35-1-104.5. Agricultural workforce development program - legislative declaration - creation - rules - repeal. (1) The general assembly finds and declares that:

(a) Finding qualified and trained agricultural employees is a significant challenge for agricultural businesses. It is especially difficult to provide training and experience to young and beginning farmers and ranchers.

(b) The barriers to entry for young and beginning farmers and ranchers are significant. Among these barriers are access to training programs that provide real-world work experience.

(c) Internships are a recognized way to build a talent pipeline and career pathway to align education, training, and work-based learning; and

(d) By offering incentives to agricultural businesses to create internships, there will be more opportunities for students to obtain work experience in agriculture.

(2) The commissioner shall promulgate rules creating the agricultural workforce development program to provide incentives to agricultural businesses to hire interns through partial reimbursement of internship costs. The rules must specify, at a minimum:

(a) The criteria for selecting an agricultural business for participation in the program, including the ability of the business to effectively supervise an intern and the opportunity for an intern to get meaningful work experience;

(b) The criteria for an internship to qualify under the program, including the following:

(I) The internship must provide an intern at least one hundred thirty hours of work experience; and

(II) The internship cannot exceed one year in duration per intern;

(c) The criteria for an agricultural business to use in selecting qualified interns, including the required educational experience for an intern and the ability of the intern to perform meaningful work for the business;

(d) The process and timetable for selecting qualified businesses and qualified interns;

(e) The accounting requirements for tracking internship costs; and

(f) The process for a business to seek reimbursement.

(3) Subject to appropriation, the department may reimburse a qualified business an amount not to exceed fifty percent of the actual cost to the business to employ the intern. Actual cost includes the wages paid to the intern, a reasonable allocation of fixed overhead expenses, and all incidental costs directly related to the internship. Based on the annual appropriation for the program, the commissioner shall determine how many internships may be approved, the amount of reimbursement per internship, and whether a business may be reimbursed for more than one intern in the same fiscal year. However, no business may be reimbursed for more than three internships in the same fiscal year.

(4) This section is repealed, effective July 1, 2029.

(4) (a) For the 2022-23 state fiscal year, the general assembly shall appropriate one hundred thousand dollars from the general fund to the department to implement the online resource portal described in subsection (3) of this section. 35-1-114. Agricultural drought and climate resilience office - creation - grants for agrivoltaic demonstration and research projects - rules - definitions. (1) **Legislative declaration.** The general assembly hereby:

(a) Finds that:

(I) Severe droughts, as well as unaddressed water demands associated with urban growth, will add pressure to Colorado's already strained water supply in all of Colorado's watersheds;

(II) More frequent and severe droughts will add pressure to Colorado's already strained water supply; and

(III) A strong, prosperous, diverse, and resilient agricultural sector is fundamental to the fabric of Colorado;

(b) Determines that:

(I) Colorado's agricultural producers are stewards of our lands, waters, and ecosystems, but they cannot shoulder the burden of water scarcity without addressing water-saving measures being implemented and sustained in urban areas; and

(II) Colorado's agricultural sector is a leader in implementing practices that build resiliency, conserve our water supplies, provide an economic base for rural communities, and enhance our environment; and

(c) Declares that:

(I) Creating the agricultural drought and climate resilience office will support and elevate producers in their resiliency efforts through nonregulatory, voluntary, and incentive-based programs without negatively impacting the overall rural economic viability of agricultural operations and rural communities; and

(II) The agricultural drought and climate resilience office can best address and mitigate agricultural climate-related issues on a wide scale by providing support to and assisting agricultural producers in implementing practices that minimize the impacts of climate change.

(2) **Office created.** (a) (I) There is created in the department the agricultural drought and climate resilience office. The office may provide voluntary technical assistance, nonregulatory programs, and incentives, including grants, that increase the ability to anticipate, prepare for, mitigate, adapt to, and respond to hazardous events, trends, or disturbances related to drought or the climate.

(II) In awarding grants in accordance with the commissioner's rules adopted pursuant to subsection (3) of this section, the office shall give strong consideration to grant applications that propose using grant money to conduct a new or ongoing demonstration or research project as a means to study the potential, benefits, and tradeoffs of agrivoltaics in the state. Any agrivoltaic study awarded a grant pursuant to this subsection (2)(a)(II) must include findings on the additional costs, including the additional capital and ongoing maintenance costs, for the use of agrivoltaics as compared to traditional photovoltaics. The additional costs must be quantified on both a dollar-per-megawatt and a dollar-per-megawatt-hour basis.

(b) The office shall advise the commissioner, the Colorado agricultural value-added development board created in section 35-75-203, other state agencies, and the governor on the impact to agriculture of drought and climate policies and programs.

(c) The commissioner shall appoint the head of the office.

(3) (a) **Rules.** The commissioner may promulgate rules necessary for the administration of the office's assistance, programs, and incentives, including grants, consistent with this subsection (3). Before promulgating the rules, the commissioner shall convene a stakeholder group, including representatives of organizations whose membership consists of agricultural producers engaged in the production of the top ten agricultural commodities produced in Colorado, members of the state conservation board created in section 35-70-103 (1)(a), and representatives of the solar energy development industry. The stakeholder group shall advise the commissioner as to the needs of the agriculture industry to respond to and mitigate the impacts of climate change on agricultural production and solutions from the solar energy development industry on providing feasible solutions for producing electricity on agricultural lands while contributing ecological and agricultural benefits.

(b) **Assistance, programs, and incentives.** (I) Except for a program, assistance, incentive, or support administered by the office to address immediate needs as a result of disaster, including wildfire and drought, or that was in existence on January 1, 2021, a program, assistance, incentive, or support administered by the office must include new or ongoing demonstration or research projects to demonstrate or study the use of agrivoltaics to:

(A) Help prepare for and mitigate the impacts that climate change or drought have on agriculture;

(B) Reduce energy costs in agriculture;

(C) Improve the economic resilience of agricultural producers;

(D) Minimize negative environmental impacts of photovoltaic energy production facilities on soil health, native vegetation, state and federally listed species, wildlife migration corridors, and the species, habitats, and ecosystems that are of the greatest conservation need; and

(E) Provide other statewide environmental benefits, as identified by the office.

(II) Grants awarded by the office must pay for implementation of practices to address and mitigate the impacts of climate change or drought on agriculture or to provide direct adaptation support for impacted agricultural communities, including mental health resources, conflict resolution assistance, and risk-management guidance. A grant award may pay no more than five percent of administrative expenses incurred by an agricultural producer to implement the practices.

(III) The department shall, at least thirty days before opening the grant application process, make available, on its website, information related to the grant program to agricultural producers.

(IV) A grant authorized pursuant to this section must receive final approval by the commission before a final award can be issued.

(V) The department shall post on its website all applications for grant awards. Within fifteen days after awarding a grant, the department shall post on its website the name of the individual or entity receiving a grant, the amount of the grant awarded, the project or projects to be funded by the grant, and the duration of the grant award.

35-3-102. Legislative declaration. (1) It is recognized and declared:

(a) That the soil resources and fertility of the land of this state, and the economic use thereof, the prosperity of the farming population of this state, and the waters of the rivers of this state, and the prevention of floods are matters affected with a public interest;

(b) That the welfare of this state has been impaired and is in danger of being further impaired by destruction of its soil fertility, by uneconomic use and waste of its land, by exploitation and wasteful and unscientific use of its soil resources, by floods and impairment of its rivers as a result of soil erosion, and by the decrease in the purchasing power of the net income per person on farms in the state as compared with the net income per person in the state not on farms;

(c) That said evils have been augmented and are likely to be augmented by similar conditions in other states and are so interrelated with such conditions in other states that the

remedying of such conditions in this state requires action by this state in cooperation with the governments and agencies of other states and of the United States and requires assistance therein by the government and agencies of the United States;

(d) That the formulation and effectuation by this state of state plans, in conformity with the provisions of section 7 of the "Soil Conservation and Domestic Allotment Act", is calculated to remedy said conditions and will tend to advance the public welfare of this state.

(2) In order to promote the welfare of the people of this state by aiding in the preservation and improvement of soil fertility, in the promotion of the economic use and conservation of land, in the diminution of exploitation and wasteful and unscientific use of soil resources, in the protection of rivers against the results of soil erosion, and in the reestablishment, at as rapid a rate as is practicable and in the general public interest, of the ratio between the purchasing power of the net income per person on farms and that of the net income per person not on farms that prevailed during the five-year period, August 1909 to July 1914, inclusive, as determined from statistics available in the United States department of agriculture, and the maintenance of such ratio, the state of Colorado assents to and accepts the provisions of the "Soil Conservation and Domestic Allotment Act" and adopts the policy and purpose of cooperating with the government and agencies of other states and of the United States in the accomplishment of the policy and purposes specified in section 7 of said act, subject to the following limitations:

(a) The powers conferred in this article shall be used to assist voluntary action calculated to effectuate such purposes.

(b) Such powers shall not be used to discourage the production of supplies of foods and fibers in this state sufficient when taken together with the production thereof in other states of the United States to maintain normal domestic human consumption as determined by the secretary of agriculture of the United States from the records of consumption in the years 1920 to 1929, inclusive, taking into consideration increased population, quantities of any commodities that were forced into domestic consumption by a decline in exports of particular commodities, and the quantities of substitutes available for domestic consumption within any general class of food commodities.

(c) In carrying out the purposes specified in this section due regard shall be given to the maintenance of a continuous and stable national supply of agricultural commodities adequate to meet consumer demand at prices fair to both producers and consumers.

ARTICLE 3.5

Nuisance Liability of Agricultural Operations

35-3.5-101. Legislative declaration. It is the declared policy of the state of Colorado to conserve, protect, and encourage the development and improvement of its agricultural land for the production of food and other agricultural products. The general assembly recognizes that, when nonagricultural land uses extend into agricultural areas, agricultural operations often become the subject of nuisance suits. As a result, a number of agricultural operations are forced to cease operations, and many others are discouraged from making investments in farm improvements. It is the purpose of this article to reduce the loss to the state of Colorado of its agricultural resources by limiting the circumstances under which agricultural operations may be deemed to be a nuisance. It is further recognized that units of local government may adopt ordinances or pass resolutions that provide additional protection for agricultural operations consistent with the interests of the affected agricultural community, without diminishing the rights of any real property interests.

35-3.5-102. Agricultural operation deemed not nuisance - state agricultural commission - attorney fees - exceptions. (1) (a) Except as provided in this section, an

agricultural operation shall not be found to be a public or private nuisance if the agricultural operation alleged to be a nuisance employs methods or practices that are commonly or reasonably associated with agricultural production.

(b) An agricultural operation that employs methods or practices that are commonly or reasonably associated with agricultural production shall not be found to be a public or private nuisance as a result of any of the following activities or conditions:

- (I) Change in ownership;
- (II) Nonpermanent cessation or interruption of farming;
- (III) Participation in any government sponsored agricultural program;
- (IV) Employment of new technology; or
- (V) Change in the type of agricultural product produced.

(2) (a) Notwithstanding any other provision of this section to the contrary, an agricultural operation shall not be found to be a public or private nuisance if such agricultural operation:

- (I) Was established prior to the commencement of the use of the area surrounding such agricultural operation for nonagricultural activities;
- (II) Employs methods or practices that are commonly or reasonably associated with agricultural production; and
- (III) Is not operating negligently.

(b) Employment of methods or practices that are commonly or reasonably associated with agricultural production shall create a rebuttable presumption that an agricultural operation is not operating negligently.

(3) The court may, pursuant to sections 13-16-122 and 13-17-102, C.R.S., award expert fees, reasonable court costs, and reasonable attorney fees to the prevailing party in any action brought to assert that an agricultural operation is a private or public nuisance. Nothing in this section shall be construed as restricting, superseding, abrogating, or contravening in any way the provisions of sections 25-7-138 (5), C.R.S., and 25-8-501.1 (8), C.R.S.

(4) As used in this article, "agricultural operation" has the same meaning as "agriculture", as defined in section 35-1-102 (1).

(5) Any ordinance or resolution of any unit of local government that makes the operation of any agricultural operation a nuisance or provides for the abatement thereof as a nuisance under the circumstances set forth in this section is void; except that the provisions of this subsection (5) shall not apply when an agricultural operation is located within the corporate limits of any city or town on July 1, 1981, or is located on a property that the landowner voluntarily annexes to a municipality on or after July 1, 1981.

(6) This section shall not invalidate any contracts made prior to September 1, 2000, but shall be applicable only to contracts and agreements made on or after September 1, 2000.

(7) A local government may adopt an ordinance or pass a resolution that provides additional protection for agricultural operations; except that no such ordinance or resolution shall prevent an owner from selling his or her land or prevent or hinder the owner in seeking approval to put the land into alternative use.

The general assembly hereby finds and declares that there is a need to prevent the introduction into Colorado and the dissemination within this state of plant pests through the movement of plant products and other plant material. This act also provides for the establishment of interstate and intrastate quarantines to restrict the movement of plant products, materials, and pests. To this end, the commissioner of agriculture is hereby directed and authorized to control and prevent, by such means as shall be prescribed and provided by law, rule, or order of the commissioner, all contagious, infectious, and plant pests destructive to the state's agricultural, forestry, or horticultural interests or to the state's general environmental quality.

35-4-107. Inspections - notice - treatment - collection of costs. (1) (a) The county pest inspector shall have the right to enter upon any public or private property during reasonable business hours to inspect for pest infestations or infection and ensure compliance with the requirements of this article and any local requirements when at least one of the following has occurred:

- (I) The landowner or occupant has requested an inspection;
- (II) A neighboring landowner or occupant has reported a suspected pest infestation or infection and requested an inspection; or
- (III) An authorized agent of the county in which the property is situated has made a visual observation from a public right-of-way or area and has reason to believe that a pest infestation or infection exists.

(b) No entry upon any property shall be permitted until the landowner or occupant has been sent a notification by certified mail to the landowner's or occupant's last-known address that

such entry is pending. When possible, inspections shall be scheduled and conducted with the concurrence of the landowner or occupant.

(c) If, after receiving notice that an inspection is pending, the landowner or occupant denies access to the county pest inspector, the board of county commissioners may seek an inspection warrant issued by a municipal, county, or district court having jurisdiction over the land. The court shall issue an inspection warrant upon presentation by the board of county commissioners, through its agent or employee, of an affidavit that provides a specific description of the location of the affected land and sets forth information that gives the county pest inspector probable cause to believe that a provision of this article is being or has been violated and the landowner or occupant has denied access to the county pest inspector. No landowner or occupant shall deny access to such land when presented with an inspection warrant.

(d) The county pest inspector shall have the authority to notify and advise the landowner or occupant in writing by certified mail of the findings of the inspection. If such findings indicate a pest infestation or infection, such notice shall name the pest, advise the landowner or occupant to manage the pest, and specify the available control methods of integrated pest management, including mechanical, chemical, and biological methods. Such notice shall inform the landowner or occupant that the state forester or county extension office may be consulted concerning integrated pest management. Where possible, the county pest inspector shall consult with such landowner or occupant in the development of a plan for the management of pest infestations and infections on the premises or lands.

(e) Within ten days after receipt of notification of a pest infestation or infection, the landowner or occupant:

(I) Shall comply with the terms of the notification;

(II) Shall acknowledge the terms of the notification and submit an acceptable plan and schedule for the completion of a plan for compliance; or

(III) May request a hearing before the board of county commissioners or a panel appointed by the board if the landowner or occupant disputes the finding of infestation or infection by the county pest inspector. Any owner requesting a hearing need not control the pests pending the outcome of the hearing. The board of county commissioners conducting the hearing shall order appropriate relief if it finds there is infestation or infection as alleged in the written notice. The owner shall pay for any relief, not to exceed ten thousand dollars annually, ordered under this article, including up to twenty percent of the cost of pest control measures for inspection and other incidental costs.

(2) When necessary to enforce the provisions of this article, a county pest inspector, after notice of pest infestation or infection to the owner pursuant to subsection (1) of this section, shall treat to control the pests on plant host material, buildings, or other property. Such treatment shall not be commenced by a county pest inspector pending the outcome of any hearing requested pursuant to subsection (1) of this section. Upon the completion of such work, a statement of the cost and expense thereof along with a description of the property upon which such work was done shall be filed with the board of county commissioners, who shall pay same without unnecessary delay.

(3) Upon payment by the board of county commissioners of any cost and expense of treating pest infestation or infection in accordance with subsection (2) of this section, the county shall demand in writing from the owner, in person or by mail addressed to the owner at his or her last-known place of residence, reimbursement to the county for the amount of the county's direct

costs and expenses only. The county shall not send a written demand for more than ten thousand dollars. In the written notice, the county shall inform the owner of the right to appear before the board of county commissioners at any meeting thereof, as fixed by law, to be held within the following four months, and be heard as to the amount of the claim for reimbursement. If the claim, as originally demanded by the board or as adjusted upon a hearing, is not paid at the end of the four-month period, the board shall certify the claim to the county treasurer of the county where the property is located. The county treasurer shall add the amount of the claim to any taxes due, or to become due, from the owner, and if the claim is not paid in due course, the county treasurer shall file a lien on the property. The lien's priority is based upon the date of recording in accordance with article 35 of title 38, C.R.S. The board of county commissioners shall work with any landowner to develop a payment schedule for the cost of an assessment for pest treatment upon a demonstration by the landowner of an economic hardship. All accounts when collected must be deposited into the general fund of the county.

(4) If the board of county commissioners finds that a pest infestation or infection is a result of or can be attributed to an infestation or infection on land owned by any federal, state, or local governmental unit that has not been treated or is not under control, the landowner shall not be charged for any relief ordered pursuant to this section.

(5) A county shall not provide for or compel the management of pests on private property under this section without first applying the same or greater management measures to any land or rights-of-way owned or administered by the local governing body that are adjacent to the private property.

(6) A county pest inspector or agent thereof does not have a cause of action against a landowner or occupant for personal injury or property damage incurred while on public or private land while working within the course and scope of the inspector's duties except when such damages were willfully caused by the landowner.

35-4-108. Unlawful to transport pests. (1) It is unlawful for any person, by any means whatsoever, to knowingly transport, into or in Colorado, live pests or host material which may be injurious to agriculture or horticulture in this state, without permission from the commissioner.

(2) The commissioner may issue and enforce a hold order against any person who owns or controls any nursery stock, agricultural crop, or other plant material that is suspected of harboring a plant pest or disease, for the purpose of isolating the material, restricting its

movement, and specifying appropriate sanitary measures pending completion of testing to confirm the presence of such pest or disease.

35-4-109. Emergency disposal of plant material. Any shipment of any plant material into Colorado when found to be in violation of a quarantine declared pursuant to section 35-4-110 or when found to carry exotic pests not previously found in the United States or pests known to cause high levels of economic damage under similar conditions of climate and natural habitat in other areas outside this state by the commissioner may be placed in isolation or quarantine by the commissioner and shall be completely under the commissioner's control. The owner or bailee shall comply with all terms of the quarantine, abate such pests as directed by and to the satisfaction of the commissioner or remove such shipment from the state within such time as ordered by the commissioner. Articles not removed from the state as ordered shall be destroyed by the commissioner with no recompense therefor to the owner. Any owner or bailee claiming that his or her shipment of plant material was destroyed or ordered removed from the state without reasonable justification may request a hearing on that issue before the commissioner within ten days after such destruction or order of removal. If it is determined that a shipment of plant material was destroyed or ordered removed from the state by the commissioner without reasonable justification and that such action was done arbitrarily and capriciously, the department of agriculture shall reimburse such owner or bailee for any losses suffered.

35-4-110. Quarantine and control of pests - rules. (1) Whenever the commissioner finds any portion of the state to be affected with exotic pests not previously found in the United States, pests known to cause high levels of economic damage under similar conditions of climate and natural habitat in other areas outside this state, or pests which are known to have caused high levels of economic damage in the past within this state and in the commissioner's judgment plants or plant parts, whether living or dead, domestic animals, or other objects from the district affected would be liable to spread the pests into other sections of the state to the injury of others, the commissioner, after a hearing conducted pursuant to section 24-4-103, C.R.S., may declare a quarantine against such section or portion of the state to prevent the transfer of carriers of such pests from the quarantined area.

(2) Whenever it is ascertained that exotic pests not previously found in the United States, pests known to cause high levels of economic damage under similar conditions of climate and natural habitat in other areas outside this state, or pests which are known to have caused high levels of economic damage in the past within this state are likely to be introduced into Colorado by the importation of plants or plant parts, whether living or dead, domestic animals, or other objects, the commissioner, after a hearing conducted pursuant to section 24-4-103, C.R.S., may declare a quarantine against the importation into Colorado of such pest carriers.

(3) The commissioner is authorized, pursuant to the provisions of this article, to apply such control or eradication measures as may be necessary to prevent the migration of exotic pests not previously found in the United States, pests known to cause high levels of economic damage under similar conditions of climate and natural habitat in other areas outside the state, or pests known to have caused high levels of economic damage in the past within this state that threaten to become established in this state and that endanger agricultural or horticultural industries in this state. The actual costs to offset the cash funds expended for services performed by the commissioner in imposing the quarantine and such control or eradication measures shall be recovered from the producers of any crop protected by such quarantine pursuant to rules promulgated by the commissioner. If the governor declares an emergency pursuant to section 35-4-110.5, the commissioner's costs may be recovered from the disaster emergency fund, created in section 24-33.5-706, C.R.S. The commissioner is authorized to accept assistance, services, facilities, and grants tendered by federal or local governmental units or other persons.

35-4-110.5. Declaration of quarantine emergency. (1) The commissioner shall notify the governor of the necessity for declaring a quarantine emergency if all of the following conditions are met:

(a) The commissioner has declared a quarantine pursuant to section 35-4-110 (1) or (2) or both.

(b) The commissioner has determined that the pest which is the subject of the quarantine is being or may be spread.

(c) The commissioner has determined that the pest poses a serious threat of economic harm to any segment of the agricultural or horticultural industry of this state.

(2) Upon being so notified by the commissioner, the governor may declare a state of quarantine emergency to be in effect. Such state of emergency shall be in effect for no more than one hundred eighty days and may be renewed for successive periods of no more than one hundred eighty days upon certification by the commissioner to the governor that the threat from the pest continues to exist and continues to justify the emergency enforcement measures.

(3) When the governor declares a quarantine emergency, the governor is authorized to accept assistance, services, facilities, and grants tendered by federal and local governmental units or other persons.

(2) The commissioner may conduct inspections and issue phytosanitary and export certificates on plants for individual shipment to other states or foreign countries if those plants comply with the requirements or regulations of such state or foreign country. The commissioner may collect inspection and certification fees, in an amount established by the agricultural commission, to cover the direct and indirect costs of providing such services. All fees collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the plant health, pest control, and environmental protection cash fund created in section 35-1-106.3. Within sixty days after July 1, 2009, the unexpended and unencumbered balance of the phytosanitary inspection fund, as that fund existed prior to July 1, 2009, shall be transferred to the plant health, pest control, and environmental protection cash fund.

(3) The commission may enter into compliance agreements with producers and distributors of nursery stock, agricultural crops, and other plant materials for the purpose of certifying such plant materials as pest-free for export certification. At any time after entering into such an agreement, if the commissioner has reason to believe that the producer or distributor of the plant material that is the subject of the agreement has failed to comply with all of the terms of the agreement, the commissioner may terminate the agreement by giving the producer or distributor written notice of such termination and the grounds therefor.

35-5-104. Pest control district - procedure to establish. (1) Whenever twenty-five percent of the resident landowners and resident lessees within a contiguous territory desire to form a pest control district, as defined in this subsection (1), they may file a petition for that purpose with the board of county commissioners of the county in which the land is located. Such petition shall be addressed to the board of county commissioners of such county, and shall contain a description of the boundaries of the proposed district and a description of the land of each person signing such petition, and shall state that the said proposed district has been invaded, or is in danger of being invaded, by noxious weeds, insect pests, or plant diseases injurious to agricultural crops, trees, fruits, or pasture, and shall name the specific pests or diseases against which said petitioners desire to be protected, and shall state the termination date of the proposed district. Such petition shall be signed by each resident landowner and resident lessee joining in the petition by his proper signature, together with his address, and the date of the petition shall be the date of its filing in the office of the board of county commissioners. Any petitioner may revoke and cancel his signature to such petition at any time before said petition is filed, but not after such filing has been made.

(2) Such petition shall be filed with the board of county commissioners during a regular or special session of the board, and shall be verified under oath by at least one of the persons signing it, setting forth that the said petition was signed within ninety days last preceding the making of said verification, and that all matters and things stated in said petition are true to the best of the knowledge and belief of the affiant, and that all signers have had an opportunity to read said petition.

(3) After examination of the petition, if the board of county commissioners finds the petition in order and properly signed by twenty-five percent of the resident landowners and resident lessees within the proposed district, the board shall, within fifteen days after receipt of the petition, mail ballots to all landowners and lessees in the proposed district, to the addresses as shown by the records of the county assessor or state board of land commissioners, stating that said ballots are to be returned to the board's office within ten days from date of mailing. If, after a tally of the votes has been made, the board finds that sixty-six and two-thirds percent of the landowners and lessees voting have voted in favor of the district, and the landowners and lessees voting own or lease fifty percent of the land in the proposed district, the board shall declare the district established. Acreage owned by the federal government or acreage owned by the state

government not subject to a lease shall not be considered in determining the percentage of land voted.

(4) Such petition may, in addition to the matters set forth in this section, request the board of county commissioners to take charge of and supervise the work in connection with the control or eradication of the pests named. The board, if a pest control district is created upon the petition in accordance with this article, shall proceed during the existence of said district, through the county pest inspector, to control or destroy such pests at the times and in the manner and by the aid of such means and additional help as the commissioner and county pest inspector recommend, and the board may enter into contracts to have the necessary work done in the district where noxious weeds, insect pests, or plant diseases occur in epidemic proportion. Such contracts shall be let through competitive bidding, and the board may pay for the work and materials expended. Said contracts may be let for periods not to exceed one year and may be renewed if necessary. The board of county commissioners also may enter into contracts with landowners and lessees in which the landowners and lessees are obligated for their share of the total cost of control operations.

(5) If the owner or lessee of any lands adjoining an established pest control district desires to have such lands included within the district, he may petition the board of county commissioners of the county in which the district is located and to which district annexation of his land is desired. The petition shall contain a description of the boundaries of the lands so desired to be annexed and shall be signed by the petitioner. The board shall act on said petition within ten days after the receipt thereof. If the board finds that the petition is in order, that the boundaries of the lands described in the petition are accurate, that the lands adjoin the established district, and that the petition is properly signed, it shall, by order, declare that the lands petitioned to be annexed to the district shall be included as a part of the district. Within ten days after such action upon the petition, the board shall notify the petitioner, the county assessor, the district advisory committee of the district in which such lands are to be included, and the department of agriculture of its action. Two or more owners and lessees of lands adjoining an established pest control district may join in and sign a single petition for annexation of their adjoining lands to an established district in the manner prescribed in this subsection (5).

(6) The district advisory committees of two or more adjoining pest control districts may petition the board of county commissioners of the county in which such districts are located, requesting the consolidation of such districts. The board shall schedule a public hearing on the petition within ten days after the receipt thereof. The public hearing shall be held within thirty days after receipt of the petition. If, after such hearing, the board determines that through such consolidation the districts could be more economically and efficiently operated, the board shall immediately, by order, declare the dissolution of the districts to be consolidated and the establishment of the consolidated new district, and shall thereupon notify the county assessor and district advisory committees of the dissolved districts of the termination of their respective committees, and shall appoint a new five-member district advisory committee for the consolidated district.

(7) When a pest control district which was established for the control and eradication of specified pests desires to extend the termination date of the district, the district advisory committee shall petition the board of county commissioners of the county in which such district is located, requesting the extension of the termination date. Upon receipt of said petition, the board of county commissioners shall set a date for a hearing on the matter and shall publish

notice thereof in a newspaper of general circulation in the county not less than ten days nor more than thirty days before the date of the hearing. If, after notice and hearing, the board of county commissioners determines that such extension of the termination date is advisable and is needed for adequate pest control in the district, the board of county commissioners shall immediately declare the extension of the termination date and shall so inform the district advisory committee, the county assessor, and the state board of land commissioners.

(8) When a pest control district which was established for the control and eradication of specified pests desires to add additional pests to be controlled within the district, the district advisory committee shall petition the board of county commissioners of the county in which such district is located, requesting that a stipulated pest or pests should be added to the pests to be controlled in the district. The board of county commissioners shall act on the petition within ten days after receipt thereof. If the board of county commissioners determines that such pests should be controlled within the district, said board shall submit the question to all landowners and lessees of the district by causing to be mailed to each landowner and lessee, to the address as shown by the records of the county assessor or state board of land commissioners, a ballot requesting his vote for or against the addition of the stipulated pests to be controlled within the district and the return of such ballot within ten days to the board. If fifty-one percent of the landowners and lessees voting in the district vote in favor of the inclusion of said pests within those to be controlled, the board shall immediately declare that the stipulated pests shall be controlled within the district and shall so inform the district advisory committee.

35-5-105. Advisory committee. After the formation of a pest control district and before any weed or pest control program has been initiated by the county pest inspector, the board of county commissioners shall appoint an advisory committee of five or more members, who shall serve at the pleasure of the board of county commissioners. Should a vacancy occur, the board of county commissioners shall fill the vacancy by appointment within thirty days. The committee members may be resident landowners or resident lessees and, insofar as is practical, shall have a practical knowledge of weed and pest control and shall geographically represent the district.

The board of county commissioners of the county concerned may appoint a qualified person, subject to the approval of the commissioner and district advisory committee, as county pest inspector. It is the duty of said inspector to carry out his duties as provided in this article under the direction of the board and the commissioner. 35-5-107. Duties of pest inspector. (1) The inspector shall cooperate with the commissioner in locating infestations of noxious weeds, insect pests, or plant diseases; make an annual report of known infestations of noxious weeds, insect pests, or plant diseases and compile data on areas controlled, eradicated, or under treatment; submit reports thereon to the commissioner, the district advisory committee, and the board of county commissioners by December 1 of each year; consult with the commissioner and the extension service and advise upon all matters pertaining to the best and most practical methods of noxious weed, insect pest, or plant disease control and eradication; and render every possible assistance to obtain the most effective control or eradication of noxious weeds, insect pests, or plant diseases within the district.

(2) The commissioner or the inspector, or their deputies, having jurisdiction, together with such assistants as they may need in the prosecution of their work, are authorized during reasonable business hours to enter upon or into any premises, lands, or places within any pest control district in this state where they may suspect that pests occur which may be determined by the commissioner to be injurious to the welfare of the community for the purpose of inspecting, controlling, or eradicating the same or otherwise carrying out the provisions of this article.

35-5-108. Control or eradication methods and procedures - notice - assessments - protests. (1) The county pest inspector shall give notice by radio, newspaper, or any other means of communication to the owner, lessee, agent, or occupant of any lands within a district on which noxious weeds, insect pests, or plant diseases are found, advising them of their presence and naming the noxious weed, insect pest, or plant disease, giving both common and scientific names. Such notice shall specify the best available methods of controlling or eradicating such noxious weeds, insect pests, or plant diseases and shall require that such methods be used for control or eradication thereof. Failure to receive such notice shall not constitute a defense to the assessment of a lien against the property, as provided in this section, for the expense for the control or eradication of such pests.

(2) In case any such landowner, lessee, agent, or occupant refuses to comply with the requirements of the county pest inspector for the control or eradication of such noxious weeds, insect pests, or plant diseases, or causes the same to be done, it is the duty of the inspector to provide access to sprayers or other equipment needed and to enter upon such lands with the approval of the board of county commissioners and, as provided in this article, to effect the control or eradication of such noxious weeds, insect pests, or plant diseases.

(3) Upon completion of the work, the board of county commissioners shall notify or cause to be notified said landowner, by certified mail, at the address shown on the records of the county assessor, or by one publication in a newspaper having general circulation within the county, as to the amount due, furnishing an itemized statement of the expense of the treatment of such noxious weeds, insect pests, or plant diseases (the amount paid the inspector shall not be included), and stating that, if the amount of said statement is not paid to the county treasurer of the county wherein the real estate is located within thirty days from the date of said notice, the

amount thereof will be assessed as a lien upon said real estate, but no lien shall be in excess of the valuation for assessment of said real estate.

(4) If any landowner within the district is dissatisfied with the itemized statement of expense, he may, within thirty days from the mailing or publication of the account showing such charge, file a written protest with the board of county commissioners. Not later than ten days after the filing of such protest, the board of county commissioners shall fix a time and place for hearing on the protest filed, to be held not less than ten days nor more than thirty days from the date of notice of the hearing, and immediately after such hearing the board of county commissioners shall make written findings and such changes in the assessment as may be determined to conform with such findings.

(5) A copy of said final statement of expenses shall be filed with the county assessor. If the amount of the statement is not paid within thirty days of said notice or if a protest is filed, within thirty days after the findings or determination of such protest, the county assessor shall extend the amount upon the assessment rolls, and said assessment shall thereon become a part of the general taxes and constitute a lien against the entire contiguous tract owned by such person of which the portion so treated is all or a part. The assessment shall thereafter become due in the same manner and be collected in the same manner as the general ad valorem property tax; but not more than five percent of the total valuation for assessment of the entire contiguous tract of land of which the portion so treated is all or a part shall be spread on the tax rolls against said land in any one year. Any amount in excess of the five percent limitation and remaining unpaid may be carried over and charged on the tax roll of the succeeding years, and any unpaid balance so carried over shall bear interest at the rate of six percent per annum until paid. All of the provisions of the general laws for the enforcement of the collection of taxes shall be applicable thereto after the extension by the county assessor. Such assessments may be paid in full at any time before general taxes become due and payable.

