy, and numeracy skills that lead to additional skill acquisition and may lead to postsecondary credentials and employment. At a minimum, an education attainment partnership must consist of at least one adult education provider that is not listed in subsection (1.5)(a) of this section that partners with at least one elementary or secondary school or school district, a public or private institution of higher education, a local district college, or an area technical college.

(3) "Eligible adult" means a person who:

(a) Is at least seventeen years of age;

(b) Is not enrolled in a public or private secondary school; and

(c) (I) Lacks a high school diploma or its equivalent; or

(II) Is in need of English language instruction; or

(III) Lacks sufficient mastery of the basic literacy, digital literacy, and numeracy skills necessary to enable the person to function effectively in the workplace.

(4) "English language instruction" means instruction that is designed to assist a person with limited English proficiency to achieve competence in the English language, thus allowing the person to understand and navigate governmental, educational, and workplace systems.

(5) "Grant program" means the adult education and literacy grant program created in section 22-10-104.
(6) "Literacy" means a person's ability to read, write, and speak English at levels of proficiency that are necessary to function on the job and in society, achieve the person's goals, and develop the person's knowledge and potential.

(7) Repealed.

(8) "Numeracy" means a person's ability to compute and solve mathematical problems at levels of proficiency that are necessary to function on the job and in society, achieve the person's goals, and develop the person's knowledge and potential.

(9) "Office" means the office within the department that is responsible for adult education.

(10) "State board" means the state board of education created in section 1 of article IX of the state constitution.

(10.5) "Work-based learning" has the same meaning as set forth in section 8-83-601 (15).

(11) (a) "Workforce development partnership" means a collaboration that assists adults in attaining basic literacy, digital literacy, and numeracy skills leading to additional skill acquisition, postsecondary credentials, and employment. At a minimum, a workforce development partnership must include at least one adult education provider and at least one workforce development provider.

(b) For purposes of this subsection (11), a postsecondary education or training provider includes, but need not be limited to:

(I) A state institution of higher education, local district college, or area technical college;

(II) An apprenticeship program;

(III) An entity that provides accelerated education and skills training certificate programs created pursuant to part 9 of article 60 of title 23, C.R.S.;

(IV) An entity that operates programs through the manufacturing career pathway pursuant to part 10 of article 60 of title 23, C.R.S., or another career pathway pursuant to section 24-46.3-104, C.R.S.; and

(V) A community-based workforce development program that is operated through the Colorado customized training program created in section 23-60-306, C.R.S.

(c) For purposes of this subsection (11), a workforce development provider includes, but need not be limited to:

(I) A workforce development program described in the "Colorado Career Advancement Act", part 2 of article 83 of title 8, C.R.S.; and

(II) A program that is supported by the state workforce development council created in article 46.3 of title 24, C.R.S.

L. 2022: (10.5) added, (SB 22-140), ch. 357, p. 2562, § 6, effective July 1. L. 2023: (1), (2.5), (3)(c)(III), and (11)(a) amended and (2.3) added, (SB 23-007), ch. 312, p. 1900, § 2, effective June 2.
Cross references: For the legislative declaration in SB 22-140, see section 1 of chapter 357, Session Laws of Colorado 2022.

22-10-104. Adult education and literacy grant program - created - rules. (1) (a) (I) There is created in the office the adult education and literacy grant program to provide funding for adult education providers that are members of workforce development partnerships, through which eligible adults receive basic education in literacy, digital literacy, and numeracy that leads to additional skills acquisition, a high school diploma or an equivalency certificate, postsecondary credential attainment, and employment; or education attainment partnerships that assist adults in attaining basic literacy, digital literacy, and numeracy skills that lead to additional skill acquisition, and may lead to a high school diploma or an equivalency certificate, postsecondary credentials and employment, for the participating adults and their children or the children for whom they provide care.

(II) Adult education and literacy programs may include:
(A) In-person or online instruction;
(B) The development of documented learning plans describing courses or credits an eligible adult needs to complete an adult education and literacy program and fulfill the graduation requirements of the program;
(C) Coaching between an adult education provider and an eligible adult related to the student's pace and progress with the learning plan described in subsection (1)(a)(II)(B) of this section; and
(D) Mentorship between a coach and an eligible adult to facilitate the completion of the eligible adult's learning plan described in subsection (1)(a)(II)(B) of this section to prepare the student to succeed in the adult education and literacy program and in the eligible adult's future endeavors.

(b) An adult education provider may apply to the office to receive a grant pursuant to this article 10 in accordance with the rules, procedures, forms, and timelines adopted by the state board. The office shall review each application and recommend appropriate grant recipients to the state board.

(c) Subject to available appropriations, the state board, taking into consideration the recommendations of the office, shall award adult education and literacy grants to adult education providers. In awarding grants payable from state appropriations, the state board may give preference to adult education programs that serve populations that are underserved by federal funding. The grants awarded are payable from appropriations from the general fund and from the adult education and literacy grant fund created in section 22-10-107. The state board shall establish the amount and duration of each grant awarded and may award a grant for multiple fiscal years, subject to annual renewal by the office. A grant recipient that receives a multi-year grant must annually submit to the office the necessary information to determine whether the grant recipient is making sufficient progress toward achieving the goals of the adult education and literacy program that were specified in the grant application. If the office finds that a grant recipient is not making sufficient progress toward achieving the goals, the office shall not renew the grant for subsequent fiscal years.

(d) An adult education provider may use grant money received pursuant to this article 10 in combination with any money received from other public or private sources. An adult
education provider may use grant money received pursuant to this article 10 on behalf of a
student who:
   (I) Lacks basic literacy, digital literacy, or numeracy skills;
   (II) Is enrolled in or has completed the adult education and literacy program;
   (III) Is receiving training from a postsecondary education or training provider or from a
workforce development provider that participates in a workforce development partnership with
the adult education provider; or
   (IV) Is participating in work-based learning.
(2) The state board, in accordance with the "State Administrative Procedure Act", article
4 of title 24, shall promulgate rules to implement the grant program, which rules must include:
   (a) The time frames for submitting applications, reviewing applications, and awarding
grants;
   (b) The grant application requirements. At a minimum, each applicant must:
   (I) Demonstrate that it is an experienced adult education provider with a strong record of
providing education, career, and supportive service navigation to assist adult learners in attaining
employment, enrolling in postsecondary education, engaging in civic activities, or supporting
their own children or children for whom they provide care in achieving academic success;
   (II) Demonstrate that it is an active member of a workforce development partnership or
an education attainment partnership; and
   (III) Specify the measurable goals of the adult education and literacy program that the
applying adult education provider expects to achieve using the grant money;
   (c) Any factors in addition to those listed in subsection (3) of this section that the office
may consider in recommending grant recipients to the state board and that the state board may
consider in awarding grants;
   (d) The basis for establishing the amount and duration of each grant;
   (e) The information that each grant recipient must submit to the office to evaluate the
recipient's use of the grant and to prepare the report required in section 22-10-105; and
   (f) Any additional rules that the state board finds are necessary to implement the grant
program.
(3) The office, in evaluating grant applications, and the state board, in awarding grants,
may consider, at a minimum, the following factors:
   (a) The percentage of eligible adults expected to be enrolled in the adult education and
literacy programs funded by the grant who are members of minority groups;
   (a.5) The percentage of adults in the area to be served using grant money who have not
completed ninth grade and are not enrolled in or have not completed adult education and literacy
programs;
   (b) The percentage of eligible adults in the area to be served using grant moneys who do
not have high school diplomas or the equivalent and who are not currently enrolled in adult
education and literacy programs;
   (c) (I) The percentage of eligible adults expected to be enrolled in the adult education
and literacy programs funded by the grant who are receiving either state or federal public
assistance; or
   (II) The percentage of eligible adults in the area to be served who are unemployed
workers;
(c.5) Whether the adult education provider serves eligible adults who have not completed ninth grade or may otherwise be identified as lowest-level learners and the adult education provider's demonstrated success in serving these learners;

(d) The demonstrated success of the adult education provider in enabling adults to attain basic literacy, digital literacy, and numeracy skills and in assisting them to attain additional skills, postsecondary credentials, employment, and increased capacity to support the academic achievement of their own children or children for whom they provide care; and

(e) The average cost per eligible adult served by the adult education provider in assisting the eligible adult in attaining additional skills, a high school diploma or an equivalency certificate, postsecondary credentials, employment, or increased capacity to support the academic achievement of the eligible adult's own children or children for whom the eligible adult provides care.

Cross references: For the legislative declaration in SB 22-140, see section 1 of chapter 357, Session Laws of Colorado 2022.

22-10-105. Evaluation of grants - report. (1) (a) The office shall annually review the information received from adult education and literacy grant recipients to evaluate the effectiveness of the programs that receive grants in meeting the goals set for the programs in the grant applications. The office shall report its conclusions to the state board for purposes of evaluating ongoing grants.

(b) The department may audit the records and accounts of grant recipients relating to grants awarded pursuant to this article 10. An adult education provider shall make the records and accounts available to the department upon request.

(c) (I) The department shall establish reasonable reporting and documentation requirements for providers. An adult education provider's administrative costs associated with reporting and documentation requirements must not exceed ten percent of the awarded funds. The department may require documentation of reported outcomes on a sample of eligible adults served by an adult education provider. An adult education provider shall, at a minimum, report to the department on the following:

(A) The number of eligible adults enrolled in an adult education and literacy program;

(B) Demographic information of each eligible adult enrolled in an adult education and literacy program, including age, gender, race, ethnicity, native language, zip code, and income; and

(C) Literacy skills gained by an eligible adult enrolled in an adult education and literacy program.

(II) Each adult education provider shall report data in compliance with the "Colorado Privacy Act", established pursuant to part 13 of article 1 of title 6; the federal "Family

(2) (a) The office shall prepare an annual report concerning the grant program that, at a minimum, addresses the use, allocation, and outcomes of the grant money, including the effectiveness of each program that receives a grant and the continuing level of unmet need for adult education within the state. In evaluating program outcomes, the office may consider, but need not be limited to considering, student participation, completion, educational attainment, employment, and poverty-reduction data and analysis. The office may use data matching with relevant state agencies to determine post-program participation outcomes, including, but not limited to, employment obtained by an eligible adult enrolled in an adult education and literacy program, future adjustments to an eligible adult's wages based on the eligible adult's participation in an adult education and literacy program, postsecondary credentials earned by an eligible adult, and development of generational skills and the capacity of an eligible adult to support the academic achievements of the eligible adult's children or children for whom the eligible adult provides care. The report must also include an overview of the collaboration efforts of the office, the department of higher education, the department of labor and employment, the community college system, other adult education providers, other postsecondary education or training providers, and other workforce development providers in meeting the state's need for adult education and literacy programs and workforce development.

(b) Notwithstanding section 24-1-136 (11)(a)(I), the office shall submit the report to the governor's office; the state board; the joint budget committee of the general assembly; the education committees of the senate and the house of representatives, or any successor committees; the business, labor, and technology committee of the senate, or any successor committee; and the business, labor, economic, and workforce development committee of the house of representatives, or any successor committee. The office shall also post the report on the department's website for public viewing.

22-10-106. Adult education and literacy - workforce development - meetings. (1) The office shall convene periodic meetings of representatives of, at a minimum, the department of higher education, the department of labor and employment, the community college system, other adult education providers, other postsecondary education or training providers, and other workforce development providers to discuss, at a minimum:

(a) Ways to increase the communication and collaboration among adult education and literacy programs, elementary and secondary education programs, postsecondary education or training programs, and workforce development programs within the state; and

(b) The state's workforce development needs and the levels of unmet need for adult education within the state, including identifying particular areas of the state with significant unmet adult education needs.
22-10-107. Adult education and literacy grant fund - created. (1) (a) There is created in the state treasury the adult education and literacy grant fund, referred to in this section as the "fund", consisting of any moneys received by the department pursuant to subsection (2) of this section.

(b) The moneys in the fund are subject to annual appropriation by the general assembly to the department for the direct and indirect costs associated with implementing this article.

(c) Notwithstanding any provision of this article to the contrary, the department, the office, and the state board are not required to implement the provisions of this article unless the general assembly appropriates sufficient state moneys to the fund to offset the costs of implementing the article.

(d) The state treasurer may invest, as provided by law, any moneys in the fund not expended for the purpose of this article. The state treasurer shall credit all interest and income derived from the investment and deposit of moneys in the fund to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year must remain in the fund and shall not be credited or transferred to the general fund or another fund.

(e) Repealed.

(2) The department may receive and expend gifts, donations, or grants of any kind from any public or private entity to carry out the purposes of this article, subject to the terms and conditions under which given; except that the department shall not accept a gift, donation, or grant if the conditions attached to the gift, donation, or grant require the use or expenditure of the gift, donation, or grant in a manner contrary to law. The department shall transmit to the state treasurer any gifts, donations, or grants received pursuant to this subsection (2), and the state treasurer shall credit these amounts to the fund. Implementation of the grant program is not conditioned on the receipt of gifts, donations, or grants pursuant to this subsection (2).

Editor's note: Subsection (1)(e)(II) provided for the repeal of subsection (1)(e), effective July 1, 2016. (See L. 2015, p. 27.)

22-10-108. Colorado career advisor training program - creation - fund - definition. (1) As used in this section, unless the context otherwise requires, "Colorado career advisor" means a school counselor, as defined in section 22-91-102 (6); adult education advisor; nonprofit career advisor; workforce center advisor; or higher education advisor.

(2) There is created the Colorado career advisor training program in the office to provide training programs and courses to Colorado career advisors in an effort to equip Colorado career advisors with the skills and training necessary to help guide individuals toward meaningful careers.

(3) The department, in coordination with the department of higher education, department of labor and employment, Colorado workforce development council, and the Colorado
community college system, shall administer the Colorado career advisor training program. The department shall select those entities that will receive grants through the Colorado career advisor training program and the amount of each grant. In addition, the department shall monitor the effectiveness of programs that receive funds through the Colorado career advisor training program. To be eligible for grants from the department for the provision of career advisor training for Colorado career advisors, an entity must apply to the department in accordance with the timelines and guidelines adopted by the department.

(4) For state fiscal year 2022-23, the general assembly shall appropriate one million dollars from the general fund to the department for the Colorado career advisor training program.

Cross references: For the legislative declaration in SB 22-165, see section 1 of chapter 350, Session Laws of Colorado 2022.

---

**PART 2**

**COLORADO ADULT HIGH SCHOOL PROGRAM**

22-10-201. Definitions. As used in this part 2, unless the context otherwise requires:

(1) "Adult high school student" or "student" means an adult who:
   (a) Has reached twenty-one years of age before the pupil enrollment count date, as defined in section 22-54-103 (10.5);
   (b) Has reached twenty-one years of age during the semester that includes the pupil enrollment count day as defined in section 22-54-103 (10.5) but does not receive services under an individualized education program as defined in section 22-20-103 (15); or
   (c) Is older than twenty-one years of age; and
   (d) Is enrolled in the Colorado adult high school program as defined in subsection (2) of this section.

(2) "Colorado adult high school program" or "program" means the Colorado adult high school program created in section 22-10-202.

(3) "Colorado community-based nonprofit organization" or "nonprofit organization" means a Colorado community-based, tax-exempt charitable or social welfare organization operating under section 501(c)(3) or 501(c)(4) of the federal "Internal Revenue Code of 1986", 26 U.S.C. sec. 501, as amended.

(4) "Department" means the department of education created and existing pursuant to section 24-1-115.

(5) "Education provider" means a Colorado community-based nonprofit organization that is awarded a grant by the department.

(6) "Office" means the office within the department that is responsible for adult education.

(7) "Resident" means any individual who is living, other than temporarily, within the state voluntarily and makes the state the resident's home.
(8) "State board" means the state board of education created in section 1 of article IX of the state constitution.

22-10-202. Colorado adult high school program - created - standards - appropriation. (1) (a) There is created in the office the Colorado adult high school program. The purpose of the program is to create a pathway for adults in Colorado who have not earned a high school diploma to attend high school and earn a high school diploma. Students of the program may earn industry-recognized certificates or college credits. The program operates through a public-private partnership between the department and a Colorado community-based nonprofit organization and is provided at no cost to students.

(b) Any Colorado resident who is twenty-one years of age or older and has not completed high school is eligible to enroll in the program.

(c) The department shall award a grant pursuant to section 22-10-203 to a Colorado community-based nonprofit organization to operate the program as an education provider. A nonprofit organization that participates in the adult education and literacy grant program created in section 22-10-104 is also eligible for a grant with the department to operate as an education provider.

(2) An education provider shall:

(a) Secure and maintain a building for the program;

(b) Contribute funding annually for operating and facility costs;

(c) Hire educators and other school personnel, including life coaches to help students navigate academic and personal challenges;

(d) Propose an academic accountability system;

(e) Establish minimum graduation requirements, as described in subsection (3) of this section;

(f) Use an evidence-based educational model that a third-party evaluator has proven effective through a randomized control trial or an experimental study;

(g) Develop courses that may be offered to students in person;

(h) Develop online courses that may be offered to a student who takes at least fifty percent of the student's classes in person and who demonstrates academic readiness for remote course work;

(i) Consult with a nonprofit organization that has implemented an evidence-based educational model for adults with proven effectiveness in another state;

(j) Serve all students, regardless of immigration status;

(k) Enroll no more than four hundred students at one time;

(l) Create an enrollment plan for students;

(m) Comply with state and federal laws concerning students with disabilities, including students with accommodations pursuant to section 504 of the federal "Rehabilitation Act of 1973", 29 U.S.C. sec. 701 et seq., as amended;

(n) Create individualized education programs for students with disabilities;

(o) Collaborate with local district colleges as defined in section 23-71-102, community colleges as defined in section 22-35.3-102, area technical colleges as defined in section 23-60-103, or postsecondary career and technical education programs as defined in section
22-35-103, to ensure students have access to courses that can lead to graduation with industry-recognized certificates;

(p) Fund industry-recognized and career and technical education certificate programs at no cost to students;

(q) Create a plan in collaboration with institutions of higher education to authorize teachers to teach courses for college credit and align teacher qualification requirements with the concurrent enrollment program pursuant to article 35 of this title 22;

(r) Operate an on-site child care center licensed pursuant to part 3 of article 5 of title 26.5 for students with children; and

(s) Offer transportation assistance to students.

(3) (a) The education provider shall develop minimum graduation requirements for the program based on the minimum high school graduation guidelines adopted by the state board pursuant to section 22-2-106 (1)(a.5).

(b) The education provider shall award a high school diploma to a student who successfully completes the graduation requirements developed pursuant to subsection (3)(a) of this section.

(c) (I) The education provider shall propose academic accountability standards for the program to the department that include, but are not limited to, the following:

(A) Graduation rate metrics that measure the graduation ratio for the entire student population;

(B) Postsecondary and workforce readiness metrics that measure the percentage of graduates who earn either an industry-recognized certificate or at least three college credits; and

(C) Student demographic data disaggregated by race, ethnicity, socioeconomic status, age, gender, and disability.

(II) On or before July 1, 2024, the department shall review and approve the academic accountability standards described in subsection (3)(c)(I) of this section and recommend revisions as necessary to the office and education provider.

(4) On or before July 31, 2025, July 31, 2026, and March 30, 2027, an education provider shall report program data to the department, including, but not limited to:

(a) Student demographic data disaggregated by race, ethnicity, socioeconomic status, age, gender, and disability;

(b) Accountability measure data described in subsection (3)(c) of this section; and

(c) The number of industry-recognized certificates, college credits, and overall average attainment of high school credits that students earn each term.

(5) (a) For the 2023-24 budget year, the general assembly shall appropriate five million dollars to the department from the general fund for purposes of the Colorado adult high school program.

(b) Any unexpended or unencumbered money appropriated pursuant to subsection (5)(a) of this section remains available for expenditure for the same purpose until the close of the 2026-27 budget year without further appropriation.

use when selecting an education provider to operate the Colorado adult high school program. The application process must include input from the office.

(2) The application must include, but need not be limited to, the following:
(a) A plan for student enrollment, including students with disabilities;
(b) Proposed curriculum and academic accountability standards for a student-centered course of study that results in a Colorado high school diploma;
(c) Evidence of the effectiveness of the evidence-based educational model to be implemented;
(d) A plan to hire and maintain a staff of educators and other school personnel;
(e) Proof of access to the money annually required to contribute to the program;
(f) A plan to establish and operate a licensed, on-site child care center; and
(g) A plan to offer transportation services to students.

(3) (a) On or before November 1, 2023, the department shall select an education provider as a grant recipient.
(b) On or before January 15, 2024, the department shall award a grant to the education provider selected to implement the program and carry out the responsibilities described in section 22-10-202 (2) and (3).

22-10-204. Reporting requirements. (1) On or before November 30, 2025, November 30, 2026, and June 30, 2027, the department shall report to the house of representatives education committee and the senate education committee, or their successor committees, the following:
(a) Demographic data of students currently enrolled in the program;
(b) Demographic data of students who graduated from the program;
(c) Accountability measure data described in section 22-10-202 (3)(c);
(d) The number of industry-recognized certificates, college credits, and overall average attainment of high school credits that students earn each term; and
(e) Any recommendations for legislation.

22-10-205. Repeal of part. This part 2 is repealed, effective July 1, 2027.

PART 1

GENERAL PROVISIONS

22-11-101. Short title. This article shall be known and may be cited as the "Education Accountability Act of 2009".

22-11-102. Legislative declaration. (1) The general assembly hereby finds that an effective system of statewide education accountability is one that:

(a) Focuses the attention of educators, parents, students, and other members of the community on maximizing every student's progress toward postsecondary and workforce readiness and postgraduation success;

(b) Reports information concerning performance at the state level, school district or institute level, and individual public school level that is perceived by educators, parents, and students as fair, balanced, cumulative, credible, and useful;

(c) Provides more academic performance information, and fewer labels, to move from a punitive accountability system to one that is positive and focused on learning and achieving high levels of academic performance; and

(d) Holds the state, school districts, the institute, and individual public schools accountable for performance on the same set of indicators and related measures statewide, ensures that those indicators and measures are aligned through a single accountability system, to the extent possible, that objectively evaluates the performance of the thorough and uniform statewide system of public education for all groups of students at the state, school district or institute, and individual public school levels, and, as appropriate, rewards success and provides support for improvement at each level.
(2) The general assembly further finds that an effective education accountability system will be built around implementation of the Colorado growth model that:

(a) Uses a common measure to describe in plain language how much academic growth each student needs to make and how much growth the student actually makes in one year toward proficiency on state content standards;

(b) Incorporates a complete history of each student's assessment scores in calculating the student's needed and achieved academic growth;

(c) Focuses the attention of educators, parents, and students on maximizing students' academic growth and achievement over time and reveals where, and among which groups of students, the strongest academic growth is occurring and where it is not;

(d) Assists the state in closing the achievement gaps that plague the public education system by spotlighting the gaps in students' academic growth rates and ensuring that educators have the data necessary to assist the neediest students in making more than a year's academic growth in a year's time so that these students can catch up to the academic performance levels of their peers; and

(e) Provides data that are recognized by educators, parents, students, the higher education community, the business community, and other stakeholders as fair, balanced, objective, and transparent to support individual school, school district, institute, state, and federal education accountability purposes.

(3) The general assembly concludes, therefore, that it is in the best interests of the state to adopt an aligned education accountability system for public education in this state that:

(a) Holds the state, school districts, the institute, and public schools accountable on statewide performance indicators supported by consistent, objective measures;

(b) Incorporates input from parents, educators, administrators, and the community in establishing clearly defined statewide academic performance objectives;

(c) Reports performance in clear, readily understandable terms;

(d) Is adaptable to accommodate and include additional data that become available as the state implements the "Preschool to Postsecondary Education Alignment Act", part 10 of article 7 of this title, including but not limited to data concerning school readiness and postsecondary success;

(e) Recognizes and rewards areas of success, while also identifying and compelling effective change for areas in need of improvement; and

(f) Ensures the availability of technical assistance, services, and support for public schools, school districts, and the institute to improve students' academic performance.

22-11-103. Definitions. As used in this article 11, unless the context otherwise requires:

(1) "Accreditation" means certification by the state board that a school district and the public schools of the school district, or the institute and the institute charter schools, meet the requirements established by this article and the rules promulgated pursuant to this article. "Accreditation" includes the process for accrediting school districts and the institute and reviewing the performance of public schools as provided in part 2 of this article and the rules promulgated pursuant to this article.
(2) "Accreditation contract" means:
(a) The contract between the state board and a school district, as described in section 22-11-206, that includes, but is not limited to, the school district's obligation to manage the accreditation of the public schools of the school district consistent with the provisions of this article; or
(b) The contract between the state board and the institute, as described in section 22-11-206, that includes, but is not limited to, the institute's obligation to manage the accreditation of the institute charter schools consistent with the provisions of this article.

(3) "Achievement and growth gaps" means differences among student groups in the levels of academic achievement attained by the student groups on the statewide assessments and differences among student groups in the levels of academic growth attained by the student groups.

(4) "Achievement level" or "performance level" means the level of proficiency a student demonstrates on a statewide assessment.

(5) "Alternative education campus" means a public school that receives a designation pursuant to section 22-7-604.5.

(6) Repealed.

(7) "Career and technical education course" means a postsecondary course that, upon successful completion, results in postsecondary course credit toward a career and technical education credential or associates degree in applied science.

(8) Repealed.

(9) "Career and technical education course" means a postsecondary course that, upon successful completion, results in postsecondary course credit toward a career and technical education credential or associates degree in applied science.

(10) "Demonstration options" means the methods by which a high school student may demonstrate college and career readiness as recommended in the high school graduation guidelines adopted by the state board pursuant to section 22-2-106 (1)(a.5) and as specifically selected by the local school board of the school district in which a student is enrolled or by the district charter high school or institute charter high school in which a student is enrolled.

(11) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

(11.5) "Developmental education courses" has the same meaning as provided in section 23-1-113 (11)(b).

(12) "District charter school" means a charter school that is authorized by a school district pursuant to the provisions of part 1 of article 30.5 of this title.

(13) "District public school" means a public school of a school district, including but not limited to a district charter school.
(13.5) "General education core courses" means the postsecondary general education core courses in reading, writing, and mathematics identified pursuant to section 23-1-125 (3).

(14) "Improvement plan" means:
   (a) The plan described in and adopted by a school district pursuant to section 22-11-304, in which case it may also be referred to more specifically as a "district improvement plan";
   (b) The plan described in and adopted by the institute pursuant to section 22-11-304, in which case it may also be referred to more specifically as an "institute improvement plan"; or
   (c) The plan described in and adopted by a public school pursuant to section 22-11-404, in which case it may also be referred to more specifically as a "school improvement plan".

(15) "Institute" means the state charter school institute created pursuant to section 22-30.5-503.

(16) "Institute board" means the governing board of the state charter school institute appointed pursuant to section 22-30.5-505 (2).

(17) "Institute charter school" means a charter school that is authorized by the institute pursuant to the provisions of part 5 of article 30.5 of this title.

(18) Repealed.

(19) "Local school board" means the board of education of a school district. "Local school board" also includes the governing board of a board of cooperative services created pursuant to article 5 of this title if the board of cooperative services is operating a public school.

(20) "Measure" means a method of assessing or a means to assess the level of attainment on a performance indicator.

(21) "Median student growth" means, in a ranking of individual student growth scores from highest to lowest, the middle student growth score attained.

(22) Repealed.

(23) "Performance indicators" means the indicators specified in section 22-11-204 for measuring the performance of the state public education system, including each public school, each school district, the institute, and the state as a whole.

(24) "Performance plan" means:
   (a) The plan described in and adopted by a school district pursuant to section 22-11-303, in which case it may also be referred to more specifically as a "district performance plan";
   (b) The plan described in and adopted by the institute pursuant to section 22-11-303, in which case it may also be referred to more specifically as an "institute performance plan"; or
   (c) The plan described in and adopted by a public school pursuant to section 22-11-403, in which case it may also be referred to more specifically as a "school performance plan".

(24.5) "Performance watch" means:
   (a) For a school district or the institute, the period of five years during which the school district or institute performs at a level that results in being accredited with priority improvement plan or lower as described in section 22-11-207 (4)(a); and
   (b) For a public school, the period of five years during which the public school performs at a level that results in being required to adopt a priority improvement or turnaround plan as described in section 22-11-210 (1)(d)(I).

(25) "Postsecondary and workforce readiness" shall have the same meaning as provided in section 22-7-1003 (15).

(26) Repealed.

(27) "Priority improvement plan" means:
(a) The plan described in and adopted by a school district pursuant to section 22-11-305, in which case it may also be referred to more specifically as a "district priority improvement plan";

(b) The plan described in and adopted by the institute pursuant to section 22-11-305, in which case it may also be referred to more specifically as an "institute priority improvement plan";
or

(c) The plan described in and adopted by a public school pursuant to section 22-11-405, in which case it may also be referred to more specifically as a "school priority improvement plan".

(28) "Public school" has the same meaning as provided in section 22-1-101 and includes, but is not limited to, a district charter school, an institute charter school, and an online school, as defined in section 22-30.7-102 (9.5).

(29) "School district" means a school district authorized by section 15 of article IX of the state constitution and organized pursuant to article 30 of this title. "School district" also includes a board of cooperative services created pursuant to article 5 of this title if it is operating a public school.

(30) "School readiness" shall have the same meaning as provided in section 22-7-1003 (21).

(31) "State board" means the state board of education established pursuant to section 1 of article IX of the state constitution.

(32) "State review panel" means the panel of education experts appointed by the commissioner pursuant to section 22-11-205 to assist the department and the state board in implementing the provisions of this article.

(33) "Statewide assessments" means the assessments administered pursuant to section 22-7-1006.3.

(34) "Student groups" means the grouping of students based on sex, socioeconomic status, race and ethnicity, disability, English language proficiency, and gifted and talented status, as said groups are described by state board rule and federal requirements, and any additional student groups that the state board may describe by rule to align with changes to federal requirements or to provide additional data for analysis of student learning.

(34.3) "Student populations that are significantly represented within the school" means student populations that each constitute at least ten percent of the total population of students in the school, which student populations may include, but need not be limited to, the student populations described in section 22-11-301 (3).

(34.5) "Student populations that are significantly represented within the school district" means student populations that each constitute at least ten percent of the total population of students in the school district, which student populations may include, but need not be limited to, the student populations described in section 22-11-301 (3).

(35) "Target" means a specific, quantifiable outcome that establishes the desired level of attainment on a measure.

(36) "Technical advisory panel" means the panel of state and national experts on the longitudinal measurement of academic growth for accountability purposes appointed by the commissioner pursuant to section 22-11-202 (2).

(37) "Turnaround plan" means:
(a) The plan described in and adopted by a school district pursuant to section 22-11-306, in which case it may also be referred to more specifically as a "district turnaround plan";
(b) The plan described in and adopted by the institute pursuant to section 22-11-306, in which case it may also be referred to more specifically as an "institute turnaround plan"; or
(c) The plan described in and adopted by a public school pursuant to section 22-11-406, in which case it may also be referred to more specifically as a "school turnaround plan".

Cross references: For the legislative declaration in SB 17-272, see section 1 of chapter 297, Session Laws of Colorado 2017. For the legislative declaration in HB 19-1206, see section 1 of chapter 133, Session Laws of Colorado 2019.

22-11-104. Rules - college and career readiness achievement standards. (1) The state board shall promulgate rules pursuant to the "State Administrative Procedure Act", article 4 of title 24, as required in this article 11 and may promulgate such additional rules as it finds necessary for the implementation of this article 11, including, but not limited to, rules establishing a numbering system to uniquely identify individual students, including students enrolled prior to July 1, 2023, in the Colorado preschool program created pursuant to section 22-28-104, as it exists prior to July 1, 2023.

(2) (a) For each of the demonstration options by which a high school student may demonstrate college and career readiness, as recommended by the state board in the high school graduation guidelines adopted pursuant to section 22-2-106 (1)(a.5), the state board shall adopt achievement standards that indicate that a student has demonstrated a level of college and career readiness sufficient for high school graduation and higher achievement standards that indicate that a student is prepared, without needing remediation, to enroll in general education core courses. At a minimum, the higher achievement standards must include:

(I) Specified, higher scores on the assessments included in the demonstration options, which scores indicate a student is prepared to enroll in general education core courses without need for remediation; and

(II) Receipt of college course credits for concurrent enrollment in career and technical education courses or general education core courses or higher-level courses.

(b) Subsection (2)(a) of this section does not affect the authority of the Colorado commission on higher education and governing boards of the institutions of higher education to establish and implement the academic admission standards for students for all state-supported institutions of higher education and the policies and procedures for determining a student's need
for additional supports to be successful in gateway courses in English and mathematics as provided in section 23-1-113.

Editor's note: Subsection (2)(e) was amended in House Bill 09-1319, effective May 21, 2009. However, those amendments were superseded by the repeal and reenactment of this article by Senate Bill 09-163, effective May 21, 2009.

Cross references: For the legislative declaration in SB 17-272, see section 1 of chapter 297, Session Laws of Colorado 2017. For the legislative declaration in HB 19-1206, see section 1 of chapter 133, Session Laws of Colorado 2019.

22-11-105. Funding. (1) The department is authorized to seek, accept, and expend public and private gifts, grants, and donations for the implementation of this article; except that the department shall not accept a gift, grant, or donation if it is subject to conditions that are inconsistent with this article or any other law of the state.

(2) The general assembly hereby declares that, for purposes of section 17 of article IX of the state constitution, implementation of an aligned education accountability system for public education pursuant to this section is an important element in implementing accountable education reform and accountable programs to meet state academic standards and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(3) The general assembly anticipates that the department may receive significant amounts of federal moneys that may appropriately be used to implement this article and strongly encourages the department to apply said federal moneys to the greatest extent possible in implementing this article.

PART 2

STATE ACCOUNTABILITY

22-11-201. State public education system - annual performance review - targets for improvement. (1) (a) The state board shall annually review the performance of the statewide public education system, including but not limited to reviewing the levels of attainment on the performance indicators demonstrated by each public school, each school district, and the institute. Following said review, the state board shall set, reaffirm, or revise, as appropriate, ambitious but attainable statewide targets for the measures used to determine the levels of
attainment of the performance indicators for the coming academic year with the goal of raising
the level of academic performance in the public schools throughout the state. In setting the
targets, the state board shall, to the extent possible, ensure that the targets meet federal law
requirements.

(b) In adopting the targets required by paragraph (a) of this subsection (1), the state
board shall adopt a set of targets for grades three through twelve.

(2) In adopting the targets required by subsection (1) of this section, the state board shall
consider any information provided by public schools, local school boards, the institute, school
administrators, teachers and teachers' associations, parents and parents' associations, and
institutions of higher education related to the academic performance of the public education
system in Colorado.

(3) The state board shall adopt and publish on the data portal the annual statement of
targets in accordance with time frames set by state board rule.

Source: L. 2009: Entire article R&RE, (SB 09-163), ch. 293, p. 1466, § 1, effective May
21.

state board, by rule, shall adopt, and revise as necessary, the Colorado growth model, which shall
be a student longitudinal academic growth model that is available in the public domain. In
adopting and revising the Colorado growth model, the state board shall consider recommendations from the technical advisory panel convened pursuant to subsection (2) of this
section.

(b) In adopting and revising the Colorado growth model, the state board shall ensure that
the model:

(I) Reflects best practices, as acknowledged in the scientific literature, in measuring
student longitudinal academic growth with high precision;

(II) To the greatest extent possible, uses a method that will support the academic
improvement of public schools, school districts, and the institute;

(III) Can measure a student's progress toward meeting each of the performance levels
identified by state board rule on the statewide assessments;

(IV) Can gauge each student's success in making one year's academic growth or more in
one year's time;

(V) Provides results that are meaningful, reliable, and valid, given their intended
purposes, to enable parents, teachers, and administrators to identify individual students or groups
of students who are or are not making adequate academic growth;

(VI) Recognizes the improvement of a student whose scores on the statewide
assessments increase even if the increase is not sufficient for the student to attain a higher
performance level;

(VII) Uses individual student scores achieved on the statewide assessments;

(VIII) Is described in a publicly available document that sets forth the mathematical
equations used in the model and that fully and accurately explains the methods used to complete
the records for students with incomplete data; and
(IX) Can treat the analysis and reporting of data electronically and produces student, public school, school district, institute, and state reports that the department provides to school districts, the institute, public schools, and the public through the data portal.

(c) Repealed.

(2) (a) To assist the department in implementing the Colorado growth model, the commissioner shall appoint a technical advisory panel of state and national experts on the longitudinal measurement of academic growth for accountability purposes. The members of the technical advisory panel shall serve at the will of the commissioner and shall not receive compensation or reimbursement for expenses.

(b) The department shall convene meetings of the technical advisory panel as necessary and within existing appropriations to review the Colorado growth model and make recommendations to the state board. All meetings of the technical advisory panel shall be open.

(c) The department and the state board shall consult with the technical advisory panel concerning:

(I) The scores on the kindergarten and first, second, and third grade reading assessments approved pursuant to section 22-7-1209 (1)(b) that will identify, as required in section 22-7-1209 (1)(a), the minimum reading competency skill levels in the areas of phonemic awareness, phonics, vocabulary development, reading fluency, including oral skills, and reading comprehension for kindergarten and first, second, and third grades;

(II) The amount of additional credit toward accreditation that each local education provider may receive pursuant to section 22-11-204 (3)(b); and

(III) Methods of including in the accreditation process consideration of student progress in attaining reading competency, as defined in section 22-7-1203 (10), in kindergarten and first and second grade.

22-11-203. Student longitudinal academic growth - calculation - data - research. (1)

(a) Each school year by a date established in state board rules, the department shall calculate, to the extent practicable, what will constitute adequate longitudinal academic growth for each student for that school year in each subject that is included in the statewide assessments.

(b) The department shall use data available for longitudinal analysis to review and revise the calculation of adequate longitudinal academic growth as necessary.

(c) and (d) Repealed.

(2) (a) For each school year, the department shall provide to each school district in the state academic growth information for each student enrolled in the district public schools, based on the statewide assessment results for the preceding school years. Within ten days after the information is provided to each school district, the department shall also provide the academic growth information to each district public school for the students enrolled in the district public school. Upon receipt of the academic growth information, the principal of each district public school shall ensure that appropriate educators in the school who work directly with a student have access to the necessary academic growth information concerning that student.
(b) For each school year, the department shall provide to the institute academic growth information for each student enrolled in the institute charter schools, based on the statewide assessment results for the preceding school years. Within ten days after the information is provided to the institute, the department shall also provide the academic growth information to each institute charter school for the students enrolled in the institute charter school. Upon receipt of the academic growth information, the principal of each institute charter school shall ensure that appropriate educators in the school who work directly with a student have access to the necessary academic growth information concerning that student.

(3) Repealed.

(4) The department, school districts, the institute, and public schools shall maintain the confidentiality of each student's statewide assessment scores consistent with the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, and all federal regulations and applicable guidelines adopted in accordance therewith.

(5) The school district or the district charter school or institute charter school in which a student is enrolled shall maintain the academic growth information received from the department pursuant to subsection (2) of this section in the student's individual student record maintained by the school district or by the district charter school or institute charter school.

(6) The department shall provide technical assistance and training to school districts, the institute, and public schools to assist school district, institute, and public school personnel in interpreting, using, and communicating to parents the academic growth information provided pursuant to subsection (2) of this section. The department shall pay the costs of providing technical assistance and training pursuant to this subsection (6) within existing appropriations or from any gifts, grants, or donations received for implementing this section.

(7) The department, upon request, shall make available to qualified researchers the entire longitudinally linked dataset created pursuant to section 22-11-202 and used for generating academic growth information pursuant to this section and for awarding the governor's distinguished improvement awards. For purposes of this subsection (7), qualified researchers shall include, but need not be limited to, institutions of higher education, school districts, and public policy research and advocacy organizations. The department shall provide the data in a format that allows the data to be linked with other publicly available data in the state and shall include all available data regarding student demographics, the state's school identification numbers, and student-level performance data, while protecting the privacy of individual students in a manner consistent with the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, and all federal regulations and applicable guidelines adopted in accordance therewith.

22-11-204. Performance indicators - measures. (1) (a) The department shall annually determine the level of attainment of each public school, each school district, the institute, and the state as a whole on each of the following performance indicators:
(I) Student longitudinal academic growth, based on students' academic progress, relative to student peers and across school years, toward meeting the state standards adopted pursuant to section 22-7-1005, as measured by students' scores on the statewide assessments administered pursuant to section 22-7-1006.3;

(II) Student academic achievement, based on students' academic performance relative to the grade-level state standards adopted pursuant to section 22-7-1005, as measured by performance on the statewide assessments administered pursuant to section 22-7-1006.3; and

(III) Student academic growth to standards, based on students' progress toward meeting the state standards adopted pursuant to section 22-7-1005 or, for students who meet grade-level expectations on the state standards, progress toward higher levels of achievement, if available, as measured by the statewide assessments administered pursuant to section 22-7-1006.3.

(b) In addition, the department shall annually determine the level of attainment of each public high school, each school district, the institute, and the state as a whole on the postsecondary and workforce readiness performance indicator, based on the measures specified in subsection (4) of this section.

(c) The state board, after considering the recommendations of the technical advisory panel, shall by rule specify how the performance of each public school, each school district, the institute, and the state as a whole is calculated for the performance indicators described in subsection (1)(a) of this section.

(d) For purposes of calculating performance for the performance indicator concerning student academic achievement, the state board shall ensure that the calculation includes consideration of the academic achievement of students enrolled in third and fourth grade who are identified as having significant reading deficiencies and provides additional credit for public schools, school districts, and the institute that demonstrate higher levels of performance on the state reading assessment or the statewide English language arts assessment by said students.

(2) and (3) Repealed.

(4) The department shall determine the level of attainment of each public high school, each school district, the institute, and the state as a whole on the postsecondary and workforce readiness indicator by using, at a minimum, the following measures:

(a) For each public high school, the department shall calculate:

(I) The percentages of students enrolled in the eleventh grade in the public high school who score at each achievement level on the standardized, curriculum-based, achievement, college entrance examination administered as a statewide assessment or the percentages of students enrolled in each of the grade levels included in the public high school who score at each achievement level on the assessments administered pursuant to section 22-7-1006.3 by the public high school;

(II) As soon as the data is available, the percentage of students graduating from the public high school who receive a diploma that includes a postsecondary and workforce readiness endorsement as described in section 22-7-1009 (1) and the percentage who receive a diploma that includes an endorsement for exemplary demonstration of postsecondary and workforce readiness as described in section 22-7-1009 (2);

(III) (A) The graduation and dropout rates, as defined by rule of the state board.

(B) Beginning in the 2020-21 school year, for purposes of this subsection (4)(a)(III), a student who is enrolled in special education services, as defined in section 22-20-103 (23), must be counted in the public high school's graduation rate in the school year in which the student
completes the minimum graduation requirements. Nothing in this subsection (4)(a)(III)(B) limits the right to a free appropriate public education for a student as provided by the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended; the "Exceptional Children's Educational Act", article 20 of this title 22; or any other federal or state law or rule.

(IV) Beginning in the 2016-17 school year, the percentages of students graduating from the public high school who, in the school year immediately following graduation from high school, enroll in a career and technical education program, community college, or four-year institution of higher education. The department shall weight each postsecondary enrollment option equally in determining a public high school's level of attainment of this measure.

(IV.5) Beginning in the 2018-19 school year, or in the first school year for which data is available, the percentage of students graduating from the public high school who, in the school year immediately following graduation from high school, enlist in the military. The department shall weight military enlistment equally with the postsecondary enrollment options described in subsection (4)(a)(IV) of this section in determining a public high school's level of attainment on the postsecondary and workforce readiness indicator.

(V) Beginning in the 2020-21 school year, the percentage of students enrolled in the public high school who demonstrate college and career readiness, based on the demonstration options available to the students enrolled in the public high school, at the higher achievement level adopted by the state board that indicates a student is prepared, without needing remediation, to enroll in general education core courses;

(VI) Beginning in the 2020-21 school year, the percentage of students enrolled in the public high school who successfully complete an advanced placement course in a subject other than English language arts or math and earn a score of three or higher on the end-of-course advanced placement exam, the percentage of students who successfully complete a concurrent enrollment course in a subject other than English language arts or math and earn a grade of "B" or higher in the course, and the percentage of students who successfully complete an international baccalaureate course in a subject other than English language arts or math and earn a score of four or higher.

(b) For each school district and the institute, the department shall calculate:

(I) The overall percentages of students enrolled in the eleventh grade in all of the district public high schools or all institute charter high schools who score at each achievement level on the standardized, curriculum-based, achievement, college entrance examination administered as a statewide assessment or the percentages of students enrolled in each of the grade levels included in the public high schools who score at each achievement level on the assessments administered pursuant to section 22-7-1006.3 by the public high schools;

(II) Beginning with the first school year for which criteria are adopted pursuant to section 22-7-1009 (1) for awarding diplomas that are endorsed for postsecondary and workforce readiness and for each school year thereafter, the overall percentage of all students graduating from the district public high schools or from the institute charter high schools who receive diplomas that are endorsed for postsecondary and workforce readiness as described in section 22-7-1009 (1) and the percentage who receive diplomas that are endorsed for exemplary demonstration of postsecondary and workforce readiness as described in section 22-7-1009 (2);

(III) (A) The overall graduation and dropout rates, as defined by rule of the state board, for the district public high schools or the institute charter high schools.
(B) Beginning in the 2020-21 school year, for purposes of this subsection (4)(b)(III), a student who is enrolled in special education services, as defined in section 22-20-103 (23), must be counted in the school district's and the institute's graduation rate in the school year in which the student completes the minimum graduation requirements. Nothing in this subsection (4)(b)(III)(B) limits the right to a free appropriate public education for a student as provided by the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended; the "Exceptional Children's Educational Act", article 20 of this title 22; or any other federal or state law or rule.

(IV) Beginning in the 2016-17 school year, the overall percentages of students graduating from all of the district public high schools or all institute charter high schools who, in the school year immediately following graduation from high school, enroll in a career and technical education program, community college, or four-year institution of higher education. The department shall weight each postsecondary enrollment option equally in determining a school district's or the institute's level of attainment of this measure.

(IV.5) Beginning in the 2018-19 school year, or in the first school year for which data is available, the overall percentages of students graduating from all of the district public high schools or all institute charter high schools who, in the school year immediately following graduation from high school, enlist in the military. The department shall weight military enlistment equally with the postsecondary enrollment options described in subsection (4)(b)(IV) of this section in determining a school district's or the institute's level of attainment on the postsecondary and workforce readiness indicator.

(V) Beginning in the 2020-21 school year, the overall percentage of students enrolled in the district public high schools or all of the institute charter high schools who demonstrate college and career readiness, based on the demonstration options offered by the district charter high schools, the school district, or the institute charter high schools, at the higher achievement level adopted by the state board that indicates a student is prepared, without needing remediation, to enroll in general education core courses;

(VI) Beginning in the 2020-21 school year, the overall percentage of students enrolled in the district public high schools or institute charter high schools who successfully complete an advanced placement course in a subject other than English language arts or math and earn a score of three or higher on the end-of-course advanced placement exam, the percentage of students who successfully complete a concurrent enrollment course in a subject other than English language arts or math and earn a grade of "B" or higher in the course, and the percentage of students who successfully complete an international baccalaureate course in a subject other than English language arts or math and earn a score of four or higher.

(c) For the state, the department shall calculate:

(I) The percentages of students enrolled in the eleventh grade in public high schools statewide who score at each achievement level on the standardized, curriculum-based, achievement, college entrance examination administered as a statewide assessment or the percentages of students enrolled in each of the grade levels included in the public high schools statewide who score at each achievement level on the assessments administered pursuant to section 22-7-1006.3 by the public high schools;

(II) Beginning with the 2011-12 school year and for each school year thereafter, the overall percentage of all students graduating from the public high schools in the state who receive diplomas that are endorsed for postsecondary and workforce readiness as described in
section 22-7-1009 (1) and the percentage who receive diplomas that are endorsed for exemplary demonstration of postsecondary and workforce readiness as described in section 22-7-1009 (2);

(III) (A) The statewide graduation and dropout rates, as defined by rule of the state board, for the public high schools in the state.

(B) Beginning in the 2020-21 school year, for purposes of this subsection (4)(c)(III), a student who is enrolled in special education services, as defined in section 22-20-103 (23), must be counted in the statewide graduation rate in the school year in which the student completes the minimum graduation requirements. Nothing in this subsection (4)(c)(III)(B) limits the right to a free appropriate public education for a student as provided by the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended; the "Exceptional Children's Educational Act", article 20 of this title 22; or any other federal or state law or rule.

(IV) Beginning in the 2016-17 school year, the percentages of students graduating from public high schools statewide who, in the school year immediately following graduation from high school, enroll in a career and technical education program, community college, or four-year institution of higher education. The department shall weight each postsecondary enrollment option equally in determining the state's level of attainment of this measure.

(IV.5) Beginning in the 2018-19 school year, or in the first school year for which data is available, the percentage of students graduating from public high schools statewide who, in the school year immediately following graduation from high school, enlist in the military. The department shall weight military enlistment equally with the postsecondary enrollment options described in subsection (4)(c)(IV) of this section in determining the state's level of attainment on the postsecondary and workforce readiness indicator.

(V) Beginning in the 2020-21 school year, the overall percentage of students enrolled in the public high schools statewide who demonstrate college and career readiness, based on the demonstration options available to the students enrolled in each public high school, at the higher achievement level adopted by the state board that indicates a student is prepared, without needing remediation, to enroll in general education core courses;

(VI) Beginning in the 2020-21 school year, the overall percentage of students enrolled in the public high schools of the state who successfully complete an advanced placement course in a subject other than English language arts or math and earn a score of three or higher on the end-of-course advanced placement exam, the percentage of students who successfully complete a concurrent enrollment course in a subject other than English language arts or math and earn a grade of "B" or higher in the course, and the percentage of students who successfully complete an international baccalaureate course in a subject other than English language arts or math and earn a score of four or higher.

(5) In measuring the performance of a public school, a school district, the institute, or the state on each of the performance indicators, the department shall disaggregate the measures for each indicator by student group. The department shall separately account for the performance of each student group in determining the overall performance on a performance indicator by a public school, a school district, the institute, or the state.

(6) Notwithstanding any provision of this section to the contrary:

(a) In calculating the levels of attainment of the performance indicators, the department shall ensure compliance with the federal statutes and regulations and may adjust the calculation methods as necessary to ensure said compliance;
(b) To comply with the privacy requirements of the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g and any other federal requirements, the department may forego the calculations required in this section for a public school or a grade level in which the number of enrolled students is less than a minimum number determined by department policy. If the department does not calculate the levels of attainment of the performance indicators as provided in this section for a public school, the department shall determine an alternate method of measuring the public school's performance that is comparable to the provisions of this section and complies with the requirements of federal statutes and regulations.

(c) The department may adjust the calculations specified in this section as necessary to take into account students for whom no score is recorded on the statewide assessments or the standardized, curriculum-based, achievement, college entrance examination.

(7) (a) The department shall report on the data portal the levels of attainment on the performance indicators, as measured pursuant to this section, for each public school in the state, each school district, the institute, and the state as a whole; except that, in reporting data disaggregated by student groups, the department shall not report data for any student group that is smaller than the minimum number of students necessary to protect student privacy, as determined by the department.

(b) Repealed.

(8) and (9) Repealed.

Editor's note: (1) Amendments to subsections (4)(a)(I), (4)(b)(I), (4)(c)(I), (5)(a)(I)(F), (5)(b)(I)(F), and (5)(c)(I)(F) by HB 15-1323 and HB 15-1170 were harmonized.

(2) Subsection (8)(b) provided for the repeal of subsection (8), effective July 1, 2022. (See L. 2021, p. 58.)

(3) Subsection (7)(b)(II) provided for the repeal of subsection (7)(b), effective July 1, 2023. (See L. 2022, p. 469.)
Subsection (9)(b) provided for the repeal of subsection (9), effective July 1, 2023. (See L. 2022, p. 469.)

22-11-205. State review panel - creation. (1) (a) The commissioner shall recruit an appropriate number of highly qualified persons to serve when needed as a state review panel. The commissioner, with the approval of the state board, shall appoint the members of the state review panel to assist the department and the state board as provided in this article.

(b) In appointing the members of the state review panel, the commissioner shall select persons on the basis of demonstrated expertise in one or more of the following fields:

(I) School district or school leadership or governance;
(II) Standards-based elementary or secondary curriculum instruction and assessment;
(III) Instructional data management and analysis;
(IV) School district, school, or program evaluation;
(V) Educational program management;
(VI) Teacher leadership;
(VII) Organizational management or school district and public school governance;
(VIII) School district or school budgeting and finance;
(IX) Any other field that the commissioner deems to be relevant to the review and evaluation of school district, institute, or public school performance or improvement planning.

(c) In assigning members of the state review panel, the commissioner shall ensure that an individual does not participate in a site visit or review of a school district, the institute, or a public school if the individual, directly or through his or her employer, has been paid by the school district, the institute, the public school, or the department to provide services for the school district, institute, or public school while the school district, institute, or public school is accredited with priority improvement plan, accredited with turnaround plan, or required to adopt a priority improvement plan or turnaround plan. If an individual who, as part of the state review panel, participates in a site visit or review of a school district, the institute, or a public school is employed by an entity that later seeks to provide services to the school district, institute, or public school, the individual shall not use any information obtained as a result of the review to benefit the employing entity unless the information has been made public.

(2) The commissioner shall convene all or a portion of the state review panel as necessary to carry out the duties specified in this article.

(3) The department may accept and expend moneys received from gifts, grants, or donations to compensate members of the state review panel or reimburse them for expenses incurred in performing their duties pursuant to this article. The department shall not pay compensation or reimbursements if sufficient moneys are not available.

22-11-206. Accreditation of school districts and institute - contracts - rules. (1) Pursuant to the authority vested in the state board by section 1 of article IX of the state constitution to exercise general supervision over the public schools in the state, the state board shall annually accredit the school districts and the institute as provided in this article and pursuant to rules adopted by the state board in accordance with this article.

(2) The state board shall enter into an accreditation contract with each local school board and with the institute. Each accreditation contract shall have a term of one year and shall be automatically renewed each year so long as the school district or the institute remains in the accreditation category of accredited or higher. The parties to each accreditation contract may renegotiate the contract at any time during the term of the contract, based on appropriate and reasonable changes in the circumstances upon which the original contract terms were based. The state board shall promulgate rules specifying the contents and terms of the accreditation contract in accordance with the provisions of this article.

(3) Each accreditation contract shall, at a minimum, address the following elements:
(a) The school district's or institute's level of attainment on the performance indicators, as determined pursuant to section 22-11-204;
(b) The school district's or the institute's adoption and implementation of its performance, improvement, priority improvement, or turnaround plan, whichever is appropriate based on the school district's or institute's accreditation category;
(c) The school district's implementation of its system for accrediting the district public schools or the institute's implementation of its system for accrediting the institute charter schools; and
(d) The school district's or institute's substantial, good-faith compliance with the provisions of this title and other statutory and regulatory requirements applicable to school districts and the institute.

(4) (a) For purposes of monitoring a school district's or the institute's substantial and good-faith compliance with the provisions of this title and other statutory and regulatory requirements, the department shall obtain assurances from the school district or the institute that it is in compliance with:
(I) The provisions of article 44 of this title concerning budget and financial policies and procedures;
(II) The provisions of article 45 of this title concerning accounting and financial reporting; and
(III) If the accreditation contract involves a school district, the provisions of section 22-32-109.1 concerning school safety.
(b) With regard to statutory and regulatory requirements, other than those specified in paragraph (a) of this subsection (4), that are applicable to school districts, the superintendent of the school district and the local school board members shall affirm that the school district and the district public schools are in substantial, good-faith compliance with the statutory and regulatory requirements. If the department has reason to believe that the school district is not in substantial compliance with one or more of the statutory or regulatory requirements, the department shall notify the local school board that it has ninety days after the date of notice to come into compliance. If, at the end of the ninety-day period, the department finds that the school district is not substantially in compliance with the statutory or regulatory requirements, the school district may be subject to the interventions specified in this article.
(c) With regard to statutory and regulatory requirements, other than those specified in paragraph (a) of this subsection (4), that are applicable to the institute, the members of the institute board and the executive director of the institute shall affirm that the institute and the institute charter schools are in substantial, good-faith compliance with the statutory and regulatory requirements. If the department has reason to believe that the institute is not in substantial compliance with one or more of the statutory or regulatory requirements, the department shall notify the institute that it has ninety days after the date of notice to come into compliance. If, at the end of the ninety-day period, the department finds that the institute is not in substantial compliance with the statutory or regulatory requirements, the institute may be subject to the interventions specified in this article.

(5) Repealed.

Editor's note: Subsection (5)(b) provided for the repeal of subsection (5), effective July 1, 2023. (See L. 2021, p. 1172.)

22-11-207. Accreditation categories - criteria - rules. (1) The state board shall promulgate rules to establish accreditation categories that shall include, but need not be limited to:

(a) "Accredited with distinction", meaning a school district or the institute meets or exceeds the statewide targets or targets annually set by the school district or the institute or exceeds statewide attainment on the performance indicators and is required to adopt and implement a performance plan as described in section 22-11-303;

(b) "Accredited", meaning a school district or the institute meets statewide attainment on the performance indicators and is required to adopt and implement a performance plan as described in section 22-11-303;

(c) "Accredited with improvement plan", meaning the school district or the institute is required to adopt and implement an improvement plan as provided in section 22-11-304;

(d) "Accredited with priority improvement plan", meaning the school district or the institute is required to adopt and implement a priority improvement plan as provided in section 22-11-305; or

(e) "Accredited with turnaround plan", meaning the school district or the institute is required to adopt, with the commissioner's approval, and implement a turnaround plan as provided in section 22-11-306.

(2) The state board shall promulgate rules establishing objective, measurable criteria that the department shall apply in determining the appropriate accreditation category for each school district and the institute, placing the greatest emphasis on attainment of the performance indicators. At a minimum, the rules must take into consideration:

(a) A school district's or the institute's level of attainment of the statewide targets on the performance indicators;

(b) A school district's or the institute's level of attainment of the performance indicators compared with statewide attainment of the performance indicators;

(c) to (f) Repealed.
The performance of students enrolled in the school district's or institute's alternative education campuses, taking into account the unique purposes of the campuses and the unique circumstances of and challenges posed by students enrolled in the campuses; and

(h) The school district's or the institute's compliance with the other requirements specified in the accreditation contract.

(2.5) (a) The department shall notify each school district and the institute of its initial accreditation assignment. If a school district or the institute disagrees with the department's initial accreditation assignment, the school district or institute may submit to the department a request for reconsideration. The state board shall promulgate rules specifying the information the department must take into account in determining the school district's or institute's final accreditation category, which may include:

(I) The length of time during which the school district or institute has been unable to meet the statewide targets;

(II) The improvements, changes, and interventions the school district or institute has implemented and is implementing to improve its performance if it is not meeting the statewide targets;

(III) The progress the school district or institute is making in improving its performance and in approaching achievement of the statewide targets and the degree to which the school district or institute is not achieving the statewide targets;

(IV) The pupil enrollment of the school district as it may affect the reliability of the assessment data;

(V) The percentages of students enrolled in high schools of the school district, or institute charter high schools for purposes of the institute, who, based on attainment of course credits or demonstrated competencies, are on schedule to graduate within four, five, six, or seven years; and

(VI) Any supplemental data for grade levels for which there are not statewide assessments that indicate the school district or institute is meeting the statewide targets on the performance indicators, if the department determines the supplemental data is valid and reliable and derived from assessments that are aligned with the state standards adopted pursuant to section 22-7-1005.

(b) The department shall notify each school district and the institute of its final accreditation category within the time frames adopted by rule of the state board.

(3) In promulgating rules pursuant to this section, the state board shall use clear, understandable language to describe the accreditation categories and the levels of attainment of the performance indicators, with the goal of providing a high degree of transparency in the accreditation process.

(4) (a) Beginning with the 2018-19 school year, if a school district or the institute performs at a level that results in being accredited with priority improvement plan or lower for two consecutive years followed by three consecutive or nonconsecutive years, resulting in a total of five years of performance at such a level, the state board shall require the school district or institute to take significant action as provided in section 22-11-209; except that, before the five years have accumulated, if the school district or institute performs for at least two consecutive years at a level that results in being accredited with improvement plan or higher, the five years stop accumulating unless the school district or institute again performs at a level that results in being accredited with priority improvement plan or lower for two consecutive years, at which
time the school district or institute is again in the first two of the five years. For the time during which the five years of performance are accumulating, a school district or the institute is on performance watch.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (4), for purposes of calculating whether a school district or the institute is accredited with priority improvement plan or below for longer than a total of five consecutive school years, the department shall exclude the 2015-16 school year, during which the department does not assign accreditation ratings as provided in section 22-11-208 (1.5), from the calculation and shall count the 2016-17 school year as if it were consecutive to the 2014-15 school year.

(c) Notwithstanding the provisions of subsection (4)(a) of this section or section 22-11-209 (3.5), the department shall exclude consideration of the school district's or institute's accreditation rating for the 2020-21, 2021-22, and 2022-23 school years from calculating consecutive years for purposes of subsection (4)(a) of this section and section 22-11-209 (3.5) and shall count the school district's or institute's accreditation rating for the 2023-24 school year as if it were consecutive to the 2019-20 school year. However, a change in a school district's or the institute's accreditation rating for the 2022-23 school year pursuant to subsection (2.5)(a) of this section may be factored into the calculation of years for purposes of subsection (4)(a) of this section.

(5) Notwithstanding any provision of subsection (4)(a) of this section or section 22-11-209 (2)(a) to the contrary, at the request of a school district, in consultation with the district accountability committee, or the institute, the state board may direct the school district or institute to take significant actions as provided in section 22-11-209 even though the school district or institute has not completed the five years of performance watch. If the state board requires the school district or institute to take significant actions, the school district or institute is subject to the provisions of section 22-11-209 (3.5).

(6) The priority improvement or turnaround plan that a school district or the institute adopts for the fourth year in which the school district or institute is on performance watch must include a general explanation for how the school district or institute may put into effect each of the actions described in section 22-11-209 (2)(a)(I) for a school district or section 22-11-209 (2)(a)(II) for the institute.

accreditation category and shall publish each school district's and the institute's accreditation category, with supporting data, on the data portal. The department shall also publish each school district's and the institute's performance, improvement, priority improvement, or turnaround plan, whichever is applicable, on the data portal following adoption of the plan.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (1), the department may change a school district's or the institute's accreditation category prior to conclusion of the annual performance review if the department determines that the school district or the institute has substantially failed to meet a requirement specified in the accreditation contract and that immediate action is required to protect the interests of the students and parents of students enrolled in the district public schools or the institute charter schools.

(c) In reviewing school districts' and the institute's performance, the department, to the extent possible, shall evaluate the cost effectiveness of intervention strategies implemented by the state, school districts, and the institute in attempting to improve performance in school districts that are in an accreditation category that is lower than accredited or in the institute if it is in an accreditation category that is lower than accredited.

(d) The state board by rule shall establish the time frames in which the department shall review school district and institute performance and determine and report each school district's and the institute's appropriate accreditation category, and the time frames in which the school districts and the institute shall adopt their respective plans and submit them for review and publication on the data portal. A school district with one thousand students or fewer shall only be required to submit a single plan to satisfy the school district and school plan requirements.

(e) The state board shall promulgate rules to ensure a school district's or the institute's right to a hearing before the state board to appeal placement in the accredited with turnaround plan category or removal of accreditation pursuant to section 22-11-209.

(1.5) Notwithstanding any provision of this article, or any provision of state board rule that implements this article, to the contrary, for the 2015-16 school year, the department shall not assign accreditation ratings for school districts and the institute. For the 2015-16 school year, each school district and the institute shall continue to implement the plan type that was assigned for the preceding school year. The department shall assign accreditation ratings for school districts and the institute for the 2016-17 school year and each school year thereafter.

(1.6) (a) Notwithstanding any provision of this article or any provision of state board rule that implements this article to the contrary, for the 2020-21 and 2021-22 school years, the department shall not assign accreditation ratings for school districts and the institute. For the 2020-21 and 2021-22 school years, each school district and the institute shall continue to implement the plan type for the accreditation rating assigned for the preceding school year.

(b) (I) Notwithstanding the provisions of subsection (1.6)(a) of this section, if required to implement a priority improvement or turnaround plan during the 2020-21 school year on the basis of its accreditation rating for the 2019-20 school year, a school district or the institute may submit a request to the department for an accreditation rating and plan type for the 2021-22 school year that reflects its level of attainment based on an alternative body of evidence, which may include state and local assessment data. The state board may promulgate rules for implementing this subsection (1.6)(b), including but not limited to:

(A) The time frames and process for a school district or the institute to make a request to the department;
The standards to determine whether a request will be granted, including the minimum standards that must be addressed by the alternative body of evidence;

Input from the state review panel;

The content of the accreditation contracts and plans based upon the state board's determination of whether to assign a higher accreditation rating; and

The provision of additional supports and grants necessary to implement this subsection (1.6)(b)(I).

A change in a school district's or the institute's accreditation rating for the 2021-22 school year pursuant to subsection (1.6)(b)(I) of this section does not affect the time-based calculations required in sections 22-11-207 (4)(a) and 22-11-209 (3.5).

(1.7) Repealed.

(2) The department shall provide technical assistance and support to school districts that are accredited with improvement plan, accredited with priority improvement plan, or accredited with turnaround plan and to the institute if it is accredited at any of those categories. The department shall base the amount of technical assistance and support provided to a school district or the institute on the school district's or institute's degree of need for assistance and the department's available resources. Technical assistance and support may include, but need not be limited to:

(a) Access to data and research to support interpretation of student data, decision-making, and learning;

(b) Consultative services on best practices for improvement and implementation of intervention strategies, including, where appropriate, research-based strategies that address the quality and availability of early childhood education opportunities within the school district and student engagement and re-engagement; and

(c) Evaluation and feedback on the school district's or the institute's improvement, priority improvement, or turnaround plan, whichever is applicable.

(2.5) In addition to the technical assistance and support described in subsection (2) of this section, the department shall make available to the directors of the local school board of a school district that is accredited with improvement plan or lower, or that includes a public school that is required to adopt a priority improvement or turnaround plan, training in school district and public school governance and turnaround best practices. The department shall also make available informational materials and training opportunities for parents, school personnel, and members of the affected district accountability committee and school accountability committee.

(3) The commissioner may assign the state review panel to critically evaluate a school district's priority improvement plan or turnaround plan or the institute's priority improvement plan or turnaround plan. The commissioner may require the state review panel to conduct one or more on-site visits as part of evaluating a school district's or the institute's priority improvement or turnaround plan. Based on its evaluation, the state review panel shall report to the commissioner, the state board, and the affected local school board or institute board recommendations concerning:

(a) Whether the school district's or institute's leadership is adequate to implement change to improve results;

(b) Whether the school district's or institute's infrastructure is adequate to support school improvement;
(c) The readiness and apparent capacity of public school and school district or institute personnel to plan effectively and lead the implementation of appropriate actions to improve student academic performance within the district public schools or the institute charter schools;

(d) The readiness and apparent capacity of public school and school district or institute personnel to engage productively with and benefit from the assistance provided by an external partner;

(e) The likelihood of positive returns on state investments of assistance and support to improve the school district's or institute's performance within the current management structure and staffing; and

(f) The necessity that the school district or institute remain in operation to serve students.

**Cross references:** For the legislative declaration in HB 20-1418, see section 1 of chapter 197, Session Laws of Colorado 2020.

**22-11-209. Removal of accreditation - recommended actions - review - appeal - rules - repeal.** (1) The department may recommend to the commissioner and the state board that the state board remove a school district's or the institute's accreditation if:

(a) and (b) Repealed.

(c) (I) The school district or the institute has substantially failed to comply with the provisions of article 44 of this title, concerning budget and financial policies and procedures, or article 45 of this title, concerning accounting and financial reporting; and

(II) The school district or institute has not remedied the noncompliance within ninety days after receipt of notice from the department; and

(III) Loss of accreditation is required to protect the interests of the students and parents of students enrolled in the district public schools or the institute charter schools.

(2) (a) If a school district or the institute is accredited with a turnaround plan and the department determines that the school district or institute has failed to make substantial progress under its turnaround plan, or if the school district or institute has been on performance watch for the full five years, the commissioner shall assign the state review panel to critically evaluate the school district's or the institute's performance and to recommend one or more of the following actions:

(I) If the recommendation applies to a school district:

(A) That the school district's accreditation be removed;

(A.5) That the school district be reorganized pursuant to article 30 of this title 22, which reorganization may include consolidation;
(B) That a private or public entity, with the agreement of the school district, serve as a lead partner in the management of the school district or partially or wholly manage one or more of the district public schools. The local school board and the department shall ensure that the private or public entity uses research-based strategies and has a proven record of success working with school districts and schools under similar circumstances.

(C) That one or more of the district public schools be converted to a charter school;

(D) That one or more of the district public schools be granted status as an innovation school pursuant to section 22-32.5-104 or that the local school board recognize a group of district public schools as an innovation school zone pursuant to section 22-32.5-104;

(E) That one or more of the district public schools be closed; or

(F) That one or more of the district public schools be converted to a community school, as defined in section 22-32.5-103 (1.5); or

(II) If the recommendation applies to the institute:

(A) That the institute's accreditation be removed;

(A.5) That the institute board be abolished and that the governor appoint a new institute board pursuant to section 22-30.5-505;

(B) That a public or private entity take over management of the institute or management of one or more of the institute charter schools; or

(C) That one or more of the institute charter schools be closed.

(b) In its evaluations and recommendations, the state review panel shall consider:

(I) Whether the school district's or institute's leadership is adequate to implement change to improve results;

(II) Whether the school district's or institute's infrastructure is adequate to support school improvement;

(III) The readiness and apparent capacity of public school and school district or institute personnel to plan effectively and lead the implementation of appropriate actions to improve student academic performance within the district public schools or the institute charter schools;

(IV) The readiness and apparent capacity of public school and school district or institute personnel to engage productively with and benefit from the assistance provided by an external partner;

(V) The likelihood of positive returns on state investments of assistance and support to improve the school district's or institute's performance within the current management structure and staffing; and

(VI) The necessity that the school district or institute remain in operation to serve students.

(3) After considering the recommendations of the commissioner and the state review panel, the state board shall determine the actions the school district or the institute is required to take and direct the local school board or the institute board accordingly. If a school district's or the institute's accreditation is removed and the district or the institute is reorganized and takes any other actions directed by the state board, the state board shall reinstate the school district's or the institute's accreditation at the accreditation category deemed appropriate by the state board.

(3.5) (a) So long as a school district or the institute performs at a level that results in being accredited with priority improvement plan or lower, after the state board initially directs the school district or institute to take action as described in subsections (2) and (3) of this section, the commissioner may in any year, but shall every two years, assign the state review panel to reassess the performance of the school district or institute.
panel to critically evaluate the school district's or the institute's performance and recommend one or more of the actions described in subsection (2)(a) of this section. In evaluating the school district's or institute's performance and recommending actions, the state review panel shall consider the criteria specified in subsection (2)(b) of this section. The state board shall consider the recommendations of the state review panel, the actions that the school district or institute was previously directed to take, the fidelity with which the district or institute has implemented the directed actions, and whether the amount of time that the school district or institute has had to implement the actions is reasonably sufficient to achieve results. The state board shall either require the school district or institute to continue the previously directed actions or direct the school district or institute to undertake additional or different actions as provided in subsections (2) and (3) of this section.

(a.5) (I) In addition to the considerations in subsection (3.5)(a) of this section, the state board may consider a school district's or the institute's 2022-23 accreditation category as a factor in determining whether to require the school district or the institute to continue the previously directed actions or direct additional or different actions.

(II) This subsection (3.5)(a.5) is repealed, effective December 31, 2023.

(b) Notwithstanding any provision of subsection (3.5)(a) of this section to the contrary, a school district or the institute remains subject to the provisions of this subsection (3.5) until the school district or institute performs at a level that results in being accredited with improvement plan or higher for two consecutive school years.

(4) (a) The state board shall promulgate rules for the implementation of this section, including but not limited to procedures to ensure a school district's or the institute's right to appeal to the state board before the state board takes final action to remove the school district's or the institute's accreditation pursuant to this section.

(b) In promulgating rules concerning the timeline by which the state board directs a school district or the institute puts into effect one or more of the actions described in subsection (2)(a) of this section, the state board shall ensure that the timeline is designed to allow the school district or institute to reasonably put into effect any of the actions described in subsection (2)(a) of this section by the beginning of the school year immediately following the school year in which the state board directs the action.

22-11-210. Public schools - annual review - plans - supports and interventions - rules - repeal. (1) (a) The state board shall promulgate rules establishing objective, measurable criteria that the department shall apply in recommending to the state board that a public school implement a performance, improvement, priority improvement, or turnaround plan or that a public school shall be subject to restructuring. In promulgating the rules, the state board shall place the greatest emphasis on attainment of the performance indicators.
(a.5) The department shall notify each school district and the institute of the initial recommendation of the type of plan that each district public school or institute charter school must adopt. If a school district or the institute disagrees with one or more of the department's initial plan recommendations, the school district or institute may submit to the department a request for reconsideration. The state board shall promulgate rules specifying the information the department must take into account in determining the final plan recommendation, which may include:

(I) The length of time during which the public school has been unable to meet the statewide targets;
(II) The improvements, changes, and interventions the public school has implemented and is implementing to improve its performance if it is not meeting the statewide targets;
(III) The progress the public school is making in improving its performance and in approaching achievement of the statewide targets and the degree to which the public school is not achieving the statewide targets;
(IV) The percentage of grade levels within the public school that are required to take statewide assessments;
(V) The pupil enrollment of the public school as it may affect the reliability of the assessment data;
(VI) For a high school, the percentages of students enrolled in the high school who, based on attainment of course credits or demonstrated competencies, are on schedule to graduate within four, five, six, or seven years; and
(VII) Any supplemental data for grade levels for which there are not statewide assessments that indicate the public school is meeting the statewide targets on the performance indicators, if the department determines the supplemental data is valid and reliable and derived from assessments that are aligned with the state standards adopted pursuant to section 22-7-1005.

(a.6) The department shall notify each school district and the institute of the final plan recommendations for each district public school or institute charter school within the time frames adopted by rule of the state board.

(b) Notwithstanding any provision of paragraph (a) of this subsection (1) to the contrary, the state board shall promulgate rules establishing objective, measurable criteria that the department shall apply in recommending to the state board that an alternative education campus implement a performance, improvement, priority improvement, or turnaround plan or that an alternative education campus shall be subject to restructuring. The state board, in adopting the criteria for evaluating the performance of an alternative education campus, and the department, in applying the criteria, shall take into account the unique purposes of the campuses and the unique circumstances of and challenges posed by the students enrolled in the campuses.

(c) In promulgating rules pursuant to this subsection (1), the state board shall use clear, understandable language to describe the criteria for determining the type of plan that a public school shall implement and the levels of attainment of the performance indicators, with the goal of providing a high degree of transparency in the public school performance review process.

(d) (I) Beginning with the 2018-19 school year, if a public school performs at a level that results in being required to adopt a priority improvement or turnaround plan for two consecutive years followed by three consecutive or nonconsecutive years, resulting in a total of five years of performance at such a level, the state board shall require the school district, for a public school...
of the school district, or the institute, for an institute charter school, to take one of the actions described in subsection (5)(a) of this section; except that, if, before the five years have accumulated, the public school performs for at least two consecutive years at a level that results in the public school being required to adopt an improvement or performance plan, the five years stop accumulating unless the public school again performs at a level that results in being required to adopt a priority improvement or turnaround plan for two consecutive years, at which time the public school is again in the first two of the five years. For the time during which the five years of performance are accumulating, a public school is on performance watch.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (d), for purposes of calculating whether a public school is required to implement a priority improvement or turnaround plan for longer than a combined total of five consecutive school years, the department shall exclude the 2015-16 school year, during which the department does not recommend school plans as provided in subsection (2.5) of this section, from the calculation and shall count the 2016-17 school year as if it were consecutive to the 2014-15 school year.

(III) Notwithstanding the provisions of subsection (1)(d)(I) of this section, the department shall exclude the consideration of the school's plan type assigned for the 2020-21, 2021-22, and 2022-23 school years from the calculations required in subsections (1)(d)(I) and (5.5) of this section and shall count the school's plan type for the 2023-24 school year as if it were consecutive to the 2019-20 school year. However, a change in the type of plan a public school must adopt for the 2022-23 school year pursuant to subsection (1)(a.5) of this section may be factored into the calculation of years for purposes of subsection (1)(d)(I) of this section.

(d.5) Notwithstanding any provision of subsection (1)(d)(I) of this section to the contrary, at the request of the school district, in consultation with the affected school accountability committee and, in the case of a district charter school, with the consent of the governing board of the district charter school, or the institute, in consultation with the school accountability committee, of the affected institute charter school, the state board may direct the school district, for a public school of the school district, or the institute, for an institute charter school, to take one of the actions described in subsection (5)(a) of this section even though the public school has not completed the five years of performance watch. If the state board requires the school district or institute to take one of the actions described in subsection (5)(a) of this section, the public school is subject to the provisions of subsection (5.5) of this section.

(e) The state board by rule shall establish the time frames within which the department shall review each public school's performance, submit recommendations to the state board, and report to the public school and to the school's local school board or the institute the state board's determination regarding the type of plan the public school shall implement. The state board shall also establish by rule the time frames within which the public schools, or the public schools' local school boards or the institute board as appropriate, shall adopt the school plans and submit them to the department. The department shall publish each public school's plan on the data portal with the public school's accreditation category, identified by the local school board or the institute, and supporting data.

(f) In reviewing public schools' performance, the department, to the extent possible, shall evaluate the cost effectiveness of intervention strategies implemented by the state, school districts, the institute, and the public schools in attempting to improve performance in public schools that are implementing school improvement, priority improvement, or turnaround plans.
(1.5) Repealed.

(2) (a) The department shall annually review each public school's performance and, based on the rules of the state board, recommend to the state board that the public school shall implement a performance, improvement, priority improvement, or turnaround plan for the coming school year. Based on the department's recommendation, the state board shall notify the local school board for the public school, or the institute if the public school is an institute charter school, regarding the type of plan the public school shall implement. The local school board or the institute shall place the public school in the district or institute accreditation category that correlates to the public school's plan, based on the school district's or institute's school accreditation process.

(b) (I) Notwithstanding any provision of this article to the contrary, a school district with one thousand students or fewer may submit a single plan to satisfy the school district and school plan requirements, so long as the plan meets all state and federal requirements for school and district plans. A school district with more than one thousand but fewer than one thousand two hundred students may, upon request and at the department's discretion, submit a single plan to satisfy the school district and school plan requirements, so long as the plan meets all state and federal requirements for school and district plans.

(II) A school district that is authorized to submit a single plan pursuant to subparagraph (I) of this paragraph (b) and that is authorized pursuant to section 22-11-303 (4) to submit a school district performance plan every two years may submit a single plan to satisfy the school district and school plan requirements only if each of the public schools that is included in the single plan is authorized pursuant to section 22-11-403 (4) to submit a school performance plan every two years.

(2.5) Notwithstanding any provision of this article, or any provision of state board rule that implements this article, to the contrary, for the 2015-16 school year, the department shall not recommend to the state board school plan types. For the 2015-16 school year, each public school shall continue to implement the school plan type that was assigned for the preceding school year. The department shall recommend to the state board school plan types for the 2016-17 school year and each school year thereafter.

(2.6) (a) Notwithstanding any provision of this article 11 or any provision of state board rule that implements this article 11 to the contrary, for the 2020-21 and 2021-22 school years, the department shall not recommend to the state board school plan types. For the 2020-21 and 2021-22 school years, each public school shall continue to implement the school plan type that was assigned for the preceding school year.

(b) (I) Notwithstanding the provisions of subsection (2.6)(a) of this section, if a public school is required to implement a priority improvement or turnaround plan during the 2020-21 school year on the basis of its 2019-20 plan type, the school district, for a school of the school district, or the institute, for an institute charter school, may submit a request to the department for a plan type for the 2021-22 school year that reflects its level of attainment based on an alternative body of evidence, which may include state and local assessment data. The state board may promulgate rules for implementing this subsection (2.6)(b), including but not limited to:

(A) The time frames and process for a school district or the institute to make a request to the department;
(B) The standards to determine whether a request will be granted, including the minimum standards that must be addressed by the alternative body of evidence;

(C) Input from the state review panel;

(D) The content of the accreditation contracts and plans based upon the state board's determination of whether to assign a different plan type; and

(E) The provision of additional supports and grants necessary to implement this subsection (2.6)(b)(I).

(II) A change in a public school's plan type for the 2021-22 school year pursuant to subsection (2.6)(b)(I) of this section does not affect the time-based calculations required in subsections (1)(d)(I) and (5.5) of this section.

(2.7) Repealed.

(3) At the request of a district public school's local school board, or at the institute's request for an institute charter school, the department shall provide technical assistance and support to the public school, local school board, or institute in preparing and implementing the public school's improvement, priority improvement, or turnaround plan. The department shall base the amount of technical assistance and support provided to a public school, the local school board, or the institute on the school's degree of need for assistance and the department's available resources. Technical assistance and support may include, but need not be limited to:

(a) Access to data and research to support interpretation of student data, decision-making, and learning;

(b) Consultative services on best practices for improvement and implementation of intervention strategies, including, where appropriate, research-based strategies that address the quality and availability of early childhood education opportunities for students who reside within the neighborhood for the public school and student engagement and re-engagement; and

(c) Evaluation and feedback on the public school's plan.

(4) The commissioner may assign the state review panel to critically evaluate a public school's priority improvement or turnaround plan. The commissioner may require the state review panel to conduct one or more on-site visits as part of evaluating a public school's plan. Based on its evaluation, the state review panel shall report to the commissioner, the state board, and the local school board or the institute recommendations concerning:

(a) Whether the public school's leadership is adequate to implement change to improve results;

(b) Whether the public school's infrastructure is adequate to support school improvement;

(c) The readiness and apparent capacity of the public school's personnel to plan effectively and lead the implementation of appropriate actions to improve student academic performance within the school;

(d) The readiness and apparent capacity of the public school's personnel to engage productively with and benefit from the assistance provided by an external partner;

(e) The likelihood of positive returns on state investments of assistance and support to improve the public school's performance within the current management structure and staffing; and

(f) The necessity that the public school remain in operation to serve students.

(4.5) If a public school that is an online school, as defined in section 22-30.7-102, is on performance watch and changes authorizers in its original form or as a successor school, as
determined by the department pursuant to section 22-30.7-106 (9), or remains with the same
authorizer but is created as a successor school, as determined by the department pursuant to
section 22-30.7-106 (9), to the online school that is on performance watch, the online school or
the successor school remains on performance watch under the new authorizer as if the authorizer
had not changed.

(5) (a) If a public school fails to make adequate progress under its turnaround plan or
continues on performance watch for the full five years, the commissioner shall assign the state
review panel to critically evaluate the public school's performance, which evaluation must
include at least one on-site visit to the public school. Upon completing the evaluation, the state
review panel shall determine whether to recommend:

(I) With regard to a district public school that is not a charter school, that the district
public school should be partially or wholly managed by a private or public entity other than the
school district. The local school board and the department shall ensure that the private or public
entity uses research-based strategies and has a proven record of success working with schools
under similar circumstances.

(II) With regard to a district or institute charter school, that the public or private entity
operating the charter school or the governing board of the charter school should be replaced by a
different public or private entity or governing board;

(III) With regard to a district public school, that the district public school be converted to
a charter school if it is not already authorized as a charter school;

(IV) With regard to a district public school, that the district public school be granted
status as an innovation school pursuant to section 22-32.5-104;

(V) That the public school be closed or, with regard to a district charter school or an
institute charter school, that the public school's charter be revoked; or

(VI) With regard to a district public school, that the district public school be converted to
a community school, as defined in section 22-32.5-103 (1.5).

(b) The state review panel shall present its recommendations to the commissioner and to
the state board. Taking the recommendations into account, the state board shall determine which
of the actions described in paragraph (a) of this subsection (5) the local school board for a
district public school or the institute for an institute charter school shall take regarding the public
school and direct the local school board or institute accordingly.

(c) Notwithstanding any provision of this section to the contrary, for the 2015-16 school
year and based on ratings given during the 2015-16 school year, the state board may direct the
local school board for a district public school or the institute for an institute charter school to
take an action concerning the public school that is not listed in paragraph (a) of this subsection
(5) but that has comparable significance and effect.

(d) The priority improvement or turnaround plan that a public school adopts for the
fourth year in which the public school is on performance watch must include a general
explanation for how the school district, for a district public school, or the institute, for an
institute charter school, may put into effect each of the actions described in subsection (5)(a) of
this section as they pertain to a district public school, district charter school, or institute charter
school.

(e) In promulgating rules concerning the timeline by which the state board directs and a
school district, for a district public school, or the institute, for an institute charter school, puts
into effect one or more of the actions described in subsection (5)(a) of this section, the state
board shall ensure that the timeline is designed to allow the school district or institute to reasonably put into effect any of the actions described in subsection (5)(a) of this section by the beginning of the school year immediately following the school year in which the state board directs the action.

(5.5) (a) So long as a public school performs at a level that results in being required to implement a priority improvement or turnaround plan, after the state board initially directs the local school board or institute board to take action as provided in subsection (5)(b) of this section, the commissioner may in any year, but shall every two years, assign the state review panel to critically evaluate the public school's performance and recommend one or more of the actions described in subsection (5)(a) of this section. In evaluating the public school's performance and recommending actions, the state review panel shall consider the criteria specified in subsection (4) of this section. The state board shall consider the recommendations of the state review panel, the actions that the local school board or institute board was previously directed to take with regard to the public school, the fidelity with which the school district or institute and the public school have implemented the directed actions, and whether the amount of time that the school district or institute and the public school have had to implement the actions is reasonably sufficient to achieve results. The state board shall either require the local school board or institute board to continue the previously directed actions or direct the local school board or institute board to undertake additional or different actions as provided in subsection (5)(b) of this section.

(a.5) (I) In addition to the considerations in subsection (5.5)(a) of this section, the state board may consider the public school's 2022-23 plan type as a factor in determining whether to require the school district or the institute to continue the previously directed actions or direct additional or different actions with regard to the public school.

(II) This subsection (5.5)(a.5) is repealed, effective December 31, 2023.

(b) Notwithstanding any provision of subsection (5.5)(a) of this section to the contrary, a public school remains subject to the provisions of this subsection (5.5) until the public school performs at a level that results in being required to implement an improvement or performance plan for two consecutive school years.

(6) If a public school is restructured, the department, to the extent possible, shall track the students enrolled in the public school in the school year preceding the restructuring to determine whether the students reenroll in the public school the following school year or transfer to another public school of the school district, an institute charter school, or a public school of another school district in the state. The department shall provide the student tracking information, without personally identifying the students, to the local school board or the institute upon request.

Editor's note: Subsection (1.5)(d) provided for the repeal of subsection (1.5), effective July 1, 2017. (See L. 2015, p. 1293.)

Cross references: For the legislative declaration in HB 15-1350, see section 1 of chapter 316, Session Laws of Colorado 2015. For the legislative declaration in HB 20-1418, see section 1 of chapter 197, Session Laws of Colorado 2020.

22-11-211. Performance watch - parent and community meeting - school districts - institute - public schools. (1) (a) In the third year in which a school district or the institute is accredited with priority improvement plan or lower while on performance watch, the school district or institute, whichever is applicable, shall host a parent and community meeting to discuss the school district's or the institute's accreditation level. The appropriate department personnel shall attend the meeting. The school district or institute personnel and the department personnel shall ensure that the following information is presented at the meeting:
   (I) An explanation of the accreditation and accountability system;
   (II) The possible outcomes of being on performance watch;
   (III) The reasons for which the school district or institute is accredited with priority improvement plan or lower;
   (IV) The options immediately available to the school district or institute for improving performance;
   (V) The other school options available to students; and
   (VI) The actions the state board may require the school district or institute to take if its performance does not significantly improve while on performance watch.
   (b) Information concerning ways in which parents and members of the community may support improvement efforts in the public schools of the school district or institute charter schools may also be presented at the parent and community meeting.
   (c) Notwithstanding the provisions of subsection (1)(a) of this section to the contrary, a school district, in consultation with the district accountability committee, or the institute may choose to hold the parent and community meeting in the second year in which the school district or institute is accredited with priority improvement plan or lower while on performance watch.

(2) (a) In the third year in which a public school is required to adopt a priority improvement or turnaround plan while on performance watch, the public meeting required in section 22-32-142 (2) for a district public school and section 22-30.5-520 (2) for an institute charter school must include a parent and community meeting for the public school to discuss the level of performance plan that the public school is required to adopt. The appropriate department personnel shall attend the meeting. The school district or institute personnel and the department personnel shall ensure that the information specified in subsection (1)(a) of this section, as it
applies to the public school, is presented at the meeting. The school district or institute shall ensure that the educational leaders at the public school and parents of students enrolled in the public school also have an opportunity to present information concerning the public school. Information concerning ways in which parents and members of the community may support improvement efforts in the public school may also be presented at the parent and community meeting.

(b) Notwithstanding the provisions of subsection (2)(a) of this section to the contrary, a school district, on behalf of a public school of the school district, or the institute, on behalf of an institute charter school, may choose to hold the parent and community meeting in the second year in which the public school is required to adopt a priority improvement or turnaround plan while on performance watch. The school district may hold the public meeting in the second year only after consulting with the affected school accountability committee and, in the case of a district charter school, obtaining the consent of the governing board of the district charter school. The institute may hold the public meeting in the second year only with the consent of the governing board of the institute charter school and after consulting with the affected school accountability committee.

(3) (a) A school district shall ensure that local school board members, school district personnel, public school personnel, local parent advocacy organizations, and the general community receive information concerning each parent and community meeting held for the school district or for a public school of the school district.

(b) The institute shall ensure that institute board members, institute and institute charter school personnel, local parent advocacy organizations, and the general community receive information concerning each parent and community meeting held for the institute or for an institute charter school.

(c) Upon the request of a school district or the institute, the department, within existing resources, may provide technical assistance in creating a communication plan for a parent and community meeting for the school district, the institute, or a public school. For a school district or institute meeting, the school district or institute, working with the department, shall individually notify the parents of students enrolled in the public schools of the school district or the institute charter schools of the meeting and invite them to attend. For a public school meeting, the school district or institute shall individually notify the parents of the students enrolled in the public school and invite them to the meeting. The school district or institute shall determine the form of the parental notification in cooperation with the department. If necessary, the department may request proof of distribution to individual parents from the school district or institute.

22-11-301. School district accountability committees - creation - membership. (1) Each local school board shall appoint or create a process for the election of a school district accountability committee that shall consist of:

(a) At least three parents of students enrolled in the district public schools;
(b) At least one teacher who is employed by the school district;
(c) At least one school administrator who is employed by the school district; and
(d) At least one person who is involved in business or industry in the community within the school district boundaries.

(2) (a) A person may not be appointed or elected to fill more than one of the member positions required in subsection (1) of this section in a single term.

(b) If a local school board chooses to increase the number of persons on the school district accountability committee, it shall ensure that the number of parents appointed or elected to the committee pursuant to paragraph (a) of subsection (1) of this section exceeds the number of representatives from the group with the next highest representation.

(c) (I) Except as otherwise provided in subparagraph (II) of this paragraph (c), a parent shall not be eligible to serve on a school district accountability committee if he or she is employed by, or is a relative of a person who is employed by, the school district, including being employed at a public school of the school district.

(II) If a school district makes a good faith effort but is unable to identify a sufficient number of parents who are willing to serve on a school district accountability committee and who are not excluded from serving as provided in subparagraph (I) of this paragraph (c), one or more parents who are employed by, or are related to a person who is employed by, the school district, including being employed at a public school of the school district, may serve on the school district accountability committee.

(III) As used in this paragraph (c), unless the context otherwise requires, "related" or "relative" means a person's spouse, son, daughter, sister, brother, mother, or father.

(3) If a local school board appoints the members of the school district accountability committee, the local school board, to the extent practicable, shall ensure that the parents who are appointed reflect the student populations that are significantly represented within the school district. Said student populations may include, but need not be limited to:

(a) Students who are members of non-Caucasian races;
(b) Students who are eligible for free or reduced-cost lunch through the federal "Richard B. Russell National School Lunch Act", 42 U.S.C. sec. 1751 et seq.;
(c) Students who are English language learners, as defined in section 22-24-103 (4);
(d) Students who are migrant children, as defined in section 22-23-103 (2);
(e) Students who are identified as children with disabilities pursuant to section 22-20-108; and
(f) Students who are identified as gifted children, as defined in section 22-20-202 (11).

(4) If a local school board appoints the members of the school district accountability committee, the local school board, to the extent practicable, shall ensure that:

(a) At least one of the parents appointed to the committee is the parent of a student enrolled in a charter school authorized by the local school board, if the local school board has authorized any charter schools; and
(b) At least one of the persons appointed to the committee has a demonstrated knowledge of charter schools.
(5) The members of each school district accountability committee shall select from among the parent representatives serving on the committee a member to serve as chair or co-chair of the committee. The local school board shall establish the length of term for which the committee chair or co-chair shall serve.

Editor's note: This section, as it existed prior to 2009, was relocated to § 22-11-601.

22-11-302. School district accountability committee - powers and duties. (1) Each school district accountability committee has the following powers and duties:

(a) To recommend to its local school board priorities for spending school district moneys. Whenever the school district accountability committee recommends spending priorities, it shall make reasonable efforts to consult in a substantive manner with the school accountability committees of the school district. The local school board shall consider the school district accountability committee's recommendations in adopting the school district budget for each fiscal year pursuant to article 44 of this title.

(b) To advise its local school board concerning preparation of, and annually submit to the local school board recommendations regarding the contents of, a district performance, improvement, priority improvement, or turnaround plan, whichever is required based on the school district's accreditation category. In advising and preparing the recommendations, the school district accountability committee shall make reasonable efforts to consult in a substantive manner with the school accountability committees of the school district and shall compile and submit to the local school board the school performance, improvement, priority improvement, and turnaround plans submitted by the school accountability committees pursuant to sections 22-11-403 to 22-11-406.

(c) If the local school board receives a charter school application, to review the charter application prior to consideration by the local school board as provided in section 22-30.5-107 (1);

(d) To provide input and recommendations on an advisory basis to principals concerning the development and use of assessment tools used for the purpose of measuring and evaluating student academic growth as it relates to teacher evaluations;

(e) To consider input and recommendations from the school accountability committee of each school of the school district to facilitate the evaluation of the performance of the school's principal for the purposes of article 9 of this title;

(f) To provide input to the local school board concerning the creation and enforcement of its school conduct and discipline code;

(g) To increase the level of parent engagement in the school district and in the public schools of the school district, especially the engagement of parents of students in the populations
described in section 22-11-301 (3). The committee's activities to increase parent engagement must include, but need not be limited to:

(I) Publicizing opportunities to serve and soliciting parents to serve on the school district accountability committee and school accountability committees. In soliciting parents to serve on the school district and school accountability committees, the school district accountability committee shall direct the outreach efforts to help ensure that the parents who serve on the district and school accountability committees reflect the student populations that are significantly represented within the school district and the school, as provided in section 22-11-301 (3).

(II) Assisting the school district in implementing the parent engagement policy adopted by the local school board pursuant to section 22-32-142; and

(III) Assisting school personnel to increase parents' engagement with educators, including but not limited to parents' engagement in creating students' READ plans pursuant to part 12 of article 7 of this title, in creating individual career and academic plans pursuant to section 22-32-109 (1)(oo), and in creating plans to address habitual truancy pursuant to section 22-33-107 (3).

(h) To meet at least quarterly to discuss whether school district leadership, personnel, and infrastructure are advancing or impeding implementation of the school district's performance, improvement, priority improvement, or turnaround plan, whichever is applicable, or other progress pertinent to the school district's accreditation contract.

(2) The local school board and the school district accountability committee shall, at least annually, cooperatively determine the areas and issues, in addition to budget issues, that the school district accountability committee shall study and concerning which the committee may make recommendations to the local school board.

(3) Notwithstanding any provision of subsection (1) of this section to the contrary, the district accountability committee for a school district is not required to implement the requirements specified in paragraph (g) of subsection (1) of this section if the department determines that the school district is rural, based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area, and the school district enrolls fewer than one thousand students in kindergarten through twelfth grade.

Editor's note: This section, as it existed prior to 2009, was relocated to § 22-11-602.

22-11-303. Accredited or accredited with distinction - performance plan - school district or institute - contents - adoption. (1) (a) In accordance with time frames specified in state board rules, each local school board that is accredited or accredited with distinction shall annually adopt a performance plan for the school district as described in subsection (3) of this section.
(b) The school district accountability committee for the school district shall advise the local school board concerning preparation of the district performance plan and make recommendations to the local school board concerning the contents of the district performance plan. In advising and making its recommendations, the school district accountability committee shall take into account and incorporate any district public school performance, improvement, priority improvement, or turnaround plans received pursuant to sections 22-11-403 to 22-11-406. The local school board shall create and adopt the district performance plan, taking into account the advice and recommendations of the school district accountability committee.

(c) The local school board shall submit the adopted district performance plan to the department for publication on the data portal and shall ensure that the district performance plan is in effect for the school district and the district public schools within the time frames specified in state board rule. The local school board shall also make copies of the district performance plan available to members of the public upon request.

(2) (a) In accordance with time frames specified in state board rules, the institute board, if it is accredited or accredited with distinction, shall annually adopt an institute performance plan as described in subsection (3) of this section.

(b) Prior to creating the institute performance plan, the institute shall compile the institute charter school performance, improvement, priority improvement, and turnaround plans prepared for each institute charter school pursuant to sections 22-11-403 to 22-11-406. The institute shall take the compilation of plans into account in creating and adopting the institute performance plan.

(c) The institute shall submit the adopted institute performance plan to the department for publication on the data portal and shall ensure that the institute performance plan is in effect for the institute and the institute charter schools within the time frames specified in state board rule. The institute shall also make copies of the institute performance plan available to members of the public upon request.

(3) A district or institute performance plan shall be designed to raise the academic performance of students enrolled in the school district or in the institute charter schools and to ensure that the school district or the institute, following the next annual accreditation review, attains a higher accreditation category or remains in the same accreditation category if the school district or institute is accredited with distinction. At a minimum, each district and institute performance plan shall:

(a) Set, reaffirm, or revise, as appropriate, ambitious but attainable targets that the school district, including the district public schools, or the institute, including the institute charter schools, shall attain on the performance indicators. The local school board or the institute shall ensure that the targets are aligned with the statewide targets set by the state board pursuant to section 22-11-201.

(a.5) Identify the strategies to be used in addressing the needs of students enrolled in kindergarten and first, second, and third grade who are identified pursuant to section 22-7-1205 as having significant reading deficiencies and set, reaffirm, or revise, as appropriate, ambitious but attainable targets that the school district, including the district public schools, or the institute, including the institute charter schools, shall attain in reducing the number of students who have significant reading deficiencies and in ensuring that each student achieves grade level expectations in reading;
(b) Identify positive and negative trends for district public schools as a group and individually or for institute charter schools as a group and individually in the levels of attainment by the public schools as a group and individually on the performance indicators;

(c) Assess and prioritize the issues and needs for the school district and for the individual district public schools or for the institute and for the individual institute charter schools that must be addressed to raise the levels of attainment on the performance indicators by the district public schools or the institute charter schools and to improve school readiness in district public schools or institute charter schools that serve students in preschool and kindergarten;

(d) Identify specific, research-based strategies to address the needs and issues identified pursuant to paragraph (c) of this subsection (3);

(e) Identify the local, state, and federal resources that the school district or the institute will use to implement the identified strategies with fidelity; and

(f) Address any other issues required by rule of the state board or raised by the department through the accreditation process pursuant to part 2 of this article.

(4) (a) Notwithstanding the provisions of paragraph (a) of subsection (1) or paragraph (a) of subsection (2) of this section to the contrary, the local school board of a school district or the institute board may adopt and submit to the department a school district performance plan for the school district or the institute as described in subsection (3) of this section every two years so long as the school district or the institute maintains the status of accredited or accredited with distinction.

(b) Repealed.

Editor's note: This section, as it existed prior to 2009, was relocated to § 22-11-604.

22-11-304. Accredited with improvement plan - school district or institute - plan contents - adoption. (1) (a) In accordance with the time frames specified in state board rule, each school district that is accredited with improvement plan shall annually adopt and implement a district improvement plan as described in subsection (3) of this section.

(b) The school district accountability committee for the school district shall advise the local school board concerning preparation of the district improvement plan and make recommendations to the local school board concerning the contents of the district improvement plan. In advising and making its recommendations, the school district accountability committee shall take into account and incorporate any district public school performance, improvement, priority improvement, or turnaround plans received pursuant to sections 22-11-403 to 22-11-406. The local school board shall create and adopt the district improvement plan, taking into account the advice and recommendations of the school district accountability committee.

(c) The local school board shall submit the adopted district improvement plan to the department for publication on the data portal and shall ensure that the district improvement plan is in effect for the school district and the district public schools within the time frames specified
in state board rule. The local school board shall also make copies of the district improvement plan available to members of the public upon request.

(2) (a) If the institute is accredited with improvement plan, the institute board shall, in accordance with the time frames specified in state board rule, adopt and implement an institute improvement plan as described in subsection (3) of this section. In preparing the institute improvement plan, the institute board shall take into account and incorporate any institute charter school performance, improvement, priority improvement, and turnaround plans received pursuant to sections 22-11-403 to 22-11-406.

(b) The institute shall submit the adopted institute improvement plan to the department for publication on the data portal and shall ensure that the institute improvement plan is in effect for the institute and the institute charter schools within the time frames specified by state board rule. The institute shall also make copies of the institute improvement plan available to members of the public upon request.

(3) A district improvement plan or an institute improvement plan must be designed to ensure that the school district or the institute improves its performance to the extent that, following completion of its next annual accreditation review, the school district or the institute attains a higher accreditation category. At a minimum, a district improvement plan or an institute improvement plan must:

(a) Set or revise, as appropriate, ambitious but attainable targets that the school district, including the district public schools, or the institute, including the institute charter schools, shall attain on the performance indicators. The local school board or the institute shall ensure that the targets are aligned with the statewide targets set by the state board pursuant to section 22-11-201.

(a.5) Identify the strategies to be used in addressing the needs of students enrolled in kindergarten and first, second, and third grade who are identified pursuant to section 22-7-1205 as having significant reading deficiencies and set or revise, as appropriate, ambitious but attainable targets that the school district, including the district public schools, or the institute, including the institute charter schools, shall attain in reducing the number of students who have significant reading deficiencies and in ensuring that each student achieves grade level expectations in reading;

(a.7) Identify strategies to address the needs of students who are below grade level or struggling in mathematics and set or revise, as appropriate, ambitious but attainable targets that the school district or the institute shall attain in reducing the number of students who are below grade level or struggling in mathematics and to increase the number of students who achieve grade-level expectations in mathematics. Strategies may include tutoring, including peer tutoring; additional educator training; personalized learning models, which may include a combination of in-person instruction, online modules, and self-paced learning techniques; or supplemental supports or curricula in mathematics, including digital mathematics accelerator programs.

(b) Identify positive and negative trends for district public schools as a group and individually or for institute charter schools as a group and individually in the levels of attainment by the public schools as a group and individually on the performance indicators;

(c) Assess and prioritize the issues and needs of the district or institute and of the district public schools or institute charter schools that must be addressed to raise the levels of attainment on the performance indicators by the district public schools or institute charter schools and to
improve school readiness in district public schools or institute charter schools that serve students in preschool and kindergarten;

(d) Identify specific, research-based strategies that are appropriate in scope, intensity, and type to address the needs and issues identified pursuant to paragraph (c) of this subsection (3);

(e) Identify the local, state, and federal resources that the school district or the institute will use to implement the identified strategies with fidelity; and

(f) Address any other issues required by rule of the state board or raised by the department through the accreditation process pursuant to part 2 of this article.

Editor's note: This section, as it existed prior to 2009, was relocated to § 22-11-605.

22-11-305. Accredited with priority improvement plan - school district or institute - plan contents - adoption. (1) (a) In accordance with the time frames specified in state board rule, each school district that is accredited with priority improvement plan shall annually adopt and implement a district priority improvement plan as described in subsection (3) of this section.

(b) The school district accountability committee for the school district shall advise the local school board concerning preparation of the district priority improvement plan and make recommendations to the local school board concerning the contents of the district priority improvement plan. In advising and making its recommendations, the school district accountability committee shall take into account and incorporate any district public school performance, improvement, priority improvement, or turnaround plans received pursuant to sections 22-11-403 to 22-11-406. The local school board shall create and adopt the district priority improvement plan, taking into account the advice and recommendations of the school district accountability committee.

(c) The commissioner, subject to available appropriations, may assign the state review panel to critically evaluate the district priority improvement plan and recommend to the commissioner modifications to the plan. The commissioner may recommend to the local school board modifications to the district priority improvement plan, taking into consideration any recommendations of the state review panel.

(d) The local school board shall submit the adopted district priority improvement plan to the department for publication on the data portal and shall ensure that the district priority improvement plan is in effect for the school district and the district public schools within the time frames specified in state board rule. The local school board shall also make copies of the district priority improvement plan available to members of the public upon request.

(2) (a) If the institute is accredited with priority improvement plan, the institute board shall, in accordance with the time frames specified in state board rule, adopt and implement an institute priority improvement plan as described in subsection (3) of this section. In preparing the institute priority improvement plan, the institute board shall take into account and incorporate any institute charter school performance, improvement, priority improvement, and turnaround plans received pursuant to sections 22-11-403 to 22-11-406.
(b) The commissioner, subject to available appropriations, may assign the state review panel to critically evaluate the institute priority improvement plan and recommend to the commissioner modifications to the plan. The commissioner may recommend to the institute modifications to the institute priority improvement plan, taking into consideration any recommendations of the state review panel.

(c) The institute shall submit the adopted institute priority improvement plan to the department for publication on the data portal and shall ensure that the institute priority improvement plan is in effect for the institute and the institute charter schools within the time frames specified by state board rule. The institute shall also make copies of the institute priority improvement plan available to members of the public upon request.

(3) A district priority improvement plan or an institute priority improvement plan must be designed to ensure that the school district or the institute improves its performance to the extent that, following completion of its next annual accreditation review, the school district or the institute attains a higher accreditation category. At a minimum, a district priority improvement plan or an institute priority improvement plan must:

(a) Set or revise, as appropriate, ambitious but attainable targets that the school district, including the district public schools, or the institute, including the institute charter schools, shall attain on the performance indicators. The local school board or the institute shall ensure that the targets are aligned with the statewide targets set by the state board pursuant to section 22-11-201.

(a.5) Identify the strategies to be used in addressing the needs of students enrolled in kindergarten and first, second, and third grade who are identified pursuant to section 22-7-1205 as having significant reading deficiencies and set or revise, as appropriate, ambitious but attainable targets that the school district, including the district public schools, or the institute, including the institute charter schools, shall attain in reducing the number of students who have significant reading deficiencies and in ensuring that each student achieves grade level expectations in reading;

(a.7) Identify strategies to address the needs of students who are below grade level or struggling in mathematics and set or revise, as appropriate, ambitious but attainable targets that the school district or the institute shall attain in reducing the number of students who are below grade level or struggling in mathematics and to increase the number of students who achieve grade-level expectations in mathematics. Strategies may include tutoring, including peer tutoring; additional educator training; personalized learning models, which may include a combination of in-person instruction, online modules, and self-paced learning techniques; or supplemental supports or curricula in mathematics, including digital mathematics accelerator programs.

(b) Identify positive and negative trends for district public schools as a group and individually or for institute charter schools as a group and individually in the levels of attainment by the public schools as a group and individually on the performance indicators;

(c) Assess and prioritize the issues and needs of the district or institute and of the district public schools or institute charter schools that must be addressed to raise the levels of attainment on the performance indicators by the district public schools or institute charter schools and to improve school readiness in district public schools or institute charter schools that serve students in preschool and kindergarten. If a school district includes a district public school that is operating under a priority improvement or turnaround plan and enrolls students in kindergarten...
or any of grades one through three, the needs assessment for the school district shall include, but shall not be limited to, the early childhood learning needs assessment described in subsection (4) of this section.

(d) Identify specific, research-based strategies that are appropriate in scope, intensity, and type to address the needs and issues identified pursuant to paragraph (c) of this subsection (3);

(e) Identify the local, state, and federal resources that the school district or the institute will use to implement the identified strategies with fidelity; and

(f) Address any other issues required by rule of the state board or raised by the department through the accreditation process pursuant to part 2 of this article.

(4) An early childhood learning needs assessment must determine the extent to which:

(a) There are quality early childhood programs existing within the geographic boundaries of the school district;

(b) Children are enrolled in publicly funded early learning and development programs within the school district or in private early learning and development programs that participate in the Colorado shines quality rating and improvement system established in section 26.5-5-101;

(c) The school district and the district public schools work with an early childhood council established pursuant to part 2 of article 2 of title 26.5 or early childhood community agencies existing within the school district;

(d) The school district and the district public schools collaborate with early childhood providers and programs regarding students' transition from preschool to kindergarten;

(e) Teachers employed by the school district or the district public schools to teach kindergarten or one of grades one through three have early childhood teaching credentials;

(f) Joint professional development opportunities, including opportunities for educator collaboration, are available within the school district for early childhood providers, teachers, and principals;

(g) The school district and the district public schools have a current parent engagement plan and provide ample opportunities for parent and family engagement in preschool through third grade; and

(h) Other early childhood resources, such as home visitation, early intervention services, library programs for young children, and family resource centers, are available to families who reside within the school district.

Editor's note: This section, as it existed prior to 2009, was relocated to § 22-11-603.

22-11-306. Accredited with turnaround plan - school district or institute - plan content - adoption. (1) (a) In accordance with the time frames specified in state board rule,
each school district that is accredited with turnaround plan shall annually adopt and implement a
district turnaround plan as described in subsection (3) of this section.

(b) The school district accountability committee for the school district shall advise the
local school board concerning preparation of the district turnaround plan and make
recommendations to the local school board concerning the contents of the district turnaround
plan. In advising and making its recommendations, the school district accountability committee
shall take into account and incorporate any district public school performance, improvement,
priority improvement, or turnaround plans received pursuant to sections 22-11-403 to 22-11-406.
The local school board shall create and adopt the district turnaround plan, taking into account the
advice and recommendations of the school district accountability committee.

(c) Within the time frames specified in state board rule, the local school board shall
submit the adopted district turnaround plan to the commissioner for review. The commissioner
may assign the state review panel to review the turnaround plan, in which case the state review
panel shall critically evaluate the adopted district turnaround plan and make recommendations to
the commissioner and the state board concerning the issues specified in section 22-11-208 (3).
The commissioner may approve the adopted district turnaround plan or suggest modifications to
the plan, taking into consideration any recommendations of the state review panel. The local
school board shall revise the adopted district turnaround plan, if necessary, and resubmit the plan
for approval within the time frames specified by state board rule.

(d) The local school board shall submit the final, approved district turnaround plan to the
department for publication on the data portal and shall ensure that the final, approved district
turnaround plan is in effect for the school district and the district public schools within the time
frames specified in state board rule. The local school board shall also make copies of the final,
approved district turnaround plan available to members of the public upon request.

(2) (a) If the institute is accredited with turnaround plan, the institute board shall, in
accordance with the time frames specified in state board rule, adopt and implement an institute
turnaround plan as described in subsection (3) of this section. In preparing the institute
turnaround plan, the institute board shall take into account and incorporate any institute charter
school performance, improvement, priority improvement, and turnaround plans received
pursuant to sections 22-11-403 to 22-11-406.

(b) Within the time frames specified in state board rule, the institute shall submit the
adopted institute turnaround plan to the commissioner for review. The commissioner may assign
the state review panel to review the turnaround plan, in which case the state review panel shall
critically evaluate the adopted institute turnaround plan and make recommendations to the
commissioner and the state board concerning the issues specified in section 22-11-208 (3). The
commissioner shall approve the adopted institute turnaround plan or suggest modifications to the
plan, taking into consideration any recommendations of the state review panel. The institute shall
revise the adopted institute turnaround plan, if necessary, and resubmit the plan for approval
within the time frames specified by state board rule.

(c) The institute shall submit the final, approved institute turnaround plan to the
department for publication on the data portal and shall ensure that the final, approved institute
turnaround plan is in effect for the institute and the institute charter schools within the time
frames specified by state board rule. The institute shall also make copies of the final, approved
institute turnaround plan available to members of the public upon request.
A district turnaround plan or an institute turnaround plan must be designed to ensure that the school district or the institute improves its performance to the extent that, following completion of its next annual accreditation review, the school district or the institute attains a higher accreditation category. At a minimum, a district turnaround plan or an institute turnaround plan must:

(a) Set or revise, as appropriate, ambitious but attainable targets that the school district, including the district public schools, or the institute, including the institute charter schools, shall attain on the performance indicators. The local school board or the institute shall ensure that the targets are aligned with the statewide targets set by the state board pursuant to section 22-11-201.

(a.5) Identify the strategies to be used in addressing the needs of students enrolled in kindergarten and first, second, and third grade who are identified pursuant to section 22-7-1205 as having significant reading deficiencies and set or revise, as appropriate, ambitious but attainable targets that the school district, including the district public schools, or the institute, including the institute charter schools, shall attain in reducing the number of students who have significant reading deficiencies and in ensuring that each student achieves grade level expectations in reading;

(a.7) Identify strategies to address the needs of students who are below grade level or struggling in mathematics and set or revise, as appropriate, ambitious but attainable targets that the school district or the institute shall attain in reducing the number of students who are below grade level or struggling in mathematics and to increase the number of students who achieve grade-level expectations in mathematics. Strategies may include tutoring, including peer tutoring; additional educator training; personalized learning models, which may include a combination of in-person instruction, online modules, and self-paced learning techniques; or supplemental supports or curricula in mathematics, including digital mathematics accelerator programs.

(b) Identify positive and negative trends for district public schools as a group and individually or for institute charter schools as a group and individually in the levels of attainment by the public schools as a group and individually on the performance indicators;

(c) Assess and prioritize the issues and needs of the district or institute and of the district public schools or institute charter schools that must be addressed to raise the levels of attainment on the performance indicators by the district public schools or institute charter schools and to improve school readiness in district public schools or institute charter schools that serve students in preschool and kindergarten. If a school district includes a district public school that is operating under a priority improvement or turnaround plan and enrolls students in kindergarten or any of grades one through three, the needs assessment for the school district shall include, but shall not be limited to, the early childhood learning needs assessment described in section 22-11-305 (4).

(d) Identify specific, research-based strategies that are appropriate in scope, intensity, and type to address the needs and issues identified pursuant to paragraph (c) of this subsection (3), which strategies shall, at a minimum, include one or more of the following:

(I) Employing a lead turnaround partner that uses research-based strategies and has a proven record of success working with schools under similar circumstances, which turnaround partner shall be immersed in all aspects of developing and collaboratively executing the turnaround plan and shall serve as a liaison to other school partners;
(II) Reorganizing the oversight and management structure within the school district or the institute to provide greater, more effective support for public schools;

(III) For a school district, recognizing individual district public schools as innovation schools or clustering district public schools with similar governance or management structures into one or more innovation school zones and seeking designation as a district of innovation pursuant to article 32.5 of this title;

(IV) Hiring an entity that uses research-based strategies and has a proven record of success working with schools under similar circumstances to operate one or more district public schools or institute charter schools pursuant to a contract with the local school board or the institute;

(V) For a school district, converting one or more district public schools to charter schools;

(VI) For the institute, renegotiating and significantly restructuring an institute charter school's charter contract;

(VII) Closing district public schools or institute charter schools; and

(VIII) Other actions of comparable or greater significance or effect;

(e) Identify the local, state, and federal resources that the school district or the institute will use to implement the identified strategies with fidelity; and

(f) Address any other issues required by rule of the state board or raised by the department through the accreditation process pursuant to part 2 of this article.

22-11-307. Accreditation of public schools. (1) The local school board for each school district shall adopt policies for accreditation of the district public schools. The institute board shall adopt policies for accreditation of the institute charter schools. Each school district's and the institute's school accreditation policies, at a minimum, shall include:

(a) The use of accreditation contracts that are comparable to the accreditation contract between a school district or the institute and the state board, as described in section 22-11-206;

(b) Accreditation categories that are comparable to the accreditation categories for school districts and the institute specified in section 22-11-207;

(c) Determination of a public school's accreditation category based on the public school's level of attainment of the performance indicators; and

(d) Adoption and implementation of school performance, improvement, priority improvement, and turnaround plans as required by the state board pursuant to section 22-11-210 (1) and as described in sections 22-11-403 to 22-11-406.

(2) In adopting its school accreditation policies, a local school board or the institute board may choose to be more rigorous in expectations and in the imposition of remedial actions than the system for accreditation of school districts and the institute specified in the provisions of part 2 of this article and the rules adopted pursuant to said part 2.
(2.5) In adopting its school accreditation policies for its online schools, as defined in section 22-30.7-102 (9.5), a local school board or the institute board shall include a review of the online school's alignment to the quality standards outlined in section 22-30.7-105 (3)(b).

(3) Each local school board shall annually assign each of its district public schools to an accreditation category that correlates with the type of plan that the department determines, pursuant to section 22-11-210, the district public school is required to adopt. The institute shall annually assign each institute charter school to an accreditation category that correlates with the type of plan that the department determines, pursuant to section 22-11-210, the institute charter school is required to adopt.

(4) If, pursuant to section 22-11-210 (5), the state board directs a local school board or the institute to restructure or close a public school, the local school board or the institute shall work with the department to implement the state board's directions.

(5) (a) If a local school board or the institute decides or is directed by the state board to close a public school because of low performance, the school district and the institute must develop and update as necessary a school closure plan that implements evidence-based best practices during the school closure process to ensure that students who are enrolled in the public school that is closed are fully supported in enrolling in the successor public school, if any, or in another public school. The local school board or the institute shall make the school closure plan and any updates available in writing to the staff of the public school, the local teachers association, if any, the parents of students enrolled in the public school, and the community surrounding the public school. At a minimum, the school closure plan must include:

(I) A plan for communicating in writing with parents, school staff, the local teachers association, if any, and the community surrounding the public school as early as possible after the local school board or the institute decides to close the public school and at regular intervals throughout the closure process;

(II) The procedures or mechanisms by which the local school board and the institute will solicit and consider input on the school closure process from the staff of the public school, the local teachers association, if any, the parents of the students enrolled in the public school, and the community surrounding the public school;

(III) A timeline for closing the public school that includes or is updated to include all major steps and decision points in completing the school closure and starts no later than the decision to close and continues at least through the reassignment of students and the opening of a new public school, if applicable; and

(IV) A plan for reassigning students to other public schools, which must, to the fullest extent practicable, take into account parents' choice concerning the public schools to which students are reassigned.

(b) Notwithstanding any provision of paragraph (a) of this subsection (5) to the contrary, a school closure plan that applies to the closure of an institute charter school must specify that:

(I) The institute charter school will communicate directly with parents, school staff, and the surrounding community; and

(II) The institute and the institute charter school will work with the school district in which the institute charter school is located to ensure that students and their parents have information concerning the school district's processes for reassigning students to public schools and the school choice options that are available to the students and their parents.
PART 4

SCHOOL ACCOUNTABILITY

22-11-401. School accountability committee - creation - qualifications - elections. (1)
(a) Each district public school and each institute charter school shall establish a school accountability committee. Each school accountability committee shall consist of at least seven members as follows:
   (I) The principal of the school or the principal's designee;
   (II) At least one teacher who provides instruction at the school;
   (III) At least three parents or legal guardians of students enrolled in the school;
   (IV) At least one adult member of an organization of parents, teachers, and students recognized by the school; and
   (V) At least one person who is involved in business or industry in the community.
(b) The local school board or the institute shall determine the actual number of persons on the school accountability committee and the method for selecting the members of the school accountability committee. If the local school board or the institute chooses to increase the number of persons on the school accountability committee, it shall ensure that the number of parents, as described in subparagraph (III) of paragraph (a) of this subsection (1), on the committee exceeds the number of representatives from the group with the next highest representation.
(c) A person may not be selected to fill more than one of the member positions required in paragraph (a) of this subsection (1) in a single term.
(d) If the local school board or the institute determines that the members of a school accountability committee should be appointed, the appointing authority shall, to the extent practicable, appoint persons to serve on the school accountability committee who reflect the student populations that are significantly represented within the school. If the local school board or the institute determines that persons shall be elected to serve on the school accountability committee, the school principal shall encourage persons who reflect the student populations that are significantly represented within the school to seek election to the committee. Said student populations may include, but need not be limited to:
   (I) Students who are members of non-Caucasian races;
   (II) Students who are eligible for free or reduced-cost lunch through the federal "Richard B. Russell National School Lunch Act", 42 U.S.C. sec. 1751 et seq.;
   (III) Students who are English language learners, as defined in section 22-24-103 (4);
   (IV) Students who are migrant children, as defined in section 22-23-103 (2);
   (V) Students who are identified as children with disabilities pursuant to section 22-20-108; and
   (VI) Students who are identified as gifted children, as defined in section 22-20-202 (11).
(2) The members of each school accountability committee shall annually select from among the parent representatives elected to the committee a member to serve as chair or co-chair of the committee.

(3) If a vacancy arises on a school accountability committee because of a member's resignation or disqualification or for any other reason, the remaining members of the school accountability committee shall fill the vacancy by majority action.

(4) Notwithstanding any provision of this section to the contrary:

(a) If, after making good-faith efforts, a principal or an organization of parents, teachers, and students is unable to find a sufficient number of persons who are willing to serve on the school accountability committee, the principal, with advice from the organization of parents, teachers, and students, may establish an alternative membership plan for the school accountability committee, which plan shall reflect the membership specified in paragraph (a) of subsection (1) of this section as much as practicable;

(b) The members of the governing board of a district charter school or an institute charter school may serve as members of the school accountability committee;

(c) In a school district that the department determines is rural, based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area, and that enrolls fewer than one thousand students in kindergarten through twelfth grade, a member of the local school board may serve on a school accountability committee, and the district accountability committee may serve as a school accountability committee.

22-11-402. School accountability committee - powers and duties - meetings. (1) Each school accountability committee has the following powers and duties:

(a) To recommend to the principal of its school priorities for spending school moneys. The principal shall consider the school accountability committee's recommendations regarding spending state, federal, local, or private grants and any other discretionary moneys and take them into account in formulating budget requests for presentation to the local school board, if the school is a district public school, other than a charter school, or in creating the school budget if the school is a district or institute charter school. The school accountability committee for a district public school shall send a copy of its recommended spending priorities to the school district accountability committee and to the local school board.

(b) To advise the principal of the public school and, in the case of a district public school, the superintendent of the school district concerning the preparation of a school performance or improvement plan, if either is required pursuant to section 22-11-210, and to submit recommendations to the principal, and superintendent if applicable, concerning the contents of the performance or improvement plan;
(c) To advise the local school board or the institute concerning the preparation of a school priority improvement or turnaround plan, if either is required pursuant to section 22-11-210, and to submit recommendations to the local school board or the institute concerning the contents of the priority improvement or turnaround plan;

(d) To meet at least quarterly to discuss whether school leadership, personnel, and infrastructure are advancing or impeding implementation of the public school's performance, improvement, priority improvement, or turnaround plan, whichever is applicable, or other progress pertinent to the public school's accreditation contract with the local school board or the institute;

(e) To provide input and recommendations on an advisory basis to district accountability committees and district administration concerning:
   (I) Principal development plans for their principal pursuant to section 22-9-106; and
   (II) Principal evaluations conducted pursuant to section 22-9-106.

(f) To publicize and hold a public school accountability committee meeting pursuant to section 22-32-142 (2) or 22-30.5-520 (2) to discuss strategies to include in a public school priority improvement or turnaround plan;

(g) To publicize a public hearing held pursuant to section 22-32-142 (2), or, if the school is an institute charter school, to publicize and hold a public hearing pursuant to section 22-30.5-520 (2), to review a written public school priority improvement or turnaround plan. A member of the school accountability committee is encouraged to attend the public hearing.

(h) To increase the level of parent engagement in the school, especially the engagement of parents of students in the populations described in section 22-11-401 (1)(d). The committee's activities to increase parent engagement must include, but need not be limited to:
   (I) Publicizing opportunities to serve and soliciting parents to serve on the school accountability committee. In soliciting parents to serve on the school accountability committee, the school accountability committee shall direct the outreach efforts to help ensure that the parents who serve on the school accountability committee reflect the student populations that are significantly represented within the school, as provided in section 22-11-401 (1)(d).
   (II) Assisting the school district in implementing at the school the parent engagement policy adopted by the local school board pursuant to section 22-32-142; and
   (III) Assisting school personnel to increase parents' engagement with teachers, including but not limited to parents' engagement in creating students' READ plans pursuant to part 12 of article 7 of this title, in creating individual career and academic plans pursuant to section 22-32-109 (1)(oo) or 22-30.5-525, and in creating plans to address habitual truancy pursuant to section 22-33-107 (3).

(2) Notwithstanding any provision of subsection (1) of this section to the contrary, the school accountability committee for a public school is not required to implement the requirements specified in paragraph (h) of subsection (1) of this section if the department determines that the public school's school district is rural, based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area, and the school district enrolls fewer than one thousand students in kindergarten through twelfth grade.

22-11-403. School performance plan - contents. (1) (a) If the state board, pursuant to section 22-11-210, directs a district public school to adopt a performance plan, the school principal and the school district superintendent, or his or her designee, in accordance with time frames specified in state board rules, shall adopt a school performance plan, as described in subsection (3) of this section, for the district public school.

(b) The school accountability committee for the district public school shall advise the principal concerning preparation of the performance plan and make recommendations to the principal concerning the contents of the school performance plan. The principal, with the approval of the superintendent or his or her designee, shall create and adopt the school performance plan, taking into account the advice and recommendations of the school accountability committee.

(c) The school district accountability committee shall include the adopted school performance plan in the compilation prepared pursuant to section 22-11-302 (1), and the local school board shall consider the adopted school performance plan in developing the budget required by section 22-44-108. The principal and the superintendent or his or her designee shall ensure that the school performance plan is in effect for the district public school within the time frames established in state board rules.

(2) (a) If the state board, pursuant to section 22-11-210, directs an institute charter school to adopt a performance plan, the school principal, in accordance with time frames specified in state board rules, shall adopt a school performance plan, as described in subsection (3) of this section, for the institute charter school.

(b) The school accountability committee for the institute charter school shall advise the principal concerning preparation of the performance plan and make recommendations to the principal concerning the contents of the school performance plan. The principal shall create and adopt the school performance plan, taking into account the advice and recommendations of the school accountability committee.

(c) The institute shall include the adopted school performance plan in the compilation prepared pursuant to section 22-11-303 (2)(b). The principal shall ensure that the school performance plan is in effect for the institute charter school within the time frames established in state board rules.

(3) A school performance plan shall be designed to raise the academic performance of students enrolled in the public school and to ensure that the public school, following the next annual performance review, attains a higher accreditation category or remains in the same accreditation category if the public school is already accredited by the school district or the institute at the highest level. At a minimum, each school performance plan shall:

(a) Set, reaffirm, or revise, as appropriate, ambitious but attainable targets that the public school shall attain on the performance indicators. The principal and school district superintendent, or his or her designee, shall ensure that the targets are aligned with the statewide targets set by the state board pursuant to section 22-11-201.

(a.5) If the public school serves students in kindergarten and first, second, and third grades, identify the strategies to be used in addressing the needs of students enrolled in
kindergarten and first, second, and third grade who are identified pursuant to section 22-7-1205 as having significant reading deficiencies and set, reaffirm, or revise, as appropriate, ambitious but attainable targets that the public school shall attain in reducing the number of students who have significant reading deficiencies and in ensuring that each student achieves grade level expectations in reading;

(b) Identify positive and negative trends in the levels of attainment by the public school on the performance indicators;

(c) Assess and prioritize the issues and needs at the public school that must be addressed to raise the levels of attainment on the performance indicators by the public school and to improve school readiness, if the public school serves students in preschool or kindergarten;

(d) Identify specific, research-based strategies to address the needs and issues identified pursuant to paragraph (c) of this subsection (3);

(e) Identify the local, state, and federal resources that the public school will use to implement the identified strategies with fidelity; and

(f) Address any other issues required by rule of the state board or raised by the department through the performance review pursuant to section 22-11-210.

(4) The local school board, on behalf of a district public school, or the institute, on behalf of an institute charter school, shall submit the school performance plan to the department for publication on the data portal. The public school shall make copies of the school performance plan available to members of the public upon request.

(5) (a) Notwithstanding any provision of this section to the contrary, the school principal and the school district superintendent, or his or her designee, for a district public school, or the school principal for an institute charter school, may adopt a school performance plan for the public school as described in subsection (3) of this section every two years so long as the state board, pursuant to section 22-11-210, requires the public school to implement a performance plan.

(b) Repealed.

Editor's note: Subsection (5) was numbered as (4) in House Bill 14-1204 but has been renumbered on revision for ease of location.

22-11-404. School improvement plan - contents. (1) (a) If the state board, pursuant to section 22-11-210, directs a district public school to adopt an improvement plan, the school principal and the school district superintendent, or his or her designee, in accordance with time frames specified in state board rules, shall adopt a school improvement plan, as described in subsection (3) of this section, for the district public school.

(b) The school accountability committee for the district public school shall advise the principal concerning preparation of the school improvement plan and shall make recommendations to the principal concerning the contents of the school improvement plan. The principal, with the approval of the superintendent or his or her designee, shall create and adopt
the school improvement plan, taking into account the advice and recommendations of the school accountability committee.

(c) The school district accountability committee shall include the adopted school improvement plan in the compilation prepared pursuant to section 22-11-302 (1), and the local school board shall consider the adopted school improvement plan in developing the budget required by section 22-44-108. The principal and the superintendent, or his or her designee, shall ensure that the school improvement plan is in effect for the district public school within the time frames established in state board rules.

(2) (a) If the state board, pursuant to section 22-11-210, directs an institute charter school to adopt an improvement plan, the school principal, in accordance with time frames specified in state board rules, shall adopt a school improvement plan, as described in subsection (3) of this section, for the institute charter school.

(b) The school accountability committee for the institute charter school shall advise the principal concerning preparation of the school improvement plan and shall make recommendations to the principal concerning the contents of the school improvement plan. The principal shall create and adopt the school improvement plan, taking into account the advice and recommendations of the school accountability committee.

(c) The institute shall include the adopted school improvement plan in the compilation prepared pursuant to section 22-11-303 (2)(b). The principal shall ensure that the school improvement plan is in effect for the institute charter school within the time frames established in state board rules.

(3) A school improvement plan must be designed to raise the academic performance of students enrolled in the public school and to ensure that the public school, following the next annual performance review, attains a higher accreditation category. At a minimum, each school improvement plan must:

(a) Set or revise, as appropriate, ambitious but attainable targets that the public school shall attain on the performance indicators. The principal and school district superintendent, or his or her designee, shall ensure that the targets are aligned with the statewide targets set by the state board pursuant to section 22-11-201.

(a.5) If the public school serves students in kindergarten and first, second, and third grades, identify the strategies to be used in addressing the needs of students enrolled in kindergarten and first, second, and third grade who are identified pursuant to section 22-7-1205 as having significant reading deficiencies and set or revise, as appropriate, ambitious but attainable targets that the public school shall attain in reducing the number of students who have significant reading deficiencies and in ensuring that each student achieves grade level expectations in reading.

(a.7) Identify strategies to address the needs of students who are below grade level or struggling in mathematics and set or revise, as appropriate, ambitious but attainable targets that the public school shall attain in reducing the number of students who are below grade level or struggling in mathematics and to increase the number of students who achieve grade-level expectations in mathematics. Strategies may include tutoring, including peer tutoring; additional educator training; personalized learning models, which may include a combination of in-person instruction, online modules, and self-paced learning techniques; or supplemental supports or curricula in mathematics, including digital mathematics accelerator programs.
(b) Identify positive and negative trends in the levels of attainment by the public school on the performance indicators;

(c) Assess and prioritize the issues and needs at the public school that must be addressed to raise the levels of attainment on the performance indicators by the public school and to improve school readiness, if the public school serves students in preschool or kindergarten;

(d) Identify specific, research-based strategies that are appropriate in scope, intensity, and type to address the needs and issues identified pursuant to paragraph (c) of this subsection (3);

(e) Identify the local, state, and federal resources that the public school will use to implement the identified strategies with fidelity; and

(f) Address any other issues required by rule of the state board or raised by the department through the performance review pursuant to section 22-11-210.

(4) The local school board, on behalf of a district public school, or the institute, on behalf of an institute charter school, shall submit the school improvement plan to the department for publication on the data portal. The public school shall make copies of the school improvement plan available to members of the public upon request.

L. 2011: (1)(b) and (2)(b) amended, (HB 11-1126), ch. 118, p. 370, § 3, effective August 10.

22-11-405. School priority improvement plan - contents. (1) (a) If the state board, pursuant to section 22-11-210, directs a district public school to adopt a priority improvement plan, the local school board, in accordance with time frames specified in state board rules, shall adopt a school priority improvement plan, as described in subsection (4) of this section, for the district public school.

(b) The school accountability committee for the district public school shall hold a public meeting as required in section 22-32-142 (2) to receive input concerning possible strategies to be included in the school priority improvement plan, advise the local school board concerning preparation of the school priority improvement plan, and make recommendations to the local school board concerning the contents of the school priority improvement plan, taking into account recommendations received at the public meeting. The local school board shall create and adopt the school priority improvement plan, taking into account the advice and recommendations of the school accountability committee. Before adopting the school priority improvement plan, the local school board shall hold a public hearing to review the written plan as required in section 22-32-142 (2). The department may require a school district to provide proof of compliance with the requirements of section 22-32-142 (2).

(c) The school district accountability committee shall include the adopted school priority improvement plan in the compilation prepared pursuant to section 22-11-302 (1), and the local school board shall consider the adopted school priority improvement plan in developing the budget required by section 22-44-108. The local school board shall ensure that the school priority improvement plan is in effect for the district public school within the time frames established in state board rules.
(2) (a) If the state board, pursuant to section 22-11-210, directs an institute charter school to adopt a priority improvement plan, the institute, in accordance with time frames specified in state board rules, shall adopt a school priority improvement plan, as described in subsection (4) of this section, for the institute charter school.

(b) The school accountability committee for the institute charter school shall hold a public meeting as required in section 22-30.5-520 (2) to receive input concerning possible strategies to be included in the school priority improvement plan, advise the institute concerning preparation of the school priority improvement plan, and make recommendations to the institute concerning the contents of the school priority improvement plan, taking into account recommendations received at the public meeting. The institute shall create and adopt the school priority improvement plan, taking into account the advice and recommendations of the school accountability committee. Before adopting the school priority improvement plan, the institute shall ensure that the institute charter school holds a public hearing to review the written plan as required in section 22-30.5-520 (2). The department may require the institute to provide proof of compliance with the requirements of section 22-30.5-520 (2).

(c) The institute shall include the adopted school priority improvement plan in the compilation prepared pursuant to section 22-11-303 (2)(b). The institute shall ensure that the school priority improvement plan is in effect for the institute charter school within the time frames established in state board rules.

(3) The commissioner, subject to available appropriations, may assign the state review panel to critically evaluate a public school's priority improvement plan and report to the commissioner any recommended modifications to the plan. The commissioner may recommend to the local school board or the institute modifications to the school priority improvement plan, taking into consideration any recommendations of the state review panel.

(4) A school priority improvement plan must be designed to ensure that the public school improves its performance to the extent that, following completion of the public school's next annual performance review, the public school attains a higher accreditation category. At a minimum, a school priority improvement plan must:

(a) Set or revise, as appropriate, ambitious but attainable targets that the public school shall attain on the performance indicators. The local school board or the institute shall ensure that the targets are aligned with the statewide targets set by the state board pursuant to section 22-11-201.

(a.5) If the public school serves students in kindergarten and first, second, and third grades, identify the strategies to be used in addressing the needs of students enrolled in kindergarten and first, second, and third grade who are identified pursuant to section 22-7-1205 as having significant reading deficiencies and set or revise, as appropriate, ambitious but attainable targets that the public school shall attain in reducing the number of students who have significant reading deficiencies and in ensuring that each student achieves grade-level expectations in reading;

(a.7) Identify strategies to address the needs of students who are below grade level or struggling in mathematics and set or revise, as appropriate, ambitious but attainable targets that the public school shall attain in reducing the number of students who are below grade level or struggling in mathematics and to increase the number of students who achieve grade-level expectations in mathematics. Strategies may include tutoring, including peer tutoring; additional educator training; personalized learning models, which may include a combination of in-person
instruction, online modules, and self-paced learning techniques; or supplemental supports or curricula in mathematics, including digital mathematics accelerator programs.

(b) Identify positive and negative trends in the levels of attainment by the public school on the performance indicators;

(c) Assess and prioritize the issues and needs at the public school that must be addressed to raise the levels of attainment on the performance indicators by the public school and to improve school readiness, if the public school serves students in preschool or kindergarten. The needs assessment for a public school that enrolls students in kindergarten or any of grades one through three shall include, but shall not be limited to, the early childhood learning needs assessment described in subsection (4.5) of this section.

(d) Identify specific, research-based strategies that are appropriate in scope, intensity, and type to address the needs and issues identified pursuant to paragraph (c) of this subsection (4);

(e) Identify the local, state, and federal resources that the public school will use to implement the identified strategies with fidelity;

(e.5) Incorporate strategies to increase parent engagement in the public school; and

(f) Address any other issues required by rule of the state board or raised by the department through the performance review pursuant to section 22-11-210.

(4.5) An early childhood learning needs assessment must determine the extent to which:

(a) There are quality early childhood programs existing within the neighborhood of the public school; except that a public school must include this information in the early childhood learning needs assessment only if the information is readily available to the public school;

(b) Children are enrolled in publicly funded early learning and development programs within the neighborhood of the public school or in private early learning and development programs that participate in the school-readiness quality improvement program created in section 26.5-5-102 and are located within the neighborhood of the public school; except that a public school must include this information in the early childhood learning needs assessment only if the information is readily available to the public school;

(c) The public school works with an early childhood council established pursuant to part 2 of article 2 of title 26.5 or early childhood community agencies existing within the neighborhood of the public school;

(d) The public school collaborates with early childhood providers and programs regarding students' transition from preschool to kindergarten;

(e) Teachers employed at or by the public school to teach kindergarten or one of grades one through three have early childhood teaching credentials;

(f) Joint professional development opportunities, including opportunities for educator collaboration, are available through the public school for early childhood providers, teachers, and principals;

(g) The public school has a current parent engagement plan and provides ample opportunities for parent and family engagement in preschool through third grade; and

(h) Other early childhood resources, such as home visitation, early intervention services, library programs for young children, and family resource centers, are available to families who reside in the neighborhood of the public school.

(5) The local school board, on behalf of a district public school, or the institute, on behalf of an institute charter school, shall submit the school priority improvement plan to the
department for publication on the data portal. The public school shall make copies of the school priority improvement plan available to members of the public upon request.

22-11-406. School turnaround plan - contents. (1) (a) If the state board, pursuant to section 22-11-210, directs a district public school to adopt a turnaround plan, the local school board, in accordance with time frames specified in state board rules, shall adopt a school turnaround plan, as described in subsection (3) of this section, for the district public school. Each district public school turnaround plan shall also be subject to evaluation by the state review panel and may be subject to revisions requested by the commissioner as provided in this subsection (1).

(b) The school accountability committee for the district public school shall hold a public meeting as required in section 22-32-142 (2) to receive input concerning possible strategies to be included in the school turnaround plan, advise the local school board concerning preparation of the school turnaround plan, and make recommendations to the local school board concerning the contents of the school turnaround plan, taking into account recommendations received at the public meeting. The local school board shall create and adopt the school turnaround plan, taking into account the advice and recommendations of the school accountability committee. Before adopting the school turnaround plan, the local school board shall hold a public hearing to review the written plan as required in section 22-32-142 (2). The department may require a school district to provide proof of compliance with the requirements of section 22-32-142 (2).

(c) Within the time frames specified in state board rule, the local school board shall submit the adopted school turnaround plan to the commissioner for evaluation by the state review panel. The state review panel shall critically evaluate the adopted school turnaround plan and make recommendations to the commissioner and the state board concerning the issues specified in section 22-11-210 (4). The commissioner may suggest modifications to the plan, taking into consideration any recommendations of the state review panel and may require that those plan modifications be made prior to the date when the state board enters into an accreditation contract with the district pursuant to section 22-11-206. The local school board shall revise the school turnaround plan, if necessary, and resubmit the plan for approval within the time frames specified in state board rule. The local school board shall ensure that the final, approved school turnaround plan is in effect for the district public school within the time frames specified in state board rule.

(d) The school district accountability committee shall include the final, approved school turnaround plan in the compilation prepared pursuant to section 22-11-302 (1), and the local
school board shall consider the final, approved school turnaround plan in developing the budget required by section 22-44-108.

(e) The local school board shall submit the final, approved school turnaround plan to the department for publication on the data portal. The district public school shall make copies of the final, approved school turnaround plan available to members of the public upon request.

(2) (a) If the state board, pursuant to section 22-11-210, directs an institute charter school to adopt a turnaround plan, the institute, in accordance with time frames specified in state board rules, shall adopt a school turnaround plan, as described in subsection (3) of this section, for the institute charter school. Each institute charter school turnaround plan shall also be subject to evaluation by the state review panel and may be subject to revisions requested by the commissioner as provided in this subsection (2).

(b) The school accountability committee for the institute charter school shall hold a public meeting as required in section 22-30.5-520 (2) to receive input concerning possible strategies to be included in the school turnaround plan, advise the institute concerning preparation of the school turnaround plan, and make recommendations to the institute concerning the contents of the school turnaround plan, taking into account recommendations received at the public meeting. The institute shall create and adopt the school turnaround plan, taking into account the advice and recommendations of the school accountability committee. Before adopting the school turnaround plan, the institute shall ensure that the institute charter school holds a public hearing to review the written plan as required in section 22-30.5-520 (2). The department may require the institute to provide proof of compliance with the requirements of section 22-30.5-520 (2).

(c) Within the time frames specified in state board rule, the institute shall submit the adopted school turnaround plan to the commissioner for evaluation by the state review panel. The state review panel shall critically evaluate the adopted school turnaround plan and make recommendations to the commissioner and the state board concerning the issues specified in section 22-11-210 (4). The commissioner may suggest modifications to the plan, taking into consideration any recommendations of the state review panel and may require that those plan modifications be made prior to the date when the state board enters into an accreditation contract with the institute pursuant to section 22-11-206. The institute shall revise the school turnaround plan, if necessary, and resubmit the plan for approval within the time frames specified in state board rule. The institute shall ensure that the final, approved school turnaround plan is in effect for the institute charter school within the time frames specified in state board rule.

(d) The institute shall include the final, approved school turnaround plan in the compilation prepared pursuant to section 22-11-303 (2)(b). The institute shall submit the final, approved school turnaround plan to the department for publication on the data portal. The institute charter school shall make copies of the final, approved school turnaround plan available to members of the public upon request.

(3) A school turnaround plan must be designed to ensure that the public school improves its performance to the extent that, following completion of the public school's next annual performance review, the public school attains a higher accreditation category. At a minimum, a school turnaround plan must:

(a) Set or revise, as appropriate, ambitious but attainable targets that the public school shall attain on the performance indicators. The local school board or the institute shall ensure
that the targets are aligned with the statewide targets set by the state board pursuant to section 22-11-201.

(a.5) If the public school serves students in kindergarten and first, second, and third grades, identify the strategies to be used in addressing the needs of students enrolled in kindergarten and first, second, and third grade who are identified pursuant to section 22-7-1205 as having significant reading deficiencies and set or revise, as appropriate, ambitious but attainable targets that the public school shall attain in reducing the number of students who have significant reading deficiencies and in ensuring that each student achieves grade level expectations in reading;

(a.7) Identify strategies to address the needs of students who are below grade level or struggling in mathematics and set or revise, as appropriate, ambitious but attainable targets that the public school shall attain in reducing the number of students who are below grade level or struggling in mathematics and to increase the number of students who achieve grade-level expectations in mathematics. Strategies may include tutoring, including peer tutoring; additional educator training; personalized learning models, which may include a combination of in-person instruction, online modules, and self-paced learning techniques; or supplemental supports or curricula in mathematics, including digital mathematics accelerator programs.

(b) Identify positive and negative trends in the levels of attainment by the public school on the performance indicators;

(c) Assess and prioritize the issues and needs at the public school that must be addressed to raise the levels of attainment on the performance indicators by the public school and to improve school readiness, if the public school serves students in preschool or kindergarten. The needs assessment for a public school that enrolls students in kindergarten or any of grades one through three shall include, but shall not be limited to, the early childhood learning needs assessment described in section 22-11-405 (4.5).

(d) Identify specific, research-based strategies that are appropriate in scope, intensity, and type to address the needs and issues identified pursuant to subsection (3)(c) of this section, which strategies shall, at a minimum, include one or more of the following:

(I) Employing a lead turnaround partner that uses research-based strategies and has a proven record of success working with schools under similar circumstances, which turnaround partner shall be immersed in all aspects of developing and collaboratively executing the turnaround plan and shall serve as a liaison to other school partners;

(II) Reorganizing the oversight and management structure within the public school to provide greater, more effective support;

(III) For a district public school, seeking recognition as an innovation school or clustering with other district public schools that have similar governance or management structures to form an innovation school zone pursuant to article 32.5 of this title;

(IV) Hiring a public or private entity that uses research-based strategies and has a proven record of success working with schools under similar circumstances to manage the public school pursuant to a contract with the local school board or the institute;

(V) For a district public school that is not a charter school, converting to a charter school;

(VI) For a district charter school or an institute charter school, renegotiating and significantly restructuring the charter school's charter contract;
(VI.5) For a public school that serves students enrolled in kindergarten or any of grades one through three, that the public school invest in research-based strategies focused on early learning and development to address any deficiencies identified in the early childhood learning needs assessment completed for the public school pursuant to subsection (3)(c) of this section if the cause of the public school's low performance is directly related to lack of school readiness and access to quality early learning opportunities, as demonstrated by student achievement data for the early elementary grades, and the public school has not successfully implemented these strategies in the preceding school years. Research-based early learning and development strategies include increasing the quality and availability of early learning and development programs for students who reside within the neighborhood of the public school and increasing the resources available in kindergarten through third grade to improve school readiness and early learning. A public school may implement strategies focused on early learning and development as described in this subsection (3)(d)(VI.5) only in combination with at least one other research-based strategy specified in this subsection (3)(d).

(VII) Other actions of comparable or greater significance or effect;
(e) Identify the local, state, and federal resources that the public school will use to implement the identified strategies with fidelity;
(e.5) Incorporate strategies to increase parent engagement in the public school; and
(f) Address any other issues required by rule of the state board or raised by the department through the performance review pursuant to section 22-11-210.

(4) The general assembly may appropriate such money as is available to assist school districts and the institute in improving the academic growth of students in public schools that are required to adopt school turnaround plans. In addition, the department may allocate any money received pursuant to the federal "Every Student Succeeds Act", 20 U.S.C. sec. 6301 et seq., for such purpose.

PART 5

PERFORMANCE REPORTING

22-11-501. State data reporting system. (1) The department shall administer, manage, and maintain a comprehensive data collection and reporting system for collecting and reporting the data specified in and required to implement this article. The department shall ensure that the state data reporting system is capable of:

Colorado Revised Statutes 2023 Page 380 of 1377 Uncertified Printout
(a) Collecting, through electronic transfer where possible, all student, public school, school district, and institute performance data required to ascertain the degree to which public schools, school districts, and the institute are meeting the statewide targets for attainment on the performance indicators;

(b) Producing data to support decision-making and learning and to prepare the reports on public school, school district, institute, and state performance described in section 22-11-503;

(c) Protecting the privacy of students;

(d) Including all the information and data elements needed to measure student, public school, school district, institute, and state performance; and

(e) Supporting analysis of the relationship between school district and public school expenditures and program characteristics and effectiveness.

(2) The data elements collected and provided by the department, school districts, the institute, and individual public schools shall be compatible and interoperable. Each school district that has a unique information management system shall ensure that its unique system is compatible with the data elements of the state data reporting system so that all data required to be input into the state data reporting system is made available through electronic transfer and in the appropriate input format.

(3) The department shall have the following duties and responsibilities with regard to the state data reporting system:

(a) To consult with school district representatives in the design and maintenance of the data model and implementation plans for the electronic transfer of data between school districts, the institute, individual public schools, and the state data reporting system;

(b) To provide operational definitions for the state data reporting system through the data dictionary created pursuant to section 22-2-305;

(c) To determine the information and specific data elements required for the performance decisions made at each public school, recognizing that the time and effort of instructional personnel expended in collection and compilation of data should be minimized;

(d) To develop standardized terms and procedures to be followed at all public schools;

(e) To develop an electronic standardized transmittal format to be used for collection of data from school districts, the institute, and public schools;

(f) To develop appropriate computer applications to ensure the integrity and integration of the specific data elements;

(g) To develop the necessary applications to provide statistical analysis of the comprehensive information and supporting data elements provided in paragraph (f) of this subsection (3) in such a way that required reports may be disseminated, comparisons may be made, and relationships may be determined in order to provide the necessary information for making performance decisions at all public schools;

(h) To develop output and reporting formats that will provide school districts, the institute, and public schools with diagnostic information for making academic and safety environment decisions at all public schools;

(i) To assist school districts and the institute in establishing their standardized electronic transmittal capabilities, including but not limited to awarding grants pursuant to rule of the state board to public schools, school districts, and the institute to assist them in upgrading their transmittal capabilities;
(j) To establish procedures for the annual evaluation of the effectiveness and ease of use of the state data reporting system;

(k) To perform such other actions as are necessary to carry out the intent of the general assembly that the needs of the state data reporting system for performance decision-making and reporting are met; and

(l) To apply for gifts, grants, and donations, including grants awarded under the federal "American Recovery and Reinvestment Act of 2009", Pub.L. 111-5, for the implementation of internet-based tools to deliver instructional advice and content supported by formative assessment data and to directly connect teachers across the state to enhance educators' collaboration, use of data, instruction, and professional accountability.

(4) The specific responsibilities of each school district and the institute shall include:

(a) Developing, with assistance from the department, system compatibility between the state data reporting system and unique school district and individual public school data systems;

(b) Providing, with the assistance of the department, in-service training on the state data reporting system's purposes and scope, a method of electronically transmitting input data, and the use of performance reporting information;

(c) Advising the department of all district data management needs as they relate to the state data reporting system;

(d) Electronically transmitting required data elements and an accounting as required by section 22-55-108 to the appropriate processing locations in accordance with guidelines established by the department;

(e) Determining required data output and reports, comparisons, and relationships to be provided to the school district or the institute by the state data reporting system, continuously reviewing these reports for usefulness and meaning, and submitting recommended additions, deletions, and changes in accordance with the guidelines established by the department; and

(f) Being responsible for maintaining the integrity and accuracy of data elements transmitted to the department.

22-11-502. Data portal - creation - contents. (1) The department shall develop and maintain an internet-based electronic data delivery system to provide education accountability data to public schools, school districts, the institute, parents, and other members of the public.

(2) At a minimum, the department shall publish on the data portal the following items:

(a) The performance reports, as described in section 22-11-503, for public schools, school districts, the institute, and the state;

(b) The accreditation category, with supporting data, determined pursuant to part 2 of this article, for each school district in the state and for the institute;

(c) The accreditation category, with supporting data, for each public school in the state, as determined by the local school board or the institute, whichever is applicable;

(d) For each public school in the state, the school performance, improvement, priority improvement, or turnaround plan, whichever is appropriate based on the state board's direction pursuant to section 22-11-210;
For each school district in the state, the district performance, improvement, priority improvement, or turnaround plan, whichever is appropriate based on the school district's accreditation category; and

(f) For the institute, the institute performance, improvement, priority improvement, or turnaround plan, whichever is appropriate based on the institute's accreditation category.

(3) In publishing supporting data for the school district, institute, and public school accreditation categories, the department shall include data pertaining to the graduation rates that describe the progress made by student groups disaggregated for gender by race and income.

22-11-503. Performance reports - contents - rules. (1) The department shall publish on the data portal a school performance report for each public school in the state, a school district performance report for each school district in the state, a performance report for the institute, and a performance report for the state as a whole. The department shall continuously update the data included in the performance reports as soon as practicable, but not later than sixty days, after the data become available.

(2) The state board shall adopt rules specifying the information to be included in the school performance reports, the school district and institute performance reports, and the state performance report. The information must be consistent for each type of report and, at a minimum, must include the following:

(a) The report subject's level of attainment on each of the performance indicators as determined pursuant to section 22-11-204, including whether the report subject met the targets set for the applicable school year;

(a.5) The percentage of students enrolled by the report subject who score at each of the performance levels identified by the state board for the statewide assessments, reported by grade level and assessment;

(b) For school performance reports, a comparison of the report subject's levels of attainment on the performance indicators with the levels of attainment of the other public schools of the school district and in the state and the information specified in subsection (3) of this section;

(c) For school district performance reports and the institute performance report, a comparison of the report subject's levels of attainment on the performance indicators with other school districts in the state and the institute;

(d) Information concerning comparisons of student performance over time and among student groups;

(e) The report subject's rates of completion, mobility, and truancy as calculated pursuant to rules adopted by the state board; and

(f) Any additional information that may be required by federal law.

(3) In addition to any information specified by rule of the state board, each school performance report shall include the following information concerning the operations and environment of the public school that is the subject of the report:

(a) The name of the public school, the type of school program provided at the public school, and the school year for which the information in the performance report is provided. The
performance report shall also include the public school's street address, telephone number, and email address, and, if one exists, the website address of the school district or the public school.

(b) Information concerning the percentages of students who are not tested or whose scores are not included in determining attainment of the performance indicators;

(c) As described in state board rule, the occurrence of each of the types of incidents described in section 22-32-109.1 (2)(b)(IV), expressed as a number and as a percentage of the total occurrences of all of the incidents;

(d) As calculated pursuant to state board rule, information concerning:
   (I) Student enrollment at the public school;
   (II) Students, reported as a number and a percentage of the total student enrollment at the public school, who are eligible for free or reduced-cost lunch pursuant to the federal "Richard B. Russell National School Lunch Act", 42 U.S.C. sec. 1751 et seq.;
   (III) Repealed.
   (IV) Average daily attendance at the public school; and
   (V) For elementary schools, the availability of a preschool program, full-day kindergarten program, and before- and after-school programs at the public school;

(e) Information concerning the staff employed at the public school, including:
   (I) The number of persons employed at the public school in each of the following categories and explanations of the job descriptions for each category:
      (A) Classroom teachers;
      (B) Paraprofessionals;
      (C) Administrators;
      (D) Other professionals;
      (E) School support staff;
      (F) School counselors; and
      (G) School librarians;
   (II) The students-per-classroom-teacher ratios for each grade level included in the public school;
   (III) The average number of years of teaching experience among the teachers employed at the public school;
   (IV) The number of teachers employed at the public school who hold master's or doctoral degrees;
   (V) For junior high, middle, and high schools, the percentage of teachers employed at the public school who are teaching in the subject areas in which they received their bachelor's or graduate degrees;
   (VI) The number of teachers employed at the public school who have three or more years of teaching experience. For purposes of this subparagraph (VI), the data used shall describe teachers who have obtained nonprobationary status pursuant to the provisions of part 2 of article 63 of this title.
   (VII) The number of professional development days included in the school year;

(f) Information concerning whether the following courses and programs, which are not included in the statewide assessments, are available to students enrolled in the public school and, to the extent they are available on the public school's or school district's website, internet links to descriptions of these courses and programs:
   (I) Art;
(II) Drama or theater;
(III) Music;
(IV) Dance;
(V) Physical education;
(VI) Economics;
(VII) World languages;
(VIII) History;
(IX) Geography;
(X) Civics;
(XI) Career and technical education;
(XII) Opportunities for civic or community engagement;
(XIII) Internet safety programs;
(XIV) For high schools, advanced placement, international baccalaureate, or honors courses;
(XV) For elementary schools, international baccalaureate or Montessori curricula;
(XVI) Extracurricular activities; and
(XVII) Athletics; and
(g) Information, as described in state board rule, concerning programs and services that are available at the public school to support student health and wellness. The state board is encouraged to include in the school performance report information concerning each school district's and each public school's incorporation of physical activity into the school day.

(4) Each public school, each school district, and the institute shall report accurately the data required to produce a performance report. The state board shall seek to minimize and eliminate the duplication of data reporting required under this section and data reporting required by other state or federal statutes or rules so that school districts, institute charter schools, and the institute may satisfy the multiple reporting requirements within a single reporting framework.

(5) Prior to the publication of the performance reports, the department shall:
(a) Allow each school district and the institute a reasonable period of time to review the school district's or the institute's information as it will appear on the school performance reports; and
(b) Correct any errors or misinformation identified by the school district or institute.

(6) The school performance report produced for each public school pursuant to this section may contain internet links through which a person may access additional information not provided in detail in the report. The state board may make changes in the format or the contents of the performance reports prepared pursuant to this section.

(7) Each public school shall notify the parent or legal guardian of each student enrolled in the public school of the availability on the data portal of its performance report and the performance report for the school district or the institute and for the state. Each public school shall ask the parent or legal guardian of each student enrolled in the school whether the parent or legal guardian wants a printed copy of the school, school district, institute, or state performance report, and shall provide a copy if requested.

22-11-503.5. Student performance by course level - report - definitions. (1) (a) The general assembly finds and declares that:
(I) All students deserve the opportunity to learn higher-level content;
(II) The school and the school district's course placement policies and decisions impact a student's opportunity to learn; and
(III) Course-level placement decisions in core courses have a significant impact on a student's potential to attain proficiency on the statewide assessments in core content areas and to attain postsecondary and workforce readiness.
(b) The general assembly therefore determines that:
(I) Providing public schools and school districts with data concerning course participation and subsequent performance on statewide assessments will facilitate conversations at the school and school-district levels to identify those courses that result in the greatest number of students demonstrating proficiency, to place more students in those courses, and to eliminate or drastically modify courses that are not yielding long-term success for students who take the courses; and
(II) Providing schools and school districts with this data will also facilitate conversations regarding the demographics of students enrolled in each course level and lead schools and school districts to examine and modify course placement and instructional grouping policies and decisions.
(2) As used in this section, unless the context otherwise requires:
(a) "Core course" means a course in English, mathematics, science, or social studies at the middle or high school level.
(b) "Course level" means the degree of difficulty or complexity of the content of a course in a specific subject area, such as an honors level course.
(3) (a) No later than November 1, 2014, and no later than each November 1 thereafter, for each academic year the department shall create a core course level participation and performance report for each school district and public school in the state. At a minimum, the report must include:
(I) The participation of students in each core course level disaggregated by student groups; and
(II) When available, the proficiency levels that the students enrolled in each core course level achieve on the statewide assessment that corresponds to the course subject disaggregated by student groups.
(b) During the 2014-15 and 2015-16 academic years, the department shall work with public schools and school districts to refine the format and content of the report to improve the use and functionality of the report for public schools and school districts, recognizing that the statewide assessments will be in transition during these academic years.
(4) Commencing with the 2020-21 academic year, the department shall also make the core course level participation and performance reports available on the department's website.
(5) Commencing no later than the 2016-17 academic year, public schools and school districts shall use the data in the core course level participation and performance report to inform the district plans adopted pursuant to sections 22-11-303 to 22-11-306, and the school plans
adopted pursuant to sections 22-11-403 to 22-11-406. The core course level participation and performance report is intended to generate school-building level and school-district level discussion and examination of course placement policies and decisions and the resulting student proficiency levels on statewide assessments. If the core course level participation and performance report indicates that there are significant disparities in student performance by course level or that a disproportionate number of students from specific student groups are enrolled in courses that achieve lower student proficiency levels on statewide assessments, the public school or school district shall include strategies for addressing the disparities and disproportionate student groups participation in the district plan adopted pursuant to sections 22-11-303 to 22-11-306 and the school plan adopted pursuant to sections 22-11-403 to 22-11-406, which strategies may include eliminating or modifying courses.

22-11-504. School district and institute reporting requirements. (1) Each school district shall annually report to the department for each of the district public schools:
   (a) Any information necessary to prepare the performance reports described in section 22-11-503;
   (b) For each district public school, the school performance, improvement, priority improvement, or turnaround plan, whichever is appropriate based on the direction from the state board pursuant to section 22-11-210;
   (c) The accreditation category, with supporting data, for each district public school;
   (d) The high school graduation requirements adopted by the local school board, as provided in section 22-32-109 (1)(kk), and by each district charter high school, including the options adopted by the local school board and each district charter high school by which a high school student may demonstrate college and career readiness; and
   (e) Any additional information required for the department to implement the accreditation process described in part 2 of this article 11.

   (2) The institute shall annually report to the department for each institute charter school:
   (a) Any information necessary to prepare the performance reports described in section 22-11-503;
   (b) For each institute charter school, the school performance, improvement, priority improvement, or turnaround plan, whichever is appropriate based on the direction from the state board pursuant to section 22-11-210;
   (c) The accreditation category, with supporting data, for each institute charter school;
   (d) The high school graduation requirements adopted by each institute charter high school, including the options adopted by each institute charter high school by which a high school student may demonstrate college and career readiness; and
   (e) Any additional information required by the accreditation process described in part 2 of this article 11.

   (3) Each local school board and the institute shall adopt policies to ensure that appropriate personnel within the school district and each institute charter school share with and explain to the parent or legal guardian of each student enrolled in the school district or the
institute charter school the student's statewide assessment results and the student's longitudinal academic growth information provided by the department pursuant to section 22-11-203.

### PART 6

**SCHOOL AWARDS PROGRAM**

22-11-601. Colorado school awards program - created - rules. (1) There is hereby established the Colorado school awards program, referred to in this part 6 as the "program", to be administered by the department. The state board shall promulgate rules for the administration of this part 6 and the program. The rules shall include but need not be limited to procedures for transmitting the financial awards to public schools of school districts and institute charter schools that demonstrate outstanding performance.

(2) In addition to the monetary awards made and distributed pursuant to sections 22-11-602, 22-11-603, 22-11-603.5, and 22-11-605, the state board may annually apply moneys from the school awards program fund created in section 22-11-605 to provide tangible items of recognition, such as banners or trophies, to schools that are identified as eligible to receive the John Irwin schools of excellence awards, the governor's distinguished improvement awards, the centers of excellence awards, and the academic growth awards created in section 22-11-603.7.

**Editor's note:** This section is similar to former § 22-11-301 as it existed prior to 2009.

22-11-602. Colorado school awards program - John Irwin schools of excellence awards - rules. (1) The state board shall annually present financial awards to the highest performing public schools in the state based on the schools' levels of attainment on the performance indicator concerning student achievement levels on the statewide assessments.

(2) Of the moneys available for the program pursuant to this part 6, one third shall be awarded to the public schools with the highest level of attainment on the performance indicator concerning student achievement levels, as calculated pursuant to section 22-11-204 (3). An award granted pursuant to this section shall be known as a "John Irwin Schools of Excellence Award".

(3) Subject to available appropriations, the amount of each award issued pursuant to this section shall be five thousand, ten thousand, or fifteen thousand dollars, depending on the
number of pupils attending the public school receiving the award. If the available appropriations are insufficient to award each school the amount specified in this subsection (3), the department shall reduce all awards for that year proportionately. The state board shall establish by rule the pupil size of the public school for each award amount.

**Editor's note:** This section is similar to former § 22-11-302 as it existed prior to 2009.

**22-11-603. Governor's distinguished improvement awards - rules.** (1) The state board shall annually present financial awards to the public schools in the state demonstrating the highest rates of student longitudinal growth, including longitudinal growth across multiple years, as measured by the Colorado growth model. The technical advisory panel convened pursuant to section 22-11-202 shall recommend to the state board, and the state board shall establish by rule, the method by which to identify schools that demonstrate the highest rate of student longitudinal growth in one or more school years, as measured by the Colorado growth model. The technical advisory panel shall take school size into account in preparing its recommendations.

(2) Of the moneys available for awards pursuant to this part 6, two thirds shall be awarded pursuant to this section.

(3) An award issued pursuant to this section shall be known as a "Governor's Distinguished Improvement Award".

**Editor's note:** This section is similar to former § 22-11-305 as it existed prior to 2009.

**22-11-603.5. Centers of excellence awards.** (1) (a) The state board shall annually present financial awards to public schools in the state that enroll a student population of which at least seventy-five percent are at-risk pupils, as defined in section 22-54-103 (1.5), and that demonstrate the highest rates of student longitudinal growth, as measured by the Colorado growth model. The technical advisory panel convened pursuant to section 22-11-202 shall recommend to the state board, and the state board shall establish by rule, the method by which to identify schools that qualify for an award pursuant to this section.

(b) Awards issued pursuant to this section shall be known as "Centers of Excellence Awards".

(2) A school that receives an award pursuant to this section shall not qualify for an award pursuant to section 22-11-603.

(3) Notwithstanding the provisions of sections 22-11-602 (2) and 22-11-603 (2), of the moneys available for awards pursuant to this part 3, in the 2009-10 budget year and budget years thereafter, two hundred fifty thousand dollars shall be awarded to schools annually pursuant to this section. The department shall apportion the remainder between the "John Irwin schools of excellence awards" and the "Governor's Distinguished Improvement Awards" as provided in sections 22-11-602 (2) and 22-11-603 (2), respectively.
22-11-603.7. Academic growth awards - rules - definitions. (1) (a) Subject to available appropriations, the state board shall annually present an award to the public high school that demonstrates the highest levels of student academic growth within each classification. The awards presented pursuant to this section must be in the form of trophies that resemble the trophies presented for athletic accomplishments. The technical advisory panel convened pursuant to section 22-11-202 shall recommend to the state board, and the state board shall establish by rule, the method by which to identify the public high schools that demonstrate the highest rate of student longitudinal growth in one or more school years, as measured by the Colorado growth model.

(b) The awards issued pursuant to this section are named for each classification and known as the academic growth award for that classification.

(2) Notwithstanding any provision of this part 6 to the contrary, of any moneys that the department may receive pursuant to section 22-11-605 (1) in the form of public or private gifts, grants, or donations, in the 2014-15 budget year and each budget year thereafter, the department shall use up to one thousand five hundred dollars to award trophies pursuant to this section. The department shall apportion the remainder of the moneys available for awards as provided in sections 22-11-602, 22-11-603, and 22-11-603.5.

(3) As used in this section, "classification" means the grouping of schools established biennially by the statewide association for high school activities for the sport of football.

22-11-604. Colorado school awards program - distribution of award. (1) Any award presented by the state board pursuant to this part 6 shall be spent or distributed for use within the public school as the principal of the public school, after consultation with the school accountability committee for the public school, deems appropriate.

(2) Any moneys made available to a district public school in the form of an award pursuant to the provisions of this part 6 shall not supplant moneys made available to the public school from funding received by the school district pursuant to article 54 of this title or pursuant to the taxing authority of the school district. Any moneys made available to an institute charter school in the form of an award pursuant to the provisions of this part 6 shall not supplant moneys payable to the institute charter school pursuant to part 5 of article 30.5 of this title.

Editor's note: This section is similar to former § 22-11-303 as it existed prior to 2009.

22-11-605. School awards program fund - creation - contributions. (1) The department may accept and expend gifts, grants, and donations from any source, public or private, to make financial awards and purchase tangible items of recognition, such as banners or
trophies, to award to public schools pursuant to the provisions of this part 6. The department shall transmit all public and private gifts, grants, and donations received pursuant to this section to the state treasurer who shall credit the same, in addition to any appropriations made by the general assembly, to the school awards program fund, which is hereby created in the state treasury and referred to in this section as the "fund".

(2) Subject to annual appropriation, the department may expend money that is appropriated to the fund to make financial awards and purchase tangible items of recognition, such as banners or trophies, to award to public schools pursuant to the provisions of this part 6. In accordance with section 24-36-114, the state treasurer shall credit all interest derived from the deposit and investment of money in the fund to the general fund. The department shall use any money credited or appropriated to the fund exclusively for awards and items of recognition and shall not use the money to pay for the expenses of the department in administering the program established in this part 6.

Editor's note: This section is similar to former § 22-11-304 as it existed prior to 2009.

PART 7
LOCAL ACCOUNTABILITY SYSTEMS

22-11-701. Legislative declaration. (1) The general assembly finds that:

(a) The statewide accountability system relies substantially on large-scale, state-administered assessment results to measure public school and school district performance. Using these results provides a limited picture of the successes of and challenges faced by public schools and school districts and may not fully reflect the priorities and values of local communities.

(b) Several public schools and school districts in Colorado and in other states have begun experimenting with accountability structures that measure a broader range of student competencies and system effectiveness, which provides an opportunity for the state to learn from different approaches to measuring public school and school district performance;

(c) Public schools and school districts in Colorado have also begun experimenting with additional measures of college and career readiness; and

(d) A broader-based accountability system is consistent with the vision and framework adopted by the state education leadership council, created by executive order B 2017 001, and may provide the information necessary to move toward the council's goals concerning student competencies and learning environment characteristics. Specifically, the council's report recommends the following with regard to accountability:

(I) Continuous evaluation of state-level accountability and assessment policies, taking into consideration the viewpoints of multiple stakeholders;
(II) Support for ongoing research and evaluation of state assessment systems;
(III) Allowance for the experimentation necessary to effectively eliminate performance
gaps, give local value to accountability, and drive meaningful, continuous improvement efforts; and
(IV) Definition and inclusion of locally important measures, such as engagement, employment, and higher education attainment outcomes, and incorporation of these measures into accountability policies.

(2) The general assembly finds, therefore, that it is in the best interests of the state to strengthen the accountability system for public schools and school districts by encouraging and supporting the development of local accountability systems that may inform the continuous improvement of the state's public school accountability system.

22-11-702. Definitions. As used in this part 7, unless the context otherwise requires:
(1) "Accountability system partner" means a public or private institution of higher education, or a private nonprofit entity, that works with local education providers to implement education policy initiatives and that has demonstrated effectiveness in providing support to local education providers that is relevant to the support the institution or entity provides in the partnership, which may include support in designing or evaluating measures of student success or system effectiveness.
(2) "Grant program" means the local accountability system grant program established in section 22-11-703.
(3) "Local accountability system" means a local accountability system established by a local education provider or group of local education providers to measure the performance of public schools and school districts in achieving student success and system effectiveness.
(4) "Local education provider" means a school district, a board of cooperative services that operates a school, a district charter school, or an institute charter school. If a group of local education providers works together to establish a local accountability system, the group is referred to as a "local education provider", but the requirements specified in this part 7 apply to each local education provider that participates in the group.

22-11-703. Local accountability system - grant program established - repeal. (1) There is established in the department the local accountability system grant program. A local education provider or group of local education providers may establish and seek funding through the grant program to support a local accountability system that supplements the state accountability system. A district charter school may choose, but is not required, to participate with the authorizing school district in an application pursuant to this section. In determining student success, a local accountability system may supplement the statewide performance indicators by using additional measures of achievement of the statewide performance indicators and by using additional indicators of student success. Additional indicators may include
nonacademic student outcomes, which may reflect changes in student engagement, attitudes, and mindsets. A local accountability system is supplemental to the state accountability system and may be designed to:

(a) Fairly and accurately evaluate student success using multiple measures to develop a more comprehensive understanding of each student's success including additional performance indicators or measures, which may include nonacademic student outcomes such as student engagement, attitudes, and dispositions toward learning;

(b) Evaluate the capacity of the public school systems operated by the local education provider to support student success; and

(c) Use the results obtained from measuring student success and system support for student success as part of a cycle of continuous improvement.