(6) (a) Upon completion of the work, the board of county commissioners shall notify or cause to be notified said lessee, by certified mail, at the address shown on the records of the state board of land commissioners, or by one publication in a newspaper having general circulation within the county, of the amount due, furnishing an itemized statement of the expense of the treatment of such noxious weeds, insect pests, or plant diseases (the amount paid the inspector shall not be included), and stating that, if the amount of said statement is not paid to the county treasurer of the county wherein the leased property is located within thirty days from the date of said notice, the amount thereof will be assessed as a lien upon any improvements located upon the leased property and owned by the lessee. The county shall institute civil proceedings in a court of competent jurisdiction to recover the amount of the assessment. In the event the value of said improvements is less than the amount of the assessment, the county may recover the difference by execution on such personal property of the lessee that is not exempt, as provided by law.

(b) If any lessee within the district is dissatisfied with the itemized statement of expense, he may file a written protest with the board of county commissioners as provided by subsection (4) of this section.

(c) A copy of the final statement of expense shall be filed with the county assessor. If the amount of the statement is not paid within thirty days of said notice or if a protest is filed, within thirty days after the findings or determination of such protest, the county assessor shall extend the amount upon the assessment rolls, and said assessment shall thereon become a part of the

general taxes and constitute a lien against any improvements located upon the tract and owned by the lessee. If a judgment in favor of the county is not satisfied as the result of execution on the property, the county shall seek to satisfy the judgment by levying upon any personal property held by the lessee which is not exempt, as provided by law.

35-5-109. Owner or lessee refuses action. When noxious weeds, insect pests, or plant diseases are found on a property not listed on the tax rolls of the county and the owner or lessee of the property refuses or fails to take the necessary action to control or eradicate such noxious weeds, insect pests, or plant diseases, after notice as prescribed in section 35-5-108, the county pest inspector shall treat the same as though listed on the tax rolls, and the expense thereof may be recovered by the county in an action therefor in any court of competent jurisdiction. The control or eradication of noxious weeds, insect pests, or plant diseases on county property may be contracted for by the inspector, with the approval of the board of county commissioners, at county expense.

35-5-110. Public nuisance - abatement. Any noxious weeds, insect pests, or plant diseases with respect to which a control district has been proclaimed, and any and all stages thereof, their carriers, and any and all premises, plants, and things infested or exposed to infestation therewith within such area are declared to be a public nuisance, subject to all laws and remedies relating to the prevention and abatement of nuisances. The inspector, under the supervision and direction of the commissioner and with the approval of the board of county commissioners, in a summary manner or otherwise, may take such action, including removal and destruction, with reference to such nuisance as in his discretion seems necessary. The remedies of this section shall be cumulative with all other remedies provided in this article.

35-5-111. Reports of acreage infested - county tax levy - fund - allocation. (1) The commissioner is directed, and it is his duty, to ascertain each year, from reports of the inspectors and other sources, the approximate amount of land and highways infested with the most troublesome noxious weeds, insect pests, or plant diseases, and their location, and transmit such information tabulated by counties, not later than July 1 of each year, to the board of county commissioners of each county affected by such infestation. On the basis of such information, the board of county commissioners of each county may make a tax levy each year on real property for the purpose of paying the cost of noxious weed, insect pest, or plant disease control or eradication in a district of the county as provided by this section, but such levy shall not exceed two mills in any one year.

(2) Moneys collected from such levy shall be set apart as a pest control fund, and moneys derived from a particular district shall be used only in that district, and moneys derived on a countywide basis shall be used for the whole county. Vouchers shall be drawn against said fund by the board for items of expense incident to the control or eradication of noxious weeds, insect pests, or plant diseases in the county or in any such district. Such expenditures and accounts shall be audited annually.

35-5-112. Pest control district on public lands - notice - charges. (1) When an area designated as a pest control district by the board of county commissioners of any county contains public lands, it is the duty of the commissioner to notify the proper state departments which control or supervise the public lands within the area so designated that such a district has been formed. It is the duty of any such department so notified to control or eradicate all noxious weeds, insect pests, or plant diseases on any lands under its jurisdiction, and included within the boundaries of the district and for which the district was organized, using the methods prescribed by the commissioner.

(2) In case such department fails to so control or eradicate such pests, it is the duty of the inspector in the county where the infestation is located to enter upon such lands and undertake the control or eradication of such noxious weeds, insect pests, or plant diseases, or cause the same to be done, the expense thereof to be a proper charge against the department which has jurisdiction over the lands. If not paid, such charge may be recovered in an action therefor by the county in any court of competent jurisdiction; except that it is permissible for any such state department which controls or supervises lands in the designated pest control district to enter into a contract with the board of county commissioners of the county wherein the land is situated to authorize the county pest inspector to undertake the control or eradication of all noxious weeds, insect pests, or plant diseases, as provided in this article, on state-controlled land in the district on terms and conditions satisfactory to both parties.

(3) In the case of lands controlled by the state board of land commissioners, which land is included within a district and leased to a lessee, the costs incurred in controlling or eradicating noxious weeds, insect pests, or plant diseases, which would be chargeable to the owner of the land if privately owned, shall be paid by the lessee.

(4) All park land in the state, except that owned by the United States, shall be excluded from charges provided for in this article, and the board of county commissioners of the county in which any such park is located shall be billed for any and all assessments on such park lands.

On and after July 1, 1990, a district may also be dissolved when such question is presented to the resident landowners by the board of county commissioners and more than fifty percent of said landowners voting on the issue vote to dissolve the district; except that no vote is required when two or more districts are being consolidated pursuant to section 35-5-104 (6).

(1) The board of county commissioners of each county in which the governor has declared an emergency resulting from a major grasshopper or range caterpillar infestation is hereby authorized and directed to establish a system of priorities for any operation involving the control of grasshoppers or range caterpillars in infested areas. Such board of county commissioners shall certify to the commissioner any area within a county which has established a grasshopper or range caterpillar control district in areas infested with grasshoppers or range caterpillars and in which sixty-six and two-thirds percent of the landowners and lessees have agreed to pay a proportionate share of the cost per acre for grasshopper or range caterpillar control, as determined by the commissioner, as a contribution to pay the cost of controlling the grasshoppers or range caterpillars which are infesting said area.

(2) Upon receipt by the commissioner of a certification of such an area, and upon deposit with the commissioner of the landowner's and lessee's projected share of the cost of control for grasshoppers or range caterpillars, the commissioner shall immediately direct operations to commence to control the grasshoppers or range caterpillars in such area.

(3) In attempting to control grasshoppers or range caterpillars in established control districts, the commissioner shall not be required to conduct control operations on other than range acreage.

(4) If the commissioner, with approval of the district advisory committee as established in section 35-5-105, determines at any time that control operations would not significantly reduce the grasshopper or range caterpillar populations in the established control districts, he may order that said operations be suspended or terminated.

ARTICLE 5.5

Colorado Noxious Weed Act

35-5.5-101. Short title. This article shall be known and may be cited as the "Colorado Noxious Weed Act".

Source: L. 90: Entire article added, p. 1549, § 1, effective July 1. **L. 96:** Entire section amended, p. 763, § 3, effective May 23.

35-5.5-102. Legislative declaration - rule of construction. (1) In enacting this article the general assembly finds and declares that there is a need to ensure that all the lands of the state of Colorado, whether in private or public ownership, are protected by and subject to the jurisdiction of a local government empowered to manage undesirable plants as designated by the state of Colorado and the local governing body. In making such determination the general assembly hereby finds and declares that certain undesirable plants constitute a present threat to the continued economic and environmental value of the lands of the state and if present in any area of the state must be managed. It is the intent of the general assembly that the advisory commissions appointed by counties and municipalities under this article, in developing undesirable plant management plans, consider the elements of integrated management as defined in this article, as well as all appropriate and available control and management methods, seeking those methods which are least environmentally damaging and which are practical and economically reasonable.

(1.5) The general assembly hereby finds and declares that:

(a) Noxious weeds have become a threat to the natural resources of Colorado, as thousands of acres of crop, rangeland, and habitat for wildlife and native plant communities are being destroyed by noxious weeds each year;

(b) An organized and coordinated effort must be made to stop the spread of noxious weeds and that such an effort can best be facilitated by a state coordinator who will assist in building local coalitions and coordinate the efforts of state, federal, local, and private landowners in developing plans for the control of noxious weeds without unnecessarily disrupting the development of such lands;

(c) The designation and classification of noxious weeds into categories for immediate eradication, containment, and suppression will further assist the state in coordinating efforts to stop the spread of noxious weeds;

(d) Because the spread of noxious weeds can largely be attributed to the movement of seed and plant parts on motor vehicles, and because noxious weeds are becoming an increasing maintenance problem on highway right-of-ways in this state, additional resources are needed to fight the spread of noxious weeds; and

(e) The use of moneys in the noxious weed management fund to assist local governing bodies and affected landowners in the eradication, containment, or suppression of noxious weeds best serves the citizens of Colorado.

(2) This article is in addition to article 5 of this title and is intended to be an expansion of, not a substitution for, the provisions of said article 5.

(a) "Biological management", which means the use of an organism to disrupt the growth of noxious weeds.

(b) "Chemical management", which means the use of herbicides or plant growth regulators to disrupt the growth of noxious weeds.

(c) "Cultural management", which means methodologies or management practices that favor the growth of desirable plants over noxious weeds, including maintaining an optimum fertility and plant moisture status in an area, planting at optimum density and spatial arrangement in an area, and planting species most suited to an area.

(d) "Mechanical management", which means methodologies or management practices that physically disrupt plant growth, including tilling, mowing, burning, flooding, mulching, hand-pulling, hoeing, and grazing.

Once all specified weed populations are eliminated or prevented from reproducing, intensive efforts continue until the existing seed bank is exhausted.

(b) "Containment" which means maintaining an intensively managed buffer zone that separates infested regions, where suppression activities prevail, from largely uninfested regions, where eradication activities prevail.

(c) "Suppression" which means reducing the vigor of noxious weed populations within an infested region, decreasing the propensity of noxious weed species to spread to surrounding lands, and mitigating the negative effects of noxious weed populations on infested lands. Suppression efforts may employ a wide variety of integrated management techniques.

(d) "Restoration" which means the removal of noxious weed species and reestablishment of desirable plant communities on lands of significant environmental or agricultural value in order to help restore or maintain said value.

(12) "Management plan" means the noxious weed management plan developed by any person or the local advisory board using integrated management.

(1) The governing body of each municipality in the state shall adopt a noxious weed management plan for all lands within the territorial limits of the municipality. In addition to and independent of the powers elsewhere delegated by law, the governing body of a municipality may adopt and provide for the enforcement of such ordinances, resolutions, rules, and other regulations as may be necessary and proper to enforce said plan and otherwise provide for the management of noxious weeds within the municipality, subject to the following limitation: No municipal ordinance, resolution, rule, other regulation, or exercise of power pursuant to this article shall apply to unincorporated lands or facilities outside the corporate limits of the municipality, except such lands or facilities which are owned by or leased to the municipality, unless the municipality and the county otherwise agree pursuant to part 2 of article 1 of title 29, C.R.S., or article 20 of title 29, C.R.S.

35-5.5-107. Local advisory board - formation - duties. (1) The governing body of each county and municipality shall appoint a local advisory board. The local governing body, at its sole option, may appoint itself, or a commission of landowners, to act as the local advisory board for that jurisdiction. The members of each local advisory board shall be residents of the

unincorporated portion of the county or residents of the municipality, as the case may be, and in the case of a county, at least a majority of the members of the local advisory board shall be landowners of over forty acres.

(2) In the event a county or municipality elects to cooperate with another county or municipality for any of the purposes set forth in this article, the membership of the local advisory board shall be determined by the governing bodies of such cooperating local governments.

(3) Each local advisory board shall annually elect a chairman and secretary. A majority of the members of the board shall constitute a quorum for the conduct of business.

(4) Local advisory boards shall have the power and duty to:

(a) Develop a recommended management plan for the integrated management of designated noxious weeds and recommended management criteria for noxious weeds within the area governed by the local government or governments appointing the local advisory board. The management plan shall be reviewed at regular intervals but not less often than once every three years by the local advisory board. The management plan and any amendments made thereto shall be transmitted to the local governing body for approval, modification, or rejection.

(c) Recommend to the local governing body that identified landowners be required to submit an individual integrated management plan to manage noxious weeds on their property.

(5) The local governing body shall have the sole and final authority to approve, modify, or reject the management plan, management criteria, management practice, and any other decision or recommendation of the local advisory board.

(6) The state weed coordinator shall review any recommendations of a local advisory board appointed pursuant to article 5 of this title and note any inconsistencies between the recommendations of the state weed coordinator or the commissioner and any such local advisory board.

35-5.5-108. Designated noxious weeds - rules - legislative declaration. (1) The general assembly hereby finds and declares that the noxious weeds designated by rule are a present threat to the economic and environmental value of the lands of the state of Colorado and declare it to be a matter of statewide importance that the governing bodies of counties and municipalities include plans to manage such weeds as part of their duties pursuant to this article.

(2) (a) The state list of plant species that are designated as noxious weeds shall be designated by rule and shall be managed under the provisions of this article. On and after August 6, 2003, the commissioner shall classify noxious weeds into one of a minimum of three categories, including:

(I) "List A", which means rare noxious weed species that are subject to eradication wherever detected statewide in order to protect neighboring lands and the state as a whole;

(II) "List B", which means noxious weed species with discrete statewide distributions that are subject to eradication, containment, or suppression in portions of the state designated by the commissioner in order to stop the continued spread of these species;

(III) "List C", which means widespread and well-established noxious weed species for which control is recommended but not required by the state, although local governing bodies may require management.

(b) A local governing body may adopt eradication, containment, or suppression standards that are more stringent than the standards adopted by the commissioner.

(2.1) The commissioner shall review and revise, as necessary, the state noxious weed list at least once every three years.

(2.3) The commissioner shall develop and implement by rule state noxious weed management plans for noxious weed species classified as list A or list B species. For each noxious weed species, each management plan shall designate the management objectives for all lands of the state appropriate to achieve the stated purpose of the species classification.

(2.5) The commissioner shall prescribe integrated management techniques to achieve specified management objectives for each listed species after consulting with the state noxious weed advisory committee. The prescribed management techniques shall be mandatory techniques for list A species and populations of list B species designated for eradication. The commissioner shall develop management techniques pursuant to science-based methodologies, peer reviewed studies, or any other method that is based on credible research.

(2.6) The classifications made pursuant to paragraph (a) of subsection (2) of this section shall primarily reflect the known distribution of the designated species, the feasibility of current control technologies to achieve specified management objectives, and the costs of carrying out the prescribed state weed management plan.

(2.7) (a) The commissioner shall also adopt rules for granting compliance waivers to local governing bodies and landowners; except that a waiver may not be granted to the affected landowner when a landowner has wilfully or wantonly violated the provisions of this section or section 35-5.5-104.5 or 35-5.5-108.5 attempts to delay eradication of a species without just cause.

(b) Such rules shall include:

(I) A process by which a local governing body or an affected landowner may petition the commissioner to change the management objectives specified in a state noxious weed management plan;

(II) The criteria used to evaluate such petitions; and

(III) Time frames in which the commissioner shall grant or deny such petitions.

(c) Actions sufficient to implement the management objective for a noxious weed species shall continue until the commissioner grants a waiver pursuant to this subsection (2.7).

(3) The board of county commissioners or governing body of a municipality may declare additional noxious weeds, within its jurisdictional boundaries, after a public hearing with thirty days prior notice to the public. Any declaration of additional noxious weeds pursuant to this subsection (3) shall include the management objectives for all affected landowners.

35-5.5-108.5. Responsibilities related to eradication of designated noxious weeds - commissioner - local governing bodies - affected landowners. (1) This section shall apply to

noxious weeds that have been classified as list A species and to populations of list B species designated for eradication pursuant to section 35-5.5-108 (2)(a). This section shall govern the responsibilities of the commissioner, local governing bodies, and affected landowners.

(2) **Duties of commissioner.** (a) The commissioner may enforce the provisions of this section as necessary to ensure the cooperation of local governing bodies and affected landowners.

(b) The commissioner shall provide:

(I) Educational resources to local governing bodies and affected landowners regarding the eradication of list A species and populations of list B species designated for eradication. Such education shall include an explanation of why the species has been listed for eradication, the prescribed techniques for eradication in the most cost-effective manner, and the duties of the local governing body and affected landowner regarding such eradication.

(II) Financial or in-kind resources to local governing bodies or affected landowners to eradicate list A species and populations of list B species designated for eradication from the available moneys in the noxious weed management fund created in section 35-5.5-116. Such financial or in-kind resource allocation shall be determined by the commissioner according to the identified benefits to the citizens of Colorado, the surrounding community, and the affected landowners.

(III) The inventory and mapping infrastructure necessary to facilitate the classification of state noxious weeds and the development and implementation of state noxious weed management plans.

(3) **Duties of local governing bodies.** (a) In compliance with the rules promulgated by the commissioner, a local governing body shall initiate and maintain communications with landowners who are affected by list A species and populations of list B species designated for eradication by the commissioner.

(b) In addition to the existing powers and duties of a local governing body provided in this article a local governing body shall:

(I) Provide affected land owners with technical assistance for the eradication of list A species and populations of list B species designated for eradication by the commissioner;

(II) Carry out sufficient measures, including project oversight and enforcement, as may be necessary to ensure the eradication of list A species and populations of list B species designated for eradication by the commissioner;

(III) Provide the commissioner with assistance in disseminating financial resources to affected landowners and mapping data pursuant to rules promulgated by the commissioner; and

(IV) Determine the cost of eradication to be borne by affected landowners.

(c) Local governing bodies may apply to the commissioner for a waiver of compliance with an eradication designation pursuant to section 35-5.5-108 (2.7).

(d) If the commissioner determines, in consultation with the local governing body, that the most cost-effective manner to eradicate designated noxious weeds is for the commissioner to implement an eradication program, the commissioner may implement the eradication program directly.

(4) **Duties of affected landowners or occupants.** Except as provided pursuant to section 35-5.5-104.5 (1)(a), an affected landowner or occupant whose property may be affected by list A species or by populations of list B species designated for eradication shall allow the

commissioner or local weed control officials access to such property for the purpose of immediate inspection and eradication when at least one of the following events has occurred:

- (a) The affected landowner or occupant has requested the inspection;
- (b) A neighboring landowner or occupant has reported a suspected noxious weed infestation and requested an inspection; or
- (c) An authorized agent of the local government or commissioner has made a visual observation from a public right-of-way or area and has reason to believe that a noxious weed infestation exists.

(5) (a) If verbal permission to inspect the land by the affected landowner is not obtained, no entry upon any premises, lands, or places shall be permitted until the local governing body has notified the affected landowner that such inspection is pending by certified mail if the landowner's mailing address is within the United States or mailed in a comparable manner to a landowner whose mailing address is outside of the United States. Where possible, inspections shall be scheduled and conducted with the concurrence of the affected landowner or occupant. A local governing body may notify an affected landowner in an electronic format, in addition to notice by certified mail.

(b) (I) If, after ten days with no response from the affected landowner or upon denial of access before the expiration of ten days, the inspector may seek an inspection warrant issued by a municipal, county, or district court having jurisdiction over the land. The court shall issue an inspection warrant upon presentation by the local governing body of an affidavit stating:

(A) The information that gives the inspector reasonable cause to believe that any provision of this section, section 35-5.5-104.5, or section 35-5.5-108, is being or has been violated;

(B) The affected landowner has failed to respond or the landowner or occupant has denied access to the inspector; and

(C) A general description of the location of the affected land.

(II) No affected landowner or occupant shall deny access to an authorized agent of the local governing body or the commissioner in possession of an inspection warrant.

(6) An affected landowner shall notify a lessee or occupant of affected lands of all notices of inspection and eradication efforts on such lands as soon as practicable.

(7) The local governing body of the county or municipality having jurisdiction over private and public lands on which list A species or populations of list B species designated for eradication are found shall notify the affected landowner or occupant of such lands by certified mail if the landowner's mailing address is within the United States or mailed in a comparable manner to a landowner whose mailing address is outside of the United States. The notice shall name the noxious weeds, identify eradication as the required management objective, advise the affected landowner or occupant to commence eradication efforts within a specified period or condition, and state the integrated weed management techniques prescribed by the commissioner for eradication. Where possible, the local governing body shall consult with the affected landowner or occupant in the development of a plan for the eradication of noxious weeds on the premises or land.

(8) Within five days after the local governing body mails notification, the landowner shall comply with the terms of the notification or submit an acceptable plan and schedule for the completion of the management objective.

(9) (a) In the event the affected landowner or occupant fails to comply with the notice to eradicate the identified noxious weeds and implement an appropriate eradication program, the local governing body having authority over the public or private land shall:

(I) Provide for and complete the eradication of such noxious weeds at such time, upon such notice, and in such manner consistent with achieving the management objective as the local governing body deems appropriate; and

(II) Do one of the following:

(A) Assess the whole cost of the eradication, including up to one hundred percent of inspection, eradication, and other incidental costs in connection with eradication, upon the lot or tract of land where the noxious weeds are located; except that no local governing body shall levy a tax lien against land it administers as a part of a public right-of-way. Such assessment shall be a lien against each lot or tract of land until paid and shall have priority over all other liens except general taxes and prior special assessments. Such assessment may be certified to the county treasurer of the county in which the property is located and collected and paid over in the same manner as provided for the collection of taxes. Any funds collected pursuant to this section shall be utilized in furtherance of the local governing body's weed management efforts.

(B) In the event the state board, department, or agency fails to comply with the notice to eradicate the identified noxious weeds, the local governing body in whose jurisdiction the infestation is located may enter upon such lands and undertake the management of such noxious weeds or cause the same to be done. The expenses associated with inspection and eradication shall be paid by the state board, department, or agency that has jurisdiction over the lands. An agreement for reimbursement shall be reached within two weeks after the date such statement of expense for eradication is submitted by the local governing body. Such reimbursement agreement shall be in writing. If no reimbursement agreement has been reached or the amount reflected in the agreement is not paid upon presentation, the amount in the agreement shall be submitted to the state controller, who shall treat such amount as an encumbrance on the budget of the state board, department, or agency involved or such charge may be recovered in any court with jurisdiction over such lands. The expense associated with eradication may be recovered in any court with jurisdiction over such infested land.

(b) No local governing body shall provide for or compel the eradication of list A species and populations of list B species designated for eradication or list B noxious weeds on private or public property pursuant to this subsection (9) without first applying the same measures to any land or rights-of-way owned or administered by the local governing body that are adjacent to the property.

(10) The local governing body, through its delegates, agents, or employees, shall have the right to enter upon any premises, lands, or places during reasonable business hours for the purpose of ensuring compliance with the requirements of this section concerning noxious weed eradication.

(11) No agent, employee, or delegate of a local governing body shall have a cause of action against an affected landowner or occupant for personal injury or property damages while on private or public land for purposes of eradication of noxious weeds except when such damages were the result of gross negligence, recklessness, or intentional action by the landowner.

(12) If, in the opinion of the commissioner, any local governing body fails to adequately perform any of the duties set forth in this section, the commissioner is authorized to conduct any of the functions or duties of a local governing body pursuant to this section.

(13) The commissioner or the local governing body may require the affected landowner to pay a portion of the costs associated with eradication of the noxious weeds.

(14) An affected landowner may apply to the commissioner for a waiver of compliance with an eradication designation pursuant to section 35-5.5-108 (2.7).

(15) For the purposes of this section, an "occupant" shall not include the owner of an easement or right-of-way.

(1) The local governing body, through its delegates, agents, and employees, shall have the right to enter upon any premises, lands, or places, whether public or private, during reasonable business hours for the purpose of inspecting for the existence of noxious weed infestations, when at least one of the following circumstances has occurred:

(a) The landowner or occupant has requested an inspection;

(b) A neighboring landowner or occupant has reported a suspected noxious weed infestation and requested an inspection; or

(c) An authorized agent of the local government has made a visual observation from a public right-of-way or area and has reason to believe that a noxious weed infestation exists.

(2) (a) No entry upon any premises, lands, or places shall be permitted until the landowner or occupant has been notified by certified mail that such inspection is pending. Where possible, inspections shall be scheduled and conducted with the concurrence of the landowner or occupant.

(b) If after receiving notice that an inspection is pending the landowner or occupant denies access to the inspector of the local governing body, the inspector may seek an inspection

warrant issued by a municipal, county, or district court having jurisdiction over the land. The court shall issue an inspection warrant upon presentation by the local governing body, through its agent or employee, of an affidavit stating: The information which gives the inspector reasonable cause to believe that any provision of this article is being or has been violated; that the occupant or landowner has denied access to the inspector; and a general description of the location of the affected land. No landowner or occupant shall deny access to such land when presented with an inspection warrant.

(3) The local governing body of the county or municipality having jurisdiction over private lands upon which noxious weeds are found shall have the authority, acting directly or indirectly through its agent or staff, to notify the landowner or occupant of such lands, advising the landowner or occupant of the presence of noxious weeds. Said notice shall name the noxious weeds, advise the landowner or occupant to manage the noxious weeds, and specify the best available control methods of integrated management. Where possible, the local governing body shall consult with the affected landowner or occupant in the development of a plan for the management of noxious weeds on the premises or lands.

(4) (a) Within a reasonable time after receipt of notification, which at no time shall exceed ten days, the landowner or occupant shall either:

(III) Request an arbitration panel to determine the final management plan.

(b) The arbitration panel selected by the local governing body shall be comprised of a weed management specialist or weed scientist, a landowner of similar land in the same county, and a third panel member chosen by agreement of the first two panel members. The landowner or occupant shall be entitled to challenge any one member of the panel, and the local governing body shall name a new panel member from the same category. The decision of the arbitration panel shall be final.

(5) (a) In the event the landowner or occupant fails to comply with the notice to manage the identified noxious weeds or implement the plan developed by the arbitration panel, the local governing body has the authority to:

(I) Provide for and compel the management of such noxious weeds at such time, upon such notice, and in such manner as the local governing body shall prescribe by ordinance or resolution; and

(II) Assess the whole cost thereof, including up to twenty percent for inspection and other incidental costs in connection therewith, upon the lot or tract of land where the noxious weeds are located; except that no local governing body shall levy a tax lien against land it administers as part of a public right-of-way. Such assessment shall be a lien against each lot or tract of land until paid and shall have priority over all other liens except general taxes and prior special assessments. Such assessment may be certified to the county treasurer of the county in which the property is located and collected and paid over in the same manner as provided for the collection of taxes. Any funds collected pursuant to this section shall be deposited in the local governing body's weed fund or any similar fund.

greater management measures to any land or rights-of-way owned or administered by the local governing body that are adjacent to the private property.

(c) No local governing body shall assess the cost of providing for or compelling the management of noxious weeds on private property until the level of management called for in the notice or the management plan developed by the arbitration panel has been successfully achieved.

(6) The local governing body, through its delegates, agents, and employees, shall have the right to enter upon any premises, lands, or places, whether public or private, during reasonable business hours for the purpose of ensuring compliance with the requirements of this article concerning noxious weed management and any other local requirements.

(1) It is the duty of each state board, department, or agency that administers or supervises state lands to manage noxious weeds on any lands under its jurisdiction using the methods prescribed by the local governing body in whose jurisdiction such state lands are located. The local governing body may give notice to any such state board, department, or agency advising of the presence of noxious weeds and naming them. Such notice shall specify the best available methods of integrated management that are not in conflict with federal law or contractual restrictions included in federal land conveyances to the state. Wherever possible, the local governing body shall consult with the affected state board, department, or agency in the development of a plan for the management of noxious weeds on the premises or lands.

(2) (a) Within a reasonable time after receipt of notification, which at no time shall exceed ten days, the state board, department, or agency shall do one of the following:

(I) Comply with the terms of the notification;

(II) Acknowledge the terms of the notification and submit an acceptable plan and schedule for the completion of the plan for compliance;

(III) Request an arbitration panel to determine the final management plan.

(b) The arbitration panel selected by the local governing body shall be comprised of a weed management specialist or weed scientist, a landowner of similar land in the same county, and a third panel member chosen by agreement of the first two panel members. The state board, department, or agency shall be entitled to challenge any one member of the panel, and the local governing body shall name a new panel member from the same category. The decision of the arbitration panel shall be final.

(3) In the event the state board, department, or agency fails to comply with the notice to manage the identified noxious weeds or implement the plan developed by the arbitration panel, the local governing body in whose jurisdiction the infestation is located may enter upon such lands and undertake the management of such noxious weeds or cause the same to be done, the expense thereof to be a proper charge against said state board, department, or agency which has

jurisdiction over the lands. An agreement for payment shall be reached within two weeks after the date such an expense is submitted, with respect to the amount of reimbursement to be paid. Such agreement shall be in writing. If no agreement has been reached and if the charge is not immediately paid, such charge shall be submitted to the controller, who shall treat such amount as an encumbrance on the budget of the state board, department, or agency involved, or such charge may be recovered in any court with jurisdiction over such lands. Any state board, department, or agency may enter into a contract with the local governing body to authorize the management of noxious weeds on state-administered land on terms and conditions satisfactory to both parties.

(4) In addition to the requirements of subsection (3) of this section, the division shall enter into agreements with local governing bodies for the control of weeds on any property the division owns in fee title or has effective surface control over pursuant to a long-term lease or easement agreement. For purposes of this subsection (4) and subsection (5) of this section, "long-term lease or easement agreement" means any lease or easement agreement that exceeds ten years. Agreements between the division and local governing bodies for weed control shall describe the terms and conditions of weed control, provide an annual estimated budget for such weed control, and identify specific weed control responsibilities for the division and the property owner, if different than the division. Weed control agreements required pursuant to this subsection (4) shall be executed on or before July 1, 1997.

(5) Any weed control expense incurred by a local governing body pursuant to subsection (3) of this section on any lands held by the division in fee title or by long-term lease or easement agreement, as described in subsection (4) of this section, and for which a weed control agreement as described in subsection (4) of this section has been signed, and which costs are in accordance with that long-term agreement, shall be deemed correct and final and shall be paid by the division pursuant to section 33-1-110 (6.5), C.R.S.

(2) (a) In addition to the enforcement authority of the commissioner pursuant to section 35-5.5-118, a person who violates this article 5.5, any rule promulgated pursuant to this article 5.5, or any county ordinance, resolution, rule, or other regulation implementing this article 5.5 commits a civil infraction. The county attorney for the county where the violation occurs shall

enforce civil infractions pursuant to this subsection (2)(a) by prosecution. Each day that a violation continues is a separate offense.

(b) As used in this subsection (2), "person" does not include a state agency.

(3) (a) (I) In addition to the enforcement authority of the commissioner pursuant to section 35-5.5-118 and the county attorney pursuant to subsection (2)(a) of this section, a county court, upon a finding by a preponderance of the evidence that a violation occurred or is occurring, shall order the violator to pay a civil penalty of no less than five hundred dollars and no more than one thousand dollars.

(II) Notwithstanding subsection (3)(a)(I) of this section, each day that a violation continues is a separate offense, and a violator is subject to a continuing civil penalty of no more than one hundred dollars for each day that the violation continues.

(b) (I) Until the filing with the county court of a receipt issued by the county treasurer showing payment in full of a civil penalty ordered pursuant to subsection (3)(a) of this section or the granting of a motion of the county attorney indicating that the matter has been resolved pursuant to subsection (3)(c)(I) of this section, the civil penalty, as of the date of the recording of the civil penalty with the clerk and recorder of the county where the violation occurred or is occurring, is a lien against the property where the violation occurred or is occurring.

(II) If the civil penalty is not paid within thirty days after the order of the county court, the board of county commissioners may certify the civil penalty to the county treasurer, who shall collect the civil penalty and a ten percent additional penalty for the cost of collection in the same manner as other taxes are collected.

(III) Any state laws applicable to the assessment and collection of general taxes, including the laws for the sale and redemption of property for taxes, apply to the collection of civil penalties pursuant to subsection (3)(b)(II) of this section.

The county court may also dismiss the action upon a motion of the county attorney indicating that the matter has been resolved.

(II) If the events described in subsection (3)(c)(I) of this section do not occur, the action continues. If a county attorney files a motion in county court and presents proof that the violation has not been cured, removed, or corrected, the county court shall order an additional civil penalty in an amount consistent with subsection (3)(a) of this section.

(b) In any other circumstance that the board of county commissioners deems appropriate.

(6) Except for any surcharges or court costs collected by a court, any fines, fees, or costs collected pursuant to this section must be transmitted to the county treasurer of the county where the violation occurred.

(7) Notwithstanding any provision to the contrary, it is within the discretion of a county attorney or district attorney, as applicable, to determine whether to pursue an enforcement action pursuant to this section or to pursue another remedy available under the law.

Rodents and Predatory Animals - Control

PART 1

RODENT CONTROL

35-7-101. Legislative declaration. Whereas, in many large areas of this state certain destructive rodent pests, such as jackrabbits, prairie dogs, ground squirrels, pocket gophers, and rats, have become so numerous and such a grave and immediate menace to the agricultural, horticultural, and livestock industries of the state that large numbers of the inhabitants engaged in such industries in the localities so infested are in great and imminent danger of being impoverished and reduced to want by the destruction of their crops; and, whereas, the situation is so serious and the emergency so urgent that public necessity demands that prompt, efficacious, and summary action be taken under the police power of the state to control, suppress, and eradicate the rodents in the areas infested by them; now, therefore, it is declared that in all fields, orchards, places, localities, and areas in the state infested with any such rodents in sufficient numbers as to materially injure agricultural or horticultural crops therein, such infestation is a public nuisance and subject to suppression and abatement as such under the provisions of this part 1.

35-7-102. Agreement with the federal government. To the end that the situation may be speedily remedied, it is the duty of the department of agriculture, referred to in this part 1 as the "department", to enter into written agreements on behalf of the state with the federal agency in charge of rodent control matters, referred to in this article as the "federal agency", such agreements to define such procedure, in accordance with the provisions of this part 1, as they deem advisable and proper for the purpose of cooperating with the federal agency in the control and eradication within this state of the rodent pests mentioned in section 35-7-101.