(2) A local education provider that chooses to establish a local accountability system may apply to the department to receive grant money through the program to use in developing and implementing the local accountability system. The local education provider may work with one or more accountability system partners to:

(a) Establish and implement the local accountability system;

(b) Identify and develop appropriate measures for the local accountability system;

(c) Evaluate and provide evidence of the quality of the local accountability system measures;

(d) Design alternative templates and tools for reporting data concerning performance;

(e) Analyze data; and

(f) Assist with stakeholder communications.

(3) To participate in the grant program, a local education provider shall submit to the department an application that includes:

(a) The goals of the local accountability system that the local education provider plans to implement or is implementing;

(b) The name of any accountability system partner that the local education provider intends to work with or is working with in designing and implementing the local accountability system;

(c) If a group of local education providers is submitting the application, identification of each of the local education providers that has voluntarily chosen to participate in the application;

(d) A description of the individuals and entities within the local education provider and within the local education provider's community, including families, that the local education provider is working with to design and implement the local accountability system;

(e) The local education provider's expected timeline for designing and implementing the local accountability system;

(f) A statement concerning whether the local accountability system will include a supplemental report of public school and school district performance, as described in section 22-11-704 (1), as a supplement to the school and school district performance reports described in section 22-11-503; and

(g) A statement concerning whether the local accountability system will include using an alternative format, as described in section 22-11-704 (2), for the types of plans that the local education provider, and the public schools operated by the local education provider, are required to implement and how the local education provider expects to share key planning elements,
including priority performance challenges, root causes, and major improvement strategies, with
the department for statewide public reporting on improvement planning efforts.

(4) (a) The department shall review each application received to ensure that it includes
the items specified in subsection (3) of this section. The department shall review the services
proposed to be provided by each accountability system partner and determine:
(I) Whether the accountability system partner has a demonstrated history of providing
effective support to local education providers; and
(II) If the accountability system partner is developing or evaluating local accountability
system measures, whether it has expertise in measurement.
(b) If the department determines that an application is not complete or that a named
accountability system partner does not meet the minimum requirements specified in subsection
(4)(a) of this section, or if the department identifies an opportunity for additional partnerships
among the grant applicants, the department shall notify the applying local education provider
and allow the local education provider to resubmit the application.

(5) (a) Based on the review of the applications, the department shall recommend to the
state board the applicants that may receive grants through the program and the amount of each
grant. Taking into consideration the department's recommendations, and subject to available
appropriations, the state board shall select the local education providers that receive grants
through the program and the amount of each grant awarded.
(b) (I) The amount of a grant awarded pursuant to this section must be at least
twenty-five thousand dollars per budget year but must not exceed fifty thousand dollars per
budget year for a grant awarded to a single local education provider and must not exceed
seventy-five thousand dollars per budget year for a grant awarded to a group of local education
providers. The department shall distribute the amount of each grant over three budget years.
(II) (A) Notwithstanding any provisions of subsection (5)(b)(I) of this section to the
contrary, as a result of the suspension of funding for the local accountability system grant
program during the 2020-21 budget year, the 2020-21 budget year is not included in determining
the three budget years for grant distribution.
(B) This subsection (5)(b)(II) is repealed, effective July 1, 2024.
(c) If the number of applications exceeds the amount appropriated for the grant program
pursuant to subsection (6) of this section, the department in making recommendations and the
state board in selecting recipients shall:
(I) Ensure that at least one recipient is a local education provider or group of local
education providers that are rural school districts, as defined in section 22-7-1211, boards of
cooperative services that consist of rural school districts, or charter schools that are located
within rural school districts;
(II) Prioritize applicants that demonstrate a previous commitment of staff and resources
toward development of a local accountability system;
(III) Recommend and select the grant recipients so as to distribute funding to a broad
scope of projects located throughout the state; and
(IV) When appropriate, encourage applicants to work together toward shared goals.
(6) The general assembly may annually appropriate money to the department to
implement the grant program, including money for grants and for the direct administrative costs
incurred by the department. Any unexpended and unencumbered money from an appropriation
made for the purposes of this section remains available for expenditure by the department for the
purposes of this section in the following fiscal year without further appropriation. In addition, the department may accept gifts, grants, or donations from private or public sources for the purposes of this section; except that the department may not accept a gift, grant, or donation that is subject to conditions that are inconsistent with this section or any other law of the state. This section does not require the department to solicit money for implementation of this section.

---

**22-11-704. Local accountability systems - supplemental performance reports - alternatively formatted plans.** (1) (a) A local education provider that chooses to implement a local accountability system may submit to the department a supplemental performance report for the local education provider and for each public school operated by the local education provider. A district charter school is not required to participate in the authorizing school district's supplemental accountability system or in related reporting unless the charter school chooses to participate with the authorizing school district in a grant application pursuant to section 22-11-703. The supplemental performance report supplements the information that is submitted by the local education provider and included on the performance reports described in section 22-11-503. The supplemental performance report may include information concerning achievement of:

(I) The additional measures adopted by the local education provider through the local accountability system to determine achievement of the statewide performance indicators; and

(II) The additional local performance indicators of student success, including system support for student success measured by the local education provider through the local accountability system.

(b) The information provided in a supplemental performance report does not affect the accreditation rating assigned to a school district pursuant to section 22-11-208 or the type of plan that a school is required to adopt pursuant to section 22-11-210.

(c) The department shall publish the supplemental performance reports submitted by a local education provider pursuant to subsection (1)(a) of this section on the data portal and provide public access to the supplemental performance reports that is adjacent to the public school and school district performance reports described in section 22-11-503.

(2) (a) A local education provider that chooses to implement a local accountability system may provide to the department, as an alternative to the plan format provided by the department, a different format for the type of plan that is associated with the local education provider's accreditation rating pursuant to section 22-11-208, if the local education provider is a school district, or the type of plan that the local education provider is required to implement pursuant to section 22-11-210, if the local education provider is a charter school. A plan provided in an alternative format must take into account the data collected through the local accountability system and any associated improvement efforts that the local education provider implements. A plan provided in an alternative format must meet the state and federal reporting requirements, as identified by the department, that apply to the plan types implemented pursuant
to this article 11. If a local education provider uses an alternative format, a public school operated by the local education provider may also use an alternative format for the type of plan that the public school is required to implement, which format is compatible with that used by the local education provider.

(b) A local education provider that uses an alternative plan format shall submit the plan in accordance with the deadlines established by the state board for performance, improvement, priority improvement, and turnaround plans, including submitting the plan on a biennial basis for a local education provider that is a school district and accredited or accredited with distinction or a local education provider that is a charter school and required to implement a performance plan.

(c) The department shall publish a local education provider's alternatively formatted plan on the data portal and provide public access to the plan.

22-11-705. Local accountability systems - report. (1) To support communication and the ability of the state and of local education providers to learn from the efforts of the local education providers that choose to implement local accountability systems, before July 15, 2020, and on or before July 15 each year thereafter, the department shall convene a meeting with local education providers that implement local accountability systems, their accountability system partners, if any, and other members of the community who are involved in designing and implementing local accountability systems to review the implementation of local accountability systems. Individuals may participate in the meeting in-person or electronically.

(2) On or before January 15, 2021, and on or before January 15 each year thereafter, the department shall prepare and submit to the state board and the education committees of the house of representatives and the senate, or any successor committees, a report concerning the implementation of local accountability systems, including a report of the implementation of the grant program. The report must include, but need not be limited to:

(a) Identification of the local education providers that are implementing local accountability systems, including identification of those that receive grants through the grant program and the amount of each grant awarded;

(b) Identification of the accountability system partners, if any, that the local education providers work with;

(c) A description of the measures and local performance indicators included in each local accountability system;

(d) Evidence provided by local education providers, including input solicited from community members, concerning the effectiveness of each local accountability system in measuring the quality of the education provided by the local education provider that implements the local accountability system. To the extent possible for each local accountability system, in reporting performance on additional measures and local performance indicators, the department shall disaggregate the performance results by grade level and by student group, applying the same exclusions that apply to reporting performance results on the state performance indicators.

(e) Identification of elements that are used in one or more local accountability systems that may be recommended for adoption by other local education providers; and
(f) Any recommendations for changes in department procedures, state board rules, or statute based on the implementation of the local accountability systems.

(3) In preparing the report, the department shall solicit input from and collaborate with the local education providers that implement local accountability systems and the accountability system partners, if any, that they work with.

(4) The department shall post the report on its website for public review. Upon request by a local education provider, the department shall provide information concerning the measures and local performance indicators implemented through local accountability systems, including a description of the measures, evidence of their effectiveness, and the manner in which they are used.

(5) (a) (I) In the third year of the grant program, the department shall contract with an external evaluator, which may be a state institution of higher education, to prepare a summary evaluation report of the implementation of the local accountability systems that receive grants. The evaluation must, at a minimum, include an evaluation of the success of each local accountability system in evaluating student success and the processes for ensuring a cycle of continuous improvement within the public schools of the participating local education providers. At the annual meeting held pursuant to subsection (1) of this section at the end of the first year of the grant program, the department, participating local education providers, and the accountability system partners shall identify the goals, tools, and measures to be addressed by the summary evaluation report. The data used for the summary evaluation report must include qualitative and quantitative measures.

(II) Notwithstanding the provisions of subsection (5)(a)(I) of this section to the contrary, as a result of the suspension of funding for the local accountability system grant program during the 2020-21 budget year, the 2020-21 budget year is not considered a grant program year for purposes of determining the third year of the grant program.

(b) For purposes of the summary evaluation report, the department shall provide to the external evaluator information concerning the scores attained by students enrolled by the participating local education providers on the statewide assessments administered pursuant to section 22-7-1006.3 and information concerning student longitudinal academic growth, student academic achievement, and student academic growth to standards for the students enrolled by the participating local education providers. The department shall provide the information in the aggregate by grade level and disaggregated by student group, as defined in section 22-11-103, compared to scores attained in previous school years and compared to the state average scores. The department shall provide the information to the external evaluator only to the extent allowable under federal and state law. Each local education provider that participates in the grant program shall provide any necessary data for purposes of the summary evaluation report described in subsection (5)(a) of this section that is not readily available to the department.

(c) Beginning with the report that is submitted on or before January 15, 2023, and for each report submitted thereafter, the department shall include in the report described in subsection (2) of this section the summary evaluation report described in this subsection (5).

(d) The department may accept and expend gifts, grants, or donations to pay the costs incurred in preparing the summary evaluation report described in this subsection (5).

(6) Notwithstanding the requirement in section 24-1-136 (11)(a)(I), the requirement to submit the report specified in this section continues indefinitely.
ARTICLE 12

Teacher and School Administrator Protection Act

22-12-101. Short title. This article shall be known and may be cited as the "Teacher and School Administrator Protection Act".

22-12-102. Legislative declaration. (1) The general assembly hereby finds that:
   (a) Promoting the quality of primary and secondary public education is a compelling state interest;
   (b) Maintaining a safe environment is an important component of learning. At times, educators may feel they lack the authority to maintain safety and discipline in the public school classroom or they may hesitate to exercise this authority because of the threat of a lawsuit resulting from their actions.
   (c) The filing of meritless lawsuits against school districts, teachers, administrators, and other school district employees interferes with attempts to ensure the quality of public education, particularly where the lawsuits arise out of the good-faith efforts of educators to maintain classroom discipline or address threats to student safety;
   (d) Meritless litigation also diverts financial and personnel resources to litigation defense activities and reduces the availability of these resources for educational opportunities for students.
   (2) The general assembly finds that legislation to deter meritless lawsuits and sanction deliberately false reports against educators is a rational and appropriate method to address the compelling public interest in protecting school districts and school district employees from unnecessary and harmful litigation.
   (3) It is the intent of the general assembly that the provisions of this article and those of the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S., be read together and harmonized to give the greatest protection from liability in tort possible for educational entities and their employees. If the provisions of this article and those of the "Colorado Governmental Immunity Act" are interpreted as being in conflict, the provision that grants the greatest immunity and protection to an educational entity and its employees shall prevail.

22-12-103. Definitions. As used in this article, unless the context otherwise requires:
(1) "Educational entity" means the state board of education, a school district board of education, and a governing body of a charter school.

(2) "Employee" means an individual elected or appointed to an educational entity and an individual who is an employee of an educational entity or who provides student-related services to an educational entity on a contractual basis. "Employee" includes an authorized volunteer who provides student-related services to an educational entity.

22-12-104. Liability. (1) An educational entity and its employees are immune from suit for taking an action regarding the supervision, grading, suspension, expulsion, or discipline of a student while the student is on the property of the educational entity or under the supervision of the educational entity or its employees; except that immunity shall not apply if the action is committed willfully and wantonly and violates a statute, rule, or regulation or a clearly articulated policy of the educational entity. The burden of proving the violation shall rest with the plaintiff and must be established by clear and convincing evidence to the court as part of a summary proceeding. If at the summary proceeding the court finds a violation exists, the educational entity and its employee may raise immunity at trial under the provisions of this article and the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S.

(2) An educational entity and its employees are immune from suit for making a report consistent with federal law to the appropriate law enforcement authorities or officials of an educational entity if the individual making the report has reasonable grounds to suspect that a student is:

(a) Under the influence of alcoholic beverages or of a controlled substance not lawfully prescribed to the student;

(b) In possession of a firearm or alcoholic beverages or of a controlled substance not lawfully prescribed to the student;

(c) Involved in the illegal solicitation, sale, or distribution of firearms or alcoholic beverages or of a controlled substance.

(3) A person claiming to have suffered an injury by an educational entity or an employee, whether or not by a violation of a statute, rule, or regulation or a clearly articulated policy of the educational entity, shall file a written notice as provided in section 24-10-109, C.R.S., within one hundred eighty days after the date of discovery of the injury, regardless of whether the person then knew all of the elements of a claim or of a cause of action for the injury. Compliance with the provisions of this subsection (3) shall be a jurisdictional prerequisite to any action brought under the provisions of this article, and failure of compliance shall forever bar any such action.

22-12-105. False reports - misdemeanor. (1) Except as otherwise provided in this section, a person eighteen years of age or older who intentionally makes a false accusation of criminal activity against an employee of an educational entity to law enforcement authorities, school district officials or personnel, or both commits a misdemeanor and, upon conviction, shall be fined up to two thousand dollars.
(2) Except as otherwise provided in this section, a student enrolled in a public school who is at least ten years of age but younger than eighteen years of age who intentionally makes a false accusation of criminal activity against an employee of an educational entity to law enforcement authorities, school district officials or personnel, or both may, at the discretion of the court and in accordance with the provisions of the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., be subject to any of the following penalties:
   (a) Community service of a type and for a period of time to be determined by the court;
   (b) Any other sanction as the court in its discretion may deem appropriate.
(3) A school district may expel or suspend a student who intentionally makes a false accusation of criminal activity against an employee of an educational entity to law enforcement authorities, school district officials or personnel, or both.
(4) The provisions of this section do not apply to statements regarding individuals elected or appointed to a school board.
(5) This section is in addition to and does not limit the civil or criminal liability of persons who make false statements alleging criminal activity by others.

22-12-106. Frivolous actions - attorney fees - costs. (1) In a civil action or proceeding against an educational entity or its employee in which the court finds the educational entity or its employee is immune from suit or from liability pursuant to the provisions of section 22-12-104, the court shall award costs and reasonable attorney fees to the defendant or defendants. The court in its discretion may determine whether such fees and costs are to be borne by the plaintiff's attorney, the plaintiff, or both.
   (2) Expert witness fees may be included as part of the costs awarded under this section.
   (3) The provisions of this section shall be deemed to be substantive state law.

22-12-107. Insurance. Unless otherwise provided by statute, the existence of a policy of insurance indemnifying an educational entity against liability for damages is not a waiver of a defense otherwise available to the educational entity or its employees in the defense of a claim.

22-12-108. Applicability. This article shall be supplemental to the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S. An action that is barred under the provisions of the "Colorado Governmental Immunity Act", including but not limited to section 24-10-109, C.R.S., shall be barred under the provisions of this article.

22-12-109. Special rule. This article shall not infringe on any right provided under the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq.
ARTICLE 13

School Leadership

Editor's note: This article was added in 2008. It was repealed and reenacted in 2014, resulting in the addition, relocation, or elimination of sections as well as subject matter. For amendments to this article prior to 2014, consult the 2013 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

PART 1

SCHOOL TURNAROUND LEADERS DEVELOPMENT PROGRAM

22-13-101. Legislative declaration. (1) The general assembly finds that:
(a) Developing high-quality leadership for struggling schools has become a clear priority nationwide to systematically improve academic performance among low-achieving students;
(b) Leadership for low-performing schools is fundamentally different than leadership for higher-performing schools. Extensive research shows that, to achieve real turnaround and academic improvement, low-performing schools need to experience significant and fundamental change in instructional practices as well as in the school's climate and culture. Turnaround leadership requires dramatic and transformative intervention in a culture of underperformance within a short amount of time. The research further articulates the skills and competencies that school leaders must have to produce this type of change in a school and that these skills and competencies are dramatically different from those practiced by most school leaders.
(c) There is also a significant amount of research and evidence around the practices that are needed to train, recruit, incentivize, and sustain successful, high-quality school turnaround leaders;
(d) In addition to school principals, teacher leaders within schools and district-level personnel who coordinate and support turnaround efforts for multiple schools of a school district are crucial to achieving increased academic performance within low-performing schools and must be included in programs to train successful, high-quality school turnaround leaders;
(e) For the 2013-14 school year, one hundred nineteen public schools serving fifty-five thousand eight hundred fourteen students in Colorado are accredited with priority improvement plans, and forty-nine public schools serving seventeen thousand three hundred eleven students are accredited with turnaround plans. For the 2013-14 school year, fourteen school districts are accredited with priority improvement plans, and two school districts are accredited with turnaround plans. Given these levels of performance in the public schools, Colorado must address the need to develop, nurture, and support aspiring and practicing school turnaround leaders.
(f) There is a tremendous opportunity for the state to recruit, develop, and facilitate new and existing leadership development programs that are specifically focused on developing leaders to serve low-performing schools.
The general assembly further finds that, while school leadership is a crucial aspect of improving the performance of struggling schools, factors such as school culture, teacher professional development, and the transformation of instruction in the classroom are also necessary elements of the plan to transform a public school and raise the academic performance of the students enrolled in the school.

The general assembly therefore finds that it is imperative and in the best interests of the state to create the school transformation grant program within the department to contract with providers and award grants to school districts throughout the state to use in developing outstanding school leaders with the skills and competencies required to turn around low-performing public schools in the state and to provide grants to school districts, the institute, and charter schools to support them in improving educator professional development and transforming instruction, which may include planning for and implementing rigorous school redesign strategies.

The general assembly declares that, for purposes of section 17 of article IX of the state constitution, the school transformation grant program is an important element in implementing accountable programs to meet state academic standards and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

Source: L. 2014: Entire article R&RE, (SB 14-124), ch. 342, p. 1519, § 1, effective June 5. L. 2018: (1.5) added and (2) and (3) amended, (HB 18-1355), ch. 324, p. 1954, § 19, effective May 30.

22-13-102. Definitions. As used in this part 1, unless the context otherwise requires:

1) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title or an institute charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title.

2) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

3) "Institute" means the state charter school institute established in section 22-30.5-503.

4) "Program" means the school transformation grant program created in section 22-13-103.

5) "Provider" means a public or private entity that offers a high-quality turnaround leadership development program for Colorado educators.

6) "School district" means a school district organized pursuant to article 30 of this title.

7) "School turnaround leader" means a principal or teacher leader in a school that is required to adopt a priority improvement plan or turnaround plan pursuant to section 22-11-210 or a district-level administrator or employee of the state charter school institute that coordinates and supports turnover efforts in schools of the school district or institute charter schools that implement priority improvement plans or turnaround plans.

8) "State board" means the state board of education created in section 1 of article IX of the state constitution.
22-13-103. School transformation grant program - created - rules - repeal. (1) There is created in the department the school transformation grant program to provide funding to:
   (a) Assist in the design of turnaround leadership development programs and to provide funding to support training and development of school turnaround leaders for the public schools in the state;
   (b) Support school districts, the institute, and charter schools in providing educator professional development and transforming instruction in public schools that are required to adopt priority improvement or turnaround plans for the immediate or preceding school year; and
   (c) Assist school districts, the institute, and charter schools that are implementing priority improvement or turnaround plans in planning for and implementing one or more of the following rigorous school redesign strategies:
      (I) Converting a district public school to a charter school if it is not already authorized as a charter school;
      (II) Granting innovation school status to a district public school pursuant to section 22-32.5-104;
      (III) With regard to a district or institute charter school, replacing the school's operator or governing board;
      (IV) Contracting with a public or private entity other than the school district to partially or wholly manage a district public school, which entity is accepted by the department and the local school board as using research-based strategies and having a proven record of success working with schools under similar circumstances; or
      (V) Closing a public school or revoking the charter for a district or institute charter school.

   (2) The state board, in accordance with the "State Administrative Procedure Act", article 4 of title 24, shall promulgate rules to implement and administer the program. At a minimum, the rules must include:
      (a) Criteria for identifying approved providers from among those that respond to the request for proposals pursuant to section 22-13-104. At a minimum, the criteria must:
         (I) Consider each provider's experience in developing successful, effective leadership in low-performing schools and school districts; and
         (II) Consider the leadership qualities that each provider's turnaround leadership development program is expected to develop; and
         (III) Ensure the availability of turnaround leadership development programs for school turnaround leaders in public schools throughout the state.
      (b) and (c) Repealed.
      (d) Timelines for the school transformation grant application and approval process;
      (e) The requirements for a school transformation grant application, including but not limited to the goals that the applicant expects to achieve through the grant; and
      (f) Criteria for selecting school transformation grant recipients. At a minimum, the criteria must take into account for applying school districts the concentration of schools of the school district, or for the institute the concentration of institute charter schools, that must
implement priority improvement or turnaround plans. For applying charter schools, the criteria must prioritize schools that are implementing priority improvement or turnaround plans.

(3) (a) Notwithstanding any provision of this section to the contrary, during the 2022-23 budget year, the state board may award school transformation grants pursuant to section 22-13-105, which may continue for up to three budget years, to school districts that are accredited with improvement plan, the institute if it is accredited with improvement plan, and charter schools that are required to adopt an improvement plan.

(b) The state board shall promulgate rules as necessary to implement this subsection (3).

(c) This subsection (3) is repealed, effective July 1, 2026.

L. 2018: (1), IP(2), (2)(d), (2)(e), and (2)(f) amended and (2)(b) and (2)(c) repealed, (HB 18-1355), ch. 324, p. 1955, § 21, effective May 30.
L. 2022: (3) added, (SB 22-137), ch. 98, p. 471, § 5, effective April 13.

22-13-104. Turnaround leadership development programs - providers - design grants - review. (1) The department shall issue a request for proposals from providers who seek to participate in the program. The department shall review the responses received and, based on the criteria adopted by rule of the state board, identify one or more providers to participate in the program by providing turnaround leadership development programs for school districts, the institute, and charter schools that receive grants through the program. The department, on a regular basis, shall review each provider's turnaround leadership development programs, including the success achieved by the persons who complete the programs, and revise the list of identified providers as appropriate to ensure that the turnaround leadership development programs that are available through the program are of the highest quality.

(2) Repealed.

(3) Each identified provider shall track the effectiveness of persons who complete a turnaround leadership development program and report the effectiveness to the department in accordance with department guidelines. The report must use department rubrics to measure the effectiveness of persons who complete the turnaround leadership development program.

22-13-105. School transformation grants - application - awards - report. (1) The state board, subject to available appropriations, shall award school transformation grants to one or more school districts or charter schools or to the institute to use in:

(a) Identifying and recruiting practicing and aspiring school turnaround leaders;

(b) Subsidizing the costs incurred for school turnaround leaders and their leadership staff, if appropriate, to participate in turnaround leadership development programs offered by identified providers;

(c) Reimbursing school turnaround leaders for the costs they incur in completing turnaround leadership development programs offered by identified providers;
(d) Providing educator professional development for educators working in public schools that are implementing priority improvement or turnaround plans;

(e) Providing services, support, and materials to transform instruction in public schools that are implementing priority improvement or turnaround plans; and

(f) Planning for and implementing one or more of the following rigorous school redesign strategies:

(I) Converting a district public school to a charter school if it is not already authorized as a charter school;

(II) Granting innovation school status to a district public school pursuant to section 22-32.5-104;

(III) With regard to a district or institute charter school, replacing the school's operator or governing board;

(IV) Contracting with a public or private entity other than the school district to partially or wholly manage a district public school, which entity is accepted by the department and the local school board as using research-based strategies and having a proven record of success working with schools under similar circumstances; or

(V) Closing a public school or revoking the charter for a district or institute charter school.

(2) A school district, the institute, or a charter school that seeks a school transformation grant must apply to the department as provided by rule of the state board. The department shall review all of the applications received and, based on the criteria adopted by rule, recommend to the state board the applicants that may receive school transformation grants and the grant amounts. Subject to available appropriations, the state board, taking into account the department's recommendations, shall award school transformation grants from money appropriated by the general assembly to the department for the program.

(3) Each school transformation grant may continue for up to three budget years. The department shall annually review each grant recipient's use of the grant money and may rescind the grant if the department finds that the grant recipient is not making adequate progress toward achieving the goals identified in the grant application.

(4) During the term of the grant, each grant recipient shall annually report to the department the information requested by the department to monitor the effectiveness of the school transformation grants, which must include consideration of the impact that the use of each grant makes on raising student achievement and establishing a positive school culture. Notwithstanding section 24-1-136 (11)(a)(I), the department shall analyze and summarize the reports received from grant recipients and annually submit to the state board, the governor, and the education committees of the senate and the house of representatives, or any successor committees, a report of the effectiveness of the school transformation grants awarded pursuant to this section. The department shall also post the annual report on its website.

(5) Repealed.

PART 2

SCHOOL LEADERSHIP PILOT PROGRAM

22-13-201. Legislative declaration. (1) The general assembly finds that:
   (a) Effective school leadership is second only to teaching with regard to the in-school components identified as having the greatest effect on student learning and outcomes;
   (b) A recent report by the department of education and the department of higher education concerning teacher shortages in Colorado states that, in identifying reasons for leaving a school, teachers cite poor or ineffective school leadership. To address the teacher shortage, the report recommends providing improved educational leadership preparation and professional development to assist principals in creating positive school climate and culture.
   (c) School principals are expected to fill many roles that move far beyond administrative tasks, including setting a school-wide vision for student learning and outcomes, creating a school-wide climate that is hospitable to learning, providing instructional leadership with educators, nurturing a professional learning community with the educators in the school, and cultivating leadership in others so that the school operates on a distributive and collaborative leadership model;
   (d) There are examples of excellent principals in public schools in Colorado who successfully practice distributive and collaborative leadership and have built and maintained a strong collaborative learning community in their schools that results in positive student outcomes. School principals in Colorado should have the opportunity to observe and learn from these excellent principals to be able to replicate best practices in their own schools.
   (e) Creating a cohort of public school principals throughout the state who have the opportunity to observe and learn from excellent principals and together develop their leadership skills and learn to implement best practices in leading a public school community is likely to result in school improvement throughout the state and better student academic outcomes; and
   (f) Improving school leadership through a program that empowers public school principals to build their leadership skills and teaches them to effectively implement distributive and collaborative leadership is likely to result in improvements in the climate and culture of public schools, decreased educator turnover, and a reduction in the teacher shortage experienced by many public schools.
   (2) The general assembly finds, therefore, that it is necessary for the benefit of public education in Colorado to direct the department of education to design and implement a program to provide embedded, experiential training for a cohort of public school principals to enable them to provide distributive and collaborative leadership within their public schools that
supports increased educator retention, improved school climate and culture, and improved student academic outcomes.

**Source: L. 2019:** Entire part added, (HB 19-1002), ch. 405, p. 3579, § 1, effective May 31.

As used in this part 2, unless the context otherwise requires:

1. "Department" means the department of education created and existing pursuant to section 24-1-115.
2. "Entity" means a nonprofit entity or a public or private institution of higher education that offers a principal preparation program.
3. "Program" means the school leadership program created in section 22-13-203.
4. "Public school" means a school that derives its support, in whole or in part, from money raised by a general state or school district tax and includes a school of a school district, a public school operated by a board of cooperative services, and an institute charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.
5. "School principal" means an individual who is employed as the chief administrative officer of a public elementary, middle, or high school in Colorado.
6. "State board" means the state board of education created in section 1 of article IX of the state constitution.

**Source: L. 2019:** Entire part added, (HB 19-1002), ch. 405, p. 3580, § 1, effective May 31. **L. 2022:** (3) amended, (HB 22-1248), ch. 213, p. 1407, § 1, effective May 24.

### 22-13-203. School leadership program - created - participation - rules.

1. There is created in the department of education the school leadership program to provide embedded, experiential professional development to improve the quality of school principals and empower them to exercise distributive and collaborative leadership that supports collaboration among the professional educators in the school building. The purpose of the program is to increase educator retention, improve school climate and culture, and improve student academic outcomes by improving the quality of leadership in public schools. The program must include identification of high-quality school principals and the opportunity for other school principals from school districts throughout the state to observe and interact with the identified high-quality school principals and to receive professional development in leadership skills to learn the critical practices of the high-quality school principals in successful public schools.

2. The department shall design the program during the 2019-20 budget year and begin implementation of the program no later than July 2020. The department may contract with an entity with demonstrated, successful experience in providing training to school principals in distributive and collaborative leadership in Colorado or in other states to assist in designing and implementing the program. In selecting an entity, the department shall first consider entities that provide successful school leadership programs in Colorado that are similar to the program described in this section. The department shall ensure that the program design includes:

   a. The method for identifying high-quality school principals and selecting a cohort of school principals from public elementary, middle, and high schools across the state who apply to participate in the professional development provided by the program;
(b) The learning objectives and goals of the program, which must at a minimum include improving and enhancing positive school climate and culture and implementing distributive and collaborative leadership among the professional educators within a school;

(c) The methods for achieving the learning objectives and goals, which must include direct observation of and interaction with identified high-quality school principals and experiential professional development in implementing distributive and collaborative leadership, developing collaboration among the professionals within the entire school building, and other leadership skills; and

(d) The method for evaluating the success of the program in meeting the learning objectives and goals and in meeting the purpose described in subsection (1) of this section, including increasing educator retention, improving the school climate and culture, and improving student academic outcomes. The department may take into account information received through the teaching and learning conditions survey administered pursuant to section 22-2-503 in evaluating the success of the program; except that the department shall take the information into account in a year in which the response rate on the survey is at least sixty percent.

(3) A school principal who seeks to receive training through the program must submit an application to the department in accordance with the time frames and procedures adopted by rule of the state board. The state board by rule shall specify the required contents of the application, which at a minimum must include evidence that the school principal's employer and building staff support the school principal's participation in the program.

(4) The department, or the entity with which the department contracts, if any, shall select the school principals to receive professional development through the program for the 2020-21 and 2021-22 budget years, based on applications received pursuant to subsection (3) of this section. In selecting school principals to receive professional development through the program, the department and the entity, at a minimum, shall consider the level of performance, as determined pursuant to section 22-11-210, achieved by the public school at which the applying school principal is employed and any evidence that indicates the likelihood that a program of distributive and collaborative leadership would be successful in improving educator retention, school climate and culture, and student academic outcomes at the public school at which the applying school principal is employed. In selecting participants for the program, the department or the entity, to the extent practicable, shall select school principals employed in public elementary, middle, and high schools located in rural, suburban, and urban school districts throughout the state who are representative of the racial and gender demographics across the state. The department or the entity may select two or more school principals from a single school district.

(5) Repealed.

(6) The general assembly shall annually appropriate up to two hundred fifty thousand dollars to the department for the implementation of this part 2, including money to pay the costs of designing and implementing the program, which may include the cost of contracting with an entity as authorized in subsection (2) of this section.

22-13-204. School leadership pilot program - reporting. (1) On or before March 15, 2020, the department shall report to the education committees of the senate and the house of representatives, or any successor committees, concerning the design of the program and the plans for implementing the program during the 2020-21 and 2021-22 budget years. The report must include:

(a) The method for identifying exemplary, high-quality school principals to participate in the program and the number of exemplary, high-quality school principals expected to participate in the program;
(b) The number of school principals expected to receive professional development through the program and the criteria for selecting those school principals;
(c) The plan for providing interaction between the exemplary, high-quality school principals and the school principals who receive professional development through the program;
(d) The learning objectives and goals to be achieved through the program; and
(e) The manner in which the department expects to measure the success of the program, including measuring improved educator retention, improvements in school culture and climate, and improved student outcomes.

(2) On or before January 15, 2022, the department shall report to the education committees of the senate and the house of representatives, or any successor committees, concerning implementation of the program. At a minimum, the report must include:

(a) The number of exemplary, high-quality school principals who are participating in the program and the nature of their participation;
(b) The number of school principals who are receiving professional development through the program and an explanation of the professional development provided;
(c) An evaluation of the success of the program participants in achieving the learning objectives and goals identified for the professional development and in achieving the purpose of the program identified in section 22-13-203 (1); and
(d) A recommendation concerning whether to continue the program, any recommended changes to the program, and the estimated cost of continuing the program.

22-13-205. Repeal of part. (Repealed)

ARTICLE 14

Dropout Prevention and
Student Re-engagement

22-14-101. Legislative declaration. (1) The general assembly hereby finds that:
(a) The state of Colorado has placed a high priority on reducing the number of student dropouts in Colorado, including establishing the goal of decreasing the high school dropout rate by half by the 2017-18 academic year;

(b) The Colorado department of education reports that the statewide graduation rate for Colorado high schools for the 2006-07 school year was seventy-five percent, an improvement of nine-tenths of a percentage point over the previous school year;

(c) Although the overall graduation rate may have improved, serious gaps continue to exist in the graduation rates among ethnic and economic groups and, overall, twenty-five percent of the high school students in Colorado are not graduating from high school within four years;

(d) Students with disabilities also continue to achieve a significantly lower graduation rate than other student groups. The graduation rate for Colorado students with disabilities is sixty-three and seven-tenths percent, compared with a statewide graduation rate of seventy-five percent.

(e) According to the 2007 Colorado youth risk behavior survey, approximately one out of ten students did not go to school one or more days in a thirty-day period because they felt unsafe at school or in traveling to or from school. This statistic indicates that, to improve student attendance and graduation rates, schools and school districts must address school safety issues as well as student learning and engagement issues.

(f) Studies clearly show that a student's level of education attainment will directly influence the student's level of achievement and success throughout the rest of his or her life;

(g) The national center for education statistics reports that, in comparing employment rates and levels of education attainment across the country, in 2005, the unemployment rate for persons who dropped out of high school was seven and six-tenths percent, compared to an overall average unemployment rate for all education levels of four percent; and

(h) Studies further show that students who drop out of school are more likely to be involved in crime or delinquency and to lose lifelong opportunities for personal achievement, resulting in economic and social costs to the state.

(2) The general assembly therefore concludes that:

(a) It is imperative that the department of education create an office of dropout prevention and student re-engagement to provide focus, coordination, research, and leadership to assist local education providers in implementing coordinated efforts to reduce the high school dropout rate and increase the high school graduation and completion rates and the levels of student engagement and re-engagement;

(b) To significantly reduce the statewide dropout rate and increase the rates of student engagement and re-engagement, the office of dropout prevention and student re-engagement must also provide leadership in creating and facilitating systemic approaches that involve intersystem collaboration between local education providers and the foster care and child welfare systems, the juvenile justice system, the division of youth services in the department of human services, institutions of higher education, career and technical education providers, adult basic education, general educational development certificate, and English-as-a-second-language programs, offices of workforce development, school-based student support personnel, expanded learning opportunity and family education programs, general educational development programs, and facility schools.

22-14-102. Definitions. As used in this article 14, unless the context otherwise requires:

1. "Completion" means a student graduates from high school or receives a certificate or other designation of high school completion such as a general educational development certificate.

2. "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

3. "Dropout prevention" means school and community-based initiatives to promote positive social, emotional, familial, and educational factors that maintain and strengthen student engagement and address barriers and conditions that may lead a student to drop out of school.

4. "Expanded learning opportunity programs" means programs that provide kindergarten-through-twelfth-grade supervised learning activities that may include, but need not be limited to, after-school programs, before-school programs, summer school programs, weekend programs, and extended-day and extended-year programs.

5. "Graduation" means a student meets the locally defined requirements for a high school diploma.

6. "Grant program" means the student re-engagement grant program established in section 22-14-109.

7. "High priority local education provider" means a local education provider that the office identifies pursuant to section 22-14-103 (4) as being most in need of technical assistance and support.

8. "Local education provider" means a school district, a board of cooperative services created pursuant to article 5 of this title, or the state charter school institute created pursuant to section 22-30.5-503.

9. "Office" means the office of dropout prevention and student re-engagement created within the department of education pursuant to section 22-14-103.

10. "Parent" means a student's biological or adoptive parent or the student's legal guardian or legal custodian.

10.5 "Performing arts" shall have the same meaning as provided in section 22-1-104.5 (1)(b).

11. "Priority local education provider" means a local education provider that the office identifies pursuant to section 22-14-103 (4) as being in significant need of technical assistance and support.

12. "State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

13. "Student engagement" means a student's sense of belonging, safety, and involvement in school that leads to academic achievement, regular school attendance, and graduation. Elements of promoting student engagement include providing rigorous and relevant instruction, creating positive relationships with teachers and counselors, providing social and emotional support services for students and their families, creating partnerships with community organizations and families that foster learning outside of the classroom, and cultivating regular school attendance.
"Student graduation and completion plan" means a local education provider's plan, created pursuant to section 22-14-107, for reducing the student dropout rate and increasing the rates of student engagement, re-engagement, graduation, and completion.

"Student re-engagement" means that a student reenrolls in high school after dropping out prior to completion. Student re-engagement usually results from a local education provider's use of evidence- or research-based strategies to reach out to students who have dropped out of school and to assist them in transitioning back into school and obtaining their high school diplomas or otherwise completing high school.

"Student support personnel" means a state-licensed or state-certified school counselor, school psychologist, school social worker, or school nurse, or other state-licensed or state-certified mental health professional qualified under state law to provide support services to children and adolescents.

"Visual arts" shall have the same meaning as provided in section 22-1-104.5 (1)(c).

"Work-based learning" has the same meaning as set forth in section 8-83-601 (15).

Cross references: For the legislative declaration in the 2010 act adding subsections (10.5) and (17), see section 1 of chapter 233, Session Laws of Colorado 2010. For the legislative declaration in SB 22-140, see section 1 of chapter 357, Session Laws of Colorado 2022.

22-14-103. Office of dropout prevention and student re-engagement - created - purpose - duties. (1) (a) There is hereby created within the department of education the office of dropout prevention and student re-engagement. The head of the office shall be the director of the office of dropout prevention and student re-engagement and shall be appointed by the commissioner of education in accordance with section 13 of article XII of the state constitution. The office of dropout prevention and student re-engagement shall consist of the director and an assistant director who shall be appointed by the director. The commissioner may assign or otherwise direct other personnel within the department to assist the director and assistant director in meeting the responsibilities of the office.

(b) The office of dropout prevention and student re-engagement and the director of the office are type 2 entities, as defined in section 24-1-105, and exercise their powers and perform their duties and functions under the department of education, the commissioner of education, and the state board of education.

(c) The department is strongly encouraged to direct, to the extent possible, any increases in the amount of federal moneys received by the department for programs under Title I, part A of the "Elementary and Secondary Education Act of 1965", 20 U.S.C. sec. 6301 et seq., programs under the "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400, et seq., or other federal programs to assist in funding the activities of the office as specified in this article.

(d) The department shall seek and may accept and expend gifts, grants, and donations from public or private entities to fund the operations of the office, including the personnel for the office and execution of the duties and responsibilities specified in this article. Notwithstanding any provision of this article to the contrary, the department is not required to implement the
provisions of this article until such time as the department has received an amount in gifts, grants, and donations from public or private entities that the department deems sufficient to adequately fund the operations of the office.

(2) The office shall collaborate with local education providers to reduce the statewide and local student dropout rates and to increase the statewide and local graduation and completion rates in accordance with the goals specified in section 22-14-101. To accomplish this purpose, the office shall assist local education providers in:

(a) Analyzing student data pertaining to student dropout rates, graduation rates, completion rates, mobility rates, truancy rates, suspension and expulsion rates, safety or discipline incidences, and student academic growth data at the state and local levels; and

(b) Creating and evaluating student graduation and completion plans.

(3) To accomplish the purposes specified in subsection (2) of this section, the office shall also:

(a) Review state policies and assist local education providers in reviewing their policies pertaining to attendance, truancy, disciplinary actions under the local education provider's code of conduct, behavioral expectations, dropout prevention, and student engagement and re-engagement to identify effective strategies for and barriers to reducing the student dropout rates and increasing student engagement and re-engagement within the state;

(b) Identify and recommend, as provided in section 22-14-104, best practices and effective strategies to reduce student dropout rates and increase student engagement and re-engagement;

(c) Develop interagency agreements and otherwise cooperate with other state and federal agencies and with private, nonprofit agencies to collect and review student data and develop and recommend methods for reducing student dropout rates and increasing student engagement and re-engagement. The office shall, to the extent possible, collaborate with, at a minimum:

(I) Career and technical education providers;

(II) General educational development service providers;

(III) The prevention services division in the department of public health and environment;

(IV) The division of youth services and other agencies within the juvenile justice system;

(V) The department of corrections;

(VI) The judicial department;

(VII) Institutions of higher education;

(VIII) Offices of workforce development;

(IX) Expanded learning opportunity and family education programs;

(X) Adult basic education and English-as-a-second-language programs;

(XI) Organizations that provide services for pregnant and parenting teens and students with special health and education needs;

(XII) Agencies and nonprofit organizations within the child welfare system;

(XIII) Private, nonprofit organizations that provide services for homeless families and youth; and

(XIV) Private nonprofit or for-profit community arts organizations that work in either visual arts or performing arts;
Solicit public and private gifts, grants, and donations to assist in the implementation of this article; and

Evaluate the effectiveness of local education providers' efforts in reducing the statewide student dropout rate and increasing the statewide graduation and completion rates and to report progress in implementing the provisions of this article.

The office shall collaborate with other divisions within the department to identify annually through the accreditation process those local education providers that do not meet their established graduation and completion rate expectations. Of those local education providers identified, the office shall use criteria adopted by rule of the state board to determine:

I. Which local education providers are most in need of improvement and assistance and shall recognize said local education providers as high priority local education providers; and

II. Which local education providers are in significant need of improvement and assistance and shall recognize said local education providers as priority local education providers.

The office shall provide technical assistance to each high priority local education provider and to priority local education providers as provided in this article.

In addition to the assistance specified in sections 22-14-106 (3) and 22-14-107 (5), the office shall provide technical assistance in the areas of dropout prevention and student engagement and re-engagement to the high priority local education providers and, to the extent practicable within existing resources, to priority local education providers. Technical assistance may include, but need not be limited to:

Training in implementing identified, effective, research-based strategies for dropout prevention and student engagement and re-engagement;

Assistance in estimating the cost of implementing the identified strategies in the schools operated or approved by the high priority or priority local education provider and analyzing the cost-effectiveness of the strategies;

Identification and recommendation of effective approaches applied by other Colorado local education providers that may be similarly situated to the high priority or priority local education provider.

Cross references:

(1) For the legislative declaration in the 2010 act amending subsections (3)(c)(XII) and (3)(c)(XIII) and adding subsection (3)(c)(XIV), see section 1 of chapter 233, Session Laws of Colorado 2010.

(2) For the short title (the "Debbie Haskins 'Administrative Organization Act of 1968' Modernization Act") in SB 22-162, see section 1 of chapter 469, Session Laws of Colorado 2022.

22-14-104. Report of effective policies and strategies - creation - use. (1) On or before December 31, 2009, the office shall review the existing research and data from this state
and other states and compile a report of effective dropout prevention and student engagement and re-engagement policies and strategies implemented by local education providers within this state and in other states. The office may use the findings and recommendations in the report to provide technical assistance to high priority and priority local education providers, to assist high priority and priority local education providers in creating student graduation and completion plans, and to recommend to the state board and the general assembly state policies concerning dropout prevention and student engagement and re-engagement. High priority and priority local education providers may use the report to review their policies, to formulate new policies and strategies, and to create and evaluate their student graduation and completion plans.

(2) In preparing the report of effective policies and strategies, the office, at a minimum, shall consult, share information, and coordinate efforts with:

(a) The governor's office;

(b) The P-20 education coordinating council appointed by the governor pursuant to executive order B 003 07;

(c) Local education providers within Colorado that have maintained low student dropout rates and high rates of student engagement and re-engagement in previous years;

(d) State and national experts in dropout rate reduction and student engagement and re-engagement strategies who are knowledgeable about successful policies and practices from other states and local governments in other states; and

(e) Federal government officials who administer dropout rate reduction and student engagement and re-engagement initiatives and programs.

(3) The office shall periodically review and revise the report of effective policies and strategies as necessary to maintain the report's relevance and applicability. The office shall post the initial report of effective strategies and subsequent revisions on the department's website.

22-14-105. Assessment of statewide student attendance data - report. Beginning in the 2009-10 academic year, the office, with assistance from other divisions within the department, shall annually analyze data collected by the department from local education providers throughout the state concerning student attendance and the implementation of school attendance policies and practices and shall assess the overall incidence, causes, and effects of student dropout, engagement, and re-engagement in Colorado. On or before February 15, 2010, and on or before February 15 each year thereafter, the office shall provide to local education providers, the state board, the education committees of the senate and the house of representatives, or any successor committees, and the governor's office the assessment and any recommended strategies to address student dropout, engagement, and re-engagement in Colorado. The office may combine this assessment and recommendation with the report required by section 22-14-111.

22-14-106. Local education provider practices assessment - technical assistance - rules. (1) (a) Each high priority and priority local education provider shall conduct a practices assessment as described in subsection (2) of this section. Each high priority and priority local education provider's practices assessment shall consider community partnerships with state and local government agencies and community-based organizations and current practices and policies as they relate to different types of dropout students or students at risk of dropping out.

(b) Each high priority local education provider shall complete its initial practices assessment no later than June 30, 2010. Each priority local education provider shall complete its initial practices assessment no later than June 30, 2011. Following completion of the initial practices assessment, each high priority and priority local education provider shall review and update the practices assessment in accordance with timelines adopted by rule of the state board.

(c) Each local education provider that is not a high priority or priority local education provider is encouraged to conduct a practices assessment and to periodically review and update the practices assessment. A local education provider that chooses to conduct a practices assessment pursuant to this paragraph (c) shall comply with the provisions of subsection (4) of this section.

(d) If a high priority or priority local education provider has authorized one or more existing charter schools pursuant to article 30.5 of this title, each charter school shall conduct its own practices assessment in accordance with the deadlines specified in paragraph (b) of this subsection (1) and submit the assessment to the department pursuant to subsection (4) of this section. A practices assessment conducted by a charter school shall conform to the requirements specified in subsection (2) of this section.

(2) Each practices assessment, at a minimum, must address the high priority or priority local education provider's:

(a) Attendance and truancy reporting and enforcement policies and definitions;

(b) Risk factors and remedies applicable to students who are failing one or more courses, have experienced traumatic life events, or have lost academic interest or motivation and to students whose presence or actions are perceived to be detrimental to other students;

(c) Interaction with the judicial system in enforcing compulsory school attendance;

(d) Interaction with the juvenile justice system in:

(I) Assisting in administering juvenile diversion programs and coordinating supports for all students transitioning out of the juvenile justice system to aid in the continuation of the students' education, especially for those students involved in the juvenile justice system as a result of school-related violations of the local education provider's code of conduct or crimes committed on school property; and

(II) Coordinating with juvenile probation officers regarding school-related conditions of probation;

(e) Coordination with child welfare services, including but not limited to county departments of human or social services, facility schools, and other youth services providers;

(f) Grading policies;

(g) Policies for grade repetition and remediation;

(g.5) Practices relating to visual arts and performing arts education, including but not limited to the availability of courses in visual arts and performing arts, requirements for obtaining visual arts or performing arts course credits, the availability of extracurricular
activities that involve visual arts or performing arts, and the high priority or priority local education provider's relationships with nonprofit or for-profit community arts organizations;

(h) Course completion requirements and policies; and
(i) Policies and practices relating to:
(I) The use of individual career and academic plans;
(II) Addressing ethnicity, language, and cultural barriers between students' homes and school;
(III) English-language acquisition;
(IV) Student acquisition of behavioral, social, and emotional skills;
(V) Students' health-care needs;
(VI) Alternative and flexible educational strategies;
(VII) Family involvement and family support services;
(VIII) Expanded learning opportunity programs;
(IX) Staff development in implementing evidence-based strategies;
(X) Innovations to address barriers to school engagement and success;
(XI) Outreach services to re-engage students who drop out of school; and
(XII) Review and analysis of data regarding dropout rates, graduation rates, school completion rates, truancy rates, the number of students who are habitually truant, suspension rates, and expulsion rates.

(3) The office shall provide technical assistance to high priority local education providers to assist them in completing their practices assessments. The office may provide technical assistance to priority local education provider and to the extent practicable within available resources, the office shall provide a template, which includes any student data that is pertinent to the high priority or priority local education provider and to which the office has access, to assist the high priority or priority local education provider in preparing its practices assessment.

(4) Upon completing its practices assessment or any updates to the assessment, each high priority and priority local education provider shall transmit the assessment to the department for publication on the internet.

Cross references: For the legislative declaration in the 2010 act adding subsection (2)(g.5), see section 1 of chapter 233, Session Laws of Colorado 2010. For the legislative declaration in SB 18-092, see section 1 of chapter 38, Session Laws of Colorado 2018.

22-14-107. Student graduation and completion plans - adoption - evaluation. (1) (a)
Based on the completed practices assessment, by a date specified by rule of the state board, but not later than October 1, 2010, each high priority local education provider shall adopt a student graduation and completion plan for the schools operated or approved by the high priority local education provider. Each priority local education provider shall adopt a student graduation and completion plan by a date specified by rule of the state board, but not later than October 1, 2011.
Following adoption of the initial student graduation and completion plan, each high priority and priority local education provider shall review and update the student graduation and completion plan in accordance with timelines adopted by rule of the state board. In setting the dates for adoption of the initial student graduation and completion plans and the timelines for reviewing and updating the student graduation and completion plans, the state board shall ensure that the dates coincide with the dates by which each local education provider is required to adopt the plan required by its accreditation category or its annual performance review.

(b) Each local education provider that is not a high priority or priority local education provider is encouraged to adopt a student graduation and completion plan and to periodically review and update the plan. A local education provider that chooses to adopt a student graduation and completion plan pursuant to this paragraph (b) shall comply with the provisions of subsection (6) of this section.

(c) Notwithstanding any provision of paragraph (a) of this subsection (1) to the contrary, if a high priority or priority local education provider has authorized one or more existing charter high schools pursuant to article 30.5 of this title, each charter high school shall adopt its own student graduation and completion plan in accordance with the deadlines specified in paragraph (a) of this subsection (1) and submit the plan to the department pursuant to subsection (6) of this section. A student graduation and completion plan adopted by a charter high school shall conform to the requirements specified in subsection (2) of this section.

(2) At a minimum, each high priority and priority local education provider's student graduation and completion plan shall include:

(a) The percentage by which the high priority or priority local education provider anticipates reducing the student truancy rate and dropout rate and the timeline for achieving the reductions;

(b) The percentage by which the high priority or priority local education provider anticipates increasing the student attendance, graduation, and completion rates and the timeline for achieving the increases;

(c) Other objectives that the high priority or priority local education provider identifies that are designed to result in improved dropout prevention, improved student attendance, and improved student engagement and re-engagement within the schools operated or approved by the high priority or priority local education provider;

(d) The manner in which the high priority or priority local education provider will measure success in achieving the goals and objectives of the student graduation and completion plan;

(e) The manner in which school staff and parents will work together to address the risk factors and remedies for students; and

(f) A description of the supports that the high priority or priority local education provider will provide to a student who leaves a public school prior to graduation or completion, which supports, at a minimum, shall include an explanation of the educational alternatives available to the student to assist him or her in re-engaging in school and other information to assist with his or her transition into other educational settings, including but not limited to an adult basic education, general educational development, or English-as-a-second-language program, or into the workforce or job training.

(3) In designing its student graduation and completion plan, each high priority or priority local education provider is encouraged to:
(a) Include a variety of innovative dropout reduction efforts in the plan, including new schools and programs that provide educational environments that are specifically designed to promote student re-engagement, including policies and programs that create alternative pathways to high school graduation;

(a.5) Expand the availability of visual arts and performing arts courses and opportunities through the regular school curriculum and through increased access to extracurricular activities, including but not limited to entering into agreements with nonprofit or for-profit community arts organizations to provide expanded visual arts and performing arts educational programs; and

(b) Review existing supports and resources that the high priority or priority local education provider may leverage to support implementation of the plan, including but not limited to grants for expelled and at-risk student services available pursuant to section 22-33-205, grants available through the school counselor corps grant program created in article 91 of this title, assistance available through the closing the achievement gap program pursuant to section 22-7-611, and federal moneys available pursuant to the "Safe and Drug-free Schools and Communities Act", 20 U.S.C. sec. 7101 et seq.

(4) Each high priority or priority local education provider, in adopting its student graduation and completion plan, shall also adopt a process by which annually to review and evaluate the effectiveness of the plan. Each high priority or priority local education provider that is a school district shall include its practices assessment and its student graduation and completion plan with the plan the school district is required to adopt based on its accreditation category.

(5) The office shall provide technical assistance to high priority local education providers to assist them in completing their student graduation and completion plans. The office may provide technical assistance to priority local education providers as allowable within available appropriations.

(6) Upon adopting its student graduation and completion plan or any updates to the plan, each high priority or priority local education provider shall transmit the plan to the department for publication on the internet.

(7) (a) Beginning in the 2011-12 academic year, the office shall annually evaluate each high priority local education provider's student graduation and completion plan as part of the accreditation review process. The office shall evaluate the components of each student graduation and completion plan, the high priority local education provider's implementation of the plan, and the results achieved. In evaluating the student graduation and completion plans, the office shall generally ensure that the high priority local education provider applies best practices and strategies and employs rigorous ongoing program evaluation and oversight in implementing the plan. On completion of the evaluation, the office may provide recommendations to the high priority local education provider concerning improvements in the plan design and implementation.

(b) The office may evaluate, as described in paragraph (a) of this subsection (7), the student graduation and completion plans of priority local education providers as allowable within available appropriations.

Cross references: For the legislative declaration in the 2010 act amending subsection (3)(a) and adding subsection (3)(a.5), see section 1 of chapter 233, Session Laws of Colorado 2010.

22-14-108. Local education provider - notice to parent of dropout status. (1) Each local education provider shall adopt and implement policies and procedures pursuant to which the local education provider or the public school in which the student was enrolled shall notify a student's parent if the student drops out of school, even if the student is not subject to the compulsory attendance requirement specified in section 22-33-104. The local education provider shall develop the policies and procedures with the goal of encouraging the student to re-enroll in school and of conveying to the student's parent the long-term ramifications to the student of dropping out of school.

(2) At a minimum, the policies and procedures shall specify the time frames by which the local education provider or the public school in which the student was enrolled shall notify the student and his or her parent and shall require the personnel at the public school to attempt to meet in person with the student and his or her parent.

(3) At a minimum, the notice shall include written notification of the student's dropout status and an explanation of the educational alternatives available to the student to assist him or her in re-engaging in school.

22-14-109. Student re-engagement grant program - rules - application - grants - report. (1) There is hereby created within the department the student re-engagement grant program to provide grant money to local education providers to use in providing educational services and supports, including work-based learning, to students to maintain student engagement and support student re-engagement in high school. Subject to available appropriations, the state board shall award student re-engagement grants to local education providers from money appropriated pursuant to subsection (4) of this section.

(2) The state board shall adopt rules pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., for implementing the grant program. At a minimum, the rules shall include:

(a) Timelines and procedures by which a local education provider may apply for a grant;
(b) The information to be included on grant applications, including at a minimum:
(I) The local education provider's plan for providing educational services, including social and emotional support services;
(II) A description of the services to be provided;
(III) The estimated cost of providing the services;
(IV) The criteria the local education provider will apply to measure the effectiveness of the services provided; and
(V) A description of the local education provider's policies and practices related to:
(A) Course completion and credit recovery;
(B) Attendance and behavior improvements;
(C) Alternative and flexible learning strategies;
(D) Safe and welcoming school environments;
(E) Student social and emotional supports;
(F) Family engagement and family support strategies;
(G) Staff development;
(H) Innovations to address barriers to school engagement and success;
(I) Transference of student records to and receipt of student records from other local education providers; and
(J) Student participation in and the availability of visual arts and performing arts education.

(3) Each local education provider that seeks to receive a grant pursuant to this section shall submit an application to the department in accordance with the rules adopted by the state board. The department shall review the grant applications received and recommend grant recipients and grant amounts to the state board. The state board shall annually award grants through the grant program based on the department's recommendations.

(4) The general assembly may annually appropriate money to the department to implement the student re-engagement grant program created in this section, including money from the marijuana tax cash fund created in section 39-28.8-501. In addition, the department may accept and expend gifts, grants, or donations from private or public sources for the purposes of the program; except that the department may not accept a gift, grant, or donation if it is subject to conditions that are inconsistent with this article 14 or any other law of the state.

(5) (a) On or before February 15, 2011, and on or before February 15 each year thereafter, the department shall evaluate the student re-engagement services provided by each local education provider that received a grant pursuant to this section in the preceding fiscal year; except that the department need not provide an evaluation for any fiscal year in which grants were not awarded. At a minimum, the department shall review:
(I) The outcomes and effectiveness of the services provided as measured by the demonstrated degree of student re-engagement;
(II) The academic growth of students who received services as a result of the grant, to the extent the information is available;
(III) The reduction in the dropout rate; and
(IV) The increase in the graduation and completion rates for the grant recipients' schools.
(b) The department shall report the evaluation results to the education committees of the senate and the house of representatives, or any successor committees, in conjunction with the report submitted pursuant to section 22-14-111.

Editor's note: Section 20(4) of chapter 151 (SB 19-246), Session Laws of Colorado 2019, provides that the act changing this section takes effect only if HB 19-1276 does not become law. HB 19-1276 did not become law.
Cross references: For the legislative declaration in the 2010 act amending subsections (2)(b)(V)(H) and (2)(b)(V)(I) and adding subsection (2)(b)(V)(J), see section 1 of chapter 233, Session Laws of Colorado 2010. For the legislative declaration in HB 15-1367, see section 1 of chapter 271, Session Laws of Colorado 2015. For the legislative declaration in HB 18-1369, see section 1 of chapter 253, Session Laws of Colorado 2018. For the legislative declaration in SB 22-140, see section 1 of chapter 357, Session Laws of Colorado 2022.

22-14-109.5. Ninth-grade success grant program - created - criteria - use of grant money - report - rules - definitions - repeal. (1) As used in this section, unless the context otherwise requires:
   (a) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22 or an institute charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.
   (b) "Program" means the ninth-grade success grant program created in this section.
   (c) "Small rural school district" means a school district in Colorado that the department determines is rural based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area, and that enrolls fewer than one thousand students in kindergarten through twelfth grade.
   (d) "Student group" has the same meaning as provided in section 22-11-103.
   (e) "Success team" means a cross-disciplinary team of ninth-grade teachers and support staff as described in subsection (5) of this section.
(2) (a) There is created in the department the ninth-grade success grant program to provide funding to local education providers and charter schools to implement a ninth-grade success program, as described in subsection (5) of this section, to assist students enrolled in ninth grade to develop the skills they need to successfully persist to high school graduation and succeed in their education and professional careers.
   (b) Notwithstanding any provision of this section to the contrary, an alternative education campus designated pursuant to section 22-7-604.5 may not apply for or receive money or services through a grant awarded pursuant to this section.
(3) (a) A local education provider or charter school that serves students enrolled in grades nine through twelve and that chooses to apply for a grant through the program must submit a grant application to the department in accordance with rules adopted by the state board. A local education provider or charter school that is selected to receive a grant must, as a condition of accepting the grant, provide a grant match, which may include in-kind contributions, in an amount set by the state board, which amount must not exceed:
   (I) Fifteen percent of the grant amount for a local education provider that is a small rural school district or for a charter school; and
   (II) Twenty-five percent of the grant amount for all other local education providers.
   (b) A grant application at a minimum must include:
      (I) The applicant's four-year graduation rate for the three preceding school years;
      (II) Whether the applicant has a data system that allows school leaders and teachers real-time access to integrated data concerning a student's behavior, attendance, and grades and allows comparison of the data across demographic categories and student groups;
      (III) For a local education provider, designation of the schools in which the local education provider will use the grant money to implement ninth-grade success teams.
(IV) Indication of the applicant's ability to provide the required grant match and any type and value of in-kind contribution that the applicant may provide; and

(V) Any additional information required by rule of the state board that assists the department in determining the likelihood that, in implementing the success teams, the applicant will be successful in improving the success of students enrolled in ninth grade.

(4) (a) The department shall review each of the applications received pursuant to this section and recommend to the state board applicants to receive grants and the amount, duration, and grant match amount of each recommended grant. Beginning in the 2019-20 budget year, the state board, subject to available appropriations, shall award the grants, taking into consideration the recommendations of the department. In awarding a grant, the state board shall specify the amount and duration of the grant and the amount of the grant match, including any type of in-kind contribution, that the grant recipient must provide.

(b) The department and the state board, in recommending and awarding grants, shall prioritize applicants that:

(I) Have a four-year graduation rate that, over the preceding three school years, has consistently ranked within the lowest twenty percent of the four-year graduation rates for public high schools in the state;

(II) Propose programming focused on evidence-informed, as defined in section 22-2-146.6, mathematics skills, intervention strategies, and acceleration strategies, including a focus on students who are below grade level or struggling in mathematics; and

(III) Have academic achievement levels in mathematics that are consistently ranked the lowest for public high schools in the state, as determined by the department.

(c) To the extent practicable, the state board shall also ensure that the grant recipients vary in student population size and are located in urban, suburban, and rural areas throughout the state.

(d) The department shall not use more than five percent of state funds to administer the grant program.

(5) A local education provider or charter school that receives a grant through the program must use the grant money to implement a ninth-grade success program that, at a minimum, must include the following elements:

(a) (I) Creating and implementing a cross-disciplinary success team of ninth-grade teachers and support staff, which must include at least one school counselor, school mental health professional, or school social worker. To the extent practicable, a success team must include all of the ninth-grade teachers who teach core courses, as defined in section 22-11-503.5. The local education provider or charter school shall designate a member of the success team to serve as the success team leader and reduce the team leader's workload to a level that allows the team leader sufficient time to complete the leadership duties, which include team logistics, preparing team meeting agendas, and facilitating team meetings.

(II) The success team must meet at least every two weeks, to the extent practicable, throughout the school year to collaborate on identifying and implementing strategies to improve outcomes for ninth-grade students who are found to be at risk of dropping out of school before graduation and to address systems-level barriers to success for all ninth-grade students. The strategies must be informed by data concerning, at a minimum, ninth-grade students' behavior, attendance, and grades across demographic categories and student groups. The local education
provider or charter school shall allow success team members time during the work day for planning and collaboration or provide incentives to meet outside of the work day.

(b) Organizing the school staff to ensure that, to the extent practicable, the ninth-grade classes are taught by a single group of teachers who teach only or mostly ninth-grade classes;

(c) Implementing a data system that provides real-time access to integrated data concerning a student's behavior, attendance, and grades and provides the ability to compare the data across demographic categories and student groups;

(d) Identifying and prioritizing services, such as work-based learning, for ninth-grade students who are at risk of academic failure in ninth grade;

(e) Providing instructional support for ninth-grade students including attendance support, content-specific academic interventions, tutoring, course-completion programs, social-emotional learning, and trauma-informed instruction;

(f) Ensuring that school leadership, guidance counselors, and key members of the success team receive and review data on all incoming ninth-grade students and plan course work and supports for the students based on the data received;

(g) Ensuring that all ninth-grade teachers receive data concerning the incoming ninth-grade students before the start of the school year and receive professional development concerning how to use the data to inform instruction for the students. To the extent possible, the local education provider or charter school shall ensure that middle school teachers provide information to ninth-grade teachers concerning the incoming ninth-grade students.

(h) Providing summer orientation for incoming ninth-grade students and their parents to introduce students to the behavioral and academic expectations of high school; and

(i) Evaluating with rigor the impact of the interventions provided through the ninth-grade success program on student attendance, behavior, course completion, academic results, discipline rates, teacher surveys, student surveys, dropout rates, and graduation rates as the information becomes available for ninth-grade students who receive interventions through the program.

6) The general assembly may annually appropriate money to the department to implement the program, including money from the marijuana tax cash fund created in section 39-28.8-501. In addition, the department may accept and expend gifts, grants, or donations from private or public sources for the purposes of the program; except that the department may not accept a gift, grant, or donation if it is subject to conditions that are inconsistent with this article or any other law of the state.

7) (a) Each local education provider and charter school that receives a grant through the program shall submit to the department, in accordance with the reporting timelines specified in rules of the state board, information concerning the implementation of the ninth-grade success program and the evaluation of the impact, as described in subsection (5)(i) of this section, in total and disaggregated by student group. The department shall specify the information to be reported to enable the department to prepare the report required in subsection (7)(b) of this section.

(b) On or before March 15, 2022, and on or before March 15 each year thereafter, the department shall prepare and submit to the state board and to the education committees of the house of representatives and the senate, or any successor committees, a report of the ninth-grade success programs implemented using grants received through the program. At a minimum, the report shall:
(I) Specify the grant recipients and the amount and duration of the grants awarded;

(II) Describe the ninth-grade success programs that are implemented using the grant money; and

(III) Provide a summary of the evaluations of the impact of the interventions provided through the ninth-grade success programs, as described in subsection (5)(i) of this section, in total and disaggregated by student group.

(c) Notwithstanding the requirement in section 24-1-136 (11)(a)(I), the report required in subsection (7)(b) of this section continues indefinitely.

(7.5) For the 2023-24 budget year, the general assembly shall appropriate one million six hundred thousand dollars from the general fund to the department for purposes of the program.

(8) This section is repealed, effective July 1, 2025.

Editor's note: Section 20(4) of chapter 151 (SB 19-246), Session Laws of Colorado 2019, provides that the act adding this section takes effect only if HB 19-1276 does not become law. HB 19-1276 did not become law.

Cross references: For the legislative declaration in SB 22-140, see section 1 of chapter 357, Session Laws of Colorado 2022.

22-14-110. State board - rules. (1) The state board shall promulgate, pursuant to the "State Administrative Procedure Act", article 4 of title 24, such rules as may be necessary to implement the provisions of this article 14. At a minimum, the rules must include:

(a) The rules required pursuant to section 22-14-103 (4) to establish criteria for identifying high priority and priority local education providers;

(b) The rules required pursuant to section 22-14-109 for the student re-engagement grant program;

(b.5) The rules required pursuant to section 22-14-109.5 for the ninth-grade success grant program; and

(c) Rules to define and calculate the following rates:

(I) The student dropout rate;

(II) The graduation rate;

(III) The completion rate;

(IV) The student re-engagement rate;

(V) The truancy rate;

(VI) The student mobility rate;

(VII) The student suspension rate; and

(VIII) The student expulsion rate.

(2) To the extent the state board, as of May 21, 2009, has already promulgated any of the rules specified in subsection (1) of this section, the state board shall review said rules and determine whether they should be revised based on the provisions of this article.
22-14-111. Report to general assembly, state board, and governor - exception to three-year expiration. (1) On or before February 15, 2010, through February 15, 2016, and on or before March 15, 2017, and on or before March 15 each year thereafter, the office shall submit to the state board, to the education committees of the senate and the house of representatives, or any successor committees, and to the governor a report making state policy findings and recommendations to reduce the student dropout rate and increase the student graduation and completion rates. At a minimum, in preparing the findings and recommendations, the office shall:

(a) Consider which state statutes and rules may be appropriately amended to provide incentives and support for and remove barriers to reducing the student dropout rate and increasing the student graduation and completion rates, including but not limited to statutes and rules pertaining to funding for local education providers' operating costs, funding for categorical programs, and truancy;

(b) Consider research-based dropout prevention and student engagement and re-engagement strategies;

(c) Determine the amount of state moneys spent on reducing the dropout rates in schools operated or approved by local education providers in the preceding fiscal year and determine the effects of those expenditures; and

(d) Consult with the persons specified in section 22-14-104 (2).

(2) Beginning with the report submitted pursuant to this section on February 15, 2012, the office shall add to the report a summary of the actions taken by local education providers statewide to reduce the student dropout rate and increase the graduation and completion rates and the progress made in achieving these goals. At a minimum, the summary shall include:

(a) A summary and evaluation of the student graduation and completion plans adopted by the local education providers;

(b) A list of the local education providers whose schools have experienced the greatest decrease in student dropout rates and the greatest increase in student graduation and completion rates in the state in the preceding academic year;

(c) Identification of local education providers and public schools that are achieving the goals and objectives specified in their student graduation and completion plans and those that are not achieving their goals and objectives;

(d) Explanation of the actions taken and strategies implemented by the local education providers with the highest student dropout rates to reduce those rates and by the local education providers with the lowest student graduation and completion rates to increase those rates;

(e) Identification of the local education providers that have demonstrated the greatest improvement in reducing their student dropout rates and increasing their student graduation and
completion rates and descriptions of the actions taken and strategies implemented by the local education providers operating or approving these schools to achieve these improvements; and

(f) An evaluation of the overall progress across the state in meeting the goals specified in section 22-14-101 for reducing the student dropout rate and increasing the student graduation and completion rates.

(3) Notwithstanding the provisions of section 24-1-136 (11), C.R.S., the reporting requirements specified in this article shall not expire but shall continue to be required until repealed by the general assembly.

ARTICLE 15

Interim Committee on School Safety and Youth in Crisis

22-15-101. (Repealed)

Editor's note: (1) This article was added in 2015. For amendments to this article prior to its repeal in 2019, consult the 2018 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

(2) Section 22-15-101 provided for the repeal of this article, effective July 1, 2019. (See L. 2015, p. 1042.)

ARTICLE 16

Student Data Transparency and Security

22-16-101. Short title. The short title of this article is the "Student Data Transparency and Security Act".

22-16-102. Legislative declaration. The general assembly recognizes that, with the increasing use of technology in education, it is imperative that information that identifies individual students and their families is vigilantly protected from misappropriation and misuse that could harm students or their families. The general assembly also finds, however, that there are many positive ways in which a student's personally identifiable information may be used to improve the quality of the education the student receives and to positively impact the educational and career outcomes that the student achieves. The general assembly finds, therefore, that student data can be both protected and positively applied by increasing the level of transparency regarding, and specifying and enforcing limitations on, the collection, use, storage, and destruction of student data.
**22-16-103. Definitions.** As used in this article, unless the context otherwise requires:

1. "Aggregate data" means data collected and reported at the group, cohort, or institutional level that is aggregated using protocols that are effective for preserving the anonymity of each individual included in the data.
2. "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
3. "Destroy" means to remove student personally identifiable information so that it is permanently irretrievable in the normal course of business.
4. "Local education provider" means a school district, a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title, a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title, or a board of cooperative services created and operating pursuant to article 5 of this title that operates one or more public schools.
5. "Parent" means a student's biological or adoptive parent or the student's legal guardian.
6. "Public education entity" means the department, a local education provider, the state charter school institute established in section 22-30.5-503, or a public school.
7. (a) "School service" means an internet website, online service, online application, or mobile application that:
   - (I) Is designed and marketed primarily for use in a preschool, elementary school, or secondary school;
   - (II) Is used at the direction of teachers or other employees of a local education provider; and
   - (III) Collects, maintains, or uses student personally identifiable information.
   (b) "School service" does not include an internet website, online service, online application, or mobile application that is designed and marketed for use by individuals or entities generally, even if it is also marketed to a United States preschool, elementary school, or secondary school.
8. "School service contract provider" or "contract provider" means an entity, other than a public education entity or an institution of higher education, that enters into a formal, negotiated contract with a public education entity to provide a school service.
9. "School service on-demand provider" or "on-demand provider" means an entity, other than a public education entity, that provides a school service on occasion to a public education entity, subject to agreement by the public education entity, or an employee of the public education entity, to standard, non-negotiable terms and conditions of service established by the providing entity.
10. "Small rural school district" means a school district that the department identifies as rural, based on the geographic size of the school district and the distance of the school district from the nearest large, urbanized area, and that enrolls fewer than one thousand students in kindergarten through twelfth grade.
11. "State board" means the state board of education created in section 1 of article IX of the state constitution.
(12) "Student data system" means the Colorado department of education student data collection system.

(13) "Student personally identifiable information" means information that, alone or in combination, personally identifies an individual student or the student's parent or family, and that is collected, maintained, generated, or inferred by a public education entity, either directly or through a school service, or by a school service contract provider or school service on-demand provider.

(14) "Targeted advertising" means selecting and sending advertisements to a student based on information obtained or inferred over time from the student's online behavior, use of applications, or personally identifiable information. "Targeted advertising" does not include:

(a) Advertising to a student:
   (I) At an online location based on the student's current visit to that location or in response to the student's request for information or feedback; and
   (II) Without the collection and retention of a student's online activities over time;

(b) Adaptive learning, personalized learning, or customized education;

(c) With the consent of a student or the student's parent, using the student's personally identifiable information to identify for the student institutions of higher education or scholarship providers that are seeking students who meet specific criteria.

(15) "Unique student identifier" means the number assigned by the department pursuant to section 22-16-105 (1) to each student enrolled in a public school.

(16) "Vendor" means a business or other organization with which a public education entity contracts for a product or service. "Vendor" includes a school service contract provider.

Editor's note: This section is similar to former § 22-2-309 (2) as it existed prior to 2016.

22-16-104. State board of education - duties - rules. (1) The state board shall:

(a) Create, publish, and make publicly available a data inventory and dictionary or index of data elements with definitions of individual student data fields used in the student data system including:
   (I) Individual student personally identifiable information that school districts and public schools are required to report by state and federal education mandates; and
   (II) Individual student personally identifiable information that is proposed for inclusion in the student data system with a statement regarding the purpose or reason for the proposed collection and the use of the collected data;

(b) Develop, publish, and make publicly available policies and procedures to comply with the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, and other relevant privacy laws and policies, including but not limited to policies that restrict access to student personally identifiable information in the student data system to:
   (I) The authorized staff of the department that require access to perform assigned or contractual duties, including staff and contractors from the office of information and technology that are assigned to the department;
II. The department's contractors that require access to perform assigned or contractual duties that comply with the requirements specified in paragraph (g) of this subsection (1);

III. School district administrators, teachers, and school personnel who require access to perform assigned duties;

IV. Students and their parents; and

V. The authorized staff of other state agencies, including public institutions of higher education, as required by law or defined by interagency data-sharing agreements;

(c) Develop user-friendly information for the public related to the department's data-sharing agreements that is posted on the department's website as provided in section 22-16-105 (4);

(d) Develop a detailed data security plan that includes:

   I. Guidance for authorizing access to the student data system and to individual student personally identifiable information, including guidance for authenticating authorized access;

   II. Privacy compliance standards;

   III. Privacy and security audits;

   IV. Security breach planning, notice, and procedures;

   V. Student personally identifiable information retention and destruction policies, which must include specific requirements for identifying when and how the student personally identifiable information will be destroyed;

   VI. Guidance for school districts and staff regarding student personally identifiable information use;

   VII. Consequences for security breaches; and

   VIII. Staff training regarding the policies;

(e) Ensure routine and ongoing compliance by the department with the federal "Family Educational Rights and Privacy Act of 1974", 20 U.S.C. sec. 1232g, other relevant privacy laws and policies, and the privacy and security policies and procedures developed under the authority of this article, including the performance of compliance audits;

(f) Ensure that agreements involving the disclosure of student personally identifiable information for research conducted on behalf of the department to develop, validate, or administer predictive tests; administer student aid programs; or improve instruction must:

   I. Specify the purpose, scope, and duration of the study or studies and the information to be disclosed;

   II. Require the entity, and any subcontractors or employees of the entity, to use student personally identifiable information from education records only to meet the purpose or purposes of the study as stated in the written agreement;

   III. Require the entity, and any subcontractors or employees of the entity, to conduct the study in a manner that does not permit access to the student personally identifiable information of parents and students by anyone other than representatives of the entity with legitimate interests;

   IV. Require the entity, and any subcontractors or employees of the entity, to destroy all student personally identifiable information when the information is no longer needed for the purposes for which the study was conducted and to specify the time period in which the information must be destroyed; and

   V. The authorized staff of other state agencies, including public institutions of higher education, as required by law or defined by interagency data-sharing agreements.
(V) Require the entity, and any subcontractors or employees of the entity, to comply with the requirements specified in sections 22-16-109 (1), (2), and (3)(b) and 22-16-110 (1) and (3) that are imposed on school service contract providers;

(g) Develop requirements that any department contracts that affect databases, assessments, or instructional supports that include student personally identifiable information and are outsourced to vendors include express provisions that safeguard privacy and security, including specifying that student personally identifiable information may be used only for the purpose specified in the contract and must be destroyed when no longer needed for the purpose specified in the contract; specifying the time period in which the information must be destroyed; prohibiting further disclosure of the student personally identifiable information or its use for commercial purposes that are outside the scope of the contract; and specifying penalties for noncompliance, which must include termination of the contract as required in section 22-16-105 (5); and

(h) Promulgate rules as necessary to implement the provisions of this article.

Editor's note: This section is similar to former § 22-2-309 (3) as it existed prior to 2016.

22-16-105. Department of education - duties. (1) The department shall assign to each student who is enrolled in a public school a unique student identifier that must neither be nor include the social security number of a student in whole or in sequential part.

(2) (a) The department shall develop a process to consider and review all outside requests for student personally identifiable information, other than aggregate student information already publicly available, by individuals not employed by the state who seek to conduct research using school system data or student personally identifiable information already collected by the department. The department shall implement the process subject to approval by the state board.

(b) (I) Before allowing an individual to receive student personally identifiable information for research purposes, the department must enter into an agreement with the individual that includes the entity that sponsors the individual or with which the individual is affiliated. At a minimum, the agreement must include the items specified in section 22-16-104 (1)(f) and require the individual to comply with the requirements specified in sections 22-16-109 (1), (2), and (3)(b) and 22-16-110 (1) and (3) that are imposed on school service contract providers.

(II) The provisions of this paragraph (b) do not apply to an individual who is seeking only aggregate student information. For each request for aggregate student information, the department shall determine whether the size of the group, cohort, or institution is too small to preserve the anonymity of the individuals included in the data, in which case the student data does not qualify as aggregate data.

(III) Notwithstanding the provisions of subparagraph (I) of this paragraph (b), an individual who conducts research through an institution of higher education may demonstrate to the department compliance with the institution review board practices and requirements, as regulated by federal law, in lieu of the terms specified in section 22-16-104 (1)(f).
(c) The department may enter into a data-sharing agreement with a public institution of higher education to allow the sharing of student personally identifiable information for the purpose of satisfying requirements imposed on the public institution of higher education by the institution's accrediting body. At a minimum, the data-sharing agreement must include the items specified in section 22-16-104 (1)(f) and require the public institution of higher education to comply with the requirements specified in sections 22-16-109 (1), (2), and (3)(b) and 22-16-110 (1) and (3) that are imposed on school service contract providers. For purposes of these requirements, the accrediting body is considered a subcontractor of the public institution of higher education.

(3) (a) The department shall not require a local education provider to provide student personally identifiable information that is not required by state or federal law; except that it may require student personally identifiable information not mandated by state or federal law that is associated with a grant proposal, or the department may ask a local education provider to voluntarily submit data or information as a condition of receiving a benefit, such as grant funding or special designations.

(b) Unless required by state or federal law, the department shall not collect:
   (I) Juvenile delinquency records;
   (II) Criminal records;
   (III) Medical and health records;
   (IV) Student social security numbers;
   (V) Student biometric information; and
   (VI) Information concerning the political affiliations or the beliefs or attitudes of students and their families.

(c) Unless otherwise approved by the state board, the department shall not transfer student personally identifiable information to a federal, state, or local agency or other entity, which agency or entity is outside of the state, except under the following circumstances:
   (I) If a student transfers to an education entity in state or out of state or if a school or school district seeks help in locating a student who transfers out of state;
   (II) If a student seeks to enroll in or to attend an out-of-state institution of higher education or training program;
   (III) If a student participates in a program or assessment for which a data transfer is a condition of participation;
   (IV) If a student is classified as "migrant" for federal reporting purposes;
   (V) If the department enters into a contract with an out-of-state vendor or researcher that affects databases, assessments, special education, or instructional support related to an audit or evaluation of federal- or state-supported education programs; for the enforcement of or compliance with federal legal requirements that relate to those programs; or for conducting studies for or on behalf of the department to develop, validate, or administer predictive tests, administer student aid programs, or improve instruction; or
   (VI) If the disclosure is to comply with a judicial order or lawfully issued subpoena or in connection with a health or safety emergency.

(d) The department shall not sell, trade, gift, or monetize student personally identifiable information for commercial use or investment interests.

(4) The department shall publish and maintain on its website a list of all of the entities or individuals, including but not limited to vendors, individual researchers, research organizations,
institutions of higher education, and government agencies, that the department contracts with or has agreements with and that hold student personally identifiable information and a copy of each contract or agreement. The list must include:

(a) The name of the entity or individual. In naming an individual, the list must include the entity that sponsors the individual or with which the individual is affiliated, if any. If the individual is conducting research at an institution of higher education, the list may include the name of the institution of higher education and a contact person in the department that is associated with the research in lieu of the name of the researcher.
(b) The purpose and scope of the contract or agreement;
(c) The duration of the contract or agreement;
(d) The types of student personally identifiable information that the entity or individual holds under the contract or agreement;
(e) The use of the student personally identifiable information under the contract; and
(f) The length of time for which the entity or individual may hold the student personally identifiable information.

5 (a) The department shall ensure that the terms of each contract that the department enters into or renews with a school service contract provider on and after August 10, 2016, at a minimum, require the contract provider to comply with the requirements in sections 22-16-108 to 22-16-110. If the contract provider commits a material breach of the contract that involves the misuse or unauthorized release of student personally identifiable information, the department shall determine whether to terminate the contract in accordance with a policy adopted by the state board. At a minimum, the policy must require the state board, within a reasonable time after the department identifies the existence of a material breach, to hold a public hearing that includes discussion of the nature of the material breach, an opportunity for the contract provider to respond concerning the material breach, public testimony, and a decision as to whether to direct the department to terminate or continue the contract.

(b) The department shall ensure that the terms of each contract or other agreement that the department enters into or renews on and after August 10, 2016, which contract or agreement includes access to or use of student personally identifiable information by an individual or entity other than a contract provider, at a minimum, require the individual or entity to comply with the requirements in sections 22-16-109 (1), (2), and (3)(b) and 22-16-110 (1) and (3). If the individual or entity commits a material breach of the contract or agreement that involves the misuse or unauthorized release of student personally identifiable information, the department shall determine whether to terminate the contract or agreement in accordance with the state board policy described in paragraph (a) of this subsection (5).

(c) Notwithstanding any provision of law to the contrary, on and after August 10, 2016, the department shall not enter into or renew:

(I) A contract with a school service contract provider that refuses to accept the terms specified in paragraph (a) of this subsection (5) or that has substantially failed to comply with one or more of the requirements in sections 22-16-108 to 22-16-110; or

(II) A contract or other agreement, which includes access to or use of student personally identifiable information, with an individual or entity other than a contract provider, that refuses to accept the terms specified in paragraph (b) of this subsection (5) or that has substantially failed to comply with one or more of the requirements in section 22-16-109 (1), (2), or (3)(b) or 22-16-110 (1) or (3).
22-16-106. Department - support for local education providers. (1) The department shall develop data security guidance that may be used by local education providers. The department's data security guidance must include:
   (a) Guidance for authorizing access to the student data system and to student personally identifiable information, including guidance for authenticating authorized access;
   (b) Privacy compliance standards;
   (c) Best practices for privacy and security audits;
   (d) Security breach planning, notice, and procedures;
   (e) Data retention and destruction procedures;
   (f) Data collection and sharing procedures;
   (g) Recommendations that any contracts that affect databases, assessments, or instructional supports that include student personally identifiable information and are outsourced to vendors include express provisions that safeguard privacy and security and include penalties for noncompliance;
   (h) Best security practices for privacy when using online education services, including websites and applications;
   (i) Guidance for contracts involving the outsourcing of educational services;
   (j) Guidance for contracts involving online education services;
   (k) Guidance for publishing a list of vendors that local education providers contract with that hold student personally identifiable information;
   (l) Consequences for security breaches; and
   (m) Examples of staff training regarding the procedures.
(2) Based on the data security guidance adopted pursuant to subsection (1) of this section, on or before March 1, 2017, the department shall create and make available to local education providers a sample student information privacy and protection policy. The department shall annually review the sample policy and revise it as necessary to ensure that it remains current and adequate to protect the privacy of student personally identifiable information in light of advances in data technology and dissemination. At a minimum, the sample policy must include protocols for:
   (a) Creating and maintaining a student data index;
   (b) Retaining and destroying student personally identifiable information;
   (c) Using student personally identifiable information for purposes internal to a local education provider;
   (d) Preventing breaches in the security of student personally identifiable information and for responding to any security breaches that occur;
   (e) Contracting with school service contract providers and using school services provided by school service on-demand providers;
   (f) Disclosing student personally identifiable information to school service contract providers, school service on-demand providers, or other third parties;
(g) Notifying parents regarding collection of, retention of, and access to student personally identifiable information; and

(h) Providing training in student information security and privacy to employees of a local education provider.

(3) The department shall prepare and make available to local education providers sample contract language for use in contracting with school service contract providers. The department shall update the sample contract language as necessary to ensure that it remains current and adequate to protect the privacy of student personally identifiable information in light of advances in data technology and dissemination.

(4) The department shall identify and make available to local education providers resources that the local education providers may use in training employees with regard to student information security and privacy. At the request of a local education provider, the department shall provide training related to student information security and privacy.

(5) If the department receives notice that a local education provider has ceased using a school service on-demand provider for reasons described in section 22-16-107 (3), the department shall post the notice on the department's website. The department shall also post any written response from an on-demand provider that the local education provider may submit. The department shall post the notices and written responses for twenty-four months following the date received.

Editor's note: This section is similar to § 22-2-309 (7) as it existed prior to 2016.

22-16-107. Local education provider - data collection - data security policy. (1) (a) Each local education provider shall post and maintain on its website clear information that is understandable by a layperson explaining the data elements of student personally identifiable information that the local education provider collects and maintains in the local education provider's data system, not including the student personally identifiable information that the local education provider transmits to the department. The list must explain how the local education provider uses and shares the student personally identifiable information. The local education provider shall include on its website a link to the data inventory and dictionary or index of data elements that the state board publishes as required in section 22-16-104 (1)(a).

(b) Each local education provider shall post and maintain on its website a list of the school service contract providers that the local education provider contracts with and a copy of each contract.

(2) (a) Each local education provider shall ensure that the terms of each contract that the local education provider enters into or renews with a school service contract provider on and after August 10, 2016, at a minimum, require the contract provider to comply with the requirements in sections 22-16-108 to 22-16-110. If the contract provider commits a material breach of the contract that involves the misuse or unauthorized release of student personally identifiable information, the local education provider shall determine whether to terminate the contract in accordance with a policy adopted by the governing body of the local education provider. At a minimum, the policy must require the governing body, within a reasonable time
after the local education provider identifies the existence of a material breach, to hold a public
hearing that includes discussion of the nature of the material breach, an opportunity for the
contract provider to respond concerning the material breach, public testimony, and a decision as
to whether to direct the local education provider to terminate or continue the contract.

(b) On and after August, 10, 2016, a local education provider shall not enter into or
renew a contract with a school service contract provider that refuses to accept the terms specified
in paragraph (a) of this subsection (2) or that has substantially failed to comply with one or more
of the requirements in sections 22-16-108 to 22-16-110.

(3) (a) Each local education provider shall post on its website, to the extent practicable, a
list of the school service on-demand providers that the local education provider or an employee
of the local education provider uses for school services. At a minimum, the local education
provider shall update the list of school service on-demand providers at the beginning and
mid-point of each school year. The local education provider, upon the request of a parent, shall
assist the parent in obtaining the data privacy policy of a school service on-demand provider that
the local education provider or an employee of the local education provider uses.

(b) If a parent has evidence demonstrating that a school service on-demand provider that
the local education provider or an employee of the local education provider uses does not
substantially comply with the on-demand provider's privacy policy or does not meet the
requirements specified in section 22-16-109 (2) or 22-16-110 (1), the parent may notify the local
education provider and provide the evidence for the parent's conclusion.

(c) If a local education provider has evidence demonstrating that a school service
on-demand provider does not substantially comply with the on-demand provider's privacy policy
or does not meet the requirements specified in section 22-16-109 (2) or 22-16-110 (1), the local
education provider is strongly encouraged to cease using or refuse to use the school service
on-demand provider and prohibit employees of the local education provider from using the
on-demand provider. The local education provider shall notify the on-demand provider that it is
ceasing or refusing to use the on-demand provider pursuant to this paragraph (c), and the
on-demand provider may submit a written response to the local education provider. The local
education provider shall publish and maintain on its website a list of any school service
on-demand providers that it ceases using or refuses to use for the reasons described in this
paragraph (c), with any written responses that it receives from the on-demand providers. The
local education provider shall notify the department if it ceases using an on-demand provider for
the reasons described in this paragraph (c) and provide a copy of any written response the
on-demand provider may submit.

(d) Each local education provider that uses on-demand school service providers shall
post on its website a notice to on-demand providers that, if the local education provider ceases
using or refuses to use an on-demand school service provider pursuant to paragraph (c) of this
subsection (3), the local education provider will post on its website the name of the on-demand
provider, with any written response that the on-demand provider may submit, and will notify the
department, which will post on its website the on-demand provider's name and any written
response.

(4) (a) On or before December 31, 2017, each local education provider shall adopt a
student information privacy and protection policy that, at a minimum, addresses the issues
specified in section 22-16-106 (1). The local education provider shall annually review the policy
and revise it as necessary to ensure that it remains current and adequate to protect student
personally identifiable information privacy in light of advances in data technology and dissemination.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (4), a local education provider that is a small rural school district shall adopt the student information privacy and protection policy by July 1, 2018.

(c) Each local education provider shall make copies of the student information privacy and protection policy available upon request to the parent of a student enrolled by the local education provider and shall post a current copy of the student information privacy protection policy on the local education provider's website.

22-16-108. School service contract provider - data transparency. (1) Each school service contract provider shall provide clear information that is understandable by a layperson explaining the data elements of student personally identifiable information that the school service contract provider collects, the learning purpose for which the school service contract provider collects the student personally identifiable information, and how the school service contract provider uses and shares the student personally identifiable information. The information must include all student personally identifiable information that the school service contract provider collects regardless of whether it is initially collected or ultimately held individually or in the aggregate. The school service contract provider shall provide the information to each public education entity that the school service contract provider contracts with in a format that is easily accessible through a website, and the public education entity shall post the information on its website. The school service contract provider shall update the information as necessary to maintain accuracy.

(2) Each school service contract provider shall provide clear notice to each public education entity that it contracts with before making material changes to its privacy policy for school services.

(3) Each school service contract provider shall facilitate access to and correction of any factually inaccurate student personally identifiable information by a contracting local education provider in response to a request for correction that the local education provider receives and responds to in accordance with section 22-16-112 (1)(c).

(4) Upon discovering the misuse or unauthorized release of student personally identifiable information held by the contract provider, a subcontractor of the contract provider, or a subsequent subcontractor, the contract provider shall notify the contracting public education entity as soon as possible, regardless of whether the misuse or unauthorized release is a result of a material breach of the terms of the contract.

22-16-109. School service contract provider - use of data. (1) (a) A school service contract provider may collect, use, and share student personally identifiable information only for the purposes authorized in the contract between the school service contract provider and a public
education entity or with the consent of the student who is the subject of the information or the student's parent.

(b) A school service contract provider must obtain the consent of the student or the student's parent before using student personally identifiable information in a manner that is materially inconsistent with the school service contract provider's privacy policy or materially inconsistent with the contract between the school service contract provider and the public education entity that applies to the collection of the student personally identifiable information.

(2) A school service contract provider shall not:

(a) Sell student personally identifiable information; except that this prohibition does not apply to the purchase, merger, or other type of acquisition of a school service contract provider, or any assets of a school service contract provider, by another entity, so long as the successor entity continues to be subject to the provisions of this article with respect to student personally identifiable information that the school service contract provider acquired while subject to the provisions of this article;

(b) Use or share student personally identifiable information for purposes of targeted advertising to students; or

(c) Use student personally identifiable information to create a personal profile of a student other than for supporting purposes authorized by the contracting public education entity or with the consent of the student or the student's parent.

(3) Notwithstanding any provision of paragraph (b) of subsection (1) or of subsection (2) of this section to the contrary:

(a) (I) A school service contract provider may use or disclose student personally identifiable information to:

(A) Ensure legal or regulatory compliance or to take precautions against liability;

(B) Respond to or participate in the judicial process;

(C) Protect the safety of users or others on the school service contract provider's website, online service, online application, or mobile application; or

(D) Investigate a matter related to public safety.

(II) If a school service contract provider uses or discloses student personally identifiable information as allowed in subparagraph (I) of this paragraph (a), the contract provider shall notify the contracting public education entity as soon as possible after the use or disclosure of the information.

(b) A school service contract provider may use, or disclose student personally identifiable information to, a subcontractor only if the school service contract provider contractually requires the subcontractor to comply with section 22-16-108, this section, and sections 22-16-110 and 22-16-111. The provisions of this paragraph (b) apply to the ability of an initial or subsequent subcontractor to further subcontract. If a public education entity determines that an initial or subsequent subcontractor has committed a material breach of the contract that involves the misuse or unauthorized release of student personally identifiable information, the public education entity shall comply with the requirements of section 22-16-105 (5)(a) or 22-16-107 (2)(a), as applicable; except that the public education entity is not required to consider terminating the contract if the school service contract provider terminates the contract with the subcontractor as soon as possible after the contract provider knows or has reason to know of the initial or subsequent subcontractor's material breach.
For purposes of this section and section 22-16-110, a student may consent to the use, sharing, or retention of the student's student personally identifiable information only if the student is at least eighteen years of age or legally emancipated.

22-16-110. School service contract provider - data security - data destruction. (1) Each school service contract provider shall maintain a comprehensive information security program that is reasonably designed to protect the security, privacy, confidentiality, and integrity of student personally identifiable information. The information security program must make use of appropriate administrative, technological, and physical safeguards.

(2) During the term of a contract between a school service contract provider and a public education entity, if the contracting public education entity requests destruction of a student's student personally identifiable information collected, generated, or inferred as a result of the contract, the contracting school service contract provider shall destroy the information as soon as practicable after the date of the request unless:

(a) The school service contract provider obtains the consent of the student or the student's parent to retain the student's student personally identifiable information; or

(b) The student has transferred to another public education entity and the receiving public education entity has requested that the school service contract provider retain the student's student personally identifiable information.

(3) Following the termination or conclusion of a contract between a school service contract provider and a public education entity, the school service contract provider shall, within the time period specified in the contract, destroy all student personally identifiable information collected, generated, or inferred as a result of the contract. If the contract does not specify a period for destruction of student personally identifiable information, the contract provider shall destroy the information when the information is no longer needed for the purpose of the contract between the contract provider and the public education entity. The contract provider shall notify the public education entity of the date upon which all of the student personally identifiable information is destroyed.

22-16-111. Use of data - exceptions - application of article. (1) Notwithstanding any provision of this article to the contrary, this article does not prohibit the use of student personally identifiable information to:

(a) Use adaptive learning or design personalized or customized education;

(b) Maintain, develop, support, improve, or diagnose a school service contract provider's website, online service, online application, or mobile application;

(c) Provide recommendations for school, educational, or employment purposes within a school service, so long as the response is not determined in whole or in part by payment or other consideration from a third party;
(d) Respond to a student's request for information or for feedback so long as the information or response is not determined in whole or in part by payment or other consideration from a third party;

(e) Identify for the student, only with the written consent of the student or the student's parent, institutions of higher education or scholarship providers that are seeking students who meet specific criteria, regardless of whether the identified institutions of higher education or scholarship providers provide consideration to the school service contract provider;

(f) In accordance with the terms of a contract between the school service contract provider and a public education entity, produce and distribute, free or for consideration, student class photos and yearbooks only to the public education entity, students, parents, or individuals authorized by parents; or

(g) Provide for the student, only with the express written consent of the student or the student's parent given in response to clear and conspicuous notice, access to employment opportunities, educational scholarships or financial aid, or postsecondary education opportunities, regardless of whether the school service contract provider receives consideration from one or more third parties in exchange for the student personally identifiable information. This exception applies only to school service contract providers that provide nationally recognized assessments that postsecondary institutions of higher education use in making admissions decisions.

(2) This article does not:

(a) Impose a duty on a provider of an interactive computer service, as defined in 47 U.S.C. sec. 230, to review or enforce compliance with this article by school service contract providers or school service on-demand providers;

(b) Impede the ability of a student to download, export, or otherwise save or maintain his or her own student personally identifiable information or documents;

(c) Limit internet service providers from providing internet connectivity to public schools or to students and their families;

(d) Prohibit a school service contract provider from marketing educational products directly to parents so long as the marketing does not result from the use of student personally identifiable information obtained by the school service contract provider as a result of providing its website, online service, online application, or mobile application; or

(e) Impose a duty on a provider of an electronic store, gateway, marketplace, or other means of purchasing or downloading software or applications to review or enforce compliance with this article on that software or those applications.

(3) The requirements specified in sections 22-16-108 to 22-16-110 apply to school service contract providers that enter into or renew contracts with public education entities on or after August 10, 2016.

22-16-112. Parent rights - complaint policy. (1) The parent of a student enrolled by a local education provider has the right:

(a) To inspect and review his or her child's student personally identifiable information maintained by the local education provider;
(b) To request from the local education provider a paper or electronic copy of his or her child's student personally identifiable information, including student personally identifiable information maintained by a school service contract provider. If a parent requests an electronic copy of the parent's child's student personally identifiable information, the local education provider shall provide an electronic copy of the student personally identifiable information unless the local education provider does not maintain student personally identifiable information in electronic format and reproducing the student personally identifiable information in an electronic format would be unduly burdensome.

(c) To request corrections to factually inaccurate student personally identifiable information maintained by a local education provider. After receiving a request for correction that documents the factual inaccuracy, the local education provider that maintains the student personally identifiable information shall correct the factual inaccuracy and confirm the correction to the parent within a reasonable amount of time.

(2) (a) The governing board of each local education provider shall adopt a policy for hearing complaints from parents regarding the local education provider's compliance with the requirements of this article. At a minimum, the policy must provide a parent the opportunity to submit information to the governing board and receive a hearing by the governing board and must require the governing board to take action on the parent's complaint within sixty days after the hearing.

(b) If a local education provider does not comply with the requirements specified in this article, a student's parent may submit a complaint to the governing board of the local education provider in accordance with the complaint policy adopted in accordance with paragraph (a) of this subsection (2).

COMPENSATORY EDUCATION

ARTICLE 20

Education of Exceptional Children

Editor's note: This article was numbered as article 22 of chapter 123, C.R.S. 1963. The substantive provisions of this article were repealed and reenacted in 1973, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this article prior to 1973, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

PART 1

EDUCATION OF CHILDREN WITH DISABILITIES
22-20-101. Short title. This article shall be known and may be cited as the "Exceptional Children's Educational Act".

22-20-102. Legislative declaration. (1) The general assembly, recognizing the obligation of the state of Colorado to provide educational opportunities to all children that will enable them to lead fulfilling and productive lives, declares that the purpose of this article is to provide means for identifying and educating those children who are exceptional. To this end, it is necessary to define specific responsibilities for identifying and serving children with disabilities that appropriately reflect the continuum of services that recognizes the capabilities of all state agencies, including special classes in public schools and the establishment of special schools, programs for children with disabilities who are confined to their homes or hospitals, and instruction in institutions of the state for children with disabilities. The final determination for the placement in a special education program of any eligible child with a disability shall be made by a child's individual family service program for a child from birth through two years of age and a child's individualized education program team for a child from three to twenty-one years of age as designated by the governing board of the responsible administrative unit or by the governing authority of a state-operated program.

(2) It is the intent of the general assembly, in keeping with accepted educational principles, that children from three to twenty-one years of age with disabilities shall be educated in the least restrictive environment to the maximum extent appropriate. To this end, the services of special education personnel shall be utilized within the general school programs to the maximum extent permitted by good educational practices, both in rendering services directly to children and in providing consultative services to general classroom teachers.

(3) It is further the intent of this part 1 to ensure that there is a coordination of all services available to children with disabilities and to promote interagency operating agreements or contracts between administrative units, other public agencies, nonprofit organizations, and approved facility schools for the provision of appropriate services for children with disabilities.

(4) It is further the intent of the general assembly that this part 1, and the rules promulgated pursuant to this part 1 by the state board, align closely with the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended, and its implementing regulations, 34 CFR part 300 and 34 CFR part 303 as it pertains to child find, in order to minimize the number of rules, regulations, and policies to which administrative units, state-operated programs, and approved facility schools are subject.

(5) Nothing in this part 1 shall be construed to affect the placement of children out of the home or alternatives to such placements as provided in section 19-1-116, C.R.S.

Entire section amended, p. 1551, § 1, effective May 31. **L. 2011**: (1), (3), and (4) amended, (HB 11-1277), ch. 306, p. 1477, § 10, effective August 10; (3), (4), and (5) amended, (HB 11-1077), ch. 30, p. 74, § 1, effective August 10.

**Editor's note:** Amendments to subsections (3) and (4) by House Bill 11-1077 and House Bill 11-1277 were harmonized.

22-20-102.5. Legislative declaration - identification of gifted children. (Repealed)

**Source:** **L. 88:** Entire section added, p. 809, § 4, effective May 24. **L. 93:** Entire section amended, p. 1639, § 29, effective July 1. **L. 2007:** Entire section amended, p. 1763, § 1, effective July 1. **L. 2011:** Entire section repealed, (HB 11-1077), ch. 30, p. 74, § 2, effective August 10.

22-20-103. Definitions. As used in this part 1, unless the context otherwise requires:

(1) "Administrative unit" means a school district, a board of cooperative services, a multi-district administrative unit, a charter school network, a charter school collaborative, or the state charter school institute, that is providing educational services to exceptional children and that is responsible for the local administration of this article 20.

(2) (Deleted by amendment, L. 2011, (HB 11-1077), ch. 30, p. 75, § 3, effective August 10, 2011.)

(2.5) "Applicable revenues" means those revenues, as defined by rules promulgated by the state board pursuant to this article, that support special education expenditures.

(2.7) "Approved facility school" means an educational program that is operated by a facility to provide educational services to students placed in the facility and that, pursuant to section 22-2-407, has been placed on the list of facility schools that are approved to receive reimbursement for providing those educational services to students placed in the facility. An educational program provided by an administrative unit at a facility is not an approved facility school but is an educational program of the administrative unit that does not require approval by the department.

(3) "Board of cooperative services" means a regional educational services unit created pursuant to article 5 of this title and designed to provide supporting, instructional, administrative, facility, community, or any other services contracted by participating members.

(3.4) "Charter school collaborative" means a charter school collaborative formed pursuant to section 22-30.5-603.

(3.5) "Charter school network" means a charter school network formed pursuant to section 22-30.5-104.7.

(4) "Child find" means the program component of the IDEA that requires states to find, identify, locate, evaluate, and serve all children with disabilities, from birth to twenty-one years of age. Child find includes:

(a) Part C child find, administered by the department of human services, is the program component of IDEA that requires states to find, identify, locate, evaluate, and serve children with disabilities from birth through two years of age; and

(b) Part B child find, administered by the department, is the program component of IDEA that requires states to find, identify, locate, evaluate, and serve children with disabilities from three to twenty-one years of age.
"Children with disabilities" means:
(I) Those persons from three to twenty-one years of age who, by reason of one or more of the following conditions, are unable to receive reasonable benefit from general education:
   (A) Autism spectrum disorders;
   (B) A hearing impairment, including deafness;
   (C) A serious emotional disability;
   (D) An intellectual disability;
   (E) Multiple disabilities;
   (F) An orthopedic impairment;
   (G) Other health impairment;
   (H) A specific learning disability;
   (I) A speech or language impairment;
   (J) Traumatic brain injury;
   (K) A visual impairment, including blindness; and
   (L) Deaf-blindness.
(M) Repealed.
(II) Those persons from birth through two years of age who have been determined to be an infant or a toddler with a disability;
(III) Those persons from three through eight years of age who have been determined pursuant to 34 CFR 300.8 (b) to be children experiencing developmental delays.
(b) Notwithstanding the provisions of paragraph (a) or (b) of this subsection (5), for purposes of child find activities, "children with disabilities" means persons from birth to twenty-one years of age.
(6) "Communication mode or language" means one or more of the following systems or methods of communication applicable to children who are deaf or hard of hearing:
   (a) American sign language;
   (b) English-based manual or sign systems; or
   (c) Oral, aural, or speech-based training.
(7) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
(8) "District charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title.
(8.3) "Early intervening services" means programs and activities for students in kindergarten through grade twelve, with an emphasis on students in kindergarten through grade three, who at the time they receive early intervening services are not identified as children with disabilities, but who need additional academic and behavioral supports in order to succeed in a general education environment.
(8.5) Repealed.
(8.7) "Educational placement" means the provision of special education services, including but not limited to those points along the continuum of alternative placements. "Educational placement" does not mean a specific place, such as a specific classroom or school.
(9) (Deleted by amendment, L. 2011, (HB 11-1277), ch. 306, p. 1478, § 11, effective August 10, 2011.)
(9.5) "Emergency public placement" means a public placement made necessary because of an imminent danger to a child or others.
(10) "Equipment" means that equipment used especially for the instruction or assessment of children with disabilities.

(11) "Evaluation" means, for the purposes of part B child find, procedures used under IDEA for children with disabilities to determine whether a child has a disability and the nature and extent of special education and related services that the child will need.

(12) "Exceptional child" means:
   (a) A child defined in subsection (5) of this section as a child with a disability. An administrative unit shall serve every child with a disability from three to twenty-one years of age.
   (b) A child defined in section 22-20-202 (11) as a gifted child. Pursuant to section 22-20-204 (1), an administrative unit shall adopt and submit to the department a program plan to identify and serve gifted children who are at least five years of age.

(12.3) "Facility" means a day treatment center, residential child care facility, or other facility licensed by the department of human services pursuant to section 26-6-905 or a hospital licensed by the department of public health and environment pursuant to section 25-1.5-103.

(12.7) "Foster home" has the same meaning as a "foster care home" as defined in section 26-6-903 and must be licensed by the state department of human services or certified by a county department of human or social services or certified by a child placement agency as defined in section 26-6-903.

(13) (Deleted by amendment, L. 2011, (HB 11-1077), ch. 30, p. 75, § 3, effective August 10, 2011.)

(13.3) "Group home" means a congregate care facility licensed by the department of human services pursuant to section 26-6-905.

(13.5) (Deleted by amendment, L. 2011, (HB 11-1077), ch. 30, p. 75, § 3, effective August 10, 2011.)

(14) "IDEA" means the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended, and its implementing regulations, 34 CFR part 300 and also 34 CFR part 303 as it pertains to child find.

(15) "Individualized education program" or "IEP" means a written statement for a child with a disability that is developed, reviewed, and revised in accordance with this part 1 and the rules promulgated by the state board.

(16) "Individualized family service plan" or "IFSP" means a written statement developed by an entity representing the department of human services for a child from birth through two years of age with a disability, which statement is developed, reviewed, and revised in accordance with part C child find of IDEA and with rules promulgated by the department of human services.

(17) "Institute charter school" means a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title.

(18) "Least restrictive environment" means that:
   (a) To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who do not have disabilities; and
   (b) Special classes, separate schooling, or other removal of children with disabilities from the general educational environment occurs only if the nature and severity of the disability is such that education in general classes with the use of supplementary aids and services cannot be satisfactorily achieved.
"Literacy mode" means one of the following four systems or methods of achieving literacy applicable to blind children:

(a) "Auditory mode" means any method or system of achieving literacy that depends upon the auditory senses, including the use of readers, taped materials, electronic speech, speech synthesis, or any combination of the above.

(b) "Braille" means the system of reading and writing by means of raised points, commonly known as standard English braille.

(c) "Print enlargement" means any method or system of achieving literacy that includes optical aids to enhance apprehension of printed material, electronic enlargement of printed material, books and textual materials printed in large print, and any combination of the above.

(d) "Regular print mode" means any method or system of achieving literacy that depends upon the apprehension of regular-sized printed material.

(19.3) "Multi-district administrative unit" means a group of two or more school districts that did not form a board of cooperative services but were parties to an agreement existing on January 1, 2011, to provide educational services to exceptional children and to be responsible for the local administration of this article, which group of school districts the department recognized as of January 1, 2011, as an administrative unit.

(19.7) (a) "Parent" means:

(I) A biological or adoptive parent of a child;

(II) A foster parent;

(III) A guardian generally authorized to act as a child's parent, or authorized to make educational decisions for the child, but not the state if the child is a ward of the state;

(IV) An individual acting in the place of a biological or adoptive parent, including but not limited to a grandparent, stepparent, or other relative, and with whom the child lives, or an individual who is legally responsible for the child's welfare; or

(V) An educational surrogate parent assigned by the responsible administrative unit consistent with rules promulgated by the state board in accordance with this article.

(b) (I) Except as provided in subparagraph (II) of this paragraph (b), the biological or adoptive parent, when attempting to act as a parent pursuant to this article, and when more than one party is qualified pursuant to paragraph (a) of this subsection (19.7) to act as a parent, shall be presumed to be the parent for purposes of this subsection (19.7) unless the biological or adoptive parent does not have legal authority to make educational decisions for the child.

(II) If a judicial decree or order identifies a specific person or persons listed in subparagraphs (I) to (IV) of paragraph (a) of this subsection (19.7) to act as the parent of a child or to make educational decisions on behalf of a child, then the person or persons shall be determined to be the parent for purposes of this article.

(20) "Public agency" means a public agency that:

(a) Is not an administrative unit; and

(b) Is legally authorized to place a child in a facility or another out-of-home placement, including but not limited to a group home or a foster home.

(21) "Public placement" means the placement of a child with a disability in a facility or another out-of-home placement, including but not limited to a group home or foster home, by a court or public agency.

(22) "School district" means a school district organized and existing pursuant to law, but shall not include a local college district.
(22.7) "Special education expenditures" means those expenditures that are incurred by an administrative unit, state-operated program, or approved facility school for professional services associated with special education referrals and evaluations of children who may have a disability and the provision of special education services as identified on an individual student's individualized education program. Special education expenditures do not include the costs of the general education program. Special education expenditures shall be supplemental to the general education program and shall be above what is provided by the administrative unit, state-operated program, or approved facility school for general education students and staff and may include:

(a) Special education teachers;
(b) Home-hospital teachers for students with disabilities;
(c) Speech-language pathologists and speech-language pathology assistants;
(d) Specialty teachers;
(e) Special education instructional paraprofessionals;
(f) Educational interpreters;
(g) School nurses;
(h) Occupational therapists and occupational therapy assistants;
(i) Physical therapists and physical therapy assistants;
(j) School psychologists;
(k) School social workers;
(l) Audiologists;
(m) Orientation and mobility specialists;
(n) Other special education professionals;
(o) Special education administrators and office support;
(p) Other noncertified or nonlicensed support;
(q) Employee benefits for special education staff;
(r) Supplies, materials, and equipment used for individual students' special education programs and services;
(s) Purchased service contracts for personal services;
(t) Tuition to other administrative units and approved tuition rates to approved facility schools for special education;
(u) Staff travel related to special education;
(v) Professional development for special education staff, or all staff, if the content of the professional development is specific to services for children with disabilities;
(w) Other purchased services related to special education;
(x) Dues, fees, and other expenditures specific to the special education program; and
(y) Parent counseling and training, as defined by the IDEA and its implementing regulations.

(23) "Special education services" or "special education programs" means the services or programs provided to a child with a disability in conformity with the child's IEP.

(24) (Deleted by amendment, L. 2011, (HB 11-1077), ch. 30, p. 75, § 3, effective August 10, 2011.)

(25) "Specific learning disability" means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written. The disorder may manifest itself in the imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations, and includes such conditions as perceptual disabilities, brain
injury, minimal brain dysfunction, dyslexia, and developmental aphasia. "Specific learning disability" does not include a learning problem that is primarily the result of visual, hearing, or motor disabilities; an intellectual and developmental disability; an emotional disturbance; or an environmental, cultural, or economic disadvantage.

(26) "State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

(27) "State charter school institute" means the state charter school institute created pursuant to part 5 of article 30.5 of this title.

(28) "State-operated program" means an approved school program supervised by the department and operated by:
(a) The Colorado school for the deaf and the blind;
(b) The department of corrections; or
(c) The department of human services, including but not limited to the division of youth services and the mental health institutes.

L. 2022: (12.3), (12.7), and (13.3) amended, (HB 22-1295), ch. 123, p. 840, § 53, effective July 1; (1) amended and (3.4) and (3.5) added, (HB 22-1294), ch. 242, p. 1788, § 3, effective August 10.

Editor's note: (1) Subsection (4) was amended in House Bill 90-1314. Those amendments were superseded by the amendments to subsection (4) in House Bill 90-1137.
(2) Subsection (12) was originally numbered as subsection (3.4), and the amendments to it in House Bill 07-1244 were harmonized with Senate Bill 07-255 and renumbered as subsection (12).

(3) Amendments to subsection (12) by House Bill 11-1077 and House Bill 11-1277 were harmonized.

(4) Subsection (8.5)(b) provided for the repeal of subsection (8.5), effective July 1, 2022. (See L. 2021, pp. 2609, 2618.)

Cross references: For the legislative declaration contained in the 2008 act enacting subsections (8.3) and (8.5), see section 1 of chapter 177, Session Laws of Colorado 2008. For the legislative declaration in SB 18-092, see section 1 of chapter 38, Session Laws of Colorado 2018. For the legislative declaration in SB 18-096, see section 1 of chapter 44, Session Laws of Colorado 2018.

22-20-104. Administration - advisory committee - rules. (1) (a) The department shall administer this part 1. Administration of this part 1 includes the recommendation to the state board of reasonable rules necessary to implement this part 1, including but not limited to:

(I) Minimum standards for administrative units, state-operated programs, approved facility schools, and personnel;

(II) Criteria for determining disability and eligibility for special education services;

(III) Procedures regarding the identification of children with disabilities pursuant to part B child find;

(IV) Requirements for parental consent, including but not limited to parental consent for the evaluation of children with disabilities and the initial provision of special education services;

(V) Required IEP content and procedures for IEP development, review, and revision;

(VI) Application of school discipline procedures to children with disabilities;

(VII) Required procedural safeguards;

(VIII) Procedures for special education dispute resolution;

(IX) Extended school year services; and

(X) Requirements pursuant to the IDEA regarding children with disabilities who are enrolled in private schools.

(b) The state board shall adopt appropriate recommendations as rules to implement this part 1 following public comment and hearing. The rules promulgated by the state board shall be in accord with the legislative declaration set forth in section 22-20-102.

(c) An administrative unit, a state-operated program, or an approved facility school that provides plans, programs, or services that do not comply with the rules adopted by the state board will be provided by the department with a detailed analysis of any discrepancies noted along with specific recommendations for their correction. Applicable federal and state funding will be provided or continued for a reasonable period of time, as determined by the department, to allow the administrative unit, state-operated program, or approved facility school an opportunity to comply with such rules.

(2) (a) In order to assist the state board in the performance of its responsibilities for the implementation of this part 1, the state board shall appoint a state special education advisory...
committee of an appropriate size. The members of the advisory committee must be representative of the state population and composed of persons involved in or concerned with the education of children with disabilities, including parents of children with disabilities ages birth through twenty-six years; individuals with disabilities; teachers; representatives of institutions of higher education that prepare special education and related services personnel; state and local education officials, including officials who carry out activities under section 22-33-103.5; administrators of programs for children with disabilities; representatives of other state agencies involved in the financing or delivery of related services to children with disabilities; representatives of private schools, district charter schools, and institute charter schools; at least one representative of a vocational, community, or business organization concerned with the provision of transition services to children with disabilities; a representative from child welfare services in the department of human services established pursuant to section 26-5-102; and representatives from the division of youth services in the department of human services and from the department of corrections. A majority of the members of the advisory committee must be individuals with disabilities or parents of children with disabilities. Members are appointed for terms as determined by the by-laws of the advisory committee. Any additions to the composition of the advisory committee must be made pursuant to the procedures of the state board.

(b) (Deleted by amendment, L. 91, p. 694, § 6, effective April 20, 1991.)

(3) Repealed.

(4) To comply with this section, the department shall maintain a special education data and information system on children, personnel, costs, and revenues, and such data and information shall be used to ensure that state moneys provided to administrative units under the provisions of section 22-20-106 and other applicable revenues are being spent only on special education expenditures.

(5) and (6) Repealed.

(7) (a) (Deleted by amendment, L. 2011, (HB 11-1077), ch. 30, p. 75, § 4, effective August 10, 2011.)

(b) Repealed.
Editor's note: (1) Amendments to subsection (1)(a) by House Bill 07-1244 and Senate Bill 07-255 were harmonized.
(2) Amendments to subsections (1) and (2)(a) by House Bill 11-1077 and House Bill 11-1277 were harmonized.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2)(a), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration contained in the 1994 act amending subsections (3) and (4) and repealing subsections (5) and (6), see section 1 of chapter 198, Session Laws of Colorado 1994. For the legislative declaration contained in the 1996 act repealing subsection (7)(b), see section 1 of chapter 237, Session Laws of Colorado 1996.

22-20-104.5. Plan for academic excellence - inclusion of gifted children - cooperation - rules. (Repealed)

22-20-105. Depository and retrieval network for visually and hearing impaired children. (Repealed)

22-20-105.5. Statewide information and communication network. (Repealed)

Editor's note: Subsection (2) provided for the repeal of this section, effective July 1, 1993. (See L. 88, p. 809.)

22-20-106. Special education programs - early intervening services - rules. (1) (a) Every school district in the state is either an administrative unit in itself or in a board of cooperative services that the department designates as an administrative unit or is participating in a multi-district administrative unit. The department shall not recognize or authorize a group of
school districts as an administrative unit unless the group of school districts qualifies as a multi-district administrative unit or is a board of cooperative services.

(b) The state charter school institute is an administrative unit for the purpose of delivering special education services to all institute charter schools, and to district charter schools that enter into an agreement with the state charter school institute pursuant to section 22-30.5-105.3, and shall meet the criteria established by the state board governing the duties and responsibilities of the director of special education. An administrative unit is also a school district, board of cooperative services, charter school network, or charter school collaborative that meets criteria established by the state board governing the duties and responsibilities of the director of special education and is:

(I) A board of cooperative services that conducts special education programs for all school districts that are members of the board of cooperative services;

(II) A school district that meets criteria established by the state board, including geographic size and location, to achieve maximum efficiency in administering programs of special education; or

(III) A charter school network or charter school collaborative that is designated and approved as an administrative unit by the department, delivers special education services to district charter schools or institute charter schools, and meets criteria established by the state board that are substantially consistent with the criteria applied to boards of cooperative services and school districts.

(c) Although the state board shall define the qualifications and the general duties and responsibilities of directors of special education, such directors shall be regarded for all purposes as employees of their local administrative units and subject to the administrative direction of such units.

(2) (a) Each administrative unit, state-operated program, and approved facility school shall submit a comprehensive plan to the department pursuant to the rules promulgated by the state board indicating how the administrative unit, state-operated program, or approved facility school will provide for the education of all children with disabilities. Each comprehensive plan shall include the type and number of children with disabilities served, the services to be provided, and the estimated resources necessary.

(b) (Deleted by amendment, L. 2011, (HB 11-1077), ch. 30, p. 77, § 6, effective August 10, 2011.)

(3) (a) Each administrative unit, state-operated program, and approved facility school shall make available special education services as specified by the IEP for any child with a disability for whom it is responsible, as defined by the rules adopted by the state board pursuant to this part 1. General education services are the responsibility of the school district in which a foster home is located, and special education services are the responsibility of the administrative unit in which a foster care home is located. General education services are the responsibility of the school district in which a group home is located, and special education services are the responsibility of the administrative unit in which a group home is located. The administrative unit in which the group home is located may seek tuition costs consistent with section 22-20-109 (2.5).

(b) In providing special education services, an administrative unit, state-operated program, or approved facility school may pay for special education expenditures as defined in section 22-20-103 (22.7).
Editor's note: This version of subsection (3)(c) is effective until July 1, 2024. The district of residence shall pay the tuition costs for a child with a disability in an approved facility school pursuant to sections 22-20-108 (8) and 22-20-109 (1). Special education services may be provided by community centered boards in cooperation with administrative units.

Editor's note: This version of subsection (3)(c) is effective July 1, 2024. The district of residence shall pay the tuition costs for a child with a disability in an approved facility school pursuant to sections 22-20-108 (8) and 22-20-109 (1). Special education services may be provided by a case management agency or an entity, as those terms are defined in section 25.5-6-1702, in cooperation with administrative units.

(3.5) (a) An administrative unit may provide early intervening services to a student who is not identified as a child with a disability at the time the early intervening services are provided. An administrative unit may provide early intervening services to students in kindergarten through grade twelve, with an emphasis on students in kindergarten through grade three.

(b) Early intervening services may include programs and activities, including response to intervention, as determined by the state board and set forth in rules promulgated by the state board pursuant to this subsection (3.5).

(c) An administrative unit may annually use no more than fifteen percent of the funding amount that the administrative unit annually receives pursuant to this part 1 for the provision of early intervening services.

(d) Each participating administrative unit shall collect information and report to the department, on an annual basis, the uniquely identifying student numbers of the students receiving early intervening services pursuant to this subsection (3.5).

(e) Nothing in this subsection (3.5) shall be construed to create a right for a student to receive early intervening services nor act to improperly delay the determination, pursuant to section 22-20-108, that a child has a disability and is eligible for special education services.

(f) The state board by rule shall identify the programs and activities that qualify as early intervening services and the allowable expenses related to those programs and activities. The state board may also promulgate such other rules as may be necessary to implement this subsection (3.5).

(4) To comply with this section, an administrative unit may contract with one or more administrative units to establish and maintain special education programs for the education of exceptional children, sharing the costs thereof in accordance with the terms of the contract agreed upon; or an administrative unit having fewer than six children who need a particular kind of special education program may purchase services from one or more administrative units where an appropriate special education program exists.

(5) Each administrative unit shall employ a director of special education. Each state-operated program or approved facility school shall employ or contract in writing for a director of special education. A director of special education shall meet qualification standards promulgated by rule of the state board.

(6) Each administrative unit, state-operated program, and approved facility school shall employ or contract in writing for a sufficient number of appropriately licensed and endorsed special education teachers and staff to adequately carry out those functions for which it is responsible, as defined by the rules promulgated by the state board pursuant to this article,
including but not limited to child identification, IEP development, and professional development for school staff.

(7) Any administrative unit or state-operated program planning to utilize federal funds from any source for the education of children with disabilities as provided in this article shall obtain prior approval from the department for the use of such funds. The use of such funds in the administrative unit or state-operated program shall be for special education expenditures as defined in section 22-20-103 (22.7) and in accordance with rules as established by the state board, which are not in conflict with federal law or regulations.

(8) Nothing in this section shall be construed to change the purpose and function of the Colorado school for the deaf and the blind in Colorado Springs or to change the requirements or standards for admission thereto.

(9) (Deleted by amendment, L. 2006, p. 323, § 6, effective August 7, 2006.)
(10) Repealed.

Editor's note: (1) Subsection (9) was added in House Bill 90-1314. That subsection was superseded by the addition of subsection (9) in House Bill 90-1137.
(2) Amendments to this section by Senate Bill 06-118 and Senate Bill 06-137 were harmonized.
(3) Amendments to subsection (3)(a) by House Bill 11-1077 and House Bill 11-1277 were harmonized.
(4) Section 6 of House Bill 11-1077 incorrectly states that it amends subsection (3)(c) when the actual provision it amends is subsection (3.5)(c) and it fails to include the subsection (3.5) designation before the amended paragraph (c).

Cross references: For the legislative declaration contained in the 1994 act amending subsections (3) and (6), see section 1 of chapter 198, Session Laws of Colorado 1994. For the legislative declaration contained in the 2008 act enacting subsection (3.5), see section 1 of chapter 177, Session Laws of Colorado 2008.
22-20-107. Authority to contract with institutions of higher education or case management agencies. (1) [Editor's note: This version of subsection (1) is effective until July 1, 2024.] An administrative unit may contract with an institution of higher education, or a community-centered board, as provided in section 25.5-10-206, C.R.S., for the provision by the administrative unit of an education and training program for children with disabilities. If an agreement is arrived at by the two agencies, the administrative unit shall place the responsibility for administering the program with the director of special education of the administrative unit.

(1) [Editor's note: This version of subsection (1) is effective July 1, 2024.] An administrative unit may contract with an institution of higher education, a case management agency, or an entity, as those terms are defined in section 25.5-6-1702, as provided in section 25.5-10-206, for the provision by the administrative unit of an education and training program for children with disabilities. If an agreement is arrived at by the two agencies, the administrative unit shall place the responsibility for administering the program with the director of special education of the administrative unit.

(2) Repealed.

Cross references: For the legislative declaration contained in the 1994 act repealing subsection (2), see section 1 of chapter 198, Session Laws of Colorado 1994.

22-20-107.5. District of residence of a child with a disability - jurisdiction. (1) Notwithstanding the provisions of section 22-1-102 (2), for the purposes of this article 20, the district of residence of a child with a disability is the school district in which such child lives on a day-to-day basis, including a child placed in a foster home pursuant to section 19-1-115.5 (1); except that:

(a) If a child with a disability is homeless, as defined by section 22-1-102.5, the provisions of section 22-1-102 (2)(h) shall apply;

(b) The child shall be deemed to reside where the child's parent resides if the child is living at one of the following:

(I) A regional center that is operated by the department of human services;

(II) A facility;

(III) A group home;

(IV) A mental health institute operated by the department of human services; or

(V) The Colorado school for the deaf and the blind;

(c) If a child lives in a regional center, a mental health institute, a facility, or a group home, and the district of residence cannot be determined due to the inability to locate a parent or due to the homelessness of a parent, the child shall be considered a resident of the school district in which the regional center, mental health institute, facility, or group home is located; or
If a child with a disability is a student in out-of-home placement, as defined in section 22-32-138, and is enrolled in a school of origin, as defined in section 22-32-138, other than an approved facility school, as defined in section 22-2-402, or a state-licensed day treatment facility, section 22-1-102 (2)(j) applies.

If there is a dispute as to which school district constitutes the district of residence, the commissioner of education shall have the authority to determine questions of residency and thus jurisdiction after reviewing necessary details involved in the determination of residency.

Editor's note: Amendments to this section in Senate Bill 94-185 and House Bill 94-1029 were harmonized.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

22-20-108. Determination of disability - enrollment. (1) (a) The determination that a child has a disability and is eligible for special education services shall be made by a multidisciplinary team that shall include, at a minimum, the parent of the child and professionally qualified personnel designated by the responsible administrative unit or state-operated program. The composition of the multidisciplinary team and the procedures to be used for determining a child's eligibility for special education services shall be prescribed by rules promulgated by the state board pursuant to this part 1.

(b) The development of an IEP for a child with a disability and determination of educational placement shall be made by the child's IEP team, including but not limited to the child's parent and qualified professional personnel designated by the responsible administrative unit or state-operated program. The composition of the IEP team and the procedures to be used for developing the child's IEP shall be prescribed by rules promulgated by the state board pursuant to this part 1.

(2) (Deleted by amendment, L. 2006, p. 325, § 8, effective August 7, 2006.)

(3) (a) In the event of a dispute between the parents of a child with a disability and an administrative unit or state-operated program, the parents or the administrative unit or state-operated program shall have the same rights to an impartial due process hearing as are provided in the IDEA and the federal regulations, 34 CFR part 300, implementing the act. To request a due process hearing, the parents of a child with a disability or the administrative unit or state-operated program shall simultaneously file complete copies of the due process complaint with the opposing party and with the commissioner of education or his or her designee to ensure the timely assignment of an impartial hearing officer.
(b) If a due process hearing is requested pursuant to paragraph (a) of this subsection (3), the department shall provide the hearing in compliance with the requirements and provisions of IDEA and the federal regulations, 34 CFR part 300, implementing the act, including but not limited to the requirements governing due process complaints, resolution meetings, impartial due process hearing procedures, hearing rights, timelines, hearing decisions, and civil actions.

(c) The findings and decision made by the department shall be final. Any party aggrieved by the department's findings and decision has the right to bring a civil action pursuant to the provisions of IDEA and the federal regulations, 34 CFR 300.516 (a), implementing the act.

(4) Each child determined to have a disability by the multidisciplinary team pursuant to paragraph (a) of subsection (1) of this section shall be provided with an IEP developed by the child's IEP team pursuant to paragraph (b) of subsection (1) of this section and shall be reviewed annually. The IEP for each child enrolled in a school district or an institute charter school shall specify whether the child shall achieve the content standards adopted by the district in which the child is enrolled or by the state charter school institute or whether the child shall achieve individualized standards which would indicate the child has met the requirements of his or her IEP. For each child attending school in an approved facility school or state-operated program, the IEP shall specify whether the child shall achieve state or local content standards, or whether the child shall achieve individualized standards which would indicate that the child has met the requirements of his or her IEP. When a child with a disability is to be placed outside of the district of residence, the receiving agency, institution, administrative unit, state-operated program, or approved facility school providing the special education services shall cooperate in the development of the IEP. The IEP shall be coordinated with all individual plans required by other federal or state programs in order to provide for maximum coordination of service to the child with a disability, which may include the provision of appropriate special education services for the child with a disability, by agreement or contract with public agencies, nonprofit organizations, or approved facility schools. Any court of record, the department of human services, or any other public agency authorized by law to place a child in a facility shall notify in writing the child's administrative unit of residence, the administrative unit in which the child will receive special education services, and the department of such placement within fifteen calendar days after the placement. An administrative unit of residence that disapproves of the placement shall do so in writing pursuant to subsection (8) of this section.

(4.5) (a) In developing the IEP pursuant to subsection (4) of this section for a child who is blind or visually impaired, in addition to any other requirements established by the state board, the IEP team shall assess and determine which literacy mode or modes would be most appropriate for the child's instruction. The IEP for a child who is blind or visually impaired shall specify the following:

(I) How the selected literacy mode or modes will be implemented as the child's primary or secondary mode for achieving literacy and why such mode or modes have been selected;

(II) How the child's instruction in the selected literacy mode or modes will be integrated into educational activities;

(III) The date on which the child's instruction in the selected mode or modes shall commence, the amount of instructional time to be dedicated to each literacy mode, and the service provider responsible for each area of instruction; and
(IV) The level of competency in the selected literacy mode or modes which the child should achieve by the end of the period covered by the IEP.

(b) A child who is blind or visually impaired shall not be denied the opportunity for instruction in braille solely because the child has some remaining vision. Any child for whom instruction in braille is determined to be beneficial shall receive such instruction as part of such child's IEP.

(c) If the IEP team determines that a child's IEP shall include instruction in braille, such instruction shall be sufficient to enable the child to read and write effectively and efficiently at a level commensurate with the child's sighted peers of comparable physical and cognitive abilities and grade level.

(d) If the IEP team determines that a child's IEP shall include instruction in braille, the child shall receive such instruction from a teacher who can demonstrate competence in reading and writing braille according to standards to be established by the state board.

(e) Nothing in this subsection (4.5) shall require an administrative unit, a state-operated program, or an approved facility school to expend additional resources or hire additional personnel to implement the provisions of this section.

(f) The department shall develop guidelines for caseload management for instructors of children who are blind or visually impaired in the schools of the administrative units. Such guidelines will evaluate how much instructional time should be allotted for children who are blind or visually impaired, will reflect the varying levels of severity of such children's needs, and will be renewed and updated on a periodic basis to incorporate current research and practice.

(4.7) (a) In developing an IEP pursuant to subsection (4) of this section for a child who is deaf or hard of hearing, in addition to any other requirements established by the state board, the IEP team shall consider the related services and program options that provide the child with an appropriate and equal opportunity for communication access. The IEP team shall consider the child's specific communication needs and, to the extent possible under paragraph (g) of this subsection (4.7), address those needs as appropriate in the child's IEP. In considering the child's needs, the IEP team shall expressly consider the following:

(I) The child's individual communication mode or language;

(II) The availability to the child of a sufficient number of age, cognitive, and language peers of similar abilities;

(III) The availability to the child of deaf or hard-of-hearing adult models of the child's communication mode or language;

(IV) The provision of appropriate, direct, and ongoing language access to teachers of the deaf and hard of hearing and educational interpreters and other specialists who are proficient in the child's primary communication mode or language; and

(V) The provision of communication-accessible academic instruction, school services, and extracurricular activities.

(b) To enable a parent to make informed decisions concerning which educational options are best suited to the parent's child, all of the educational options provided by the administrative unit, state-operated program, or approved facility school and available to the child at the time the child's IEP is prepared shall be explained to the parent.

(c) A child who is deaf or hard-of-hearing shall not be denied the opportunity for instruction in a particular communication mode or language solely because:

(I) The child has some remaining hearing;
(II) The child's parents are not fluent in the communication mode or language being taught; or
(III) The child has previous experience with some other communication mode or language.
(d) Nothing in this subsection (4.7) shall preclude instruction in more than one communication mode or language for any particular child. Any child for whom instruction in a particular communication mode or language is determined to be beneficial shall receive such instruction as part of the child's IEP.
(e) Notwithstanding the provisions of subparagraph (II) of paragraph (a) of this subsection (4.7), nothing in this subsection (4.7) may be construed to require that a specific number of peers be provided for a child who is deaf or hard of hearing.
(f) Nothing in this subsection (4.7) shall abrogate parental choice among public educational programs as provided in section 22-20-109 or article 30.5 or 36 of this title or as otherwise provided by law.
(g) Nothing in this subsection (4.7) shall require an administrative unit to expend additional resources or hire additional personnel to implement the provisions of this subsection (4.7).

(4.8) In developing an IEP pursuant to subsection (4) of this section for a child who is an English language learner, in addition to any other requirements established by the state board, the IEP shall consider the related services and program options that provide the child with an appropriate and equal opportunity for communication access. Communication access must include access to effective communication pursuant to Title II of the federal "Americans with Disabilities Act of 1990", 42 U.S.C. sec. 12131 et seq., as amended. The IEP team shall consider the child's specific communication needs and, to the extent possible, address those needs as appropriate in the child's IEP. In considering the child's needs, the IEP team may translate or contract with a translation service provider to translate any IEP draft documents into the dominant language spoken in the home of the child's parent, guardian, or legal custodian. Upon request of the child's parent, guardian, or legal custodian, the IEP team shall translate or contract with a translation service provider to translate the final IEP document into a written translation or an oral recording in the dominant language spoken in the home of the child's parent, guardian, or legal custodian. The IEP team shall verbally inform the child's parent, guardian, or legal custodian of the right to request translation services.

(5) In formulating recommendations for the least restrictive environment for a child with a disability, the IEP team shall:
(a) Determine, utilizing guidelines recommended by the department, whether the nature or severity of the child's disability is such that education in general education classes with the use of supplementary aids and services cannot be achieved satisfactorily or, when provided with supplementary aids and services, the nature or severity of the child's disability is so disruptive that the education of other children in such classes would be significantly impaired;
(b) Work cooperatively with the department of human services, when applicable; and
(c) Be guided by the legislative declaration contained in section 22-20-102.

(5.5) The administrative unit or state-operated program shall consider the cost to the administrative unit or state-operated program when choosing between two or more appropriate educational placements.
(7) (a) If an out-of-district placement by an administrative unit appears to be necessary, it is the responsibility of the child's IEP team of the administrative unit of residence to determine whether the child requires a more restrictive setting based on the unique needs of the child. It is the responsibility of the special education director of the administrative unit of residence to place the child in the least restrictive environment consistent with the educational placement decision of the IEP team.

(b) If it becomes necessary for a court or public agency to place a child in a public placement:

(I) Prior to such public placement, the court or public agency shall work cooperatively with the affected administrative unit or units, as defined by rules promulgated by the state board pursuant to this article, to ensure that appropriate special education services are available for the child;

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (b), the court or public agency may make the public placement without first cooperating with the affected administrative unit or units if an emergency public placement is required for the child.

(c) In no event shall the public agency place a child in an administrative unit or approved facility school that is unable to ensure the provision of special education services that are appropriate for the child. The costs of educating the child shall be the responsibility of the school district of residence, and the school district shall pay tuition costs in accordance with section 22-20-109.

(8) Notwithstanding the provisions of paragraph (c) of subsection (7) of this section, if a court or public agency makes a public placement but fails to comply with the notification requirements of subsection (4) of this section, the court or public agency shall be responsible for the tuition costs for the child until such time as the required notification is made. If a child's administrative unit of residence does not provide written notice of disapproval of a placement in a facility by a court or a public agency within fifteen calendar days after the notification made pursuant to subsection (4) of this section, the placement shall be deemed to be approved. An administrative unit of residence may disapprove a placement in a facility by a court or public agency only on the basis of the unavailability of appropriate special education services in the administrative unit in which the child will be placed. If the administrative unit of residence disapproves the placement in the facility, it shall ensure that the child receives a free appropriate public education until an appropriate placement can be determined. If the administrative unit of residence disapproves the placement in the facility, the disapproval shall be subject to appeal as provided for in subsection (3) of this section.

(9) If a teacher of a child with a disability determines that the child's presence in a general education classroom is so disruptive that other children's learning in the class is significantly impaired, the teacher may utilize the district's or the state charter school institute's regular in-school disciplinary procedure unless it would be inconsistent with the child's IEP or with the IDEA's student discipline protections for children with disabilities. Alternatively, the teacher may request a review of the child's IEP, behavior plan, or both to consider changes in services or educational placement. In making any such determination for educational placement or a plan of discipline for the child, the IEP team shall apply the rules promulgated by the state.
board regarding IEP reviews and school discipline procedures and protections for children with disabilities as specified by the IDEA and its implementing regulations.

For the legislative declaration in HB 23-1263, see section 1 of chapter 273, Session Laws of Colorado 2023.

**22-20-109. Tuition - rules.** (1) (a) An administrative unit of residence may contract with another administrative unit or an approved facility school to provide a special education program for a child with a disability. An administrative unit may purchase services from one or more administrative units where an appropriate special education program exists. The two administrative units shall negotiate a contract, including but not limited to the cost of the special education program, that need not be approved by the department.

(b) An administrative unit may contract for special education services with an approved facility school pursuant to rules promulgated by the state board.

(2) (a) When a child with a disability is publicly placed in an approved facility school, the approved facility school shall document to the department a list of costs of providing the special education program and the applicable revenues. Notwithstanding any provision of
section 22-32-115 to the contrary, the tuition charge for educating a child with a disability in an
approved facility school shall be established by the department and approved by the state board.
The tuition charge shall be the maximum amount the school district of residence shall be
obligated to pay for the special education program; except that the school district of residence
may pay a higher tuition charge than the charge established and approved pursuant to this
subsection (2) for a student in need of specialized services, which services were included in the
student's IEP but were not included in the tuition charge established pursuant to this subsection
(2).

(b) The state board shall promulgate rules to define the contract approval process and the
method for determining the tuition rate that a school district of residence of a child with a
disability shall pay as tuition to educate that child at an approved facility school. The rules for
determining a tuition rate must include, but need not be limited to, the limitations on the number
of staff members per number of students, the number of school days, all special education
expenditures as defined in section 22-20-103 (22.7) and specified by the child's IEP, other
education costs, and applicable revenues associated with the approved facility school's
educational program. The rules may not require that, in calculating the amount of the tuition
charge for educating a child with a disability in an approved facility school, the costs incurred by
the approved facility school in providing the special education program be reduced by the
amount of revenues, if any, received by the approved facility school as donations or special
education grants. The school district of residence is responsible for paying as tuition any excess
costs above the amount the department pays to provide these services pursuant to section
22-54-129.

(c) In addition to any other tuition costs that a school district of residence is required to
pay pursuant to this section, the school district may pay those costs documented to and approved
by the department pursuant to this subsection (2). Notwithstanding the provisions of this
subsection (2), a school district of residence shall not be required to pay costs incurred by an
approved facility school in providing educational services at the approved facility school during
the months of June, July, or August.

(2.5) (a) When a child with a disability is placed out of the home in a group home and
attends school in an administrative unit other than the child's administrative unit of residence and
the school does not provide the child with an online program or online school pursuant to article
30.7 of this title, the district of residence shall be responsible for paying the tuition charge for
educating the child to the administrative unit of attendance.

(b) The administrative unit of attendance shall not charge the district of residence tuition
for the excess costs incurred in educating a child with a disability unless the child meets the
criteria for funding pursuant to section 22-20-114 (1)(c)(II).

(c) The administrative unit of attendance shall provide notice to the administrative unit
of residence and to the district of residence, if it is not an administrative unit, in accordance with
the rules adopted pursuant to paragraph (b) of subsection (2) of this section when a child with a
disability applies to enroll in a school of the district of attendance. The notice shall be in writing
and shall also be sent to the special education directors for the administrative units of residence
and of attendance. If the administrative unit of attendance does not intend to seek tuition costs,
notification is not required. The state board shall adopt rules to specify the content, manner, and
timing of the notice required pursuant to this paragraph (c).
The amount of the tuition charge shall be determined pursuant to a contract entered into by the administrative unit of attendance, the district of attendance if it is not an administrative unit, the administrative unit of residence, and the district of residence if it is not an administrative unit.

(3) (Deleted by amendment, L. 2011, (HB 11-1277), ch. 306, p. 1489, § 17, effective August 10, 2011.)

(4) (a) When a child with a disability enrolls and attends a school in an administrative unit other than the child's administrative unit of residence pursuant to the provisions of section 22-36-101, and the school does not provide the child an online program or online school pursuant to article 30.7 of this title, the district of residence shall be responsible for paying the tuition charge for educating the child to the administrative unit of attendance.

(b) (Deleted by amendment, L. 2011, (HB 11-1277), ch. 306, p. 1489, § 17, effective August 10, 2011.)

(c) The administrative unit of attendance shall not charge the district of residence tuition for the excess costs incurred in educating a child with a disability unless the child meets the criteria for funding pursuant to section 22-20-114 (1)(c)(II).

(d) The administrative unit of attendance shall provide notice to the administrative unit of residence and to the district of residence, if it is not an administrative unit, in accordance with the rules adopted pursuant to this paragraph (d) when a child with a disability applies to enroll in a school of the district of attendance. The notice shall be in writing and shall also be sent to the special education directors for the administrative units of residence and of attendance. If the administrative unit of attendance does not intend to seek tuition costs, notification is not required. The state board shall adopt rules to specify the content, manner, and timing of the notice required pursuant to this paragraph (d).

(e) The amount of the tuition charge shall be determined pursuant to a contract entered into by the administrative unit of attendance, the district of attendance if it is not an administrative unit, the administrative unit of residence, and the district of residence if it is not an administrative unit. Under the circumstances described in this subsection (4), the provisions of section 22-20-108 (8) shall not apply.

(5) (a) When a child with a disability enrolls in and attends a district charter school pursuant to the provisions of part 1 of article 30.5 of this title or an institute charter school pursuant to part 5 of article 30.5 of this title, including a district or institute charter school that provides an online program or operates as an online school pursuant to article 30.7 of this title, the district of residence shall be responsible for paying to the district or institute charter school the tuition charge for the excess costs incurred in educating the child.

(b) Nothing in this subsection (5) shall be construed to apply to the charter contract entered into between a charter school and the chartering local board of education pursuant to part 1 of article 30.5 of this title or to allow a charter school to seek tuition costs from its chartering authority.

(c) The district or institute charter school shall not charge the district of residence tuition for the excess costs incurred in educating a child with a disability unless the child meets the criteria for funding pursuant to section 22-20-114 (1)(c)(II).

(d) The district or institute charter school shall provide notice to the administrative unit of residence, the district of residence if it is not an administrative unit, and the administrative unit of attendance in accordance with state board rules adopted pursuant to subsection (7) of this
section when a child with a disability applies to enroll in the district or institute charter school. The notice shall be in writing and shall be sent to the special education directors for the administrative units of residence and of attendance. If the district or institute charter school does not intend to seek tuition costs, no notification is required.

(e) The amount of the tuition charged shall be determined pursuant to rules adopted by the state board pursuant to subsection (7) of this section. The tuition responsibility shall be reflected in a contract between the charter school, the administrative unit of residence, the district of residence if it is not an administrative unit, the administrative unit of attendance including the state charter school institute, and the chartering school district if it is not an administrative unit. The contract shall be in a form approved by the chartering entity. Under the circumstances described in this subsection (5), the provisions of section 22-20-108 (8) shall not apply.

(5.5) (a) Notwithstanding the provisions of subsection (5) of this section, if a child with a disability enrolls in a district or institute charter school that participates in an alternative administrative unit, the alternative administrative unit is deemed the administrative unit of residence and of attendance so long as the child is enrolled in the alternative administrative unit. If the parents of a child with a disability remove the child from enrollment in the alternative administrative unit after the annual count date to determine state funding for children with disabilities, the alternative administrative unit continues to be deemed the administrative unit of residence for that child for the remainder of the school year and may be required to pay the tuition charge for excess costs to the administrative unit of attendance that enrolls the child for the remainder of the school year.

(b) (I) If a child with a disability who is enrolled in an alternative administrative unit is placed by an IEP team in an approved facility school or other private setting for special education purposes, the child with a disability continues to be enrolled in the alternative administrative unit until:

(A) The parents of the child with a disability initiate a change in enrollment that results in the child with a disability attending a school affiliated with a different administrative unit;

(B) The child with a disability is no longer enrolled in the school of the alternative administrative unit because the child with a disability is no longer entitled by age to continue in the school of the alternative administrative unit, unless the child with a disability has reached the age of eighteen and qualifies for transition services and is enrolled in a school that offers high school;

(C) The child with a disability is no longer enrolled in the school of the alternative administrative unit because the child with a disability is home-schooled or enrolled in a private school for general education purposes; or

(D) The placement of the child with a disability in an approved facility school or other private setting for special education purposes ends and, subsequently, the enrollment of the child with a disability in the alternative administrative unit ends for any reason permitted by law.

(II) Nothing in this subsection (5.5)(b) modifies subsection (5.5)(a) of this section.

(c) The alternative administrative unit in which a district or institute charter school participates shall not charge the district of residence tuition for the excess costs incurred in educating a child with a disability unless the child is placed by a multidisciplinary team pursuant to section 22-20-108 (4) in the alternative administrative unit and the child meets the criteria for funding pursuant to section 22-20-114 (1)(c)(II).
(d) If the alternative administrative unit charges tuition as allowed in subsection (5.5)(c) of this section, the amount of the tuition charged must be determined pursuant to rules adopted by the state board pursuant to subsection (7) of this section. The tuition responsibility must be reflected in a contract between the district or institute charter school, the district of residence, and the alternative administrative unit in which the district or institute charter school participates. The contract must be in a form approved by the alternative administrative unit in which the district or institute charter school participates. Under the circumstances described in this subsection (5.5), section 22-20-108 (8) does not apply.

(e) As used in this subsection (5.5), "alternative administrative unit" has the same meaning as provided in section 22-30.5-103.

(6) (a) When a child with a disability enrolls in and attends an online program or online school pursuant to article 30.7 of this title that is not provided by a district or institute charter school, the district of residence shall be responsible for paying to the provider of the online program or online school the tuition charge for the excess costs incurred in educating the child.

(b) The provider of the online program or online school shall not charge the district of residence tuition for the excess costs incurred in educating a child with a disability who receives educational services from the provider of the online program or online school unless the child meets the criteria for funding pursuant to section 22-20-114 (1)(c)(II).

(c) The online provider shall provide notice to the administrative unit of attendance, the administrative unit of residence, and the district of residence if it is not an administrative unit, in accordance with state board rules adopted pursuant to subsection (7) of this section when a child with a disability applies to enroll in the online program or online school. The notice shall be in writing and shall also be sent to the special education directors for the administrative units of residence and of attendance. If the online provider does not intend to seek tuition costs, notification is not required.

(d) The amount of the tuition charge shall be determined pursuant to rules adopted by the state board pursuant to subsection (7) of this section. The tuition responsibility shall be reflected in a contract entered into by the administrative unit of residence, the district of residence if it is not an administrative unit, the administrative unit of attendance, and the district of attendance if it is not an administrative unit. Under the circumstances described in this subsection (6), the provisions of section 22-20-108 (8) shall not apply.

(7) For the 2004-05 budget year and budget years thereafter, the state board shall promulgate rules pertaining to the education of children with disabilities in charter schools and rules pertaining to the education of children with disabilities through online programs and online schools. Both sets of rules shall include, but need not be limited to, rules to:

(a) Specify the content, manner, and timing of the notice that a charter school or online provider shall provide pursuant to subsections (5) and (6) of this section, respectively;

(b) Define the types and amounts of allowable costs in excess of the per pupil funding for the child with a disability, as determined pursuant to article 54 of this title, and any other state and federal revenues received for educating the child, that a charter school, online program, or online school may charge as tuition to a district of residence;

(c) Define other applicable revenues that a district of residence of a child with a disability shall apply in paying the tuition charge for excess costs incurred in educating the child at a charter school or through an online program or online school;
(d) Specify the limitations on the number of staff members per number of students that a charter school, online program, or online school shall provide in educating children with disabilities;

(e) (Deleted by amendment, L. 2011, (HB 11-1277), ch. 306, p. 1489, § 17, effective August 10, 2011.)

(f) and (g) (Deleted by amendment, L. 2006, p. 332, § 9, effective August 7, 2006.)

(h) Identify any other expenses involved in the provision of educational services to children with disabilities in accordance with each child's individualized education program;

(i) Establish a dispute resolution process for disagreements resulting from contracts entered into pursuant to subsection (5) or (6) of this section; and

(j) Specify elements to be included in a contract between entities described in subsection (5) of this section.

(8) Repealed.

Editor's note: (1) Amendments to subsection (2) by House Bill 94-1001 and House Bill 94-1198 were harmonized. Amendments to subsection (5) by House Bill 96-1293 and Senate Bill 96-77 were harmonized. Amendments to subsection (5) by House Bill 04-1362 and House Bill 04-1397 were harmonized.

(2) Subsection (8)(e) provided for the repeal of subsection (8), effective January 1, 2007. (See L. 2006, p. 662.)
Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 198, Session Laws of Colorado 1994. For the legislative declaration contained in the 2008 act amending subsection (3), see section 1 of chapter 286, Session Laws of Colorado 2008.

22-20-110. Maintenance. (Repealed)

22-20-111. Equipment. An administrative unit, a state-operated program, or an eligible facility may purchase equipment for the instruction or support of children with disabilities.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 198, Session Laws of Colorado 1994.

22-20-112. Length of school year. (1) An administrative unit may conduct special education programs as prescribed in this part 1 for any length of time; except that the administrative unit must meet the minimum length of time as established by law for school districts.

(2) Each administrative unit, state-operated program, and approved facility school shall provide extended school year services to a child with a disability only if the child's IEP team determines that extended school year services are necessary to provide the child with a free appropriate public education.

Editor's note: Amendments to subsection (1) by House Bill 11-1077 and House Bill 11-1277 were harmonized.

Cross references: For the legislative declaration contained in the 2008 act amending subsection (1), see section 1 of chapter 286, Session Laws of Colorado 2008.

22-20-113. School district report. (Repealed)

22-20-114. Funding of programs - legislative declaration - repeal. (1) Subject to the provisions of subsection (3) of this section, for the 2005-06 budget year and each budget year thereafter, the total amount appropriated to the department for the payment of costs incurred by administrative units for the provision of special education programs must be distributed to each administrative unit that provides educational services for children with disabilities as follows:

(a) (I) Five hundred thousand dollars to administrative units that enroll children with disabilities:

(A) For whom tuition is paid by the administrative units for the children to receive educational services at approved facility schools; and

(B) For whom parental rights have been relinquished by the parents or terminated by a court, the parents of whom are incarcerated, the parents of whom cannot be located, the parents of whom reside out of the state but the department of human services has placed the children within the administrative unit, or children with disabilities who are legally emancipated.

(II) The moneys appropriated pursuant to subparagraph (I) of this paragraph (a) shall be distributed in each budget year to administrative units based upon each administrative unit's share of the aggregate number of children with disabilities who are specified in subparagraph (I) of this paragraph (a); except that an administrative unit shall not receive an amount that exceeds the aggregate amount of tuition paid by that administrative unit for the specified children with disabilities to receive educational services at approved facility schools during the immediately preceding budget year. For purposes of this paragraph (a), the number of children with disabilities that are specified in subparagraph (I) of this paragraph (a) shall be based upon the count taken in December of the immediately preceding budget year.

(a.5) and (a.7) Repealed.

(b) (I) For the budget years preceding the 2022-23 budget year, an amount equal to one thousand two hundred fifty dollars for each child with disabilities receiving special education services from the administrative unit;

(II) Except as specified in subsection (1.3) of this section, for the 2022-23 budget year and each budget year thereafter, an amount equal to one thousand seven hundred fifty dollars for each child with disabilities receiving special education services from the administrative unit; and

(c) (I) If any amount of the total annual appropriation remains after the distributions specified in subsections (1)(a), (1)(a.5), and (1)(b) of this section have been made, and after the distribution of the portion of the total annual appropriation designated for high-cost grants pursuant to subsection (2) of this section has been made, six thousand dollars per child with one or more disabilities, as described in subsection (1)(c)(II) of this section, for a percentage of such children receiving special education services from the administrative unit. The department shall annually determine the percentage of such children for which an administrative unit may receive additional funding pursuant to this subsection (1)(c) based on the amount of the remaining appropriation, the money available pursuant to subsection (1)(c)(III) of this section, and the per pupil amount of six thousand dollars.

(II) An administrative unit that provides special education services to children who have one or more of the following disabilities may receive funding pursuant to this paragraph (c):

(A) A visual impairment, including blindness, as defined by the state board;

(B) A hearing impairment, including deafness, as defined by the state board;

(C) Deaf-blindness, as defined by the state board;

(D) A serious emotional disability as defined by the state board;
(E) Autism spectrum disorders as defined by the state board;
(F) A traumatic brain injury as defined by the state board;
(G) Multiple disabilities as defined by the state board; or
(H) An intellectual disability as defined by the state board.

(III) (A) For the 2013-14 budget year and each budget year thereafter, in addition to any amount that is available pursuant to subsection (1)(c)(I) of this section, the general assembly shall appropriate twenty million dollars from the state education fund to the department for the purposes of this subsection (1)(c).

(B) For the 2019-20 budget year and each budget year thereafter, in addition to any amount that is available pursuant to subsections (1)(c)(I) and (1)(c)(III)(A) of this section, the general assembly shall appropriate twenty-two million dollars, which amount may be appropriated from the state education fund or the general fund or as amounts from both funds, to the department for the purposes of this subsection (1)(c).

(B.1) Except as specified in subsection (1.3) of this section, for the 2022-23 budget year and each budget year thereafter, in addition to any amount that is available pursuant to subsections (1)(c)(I), (1)(c)(III)(A), and (1)(c)(III)(B) of this section, the general assembly shall appropriate twenty-six million eight hundred twenty-five thousand dollars, which amount may be appropriated from the state education fund or the general fund or as amounts from both funds, to the department for the purposes of this subsection (1)(c).

(B.2) Except as specified in subsection (1.3) of this section, for the 2023-24 budget year and each budget year thereafter, in addition to any amount that is available pursuant to subsections (1)(c)(I), (1)(c)(III)(A), (1)(c)(III)(B), and (1)(c)(III)(B.1) of this section, the general assembly shall appropriate forty million two hundred three thousand six hundred seventy-one dollars, which amount may be appropriated from the state education fund created in section 17 (4) of article IX of the state constitution or the general fund, or as amounts from both funds, to the department for the purposes of this subsection (1)(c).

(C) The general assembly finds and declares that, for the purposes of section 17 of article IX of the state constitution, providing additional money to children with one or more disabilities, as described in subsection (1)(c)(II) of this section, for a percentage of such children receiving special education services from an administrative unit is a program for accountable education reform and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(D) It is the intent of the general assembly to increase funding for special education services as necessary for the 2023-24 budget year and budget years thereafter to fully fund special education services pursuant to this subsection (1)(c).

(1.3) For the 2024-25 budget year and budget years thereafter, the dollar amounts set forth in subsections (1)(b)(II) and (1)(c)(III) of this section are annually increased by the rate of inflation. The amounts must be rounded to the nearest dollar. As used in this subsection (1.3), "inflation" means the annual percentage change in the United States department of labor bureau of labor statistics consumer price index for Denver-Aurora-Lakewood for all items paid by all urban consumers, or its applicable successor index.

(2) (a) (I) In addition to the amount appropriated for distribution pursuant to subsection (1) of this section, for the 2006-07 and 2007-08 budget years, subject to available appropriations, the general assembly shall appropriate two million dollars from the general fund or from any other source to the department to fund grants to administrative units as provided in section
22-20-114.5 for reimbursement of high costs incurred in providing special education services in the preceding budget year.

(II) (A) In addition to the amount appropriated for distribution pursuant to subsection (1) of this section, for the 2008-09 budget year and each budget year thereafter, subject to available appropriations, the general assembly shall appropriate four million dollars from the general fund or from any other source to the department to fund grants to administrative units as provided in section 22-20-114.5 for reimbursement of high costs incurred in providing special education services in the preceding budget year.

(B) The general assembly hereby finds and declares that for the purposes of section 17 of article IX of the state constitution, providing grants to administrative units for reimbursement for high costs incurred in providing special education services is a program for accountable education reform and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

(b) Any amount received by an administrative unit as a reimbursement pursuant to this subsection (2) shall be in addition to the amount received by the administrative unit pursuant to subsection (1) of this section. The moneys appropriated by the general assembly to the department shall be distributed by the Colorado special education fiscal advisory committee in accordance with section 22-20-114.5.

(3) (a) Except as otherwise provided in paragraph (b) of this subsection (3), for the 2005-06 budget year, the department shall recalculate the distribution of funds to administrative units for providing educational services to children with disabilities as necessary to comply with the provisions of subsection (1) of this section.

(b) notwithstanding the provisions of subsection (1) of this section, if the application of the provisions of subsection (1) of this section would result in an administrative unit receiving a lesser amount for providing educational services to children with disabilities for the 2005-06 budget year than it would have received under the provisions of this section as they existed prior to April 28, 2006, then the department shall not recalculate the distribution of funds for the administrative unit for the 2005-06 budget year.

(4) An administrative unit shall not receive the amount of funding to which it is entitled under the provisions of subsection (1) of this section unless the administrative unit has provided to the department the data collected concerning special education programs, as required by subsection (6) of this section, including the count of assessed children with disabilities.

(5) Payments made under the provisions of this part 1 shall not affect the amount of other state aid for which an administrative unit may qualify.

(6) Each administrative unit shall be required to collect the data required by the federal government concerning special education programs. Each administrative unit shall provide to the department the data collected concerning special education programs in order to receive the amount of funding to which it is entitled under the provisions of subsection (1) of this section.

(7) It is the general assembly's intent that, as a result of receiving an increase in the distribution of state moneys, an administrative unit, in complying with the maintenance of effort requirement specified in the federal "No Child Left Behind Act of 2001", 20 U.S.C. sec. 6381 et seq., shall not reduce the level of state and local expenditures below the level of state and local expenditures for the preceding budget year. Any additional appropriation of moneys for distribution pursuant to this section is intended to alter the ratio between state and local
expenditures, but the overall level of expenditures may remain the same, thereby satisfying the federal maintenance of effort requirements.

(8) (a) For the 2023-24 budget year, the general assembly shall appropriate ten million dollars to the department from the state education fund created in section 17 (4) of article IX of the state constitution to be distributed pursuant to the requirements set forth in subsection (8)(b) of this section to preschool providers that are a school of a school district, district charter school, or an institute charter school.

(b) A preschool provider that is a school of a school district, district charter school, or an institute charter school must only receive funding pursuant to this subsection (8) if the department determines that, even with the funding received pursuant to section 26.5-4-208, the eligible preschool provider is projected, based on eligible children enrolled in the universal preschool program created in section 26.5-4-204, to receive less than the preschool provider's total preschool funding for all preschool positions in the 2022-23 fiscal year. This funding is intended to ensure that administrative units can meet the federal maintenance of effort requirements pursuant to the IDEA. If the total amount of funding distributed to eligible preschool providers is less than ten million dollars, the department shall transfer the difference between the distributed amount and the ten million dollars to the state treasurer, who shall credit the money received to the state education fund.

(c) This subsection (8) is repealed, effective July 1, 2024.

(1)(b), and (1)(c)(I) amended and (1)(c)(III)(B.1), (1)(c)(III)(D), and (1.3) added, (SB 22-127), ch. 228, p. 1688, § 1, effective May 26. L. 2023: (1)(c)(III)(B.2) added, (SB 23-099), ch. 188, p. 914, § 1, effective May 15; (8) added, (SB 23-287), ch. 189, p. 924, § 9, effective May 15.

Editor's note: (1) Amendments to subsection (3) by Senate Bill 77-138 and House Bill 77-1022 were harmonized.
(2) Subsections (1)(b)(V) and (5) were amended in House Bill 94-1001. Those amendments were superseded by the amendment of the entire section in House Bill 94-1198.
(3) Subsection (1)(a.5)(II)(D) provided for the repeal of subsection (1)(a.5)(II), effective July 1, 2022. (See L. 2021, pp. 2611, 2618.)
(4) Subsection (1)(a.7)(II) provided for the repeal of subsection (1)(a.7), effective July 1, 2023. (See L. 2021, p. 2612.)

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 198, Session Laws of Colorado 1994. For the legislative declaration contained in the 2008 act amending subsection (2), see section 1 of chapter 286, Session Laws of Colorado 2008. For the legislative declaration in SB 23-287, see section 1 of chapter 189, Session Laws of Colorado 2023.

22-20-114.5. Special education fiscal advisory committee - special education high-cost grants - definitions - repeal. (1) As used in this section, unless the context otherwise requires:
(a) "Committee" means the Colorado special education fiscal advisory committee created in subsection (2) of this section.
(b) "High costs" means the costs incurred by an administrative unit above a threshold amount determined pursuant to paragraph (e) of subsection (3) of this section in providing special education services, either directly or by contract, to a child with disabilities regardless of the child's district of residence.
(c) Repealed.
(2) (a) There is hereby created the Colorado special education fiscal advisory committee in the department. The committee shall consist of twelve members as follows:
(I) A representative from the unit in the department responsible for the administration of special education programs;
(III) A special education director from a board of cooperative services with expertise in special education finance selected by the state board based on a recommendation from the statewide association that represents boards of cooperative services;
(IV) A business official from a small rural administrative unit to be selected by the state board based on a recommendation from a statewide association of school executives;
(V) A business official from a large urban or suburban administrative unit to be selected by the state board based on a recommendation from a statewide association of school executives; and
(VI) Eight special education specialists with appropriate statewide geographic representation to be selected by the state board based on recommendations from a statewide consortium of special education directors.

(b) The members of the committee shall serve without compensation but shall be reimbursed by the department for any necessary expenses incurred in the conduct of their official duties on the committee.

(c) This subsection (2) is repealed, effective September 1, 2031. Before its repeal, the committee is scheduled for review in accordance with section 2-3-1203.

(3) (a) An administrative unit that incurs high costs in providing special education services to a child with disabilities may apply for a high cost grant to recover all or a portion of such high costs. To receive a grant, an administrative unit shall apply to the committee in a form and manner determined by the committee and provide such information as may be requested by the committee to document the administrative unit's high costs.

(a.5) Of the total amount appropriated in a budget year for the purpose of awarding grants pursuant to this section, the committee shall use fifty percent of the amount to award grants to administrative units that have one or more children being served in an out-of-district placement for special education services and fifty percent of the amount to award grants to administrative units with one or more children being served in an in-district placement for special education services.

(b) (I) Subject to the requirements of paragraph (a.5) of this subsection (3), the committee shall have the discretion to award a grant to an administrative unit that applies and qualifies to receive a grant pursuant to paragraph (a) of this subsection (3). In determining whether to award a grant to an administrative unit and the amount of the grant to be awarded, the committee shall consider the administrative unit's annual audited operating expenses for the preceding budget year and the percentage of the administrative unit's annual audited operating expenses that represents the high costs incurred by the administrative unit in the preceding budget year. All grants awarded by the committee shall be subject to approval by the state board.

(II) (A) In awarding grants pursuant to this section to administrative units that have one or more children being served in an out-of-district placement for special education services, the committee shall first prioritize those administrative units that spent the highest percentages, based on the administrative unit's annual audited operating expenses, in the preceding budget year on high costs incurred in providing special education services to children in such out-of-district placements.

(B) In awarding grants pursuant to this section to administrative units with one or more children being served in an in-district placement for special education services, the committee shall first prioritize those administrative units that spent the highest percentages, based on the administrative unit's annual audited operating expenses, in the preceding budget year on high costs incurred in providing special education services to children in such in-district placements.

(c) An administrative unit shall not receive a grant in an amount that exceeds one hundred percent of the high costs that the administrative unit incurred in the preceding budget year.

(d) The committee shall not award a grant to an administrative unit that fails to provide the department with the data collected concerning special education programs, as required by section 22-20-114 (6), including the count of assessed special education students.
(e) For the purpose of grants awarded in the 2006-07 budget year, the threshold amount of costs incurred in providing special education services to a child with disabilities above which an administrative unit may receive reimbursement in the form of a grant pursuant to the provisions of this subsection (3) is forty thousand dollars. For the purpose of grants awarded in the 2007-08 budget year and each budget year thereafter, the committee shall annually determine the threshold amount of costs incurred in providing special education services to a child with disabilities above which an administrative unit may receive reimbursement in the form of a grant.

(4) (a) The department shall gather and provide to the committee data that includes but need not be limited to the following:

(I) The extent to which the amount appropriated pursuant to section 22-20-114 (1) is distributed based on the needs of children with disabilities and the severity of the needs of such children;

(II) The number of children with disabilities who receive special education services from each administrative unit and the nature of the disability of each child who receives special education services from each administrative unit;

(III) Patterns of identifying children with disabilities that include but need not be limited to recognized incidence rates of over- and under-identification of children with disabilities at the administrative unit, state, and national levels;

(IV) The number of hours of special education services that each administrative unit provides, disaggregated by disability; and

(V) The percentage of the school day during which children with disabilities receive special education services from the administrative unit, disaggregated by disability.

(b) On or before January 1, 2008, the committee shall submit to the state board, the education committees of the house of representatives and the senate, or any successor committees, a statewide organization of special education directors, and the financial policies and procedures advisory committee created in the department, a report that includes but need not be limited to the following:

(I) The information that the department gathered pursuant to paragraph (a) of this subsection (4) and any analysis conducted by the committee;

(II) Recommended changes, if any, to the manner of distributing funds to administrative units for special education programs pursuant to section 22-20-114 (1)(a) and (1)(b); and

(III) Recommended changes, if any, to the categorization of children with disabilities pursuant to section 22-20-114 (1)(b) and (1)(c) for the purpose of distributing funds for the provision of special education programs.

(5) On January 15, 2008, and on January 15 of each year thereafter, the committee shall submit to the education committees of the house of representatives and the senate, or any successor committees, a report that includes but need not be limited to a list of the administrative units that applied for and received a grant pursuant to subsection (3) of this section during the preceding budget year.

(6) (a) In addition to awarding grants pursuant to subsection (3) of this section, the committee shall award high-cost special education trust fund grants and report on those grants pursuant to section 22-20-114.7.

(b) This subsection (6) is repealed, effective July 1, 2027.
(7) On or before January 1, 2023, the committee shall submit to the education committees of the house of representatives and the senate, or any successor committees, a report that includes but need not be limited to:

(a) An analysis of funding for special education services in other states compared to the funding model used in Colorado, with a focus on the proportionate shares provided by federal, state, and local funding and how other states fund different categories of disabilities to target the needs of children with disabilities;

(b) An analysis of the actual costs to provide special education services to children with disabilities in Colorado;

(c) An analysis of the effectiveness of the current funding model for special education services and whether the current funding model adequately supports special education services;

(d) An examination of the high-cost special education trust fund created in section 22-20-114.7, including how the high-cost special education trust fund is currently operating, who is receiving funding from the high-cost special education trust fund, and how the high-cost special education trust fund impacts those who receive funds;

(e) An analysis of the current disability categories for children with disabilities described in section 22-20-103 (5)(a) and whether the disability categories are sufficient for meeting the needs of children with disabilities; and

(f) Recommended changes, if any, to the special education services funding model described in section 22-20-114.

Cross references: For the legislative declaration contained in the 2008 act enacting subsection (3)(a.5) and amending subsection (3)(b), see section 1 of chapter 286, Session Laws of Colorado 2008.
(IV) Ensuring that financial support is available to help administrative units defray the costs associated with providing high-cost special education services is a statewide concern; and

(V) Building a reserve that may provide necessary funding for administrative units experiencing high costs will help bring equity and stability to the state's special education programs.

(b) Therefore, the general assembly declares that it is necessary and appropriate to create a high-cost special education trust fund to build a reserve for high-cost special education services.

(2) (a) The high-cost special education trust fund, referred to in this section as the "trust fund", is created in the state treasury. The trust fund is administered by the Colorado special education fiscal advisory committee, created in the department of education pursuant to section 22-20-114.5 (2), and referred to in this section as the "committee".

(b) (I) On July 1, 2019, the state treasurer shall transfer two million five hundred thousand dollars from the marijuana tax cash fund, created in section 39-28.8-501, to the trust fund.

(II) The general assembly is encouraged to prioritize the transfer or appropriation of money to the trust fund in future fiscal years.

(c) The trust fund consists of money transferred to the trust fund pursuant to subsection (2)(b) of this section and any other money that the general assembly may appropriate to the trust fund and the interest and income earned on the principal of the trust fund.

(d) Transfers to the trust fund pursuant to subsection (2)(b) of this section and any money appropriated to the trust fund pursuant to subsection (2)(c) of this section constitute the principal of the trust fund. The principal of the trust fund remains in the trust fund and shall not be appropriated, transferred, or expended.

(e) The state treasurer is authorized and directed to manage the trust fund through prudent investments and shall credit all interest and income derived from the deposit and investment of money in the trust fund to the trust fund.

(f) Trust fund interest and income is continuously appropriated to the department for high-cost special education trust fund grants awarded by the committee pursuant to subsection (3) of this section. Interest and income not expended during the fiscal year for high-cost special education trust fund grants may be expended in subsequent fiscal years for that purpose.

(g) Notwithstanding any provision of this subsection (2) to the contrary, on July 1, 2020, the state treasurer shall transfer the amount of any unexpended and unencumbered trust fund principal to the state public school fund created in section 22-54-114.

(3) (a) The committee may award high-cost special education trust fund grants from interest and income in the trust fund.

(b) An administrative unit may apply to the committee for a high-cost special education trust fund grant if the administrative unit:

(I) Has expenditures, as defined in subsection (3)(c) of this section, in the preceding budget year to meet the needs of a single student with an IEP; and

(II) The expenditures exceed the lesser of:

(A) One hundred thousand dollars; or

(B) Two and one-half percent of the administrative unit's annual audited operating expenses for the preceding budget year.
(c) For the purposes of subsection (3)(b) of this section, "expenditures" includes items that are allowable special education expenditures pursuant to state and federal law. An administrative unit applying for a high-cost special education trust fund grant shall provide documentation or other certification of expenditures, as required by the committee.