To enable the department to carry out any such agreement or to perform the duties devolved upon the department in carrying out the purpose of this part 1, the department is authorized to enlist and pay the necessary expenses of volunteer agents and to employ and pay the salary and necessary expenses of such other agents as may be required to act in their behalf. If, within thirty days after the publication of such notice, any owner of lands infested by the pests within the prescribed area fails to destroy the same, or to enter into a cooperative agreement for their control or eradication, then, at the time operations are instituted on such lands, it is the duty of

the department, or its agents, to enter upon the lands and to destroy the pests thereon at the expense of the owner of such lands.

The expense of such supervision shall be paid by the owner, claimant, or custodian. The pesticide or device shall be returned to the owner, claimant, or custodian of the pesticide or device on the representation to the court by the commissioner that the pesticide or device is no longer in violation of this article and that the expenses of such supervision have been paid.

(1) (a) (I) The commissioner shall promulgate rules for the establishment of a registry of pesticide-sensitive persons to be maintained by the department. Pesticide-sensitive persons may apply to be placed on the registry if they can provide proof of medical justification by a physician licensed in Colorado in the form and manner prescribed by the commissioner. To remain on the registry, a pesticide-sensitive person must update the person's proof of medical justification every two years. The department shall update the registry at least annually, and make the published registry readily accessible, in a form and manner prescribed by

the commissioner, to all commercial, registered limited commercial, and registered public applicators on record with the commissioner.

(II) In applying to be placed on the registry, a pesticide-sensitive person may list a principal:

- (A) Residential address;
- (B) Employment address; and
- (C) School address.

(b) The commissioner shall provide standardized notification signs to any person accepted for the registry for such person to post on his property. These signs shall be designed, manufactured, and distributed solely by the department.

(c) (I) A commercial, registered limited commercial, or registered public applicator, prior to applying a pesticide in any turf or ornamental category, shall take reasonable actions to give notice of the date and approximate time of any such pesticide application, prior to the application, to any pesticide-sensitive person whose name is on the published registry and:

- (A) Who has listed the property to be treated as the person's principal residential, employment, or school address pursuant to subsection (1)(a)(II) of this section;
- (B) Who resides on property that abuts the property to be treated; or
- (C) Who resides in a multiunit dwelling that abuts a common area to be treated.

(II) If two property sites would be considered to be abutting but for the fact that such sites are separated by an alley, for the purposes of this section such sites are deemed to be abutting.

(III) In notifying a pesticide-sensitive person pursuant to this section, a commercial, registered limited commercial, or registered public applicator may provide the notice electronically.

(d) A commercial, registered limited commercial, or registered public applicator in the wood-destroying organism pest control, residential or commercial pest control, or interior plant pest control categories, prior to making a structural pesticide application to a multiunit dwelling, shall take reasonable actions to give notice of the date and approximate time of any such pesticide application, prior to the application, to any pesticide-sensitive person whose name is on the published registry and who resides at that multiunit dwelling.

(e) The commissioner may establish rules to further clarify the circumstances and manner in which notice shall be given to pesticide-sensitive persons.

(f) (I) On or before July 1, 2024, the department shall develop a searchable database of all properties that abut, or are entirely located within two hundred fifty feet of, any residential property listed in the registry of pesticide-sensitive persons. If a property is only partially located within two hundred fifty feet of a residential property listed in the registry, and does not abut the residential property, the department shall not include the property in the searchable database.

(II) When developing the searchable database pursuant to this subsection (1)(f), the department must:

(A) Through the commissioner, adopt rules requiring a commercial, registered limited commercial, or registered public applicator to provide notice to a pesticide-sensitive person if the commercial, registered limited commercial, or registered public applicator treats a property that is listed in the searchable database as abutting, or being entirely located within two hundred fifty feet of, the pesticide-sensitive person's listed residential property. A commercial, registered limited commercial, or registered public applicator is not required to provide notice pursuant to

this subsection (1)(f)(II)(A) unless and until the commissioner adopts rules pursuant to this subsection (1)(f)(II)(A).

(B) Periodically update the searchable database as needed; and

(C) Provide access to the searchable database to all commercial, registered limited commercial, and registered public applicators.

(III) It is an affirmative defense to an allegation that a commercial, registered limited commercial, or registered public applicator violated rules adopted pursuant to subsection (1)(f)(II)(A) of this section if a failure to notify a pesticide-sensitive person of the treatment of a property that abuts, or is located entirely within two hundred fifty feet of, the pesticide-sensitive person's listed residential property resulted from the fact that the treated property was not listed in the searchable database at the time of the treatment.

(2) (a) Any commercial, registered limited commercial, or registered public applicator making a pesticide application in any turf or ornamental category shall, at the time of application, post a sign or signs notifying the public of the application. Such signs shall be posted at any conspicuous point or points of entry to the property receiving the application.

(b) Any commercial, registered limited commercial, or registered public applicator making a pesticide application in any aquatic category shall post, at the time of application, a sign or signs notifying the public of the application. Such signs shall be posted in the manner designated by the commissioner through the adoption of rules pursuant to article 4 of title 24, C.R.S.

(c) The notice-of-application signs specified in paragraphs (a) and (b) of this subsection (2) shall be water resistant and shall measure at least four inches in height and five inches in width. Each sign shall contain the following information in black lettering and symbols on a bright yellow background:

(I) The word "WARNING", in at least sixty-point bold-faced type;

(III) The symbol of a circle at least two inches in diameter with a diagonal slash over an adult, child, and dog; and

(IV) The name of the commercial, registered limited commercial, or registered public applicator that made the application, in at least eighteen-point bold-faced type.

(d) If a commercial or registered limited commercial applicator makes a pesticide application on a commercial property site pursuant to paragraph (a) or (b) of this subsection (2) and an owner of the site or an agent of an owner of the site is not present at the site, then, in addition to the information required by paragraph (c) of this subsection (2), the notice-of-application signs posted by the applicator at the site shall also contain the following information in black lettering and symbols on a bright yellow background in at least eighteen-point bold-faced type:

(I) The telephone number of the applicator;

(II) The name of the pesticide applied; and

(III) The date the pesticide was applied.

(3) No county, city and county, municipality, home rule county, home rule city and county, or home rule municipality shall enact or impose any notification requirements upon commercial applicators which are more stringent than those imposed by this article; except that each county, city and county, municipality, home rule county, home rule city and county, and home rule municipality shall retain the authority to impose any notification requirements upon

private individuals, property owners, and the general public. Any such notification requirement imposed by any county, city and county, municipality, home rule county, home rule city and county, or home rule municipality on private individuals, property owners, or the general public shall not be held to be applicable to any commercial applicator, nor shall any commercial applicator be exposed to any liability for a failure to comply with any such notification requirement.

35-10-112.5. Statewide uniformity of pesticide control and regulation - exceptions.

(1) The general assembly hereby determines that:

(a) The citizens of this state benefit from a system of safe, effective, and scientifically sound pesticide regulation;

(b) A system of pesticide regulation that is consistent and coordinated, that creates statewide uniform standards, and that conforms with both state and federal technical standards and requirements is essential to the public health, safety, and welfare, and finds that local regulation of pesticides that is inconsistent with and adopts different standards from federal and state requirements does not assist in achieving these benefits;

(c) Through statute and regulation, the state has created a system of pesticide regulation based upon scientific standards that protects the citizens of this state;

(d) Although the cultivation of marijuana is illegal under federal law and so the use of pesticides in cultivating marijuana is not specifically allowed by any pesticide's label, the cultivation of marijuana is specifically allowed and regulated by Colorado law, and the use of pesticides should be regulated pursuant to this article and rules promulgated pursuant to this article rather than pursuant to local laws; and

(e) Pesticide regulation is a matter of statewide concern.

(2) A local government shall not adopt or continue in effect any ordinance, rule, resolution, charter provision, or statute regarding the use of any pesticide by persons regulated by this article or federal law and pertaining to:

(a) Any labeling or registration requirements for pesticides, including requirements regarding the name of the product, the name and address of the manufacturer, and any applicable registration numbers;

(b) (I) The use and application of pesticides by persons regulated by this article or federal law, including but not limited to, directions for use, classification of pesticides as general or restricted use, mixing and loading, site of application, target pest, dosage rate, method of application, application equipment, frequency and timing of applications, application rate, reentry intervals, worker specifications, container storage and disposal, required intervals

between application and harvest of food or feed crops, rotational crop restrictions, and warnings against use on certain crops, animals, or objects or against use in or adjacent to certain areas.

(II) Subparagraph (I) of this paragraph (b) applies to the use and application of pesticides by persons regulated by this article or federal law in connection with the cultivation of marijuana.

(c) Except as specifically provided in this article, any warnings and precautionary statements, notifications, or statements of practical treatment; or

(d) Licensure, training, or certification requirements for persons regulated under this article, including any insurance and record-keeping requirements.

(3) (a) Nothing in this article may be construed to limit the authority of a local government as defined by state law to:

(I) Zone for the sale or storage of any pesticide, provide or designate sites for disposal of any pesticide or pesticide container, adopt or enforce building and fire code requirements, regulate the transportation of pesticides consistently with and in no more strict of a manner than state and federal law, adopt regulations pursuant to a storm water management program that is consistent with federal or state law, or adopt regulations to protect surface or groundwater drinking water supplies consistent with state or federal law concerning the protection of drinking water supplies;

(II) Take any action specifically authorized or required by any federal or state law or regulation with respect to pesticides, or to take any action otherwise prohibited by this article in order to comply with any specific federal or state requirement or in order to avoid a fine or other penalty under federal or state law;

(III) Regulate the use of pesticides on property owned or leased by the local government;

(IV) Issue local general occupational licenses to persons regulated by this article.

(b) This subsection (3) does not authorize a local government to utilize the police power or the authority to zone, to provide or designate disposal sites, to adopt and enforce building and fire codes, or to regulate the transportation of pesticides as described in paragraph (a) of this subsection (3) to directly or indirectly regulate or prohibit the application of pesticides by persons regulated by this article or by federal law, including in connection with the cultivation of marijuana.

(c) Nothing in this article shall be construed to be an implicit grant of authority to a local government that is not otherwise granted by state law.

(2) It is unlawful and a violation of this article for any person acting as a commercial, registered limited commercial, or registered public applicator, or as a qualified supervisor or certified operator:

35-12-106. Distribution fees. (1) All registrants, except those who package only in containers of ten pounds or less, shall pay the commissioner a distribution fee as established by the commission for all commercial fertilizers, soil conditioners, or plant amendments distributed in this state. For the purpose of funding the department's state waters protection efforts, an additional fee per ton of commercial fertilizer shall be paid to the commissioner as established by the commission. This increment per ton of commercial fertilizer shall be collected by the commissioner and transmitted to the state treasurer, who shall credit the same to the plant health, pest control, and environmental protection cash fund created in section 35-1-106.3.

(2) Registrants of specialty fertilizers, soil conditioners, or plant amendments packaged in containers of ten pounds or less shall pay the commissioner a distribution fee as established by the commission, for all specialty fertilizers, soil conditioners, or plant amendments distributed in this state.

(3) Each person registering any commercial fertilizer, soil conditioner, or plant amendment and each person producing custom mixes in this state shall keep adequate records showing the pounds or tonnage distributed in this state, and the commissioner has the authority to examine such records to verify the statement of pounds or tonnage.

(4) Each registrant shall file an affidavit with the commissioner within forty-five days after the date specified by rule of the commissioner that discloses the pounds or tonnage of commercial fertilizer, soil conditioner, or plant amendment distributed in the state during the preceding twelve-month period and any other information as required by rules adopted by the department. If the affidavit is not filed and the distribution fee is not paid within the forty-five-day period, or if the report of pounds or tonnage is false, the commissioner may revoke the registration and assess a penalty established by the commission. The distribution fee and the penalty shall constitute a debt and become the basis for a judgment against the registrant.

(5) When more than one person is involved in the distribution of a commercial fertilizer, soil conditioner, or plant amendment, the last registrant to distribute the product is responsible

for reporting the annual pounds or tonnage and paying the distribution fee, unless the annual report and payment has been made by a prior distributor.

(6) Distribution fees are not required for ingredients that have already been included in the tonnage or pounds for which a Colorado distribution fee has been paid.

(7) The distribution fees required to be paid by this section shall not apply to untreated manure or compost and treated manure distributed without commercial fertilizer, soil conditioner, or plant amendment labeling claims.

(8) (a) For each fiscal year, commencing July 1, fifty percent of the direct and indirect costs of administering and enforcing this article shall be funded from the general fund. The commission shall establish a fee schedule to cover any direct and indirect costs not funded from the general fund. All moneys collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the inspection and consumer services cash fund created in section 35-1-106.5.

35-14-122. Public scales - requirements - weight certificates - procedures - records. [See editor's note following this section] (1) (a) Provision shall be made for official certified scales throughout the state for the purpose of doing public weighing if the scale owners agree to meet the requirements of this article. Such scales shall be operated only by a certified weigher. All equipment used by certified weighers shall be approved by the commissioner.

(b) The commissioner shall require the owner or operator of all certified scales to post on the outside of the scale house, where it can be conveniently observed by all persons, a sign at least twelve inches high and thirty-six inches long, stating the maximum weighing capacity of the scale. No person shall weigh or attempt to weigh any article or load having a greater weight or suspected weight greater than the rated capacity of the scale.

(2) (a) (I) It is the duty of each certified weigher to weigh upon the certified scales any load delivered at the scales for weighing when engaged to do so by any person and to issue a certificate of correct weight.

(II) The certificate of correct weight must state the gross weight of the load, the tare weight, the net weight of the load, and the date of weighing. In addition, the weight certificate must indicate:

- (A) The state license number of the vehicle or other positive identification;
- (B) A serial number;
- (C) The name of the shipper or the owner of the load;
- (D) The nature of the load;
- (E) The name of the receiver of the load;

(III) For issuing a certificate, the certified weigher may charge a reasonable fee; except that no charge may be made for weighing done or for certificates issued upon the demand of the commissioner or any employee acting in an official capacity under this article 14.

(b) All certified weighers shall keep a daily register in which they shall enter every transaction by them as certified weighers, including the gross weight of each load, the weight of the vehicle, the net weight of the load, the license number of the vehicle, if any, the name of the dealer or owner, the name of the weigher, the name of the person for whom the weighing was done, and the date of weighing. The daily register shall be kept by the certified weigher and shall be open at all times to inspection by the supervisor of measurements standards and all other inspectors of the department and by any other person interested therein. Such daily registers shall be kept for a period of two years.

(3) A weighing made of any vehicle or combination of vehicles to ascertain the gross, tare, or net weight for commercial purposes or certification by a certified weigher shall not be determined by any procedure denominated as a split-weighing or fore-and-aft draft. The gross, tare, or net weight of any vehicle or combination of vehicles as a single unit shall be determined upon scales with platforms of sufficient size to accommodate the vehicle or combination of vehicles as one entire unit; except that the gross, tare, or net weight of a combination of vehicles may be determined upon a scale which will not accommodate the combination of vehicles as one entire unit if the same are separated and the weight of each member thereof can and is determined separately as an independent unit. In such cases, weight certificates shall be issued for each such separate weighing.

(4) The certified scales shall be available for use by the public each day of the year during all reasonable business hours. Sundays and other legal holidays are excepted.

(5) All persons, firms, and corporations which do public weighing for a fee shall keep a complete record of each such weighing for a period of two years, and at least one copy of each weighing certificate shall be retained on record at the place of weighing.

(6) (a) All commodities bought, sold, delivered, or in the process of changing ownership that use the weight of the content for final determination and settlement shall be weighed on a scale licensed in accordance with this article if neither the buyer nor the seller owns his or her own scale. The weigher shall issue a weight certificate containing all the information required by subsection (2) of this section to both the buyer and the seller. If the buyer or seller owns his or her own scale licensed by the department and uses such scale to determine the weight of such commodities, such party shall issue a ticket or invoice in duplicate to the other party. Said ticket or invoice shall contain all the information required by subsection (2) of this section.

(b) All commodities bought, sold, delivered, or in the process of changing ownership for which a weight certificate, ticket, or invoice has been issued pursuant to paragraph (a) of this subsection (6) and which are being hauled or transported on the streets, roads, or highways of this state shall be accompanied with a weight certificate or a ticket or invoice containing the information required by subsection (2) of this section.

35-23-101. Legislative declaration. The purpose of this article is to provide the means whereby producers, shippers, carriers, buyers, and sellers of fruits, vegetables, and such other agricultural products as may be mutually agreed upon, on application, may secure prompt and efficient inspection and classification of such products. The standardization of the produce industry by means of the proper classification and grading of fruits, vegetables, and other agricultural products is recognized to be beneficial to the producer, carrier, shipper, buyer, seller, and consumer. Prompt and efficient inspection, under competent authority, furnishes the producer and the shipper prima facie evidence of quality and condition of products; it guarantees the carrier and the receiver as to the quality and condition of products carried and received by them; and it assures the ultimate consumer of the quality and condition of products purchased.

ARTICLE 27

Colorado Seed Act

Editor's note: This article was numbered as article 8 of chapter 6, C.R.S. 1963. The provisions of this article were repealed and reenacted in 1993, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this article prior to 1993, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. 35-27-101. Short title. This article shall be known and may be cited as the "Colorado Seed Act".

Source: L. 93: Entire article R&RE, p. 1000, § 1, effective July 1.

35-27-102. Legislative declaration. The general assembly hereby finds and declares that truth in the labeling of seed is of paramount importance to the citizens of Colorado because the distribution and subsequent use of poor quality seed caused by inaccurate or misleading labeling of such seed can result in severe economic hardship due to low crop yields, poor crop quality, and the spread of noxious weed seed. It is the intent of the general assembly in enacting this article to prevent the distribution and use of poor quality seed through the regulation of the labeling, the labelers, and the sellers of seed for propagation in Colorado.

MARKETING AND SALES

ARTICLE 28

Marketing Act of 1939

35-28-101. Short title. This article shall be known and may be cited as the "Colorado Agricultural Marketing Act of 1939".

Source: L. 39: p. 193, § 1. CSA: C. 106, § 46. CRS 53: § 7-3-1. C.R.S. 1963: § 7-3-1.

35-28-102. Legislative declaration. (1) It is declared that the marketing of agricultural commodities in Colorado, in excess of reasonable and normal market demand therefor; disorderly marketing of such commodities; improper preparation for market and lack of uniform grading and classification of agricultural commodities; unfair methods of competition in the marketing of such commodities; and the inability of individual producers to develop new and larger markets for Colorado grown agricultural commodities, result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions and the accompanying waste jeopardize the future continued production of adequate food supplies for the people of this and other states, and prevent agricultural producers from obtaining a fair return from their labor, their farms, and the agricultural commodities which they produce. As a consequence, the purchasing power of such producers has been in the past, and may continue to be in the future, unless such conditions are remedied, low in relation to that of persons engaged in other gainful occupations. Colorado agricultural producers are thereby prevented from maintaining a proper standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus tending to increase unfairly the tax burdens of other citizens of this state.

(2) These conditions vitally concern the health, peace, safety, and general welfare of the people of this state. It is declared to be the policy of this state to aid agricultural producers in preventing economic waste in the marketing of their agricultural commodities, to develop more efficient and equitable methods in the marketing of agricultural commodities, and to aid agricultural producers in restoring and maintaining their purchasing power at a more adequate, equitable, and reasonable level.

(3) The marketing of agricultural commodities is declared to be affected with a public interest. The provisions of this article are enacted in the exercise of the police powers of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state.

35-28-105. Administration of article. (1) The commissioner of agriculture shall administer and enforce the provisions of this article and shall have all of the administrative powers conferred upon the head of a department of the state. In order to effectuate the declared purposes of this article, the commissioner of agriculture is authorized to issue, administer, and enforce the provisions of marketing orders.

(2) Whenever the commissioner has reason to believe that the issuance of a marketing order will tend to effectuate the declared policy of this article with respect to any agricultural

commodity, either upon his own motion or upon application of any producer or handler of such commodity, he shall give due notice of and an opportunity for a public hearing upon a proposed marketing order.

(3) Due notice of any hearing called for such purpose shall be given to all persons, who may be directly affected by any action of the commissioner pursuant to the provisions of this article, and whose names appear upon lists to be filed by such agricultural industry with the commissioner. Such hearing shall be open to the public. All testimony shall be received under oath and a full and complete record of all proceedings at any such hearing shall be made and filed by the commissioner at his office.

(4) In order to effectuate the declared policy of this article, the commissioner has the power, after due notice and opportunity for hearing, to enter into marketing agreements with processors, distributors, handlers, producers, and others engaged in the handling of any agricultural commodity, regulating the preparation, sale, and handling of such agricultural commodity, which said marketing agreement shall be binding upon the signatories thereto exclusively. The execution of such marketing agreement shall in no matter affect the issuance, administration, or enforcement of any marketing order provided for in this article. The commissioner may issue such marketing order without executing a marketing agreement or may execute a marketing agreement without issuing a marketing order covering the same commodity. The commissioner, in his discretion, may hold a concurrent hearing upon a proposed marketing agreement and a proposed marketing order in the manner provided for giving due notice and opportunity for hearing for a marketing order as provided in this article.

35-28-106. Marketing order issued - when. (1) After such notice and hearing the commissioner may issue a marketing order if he finds and sets forth in such marketing order that such order will tend to:

(a) Reestablish or maintain prices received by producers for such agricultural commodity at a level which will give to such commodity a purchasing power, with respect to the articles and services which farmers commonly buy, equivalent to the purchasing power of such commodity in the base period. The base period shall be such period in which the commissioner finds that the volume of production of such commodity was adequate to supply the requirements of consumers thereof and the net returns to producers thereof were sufficient to provide an adequate standard of living to the farm operator and his family.

(b) Approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for such commodity;

(c) Prevent the unreasonable or unnecessary waste of agricultural wealth because of improper preparation of such agricultural commodity for market, lack of uniform grading and inspection, or excessive shipments to markets;

(d) Protect the interests of consumers of such commodity, by exercising the powers of this article only to such extent as is necessary to effectuate the declared purposes of this article;

(e) Eliminate unfair competition.

(2) In making the findings set forth in subsection (1) of this section, the commissioner shall take into consideration all facts available to him with respect to the following economic factors:

- (a) The quantity of such agricultural commodity available for distribution;
- (b) The quantity of such agricultural commodity normally required by consumers;
- (c) The cost of producing, processing, distributing, and marketing such agricultural commodity as determined by available statistics and surveys;
- (d) The purchasing power of consumers as indicated by reports and indices;
- (e) The level of prices of commodities, services, and articles which the farmers commonly buy;
- (f) The level of prices of other commodities which compete with or are utilized as substitutes for such agricultural commodity.

35-28-107. Board of control. (1) Any marketing order pursuant to this article shall provide for the establishment of a board of control to administer such order in accordance with its terms and provisions. The members of the board shall be appointed by the commissioner from nominations submitted by the industry and shall hold office until the expiration of their term or until such appointment is withdrawn by the commissioner for cause. All nominations for board members submitted by the industry affected by the marketing order affecting wheat shall be submitted to the commissioner prior to the beginning of the fiscal year for such industry established pursuant to section 35-28-113 (4) or by rule. If the marketing order affects directly only producers of a particular commodity, the members of the board shall be producers. If the marketing order affects directly only handlers of a particular commodity, the members of the board shall be handlers. If the marketing order affects directly both producers and handlers of a particular commodity such board shall be composed of both producers and handlers. The number of producers or handlers upon any such board shall be such number of producers or handlers as the commissioner finds is necessary to properly administer such order.

(2) No member of any such board shall receive a salary but each shall be entitled to his actual expenses incurred while engaged in performing his duties authorized in this article. The commissioner may authorize such board to employ necessary personnel, including an attorney approved by the attorney general, fix their compensation and terms of employment, and to incur such expenses, to be paid by the commissioner from moneys collected as provided in sections 35-28-113 and 35-28-114, as the commissioner may deem necessary and proper to enable such board properly to perform such of its duties as are authorized in this article. The duties of any such board shall be administrative only and may include only the following:

- (a) Subject to the approval of the commissioner to administer such marketing agreement or order;
- (b) To recommend to the commissioner administrative rules and regulations relating to the marketing agreement or order;
- (c) To receive and report to the commissioner complaints of violations of the marketing agreement or order;

(d) To recommend to the commissioner amendments to the marketing agreement or order;

(e) To submit to the commissioner for his approval an estimated budget of expense necessary for the operation of any marketing agreement or order established by authority of this article and also to submit for approval a method of assessing and collecting such funds, as the commissioner may find necessary for the administration of such marketing agreement or order;

(f) To assist the commissioner in the collection of such necessary information and data as the commissioner may deem necessary to the proper administration of this article;

(g) To cooperate with colleges and universities, other research institutions, or groups for the purpose of seeking methods of greater utilization of wheat and wheat products.

35-28-108. Contents of marketing order. (1) In accordance with the provisions, restrictions, and limitations set forth in this article, any marketing agreement or order issued by the commissioner pursuant to this article may contain any of the following provisions for regulating, within this state, the handling, sale, and operations of processing or distributing by producers, handlers, or distributors of any agricultural commodity, but no others:

(a) Provisions for determining the existence and extent of the surplus of any agricultural commodity, or of any grade, size, species, or other classification or quality thereof, for the control and disposition of such surplus, and for equalizing the burden of such surplus elimination or control among the producers, processors, distributors, or other handlers affected;

(b) Provisions for limiting the total quantity of any agricultural commodity, or of any grade, size, species, or other classification, or quality or portions or combinations thereof, which may be processed, distributed, or otherwise handled by any persons engaged in such processing, distributing, or handling during any specified period. The total quantity of any such commodity so regulated and permitted to be processed, distributed, or otherwise handled shall not be less than the quantity which the commissioner finds is reasonably necessary to supply the market demand of consumers for such commodity.

(c) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size, species, or other classification, or quality thereof, which each handler may purchase or acquire from or handle on behalf of any producers thereof during any specified period under a uniform rule, applicable to all handlers so regulated, based upon the amounts produced or sold by such producers in a prior period which the commissioner finds to be representative, or upon the current season's production or sales of such products, or both, to the end that the total quantity of such commodity, or of any grade, size, species, or other classification, or quality or portions or combinations thereof, so purchased or handled shall be apportioned equitably among the producers thereof;

(d) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size, species, or other classification, or quality or portions or combinations thereof, which each handler may process, distribute, or handle under a uniform rule, applicable to all handlers so regulated, based upon quantities of such commodity or of any grades, size, species, or other classification, or quality thereof, of the current season's crop which each such handler has

available for such processing, distribution, or handling, or upon the quantities of such commodity or of any grade, size, species, or other classification, or quality thereof, so processed, distributed, or handled by each such handler in a prior period which the commissioner finds to be representative, or based upon both, to the end that the total quantity of such commodity, or any grade, size, species, or other classification, or portion or combinations or quality thereof, processed, distributed, or handled during any specified period shall be equitably apportioned among all such handlers thereof;

(e) Provisions regulating the period during which any agricultural commodity, or any grade, size, species, or classification, or quality or portions or combinations of such commodity, may be processed, distributed, or otherwise marketed;

(f) Provisions for the establishment of surplus or reserve pools of any agricultural commodity, or of the representative value of such commodity, or of any grade, size, species, or other classification, or quality, or portions, or combination thereof, and providing for the sale of such surplus commodity and the equitable distribution, among the persons interested therein, of the net returns derived from the sale of such commodity or such commodity or such distribution of the representative value of such commodity;

(g) Provisions for the establishment of uniform grading and inspection of any agricultural commodity delivered by producers to handlers, processors, distributors, or others engaging in the handling, processing, or distributing thereof and for the establishment of grading standards of quality, condition, size, or pack for any agricultural commodity, and the inspection and grading of such commodity in accordance with such grading standards so established. Such grading standards for any such commodity shall not be established below any minimum standards now prescribed by law for such commodity. All inspections made necessary by such provisions shall be performed by the federal-state inspection service or by such other agent as designated by the commissioner.

(h) Provisions for the establishment of plans for advertising and sales promotion to create new or larger markets for agricultural commodities grown in the state of Colorado. The commissioner is authorized to prepare, issue, administer, and enforce plans for promoting the sale of any agricultural commodity. Any such plan shall be directed toward increasing the sale of such commodity without reference to a particular brand or trade name. No advertising or sales promotion program shall be issued by the commissioner which makes use of false or unwarranted claims on behalf of any such product, or disparages the quality, value, sale, or use of any other agricultural commodity.

(i) Provisions for price posting; but any grade, size, species, or other classification, quality, portion, or combinations thereof of any marketable agricultural product shall be sold by producers, handlers, or distributors thereof only at prices filed by such producers, handlers, or distributors in the manner provided for in such order;

(j) Provisions for requiring the labeling, marking, or branding of any agricultural commodity to be in conformity with the regulations specified in any marketing agreement or order issued under authority of this article;

(n) Provisions for the establishment of programs in the field of research for the improvement of production, control of insects or disease, harvesting, storing, transporting, marketing, handling, processing, or any other phase of research work which would benefit any agricultural commodity produced in Colorado;

(o) Provisions for establishing processing plants or necessary arrangements with persons or companies for the processing of agricultural products, which processing would tend to effectuate the purposes of the article;

(p) Provisions establishing methods whereby agricultural commodities and products other than marketable products may be disposed of and prohibiting dispositions thereof except as so provided;

(q) Provisions for the limitation and prevention of unfair methods of competition in the marketing of agricultural products.

(2) Notwithstanding any other provisions of law, whenever a marketing order issued by the commissioner pursuant to this article contains any terms or conditions regulating the handling, processing, or distribution of any agricultural commodity that may be marketed in the area covered by such order, the importation into the area of any such commodity shall be prohibited unless the handler, processor, or distributor of such commodity complies with such terms and conditions.

35-28-109. When marketing order effective. (1) No marketing agreement or amendments thereto, directly affecting handlers, issued pursuant to this article, shall become effective unless and until the commissioner finds that such agreement has been assented to in writing by the handlers engaged in the operation covered by the marketing agreement who handle not less than fifty percent of the volume of the commodity covered thereby which is processed or distributed within the area defined in such agreement and by not less than fifty percent of the number of such handlers engaged in the operation covered by such agreement.

(2) (a) No marketing order or amendments thereto directly affecting producers shall become effective unless and until the commissioner determines that the issuance of such order is approved and favored by at least two-thirds of the producers who participated in a referendum on the question of its approval, and who, during such representative period, have produced for market the commodities specified therein in commercial quantities within the production area specified in such marketing agreement or order, and who, during such respective period, have produced at least two-thirds of the volume voted of such commodity sold within the marketing area specified in such marketing agreement or order. This paragraph (a) shall not apply to

marketing orders which contain provisions for refunds of assessments as provided in section 35-28-113.5.

(b) Except as provided in section 35-28-113 (3) and notwithstanding paragraph (a) of this subsection (2), no marketing order or amendments thereto directly affecting producers of wheat shall become effective unless or until the commissioner determines that the issuance of such order is approved and favored by at least two-thirds of the producers of wheat who participated in a referendum. For purposes of this provision, a "producer of wheat" means a person who harvested or intends to harvest in any manner in excess of fifteen acres of wheat and who is entitled to share in the proceeds of such wheat crop as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant, or sharecropper in the calendar year determined by the commissioner to be representative for purposes of voting approval. Wheat acreage placed in the federal soil bank program shall be regarded as wheat acreage for this purpose.

(c) Repealed.

(3) Any order issued pursuant to this section shall become effective in the event that, notwithstanding the refusal or failure of handlers of more than fifty percent of the volume of the commodity or product thereof covered by such order which is produced or marketed within the production or marketing area defined in such order to sign a marketing agreement relating to such commodity or product thereof, on which a hearing has been held, the commissioner of agriculture, with the approval of the governor, determines:

(a) That the refusal or failure to sign a marketing agreement, by the handlers of more than fifty percent of the volume of the commodity or product thereof specified therein which is produced or marketed within the production or marketing area specified therein, tends to prevent the effectuation of the declared policy of this article with respect to such commodity or product; and

(b) That the issuance of such order is the only practical means of advancing the interests of the producers of such commodity pursuant to the declared policy, and is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during a representative period determined by the commissioner, have been engaged, within the production area specified in such marketing agreement or order, in the production for market of the commodity specified therein, or who, during such representative period, have been engaged in the marketing area specified in such marketing agreement or order; and by producers who, during such representative period, have produced for market at least two-thirds of the volume voted of such commodity produced for market within the production area specified in such marketing agreement or order, or who, during such representative period, have produced at least two-thirds of the volume voted of such commodity sold within the marketing area specified in such marketing agreement or order.

(c) Notwithstanding paragraph (b) of this subsection (3), approval of a marketing order affecting wheat must be approved or favored by at least two-thirds of the producers of wheat who participated in a referendum on the question of its approval. For purposes of this paragraph (c), a "producer of wheat" means a person who harvested or intends to harvest in any manner in excess of fifteen acres of wheat and who is entitled to share in the proceeds of such wheat crop as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant, or sharecropper in the calendar year for purposes of voting approval. Wheat

acreage placed in the federal soil bank program shall be regarded as wheat acreage for this purpose.

(4) In finding whether such order is assented to pursuant to the provisions of this article, the commissioner may consider the expression of any nonprofit agricultural cooperative marketing association which is authorized by its members to so express the approval or disapproval of the producers who are members of, or stockholders in, such nonprofit agricultural cooperative marketing association.

35-28-111. Termination of marketing order. If the commissioner finds that the termination of any marketing order is requested in writing by more than fifty percent of the producers, who are engaged within the designated production area in the production for market of the commodity specified in such marketing order, or who produce for market more than fifty percent of the volume of such commodity produced within the designated production area for market, the commissioner shall terminate or suspend for a specified period such marketing order or provision thereof, but such termination shall be effective only if announced on or before such date, as may be specified in such order.

the manner and at the time required by the commissioner. An order, suspension, amendment, or termination will be effective five days after the date of the public announcement. The commissioner shall mail a copy of the notice of the order issuance, suspension, amendment, or termination to all persons directly affected by the terms of the order, suspension, amendment, or termination, whose names and addresses may be on file in the office of the commissioner and to every person who files in the office of the commissioner a written request for such notice.