(d) If the committee determines that an administrative unit is eligible for a high-cost special education trust fund grant, the committee shall consider the following criteria in determining whether to award a trust fund grant and in what amount:

(I) Number of applications received in a given year;

(II) The amount of high-cost special education trust fund grant money available for distribution in a given year; and

(III) Any special circumstances associated with the individual high-cost special education trust fund grant request.

(e) The committee shall make the final determination as to the high-cost special education trust fund grant award and amount; however, the committee shall attempt to award trust fund grants in proportion to the need presented by individual cases and the number of applications presented by administrative units in a given year.

(f) The committee may request additional information from administrative units prior to the distribution of high-cost special education trust fund grants.

(g) The committee is encouraged to work directly with an administrative unit to help tailor high-cost special education trust fund grants to the specific needs of the individual administrative unit for the most efficient use of trust fund grant money.

(4) (a) For each fiscal year in which the committee awards a high-cost special education trust fund grant, the committee shall incorporate the following information regarding the special education trust fund grant into the annual special education fiscal advisory committee report to the state board of education and the education committees of the house of representatives and of the senate, or any successor committees:

(I) The number of applications received for a high-cost special education trust fund grant;

(II) The number of high-cost special education trust fund grants awarded during the fiscal year;

(III) The name of the administrative unit receiving a high-cost special education trust fund grant and the amount of money awarded for each trust fund grant; and

(IV) The balance in the trust fund, including principal and available interest and income in the trust fund.

(b) Notwithstanding the provisions of section 24-1-136 (11)(a)(I) to the contrary, the report required pursuant to this subsection (4) continues indefinitely.

(5) (a) This section is repealed, effective July 1, 2027.

(b) Prior to such repeal, the state treasurer shall:

(I) Transfer any unexpended and unencumbered trust fund interest and income to the general fund; and

(II) Transfer any remaining marijuana tax cash fund money transferred to the trust fund pursuant to subsection (2)(b) of this section to the marijuana tax cash fund, created in section 39-28.8-501.
22-20-115. Study - report to general assembly. (Repealed)

22-20-116. Minimum standards for educational interpreters for the deaf in the public schools - committee to recommend standards - rules. (1) The general assembly hereby finds that interpreting services in administrative units, state-operated programs, and approved facility schools for students who are deaf or hard of hearing need to be improved and that the absence of state standards for evaluating educational interpreters allows for inconsistencies in the delivery of educational information to students who are deaf or hard of hearing. The general assembly recognizes that educational interpreters in such educational settings must not only interpret the spoken word but must also convey concepts and facilitate the student's understanding of the educational material. The general assembly also finds that standards should be based on performance and should be developed with input from the deaf community and from persons involved in instructing deaf students. Therefore, the general assembly enacts this section for the purpose of developing appropriate standards for persons employed as educational interpreters in administrative units, state-operated programs, and approved facility schools.

(2) For purposes of this section, "educational interpreter" means a person who uses sign language in an administrative unit, a state-operated program, or an approved facility school for purposes of facilitating communication between users and nonusers of sign language and who is fluent in the languages used by both deaf and nondeaf persons.

(3) to (5) Repealed.

(6) After review and study of the recommendations of the interpreter standards committee, the state board, on or before July 1, 1998, shall promulgate rules setting minimum standards for educational interpreters for the deaf employed by or in an administrative unit, a state-operated program, or an approved facility school. The state board may revise and amend such minimum standards as it deems necessary. The state board shall promulgate rules that set forth the documentation that a person seeking employment as an educational interpreter for the deaf must submit to the employing administrative unit, state-operated program, or approved facility school.

(7) On or after July 1, 2000, in addition to any other requirements that an administrative unit, a state-operated program, or an approved facility school may establish, any person employed as an educational interpreter for deaf students on a full-time or part-time basis by or in an administrative unit, a state-operated program, or an approved facility school shall meet the minimum standards for educational interpreters for the deaf as established by rules of the state board.

Editor's note: Subsection (3)(d) provided for the repeal of subsection (3), effective July 1, 1998. (See L. 97, p. 70.)

22-20-117. Study of funding education programs for children with disabilities - report to the general assembly - repeal. (Repealed)

Editor's note: Subsection (3) provided for the repeal of this section, effective January 1, 2001. (See L. 2000, p. 486.)

22-20-118. Child find from birth through two years of age - responsibilities - rules - interagency operating agreements - funding - repeal. (Repealed)

Editor's note: Subsection (3) provided for the repeal of this section, effective July 1, 2022. (See L. 2021, p. 2618.)

22-20-118.5. Child find - responsibilities - interagency operating agreements. (1) As of July 1, 2022, the department of early childhood shall administer part C child find pursuant to part 4 of article 3 of title 26.5; except that, beginning May 1, 2022, and continuing until July 1, 2022, the department of human services shall administer the referral intake process for part C child find evaluations.

(2) On or before July 1, 2022, the department shall establish a state-level interagency operating agreement, referred to in this section as the "agreement", with the department of early childhood concerning the coordination of transitions of children from part C child find to part B child find. In developing the agreement, the department and the department of early childhood shall involve stakeholder participation, including representatives from administrative units and part C entities. The agreement must also include:

(a) The definition of a child who is potentially eligible for part B;
(b) The processes for a parent of a child to opt out of required notifications;
(c) The required notification concerning a child who is potentially eligible for part B;
(d) A process for resolving disputes between an administrative unit and a part C entity concerning the satisfaction of agreement requirements, including remedies and sanctions;
(e) A process for resolving disputes between the department and the department of early
childhood concerning systemic and statewide issues related to agreement requirements;

(f) The development and delivery of standardized communication materials for a parent
of a child who is potentially eligible for part B, including information concerning eligibility,
referral, evaluation, and service delivery;

(g) The development and delivery of standardized training for part C and part B
providers, including information concerning eligibility, referral, evaluation, and service delivery
for the programs;

(h) The process for transferring a child's assessment, IFSP, and other necessary
information to an administrative unit for consideration of a part B evaluation and eligibility
determination, if a parent has provided written consent;

(i) (I) Processes to ensure timely notification to the administrative unit if a child is
potentially eligible for part B. At a minimum, timely notification must occur not later than when
a child is two years and six months of age; except that timely notification must occur not later
than when a child is two years and three months of age if a child has a low incidence diagnosis
including, but not limited to, visual impairment, including blindness; hearing impairment,
including deafness; or deaf-blind.

(II) If a child is determined to be eligible for part C when the child is older than the ages
described in subsection (2)(i)(I) of this section, timely notification must occur not later than ten
business days after the eligibility determination.

(j) A process for including an administrative unit representative in a transition
conference for a child who transitions from part C to part B;

(k) A process for including an early intervention services provider in the development of
an IEP, if requested by the parent of the child; and

(l) A process for timely transferring data that is required by law between the department
and the department of early childhood.

(3) The department and the department of early childhood shall review and revise the
agreement to account for any changes to state or federal law, as necessary. At a minimum, the
agreement must be reviewed once every five years. In the review and revision of the agreement,
the department and the department of early childhood shall involve stakeholder participation,
including representatives from administrative units and part C entities.

30. L. 2022: (1), IP(2), (2)(e), (2)(l), and (3) amended, (HB 22-1295), ch. 123, p. 840, § 54,
effective July 1.

22-20-119. Implementation of change of disability categories for children with
disabilities. On or before November 1, 2011, the department shall develop guidelines and
timelines to be used by administrative units and state-operated programs for developing local
systems and infrastructure that incorporate the disability categories set forth in section 22-20-103
(5)(a). The guidelines shall address necessary revisions to model forms and local training needs,
pursuant to section 2-2-802, C.R.S. The timelines shall encourage administrative units and
state-operated programs to implement the disability categories and related eligibility criteria
established in section 22-20-103 (5)(a) as soon as possible after the state board issues
implementing rules, to be adopted on or before December 1, 2012. Administrative units and
state-operated programs shall have until July 1, 2016, to implement any necessary changes without loss of special education funding or incurring any other penalties.

**22-20-120. Parents encouraging parents conference - legislative declaration.** (1) The general assembly hereby finds and declares that:
   (a) Parents of children with disabilities often support their children until their death;
   (b) There are no resources that adequately prepare parents for the task of supporting children with disabilities;
   (c) Parents of children with disabilities struggle to obtain time away from caring for their child in order to gain personal insight and support from each other while learning of educational, legal, behavioral, and community resources;
   (d) Both parents and professionals play critical interactive roles in a child's educational success and in developing and sustaining family and school partnerships;
   (e) The parents encouraging parents conference uniquely motivates interpersonal and intrapersonal insight that is critical for successful parent and professional partnerships;
   (f) The parents encouraging parents program was founded in 1978 and has made a difference in the lives of thousands of families; and
   (g) Parents encouraging parents program evaluations have shown that participating parents feel less isolated than before participation and feel more hopeful and empowered to engage in advocacy for their child's education and life plans.
   
   (2) Therefore, the general assembly declares that it is necessary to continue the parents encouraging parents program for families of children with disabilities.
   
   (3) Subject to available federal funds, or subject to state appropriations, the department shall provide up to four parents encouraging parents conferences, referred to in this section as "conference", per year. The parents of a child with a disability are encouraged to attend as a couple. Alternatively, a parent is encouraged to attend with a support person.
   
   (4) The department shall develop and facilitate an application process for people who want to attend a conference. At a minimum, a person is eligible to attend a conference if he or she is the parent of a child with a disability.
   
   (5) A conference must be provided of sufficient length for content to be delivered, including at least one overnight stay.
   
   (6) A conference shall be held at a venue equipped to meet regional conference participant needs.
   
   (7) The department shall provide all conference participants with lodging and food, subject to available funding and consistent with state fiscal rules.
   
   (8) The conference curriculum must include topics that enable parents to effectively partner with their children's teachers and schools to provide children with appropriate education services such as, but not limited to, the stages of grieving; special education in Colorado and the program standards for parent engagement in schools; an individual with a disability's legal rights under the federal "Individuals with Disabilities Education Act", 20 U.S.C. 1400 et seq., as amended, or other related federal or state laws; participation in regional work sessions on family
and school partnerships and resources; and how parents of children with a disability can advocate for their children.

(9) The conference must provide peer support for parents at working meals and during breaks.

22-20-121. Medically necessary treatment in school setting - policy - report - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Medically necessary treatment" means treatment recommended or ordered by a Colorado licensed health-care provider acting within the scope of the health-care provider's license.

(b) "Private health-care specialist" means a health-care provider who is licensed, certified, or otherwise authorized to provide health-care services in Colorado, including pediatric behavioral health treatment providers pursuant to the state medical assistance program, articles 4, 5, and 6 of title 25.5, and autism services providers who provide treatment pursuant to section 10-16-104 (1.4).

(2) (a) No later than July 1, 2023, each administrative unit shall adopt a policy that addresses how a student who has a prescription from a qualified health-care provider for medically necessary treatment receives such treatment in the school setting as required by applicable federal and state laws, including section 504 of the federal "Rehabilitation Act of 1973", 29 U.S.C. sec. 794, as amended, and Title II of the federal "Americans with Disabilities Act of 1990".

(b) The policy developed pursuant to subsection (2)(a) of this section must:

(I) Include a notice to the parent or legal guardian of the student that section 504 of the federal "Rehabilitation Act of 1973", 29 U.S.C. sec. 794, as amended, and Title II of the federal "Americans with Disabilities Act of 1990" provide rights and protections to students to access medically necessary treatment required by the student to have meaningful access to the benefits of a public education, or to attend school without risks to the student's health or safety due to the student's disabling medical condition;

(II) Address the process in which a private health-care specialist may observe the student in the school setting, collaborate with instructional personnel in the school setting, and provide medically necessary treatment in the school setting as required by section 504 of the federal "Rehabilitation Act of 1973", 29 U.S.C. sec. 794, as amended, and Title II of the federal "Americans with Disabilities Act of 1990"; and

(III) Provide notice of a student's right to appeal the decision of an administrative unit concerning access to medically necessary treatment in the school setting.

(3) Each administrative unit shall make the policy developed pursuant to subsection (2) of this section publicly available on the administrative unit's website and available to the parent or legal guardian of the student, upon request.

(4) (a) Beginning July 1, 2024, and each July 1 thereafter, each administrative unit shall compile and provide to the department of education the total number of requests for access to a student by a private health-care specialist pursuant to this section and whether the access was authorized or denied.
(b) Beginning January 2025, and each January thereafter, the department of education shall make the information reported pursuant to subsection (4)(a) of this section available on the department's website and report the information to the house of representatives education committee and the senate education committee, or their successor committees, as part of the "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act" presentation required by part 2 of article 7 of title 2.

Cross references: For the legislative declaration in HB 22-1260, see section 1 of chapter 320, Session Laws of Colorado 2022.

PART 2

EDUCATION OF GIFTED CHILDREN

22-20-201. Legislative declaration. (1) The general assembly, recognizing the obligation of the state of Colorado to provide educational opportunities to all children that will enable them to lead fulfilling and productive lives, declares that the purpose of this part 2 is to provide means for identifying and educating those children who are gifted.

(2) It is the intent of the general assembly that:

(a) Evidence-based practices support instruction and the social and emotional development of gifted children; and

(b) Each gifted child is educated in a rigorous learning environment and culture that develops the child's areas of exceptionality and coordinates programs and services among available support systems.

(3) The general assembly further finds and declares that traditional assessment methods may not adequately identify some gifted children, including children from all socioeconomic, ethnic, and cultural populations and gifted children who also have disabilities. It is therefore the general assembly's intent that the state board, the department, and every administrative unit include all student groups in each administrative unit's procedures for identifying gifted children and for developing educational programs that include gifted children.

(4) The general assembly declares that, for purposes of section 17 of article IX of the state constitution, gifted education programs are accountable programs to meet state academic standards and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

22-20-202. Definitions. As used in this part 2, unless the context otherwise requires:

(1) "Administrative unit" means a school district, a board of cooperative services, a charter school network, a charter school collaborative, or the state charter school institute that is
providing educational services to exceptional children and that is responsible for the local administration of this article 20.

(2) "Advanced learning plan" means a written record of a gifted student's strengths and academic and affective learning goals and the resulting programming utilized with each gifted child and considered in educational planning and decision-making.

(3) "Annual plan" means an administrative unit's comprehensive gifted education plan and annual proposed budget form that the administrative unit submits to the department pursuant to state board rules.

(4) "Aptitude" means an exceptional ability to reason and learn. Screening procedures for gifted children may consider aptitude in the context of a defined top range of performance or test scores for purposes of recognizing gifted potential or for identifying a talent pool for developing giftedness in one or more domains, as defined by rule of the state board.

(5) "Assessment" means methods, tools, and data collected as a body of evidence for use in the following gifted education processes:
   (a) Identification and programming; and
   (b) Monitoring the gifted child's performance and outcomes.

(6) "Board of cooperative services" means a regional educational services unit created pursuant to article 5 of this title and designed to provide supporting, instructional, administrative, facility, community, or any other services contracted by participating members.

(7) "Competence" means documented performance, achievement, or test scores on standardized or locally normed test results. Screening procedures may consider competence in the context of a defined range of student performance, as described by rule of the state board, for purposes of recognizing gifted potential or identifying a talent pool for developing giftedness.

(8) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

(9) "Evaluation" means evaluation procedures, methods, and tools used to initially identify a gifted child, assess and monitor the child's progress, and evaluate the child and the gifted program. Evaluation includes, but needs not be limited to:
   (a) Identifying the child's unique strengths, interests, and needs;
   (b) Monitoring the child's academic achievement and growth;
   (c) Identifying the priorities and concerns of the child's family and resources to which the family and the child's school have access; and
   (d) Determining program strengths and areas for program improvement.

(10) "Exceptional child" means:
   (a) A child defined in section 22-20-103 (5) as a child with a disability. An administrative unit shall serve every child with a disability from three to twenty-one years of age and may serve children with disabilities from birth through two years of age.
   (b) A child defined in subsection (11) of this section as a gifted child. Pursuant to section 22-20-204 (1), an administrative unit shall adopt and submit to the department a program plan to identify and serve gifted children who are at least five years of age.

(11) "Gifted child" means a person from four to twenty-one years of age whose aptitude or competence in abilities and talents and potential for accomplishments in one or more domains, as defined by state board rule, are so outstanding that he or she requires special provisions to meet his or her educational needs.
"Gifted education services" or "gifted education programs" means the services or programs provided to gifted children pursuant to this part. "Gifted education services" and "gifted education programs" include, but need not be limited to, strategies, programming options, and interventions reflecting evidence-based practices, such as acceleration, concurrent enrollment, differentiated instruction, and affective guidance.

"Highly advanced gifted child" means a gifted child that an administrative unit, using criteria and a process established by rules that the state board promulgates pursuant to section 22-20-204.5 (4), has identified as a highly advanced gifted child.

"Individual career and academic plan" means the plan created for each student pursuant to sections 22-30.5-525 and 22-32-109 (1)(oo).

"Program elements" means components of a program plan, which include, but need not be limited to, definition, communication, identification, programming, personnel, accountability, reporting, record keeping, and resolution of disagreements.

"Program plan" means a comprehensive and complete narrative of program elements described in state board rules. A program plan must include, but need not be limited to:

(a) The procedures the administrative unit will use to identify gifted students;
(b) The programming and documentation options that the administrative unit will implement in operating the gifted program; and
(c) Actions and tools for ensuring accountability for the academic achievement of gifted children and for evaluating the gifted program, which actions and tools are aligned with state accountability and program evaluations.

"Qualified person" or "qualified personnel" means an educator that holds or is working toward attaining a gifted education license endorsement, a director of gifted education license endorsement, or a master's degree or higher in gifted education.

"School district" means a school district organized and existing pursuant to law, but shall not include a local college district.

"State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

22-20-203. Administration - rules - state advisory committee. (1) (a) The department shall administer this part 2, which includes recommending to the state board reasonable rules necessary to implement this part 2, including but not limited to:

(I) Procedures regarding the identification of gifted children and the collection of data on their areas of giftedness;

(II) Criteria that administrative units must satisfy in adopting program plans to identify and serve gifted children;

(III) Required contents of an advanced learning plan and the procedures and responsibilities for creating a gifted child's advanced learning plan;

(IV) Statewide procedures to ensure the portability of a gifted child's identification as gifted;
(V) Criteria and procedures to ensure accountability for gifted students' academic achievement and for evaluation of gifted education programs;
(VI) Criteria to ensure administrative units' accountability for annual gifted education program budgets and expenditures;
(VII) Procedures for parent, family, and student engagement and communication with regard to gifted education programs; and
(VIII) Procedures that an administrative unit must use in resolving disagreements with parents.

(b) The state board shall adopt appropriate recommendations as rules to implement this part 2 following public comment and hearing. The rules that the state board promulgates must be in accord with the legislative declaration set forth in section 22-20-201. The state board rules that are in effect to implement this part 2 before August 6, 2014, may continue in effect after that date to the extent the state board finds that the rules continue to be appropriate, and the state board shall promulgate pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., such additional rules as may be necessary to implement this part 2.

(c) The department shall provide to an administrative unit that provides gifted education program plans, programs, advanced learning plans, or services that do not comply with the state board rules, a detailed analysis of any discrepancies noted along with specific recommendations to correct the discrepancies. The department must allocate or continue allocating to the administrative unit applicable federal and state funding for a reasonable period of time, as determined by the department, to allow the administrative unit an opportunity to comply with the rules. An administrative unit may establish a claim for variance based on conditions indigenous to or unique to the administrative unit.

(2) To implement the provisions of this part 2, the state board and the department may provide for such personnel within the department as are deemed necessary for these purposes.

(3) The general assembly recognizes that, to assist the state board in performing its responsibilities in implementing this part 2, the state board has appointed a state gifted education advisory committee of an appropriate size. On and after August 6, 2014, the membership of the advisory committee must continue to include representatives from each congressional district in the state and consist of persons involved in or concerned with the education of gifted children. The state board shall continue to appoint members for terms as stated in the bylaws of the advisory committee. Members of the advisory committee continue to serve without compensation but may receive reimbursement for expenses.

22-20-204. Gifted education - program plans - implementation - qualified personnel - local advisory committees. (1) Each administrative unit shall provide a gifted education program in accordance with this part 2 and the rules of the state board. Each administrative unit shall adopt a gifted education program plan that the administrative unit can implement within the local, state, and federal moneys and resources that are available to the administrative unit for gifted education. Each administrative unit shall submit the program plan to the department, as provided in state board rule. At a minimum, each program plan must:
(a) Include procedures for reporting data collection and maintenance concerning implementation of the gifted education program;

(b) Include appropriate opportunities for concurrent enrollment, as provided in article 35 of this title, if indicated by a gifted child's advanced learning plan or individual career and academic plan;

(c) Satisfy any criteria established by rules promulgated by the state board for the implementation of this part 2; and

(d) Be consistent with the advanced learning plans of the gifted children that the administrative unit identifies.

(2) Each administrative unit is also strongly encouraged to include in the program plan a universal screening, as defined by state board rule, of enrolled students no later than second grade to identify gifted children and a second screening of gifted children in conjunction with the creation of each child's individual career and academic plan.

(3) To implement the program plan that each administrative unit adopts pursuant to this section, each administrative unit shall ensure that its constituent schools and school districts make available the gifted education services specified in each gifted child's advanced learning plan to the extent described in the administrative unit's program plan.

(4) To comply with this section, an administrative unit may contract with one or more administrative units to establish and maintain gifted education programs for the education of gifted children, sharing the costs of the gifted education programs in accordance with the terms of the contract. An administrative unit that has fewer than six children who need a particular kind of gifted education program may purchase services from one or more administrative units that provide the appropriate gifted education program.

(5) (a) Each administrative unit shall make a good-faith effort to hire and retain on at least a half-time basis at least one qualified person in gifted education to administer the administrative unit's gifted programs and implement the administrative unit's program plan. The qualified person must meet the qualification standards set by rule of the state board.

(b) Institutions of higher education that are located within the state are encouraged to work with the administrative units, the state board, and the department to provide endorsement and degree programs, other staff development, and in-service opportunities to increase the number of qualified persons and to increase the capacity of all educators to implement each administrative unit's gifted education program and to implement gifted students' advanced learning plans.

(6) To assist an administrative unit in implementing its program plan and providing services to gifted children, each administrative unit is strongly encouraged to establish and maintain a local advisory committee that includes persons who are involved in or concerned with gifted education and concerned with improving the delivery of and communication concerning gifted education.

22-20-204.3. Identification of gifted children - advanced learning plans - creation - rules. (1) Each administrative unit, through its program plan, shall use an identification assessment and review by a team, as described in state board rule, to identify gifted children. The
team shall use a body of evidence upon which to base the determination of giftedness, which
evidence must include, at a minimum, the identification assessment results, parental input, and
multiple types of measures and data sources.

(2) When a child is identified as gifted, the administrative unit shall ensure that an
advanced learning plan is created for the child, which specifies the programming, services, and
interventions that correspond to the child's strengths and needs. The administrative unit shall
implement each gifted child's advanced learning plan in accordance with the administrative unit's
program plan.

(3) The state board shall promulgate rules that specify the procedures and criteria for
identifying gifted children and creating advanced learning plans.

Source: L. 2014: Entire section added, (HB 14-1102), ch. 330, p. 1467, § 5, effective
August 6.

22-20-204.5. Highly advanced gifted children - identification - rules - legislative
declaration. (1) (a) In adopting and implementing a program plan to identify and serve gifted
children pursuant to section 22-20-204, each administrative unit may include in its program plan
provisions to identify and serve highly advanced gifted children who are:

(I) Four years of age and for whom early access to kindergarten is deemed appropriate
by the administrative unit; and

(II) Five years of age and for whom early access to first grade is deemed appropriate by
the administrative unit.

(b) In making determinations pursuant to paragraph (a) of this subsection (1), an
administrative unit shall apply the criteria and process established by rules promulgated by the
state board pursuant to subsection (4) of this section.

(2) If an administrative unit includes in its program plan provisions to identify and serve
highly advanced gifted children as described in subsection (1) of this section, the administrative
unit must make available to a person upon request the administrative unit's criteria and process
for identifying a highly advanced gifted child for whom early access to kindergarten or first
grade is deemed appropriate. At a minimum, the administrative unit must provide the time
frames, deadlines, and any specific tests and threshold scores that the administrative unit uses to
identify and make a final determination concerning a highly advanced gifted child.

(3) If an administrative unit includes in its program plan provisions to identify and serve
highly advanced gifted children as described in subsection (1) of this section, the administrative
unit may charge a fee for any assessments or other procedures that the administrative unit
performs to identify a highly advanced gifted child for whom early access to kindergarten or first
grade is deemed appropriate; except that an administrative unit shall not charge a fee for any
assessments or other procedures if the child who is the subject of the assessments or other
procedures is eligible for a free or reduced-price meal pursuant to the federal "Richard B. Russell

(4) (a) The state board shall promulgate rules to establish criteria and a process that an
administrative unit must use, pursuant to subsection (1) of this section, to make determinations
regarding the advanced placement of highly advanced gifted children.

(b) At a minimum, the criteria established by rules must include consideration of a
child's:
(I) Aptitude;  
(II) Achievement;  
(III) Performance;  
(IV) Readiness for advanced placement;  
(V) Observable social behavior;  
(VI) Motivation to learn; and  
(VII) Support from parents, teachers, and school administrators.

c) The process established by rules must include:
(I) A timeline according to which a child's parents may apply for advanced placement for the child;  
(II) A description of the administrative unit personnel who are involved in the process of identifying highly advanced gifted children for whom advanced placement is appropriate;  
(III) A description of how the administrative unit personnel must evaluate each child for whom the child's parents are seeking advanced placement;  
(IV) A description of the entire body of evidence that the administrative unit personnel must use to evaluate each child for whom the child's parents are seeking advanced placement;  
(V) A description of how administrative unit personnel must collaboratively make decisions concerning the advanced placement of highly advanced gifted children; and  
(VI) A description of how an administrative unit must monitor the performance of a child who has received an advanced placement pursuant to this section.

(5) The general assembly hereby finds and declares that, for purposes of section 17 of article IX of the state constitution, provisions to identify and serve highly advanced gifted children who are four years of age and for whom early access to kindergarten is deemed appropriate by an administrative unit or who are five years of age and for whom early access to first grade is deemed appropriate by an administrative unit are important elements of accountable education reform and expanding the availability of preschool and kindergarten programs and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

22-20-205. Gifted education - funding - legislative declaration. (1) For each fiscal year, the appropriations that the general assembly makes to fund programs for gifted children must be designated by a separate line item in the annual general appropriation act. The moneys that the general assembly appropriates for gifted education programs must supplement, not supplant, funding for programs for students with disabilities.

(2) (a) The general assembly shall appropriate moneys to offset the costs incurred by administrative units in:
(I) Conducting a universal screening of enrolled students no later than second grade to identify gifted children and a second screening of gifted children in conjunction with the creation of each child's individual career and academic plan;  
(II) Employing a qualified person in gifted education as described in section 22-20-204 (4)(a).
(b) An administrative unit may conduct either or both the universal screening of enrolled students no later than second grade and the second screening in conjunction with the creation of each child's individual career and academic plan. An administrative unit may apply to the department for a grant for the screenings it conducts. The department shall distribute moneys appropriated for the costs of conducting the screenings to each administrative unit that applies for a grant. The amount of each grant must be based on the number of students who participate in the screening and the per pupil cost of the screening.

(c) An administrative unit that hires a qualified person on at least a half-time basis to administer the administrative unit's gifted programs and implement the administrative unit's program plan may apply to the department for a grant to offset the costs incurred in employing the qualified person on a half-time basis. The department shall distribute moneys appropriated for the costs of employing qualified persons on a half-time basis to each administrative unit that applies for a grant. The amount of each grant must be equal to the costs incurred by the applying administrative unit in employing the qualified person on a half-time basis.

(d) The state board shall promulgate rules as necessary to implement paragraphs (b) and (c) of this subsection (2), including, but not limited to, rules to specify the deadline by which administrative units must apply for grants pursuant to paragraphs (b) and (c) of this subsection (2). The department shall distribute any amount remaining of the moneys appropriated for purposes of paragraphs (b) and (c) of this subsection (2) to administrative units in the same manner that it distributes the moneys appropriated pursuant to subsection (1) of this section. Notwithstanding any provision of this section to the contrary, in a budget year in which the general assembly does not appropriate moneys pursuant to paragraph (a) of this subsection (2) in an amount that is sufficient to fully fund the grants authorized in paragraph (b) or (c) of this subsection (2), the department shall distribute moneys to grant applicants, subject to the available appropriations, based on the order in which it receives applications.

(e) If an administrative unit is conducting the universal screening and the second screening or employing a qualified person in gifted education before August 6, 2014, the administrative unit must use the moneys received pursuant to paragraph (b) or (c) of this subsection (2) for other costs incurred in implementing the administrative unit's gifted education program as provided in subsection (4) of this section.

(3) An administrative unit may not refuse to accept state or federal moneys for implementing a program plan, but shall adopt and implement a program plan that the administrative unit can implement within the local, state, and federal moneys and resources that are available to the administrative unit for gifted education.

(4) An administrative unit may use funding for gifted education programs only for the costs associated with:

(a) Appropriately licensed and endorsed personnel;

(b) Programming options and counseling related to serving gifted children;

(c) Materials used in serving gifted children;

(d) Professional development for personnel who serve gifted children; and

(e) The direct administrative costs and other limited expenditures, as defined by state board rule, that the administrative unit incurs in implementing the gifted education program.

(5) (a) Beginning in the 2023-24 budget year, the general assembly shall appropriate from the state education fund the amount necessary each budget year to provide by the 2027-28 budget year full universal screening of enrolled students no later than second grade to identify...
gifted children and a second screening of gifted children in conjunction with the creation of each child's individual career and academic plan, and qualified personnel necessary to provide the screenings.

(b) The general assembly finds and declares that for the purposes of section 17 of article IX of the state constitution, providing funds for universal screening for the purpose of providing universal screening of enrolled students no later than second grade to identify gifted children and a second screening of gifted children in conjunction with the creation of each child's individual career and academic plan, and qualified personnel necessary to provide the screenings, pursuant to this section is a program for accountable education reform and may therefore receive funding from the state education fund created in section 17 (4) of article IX of the state constitution.

Cross references: For the legislative declaration in SB 23-287, see section 1 of chapter 189, Session Laws of Colorado 2023.

22-20-206. Length of gifted education program. An administrative unit shall ensure that its gifted education program provides programs and services for gifted children for at least the number of days calendared for the school year by each school district in which the administrative unit provides the gifted education program.

ARTICLE 20.5

Education of Children with Dyslexia

22-20.5-101. Legislative declaration. (1) The general assembly finds that various educational advocacy groups, including parents of children identified as having dyslexia, have voiced concerns related to the adequacy and effectiveness of the methods and tools for identifying students who have dyslexia and the adequacy of the educational supports for these students. While there have been various efforts at both the state and school district levels to address the issues related to effective identification and support for students with dyslexia, these efforts have not resulted in significant progress in educating these students. Therefore, the general assembly, recognizing the obligation of the state of Colorado to provide educational opportunities to all children that will enable them to lead fulfilling and productive lives, finds that it is necessary to create a working group of parents and educational experts to review the work of educational experts and local education providers in Colorado and in other states in the area of identification of and educational support for students with dyslexia and to use their findings to inform future efforts by the state and local education providers to identify and effectively support students with dyslexia.
(2) The general assembly further finds that a pilot program through which the
department of education works with a group of volunteer local education providers to use early
literacy assessment results to identify markers of dyslexia and provide support to young students
who may demonstrate the early markers for dyslexia will strengthen the ability of local
education providers throughout the state to identify and effectively support students with
dyslexia.

May 31.

22-20.5-102. Definitions. As used in this article 20.5, unless the context otherwise
requires:
(1) "Commissioner of education" or "commissioner" means the office of the
commissioner of education created and existing pursuant to section 1 of article IX of the state
constitution.
(2) "Department" means the department of education created and existing pursuant to
section 24-1-115.
(3) "Dyslexia" means a specific learning disability that is neurobiological in origin and
characterized by difficulties with accurate and fluent word recognition and by poor spelling and
decoding abilities, which difficulties typically result from a deficit in the phonological
component of language that is often unexpected in relation to other cognitive abilities and the
 provision of effective classroom instruction. The secondary consequences of dyslexia may
include problems in reading comprehension and reduced reading experience that may impede
growth of vocabulary and background knowledge.
(4) "Local education provider" means a school district, a board of cooperative services
created pursuant to article 5 of this title 22 that operates a public school, a charter school
authorized by a school district pursuant to part 1 of article 30.5 of this title 22, a charter school
authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22, or
the state charter school institute established in section 22-30.5-503.
(5) "Pilot program" means the pilot program to identify markers of dyslexia and enable
effective interventions operated pursuant to section 22-20.5-104.
(6) "Rural school district" means a school district in Colorado that the department
determines is rural, based on the geographic size of the school district and the distance of the
school district from the nearest large, urbanized area.
(7) "Small rural school district" means a rural school district that enrolls fewer than one
thousand students in kindergarten through twelfth grade.
(8) "Working group" means the working group for identification of and educational
support for students with dyslexia convened by the commissioner pursuant to section
22-20.5-103.

Source: L. 2019: Entire article added, (HB 19-1134), ch. 407, p. 3591, § 1, effective
May 31.

22-20.5-103. Working group for identification of and educational support for
students with dyslexia - convened - duties - report - repeal. (1) The commissioner of
education shall convene a working group for identification of and educational support for students with dyslexia to review data concerning the identification of and educational support for students with dyslexia and efforts in Colorado and other states to improve educational outcomes for students with dyslexia. In convening the working group, the commissioner shall appoint the following members:

(a) A parent of a child who is identified as having dyslexia;
(b) A parent of a child who is identified as having dyslexia and a disability;
(c) A school district literacy specialist;
(d) A school district director of special education;
(e) A state or national literacy expert;
(f) A state or national dyslexia expert;
(g) Two elementary grade teachers, one of whom teaches in a rural school district or a small rural school district;
(h) A principal who is employed at an elementary school in a rural school district or an employee of a board of cooperative services, created pursuant to article 5 of this title 22, who has expertise as a literacy specialist;
(i) A faculty member of an institution of higher education who teaches in an approved educator preparation program for elementary grade teachers; and
(j) A member of the local chapter of an international dyslexia association.

(2) The working group shall:
(a) Analyze current national and statewide data related to students identified as having dyslexia, including but not limited to identification rates and achievement rates;
(b) Analyze the implementation and demonstrated effectiveness in other states of statewide legislation for dyslexia screening, educator training, and other dyslexia-related laws;
(c) Identify and recommend appropriate dyslexia screening tools and processes as well as comprehensive assessments that address the recognized challenges of dyslexia, including phonological processing, phonemic awareness, and decoding and encoding skills;
(d) Identify and recommend a statewide plan for supporting students who are identified as having dyslexia, including specific intervention structures and their components, which must include evidence-based interventions, progress-monitoring systems, and data-collection systems. The recommendations for a statewide plan must consider legal requirements included in the "Colorado READ Act", part 12 of article 7 of this title 22, and its implementing rules; the "Exceptional Children's Educational Act", article 20 of this title 22, and its implementing rules; the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended, and its implementing regulations; and section 504 of the federal "Rehabilitation Act of 1973", 29 U.S.C. sec. 701 et seq., as amended, and its implementing regulations.
(e) Identify and recommend components of dyslexia awareness training for Colorado educators, including the content, target audience, time frame for training, and projected cost;
(f) Identify and recommend educator training for in-state approved programs of preparation for teachers and alternative teacher programs and recommended training for current educators, based on effective practices in other states, as well as recommendations from state and national organizations focusing on literacy. The recommendations concerning educator training may include the content, target audience, time frame for training, and projected cost.
(g) Provide recommendations to the department concerning the design and implementation of the pilot program.
In completing the duties described in subsections (2)(c) to (2)(g) of this section, the working group shall analyze and integrate, as appropriate, the work and recommendations of other previous and ongoing state initiatives related to improving the identification and support of students who have dyslexia.

(4) The working group shall submit a progress report to the commissioner by December 31, 2019, which must include a summary of the progress the working group is making regarding the items described in subsection (2) of this section and may include preliminary policy recommendations. By July 1, 2020, and by July 1 each year thereafter, the working group shall submit to the commissioner a report of its policy recommendations with regard to the items described in subsection (2) of this section. On or before February 1, 2021, and on or before February 1 each year thereafter, the commissioner shall submit the report, with any recommendations for legislation, to the state board of education and the education committees of the house of representatives and the senate, or any successor committees. Notwithstanding the requirement in section 24-1-136 (11)(a)(I), the requirement to submit the report specified in this subsection (4) continues indefinitely.

(5) This section is repealed, effective September 1, 2029. Before the repeal, the working group is scheduled for review in accordance with section 2-3-1203.

22-20.5-104. Pilot program - dyslexia markers - effective interventions - created - evaluation report - repeal. (1) Beginning in the 2020-21 school year, the department shall implement a pilot program to develop and pilot screening and identification processes and intervention strategies for early identification of and support for students enrolled in kindergarten through third grade who may have dyslexia. The department shall consult with the working group concerning the design and implementation of the pilot program. The department shall provide information concerning the pilot program to local education providers throughout the state and select up to five local education providers who volunteer to participate in the pilot program. In selecting the participating local education providers, the department shall ensure to the extent practicable that the affected student populations are representative of the demographic diversity within the state and that the local education providers are located throughout the state. The local education providers that participate in the pilot program will work with the department to use the results obtained from assessments administered pursuant to the "Colorado READ Act", part 12 of article 7 of this title 22, in a research-based process to identify markers of dyslexia and provide support for young readers who may exhibit the markers for dyslexia.

(2) In implementing the pilot program, the department shall:
(a) Provide targeted support for educators employed by the participating local education providers in understanding the unique needs of young students who are at risk for reading delays related to dyslexia;
(b) Assist the participating local education providers in implementing a dyslexia identification process that uses the READ act interim assessment as a screening tool and uses a research-based identification process to use the results of the assessments to identify the presence of dyslexia; and
(c) Support the participating local education providers in pairing assessment processes with implementation of research-based instructional and intervention strategies to provide timely and appropriate support for students at risk for identification of dyslexia.

(3) At the end of the 2022-23 school year, the department shall evaluate the implementation of the pilot program and the effectiveness of the strategies in identifying and supporting more students in the participating local education providers than were identified and supported in nonparticipating local education providers. Based on the evaluation, the department shall refine the resources for technical support, identification, and interventions, as necessary, and disseminate the resources to all local education providers in the state. Upon request, the department shall also provide the technical support necessary to effectively use the resources.

(4) On or before December 31, 2023, the department shall submit to the state board of education and the education committees of the senate and the house of representatives, or any successor committees, a report concerning the implementation and evaluation of the pilot program. The department may include in the report any recommendations for legislation that the department deems necessary based on the evaluation of the pilot program.

(5) This section is repealed, effective July 1, 2024.

Cross references: For the legislative declaration in HB 22-1390, see section 1 of chapter 237, Session Laws of Colorado 2022.
ARTICLE 23

Education of Migrant Children

Editor's note: This article was numbered as article 29 of chapter 123, C.R.S. 1963. The substantive provisions of this article were repealed and reenacted in 1965, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this article prior to 1965, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

22-23-101. Short title. This article shall be known and may be cited as the "Migrant Children Educational Act".

22-23-102. Legislative declaration. In order to facilitate the education of migrant children who are unable to receive continuous education during the regular school term and to develop fully the capacities and potentialities of migrant children for the benefit of themselves and society, a program for the education of migrant children is hereby established.

22-23-103. Definitions. As used in this article, unless the context otherwise requires:

(1) "Migrant agricultural worker" means any person engaged in agricultural labor in this state who is residing in a school district which is not his regular domicile during the performance of such agricultural labor.

(2) "Migrant children" or "migrant child" means any child of school age who is in the custody of migrant agricultural workers, regardless of whether they are his parents.

(3) "State board" means the state board of education.

22-23-104. Administration. (1) The state board may employ necessary personnel, pay necessary travel expenses of such personnel, and purchase supplies and equipment as may be needed to carry out the administration of the program for the education of migrant children as provided in this article, and may make such rules and regulations as it may deem necessary for the proper and efficient administration of said program.

(2) Any school district which maintains a school in its district, and wherein there are migrant children, may make application to the state board to participate in the program
established by this article. Any school district participating in said program shall administer the
program in its district in accordance with rules and regulations of the state board.

22-23-105. Regular school session requirements. (1) The following standards shall
apply during the regular terms of school and shall be applicable equally in every school district:
   (a) The residence of a migrant child, for purposes of education, shall be the school
district where the migrant child is receiving shelter and the necessities of life, and the provisions
of section 22-32-116 shall not apply to this section.
   (b) A migrant child shall attend school while residing in any school district in the state
when the regular terms of school are in session, unless excused in compliance with the
provisions of the "School Attendance Law of 1963", article 33 of this title; and the board of
education of a school district shall enforce the attendance in a school of the district of any such
migrant child residing in said district.
   (c) The payment of additional necessary costs in administering and maintaining the
program authorized by this section shall be paid jointly by the state and the participating school
district. The per capita additional cost of educating a migrant child in a school district
participating in said program may include the following expenses, under rules and regulations
prescribed by the state board:
      (I) Salaries of personnel, assistants to teachers, and clerical, health, and custodial
employees and specialized instructional services as needed;
      (II) Necessary additional textbooks, educational supplies, and equipment;
      (III) School lunch operation;
      (IV) School bus transportation;
      (V) Provision of and physical plant operation, including rent, heat, light, water, repairs,
adjustments, and maintenance, if regular school facilities are not used; except that provision of
and operation of the school plant shall be a contribution of the school district if regular school
facilities are used.
   (2) Upon submission and approval by the state board of itemized statements from the
boards of education of the participating school districts for additional moneys to cover expenses
incurred by them in conducting said programs, such school districts shall be reimbursed for such
additional expenses as specified in subsection (1)(c) of this section. Applications by participating
school districts for reimbursement shall be made on forms prescribed by the state board at such
time or times during the year as determined by the state board.

22-23-106. Summer schools. (1) The program established by this section shall be under
the general supervision of the state board. An educational program for migrant children may be
operated within the period from the termination of the regular school term in the spring until the
regular school term convenes in the fall.
   (2) Any school district wherein there are migrant children in the summer period may
make application to the state board to participate in the summer school program authorized by
this section. From such applications the state board shall select school districts to operate

Colorado Revised Statutes 2023       Page 497 of 1377       Uncertified Printout
summer schools for migrant children in accordance with the amount of funds available, the number of migrant children in the school districts, and other criteria specified by the state board.

(3) Residence requirements for migrant children under the summer school program shall be the same as set forth in section 22-23-105.

(4) For the purpose of the summer school program, in addition to "migrant child" defined in section 22-23-103, a child of school age shall be considered a migrant child if he was not able to attend the full number of days prescribed by law during the previous school year as a direct result of being in the custody of a migrant agricultural worker.

(5) The board of education of a school district has the authority to determine whether attendance at summer school shall be voluntary or compulsory. If attendance is compulsory, migrant children shall attend unless excused in compliance with the "School Attendance Law of 1963", article 33 of this title.

(6) Each school district participating in the summer school program shall be reimbursed from state funds for actual costs incurred in the operation of the program, including allotments for classroom units and supervisory units based upon the formulas set forth in section 22-23-107. The school district shall also receive reimbursement, under rules of the state board, for the net cost of its school lunch operation and for school vehicle operations at rates fixed by the state board. School districts shall report all such costs on forms prescribed by the state board.

22-23-107. Computation for reimbursement. (1) Classroom unit (CU) formula. A classroom unit (CU) shall consist of fifteen children in average daily attendance. The number of classroom units and fractions thereof shall be multiplied by the number of school days in the term plus one day in order to determine the number of daily classroom units allowable. The number of daily classroom units shall be multiplied by the value of state aid for a daily classroom unit in order to determine the total amount of classroom unit state aid. The value of the daily classroom unit state aid shall be determined annually by the state board.

(2) Supervisory unit (SU) formula. The number of supervisory units in a school of one to ten or more teachers shall be 1.00 plus .05 for each classroom unit allowable through ten, to a maximum of 1.50 for ten teachers, plus .02 for each teacher beyond ten teachers. The number of supervisory units shall be multiplied by the number of days in the term plus two days in order to determine the number of daily supervisory units allowable. The number of daily supervisory units shall be multiplied by the value of state aid for a daily classroom unit in order to determine the total amount of supervisory unit state aid.

ARTICLE 24

English Language Proficiency Act

Editor's note: This article was added in 1975. It was repealed and reenacted in 1981 and was subsequently repealed and reenacted in 2014, resulting in the addition, relocation, and
elimination of sections as well as subject matter. For amendments to this article prior to 2014, consult the 2013 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

22-24-101. Short title. This article shall be known and may be cited as the "English Language Proficiency Act".

22-24-102. Legislative declaration. (1) The general assembly finds that:
   (a) There is a substantial number of students in Colorado who are English language learners;
   (b) Local education providers must provide evidence-based English language proficiency programs for English language learners to enable them to develop and acquire English language proficiency while achieving and maintaining grade-level performance in academic content areas;
   (c) To improve the educational and career opportunities for every student in Colorado, the state must ensure support for local education providers to establish evidence-based English language proficiency programs;
   (d) The state and local education providers must enhance all educators' effectiveness in supporting English language development and in enabling English language learners to achieve and maintain grade-level performance in academic content areas;
   (e) The state must develop an educator workforce that can support the educational approach and goals of local education providers to help ensure that English language learners are postsecondary and workforce ready at graduation;
   (f) The state must appropriate and allocate moneys to local education providers to help ensure that English language learners are postsecondary and workforce ready at graduation;
   (g) The department of education and the state board of education must hold local education providers accountable through the "Education Accountability Act of 2009", article 11 of this title, and by English language development measures mandated by this article for meeting the English language development and academic achievement goals for English language learners; and
   (h) The department of education and the state board of education must recognize local education providers who provide effective English language proficiency programs by awarding grants through a competitive program that is supported with annual appropriations.

22-24-103. Definitions. As used in this article, unless the context otherwise requires:
(1) "Charter school" means a charter school authorized by a district pursuant to part 1 of article 30.5 of this title or an institute charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title.

(2) "Department" means the department of education.

(3) "District" means a school district organized and existing pursuant to article 30 of this title or a board of cooperative services organized and existing pursuant to article 5 of this title.

(4) "English language learner" means a student who is linguistically diverse and who is identified pursuant to section 22-24-105 (2) as having a level of English language proficiency that requires language support to achieve standards in grade-level content in English.

(5) "English language proficiency program" means a program implemented by a local education provider that is designed to develop English language proficiency for an English language learner while enabling the English language learner to achieve and maintain grade-level performance in academic content areas.

(6) "Evidence-based" means the instruction or item described is based on reliable, trustworthy, and valid evidence that the instruction or item shows promise or has demonstrated a record of success in achieving objectives that are relevant to English language development, English language proficiency, and achievement in grade-level content for English language learners.

(7) "Facility school" means an approved facility school as defined in section 22-2-402 (1).

(8) "Local education provider" means a district, the state charter school institute, or a facility school.

(9) "State charter school institute" means the state charter school institute created pursuant to part 5 of article 30.5 of this title.

22-24-104. English language proficiency program established - funding. (1) There is established the state English language proficiency program to assist local education providers in administering and implementing English language proficiency programs for English language learners in kindergarten and grades one through twelve.

(2) (a) A student who is identified for inclusion in an English language proficiency program may receive funding pursuant to this section for up to a total of five budget years regardless of whether the student transfers enrollment among local education providers during the five years. The five budget years in which a student receives funding pursuant to this section are not required to be consecutive if a student exits an English language proficiency program and is subsequently re-identified for inclusion in an English language proficiency program. A student is not eligible for funding in a school year in which the student does not receive educational support through an English language proficiency program. The department shall allocate state moneys pursuant to this section on the student's behalf to the local education provider that enrolls the student.

(b) If a student was identified for inclusion in an English language proficiency program before May 21, 2014, and received state funding pursuant to this article as it existed before May
21, 2014, the department must include the budget years for which the student received funding before May 21, 2014, in calculating the five-year limit on funding for the student.

(3) (a) The general assembly shall annually appropriate money to the department to implement this section. The department shall allocate the money annually appropriated to local education providers on a per-pupil basis using the number of English language learners certified pursuant to section 22-24-105, subject to the time limit specified in subsection (2) of this section. The local education providers shall use the allocated amount to provide services to the certified English language learners.

(b) (I) The department shall distribute a portion of the amount annually appropriated to the department pursuant to subsection (3)(a) of this section to local education providers based on the percentage of certified English language learners who:

(A) Speak a language other than English and do not comprehend or speak English;
(B) Comprehend or speak some English but whose primary comprehension or speech is in a language other than English; and
(C) Are eligible for funding pursuant to the time limit specified in subsection (2) of this section.

(II) A student shall not be funded pursuant to this paragraph (b) for more than four hundred dollars per year or an amount equal to twenty percent of the state average per pupil revenues, as defined in section 22-54-103 (12), for the preceding budget year as determined by the department, whichever is greater.

(c) (I) The department shall distribute a portion of the amount annually appropriated pursuant to subsection (3)(a) of this section to local education providers based on the percentage of certified English language learners who are eligible for funding pursuant to the time limit specified in subsection (2) of this section and who comprehend and speak English and one or more other languages but whose English language development and comprehension is:

(A) At or below the mean of students enrolled in the local education provider or below the mean or equivalent on a nationally standardized test; or
(B) Below the acceptable proficiency level based on the assessments identified by the department pursuant to section 22-24-106 (1)(a).

(II) A student shall not be funded pursuant to this paragraph (c) for more than two hundred dollars per year or an amount equal to ten percent of the state average per pupil revenues, as defined in section 22-54-103 (12), for the preceding budget year as determined by the department, whichever is greater.

(4) Each local education provider shall provide English language proficiency programs for English language learners who are enrolled in the public schools operated by the local education provider; except that local education providers may cooperate in carrying out the provisions of this article.

(5) This article does not prohibit a local education provider from using the moneys allocated pursuant to this article for bilingual programs, English-as-a-second-language programs, or any other method of achieving the purposes of this article. A local education provider that administers any of these programs shall receive moneys pursuant to this article only on the basis of the number of English language learners enrolled in the programs.
22-24-105. Local education provider - duties. (1) Each local education provider shall provide an English language proficiency program for all English language learners who are enrolled in the public schools of the local education provider.

   (2) Each local education provider shall identify English language learners who are enrolled in the public schools of the local education provider using the state-approved assessment for English language proficiency. The local education provider shall annually certify to the department the number of English language learners who are enrolled in the public schools of the local education provider.

   (3) Each local education provider shall annually report to the department the number of English language learners who exit the English language proficiency program.

22-24-106. Department of education - powers - duties - state board of education - rules. (1) The department shall:

   (a) Identify the English language proficiency assessments that local education providers must use to identify students who are eligible for inclusion in English language proficiency programs, which may include the assessments in use prior to May 21, 2014;

   (b) Annually review the statewide levels of proficiency on the statewide assessments administered pursuant to section 22-7-1006 for those English language learners who are required to take the statewide assessment;

   (c) Establish, by guidelines, any accommodations that a local education provider must allow and the circumstances in which a local education provider must allow the accommodations for English language learners who are taking assessments pursuant to section 22-7-1006.3;

   (d) Provide guidance documents and technical assistance to assist local education providers in identifying and assessing English language learners and in developing, implementing, and evaluating English language proficiency programs;

   (e) Identify, based on the certifications received from local education providers, the students who are counted as English language learners for purposes of calculating each local education provider's allocation of moneys pursuant to section 22-24-104 (3);

   (f) Annually allocate the moneys appropriated for implementation of this article, including allocating the moneys specified in section 22-24-104 (3) on a per-pupil basis, using the number of English language learners identified pursuant to paragraph (e) of this subsection (1) and participating in the English language proficiency program;

   (g) For each local education provider, monitor and report through the data portal operated pursuant to section 22-11-502, the number of English language learners who exit the English language proficiency program, the length of time English language learners remain in the English language proficiency program, and the number of English language learners who reenter the English language proficiency program;
(h) Disaggregate the data received through the state assessment program pursuant to section 22-7-1006.3 and report the English language proficiency and academic achievement of English language learners, while they are receiving services through the English language proficiency program and after they exit the English language proficiency program through high school graduation, as provided in part 5 of article 11 of this title; and

(i) Administer the English language proficiency act excellence award program created in section 22-24-107 and the professional development and student support program created in section 22-24-108.

(2) In implementing the provisions of this article, the department shall not require local education providers to submit reports or otherwise provide data that is required by or that the department collects under other state or federal data-collection or reporting statutory or regulatory requirements.

(3) The state board rules that are in effect to implement this article prior to May 21, 2014, may continue in effect after that date to the extent the state board finds that the rules continue to be appropriate, and the state board shall promulgate pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., such additional rules as may be necessary to implement this article. The state board by rule may identify measures that are specific to the English language proficiency assessment, which measures the department must use to determine a local education provider's level of achievement in meeting the English language development and academic achievement goals for English language learners.

22-24-107. English language proficiency act excellence award program - created - rules - legislative declaration. (1) There is created in the department the English language proficiency act excellence award program to award grants to local education providers and charter schools that achieve the highest English language and academic growth among English language learners and the highest academic achievement for English language learners who transition out of the English language proficiency program. The department shall administer the program by annually identifying, based on rules of the state board, the local education providers and charter schools that qualify for grants and distributing the moneys that the general assembly appropriates to the department for the program. The state board by rule shall set the grant amount based on the student enrollment of the local education providers and charter schools that qualify for grants and the concentration of English language learners enrolled by the local education providers and charter schools as a percentage of the total student enrollment. Subject to available appropriations, the department shall distribute the moneys in accordance with the rules to the local education providers and charter schools that qualify for the grants.

(2) The state board shall promulgate rules that create the criteria or measures that the department must apply to identify the local education providers and charter schools that achieve the highest English language and academic growth among English language learners and that achieve the highest academic achievement for English language learners who transition out of the English language proficiency program.
(3) (a) Each local education provider and charter school that receives a grant pursuant to this section, at the conclusion of each school year for which it receives a grant, must submit to the department:
   (I) A data analysis and summary of the local education provider's or charter school's English language proficiency program; and
   (II) A report of the local education provider's or charter school's use of the grant moneys received.
   (b) The department shall provide the information received pursuant to paragraph (a) of this subsection (3) to local education providers and shall make the information available to the public through the data portal operated pursuant to section 22-11-502.

(4) Repealed.

(5) The general assembly finds that, for purposes of section 17 of article IX of the state constitution, the English language proficiency act excellence award program is an important component of an accountable program to meet state academic standards and, therefore, may be funded from moneys in the state education fund created in section 17 (4) of article IX of the state constitution.

Editor's note: Subsection (4)(d) provided for the repeal of subsection (4), effective July 1, 2016. (See L. 2015, p. 29.)
(C) Are eligible for funding pursuant to the time limit specified in section 22-24-104 (2); and

(II) The remaining portion of the amount annually appropriated to local education providers to provide services to, and to provide professional development activities for educators who work with, English language learners who comprehend and speak English and one or more other languages but whose English language development and comprehension is:

(A) At or below the mean of students enrolled in the local education provider or below the mean or equivalent on a nationally standardized test; or

(B) Below the acceptable proficiency level based on the assessments identified by the department pursuant to section 22-24-106 (1)(a).

(b) Each district shall annually distribute to each charter school one hundred percent of the amount that the district receives pursuant to paragraph (a) of this subsection (2) on behalf of the English language learners enrolled in each charter school for the applicable budget year. The moneys a district distributes to charter schools pursuant to this paragraph (b) are in addition to the moneys the district distributes pursuant to part 1 of article 30.5 of this title.

(c) The state charter school institute shall annually distribute to each institute charter school one hundred percent of the amount that the state charter school institute receives on behalf of the English language learners enrolled in each institute charter school for the applicable budget year. The moneys the state charter school institute distributes to institute charter schools pursuant to this paragraph (c) are in addition to the moneys the institute distributes pursuant to part 5 of article 30.5 of this title.

(3) Repealed.

(4) The general assembly finds that, for purposes of section 17 of article IX of the state constitution, the professional development and student support program is an important component of an accountable program to meet state academic standards and, therefore, may be funded from moneys in the state education fund created in section 17 (4) of article IX of the state constitution.

Editor's note: Subsection (3)(d) provided for the repeal of subsection (3), effective July 1, 2016. (See L. 2015, p. 29.)

ARTICLE 25

Colorado Comprehensive Health Education Act

Editor's note: This article was added in 1975. This article was repealed and reenacted in 1990, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this article prior to 1990, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of
22-25-101. Short title. This article shall be known and may be cited as the "Colorado Comprehensive Health Education Act".

Editor's note: This section is similar to former § 22-25-101 as it existed prior to 1990.

22-25-102. Legislative declaration. (1) The general assembly hereby finds and declares that comprehensive health education is an essential element of public education in the state of Colorado. The school system is a logical vehicle for conveying to children and parents significant health information, developing an awareness of the value of good health to the individual and to the community, promoting healthy behavior and positive self-concepts, and providing means for dealing with peer and other pressures. It is further declared that many serious health problems in Colorado, including high-risk behaviors, are directly attributable to the insufficient health knowledge and motivation of the school-age population and the general public and that studies have demonstrated the effectiveness of a planned school curriculum throughout the elementary and secondary grades in developing healthy behavior. The purpose of this article is to foster healthy behaviors in our children and communities through a comprehensive educational plan which has as its goal not only the increase of health knowledge but also the modification of high-risk behaviors.

(2) Since the enactment of this article, the general assembly has further determined that the insidious attractions of gangs and substance abuse are endangering the youth of Colorado and, by doing so, are endangering all Colorado citizens. Accordingly, the general assembly finds and declares that the implementation of educational programs in the public schools, including facility schools, is necessary to assist young people in avoiding gang involvement and substance abuse.

(3) The general assembly further finds that:
   (a) For students to reach their full potential, school communities need to address comprehensive issues of student wellness, including but not limited to addressing the physical, mental, emotional, and social needs of students;
   (b) High-quality physical education programs taught by persons who are licensed and endorsed in physical education may be a factor in battling the rising incidence of obesity by ensuring not only that children receive a healthy level of physical activity but that they also learn skills and develop knowledge that will enable them to maintain a healthy level of activity throughout their lifetimes;
   (c) It is therefore appropriate for the general assembly to expand the "Colorado Comprehensive Health Education Act" to include funding for local student wellness programs that are coordinated with local comprehensive health education programs in public schools, including facility schools.

May 27; (3) added, p. 672, § 2, effective August 5; (3)(c) amended, p. 1391, § 23, effective August 5.

Editor's note: This section is similar to former § 22-25-102 as it existed prior to 1990.

22-25-103. Definitions. As used in this article 25, unless the context otherwise requires:
(1) "Colorado comprehensive health education program" means the program created by section 22-25-104 (1) for the purpose of encouraging the teaching of comprehensive health education for the students of the schools in Colorado.
(2) "Commissioner" means the office of the commissioner of education created and existing pursuant to section 1 of article IX of the state constitution.
(3) "Comprehensive health education" means a planned, sequential health program of learning experiences in preschool, kindergarten, and grades one through twelve that must include, but is not limited to, the following topics:
(a) Communicable diseases, including, but not limited to, acquired immune deficiency syndrome (AIDS) and human immunodeficiency virus (HIV) related illness;
(b) Community and environmental health;
(c) Consumer health;
(d) Dental health;
(e) Tobacco, alcohol, and other drug use;
(f) Human growth and development;
(g) Hereditary and developmental conditions;
(h) Mental and emotional health;
(i) Nutrition, personal health, and physical fitness;
(j) Family life education;
(k) Injury prevention, safety, motor vehicle safety, and emergency care;
(l) High-risk behaviors and concerns;
(m) Age-appropriate instruction on family roles and expectations, child development, and parenting; and
(n) If not included in other curricula or programs provided to students, age-appropriate information concerning sections 18-6-401 (9) and 19-3-304.5, or any successor laws, referred to generally as "safe haven laws", relating to the safe abandonment of a child to a firefighter at a fire station, or to a staff member at a hospital or a community clinic emergency center, within the first seventy-two hours of the child's life.
(3.1) "Culturally sensitive" means the integration of knowledge about individuals and groups of people into specific standards, requirements, policies, practices, and attitudes used to increase the quality of services. "Culturally sensitive" includes resources, references, and information that are meaningful to the experiences and needs of communities of color; immigrant communities; lesbian, gay, bisexual, and transgender communities; people with physical or intellectual disabilities; people who have experienced sexual victimization; and others whose experiences have traditionally been left out of sexual health education, programs, and policies.
(3.2) "Evidence-based program" means a program that:
(a) Was evaluated using a rigorous research design, including:
(I) Measuring knowledge, attitude, and behavior;
(II) Having an adequate sample size;
(III) Using sound research methods and processes;
(IV) Replicating in different locations and finding similar evaluation results; and
(V) Publishing results in a peer-reviewed journal;
(b) Research has shown to be effective in changing at least one of the following behaviors that contribute to early pregnancy, sexually transmitted infections, including HIV:
   (I) Delaying sexual initiation;
   (II) Reducing the frequency of sexual intercourse;
   (III) Reducing the number of sexual partners; or
   (IV) Increasing the use of condoms and other contraceptives.
(3.3) "Facility school" means an approved facility school as defined in section 22-2-402(1).
(3.5) "Gang" means a group of three or more individuals with a common interest, bond, or activity characterized by criminal or delinquent conduct, engaged in either collectively or individually.
(4) "High-risk behaviors" means actions by children and adolescents which present a danger to their physical or mental health or which may impede their ability to lead healthy and productive lives. "High-risk behaviors" includes, but is not limited to, dropping out of school, incest and other sexual activity with adults, sexual activity by school aged children, physical and mental abuse, violence, and use of tobacco, alcohol, or other drugs.
(4.5) "Law-related education program" means an educational program for teaching nonlawyers about law, the legal system, and the fundamental principles and values on which our constitutional democracy is based, which program's approach is characterized by relevant curriculum materials, interactive teaching strategies, and extensive use of community resource persons and experience.
(5) "Local comprehensive health education program" means a health education program instituted by a school board, board of cooperative services, or facility school in accordance with the requirements of this article.
(5.5) "Local student wellness program" means a program adopted by a school district, board of cooperative services, or facility school that is coordinated with health education and is designed to provide services to students in one or more of the following areas:
   (a) Physical education;
   (b) Nutrition services;
   (c) Mental health counseling and services;
   (d) Promotion of a healthy school environment;
   (e) Health education;
   (f) Health services;
   (g) Involvement of students' families and communities in supporting and reinforcing healthy choices.
(5.7) "Positive youth development" means an approach that emphasizes the many positive attributes of young people and focuses on developing inherent strengths and assets to promote health. Positive youth development is culturally sensitive, inclusive of all youth, collaborative, and strength-based.
(6) "State board" means the state board of education created pursuant to section 1 of article IX of the state constitution.
22-25-104. Colorado comprehensive health education program - role of department of education - recommended curriculum guidelines - allocation of funds - rules. (1) There is hereby created the Colorado comprehensive health education program, which shall be a voluntary program in which school districts, boards of cooperative services, and facility schools may participate through the creation of local comprehensive health education programs, which may include coordination with local student wellness programs. Implementation of the Colorado comprehensive health education program shall be a cooperative effort among the department of education, the Colorado commission on higher education, the department of public health and environment and other health education professionals, and participating school districts and boards of cooperative services.

(2) The department of education shall have the authority to promote the development and implementation of local comprehensive health education programs and local student wellness programs.

(3) (a) With the assistance of parents, school districts, the department of public health and environment, the Colorado commission on higher education, and other interested parties, the department of education shall develop recommended guidelines for the implementation of local comprehensive health education programs and local student wellness programs. The guidelines developed pursuant to this subsection (3) must comply with the requirements of section 22-1-128 and shall apply to all school districts.

(b) The guidelines developed by the department of education pursuant to paragraph (a) of this subsection (3) shall include, but shall not be limited to, the following for preschool, kindergarten, and grades one through twelve:

(I) The recommended information and topics to be covered in the local comprehensive health education program or local student wellness program and the recommended methods of instruction to be used by teachers for such program;

(II) The recommended hours of instruction required to ensure that positive health knowledge, attitudes, and practices are achieved and maintained by the students;

(III) The recommended hours of instruction in physical education required to ensure that students not only develop healthy muscular and cardiovascular systems, but that they also develop skills and knowledge to enable them to remain active and healthy throughout their lifetimes; and

(IV) The recommended training the school district, the facility school, or board of cooperative services may require for staff who instruct in local comprehensive health education programs or local student wellness programs.

(c) (I) The guidelines developed by the department of education pursuant to subsection (3)(a) of this section for grades nine through twelve must include curriculum for
cardiopulmonary resuscitation and the use of an automated external defibrillator. The curriculum must include a training and education program included on the list maintained by the office of cardiac arrest management pursuant to section 25-53-202, and the instruction must:

(A) Incorporate the psychomotor skills necessary to perform cardiopulmonary resuscitation; and

(B) Use an automated external defibrillator.

(II) All schools that provide instruction to students in grades nine through twelve are strongly encouraged to implement the curriculum developed pursuant to this subsection (3)(c).

(4) (a) The department of education shall develop a plan for the training of teachers to provide comprehensive health education and student wellness and shall promote the proper training of staff in health education and in student wellness programs.

(b) As part of the plan to train teachers to instruct in comprehensive health education and student wellness, the Colorado department of education and the Colorado commission on higher education shall cooperatively develop course work or instructor endorsements in health, physical education, and high-risk behaviors education in order that both interested students seeking teacher licensure and practicing teachers may secure endorsement in health education, physical education, and other areas of student wellness.

(4.5) The department of education shall identify programs that are evidence-based, culturally sensitive, and reflective of positive youth development guidelines for use by school districts in local comprehensive health education programs related to comprehensive human sexuality education.

(5) Upon the request of a school district or board of cooperative services, the department of education shall provide, within available resources, such technical assistance as may be necessary to develop a local comprehensive health education program or local student wellness program.

(6) (a) Any curriculum and materials developed and used in teaching sexuality and human reproduction shall include values and responsibility and shall give primary emphasis to abstinence by school aged children.

(b) Repealed.

(c) The provisions of paragraph (d) of this subsection (6) shall not apply to a local comprehensive health education program provided by a facility school.

(d) For those schools receiving funds pursuant to this article, school officials must receive prior written consent from a parent or guardian before his or her child is excluded from any program discussing or teaching sexuality and human reproduction. At least two weeks prior to when instruction begins for such a program, each parent must receive an overview of the topics and materials to be presented in the curriculum and a written form allowing him or her to decline to have his or her child participate in the program.

(7) The department of education shall promulgate, in accordance with article 4 of title 24, C.R.S., such rules and regulations as may be necessary to carry out the duties of the department of education as set forth in this article.

27; (1) to (5) amended, p. 673, § 4, effective August 5. L. 2013: (3)(a) and (6)(c) amended, (4.5) and (6)(d) added, and (6)(b) repealed, (HB 13-1081), ch. 303, p. 1613, § 5, effective May 28. L. 2023: (3)(c) added, (SB 23-023), ch. 25, p. 88, § 2, effective August 7.

Editor's note: (1) This section is similar to former §§ 22-25-104, 22-25-105, and 22-25-106 as they existed prior to 1990.
   (2) Amendments to subsection (1) by House Bill 08-1204 and House Bill 08-1224 were harmonized.
   (3) Subsection (3)(b)(IV) was originally numbered as (3)(b)(III), and the amendments to it in House Bill 08-1204 were harmonized with subsection (3)(b)(IV) as amended and renumbered by House Bill 08-1224.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1) and (3)(a), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration contained in the 2007 act amending subsection (3)(a), see section 1 of chapter 212, Session Laws of Colorado 2007.

22-25-104.5. Law-related education program - creation. (1) (a) There is hereby created, within the Colorado department of education prevention initiatives unit, the Colorado law-related education program for the purpose of promoting behavior which will reduce through education the incidence of gang or other antisocial behavior and substance abuse by students in the public school system.
   (b) Under the program, each school district and facility school in the state is strongly encouraged to implement a law-related education program pursuant to the requirements of this article, which program shall specifically address the development of resistance to antisocial gang behavior and substance abuse without compromising academics.
   (2) (a) A law-related education program implemented by a school district or facility school may be designed to promote responsible citizenship and reduce antisocial behavior without compromising academics. Specific grade levels should be determined by school districts and facility schools based on local curricular frameworks and review of what is known about existing and promising programs. All topics addressed in such law-related education program shall be taught in a manner which is appropriate for the ages of the students to be instructed.
   (b) The topics for instruction in a law-related education program shall include instruction on the United States constitution and the declaration of independence and may include, but need not be limited to, the following:
      (I) The rights and responsibilities of citizenship;
      (II) The foundations and principles of American constitutional democracy;
      (III) The role of law in American society;
      (IV) The organization and purpose of legal and political systems;
      (V) The disposition to abide by law;
      (VI) The opportunities for responsible participation;
      (VII) The alternative dispute resolution approach including mediation and conflict resolution.
   (c) (Deleted by amendment, L. 2000, p. 372, § 25, effective April 10, 2000.)
   (3) and (4) (Deleted by amendment, L. 99, p. 106, § 1, effective March 24, 1999.)
(5) (a) The state board shall promulgate guidelines to provide grants to and to assist school districts and facility schools in the implementation of effective, comprehensive law-related education programs addressing gang awareness and substance abuse resistance. Such guidelines shall include, but shall not be limited to, the following:

(I) Suggested topics for instruction;
(II) Suggested texts and other instructional materials; and
(III) The necessary training for instructors.

(b) The state board shall make such guidelines available to all school districts and facility schools for use in implementing law-related education programs.

(c) The department of education, through the coordinator and staff of the prevention initiatives unit, shall be responsible for implementation, monitoring, and administration of the program and shall maintain certifications and records and act as a statewide clearinghouse for information and assistance for the law-related education programs.

(6) (a) All school districts and facility schools are encouraged to create programs for the training of instructors and administrators in gang awareness and substance abuse resistance education in order to provide effective instruction to students concerning the dangers of gang involvement and substance abuse.

(b) Upon the request of school district officials, the state board shall assist school district officials in the preparation of plans for the creation by school districts of training programs for instructors and administrators in gang awareness and substance abuse resistance education.

(7) (a) Each school district and facility school may prepare an annual report concerning the progress of the school district or facility school in implementing a law-related education program. The report shall be filed with the state board on or before October 1 of each year.

(b) Each annual report prepared pursuant to paragraph (a) of this subsection (7) shall include, but shall not be limited to, an analysis by school district or facility school officials of the effect of the law-related education program on the incidence of gang involvement and substance abuse by the students in the school district or facility school.

22-25-105. Review of local comprehensive health education programs and local student wellness programs - allocation of funds by the state board of education. (1) A school district, facility school, or board of cooperative services that is seeking funding for a local comprehensive health education program or a local student wellness program under this article shall file an application with the department of education in such form as the department of education shall require. An application for a local comprehensive health education program shall include provisions for the implementation of a law-related education program for the purpose of reducing the incidence of gang involvement and substance abuse by students through education.

(2) The commissioner or the commissioner's designee, with the assistance of the executive director of the department of public health and environment or his or her designee, shall review all applications for review of local comprehensive health education programs and local student wellness programs submitted to the department of education.
(3) (a) The state board of education shall establish a review and prioritization process for the allocation of available funds to school districts, boards of cooperative services, and facility schools based upon applications submitted to the department of education and giving due consideration to the guidelines developed pursuant to section 22-25-104 (3). Funding may be made available to districts or facility schools to implement portions of a comprehensive health education program or portions of a local student wellness program that are coordinated with health education, according to the needs of the individual school district or facility school. Pursuant to the review and prioritization process, the state board of education shall allocate available funds to the applying school districts, boards of cooperative services, and facility schools based on whether the state board of education finds that a school district, a board of cooperative services, or a facility school has planned or developed a local comprehensive health education program or a local school wellness program that will serve the objectives of this article. Funding for local comprehensive health education programs and local school wellness programs may include, but shall not be limited to, the implementation of training programs, in-service education institutes, and curriculum development programs for staff who shall instruct in comprehensive health education or for staff who shall instruct in or otherwise provide services through student wellness programs that are coordinated with health education. The state board of education shall not allocate funds to school districts, boards of cooperative services, or facility schools pursuant to the provisions of this subsection (3) until the department determines the amount of money that will be available for allocation.

(b) If sufficient moneys are not available to fund programs in every school district, the department may establish pilot programs for school districts that express an interest in developing or expanding a local comprehensive health education program or one or more components of a local student wellness program, which components include and are coordinated with health education, and in which districts there is a need for a program.

(c) (Deleted by amendment, L. 2010, (SB 10-151), ch. 109, p. 364, § 1, effective July 1, 2010.)

(4) (a) A school district may receive funding for a local student wellness program only if it includes or is otherwise coordinated with health education.

(b) A school district or board of cooperative services may receive funding for a local student wellness program that includes physical education only if each person who teaches one or more physical education courses in the school district or for the board of cooperative services is licensed and endorsed pursuant to article 60.5 of this title in physical education; except that this requirement shall not apply to a school district that enrolls one thousand five hundred or fewer students.

Editor's note: (1) This section is similar to former § 22-25-107 as it existed prior to 1990.
Amendments to this section by House Bill 08-1204 and House Bill 08-1224 were harmonized.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

22-25-106. Local comprehensive health education programs - local student wellness programs - establishment of comprehensive health education advisory councils. (1) (a) Each school district and board of cooperative services may and is encouraged to establish a local comprehensive health education program. To ensure that a local comprehensive health education program reflects the health issues and values of the community, each school district or board of cooperative services may establish a comprehensive health education advisory council, or may add necessary representatives to the school district's accountability committee created pursuant to section 22-11-301 or other appropriate committee, to address and make recommendations to the school district or board of cooperative services concerning the curriculum of the local comprehensive health education program.

(b) Each school district and board of cooperative services is further encouraged to establish a local student wellness program that includes or is otherwise coordinated with health education. A school district's or board of cooperative services' comprehensive health education advisory council or accountability committee may address and make recommendations to the school district or the board of cooperative services concerning the local student wellness program, including but not limited to the programs to be provided and best practices and strategies for involving families and the community in the local student wellness programs.

(2) In establishing a comprehensive health education advisory council or in supplementing an accountability committee or other appropriate committee, the board of a school district or board of cooperative services is encouraged to appoint members of the community who represent various points of view within the school district concerning comprehensive health education; however, a majority of the committee shall be comprised of parents of children enrolled in the district. Members may include, but shall not be limited to, parents, a member of the clergy, teachers, school administrators, pupils, health-care professionals, members of the business community, law enforcement representatives, senior citizens, and other interested residents of the school district.

(3) In addition to the requirements of section 22-25-104 (3), each school district and board of cooperative services is encouraged to include instruction in its local comprehensive health education program which:

(a) Promotes parental involvement, promotes abstinence from high-risk behaviors, fosters positive self-concepts, develops decision-making skills, and provides mechanisms for coping with and resisting peer pressure;

(b) Focuses on the dynamic relationship among physical, mental, emotional, and social well-being; and

(c) Integrates available community resources into the educational program.

(4) (a) Each local comprehensive health education program which is adopted by a school district or board of cooperative services shall include a procedure to exempt a student, upon request of the parent or guardian of such student, from a specific portion of the program on the
grounds that it is contrary to the religious beliefs and teachings of the student or the student's
parent or guardian.

(b) Any local school district or board of cooperative services which adopts a local
comprehensive health education program shall ensure that at a minimum the following public
information requirements are met:

(I) Written notification of such local comprehensive health education program shall be
given to the parents or guardians of all students within such school district or board of
cooperative services, including notification that a student is allowed an exemption which permits
such a student, at the request of the parent or guardian of the student, to be excused from all or
any part of the local comprehensive health education program; and

(II) The curriculum and materials to be used shall be made available for public
inspection at reasonable times and reasonable hours and a public forum to receive public
comment upon such curriculum and materials shall be held.

amended, p. 550, § 28, effective May 28. L. 2002: (1) and (2) amended, p. 1018, § 27, effective
June 1. L. 2008: (1) amended, p. 675, § 6, effective August 5. L. 2009: (1)(a) amended, (SB
09-163), ch. 293, p. 1533, § 20, effective May 21. L. 2023: IP(3) amended, (SB 23-023), ch. 25,
p. 89, § 4, effective August 7.

22-25-107. Reports required. (1) Each school district, facility school, or board of
cooperative services that receives funding for a local comprehensive health education program
or a local student wellness program pursuant to this article shall annually file a written report
with the department of education concerning the status of the program. The report shall include
such information and data as the department of education shall require, including but not limited
to the information received in the public forum held pursuant to section 22-25-106 (4), if
applicable. The report shall be filed on or before such date as the department of education shall
determine.

(2) Repealed.

subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

22-25-108. Participation of nonpublic school personnel. Teachers, school nurses, or
school administrators employed by a nonpublic school may participate as students in in-service
education institutes or curriculum development programs conducted by school districts or boards of cooperative services pursuant to this article. At the discretion of the school district or board of cooperative services conducting such institutes or programs, such participants may be required to pay the pro rata share of the cost of participation.

**22-25-109. Colorado comprehensive health education fund - creation - acceptance of funds - repeal. (Repealed)**

**Editor's note:** (1) This section was similar to former § 22-25-112 as it existed prior to 1990.  
(2) Subsection (3) provided for the repeal of this section, effective July 1, 2010. (See L. 2010, p. 365.)

**22-25-110. Funding of existing programs - operation of other health education programs.** (1) Nothing in this article shall be interpreted to prevent a school district or board of cooperative services currently offering health education programs from being eligible to receive funding pursuant to this article.  
(2) Nothing in this article 25 requires a school district or board of cooperative services to establish a local comprehensive health education program nor shall it be interpreted to prevent a school district or board of cooperative services from offering a health education program that is not operated under the requirements of this article 25; except that any school district or board of cooperative services offering such a health education program shall:  
(a) Comply with the public information requirements contained in section 22-25-106 (4); and  
(b) Establish a procedure to exempt a student, upon request of the parent or guardian of such student, from a specific portion of the health education program on the grounds that it is contrary to the religious or personal beliefs and teachings of the student or the student's parent or guardian.  
(c) Repealed.

ARTICLE 27.5

Before- and After-School Dropout Prevention Programs

22-27.5-101. Legislative declaration. (1) The general assembly hereby finds that:
   (a) The unacceptably high dropout rate in public schools in Colorado is detrimental to the economic and cultural health of the state, and the state should take additional measures to more fully and productively engage students in public education and thereby reduce this rate;
   (b) Often, students who choose to drop out of school prior to graduation are bored with the standard classroom curriculum. Students who are involved with extracurricular school
activities before or after school are more likely to be invested in their education and less likely to drop out of school.

(c) With the increased difficulties in funding public education and increased emphasis on core academic subjects, schools have been forced to focus their resources on teaching the core curriculum subjects of reading, writing, and mathematics and have been less able to fund visual arts or performing arts education or to provide career and technical education;

(d) Just as all students can learn, all students are talented to varying degrees in varying arts and endeavors. In addition to ensuring a student has the necessary skills in reading, writing, and mathematics to be successful in a career, educating a student should include providing the student the opportunity to experience and participate in a wide range of artistic and vocational activities to allow the student to discover his or her talents and be successful in life.

(e) A grant program to provide additional funding for schools to sponsor before- and after-school programs in visual arts and performing arts and in career and technical education subjects will have the combined benefits of providing a wider range of visual arts, performing arts, and career and technical education, exposing students to a wide range of opportunities in visual arts and performing arts, assisting students in obtaining skills in a wide variety of vocations, enabling students to discover their artistic and vocation-related talents, and providing greater incentives for some students to stay in school.

Cross references: For the legislative declaration in the 2010 act amending subsections (1)(c) and (1)(e), see section 1 of chapter 233, Session Laws of Colorado 2010.

22-27.5-102. Definitions. As used in this article, unless the context otherwise requires:

(1) "Arts-based activity program" means a before- or after-school program that provides students with an opportunity to learn about and participate in an activity in visual arts or performing arts.

(2) "Department" means the department of education, created and operating pursuant to section 24-1-115, C.R.S.

(3) "District board" means a school district board of education created pursuant to law.

(4) "Dropout prevention activity grant program" or "grant program" means the grant program created pursuant to section 22-27.5-103 to fund before- and after-school arts-based and vocational activity programs for students in grades six through twelve.

(4.5) "Facility school" means an approved facility school as defined in section 22-2-402 (1).

(5) "Fund" means the dropout prevention activity grant fund created pursuant to section 22-27.5-105.

(5.5) "Performing arts" shall have the same meaning as provided in section 22-1-104.5 (1)(b).

(6) "Qualified community organization" means a nonprofit or not-for-profit, nonsectarian, community-based organization that provides before- and after-school, arts-based or vocational activity programs to low-income youth enrolled in grades six through twelve.
"Qualified school" means a public school, including but not limited to a charter school, that serves any of grades six through twelve and that is required to implement a priority improvement or turnaround plan pursuant to section 22-11-405 or 22-11-406, respectively, or is subject to restructuring pursuant to section 22-11-210 for the school year in which the public school seeks a grant through the grant program.

"State board" means the state board of education created pursuant to section 1 of article IX of the state constitution.

"Visual arts" shall have the same meaning as provided in section 22-1-104.5 (1)(c).

"Vocational activity program" means a before- or after-school program that provides students with an opportunity to learn and develop skills in a variety of vocations, including but not limited to carpentry, plumbing, welding, culinary arts, floral design, automotive maintenance, driver's training, and hotel and restaurant management.

Cross references: For the legislative declaration in the 2010 act amending subsection (1) and adding subsections (5.5) and (8.5), see section 1 of chapter 233, Session Laws of Colorado 2010.

22-27.5-103. Dropout prevention activity grant program - created - applications. (1) There is hereby created a grant program to fund before- and after-school arts-based and vocational activity programs for students enrolled in grades six through twelve. The goal in funding arts-based and vocational activity programs is to reduce the number of students who choose to drop out of school prior to graduation. A facility school, a qualified school, with the approval of its district board, or a qualified community organization in partnership with a qualified school may apply to the department, in accordance with procedures and time lines adopted by rule of the state board, to receive moneys through the dropout prevention activity grant program. The department shall administer the grant program as provided in this article and pursuant to rules adopted by the state board.

(2) In any year in which the department of education receives gifts, grants, or donations for the fund, the department of education shall notify the facility schools and the district boards, in the manner provided by rule of the state board, of the amount of money to be deposited in the fund and available for grants pursuant to this section. The notice may also specify the time and procedure for applying for a grant from the dropout prevention activity grant program. Each district board shall forward the notice to the qualified schools of the school district. The department shall also post the notice on the department website as notice to qualified community organizations that may be interested in applying for moneys through the grant program.

(3) (a) A qualified school that chooses to seek a grant through the dropout prevention activity grant program shall notify its district board, specifying the amount requested and describing the arts-based or vocational activity program for which the grant would be used. The district board shall consider the qualified school's request and either approve or disapprove the qualified school's application. If the district board approves the application, the qualified school
shall apply to the department, in accordance with the procedures and using the application form
specified by rule of the state board, for a grant through the dropout prevention activity grant
program.

(b) Each district board shall adopt policies specifying the time frames during which a
qualified school may request a dropout prevention activity grant and the procedure for the
request. The district board shall ensure that its policies are coordinated with the rules of the state
board to allow a qualified school to apply for a grant in accordance with the rules of the state
board.

(c) A qualified school that receives a grant through the dropout prevention activity grant
program shall use the moneys received to provide arts-based or vocational activity programs
only to students enrolled in grades six through twelve.

(3.5) (a) A facility school that chooses to seek a grant through the dropout prevention
activity grant program shall apply to the department, in accordance with the procedures and
using the application form specified by rule of the state board, for a grant through the dropout
prevention activity grant program.

(b) A facility school that receives a grant through the dropout prevention activity grant
program shall use the moneys received to provide arts-based or vocational activity programs
only to students enrolled in grades six through twelve.

(4) A qualified community organization that chooses to seek a grant through the dropout
prevention activity grant program shall enter into a partnership agreement with a qualified school
or a facility school pursuant to which the qualified community organization may operate an
arts-based or vocational activity program in collaboration with the qualified school or facility
school for students enrolled in any of grades six through twelve. At a minimum, the partnership
agreement shall specify the amount of the grant to be requested from the grant program and
describe the arts-based or vocational activity program for which the grant would be used. The
qualified school's participation in the partnership agreement shall be subject to the approval of
the school's district board. A qualified community organization that applies for a grant through
the dropout prevention activity grant program shall submit a copy of the signed partnership
agreement with its grant application.

Source: L. 2005: Entire article added, p. 513, § 1, effective May 24. L. 2008: (1), (2),
and (4) amended and (3.5) added, p. 1397, § 35, effective May 27. L. 2011: (2) amended, (HB
11-1303), ch. 264, p. 1160, § 44, effective August 10.

22-27.5-104. Dropout prevention activity grant program - rules - awarding grants.
(1) The state board shall promulgate rules in accordance with the "State Administrative
Procedure Act", article 4 of title 24, C.R.S., for the implementation of the dropout prevention
activity grant program. At a minimum, the rules shall specify the procedures for applying for a
grant, the form of the grant application, the information to be provided by the applicant, and the
criteria for awarding grants.