35-28-113. Budgeting and collection of fees. (1) For the purpose of providing funds to defray necessary expenses, the board of control shall prepare a budget for the administration and operating costs and expenses, including advertising and sales promotion when same are requested in any marketing agreement or order executed under this article, which budget shall be approved by the commissioner. The collection of such necessary fees and the times and conditions of payment, in no case to exceed five percent of the gross dollar volume of such sales, or five percent of the gross dollar volume of purchases or amounts handled, distributed, or processed, shall become a part of any marketing order upon adoption as provided in this article.

(2) Every person engaged in the production, processing, distributing, or handling of any marketable agricultural product produced, sold, or marketed in this state and directly affected by any marketing order issued pursuant to this article for such commodity shall pay, or collect and pay, to the commissioner at such time and in such manner as prescribed by the order as adopted an assessment covering the budget provided by this article, which assessment shall be the percentage of the gross dollar volume or amount per unit of such sales, or percentage of the gross dollar volume of purchases or amounts handled, distributed, or processed, of any commodity affected by such marketing order, as is necessary to defray the expenses of the enforcement of this article, but in no case to exceed five percent of the gross dollar volume.

(3) Except as provided in section 35-28-113.5, whenever the board of control deems it necessary to raise the amount collected under the provisions of this section for a marketing order involving wheat, the commissioner shall ask for approval of the raise by a referendum on the question of the raise, which must be favored and approved by at least two-thirds of the producers who participate in the referendum.

(4) The fiscal year for the marketing order issued pursuant to section 35-28-106 affecting wheat shall be the period so established by the commissioner by rule and regulation after consideration of recommendations by the board of control of such order.

(5) (a) Notwithstanding any other provision of this article, if requested by a board of control affecting wheat, corn, or dry edible beans, the commissioner may amend a marketing order as described in this article to require the first handler of such commodity or product in this state to pay, or collect and pay, to the commissioner an assessment at such time and in such manner as shall be prescribed by the commissioner if the commissioner, with the approval of the governor, determines that:

(I) Wheat, corn, or dry edible beans produced in another state and shipped into this state for sale or distribution tends to prevent the effectuation of the declared policy of this article with respect to such commodity or product produced in this state; and

(II) The effectuation of the declared policy of this article would be furthered by collection of assessments on such commodity or product shipped into this state.

(b) Any assessment authorized pursuant to this subsection (5) shall be equivalent to the assessment required by the provisions of the marketing order.

35-28-113.5. Refunds of assessments - request by producer. (1) Marketing orders issued after July 1, 1987, as well as amendments to such marketing orders and amendments to marketing orders in existence prior to July 1, 1987, which marketing orders and amendments are issued pursuant to the provisions of this article and which directly affect producers, may contain provisions for refunds of assessments or for refunds of portions of assessments. Any marketing order or amendment which contains such a provision shall not become effective unless and until the commissioner determines that the issuance of such order is approved and favored by at least a simple majority of the producers who participated in a referendum on the question of its approval and who, during such representative period, have produced for market the commodities specified therein in commercial quantities within the production area specified in such marketing agreement or order. Only the assessment or assessment raise or raises approved by a simple majority of the producers as provided in this subsection (1) or that portion of the assessment or assessment raise which is actually levied by the commissioner shall be subject to the provisions of this section.

(2) A producer may request a refund of assessments or a refund of a portion of assessments within thirty days after payment of such assessments. The commissioner shall promulgate such rules and regulations as are necessary for the implementation of this section.

35-28-114. Disposition of funds. (1) Any moneys collected by the commissioner pursuant to this article shall be deposited in a bank or other depository approved by the state treasurer, allocated to each marketing order under which they are collected, and disbursed by the commissioner only for the necessary expenses incurred by the board of control and the commissioner and approved by the commissioner with respect to each such separate marketing order. Funds so collected shall be deposited and disbursed in conformity with appropriate rules and regulations prescribed by the commissioner. All such expenditures by the commissioner shall be audited at least annually and a copy of such audit shall be delivered within thirty days after the completion thereof to the governor and the commissioner of agriculture.

(2) Any moneys remaining in such fund, allocable to any particular agricultural commodity affected by a marketing order, at the discretion of the commissioner, may be refunded at the close of any marketing season, upon a pro rata basis, to all persons from whom assessments were collected, or such portion of such moneys as may be recommended by the

board of control and approved by the commissioner may be carried over into the next succeeding marketing season whenever the commissioner finds that such moneys may be required to assist in defraying the cost of operating such marketing order in such succeeding season. Upon termination by the commissioner of any marketing order, any moneys remaining, and not required by the commissioner to defray the expenses of such marketing order, shall be returned by the commissioner, upon a pro rata basis, to all persons from whom assessments were collected. If the commissioner finds that the amounts so returnable are so small as to make impractical the computation and remitting of such pro rata refund to such persons, the commissioner may use the moneys in such fund to defray the expenses incurred by him in the formulation, issuance, administration, or enforcement of any subsequent marketing order for such commodity.

(2) Every person who violates any provision of this article 28 or any provision of any marketing order duly issued by the commissioner under this article 28 commits a petty offense. Each day during which any such violations continue constitutes a separate offense.

(3) Upon the filing of a verified complaint charging violation of any provisions of this article or of any provision of any marketing order issued by the commissioner under this article, and prior to the institution of any court proceeding authorized in this section, the commissioner in his discretion may refer the matter to the attorney general or any district attorney of this state for action pursuant to the provisions of this article or call a hearing to consider the charges set forth in such verified complaint. In such case, the commissioner shall cause a copy of such complaint, together with a notice of the time and place of hearing of such complaint, to be served personally, or by mail, upon the person named as respondent therein. Such service shall be made at least three days before said hearing date. The hearing shall be held in the city or town in which is situated the principal place of business of the respondent, or in which the violation complained of is alleged to have occurred, or in the nearest office of the department of agriculture, at the discretion of the commissioner. At the time and place designated for such hearing, the

commissioner or his agents shall hear the parties to said complaint and shall enter in the office of the commissioner at Denver his findings based upon facts established at such hearing.

(4) If the commissioner finds that no violation has occurred he shall forthwith dismiss such complaint and notify the parties to such complaint.

(5) If the commissioner finds that a violation has occurred he shall so enter his findings and notify the parties to such complaint. Should the respondent thereafter fail, neglect, or refuse to desist from such violation, within the time specified by the commissioner, the commissioner may thereupon file a complaint against such respondent in a court of competent jurisdiction as set forth in this section.

(6) Each district attorney of this state may upon his own initiative and shall upon any complaint of any person, if, after investigation he believes a violation has occurred, bring a criminal action in the proper court in his district in the name of the people of this state in any court of competent jurisdiction in the state of Colorado against any person violating any provision of this article or of any marketing order duly issued by the commissioner under this article.

(7) (a) Any person who violates any provision of this article or of any marketing order or rule adopted pursuant to this article is subject to a civil penalty as determined by a court of competent jurisdiction or by the commissioner. The penalty shall not exceed one thousand dollars per violation; except that such penalty may be doubled if it is determined, after notice and an opportunity for hearing, that the person has violated the provision, marketing order, or rule on at least one prior occasion occurring after March 23, 1995.

(b) No civil penalty may be imposed by the commissioner unless the person charged is given notice and opportunity for a hearing pursuant to article 4 of title 24, C.R.S.

(c) If the commissioner is unable to collect the civil penalty, or if any person fails to pay all or a set portion of the civil penalty as determined by the commissioner, the commissioner may bring suit to recover such amount plus costs and attorney fees by action in any court of competent jurisdiction.

(d) Before imposing any civil penalty, the court or the commissioner may consider the effect of such penalty on the person charged.

(e) All penalties collected pursuant to this section shall be transmitted to the general fund.

(8) (a) The commissioner shall enforce the provisions of this article.

(b) Whenever the commissioner has reasonable cause to believe a violation of any provision of this article or any marketing order or rule issued pursuant to this article has occurred and immediate enforcement is deemed necessary, the commissioner may issue an order requiring any person to cease and desist from such violation. Such cease-and-desist order shall set forth the provisions alleged to have been violated, the facts alleged to have constituted the violation, and the requirement that all actions cease immediately. At any time after service of the order to cease and desist, the person may request a prompt hearing to determine whether or not such violation has occurred. Such hearing shall be conducted pursuant to the provisions of article 4 of title 24, C.R.S., and shall be determined promptly.

(c) Whenever the commissioner possesses evidence satisfactory to the commissioner that any person has engaged or is about to engage in any act or practice constituting a violation of any provision of this article or of any marketing order or rule issued under this article, the commissioner may apply to a court of competent jurisdiction to temporarily or permanently

restrain or enjoin the act or practice in question and to enforce compliance with this article or any marketing order, rule, or order under this article. In any such action, the commissioner shall not be required to plead or prove irreparable injury or the inadequacy of the remedy at law. Under no circumstances shall the court require the commissioner to post a bond.

(9) The judgment, if in favor of the plaintiff, shall provide that the defendant pay to the plaintiff reasonable costs of such suit including attorney's fees incurred by an advisory board in the prosecution of such action.

(10) Any such action may be commenced either in the county where defendant resides or where any act or omission or part thereof complained thereof occurred.

(11) The penalties and remedies prescribed in this article with respect to any violation mentioned in this article shall be concurrent and alternative, and neither singly nor combined shall the same be exclusive and either singly or combined the same shall be cumulative with any other civil, criminal, or administrative rights, remedies, forfeitures, or penalties provided or allowed by law with respect to any such violation.

(12) Any handler or processor located outside of this state who processes products which are marketed or distributed in this state on a continuing basis, whether directly or indirectly, shall be considered to be engaged in the transaction of business within this state and shall be subject to the jurisdiction of the courts of this state pursuant to the provisions of section 13-1-124, C.R.S. Any action to enforce any provision of this article or any marketing order issued pursuant to this article against such out-of-state handler or processor by the commissioner shall be considered to have arisen from the transaction of business in this state and shall subject the handler or processor to the jurisdiction of the courts of this state.

35-29.5-101.5. Legislative declaration. The general assembly hereby finds, determines, and declares that Colorado has a substantial interest in promoting the development of a viable and stable wine industry in this state. The general assembly further finds, determines, and declares that grape cultivation is closely related to fruit cultivation carried out in various parts of Colorado; that grape cultivation and wine production are a logical supplement to, and development of, existing agricultural business conducted in the state; that wine production has become a significant industry in other states because of the action of state and local governments in those areas to foster development of the industry; that a viable wine industry can enhance Colorado's tourist industry; that some aspects of wine industry development can best be accomplished by an industry-wide approach rather than by individual producers, such as conducting scientific research and disseminating and publishing the results of such research, promoting Colorado wines as distinct from those produced in other regions, and promoting awareness of responsible consumption of wine; and that the state should aid Colorado's wine industry through research and promotion to allow the industry to realize its full potential in this state.

35-36-209. Negotiable warehouse receipts - rules. (1) A negotiable warehouse receipt must be either a paper or an electronic document. At no time may a paper receipt and an electronic receipt represent the same lot of the commodity. A licensee may issue warehouse receipts by use of a written warehouse receipt system, an electronic warehouse receipt system, or both.

(2) The department is the sole source of paper negotiable warehouse receipts and shall furnish those receipts at cost.

(3) Instead of a paper document, a licensee may issue an electronic negotiable version of a warehouse receipt generated by a vendor licensed and approved by the United States department of agriculture if the receipt contains the same information as the paper version of a warehouse receipt. The electronic version of a warehouse receipt carries the same rights and obligations as the paper version. A holder of an electronic version of a warehouse receipt may redeem the warehouse receipt by applying an electronic signature registered and authenticated by a vendor credited by the United States department of agriculture.

(4) The commissioner may promulgate rules regarding the issuance, use, and records requirements of negotiable warehouse receipts.

35-36-210. Use of scale tickets and negotiable warehouse receipts. (1) It is unlawful to issue paper negotiable warehouse receipts other than those furnished by the department. A licensee shall issue these receipts consecutively, as numbered, and each receipt must state the date on which it is actually issued.

(2) Nothing in this part 2 prevents the issuance of nonnegotiable scale tickets or other nonnegotiable evidence of a similar nature showing the date on which the commodities were received, the quantities received, and the condition of the commodities upon their delivery.

(3) When partial withdrawal of a commodity is made by an owner, the warehouse operator shall make an appropriate notation of the partial withdrawal on the depositor's nonnegotiable warehouse receipt or on such other records as may be prescribed by the department. If, before the partial withdrawal of the commodity, the warehouse operator has issued a negotiable warehouse receipt to the owner, the warehouse operator shall claim, cancel, and replace it with a new negotiable warehouse receipt, showing the amount of the owner's commodity remaining in the public warehouse.

(4) Every commodity handler or small-volume commodity handler receiving commodities for storage or handling shall immediately, upon receipt of each load, issue to every person delivering the commodity a scale ticket, which must contain the net weight of each separate draft or load of the commodity and the dockage, if any, to be levied at the time of delivery, and such other information as may be required by the department.

(5) Acceptance of commodities for storage by a warehouse operator for which a negotiable warehouse receipt is issued constitutes a bailment process and not a sale. If a warehouse operator fails to claim and cancel a negotiable warehouse receipt issued on delivery for commodities stored in the warehouse operator's public warehouse and the negotiation of which would transfer the right of possession of that commodity, the warehouse operator is liable, to a good faith purchaser for value, for the warehouse operator's failure to deliver to the purchaser all the commodities specified in the receipt. This liability applies whether the purchaser acquired title to the negotiable warehouse receipt before, on, or after the delivery of any part of the commodity by the warehouse operator.

35-36-211. Commodity handler records - separate and distinct - time of maintenance - definition. (1) A commodity handler or small-volume commodity handler operating another business in conjunction with, or in proximity to, the handler's commodity handling business shall keep a complete set of records for the commodity handling business, entirely separate and distinct from the accounts and records of that other business. The deposits of commodities for the account of another business or for commodities owned by the commodity handler or small-volume commodity handler shall be entered in the books of the commodity handler or small-volume commodity handler in the same manner as those of other depositors. For the purpose of this section, "other business" means any other separate and legally established enterprise that is distinct and separate from the legal and financial transactions of the commodity handling business.

(2) Commodity handlers or small-volume commodity handlers shall maintain adequate records and systems for the filing and accounting of negotiable warehouse receipts, canceled negotiable warehouse receipts, scale tickets, and other documents and transactions necessary or common to the commodity handling industry. A commodity handler or small-volume

commodity handler shall retain canceled negotiable warehouse receipts, copies of scale tickets, and copies of other documents evidencing ownership or ownership liability for a period of at least three years after the date of cancellation.

(3) A commodity handler or small-volume commodity handler shall post a position report daily; however, if a daily position report poses a substantial hardship, the commissioner may authorize, in writing, a weekly position report. The position report must include, but need not be limited to, total stocks by commodities received or loaded out, forwarding of commodities to terminal storage, conversions of whole commodities to feed, negotiable warehouse receipt obligations, open storage obligations, credit sale contracts, and public-warehouse-owned commodities.

(4) A scale ticket shall be issued for each receipt of commodities. A copy of the scale ticket shall be given to the owner. A commodity handler or small-volume commodity handler shall file the commodity handler's or small-volume commodity handler's copy with all other such copies in numerical sequence and shall file and retain voided scale tickets at the commodity handler's or small-volume commodity handler's place of business. Scale tickets shall be issued in numerical sequence. An issued scale ticket must contain the following: Sequential number; date; owner's name; commodity handler's or small-volume commodity handler's name; commodity; test weight with dockage, if applicable; grade, if assigned; gross weight; tare weight; and net weights, in the case of weights from hopper scales.

(5) A settlement sheet shall be maintained for each owner and shall contain the following: Owner's name; scale ticket numbers; total receipts; total withdrawals; test weight; and grade, if assigned. A copy of a current settlement sheet shall be provided to the owner upon request.

35-36-212. Warehouse operator's liability for disposal of tainted commodities. (1) A warehouse operator is liable for any loss or deterioration of commodities in a public warehouse caused by the warehouse operator's failure to exercise reasonable care of the commodities.

(2) If a warehouse operator discovers that, as a result of a condition of a commodity placed in the warehouse operator's public warehouse of which the warehouse operator had no notice at the time of deposit, the commodity is a hazard to other commodities or to persons or to the public warehouse and if the commodity is not immediately removed by the owner upon the warehouse operator's request, the warehouse operator may sell the commodity after reasonable notice to all persons known to claim an interest in the commodity. If the warehouse operator is unable to sell the commodity after a reasonable effort, the warehouse operator may dispose of it in any other lawful manner, and shall incur no liability to the owner for the disposition.

(3) At any time before the sale or disposition authorized in this section, the warehouse operator shall deliver the commodity to any person entitled to it upon proper demand and payment of all charges incurred for the specific lot of that commodity.

(4) The commissioner may reject as unsuitable for storage any area of the warehouse operator's premises, unless that area is used for storing the warehouse operator's own commodities.

Editor's note: This section is similar to former § 35-36-115 as it existed prior to 2020.

35-36-213. Enforcement - inspection of commodity handlers' property - confidentiality. (1) The department has the power to inspect commodity handlers' places of business. The department shall investigate any complaint concerning the operation of any commodity handler or any person attempting or offering to act as a commodity handler, subject to this part 2.

(2) Complaints of record made to the commissioner and the results of the commissioner's investigations may, in the discretion of the commissioner, be closed to public inspection during the investigatory period and until dismissed or until notice of hearing and charge is served on a licensee, unless otherwise provided by court order.

(3) The commissioner, upon consent of the licensee or upon obtaining an administrative search warrant, has the right to inspect any commodity handler's place of business where commodities are stored, handled, or received and any records pertaining to storage obligations and commodity positions kept by the commodity handler that pertain to the operation of the place of business. The property, books, records, accounts, and papers pertaining to storage obligations and commodity positions of every commodity handler are subject to inspection and copying by the commissioner.

(4) The commissioner has full authority to administer oaths and take statements, to issue subpoenas requiring the attendance of witnesses and the production of all books, memoranda, papers, and other documents, articles, or instruments, and to compel the disclosure by the witnesses of all facts known to them relative to the matters under investigation. Upon the failure or refusal of a witness to obey a subpoena, the commissioner may petition the district court, and, upon a proper showing, the court may enter an order compelling the witness to appear and testify or produce documentary evidence. Failure to obey such an order of the court is punishable as a contempt of court.

(5) The commissioner may examine the ledgers, books, accounts, memoranda, and other documents and the commodities, scales, measures, and other items in connection with the business of any licensee relating to whatever transactions may be involved.

(6) The commissioner is not required to investigate or act upon complaints regarding transactions that occurred more than one hundred twenty days before the date upon which the commissioner received the written complaint.

(7) If the investigation is against a licensee, the commissioner shall proceed to ascertain the names and addresses of all producers, dealers, or owners of commodities, together with the accounts unaccounted for or due and owing to them by the licensee, and shall request the producers, dealers, or owners to file verified statements of their respective claims with the commissioner. If a producer, dealer, or owner fails, refuses, or neglects to file a verified statement in the office of the commissioner within thirty days after the date of the request, the

commissioner is relieved of any further duty or action under this part 2 on behalf of the producer, dealer, or owner.

(8) In the course of any investigation, the commissioner may attempt to effectuate a settlement between the respective parties.

(9) (a) If the commissioner determines, after concluding an investigation on any complaint, that reasonable grounds exist to believe that a licensee has violated this part 2, the commissioner shall notify the licensee that the complaint is valid and shall inform the licensee of the licensee's opportunity to request a hearing, in writing, on the complaint within ten days after the date of the notice.

(b) Upon the receipt of a request for a hearing from a licensee or if the commissioner determines that a hearing concerning any licensee is necessary, the commissioner shall cause a copy of the complaint or the grounds specified in section 35-36-205, together with a notice of the time and place of the hearing, to be served personally or by mail upon the licensee. Service shall be made at least ten days before the hearing, which shall be held in the city or town in which the business location of the licensee is situated or in which the transactions involved allegedly occurred or at any convenient place designated by the commissioner.

(c) The commissioner shall conduct the hearing pursuant to section 24-4-105. Thereafter, the commissioner shall enter a decision specifying the relevant facts established at the hearing. If the commissioner determines from the facts specified that the licensee has not violated this part 2 or section 35-36-104, the commissioner shall dismiss the complaint. If the commissioner determines from the facts specified that the licensee has violated this part 2 or section 35-36-104, and that the licensee has not yet made complete restitution to the person complaining, the commissioner shall determine the amount of damages, if any, to which the person is entitled as the result of the violation and shall enter an order directing the offender to pay the amount to the person complaining on or before the date fixed in the order. A copy of the decision shall be furnished to all the respective parties to the complaint.

(10) As a result of the hearing, the commissioner may also enter any order suspending or revoking the license of a licensee or may place the licensee on probation if the commissioner determines that the licensee has committed any of the unlawful acts specified in section 35-36-217 or that the licensee has violated this part 2 or section 35-36-104.

(11) (a) If a person against whom an order, as specified in subsection (9)(c) of this section, is made and issued fails, neglects, or refuses to obey the order within the time specified in the order, the commissioner may issue a further order to that person directing the person to show cause why the person's license should not be suspended or revoked for failure to comply with the order.

(b) In such case, a copy of the order to show cause, together with a notice of the time and place of the hearing, shall be served personally or by mail upon the person involved. Service shall be made at least ten days before the hearing, which shall be held in the city or town in which the business location of the licensee is situated or at any convenient place designated by the commissioner.

(c) The commissioner shall conduct the hearing pursuant to section 24-4-105 and thereafter shall enter an order and decision specifying the facts established at the hearing and either dismissing the order to show cause, or directing the suspension or revocation of the license held by the licensee, or making such other conditional or probationary orders as may be proper. A copy of the order and decision shall be furnished to the licensee.

(d) Nothing in this section limits the power of the commissioner to revoke or suspend a license when the commissioner is satisfied that one or more of the acts specified in section 35-36-217 was committed.

(12) Whenever the absence of records or other circumstances makes it impossible or unreasonable for the commissioner to ascertain the names and addresses of all persons specified in subsection (7) of this section, the commissioner, after exercising due diligence and making a reasonable inquiry to secure the information from all reasonable and available sources, is not liable or responsible for the claims or the handling of claims that may subsequently appear or be discovered. After ascertaining all claims, assessments, and statements in the manner set forth in subsection (7) of this section, the commissioner may then demand payment on the bond or irrevocable letter of credit on behalf of those claimants whose claims have been determined by the commissioner as valid and, in the instance of a bond, may settle or compromise the claims with the surety company on the bond and execute and deliver a release and discharge of the bond involved. Upon the refusal of the surety company to pay the demand, the commissioner may bring an action on the bond on behalf of the producer, dealer, or owner.

(13) For the purpose of this section, a transaction is deemed to have occurred:

(a) On the date that possession of commodities is transferred by a claimant; or

(b) In the case of delayed payment transactions, on the contractual date of payment or, if there is no contractual date of payment, thirty days following the transfer of title.

(14) A commodity handler or small-volume commodity handler shall maintain a public warehouse in a manner adequate to provide a convenient and safe means of ingress and egress to the various storage bins and compartments by those persons authorized to make inspections.

(15) (a) Each warehouse shall be kept open for the purpose of receiving commodities for storage and delivering commodities out of storage every business day for a period of not less than six hours between the hours of 8 a.m. and 6 p.m., except as provided in subsection (15)(b) of this section. The commodity handler or small-volume commodity handler shall post conspicuously on the door of the public entrance to the commodity handler's or small-volume commodity handler's office and to the commodity handler's or small-volume commodity handler's warehouse a notice showing the hours during which the warehouse will be kept open; except that the notice is not necessary when a warehouse is kept open continuously from 8 a.m. to 6 p.m.

(b) Whenever a warehouse is not to be kept open as required by subsection (15)(a) of this section, the notice posted as prescribed in subsection (15)(a) of this section must state the period during which the warehouse is to be closed and the name, address, and telephone number, if any, of the person who is authorized to deliver commodities stored in the warehouse upon lawful demand by the depositor of the commodity or the holder of the receipt of the commodity, as the case may be.

35-36-214. Procedure on shortage - refusal to submit to inspection. (1) Whenever it appears probable after investigation that a licensed warehouse operator does not possess

sufficient commodities to cover the outstanding negotiable warehouse receipts, scale tickets, or other evidence of storage liability issued or assumed by the warehouse operator, the department may give notice to the warehouse operator that the warehouse operator is required to do all or any of the following:

- (a) Cover the shortage;
- (b) Give an additional bond or irrevocable letter of credit;
- (c) Submit to such inspection as the department may deem necessary.

(2) If the warehouse operator fails to comply with the terms of the notice within twenty-four hours after the date of its issuance or within such further time as the department may allow, the department may do all or any of the following:

- (a) Issue a cease-and-desist order pursuant to section 35-36-104;

(b) Take possession of all commodities in the public warehouse owned, operated, or controlled by the warehouse operator and of all books, papers, records, and property of all kinds used in connection with the conduct or operation of the warehouse operator's public warehouse business, whether the books, papers, records, and property pertain specifically, exclusively, directly, or indirectly to that business or are related to the warehouse operator's handling, storage, or use of commodities in any other business;

(c) Apply to any court of competent jurisdiction for an order to enjoin the warehouse operator from interfering with the department in the discharge of its duties as required by this section;

(d) Petition any court of competent jurisdiction for an order requiring the warehouse operator or any person who has possession of any commodities, books, papers, records, or property of any kind used in connection with the conduct or operation of the public warehouse business who has refused to surrender possession to the department to surrender possession of the same to the department.

(3) Upon its taking possession of the commodities, the department may give written notice of its action to the holders of all negotiable warehouse receipts or other evidence of deposits issued for commodities to present their negotiable warehouse receipts or other evidence of deposits for inspection or to account for the same. Thereupon, the department shall cause an audit to be made of the affairs of the public warehouse with respect to any commodity in which there is an apparent shortage, determine the amount of the shortage, and compute the shortage as to each owner of the commodity. The department shall attempt to notify the warehouse operator of the amount of the shortage and attempt to notify each owner affected by the shortage. If the owner cannot be notified after a reasonable attempt by the department, the department is not liable for any losses incurred by the owner.

(4) The department shall retain possession of the commodity in the public warehouse and of the books, papers, records, and property of the warehouse operator until such time as the warehouse operator or the warehouse operator's bond or irrevocable letter of credit has satisfied the claims of all holders of negotiable warehouse receipts or other evidence of deposits. In case the shortage exceeds the amount of the bond or irrevocable letter of credit, the warehouse operator's bond or irrevocable letter of credit satisfies the claims pro rata. Nothing in this section prevents the department from complying with an order of a court of competent jurisdiction to surrender possession.

(5) If, during or after the audit provided for in this section or at any other time, the department is of the opinion that the warehouse operator is insolvent or in danger of becoming

insolvent or is unable to satisfy the claims of all holders of negotiable warehouse receipts or other evidence of deposits, the department may petition a court of competent jurisdiction in the county for the appointment of a receiver to operate or liquidate the business of the warehouse operator in accordance with applicable law.

(6) At any time within ten days after the department takes possession of any commodities or the books, papers, records, and property of any public warehouse, the warehouse operator may apply to a court of competent jurisdiction for an order requiring the department to show cause why the commodities, books, papers, records, and property should not be restored to the warehouse operator's possession. Upon its being served notice, the department has up to ten days to respond.

(7) (a) If a court of competent jurisdiction determines that all or any part of the commodities, books, papers, records, and property should not be restored to the possession of the warehouse operator, the court may:

(I) Appoint a receiver for all or any part of the commodities, books, papers, records, and property; or

(II) Determine the disposition of the commodities, books, papers, records, and property that were in the public warehouse and seized pursuant to this part 2.

(b) Pending determination of the ownership of the commodities, any money received from the disposition of the commodities shall be placed in an interest-bearing escrow account.

(8) If the warehouse operator does not apply to a court of competent jurisdiction for a show-cause order under subsection (6) of this section, the department's action is presumed valid, and the commissioner may determine the disposition of the commodities, books, papers, records, and property that were in the public warehouse and seized pursuant to this part 2. Pending determination of the ownership of the commodities, any money received from the disposition of the commodities shall be placed in an interest-bearing escrow account.

(9) All expenses incurred by the department in carrying out this section are a first charge and lien upon the assets of the warehouse operator; and the department may bring a separate civil action through representation by the attorney general in a court in the county in which the public warehouse is located to recover the expenses, or they may be recovered at the same time and as a part of an action filed under subsection (5) of this section.

(10) As a part of the expenses incurred by the department in carrying out this section, the department or the receiver is authorized to include the cost of adequate liability insurance necessary to protect the department, its officers, and others engaged in carrying out this section.

35-36-215. Inspection fees. (1) The commission, after conferring with interested industry groups, is authorized to fix, assess, and collect fees for the inspection of commodity handlers or small-volume commodity handlers.

(2) For each fiscal year, commencing on July 1, twenty-five percent of the direct and indirect costs of administering and enforcing this part 2 shall be funded from the general fund. The commission shall establish a fee schedule to cover any direct and indirect costs not funded

from the general fund. The inspection fee shall be paid by the person, firm, corporation, or other organization requesting the service at the time it is rendered or as otherwise provided and authorized by the commission.

(3) All money collected pursuant to this section shall be transmitted to the state treasurer, who shall credit it to the inspection and consumer services cash fund created in section 35-1-106.5.

Editor's note: This section is similar to former § 35-36-118 as it existed prior to 2020.

35-36-216. Bonds or irrevocable letters of credit - exemptions. (1) (a) Before any license is issued to a commodity handler, the applicant shall file with the commissioner a bond executed by the applicant as principal and by a surety company qualified and authorized to do business in this state as a surety or an irrevocable letter of credit meeting the requirements of section 11-35-101.5, in the sum of not less than ten thousand dollars nor more than one million dollars, at the discretion of the commissioner.

(b) The bond or irrevocable letter of credit must be conditioned upon compliance with this part 2 and section 35-36-104 and upon the faithful and honest handling of commodities in accordance with this part 2 and section 35-36-104 and must cover any inspection fees due the department by the commodity handler and all costs and reasonable attorney fees incident to any suit upon the bond or irrevocable letter of credit. The bond or irrevocable letter of credit must be to the department in favor of every producer or owner and, in the instance of a bond, must remain in full force and effect until canceled by the surety upon thirty days' prior written notice to the commissioner.

(c) (I) A producer or owner within the state of Colorado claiming to be injured by the fraud, deceit, or willful negligence of, or failure to comply with this part 2 and section 35-36-104 by, a commodity handler may request the department, as beneficiary, to demand payment on the irrevocable letter of credit or surety bond to recover the damages caused by the fraud, deceit, willful negligence, or failure to comply with this part 2 and section 35-36-104.

(II) The surety on the bond or the issuer of the letter of credit is not liable to pay any claim pursuant to an action brought under this part 2 if the action is not commenced within five hundred forty-eight days, which is approximately eighteen months, after the date of the transaction, as that term is described in section 35-36-213 (13), on which the claim is based, or the date of the loss, whichever is later.

(d) When an action is commenced on the bond or irrevocable letter of credit, the commissioner may require the filing of a new bond or irrevocable letter of credit, and the commodity handler's failure to file the new bond or irrevocable letter of credit within ten days after the commencement of the action constitutes grounds for the suspension or revocation of the commodity handler's license.

(e) A person licensed pursuant to part 3 of this article 36 may apply for a license as a commodity handler and is not subject to the license fee required by section 35-36-203. The bond or irrevocable letter of credit required by section 35-36-304 applies to the person's activities as a commodity handler and is subject to this section and section 35-36-213.

(2) Whenever the commissioner determines that a previously approved bond or irrevocable letter of credit is or for any cause has become insufficient, the commissioner may require that a commodity handler provide an additional bond or irrevocable letter of credit or other evidence of financial responsibility to conform to the requirements of this part 2 and section 35-36-104 or any rule promulgated pursuant to this article 36 regarding commodity handlers. The commodity handler's failure to comply with the commissioner's requirement within thirty days after written demand for compliance constitutes grounds for the suspension or revocation of the commodity handler's license.

(3) This section does not apply to small-volume commodity handlers.

(a) Make fraudulent charges or returns for the handling, sale, or storage or for the rendering of any service in connection with the handling, sale, or storage of any commodities. Violation of this subsection (1)(a) is a class 6 felony.

(b) Willfully fail or refuse to render a true account of sales or storage or to make a settlement on sales or storage or to pay for commodities received on the date and in the manner specified in the contract with the owner or, if no date is specified in the contract or on delivery, within thirty days after the date of delivery or the date on which the person took possession of the commodities. Violation of this subsection (1)(b) is a class 6 felony.

(g) Commit fraud or deception in the procurement or attempted procurement of a license. Violation of this subsection (1)(g) is a class 2 misdemeanor.

of the negotiable warehouse receipt; issue a negotiable warehouse receipt when the commodity described is not in the building certified in the receipt; with intent to defraud, issue a second or other negotiable warehouse receipt for any commodity for which, or for any part of which, a valid negotiable warehouse receipt is already outstanding and in force; or, while a valid negotiable warehouse receipt is outstanding and in force, sell, pledge, mortgage, encumber, or transfer a commodity in violation of this part 2 or section 35-36-104 or permit the same to be done without the written consent of the holder of the negotiable warehouse receipt or receive the property or help to dispose of the property. Violation of this subsection (1)(j) is a class 6 felony.

(k) Sell commodities for less than the current market price to a person with whom the person has any financial connection, directly or indirectly, either as an owner of the corporate stock of a corporation, as a copartner, or in any other capacity, or sell any commodities out of the purchase price of which the commodity handler or small-volume commodity handler, directly or indirectly, retains any portion of the purchase price other than the commission allowed and reported pursuant to section 35-36-310. Violation of this subsection (1)(k) constitutes theft, as defined in section 18-4-401.

The making, drawing, uttering, or delivery of the check, draft, or order is prima facie evidence of an intent to defraud. "Credit", as used in this subsection (1)(l), means an arrangement or understanding with the bank or depository for the payment of the check, draft, or order. Violation of this subsection (1)(l) is fraud by check, as defined in section 18-5-205.

35-36-302. Application for license - rules. (1) A person shall not act as a dealer, small-volume dealer, or agent without having obtained a license as provided in this part 3. Every person acting as a dealer, small-volume dealer, or agent shall file an application in writing with the commissioner for a license to transact the business of dealer, small-volume dealer, or agent, and the application must be accompanied by the license fee provided for in section 35-36-303 for each specified class of business.

(2) The application in each case must state the class or classes of farm products the applicant proposes to handle; the full name of the person applying for the license; and, if the applicant is a firm, exchange, association, or corporation, the full name of each member of the firm or the names of the officers of the exchange, association, or corporation. The application must further state the principal business address of the applicant in the state of Colorado and elsewhere and the names of the persons authorized to receive and accept service of summons and legal notices of all kinds for the applicant. The applicant shall further satisfy the commissioner of the applicant's character, responsibility, and good faith in seeking to carry on the business stated in the application. In determining a person's character, the commissioner shall comply with section 24-5-101.

(3) In addition to the general requirements applicable to all classes of applications, as set forth in this section, each application for an agent's license must include such information as the commissioner may consider proper or necessary, and the application must include the name and address of the applicant and the name and address of each dealer or small-volume dealer represented or sought to be represented by the agent and the written endorsement or nomination of the dealer or small-volume dealer. A person shall not be licensed as an agent unless all of the agent's principals are licensed under this part 3.

(4) Upon the applicant's filing of the proper application with the commissioner, accompanied by the proper fee, and when the commissioner is satisfied that the convenience and necessity of the industry and the public will be served by the application, the commissioner shall issue to the applicant a license entitling the applicant to conduct the business described in the application at the place named in the application until the date specified by the commissioner by rule or until the license has been suspended or revoked. The license of an agent expires upon the date of expiration of the license of the principal for whom the agent acts. The commissioner may also issue a license to each agent, with a separate agent's license being required for each principal. A dealer, small-volume dealer, or agent shall show the license upon the request of any interested person. Each licensed dealer, small-volume dealer, or agent shall post the person's license or a copy of the license in the person's office or salesroom in plain view of the public.

(5) The commissioner shall revoke any license granted as a result of fraud or misrepresentation in applying for the license. All indicia of the possession of a license are at all times the property of the state of Colorado, and each licensee is entitled to the possession of a license only for the duration of the license.

(6) Any person licensed under part 2 of this article 36 may apply for a license as a dealer or small-volume dealer without paying the license fee otherwise required by section 35-36-303.

35-36-303. License fee - renewal - rules. (1) (a) For filing the application described in section 35-36-302, each applicant for a license in each of the following categories shall pay to the commissioner a fee as determined by the commission, which fee shall be transmitted to the state treasurer for credit to the inspection and consumer services cash fund created in section 35-1-106.5:

(I) Dealers; except that a dealer who signs an affidavit stating that the dealer will make payment in cash or by one of the other means specified in section 35-36-304 (1)(e) for each transaction for farm products shall pay the same application fee as a small-volume dealer;

(II) Agents; and

(III) Small-volume dealers.

(b) For each fiscal year, commencing on July 1, twenty-five percent of the direct and indirect costs of administering and enforcing this part 3 must be funded from the general fund. The commission shall establish a fee schedule to cover any direct and indirect costs not funded from the general fund.

(2) If a licensee fails for any reason to apply for the renewal of a license before an annual date specified by the commissioner by rule, the licensee shall, upon application for a renewal license and before the license is issued, pay a penalty as established by the commission, which penalty is in addition to the license fee.

(3) The commissioner shall not issue a license to any person against whose surety a claim has been collected or any person against whom an irrevocable letter of credit has been drawn by the commissioner in accordance with this part 3 during the period of three years after the date of the collection; except that the commissioner may, in the commissioner's discretion and consistent with the purpose of this part 3, issue a temporary license to the person for the period, subject to such restrictions as the commissioner deems reasonable and necessary.

(4) The commissioner shall not issue a renewal license to a licensee who is the subject of a pending verified complaint until the complaint has been settled to the satisfaction of the commissioner.

(5) Upon the failure of an applicant to file a bond or an irrevocable letter of credit meeting the requirements of section 11-35-101.5, within ninety days after the date of application, the application will be rendered void, and the license fee will not be refunded. Any subsequent application for a license requires a new license fee.

(6) Whenever the commissioner deems it appropriate, the commissioner may require a licensee or an applicant for an initial or renewal license to submit a financial statement or an audit prepared according to generally accepted accounting principles or any other information to determine whether the person is in an adequate financial position to carry out the person's duties as a licensee.

35-36-304. Bonds and irrevocable letters of credit - exemptions. (1) (a) Before the commissioner may issue a license to a dealer, the applicant shall file with the commissioner in

the sum of not less than two thousand dollars nor more than one million dollars, at the discretion of the commissioner:

(I) A bond executed by the applicant as principal and by a surety company qualified and authorized to do business in this state as a surety; or

(II) An irrevocable letter of credit meeting the requirements of section 11-35-101.5.

(b) The bond or irrevocable letter of credit must be conditioned upon compliance with this part 3 and section 35-36-104 and upon the faithful and honest handling of farm products in accordance with this part 3 and shall cover any fees due the department by the dealer and all costs and reasonable attorney fees incident to any suit upon the bond or irrevocable letter of credit. The bond or irrevocable letter of credit must be to the department in favor of every producer, dealer, small-volume dealer, or owner and, in the instance of a bond, must remain in full force and effect until canceled by the surety upon thirty days' prior written notice to the commissioner.

(c) (I) A producer, owner, small-volume dealer, or other dealer within the state of Colorado claiming to be injured by the fraud, deceit, or willful negligence of, or failure to comply with this part 3 or section 35-36-104 by, a dealer may request the department, as beneficiary, to demand payment on the irrevocable letter of credit or surety bond to recover the damages caused by the fraud, deceit, willful negligence, or failure to comply.

(II) The surety on the bond or the issuer of the letter of credit is not liable to pay a claim pursuant to an action brought under this part 3 if the action is not commenced within five hundred forty-eight days, which is approximately eighteen months, after the date of the transaction, as that term is described in section 35-36-305 (12), on which the claim is based, or the date of the loss, as that term is defined in section 35-36-102 (20), whichever is later.

(d) When an action is commenced on the bond or irrevocable letter of credit, the commissioner may require the licensee to file a new bond or irrevocable letter of credit, and failure of the licensee to file the new bond or irrevocable letter of credit within ten days after the commencement of the action constitutes grounds for the suspension or revocation of the licensee's license.

(e) The commissioner shall not require a bond or irrevocable letter of credit from a dealer who pays for farm products in cash or with a bank-certified check, a bank cashier's check, an irrevocable electronic funds transfer, or a money order at the time the dealer obtains from the owner of the farm products possession or control of the farm products, or of an applicant for a license or a licensee operating under a bond required by the United States to secure the performance of the applicant's or licensee's obligations; except that the bond must include all obligations pertaining to Colorado farm products, and the dealer shall furnish documentary evidence to the commissioner that the bond required by the United States is in full force and effect.

(f) The bond or irrevocable letter of credit required by section 35-36-216 must apply to the activities as a dealer of a person licensed pursuant to part 2 of this article 36. The persons are also subject to this section and section 35-36-305.

(2) Whenever the commissioner determines that a previously approved bond or irrevocable letter of credit is, or for any cause has become, insufficient, the commissioner may require a dealer to furnish an additional bond or irrevocable letter of credit or other evidence of financial responsibility to conform to the requirements of this part 3 or any rule promulgated pursuant to this article 36. The failure of the dealer to comply with the commissioner's

requirement within thirty days after written demand for compliance constitutes grounds for the suspension or revocation of the dealer's license.

35-36-305. Investigations, hearings, and examinations. (1) For the purpose of enforcing this part 3, the commissioner may receive complaints from persons against a dealer, small-volume dealer, agent, or person assuming or attempting to act as a dealer, small-volume dealer, or agent and, upon the receipt of a complaint, may make any and all necessary investigations relative to the complaint.

(2) The commissioner upon the commissioner's own motion may, and upon the verified complaint of any person shall, investigate any transactions involving this part 3.

(3) (a) The commissioner, upon consent of the licensee or upon obtaining an administrative search warrant, has free and unimpeded access to all buildings, yards, warehouses, and storage facilities owned by a licensee in which farm products are kept, stored, handled, processed, or transported.

(b) The commissioner, upon consent of the licensee or upon obtaining a search warrant, has free and unimpeded access to all records required to be kept by the licensee and may make copies of the records.

(c) The commissioner has full authority to administer oaths and take statements; to issue subpoenas requiring the attendance of witnesses and the production of all books, memoranda, papers, and other documents, articles, or instruments; and to compel the disclosure by the witnesses of all facts known to them relative to the matters under investigation. Upon the failure or refusal of a witness to obey a subpoena, the commissioner may petition the district court, and, upon a proper showing, the court may enter an order compelling the witness to appear and testify or produce documentary evidence. Failure to obey the order of the court is punishable as a contempt of court.

(4) The commissioner may examine the ledgers, books, accounts, memoranda, and other documents and the farm products, scales, measures, and other items in connection with the business of a licensee relating to whatever transactions may be involved.

(5) The commissioner need not investigate or act upon complaints regarding transactions that occurred more than one hundred twenty days before the date upon which the commissioner received the written complaint.

(6) If the investigation is against a licensee, the commissioner shall proceed to ascertain the names and addresses of all producers, dealers, small-volume dealers, or owners of farm products, together with the accounts unaccounted for or due and owing to them by the licensee, and shall request all the producers, dealers, small-volume dealers, or owners to file verified statements of their respective claims with the commissioner. If, after the commissioner makes the request for verified statements, a producer, dealer, small-volume dealer, or owner fails, refuses, or neglects to file a verified statement in the office of the commissioner within thirty days after the date of the request, the commissioner is relieved of any further duty or action under this part 3 on behalf of the producer, dealer, small-volume dealer, or owner.

(7) In the course of an investigation, the commissioner may attempt to effectuate a settlement between the respective parties.

(8) (a) If the commissioner determines, after concluding an investigation on a complaint, that reasonable grounds exist to believe that a licensee has violated this part 3 or section 35-36-104, the commissioner shall notify the licensee that the complaint is valid and inform the licensee of the licensee's opportunity to request a hearing, in writing, on the complaint within ten days after the date of the notice.

(b) Upon the receipt of a request for a hearing from a licensee or if the commissioner determines that a hearing concerning a licensee is necessary, the commissioner shall cause a copy of the complaint or the grounds specified in section 35-36-306, together with a notice of the time and place of the hearing, to be served personally or by mail upon the licensee. Service shall be made at least ten days before the hearing, which shall be held in the city or town in which the business location of the licensee is situated, or in which the transactions involved allegedly occurred, or at the location deemed by the commissioner to be most convenient.

(c) The commissioner shall conduct the hearing pursuant to section 24-4-105. Thereafter, the commissioner shall enter in the commissioner's office a decision specifying the relevant facts established at the hearing. If the commissioner determines from the facts specified that the licensee has not violated this part 3 or section 35-36-104, the commissioner shall dismiss the complaint. If the commissioner determines from the facts specified that the licensee has violated this part 3 or section 35-36-104, and that the licensee has not yet made complete restitution to the person complaining, the commissioner shall determine the amount of damages, if any, to which the person is entitled as the result of the violation and enter an order directing the offender to pay the person complaining the amount of damages on or before the date fixed in the order. The commissioner shall cause to be furnished a copy of the decision to all the respective parties to the complaint.

(9) As a result of the hearing, the commissioner may also enter an order suspending or revoking the license of a licensee or may place the licensee on probation if the commissioner determines that the licensee has committed any of the unlawful acts specified in section 35-36-313 or that the licensee has violated this part 3 or section 35-36-104.

(10) (a) If a person against whom an order, as specified in subsection (8)(c) of this section, is made and issued fails, neglects, or refuses to obey the order within the time specified in the order, the commissioner may issue a further order to that person directing the person to show cause why the person's license should not be suspended or revoked for failure to comply with the order.

(b) If the commissioner issues an order to show cause pursuant to subsection (10)(a) of this section, a copy of the order to show cause, together with a notice of the time and place of the hearing on the order to show cause, shall be served personally or by mail upon the person involved. Service shall be made at least ten days before the hearing, which shall be held in the city or town in which the business location of the licensee is situated or at any convenient place designated by the commissioner.

(c) The commissioner shall conduct the hearing pursuant to section 24-4-105 and thereafter shall enter in the commissioner's office an order and decision specifying the facts established at the hearing and dismissing the order to show cause, directing the suspension or revocation of the license held by the licensee, or making such other conditional or probationary

orders as may be proper. The commissioner shall cause a copy of the order and decision to be furnished to the licensee.

(d) Nothing in this section limits the power of the commissioner to revoke or suspend a license when satisfied of the existence of any of the facts specified in section 35-36-313.

(11) Whenever the absence of records or other circumstances makes it impossible or unreasonable for the commissioner to ascertain the names and addresses of all persons specified in subsection (6) of this section, the commissioner, after exercising due diligence and making a reasonable inquiry to secure the information from all reasonable and available sources, is not liable or responsible for the claims or the handling of claims that may subsequently appear or be discovered. After ascertaining all claims, assessments, and statements in the manner set forth in subsection (6) of this section, the commissioner may then demand payment on the bond or irrevocable letter of credit on behalf of those claimants whose claims have been determined by the commissioner as valid and, in the instance of a bond, may settle or compromise the claims with the surety company on the bond and execute and deliver a release and discharge of the bond involved. Upon the refusal of the surety company to pay the demand, the commissioner may bring an action on the bond on behalf of the producer, dealer, small-volume dealer, or owner.

(12) For the purpose of this section, a transaction is deemed to have occurred:

(a) On the date that possession of farm products is transferred by a claimant; or

(b) On delayed payment transactions, on the contractual date of payment, or, if there is no contractual date of payment, thirty days following the transfer of title.

(13) The commissioner has discretion to close from public inspection complaints of record made to the commissioner and the results of the commissioner's investigations during the investigatory period and until dismissed or until notice of hearing and charges is served on a licensee, unless otherwise provided by court order.

(g) Had a license revoked, suspended, or not renewed or has been placed on probation in another state for cause, if the cause could be the basis for the same or similar disciplinary action in this state.

(2) All proceedings concerning the denial, refusal to renew, revocation, or suspension of a license or the placing of a licensee on probation shall be conducted pursuant to section 35-36-305 and article 4 of title 24.

(3) A previous violation of this part 3 or section 35-36-104 by the applicant or any person connected with the applicant in the business for which the applicant seeks to be licensed, or, in the case of a partnership or corporation applicant, any previous violations of this part 3 or section 35-36-104 by a partner, officer, director, or stockholder of more than thirty percent of the outstanding shares, is sufficient grounds for the denial of a license.

Editor's note: This section is similar to former § 35-38-101 as it existed prior to 1995.

35-38-102. Definitions. As used in this article, unless the context otherwise requires:

(1) "Dealer agreement" means an oral or written contract or agreement of definite or indefinite duration between a supplier and an equipment dealer that prescribes the rights and obligations of each party with respect to the purchase or sale of equipment.

(2) (a) "Equipment" means a machine designed for or adapted and used for agriculture, horticulture, floriculture, livestock, grazing, light industrial, utility, and outdoor power equipment. "Equipment" does not include earthmoving and heavy construction equipment, mining equipment, or forestry equipment.

(b) Nothing in paragraph (a) of this subsection (2), as amended by House Bill 05-1180, as enacted at the first regular session of the sixty-fifth general assembly, shall be construed as changing the property tax classification of property owned by a horticultural or floricultural operation.

(3) "Equipment dealer" or "dealer" means any person, partnership, corporation, association, or other form of business enterprise that is primarily engaged in the retail sale of equipment.

(4) "Net cost" means the price the equipment dealer pays to the supplier for equipment, including the freight costs from the supplier's location to the equipment dealer's location, minus all applicable discounts allowed by the supplier.

(5) "Net price" means the price listed for repair parts in the supplier's price list or catalog in effect at the time the dealer's agreement terminates.

(6) "Superseded part" means any part with a discontinued part number already purchased from the supplier that has not been modified or improved and can perform the same function as a part currently available for purchase from such supplier's stock.

Editor's note: This section is similar to former § 35-38-102 as it existed prior to 1995.

35-38-103. Prohibited acts. (1) It is a violation of this article for a supplier to:

(a) Coerce or compel an equipment dealer to enter into a written or oral agreement that is supplementary to an existing dealer agreement with the supplier unless that agreement is imposed on all other similarly situated dealers in this state;

(b) (I) Refuse to deliver, within a reasonable time after receipt of an order, equipment covered by the dealer agreement specifically represented by the supplier to be available for immediate delivery, if such equipment is available in reasonable quantities.

(II) This paragraph (b) shall not apply if failure is due to any of the following:

(A) Restrictions on the extension of credit by the supplier to the equipment dealer;

(B) A breach of or a default under the agreement by the equipment dealer;

(C) An act of God;

(D) Work stoppage or delay due to a strike or labor difficulty;

(E) A bona fide shortage of materials; or

(F) Other causes over which the supplier has no control.

(c) Terminate, cancel, or fail to renew a dealer agreement or to substantially change the competitive circumstances of the dealer agreement without cause;

(d) Require as a condition of renewal or extension of a dealer agreement that the dealer complete substantial renovation to the dealer's place of business or to acquire new or additional space to serve as the dealer's place of business unless the supplier provides:

(I) At least one year's written notice of such condition;

(II) All of the grounds supporting this condition; and

(III) A reasonable period of time in which to complete the renovation or acquisition after the one-year notice period expires;

(e) (I) Discriminate in the prices charged for equipment of like grade and quantity sold by the supplier to similarly situated dealers in this state.

(II) Nothing in this paragraph (e) shall be construed to:

(A) Prevent the use of differentials that result from the differing quantities in which equipment is sold or delivered and does not prevent a supplier from offering a lower price in order to meet a competitor's equally low price or the services or facilities furnished by a competitor; or

(B) Apply to sales to an equipment dealer for resale to a unit or agency of the United States government, this state or its political subdivisions, a major fleet account, or an organization for testing or demonstration purposes.

(f) Prevent, by any means, an equipment dealer from changing the capital structure of the equipment dealership or the means by which the dealership is financed, if the dealer meets reasonable capital standards imposed by the supplier or as otherwise agreed to between the dealer and the supplier at all times and this change does not cause a change of the controlling interest in the executive management or the board of directors or of a guarantor of the dealership;

(g) (I) Prevent, by any means, an equipment dealer or any officer, member, partner, or stockholder of a dealer from selling or transferring any part of the interest of the officer, member, partner, or stockholder to any other person.

(II) No dealer, officer, partner, member, or stockholder may sell, transfer, or assign the equipment dealership or power of management or control of the dealership without the written consent of the supplier.

(III) If a supplier determines that the designated transferee is not acceptable, the supplier shall provide the dealer with written notice of the supplier's objection and the specific reasons for withholding its consent.

(h) Require an equipment dealer to assent to a release, assignment, novation, waiver, or estoppel that would relieve a person from complying with this article;

(i) (I) Withhold reasonable consent to the transfer of the equipment dealer's interest in the dealership to a member of the dealer's or the principal owner's family, if such equipment dealer or the principal owner of the dealership dies and the family member meets the reasonable financial, business, ability, experience, and character standards of the supplier.

(II) If the supplier determines that a family member does not meet the supplier's standards, the supplier shall provide the dealer's representative with written notice of the supplier's specific objections. A supplier has ninety days to consider a request to make a transfer.

(III) For the purposes of this paragraph (i), "family member" means a spouse, parent, sibling, child, stepchild, son-in-law, or daughter-in-law and any lineal descendant and includes an adopted child and any lineal descendant of such child.

(IV) Notwithstanding subparagraph (I) of this paragraph (i), if a supplier and dealer have executed an agreement concerning succession rights before the dealer's death and that agreement has not been revoked or otherwise terminated by either party, such agreement shall control the terms of succession.

(2) Notwithstanding paragraphs (g) and (i) of subsection (1) of this section, a supplier may withhold consent to a transfer of interest in a dealership if the dealer's area of responsibility or trade area does not afford sufficient sales potential to reasonably support the dealer. The supplier has the burden of demonstrating this fact.

(b) (I) Notice sent pursuant to paragraph (a) of this subsection (1) shall state the reasons for termination, cancellation, or nonrenewal and state that the dealer has one hundred eighty days in which to cure any claimed deficiency.

(II) If the dealer cures the deficiency to the supplier's satisfaction within the one-hundred-eighty-day period, the supplier may not terminate, cancel, refuse to renew, or change the competitive circumstances of the agreement for the reasons specified in the notice. The terms of the agreement shall not expire and the supplier shall not change the competitive circumstances of the agreement before the end of the one-hundred-eighty-day period without the dealer's written consent.

(2) (a) A supplier, either directly or through an agent, shall not terminate, cancel, fail to renew, or substantially change the competitive circumstances of a dealership agreement without cause.

(XII) Consistently fails to meet the suppliers market penetration requirements based on available record information and after receiving notice from the supplier of the supplier's requirements;

(XIII) Consistently fails to meet building and housekeeping requirements;

(XIV) Consistently fails to provide adequate sales, service, or parts personnel commensurate with the dealer agreement;

(XV) Consistently fails to comply with the applicable licensing laws pertaining to the products and services the dealer represents for and on the supplier's behalf.

35-40-204. Establishment of program - continuance or discontinuance - license fees.

(1) (a) The owners of at least fifty-one percent of the sheep, or the owners of at least fifty-one percent of the cattle, or the owners of at least fifty-one percent of both sheep and cattle acting jointly in the county, as shown by the assessment rolls of the last preceding assessment, may petition the board of county commissioners to establish a predatory animal control program as provided for in this part 2.

(b) The petition shall be filed on or before the first of November in any year at a regularly scheduled meeting of the board of county commissioners. After examination of the petition, if the board finds the petition in order and properly signed by the owners of at least fifty-one percent of the sheep or cattle, or both, in the county, the board shall establish the predatory animal control program provided for in this part 2 to commence the following calendar year on the first of February of said year; but the license fee as fixed under the provisions of section 35-40-205 shall be assessed only against the owners of sheep if only said owners of sheep petition for the establishment of said program, and only against the owners of cattle if only said owners of cattle so petition, and against both the owners of sheep and cattle if both said owners of sheep and cattle, acting jointly, so petition.

(2) The license fee to defray the cost of any program established under the provisions of this part 2, as fixed by the board of county commissioners under the provisions of section 35-40-205, shall remain in full force and effect from year to year without change, unless there is filed with the board a petition signed by the owners of at least fifty-one percent of the sheep, or the owners of at least fifty-one percent of the cattle, or the owners of at least fifty-one percent of both the sheep and cattle acting jointly, in the county, requesting repeal of said license fee in total and discontinuance of the program, or for an increase in said license fee, subject to the limits provided in section 35-40-205, or for a decrease in said license fee, in either of which events, the board of county commissioners shall fix a new license fee to continue from year to

year and provide for the continuation of the program within the limits of the aggregate amount of the license fees as collected from year to year.

35-40-205. License fee - expenditure of funds. (1) To defray the expense of the protection afforded by a program established under the provisions of this part 2, the board of county commissioners of any county has the power to require all owners or persons in possession of any cattle, one year old or over, to pay a license fee not exceeding thirty cents per head of cattle so owned or possessed by the owner or person in the county or brought in from another county or state and herded or grazed in the county. The assessor shall ascertain, in addition to the regular assessment for taxation purposes, all cattle which will be one year old or over as of February 1 within the county in any year in which the program is in effect, and shall keep such information in a separate record from the regular assessment, and shall include any cattle that shall be brought into the county between February 1 and January 31 of the following year to be herded or grazed for any part of the year. The board of county commissioners also has the power to require all sheep owners in the county who marketed sheep during the previous calendar year to pay a license fee not exceeding one dollar per head of sheep for which such payments were received. It is the responsibility of the Colorado sheep and wool board to provide the county assessor, by October 1 of each year, with a list containing the names and addresses of such sheep owners in the county and the number of sheep marketed during the immediately preceding twelve months. Such information shall be transmitted by the county assessor to the board of county commissioners by November 1 of each year. The board of county commissioners also has the power to require all sheep owners who herded or grazed sheep in the county to pay a license fee not exceeding one dollar per head of sheep. The board of county commissioners shall then order the license fee to be levied against all such sheep or cattle, or both, and shall adjust the fee on cattle on the basis of the number of months any cattle will be herded or grazed in the county, and shall adjust the fee on sheep on the basis of the number of months the sheep were herded or grazed in the county during the previous year.

(2) Upon the order of the board of county commissioners, such license fee shall be imposed by the entry thereof in the name of the licensee upon the property tax rolls of the county by the county assessor, and shall be payable to and collected by the county treasurer as and when county personal property taxes are by law payable and collected, and when so levied shall be a lien upon the property of the licensee enforceable under the laws provided for the collection of taxes on personal property. When collected said fees shall be placed by the county treasurer in a predatory animal control fund of the county, and all moneys credited to said fund shall be expended on order of the board of county commissioners of the county for predatory animal control only.

The bonds may be issued only after approval by both chambers of the general assembly, acting either by bill or by joint resolution, and after approval by the governor in accordance with section 39 of article V of the state constitution. The bonds shall be payable only from moneys allocated to the division for expenses of the division pursuant to section 35-41-102.

(b) All bonds issued by the board shall specify that:

(1) (a) (I) As used in this section, unless the context otherwise requires, an animal "shelter or pound" means a nonprofit private or publicly owned facility where stray, abandoned, lost, or unwanted pet animals are held and which facility contains four or more pet animals at any given time. "Pound or shelter" does not mean a breeding facility maintained for the express and sole purpose of supplying pet animals to entities for research. Before selling, giving, lending, or in any other manner providing a dog or cat to any private or public facility for use in medical or any other kind of experimentation, a pound or shelter shall care for such dog or cat for a minimum of two weeks, during which time such dog or cat shall be made available for adoption while the pound or shelter makes a reasonable effort to establish the identity of the owner of such dog or cat and, if such owner is identified, gives such owner notice regarding the taking and impounding of such animal and an opportunity to reclaim such animal. Such reasonable effort shall include contacting the owner if the dog or cat is wearing an identification tag.

(II) Pounds and shelters shall not participate in the practice known as "red tagging", which, for the purposes of this section, means the isolation, without opportunity for adoption, of healthy, amiable dogs and cats for research animal buyers. No dog or cat shall be designated as a candidate for medical or any other kind of experimentation unless such dog or cat has been made available for adoption during the two-week period it is cared for by the pound or shelter.

(III) If a pound or shelter provides dogs or cats to facilities for experimentation, such pound or shelter shall inform an owner who is relinquishing his dog or cat to the pound or shelter of such practice. The pound or shelter may charge a reasonable fee for housing the dog or cat during the two-week period the animal is cared for by the pound or shelter.

(b) For purposes of this subsection (1), "experimentation" includes any research, or testing, or the use of an animal for the training of students or medical personnel.

(2) Any officer or agent of the state bureau of animal protection created in article 42 of this title, or any peace officer, as described in section 16-2.5-101, C.R.S., may enforce the provisions of this section.

(3) Any person who violates the provisions of this section commits a class 2 misdemeanor and shall be punished as provided in section 18-1.3-501.

(4) The general assembly finds and declares that the establishment of the standards and specifications set forth in this section are a matter of statewide concern.

When animals are brought into this state from another state or a territory in transit from beyond the boundaries of this state, the brand, or a copy thereof, duly certified to by the proper officer in each state or territory, shall be received in evidence, with like force and effect as a brand duly recorded in this state.

35-43-102. Branding - evidence of ownership - penalty. Animals which are usually branded may be branded on either side with the owner's brand. No evidence of ownership by brands shall be permitted in any court in this state unless the brands are recorded as provided in section 35-43-105. Each drove of cattle or sheep which may be driven into or through any county of this state shall be plainly branded or marked with one uniform brand or mark. The cattle shall be so branded with the distinguishing ranch or road brand of the owner as to show distinctly in such places as the owner may adopt. Sheep shall be marked distinctly with such mark or device as may be sufficient to distinguish the same readily, should they become intermixed with other flocks of sheep owned in the state. Any such owner or person in charge of such drove being driven into or through the state who fails to comply with the provisions of this article shall be fined not less than fifty dollars nor more than three hundred dollars.

Upon receipt of the facsimile and fee, the board shall record the brand, unless the brand stands of record as or is in conflict with that of some other person, association, or corporation, in which case the board shall not record the brand but shall return the facsimile to the forwarding party.

(2) It is unlawful for any person, association, or corporation to brand or cause to be branded any livestock with a brand which has not been recorded with the state board of stock inspection commissioners, as provided in subsection (1) of this section, or with a brand which has been previously recorded by another person, association, or corporation. When any owner of a recorded brand in use in this state moves his cattle, branded with his own brand, to a new and different range or locality in this state within which territory there is in use a conflicting or similar recorded brand, the state board of stock inspection commissioners may order such recorded brand owner so moving to a new range or locality to discontinue the use of his recorded brand in that locality; and the board, at its discretion, may cancel such brand ordered to be so discontinued.

(3) Any person, association, or corporation or any employee thereof who violates any of the provisions of subsection (2) of this section commits a class 2 misdemeanor.

(I) The board may temporarily change the period of a brand's assessment to one, two, three, or four years so that approximately equal numbers of brands are subsequently assessed for five-year periods in each successive five-year period; and

(II) If the period of an assessment is changed pursuant to subparagraph (I) of this paragraph (a):

(A) The fee for the shortened assessment period shall be proportionately decreased; and

(B) The subsequent assessment period shall revert to five years.

(1) It is unlawful for any person, company, or corporation to sell, offer for sale, slaughter, or move, either within the state or to a destination outside of Colorado, any calf under weaning age that is not branded with a Colorado recorded brand of the owner of the mother cow. A brand upon any calf shall be past the peeling state at the time that a calf is sold, offered for sale, slaughtered, or moved, except in the following cases:

(a) When the calf is accompanied by its branded ownership-proven mother;

(b) When the calf is accompanied by a current brand certificate issued by a duly authorized Colorado brand inspector after inspection at a time when such calf is with its branded ownership-proven mother;

(c) When the calf is a registered purebred breed or pure dairy breed, but this exception shall not apply to a crossbred calf.

(2) Any person, company, or corporation whose principal operation consists of feeding cattle for slaughter or operating a dairy may apply to the state board of stock inspection commissioners for a permit authorizing such person, company, or corporation to sell or offer for sale a calf under ten days old, which was born at the dairy or in the feed lot, without meeting the requirements of subsection (1) of this section. Such application shall be accompanied by a description of the operation. Upon determining that the applicant is qualified, the board shall issue a numbered permit to the applicant. Any calf under ten days old which is sold or offered for sale shall have affixed an eartag, supplied by the board, which bears the applicant's permit number. A calf sold under the provisions of this subsection (2) shall be accompanied by a duly executed bill of sale containing the owner's permit number and signed by the dairy owner or the feed lot owner.

(3) If a Colorado brand inspector is called to inspect an unbranded or freshly branded calf with its mother, any mileage expense shall be paid by the owner in addition to any brand inspection fee.

(4) Any person, company, or corporation who violates any of the provisions of this section commits a class 2 misdemeanor.

(1) A Colorado brand inspector shall inspect all cattle entering a Colorado custom feedlot for feeding under a custom contract if the cattle are not accompanied by a brand certificate or valid documentation of purchase listing all brands, or no brands. In addition, all cattle entering Colorado for grazing purposes under a leased grazing agreement, owned by a nonresident, shall also be inspected by a duly authorized Colorado brand inspector. The brand inspector shall issue a certificate of inspection to the proven owner and a copy of such certificate to the custom feedlot operator or ranch manager after ownership is established and before the cattle are mixed with any other cattle or turned loose for grazing. Upon completion of the inspection, said inspector shall collect an inspection fee in the amount prescribed by the state board of stock inspection commissioners pursuant to section 35-41-104.

If the cattle are carrying more than two consistent brands, the owner shall mark or brand all of his cattle with the same brand, with one of the two existing brands, with a brand of valid registry of the owner, with an ear tag specifically identifying each animal to a specific feedlot, or otherwise identify the cattle as prescribed by the board. Evidence of this brand or permanent mark shall be shown on the certificate of inspection in addition to brands or no brands found on the inspected cattle for future reference of valid proven ownership. When ear tags are utilized, each ear tag shall be legible and at least one inch in height and two inches in width.

(2) Any lessee, lessor, commercial feedlot owner, or established livestock owner who violates any of the provisions of this section commits a petty offense and shall be punished as provided in section 18-1.3-503.

35-44-102. Taking up estrays - notice. No person shall take into his custody an estray animal unless the same is found trespassing upon lands owned, leased, or otherwise controlled by him. The state board of stock inspection commissioners or an authorized brand inspector representing said board has authority to move such estray animal to a safe and practical place within the immediate vicinity to be held during the legal advertising period. When any person takes into his custody an estray, within five days thereafter he shall make out a written description of such animal, setting forth all marks or brands appearing upon such animal and other marks of identity, such as color, age, size, sex, and possible owner, and forward the same by mail to the state board of stock inspection commissioners in Denver or notify the nearest authorized brand inspector. Any person having knowledge of any estray animal upon the public range may notify the state board of stock inspection commissioners, or any authorized brand inspector of said board, giving a description of said estray, and upon instructions from the board of stock inspection commissioners, or from an authorized inspector of the board, said estray shall be held by such person to be turned over to a duly authorized inspector of said board for disposition as the board may direct according to law.

Upon the owner proving to the satisfaction of the state board of stock inspection commissioners that the estray animal is rightfully his, the state board shall issue to him an order to receive the same upon payment of any reasonable charges which may have been incurred in the care of said animal.