(2) The department shall review each grant application received from a facility school, a
qualified school, or a qualified community organization pursuant to section 22-27.5-103 and
shall make recommendations to the state board concerning whether the grant should be awarded
and the amount of the grant. If the department determines an application is missing any
information required by rules to be included with the application, the department may contact the
applicant to obtain the missing information. In making its recommendations, in addition to any criteria identified by rule of the state board, the department shall:

(a) Give first priority to applications to fund arts-based or vocational activity programs at qualified schools that experience high dropout rates for the three school years preceding the year in which the application is submitted and to fund arts-based or vocational activity programs at facility schools;

(b) Consider the percentage of students enrolled at the affected qualified school or facility school who are minority students or students who qualify for free or reduced-cost lunch pursuant to the provisions of the federal "Richard B. Russell National School Lunch Act", 42 U.S.C. sec. 1751 et seq., with the goal of funding arts-based and vocational activity programs at qualified schools and facility schools that enroll high percentages of minority students and students who qualify for free or reduced-cost lunch;

(c) Consider the format of the arts-based or vocational activity program for which funding is requested and determine the cost-effectiveness of the program, the number of students who will be able to participate, and the quality of the participatory experience offered, with the goal of funding arts-based and vocational activity programs that provide a large number of students the opportunity to directly participate in and experience an arts-based or vocational activity;

(d) Consider whether the arts-based or vocational activity program for which funding is requested includes a partnering relationship with businesses in the community or a component of community service, with the goal of funding those arts-based and vocational activity programs that demonstrate a connection with the community outside the school or facility school and provide a benefit to that community.

(3) In each year in which moneys are credited to the fund, the state board shall award grants to applicants through the dropout prevention activity grant program. The state board shall take into consideration the recommendations received from the department. In addition to any criteria adopted by rule, the state board in awarding grants shall apply the priority and considerations specified in subsection (2) of this section. A grant awarded pursuant to this article shall be valid for one year.

22-27.5-105. Dropout prevention activity grant fund - created - administrative costs. (1) (a) There is hereby created in the state treasury the dropout prevention activity grant fund. The fund shall consist of any gifts, grants, or donations received by the department for the fund pursuant to subsection (2) of this section. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the implementation of the dropout prevention activity grant program pursuant to this article.

(b) Any moneys in the fund not expended for the purpose of this article may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.
(2) The department is authorized to seek and accept gifts, grants, and donations from private or public sources for the implementation of the dropout prevention activity grant program pursuant to this article. All private and public funds received through gifts, grants, and donations shall be transmitted to the state treasurer, who shall credit the same to the fund.

(3) The department may expend up to two percent of the moneys annually appropriated from the fund to offset the direct and indirect costs incurred in implementing the dropout prevention activity grant program pursuant to this article.

(4) (Deleted by amendment, L. 2011, (HB 11-1303), ch. 264, p. 1160, § 45, effective August 10, 2011.)

22-27.5-106. Dropout prevention activity grant programs - report. (1) Each facility school, qualified school, and qualified community organization that receives a dropout prevention activity program grant shall, in each year that it receives the grant, report to the department a description of the arts-based or vocational activity program and the projects accomplished through the program and an indication of the number of students who participated in the program.

(2) On or before January 15, 2007, and on or before January 15 each year thereafter, the department shall report to the education committees of the house of representatives and the senate and to the governor the following information from the preceding school year:
   (a) The number and amounts of dropout prevention activity program grants awarded;
   (b) A description of the arts-based and vocational activity programs that received grants;
   (c) The number of students who participated in the arts-based and vocational activity programs that received grants; and
   (d) The student dropout rates of the qualified schools at which the funded arts-based and vocational activity programs were operated.

ARTICLE 28

Colorado Preschool Program Act

22-28-101 to 22-28-114. (Repealed)

Editor's note: (1) This article 28 was added in 1988. For amendments to this article 28 prior to its repeal in 2023, consult the 2022 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

(2) Section 22-28-113 provided for the repeal of this article 28, effective July 1, 2023. (See L. 2022, p. 776.)

ARTICLE 29
Character Education

22-29-101. Legislative declaration. The general assembly finds and declares that, while parents are the primary and most important moral educators of their children, such efforts should be reinforced in the school and community environments. The general assembly further finds that research indicating that core character qualities such as family support, community involvement, positive peer influence, motivation to achieve, respect for person and property, common courtesy, conflict resolution, integrity, honesty, fairness, a sense of civil and personal responsibility, purpose, and self-respect help give youth the basic interpersonal skills and attributes that are critical building blocks for successful relationships. The general assembly recognizes each school district's authority to exercise control over the specific instruction of students, yet also recognizes and hereby asserts a significant statewide interest in providing direction to school districts with regard to the character education of Colorado's youth. Therefore, the general assembly hereby encourages school districts to develop and strengthen character education instruction to students. By enacting this article, the general assembly acknowledges the importance of character development and encourages school districts, parents, and communities to work together to prepare youth for positive relationships in today's society.

Source: L. 2001: Entire article added, p. 1006, § 1, effective June 5.

22-29-102. Definitions. As used in this article, unless the context otherwise requires:
(1) "Board of cooperative services" shall have the same meaning as provided in section 22-5-103 (2).
(2) "Department" means the state department of education created pursuant to section 24-1-115, C.R.S.
(3) "School district" means any school district organized and existing pursuant to law, but does not include a local college district.
(4) "State board" means the state board of education created pursuant to section 1 of article IX of the state constitution.

Source: L. 2001: Entire article added, p. 1007, § 1, effective June 5.

22-29-103. Character education - development - resource. (1) Each school district, either individually or through a board of cooperative services, is strongly encouraged to establish a character education program designed to help students cultivate honesty, respect, responsibility, courtesy, respect for and compliance with the law, integrity, respect for parents, home, and community, and the dignity and necessity of a strong work ethic, conflict resolution, and other skills, habits, and qualities of character that will promote an upright, moral, and desirable citizenry and better prepare students to become positive contributors to society. The program may include information concerning this country's founding documents and concerning religion in American history. Such character education program should be designed to stress the importance that each teacher model and promote the guidelines of behavior established in the character education program for youth to follow at all times, in every class.
(2) The general assembly encourages each school district to work with parents and legal guardians of students enrolled in the school district and the community in which the school district operates in the development of any character education program established pursuant to subsection (1) of this section.

(3) Repealed.

22-29-104. Reports - school districts - department. (Repealed)

22-29-105. Electronic transmission and storage of data. (Repealed)

22-29-106. Character education fund - creation - contributions. (Repealed)

SCHOOL DISTRICTS

ARTICLE 30

School District Organization

Act of 1992

Editor's note: This article was numbered as article 25 of chapter 123, C.R.S. 1963. The substantive provisions of this article were repealed and reenacted in 1992, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this article prior to 1992, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated.

Cross references: For jurisdiction of school districts in federally owned or controlled land or Indian reservations, see § 3-2-101.

PART 1
22-30-101. Short title. This article shall be known and may be cited as the "School District Organization Act of 1992".

**Source:** L. 92: Entire article R&RE, p. 496, § 1, effective June 1.

**Editor's note:** This section is similar to former § 22-30-101 as it existed prior to 1992.

22-30-102. Legislative declaration. (1) The general assembly hereby declares that this article is enacted for the general improvement of the public schools in the state of Colorado; for the equalization of the benefits of education throughout the state; for the organization of public school districts in the state and the alteration of the boundaries of established school districts, in order to provide for the maintenance of a thorough and uniform system of free public schools throughout the state; and for a more responsible expenditure of public funds for the support of the public school system of the state. In order to accomplish these ends, this article shall be liberally construed.

(2) The general assembly further finds and declares that the provisions of this article shall apply in all of the following situations:

(a) The creation of one or more additional school districts within the existing boundaries of a school district;

(b) The consolidation of two or more school districts or parts of school districts into a new single school district;

(c) The dissolution and annexation of a school district when such school district fails to operate a school within the school district or when the state board declares the school district is no longer accredited;

(d) The detachment and annexation to revise, alter, or modify the boundaries of school districts for the purpose of more effective or economical operation or in order to provide better educational opportunities for the school age children resident in certain territory.

(2.5) The general assembly further finds and declares that the provisions of this article shall not apply to any detachment and annexation wherein county boundaries are modified.

(3) The general assembly further finds and declares that, except as provided in section 22-30-128, no reorganization of a school district shall occur without the appointment of a school organization planning committee to study the school organization and develop a plan for reorganization of the school district.

**Source:** L. 92: Entire article R&RE, p. 496, § 1, effective June 1. L. 94: (2.5) added, p. 808, § 13, effective April 27. L. 95: (3) amended, p. 605, § 2, effective May 22.

**Editor's note:** This section is similar to former § 22-30-102 as it existed prior to 1992.

22-30-103. Definitions. As used in this article 30, unless the context otherwise requires:

(1) "Commissioner" means the commissioner of education.

(2) "Committee" means the school organization planning committee authorized to study school district organization and develop a plan for reorganization.
"Consolidation" means reorganization of two or more school districts into fewer school districts.

"Detachment and annexation" means the alteration of boundaries of two or more school districts.

"Director districts" means subdivisions of a school district which are contiguous, compact, and as nearly equal in population as possible.

"Dissolution and annexation" means the discontinuance of a school district and annexation of its territory to an existing school district or school districts.

"Eligible elector" means a person who has complied with the registration provisions of articles 1 to 13 of title 1, C.R.S., and who resides within the boundaries of the proposed or existing school district.

"New school district" means a school district which has become a new body corporate pursuant to the provisions of this article.

"Parameters of the study" means the type of organization and the boundaries of the territory to be included in the study and the timeliness with which the committee shall complete the study.

"Petition committee" means not less than three nor more than five persons who are not members of the same family who shall represent the signors of a petition for the study of school organization in a school district.

"Plan of organization" means the plan of school organization developed pursuant to this article.

"Reorganization" means any change in school district organization pursuant to the provisions of this article.

"School district" means a school district organized and existing pursuant to law; except that "school district" does not include a local college district.

"School district board of education" or "local school board" means the elected board of education of a school district.

"State board" means the state board of education.

Editor's note: This section is similar to former § 22-30-103 as it existed prior to 1992.

22-30-104. Conduct of elections. (1) All elections authorized in this article 30 must be conducted pursuant to articles 1 to 13 of title 1. For each election, the governing body authorized to call the election shall name a designated election official who shall be responsible for calling and conducting the authorized election. Limits on contributions to candidates for the board of education of a school district are specified in section 1-45-103.7 (1.7). The disclosure of such contributions is governed in accordance with sections 1-45-108 and 1-45-109.

(2) A governing body may contract with a county clerk and recorder to be the designated election official or for the administration of any of the duties of the designated election official relating to the conduct of a school district election under this article.

(3) Election offenses in any election held pursuant to this article shall be the same as those prescribed in article 13 of title 1, C.R.S.
(4) The procedures for placing an issue or question on the ballot by a petition of school district electors that is pursuant to statute or the state constitution or that a school district board of education may refer to a vote of the electors pursuant to statute or the state constitution shall, to the extent no such procedures are prescribed by statute or the state constitution, follow as nearly as practicable the procedures for municipal initiatives and referred measures under part 1 of article 11 of title 31, C.R.S. The designated election official shall resolve any questions about the applicability of the procedures in part 1 of article 11 of title 31, C.R.S., after consultation with the county clerk of the county in which the school district administrative office is located.

22-30-105. Activation of the school district organization planning process. (1) The appointment of a school organization planning committee charged to study school district organization shall occur when the commissioner is notified that any of the following conditions exist:

(a) One or more school district boards of education request the appointment of a school organization planning committee. Each school district which would be affected by the actions of such planning committee must submit a separate resolution.

(b) A petition committee, as defined in section 22-30-103 (10), presents a petition to the commissioner and to the county clerk and recorder of each county in which the headquarters of a school district that will be affected by the actions of a planning committee are located requesting the appointment of a school organization planning committee. Such petition shall contain a statement indicating the school districts to be involved. If only one school district is involved, the petition shall be signed by fifteen percent of that school district's eligible electors. If multiple school districts are involved, the petition shall be signed by fifteen percent of the eligible electors in each involved school district; except that, if the petition requests only consideration of detachment and annexation, the petition shall be signed by twenty-five percent of the eligible electors residing in the area to be detached and annexed. If multiple school districts are involved, the petition does not request consideration of a detachment and annexation, and the pupil enrollment of a school district for purposes of the "Public School Finance Act of 1994" is greater than thirty thousand pupils, the petition shall be signed by five percent of the eligible electors in that school district. Such petitions shall be deemed sufficient by the county clerk and recorder in the county of each involved school district. Only one such petition may be presented to the commissioner and the county clerk and recorder in the county of each involved school district in any three consecutive calendar years.

(c) The state board pursuant to the provisions of section 22-11-209 declares a school district is no longer accredited or directs a school district to reorganize. Such declaration or direction must indicate the school districts to be involved in the organization study.

Editor's note: This section is similar to former § 22-30-104 as it existed prior to 1992.

Cross references: For the "Public School Finance Act of 1994", see article 54 of this title.

22-30-106. School organization planning committee. (1) Upon determination that one or more of the conditions described in section 22-30-105 exist, the commissioner shall notify the boards of education and committees responsible for appointing members of a school organization planning committee as stated in this section and call for the appointment of such a committee. Such a committee shall be appointed and hold its first meeting within thirty days of notification by the commissioner.

(2) The committee shall consist of the following appointed members:

(a) (I) If multiple school districts are involved in the study, two members appointed by the board of education in each school district affected by the study and one member appointed by the school district accountability committee of each school district affected by the study. Such member shall be a parent of a child attending a public school in the affected area; except that, if there are no public schools in the affected area, the member shall reside in the affected area and be a parent of a child attending a public school in one of the affected school districts. If no such parent resides in the affected area, the member shall be a person owning land located in the affected area.

(II) If a single school district is involved in the study, four members appointed by the school district board of education and three members appointed by the school district accountability committee. The members appointed by the school district accountability committee shall be parents of children attending public school in the affected area and members of school accountability committees; except that, if there are no public schools in the affected area, three of the members shall reside in the affected area and shall be parents of children attending public schools in the affected school district. If fewer than three such parents reside in the affected area, the remaining members shall be persons owning land located in the affected area.

(b) If the school organization planning process was activated by a petition, two additional members appointed by the petition committee.

(3) Notwithstanding the provisions of subsections (1) and (2) of this section, where the reorganization of a school district arises from the detachment and annexation of a portion of a school district, which portion has five or fewer eligible electors, the school district boards of education of the affected school districts shall serve as the committee.

Editor's note: This section is similar to former § 22-30-104 as it existed prior to 1992.

22-30-107. Duties of the committee. (1) The committee shall have the following duties:

(a) To appoint a chair, vice-chair, and secretary;

(b) To establish parameters of the study;
(c) To make a careful study of the public school systems within the parameters of the study established by the committee;

(d) To develop a plan of organization which meets the requirements of section 22-30-114;

(e) To cooperate with the school district boards of education of the affected school districts, the state board, and the commissioner in arriving at a plan of organization;

(f) (I) When the proposed plan of organization results in the creation of a new school district, to file with the commissioner and the county clerk and recorder in each county affected by the proposed plan of organization a map and legal description of the new school district, the name of the county in which the new school district shall be headquartered, and the name and number by which the new school district shall be designated;

(II) When the proposed plan of organization results in the detachment and annexation of territory between existing school districts, to file with the commissioner and the county clerk and recorder in each county affected by the proposed plan of organization a map and legal description of the school districts following the detachment and annexation;

(g) (I) To call for and make arrangements for elections to vote upon the final approved plan of organization as provided in section 22-30-117;

(II) If the majority votes in favor of the final approved plan of organization and the final approved plan of organization results in the creation of a new school district, to call for an election to elect a board of education for the new school district as provided in section 22-30-122 and, if necessary, an election to address any financial matters, as provided in section 22-30-121.5; except that the final approved plan of organization and financial matters may be addressed in the same election;

(h) To assist in the dissemination of information as to the purpose and benefits of the proposed plan of organization and the final approved plan of organization; and

(i) To make all certifications and perform all other acts specifically required of the committee by this article.

Source: L. 92: Entire article R&RE, p. 500, § 1, effective June 1. L. 96: (1)(f) and (1)(g) amended, p. 52, § 3, effective July 1.

Editor's note: This section is similar to former § 22-30-104 as it existed prior to 1992.

22-30-107.5. Duties of affected school districts. The school district board of education of each school district affected by appointment of a committee shall cooperate with the committee by providing any information requested by the committee to assist in formulating the plan of organization.

Source: L. 98: Entire section added, p. 432, § 1, effective August 5.

22-30-108. Vacancies. After a committee is formed, in case of a vacancy on the committee by death, resignation, failure to accept membership thereon, or discontinuation of the enrollment of a parent member's child in a school in the affected school district, the vacancy shall be filled in the same manner as the original appointment. If any member fails to attend two
consecutive meetings, after due notice and without being excused by the committee chair, the office of such member shall be declared vacant.

Source: L. 92: Entire article R&RE, p. 501, § 1, effective June 1.

Editor's note: This section is similar to former § 22-30-106 as it existed prior to 1992.

22-30-109. Meetings - notice. All meetings of the committee shall be open to the public pursuant to the provisions of section 24-6-402, C.R.S., and shall be held only after full and timely public notice. The chair may call special meetings upon notice mailed by the secretary to each member at least five days before such meeting. A meeting of the committee shall be called by the chair on written request of three members of the committee upon notice mailed by the secretary to each member at least five days before such meeting.

Editor's note: This section is similar to former § 22-30-107 as it existed prior to 1992.

22-30-110. Names certified to commissioner. When any committee has been appointed, as provided in section 22-30-106 (2), the secretary thereof shall certify to the commissioner the names and post office addresses of each member of such committee, indicating the persons elected as chair and vice-chair. Any change in the personnel or officers of such committee shall be likewise certified to the commissioner.

Source: L. 92: Entire article R&RE, p. 501, § 1, effective June 1.

Editor's note: This section is similar to former § 22-30-108 as it existed prior to 1992.

22-30-111. Compensation - expenses. Members of the committee shall not receive compensation for service on such committee from state moneys. The affected school districts shall compensate committee members for actual expenses incurred in the performance of their duties under this article. For purposes of this section, "actual expenses" means travel expenses and expenses incurred in purchasing necessary supplies.

Editor's note: This section is similar to former § 22-30-132 as it existed prior to 1992.

Cross references: For reimbursement of transportation costs, see article 51 of this title.

22-30-112. Department consultants. The state board is authorized to employ such consultants, assistants, and other personnel, within the limits of appropriations to the department of education for salaries and travel expenses of personnel, as may be necessary to render all reasonable assistance to the various committees in the development and submission of plans of
organization. All personnel employed shall work under the direction of the commissioner or a designated assistant commissioner.

**Source:** L. 92: Entire article R&RE, p. 501, § 1, effective June 1.

**Editor's note:** This section is similar to former § 22-30-109 as it existed prior to 1992.

22-30-113. Duties of the attorney general. The attorney general shall be the legal counsel and advisor of the state board, the commissioner, and, when requested by the commissioner, any of the committees organized pursuant to the provisions of this article for purposes related to the proper administration of this article.

**Source:** L. 92: Entire article R&RE, p. 501, § 1, effective June 1.

**Editor's note:** This section is similar to former § 22-30-134 as it existed prior to 1992.

22-30-114. Requirements for plan of organization. (1) The plan of organization must include, but need not be limited to, consideration of the following:

(a) The educational needs of pupils in the affected school districts, including the convenience and welfare of pupils;

(b) The provision of diverse educational opportunities for students;

(c) Equalization of the educational opportunities provided to students in the affected school districts;

(d) Implementation of the actions required by the state board pursuant to section 22-11-209 (3);

(d.5) The reasons for which the school district was unable to improve its performance sufficiently to avoid removal of accreditation pursuant to section 22-11-209;

(e) Facility utilization;

(f) Establishment of boundaries for all existing or new school districts in the plan of organization by legal description;

(g) Equitable adjustment and distribution of all or any part of the properties and cash assets of the school districts whose boundaries may be affected by the creation or dissolution of a school district or by the detachment and annexation of territory. The plan of organization may also provide for equitable adjustment of the liabilities of the school districts, other than bonded indebtedness, at the option of the committee. In considering an equitable adjustment of the assets of such school districts, the committee shall consider the outstanding general liabilities and obligations of the school districts that may be so affected, the number of children attending public school in each such school district, the valuation for assessment of taxable property in each such school district, the amount of outstanding bonded indebtedness of each such school district, the purpose for which such bonded indebtedness was incurred, and the value, location, and disposition of all real properties located in the school districts that may be affected by the creation or dissolution of a school district or the detachment and annexation of territory. In considering an equitable adjustment of the assets of such school districts, the plan of organization may provide for authorization of new bonded indebtedness or assumption of
outstanding bonded indebtedness by any school district in such proportions and for such purposes as the committee deems appropriate to equitably adjust and distribute such assets.

(h) Provision of a specific plan of representation for the members of the board of education of any proposed new school district. Each proposed new school district may be subdivided into five or seven director school districts or may have all directors elected at large or may have a combination thereof. The term of office of school directors in each proposed new school district shall be for four years.

(i) Dates for one or more special school district elections to address the following:
   (I) Adoption of the final approved plan of organization;
   (II) Election of a board of directors if the plan of organization results in the creation of a new school district; except that such plan shall not interfere with the regular biennial election schedule; and
   (III) Financial issues, if necessary, including but not limited to an increase in the mill levy, which election shall be held in accordance with the requirements of section 20 of article X of the state constitution;

(j) If the plan of organization results in the creation of a new school district, the estimated maximum increase in the mill levy to be imposed on property included within the new district considering the factors enumerated in section 22-54-106 (2)(c) or (2.1)(e), whichever is applicable. If the plan of organization results in the detachment and annexation of territory between existing school districts, the plan of organization must include the mill levy of the annexing district that will be imposed on the affected territory.

(k) If the plan of organization results in the creation of a new school district, a source of operating funds to be used by the new school district prior to receiving the state share of the total district program, pursuant to the "Public School Finance Act of 1994", article 54 of this title, on July 1 of the new school district's first budget year.

(1.5) The plan of organization shall provide that all school districts affected by the plan of organization shall provide a full twelve-grade education within the boundaries of each affected school district.

(2) If the plan of organization results in the dissolution of a school district which has outstanding bonded indebtedness obligations or liabilities, the plan of organization shall designate a new school district, which includes at least a portion of the dissolved school district, as a successor for the purpose of administering payment of the bonded indebtedness obligations of the dissolved school district, and the board of education of the new school district so designated shall have all the powers, rights, duties, and responsibilities of the board of education of the dissolved school district for administering payment of the outstanding bonded indebtedness obligations and liabilities of the dissolved school district. All revenues which accrue from the tax levies to satisfy said obligations and liabilities, and all interest which may accrue thereon as a result of investments authorized by law, shall be held in trust by the board of education of the new school district so designated for the purpose only of satisfying said bonded indebtedness obligations and liabilities of the dissolved school district.

(3) If the reorganization results in the creation of one or more additional school districts within the boundaries of an existing school district, the plan of organization may include:
   (a) Authorization for the existing school district and the new school district or districts to enter into a revenue sharing agreement. The plan of organization shall specify the period of time during which revenue sharing may occur.
(b) Provisions for creation of a joint taxation district as provided in part 2 of this article.

(4) If the plan of organization results in creation of one or more new school districts or alterations of the boundaries of existing school districts, the plan shall ensure that the school district boundaries are not set in such a way as to create any portion of a school district that is not contiguous to the remainder of the school district.

Editor's note: This section is similar to former § 22-30-113 as it existed prior to 1992.

Cross references: For the legislative declaration in HB 20-1418, see section 1 of chapter 197, Session Laws of Colorado 2020.

22-30-115. Hearing on a plan of organization. (1) When a plan of organization has been tentatively agreed upon by the committee, the proposed plan of organization with the attached map and legal description of the proposed boundaries of each school district affected by the proposed plan of organization shall be filed with the commissioner and each affected board of education.

(2) (a) Within fifteen days after the filing of the proposed plan of organization, the committee shall give notice of the filing of such plan of organization, map, and legal description by publication of said fact in a newspaper of general circulation in each area affected by the proposed plan of organization and by causing to be posted a copy of said notice upon each public school building in which school was held during any part of the preceding twelve months and that is located within the boundaries of any area affected by the plan of organization. If there is no newspaper of general circulation in the communities affected by the proposed plan of organization, posting of public notice as provided in this subsection (2) shall be sufficient. Such public notice shall give the time and place of any meeting to be held within thirty days by the committee for hearings on such proposed plan of organization. The committee shall hold a sufficient number of hearings to enable the residents of the affected area to receive adequate information and details of the plan of organization being considered. Any interested person may appear at such hearings and make comments on the proposed plan of organization.

(b) Notwithstanding the provisions concerning the posting of notice in public schools in paragraph (a) of this subsection (2), if there are no public schools within the boundaries of an area proposed to be detached and either annexed or organized into a new school district, public notice of the meeting shall be posted in at least three public buildings located in such area. If there are fewer than three public buildings located in such area, notice shall be mailed to each household in such area in which one or more eligible electors reside.

22-30-116. Approval of the plan and submission to the commissioner. After the public hearings required under section 22-30-115, the committee may make such changes in the proposed plan of organization as it deems appropriate. The committee shall formally approve the proposed plan of organization within sixty days after the last such public hearing. Within ten days after such approval, the committee shall forward to the commissioner a copy of the approved proposed plan of organization, with a map showing the proposed boundaries of each school district affected by the proposed plan of organization. The commissioner shall either approve the proposed plan of organization as submitted by the committee or return the proposed plan of organization to the committee with suggested modifications or amendments. The commissioner and the committee shall work together to develop a plan of organization that is mutually acceptable to both parties.

Editor's note: This section is similar to former § 22-30-116 as it existed prior to 1992.

22-30-117. Special school district organization election scheduled. (1) The plan of organization shall be approved by the commissioner and the committee within one hundred twenty days following the last public hearing held pursuant to section 22-30-115 and shall be designated as the final approved plan of organization. At that time, the committee shall call for and establish the date of a special school district organization election wherein the eligible electors in each school district affected by the final approved plan of organization shall vote upon the adoption or rejection of the final approved plan of organization. The committee shall name a designated election official who shall be responsible for conducting the election. Such election shall be held on the date specified in the final approved plan of organization. The expense of the election shall be apportioned among the affected school districts based on population according to the most recent federal decennial census.

(2) If the estimated maximum increase in the mill levy for a new district or the mill levy to be imposed on annexed territory, as set forth in the plan of organization, represents an increase in the levy imposed on any property affected by the plan of organization, the question of the increase in the mill levy to be imposed upon the affected territory shall be submitted to the eligible electors residing in the affected territory prior to or at the special school district organization election as the final approved plan of organization. Approval of the increased levy by a majority of the eligible electors voting on the question who reside in the affected territory shall be a prerequisite to the implementation of the plan of organization.

22-30-118. Meeting to explain final approved plan. Prior to the special school district organization election, the committee shall meet with the eligible electors of each area affected by the final approved plan of organization in a convenient place within each area to explain the final
approved plan of organization. The committee shall arrange for such meeting and shall give public notice thereof as required in section 22-30-115 (2) and in such other manner as may be deemed appropriate by the committee.

Editor's note: This section is similar to former § 22-30-119 as it existed prior to 1992.

22-30-119. Certificate of return - map. (1) After the county clerk and recorder in each county in which the special school district organization election is held has surveyed the returns of such election, a certificate of return shall be retained on file in each office of the county clerk and recorder.

(2) If the majority vote in each affected school district is in favor of the final approved plan of organization and any increase in the mill levy to be imposed on territory affected by the plan of organization is approved by the eligible electors residing within the affected territory, the plan of organization shall be deemed adopted. If the plan of organization is adopted and it results in creation of a new school district, the county clerk and recorder in each county in which the special school district organization election was held shall furnish to the commissioner a map and legal description of the new school district with the name and number by which the same shall be designated. If the plan of organization is adopted and it results in the detachment and annexation of territory between existing school districts, the county clerk and recorder in each county in which the special school district organization election was held shall furnish to the commissioner a map and legal description of the affected school districts following detachment and annexation of the territory.

Editor's note: This section is similar to former § 22-30-123 as it existed prior to 1992.

22-30-120. New school district - powers. (1) Where the final approved plan of organization results in the creation of a new school district, if a majority of the votes cast in each affected school district in the special school district organization election are in favor of the final approved plan of organization and a majority of the eligible electors residing in the new school district voting on the question approve the estimated maximum increase in the mill levy, if any, to be imposed within the new district, then on the date specified in the final approved plan of organization, but in no event prior to the certification of the special school district organization election, the new school district shall become a body corporate and as such shall organize under the name and number stated in the final approved plan of organization and in such name may take, hold, and convey property, both real and personal, and be a party to suits and contracts.

(2) If the final approved plan of organization results in the detachment and annexation of territory between existing school districts and a majority of the votes cast in each affected school district in the special school district organization election are in favor of the final approved plan of organization and the eligible electors residing within the affected territory approve the
imposition of the mill levy imposed in the annexing school district, if greater than that imposed in the detaching school district, the detachment and annexation shall be effective for all purposes on the date specified in the plan of organization but in no event prior to the certification of the special school district organization election. The detaching school district and the annexing school district shall continue as bodies corporate in the same manner as prior to the detachment and annexation.

Editor's note: This section is similar to former § 22-30-124 as it existed prior to 1992.

22-30-120.5. Effective date for purposes of school finance. Notwithstanding the provisions of section 22-30-120, for purposes of determining funding under the "Public School Finance Act of 1994", article 54 of this title, any plan of organization approved at a special school district organization election shall take effect on the next July 1 following certification of the election results.

22-30-121. Rejection of final approved plan. (1) The plan of organization shall be deemed rejected if:
   (a) The majority vote in any affected school district at the special school district organization election is not in favor of the final approved plan of organization; or
   (b) A majority of the eligible electors who reside in territory that would be subject to an increase in the mill levy, if required by the final approved plan of organization, does not approve the mill levy increase.

   (2) (a) If the final approved plan of organization involves fewer than three existing school districts and the final approved plan of organization is rejected, the committee shall be dissolved.
   (b) If the final approved plan of organization involves three or more existing school districts and the final approved plan of organization is approved in at least two of the affected school districts, the members of the planning committee who were appointed from the approving school districts may continue as a planning committee and prepare and submit a new plan of organization involving only those school districts in which the plan of organization was approved.

Editor's note: This section is similar to former § 22-30-125 as it existed prior to 1992.

22-30-121.5. New school district - election concerning financial matters. When there is a reorganization under the provisions of this article and the final approved plan of organization requires an election concerning financial matters, the chair of the committee shall call for a
special election concerning financial matters in the new or annexing school district. The special election shall be held on the date specified in the final approved plan of organization and may be held in conjunction with the election on the approved plan of organization. If a mill levy increase is required under the final approved plan of organization for any territory affected by the final approved plan of organization, approval of such a mill levy increase by the eligible electors residing in such territory is a prerequisite to adoption of the final approved plan of organization.

Source: L. 96: Entire section added, p. 58, § 12, effective July 1.

22-30-122. Election of school directors in new school districts. (1) When a new school district is formed under the provisions of this part 1, the chair of the committee shall call for a special election in such new school district for the selection of a board of education for the school district, to be held on the day specified in the final approved plan of organization. At such election, five or seven school directors, the number having been established in the final approved plan of organization pursuant to the provisions of section 22-30-114 (1)(h), shall be elected for four-year terms as follows:

(a) When five school directors are to be elected at such election, two school directors shall be elected to serve until the next regular biennial school election and three school directors shall be elected to serve until the second regular biennial school election. As the term of office of each school director expires, a successor shall be elected for a four-year term of office.

(b) When seven directors are to be elected at such election, three school directors shall be elected to serve until the next regular biennial school election and four school directors shall be elected to serve until the second regular biennial school election. As the term of office of each school director expires, a successor shall be elected for a four-year term of office.

(c) The election of new school directors pursuant to this section shall be held in accordance with the "Colorado Election Code of 1980", referred to after January 1, 1993, as the "Uniform Election Code of 1992", articles 1 to 13 of title 1, C.R.S., except as otherwise provided in this article.

(2) Within ten days after the first election of members of the board of education, the members so elected for such new school district shall meet and shall elect officers as provided by law and thereupon enter upon and perform all the duties and exercise all the powers of a board of education. Such officers shall be selected to serve until the next regular biennial school election.

(3) When the members of the board of education of the new school district assume their duties as provided in this article, the board of education of any school district situated wholly within said new school district shall cease to function, and the terms of office of the members thereof shall thereupon automatically expire.

(4) Any person desiring to be a candidate for the office of director of a new school district formed under the provisions of this article 30 shall be an eligible elector of the school district and, if directors in such new school district are elected under a director district plan of representation, a resident of the director district that the candidate seeks to represent. Each such candidate must be nominated in the manner otherwise provided by law for school directors. Limits on contributions to candidates for the board of education of a school district are specified in section 1-45-103.7 (1.7). The disclosure of such contributions is governed in accordance with sections 1-45-108 and 1-45-109.
22-30-123. Status of old school district - assets.

(1) When a portion of the territory of a school district is included within a new school district organized under the provisions of this article, such portion of the territory of the old school district shall be detached by operation of law when the new school district becomes a body corporate, and it shall become territory of the new school district. When all of the territory of an old school district is included within a new school district or school districts, if the eligible electors of more than one proposed new school district simultaneously adopt the plans of organization, the corporate status of the old school district or school districts shall be dissolved by operation of law when said new school district becomes a body corporate.

(2) Unless otherwise provided in the plan of organization, when a new school district formed under this article embraces all of the territory of an old school district, all of the assets of the old school district, including all personal and real property, except moneys then on hand or to be received from previously made tax levies for the satisfaction of bonded indebtedness, shall become the property of the new school district. The board of education of the successor new school district as designated in the plan of organization shall have all rights, powers, and duties for administering payment of said outstanding bonded indebtedness obligations in accordance with section 22-30-114 (2).

(3) Unless otherwise provided in the plan of organization, when only a portion of the territory of a school district is included within a new school district organized under the provisions of this article, or when all of the territory of an old school district is included in more than one new school district organized simultaneously, all of the assets of the old school district shall be apportioned between the old school district and the new school district, or between the two or more new school districts, if applicable, in the manner prescribed in subsection (4) of this section. If the corporate status of the old school district is not dissolved as a result of the organization of the new school district, the board of education of the old school district shall continue to perform duties and exercise powers delegated concerning the administering of the payment of its previously incurred bonded indebtedness, even though such territory is detached, except insofar as a new school district has voted to assume a proportionate share of said bonded indebtedness in the manner authorized by law. If the corporate status of the old school district is dissolved as a result of it having been wholly included within a new school district or school districts as specified in subsection (1) of this section, the board of education of the new school district shall perform the duties and exercise the powers delegated for administering payment of such bonded indebtedness with due regard to any proportionate share thereof which may have been assumed by a new school district in the manner authorized by law.

(4) Unless otherwise provided in the plan of organization, when the conditions prescribed in subsection (3) of this section occur, all of the assets of the old school district, including all personal and real properties except moneys then on hand or to be received from previously made tax levies for the satisfaction of bonded indebtedness, shall be apportioned...
between the old school district and the new school district or school districts or between the two or more new school districts, if applicable, as follows:

(a) All real property shall remain or become the property of the old school district or new school district in which located.

(b) All personal property, except cash assets, but including moneys then on hand or to be received from previously made tax levies for the satisfaction of bonded indebtedness, shall remain or become the property of the old school district or new school district in which located.

(c) All cash assets, except moneys then on hand or to be received from previously made tax levies for the satisfaction of bonded indebtedness, shall be apportioned between the old school district and the new school district or between the two or more new school districts, if applicable, on the basis of the most recent annual report of school enrollment of each such old school district. The apportionment of moneys under this paragraph (c) shall be made by the county treasurer, under the direction of the commissioner and in accordance with the provisions of the plan of organization, monthly as the moneys become available. If there are any unpaid school district taxes on the date upon which the new school district becomes a body corporate other than taxes levied for the satisfaction of bonded indebtedness, the county treasurer, under the direction of the commissioner and in accordance with the provisions of the plan of organization, shall apportion the revenues from such unpaid taxes monthly, when such revenues accrue after the new school district has become a body corporate, between the old school district and the new school district or school districts, or between the two or more new school districts, if applicable, in accordance with the location of the property from which such tax revenues shall accrue.

(5) (a) In the event only one new school district embraces all of the territory of an old school district, the new school district shall assume all of the outstanding obligations and liabilities of the dissolved school district, except those for previously incurred bonded indebtedness; but bonded indebtedness incurred by the former school district may be assumed by the new school district as provided in section 22-30-125.

(b) When the old school district remains in existence, even though a portion of the territory has been incorporated within a new school district, previously incurred bonded indebtedness of such old school district shall be paid as provided in sections 22-30-124 and 22-42-122; and, except when the plan of organization provides otherwise, the school district from which the territory was removed shall remain liable for all other previously incurred liabilities and obligations.

(c) Unless otherwise provided in the plan of organization, when two or more new school districts organized simultaneously shall include all of the territory of an old school district, each new school district shall be jointly and severally liable for all of the outstanding liabilities and obligations of the dissolved school district, except those outstanding obligations and liabilities previously incurred for bonded indebtedness; but a proportionate share of the previously incurred bonded indebtedness may be assumed as provided in section 22-30-125.

(6) If, upon the effective date of the organization of a new school district, as specified in section 22-30-120, a school district included in a plan of organization has a warrant indebtedness or outstanding liability, other than bonded indebtedness, in excess of the equivalent of one-half mill on its valuation for assessment, then the board of education of any successor school district is authorized to levy a special tax, not to exceed one mill, against the taxable property of the old school district, the revenue from which shall be applied to the retirement of the warrant
indebtedness or outstanding liabilities of such school district. When they are retired, the levy shall be discontinued. The procedures to be followed under the provisions of this subsection (6) shall be the same as provided in this title for the retirement of bonded indebtedness.

Editor's note: This section is similar to former § 22-30-127 as it existed prior to 1992.

22-30-124. Existing bonded indebtedness. (1) The bonded indebtedness of any school district outstanding at the time of inclusion of all or any part of such school district's territory in a new school district organized under this part 1, or in an existing school district as part of a detachment and annexation under this part 1, shall be paid in the following manner:

(a) All of said bonded indebtedness of such old school district shall be paid by the old school district that issued and owes the same by a special tax levied from time to time as may be necessary by the board of education of the new school district or the annexing school district, which special tax shall be levied upon the same taxable property that would have been levied upon to pay said indebtedness of said old school district if no reorganization had occurred, except as is provided in this article to the contrary.

(b) If the assumption of all of said bonded indebtedness by one new school district or an annexing school district has been approved as provided in section 22-30-125, such bonded indebtedness shall be paid in the manner provided by law for the paying of any bonded indebtedness that the new school district contracts pursuant to section 22-30-127 or that the annexing school district contracts pursuant to article 42 of this title.

(c) If the assumption of only a portion of said bonded indebtedness, as provided in the plan of organization, has been approved by any new or annexing school district, as provided in section 22-30-125, such portion of the bonded indebtedness shall be paid by a tax levied from time to time on all the taxable property located within the new or annexing school district.

(2) Whenever two or more old school districts, or portions of such school districts, have been reorganized and included within a new school district and whenever an old school district has been dissolved and annexed into a school district or school districts, under the provisions of this article 30, and, at the time of such reorganization or dissolution and annexation, one or more of the old school districts has outstanding bonded indebtedness, which indebtedness has not been assumed by the new school district or annexing school district pursuant to section 22-30-125, the following duties and responsibilities shall be performed by the following officers:

(a) The board of education of the new school district or annexing school district shall certify to the board of county commissioners under separate headings:

(I) The numbers of all old school districts that had any bonded indebtedness outstanding at the time the old school districts were reorganized and united into the new school district or dissolved and annexed into the existing school district;

(II) The legal description of the property of the old school districts, which property is liable for payment of all or a portion of the outstanding bonded indebtedness of the old school districts;

(III) The amount of the outstanding indebtedness; and

(IV) The amount required for the ensuing calendar year to meet the interest and principal falling due therein.
(b) The board of county commissioners shall levy, segregated under separate headings for the old school districts and for the whole of the new school district or the annexing school district, the several amounts properly applicable thereto for taxes at the same time that other taxes are levied and at such rates, as to each old school district and as to the whole of the new school district or annexing school district, for the payment of the money required for the amounts of either principal or interest, or both, and for the other funds needed by the new school district or annexing school district, certified by the board of education as will produce the several amounts so certified.

(c) The amounts of the taxes that are levied on the several portions of the new school district and on the entire new school district, or on the several portions of the annexing school district and on the entire annexing school district, shall be placed in separate columns in the tax book, which columns shall be headed "special school tax" and shall be subdivided into separate columns designated by the numbers of the old school districts by which the bonded indebtedness was issued, showing what portion of the special tax is for the purposes of the entire new school district or entire annexing school district and what portion is for interest or principal of bonded indebtedness of old school districts, to which indebtedness the old school districts were subject at the time of reorganization or dissolution, and inclusion of the old school districts in the new school district or annexation of the old school district by the existing school district.

(d) The county assessor and the county treasurer shall arrange their tax schedules and books to conform to the provisions of this section and with column headings respectively for the entire new school district or entire annexing school district subdivided into columns designated by parentheses, with the number of the old school district by which the bonded indebtedness was created and which indebtedness is undischarged, and showing, as to each property listed, the amount of tax properly levied on the property on account of the bonded indebtedness existing against the property as a portion of the old school district reorganized or dissolved, and included within the new school district or annexed to the existing school district at the time of the levy.

Editor's note: This section is similar to former § 22-30-128 as it existed prior to 1992.

22-30-125. Election on assuming the existing bonded indebtedness. (1) The committee may submit the issue of assuming the bonded indebtedness of any school district, or of any portion thereof, existing at the time of inclusion in the proposed new school district or proposed to be included in a detachment and annexation to the eligible electors of such new or annexing school district. If the committee so decides, the question shall be submitted at the special school district organization election.

(2) (a) The election shall be held pursuant to the provisions of section 22-30-104. The outstanding bonded indebtedness incurred by more than one school district, or the proportionate shares thereof, may be assumed simultaneously by a new school district under the provisions of this section through the submission of a single ballot, but voting on separate amounts or alternative voting on one ballot shall be prohibited.
(b) If one or more whole school districts have been included in a new school district, the ballot shall contain a statement of the amount or amounts of outstanding bonded indebtedness proposed to be assumed by the new school district.

(c) If only a portion of the territory of an old school district has been included in a new school district, the ballot shall contain a statement of the proportionate share of the outstanding bonded indebtedness incurred by said old school district to be assumed by the new school district as set forth in the plan of organization.

(d) If printed ballots are used, the ballot shall be printed or typewritten and shall contain the words "official ballot", below which shall be set forth the amount of outstanding bonded indebtedness to be assumed, or that a proportional share of such amount is proposed to be assumed, as the case may be, by the new or annexing school district, the name and number of each old school district that incurred said bonded indebtedness, and, if the ballot contains more than one amount to be assumed, the total of such amounts.

(3) If a majority of the eligible electors voting on the proposed question vote for the assumption of the bonded indebtedness, the public officials shall perform the duties set forth in sections 22-42-117 to 22-42-121 that are necessary to assure that the assumed bonded indebtedness is paid in the manner provided by law for the paying of any bonded indebtedness that the new or annexing school district contracts.

Editor's note: This section is similar to former § 22-30-137 as it existed prior to 1992.

22-30-125.5. Authorization of new bonded indebtedness or assumption of existing bonded indebtedness. No new bonded indebtedness shall be authorized and no existing bonded indebtedness shall be assumed unless approved by a majority of votes cast by the eligible electors of the school district that will issue or assume such bonded indebtedness at the same election at which the plan of organization is approved or at a subsequent election.

22-30-126. Limit of bonded indebtedness - new school district. (1) Any new school district organized under this article shall have a limit of bonded indebtedness of the greater of the following:

(a) Twenty percent of the latest valuation for assessment of the taxable property in such school district, as certified by the county assessor to the board of county commissioners; or

(b) Six percent of the most recent determination of the actual value of the taxable property in the school district, as certified by the county assessor to the board of county commissioners.

(2) The indebtedness of the old school districts or parts of school districts constituting the new school districts shall not be considered in fixing the limit of bonded indebtedness; but, if any new school district shall assume the bonded indebtedness of any school district or school districts, or a proportionate share thereof, existing at the time of inclusion in the new school
district, pursuant to the provisions of section 22-30-125, such bonded indebtedness shall be included in the limitation.

Editor's note: This section is similar to former § 22-30-129 as it existed prior to 1992.

22-30-127. New school district - bonded indebtedness. (1) Any new school district organized under the provisions of this article has the power and authority to contract bonded indebtedness in the same manner and under the same procedure for the issuance of bonds as is provided by law for the issuance of such bonds by other school districts.

(2) Any new school district has the power to issue refunding bonds for the purpose of refunding outstanding indebtedness of said new school district in the same manner and procedure as is provided by law for the issuance of such bonds by other school districts.

(3) Any new school district has the power to issue refunding bonds for the purpose of refunding outstanding bonded indebtedness of old school districts, which old school districts have been reorganized or dissolved, and included within said new school district and which indebtedness has been assumed by said new school district pursuant to section 22-30-125. Such refunding bonds shall be issued in the same manner as if the indebtedness being refunded were indebtedness originally contracted by the new school district under the provisions of this article.

(4) Any new school district has the power to issue refunding bonds for the purpose of refunding outstanding bonded indebtedness of old school districts, which old school districts have been reorganized or dissolved, and included within said new school district, and which indebtedness has not been assumed by the new school district, in the same manner as if the indebtedness being refunded were indebtedness originally contracted by the new school district under the provisions of this article, except for the following particulars:

(a) Said bonds shall be designated as refunding bonds of the old school district which contracted the original indebtedness in the first instance. The refunding bonds shall be payable from the same funds which are to be derived from the same source as would have been used to pay the original bonds of the old school district if no refunding thereof had ever occurred.

(b) The covenants and agreements in and relating to such refunding bonds shall be made and entered into by the new school district as successor to the old school district, and all necessary actions shall be taken by the board of education of the new school district as successor to the board of education of the old school district.

(5) Whenever any old school district has been reorganized and parts thereof included within two or more new school districts, and whenever an old school district has been dissolved and parts thereof included in two or more other school districts, under the provisions of this article, and said old school district has outstanding bonded indebtedness, the refunding of such outstanding indebtedness of said former school district shall require affirmative action by a majority of the members of the boards of education of each new school district within which any part of the lands formerly included within said old school district are now included, except as is provided in this article to the contrary.

(6) Any school district from which land has been detached and included within any other school district, by reorganization or any other lawful means, and which school district has
retained its lawful corporate existence subsequent to the detachment of such land from said school district shall be specifically exempted from the requirements and provisions of subsection (5) of this section, and the board of education of said school district from which land has been detached may refund its bonds to which such detached land is subject with or without concurrence or action by the board of education of the school district within which said detached land is then included.

Source: L. 92: Entire article R&RE, p. 513, § 1, effective June 1.

Editor's note: This section is similar to former § 22-30-130 as it existed prior to 1992.

22-30-128. Detachment and annexation of territory - exemptions from school district organization planning process. (1) Notwithstanding the provisions of this article, where territory in a school district has been erroneously included on the property tax rolls of an adjoining school district for at least one year and the error was unintentional, said territory may be detached and annexed to said adjoining school district as provided in this subsection (1) and subsections (2) to (6) of this section, without complying with the school district organization planning process as specified in this article.

(2) (a) The boards of education of the detaching and annexing school districts specified in subsection (1) of this section shall each adopt a resolution agreeing to the detachment and annexation of the territory erroneously included on the annexing school district's property tax rolls. The resolutions shall include a legal description of the territory to be detached and annexed and a legal description of the new boundaries of the school districts following detachment and annexation. The proposed new school district boundaries shall correspond to the legal description of the territory to be detached and annexed.

(b) Following adoption of the resolutions, the boards of education of the school districts shall submit to the commissioner a certified copy of their respective resolutions and a map of the detaching and annexing school districts after the proposed detachment and annexation of territory. The commissioner shall approve the resolutions if the commissioner or his or her designee determines that they comply with the provisions of this section.

(3) (a) After approval of the resolutions by the commissioner, except as otherwise provided in subsection (4) of this section, the board of education of the detaching school district shall call for and establish the date of a special school district organization election wherein the eligible electors who reside within the territory proposed to be detached and annexed shall vote upon the detachment and annexation. The board of education of the detaching school district shall name a designated election official who shall be responsible for conducting the election.

(b) If a special school district organization election is held pursuant to paragraph (a) of this subsection (3) and there is no suitable polling place within the territory to be detached and annexed, the board of education of the detaching school district shall designate one or more polling places beyond the limits of said territory.

(c) If a majority of the eligible electors voting at the special school district organization election held pursuant to paragraph (a) of this subsection (3) vote in favor of the detachment and annexation, or if no eligible electors vote in the election, the territory shall be detached and annexed upon the thirtieth day after the date of the election; except that, if the detaching and annexing school districts and the county assessor have located the territory in the annexing
school district for longer than one tax year since the filing of the plat for a subdivision located within the territory, the detachment and annexation shall be effective as of the date that the approved subdivision plat was accepted for recordation and filed in the county in which the territory is located.

(4) (a) Notwithstanding the provisions of subsection (3) of this section, the detaching school district need not call a special school district organization election if the board of education of the detaching school district submits the resolutions required in paragraph (a) of subsection (2) of this section and certifies to the commissioner that:

(I) Ten or fewer eligible electors reside within the territory to be detached and annexed and that each of these eligible electors has submitted to the board of education of the detaching school district a notarized statement of consent to the proposed detachment and annexation; or

(II) No eligible electors reside within the territory proposed to be detached.

(b) If no election is held as provided in paragraph (a) of this subsection (4), the proposed detachment and annexation of territory shall take effect on the thirtieth day after the commissioner's approval of the resolutions under paragraph (b) of subsection (2) of this section, except as otherwise provided in paragraph (c) of subsection (3) of this section.

(5) After the election, as provided in subsection (3) of this section, or certification, as provided in subsection (4) of this section, the commissioner shall forward to the clerk and recorder of the county in which the election is held and to the county assessor of the county in which the territory is located copies of the resolutions submitted under this section, including the legal descriptions of the school districts after detachment and annexation, and a map of the new boundaries for the school districts.

(6) The assets and liabilities of the school district from which territory was detached pursuant to this section shall be apportioned, distributed, and paid in the manner prescribed in sections 22-30-123 and 22-30-124.

(7) Repealed.

Source: L. 95: Entire section added, p. 603, § 1, effective May 22. L. 96: (1) amended and (7) added, p. 99, § 1, effective March 20; (3) and IP(4)(a) amended, p. 66, § 26, effective July 1.

Editor's note: Subsection (7)(f) provided for the repeal of subsection (7), effective December 31, 1998. (See L. 96, p. 99.)

22-30-129. Dissolution and annexation - exemptions from the school district organization planning process. (1) Notwithstanding any provision of this article 30 to the contrary, a school district board of education and one or more of the contiguous school districts' boards of education may follow the procedures and requirements specified in this section for the dissolution and annexation of the territory of the school district if at least one of the following conditions exist:

(a) The state board, pursuant to the provisions of section 22-11-209, declares the school district is no longer accredited or directs the school district to reorganize;

(b) The school district does not provide within the schools of the school district a full twelve-grade educational program; or

(c) The school district enrolls fewer than fifty students.
(2) The local school board of the school district to be dissolved and annexed shall form an organization planning committee consisting of representation from the local school board of the dissolving school district and the local school boards of each school district that is contiguous to the dissolving school district. The local school board of the dissolving school district shall notify the commissioner when an organization planning committee is created pursuant to this section. Within sixty days after convening, the organization planning committee shall adopt a proposed plan of organization that dissolves the school district and annexes the territory of the school district to one or more of the contiguous school districts.

(3) A plan of organization adopted pursuant to this section must at a minimum address the following issues:
   (a) The educational needs of students in the affected school districts, including the convenience and welfare of students;
   (b) The provision of diverse educational opportunities for students;
   (c) Facility use;
   (d) Establishment of boundaries by legal description for the school districts that annex portions of the dissolving school district pursuant to the plan of organization;
   (e) Equitable distribution of the properties and cash assets of the dissolving school district to the annexing school districts. In considering an equitable distribution of the properties and cash assets of the dissolving school district, the committee shall consider:
      (I) The outstanding general liabilities and obligations of the annexing school districts;
      (II) The number of students attending public school in each annexing school district before and after the dissolution and annexation;
      (III) The valuation for assessment of taxable property in each affected school district;
      (IV) The amount of outstanding bonded indebtedness of each affected school district;
      (V) The purpose for which the bonded indebtedness in each affected school district was incurred; and
      (VI) The value, location, and disposition of all real properties located in the dissolving school district.
   (f) The plan of representation for the members of the local school boards of the annexing school districts; and
   (g) If the dissolving school district has bonded indebtedness obligations or liabilities, designation of each annexing school district as a successor for the purpose of administering payment of the bonded indebtedness obligations of the dissolved school district. The local board of each designated school district has the same powers, rights, duties, and responsibilities of the board of education of the dissolving school district for administering payment of the portions of the outstanding bonded indebtedness obligations and liabilities of the dissolving school district that pertain to the property annexed by the designated school district. The local board of each designated school district shall hold in trust all revenue that accrues from the tax levies to satisfy the obligations and liabilities, and all interest that may accrue to the revenue as a result of investments authorized by law, for the sole purpose of satisfying the bonded indebtedness obligations and liabilities of the dissolving school district.

(4) After the organization planning committee adopts the proposed plan of organization as provided in subsection (2) of this section, the committee shall comply with the requirements of section 22-30-115 concerning filing a copy of the proposed plan of organization with the commissioner and the local school boards of the affected school districts and giving notice of
and holding public hearings on the proposed plan. After the public hearings, the organization planning committee shall comply with the requirements specified in section 22-30-116, and the committee and the commissioner shall work together to develop a final plan of organization that is mutually acceptable to both parties as provided in section 22-30-116. The organization planning committee and the commissioner shall finally adopt the plan of organization within sixty days after the last public hearing held pursuant to this subsection (4) and shall designate the plan as the final plan of organization.

(5) Within sixty days after the final plan of organization is designated, the local school boards of the affected school districts must each adopt the designated final plan of organization by written resolution. If a local school board does not adopt the final plan of organization:
   (a) The planning committee is dissolved, if the final plan of organization involves only two existing school districts or is not approved by the local school boards of at least two of the affected school districts; or
   (b) The planning committee may continue and prepare and submit to the commissioner a new proposed plan of organization involving only those school districts that approve the final plan of organization if the final plan of organization involves three or more existing school districts and is approved by the local school boards of at least two of the affected school districts.

(6) Following approval of the final plan of organization by all of the local school boards of the affected school districts, the county clerk and recorder in each county in which an affected school district is located shall submit to the commissioner a map and legal description of the annexing school districts. The local school boards of the annexing school districts shall make the final plan of organization available for inspection by members of the public upon request.

(7) The dissolution and annexation of a school district is effective for all purposes on the date specified in the final plan of organization; except that, for purposes of determining funding pursuant to the "Public School Finance Act of 1994", article 54 of this title 22, a final plan of organization approved by the affected local school boards pursuant to this section takes effect on the next July 1 following submission of the map and legal description of the annexing school districts to the commissioner pursuant to subsection (6) of this section. The annexing school districts continue as bodies corporate in the same manner as before approval of the organization plan.

(8) If a school district that is dissolved and annexed pursuant to this section has a warrant indebtedness or outstanding liability, other than bonded indebtedness, in excess of the equivalent of one-half mill on the total valuation for assessment of the dissolving school district, then the local school board of a school district that annexes all or any portion of the dissolving school district, after the effective date of the dissolution and annexation and subject to voter approval, may levy a special tax, not to exceed one mill, against the taxable property of the dissolving school district that is annexed by the school district, the revenue from which must be applied to the retirement of the warrant indebtedness or outstanding liabilities of the dissolving school district. When the warrant indebtedness or outstanding liabilities are retired, the annexing school district shall discontinue the levy. The procedures to be followed pursuant to this subsection (8) are the same as provided in this title 22 for retirement of bonded indebtedness.

22-30-201. Joint taxation districts - authorized. (1) (a) A plan of organization in which one or more new school districts are formed within the boundaries of an existing school district may provide that any two or more school districts included in the plan shall comprise a joint taxation district. The boundaries of the original school district shall be the boundaries of the joint taxation district. A joint taxation district formed pursuant to this part 2 shall be a body corporate and a political subdivision of the state.

(b) A joint taxation district may be formed to incur bonded indebtedness for the purposes listed in section 22-42-102 (2)(a) and raise and expend property taxes to retire such bonded indebtedness or to raise and expend additional local property tax revenues in excess of the participating school districts’ total program, pursuant to section 22-54-108 or 22-54-108.5.

(2) (a) A plan of organization that involves a joint taxation district may provide that two or more school districts that result from the reorganization of a single school district may share the valuation for assessment of the taxable property in each school district for the purposes stated in the plan of organization, as limited under paragraph (b) of subsection (1) of this section.

(b) For the purpose of determining the limit of bonded indebtedness pursuant to section 22-42-104 for any school district that is participating in a joint taxation district, a portion of the bonded indebtedness of the joint taxation district, determined pursuant to the apportionment formula in the plan of organization, shall be added to the bonded indebtedness of the school district. The total bonded indebtedness of the joint taxation district, as apportioned among and added to the bonded indebtedness of the participating school districts, shall not cause any of the participating school districts to exceed its limit of bonded indebtedness pursuant to section 22-42-104.

(c) The plan of organization:
   (I) May place a limit on the bonding capacity of the joint taxation district in addition to any other limitation on bonded indebtedness;
   (II) Shall specify whether the joint taxation district shall continue indefinitely or for a specified period of time;
   (III) Shall include a formula for the equitable apportionment of tax revenues from any property tax levied by the joint taxation district;
   (IV) Shall include a formula for apportioning the bonded indebtedness of the joint taxation district for the purposes of section 22-42-104 among the participating school districts;
   (V) Shall provide that the joint taxation district becomes a body corporate at the time the reorganization becomes effective or at some other time as specified in the plan of organization.

22-30-202. Joint taxation board. (1) (a) Any plan of organization that establishes a joint taxation district shall provide for the creation of a joint taxation district board and shall specify the membership of the board and the method of election or appointment and terms of office for members of the board. A joint taxation district board shall consist of not fewer than...
five members, with each participating school district board of education entitled to at least one member on the joint taxation district board.

(b) The joint taxation district board created pursuant to paragraph (a) of this subsection (1) shall have the powers granted to it in the plan of organization as necessary to implement the provisions of this part 2. These powers may include, but are not limited to:

(I) Calling for and certifying elections with regard to bonded indebtedness;

(II) Calling for and certifying elections to raise and expend local property tax revenues in excess of the participating school districts' total program, pursuant to section 22-54-108 or 22-54-108.5;

(III) Any other powers that a school district may have with regard to issuing, paying, or refunding bonded indebtedness of the joint taxation district.

(2) For purposes of calling for and certifying elections with regard to bonded indebtedness, revenue, or spending limits that are under the authority of the joint taxation district board pursuant to the plan of organization, the joint taxation district board shall assume the powers and duties granted by law to a school district or a school district board of education.

ARTICLE 30.5

Charter Schools

PART 1

CHARTER SCHOOLS ACT

22-30.5-101. Short title. This part 1 shall be known and may be cited as the "Charter Schools Act".

22-30.5-102. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) It is the obligation of all Coloradans to provide all children with schools that reflect high expectations and create conditions in all schools where these expectations can be met;

(b) Education reform is in the best interests of the state in order to strengthen the performance of elementary and secondary public school pupils, that the best education decisions are made by those who know the students best and who are responsible for implementing the
decisions, and, therefore, that educators and parents have a right and a responsibility to participate in the education institutions which serve them;

(c) Different pupils learn differently and public school programs should be designed to fit the needs of individual pupils and that there are educators, citizens, and parents in Colorado who are willing and able to offer innovative programs, educational techniques, and environments but who lack a channel through which they can direct their innovative efforts.

(2) The general assembly further finds and declares that this part 1 is enacted for the following purposes:

(a) To improve pupil learning by creating schools with high, rigorous standards for pupil performance;

(b) To increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low-achieving;

(c) To encourage diverse approaches to learning and education and the use of different, innovative, research-based, or proven teaching methods;

(d) To promote the development of longitudinal analysis of student progress, in addition to participation in the Colorado student assessment program, to measure pupil learning and achievement;

(e) To create new employment options and professional opportunities for teachers and principals, including the opportunity to be responsible for the achievement results of students at the school site;

(f) To provide parents and pupils with expanded choices in the types of education opportunities that are available within the public school system;

(g) To encourage parental and community involvement with public schools;

(g.5) To address the formation of research-based charter schools that use programs that are proven to be effective;

(h) To hold charter schools accountable for performance through the "Education Accountability Act of 2009", including but not limited to meeting state, school district, and school targets for the measures used to determine the levels of attainment of the performance indicators;

(i) To provide an avenue for citizens to participate in the educational process and environment;

(j) To provide citizens with multiple avenues by which they can obtain authorization for a charter school.

(3) In authorizing charter schools, it is the intent of the general assembly to create a legitimate avenue for parents, teachers, and community members to implement new and innovative methods of educating children that are proven to be effective and to take responsible risks and create new and innovative, research-based ways of educating all children within the public education system. The general assembly seeks to create an atmosphere in Colorado's public education system where research and development in developing different learning opportunities is actively pursued. As such, the provisions of this part 1 should be interpreted liberally to support the findings and goals of this section and to advance a renewed commitment by the state of Colorado to the mission, goals, and diversity of public education.

amended, p. 752, § 1, effective May 22. **L. 2004:** (2)(c), (2)(d), (2)(e), (2)(g.5), (2)(h), and (3) amended and (2)(i) and (2)(j) added, p. 1569, § 1, effective June 3. **L. 2009:** (2)(h) amended, (SB 09-163), ch. 293, p. 1534, § 25, effective May 21.

**Cross references:** For the "Education Accountability Act of 2009", see article 11 of this title.

**22-30.5-103. Definitions.** As used in this part 1, unless the context otherwise requires:

1) "Alternative administrative unit" means the state charter school institute acting in accordance with section 22-30.5-105.3 as the administrative unit, pursuant to section 22-20-106 (1)(b), for a charter school authorized by a school district, a charter school network authorized and acting as an administrative unit pursuant to section 22-20-106 (1)(b), or a charter school collaborative authorized and acting as an administrative unit pursuant to section 22-20-106 (1)(b).

1.3) "At-risk pupil" means a pupil who, because of physical, emotional, socioeconomic, or cultural factors, is less likely to succeed in a conventional educational environment.

1.5) "Automatic waiver" means the waiver of a state statute or state board rule:
(a) That is included on the list of automatic waivers adopted by rule of the state board;
(b) That is available to each charter school, including an institute charter school, and is valid for the initial, or subsequent renewal, term of the charter contract; and
(c) For which a charter school, including an institute charter school, is not required to submit a statement that specifies the manner in which the charter school intends to comply with the intent of the automatically waived state statute or state board rule.

2) "Charter school" means a public school that enters into a charter contract pursuant to the provisions of this part 1.

3) "Department" means the department of education created pursuant to section 24-1-115, C.R.S.

3.5) "Education management provider" means a nonprofit, not-for-profit, or for-profit entity that contracts with a charter school to provide, manage, or oversee all or substantially all of the educational services provided by the charter school. Education management provider does not include a charter school collaborative established pursuant to part 6 of article 30.5 of this title.

4) "Local board of education" means the school district board of education.

5) "Moratorium" means a school district's official policy of refusing to authorize charter schools and an ongoing pattern or practice of refusing to accept or review charter school applications.

6) "Online pupil" means:
(a) For the 2007-08 budget year, a child who receives educational services predominantly through an online program or online school created pursuant to article 30.7 of this title.
(b) For the 2008-09 budget year, and for each budget year thereafter, a child who receives educational services predominantly through a multi-district online school, as defined in section 22-30.7-102 (9.5), created pursuant to article 30.7 of this title.

(6.5) "Private school" means a primary or secondary educational institution for students in kindergarten through twelfth grade or any portion thereof that may or may not have attained...
nonprofit status, that does not receive state funding through the "Public School Finance Act of 1994", article 54 of this title, and that is supported in whole or in part by tuition payments or private donations.

(6.6) "Pupil enrollment count day" has the same meaning as set forth in section 22-54-103 (10.5).

(6.7) "School food authority" means:
(a) A school district or the state charter school institute;
(a.3) A charter school collaborative formed pursuant to section 22-30.5-603;
(a.5) A board of cooperative services created pursuant to article 5 of this title that elects to operate as a school food authority pursuant to section 22-5-120; or
(b) A district charter school or an institute charter school that:
(I) The commissioner of education or his or her designee provisionally authorizes as a school food authority pursuant to section 22-32-120 (6); or
(II) The department of education authorizes as a school food authority pursuant to section 22-32-120 (5).

(7) "State board" means the state board of education.

Cross references: For the short title ("Student Success Act") in HB 14-1292, see section 1 of chapter 243, Session Laws of Colorado 2014.

22-30.5-104. Charter school - requirements - authority - rules - definitions. (1) A charter school shall be a public, nonsectarian, nonreligious, non-home-based school which operates within a public school district.

(2) (a) A charter school applicant cannot apply to, or enter into a charter contract with, a school district unless a majority of the charter school's pupils, other than online pupils, will reside in the chartering school district or in school districts contiguous thereto.

(b) A charter school shall be a public school of the school district that approves its charter application and enters into a charter contract with the charter school. In accordance with the requirement of section 15 of article IX of the state constitution, the charter school shall be subject to accreditation by the school district's local board of education pursuant to the school district's policy for accrediting the public schools of the school district adopted pursuant to
section 22-11-307 and section 22-32-109 (1)(mm). The charter school shall also be subject to annual review by the department pursuant to section 22-11-210.

(3) (a) A charter school is subject to all federal and state laws and constitutional provisions prohibiting discrimination on the basis of disability, race, creed, color, sex, sexual orientation, gender identity, gender expression, national origin, religion, ancestry, or need for special education services. A charter school is subject to any court-ordered desegregation plan in effect for the chartering school district. Enrollment in a charter school must be open to any child who resides within the school district; except that a charter school is not required to make alterations in the structure of the facility used by the charter school or to make alterations to the arrangement or function of rooms within the facility, except as may be required by state or federal law. Enrollment decisions shall be made in a nondiscriminatory manner specified by the charter school applicant in the charter school application.

(a.5) A charter school may give preference to enrolling children with disabilities, as defined in section 22-20-103. Upon approval of the local board of education, the charter school may develop and implement an enrollment preference plan to increase the enrollment of children with disabilities. In exercising the enrollment preference plan for children with disabilities, a charter school shall ensure compliance with the obligation to provide a free appropriate public education in the least restrictive environment pursuant to the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended. A charter school may allow a parent to voluntarily provide information regarding whether the parent's child has a disability.

(b) As used in this subsection (3):

(I) "Protective hairstyle" includes such hairstyles as braids, locs, twists, tight coils or curls, cornrows, Bantu knots, Afros, and headwraps.

(II) "Race" includes hair texture, hair type, or a protective hairstyle that is commonly or historically associated with race.

(4) (a) A charter school shall be administered and governed by a governing body in a manner agreed to by the charter school applicant and the chartering local board of education. Effective July 1, 2013, each charter school that was initially chartered on or after August 6, 1997, shall organize as a nonprofit corporation pursuant to the "Colorado Nonprofit Corporation Act", articles 121 to 137 of title 7, C.R.S., which shall not affect its status as a public school for any purposes under Colorado law. Notwithstanding organization as a nonprofit corporation, a charter school shall annually complete a governmental audit that complies with the requirements of the department of education.

(b) An entity that holds a charter authorized pursuant to this part 1 may choose to contract with an education management provider, which education management provider may be a for-profit, a nonprofit, or a not-for-profit entity, so long as the charter school maintains a governing board that is independent of the education management provider.

(4.5) (a) In order to clarify the status of charter schools for purposes of tax-exempt financing, a charter school, as a public school, is a governmental entity. Direct leases and financial obligations of a charter school shall not constitute debt or financial obligations of the school district unless the school district specifically assumes such obligations.

(b) (Deleted by amendment, L. 2004, p. 1571, § 3, effective June 3, 2004.)

(5) Except as otherwise provided in sections 22-20-109, 22-32-115, and 22-54-109, a charter school shall not charge tuition.
(6) (a) Pursuant to contract, a charter school may operate free from specified school district policies and free from state rules, as provided in paragraph (b) of this subsection (6). Pursuant to contract, a local board of education may waive locally imposed school district requirements, without seeking approval of the state board; except that a charter school shall not, by contract or otherwise, operate free of the requirements contained in the "Public School Finance Act of 1994", article 54 of this title, the requirements specified in part 4 of article 11 of this title concerning school accountability committees, or the requirements contained in the "Children's Internet Protection Act", article 87 of this title.

(b) The state board shall promulgate rules that list the automatic waivers for all charter schools. In promulgating the list of automatic waivers, the state board shall consider the overall impact and complexity of the requirements specified in the statute and the potential consequences that waiving the statute may have on the practices of a charter school. In accordance with its rule-making authority, the state board may review the list of automatic waivers at its discretion. Notwithstanding any provision of this subsection (6)(b) to the contrary, the state board shall not include the following statutes on the list of automatic waivers:

(I) Section 22-9-106, concerning the performance evaluation system for licensed personnel;
(I.5) Section 22-32-109 (1)(b), concerning procedures for competitive bidding in the purchase of goods and services, except professional services;
(II) Section 22-32-109 (1)(n), concerning the annual school calendar and teacher-pupil contact hours;
(II.5) Section 22-32-110 (1)(y), concerning the power to accept and expend gifts, donations, or grants; and
(III) Part 2 of article 63 of this title 22, concerning the employment of licensed personnel.

c) A school district, on behalf of a charter school, may apply to the state board for a waiver of a state statute or state rule that is not an automatic waiver. Notwithstanding any provision of this subsection (6) to the contrary, the state board may not waive any statute or rule relating to:

(I) School accountability committees as described in section 22-11-401;
(II) The assessments required to be administered pursuant to section 22-7-1006.3;
(III) School performance reports pursuant to part 5 of article 11 of this title;
(IV) The "Public School Finance Act of 1994", article 54 of this title 22;
(V) The "Children's Internet Protection Act", article 87 of this title 22;
(VI) The requirement to post on the internet the statutes for which waivers are granted as provided in section 22-44-305;
(VII) Any provisions of section 22-1-130 relating to notification to parents of alleged criminal conduct by charter school employees;
(VIII) Section 22-33-106.1 concerning suspension and expulsion of students in preschool through second grade; or
(IX) Subsection (3) of this section and sections 22-32-110 (1)(k) and 22-63-206 (1) relating to discrimination based on hair texture, hair type, or a protective hairstyle that is commonly or historically associated with race.

d) Upon request of a charter applicant, the state board and the local board of education of the school district to which the charter applicant applies shall provide summaries of the state
and district rules and policies to use in preparing a charter school application. The department shall prepare the summary of state rules within existing appropriations. A waiver of state rules or local school district regulations made pursuant to this subsection (6) must be for the term of the charter for which the waiver is made; except that a waiver of state statutes or state board rules by the state board is subject to periodic review as provided by state board rule and may be revoked if the waiver is deemed no longer necessary by the state board. A school district that applies to the state board for a waiver on behalf of a charter school is only required to provide a complete copy of the signed charter contract.

(7) (a) A charter school shall be responsible for its own operation including, but not limited to, preparation of a budget, contracting for services, facilities, and personnel matters.

(b) A charter school may negotiate and contract with a school district, the governing body of a state college or university, the state of Colorado, a school food authority, a charter school collaborative, a board of cooperative services, another district charter school, an institute charter school, or any third party for the use of a school building and grounds, the operation and maintenance thereof, and the provision of any service, activity, or undertaking that the charter school is required or chooses to perform in order to carry out the educational program described in its charter contract. Any services for which a charter school contracts with a school district shall be provided by the district at cost. The charter school shall have standing to sue and be sued in its own name for the enforcement of any contract created pursuant to this paragraph (b).

(c) In no event shall a charter school be required to pay rent for space which is deemed available, as negotiated by contract, in school district facilities. All other costs for the operation and maintenance of the facilities used by the charter school shall be subject to negotiation between the charter school and the school district.

(d) A charter school or an institute charter school authorized pursuant to part 5 of this article that is operating in a school district building may purchase the building and the grounds upon which the building is located from the school district, at the school district's discretion, according to terms established by mutual agreement of the parties. If a charter school that has purchased a school building and grounds pursuant to this paragraph (d) vacates the school building and grounds or elects to sell the school building and grounds, the school district that sold the school building and grounds to the charter school pursuant to this paragraph (d) shall have first right of refusal to reacquire and purchase the property at fair market value or in accordance with other terms of repurchase established by mutual agreement of the parties.

(e) Notwithstanding the provisions of paragraphs (b) and (c) of this subsection (7) or the provisions of subsection (7.5) of this section, a school district that has space in district facilities that is unoccupied may sell the facilities or use the facilities for a different purpose and is not required to maintain ownership of the facilities for potential use by a charter school.

(7.5) (a) No later than November 1, 2016, and no later than November 1 each year thereafter, each school district that authorizes a charter school and that has or is expecting to have one or more vacant or underused buildings or vacant or underused land available during the next school year shall prepare a list of the vacant or underused buildings and land and provide the list, upon request, to charter schools authorized by the school district, charter school applicants, and other interested persons. The school district shall also post on its website a notice that the list of underused and vacant buildings and land is available to interested persons upon request. The school district must provide the list within two school days after receiving a request. No later than forty-five days after the school district posts the availability of the list or after
receiving the list, whichever is later, a charter school of the school district or charter applicant may apply to the school district to use the building or the school district land as the location for the charter school. The local board of education shall review each application for use and, in a public meeting held no later than ninety days after the school district posts the availability of the list, approve or disapprove each application for use of the building or school district land. If the local board of education disapproves an application for use, it must explain at the public meeting and provide in writing to the applicant the reasons for disapproval.

(b) For purposes of this subsection (7.5), a building is considered underused if it has unused capacity to accommodate two hundred fifty students or more.

(8) A charter school shall be authorized to offer any educational program, including but not limited to an online program or online school created pursuant to article 30.7 of this title, that may be offered by a school district and that is research-based and has been proven to be effective, unless expressly prohibited by state law.

(9) All decisions regarding the planning, siting, and inspection of charter school facilities shall be made in accordance with section 22-32-124 and as specified by contract with the charter school's chartering school district.

(10) A charter school may apply for authorization as a school food authority pursuant to section 22-32-120.

(11) (a) If a charter school chooses to apply, alone or with a consortium of charter schools, for a grant through a nonformulaic, competitive grant program created by a federal or state statute or program, the charter school or consortium of charter schools is the local education agency only for the purposes of applying and determining eligibility for the grant and may request, pursuant to section 22-30.5-503 (3.5), that the state charter school institute act as a fiscal manager for the charter school or consortium of charter schools for purposes of grant management. The charter school or consortium of charter schools shall pay the fee, if any, imposed by the state charter school institute board as provided in section 22-30.5-503 (3.5).

(b) A charter school that applies for a grant pursuant to this subsection (11) shall provide to its authorizing district:

(I) A copy of the grant application at the time the application is submitted to the grant maker;

(II) Notice that the charter school did or did not receive the grant moneys; and

(III) If the charter school receives the grant moneys, a summary of the grant requirements, a summary of how the charter school is using the grant moneys, and periodic reports on the charter school's progress in meeting the goals of the grant as stated in its application.

(c) If a charter school intends to apply for a grant that the school's authorizing school district is also intending to apply for, the charter school shall seek to collaborate with the school district in the application and to submit the application jointly. If the charter school and the school district are unable to agree to collaborate in applying for the grant, the charter school may apply for the grant pursuant to this subsection (11) independently or in collaboration with other charter schools.

(12) Pursuant to the provisions of section 22-32-110 (1)(jj), a charter school shall not withhold records required for enrollment in another school or institution of higher education or the diploma, transcript, or grades of any student for failure to pay a fine or fee or to return or replace school property.
(13) Each charter school shall annually distribute to each employee informational materials relating to federal student loan repayment programs and student loan forgiveness programs, including updated materials, received from its chartering school board pursuant to section 22-32-109 (1)(pp). In addition to annual distribution, a charter school shall distribute the informational materials to newly hired employees as part of its employee orientation process. The charter school may distribute the informational materials to its employees through an e-mail to employees or as part of a mailing or regular communication to employees.

**Editor's note:** (1) Amendments to subsection (5) by House Bill 94-1001 and Senate Bill 94-215 were harmonized. (2) Amendments to subsection (6)(b) by Senate Bill 09-090 and Senate Bill 09-163 were harmonized.

22-30.5-104.5. Charter school and charter authorizer standards review committee - creation - duties - repeal. (Repealed)

Editor's note: Subsection (4) provided for the repeal of this section, effective August 30, 2011. (See L. 2010, p. 1106.)

22-30.5-104.7. Charter school networks - authority - definitions. (1) As used in this section, unless the context otherwise requires, "charter school network" means a charter school pursuant to this part 1, an institute charter school pursuant to part 5 of this article, or a charter school authorized by the Colorado school for the deaf and the blind, any of which subsequently organizes an additional school or schools pursuant to the same statutory authority. A charter school network is responsible for governance, oversight, and monitoring of compliance and performance for each school, as required by the charter contract or contracts and by applicable state or federal laws.

(2) Notwithstanding any provision of this article to the contrary, a charter school network:

(a) May hold one or more charter contracts through one or more authorizers for purposes of operating more than one school;

(b) May be governed by a single governing body;

(c) May use one or more charter contracts if the charter school network operates more than one school through the same authorizer; except that, if more than one school holding a distinct school code assigned by the department operates under the same contract, the authorizer is:

(I) Obligated to separately accredit each school; and

(II) Legally empowered to not renew, revoke, or otherwise take action with respect to each school without being obligated to take action toward another school operated by the charter school network;

(d) Is authorized to make necessary and appropriate expenditures from any lawful source for central office purposes and to allocate funds among the schools that it operates, as permitted by law and consistent with the terms of the charter contract. A charter school network:
(I) Shall not spend additional local revenues authorized pursuant to sections 22-54-107.5, 22-54-108, and 22-54-108.5 or proceeds from bonded indebtedness incurred pursuant to article 42 of this title that are allocated for a school authorized by one authorizer to support a school authorized by a different authorizer;

(II) Shall account for all additional local revenues authorized pursuant to sections 22-54-107.5, 22-54-108, and 22-54-108.5 or proceeds from bonded indebtedness incurred pursuant to article 42 of this title and their expenditure and shall report the expenditures separately, as needed, to demonstrate that the funds have been expended appropriately;

(III) Commencing July 1, 2015, comply with section 22-44-304 (1)(d) in reporting expenditures at the local education provider and school-site level.

(3) Nothing in this section affects the process for granting or denying a request for a separate or new school code to any one school within a charter school network.

(4) Nothing in this section allows a charter school network to open a school without authorizer consent as part of the application process pursuant to section 22-30.5-107, 22-30.5-510, or 22-80-102 (4)(b).

(5) The authorizer of a school that is part of a charter school network shall collect, analyze, and report data from state assessments in accordance with statute, state board rules, and school district or state charter school institute performance frameworks for each school operated by the charter school network. The charter school network shall report the performance of each school as a separate school, and each school must be held independently accountable for its performance.

(6) Each charter school network shall comply with the audit requirements imposed on charter schools as follows:

(a) The charter school network shall be audited as an organization, treating the charter school network as a single legal entity; except that the authorizing school district for a charter school that is included in the network may request and the network shall provide an audit of the school district's charter school;

(b) The charter school network shall report as supplementary information in its audited financial statements a balance sheet and statement of revenues, expenditures, and changes in fund balances using the modified accrual basis of accounting for each charter school campus that has a separate school code within the charter school network; and

(c) The audit must address compliance with paragraph (d) of subsection (2) of this section.

created and operated by the Colorado school for the deaf and blind pursuant to section 22-80-102 (4)(b).

(b) "Public entity" means a public body, local public body, public corporation, body politic and corporate, political subdivision, public unit, or any other defined term in law in which school districts, including charter schools, are expressly included in or exempt from the public sector in the definition or application of the defined term.

(2) For the purpose of any law, excluding title 1, title 7, and this title 22, that applies to or exempts a public entity or that applies to or exempts a public official:

(a) A charter school has the same public status as a public school that is geographically located in the same school district;
(b) Board directors and school leaders, by virtue of their roles within a public charter school, are deemed public servants; and
(c) A school leader of a charter school has the same or similar authority as a school district superintendent.

(3) A charter school that is operating on May 15, 2023, shall provide the information required for an inventory of local government pursuant to section 24-32-116 to the department of local affairs within ninety days after May 15, 2023. A charter school that begins operating after the effective date of this section shall provide such information to the department of local affairs within ninety days after becoming a charter school as determined pursuant to subsection (7) of this section.

(4) A person who is a director on a charter school board of directors on May 15, 2023, shall take, sign, and file an oath of office pursuant to section 24-12-101 within eighty days after May 15, 2023. A person who becomes a director on a charter school board of directors after May 15, 2023, shall take, sign, and file an oath of office pursuant to section 24-12-101 no later than eighty days after becoming a director on the charter school board of directors.

(5) Notwithstanding any other provision of law and unless otherwise stated in title 7, if there is a conflict between a law that is specifically applicable to charter schools and any provision in articles 30 or 121 through 137 of title 7, and any statute incorporated by reference therein, the law that is specifically applicable to charter schools controls.

(6) Notwithstanding the provisions of subsection (2) of this section, each charter school is subject to the provisions of section 1-45-117 as a political subdivision of the state.

(7) For purposes of any law that is made applicable to charter schools pursuant to this section, a charter school applicant is deemed to have become a charter school on July 1 following the execution of a contract by the applicant.

Cross references: For the legislative declaration in SB 23-287, see section 1 of chapter 189, Session Laws of Colorado 2023.

22-30.5-105. Charter schools - contract contents - regulations. (1) (a) An approved charter application shall serve as the basis for a contract between a charter school and the chartering local board of education.
(b) A local board of education may approve a charter school application submitted by a nonprofit entity and enter into a charter contract directly with the nonprofit entity to operate a charter school. A local board of education shall not approve a charter school application that is submitted by a for-profit entity or that identifies a for-profit entity as one of the charter applicants, and the local board of education shall not enter into a charter contract directly with a for-profit entity to operate a charter school.

(2) (a) The contract between a charter school and the chartering local board of education shall reflect all agreements regarding the release of the charter school from school district policies. Each charter school's contract shall include a statement specifying the manner in which the charter school shall comply with the intent of the state statutes, state board rules, and district rules that are waived for the charter school by application.

(b) Repealed.

(c) A contract between a charter school and the chartering local board of education approved on or after July 1, 2002, shall specify:

(I) If the contract is not a renewal of an expiring contract, the manner in which the school district governed by the local board of education will support any start-up facility needs of the charter school;

(II) The manner in which the school district governed by the local board of education will support any long-term facility needs of the charter school;

(III) The actions that the charter school must take in order to:

(A) Have its capital construction needs included as part of the next ballot question for approval of bonded indebtedness to be submitted by the local board of education of its chartering school district to the voters of the district; or

(B) Have the local board of education submit a ballot question for approval of a special mill levy to finance the capital construction needs of the charter school to the voters of the district pursuant to section 22-30.5-405;

(IV) The financial information, including but not limited to an annual governmental audit, the charter school must report to the chartering school district, the deadline for reporting such information to the chartering school district in order to enable the chartering school district to comply with the requirements specified in this title and in rules promulgated by the state board pertaining to reporting financial information to the department of education, and the circumstances under which the chartering school district may withhold a portion of the charter school's monthly payment as provided in section 22-30.5-112 (8) for failure to comply with financial reporting requirements specified in the contract; and

(V) Whether, and the circumstances under which, the local board of education delegates to the charter school the authority to impose a transportation fee on students who are enrolled in the charter school and, if so, the procedures for imposition of the fee.

(3) A contract between a charter school and the chartering local board of education shall reflect all requests for release of the charter school from state statutes and state board rules that are not automatic waivers and a list of the automatic waivers that the charter school is invoking. Within ten days after the contract is approved by the chartering local board of education, the chartering local board of education shall deliver to the state board any request for waiver of state statutes and state board rules that are not automatic waivers. The chartering local board of education shall request the release by submitting a complete copy of the signed charter contract. Within forty-five days after a request for release is received by the state board, the state board...
shall either grant or deny the request. If the state board grants the request, it may orally notify the chartering local board of education and the charter school of its decision. If the state board denies the request, it shall notify the chartering local board of education and the charter school in writing that the request is denied and specify the reasons for denial. If the chartering local board of education and the charter school do not receive notice of the state board's decision within forty-five days after submittal of the request for release, the request shall be deemed granted. If the state board denies a request for release that includes multiple state statutes or state board rules, the denial shall specify the state statutes and state board rules for which the release is denied, and the denial shall apply only to those state statutes and state board rules so specified.

(4) A material revision of the terms of a charter contract may be made only with the approval of the chartering local board of education and the governing body of the charter school.

(5) A term included in a charter contract that would require a charter school to waive or otherwise forgo receipt of any amount of additional mill levy revenue due to the charter school as provided in section 22-32-108.5 or any amount of operational or capital construction money provided to the charter school pursuant to the provisions of this article 30.5 or pursuant to any other provision of law is hereby declared null and void as against public policy and is unenforceable. In no event shall this subsection (5) be construed to prohibit a charter school from contracting with its chartering local board of education for the purchase of services, including but not limited to the purchase of educational services.