Said livestock notice shall state when and where the estray animal was taken into custody. In addition the brand commissioner shall cause a notice giving a general description of the estray to be placed in a local newspaper within the county where the estray is held, and said notice shall be carried in one regular issue only. 35-44-105. Sale of estrays. If said estray animal is not claimed within ten days after the posting of estray notice, it shall be sold by the state board of stock inspection commissioners, through an authorized brand inspector of the board, in such manner as the board may direct. It is the duty of the brand inspector making such sale to give a bill of sale to the purchaser from the state board of stock inspection commissioners, signed by himself as inspector for the board, which bill of sale shall be legal evidence of the ownership of said animal by the purchaser thereof and shall be a legal and valid title to said animal.

The brand inspector making the sale of such estray shall return the proceeds of such sale to the state board of stock inspection commissioners, who shall pay the expenses incurred in taking into custody, holding, advertising, and selling such animal, and place the balance in the estray fund of said board, making a record of the same, showing the marks and brands and other means of identification of said animal, and giving the amount realized from the sale of same, which record shall be open to the inspection of the public. Should the owner of any estray that has been sold be found within three years after the sale of such animal, the net amount received from the sale of said estray, less a sum determined by the board by rule, for each estray, to be retained by the board, shall be paid to said owner upon the owner proving ownership to the satisfaction of the board.

35-44-107. Custody of estray - claimant. When any person takes into his custody any estray animal and sends a description of the same to the state board of stock inspection commissioners, said person shall be entitled to hold same lawfully until relieved of its custody by the state board of stock inspection commissioners. Should a claimant for said animal apply to the person who has custody of the estray for possession of the same, the said person shall at once notify the state board of stock inspection commissioners in writing of such application, and should the said board be satisfied that said applicant is the rightful owner, it shall forthwith issue an order authorizing said person in custody to deliver the estray to the owner, who may be required to pay any reasonable charges made by said person in custody. In case of a controversy as to what constitutes a reasonable charge, the state board of stock inspection commissioners shall fix the amount. (2) The state board of stock inspection commissioners, upon taking charge of any such stock or animals, shall forthwith give notice to the owners thereof, if known, and shall care and provide for such stock or animals for a period of ten days from and after the mailing or giving of such notice to the owners of said animals or until the owners take charge of the same within said ten days. ARTICLE 45

Public Domain Range

35-45-101. Determination of grazing rights. To prevent dissension and breach of the peace, the question as to the kind of livestock, whether cattle or sheep, that shall have the preferred or better right to graze upon any particular portion of the public domain within this state shall be determined according to the use made thereof during the last grazing season, whether such use was as cattle or sheep range and whether the same was used as a spring, summer, fall, winter, or other kind of range; but a single instance of grazing or herding certain kind of livestock on any such range over the protest of others in prior use and occupancy thereof, who graze a different kind of livestock, will not confer a better right.

Source: L. 29: p. 443, § 1. CSA: C. 160, § 160. CRS 53: § 8-8-1. C.R.S. 1963: § 8-8-1.

35-45-102. Mixed range apportioned. Any range being used as a mixed cattle and sheep range may be apportioned and divided between the different classes of livestock, that is cattle or sheep, grazed thereon by the district court having jurisdiction whenever a controversy or dispute arises upon complaint of any interested party using said range. Upon final hearing, any

such range shall be apportioned according to the requirements of the different kinds of livestock grazed or herded thereon and the nature of the different parts of the range to be apportioned and in accordance with the equities and rights of the owners of the different kinds of livestock using such range as a class, regard being paid to the extent of the user theretofore made by each class of livestock growers.

35-45-103. District court has jurisdiction. (1) Whenever a dispute arises as to which respective class of livestock has the better right to graze upon any particular portion of said public domain, the district court of the county wherein such disputed area or some part thereof lies has jurisdiction to determine the matters in an action in equity for an injunction to be brought by any person claiming such better right and against any person violating or threatening to violate any such alleged better right. In all actions brought under the terms of this article, service of process may be made in person or by publication, as provided by rule 4 of the Colorado rules of civil procedure, and the procedure shall be as provided by these rules. The plaintiff may proceed against all unknown defendants the same as in an action in rem and may have said disputed area established either as a cattle or sheep range, as the case may be. In such action, if any defendant disclaims or suffers a decree against him by default, no costs shall be taxed against him. The court may in its discretion grant a temporary restraining order or a temporary injunction as in ordinary cases of suits for injunctions.

(2) When such cause is at issue, the court shall in the first instance refer all questions of fact to three referees. Said referees shall be residents of the state of Colorado and two of them, if possible, shall be persons using or residing in the vicinity of the range concerning which the dispute arises, and one of whom shall be engaged in the cattle business and one person engaged in the sheep business, if discreet persons engaged in said businesses are available. The two, immediately upon taking the oath as referees, shall designate some disinterested person to act as a third referee and, subject to such objection as may be made as provided by law, the court may appoint the third person so designated. In the event of failure to agree upon the third member of said board, the court shall have authority to name the third person.

(3) The referees shall possess the qualifications, exercise the powers and functions, and, except as otherwise provided in this section, be subject to the same objections as provided by law, and the procedure before said referees shall be as provided by the Colorado rules of civil procedure. Within ten days after the report of said referees is filed, any party to the action may file written objections to said report, specifically setting forth the objections thereto and asking that the same be modified or disapproved, as the case may be. The court shall thereupon hear and determine all said objections and either approve or set said report aside. Thereupon the court may require additional findings or may assume jurisdiction and determine all questions at issue and enter a decree accordingly. Unless objections are filed to said report, the same shall be final and a decree shall be entered thereon.

(4) Upon final hearing, either upon the report of said referees or at the conclusion of the hearing by the court, if it appears that plaintiff has the preferred or better right to the use of the public domain in question as against the defendants, the court shall enter a decree finding as definitely as may be the boundaries of such disputed area and may enjoin and restrain the defendants and their servants, agents, and employees, from interfering with such right of the

plaintiff and others engaged in the same business and award such other relief as justice and equity may require.

35-45-104. Contents and posting of notice - violations - penalties. Whenever any such portion of such public domain is decreed as a sheep or cattle range or it is decreed that the same is entitled to be used by sheep or cattle owners, as the case may be, the court shall enter an order directing the clerk of the court to give notice of the establishment of such range, which notice shall describe the area or boundaries of the range involved, pursuant to the terms of the decree, and state in substance the findings of the court. Three copies of said notice shall be posted at conspicuous places upon said range by the sheriff of the county in which said range is situated and return made to the clerk of said court, and thereafter it is unlawful for any person, whether acting in the person's own behalf or as the agent, servant, or employee of another, to graze or herd stock not entitled to be herded or grazed thereon. Each such person violating this article 45 commits a petty offense. Each day that any such person violates this article 45 constitutes a separate offense.

Cross references: For the penalty for a petty offense, see § 18-1.3-503.

35-45-105. Reapportionment of range. (1) If any given area has been adjudged to be subject to use either as a cattle or sheep range, any person in interest may thereafter institute a supplemental proceeding in the same court which rendered the original decree, by filing a supplemental petition setting forth that such person has acquired livestock formerly grazed upon such range or ranch property adjacent to said range from an owner who formerly grazed or herded stock thereon. By reason of the change in ownership of such property the livestock theretofore grazed on said range, or part thereof, will no longer be herded or grazed thereon, and said petition may further show that said range can be apportioned and the original decree can be modified so as to permit the herding or grazing of different kinds of livestock upon a portion of said range without injury to or material interference with the rights and business of a majority of the persons then using said range and grazing the kind of livestock for which said range was originally allotted.

(2) All persons using said range shall be made parties to the proceeding, and if upon the final hearing it appears that said range can be further apportioned or that livestock of a different kind can be grazed or herded on a portion of said range theretofore used by a different kind of livestock without injury to the business of a majority of the persons running livestock under the original decree, then such change may be permitted by supplemental decree; but sufficient range shall be left subject to the terms of the original decree to meet the actual requirements of all persons still running livestock of the kind given the preferred or better right under the original decree. Notice of the provisions of said supplemental decree shall be given as in case of an

original decree, and thereafter any person using the portion of range described in said supplemental decree in accordance therewith shall not be subject to fine or imprisonment for violation of any of the terms of this article.

35-45-106. Overstocking range. (1) It is declared the policy of this state to preserve the grasses and vegetation on the public domain and protect the wild game of this state in their natural ranges, and especially on the winter ranges, and to prevent erosion of the soil and thereby conserve the waters and water supply originating on the public domain ranges of this state, and to prevent the indiscriminate and unregulated overstocking of such ranges which tends to deplete and destroy such vegetation, increase erosion, and diminish the water supply of the streams and springs of the state of Colorado. After May 19, 1929, when any range is adjudged or decreed to be either a cattle or sheep range under the provisions of this article, any person using such range and any person having the right to use water from any stream or source of supply fed from the watersheds in any such range may apply to the court in a supplemental proceeding to establish that any such range is then overstocked or that said range is about to be overstocked with the kind of livestock which may lawfully be herded or grazed thereon and that the vegetation is being permanently destroyed or is about to be permanently destroyed and the water supply upon which any person is dependent is about to be diminished or impaired.

(2) All persons using said range shall be made parties defendant and the court shall proceed to hear testimony and fully investigate the conditions and determine the number of livestock that may be ranged thereon during the seasons when said range is customarily used for grazing purposes, and if it is fully and satisfactorily established by competent evidence that said range is then overstocked or is about to be overstocked, the court may determine the number of livestock that said range or portion of said range is capable of supporting for a period not exceeding two years, enjoining all persons from willfully or intentionally grazing or herding any greater number upon said range. As between the users of any such range adjudged to be an overstocked range, those who have made prior continuous use of said range in accordance with the customary use thereof and those who have privately owned lands accessible to said range upon which their said livestock can be fed or grazed when not on the public range shall have the preferred right up to the allotted number fixed by decree of court, and any decree entered under the provisions of this section shall so provide.

35-45-107. How article construed. Nothing in sections 35-45-101 to 35-45-106 shall be construed to prohibit free transit over the public domain as provided by the acts of congress or to confer upon any individual as such an exclusive right to the use or occupancy of any part of the public domain.

35-45-108. Distribution of receipts. (1) All moneys received by the state treasurer as the state's share of the amounts collected by the federal government under the provisions of

sections 3 and 15 of the "Taylor Grazing Act", and any act amendatory thereof, and under the provisions of Public Law 136, 82nd congress, approved August 31, 1951, shall be credited to a clearing account.

(2) Moneys received under the provisions of section 3 of the "Taylor Grazing Act" which are derived from each grazing district in the state shall be paid over to the counties in which such grazing districts are located, in the proportion that the acreage of each county lying within a particular grazing district bears to the total acreage of such grazing district, as such acreages are certified by the federal agency administering such provisions.

(3) Moneys received under the provisions of section 15 of the "Taylor Grazing Act" and under the provisions of Public Law 136, 82nd congress, shall be paid over to the several counties of the state from which such moneys were derived, as certified in reports furnished by the federal agency administering said provisions.

(4) All such payments shall be calculated by the state treasurer and shall be made to the respective county treasurers during the month of September of each year.

35-45-109. Range improvement fund - board of district advisers. (1) All moneys paid to the counties shall be deposited with the county treasurer in a special fund to be known as the range improvement fund of district no. __. The county treasurer of any county in which a district is located shall be the ex officio district treasurer and custodian of moneys received and shall be liable upon his official bond for all moneys deposited in said range improvement fund. The county treasurer, as ex officio district treasurer, shall pay out such money in said range improvement fund upon the warrant of the chairman or vice-chairman of the district grazing advisory board or a board of district advisers established pursuant to subsection (2) of this section and after consultation with the district manager of the grazing district in which county the moneys were deposited. Said district grazing advisory boards are established pursuant to Public Law 94-579 (43 U.S.C. sec. 1753) or its successor, as may be established by the secretary of the interior pursuant to the "Federal Advisory Committee Act", Public Law 92-463 (86 Stat. 770; Title 5, App.).

(2) (a) In the event that the grazing advisory boards cease to exist, the commissioner of agriculture shall establish and maintain a board of district advisers for each grazing district upon the petition of a simple majority of the livestock lessees and permittees within the jurisdiction of the district. The function of the board of district advisers shall be to determine the use of the range improvement fund in accordance with section 35-45-110.

(b) The number of advisers on each board and the number of years an adviser may serve shall be determined by the commissioner. Each board shall consist of livestock representatives who shall be lessees or permittees in the district under the board's jurisdiction and shall be chosen by the lessees and permittees in the district through an election prescribed by the commissioner. Each board of district advisers shall meet at least once annually.

Fence Law

Law reviews: For article, "Colorado's Fence Law: An Overview of Open Range and Fence Out Concepts", see 43 Colo. Law. 29 (March 2014).

35-46-101. Definitions. As used in this article, unless the context otherwise requires:

(1) "Lawful fence" is a well-constructed three barbed wire fence with substantial posts set at a distance of approximately twenty feet apart, and sufficient to turn ordinary horses and cattle, with all gates equally as good as the fence, or any other fence of like efficiency. Railroad right-of-way fences constructed in compliance with the statute in force on the date of construction and maintained in good condition shall be considered legal fences.

(2) "Livestock" includes horses, cattle, mules, asses, goats, sheep, swine, buffalo, and cattalo, but does not include "alternative livestock" as defined in section 35-41.5-102 (1).

35-46-102. Owner may recover for trespass. (1) Any person maintaining in good repair a lawful fence, as described in section 35-46-101, may recover damages for trespass and injury to grass, garden or vegetable products, or other crops of such person from the owner of any livestock which break through such fence. No person shall recover damages for such a trespass or injury unless at the time thereof such grass, garden or vegetable products, or crops were protected by such a lawful fence. Even though such land, grass, garden or vegetable products, or other crops were not at such time protected on all sides by a lawful fence, if it is proved by clear and convincing evidence that livestock have broken through a lawful fence on one side of such land to reach such land, grass, products, or crops, recovery and the remedies

under this section may be had the same as if such land, grass, products, or crops had been at such time protected on all sides by a lawful fence.

(2) Whenever any person stocks land, not enclosed by a lawful fence, on which such person has a lawful right to pasture or forage livestock, with a greater number of livestock than such land can properly support or water and any of such livestock pasture, forage, or water on the lands of another person, in order to obtain the proper amount of pasture, forage, or water or whenever any person stocks with livestock land on which such person has no lawful right to pasture or forage livestock and such livestock pasture, forage, or water on such land or on other land on which such person has no right to pasture or forage livestock, he shall be deemed a trespasser and shall be liable in damages and subject to injunction.

(3) All damages sustained on account of the foregoing trespasses may be recovered, together with costs of court and arbitration, and the livestock so trespassing may be taken up by the person damaged and held as security for the payment of such damages and costs. A court of competent jurisdiction in any proper case may issue an injunction to prevent further trespasses. In any action for trespass where the injury complained of has been aggravated and attended by a willful or reckless disregard of the injured person's rights, the board of arbitration, court, or jury may in addition to awarding actual damages include reasonable exemplary damages. Recovery may be had under this section either in a court of law or by arbitration as provided in section 35-46-103.

35-46-103. Board of arbitration. When any person is trespassed upon or damaged by any livestock or takes into his custody any livestock under section 35-46-102, the claim for damages occasioned by said livestock may be arbitrated by a board of three arbitrators, at the option of the party aggrieved selecting one, the owner of the livestock selecting a second, and the two thus chosen selecting a third. Said arbitrators so chosen shall meet and act as a board of arbitration within five days after a written application is made therefor by either party and written notice given to the other party. It is the duty of the person so taking into custody such livestock to notify in writing within five days after the taking into custody thereof the owner or person in charge of such livestock. If the owner or person in charge of such livestock is not known to the person taking the livestock into custody or cannot be found after diligent search and inquiry, then the person so taking custody of such livestock shall publish within one week a notice containing a full description of such livestock, including all marks and brands as nearly as can be ascertained, in a paper published nearest the place where the alleged damage occurred. In the event the owner of such livestock cannot be found within ten days after the date of the publication of such notice, the livestock shall be an estray and the state board of stock inspection commissioners shall be entitled to said livestock subject to the lien for damage sustained and cost and care and feeding of the same by the person taking such livestock into custody. Such person shall deliver the same to the owner thereof whenever such owner furnishes the person so damaged by such livestock a bond in double the amount of the damage claimed, executed by two responsible persons, said bond to be satisfactory to such damaged party or approved by a county judge or district judge of such county, conditioned upon the payment to the person taking custody of such livestock all damages and costs, if any such damages or costs are awarded.

35-46-104. Finding of board - enforcement. The finding of said board of arbitration, when reduced to writing and signed by a majority of the members thereof, constitutes an obligation on the part of the person against whom the finding is made to pay to the aggrieved party the sum set forth in the finding of said board of arbitration. In the event the person against whom the finding of such board of arbitration is made fails, neglects, or refuses to pay to the aggrieved party the sum set forth in the finding of said board of arbitration, within thirty days from the date of the written findings of such board, then the finding of said board of arbitration may be filed in any court of record within the jurisdiction where the damage was sustained. The finding of such board so filed shall be deemed for the purposes of sections 35-46-101 to 35-46-110 a judgment of said court and execution may issue thereon as by law provided in judgments of said court. The costs agreed upon to be incurred in said arbitration shall follow the findings as in suits at court. If the owner of any livestock makes a tender in money of all damages to the person claiming damages, the person claiming damages shall pay all costs and expenses thereafter accruing unless he is awarded a larger amount than was tendered by the owner of such livestock.

35-46-105. Grazing on roads and in municipalities - penalty. (1) It is unlawful for the owner or any person in charge of any livestock knowingly to cause or permit such livestock to graze or run at large in any incorporated or unincorporated municipality, lane, road, or public highway if the same is separated from the land or range of such owner or person in charge by a fence or other barrier sufficient to keep livestock from reaching such municipality, lane, road, or public highway. In case any such livestock so running at large is killed or injured by any vehicle, the owner, driver, or person in charge of such vehicle shall not be liable therefor if the killing or injury is not malicious, willful, or wanton. Nothing in this section shall be applicable to livestock having a person in charge when such livestock are being driven on or through such municipalities, lanes, roads, or public highways or when range livestock being ranged on their usual range or allotments have broken through maintained drift fences or cattle guards and are on the premises unknown to the owners.

(2) Any person violating this section commits a civil infraction. It is the duty of every Colorado state trooper, sheriff, or other peace officer to prefer charges against any person violating this section and take custody of such livestock and place them on feed and water. Such livestock may be placed by such officer in the custody of a responsible person who shall care for the same pending disposition of any court action under this section. The livestock may be held in case of conviction of the owner or other person in charge for the payment of any reasonable costs of handling, care, and feed and of court and for the payment of all fines which may be levied against said owner or other person in charge. In the event such costs and fine are not paid within ten days after the entry of judgment, such court, after reasonable notice to such owner and

any known persons in interest as determined by the court, may order sufficient numbers of such livestock sold to pay such costs and fine.

(3) In cases where such livestock are horses, mules, or burros of inferior quality and of the apparent value of less than thirty-five dollars per head and the owner or any other person in interest cannot be found after reasonable search and inquiry, the state board of stock inspection commissioners, or its duly authorized representative, after posting of notice at a conspicuous place at the courthouse of the county where such livestock are found for a period of ten days, may sell such livestock at private or public sale as stated in said notice, and the proceeds of such sale remaining after the payment of all reasonable costs shall be held for the owner or other person in interest when found as is provided by law for estray funds.

35-46-111. Right-of-way fences. (1) (a) Except as otherwise provided in paragraph (b) of this subsection (1) and subsection (4) of this section, it is the duty of the department of transportation to maintain right-of-way fences constructed as of June 1, 1994, by the department at or near the boundary of the department's highway property in agriculturally zoned areas along and adjacent to all federal aid highways where such highways are maintained by the department. The department shall make repairs to such right-of-way fences when necessary only upon actual notice to the department. Neither the department nor the landowner is liable for any damages caused by the failure to adequately construct, maintain, or repair the right-of-way fence unless actual notice is given to the department.

(b) If the department removes a right-of-way fence in an agriculturally zoned area during a construction project, the department shall replace and maintain said fence unless the landowner and the department agree that said fence shall not be replaced.

(2) In nonagriculturally zoned areas, the department may erect a right-of-way fence where the highway has been declared a freeway pursuant to section 43-3-101, C.R.S., or in areas that the landowner and the department agree that said fence be erected. If the department erects a right-of-way fence or has previously erected a right-of-way fence where the highway has been declared a freeway, the department shall maintain and repair said fence when necessary upon actual notice to the department. Neither the department nor the landowner is liable for any

damages caused by the failure to adequately construct, maintain, or repair the right-of-way fence unless actual notice is given to the department.

(3) Upon actual notice, the department shall maintain right-of-way fences constructed by the department, where highways are maintained by the department, at or near the boundary of the department's highway property adjacent to properties owned by municipalities unless otherwise agreed to in writing by the department and the municipality.

(4) If, in both agriculturally and nonagriculturally zoned areas, the landowner adjacent to an existing right-of-way fence and the department agree that said fence shall be removed, the right-of-way fence shall be removed by the department at its expense. If the landowner removes or causes the removal of the right-of-way fence without agreement by the department, the department shall not be required to reimburse the landowner for such removal, and the landowner shall be liable for any and all damages caused by the unauthorized removal of the fence.

(5) If a right-of-way fence is either removed or not replaced pursuant to subsection (1) or (4) of this section and the landowner who agreed that the fence be removed or not replaced or any subsequent landowner of property adjacent to the right-of-way later desires to erect a right-of-way fence, said fence may be erected by the landowner at the landowner's expense, but only upon prior agreement by the department. Such right-of-way fence shall be constructed in accordance with the standards applicable to the department at the time such fence is erected, and the department is required to make repairs to such right-of-way fence upon actual notice to the department. Liability for any damages caused by failure to adequately construct the right-of-way fence shall be borne by the landowner at the time the damages are incurred.

(6) All agreements required pursuant to subsections (1) to (5) of this section shall be in writing, be recorded by the department in the office of the county clerk and recorder of each county where the real property adjacent to the right-of-way is located, and be binding upon and notice to all persons or classes of persons claiming any interest in said property.

(7) If a landowner and the department agree to either remove or not replace a right-of-way fence pursuant to subsections (1) to (5) of this section and the landowner at the time of the agreement or any subsequent landowner does not maintain livestock, as defined in section 35-46-101 (2), on the land adjacent to a highway right-of-way, any livestock that enters the highway right-of-way through that land shall not be a dangerous condition pursuant to section 24-10-106 (1)(d), C.R.S. Neither the landowner nor the department shall be liable for any damages caused by such livestock because of the absence of such right-of-way fence.

(8) If a person herds livestock along a highway adjacent to property from which a fence has been removed pursuant to this section and any of the livestock strays onto that property, the landowner may not recover damages for trespass and injury to grass, garden or vegetable products, or other crops from the owner of the livestock unless the landowner can prove the person herding the livestock allowed the livestock to enter the property without making an effort to remove the livestock. Nothing in this section is intended to change the status of open range law and statutes relating to fences in Colorado.

(9) Notwithstanding any other provision of this section, the department may erect and maintain a right-of-way fence in any area at the department's expense, in its sole discretion, but the department has no duty to erect and maintain any fence at its expense.

35-46-112. Partition fences. Where the agriculture or grazing lands of two or more persons adjoin, whether or not such lands are farmed or grazed, it is the duty of the owner of each tract to build one-half of the line fence, such fence to be a lawful fence as described in section 35-46-101. When the owner or tenant of any agricultural or grazing lands owns a previously erected lawful fence upon any line between such land and the agricultural or grazing lands of any other person, and such other person or anyone holding under such person, occupies the adjoining land, it is the duty of such owner to pay the person owning such fence one-half of its cash value.

35-46-113. Cost and repair - how recovered. Partition fences between agricultural and grazing land shall be erected and also kept in repair at the joint cost of the owners of the respective adjoining tracts, except as otherwise agreed by such owners. If after thirty days written notice, served personally or by registered mail by either the owner or tenant of one tract upon the owner or tenant of the other tract, such other owner neglects or refuses to erect or repair one-half of the partition fence, the person giving notice may proceed to erect or repair the entire partition fence and collect by a civil action at law one-half the entire cost thereof from the other owner. Any judgment obtained against the owner of any land for the value of his share of any such partition fence or the repair thereof shall be a lien upon such owner's land to which such fence is appurtenant, and a special execution may issue and be levied upon the land to which such fence is appurtenant as in the manner now prescribed for the levying of an execution under the foreclosure of a mortgage upon real property. Such land may be sold under sheriff's sale for the purpose of satisfying such special execution in the same manner as is now provided for the foreclosure of mortgages on real property.

No livestock water tanks constructed under the provisions of this article shall be used for irrigation purposes, and nothing contained in this article shall be construed as conferring upon the owner of any such livestock water tank a priority of use superior to any vested water right or to an adjudicated appropriation of water pursuant to state laws. Unless built upon an intermittent or perennial main stream, dams creating such livestock water tanks shall be deemed to have a rebuttable presumption that there is no injury to adjudicated water rights when built pursuant to the specifications set forth in section 35-49-103. If used solely for watering of livestock in areas known to be deficient in windmill water, having a pumping capacity of less than five gallons per minute, dams of greater capacity than those designated in section 35-49-103 may be constructed on any ephemeral stream, but in such event, the state engineer may require the construction of drainage facilities to reduce the water impounded in the reservoir to the capacity prescribed in section 35-49-103, within a thirty-six hour period.

35-49-106. Plans submitted to state engineer. Anyone proposing to construct a dam for the creation of a livestock water tank, as described in section 35-49-103, shall submit to the state engineer for approval an application on a form provided by the state engineer showing the general location of such proposed dam with reference to section, township, and range, location and dimensions of spillway, and the number, location, and size of dams already constructed within the watersheds of the dry channel on which such dam is proposed to be built. Nothing contained in this section shall be construed to specify plans and specifications of such technical detail or nature as to require preparation by an engineer or construction of such stock water tanks under the supervision of an engineer; it being the intent and purpose of the provisions of this section that the state engineer shall be apprised by the completed application of pertinent information sufficient to enable the state engineer to ascertain the general location of the water tank, its operation in relation to tanks already constructed, its relative priority rights, its effect on existing appropriations of water, its capacity, its dam dimensions, the necessary and reasonable factors of safety, and its compliance with the provisions of this article.

35-49-107. Construction requirements. (1) The state engineer shall examine each application submitted and, if the state engineer approves the same, shall return one copy of each such application with the approval of the state engineer thereon to the person submitting the same and file the other copy at the office of the state engineer. If the state engineer disapproves such application, or any part thereof, the same shall be returned to the applicant for correction and revision. In cases where the state engineer deems it necessary, before approval thereof, the state engineer may inspect the proposed water tank site and make such independent investigation as necessary. Whether the state engineer approves such application, or disapproves it and returns the same for correction and revision, the state engineer shall act within fifteen days after the

application is submitted. Until the approval by the state engineer of an application has been obtained, the construction of such dam is prohibited.

(2) The provisions of this section and section 35-49-112 specifying approval by the state engineer and providing a fee therefor shall not apply to dams having a vertical height not exceeding five feet from the bottom of the channel to the bottom of the spillway and which impound not more than two acre feet of water.

(3) Anyone proposing to construct a dam for the creation of a livestock water tank, as described in section 35-49-103, shall comply with section 35-49-106. Every owner of a proposed reservoir for stock watering purposes who desires to obtain a priority number for such structure shall comply fully with all pertinent provisions of this article.

35-49-108. State engineer to inspect dam. When such a dam is completed the state engineer shall be notified of such completion and, thereafter, may inspect said stock water tank. If the state engineer finds that the construction fails to conform with the application approved by the state engineer, it then becomes the duty of the owner of such dam to make such change and corrections therein as the state engineer has determined to be necessary to correct such failure, and when the same have been made, the state engineer shall provide in writing approval of such structure. Approval shall be granted by the state engineer upon reasonable compliance with the approved application and standard specifications. A livestock water tank shall not be disapproved because of failure to observe technical engineering details in construction.

35-49-109. Priority determined - how. The state engineer's certificate of approval of a livestock water tank on each normally dry stream and its tributaries shall be chronologically numbered in the order of approval and in concert with any erosion control dams approved pursuant to section 37-87-122, C.R.S. Priority of right as between such tanks located on or within the watershed of each such dry stream shall be determined by such numbers seriatim, number one being first in such right.

35-49-110. Standard plans - publication. The state engineer shall prepare and keep in file at the office of the state engineer standard plans, drawings, and specifications for livestock water tanks, which shall be subject to revision by the state engineer and shall in general be used as a guide by persons proposing to construct such tanks. Publication of these plans shall be subject to the approval and control of the executive director of the department of natural resources.

35-49-111. When conduits not required. Where, in the judgment of the state engineer, tanks upon any stream and its tributaries do not require conduits for purposes of safety or the protection of prior livestock water tank rights, it is lawful for the state engineer to approve an application not calling for conduits. Nothing in this section shall abrogate the right of any owner of a vested water right or appropriation of water to require such conduits in any case where necessary to protect such senior right.

35-49-112. Fees deposited in general fund. Each application for a livestock water tank submitted to the state engineer under the provisions of this article shall be accompanied by a fee of fifteen dollars. This fee shall be deposited by the state engineer with the state treasurer who shall credit all such fees to the general fund of the state.

(2) Whenever it becomes known to the commissioner that an infectious or contagious disease exists among livestock of the state, the commissioner may compel the testing of all livestock in the state.

(3) Any owner whose livestock are suspected, after epidemiological investigation, of having an infectious or contagious disease shall, upon order of the commissioner, assemble such

livestock and provide the necessary facilities for inspection and collection of such samples as may be deemed necessary to conduct tests of such livestock for the infectious or contagious disease, and shall render such assistance as required.

(4) All samples drawn in testing for an infectious or contagious disease shall be forwarded to the department's animal health laboratory or any other laboratory approved by the state veterinarian for testing.

(5) Whenever any livestock are tested, the livestock shall be individually identified, as specified by the commissioner. Official identification shall not be removed from such livestock or altered in any fashion.

(6) The owner of livestock ordered tested or treated shall be responsible for the costs of all testing or treatment, unless specifically provided for by local, state, or federal funding.

(7) If the owner of livestock ordered treated or tested, after reasonable notice as determined by the commissioner, fails to dip, spray, test, or otherwise treat such livestock as ordered by the commissioner, the commissioner may seize, or cause to be seized, dipped, sprayed, tested, or otherwise treated, such livestock and hold and sell the same, or such part of the livestock as may be necessary, to pay all costs of the inspection, seizing, caring for, dipping, spraying, testing, or other treatment, together with cost of sale. Such sale shall be made at such time and place, and in such manner, as may be prescribed by the commissioner after not less than three days' nor more than fifteen days' notice of the time, place, and purposes of such sale has been given by the commissioner to the owner of the livestock and to each secured party holding a security interest in the subject livestock, which appears in the list of effective filings as maintained by the central filing officer pursuant to the "Central Filing of Effective Financing Statement Act", article 9.5 of title 4, C.R.S. If personal service of such notice cannot be had within the county in which the livestock are being held by the commissioner, such notice may be given either by personal service outside of such county or by advertisement in the official state livestock paper. The owner of livestock so seized and held, or any secured party holding a security interest in such livestock, which appears in the list of effective filings as maintained by the central filing officer pursuant to the "Central Filing of Effective Financing Statement Act", article 9.5 of title 4, C.R.S., at any time prior to such sale, may recover possession of the livestock upon payment to the commissioner of the amount of the costs incurred by order of the commissioner against such livestock. Any sum realized from the sale of such livestock over and above the amount of the costs actually incurred against such livestock shall be returned by the commissioner to the owner of such livestock if the owner is known or can by reasonable diligence be found. Otherwise, such surplus shall be placed in the estray fund, subject to the law in effect regarding such fund.

(8) Whenever the state veterinarian finds indications of any infectious or contagious disease among any livestock in this state and the state veterinarian is unable to determine positively the exact nature of such disease, the state veterinarian may order one of the animals so suspected slaughtered in order that a post mortem examination may be made to determine the character of the disease.

(9) Whenever the state veterinarian has good reason to believe that any disease so investigated is contagious or infectious and that such livestock are likely to communicate the disease to other livestock, the state veterinarian may at once establish a hold over such livestock and premises and may take such steps as may be deemed necessary to prevent the spread of such contagion or infection. Such hold shall be legal and binding in the same manner as a quarantine

established pursuant to section 35-50-111, and any violation of such hold or order of the state veterinarian shall be considered an unlawful act pursuant to section 35-50-116.

(10) Whenever in the opinion of the state veterinarian there exists within this state a livestock disease that he or she is unable to diagnose or identify, the commissioner may call upon the veterinary department of Colorado state university to cause scientific investigation to be made to determine the exact character of such disease. Colorado state university may charge the actual and necessary direct expense of laboratory and diagnostic procedures connected therewith.

(b) (I) The commissioner is authorized to:

(A) Administer oaths and take statements;

(B) Issue administrative subpoenas requiring the attendance of witnesses and the production of all books, memoranda, papers, and other documents, articles, or instruments; and

(II) Upon the failure or refusal of any witness to obey any subpoena, the commissioner may petition the district court to compel, and, upon a proper showing, the court may enter an order compelling, the witness to appear and testify or to produce documentary evidence. Failure to obey such an order of the court is punishable as a contempt of court.

35-50-111. Quarantine. (1) Whenever the commissioner deems it necessary to quarantine any specific livestock, premises, county, district, or section of the state for the purpose of preventing the spread of an infectious or contagious disease among the livestock within the state, the commissioner may, through the state veterinarian, call on all sheriffs or other peace officers of any county within the state to assist in maintaining such quarantine and to arrest anyone who may violate such quarantine or any rules made by the commissioner for the purpose of maintaining such quarantine. It is the duty of all sheriffs or other peace officers to act in such cases when so called upon, and they shall be allowed such recompense as is provided by statute for similar services.

(2) The commissioner may place a hold upon any specific livestock, premises, county, district, or section of the state for the purpose of preventing the spread of an infectious or contagious disease when clinical signs and symptoms suggest the presence of the disease and laboratory confirmation is pending.