(6) A charter school that provides a half-day kindergarten educational program before the 2019-20 school year and chooses to expand the kindergarten educational program to a full day shall notify the chartering local board of education of the expansion of the kindergarten educational program and of the school year in which the anticipated program expansion takes effect. The charter school and the authorizing local board of education shall amend the charter contract as necessary to allow for the program expansion. If the local board objects to the program expansion, the local board shall provide to the charter school a written explanation of the grounds for its objection. If the charter school and the authorizing local board of education cannot agree on an amendment to the charter contract for the program expansion, the charter school may file a notice with the state board as provided in section 22-30.5-108 to appeal the decision of the local board concerning a unilateral imposition of conditions on the charter school. The state board shall decide the appeal in accordance with the provisions of section 22-30.5-108. Negotiations to amend the charter contract to allow the expansion of the kindergarten educational program shall not include negotiations regarding terms of the charter contract that are not directly impacted by the program expansion and shall not include reauthorization of the charter school.

22-30.5-105.3. Charter schools - alternative administrative units - process. (1) A charter school that is part of a charter school network or a member of a charter school collaborative, which network or collaborative is authorized as an administrative unit pursuant to section 22-20-106, shall notify its authorizing school district of its intent to participate in the administrative unit of the network or collaborative with which the charter school is affiliated. After the department approves the application of a charter school network or collaborative to form an alternative administrative unit pursuant to section 22-20-106, the charter school that is part of the charter school network or collaborative authorized as an administrative unit and its authorizing school district shall amend the charter contract, pursuant to this subsection (1), as necessary to allow the charter school to participate in the alternative administrative unit.

(2) (a) A charter school may enter into an agreement to participate in an existing alternative administrative unit if the charter school:

(I) Demonstrates the capacity and commitment to serve children with disabilities, as defined in section 22-20-103, through an analysis of the charter school's existing record of serving children with disabilities or by expressly submitting a plan to the alternative administrative unit articulating an existing or intended commitment;

(II) Creates a strategic plan for the enrollment of children with disabilities in the charter school to increase educational options for families with children with disabilities;

(III) Has or develops and implements special education programming that results in the continued enrollment of children with disabilities;

(IV) Has or develops and implements multi-tiered systems of support to identify and refer children with disabilities to special education services; and

(V) Demonstrates how the agreement with the alternative administrative unit will allow the charter school to better and more efficiently serve children with disabilities.

(b) A charter school may submit a request to an existing alternative administrative unit to enter into an agreement to participate in the existing alternative administrative unit. An existing alternative administrative unit may enter into an agreement only if the existing alternative administrative unit determines that the charter school meets the criteria set forth in subsection (2)(a) of this section.

(c) A charter school that enters into an agreement to participate in an alternative administrative unit pursuant to subsection (2)(b) of this section shall notify its authorizing school district of the intent to participate in an alternative administrative unit. After the department approves an application for the reorganization of the alternative administrative unit to include the charter school, the charter school and its authorizing school district shall amend the charter contract, pursuant to this section, as necessary to allow the charter school to participate in the alternative administrative unit.

(3) (a) If the authorizing school district objects to amending a charter school's contract to allow participation in an alternative administrative unit pursuant to subsection (1) or (2) of this section, the authorizing school district shall provide to the charter school a written explanation of...
the grounds for its objection. If the department has approved an alternative administrative unit to include the charter school but the charter school and its authorizing school district cannot agree on an amendment to the charter contract for the charter school to participate in the alternative administrative unit, the charter school may file a notice with the state board as provided in section 22-30.5-108 to appeal the decision of its authorizing school district as a unilateral imposition of conditions on the charter school. The state board shall decide the appeal pursuant to section 22-30.5-108.

(b) Negotiations to amend the charter contract to allow the charter school to participate in the alternative administrative unit must not include negotiations regarding terms of the charter contract that are not directly impacted by the charter school's participation in the alternative administrative unit and must not unilaterally reopen the charter school's authorization. The amended contract may include provisions permitting consideration of the charter school's special education performance as part of the overall charter school performance.

(4) (a) A charter school that participates in an alternative administrative unit is not responsible for paying any portion of the special education costs of its authorizing school district.

(b) For a child with disabilities who is enrolled in a charter school that participates in an alternative administrative unit, the alternative administrative unit, for the duration of the child's enrollment in the charter school, is solely legally and fiscally responsible for specialized instruction and related services to provide a free appropriate public education for the child and for dispute resolution pursuant to the "Exceptional Children's Educational Act", article 20 of this title 22, and the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended. Dispute resolution includes, but is not limited to, resolution of state complaints, due process hearings, and investigations by the federal department of education.

(5) A school district shall not require a charter school to participate in an alternative administrative unit as a condition of approval of its application or approval or renewal of its contract with the school district.

22-30.5-106. Charter application - contents. (1) The charter school application is a proposed agreement upon which the charter applicant and the chartering local board of education negotiate a charter contract. At a minimum, each charter school application includes:

(a) An executive summary that outlines the elements of the application and provides an overview of the proposed charter school;

(b) The vision and mission statements of the proposed charter school;

(c) The goals, objectives, and student performance standards the proposed charter school expects to achieve, including but not limited to the performance indicators specified in section 22-11-204 and applicable standards and goals specified in federal law;

(d) Evidence that an adequate number of parents and pupils support the formation of a charter school;

(e) Descriptions of the proposed charter school's educational program, student performance standards, and curriculum;
(f) A plan for evaluating student performance across the curriculum, which plan aligns with the proposed charter school's mission and educational objectives and provides a description of the proposed charter school's measurable annual targets for the measures used to determine the levels of attainment of the performance indicators specified in section 22-11-204, and procedures for taking corrective action if student performance at the school falls below the described targets;

(g) Evidence that the plan for the proposed charter school is economically sound, including a proposed budget for a term of at least five years. The charter application shall also describe the method for obtaining an independent annual audit of the proposed charter school's financial statements consistent with generally accepted auditing standards and circular A-133 of the United States office of management and budget, as originally published in the federal register of June 30, 1997, and as subsequently amended.

(h) A description of the governance and operation of the proposed charter school, including the nature and extent of parental, professional educator, and community involvement in the governance and operation of the proposed charter school, that is consistent with the standards adopted by rule of the state board pursuant to section 22-2-106 (1)(h);

(i) An explanation of the relationship that will exist between the proposed charter school and its employees and the proposed charter school's employment policies or a plan for the timely development of employment policies;

(j) A proposal regarding the parties' respective legal liabilities and applicable insurance coverage, which insurance coverage shall include, at a minimum, workers' compensation, liability insurance, and insurance for the proposed charter school's facility and its contents;

(k) The proposed charter school's expectations and plans for ongoing parent and community involvement;

(l) A description of the proposed charter school's enrollment policy, consistent with the requirements of section 22-30.5-104 (3) and rules adopted by the state board pursuant to section 22-2-106 (1)(h), and the criteria for enrollment decisions;

(m) A statement of whether the proposed charter school plans to address the transportation or food service needs of its students while they are attending the school. The proposed charter school may choose not to provide transportation or food services, may choose to develop or form a charter school collaborative as described in section 22-30.5-603 to provide transportation or food services, or may choose to negotiate with a school district, board of cooperative services, or private provider to provide transportation or food services for its students. If the proposed charter school chooses to provide transportation or food services, the application shall include a plan for each provided service, which plan, at a minimum, shall specifically address serving the needs of low-income students, complying with insurance and liability issues, and complying with any applicable state or federal rules or regulations.

(n) A facilities plan that details viable facilities options that are consistent with section 22-32-124 and the reasonable costs of the facility, which are reflected in the proposed budget;

(o) A list of the waivers of statute, state rule, and school district policies that the proposed charter school is requesting. For each requested waiver of a statute or state rule that is not an automatic waiver, the charter school application must state the rationale for the requested waiver and the manner in which the proposed charter school plans to meet the intent of the waived statute, rule, or policy.
(p) Policies regarding student discipline, expulsion, and suspension that are consistent with the intent and purpose of sections 22-33-106 and 22-33-106.1, provide adequately for the safety of students and staff, and provide a level of due process for students that, at a minimum, complies with the requirements of the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq.;

(q) A plan for serving students with special needs, including budget and staff requirements, which plan shall include identifying and meeting the learning needs of at-risk students, students with disabilities, gifted and talented students, and English language learners;

(r) A dispute resolution process, as provided in section 22-30.5-107.5; and

(s) If the proposed charter school intends to contract with an education management provider:

(I) A summary of the performance data for all of the schools the education management provider is managing at the time of the application or has managed previously, including documentation of academic achievement and school management success;

(II) An explanation of and evidence demonstrating the education management provider's capacity for successful expansion while maintaining quality in the schools it is managing;

(III) An explanation of any existing or potential conflicts of interest between the governing board of the proposed charter school and the education management provider; and

(IV) A copy of the actual or proposed performance contract between the governing board for the proposed charter school and the education management provider that specifies, at a minimum, the following material terms:

(A) Performance evaluation measures;

(B) The methods of contract oversight and enforcement that the governing board will apply;

(C) The compensation structure and all fees that the proposed charter school will pay to the education management provider; and

(D) The conditions for contract renewal and termination.

(2) No person, group, or organization may submit an application to convert a private school or a nonpublic home-based educational program into a charter school or to create a charter school which is a nonpublic home-based educational program as defined in section 22-33-104.5.

(3) A charter applicant is not required to provide personal identifying information concerning any parent, teacher, or prospective pupil prior to the time that the charter contract is approved by both parties and either the charter school actually employs the teacher or the pupil actually enrolls in the charter school, whichever is applicable. A charter school applicant shall provide, upon request of the chartering school district, aggregate information concerning the grade levels and schools in which prospective pupils are enrolled.

22-30.5-107. Charter application - process. (1) (a) A charter applicant cannot apply to, or enter into a charter contract with, a school district unless a majority of the proposed charter school's pupils, other than online pupils, will reside in the chartering school district or in school districts contiguous thereto.

(b) The local board of education shall receive and review all applications for charter schools. If the local board of education does not review a charter application, that charter application is denied. For applications beginning in 2025, a charter applicant must file its application with the local board of education during the period beginning February 1 and ending April 1, eighteen months before the charter school is set to open. An application is considered filed when the school district administration receives the charter application from the charter applicant either in hard copy or electronically. Prior to any change in the application deadline, the local board of education shall notify the department and each charter school applicant in the district of the proposed change by certified letter. The local board of education shall not charge any application fees.

(c) Within fifteen days after receiving a charter school application, the school district shall determine whether the application contains the minimum components specified in section 22-30.5-106 (1) and is therefore complete. If the application is not complete, the school district shall notify the charter applicant within the fifteen-day period and provide a list of the information required to complete the charter application. The charter applicant has fifteen days after the date it receives the notice to provide the required information to the local board of education for review. The local board of education is not required to take action on the charter application if the charter applicant does not provide the required information within the fifteen-day period. The school district may request additional information during the review period and provide reasonable time for the charter applicant to respond. The school district may, but is not required to, accept any additional information the charter applicant provides that the school district does not request. The district accountability committee shall review the complete charter school application at least fifteen days, if possible, before the local board of education takes action on the application.

(d) Any date in this subsection (1) that falls on a weekend, a legal holiday, or a day school is not in session is extended to the next school day.

(1.5) For purposes of reviewing a charter school application, a district accountability committee shall include at least:

(a) One person with a demonstrated knowledge of charter schools, regardless of whether that person resides within the school district; and
(b) One parent or legal guardian of a child enrolled in a charter school in the school district; except that, if there are no charter schools in the school district, the local board of education shall appoint a parent or legal guardian of a child enrolled in the school district.

(2) After giving reasonable public notice, the local board of education shall hold community meetings in the affected areas or the entire school district to obtain information to assist the local board of education in its decision to approve a charter school application. The local board of education shall rule by resolution on the application for a charter school in a public hearing, upon reasonable public notice, no later than June 30. A charter school shall use the school and fiscal year, July 1 to June 30, following the submission of its charter application as a planning year, during which the charter school shall prepare for serving students the next school year. All negotiations between the charter school and the local board of education on the contract shall be concluded by, and all terms of the contract agreed upon, no later than ninety days after the local board of education rules by resolution on the application for a charter school or September 30, whichever date is later.

(2.5) The charter applicant and the local board of education may jointly waive or extend the timelines set forth in this section. As specified in section 22-2-117, the local board of education may apply to the state board of education for a modification or waiver of the timelines set forth in this section. If the state board of education approves the waiver, the local board of education must publish notice of the waiver on the local board of education's website within thirty days after the approval. The new timeline only applies to the applications submitted following the date of the public posting of the waiver.

(3) If a local board of education denies a charter school application, does not review a charter school application, or unilaterally imposes conditions that are unacceptable to the charter applicant, the charter applicant may appeal the decision to the state board pursuant to section 22-30.5-108.

(3.5) Nothing in this part 1 shall prohibit a school district from adopting one or more policies that encourage charter applicants to address specified school district needs.

(4) If a local board of education denies or does not review a charter school application, it shall state its reasons for the denial or refusal to review. Within fifteen days after denying or refusing to review a charter school application, the local board of education shall notify the department of the denial or refusal and the reasons therefor. If a local board of education approves a charter application, it shall send a copy of the approved charter application to the department within fifteen days after approving the charter application.

(5) A school district may unilaterally impose conditions on a charter applicant or on a charter school only through adoption of a resolution of the local board of education of the school district. If a local board adopts a resolution unilaterally imposing conditions on a charter applicant or on a charter school, the resolution shall, at a minimum, state the school district's reasons for imposing the conditions unilaterally, despite the objections of the charter applicant or the charter school. The charter applicant or charter school may appeal the decision of the local board of education to unilaterally impose the conditions by filing the notice of appeal with the state board within thirty days after adoption of the resolution, as provided in section 22-30.5-108 (2)(a).

22-30.5-107.3. Optional charter school application timeline for rural school districts. (1) A school district designated as rural or small rural by the department may either accept charter applications pursuant to section 22-30.5-107 or, upon notice to the department and the public through posting on the school district's website, the school district may accept charter applications pursuant to section 22-30.5-107 with the following modifications:
   (a) The time for submission of a charter application is from June 1 through August 1, or the first weekday after August 1, as long as the school district has a method to receive physical or electronic applications during that time;
   (b) If applicable, the school district shall notify applicants that an application is incomplete no later than August 15 or the first weekday after August 15;
   (c) Review by the school district accountability committee, as described in section 22-30.5-107 (1.5), is permitted but not required;
   (d) The local school board shall rule by resolution on the application no later than October 15 or the first weekday after October 15; and
   (e) The state board shall hear appeals pursuant to section 22-30.5-108 (3)(a) within thirty days after the date a notice of appeal is filed.

Editor's note: Section 3(2) of chapter 110 (HB 23-1025), Session Laws of Colorado 2023, provides that the act adding this section applies to charter applications submitted after December 31, 2023.
(b) Within thirty days after receipt of the written notice described in paragraph (a) of this subsection (2), the charter school and the school district shall agree to use any form of alternative dispute resolution to resolve the dispute, including but not limited to any of the forms described in the "Dispute Resolution Act", part 3 of article 22 of title 13, C.R.S.; except that any form chosen by the parties shall result in final written findings by a neutral third party within one hundred twenty days after receipt of such written notice.

(c) The neutral third party shall apportion all costs reasonably related to the mutually agreed upon dispute resolution process.

(3) (a) A charter school and its chartering school district may agree to be bound by the written findings of the neutral third party resulting from any alternative dispute resolution entered into pursuant to subsection (1) of this section. In such case, such findings shall be final and not subject to appeal.

(b) If the parties do not agree to be bound by such written findings of the neutral third party, the parties may appeal such findings to the state board. A party who wishes to appeal such findings shall provide the state board and the other party with a notice of appeal within thirty days after the release of such findings, and the notice of appeal shall contain a brief description of the grounds for appeal. The state board may consider said written findings or other relevant materials in reaching its decision and may, on its own motion, conduct, after sufficient notice, a de novo review of and hearing on the underlying matter.

(4) The state board shall:

(a) Issue its decision on the written findings of the neutral third party resulting from any alternative dispute resolution entered into pursuant to subsection (1) of this section within sixty days after receipt of the notice of appeal; or

(b) Make its own findings within sixty days after making its own motion for a de novo review and hearing described in paragraph (b) of subsection (3) of this section.

(5) If the state board, after motion by one of the parties and sufficient notice and hearing, finds that either of the parties to an alternative dispute resolution process held pursuant to this section has failed to participate in good faith in such process or has refused to comply with the decision reached after agreeing to be bound by the result of such process, the state board shall resolve the dispute in favor of the aggrieved party.

(6) Any decision by the state board pursuant to this section shall be final and not subject to appeal.

Cross references: For the legislative declaration contained in the 1999 act enacting this section, see section 1 of chapter 302, Session Laws of Colorado 1999.

22-30.5-108. Appeal - standard of review - procedures. (1) Acting pursuant to its supervisory power as provided in section 1 of article IX of the state constitution, the state board, upon receipt of a notice of appeal or upon its own motion, may review decisions of any local board of education concerning the denial of a charter school application, the nonrenewal or revocation of a charter school's charter, or the unilateral imposition of conditions on a charter applicant or a charter school, in accordance with the provisions of this section. Any disputes
arising with regard to governing policy provisions of a charter school's charter contract shall be
resolved as provided in section 22-30.5-107.5. A local board of education's refusal to review a
charter application constitutes a denial of the charter application and is appealable as a denial
pursuant to the provisions of this section.

(2) A charter applicant or any other person who wishes to appeal a decision of a local
board of education concerning the denial of a charter application or the nonrenewal or revocation
of a charter or the unilateral imposition of conditions on a charter applicant or a charter school,
shall provide the state board and the local board of education with a notice of appeal or of
facilitation within thirty days after the local board's decision. The person bringing the appeal
shall limit the grounds of the appeal to the grounds for the denial of a charter application or the
nonrenewal or revocation of a charter, or the unilateral imposition of conditions on a charter
applicant or charter school, whichever is being appealed, specified by the local board of
education. The notice shall include a brief statement of the reasons the appealing person
contends the local board of education's denial of a charter application or nonrenewal or
revocation of a charter, or imposition of conditions on a charter applicant or charter school was
in error.

(2.5) If a district court dismisses a case for lack of jurisdiction and the case involves a
charter application, or the nonrenewal or revocation of a charter, or the unilateral imposition
of conditions on a charter applicant or charter school, the thirty-day period for filing a notice of
appeal or of facilitation described in subsection (2) of this section shall be tolled until the date of
dismissal by the court.

(3) If the notice of appeal, or the motion to review by the state board, relates to a local
board's decision to deny a charter application or to refuse to renew or to revoke a charter or to a
local board's unilateral imposition of conditions that are unacceptable to the charter applicant or
the charter school, the appeal and review process shall be as follows:

(a) Within sixty days after receipt of the notice of appeal or the making of a motion to
review by the state board and after reasonable public notice, the state board shall review the
decision of the local board of education and make its findings. If the state board finds that the
local board's decision was contrary to the best interests of the pupils, school district, or
community, the state board shall remand such decision to the local board of education with
written instructions for reconsideration thereof. Said instructions shall include specific
recommendations concerning the matters requiring reconsideration.

(b) Within thirty days following the remand of a decision to the local board of education
and after reasonable public notice, the local board of education, at a public hearing, shall
reconsider its decision and make a final decision. If the local board of education decides to
approve the charter application or decides not to unilaterally impose the condition, the local
board of education and the charter applicant shall complete the charter contract within ninety
days following the remand of the state board's decision to the local board of education.

(c) Following the remand, if the local board of education's final decision is still to deny a
charter application or to unilaterally impose the condition on a charter applicant or if the local
board of education's final decision is still to refuse to renew or to revoke a charter or to
unilaterally impose conditions unacceptable to the charter school, a second notice of appeal may
be filed with the state board within thirty days following such final decision.

(d) Within thirty days following receipt of the second notice of appeal or the making of a
motion for a second review by the state board and after reasonable public notice, the state board,
at a public hearing, shall determine whether the final decision of the local board of education was contrary to the best interests of the pupils, school district, or community. If such a finding is made, the state board shall remand such final decision to the local board with instructions to approve the charter application, or to renew or reinstate the charter or to approve or disapprove the conditions imposed on the charter applicant or the charter school. The decision of the state board shall be final and not subject to appeal.

(3.5) In lieu of a first appeal to the state board pursuant to paragraph (a) of subsection (3) of this section, the parties may agree to facilitation. Within thirty days after denial of a charter application or nonrenewal or revocation of a charter or unilateral imposition of conditions on a charter applicant or a charter school by the local board of education, the parties may file a notice of facilitation with the state board. The parties may continue in facilitation as long as both parties agree to its continued use. If one party subsequently rejects facilitation, and such rejection is not reconsidered within seven days, the local board of education shall reconsider its denial of a charter application or nonrenewal or revocation of a charter and make a final decision as provided in paragraph (b) of subsection (3) of this section. The charter applicant may file a notice of appeal with the state board as provided in paragraph (c) of subsection (3) of this section within thirty days after a local board of education's final decision to deny a charter application, to refuse to renew or to revoke a charter, or to unilaterally impose conditions on a charter applicant or a charter school.

(5) Nothing in this section shall be construed to alter the requirement that a charter school be a part of the school district that approves its charter application and charter contract and be accountable to the local board of education pursuant to section 22-30.5-104 (2).

Source: L. 93: Entire article added, p. 1056, § 1, effective June 3. L. 94: (3)(a) and IP(4)(a)(I) amended, p. 1341, § 1, effective May 25. L. 96: (2), IP(3), and (3)(c) amended and (3.5) added, p. 754, § 6, effective May 22. L. 97: (3)(a), IP(4)(a)(I), and (5) amended, p. 586, § 17, effective April 30. L. 2002: (1), (2), IP(3), (3)(c), and (3)(d) amended and (2.5) added, p. 1002, § 2, effective June 1. L. 2004: Entire section amended, p. 1578, § 7, effective June 3.

22-30.5-109. Charter schools - reporting - publicizing - limits on enrollment - moratorium prohibited. (1) Each local board of education that approves a charter application and enters into a charter contract with a charter school shall annually report to the department information that the department requests to evaluate the effectiveness of charter schools. The local boards of education shall provide the information on forms provided by the department. The state board shall adopt rules establishing the time lines and procedures for reporting the information required in this subsection (1).

(2) (Deleted by amendment, L. 2004, p. 1580, § 8, effective June 3, 2004.)

(3) It is the intent of the general assembly that greater consideration be given to charter school applications designed to increase the educational opportunities of at-risk pupils, as defined in section 22-30.5-103.

(4) If otherwise qualified, nothing in this part 1 shall be construed to prohibit any institution certified on or before April 1, 1993, as an educational clinic pursuant to former article 27 of this title as it existed prior to August 7, 2006, from applying to become a charter school pursuant to this part 1.
(5) Nothing in this part 1 shall be construed to prevent a school in a school district which is comprised of only one school from applying to become a charter school pursuant to this part 1.

(6) A school district shall not discriminate against a charter school in publicizing the educational options available to students residing within the district through advertising, direct mail, availability of mailing lists, or other informational activities, provided that the charter school pays for its share of such publicity at cost.

(7) A chartering authority may not restrict the number of pupils a charter school may enroll; except that a charter school and its chartering authority may negotiate and agree to limitations on the number of students the charter school may enroll as necessary to:
   (a) Facilitate the academic success of students enrolled in the charter school;
   (b) Facilitate the charter school's ability to achieve the other objectives specified in the charter contract; or
   (c) Ensure that the charter school's student enrollment does not exceed the capacity of the charter school facility or site.

(8) The local board of education of a school district shall not impose a moratorium on the approval of charter applications for charter schools within the school district.

Cross references: For the legislative declaration contained in the 1999 act enacting subsection (6), see section 1 of chapter 302, Session Laws of Colorado 1999.

22-30.5-110. Charter schools - term - renewal of charter - grounds for nonrenewal or revocation. (1) (a) When a local board of education approves a new charter application, the charter is authorized for a period of at least four years. The local board of education and the charter school may renew the charter for successive periods as provided in this section.

   (b) During the term of a charter, the school district shall annually review the charter school's performance. At a minimum, the review includes the charter school's progress in meeting the objectives identified in the plan the charter school is required to implement pursuant to section 22-11-210 and the results of the charter school's most recent annual financial audit. The school district shall provide to the charter school written feedback from the review and shall include the results of the charter school's annual review in the body of evidence that the local board of education takes into account in deciding whether to renew or revoke the charter and that supports the renegotiation of the charter contract.

   (1.3) Each school district shall adopt and revise as necessary procedures and timelines for the charter-renewal process, which procedures and timelines are in conformance with the requirements of this part 1. Each school district shall ensure that each of the charter schools authorized by the district receives a copy of the district's charter renewal procedures and timelines and any revisions to the procedures and timelines.
(1.5) No later than December 1 of the year prior to the year in which the charter expires, the governing body of a charter school shall submit a renewal application to the chartering local board of education. The chartering local board of education shall rule by resolution on the renewal application no later than February 1 of the year in which the charter expires, or by a mutually agreed upon date.

(2) A charter school renewal application submitted to the chartering local board of education shall contain:

(a) A report on the progress of the charter school in achieving the goals, objectives, pupil performance standards, content standards, targets for the measures used to determine the levels of attainment of the performance indicators, and other terms of the charter contract and the results achieved by the charter school's students on the assessments administered through the Colorado student assessment program;

(b) A financial statement that discloses the costs of administration, instruction, and other spending categories for the charter school that is understandable to the general public and that will allow comparison of such costs to other schools or other comparable organizations, in a format required by the state board of education; and

(c) Repealed.

(d) Any information or material resulting from the charter school's annual reviews as described in subsection (1) of this section.

(3) A charter may be revoked or not renewed by the chartering local board of education if it determines that the charter school did any of the following:

(a) Committed a material violation of any of the conditions, standards, or procedures set forth in the charter contract;

(b) Failed to meet or make adequate progress toward achievement of the goals, objectives, content standards, pupil performance standards, targets for the measures used to determine the levels of attainment of the performance indicators, applicable federal requirements, or other terms identified in the charter contract;

(c) Failed to meet generally accepted standards of fiscal management; or

(d) Violated any provision of law from which the charter school was not specifically exempted.

(3.5) If a charter school is required to implement a turnaround plan pursuant to section 22-11-210 (2) for a second consecutive school year, the charter school shall present to its authorizing local board of education, in addition to the turnaround plan, a summary of the changes made by the charter school to improve its performance, the progress made in implementing the changes, and evidence, as requested by the local board of education, that the charter school is making sufficient improvement to attain a higher accreditation category within two school years or sooner. If the local board of education finds that the charter school's evidence of improvement is not sufficient or if the charter school is required to implement a turnaround plan for a third consecutive school year, the local board of education may revoke the school's charter.

(4) (Deleted by amendment, L. 2004, p. 1582, § 9, effective June 3, 2004.)

(4.5) (a) At least fifteen days prior to the date on which a local board of education will consider whether to revoke or renew a charter, the school district shall provide to the local board of education and the charter school a written recommendation, including the reasons supporting the recommendation, concerning whether to revoke or renew the charter.
(b) If a local board of education revokes or does not renew a charter, the board shall state its reasons for the revocation or nonrenewal.

(5) If a local board of education revokes or does not renew a charter, the charter school may appeal the decision pursuant to section 22-30.5-108.

(6) Each school district shall adopt procedures for closing a charter school following revocation or nonrenewal of the charter school's charter. At a minimum, the procedures shall ensure that:

(a) When practicable and in the best interest of the students of the charter school, the charter school continues to operate through the end of the school year. If the school district determines it is necessary to close the charter school prior to the end of the school year, the school district shall work with the charter school to determine an earlier closure date.

(b) The school district works with the parents of the students who are enrolled in the charter school when the charter is revoked or not renewed to ensure that the students are enrolled in schools that meet their educational needs; and

(c) The charter school meets its financial, legal, and reporting obligations during the period that the charter school is concluding operations.

(7) Notwithstanding any provision of this section to the contrary, on and after September 1, 2012, a local board of education shall not renew a charter that is held by a for-profit entity either solely or in cooperation with other entities.

22-30.5-110.3. Nonrenewal or revocation - qualified charter school - exceptions. (1) Notwithstanding the provisions of sections 22-30.5-108 and 22-30.5-110, the provisions of this section shall apply if:

(a) A chartering local board of education determines that the charter of a qualified charter school, as defined in section 22-30.5-408 (1)(c), will be revoked or will not be renewed; and

(b) The qualified charter school has financed capital construction with revenues from bonds issued on behalf of the qualified charter school by the Colorado educational and cultural facilities authority created in section 23-15-104 (1)(a), C.R.S., pursuant to section 22-30.5-407.

(2) (a) If a chartering local board of education makes a determination to revoke or not renew the charter of a qualified charter school and subsection (1) of this section applies, the chartering local board of education shall notify the state treasurer and the commissioner of education immediately upon such determination. Upon receipt of such notice, the commissioner shall suspend the revocation or nonrenewal of the charter until such time as the state treasurer, the commissioner, and the Colorado educational and cultural facilities authority determine, with the chartering local board of education and the qualified charter school, whether an alternative exists to such revocation or nonrenewal of the charter.
(b) A chartering local board of education shall not be required to suspend a revocation or nonrenewal of a charter pursuant to paragraph (a) of this subsection (2) for more than one hundred twenty days after the date that the commissioner of education and the state treasurer received notice of the determination to revoke or not renew the charter pursuant to paragraph (a) of this subsection (2) or sixty days after the action of the state board pursuant to section 22-30.5-108(3)(a), whichever is later.

(3) The state treasurer, commissioner of education, chartering local board of education, charter school, and Colorado educational and cultural facilities authority may pursue the following:
   (a) The conversion of the qualified charter school from a school of the chartering district to an institute charter school;
   (b) The reorganization of the qualified charter school and application to the initial chartering local board of education or the state charter school institute for approval as a charter school with the condition that the newly approved charter school will assume the bond obligations of the former qualified charter school pursuant to section 22-30.5-407; or
   (c) Any other alternative deemed feasible by the state treasurer, the commissioner of education, the Colorado educational and cultural facilities authority, the chartering local board of education, and the qualified charter school.

(4) Nothing in this section shall be construed to prevent the chartering local board of education from revoking or not renewing the charter of a qualified charter school pursuant to section 22-30.5-110.

22-30.5-110.5. Background investigation - charter school employees - information provided to department - definitions. (1) A charter school shall conduct a background investigation of an applicant to whom an offer of employment is extended to determine whether the applicant is suitable to work in an environment with children.
   (2) The background investigation of an applicant, at a minimum, must include:
      (a) An inquiry by the charter school to the department to determine whether the applicant:
         (I) Has had his or her educator license or certification denied, suspended, revoked, or annulled in this state or another state for any reason, including but not limited to a conviction, a plea of not guilty, a plea of nolo contendere, or a deferred sentence for a crime involving unlawful sexual behavior or unlawful behavior involving children;
         (II) Has been dismissed by, or has resigned from, a school district or charter school as a result of any allegation, including but not limited to unlawful sexual behavior or an allegation of a sexual act involving a student who is eighteen years of age or older, regardless of whether the student consented to the sexual act, that was supported by a preponderance of the evidence according to information provided to the department pursuant to section 22-32-109.7 (3) or subsection (7) of this section and confirmed by the department pursuant to section 22-2-119 (1)(b);
      (b) (I) A fingerprint-based criminal history record check and, if necessary, a name-based judicial record check, as described in section 22-30.5-110.7.
The record check shall be designed to determine, at a minimum, whether the applicant has been convicted of, pled nolo contendere or guilty to, or received a deferred sentence or deferred prosecution for:

(A) A felony; or

(B) A misdemeanor crime involving unlawful sexual behavior or unlawful behavior involving children.

(c) Inquiries to the applicant's previous employers to obtain information or recommendations that may be relevant to the applicant's fitness for employment.

(3) Upon request, the department shall provide the charter school with any information the department may have concerning a person who applies for employment with a charter school or a charter school employee.

(4) The charter school shall pay to the department the background investigation fee established pursuant to section 22-2-119 (5) for each applicant who does not hold an educator license issued pursuant to article 60.5 of this title and for whom the charter school requests a background investigation. The charter school may assess the amount of the fee to the applicant.

(5) (a) An applicant's previous employer that provides information to a charter school or makes a recommendation concerning the applicant, whether at the request of the charter school or the applicant, shall be immune from civil liability unless:

(I) The information is false and the previous employer knows the information is false or acts with reckless disregard concerning the veracity of the information; and

(II) The charter school acts upon the information to the detriment of:

(A) The applicant because the charter school refuses to employ the applicant based, in whole or in part, on negative information concerning the applicant later determined to be false; or

(B) The charter school because the charter school employs the applicant based, in whole or in part, on positive information concerning the applicant later determined to be false.

(b) A charter school that relies on information provided by or a recommendation made by a previous employer in making an employment decision shall be immune from civil liability unless the information is false and the charter school knows the information is false or acts with reckless disregard concerning the veracity of the information.

(6) (a) Each charter school shall submit to the department the name, date of birth, and social security number of each person employed by the charter school. The department shall add the information submitted pursuant to this subsection (6) for charter school employees who do not hold an educator license to the database for nonlicensed school employees maintained by the department pursuant to section 22-32-109.8 (11). The department shall add the information submitted pursuant to this subsection (6) for licensed employees to the database maintained by the department for licensed educators.

(b) At the beginning of each semester, each charter school shall notify the department if a nonlicensed employee is no longer employed by the charter school. The department shall purge the employee's information from the database within twelve months after receiving the notice.

(7) (a) If an employee of a charter school is dismissed or resigns as a result of an allegation of unlawful behavior involving a child, including unlawful sexual behavior, that is supported by a preponderance of the evidence, the governing board of the charter school shall notify the department and provide any information requested by the department concerning the circumstances of the dismissal or resignation. The charter school shall also notify the employee...
that information concerning the employee's dismissal or resignation is being forwarded to the department.

(b) If a charter school learns from a source other than the department that a current or past employee of the charter school has been convicted of, pled guilty to, pled nolo contendere to, or has received a deferred sentence or deferred prosecution for a felony or a misdemeanor crime involving unlawful sexual behavior or unlawful behavior involving children, the charter school shall notify the department.

(c) If an employee of a charter school is dismissed or resigns as a result of an allegation of a sexual act involving a student who is eighteen years of age or older, regardless of whether the student consented to the sexual act, that is supported by a preponderance of the evidence, the governing board of the charter school shall notify the department and provide any information requested by the department concerning the circumstances of the dismissal or resignation. The charter school shall also notify the employee that information concerning the employee's dismissal or resignation is being forwarded to the department. A charter school shall not enter into a settlement agreement that would restrict the charter school from sharing any relevant information related to an allegation of a sexual act involving a student who is eighteen years of age or older, regardless of whether the student consented to the sexual act, that is supported by a preponderance of the evidence pertaining to the employee with the department, another school district, or charter school pertaining to the incident upon which the dismissal or resignation is based. This subsection (7)(c) does not authorize a charter school to enter into a settlement agreement that would prohibit the charter school from sharing any other information required by law to be available to the department, another school district, or a charter school.

(8) On or before August 30 each year, the department shall submit a list of all persons employed by each charter school in the state for the preceding school year to the Colorado bureau of investigation. The list shall include each employee's name and date of birth.

(9) Any information received by a charter school pursuant to this section or section 22-30.5-110.7 shall be confidential information and not subject to the provisions of part 2 of article 72 of title 24, C.R.S. A person who releases information obtained pursuant to the provisions of this section or section 22-30.5-110.7 or who makes an unauthorized request for information from the charter school shall be subject to the penalties set forth in section 24-72-206, C.R.S.; except that a person who releases information received from the charter school concerning information contained in the records and reports of child abuse or neglect maintained by the department of human services shall be deemed to have violated section 19-1-307 (4), C.R.S.

(10) For purposes of this section, unless the context otherwise requires:

(a) "Sexual act" means sexual contact, sexual intrusion, or sexual penetration as those terms are defined in section 18-3-401.

(b) "Student" means any person enrolled at the school where the employee is employed at the time of the allegation, but does not include another student.

22-30.5-110.7. Fingerprint-based criminal history record checks - charter school employees - procedures - exceptions - definitions. (1) A person applying for employment with a charter school to whom an offer of employment is extended shall submit to the charter school a complete set of his or her fingerprints taken by a qualified law enforcement agency, an authorized employee of the charter school and notarized, or any third party approved by the Colorado bureau of investigation. At the request of a charter school, a law enforcement agency that has fingerprinting equipment that meets the federal bureau of investigation image quality standards shall take the fingerprints of an applicant pursuant to this section if an approved third-party vendor is not operating within twenty miles of the charter school within the law enforcement agency's jurisdiction. A school employee may use any fingerprinting equipment that meets the federal bureau of investigation image quality standards. If an approved third party takes the person's fingerprints, the fingerprints may be electronically captured using Colorado bureau of investigation-approved livescan equipment. Third-party vendors shall not keep the applicant information for more than thirty days unless requested to do so by the applicant.

(2) On a form provided by the charter school, an applicant to whom an offer of employment is extended shall certify, under penalty of perjury, either:

(a) That he or she has never been convicted of committing any felony or misdemeanor, but not including any misdemeanor traffic offense or traffic infraction; or

(b) That he or she has been convicted of committing a felony or misdemeanor, but not including any misdemeanor traffic offense or traffic infraction. The certification shall specify the felony or misdemeanor for which the applicant was convicted, the date of the conviction, and the court entering the judgment of conviction.

(3) In addition to any other requirements established by law, the submittal of fingerprints pursuant to subsection (1) of this section and of the form pursuant to subsection (2) of this section shall be a prerequisite to the employment of any person in a charter school. A charter school shall not employ a person who has not complied with the provisions of subsections (1) and (2) of this section.

(4) (a) A charter school to which fingerprints are submitted pursuant to subsection (1) of this section shall forward the fingerprints to the Colorado bureau of investigation for the purpose of conducting a state and national fingerprint-based criminal history record check utilizing the records of the Colorado bureau of investigation and the federal bureau of investigation.

(b) When the results of a fingerprint-based criminal history record check of an employee performed pursuant to this subsection (4) reveal a record of arrest without a disposition, the charter school shall require that employee to submit to a name-based judicial record check, as defined in section 22-2-119.3 (6)(d).

(5) (a) A charter school may employ a person in the charter school prior to receiving the results of the person's fingerprint-based criminal history record check or name-based judicial record check; except that:

(I) The charter school may terminate the employment of the person if the results are inconsistent with the information provided by the person in the form submitted pursuant to subsection (2) of this section; and

(II) The charter school shall terminate the person's employment if the results disclose a conviction for an offense described in section 22-32-109.8 (6.5).
(b) The charter school shall notify the proper district attorney of inconsistent results as described in subparagraph (I) of paragraph (a) of this subsection (5) for purposes of action or possible prosecution.

(6) (a) When a charter school finds good cause to believe that a person employed by the charter school has been convicted of a felony or misdemeanor, other than a misdemeanor traffic offense or traffic infraction, subsequent to such employment, the charter school shall require the person to submit to the charter school a complete set of his or her fingerprints taken by a qualified law enforcement agency, an authorized employee of the charter school, or any third party approved by the Colorado bureau of investigation. At the request of the charter school, a law enforcement agency that has fingerprinting equipment that meets the federal bureau of investigation image quality standards shall take the fingerprints of a person pursuant to this section if an approved third-party vendor is not operating within twenty miles of the charter school within the law enforcement agency's jurisdiction. A school employee may use any fingerprinting equipment that meets the federal bureau of investigation image quality standards. If an approved third party takes the person's fingerprints, the fingerprints may be electronically captured using Colorado bureau of investigation-approved livescan equipment. Third-party vendors shall not keep the applicant information for more than thirty days unless requested to do so by the applicant. The employee shall submit his or her fingerprints within twenty days after receipt of written notification from the charter school. The charter school shall forward the employee's fingerprints to the Colorado bureau of investigation for the purpose of conducting a state and national fingerprint-based criminal history record check utilizing the records of the Colorado bureau of investigation and the federal bureau of investigation.

(b) When the results of a fingerprint-based criminal history record check of an employee performed pursuant to subsection (6)(a) of this section reveal a record of arrest without a disposition, the charter school shall require that employee to submit to a name-based judicial record check, as defined in section 22-2-119.3 (6)(d).

(6.5) An employee or an applicant for employment with a charter school is disqualified from employment if the results of a fingerprint-based criminal history record check or name-based judicial record check completed on or after August 10, 2011, disclose a conviction for an offense described in section 22-32-109.8 (6.5). Nothing in this section or in section 22-32-109.8 creates for a person a property right in or entitlement to employment or continued employment with a charter school or impairs a charter school's right to terminate employment for a nondiscriminatory reason.

(7) For purposes of this section, a person is deemed to have been convicted of committing a felony or misdemeanor if the person has been convicted under the laws of any other state, the United States, or any territory subject to the jurisdiction of the United States of an unlawful act that, if committed within this state, would be a felony or misdemeanor.

(8) For purposes of this section:
(a) "Convicted" means a conviction by a jury or by a court and shall also include the forfeiture of any bail, bond, or other security deposited to secure appearance by a person charged with a felony or misdemeanor, the payment of a fine, a plea of guilty, a plea of nolo contendere, and the imposition of a deferred or suspended sentence by the court.
(b) "Position of employment" means any job or position in which a person may be engaged in the service of a charter school for salary or hourly wages, whether full time or part time and whether temporary or permanent.
(9) (a) The employing charter school shall be responsible for costs arising from a fingerprint-based criminal history record check performed by the Colorado bureau of investigation and the federal bureau of investigation pursuant to the provisions of this section. The charter school may collect the costs from the employee or the prospective employee.

(b) The employing charter school shall be responsible for costs arising from a name-based judicial record check performed pursuant to this section. The charter school may collect the costs from the employee or the prospective employee.

(10) Subsections (1) to (4) of this section do not apply to a person who has submitted to a fingerprint-based criminal history record check pursuant to section 22-2-119.3.

Editor's note: Amendments to subsection (6) by HB 19-1166 and HB 19-1186 were harmonized.

Cross references: (1) In 2011, subsection (5) was amended and subsection (6.5) was added by the "Safer Schools Act of 2011". For the short title, see section 1 of chapter 242, Session Laws of Colorado 2011.

(2) For the legislative declaration in HB 19-1186, see section 1 of chapter 94, Session Laws of Colorado 2019.

22-30.5-111. Charter schools - employee options. (1) During the first year that a teacher employed by a school district is employed by a charter school, such teacher shall be considered to be on a one-year leave of absence from the school district. Such leave of absence shall commence on the first day of services for the charter school. Upon the request of the teacher, the one-year leave of absence shall be renewed for up to two additional one-year periods upon the mutual agreement of the teacher and the school district. At the end of three years, the relationship between the teacher and the school district shall be determined by the school district and such district shall provide notice to the teacher of the relationship.

(2) The local board of education shall determine by policy or by negotiated agreement, if one exists, the employment status of school district employees employed by the charter school who seek to return to employment with public schools in the school district.

(3) Employees of a charter school shall be members of the public employees' retirement association. The charter school and the teacher shall contribute the appropriate respective amounts as required by the funds of the association.

(1) (a) (I) Repealed.

(II) On and after July 1, 2023, for purposes of the "Public School Finance Act of 1994", article 54 of this title 22, pupils enrolled in a charter school are included in the pupil enrollment or the online pupil enrollment, whichever is applicable, of the school district that granted its charter. The school district that granted its charter shall report to the department the number of pupils included in the school district's pupil enrollment and the school district's online pupil enrollment that are actually enrolled in each charter school.

(b) The school district shall also identify each charter school that is a qualified charter school as defined in section 22-54-124 (1)(f.6), identify each qualified charter school that will be operating in a school district facility and that does not have ongoing financial obligations incurred to repay the outstanding costs of new construction undertaken for the charter school's benefit, and provide an estimate of the number of pupils expected to be enrolled in each qualified charter school during the budget year following the budget year in which the district makes a report.

(2) (a) (I) As part of the charter school contract, the charter school and the school district shall agree on funding and any services to be provided by the school district to the charter school.

(II) For the 1999-2000 budget year, the charter school and the school district shall begin discussions on the contract using eighty percent of the district per pupil revenues.

(III) (A) For budget year 2000-01 and budget years thereafter, except as otherwise provided in paragraph (a.3) of this subsection (2), each charter school and the chartering school district shall negotiate funding under the contract. The charter school shall receive one hundred percent of the district per pupil revenues for each pupil enrolled in the charter school who is not an online pupil and one hundred percent of the district per pupil online funding for each online pupil enrolled in the charter school; except that the chartering school district may choose to retain the actual amount of the charter school's per pupil share of the central administrative overhead costs for services actually provided to the charter school, up to five percent of the district per pupil revenues for each pupil who is not an online pupil enrolled in the charter school and up to five percent of the district per pupil online funding for each online pupil enrolled in the charter school.

(B) For budget years 2001-02 through 2010-11, the minimum amount of funding specified in sub-subparagraph (A) of this subparagraph (III) shall reflect the one-percent increase in the statewide base per pupil funding for state fiscal years 2001-02 through 2010-11 received by the school district as required by section 17 of article IX of the state constitution.

(a.3) If the authorizing school district enrolls five hundred or fewer students, the charter school shall receive funding in the amount of the greater of one hundred percent of the district per pupil online funding for each online pupil enrolled in the charter school plus one hundred percent of the district per pupil revenues for each pupil who is not an online pupil enrolled in the charter school, minus the actual amount of the charter school's per pupil share of the central administrative overhead costs incurred by the school district, based on audited figures, or eighty-five percent of the district per pupil revenues for each pupil enrolled in the charter school who is not an online pupil plus eighty-five percent of the district per pupil online funding for each online pupil enrolled in the charter school.
(a.4) (I) Within ninety days after the end of each fiscal year, each school district shall provide to each charter school within its district an itemized accounting of all its central administrative overhead costs. If the itemized accounting includes services provided to the charter school by school district personnel, the itemized accounting, at the charter school's request, must include a list of the personnel positions and services provided by persons in each position. The actual central administrative overhead costs are the amount charged to the charter school. Any difference, within the limitations of subparagraph (III) of paragraph (a) of this subsection (2) and paragraph (a.3) of this subsection (2), between the amount initially charged to the charter school and the actual cost must be reconciled and paid to the owed party.

(II) Within ninety days after the end of each fiscal year, each school district shall provide to each charter school within its district an itemized accounting of all the actual costs of district services the charter school chose at its discretion to purchase from the district calculated in accordance with paragraph (b) of this subsection (2). If the itemized accounting includes services purchased by the charter school that were provided by school district personnel, the itemized accounting, at the charter school's request, must include a list of the personnel positions and services provided by persons in each position. Any difference between the amount initially charged to the charter school and the actual cost shall be reconciled and paid to the owed party.

(III) If either party disputes an itemized accounting provided pursuant to subparagraphs (I) and (II) of this paragraph (a.4), any charges included in an accounting, or charges to either party, that party is entitled to request a third-party review at the requesting party's expense. The review shall be conducted by the department, and the department's determination shall be final.

(a.5) As used in this subsection (2):

(I) "Central administrative overhead costs" means indirect costs incurred in providing:
(A) Services listed under the heading of support services - general administration in the school district chart of accounts as specified by rule of the state board; and
(B) Salaries and benefits for administrative job classifications listed under the headings of support services - business and support services - central in the school district chart of accounts as specified by rule of the state board.

(II) "District per pupil revenues" means the district's total program as defined in section 22-54-103 (6) for any budget year divided by the district's funded pupil count as defined in section 22-54-103 (7) for said budget year.

(II.5) "District per pupil online funding" means a school district's online funding, as specified in section 22-54-104 (4.5), divided by the district's online pupil enrollment for any budget year.

(III) (Deleted by amendment, L. 2010, (HB 10-1013), ch. 399, p. 1913, § 38, effective June 10, 2010.)

(a.7) For the 2000-01 budget year through the 2008-09 budget year, each charter school shall annually allocate the minimum per pupil dollar amount specified in section 22-54-105 (2)(b), multiplied by the number of students enrolled in the charter school who are not students enrolled in an online program or an online school, as defined in sections 22-30.7-102 (9) and 22-30.7-102 (9.5), to a fund created by the charter school for capital reserve purposes, as set forth in section 22-45-103 (1)(c) and (1)(e), or solely for the management of risk-related activities, as identified in section 24-10-115, C.R.S., and article 13 of title 29, C.R.S., or among such allowable funds. Said moneys shall be used for the purposes set forth in section 22-45-103 (1)(c) and (1)(e) and may not be expended by the charter school for any other purpose. Any
moneys remaining in the fund that have not been expended prior to the 2009-10 budget year shall be budgeted for the purposes set forth in section 22-45-103 (1)(c) and (1)(e) in the 2009-10 budget year or any budget year thereafter.

(a.8) (I) For the 2000-01 budget year and budget years thereafter, the school district shall provide federally required educational services to students enrolled in charter schools on the same basis as such services are provided to students enrolled in other public schools of the school district. Each charter school shall pay an amount equal to the per pupil cost incurred by the school district in providing federally required educational services, multiplied by the number of students enrolled in the charter school. At either party's request, however, the charter school and the school district may negotiate and include in the charter contract alternate arrangements for the provision of and payment for federally required educational services.

(II) Notwithstanding any provision of subparagraph (I) of this paragraph (a.8) to the contrary, the school district shall calculate the per pupil cost of providing federally required educational services after subtracting the amount received in federal and state moneys for providing said services.

(III) As used in this subsection (2)(a.8), "federally required educational services" means services that a local educational agency is required to provide to certain students by federal law and that the school district makes available to students in the charter school if and when needed. "Federally required educational services" does not include services not made available to the charter school.

(a.9) For budget year 2002-03 and budget years thereafter, and in accordance with section 22-30.5-406, the funding provided by a chartering school district to a charter school pursuant to this subsection (2) shall be reduced by the amount of any direct payments of principal and interest due on bonds issued on behalf of a charter school by a governmental entity other than a school district for the purpose of financing charter school capital construction that were made by the state treasurer or the chartering school district on behalf of the charter school.

(b) The charter school, at its discretion, may contract with the school district for the direct purchase of district services in addition to those included in central administrative overhead costs, including but not limited to food services, custodial services, maintenance, curriculum, media services, and libraries. The amount to be paid by a charter school in purchasing any district service pursuant to this paragraph (b) shall be determined by dividing the cost of providing the service for the entire school district, as specified in the school district's budget, by the number of students enrolled in the school district and multiplying said amount by the number of students enrolled in the charter school.

(b.5) (I) The charter school and the school district shall negotiate prior to the beginning of each fiscal year for the payment to the school district of any direct costs incurred by the school district. If the charter school and the school district do not reach agreement regarding the payment of direct costs, the school district shall be barred from withholding from the charter school any moneys as reimbursement for direct costs. The school district shall provide an itemized accounting to each charter school for the direct costs incurred by the school district with the itemized accounting provided pursuant to paragraph (a.4) of this subsection (2).

(II) For purposes of this paragraph (b.5), "direct costs" means the direct costs incurred by a school district solely for the purpose of reviewing charter applications, negotiating the charter contract, and providing direct oversight to charter schools. "Direct costs" shall not
include the school district's legal or other costs attributable to litigation or the resolution of a dispute with a charter school.

(c) (I) (Deleted by amendment, L. 2010, (HB 10-1013), ch. 399, p. 1913, § 38, effective June 10, 2010.)

(II) For budget year 2000-01 and budget years thereafter, the amount of funding received by a charter school pursuant to this subsection (2) shall not be less than one hundred percent of the chartering school district's district per pupil revenues, minus up to five percent as provided in subparagraph (III) of paragraph (a) of this subsection (2), multiplied by the number of pupils enrolled in the charter school or as otherwise provided in paragraph (a.3) of this subsection (2) for any charter school chartered by a school district that enrolls five hundred or fewer students.

(III) For purposes of calculating a charter school's funding pursuant to this subsection (2):

(A) If the charter school operates a full-day kindergarten educational program, the pupils enrolled in the program are counted as full-day pupils; except that a student enrolled as less than a full-time pupil is counted in accordance with rules promulgated by the state board; and

(B) If the charter school operates a half-day kindergarten educational program, the pupils enrolled in the program are counted as half-day pupils and the number of pupils enrolled in the charter school must include the supplemental kindergarten enrollment as defined in section 22-54-103 (15).

(d) (Deleted by amendment, L. 2004, p. 1583, § 10, effective June 3, 2004.)

(e) (I) Fees collected from students enrolled at a charter school shall be retained by such charter school.

(II) (A) A charter school shall not charge the parent of a child enrolled in a kindergarten educational program tuition to attend any portion of the program and shall not charge the parent fees for the child to attend the program other than fees that are routinely charged to the parents of students enrolled in other grades and are applicable to the kindergarten educational program.

(B) Notwithstanding the provisions of subsection (2)(e)(II)(A) of this section to the contrary, if the general assembly amends the "Public School Finance Act of 1994", article 54 of this title 22, to count a student enrolled in kindergarten only as a half-day pupil, with or without the addition of supplemental kindergarten enrollment as defined in section 22-54-103 (15) for purposes of calculating the funded pupil count as defined in section 22-54-103 (7), a charter school may charge the student's parents tuition or a fee for the portion of the school day for which it does not receive funding for the student pursuant to the "Public School Finance Act of 1994"; except that the amount of tuition or fee charged shall not exceed the amount of tuition or fee that the charter school charged to attend a full-day kindergarten educational program for the 2018-19 budget year, adjusted for inflation and prorated by the percentage of the school day for which the student is no longer funded by the "Public School Finance Act of 1994". As used in this subsection (2)(e)(II)(B), "inflation" means the annual percentage change in the United States department of labor bureau of labor statistics consumer price index for Denver-Aurora-Lakewood for all items paid by all urban consumers, or its applicable successor index.

(3) (a) (I) For the 1999-2000 budget year, notwithstanding subsection (2) of this section, the proportionate share of state and federal resources generated by students with disabilities or staff serving them shall be directed to charter schools enrolling such students by their school districts or administrative units. The proportionate share of moneys generated under other federal...
or state categorical aid programs shall be directed to charter schools serving students eligible for such aid.

(II) For budget year 2000-01 and budget years thereafter, if the charter school and the school district have negotiated to allow the charter school to provide federally required educational services pursuant to paragraph (a.8) of subsection (2) of this section, the proportionate share of state and federal resources generated by students receiving such federally required educational services or staff serving them shall be directed by the school district or administrative unit to the charter school enrolling such students.

(III) For budget year 2000-01 and budget years thereafter, the proportionate share of moneys generated under federal or state categorical aid programs, other than federally required educational services, shall be directed to charter schools serving students eligible for such aid; except that a school district that receives small attendance center aid pursuant to section 22-54-122 for a small attendance center that is a charter school shall forward the entire amount of such aid to the charter school for which it was received.

(IV) The school district shall distribute to each charter school on a per-pupil basis any state or federal money that is not otherwise addressed in subsection (2) of this section or in this subsection (3) and that the school district receives based on a per pupil calculation if the calculation includes pupils enrolled in the charter school.

(a.5) Each charter school that serves students who may be eligible to receive services provided through federal aid programs shall comply with all federal reporting requirements to receive the federal aid.

(b) If a student with a disability attends a charter school, the school district of residence shall be responsible for paying any tuition charge for the excess costs incurred in educating the child in accordance with the provisions of section 22-20-109 (5).

(c) Within ninety days after the end of each budget year, each school district shall provide to each charter school of the school district an itemized accounting of all the actual special education costs that the school district incurred for the applicable budget year and the basis of any per pupil charges for special education that the school district imposed against the charter school for the applicable budget year. If the itemized accounting includes services provided to the charter school by school district personnel, the itemized accounting, at the charter school's request, must include a list of the personnel positions and services provided by persons in each position.

(4) The governing body of a charter school is authorized to accept gifts, donations, or grants of any kind made to the charter school and to expend or use said gifts, donations, or grants in accordance with the conditions prescribed by the donor; however, no gift, donation, or grant shall be accepted by the governing body if subject to any condition contrary to law or contrary to the terms of the contract between the charter school and the local board of education.

(4.5) Except as provided in section 22-30.5-112.3 (2)(b), any moneys received by a charter school from any source and remaining in the charter school's accounts at the end of any budget year shall remain in the charter school's accounts for use by the charter school during subsequent budget years and shall not revert to the school district or to the state.

(7) A charter school shall comply with all of the state financial and budget rules, regulations, and financial reporting requirements with which the chartering school district is
required to comply, including but not limited to annual completion of a governmental audit that complies with the requirements of the department.

(8) (a) Notwithstanding any provision of this section to the contrary, a chartering school district, under the circumstances specified in the contract between the school district and the charter school pursuant to section 22-30.5-105 (2)(c)(IV), may withhold a portion of a charter school's monthly payment due pursuant to this section.

(b) The chartering school district may withhold a portion of the payment due to the charter school only until such time as the charter school complies with the financial reporting requirements.

(9) (a) If a charter school determines that its chartering school district has not forwarded to the charter school the amount due to the charter school in accordance with the terms of the charter contract and the provisions of this section, the charter school may seek a determination from the state board regarding whether the chartering school district improperly withheld any portion of the amount due to the charter school. A charter school that chooses to request a determination pursuant to this subsection (9) of issues arising on or after July 1, 2004, shall submit the request within the next fiscal year following the fiscal year in which the chartering school district may have improperly withheld funding; except that, if the charter contract requires the charter school to complete any requirements prior to seeking a determination from the department pursuant to this subsection (9), the charter school shall submit the request no later than the end of the next fiscal year following the fiscal year in which the charter school completes said requirements.

(b) Upon receipt from a charter school of a request for a determination of whether the chartering school district has improperly withheld any portion of the amount due to the charter school, the state board shall direct the department to review the terms of the charter contract and the financial information of the charter school and the chartering school district and make a recommendation to the state board regarding whether the chartering school district improperly withheld any portion of the amount due to the charter school. The department shall request from the chartering school district and the charter school all information necessary to make the recommendation, including but not limited to audited financial data. The chartering school district and the charter school shall provide the requested information as soon as possible following the request, but in no event later than thirty days after completion of the annual financial audit. The department shall forward its recommendation to the state board within sixty days after receiving all of the requested information from the chartering school district and the charter school.

(c) At the next state board meeting following receipt of the recommendation of the department pursuant to paragraph (b) of this subsection (9), the state board shall issue its decision regarding whether the chartering school district improperly withheld any portion of the amount due to the charter school. If the state board finds that the chartering school district improperly withheld any portion of the amount due to the charter school, the chartering school district shall pay to the charter school, within thirty days after issuance of the decision, the amount improperly withheld. In addition, the chartering school district shall pay the costs incurred by the department in reviewing the necessary information to make its recommendation. If the state board finds that the chartering school district did not improperly withhold any portion of the amount due to the charter school, the charter school shall pay the costs incurred by the department in reviewing the necessary information to make its recommendation.
(d) If the chartering school district fails within the thirty-day period to pay the full amount that was improperly withheld, the charter school may notify the department, and the department shall withhold from the chartering school district's state equalization payment the unpaid portion of the amount improperly withheld by the chartering school district from the charter school and pay the unpaid portion directly to the charter school.

(10) (a) If a charter school determines that a school district has not paid the tuition charge for the excess costs incurred in educating a child with a disability as required in section 22-20-109 (5), the charter school may seek a determination from the state board in accordance with the provisions of subsection (9) of this section.

(b) If the state board determines that the school district has improperly withheld moneys due to the charter school, the school district, within thirty days after the state board's determination, shall pay to the charter school the amount improperly withheld. In addition, the school district shall pay the costs incurred by the department in reviewing the necessary information to make its recommendation. If the school district fails, within the thirty-day period, to pay the full amount that was improperly withheld, the charter school shall notify the department, and the department shall withhold from the school district's state equalization payment the unpaid portion of the amount improperly withheld by the district and pay the unpaid portion directly to the charter school.

(c) If the state board finds that the school district did not improperly withhold any portion of the amount due to the charter school, the charter school shall pay the costs incurred by the department in reviewing the necessary information to make its recommendation.

(11) (a) Notwithstanding any provision of this section to the contrary, a district charter school that converts from an institute charter school pursuant to section 22-30.5-504 (10) continues to receive, as calculated pursuant to section 22-30.5-513, the accounting district's adjusted per pupil revenues and at-risk supplemental aid as the funding applied to the converted school before the conversion; except that this subsection (11) does not apply if the converted school is authorized by a small rural school district, as described in section 22-54-108 (3)(b)(IV).

(b) Repealed.

Editor's note: (1) Amendments to subsection (2)(a)(III) by Senate Bill 01-129 and House Bill 01-1232 were harmonized. Amendments to subsection (2)(a)(III)(A) by House Bill 04-1141 and House Bill 04-1362 were harmonized.

(2) Subsection (5) was amended in House Bill 04-1362, effective July 1, 2004. However, those amendments will not take effect due to the repeal of subsection (5) by House Bill 04-1141, effective June 3, 2004.

(3) Subsection (1)(a)(I)(B) provided for the repeal of subsection (1)(a)(I), effective July 1, 2023. (See L. 2022, p. 776.)

22-30.5-112.1. Charter schools - exclusive jurisdiction districts - authorized on or after July 1, 2004 - financing - definitions. (1) As used in this section, unless the context otherwise requires:

(a) (I) "Adjusted district per pupil revenues" means the greater of:

(A) The qualifying school district's per pupil funding plus the qualifying school district's at-risk per pupil funding plus the qualifying school district's English language learner per pupil funding; or

(B) Minimum per pupil funding as calculated pursuant to section 22-54-104 (3.5)(d).

(II) Notwithstanding any provision of subparagraph (I) of this paragraph (a) to the contrary, in a budget year in which a qualifying school district receives minimum per pupil funding as calculated pursuant to section 22-54-104 (3.5)(d), "adjusted district per pupil revenues" means minimum per pupil funding as calculated pursuant to section 22-54-104 (3.5)(d).

(b) "At-risk funding" means the amount of funding determined in accordance with the formulas described in section 22-54-104 (4).

(c) "At-risk per pupil funding" means the amount of funding determined in accordance with the following formula:

[Note: The text continues with the definitions and explanations for the terms as per the statute.]
(The qualifying school district's at-risk funding divided by the qualifying school district's funded pupil count) x (the district charter school's percentage of at-risk pupils divided by the qualifying school district's percentage of at-risk pupils)

(d) "At-risk pupils" shall have the same meaning as provided in section 22-54-103 (1.5).
(e) "Central administrative overhead costs" shall have the same meaning as provided in section 22-30.5-112 (2)(a.5)(I).
(f) "District charter school" means a charter school for which the charter application is approved on or after July 1, 2004, by a qualifying school district.
(g) "District funded pupil count" shall have the same meaning as provided in section 22-54-103 (7).
(h) "District per pupil funding" means a qualifying school district's per pupil funding as determined in accordance with the formula described in section 22-54-104 (3).
(i) "District per pupil online funding" means a school district's online funding, as specified in section 22-54-104 (4.5), divided by the district's online pupil enrollment for any budget year.
(j) "District per pupil revenues" means the qualifying school district's total program, as defined in section 22-54-103 (6), for any budget year divided by the qualifying school district's funded pupil count for said budget year.
(j.2) "English language learner funding" means the amount of funding determined in accordance with the formula described in section 22-54-104 (4.3).
(j.4) "English language learner per pupil funding" means the amount of funding determined in accordance with the following formula:

(The qualifying school district's English language learner funding divided by the qualifying school district's funded pupil count) x (the district charter school's percentage of English language learner pupils divided by the qualifying school district's percentage of English language learner pupils)

(j.6) "English language learner pupils" has the same meaning as provided in section 22-54-103 (6.5).
(k) "Online pupil enrollment" means:
(I) Repealed.
(II) For the 2008-09 budget year, and for budget years thereafter, the number of pupils, on the pupil enrollment count day within the applicable budget year, enrolled in, attending, and actively participating in a multi-district online school, as defined in section 22-30.7-102 (6), created pursuant to article 30.7 of this title, by the district charter school.
(l) "Pupil enrollment" shall have the same meaning as provided in section 22-54-103 (10).
(m) "Qualifying school district" means a school district:
(I) That has retained exclusive authority to authorize charter schools pursuant to the provisions of section 22-30.5-504; and
(II) In which more than forty percent of the pupil enrollment consists of at-risk pupils.
(2) Notwithstanding the provisions of section 22-30.5-112 (2)(a) to (2)(a.5), (2)(b), (2)(b.5), and (2)(c), the amount of funding to be received by a district charter school, the accounting of central administrative overhead costs between a district charter school and a
qualifying school district, and the direct purchase of district services by a district charter school from a qualifying school district shall be determined pursuant to the provisions of this section.

(3) (a) For budget year 2004-05 and budget years thereafter, each district charter school and the qualifying school district that approved the charter shall negotiate funding under the charter contract. The district charter school shall receive one hundred percent of the adjusted district per pupil revenues for each pupil enrolled in the district charter school who is not an online pupil and one hundred percent of the district per pupil online funding for each online pupil enrolled in the district charter school; except that the qualifying school district may choose to retain the sum of the actual amount of the district charter school's per pupil share of the central administrative overhead costs for services actually provided to the district charter school, up to five percent of the adjusted district per pupil revenues for each pupil who is not an online pupil enrolled in the district charter school and up to five percent of the district per pupil online funding for each online pupil enrolled in the district charter school.

(b) Notwithstanding any provision of this subsection (3) to the contrary, if a qualifying school district enrolls five hundred or fewer students, the district charter school shall receive funding in the amount of the greater of one hundred percent of the district per pupil online funding for each online pupil enrolled in the district charter school plus one hundred percent of the district per pupil revenues for each pupil who is not an online pupil enrolled in the district charter school, minus the actual amount of the district charter school's per pupil share of the central administrative overhead costs incurred by the qualifying school district, based on audited figures, or eighty-five percent of the district per pupil revenues for each pupil enrolled in the district charter school who is not an online pupil plus eighty-five percent of the district per pupil online funding for each online pupil enrolled in the district charter school.

(c) For purposes of calculating a charter school's funding pursuant to this subsection (3):

(I) If the charter school operates a full-day kindergarten educational program, the pupils enrolled in the program are counted as full-day pupils; except that a student enrolled as less than a full-time pupil is counted in accordance with rules promulgated by the state board; and

(II) If the charter school operates a half-day kindergarten educational program, the pupils enrolled in the program are counted as half-day pupils and the number of pupils enrolled in the charter school must include the supplemental kindergarten enrollment as defined in section 22-54-103 (15).

(4) Within ninety days after the end of each fiscal year, each qualifying school district shall provide to each district charter school authorized by the qualifying school district an itemized accounting of all its central administrative overhead costs. The actual central administrative overhead costs shall be the amount charged to the district charter school. Any difference, within the limitations specified in subsection (3) of this section, between the amount initially charged to the district charter school and the actual cost shall be reconciled and paid to the owed party.

(5) The district charter school, at its discretion, may contract with the qualifying school district for the direct purchase of district services in addition to those included in central administrative overhead costs, including but not limited to food services, custodial services, maintenance, curriculum, media services, and libraries. The amount to be paid by a district charter school in purchasing any district service pursuant to this subsection (5) shall be determined through an agreement between the district charter school and the qualifying school district using one of the following methods:
(a) By dividing the cost of providing the service for the entire qualifying school district, as specified in the qualifying school district's budget, by the number of students enrolled in the qualifying school district and multiplying said amount by the number of students enrolled in the district charter school;
(b) By determining the actual costs incurred by the qualifying school district in providing support services; or
(c) By negotiating a services agreement between the district charter school and the qualifying school district pursuant to which multiple services are provided for a fixed cost.
(6) Notwithstanding any other provision of this section to the contrary and for the purposes of this section only, a school district in which more than forty percent of the pupil enrollment consists of at-risk pupils at the time a charter school's application is first approved shall be deemed to have the same percentage of at-risk pupil enrollment for the term of the charter contract. For purposes of renewal of the charter contract, the percentage of at-risk pupils in the school district at the time the renewal application is submitted shall be the percentage used for purposes of determining whether the school district is a qualifying school district and subject to the provisions of this section.
(7) (a) Notwithstanding any provision of this section to the contrary, a district charter school that converts from an institute charter school pursuant to section 22-30.5-504 (10) continues to receive, as calculated pursuant to section 22-30.5-513, the accounting district's adjusted per pupil revenues and at-risk supplemental aid as the funding applied to the converted school before the conversion; except that this subsection (7) does not apply if the converted school is authorized by a small rural school district, as described in section 22-54-108 (3)(b)(IV).
(b) Repealed.

Editor's note: Amendments to subsection (1)(k)(II) by House Bill 12-1090 and House Bill 12-1240 were harmonized.

22-30.5-112.2. Charter schools - at-risk supplemental aid - definitions - legislative declaration. (1) As used in this section, unless the context otherwise requires:
(a) "Adjusted district per pupil revenues" has the same meaning as defined in section 22-30.5-112.1 (1)(a).
(b) "ASCENT program" means the accelerating students through concurrent enrollment program created in section 22-35-108.
(c) "At-risk pupils" has the same meaning as defined in section 22-54-103 (1.5).
(d) "District per pupil revenues" has the same meaning as defined in section 22-30.5-112 (2)(a.5)(II).

(e) "Qualifying school district" has the same meaning as defined in section 22-30.5-112.1.

(f) "TREP program" means the teacher recruitment education and preparation program created in section 22-35-108.5.

(2) (a) For the 2012-13 budget year and each budget year thereafter, the general assembly shall appropriate to the department of education for allocation to school districts the amount calculated for at-risk supplemental aid for those school districts and district charter schools described in paragraph (b) of this subsection (2). The at-risk supplemental aid is additional funding and does not supplant any other funding provided pursuant to this article.

(b) (I) Each qualifying school district must receive at-risk supplemental aid if the percentage of at-risk pupils in a district charter school authorized by the qualifying school district prior to July 1, 2004, is less than the percentage of at-risk pupils in the qualifying school district. The amount of the school district's at-risk supplemental aid is equal to the difference between one hundred percent of district per pupil revenues and one hundred percent of adjusted district per pupil revenues for each pupil enrolled in the district charter school, not including online pupils or pupils enrolled in the ASCENT or TREP program.

(II) Each district charter school in a qualifying school district that was initially authorized prior to July 1, 2004, must receive at-risk supplemental aid if the percentage of at-risk students in the district charter school exceeds the percentage of at-risk pupils in the qualifying school district. The amount of the district charter school's at-risk supplemental aid is equal to the difference between one hundred percent of adjusted district per pupil revenues and one hundred percent of district per pupil revenues for each pupil enrolled in the district charter school, not including online pupils or pupils enrolled in the ASCENT or TREP program. A school district shall pass through one hundred percent of a district charter school's at-risk supplemental aid to the district charter school.

(III) Each district charter school in a school district that is not a qualifying district and whose percentage of at-risk pupils exceeds the percentage of at-risk pupils in the chartering school district must receive at-risk supplemental aid. The amount of the district charter school's at-risk supplemental aid is equal to the difference between one hundred percent of adjusted district per pupil revenues and one hundred percent of district per pupil revenues for each pupil enrolled in the district charter school, not including online pupils or pupils enrolled in the ASCENT or TREP program. A school district shall pass through one hundred percent of a district charter school's at-risk supplemental aid to the district charter school.

(3) If the appropriation to the department of education is insufficient to fund one hundred percent of the at-risk supplemental aid calculated pursuant to paragraph (b) of subsection (2) of this section, the department of education shall reduce each school district's and each district charter school's at-risk supplemental aid proportionately.

(4) (a) Notwithstanding any provision of this section to the contrary, at-risk supplemental aid for a district charter school that converts from an institute charter school pursuant to section 22-30.5-504 (10) continues to be calculated for the converted school pursuant to section 22-30.5-513 as the funding applied to the converted school before the conversion; except that this subsection (4) does not apply if the converted school is authorized by a small rural school district, as described in section 22-54-108 (3)(b)(IV).
(b) Repealed.

### 22-30.5-112.3. Charter schools - additional aid from district.

1. (a) and (a.5) Repealed.
   
   (a.7) (I) For the 2003-04 budget year and each budget year thereafter, a qualified charter school, as defined in section 22-54-124 (1)(f.6), shall receive state education fund moneys from the school district that granted its charter in an amount equal to the percentage of the district's certified charter school pupil enrollment that is attributable to pupils expected to be enrolled in the qualified charter school multiplied by the total amount of state education fund moneys distributed to the district for the same budget year pursuant to section 22-54-124 (3).
   
   (II) As used in this paragraph (a.7), "pupils" means pupils, other than pupils enrolled in an online program or online school, as defined in sections 22-30.7-102 (9) and 22-30.7-102 (9.5), who are enrolled in a charter school.
   
   (b) Funding received pursuant to paragraph (a), (a.5), or (a.7) of this subsection (1) shall be in addition to any funding provided pursuant to section 22-30.5-112.
   
   (c) A district shall provide funding to each qualified charter school, as defined in section 22-54-124 (1)(f.6), by making a monthly payment to the qualified charter school as soon as possible after the district receives a monthly payment of state education fund moneys pursuant to section 22-54-124 (4).

2. (a) A charter school shall use moneys it receives pursuant to subsection (1) of this section solely for capital construction, as defined in section 22-54-124 (1)(a).

   (b) Notwithstanding the provisions of section 22-30.5-112 (4.5), any moneys received by a charter school pursuant to subsection (1) of this section for the 2001-02 budget year that are not expended by January 31, 2003, shall be transferred back to the state education fund created in section 17 (4) of article IX of the state constitution.

**Source:** L. 2001: Entire section added, p. 348, § 10, effective April 16. L. 2002: (1)(a) and (1)(c) amended, p. 1751, § 27, effective June 7. L. 2003: (1)(a)(I), (1)(c), and (2) amended and (1)(a.5) added, p. 517, § 8, effective March 5; (1)(a)(I), (1)(b), and (1)(c) amended and (1)(a.7) added, pp. 2133, 2134, §§ 29, 30, effective May 22. L. 2010: (1)(c) amended, (HB 10-1013), ch. 399, p. 1896, § 1, effective June 10. L. 2012: (1)(a.7)(II) amended, (HB 12-1240), ch. 258, p. 1317, § 29, effective June 4.

### 22-30.5-112.5. Charter schools - transportation plans.

If a charter school's charter or contract includes provision of transportation services by the school district, the charter school and the school district shall collaborate in developing a transportation plan to use school district equipment to transport students enrolled in the charter school to and from the charter school and their homes and to and from the charter school and any extracurricular activities. The
transportation plan may include, but need not be limited to, development of bus routes and plans for sharing the use of school district equipment for the benefit of students enrolled in charter schools of the school district and students enrolled in other schools of the school district.

22-30.5-113. State board - department of education - duties - charter schools - evaluation - report. (1) Notwithstanding section 24-1-136 (11)(a)(I), beginning in the 2004-05 budget year, and at least every three years thereafter through the 2021-22 budget year, the department shall prepare a report and evaluation for the governor and the house and senate committees on education on the success or failure of charter schools and of institute charter schools authorized pursuant to part 5 of this article 30.5, their relationship to other school reform efforts, and suggested changes in state law necessary to strengthen or change the charter school program described in this article 30.5. The department is authorized to collect information as necessary to prepare the report. Beginning in the 2023-24 budget year, the department shall annually prepare a report and evaluation described in this subsection (1).

(2) The state board shall compile evaluations of charter schools received from local boards of education and evaluations of institute charter schools prepared by the state charter school institute created in section 22-30.5-503. The state board shall review and report on information regarding the statutes, regulations, and policies governing charter school oversight and support and statutes, regulations, and policies from which charter schools were released pursuant to section 22-30.5-105 and from which institute charter schools were released pursuant to section 22-30.5-508 to determine if the releases assisted or impeded the charter schools or the institute charter schools in meeting their stated goals and objectives.

(3) In preparing the report required by this section, the state board shall compare the performance of charter school pupils and institute charter school pupils with the performance of ethnically and economically comparable groups of pupils in other public schools who are enrolled in academically comparable courses.

Cross references: For the legislative declaration in SB 23-287, see section 1 of chapter 189, Session Laws of Colorado 2023.

22-30.5-114. Repeal of part. (Repealed)

22-30.5-115. Construction of article - severability. If any provision of this article or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this article that can be given effect without the invalid provision or application, and to this end the provisions of this article are declared to be severable.

22-30.5-116. Charter schools - school bullying policies required. (1) On or before October 1, 2011, each charter school shall adopt and implement a policy concerning bullying prevention and education. Each charter school's policy, at a minimum, shall set forth appropriate disciplinary consequences for students who bully other students and for any person who takes any retaliatory action against a student who reports in good faith an incident of bullying, which consequences shall comply with all applicable state and federal laws.

(2) For the purposes of this section, "bullying" shall have the same meaning as set forth in section 22-32-109.1 (1)(b).

(3) Each charter school is encouraged to ensure that its policy, at a minimum, incorporates the biennial administration of surveys of students' impressions of the severity of bullying in their schools, as described in section 22-93-104 (1)(c); includes character building; and includes the designation of a team of persons at each school of the school district who advise the school administration concerning the severity and frequency of bullying incidents that occur in the school, which team may include, but need not be limited to, law enforcement officials, social workers, prosecutors, health professionals, mental health professionals, counselors, teachers, administrators, parents, and students.

22-30.5-117. Developmental education placement or assessment tests - intervention plans. (1) Each charter school that includes any of grades nine through twelve may administer to students enrolled in those grades the developmental education placement or assessment tests that are administered to matriculated first-time freshman students pursuant to section 23-1-113. The charter school may administer the tests to a student at any time and as often as it deems necessary while the student is enrolled in any of grades nine through twelve, but the department of education shall allocate money to each charter school to offset the costs incurred in administering each of the test units only once per student while he or she is enrolled in those grades.

(2) If a charter school chooses to administer the developmental education placement or assessment tests, each student's individual career and academic plan must include the scores achieved by the student on the developmental education placement or assessment tests and, based on an analysis of the scores, the student's level of postsecondary and workforce readiness at the time he or she takes the tests. If a student's scores indicate that he or she is at risk of being unable to demonstrate postsecondary and workforce readiness prior to or upon graduating from high school, school personnel shall work with the student and the student's parent or legal guardian to create an intervention plan that identifies the necessary courses and education
support services the student requires to be able to achieve postsecondary and workforce readiness prior to or upon graduating from high school and to be prepared to continue into the postsecondary education option, if any, selected by the student in his or her individual career and academic plan without need for developmental educational services. If appropriate, the charter school, the student, and the student's parent or legal guardian may choose to enroll the student in gateway courses in English or mathematics, as defined in section 23-1-113 (11)(b.5), with additional supports through supplemental academic instruction, as defined in section 23-1-113 (11)(c), at an institution of higher education, through the "Concurrent Enrollment Programs Act", article 35 of this title 22.

### 22-30.5-118. Needs-based inclusion of charter schools in school district mill levy elections - eligibility - allocation of additional local revenues - definitions.

(1) In enacting this section, it is the intent of the general assembly to respect the principle of school district local control and to encourage school districts and charter schools to work together to ensure that charter schools' needs for operating revenues can be met. Accordingly, nothing in this section limits in any way the existing ability of a school district to include a charter school in a school district election to approve additional local revenues or to otherwise assist a charter school in obtaining funding to meet its needs for operating revenues in a legal manner mutually agreed upon by the school district and the charter school.

(2) As used in this section, unless the context otherwise requires:

(a) "Additional local revenues" means a mill levy increase for which a school district receives voter approval pursuant to section 22-40-102 (1.5) or (1.7), 22-54-108, or 22-54-108.5.

(b) "Operating revenues" means moneys used by a school district or a charter school to pay expenses other than capital construction expenses.

(c) "Planning committee" means a committee formed by a school district to assess and prioritize the school district's needs for operating revenues and to consider seeking additional local revenues.

(3) If a school district has a planning committee, the school district must allow the charter schools that the local board of education authorizes to have at least one representative on the school district's planning committee that represents the group of charter schools and must notify the charter schools of the planning committee's meeting schedule. The charter schools of a school district shall cooperate in determining the person or persons who will represent the interests of charter schools on the planning committee.

(4) A school district that considers submitting, or receives a petition requiring it to submit, a ballot question to the eligible electors of the school district to authorize additional local revenues pursuant to section 22-40-102 (1.5) or (1.7), 22-54-108, or 22-54-108.5 shall invite each charter school authorized by the school district to participate in discussions regarding submission of the question. The school district shall extend the invitation at the earliest possible
time but no later than June 1 of the applicable election year. Each school district is encouraged to voluntarily include funding for the operating revenues needs of charter schools in the school district's ballot questions to authorize additional local revenues without requiring a charter school to comply with the operating revenues plan submission process set forth in subsection (5) of this section.

(5) (a) A charter school that has operating revenues needs may request that the local board of education of its chartering school district:

(I) Include the charter school's operating revenues needs as part of a ballot question to authorize additional local revenues that the school district submits to the eligible electors of the school district; or

(II) Submit a ballot question to authorize additional local revenues for the charter school to the eligible electors of the school district pursuant to section 22-30.5-119.

(b) A charter school that seeks to have its operating revenues needs included as part of a ballot question that the local board of education of its chartering school district submits to the eligible electors of the district or that seeks to obtain funding for its operating revenues needs through the authorization of additional local revenues pursuant to section 22-30.5-119 shall submit an operating revenues plan to the local board of education of its chartering school district. The plan must include:

(I) A statement of the reasons why the operating revenues needs that would be funded through additional local revenues are necessary;

(II) A description of the specific operations that would be funded through additional local revenues; and

(III) A statement of the reasons why revenue sources other than additional local revenues are inadequate to fully fund the charter school's operating revenues needs.

(6) (a) The local board of education shall review the operating revenues plan submitted by a charter school pursuant to subsection (5) of this section and determine the priority of the charter school's operating revenues needs in relation to the operating revenues needs of other schools of the district.

(b) At least sixty days before the date by which a school district must certify a ballot question to the county clerk and recorder, the local board of education shall notify the charter school in writing that the school district has or has not prioritized the charter school's operating revenues needs for inclusion in the ballot question at the upcoming election.

(c) If the local board of education prioritizes the charter school operating revenues needs for inclusion in the ballot question at the upcoming election, the local board of education shall include the charter school's operating revenues request in the same ballot question being submitted by the school district to authorize additional local revenues.

(d) If the local board of education does not prioritize the charter school's operating revenues needs for inclusion in the ballot question at the upcoming election, the local board of education shall provide to the charter school, with the notice required in paragraph (b) of this subsection (6), a written statement specifying the reasons for excluding the charter school's operating revenues needs. The local board of education shall allow the charter school an opportunity to address any issues raised by the board.

(e) Nothing in this subsection (6) requires a local board of education to prioritize the operating revenues plan of a charter school. The local board of education and a charter school may agree to reserve or escrow moneys for the benefit of the charter school.
(f) Notwithstanding the provisions of this subsection (6) concerning the prioritization of a charter school's operating revenues plan and inclusion in a district ballot question to authorize additional local revenues, the local board of education and a charter school may agree to an alternative financial plan to address a charter school's operating revenues needs.

(7) When a school district includes a charter school's operating revenues needs in a district ballot question to authorize additional local revenues:

(a) Before the school district submits the ballot question to the eligible electors of the school district, the local board of education and the charter school must agree to the process by which the school district will distribute the additional local revenues to the charter school; and

(b) The school district and the charter school must bear the costs of submitting the ballot question in proportion to their respective portions of the total additional local revenues that the school district will receive, unless the local board of education and the charter school agree to a different cost-sharing arrangement.

(8) If a charter school requests that a school district submit a ballot question to the eligible electors of the school district pursuant to section 22-30.5-119 to approve additional local revenues, the charter school must pay all of the costs of submitting the ballot question; except that, if the local board of education submits a separate special mill levy ballot question on the same ballot as a ballot question to approve additional local revenues, the school district and the charter school must agree to bear the costs of submitting the special mill levy ballot question. The school district shall distribute to the charter school all of the revenues received as a result of a ballot question submitted pursuant to section 22-30.5-119.

(9) The additional revenues that a charter school receives as a result of inclusion in a district ballot question or a ballot question submitted pursuant to section 22-30.5-119 to authorize additional local revenues are in addition to, and do not replace, the moneys the charter school receives from the school district pursuant to sections 22-30.5-112 to 22-30.5-112.3. A charter school that receives additional revenues as a result of inclusion in a district ballot question or a ballot question submitted pursuant to section 22-30.5-119 is subject to any restrictions on the use of those revenues that may be imposed by the statute that authorizes the school district to seek authorization of the additional local revenues.

(10) Notwithstanding any other provision of this section to the contrary, a school district shall not include a charter school in a district ballot question to authorize additional local revenues or submit a ballot question on the charter school's behalf pursuant to section 22-30.5-119 unless the charter school that is to receive additional local revenues and the school district have entered into a contract specifying that the ownership of any items purchased using the additional local revenues automatically reverts to the school district if:

(a) The charter school's charter is revoked or not renewed;

(b) The charter school becomes insolvent and can no longer operate as a charter school; or

(c) The charter school otherwise ceases to operate.

local revenues, the local board of education may, at any time at which a ballot issue arising under section 20 of article X of the state constitution may be decided, submit to the eligible electors of the school district a question to authorize additional local revenues pursuant to section 22-40-102 (1.5) or (1.7), 22-54-108, or 22-54-108.5 to provide operating revenues for one or more charter schools chartered by the school district. The local board of education shall consult with all affected charter schools that will receive the revenues before determining the amount of the additional local revenues. The local board of education has the discretion to combine the ballot question to authorize additional local revenues with any other tax question that the school district is submitting to the eligible electors of the district or to submit the ballot question as a separate question.

(2) An election called pursuant to subsection (1) of this section shall be conducted pursuant to the provisions of articles 1 to 13 of title 1, C.R.S. Each charter school that is to receive a portion of the additional local revenues shall bear the costs of submitting the ballot question in proportion to the amount of revenues it is to receive unless the charter schools and the school district agree to other cost-sharing arrangements.

(3) If the majority of votes cast at an election held pursuant to this section are in favor of the question, the mill levy of the school district for additional local revenues is as approved by the eligible electors of the district, and taxes shall be levied as approved. Additional local revenues that are approved pursuant to this section by a ballot question submitted as provided in section 22-40-102 (1.5) or (1.7), 22-54-108, or 22-54-108.5 are subject to the limitations on the amount and use of the revenues specified in section 22-40-102 (1.5) or (1.7), 22-54-108, or 22-54-108.5, respectively.