(3) Once testing has confirmed the presence of an infectious or contagious disease, the commissioner may quarantine any specific livestock, premises, county, district, or section of the state for the purpose of preventing the spread of any infectious or contagious disease within the state.

(4) Whenever the commissioner finds it necessary to quarantine any livestock, ranch, farm, premises, or portion of this state because of an infectious or contagious disease, the commissioner may hold in quarantine such ranch, farm, premises, or part of this state as the commissioner may deem necessary after all livestock have been removed therefrom, until such time as in the judgment of the state veterinarian there is no further risk of exposing livestock to disease by permitting them to inhabit such quarantined area.

(5) Held or quarantined livestock shall be treated, fed, and cared for at the expense of the owner. All expenses of a hold or quarantine shall be borne by the owner of the livestock so held or quarantined and shall constitute a lien on such livestock.

35-50-112. Importation of livestock - pet animal health certificates. (1) It is unlawful for any person, firm, or corporation to ship or drive into Colorado any livestock unless such livestock are accompanied by an official health certificate, except as may be set forth in rules

promulgated by the commissioner. Such health certificate shall be in the form and manner as prescribed by the commissioner. No livestock known to be affected with, or exposed to, any infectious or contagious disease may be imported into Colorado except as authorized by rule. Livestock shall also meet all federal interstate requirements.

(2) The commissioner may promulgate rules creating and requiring pet animal health certificates. For the purposes of this section, "pet animal" means dogs, cats, rabbits, guinea pigs, hamsters, mice, ferrets, birds, fish, reptiles, amphibians, and invertebrates, or any other species of wild, domestic, or hybrid animal kept as a household pet, except livestock as defined in section 35-50-103 (7).

35-50-113. Condemnation of livestock. (1) Whenever the state veterinarian reports to the commission that there exists an outbreak of contagious or infectious disease among livestock of this state of such a character as to endanger and imperil the livestock of the state, the commission, upon approval of the governor, may issue an order of condemnation to condemn and destroy any livestock so infected or any livestock that has been exposed to or is deemed by the commission capable of communicating such contagious or infectious disease to other livestock and to condemn and destroy any barns, sheds, corrals, pens, or other property that the commission may determine is necessary to be destroyed in order to prevent the spread of such contagion or infection. Such condemnation and destruction shall take place only when in the opinion of the commission and the governor an emergency exists and such action is justified and necessary for the safety and protection of the livestock of this state.

(2) Whenever the commission finds it necessary to condemn and destroy any animals or property within this state because of any contagious or infectious disease, the animals or property shall not be destroyed until after a fair appraisal has been made of the value of the animals or property by two appraisers, one to be appointed by the commissioner and one by the owner of the property to be destroyed. The appraisers shall each make a report to the commission under oath as to their appraisals, and the commission shall forward such appraisals to the governor with such recommendation as to the proportion of such appraisal to be considered a just bill against the state of Colorado as the commission may think right. Within ninety days after receiving the appraisals and recommendation, the governor shall determine the appropriate appraisal. If the governor fails to make a determination within ninety days after receiving the appraisals and recommendation, the commission's recommended appraisal will become the determined appraisal.

(3) Any dispute or protest regarding the appraisal shall not delay destruction of the animals or property.

35-50-114. Indemnification of livestock owners. (1) To meet the emergency caused by any outbreak of contagious or infectious disease, the governor may cause to be issued the state's certificate of indebtedness with which to indemnify owners of property destroyed to pay the necessary costs and expense of exterminating and eradicating such contagion or infection. This section shall not apply to the diseases for which federal indemnity is paid to the owners. In the case of a disease for which federal indemnity is paid, combined state and federal indemnity shall not exceed actual appraised value when an appraisal is required.

(2) The commissioner, upon the recommendation of the state veterinarian, may authorize the payment of indemnity to any livestock owner whose herd, pursuant to written agreement with the state veterinarian, is sold for slaughter or destroyed because it is exposed to or diagnosed with an infectious or contagious disease; except that such indemnification, when combined with any other moneys received by the owner for the livestock, shall not exceed ninety percent of the market value for animals of comparable grade and of the same or similar type. Notwithstanding any provision of this section to the contrary, indemnity shall not be paid for brucellosis reactor livestock.

(3) There is hereby created in the state treasury the diseased livestock indemnity fund. The unexpended and unencumbered balance of moneys appropriated by the general assembly for payments for the services of commissioned or appointed personnel pursuant to section 35-50-104 shall be credited to the diseased livestock indemnity fund, upon approval of the commissioner, at the end of each fiscal year. The moneys in the fund are continuously appropriated for the purpose of making payments as provided in this section.

(4) No indemnity shall be paid when:

(a) The livestock are owned by the United States or a state, county, municipality, or other government entity;

(b) The livestock were brought into the state contrary to this article, the rules of the commissioner, or an order of the commissioner;

(c) The livestock were found to be diseased upon arrival in the state or were exposed to the disease prior to their arrival;

(d) The livestock were previously affected by any other disease that by its nature and development was incurable and necessarily fatal;

(e) The livestock were purchased at the time of a quarantine or purchased when due diligence and caution would have shown the livestock to be diseased;

(f) The owner of the livestock willfully exposed the livestock to the disease;

(g) The owner knew the livestock to be diseased or had notice of the disease at the time the livestock came into the owner's possession;

(h) The owner or the owner's agent has not used reasonable diligence to prevent disease or exposure to disease;

(i) The owner or the owner's agent has not complied with this article, the rules adopted by the commissioner, or an order issued by the commissioner;

(j) The destruction order was not complied with within the specified time period; or

The commission shall determine the assessment. The assessment must be in an amount, not to exceed eight dollars per head of cervidae per year, reflecting the direct and indirect expenses of carrying out the purposes of this section. The commission shall administer the fund, which must be maintained at a level of no more than two hundred thousand dollars. Administration of the fund includes setting a minimum reserve level for the fund. The commission shall not levy or collect an assessment on cervidae owned by a zoological park that is accredited by the American zoo and aquarium association. A zoological park that does not pay into the fund is not eligible for indemnification pursuant to this section.

(b) If the fund reaches a level of two hundred thousand dollars or more, the commission shall cease making any assessments until such time as the level of the fund falls below two hundred thousand dollars and the commission determines that a levy is necessary.

(2) (a) The moneys in the fund may be used to indemnify owners of cervidae destroyed for the control of contagious and infectious diseases.

(b) Combined state and federal indemnity must not exceed eighty percent of market value of the destroyed cervidae, as determined by the commission.

(c) The amount of indemnification payments to owners of cervidae destroyed under order of the state veterinarian for the control of contagious and infectious disease shall be determined by the commission.

(3) All moneys credited to the fund and all interest earned on the investment of moneys in the fund shall be a part of the fund and shall not be transferred or credited to the general fund or to any other fund except as directed by the general assembly, acting by bill. Moneys in the fund are hereby continuously appropriated to the commission for direct and indirect expenses incurred in carrying out the purposes of this section.

ARTICLE 53

Transportation of Livestock

35-53-101. Brand inspection fee - animal shares - minimum fee - waiver permit - rules - definition. (1) As a means of financing the operations of the state board of stock inspection commissioners, the board is hereby authorized to levy and collect, through authorized brand inspectors, a per head inspection fee not to exceed the amount specified in section 35-41-104 on all livestock inspected. In addition, the board is authorized to levy and collect through authorized brand inspectors a minimum fee of not less than the amount specified in section 35-41-104 from each person, company, or corporation requesting the brand inspection or from whom a brand inspection is required by law. The inspection fee established pursuant to this subsection (1), but not the minimum fee, shall apply when branded or unbranded cattle, horses, or mules are being consigned to a Colorado licensed public livestock market or a licensed slaughter plant. It is the duty of all authorized Colorado brand inspectors to inspect all cattle, horses, and mules, except as exempt by law, that are offered for sale or to be moved interstate or intrastate and collect the inspection fee and minimum fee thereon. Within the limits prescribed by this subsection (1), the state board of stock inspection commissioners shall determine the amount of the inspection fee and minimum fee that shall be collected by authorized brand inspectors from the owner or person in charge of said cattle, horses, or mules before issuing a certificate of brand inspection granting leave to the owner or person in charge to offer the brand inspected cattle, horses, or mules for sale or movement interstate or intrastate. The inspection fee and minimum fee so collected shall be reported and transmitted to the state board of stock inspection commissioners at such time and in such manner as the board shall by regulation require.

(2) When any individual, firm, association, partnership, or corporation, referred to in this article as "person", who owns or has had under control by lease or grazing permit for not less than five years a headquarters ranch or farm and who moves any cattle, horses, or mules from the headquarters place to another grazing or feeding ground that is also owned by the person or that has been controlled by lease or by grazing permit for not less than five years by the person, or when the person moves any cattle, horses, or mules from the grazing or feeding ground within

this state to the person's headquarters ranch or farm in this state, the person, upon payment of a fee in an amount determined by the board by rule, may apply to the state board of stock inspection commissioners for and may be granted a brand inspection fee waiver permit, irrespective of the fact such headquarters ranch or farm and the other grazing or feeding grounds exceed seventy-five miles from the point of origin provided for in section 35-53-105 (4)(f) or that the grazing or feeding grounds are outside this state. The brand inspection fee waiver permit shall entitle the permittee to move cattle, horses, and mules for grazing or feeding purposes, with no change of ownership involved, between the headquarters ranch or farm and the other grazing or feeding grounds, with no charge for brand inspection and no collection of a beef board fee. If the livestock are moved outside this state, the permittee shall guarantee that, if, for any reason, the livestock are not returned to the Colorado ranch or farm, the permittee will immediately pay the required brand inspection and beef board fee to the board.

(3) (a) When performing an inspection of livestock sold as animal shares in accordance with section 25-4-1617, an authorized Colorado brand inspector shall inspect the livestock only once immediately before slaughter notwithstanding the livestock being sold to multiple purchasers.

(b) The state board of stock inspection commissioners shall promulgate rules implementing this subsection (3), including establishing procedures for a single brand inspection before slaughter of livestock intended to be sold as animal shares in accordance with section 25-4-1617.

(c) As used in this subsection (3), "animal share" has the meaning set forth in section 25-4-1617 (2)(b).

35-53-105. Inspection before shipment - place. (1) Whenever any cattle, horses, or mules are to be transported from any point within this state to any point within or without this state, it is the duty of the transportation company and the person selling and delivering cattle, horses, or mules to other persons for transportation to make application to the state board of stock inspection commissioners or some duly authorized brand inspector of the board to inspect the brands and earmarks of any such cattle, horses, or mules, stating in the application the time when and the place where the animals will be ready for inspection, giving sufficient notice for the inspector to appear at the place designated in such application, and to provide adequate corrals to inspect such cattle, horses, or mules in daylight. It is the duty of such inspector, or some other inspector to be designated by the board, to appear at the place designated in such application and inspect such cattle, horses, or mules, make the necessary record, and give the necessary certificate required by the provisions of this article.

(2) Whenever any cattle, horses, or mules are to be driven from any point within this state to any point within or without this state, it is the duty of the owner or person in charge of such animals to make application to the state board of stock inspection commissioners or some duly authorized inspector of the board to have the same inspected.

(3) In all cases of cattle, horses, or mules transported by rail, the place of inspection shall be at some stockyard at the proposed point of shipment of such animals. All cattle, horses, or mules to be transported by truck or by similar conveyance within this state or beyond its boundaries shall be inspected at the point of origin or some convenient unloading point en route designated by the state board of stock inspection commissioners or one of its inspectors before being transported from the state or within the state. Cattle, horses, or mules to be driven beyond the boundaries of the state shall be inspected not less than three miles from the state line or at

some convenient point designated by the state board of stock inspection commissioners or by one of its duly authorized brand inspectors before being driven from the state.

(4) This section shall not apply to:

(a) Unbranded registered purebred horses leaving a Colorado licensed race track that are accompanied by a bill of lading or statement showing the point of loading and the destination;

(b) and (c) (Deleted by amendment, L. 92, p. 161, § 1, effective April 2, 1992.)

(d) Cattle, horses, or mules being driven or transported by truck to a Colorado licensed public livestock market within the state, where Colorado brand inspection is maintained, that are accompanied by a shipper's certificate and agreement, signed by the owner or person in charge and showing the point of origin, the point of destination, and the brands on such cattle, horses, or mules being transported;

(e) Cattle being transported by truck to a Colorado licensed packing house where all of the cattle slaughtered are inspected by a Colorado brand inspector immediately prior to slaughter, accompanied by a shipper's certificate and agreement, signed by the owner, showing the point of origin, the point of destination, and the brands on such cattle being transported;

(f) Cattle, horses, or mules being driven or transported within the boundaries of the state between established ranges, pastures, and properties owned, leased, or under the control of the owner of such livestock, so long as such livestock are not being driven or transported more than seventy-five miles from the point of origin and are not changing ownership. If such livestock are being driven or transported by road, the shortest passable road route shall be used. All such cattle, horses, or mules being transported and excepted by this paragraph (f) shall be accompanied by a statement, signed by the owner or person in charge, showing the point of origin and the destination and the brands on such cattle, horses, or mules being transported.

(g) Any registered purebred beef or dairy cattle being transported to or from the national western stock show or the Colorado state fair, if such beef or dairy cattle are accompanied by registration papers identifying the legal owner;

(h) (Deleted by amendment, L. 92, p. 161, § 1, effective April 2, 1992.)

(i) Any cattle, horses, or mules which are used in rodeo competition within the state of Colorado and which are branded with the owner's state-recorded ownership brand, together with a contest number identification brand, when being transported between rodeos within the state of Colorado, but only if the same have first been inspected by an authorized brand inspector and the fees therefor paid at the beginning of the rodeo season before the cattle, horses, or mules have been moved from the owner's headquarters unless circumstances arise which will justify an inspection for brands by an authorized Colorado brand inspector. Inspection by an authorized brand inspector and collection of the brand inspection fee shall be required prior to any change of ownership or other disposal of such cattle, horses, or mules. In addition, any cattle, horses, or mules purchased for use in rodeo competition shall be inspected by a Colorado brand inspector and a Colorado brand certificate issued before any such livestock is branded with the rodeo stock owner's state-recorded ownership brand. The exemption granted by this paragraph (i) shall not apply to any cattle, horses, or mules used in rodeo competition for which the requirements of this paragraph (i) have not been met.

(5) Nothing in this section shall be construed to prevent an authorized Colorado brand inspector from investigating and inspecting any cattle, horses, or mules being driven or transported in this state to determine if the requirements of this section have been met. If no violations have occurred, no official inspection shall be deemed to have been made nor shall any

brand inspection fee be charged. If any violation is found, the brand inspector may require an official inspection of such livestock and collect the fee therefor, or may seek prosecution of the offender pursuant to section 35-53-112, or both.

35-53-111. Sanitary rules as to movement of livestock - quarantine - penalty. (1) The state agricultural commission may make and adopt such quarantine and sanitary regulations affecting the movement of livestock into and out of the state of Colorado and within the borders of said state as may from time to time be necessary to prevent the introduction into the state or the spread within the state of any contagious or infectious disease, and the expense of such quarantine measures and the carrying out of such regulations shall be made by the imposition of a fee of three cents per head on all cattle and horses and one and one-half cents per head on all sheep entering the state of Colorado from any quarantine or infected territory. Whenever the state agricultural commission knows or has good reason to believe that any contagious or infectious disease exists in any locality in any other state, territory, or country or that there are conditions which render domestic animals from such infected district liable to bring such disease into this state, it may report the same to the governor of the state of Colorado whereupon, by proclamation, he shall prohibit the importation of any such livestock into this state, unless accompanied by a certificate of health given by the state veterinarian or sanitary inspectors appointed by the state agricultural commission, which veterinarian or sanitary inspectors shall carefully examine all such livestock previous to the giving of such certificate.

(2) All fees connected with such examinations are to be paid by the owner of such stock so examined; but no fee shall be collected from the owner of any animals entering this state by

railroad, in direct route to other states or territories, which do not remain in the state of Colorado for a longer period than is required for feeding and watering in transit. Any person, firm, or corporation who violates or disregards any of the provisions of a proclamation issued by the governor in compliance with this section commits a class 2 misdemeanor.

(3) Notwithstanding the amount specified for any fee in subsection (1) of this section, the state agricultural commission by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. (4) Cattle received at the feedlot from any source that are rejected by the feedlot for any reason may be shipped out after proper required inspection. The veterinarian shall inspect or test, as indicated or required, animals consigned to the public livestock market for the purpose of determining their condition of health and freedom from infectious or contagious animal diseases. If, in the opinion of the inspecting veterinarian, the animals are free of clinical signs of infectious or contagious diseases and have not, to the best of the veterinarian's knowledge, been exposed to any infectious or contagious diseases, the veterinarian shall issue a signed certificate of veterinary inspection to any purchaser who so requests. The veterinarian shall deliver the certificate of veterinary inspection to the purchaser at the time of rendering the account of sale or bill of sale.

(b) In addition to the requirements of this subsection (1) for all interstate movements, livestock must meet federal interstate and state of destination requirements. The veterinarian and the public livestock market shall immediately isolate and hold all animals affected with any recognized infectious or contagious diseases in conformity with the health requirements of Colorado law and the rules of the department of agriculture. The operator of the public livestock market shall pay all fees or taxes for veterinary services. The buyer or the person who intends to ship through interstate commerce shall pay the expenses for inspections or tests that are required by the United States department of agriculture and that can only be made by an approved and licensed veterinarian.

(2) (a) Swine may be moved from a public livestock market if, upon inspection, the swine are found free of clinical signs of contagious, infectious, or communicable diseases and in a condition of health.

(b) Repealed.

(3) Feeding swine and breeding swine that are being moved from a market to a farm must be identified by an approved ear tag, individual tattoo, or ear notch as each is required by 9 CFR 71.19. Sows and boars that are being sent to slaughter must be identified in accordance with the market swine identification program as prescribed in the swine brucellosis control/eradication state-federal-industry uniform methods and rules published by the U.S.D.A. animal plant health inspection service agency (APHIS 91-55-042).

(4) No animal may be sold or offered for sale at a public livestock market if the animal is injured, disabled, or diseased beyond recovery, or if such injury or disease permanently renders the animal unfit for human consumption. This subsection (4) includes, but is not limited to, any animal with severe neoplasia, any animal that is unable to rise to its feet by itself, and any animal with obviously fractured long bones.

(5) If, in the judgment of an accredited and licensed veterinarian, an animal presented at a public livestock market is injured, disabled, or diseased beyond recovery, the veterinarian shall humanely euthanize the animal or direct the consignor to immediately remove the animal from the premises of the public livestock market. The consignor is responsible for all expenses incurred for euthanasia and disposal of an animal under this subsection (5). The consignee is not responsible for collection of expenses.

(6) The commissioner of agriculture shall adopt reasonable rules for the administration and enforcement of this section, including, but not limited to, rules designating any disease as a disease that renders livestock permanently disabled or the carcasses thereof permanently unfit for human consumption. The commissioner shall promulgate all such rules in accordance with existing antemortem inspection guidelines of the United States department of agriculture food safety inspection service.

35-55-114. Title. The operator of each public livestock market in this state shall warrant to the purchaser thereof the title of all livestock sold through his public livestock market and shall be liable to the rightful owner thereof for the net proceeds in cash received for such livestock so sold. It is the further duty of such operator, when notified by the authorized brand inspector that there is a question as to whether any designated livestock sold through said market is lawfully owned by the consignor thereof, to hold the proceeds received from the sale of said livestock for a reasonable time, not to exceed thirty days, to permit the consignor to establish ownership and if at expiration of that time, the consignor fails to establish his lawful ownership of such livestock, said proceeds shall be released by such operator to the state board of stock inspection commissioners, which board has authority to dispose of said proceeds in accordance with Colorado's estray laws relating to the distribution of estray money, and the board's receipt therefor shall relieve said operator from further responsibility for said proceeds. (a) No fee shall be paid on commercial feed if the payment has already been made by a previous distributor. If the fee has not been paid by a previous distributor, the final distributor listed on the label as the manufacturer, guarantor, or distributor shall pay the fee.

(b) No fee shall be paid on customer-formula feeds if the distribution fee has been paid on the commercial feeds that are used as ingredients in the customer-formula feeds. No feed ingredient that is supplied by a farmer or feeder to a manufacturer shall be subject to a fee when used by the manufacturer to produce a customer-formula feed for the farmer or feeder.

(c) (I) (A) For each fiscal year, commencing on July 1, fifty percent of the direct and indirect costs of administering and enforcing this article 60 must be funded from the general fund. The state agricultural commission shall establish a fee schedule to cover any direct and indirect costs not funded from the general fund.

(B) Repealed.

(II) An annual distribution fee per product as established by the agricultural commission shall be paid in lieu of the distribution fee on commercial feed that is distributed in the state only in packages of ten pounds or less.

(d) The minimum total distribution fee paid shall be as established by the agricultural commission.

(2) In the case of a commercial feed that is distributed in the state both in packages of ten pounds or less, and in packages weighing over ten pounds, the distribution fee required

pursuant to subsection (1) of this section shall be paid on the commercial feeds distributed in package weights over ten pounds with a minimum distribution fee established by the agricultural commission. The annual flat distribution fee required pursuant to paragraph (c) of subsection (1) of this section shall be paid on the products sold in packages of ten pounds or less.

(3) Each person who is required to pay the distribution fee set forth in subsection (1) of this section shall:

Distribution fees that are due in accordance with subsection (1) of this section shall be paid when the annual statement is filed. Distribution fees that have not been remitted to the department by the due date shall be assessed a penalty fee of ten percent of the amount due or a minimum fee established by the state agricultural commission, whichever amount is greater, which shall be added to the distribution fees that are due and owed. The assessment of a penalty fee is in addition to and not a substitute for any other penalties or remedies available to the commissioner under this article.

(b) Maintain records as may be required by the commissioner to accurately reflect the tonnage of commercial feed distributed in this state, and the commissioner shall have the right to examine such records to verify statements of tonnage.

(4) (a) A distributor who is subject to the distribution fees for small packages of ten pounds or less shall file with the commissioner, along with the annual statement required by paragraph (a) of subsection (3) of this section, a list of all small package items weighing ten pounds or less that are distributed in this state. New products added during the year must be submitted to the commissioner as a supplement to this list before distribution.

(b) If the list required in paragraph (a) of this subsection (4) is not received with the annual statement or by the due date specified by the commissioner, a penalty fee in an amount established by the agricultural commission shall be added to the amount due. The assessment of a penalty fee is in addition to and not a substitute for any other penalties or remedies available to the commissioner under this article.

(5) A person other than the manufacturer, guarantor, or distributor may assume liability for payment of the distribution fee pursuant to subsection (1) of this section.

(b) The feed bears or contains any added poisonous, deleterious, or nonnutritive substance that is unsafe within the meaning of section 406 of the "Federal Food, Drug, and Cosmetic Act", as amended. This paragraph (b) is not applicable to:

(k) The feed container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents harmful to health.

35-70-102. Legislative declaration. The general assembly finds and declares that the state of Colorado, through wind and water erosion and depletion of subsurface water resources, has lost for agricultural and livestock uses approximately six million acres, or one-tenth of the total area of the state; that these losses range from severe damage to complete destruction of the topsoils of these areas; that these losses have been caused by improper farm and range practices, by increasing the rate of withdrawal from underground water reserves without adequate attention to recharging such reserves, and by failure to conserve to the full the precious rainfall and snowpacks that could help replenish underground water reserves, and that the areas of land thus destroyed will increase until and unless a constructive method of land use providing for the conservation and preservation of natural resources, including adequate underground water reserves, the control of wind and water erosion, and the reduction of damage resulting from floods, is established by law over the entire state. It is to accomplish this purpose and to insure the health, prosperity, and welfare of the state of Colorado and its people that this article is created, and it shall be construed liberally in order that the purposes expressed in this article may be accomplished.

(1) Proceedings to determine whether or not a conservation district shall be organized shall be instituted by a petition addressed to the state board and signed by not less than twenty-five percent of the owners of land within the district and who own not less than half of the area to be included within the proposed district. A determination after hearing by the state board that the requisite number of landowners have signed such petition and that such petition has been signed by landowners who own not less than half of the area to be included within the proposed district shall be final and conclusive unless objection is made to the sufficiency of such petition and appeal is taken from the determination of the board.

(2) The petition shall include:

35-70-105. Hearing on petition - election. (1) Within sixty days after it receives a petition, the state board shall cause notice by publication to be made of the pendency of the petition. Such notice shall state:

(a) That a petition has been filed for the organization of a conservation district and the name of the proposed district;

(b) The date (not less than twenty days from the date of such notice), hour, and place that a hearing will be had to determine the sufficiency of the petition and the necessity and advisability of the formation of the proposed district;

(c) That said petition, map, or plat of the proposed district and related material are on file and may be seen and examined by any interested person at the office of the county clerk and recorder of each county in which the proposed district is located and the office of the state board or other designated place within the period between the date of the notice and the date of the hearing;

(d) That anytime after the filing of the petition for the organization of a conservation district, but no later than five days before the day fixed for the hearing thereon, the owner of any real property within the proposed district may file a petition with the state board stating reasons why said property should not be included therein and requesting that said real property be excluded therefrom. Such petition shall be duly verified and shall describe the property sought to be excluded. The state board shall hear said petition and all objections thereto at the time of the hearing on the petition for organization and shall determine whether, in the best public interest, said property should be excluded or included in the proposed district.

(2) If on hearing, in the opinion of the state board, the petition or map or plat is insufficient, the papers shall be returned to the petitioners for amendment. If, in the opinion of the state board, the organization of the district is not required for the preservation of the health, prosperity, and welfare of the state of Colorado and its people, it shall so advise the petitioners, and the district shall not be organized, but subsequent petitions covering the same or

substantially the same territory may be filed after six months have expired from the date of denial of any such petition, and new hearings shall be held and determinations made thereon.

(3) If it appears upon hearing that it may be desirable to include within the proposed district territory outside of the area within which due notice has been given or to exclude territory within the district as proposed by the petition, the state board shall determine and define by metes and bounds or by legal subdivisions the boundaries of the proposed district, making such inclusions and exclusions as may be determined desirable. The proposal to include territory within which due notice has not been given shall be considered only at an adjourned hearing to be held after due notice thereof has been given throughout the entire area considered for inclusion in the district and such adjourned hearing held.

(4) If, following the hearing, it is the opinion of the state board that the petition and accompanying map or plat are sufficient and it appears that the organization of the proposed district is feasible and practicable and is required for the preservation of the health, prosperity, and welfare of the state of Colorado and its people, the state board shall make and record such determination.

(5) (a) If it is determined that the petition and the map or plat are sufficient and the proposed district is necessary, the state board shall call an election. The state board shall select the date, time, and place for the holding of the election, such date to be not less than twenty days nor more than forty days from the time the state board's determination becomes final.

(b) The state board shall give notice by publication of the date, time, and place of such election, together with a statement of the matters which will be considered at the election. This notice shall also describe the outer boundaries of the proposed district and any exclusions of land within such boundaries, state that the qualifications of voters shall be as described in section 35-70-104 (3), state that the petition is on file at the office of the county clerk and recorder, and state the procedures for nominating supervisors and the place where absent voters' ballots can be obtained. Such publication shall be made not less than ten days nor more than thirty days before the date of such election.

(c) At such election the qualified voter shall vote for or against the organization of the conservation district.

(d) The state board shall conduct the proceedings of the election provided for in this subsection (5) and shall be the judge of all matters in connection therewith. It has the authority to appoint one or more of its own members or other proper persons to act for it and in its stead in such matters. After the organizational election, all subsequent elections and administrative actions concerning the operation of the district, except as otherwise provided in this article, shall be conducted as provided in the local district's bylaws.

(e) (I) If the canvass of votes at any organization election discloses that one-half or more of the votes cast are against organization of the district, the result of the election shall be recorded in the minutes of the state board, and the proposal shall be dismissed. If the canvass discloses that more than one-half of the votes cast are for the organization of the district, the result shall be recorded in the minutes of the state board, and the board shall proceed as provided in section 35-70-106.

(II) The candidates, according to the number of supervisors to be elected, receiving the most votes cast shall be elected. The supervisors elected shall take an oath or affirmation in accordance with section 24-12-101 and, if required by the state or local board, file a bond in the same manner as specified in section 32-1-901. Failure to take an oath or affirmation in

accordance with section 24-12-101 or to furnish a bond, if required, except for good cause shown, shall create a vacancy in the office, and the vacancy shall be filled by the next candidate receiving the highest number of votes in the case of a new district or by the remaining supervisors as specified in section 35-70-107 (4).

(6) For the purposes of this section, "publication" means printing, once a week for two consecutive weeks, by two publications in one newspaper of general circulation in the proposed conservation district if there is such a newspaper, and, if not, then in a newspaper in the county in which the proposed conservation district is located. It is not necessary that publication be made on the same day of each week.

(7) (a) Except as may be otherwise provided in this article, the state board and each local district board of supervisors in the conduct of all elections shall follow, as much as practicable, the election procedures set forth in part 8 of article 1 of title 32, C.R.S.

(b) Whenever reference is made to the secretary or board of a special district, it shall be deemed to mean the secretary or board of supervisors of the local district or state board, as applicable.

35-70-106. Creation of district - certification. Within sixty days after the holding of such election, if more than a majority of the votes cast are for organization of such proposed district, the state board shall certify to the division of local government in the department of local affairs a statement of such election and the result thereof, together with a map or plat showing the area included within such district. The director of said division shall thereupon execute and deliver to the state board a certificate declaring the area within the boundaries of such district to be a lawful conservation district under its name as shown in the records, and thereafter such district shall be a public body corporate and a political subdivision of the state of Colorado and shall have all the powers and duties imposed upon such districts under the provisions of this article. Because the district is a political subdivision of the state, the property of such district, both real and personal, shall be exempt from taxation pursuant to section 4 of article X of the state constitution.

35-70-107. Board of supervisors - election - term. (1) (a) (I) The governing body of the district shall consist of a board of supervisors, referred to in this article as "supervisors", who shall be elected by the qualified electors of the district at an election conducted as provided in section 35-70-105. Each board shall consist of not less than five and not more than eleven supervisors, which number shall be specified in the bylaws of the district.

(II) At least sixty-six percent of the supervisors of each district shall be agricultural producers who are landowners in the district; except that, if the district cannot find the requisite percentage of agricultural producers, the district may petition the state board for an exemption from the percentage requirement.

(III) Each supervisor shall serve for a term of four years; except that each district's board shall provide for the staggering of supervisorial terms so that the terms of no more than a simple majority of supervisors expire at any one time. Supervisors serving on July 1, 1995, shall continue to serve the terms for which they were elected or appointed.

(b) Subject to the provisions of paragraph (a) of this subsection (1), no one shall be eligible to become a candidate for election as a member of the board of supervisors of any such district unless such person is a landowner in and a qualified elector of the district, including a renter or manager of the landowner's land pursuant to section 35-70-104 (4), or the duly authorized representative of a corporation owning lands within the district.

(2) The business of the district shall be transacted by the supervisors as provided in this article and in the district's bylaws. All special and regular meetings of the board of supervisors shall be held at locations which are within the boundaries of the district or which are within the boundaries of any county in which the district is located, in whole or in part, or in any county so long as the meeting location does not exceed twenty miles from the district boundaries. The provisions of this subsection (2) governing the location of meetings may be waived only if the following criteria are met:

(a) The proposed change of location of a meeting of the board appears on the agenda of a regular or special meeting of the board; and

(b) A resolution is adopted by the board stating the reason for which a meeting of the board is to be held in a location other than under the provisions of this subsection (2) and further stating the date, time, and place of such meeting.

(3) Members of the board of supervisors shall be entitled to travel and other expenses necessarily incurred in the discharge of their duties, such reimbursement to be payable only from the income of the district. No supervisor shall be personally liable for the consequences of his official acts; nor shall he receive, by virtue of his office, any benefits from the conduct of the affairs of the district other than the benefits any landowner may be entitled to receive from the operation of the district.

(4) If a vacancy occurs on the board of supervisors, the remaining supervisors shall appoint a successor for the remainder of the term of the seat vacated. In the event any supervisor ceases to be a qualified voter of and landowner in the district or the corporation which he represents ceases to be an owner of lands within the district, the supervisors shall thereupon declare a vacancy and proceed to appoint a successor.

35-70-108. Powers and duties of districts. (1) A conservation district, in the exercise of its public powers, has the following powers and duties in addition to others granted in this article, which powers and duties may be exercised by the supervisors subject to the rules, regulations, and bylaws adopted by such district and to the direction of the qualified voters at any regular or regularly called special meeting of the district:

(a) To conduct surveys, investigations, and research relating to the character of soil conservation and the preventive and control measures needed. In order to avoid duplication of research activities, such work, where possible, shall be conducted in cooperation with the government of this state or any of its agencies or with the United States or any of its agencies.

(b) To conduct demonstrational projects within the district on lands owned or controlled by the United States or the state of Colorado or any of their agencies, with the consent of the agency administering and having jurisdiction thereof, and on any privately owned lands within the district, upon obtaining the consent of the owner of such lands;

(c) To erect structures and maintain any facilities to arrest or prevent the erosion of soils or lands within such district by reason of wind or water or from any other cause;

(d) To cooperate or enter into agreements with and, within the limit of its available funds, to furnish financial or other aid to any agency, governmental or otherwise, or any owner or occupant of lands within the district in the carrying on of erosion control, flood control, and water conservation practices within the district, subject to such conditions as the supervisors may deem necessary to advance the purpose of this article;

(e) To obtain options upon and to acquire or acquire control of, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, any property, real or personal, or rights or interests therein; to acquire real property or any interest therein by eminent domain under the provisions of articles 1 to 7 of title 38, C.R.S., for projects designed exclusively for flood control, or sediment control, or both, as authorized under Public Law 566, enacted by the eighty-third congress (1954), but such power of eminent domain shall not be exercised by any district unless and until not less than two-thirds of the resident landowners owning at least fifty percent of the privately owned lands within the watershed area, as established by the watershed work plan map, shall, by petition filed with the supervisors of the district, approve the exercise of such power for any specified project; to maintain, administer, and improve any properties acquired, to receive income from such properties, and to expend such income in carrying out the purposes of this article; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes of this article;

(f) To make available to landowners and occupants within the district, on such terms as it shall prescribe, agricultural and engineering machinery and equipment, fertilizer, seeds and seedlings, and such other material or equipment as will assist such landowners or occupants to carry on operations upon their lands for the conservation of soil or water resources and for the prevention and control of soil erosion and floods;

(g) Repealed.