(4) Notwithstanding the provisions of section 22-30.5-118 (6) and any provisions of this section to the contrary, a school district shall not impose a mill levy pursuant to this section to benefit a charter school unless the charter school and the school district enter into a contract specifying that the ownership of any items purchased by the charter school using the revenues received from the mill levy automatically reverts to the school district if:

(a) The charter school's charter is revoked or not renewed;

(b) The charter school becomes insolvent and can no longer operate as a charter school;

(c) The charter school otherwise ceases to operate.

22-30.5-120. Charter schools - child sexual abuse and assault prevention plan. (1) Each charter school is encouraged to adopt a child sexual abuse and assault prevention plan. Each charter school is encouraged to include in the plan delivery of a comprehensive, age-appropriate curricula for each grade level that the charter school serves regarding child sexual abuse and assault awareness and prevention. The curricula may address, but need not be limited to:

(a) The skills to recognize:

(I) Child sexual abuse and assault;

(II) Boundary violations and unwanted forms of touching and contact; and

(III) Behaviors that an offender uses to groom or desensitize a victim; and
(b) Strategies to:
(I) Promote disclosure;
(II) Reduce self-blame; and
(III) Mobilize bystanders.

(2) Each charter school is encouraged to include in the child sexual abuse and assault prevention plan professional development for school personnel and parents in preventing, identifying, and responding to child sexual abuse and assault. Professional development may include providing training in preventing, identifying, and responding to child sexual abuse and assault, including using the child abuse reporting hotline system created pursuant to section 26-5-111, C.R.S., and distributing resources to raise the awareness of school personnel and parents regarding child sexual abuse and assault and preventing child sexual abuse and assault.

(3) A charter school is encouraged to use curricula and professional development materials, training, and other resources available from the school safety resource center pursuant to section 24-33.5-1809, C.R.S.

(4) As used in this section, "school personnel" includes teachers, administrators, school resource officers, and other employees of a charter school.

PART 2

CHARTER SCHOOL DISTRICTS

22-30.5-201 to 22-30.5-209. (Repealed)

Editor's note: (1) This part 2 was added in 1996. For amendments to this part 2 prior to its repeal in 2003, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

(2) Section 22-30.5-209 provided for the repeal of this part 2, effective July 1, 2003. (See L. 96, p. 667.)

PART 3

INDEPENDENT CHARTER SCHOOLS

22-30.5-301. Legislative declaration. (1) The general assembly hereby finds that section 2 of article IX of the state constitution requires the general assembly to provide for the establishment and maintenance of a thorough and uniform system of free public schools. The state therefore has an obligation to ensure that every student has a chance to attend a school that will provide an opportunity for a quality education. If a school is not providing a thorough and adequate education, as determined by the annual performance review conducted by the department pursuant to section 22-11-210, the state has an obligation to the students enrolled in
that school to make changes to ensure that they have an opportunity to receive a quality education comparable to students in other public schools in the state.

(2) Therefore, the general assembly finds it necessary to establish a system for independent charter schools to operate within local school buildings when school districts have failed to provide adequate educational opportunities.

22-30.5-302. Definitions. As used in this part 3, unless the context otherwise requires:

(1) "Applicant" means the person or group of persons submitting a proposal for an independent charter to operate an independent charter school pursuant to the provisions of this part 3. An "applicant" may include, but shall not be limited to, an individual, a group of individuals, a nonprofit or for-profit company, an existing public school, a school district, or an institution of higher education.

(2) "Commissioner" means the commissioner of education appointed pursuant to section 22-2-110.

(3) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.

(4) "Independent charter" means the agreement between a local board of education and an independent charter school governing the existence and operation of the independent charter school.

(5) "Independent charter proposal" means a proposal for the operation of an independent charter school submitted in response to a request for proposals pursuant to the provisions of this part 3.

(6) "Independent charter school" means a charter school approved pursuant to this part 3 that is a public school of a school district.

(7) "Local board of education" means the board of education of the school district in which the independent charter school is or is proposed to be located.

(8) "State board" means the state board of education created pursuant to section 1 of article IX of the state constitution.

22-30.5-303. Independent charter schools - request for proposals - response contents. (1) Whenever the state board determines that it is necessary to recommend conversion of a public school to an independent charter school to a local board of education pursuant to the provisions of section 22-11-210 (5), the state board shall issue a request for proposals pursuant to subsection (2) of this section and supervise the appointment of a review committee pursuant to section 22-30.5-304.

(2) (a) If an independent charter school is to be organized, the state board, on or before January 15 of the year in which the independent charter school is to open, shall cause to be issued a request for proposals. The request for proposals shall solicit proposals from interested parties, including but not limited to individuals, persons, nonprofit or for-profit companies, existing public schools or school districts, and institutions of higher education, for the operation
of an independent charter school within a building that currently houses a public school of a
school district. Responses to the request for proposals shall be due no later than the date
specified by the state board pursuant to rules adopted by the state board in accordance with
paragraph (b) of this subsection (2). The state board shall issue the request for proposals without
regard to the provisions of the "Procurement Code", articles 101 to 112 of title 24, C.R.S.

(b) The state board shall adopt rules specifying a schedule for receipt of the responses to
the request for proposals pursuant to paragraph (a) of this subsection (2), the formation of a
review committee and receipt of the recommendations of said committee pursuant to section
22-30.5-304, and the selection of an applicant and notification to the local board of education
pursuant to section 22-30.5-305. Said schedule must ensure the completion of negotiations on
the independent charter no later than May 30 of the year in which the independent charter school
is to open. The rules must also specify the information that an independent charter proposal must
include in order to be eligible for consideration. Such information must include, but need not be
limited to, the following:

(I) Demonstrable evidence that the applicant for the independent charter has prior
experience in improving the academic performance of students;

(II) The goals, objectives, and student performance standards to be achieved by the
independent charter school, including but not limited to the measures for the performance
indicators specified in section 22-11-204;

(III) A description of the independent charter school's educational program, student
performance standards, annual targets for the measures used to determine the levels of
attainment of the performance indicators specified in section 22-11-204, and curriculum, which
must meet or exceed the state preschool through elementary and secondary education standards
adopted pursuant to part 10 of article 7 of this title and must be designed to enable each student
to achieve such standards and targets;

(IV) A description of the independent charter school's plan for evaluating student
performance, the types of assessments that must be used to measure student progress toward
achievement of the school's student performance standards and the targets for the measures used
to determine the levels of attainment of the performance indicators, including but not limited to
the state assessments administered pursuant to section 22-7-1006.3, the timeline for achievement
of the school's student performance standards and the targets, and the procedures for taking
corrective action in the event that student performance at the independent charter school fails to
meet such standards and targets;

(V) Evidence that the applicant is economically sound, including balance sheets and
operating statements for recent years of operation when appropriate, a proposed budget for the
term of the independent charter, and a description of the manner in which an annual audit of the
financial and administrative operations of the independent charter school is to be conducted;

(VI) A list of the rules and statutory requirements for which the independent charter
school is requesting a waiver and an explanation of the manner in which the independent charter
school shall comply with the intent of any rule or statutory requirement that is waived;

(VII) A description of the governance and operation of the independent charter school;

(VIII) An explanation of the relationship that will exist between the independent charter
school and its employees;

(IX) The employment policies of the independent charter school;
(X) How the independent charter school will handle legal liability between the school and the school district and any applicable insurance coverage;

(XI) A description of how the independent charter school plans to meet the transportation needs of its students and, if the independent charter school plans to provide transportation for its students, a plan for addressing the transportation needs of low-income students;

(XII) A description of the independent charter school's enrollment policy, consistent with the requirements of section 22-30.5-104 (3), and the criteria for enrollment decisions, which shall include offering enrollment to students already enrolled in the school and students who would be assigned to the school under school district policy.

(c) If the commissioner finds that the information in any independent charter proposal is incomplete, the commissioner shall request the information necessary to complete the minimum requirements for the proposal.

22-30.5-304. Review committee - membership - recommendations. (1) Whenever an independent charter school is to be organized pursuant to this part 3, on or before the date specified by rule adopted by the state board in accordance with section 22-30.5-303 (2)(b), the commissioner shall cause a review committee to be formed. The review committee shall consist of:

(a) The commissioner or a designee of the commissioner, who shall chair the review committee but shall be a nonvoting member of the committee;

(b) A member of the board of education of the school district in which the school is geographically located who shall be the member elected from the director district in which the school is geographically located, if members of the board are elected from director districts, or the member who resides closest to the school, if members are not elected from director districts;

(c) (I) A licensed professional employed at the school who is elected by a vote of all licensed professionals who provide instruction at the school or have an office in the school.

(II) The election required by this paragraph (c) shall be conducted during the month specified by rule adopted by the state board in accordance with section 22-30.5-303 (2)(b).

(d) (I) Two parents of students enrolled in the school who are members of the school accountability committee and are elected by a vote of the members of the school accountability committee.

(II) The election required by this paragraph (d) shall be conducted during the month specified by rule adopted by the state board in accordance with section 22-30.5-303 (2)(b).

(e) (I) A principal of a school at the same elementary, middle, or high school level as the independent charter school that is to be organized, appointed by the governor.

(II) In appointing a principal pursuant to this paragraph (e), the governor shall appoint a principal of a public school that received the highest possible accreditation rating pursuant to the accreditation policy implemented pursuant to section 22-11-307 by the public school's local
board of education or by the state charter school institute, whichever is applicable, for the immediately preceding school year.

(f) (I) A teacher in a school at the same elementary, middle, or high school level as the independent charter school that is to be organized, appointed by the governor.

(II) In appointing a teacher pursuant to this paragraph (f), the governor shall appoint a teacher from a public school that received the highest possible accreditation rating pursuant to the accreditation policy implemented pursuant to section 22-11-307 by the public school's local board of education or by the state charter school institute, whichever is applicable; and

(g) A business representative, appointed by the governor, who resides in the neighborhood of the school.

(2) The committee shall meet by call of the chair of the review committee as needed to review the proposals received in response to the request for proposals issued pursuant to section 22-30.5-303. The committee shall evaluate the proposals and, on or before the date specified by rule adopted by the state board in accordance with section 22-30.5-303 (2)(b), shall forward to the state board all proposals and its recommendations on each proposal. The committee may make recommendations on applicants without regard to the provisions of the "Procurement Code", articles 101 to 112 of title 24, C.R.S.

22-30.5-305. Independent charter schools - selection. (1) On or before the date specified by rule adopted by the state board in accordance with section 22-30.5-303 (2)(b), the state board shall select an applicant to recommend to the local board of education. The state board may select the applicant without regard to the provisions of the "Procurement Code", articles 101 to 112 of title 24, C.R.S.

(2) On or before the date specified by rule adopted by the state board in accordance with section 22-30.5-303 (2)(b), the commissioner shall forward to the local board of education a copy of the selected applicant's response to the request for proposals.

(3) The commissioner or the commissioner's designee shall assist the selected applicant in negotiating an independent charter with the local board of education pursuant to section 22-30.5-306.

22-30.5-306. Independent charter schools - charter - term. (1) The response to the request for proposals forwarded by the commissioner pursuant to section 22-30.5-305 (2) shall constitute the application for a charter pursuant to section 22-30.5-106. Notwithstanding the time limit established in section 22-30.5-107 (1), the local board of education shall consider the application for the upcoming school year.
With the assistance from the commissioner or the commissioner's designee, the selected applicant and the local board of education shall negotiate the terms of the independent charter, which may be different from or in addition to the terms of the response to the request for proposals; except that:

(a) The independent charter school shall be entitled to use the school building in which the public school that is subject to conversion was operated. The independent charter school and the local board of education shall negotiate an amount of rent to be paid, which shall be not more than twelve dollars per year, and all other costs for the operation and maintenance of the building and related facilities.

(b) The term of the independent charter school's charter shall be four years.

(3) (a) On or before May 30 of the year in which the independent charter school is to open, all negotiations between the selected applicant and the local board of education shall be concluded and the local board of education shall accept the application following a public hearing held upon public notice.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (3), if, during the year prior to the year in which the independent charter school is to open, the school is required to implement a priority improvement plan, an improvement plan, or a performance plan pursuant to section 22-11-405, 22-11-404, or 22-11-403, respectively, the local board of education and the applicant may jointly agree to allow the school to remain under the administration of the local board of education.

(4) Except as specifically provided in this part 3, an independent charter school shall be entitled to all of the rights granted by and subject to the obligations imposed by section 22-30.5-104.

(5) (a) (Deleted by amendment, L. 2009, (SB 09-163), ch. 293, p. 1538, § 32, effective May 21, 2009.)

(b) Repealed.

22-30.5-307. Independent charter schools - expiration - renewal - conversion. (1) If an independent charter school is required pursuant to section 22-11-210 to implement a turnaround plan during the third year of the school's independent charter, the state board shall issue a new request for proposals pursuant to section 22-30.5-303 (2), and a new independent charter school application process shall commence.

(2) If an independent charter school is required to implement a priority improvement plan, improvement plan, or performance plan pursuant to section 22-11-405, 22-11-404, or 22-11-403, respectively, during the third year of the school's independent charter, the parents and legal guardians of the students enrolled at the independent charter school shall decide by majority vote whether, at the expiration of the independent charter school's charter, the school shall apply for a renewal of the independent charter or shall seek to become a regular school of the school district in which the independent charter school is located.
(3) The independent charter school shall arrange for an election to decide which of the options specified in subsection (2) of this section the school shall pursue. The election shall be conducted during the month of September of the fourth school year of the independent charter. All parents and legal guardians of students enrolled in the independent charter school on the date of the election and for at least thirty days prior to the election shall be eligible to vote in the election conducted pursuant to this subsection (3).

(4) If a majority of the parents and legal guardians vote in favor of renewing the independent charter application, the renewal process shall be governed by section 22-30.5-110. If a majority of the parents and legal guardians vote in favor of becoming a regular school of the school district, the independent charter school's charter shall not be renewed, and the operation of the school shall return to the local board of education.

22-30.5-308. Independent charter schools - employee options - financing options - guidelines. (1) The provisions of section 22-30.5-111 shall apply to employees of an independent charter school.

(2) The provisions of section 22-30.5-112 shall govern the financing of independent charter schools.

PART 4

CHARTER SCHOOL CAPITAL FACILITIES FINANCING ACT

22-30.5-401. Short title. This part 4 shall be known and may be cited as the "Charter School Facilities Financing Act".

22-30.5-402. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) The "Charter Schools Act", part 1 of this article, was enacted by the general assembly without providing a method for funding the capital construction needs of charter schools;

(b) Since the enactment of the "Charter Schools Act", the general assembly has enacted legislation requiring a portion of the moneys in the state education fund to be distributed to charter schools for use in funding capital construction, but such moneys are not sufficient to fully meet the capital construction needs of charter schools;

(c) Pursuant to Senate Bill 01-237, enacted at the first regular session of the sixty-third general assembly, the general assembly declared its intent to establish a method for funding the capital construction needs of charter schools that is equitable, withstands constitutional challenge, and promotes cooperation between charter schools and their authorizing school district.
districts and encouraged representatives of local boards of education, school district administrators, charter schools, the business community, and any other interested persons to meet and develop a comprehensive legislative proposal for funding the capital construction needs of charter schools for consideration by the sixty-third general assembly at the 2002 regular session.

(2) The general assembly further finds and declares that this part 4 is the product of legislative examination and modification of a comprehensive legislative proposal that resulted from meetings of representatives of local boards of education, school district administrators, charter schools, the business community, and any other interested persons and represents a comprehensive legislative proposal for funding the capital construction needs of charter schools that is equitable, withstands constitutional challenge, and promotes cooperation between charter schools and their authorizing school districts.

22-30.5-403. Definitions. As used in this part 4, unless the context otherwise requires:

(1) "Board of education" or "board" means a school district board of education.

(2) "Budget year" means the period beginning on July 1 of each year and ending on the following June 30 for which a budget for a district is adopted.

(3) "Charter school" means a charter school as described in section 22-30.5-104, and also includes a nonprofit corporation exempt from taxation under section 501 (c)(3) of the federal "Internal Revenue Code of 1986", as amended, that owns a facility used for occupancy by pupils enrolled or to be enrolled in a charter school on behalf of a charter school and that was created for the sole purpose of holding title to such facility.

(4) "Charter school capital construction" or "capital construction" means constructing, demolishing, remodeling, financing, or refinancing the acquisition of land, buildings, or facilities used for occupancy by pupils enrolled in or to be enrolled in a charter school or an institute charter school. The term also includes actions taken to achieve the purposes set forth in section 22-42-102 (2)(a)(I) to (2)(a)(V), (2)(a)(VII), and (2)(a)(VIII).

(5) "Charter school per pupil facilities aid program moneys" means state education fund moneys to be distributed to charter schools and institute charter schools for capital construction pursuant to section 22-54-124.

(5.5) "Institute charter school" means a charter school authorized by the state charter school institute pursuant to part 5 of this article, and also includes a nonprofit corporation exempt from taxation under section 501 (c)(3) of the federal "Internal Revenue Code of 1986", as amended, that owns, on behalf of an institute charter school, a facility used for occupancy by pupils enrolled or to be enrolled in the institute charter school, which nonprofit corporation was created for the sole purpose of holding title to the facility.

(6) "School district" or "district" means a school district organized and existing pursuant to law; except that the term does not include a local college district.

(7) "Special mill levy" means a mill levy authorized by section 22-30.5-405.

Source: L. 2002: Entire part added, p. 1754, § 31, effective June 7. L. 2009: (4) and (5) amended and (5.5) added, (SB 09-089), ch. 440, p. 2439, § 6, effective June 4; (4) amended, (SB 09-176), ch. 247, p. 1113, § 1, effective August 5.
Editor's note: Amendments to subsection (4) by Senate Bill 09-176 and Senate Bill 09-089 were harmonized.

22-30.5-404. Needs-based inclusion of charter schools in district bond elections - eligibility - allocation of bond revenues. (1) (a) In enacting this section, it is the intent of the general assembly to respect the principle of school district local control and to encourage school districts and charter schools to work together to ensure that the capital construction needs of charter schools can be met. Accordingly, nothing in this section shall be construed to limit in any way the existing ability of any school district to include a charter school in any local bond elections or to otherwise assist a charter school in financing its capital construction needs in any legal manner mutually agreed upon by the school district and the charter school.

(b) A school district shall allow for representation by charter schools on the school district's long-range planning committee and any committee established by the school district to assess and prioritize the district's capital construction needs and shall notify charter schools of the committee's meeting schedule. Charter schools shall cooperate in determining the person or persons who will represent the interests of charter schools on the committee.

(c) Each school district that is considering submitting any question of contracting bonded indebtedness to the eligible electors of the district at an upcoming election shall invite each charter school chartered by the district to participate in discussions regarding the possible submission of such a question at the earliest possible time but no later than June 1 of the applicable election year, and each school district is encouraged to voluntarily include funding for the capital construction needs of charter schools in the district's questions of contracting bonded indebtedness without requiring a charter school to comply with the capital construction plan submission process set forth in subsection (3) of this section.

(2) A charter school that has capital construction needs may seek to obtain moneys to fund such capital construction needs by requesting that the board of education of its chartering school district:

(a) Include the charter school's capital construction needs as part of a ballot question for approval of bonded indebtedness to be submitted by the district to the voters of the district;

(b) Submit a ballot question for approval of a special mill levy to the voters of the district pursuant to section 22-30.5-405; or

(c) Include the charter school's capital construction needs as part of a ballot question for approval of an additional mill levy for ongoing cash funding for the capital construction, new technology, existing technology upgrade, and maintenance needs of the district to be submitted by the district to the voters of the district pursuant to section 22-54-108.7.

(3) A charter school that seeks to have its capital construction needs included as part of a ballot question to be submitted by the board of education of its chartering school district to the voters of the district or that seeks to obtain funding for its capital construction needs through the imposition of a special mill levy pursuant to section 22-30.5-405 or an additional mill levy pursuant to section 22-54-108.7 shall submit a capital construction plan to the board of education of its chartering school district. The plan shall include:

(a) A statement of reasons why the capital construction to be financed by bonded indebtedness or a special or additional mill levy is necessary;

(b) A description of the capital construction to be financed by bonded indebtedness or revenues from a special or additional mill levy;
(c) A description of the architectural, functional, and construction standards that meet applicable state building code requirements and are to be applied to each facility that is the subject of the capital construction project;

(d) An estimate of the total cost of completing the capital construction to be financed by bonded indebtedness or a special or additional mill levy and, if any moneys other than proceeds of bonded indebtedness or a special or additional mill levy and interest earned on such proceeds are to be used to finance the capital construction, a breakdown of the moneys that will be used to finance the capital construction;

(e) An estimate of the amount of time needed to complete the capital construction;

(f) A statement addressing whether construction and renovation, payment of overrun costs, and other capital construction project issues are to be managed by the charter school or the district, with costs for management to be negotiated by the charter school and the district;

(g) A statement of reasons why revenue sources other than bonded indebtedness or a special or additional mill levy are inadequate to fully finance the capital construction; and

(h) A statement of the charter school's preferred means of obtaining moneys.

(4) (a) (I) The board of education of a school district shall review a capital construction plan submitted by a charter school pursuant to subsection (3) of this section and determine the priority of the charter school capital construction need in relation to the capital construction needs of other schools in the district. If the charter school's capital construction plan remedies shortcomings in the charter school's facilities identified in the financial assistance priority assessment of public school facilities created pursuant to section 22-43.7-108, or, when the assessment created pursuant to section 22-43.7-108 is no longer valid, in another assessment using similar criteria for all schools in the district, the board of education shall prioritize a charter school's capital construction needs in the school district's long-range plan and include those needs in the current ballot question in the upcoming election if the charter school's facility needs receive a higher priority assessment than the other schools in the district.

(II) Notwithstanding the provisions of this subsection (4) concerning the prioritization of a charter school's capital construction plan and inclusion in a district ballot question for approval of bonded indebtedness, the board of education of a school district and a charter school may agree to an alternative financial plan that addresses a charter school's facilities needs, including retiring financial obligations or bonds previously issued for the benefit of the charter school.

(III) (A) Nothing in this subsection (4) shall require a school district to prioritize the capital construction plan of a charter school that is on probation with the district or that has been authorized within the previous five years.

(B) The board of education of a school district may require a charter school to certify that school construction to be financed with bond proceeds in accordance with this section will remediate a shortcoming in the charter school's facilities identified pursuant to section 22-43.7-108, and that any construction will conform to any construction guidelines established pursuant to 22-43.7-107.

(C) Notwithstanding the provisions of sub-subparagraph (A) of this subparagraph (III), the board of education of a school district and a charter school may agree to reserve or escrow funds for the benefit of the charter school.

(IV) The board of education shall notify the charter school in writing whether the school district has prioritized the charter school's capital construction needs for inclusion in the ballot
question at the upcoming election no later than sixty days prior to the date by which the school
district is required to certify the ballot question to the county clerk and recorder.

(b) If the board has prioritized the charter school capital construction needs pursuant to
paragraph (a) of this subsection (4) for inclusion in the ballot question at the upcoming election,
the board shall include the charter school's capital construction in the same ballot question being
submitted by the district for approval of bonded indebtedness in accordance with subsection (5)
of this section.

(c) If the board has not prioritized the charter school's capital construction needs for
inclusion in the ballot question at the upcoming election, the board shall provide the charter
school with a written statement specifying the reasons for excluding the needs, and the charter
school shall have an opportunity to address any issues raised by the board.

(5) When a district includes a charter school's capital construction in a district ballot
question seeking approval of bonded indebtedness:

(a) (Deleted by amendment, L. 2009, (SB 09-176), ch. 247, p. 1113, § 2, effective
August 5, 2009.)

(b) The board and the charter school shall agree to the process by which the bond
proceeds and investment and interest earnings on such proceeds shall be distributed to the
charter school prior to submitting the ballot question to the voters of the school district;

(c) The investment and interest earnings on bond proceeds shall be distributed on a pro
rata basis to the participating charter school after management fees have been collected; and

(d) The costs of submitting the ballot question shall be borne by both the district and the
charter school in proportion to their respective portions of the total bond proceeds to be received
unless the board and the charter school agree to a different cost-sharing arrangement.

(5.5) If a charter school requests that a school district submit a ballot question for
approval of a special mill levy to the voters of the district pursuant to section 22-30.5-405, the
charter school shall agree to pay all costs of submitting the ballot question. Notwithstanding this
requirement, if the board of the district submits a separate special mill levy ballot question on the
same ballot as a ballot question for approval of bonded indebtedness, the costs of submitting the
special mill levy ballot question shall be borne as agreed upon by the school district and the
charter school.

(6) (a) Notwithstanding any other provision of this section, no bonds shall be issued for
the purpose of financing charter school capital construction unless the charter school that is to
receive bond proceeds and the district have entered into a contract specifying that, if the charter
school's charter is revoked or not renewed, the charter school becomes insolvent and can no
longer operate as a charter school, or the charter school otherwise ceases to operate, following
payment of all other debts secured by the capital construction, the ownership of any capital
construction financed by the bond proceeds shall automatically revert to the school district.

(b) The charter school shall not encumber any capital construction financed by bond
revenues with any additional debt without the express approval of the school district. If the
school district denies approval, the school district shall provide written reasons for such denial.

and (6) amended and (5.5) added, (SB 09-176), ch. 247, p. 1113, § 2, effective August 5. L.
2016: (2)(a), (2)(b), IP(3), (3)(a), (3)(b), (3)(d), and (3)(g) amended and (2)(c) added, (HB
16-1354), ch. 166, p. 528, § 1, effective May 17.
22-30.5-405. Mill levy for charter school capital construction. (1) With the agreement of all charter schools that will receive the revenues generated by a special mill levy, the board of education of any school district shall, at any time at which a ballot issue arising under section 20 of article X of the state constitution may be decided, submit to the eligible electors of the district the question of whether to impose a mill levy of a stated amount and for a stated duration for the purpose of financing capital construction for one or more charter schools chartered by the district. When a mill levy for more than one year has been approved, the board shall, without calling an election, decrease the amount or duration of the mill levy as necessary to avoid excessive collections as each capital construction project financed by the mill levy is completed or the financing for such capital construction has been paid by the taxpayers of such school district. If the board is required to submit the ballot question for a mill levy pursuant to section 22-30.5-404 (4), the board shall consult with all affected charter schools that will receive the revenues generated by the special mill levy before determining the amount and duration of the special mill levy. The board of education of any school district has the discretion to combine the ballot question for a mill levy with any other tax question that the school district is submitting to the eligible electors of the district or to submit the ballot question as a separate question.

(2) Any election called pursuant to subsection (1) of this section shall be conducted pursuant to the provisions of articles 1 to 13 of title 1, C.R.S. The costs of the election shall be borne by each charter school that is to receive revenues generated by the mill levy in proportion to the amount of revenues it is to receive unless other cost-sharing arrangements are agreed to by the charter schools and, if the school district submitting the ballot question agrees to bear any of the costs of the election and is not prohibited from bearing such costs by section 22-30.5-404 (4)(b), the district.

(3) If the majority of votes cast at an election held pursuant to this section are in favor of the question, the mill levy of the district for charter school capital construction shall be as so approved by the eligible electors of the district and taxes shall be levied as so approved.

(4) Notwithstanding the provisions of section 22-30.5-404 (4) and any other provisions of this section, no mill levy shall be imposed pursuant to this section to benefit a charter school unless the charter school and the district have entered into a contract specifying to whom the ownership of any capital construction financed by the mill levy shall revert if the charter school loses its charter, fails to pay for the capital construction to be financed by revenues from the mill levy, or becomes insolvent and can no longer operate as a charter school.

(5) (Deleted by amendment, L. 2009, (SB 09-176), ch. 247, p. 1117, § 3, effective August 5, 2009.)

22-30.5-406. Direct payment of charter school bonds by the state treasurer and school districts. (1) (a) For the purpose of enhancing the ability of a charter school or an institute charter school to obtain favorable financing terms on bonds issued on behalf of the charter school or institute charter school by a governmental entity other than a school district for the purpose of financing charter school capital construction, a charter school that is entitled to receive moneys from the state public school fund pursuant to part 1 of this article, or an institute charter school that is entitled to receive moneys from the state public school fund pursuant to
part 5 of this article, may request that the state treasurer make direct payments of principal and interest on the bonds on behalf of the charter school or institute charter school. The charter school or institute charter school shall specify the amount of each payment to be made.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (1), if the state treasurer concludes that the amount of moneys from the state public school fund that a charter school or an institute charter school will receive pursuant to part 1 or part 5 of this article for any given budget year will be less than the amount of the payments specified by the charter school or institute charter school pursuant to paragraph (a) of this subsection (1) that will be due during the budget year, the state treasurer shall not agree to make direct payments on behalf of the charter school or institute charter school.

(c) (I) In the case of a charter school authorized by a school district board of education, the state treasurer shall withhold the amount of any direct payments made on behalf of a charter school plus administrative costs associated with the making of direct payments in an amount agreed upon by the state treasurer and the charter school from the payments to the chartering district of the state share of the district's total program made pursuant to article 54 of this title. The state treasurer shall notify the chief financial officers of the chartering district and the charter school of any amount of moneys withheld and the chartering district shall reduce the amount of funding it provides to the charter school by said amount. Any administrative costs withheld by the state treasurer pursuant to this subparagraph (I) shall be credited to the charter school financing administrative cash fund, which fund is hereby created. Moneys in the fund shall be continuously appropriated to the state treasurer for the direct and indirect costs of the administration of this section. Moneys in the charter school financing administrative cash fund shall remain in the fund and shall not revert to the general fund at the end of any fiscal year.

(II) In the case of an institute charter school, the state treasurer shall withhold the amount of any direct payments made on behalf of an institute charter school plus administrative costs associated with the making of direct payments in an amount agreed upon by the state treasurer and the institute charter school from the payments to the state charter school institute made by the department of education pursuant to article 54 of this title. The state treasurer shall notify the department of education, the state charter school institute, and the chief financial officer of the institute charter school of any amount of moneys withheld. Any administrative costs withheld by the state treasurer pursuant to this subparagraph (II) shall be credited to the charter school financing administrative cash fund created pursuant to subparagraph (I) of this paragraph (c).

(d) The state treasurer shall establish the procedures necessary to implement this subsection (1) and may promulgate rules for that purpose. Any rules shall be promulgated in accordance with article 4 of title 24, C.R.S.

(e) This subsection (1) shall not be construed to require the state to continue the payment of state assistance to any school district or to the state charter school institute or to limit or prohibit the state from repealing or amending any law relating to the amount of state assistance to school districts or the state charter school institute or the manner or timing of the payment of such assistance. This subsection (1) shall not be construed to create a debt of the state or any state financial obligation whatsoever with respect to any bonds issued on behalf of a charter school or an institute charter school by a governmental entity other than a school district for the purpose of financing charter school capital construction within the meaning of any state
constitutional provision or to create any liability except to the extent provided in this subsection (1).

(2) (a) If the state treasurer does not agree to make direct payments of principal and interest on bonds on behalf of a charter school or an institute charter school pursuant to subsection (1) of this section because the charter school or institute charter school is not entitled to receive moneys from the state public school fund pursuant to part 1 or part 5 of this article or because the state treasurer has concluded that the amount of moneys from the state public school fund that the charter school or institute charter school will receive pursuant to part 1 or part 5 of this article for any given budget year will be less than the amount of the direct payment specified by the charter school or institute charter school that will be due during the budget year, the charter school may request that its chartering district, or the institute charter school may request that the state charter school institute, make direct payments of principal and interest on the bonds on behalf of the charter school or the institute charter school. The charter school or the institute charter school shall specify the amount of each payment to be made.

(b) (I) Notwithstanding the provisions of paragraph (a) of this subsection (2), if the board of education of a chartering district concludes that the total amount of moneys that a charter school will receive for any given budget year from the district pursuant to the operating contract between the district and the charter school will be less than the amount of the payments specified by the charter school pursuant to paragraph (a) of this subsection (2) that will be due during the budget year, the chartering district shall not agree to make direct payments on behalf of the charter school.

(II) Notwithstanding the provisions of paragraph (a) of this subsection (2), if the governing board of the state charter school institute concludes that the total amount of moneys that an institute charter school will receive for any given budget year from the state charter school institute pursuant to the charter contract between the state charter school institute and the institute charter school will be less than the amount of the payments specified by the institute charter school pursuant to paragraph (a) of this subsection (2) that will be due during the budget year, the governing board shall not agree to make direct payments on behalf of the institute charter school.

(c) (I) A chartering district shall withhold the amount of any direct payments made on behalf of a charter school plus administrative costs associated with the making of direct payments in an amount agreed upon by the chartering district and the charter school from the funding provided by the district to the charter school pursuant to part 1 of this article.

(II) The state charter school institute shall withhold the amount of any direct payments made on behalf of an institute charter school plus administrative costs associated with the making of direct payments in an amount agreed upon by the state charter school institute and the institute charter school from the funding provided by the institute to the institute charter school pursuant to part 5 of this article.

(d) This subsection (2) shall not be construed to create a debt of any chartering district or the state charter school institute or any district or institute obligation whatsoever with respect to any lease agreement or installment purchase agreement entered into by a charter school or institute charter school within the meaning of any state constitutional provision or to create any liability except to the extent provided in this subsection (2).

(3) In accordance with section 11 of article II of the state constitution, the state hereby covenants with the purchasers of any outstanding bonds issued on behalf of a charter school or
an institute charter school by a governmental entity in reliance upon this section that it will not
repeal, revoke, or rescind the provisions of this section or modify or amend the same so as to
limit or impair the rights and remedies granted by this section. However, nothing in this
subsection (3) shall be deemed or construed to require the state to continue the payment of state
assistance received by charter schools or institute charter schools or to limit or prohibit the state
from repealing, amending, or modifying any law relating to the amount of state assistance
received by charter schools or institute charter schools or the manner of payment or timing
thereof. Nothing in this section shall be deemed or construed to create a debt of the state with
respect to such bonds or other obligations within the meaning of any state constitutional
provision or to create any liability except to the extent provided in this section.

22-30.5-407. State charter school debt reserve fund - creation - use of fund moneys -
legislative declaration. (1) The general assembly hereby finds and declares that:

(a) The state charter school debt reserve fund created by this section is intended to
enhance the ability of any qualified charter school that chooses to finance capital construction
with revenues from bonds issued on behalf of the qualified charter school by the Colorado
educational and cultural facilities authority created in section 23-15-104 (1)(a), C.R.S., to obtain
such financing on favorable terms by providing a source of moneys that can be used to make
bond payments if the qualified charter school fails to make such payments;

(b) It is appropriate for state education fund moneys to be appropriated to the state
charter school debt reserve fund and it is also appropriate for those qualified charter schools that
receive more favorable financing terms that result in interest rate savings due to the existence of
and reliance upon the state charter school debt reserve fund and the provisions of section
22-30.5-408 with respect to such bonds to pay a portion of their resulting savings to the state
charter school debt reserve fund and for all charter schools to bear the risk of having charter
school per pupil facilities aid program moneys withheld to replenish the state charter school debt
reserve fund in the event that moneys from the state charter school debt reserve fund are
expended to make bond payments.

(2) (a) There is hereby created in the state treasury the state charter school debt reserve
fund. The fund shall consist of the following moneys:

(I) One million dollars that are hereby appropriated from the state education fund to the
state charter school debt reserve fund on July 1, 2002;

(I.5) Six million five hundred thousand dollars that are transferred from the state
education fund to the state charter school debt reserve fund on July 1, 2014;

(II) Moneys credited to the state charter school interest savings account of the fund
pursuant to subsection (3) of this section;

(III) Moneys transferred from the state education fund to the state charter school debt
reserve fund pursuant to paragraph (d) of subsection (4) of this section;

(IV) Moneys credited to the fund by the state treasurer pursuant to section 22-30.5-408
(2)(c)(II); and
(V) Interest and income credited to the fund pursuant to paragraph (c) of this subsection (2).

(b) There is hereby created within the state charter school debt reserve fund the state charter school interest savings account. The account shall consist of moneys credited to the account by the state treasurer pursuant to subsection (3) of this section and any interest and income derived from the deposit and investment of moneys in the account.

(c) All interest and income derived from the deposit and investment of moneys in the state charter school debt reserve fund on or before June 30, 2014, are credited to the state education fund, and all interest and income derived from the deposit and investment of moneys in the state charter school debt reserve fund on and after July 1, 2014, are credited to the state charter school debt reserve fund; except that all interest and income derived from the deposit and investment of moneys in the state charter school interest savings account shall be credited to the account in accordance with paragraph (b) of this subsection (2). At the end of any fiscal year, all unexpended and unencumbered moneys in the state charter school debt reserve fund and the account remain in the fund and the account respectively.

(d) All moneys credited to the state charter school debt reserve fund or expended from the fund, other than moneys credited to or expended from the state charter school interest savings account, are moneys originally credited to the state education fund and are therefore, in accordance with section 17 (3) of article IX of the state constitution and section 22-55-103 (5), exempt from:

(I) The limitation on state fiscal year spending set forth in section 20 (7)(a) of article X of the state constitution and section 24-77-103, C.R.S.; and

(II) The limitation on local government fiscal year spending set forth in section 20 (7)(b) of article X of the state constitution.

(3) (a) A qualified charter school that chooses to finance capital construction with revenues from bonds issued on behalf of the qualified charter school by the Colorado educational and cultural facilities authority created in section 23-15-104 (1)(a), C.R.S., shall pay to the state treasurer, on an annual basis, commencing and calculated on the date of issuance of the bonds and on each one-year anniversary of the issuance of the bonds thereafter while the bonds remain outstanding, an amount equal to ten basis points of the principal amount of the bonds outstanding as of each calculation date, and such amount shall be deemed to be the amount of any interest rate savings resulting from more favorable financing terms attributable to the reliance upon the state charter school debt reserve fund and the provisions of section 22-30.5-408 with respect to such bonds. Each annual payment of ten basis points shall be prorated and payable in equal installments among the debt service payments required of the qualified charter school, with respect to the qualified charter school bonds issued for its benefit, during the twelve months following the annual computation date. The state treasurer shall credit any payment received pursuant to this paragraph (a) to the state charter school interest savings account.

(b) The state treasurer may require each qualified charter school that makes required payments to the state treasurer pursuant to paragraph (a) of this subsection (3) to pay a fee to the state treasurer to defray any direct and indirect administrative costs incurred by the state treasurer in executing duties required by this section. The state treasurer shall deposit any fees received into the state charter school interest savings account of the state charter school debt reserve fund.
(4) (a) Moneys in the state charter school debt reserve fund are hereby continuously appropriated to the state treasurer, who shall expend such moneys solely for the purpose of paying principal and interest on bonds issued on behalf of a qualified charter school by the Colorado educational and cultural facilities authority and only if:

(I) The state treasurer has been notified and has confirmed, in accordance with paragraph (b) of this subsection (4), that the qualified charter school has expended all moneys in its own debt service reserve fund or account that has been funded with proceeds derived from the issuance of the bonds and is unable to make bond payments; and

(II) The qualified charter school has made payments to the state treasurer as required by subsection (3) of this section.

(a.5) Notwithstanding the provisions of paragraph (a) of this subsection (4), fees deposited into the state charter school interest savings account of the state charter school debt reserve fund pursuant to paragraph (b) of subsection (3) of this section may be expended by the state treasurer for the purpose of defraying any direct and indirect administrative costs incurred by the state treasurer in executing duties required by this section.

(b) Whenever the trustee responsible for making payments to the holders of any qualified charter school bonds, as defined in section 22-30.5-408 (1)(d), issued on behalf of a qualified charter school by the Colorado educational and cultural facilities authority has not received payment of principal or interest on the bonds on the tenth business day immediately prior to the date on which such payment is due and the debt service reserve fund for the qualified charter school has been depleted, the trustee shall so notify the state treasurer and the qualified charter school by telephone, facsimile, or other similar communication, followed by written verification, of such payment status. The state treasurer shall immediately contact the qualified charter school and determine whether the qualified charter school will make the payment by the date on which it is due and, if the state treasurer confirms that the qualified charter school will not make the payment, the state treasurer shall make the payment.

(c) The state treasurer shall expend all moneys in the state charter school interest savings account before expending any other moneys in the state charter school debt reserve fund. If a qualified charter school defaults on a payment with respect to outstanding qualified charter school bonds, as defined in section 22-30.5-408 (1)(d), and the amounts of such payment defaults exceed the amounts available in the state charter school interest savings account and the state charter school debt reserve fund, moneys from the account and the fund shall be allocated pro rata among the qualified charter school bonds that will have a default in the payment of principal or interest based on the ratio that the payment default on each series of such bonds bears to the total payment defaults on all series of such qualified charter school bonds.

(d) If the state treasurer expends moneys from the portion of the state charter school debt reserve fund that is not the state charter school interest savings account or if the state treasurer expends moneys from the state charter school interest savings account for purposes other than the payment of the administrative costs of the state treasurer, the state treasurer shall withhold charter school per pupil facilities aid program moneys to the extent necessary to restore that portion of the state charter school debt reserve fund, by the transfer of all withheld amounts from the state education fund to that portion of the state charter school debt reserve fund, to a balance of seven million five hundred thousand dollars and to the extent necessary to restore the state charter school interest savings account, by the transfer of all withheld amounts from the state
education fund to the state charter school interest savings account, to the balance prior to expenditure of moneys from the account, in accordance with the following requirements:

(I) Each qualified charter school that has had bonds issued on its behalf by the Colorado educational and cultural facilities authority that have relied upon the state charter school debt reserve fund and the provisions of section 22-30.5-408, shall have its payments reduced by the same percentage and by a maximum of fifty percent.

(II) If, in any given fiscal year, the state treasurer determines that after withholding the maximum amount of charter school per pupil facilities aid program moneys that may be withheld pursuant to subparagraph (I) of this paragraph (d) the portion of the state charter school debt reserve fund that is not the state charter school interest savings account will not be restored to a balance of seven million five hundred thousand dollars or the state charter school interest savings account will not be restored to the balance in the account prior to the state treasurer's expenditure of moneys from the account, each charter school that is not relying upon the state charter school debt reserve fund and the provisions of section 22-30.5-408 with respect to bonds issued on its behalf by the Colorado educational and cultural facilities authority shall have its payment reduced by the same percentage and by a maximum of ten percent.

(5) This section shall not be construed to create any state debt, to require the state to make any bond payments on behalf of any qualified charter school from any source of state moneys other than the state charter school debt reserve fund, or to require the state to fully pay off any outstanding bonds of a qualified charter school that cannot make scheduled bond payments.

(6) For purposes of this section, "qualified charter school" means a qualified charter school as defined in section 22-30.5-408 (1)(c).

(7) A qualified charter school that chooses to finance capital construction with revenues from bonds issued on behalf of the qualified charter school by the Colorado educational and cultural facilities authority created in section 23-15-104 (1)(a), C.R.S., shall request that the state treasurer make direct payments of principal and interest on the bonds on behalf of the qualified charter school in accordance with section 22-30.5-406 (1). If the state treasurer does not agree to make direct payments and the qualified charter school is a district charter school, the qualified charter school shall request that its chartering district make direct payments in accordance with section 22-30.5-406 (2). If the state treasurer does not agree to make direct payments and the qualified charter school is an institute charter school, the qualified charter school shall request that the state charter school institute make direct payments of principal and interest on the bonds on behalf of the institute charter school.

(8) This section shall only apply to bonds issued by the Colorado educational and cultural facilities authority in reliance upon the provisions of section 22-30.5-408 (2).

(9) This section is in addition to, and not in limitation of, the powers granted to the Colorado educational and cultural facilities authority pursuant to article 15 of title 23, C.R.S., to finance the costs of facilities of charter schools.

(10) In accordance with section 11 of article II of the state constitution, the state hereby covenants with the purchasers of any outstanding bonds issued in reliance upon the existence of the state charter school interest savings account that the state will not repeal, revoke, or rescind the provisions of this part 4 concerning the account or modify or rescind the same so as to limit or impair the rights and remedies granted by this section to the purchasers of such bonds and that any moneys in the account shall not revert to the general fund.

Cross references: For the short title ("Student Success Act") in HB 14-1292, see section 1 of chapter 243, Session Laws of Colorado 2014.

22-30.5-408. Replenishment of qualified charter school debt service reserve funds - additional responsibilities - state treasurer - qualified charter schools - definitions. (1) As used in this section:
   a) "Charter school debt service reserve fund" means a reasonably required debt service reserve fund or account that has been funded with proceeds derived from the issuance of qualified charter school bonds or other moneys of the qualified charter school.
   b) "Investment grade" means debt obligations that are rated in one of the four highest investment rating categories by one or more nationally recognized rating agencies.
   b.5) "Maximum principal outstanding" means the aggregate outstanding principal amount of bonds for which moneys may be appropriated pursuant to paragraph (a) of subsection (2) of this section.
   c) "Qualified charter school" means a charter school that is described in section 22-30.5-104 or an institute charter school as that term is defined in section 22-30.5-502 that has a stand-alone credit assessment or rating at least investment grade by a nationally recognized rating agency at the time of issuance of any qualified charter school bonds on behalf of the charter school by the Colorado educational and cultural facilities authority pursuant to the "Colorado Educational and Cultural Facilities Authority Act", article 15 of title 23, C.R.S., and that has been certified as a qualified charter school by the state treasurer.
   d) "Qualified charter school bonds" means bonds that are issued by the Colorado educational and cultural facilities authority for the purpose of financing a facility to be used for occupancy by pupils enrolled in a qualified charter school and are secured by the state charter school debt reserve fund created by section 22-30.5-407 (2) and the provisions of this section.
   e) "Qualified charter school debt service reserve fund requirement" means the level of funding required for a qualified charter school debt service reserve fund as specified in the trust indenture or resolution pursuant to which qualified charter school bonds have been issued, which level of funding shall be no less than the maximum annual principal and interest requirement for the allocable portion of the qualified charter school bonds issued for the benefit of the qualified charter school; except that an amount equal to the qualified charter school debt service reserve fund may be subtracted from the final principal payment for the allocable portion of the qualified charter school bonds issued for the benefit of the qualified charter school when determining the maximum annual principal and interest requirement amount.
   f) "Rating agency" means any nationally recognized statistical rating organization as defined under rule 2a-7 of the "Securities Exchange Act of 1934", as amended, 17 CFR 270.2a-7 (a)(17).
(1.5) (a) The Colorado educational and cultural facilities authority shall develop and publicly disclose the application requirements for the qualified charter school, the application and processing timeline, and all issuer fees and expenses that will apply to the transaction.

(b) The Colorado educational and cultural facilities authority shall not charge a qualified charter school for which it issues bonds pursuant to section 22-30.5-407 an annual fee after the issuance of the bonds occurs; except that this paragraph (b) shall not be construed to prohibit the authority from charging a qualified charter school for fees and expenses incurred in the enforcement of covenants or remedies.

(2) (a) If the Colorado educational and cultural facilities authority has issued qualified charter school bonds on behalf of any qualified charter school that fails immediately to restore its qualified charter school debt service reserve fund to the applicable qualified charter school debt service reserve fund requirement, the board of directors of the authority shall submit to the governor a certificate certifying any amount of money required to restore the qualified charter school debt service reserve fund to the applicable qualified charter school debt service reserve fund requirement. The governor shall submit a request for appropriations in an amount sufficient to restore any or all qualified charter school debt reserve funds to their respective qualified charter school debt service reserve fund requirements, and the general assembly may, but is not required to, appropriate money for said purpose. If, in its sole discretion, the general assembly appropriates any money for said purpose, the aggregate outstanding principal amount of bonds for which money may be appropriated for said purpose must not exceed seven hundred fifty million dollars.

(b) Any moneys appropriated for the purpose of restoring any qualified charter school debt service reserve fund to its qualified charter school debt service reserve fund requirement shall be deposited into the applicable qualified charter school debt service reserve fund.

(c) (I) Upon the expenditure of moneys from the state charter school debt reserve fund or the state charter school interest savings account of the fund by the state treasurer, the state treasurer may file a lien on behalf of the state on the property securing the bonds for which the qualified charter school debt reserve fund is expended in an amount equal to the amount of moneys expended from the state charter school debt reserve fund or the state charter school interest savings account; except that such lien shall not be on a parity with or superior to any lien then secured by the property, including any lien securing such qualified charter school bonds.

(II) Any net proceeds from the sale of property securing the bonds for which the qualified charter school debt reserve fund is established shall be used to reimburse the state treasurer for any costs incurred in connection with the sale of such property. The state treasurer shall credit any additional net proceeds from the sale of such property to the state charter school debt reserve fund to restore the fund to a balance of seven million five hundred thousand dollars. The state treasurer shall credit any remaining net proceeds from the sale of such property to the state charter school interest savings account in the state charter school debt reserve fund.

(d) Upon the expenditure of moneys from the state charter school debt reserve fund or the state charter school interest savings account of the fund by the state treasurer, a qualified charter school shall provide the state treasurer with at least the following information:

(I) A copy of any official statement or other offering document for the issuance or incurrence of the financial obligation of the qualified charter school;
A copy of any filings or correspondence with the federal internal revenue service with respect to the issuance or incurrence, including, if applicable, a copy of each form 8038 or form 8038G;

(III) A copy of the continuing disclosure undertaking; and

(IV) Any other information that is described in the state public financing policy promulgated pursuant to section 24-36-121 (5), C.R.S., related to the issuance or incurrence.

(2.7) A qualified charter school that has financed capital construction with qualified charter school bonds shall confirm a stand-alone credit assessment or rating of at least investment grade by a nationally recognized rating agency on its outstanding qualified charter school bonds at the time of the issuance of any new charter school bonds.

(3) This section shall not be construed to create any debt of the state or any state financial obligation whatsoever within the meaning of any state constitutional provision or to create any state liability whatsoever.

(4) The general assembly hereby finds and declares that its intent in enacting this section is to support charter schools and charter school capital construction by helping qualified charter schools that choose to have the Colorado educational and cultural facilities authority issue qualified charter school bonds on their behalf obtain more favorable financing terms for the bonds.

Editor's note: Subsection (4) was originally enacted as subsection (3) in House Bill 03-1021, but has been renumbered on revision for ease of location.

Cross references: For the short title ("Student Success Act") in HB 14-1292, see section 1 of chapter 243, Session Laws of Colorado 2014.

22-30.5-409. Annual reports on bonds issued on behalf of charter schools - review by state auditor. (1) Prior to January 30, 2003, and prior to January 30 of each year thereafter, the Colorado educational and cultural facilities authority created in section 23-15-104 (1)(a), C.R.S., shall submit a report to the state auditor that includes information concerning the issuance of qualified charter school bonds, as defined in section 22-30.5-408 (1)(d), that have resulted in charter schools obtaining more favorable financing terms by reliance on the existence of the state charter school debt reserve fund created in section 22-30.5-407 (2)(a) and the potential replenishment of the state charter school debt reserve fund pursuant to section 22-30.5-408 (2)(a). Such report shall include, but need not be limited to:

(a) The total amount of such qualified charter school bonds issued during the most recently completed calendar year;
(b) The charter schools on whose behalf such qualified charter school bonds were issued;
(c) An itemization of the charter school facilities for which such qualified charter school bonds were issued, the total cost of each such charter school facility, and the percentage of the total cost of each such facility to be paid from the proceeds obtained from the issuance of such qualified charter school bonds;
(d) The investment ratings of such qualified charter school bonds;
(e) The total amount of net and gross proceeds obtained from the issuance of such qualified charter school bonds during the most recently completed calendar year;
(f) The total amount of such outstanding qualified charter school bonds;
(g) The total amount of annual installments of principal and interest on such qualified charter school bonds that were scheduled to be paid during the most recently completed calendar year, the total amount of such annual installments actually paid during the most recently completed calendar year, and the total amount of such annual installments scheduled to be paid during the current calendar year and future calendar years;
(h) The total amount, if any, of moneys expended from each charter school's own debt service reserve fund or account during the most recently completed calendar year for the purpose of paying principal and interest on such qualified charter school bonds; and
(i) The total amount, if any, of moneys expended from the state charter school debt reserve fund during the most recently completed calendar year for the purpose of paying principal and interest on such qualified charter school bonds.

(2) Notwithstanding section 24-1-136 (11)(a)(I), no later than March 1, 2002, and no later than March 1 each year thereafter, the state auditor shall examine the report submitted in accordance with subsection (1) of this section and, upon completion of such review, shall report any findings regarding said submitted report to the education committees of the senate and the house of representatives, the legislative audit committee, the capital development committee, the joint budget committee, and the department of education.

PART 5

INSTITUTE CHARTER SCHOOLS

22-30.5-501. Legislative declaration. (1) The general assembly hereby finds, determines, and declares that:
(a) There is a growing demand for more charter schools in the state;
(b) There is an underserved population of at-risk students in the state, for whom innovative educational models are needed.
(2) The intent of the general assembly in establishing the state charter school institute pursuant to this part 5 is to:
(a) Provide an alternative mode of authorizing charter schools as a means to assist school districts in utilizing best practices for chartering schools and to approve and oversee charter schools in school districts not desiring to do so themselves; and
(b) Preserve the authority of a school district to authorize charter schools, at the school district's option.

22-30.5-502. Definitions. As used in this part 5, unless the context otherwise requires:
(1) "Alternative administrative unit" has the same meaning as set forth in section 22-30.5-103 (1).
(1.3) "At-risk student" means a student:
(a) Who is eligible to receive free or reduced-price lunch pursuant to the provisions of the federal "Richard B. Russell National School Lunch Act", 42 U.S.C. sec. 1751 et seq.; or
(b) Who has performed below the level of meeting expectations, as identified by rule of the state board, on a statewide English language arts or mathematics assessment.
(1.5) "Automatic waiver" means the waiver of a state statute or state board rule:
(a) That is included on the list of automatic waivers adopted by rule of the state board;
(b) That is available to each charter school, including each institute charter school, and is valid for the initial, or subsequent renewal, term of the charter contract; and
(c) For which a charter school, including an institute charter school, is not required to submit a statement that specifies the manner in which the charter school intends to comply with the intent of the automatically waived state statute or state board rule.
(2) "Board of cooperative services" means a board of cooperative services as defined in section 22-5-103 (2).
(2.5) "Bullying" shall have the same meaning as set forth in section 22-32-109.1 (1)(b).
(3) "Commissioner" means the office of the commissioner of education created and existing pursuant to section 1 of article IX of the state constitution.
(4) "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
(4.5) "Education management provider" means a nonprofit, not-for-profit, or for-profit entity that contracts with an institute charter school to provide, manage, or oversee all or substantially all of the educational services provided by the institute charter school.
(5) "Institute board" means the governing board of the state charter school institute that is appointed pursuant to section 22-30.5-505 (2).
(6) "Institute charter school" means a charter school authorized pursuant to this part 5.
(7) "Local board of education" or "local board" means a school district board of education.
(8) "Moratorium" means a school district's official policy of refusing to authorize charter schools and an ongoing pattern or practice of refusing to accept or review charter school applications.
(9) "Online pupil" means:
(a) For the 2007-08 budget year, a child who receives educational services predominantly through an online program or online school created pursuant to article 30.7 of this title;
(b) For the 2008-09 budget year, and for each budget year thereafter, a child who receives educational services predominantly through a multi-district online school, as defined in section 22-30.7-102 (6), created pursuant to article 30.7 of this title.
"Pupil enrollment count day" has the same meaning as set forth in section 22-54-103 (10.5).

"School district" means a school district organized and existing under the laws of Colorado, except a local college district.

"School food authority" means:
(a) A school district or the state charter school institute;
(a.3) A charter school collaborative formed pursuant to section 22-30.5-603;
(a.5) A board of cooperative services created pursuant to article 5 of this title that elects to operate as a school food authority pursuant to section 22-5-120; or
(b) A district charter school or an institute charter school that:
(I) The commissioner or his or her designee provisionally authorizes as a school food authority pursuant to section 22-32-120 (6); or
(II) The department of education authorizes as a school food authority pursuant to section 22-32-120 (5).

"State board" means the state board of education created and existing pursuant to section 1 of article IX of the state constitution.

"State charter school institute" or "institute" means the entity created pursuant to section 22-30.5-503.

Cross references: For the short title ("Student Success Act") in HB 14-1292, see section 1 of chapter 243, Session Laws of Colorado 2014.

22-30.5-503. State charter school institute - establishment - rules. (1) (a) There is established, as an independent agency in the department of education, the state charter school institute. The institute is a type 1 entity, as defined in section 24-1-105, and exercises its powers and performs its duties and functions under the department of education.

(b) In addition to any other powers or duties granted by law to the institute, the institute shall:
(I) Review institute charter school applications and assist in the establishment of institute charter schools throughout the state;
(II) Assist in the conversion of a school district charter school to an institute charter school pursuant to section 22-30.5-510 (1);

(III) Approve or deny institute charter school applications and revoke, renew, or refuse to renew institute charter school contracts; and

(IV) Monitor the operations of institute charter schools and the academic achievement of students attending institute charter schools, including compliance with applicable state and federal accountability requirements.

(c) The institute is authorized to enter into contracts or service agreements with any public or private contractor to provide administrative services or technical assistance to institute charter schools pursuant to this part 5. Any such contract or service agreement shall also include provisions establishing liquidated damages and penalties for failure to comply with the terms and conditions of the contract and shall be in accordance with rules promulgated by the institute board.

(2) It is the intent of the general assembly that the institute shall exist to model best practices in authorizing charter schools and make those practices available to school districts.

(3) For purposes of federal law, the state charter school institute shall be a local educational agency, deemed to be a public authority legally constituted within the state for the administrative control and direction of, and to perform a service function for, public elementary schools and secondary schools in the state.

(3.5) (a) The state charter school institute may act as the fiscal manager for purposes of grant management for a district charter school, an institute charter school, or a consortium of charter schools that chooses to apply for a grant through a nonformulaic, competitive grant program created by a federal or state statute or program; except that the provisions of this subsection (3.5) shall not apply to an application for:

(I) A grant program created in the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended, or in its implementing regulations.

(II) (Deleted by amendment, L. 2011, (HB11-1089), ch. 55, p. 147, § 1, effective March 25, 2011.)

(b) In acting as a fiscal manager for purposes of grant management pursuant to this subsection (3.5), the institute shall treat district charter schools and institute charter schools equally.

(c) The institute board, by rule, may establish a fee that a district charter school, an institute charter school, or a consortium of charter schools shall pay if it requests that the institute act as the fiscal manager for purposes of grant management for the charter school or consortium of charter schools pursuant to this subsection (3.5). The amount of the fee must not exceed the direct costs incurred by the institute in implementing the provisions of this subsection (3.5). Any amount received by the institute from fees paid pursuant to this subsection (3.5) is continuously appropriated to the institute for the costs incurred in implementing this subsection (3.5). The institute board shall adopt rules as necessary to implement the provisions of this subsection (3.5).

(d) The state board shall promulgate rules to establish processes, guidelines, and eligibility for a single school or consortium of schools to apply for grants and programs pursuant to this section.

(4) For purposes of the "Exceptional Children's Educational Act", article 20 of this title, the state charter school institute shall be considered an administrative unit, responsible for
assisting in the delivery of federally required services to students enrolled in institute charter schools. The institute may provide or contract for the provision of services to a student enrolled in an institute charter school.

(5) The state charter school institute shall be responsible for monitoring the fiscal management of each institute charter school. Each institute charter school shall annually provide to the institute the results of an independent financial audit of the institute charter school. The institute shall report to the state board the same financial information in the same format that school districts are required to report to the state board pursuant to this title. Institute charter schools shall compile and report to the institute the same financial information in the same format that charter schools are required to report to school districts pursuant to part 1 of this article.

(6) The institute and institute charter schools shall be deemed part of the thorough and uniform system of free public schools to be established and maintained by the general assembly, as required in section 2 of article IX of the state constitution. The state board shall have general supervision of institute charter schools, as required in section 1 of article IX of the state constitution.

(7) The institute, by virtue of its functions and duties, shall not be deemed to be a school district for any purpose.

(8) The institute and the institute board are agencies of the state for purposes of the public records provisions of part 2 of article 72 of title 24, C.R.S., and state public bodies for purposes of the open meetings provisions of part 4 of article 6 of title 24, C.R.S.

Cross references: For the short title (the "Debbie Haskins 'Administrative Organization Act of 1968' Modernization Act") in SB 22-162, see section 1 of chapter 469, Session Laws of Colorado 2022.

22-30.5-503.5. School response framework. The state charter school institute shall establish a school response framework that complies with the provisions of section 22-32-109.1 (4) for each state charter school.

Cross references: For the legislative declaration contained in the 2008 act enacting this section, see section 1 of chapter 215, Session Laws of Colorado 2008.
22-30.5-504. Institute chartering authority - institute charter schools - exclusive authority - retention - recovery - revocation. (1) The institute shall be authorized to approve or deny an application submitted for the establishment of an institute charter school pursuant to this part 5.

(2) An institute charter school applicant may submit an application to the institute only if the school district in which the institute charter school is to be located has not retained exclusive authority to authorize charter schools as provided in subsection (5) of this section. If a school district has not retained exclusive authority to authorize charter schools as provided in subsection (5) of this section, the school district and the institute shall have concurrent authority to authorize charter schools and institute charter schools, respectively, to be located within the geographic boundaries of the school district. The school district shall monitor and oversee all charter schools authorized by the school district as provided in part 1 of this article. The institute shall monitor and oversee all institute charter schools authorized by the institute as provided in this part 5.

(3) Nothing in this part 5 shall be construed to eliminate the ability of a school district to authorize charter schools pursuant to part 1 of this article. A school district shall retain the authority to re-authorize and to oversee any charter school which it has authorized, except with respect to any charter school that is converted to an institute charter school pursuant to section 22-30.5-510.

(4) (a) A local board of education may seek to retain or recover exclusive authority to authorize charter schools within the geographic boundaries of the school district by presenting to the state board, on or before March 1 of the fiscal year prior to that for which the exclusive authority is to apply, a written resolution adopted by the local board of education indicating the intent to retain or recover exclusive authority to authorize charter schools. The written resolution shall be accompanied by a written description of those portions of subsection (5) of this section that the local board of education intends to demonstrate. The local board of education shall provide a complete copy of the resolution, including the description, to each charter school authorized by the local board on or before the date the local board submits the resolution to the state board. The state board shall determine within sixty days after receiving the resolution whether to grant the local board of education exclusive authority. If the state board denies the local board exclusive authority to authorize charter schools within the geographic boundaries of the school district, it shall provide to the local board of education a written explanation of the basis for the denial.

(b) A party may challenge the grant of exclusive authority made by the state board pursuant to subsection (5) of this section by filing with the state board a notice of challenge within thirty days after the state board grants exclusive authority. The notice shall be accompanied by a specific written description, with supporting documentation, of the basis for the challenge. The challenging party, at the time of filing notice with the state board, shall provide a copy of the notice of challenge, with the written description of the basis and supporting documentation, to the local board of education that has been granted exclusive authority. The state board shall permit the local board the opportunity to appear at a public hearing and respond to the challenge and shall permit the challenger the opportunity at the public hearing to rebut any arguments made by the local board. If the local board of education intends to respond to the challenge, it shall submit a copy of its response in writing, with supporting documentation, to the challenging party and the state board at least fifteen days prior to the public hearing. The state
board shall make a determination upon the challenge within sixty days after receipt of the notice of challenge. In announcing its determination, the state board shall provide a written explanation of the basis for its decision to either grant or deny to the local board exclusive authority to authorize charter schools within the geographic boundaries of the school district.

(c) If a local board of education recovers exclusive authority pursuant to this section to authorize charter schools within the geographic boundaries of the school district, any institute charter schools authorized within the geographic boundaries of the school district prior to the date on which the local board of education recovered exclusive authority shall continue to be authorized by and accountable to the institute; except that an institute charter school that is converted to a district charter school pursuant to subsection (10) of this section shall be accountable to the local board of education.

(d) Each local board of education that has been granted, prior to or on or after April 17, 2008, exclusive authority to charter schools within the geographic boundaries of the school district shall retain exclusive authority until the local board of education voluntarily relinquishes the exclusive authority or the state board of education revokes the exclusive authority pursuant to the provisions of subsection (7.5) of this section. A local board of education that voluntarily relinquishes exclusive authority may regain exclusive authority by applying pursuant to the provisions of this subsection (4).

(5) (a) The state board shall grant to a local board of education exclusive authority to authorize charter schools within the geographic boundaries of the school district if the state board determines, after adequate notice and in a public hearing and after receiving input from any charter schools authorized by the local board of education, that the local board can show a recent pattern of providing fair and equitable treatment to its charter schools through the local board's demonstration of:

(I) Full compliance with the provisions of the "Charter Schools Act", part 1 of this article, which includes, at a minimum:
   (A) Compliance with full and accurate accounting practices and charges for central administrative overhead costs;
   (B) Compliance with sections 22-30.5-112 and 22-30.5-112.1, which permit a charter school to purchase, at its discretion, certain services or a combination of services;
   (C) The absence of a school district moratorium regarding charter schools or the absence of any district-wide charter school enrollment limits; and
   (D) Compliance with valid orders of the state board; and
   (II) Any combination of the following:
   (A) The distribution to charter schools authorized by the local board of a pro rata share of mill levy overrides, except for any mill levied for a particular purpose that by its express terms is intended to benefit a grade, a program, or a school and, as a result, is not available to be offered to any charter school that did not participate in the mill levy proceeds;
   (B) The provision of assistance to charter schools to meet their facilities needs, by including those needs in local bond issues or otherwise providing available land and facilities that are comparable to those provided to other public school students in the same grade levels within the school district;
   (C) The distribution to charter schools authorized by the local board of a pro rata share of federal and state grants received by the school district, except for any grant received for a particular purpose that by its express terms is intended to benefit a student population not able to
be served by, or a program not able to be offered at, a charter school which did not receive a proportionate share of such grant proceeds;

(D) The provision of adequate staff and other resources to serve charter schools authorized by the local board, which services are provided by the school district at a cost to the charter schools that does not exceed their actual cost to the school district, or, in the case of federally required educational services, the amount specified in section 22-30.5-112 (2)(a.8);

(E) The lack of a policy or practice of imposing individual charter school enrollment limits, except as otherwise provided in article 36 of this title; or

(F) The provision of an adequate number of educational choice programs to serve students exercising their rights to transfer pursuant to the "No Child Left Behind Act of 2001", Public Law 107-110, and a history of charter school approval that encourages programs that serve at-risk student populations.

(b) Notwithstanding any other provision of this subsection (5) to the contrary, the state board shall grant to a local board of education exclusive authority to authorize charter schools within the geographic boundaries of the school district if the local board certifies that:

(I) The total pupil enrollment of the school district is less than three thousand pupils.

(II) (Deleted by amendment, L. 2008, p. 487, § 2, effective April 17, 2008.)

(c) Notwithstanding any other provision of this subsection (5), the state board shall not deny exclusive authority to a local board of education based upon a school district moratorium regarding charter schools that was in existence prior to July 1, 2004, but was repealed on or before October 1, 2004.

(d) If the state board denies the exclusive authority of a local board of education to authorize charter schools within the geographic boundaries of the school district, the local board may reapply to retain or recover exclusive authority as provided in subsection (4) of this section as soon as the local board determines it has resolved the issue that was the basis for the denial.

(6) For local boards of education that have no discernable history of considering charter school applications or authorizing charter schools, the state board shall grant exclusive authority if the local board demonstrates its compliance with the provisions of sub-subparagraphs (C) and (D) of subparagraph (I) of paragraph (a) of subsection (5) of this section and presents to the state board a plan to implement a combination of the authorizing practices described in paragraph (a) of subsection (5) of this section.

(7) A grant of exclusive authority by the state board shall continue so long as a local board of education continues to comply with the provisions of subsection (5) of this section, and the local board need not reapply; except that a local board of education that retains exclusive authority pursuant to paragraph (b) of subsection (5) of this section shall reapply for exclusive authority if the criteria specified in said paragraph (b) no longer apply to the school district.

(7.5) (a) A charter school, a charter school applicant, or an organization that represents charter schools may request revocation of a local board of education's exclusive authority to authorize charter schools within the geographic boundaries of the school district by filing a request for revocation with the state board. A charter school may request revocation of the exclusive authority only of its chartering local board. A charter applicant may request revocation of the exclusive authority only of a local board of education to which it may apply for a charter.

(b) A charter school, a charter school applicant, or an organization that represents charter schools may request revocation of a local board of education's exclusive authority only on the grounds that the local board, since the date that the local board received exclusive authority, has
demonstrated a pattern of failing to comply with one or more of the provisions of paragraph (a) of subsection (5) of this section. A charter school, a charter school applicant, or an organization that represents charter schools may not request revocation of a local board of education's exclusive authority solely on the basis of:

(I) The local board's refusal of a charter application; or

(II) An action by the local board that a charter school or a charter school applicant may appeal to the state board pursuant to section 22-30.5-108, unless the action would otherwise constitute grounds for denial or revocation of exclusive authority.

(c) To request revocation of a local board of education's exclusive authority, a charter school, a charter school applicant, or an organization that represents charter schools shall file a notice of request for revocation with the state board, accompanied by a specific written description, with supporting documentation, of the basis for the request. The requesting party, at the time of filing the notice with the state board, shall provide a copy of the notice of request for revocation and the basis for the request, with the supporting documentation, to the affected local board of education. The state board shall permit the local board the opportunity to appear at a public hearing and respond in writing to the request for revocation and shall permit the requesting party the opportunity at the public hearing to rebut any arguments made by the local board. If the local board intends to respond to the request for revocation, it shall submit a copy of its response in writing, with supporting documentation, to the requesting party and the state board at least fifteen days prior to the public hearing. The state board shall determine whether to grant or deny the request for revocation, based on the criteria for granting exclusive authority specified in subsections (5) and (6) of this section, within sixty days after receiving the notice. If the state board revokes the local board of education's exclusive authority to authorize charter schools within the geographic boundaries of the school district, it shall provide a written explanation of the basis for the revocation.

(d) If the state board revokes a local board of education's exclusive authority, the local board may apply to recover the grant of exclusive authority as provided in subsection (4) of this section as soon as the local board determines it has resolved the issue that was the basis for the revocation. The state board shall consider the local board of education's application and either grant or deny the local board exclusive authority as provided in subsection (5) of this section.

(8) Notwithstanding any other provision of this section to the contrary, a local board of education may permit the establishment of one or more institute charter schools within the geographic boundaries of the school district by adopting a favorable resolution and submitting the resolution to the state board. An institute charter school that is established with permission granted in a resolution adopted by the local board of the school district in which the institute charter school is located continues to be authorized by and accountable to the institute regardless of later actions by the local board unless the institute charter school voluntarily converts to a district charter school as provided in subsection (10) of this section.

(9) (a) Notwithstanding any other provision of this section to the contrary, the state board shall grant to a local board of education exclusive authority to authorize charter schools within the geographic boundaries of the school district if the school district annually certifies to the state board that the total number of students enrolled in charter schools authorized by the school district, or the maximum number of students allowed to be enrolled pursuant to charter school contracts entered into by the school district, whichever is greater, divided by the district pupil enrollment, as defined in section 22-54-103, for that budget year, reflected as a percentage,
exceeds by more than three percentage points the percentage of students enrolled in charter schools statewide.

(b) A school district that retains exclusive authority to authorize charter schools pursuant to paragraph (a) of this subsection (9) shall satisfy the requirements of paragraph (a) of subsection (5) of this section.

(10) (a) An institute charter school that is located within the geographic boundaries of a school district that recovers exclusive authority to authorize charter schools, as provided in subsection (4) of this section, or that permitted the establishment of the institute charter school within its geographic boundaries, as provided in subsection (8) of this section, may apply to the board of education of the school district in which it is located to convert to a district charter school. To convert to a district charter school, the institute charter school shall submit an application to the local board of education as if it were applying for a new charter in accordance with the provisions of part 1 of this article.

(b) An application to convert an existing institute charter school to a district charter school shall include evidence that an adequate number of parents, teachers, or pupils, or any combination thereof, supports the conversion of the institute charter school to a district charter school.

(c) A local board of education's approval of an application from an existing institute charter school submitted pursuant to this subsection (10) shall not relieve the institute charter school of any preexisting contractual obligations or relationships, including obligations of the institute charter school to the institute; except that the institute charter school shall no longer be subject to the oversight and control of the institute. The transfer of oversight of an institute charter school from the institute to a school district shall not be deemed a dissolution or other event that empowers or obligates the institute to wind down the institute charter school's affairs or to dispose of the institute charter school's assets.

(d) (I) If an institute charter school converts to a district charter school, the authorizing school district shall calculate the converted school's funding, including at-risk supplemental aid, as it was calculated before the conversion using the formulas specified in section 22-30.5-513; except that this paragraph (d) does not apply if the converted school is authorized by a small rural school district, as described in section 22-54-108 (3)(b)(IV).

(II) Repealed.

22-30.5-505. State charter school institute - institute board - appointment - powers and duties - rules. (1) The institute shall consist of the institute board, appointed pursuant to subsection (2) of this section, and any staff or contract employees hired by the institute board as authorized by law. Any staff hired by the institute board shall be deemed employees subject to the state personnel system of this state as defined in section 13 of article XII of the state constitution and article 50 of title 24, C.R.S.; except that, as a matter of legislative determination,
all positions classified by the institute board as professional officers and professional staff of the institute are declared to be educational in nature and exempt from the state personnel system.

(2) (a) The institute board consists of nine members, no more than five of whom are members of the same political party. Seven of the members shall be appointed by the governor, with the consent of the senate, and two of the members shall be appointed by the commissioner. In making the appointments, the governor and the commissioner shall ensure the institute board reflects the geographic diversity of the state and shall ensure that at least one member of the institute board is a parent of a student who is, or who has been, enrolled in an institute charter school. Members appointed to the institute board shall have experience in at least one of the following areas:
   (I) Experience as a charter school board member or founder of a charter school;
   (II) Experience as a public school administrator with experience working with charter schools;
   (III) Financial management expertise;
   (IV) Detailed knowledge of charter school law;
   (V) Other board or public service experience;
   (VI) Experience as a public school teacher;
   (VII) Online education and online curriculum development expertise;
   (VIII) School district special education expertise; and
   (IX) Curriculum and assessment expertise.
   (b) The members of the institute board shall serve terms of three years; except that the terms shall be staggered so that no more than three members' terms expire in the same year. A member shall not serve more than six consecutive years.
   (c) An institute board member may be removed for any cause that renders the member incapable or unfit to discharge the duties of the office. Whenever a vacancy on the institute board exists, the person making the original appointment shall appoint a member for the remaining portion of the unexpired term created by the vacancy.
   (d) During a member's term of office, a member of the institute board shall not be a member of the general assembly; an officer, employee, or board member of a school district; a member of the state board; or an employee of the institute board or the department of education.

(3) The mission of the institute board shall be to foster high-quality public school choices offered through institute charter schools, including particularly schools that are focused on closing the achievement gap for at-risk students. In discharging its duties pursuant to this part 5, the institute shall:
   (a) Act as a model of best practices in authorizing charter schools;
   (b) Use state and federal systems for ensuring the accountability of each institute charter school in meeting the obligations and goals set forth in its contract and shall adopt and implement policies for accreditation of institute charter schools as described in section 22-11-307;
   (c) Measure the academic success of each institute charter school student through longitudinal indices;
   (d) Measure the academic success of each institute charter school through performance-based means and not process-based means;
(d.5) Meet at least once each year with the school accountability committees of the institute charter schools to discuss issues concerning accountability and accreditation of institute charter schools;

(e) Provide the opportunity for a student enrolled in an institute charter school to develop a plan for academic remediation upon the request of the student's parent or legal guardian; and

(f) Ensure that, in developing and maintaining each student's individual career and academic plan, the counselor or teacher explains to the student's parent or legal guardian, by electronic mail or other written form, and to the student the requirements for and benefits of concurrently enrolling in courses with an institution of higher education pursuant to the "Concurrent Enrollment Programs Act", article 35 of this title 22. Based on a request from the student or the student's parent or legal guardian, the counselor or teacher shall assist the student in course planning to enable the student to concurrently enroll in courses with an institution of higher education.

(3.5) The institute board shall ensure that the names of institute board members and the schedule of, agendas for, and minutes of the meetings and hearings held by the institute board are promptly posted and updated on the state charter school institute's website. The department on its website shall provide a link to the state charter school institute's website.

(4) In addition to any other powers granted by law to the institute board, the institute board has the following powers:

(a) To have and use a corporate seal;

(b) To sue and be sued in its own name;

(c) To incur debts, liabilities, and obligations, subject to any limitations imposed thereon pursuant to law;

(d) To cooperate and contract with the state or federal government or an agency or instrumentality thereof and to apply for and receive grants or financial assistance from any such entities;

(e) To acquire, hold, lease, sell, or otherwise dispose of real or personal property or a commodity or service;

(f) To do or perform an act authorized by this part 5 by means of an agent or by contract with a person, firm, or corporation;

(g) To provide for the necessary expenses of the institute board in the exercise of its powers and the performance of its duties and to reimburse a board member for necessary expenses incurred in the performance of the board member's duties;

(h) To provide for the proper keeping of accounts and records and for budgeting of funds;

(i) To act as a public entity for purposes of the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S.;

(j) To exercise the same powers retained by boards of cooperative services that are described in section 22-5-108;

(k) To promulgate rules in accordance with article 4 of title 24 for the administration of this part 5;

(l) To award grants from the institute charter school assistance fund as provided in section 22-30.5-515.5; and
(m) To enter into an agreement with a district charter school as provided in section 22-30.5-105.3 to allow the district charter school to participate in the administrative unit of the state charter school institute to provide services pursuant to article 20 of this title 22.

(5) No later than ninety days after the date the institute commences operations, as described in section 22-30.5-506 (2)(a), the institute board shall promulgate rules that set forth the procedures for the acceptance of institute charter school applications and the criteria for authorizing institute charter schools pursuant to this part 5.

(6) (a) The institute may contract with boards of cooperative services created pursuant to article 5 of this title, or with any other qualified individual or public or private entity or organization, including a school district, for the provision of administrative or other support services directly to the institute or for the benefit of institute charter schools.

(b) This part 5 shall not be construed to require the institute to provide services to an institute charter school, to require an institute charter school to purchase services from the institute, nor to prohibit an institute charter school from purchasing education-related services from any sources available, including a school district.

(7) The institute shall ensure that each institute charter school complies with the provisions of articles 7 and 11 of this title. Each institute charter school shall be responsible for gathering and submitting to the institute the data necessary to prepare a school performance report required by section 22-11-503 for the institute charter school.

(8) The institute shall ensure that each institute charter school adopts content standards as required in section 22-7-1013.

(9) The institute shall ensure that each institute charter school addresses the expulsion, suspension, and education of expelled or suspended students in a manner consistent with the intents and purposes of sections 22-33-105, 22-33-106, 22-33-106.1, and 22-33-203.

(10) The institute may issue requests for proposals to solicit applications for an institute charter school to serve at-risk students.

(11) The institute shall annually review each institute charter school's accomplishment of the goals described in section 22-30.5-509.

(12) (a) The institute shall collect from each institute charter school authorized on or after July 1, 2010, the data specified in paragraph (b) of this subsection (12) for the institute charter school's first academic year of operation. At a minimum, the institute shall require the institute charter school to submit the collected data by August 1 of the institute charter school's first academic year of operation and to update the information, if necessary, by the following May 1. Upon receipt of a request from a school district, the institute shall provide a copy of the collected data to the school district.

(b) The data collected pursuant to this subsection (12) shall include, at a minimum:

(I) The projected aggregate number of students enrolling in the institute charter school for the academic year who were enrolled in schools of the school district for the preceding academic year; and

(II) For each student included in subparagraph (I) of this paragraph (b), to the extent known:

(A) The name of the school in which the student was enrolled in the preceding academic year; and

(B) The name of the institute charter school and the grade in which the student is enrolled for the academic year.
Pursuant to section 22-30.5-517, the institute shall adopt and implement a policy that regulates the sale of beverages to students at an institute charter school.

If an institute charter school requests in writing that the institute provide food services pursuant to a contract with the institute charter school that includes certain terms specified by the institute charter school, the institute may attempt to negotiate the terms of the contract with the institute charter school. If the institute and the institute charter school attempt to negotiate contract terms that are mutually satisfactory, and the negotiations fail to produce such mutually satisfactory terms, the institute shall:

(a) Agree to provide food services to the institute charter school according to the terms requested by the institute charter school; or

(b) Allow the institute charter school to transfer the maintenance, supervision, and operation of the institute charter school's food-service facility from the institute to a school food authority.

Pursuant to section 22-30.5-518, the institute shall adopt and implement a policy for the management of food allergies and anaphylaxis among students enrolled in institute charter schools.

Pursuant to section 22-30.5-519, the institute shall annually provide to parents and legal guardians the standardized immunization document developed by the department of public health and environment pursuant to section 25-4-902 (4), C.R.S.

Repealed.

The institute shall ensure that each institute charter school, working with its school accountability committee, adopts and implements a policy concerning physical activity for students enrolled in the institute charter school, which policy meets the requirements specified in section 22-32-136.5.

(a) Pursuant to section 22-30.5-521, on or before October 1, 2011, the institute shall adopt and implement a policy concerning bullying prevention and education. The policy, at a minimum, shall set forth appropriate disciplinary consequences for students who bully other students and for any person who takes any retaliatory action against a student who reports in good faith an incident of bullying, which consequences shall comply with all applicable state and federal laws.

(b) The institute is encouraged to include in the policy it adopts and implements pursuant to paragraph (a) of this subsection (19) the biennial administration of surveys of students' impressions of the severity of bullying in their schools, as described in section 22-93-104 (1)(c); character building; and the designation of a team of persons at each institute charter school who advise the school administration concerning the severity and frequency of bullying incidents that occur in the school, which team may include, but need not be limited to, law enforcement officials, social workers, prosecutors, health professionals, mental health professionals, counselors, teachers, administrators, parents, and students.

The institute shall annually distribute to each institute charter school informational materials received from the department of education pursuant to section 22-2-112 (1)(t) relating to federal student loan repayment programs and student loan forgiveness programs.

(a) An institute charter school that is part of a charter school network or a member of a charter school collaborative, which network or collaborative is authorized as an administrative unit pursuant to section 22-20-106, shall notify the institute of its intent to participate in the administrative unit of the network or collaborative with which the institute
charter school is affiliated. The institute charter school and the institute shall amend the institute charter contract, pursuant to this section, as necessary to allow the institute charter school to participate in the alternative administrative unit.

(b) An institute charter school may submit a request to an existing alternative administrative unit that is not the institute to enter into an agreement to participate in the existing alternative administrative unit. An existing alternative administrative unit that is not the institute may enter into an agreement only if the existing alternative administrative unit determines that the institute charter school meets the criteria set forth in section 22-30.5-105.3 (2)(a).

(c) An institute charter school that enters into an agreement with an alternative administrative unit pursuant to subsection (21)(b) of this section shall notify the institute of its intent to participate in the administrative unit of a charter school network or charter school collaborative that is authorized as an administrative unit pursuant to section 22-20-106. The institute charter school and the institute shall amend the institute charter school contract as necessary to allow the institute charter school to participate in the alternative administrative unit.

(d) If the institute objects to amending an institute charter school's contract to allow participation in an alternative administrative unit pursuant to subsection (21)(a) or (21)(b) of this section, the institute shall provide to the institute charter school a written explanation of the grounds for its objection.

(e) Negotiations to amend the institute charter contract to allow the institute charter school to participate in the alternative administrative unit pursuant to this subsection (21) must not include negotiations regarding terms of the institute charter contract that are not directly impacted by the institute charter school's participation in the alternative administrative unit and must not unilaterally reopen the institute charter school's authorization. The amended contract may include provisions permitting consideration of the institute charter school's special education performance as part of the overall institute charter school performance.

(f) The state charter school institute shall not require an institute charter school to participate in an alternative administrative unit as a condition of approval of its application or approval or renewal of its contract with the state charter school institute.

22-30.5-506. State charter school institute fund - created. (1) The state charter school institute is authorized to receive and expend gifts, grants, and donations of any kind from any public or private entity to carry out the purposes of this part 5, subject to the terms and conditions under which given; except that no gift, grant, or donation shall be accepted if the conditions attached thereto require the use or expenditure thereof in a manner contrary to law. Any gifts, grants, or donations received pursuant to this subsection (1) shall be transmitted to the state treasurer who shall credit the same to the state charter school institute fund, hereinafter referred to as the "fund", which fund is hereby created in the state treasury. Moneys in the fund are continuously appropriated to the institute, to offset the actual and reasonable costs incurred by the institute in implementing this part 5. All investment earnings derived from the deposit and investment of the moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of any fiscal year shall remain in the fund and shall not be transferred to the general fund or any other fund.

(2) (a) The institute shall not be obligated to commence operations necessary to receive applications, until such time as there is at least fifty thousand dollars in the fund, whether received from gifts, grants, donations, or other sources.

(b) The institute shall not be obligated to commence review of applications actually received, until such time as the balance in the fund reaches at least one hundred fifty thousand dollars, whether received from gifts, grants, donations, or other sources.

(3) The state charter school institute shall create in the fund a school food authority account, and any moneys received by the state charter school institute as a result of its operations as a school food authority shall be credited to the school food authority account. Any moneys
credited to the school food authority account are continuously appropriated to the state charter school institute to offset the costs incurred in operating as a school food authority.

(4) (a) The state charter school institute shall create in the fund an account for payment of the institute's administrative overhead costs, as defined in section 22-30.5-513 (1)(h), which account consists solely of moneys retained by the institute from the institute charter schools' adjusted per pupil revenues and per pupil online funding pursuant to section 22-30.5-513 (4)(a)(I.5)(E). Except as otherwise provided in paragraph (b) of this subsection (4), at the end of a budget year, if the amount of unexpended and unencumbered moneys remaining in the account exceeds twenty percent of the amount retained by the institute pursuant to section 22-30.5-513 (4)(a)(I.5)(E) for the applicable budget year, the institute shall transfer the amount of the excess to the institute charter school assistance fund created in section 22-30.5-515.5.