(h) To accept grants, services, and materials and to borrow money from the United States or from any corporation or agency created or designed by the United States to loan or grant money, or from the state of Colorado or any of its subdivisions, or from any other source,

but in no event shall such district pledge the faith or credit of the state of Colorado or any county or other political subdivision, except that of such district. In connection with such grants or loans, it may enter into such agreements or contracts as may be required for such purposes.

(i) To take over, by purchase, lease, or otherwise, and to administer any soil conservation, erosion control, or erosion prevention project located within its boundaries undertaken by the United States or any of its agencies, or by this state or any of its agencies; to manage, as agent of the United States or any of its agencies or of this state or any of its agencies, any soil conservation, erosion control, or erosion prevention project within its boundaries; and to act as agent for the United States or any of its agencies or for this state or any of its agencies in connection with the acquisition, construction, operation, or administration of any soil conservation, erosion control, or erosion prevention project within its boundaries;

(j) To sue and be sued in the name of the district; to have a seal which shall be judicially noticed; to have perpetual succession unless terminated as provided in this article; to make and execute contracts and other instruments necessary or convenient to the exercise of its powers; to make, and from time to time amend and repeal, rules and regulations, not inconsistent with this article, to carry into effect its purposes and powers;

(k) To prepare a plan for the care, treatment, and operation of the lands within the district. This plan may be known as the district program and plan of work and shall establish in general its objectives and serve as a guide for carrying out its work to attain its objectives. This plan, from time to time, may be amended to meet the needs of the district.

(l) To cause annual audits to be made in accordance with the "Colorado Local Government Audit Law";

(m) To make contributions of information, data, statistics, funds, or other contributions valuable in the furtherance of land conservation to any state association or other organization representing the interests of conservation districts in the state in the accomplishment of that purpose;

(n) To sponsor, plan, construct, maintain, and operate flood prevention and watershed improvement projects for the development, conservation, control, and utilization of water resources and, in so doing, to have and exercise all of the authority and power otherwise granted in this article;

(o) To participate in the formulation and implementation of nonpoint source water pollution control programs related to agricultural practices in order to implement programs required or authorized under federal law and section 25-8-205 (5), C.R.S., enter into contracts and agreements, accept funds from any federal, state, or private sources, receive grants or loans, participate in education and demonstration programs, construct, operate, maintain, or replace facilities, and perform such other activities and adopt such rules and policies as the board deems necessary or desirable in connection with nonpoint source water pollution control programs related to agricultural practices.

35-70-109. Assessments - amendments to bylaws.

(1) Repealed.

(2) If, in the judgment of the qualified voters of a district or the supervisors, a tax levy or assessment is essential to accomplish the purposes of the district as set forth in this article, the levy may be assessed as follows:

(a) The supervisors shall prepare a budget and distribute the amount thereof over the lands within the district in accordance with the valuation for assessment, but in no event shall the assessment on real property be in excess of one-half of one mill. Such tax levy or assessment shall be for the general purposes of the district and not for special purposes as provided for in paragraph (d) of this subsection (2).

(b) Prior to setting a date for an election as provided in paragraph (c) of this subsection (2), the supervisors shall hold a public hearing concerning the imposition of a tax levy or assessment. Thereafter, if the board of supervisors decides to proceed with an election, it shall give notice by publication, as provided in section 35-70-105 (6), setting forth the date of the election, the rate or amount of such levy or assessment, a statement as to why such levy or assessment is necessary, and other information concerning the holding of the election.

(c) No tax levy or assessment shall be imposed within a district unless it is first submitted to the qualified electors of the district and approved by a majority of the votes cast. Any such election shall be conducted as provided in section 35-70-105 (7). Any increase in the tax levy or assessment, if the existing levy or assessment does not equal the one-half mill maximum, shall also be proposed and approved at an election in the same manner as provided in this paragraph (c). An existing tax levy or assessment may be continued from year to year or decreased as determined by the board of supervisors and approved by the state board.

(d) If, in the judgment of the qualified voters of a portion of a district or in the judgment of the supervisors, a tax levy or assessment is required for special purposes on real property in said portion of a district for the installation, maintenance, and operation of flood prevention and watershed improvement measures and practices, an assessment or tax levy, in addition to any levy assessed pursuant to paragraph (a) of this subsection (2), for such portion of the district may be levied on real property as provided for in this subsection (2), but only the qualified voters owning lands within the aforesaid delineated parts of the district may vote upon the question as to whether or not such levy or assessment shall be imposed. Such tax levy or assessment for special purposes shall be administered in the same manner as set forth in paragraph (a) of this subsection (2) and, when combined with any other levy of the district pursuant to this article, shall be subject to the same one-half mill levy limit set forth in said paragraph (a).

(3) The bylaws of any conservation district may be altered, amended, or repealed or have additions made thereto at any regular or regularly called special meeting of the district, upon compliance with the following requirements: A petition whose text sets forth the proposed amendment in full, signed by not less than three percent or fifty of the qualified voters of the district, whichever is less, must be filed with the supervisors; the complete text of the proposed amendment must be published in the notice of the meeting at which it is to be considered, which notice must be published at least once in a newspaper of general circulation within each county in which property included within the district is located, not less than ten days prior to the said

meeting; and those present at the said meeting at which the proposed amendment is to be considered shall constitute a quorum for the consideration of the proposed amendment, and the affirmative vote of a two-thirds majority thereof shall be required to adopt the proposed amendment.

35-70-110. Appeals to state board. (1) If the owner of any lands within the district desires, he may appeal from any decision of the supervisors to the state board. To establish such an appeal, he must submit his appeal in writing to the state board within thirty days after the date of the action of the supervisors from which the appeal was taken. The notice of appeal shall state the particular part of the decision of the supervisors from which an appeal is being taken, if less than the entire decision is being appealed from, and shall state in simple and concise language the reasons why the owner considers the decision to be improper.

(2) Within twenty days following the receipt of such written appeal, the state board shall notify, in writing by registered mail, the person making such appeal and the local board of supervisors of the time and place it will hear the appeal. Such hearings shall be held not less than ten days nor more than a period spanning two consecutive meetings of the state board following the mailing of the notice.

(3) At the time and place set forth in the written notice for such meeting, the state board shall hear any persons in interest who desire to be heard in favor of or against the order as finally entered by the supervisors and shall make its decision thereon, which shall be entered in the minutes of the state board.

(4) and (5) Repealed.

(6) No action shall lie in any court of law to set aside or alter the final decision of the state board unless the petitioner or plaintiff therein alleges and shows to the court that the supervisors, in the rules or decision complained of, were guilty of gross carelessness or abuse of discretion, nor shall any action be maintained in such behalf unless the petitioner or plaintiff therein alleges and shows to the court that he has exhausted all rights of appeal provided in this section.

35-70-111. Certify assessments or tax. If an assessment or tax has been voted as provided in section 35-70-109 (2), the supervisors shall, in accordance with the schedule prescribed by 39-5-128, C.R.S., certify to the board of county commissioners of the county in which any tract or parcel of land within the district may lie the amount of assessment or tax to be levied against such land as shown by the distribution of the budget of the district. Such assessment or tax shall be added to all other taxes levied or assessed against such land and shall

be collected as are other property taxes. Assessments or taxes against any lands owned by the United States or the state of Colorado or any agency of either shall not be certified to the county commissioners as provided in this section, but such assessments or taxes shall be collected in accordance with agreements to be entered into by the supervisors and the public owner or agency controlling such lands.

35-70-115. Additions and withdrawals. (1) (a) If any owner of lands adjoining or in the immediate vicinity of the boundary of an established conservation district desires to have his or her lands included within the district, the owner may petition the supervisors of the district, stating the legal description of the lands affected and the reasons why it is desired to have such lands included within the district and shall accompany the petition with two maps showing the outer boundaries of the lands petitioned to be included within the district.

(b) If the supervisors find that all of the owners of the lands within such proposed addition have signed the petition and if they approve the addition of such lands to the district, they shall notify the owners of such lands, in writing, of the fact that their lands are included in the district and are entitled to the services and subject to the authority of the district. The supervisors shall cause to be filed with the county clerk and recorder of the county in which any of such land may be located a certificate describing the legal boundaries of the land and stating that such land has been added to and included within such district, and the owner of such land shall pay to the district the cost of recording such certificate.

(c) When, in the opinion of the supervisors, there is public land owned by the United States government that, by reason of its topography, drainage, and other factors, should be included in the conservation district, the supervisors may file with the clerk and recorder of the

county in which the land is situated a notice of inclusion of said land in the conservation district. A copy of said notice shall be served personally or by registered mail, return receipt requested, upon the head of the agency controlling said land, and, at the discretion of the board, information copies may be provided to local agency officials. Said notice shall describe the land to be included within the district and shall further state that said land shall, on the sixtieth day after personal service or delivery of said notice by registered mail, be deemed to be within the district until and unless the controlling agency files a statement with the county clerk and recorder withdrawing said land from the conservation district.

(d) All costs for including any such area within a conservation district shall be paid by the district, and no assessment of any sort shall be made against said land at any time on account of its inclusion within said district.

(2) In the event five or more owners of land adjoining or in the immediate vicinity of the boundary of an established conservation district desire to have their own and neighboring lands added to and included within such district, they shall first secure the written consent of the supervisors of such district and may then petition the state board substantially in the form and with the supporting data required by section 35-70-104, and thereafter the state board shall proceed as to the owners of land within the proposed addition substantially as provided in section 35-70-105 (5) and (7); except that the sole question to be voted upon at the meeting of the landowners shall be the question of whether or not the lands within the boundaries of the proposed addition to the district shall be so included.

(3) If a majority of the votes cast are against such inclusion, the state board shall record the fact in its minutes, and the election shall adjourn; but, if a majority of the votes cast are in favor of such inclusion, the state board shall note that fact in its minutes and shall certify to the director of the division of local government in the department of local affairs the fact that such additional lands have been included within such district, and the director of said division shall issue his certificate describing the legal boundaries of the lands and stating that such land has been added to and included within the district.

(4) Within thirty days after the date of such certificate, the supervisors of the district shall cause the same to be recorded in the books of the county clerk and recorder of the county in which the lands so added are located in whole or in part. From the date of such certificate, the lands thereby included within the district shall be entitled to the same services and subject to the same authority of the district as are other lands of the district.

(5) If the boundary line common to two adjoining conservation districts divides the land of any owner so that such land lies partially within each of such districts, the owner of such land, with the written consent of the supervisors of both such districts, may have all of such land included in whichever of the two districts the owner selects and excluded from the other. No land shall be excluded from a district until and unless all lawful taxes and other charges of the district against such land have been paid. The supervisors of the district to which such land shall be transferred shall cause to be recorded in the books of the county clerk and recorder of the county in which the land so transferred lies in whole or in part a certificate of such transfer, together with the legal description of the land so transferred, and shall collect from the owner of such land the cost of recording such certificate.

(6) In all proceedings as to petitions and elections under the provisions of this section, the qualifications of landowners participating therein shall be as described in section 35-70-104.

(7) In the event that any lands included within a district cease to be used for agricultural purposes and are thereafter devoted exclusively to commercial or industrial uses or other uses related to urban development, or are subdivided for residential purposes, or become a part of the area included within an incorporated municipality, such lands may be withdrawn from a conservation district as follows:

(a) to (d) Repealed.

(e) When, in the opinion of the supervisors, lands included in a district cease to be used for agricultural purposes, the supervisors, on their own initiative, may, upon sixty days' written notice to the owner of lands involved, cause such lands to be withdrawn from the district; or the supervisors may, in lieu of such written notice, give notice of such withdrawal by publication, by causing notice of such withdrawal to be published not less than sixty days nor more than ninety days before the date on which the withdrawal of such lands from the district becomes final.

(f) Said notice shall be published in one issue of a newspaper of general circulation published within the district from which such lands are to be withdrawn, and, if there is no such newspaper within said district, one publication in a newspaper of general circulation throughout the state shall be sufficient. Said notice shall also be posted in a conspicuous place in the conservation district office of the district from which such lands are to be withdrawn. The written notice or, if notice is given by publication, both the publication and the posted notice shall state the reasons for the withdrawal and the date on which the withdrawal becomes final and shall describe the lands to be withdrawn with such certainty as to enable a property owner to determine whether his or her property is included in such lands.

(g) and (h) Repealed.

(8) If the supervisors of one or more districts determine that the transfer of lands from one district to one or more other districts will increase the efficiency of the services provided by the districts to the owner of the land that is to be transferred, they shall proceed as follows:

(a) The supervisors of the district from which the land is to be transferred and the supervisors of the district into which the land is to be transferred shall forward their written request to the state board for approval of the transfer.

(b) If it is the opinion of the state board that the requested transfer is in the best interests of the districts involved, the state board shall make and record such determination and give written notices to the districts of its approval.

(9) (a) After a district has been formed and is in operation, the owner of land within the district may have the owner's land withdrawn from the district by submitting a written and notarized statement of withdrawal to the supervisors of the district. Upon receipt of such statement by the supervisors, the land requested to be withdrawn shall be deemed withdrawn, and no further action shall be necessary for completion of the withdrawal; except that such land shall remain obligated for its proportionate share of the district's expenses and debts incurred prior to receipt of said statement.

(b) Upon receipt of a statement of withdrawal pursuant to paragraph (a) of this subsection (9), the supervisors shall file a certificate with the county clerk and recorder of the county in which such land is located that describes the legal boundaries of the land being withdrawn and states such land has been withdrawn from the district. The owner of the withdrawn land shall reimburse to the district any fee charged for recording such certificate.

(10) No land within a conservation district shall be deemed withdrawn from the district until the procedures set forth in subsection (9) of this section have been met.

35-70-116. County agents. Any resident county extension agent whose jurisdiction lies wholly or in part in any established conservation district shall be ex officio a member of the board of supervisors of such district in an advisory capacity, but without the right to vote. Any county agent may serve in such capacity in more than one district.

35-70-117. Counties to cooperate. The county commissioners of any county in which a conservation district lies in whole or in part shall cooperate with the supervisors of such district in carrying out the purposes of this article, and to that end may use the equipment of the county and persons employed by the county to do such physical work as may be required by the supervisors, and may make a reasonable charge therefor; and, if the county commissioners find that the benefits accruing to the county by reason of the program of a conservation district justify such action, they may make donations to such district of money, services, or the use of equipment.

35-70-118. Dissolution - procedure - conservation fund. (1) No proceeding for the dissolution of a conservation district shall be initiated within five years after the date of the organization of the district. Anytime after the expiration of such five-year period, proceedings to determine whether or not a conservation district shall be dissolved may be instituted by a petition addressed to the state board, which shall be signed by not less than twenty-five percent of the owners of land within the district and approved by a majority of the supervisors of such district. Such petition shall state the reasons for the dissolution and the proposed disposition of all contracts, assets, and liabilities held or owed by the district and shall request that the state board proceed to hold a hearing and call an election to determine whether or not such district shall be dissolved.

(2) Within sixty days after receipt of such petition, the state board shall give notice by publication, as specified in section 35-70-105 (6), of the filing of such petition; of the date (not less than twenty days after the date of such notice), time, and place when a hearing shall be had to determine the sufficiency of the petition and the advisability of dissolving the district; that all complaints and objections that may be made in writing concerning the sufficiency of the petition and the advisability of the dissolution of the district by the owners of any land within such

district will be heard and determined before final action thereon; and that all owners of land within the district shall have the right to attend such hearing and be heard.

(3) (a) On hearing, if, in the opinion of the state board, the petition is insufficient or proper arrangements have not been made for the disposition of the contracts, assets, and liabilities of the district, the papers shall be returned to the petitioners for amendment. If, in the opinion of the state board, the dissolution of the district is not advisable, it shall so inform the petitioners, and the district shall not be dissolved; but subsequent petitions may be filed after six months have expired after the date of denial of such petition and new hearings and determinations made thereon.

(b) If, following the hearing, it is the opinion of the state board that the petition is sufficient and that the dissolution is advisable, the state board shall call an election in the manner provided for in section 35-70-105 (5) and (7), but the only question to be determined at such election shall be whether or not the district shall be dissolved.

(4) (a) If a majority of the votes cast are against dissolution of the district, the district shall continue to exist as though no petition had been filed and no election held. Thereafter, no petitions for dissolution shall be considered by the state board at intervals of less than three years.

(b) If a majority of the votes cast are for dissolution of the district, the state board shall, within sixty days after such election, certify to the division of local government in the department of local affairs a statement of such election and the result thereof. The director of said division thereupon shall execute and issue to the state board a certificate of dissolution, and thereafter the existence of the district shall cease. The state board shall forthwith cause the certificate of dissolution to be recorded in the books of the county clerk and recorder of the county in which such district was located in whole or in part.

(5) (a) Within thirty days after the division of local government has issued a certificate of dissolution, the supervisors shall proceed, as trustees, to sell the assets of the district at public or private sale, whichever may be approved by the state board. After paying any outstanding accounts of the district and the cost of such dissolution and sale, the remainder of the proceeds shall be paid over to the state board and shall be deposited with the state treasurer to the credit of such board in a fund to be known as the conservation fund. Such fund shall be expended by the state board as needed by the organizations of conservation districts and for carrying out the purposes of this article and not otherwise. If at any time after such fund is established there are no conservation districts in existence in the state, the state board shall so notify the controller, and any balance remaining in such fund shall be transferred to the general fund of the state.

(b) All contracts entered into by the district prior to dissolution shall remain in full force and effect until terminated by the terms thereof or by mutual agreement, but, in all such contracts, upon dissolution of such districts, the state board shall be substituted for the supervisors as the district's party to such contracts. The state board has the same right as the supervisors would have had to perform and require performance of such contract, sue and be sued thereon, and modify or terminate such contracts by mutual agreement or as provided in such contracts, but no member of the state board shall be subject to any personal liability therefor.

(c) Such dissolution shall not affect any lien or right of action theretofore held by the district, and the state board shall succeed to all the rights and obligations of the supervisors in such respect. Any funds coming into the hands of each county treasurer in payment of taxes or

assessments levied against the lands within the district after dissolution of the district or remaining in such treasurer's hands at the time of such dissolution shall be treated as are other assets of the districts, as provided in this section.

L. 2002: (1) and (5)(a) amended, p. 523, § 25, effective July 1.

35-70-119. Consolidation of districts. (1) Two or more established districts may be consolidated into a single district by the following procedure:

(a) The supervisors of the districts desiring to consolidate, acting upon their own initiative or upon the petitions of a substantial number of the qualified landowners in their districts, may jointly prepare and submit to the state board a request for authority to consolidate. Such request shall be accompanied by maps showing the geographical boundaries and locations of the districts to be consolidated and of the proposed consolidated district. If the state board finds that the proposed consolidation is in the best interests of the districts affected, it shall notify the supervisors of the districts that they have authority to proceed.

(b) Upon receiving such notification to proceed, the supervisors of the districts shall hold a public hearing concerning the proposed consolidation. Thereafter, if the supervisors decide to proceed with the consolidation, each board of supervisors shall request that the state board prepare a notice of election on the proposed consolidation, setting forth the circumstances of the proposed consolidation and the date, time, and place of a special election to be held in each of the districts at which the question of consolidation will be voted upon. The notice shall be published as specified in section 35-70-105 (6), in a newspaper of general circulation in each of the districts not more than thirty days nor less than ten days before the election and posted at several places in each of the districts. The election shall be conducted by the state board as provided in section 35-70-105 (7).

(c) If a majority of the votes cast in each of the districts are against such consolidation, the state board shall dismiss the proceedings, and the district shall proceed as though no such election had been held. If a majority of the votes cast in each of the districts are in favor of consolidation, the board of supervisors of each district shall certify jointly that fact to the state board, which shall in turn certify it to the division of local government in the department of local affairs. Upon such final certification, the districts so consolidated shall cease to exist as separate districts.

(d) (I) After an election approving a consolidated district, the supervisors of each board of a consolidated district shall constitute the organizational board of the consolidated district, regardless of the number of supervisors. This organizational board shall remain as the board of the consolidated district until such time as the first board of the consolidated district is selected as provided in this paragraph (d).

(II) The organizational board, within six months after the date of the consolidation election, shall select and determine the terms of the supervisors of the first board of the consolidated district. In making such determination, the organizational board shall fix the terms of the first board as follows: The terms of two directors of the first board having the fewest years to serve on the board to which they were originally elected shall expire at the first election after

the consolidation, and the terms of the remaining three directors having the greatest number of years to serve on the board to which they were originally elected shall expire at the second election. If the terms of the supervisors so selected to the first board of the consolidated district expire on the same date, the terms of such supervisors shall be determined by the organizational board. Such terms shall be determined, however, so that the terms of three supervisors of the consolidated district shall expire at the time that the terms of three supervisors of existing districts shall expire, and the terms of the remaining two supervisors of the consolidated district shall expire at the time that the terms of the remaining two supervisors of existing districts shall expire. Thereafter, each supervisor in office shall be elected for a four-year term.

(III) The members of the organizational board of the consolidated district not selected to act as the members of the first board of the consolidated district may act, however, as advisory members to the first board until such time as the terms of office for which they were originally elected would have expired. Advisory members may be compensated equally with compensation paid to the board of the consolidated district for each meeting attended. Advisory board members may not act as officers of nor bind the consolidated district and shall have no vote on any matters before the board of the consolidated district, but they may be employed by the board of the consolidated district in any capacity.

(e) A consolidated district has all of the rights, powers, and authority of each of the conservation districts consolidated. After consolidation the district may consolidate with any other conservation districts, and all actions and proceedings of the consolidated district shall be done without regard to the fact of consolidation.

(2) Any contract to which any district is a party remains the obligation of that district, and the assets or proceeds from the assets thereof shall be first available for the payment of any obligation thereunder, unless the other parties to the said contract agree and consent to the substitution of the new district as a party thereto. In either event, the consolidated district shall, in accordance with the terms of any agreement made between the consolidating districts, be an additional party to any such contract and liable thereon and with full right and authority to perform or require the performance of the said contract, including the right to enforce the said contract by any lawful action, as fully as though the consolidated district were an original party thereto. Upon consolidation of such districts, the consolidated district shall become and shall proceed in all things as a newly-organized district under the provisions of this article.

ARTICLE 72

Soil Erosion - Dust Blowing - 1954 Act

35-72-101. Legislative declaration. (1) Soil erosion and damage caused by wind storms and blowing soil produced thereby are recognized and declared to be injurious or destructive to the property and natural resources of this state and a menace to the safety of the citizens of the state.

(2) To deter actions which are harmful to property and natural resources and to further the ability of persons injured by negligent conduct associated with blowing soil to have legal recourse, it is determined to be in the interest of the people of this state to allow recovery of damages for such negligent conduct.

(2) "District" means a conservation district formed under the provisions of article 70 of this title.

(3) "Occupier" means any person, firm, any unit of state government or any agency of the state or federal government, or corporation, other than the owner, who is in lawful possession of any land within the county, whether as lessee, renter, tenant, or otherwise.

35-72-102. Duty of landowner - liability for damage. (1) To conserve property and the natural resources of the state and to prevent the injurious effects of blowing soil, it is the duty of the owner or occupier of any land in this state to prevent soil blowing therefrom, as nearly as can be done, by planting perennial grasses, shrubs, or trees or annual or biennial crops and by treatment consisting of listing, chiseling, and similar practices at such times and in such manner as will prevent or minimize erosion of the soil and soil blowing. If soil blowing is evident, such practices shall include, to the extent practicable, leaving stubble residue on top of the soil.

(2) Any owner or occupier who sustains damages to his property, including but not limited to crops, grasslands, fences, fencerows, irrigation canals, ditches, or livestock, proximately caused by the failure of any other owner or occupier of other land to discharge his duty to prevent soil blowing from land he owns or occupies may recover actual damages from the other owner or occupier by bringing an action in any court of competent jurisdiction.

(3) Any unit of state government or any agency of the state or federal government which sustains damages to any of its property, including but not limited to roads, barrow ditches, or fences, proximately caused by the failure of an owner or occupier to discharge his duty to prevent soil blowing from land he owns or occupies may recover actual damages from such owner or occupier by bringing an action in any court of competent jurisdiction.

(5) In any action brought under this section, any preventive practice followed by an owner or occupier pursuant to a citation issued by a board pursuant to the provisions of section 35-72-103 is not an admission of tort liability, in any such action, and no determination of the board shall give rise to a presumption of negligence or lack of negligence of an owner or occupier.

(6) The provisions of this section shall not apply to any land less than one acre in area.

35-72-103. Action by county commissioners - emergency conditions. (1) (a) When the board of a county of the state is advised in writing or otherwise informed that soil is blowing from land in the county; the board is supplied with a description of the land; and it appears that private property, including crops, grasslands, fences, fencerows, irrigation canals, ditches, or livestock on adjacent or other land, or roads, barrow ditches, fences or other public property is being damaged by the blowing soil, the board shall as soon as practicable:

(I) Give notice of the complaint to the owner or occupier of the land from which soil is blowing; and

(II) Inspect or order the inspection of the land.

(b) If the board finds, after consultation with the local district board of directors, the state conservation board, or an extension agent with expertise in soil conservation or soil science, and after consultation with local owners or occupiers, including the owner or occupier of the land from which soil is blowing, that soil is blowing from the land in sufficient quantity to be injurious to private property, including crops, grasslands, fences, fencerows, irrigation canals, ditches, or livestock on adjacent or other land, or to roads, barrow ditches, fences, or other public property because of soil being blown thereon, the board shall determine what, if anything, can be done to prevent or materially lessen the blowing of soil from the land. If the board determines, after the consultation, that the complaint lodged with it falls under article 3.5 of this title, the board shall not take further action. If the board finds, after the consultation, that an emergency exists, that the blowing is occurring, that property damage appears to be resulting from the blowing soil, and that it can be prevented or materially lessened by treatment of the soil, the board shall issue a citation to the owner as listed upon the records of the county assessor and to the occupier, if known to the board, specifying the nature of the treatment required and the extent thereof, the date by which the treatment is to be commenced, and the date it is to be completed.

(2) Notice of such citation shall be given by personal communication, if possible, and by mailing a copy thereof by registered mail addressed to each of the persons to whom the citation is directed at the address as shown on the records of the county assessor; otherwise, service of such citation shall be made as provided by the Colorado rules of civil procedure for the service of summons. Such citation shall also be posted in a public place in the county courthouse in the county in which said land is located. If such treatment is not commenced on or before three days or within such greater time as may be specified in such citation after the date of such personal communication, mailing, and posting or the service of notice as provided in this subsection (2), or if the treatment is not performed in the manner and to the extent specified in the citation and in a workmanlike manner and with due diligence, or if, prior to the expiration of the date fixed in said citation, the persons to whom said citation is directed advise the board that they do not intend to or cannot accomplish the work so directed, the board may cause such treatment to be performed in accordance with such citation.

(3) The provisions of this section shall not apply to any land less than one acre in area.

35-72-105. Method of assessment. (1) Upon the completion of the treatment caused to be performed by the board as provided in section 35-72-103, the board shall, by resolution, determine what land benefits and from which soil is blowing and assess against the owner of the benefited land the actual cost of the treatment not in excess of forty dollars per acre or the actual cost of treatment, whichever is less, in one calendar year. The board shall record the resolution in the minutes of the board, deliver the original to the county assessor, and send a copy by registered mail to the landowner at the address shown on the records of the county assessor and to the occupier, if known to the board.

(2) Upon delivery of said resolution to the assessor, he shall extend the same upon the assessment rolls, and said assessment shall thereupon become a part of the general taxes and constitute a lien against said land as set forth in said resolution and shall thereafter become due in the same manner and be collected in the same manner as the general ad valorem property tax. Such assessment may be paid at any time before general taxes become due and payable. All of the provisions of the general laws for the enforcement of the collection of taxes shall be applicable thereto after the extension by the assessor.

(3) All such amounts collected shall be transmitted to the county treasurer, who shall credit the same to the county general fund in order to reimburse those funds which were expended by the board of county commissioners in carrying out the treatment action as authorized by this article. The county treasurer shall not be entitled to collect any fees for the collection of such assessments.

35-72-106. Judicial review. DEVELOPMENT AUTHORITY

ARTICLE 75

Colorado Agricultural Development Authority Act

PART 1

GENERAL

35-75-101. Short title. This article shall be known and may be cited as the "Colorado Agricultural Development Authority Act".

Source: L. 81: Entire article added, p. 1731, § 1, effective June 19.

35-75-102. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) The high cost and lack of available agricultural loans for farmers and other agricultural enterprises, with the resultant decrease in crop, livestock, and business productivity and resultant inability on the part of farmers and other agricultural enterprises to acquire modern agricultural equipment and processes, makes it difficult for farmers and other agricultural enterprises to maintain their present employment levels or to increase employment and lessens the supply of agricultural commodities available to fulfill the needs of the citizens of this state;

(b) As a result of the continuing increase in the costs of maintaining operations, including costs of construction and rehabilitation, taxes, heating and electricity expenses, maintenance and repair expenses, and the cost of land, the state of Colorado suffers from structural economic weaknesses which contribute to a decline in capital investment, unemployment, and underemployment; and

(c) The insufficiency of gainful employment in rural areas puts additional pressure on the state's welfare, public health, and crime prevention programs.

(2) The general assembly further finds that:

(a) Farm credit and agricultural loan financing is not currently available at interest rates which are consistent with the needs of farmers and other agricultural enterprises;

(b) The problems set forth in this section cannot alone be remedied through the operation of private enterprise but can be alleviated through the creation of an agricultural development authority to encourage the investment of private capital in the agricultural sector through the use of public financing for the purpose of making loans available at interest rates lower than those available in the conventional farm credit markets. Creation of such an agricultural development authority to coordinate and cooperate with farmers and other agricultural enterprises is essential to alleviating these conditions.

(c) Alleviating the conditions and problems set forth in this section by the encouragement of private investment through an agricultural development authority is a public purpose, and public money provided by the sale of revenue bonds may be borrowed, expended, advanced, loaned, and granted for such use. Such activities shall not be conducted for profit and are proper governmental functions best accomplished by the creation of an agricultural development authority vested with the powers and duties specified in this article.

(d) This article is enacted to protect the health, safety, and welfare of the people of this state.

(3) The agricultural development authority created by this article shall make financing available for farmers and other agricultural enterprises to serve those people which private industry is unable to serve.

Pending preparation of the definitive bonds, the authority may issue interim receipts or certificates which shall be exchanged for such definitive bonds.

(5) (a) Any outstanding bonds of the authority may be refunded or advance refunded at any time and from time to time by the authority by the issuance of its bonds for such purpose in a principal amount determined by the authority, which may include interest accrued or to accrue with or without giving effect to investment income and other expenses necessary to be paid in connection with such issuance.

(b) (I) Any such refunding may be effected whether the bonds to be refunded have then matured or will mature thereafter, either by sale of the refunding bonds and the application of the proceeds of such sale for the payment of the bonds to be refunded or by the exchange of the refunding bonds for the bonds to be refunded with the consent of the holders of the bonds to be so refunded, regardless of whether or not the bonds proposed to be refunded are payable on the same date or different dates or are due serially or otherwise.

(II) The proceeds of any such bonds issued for the purpose of refunding outstanding bonds may be applied, in the discretion of the authority, to the purchase or retirement at maturity or redemption of such outstanding bonds either on their earliest or any subsequent redemption dates or upon the purchase or at the maturity thereof and, pending such application, may be placed in escrow to be applied to such purchase or retirement at maturity or redemption on such dates as may be determined by the authority. Any such escrowed proceeds, pending such use, may be invested or deposited in securities or depositories meeting the requirements established in part 6 of article 75 of title 24, C.R.S., maturing at such time or times as are appropriate to assure the prompt payment as to principal, interest, and redemption premium, if any, of the outstanding bonds to be so refunded. The interest, income, and profit, if any, earned or realized on any such investment may also be applied, in the discretion of the authority, to the payment of the outstanding bonds or notes to be so refunded or to the payment of principal and interest on the refunding bonds or for any other purpose under this article. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, income, and

profits, if any, earned or realized on the investments may be returned to the authority for use by it in any lawful manner.

(c) All such refunding bonds shall be subject to the provisions of this article in the same manner and to the same extent as other bonds issued pursuant to this article.

(6) The proceeds of any bonds, notes, bond anticipation notes, or other obligations may be used and applied to the payment of financing costs, including legal, underwriting and investment banking, accounting, and other similar costs; the funding of any reserve funds deemed necessary or advisable by the authority; interest on such bonds, notes, bond anticipation notes, or other obligations for a period not to exceed three years; and all other necessary and incidental costs and expenses.

(1) To facilitate the transmission of electricity generated by a renewable energy cooperative established pursuant to section 7-56-210, C.R.S., the authority may issue revenue bonds in amounts sufficient to pay the following described costs of construction, upgrading, and acquisition, including any required interest on the bonds during construction, upgrading, and acquisition, plus all amounts required for the costs of bond issuance and any required reserves on the bonds:

(a) Construction of renewable energy generation facilities;

(b) Construction or upgrading of electric transmission lines and appurtenances to be used for the transfer of electricity at one hundred fifteen kilovolts or greater;

(d) Construction or upgrading of electric distribution lines and appurtenances to be used to connect renewable resources or technologies to electric transmission lines and appurtenances.

(2) Revenue bonds, and interest thereon, issued pursuant to this section shall be payable from revenues derived from use of the renewable energy generation facilities or electric transmission lines constructed, upgraded, or acquired through the use of bond proceeds.

(3) Revenue bonds, including refunding revenue bonds, issued hereunder shall not constitute an indebtedness of the state, nor shall they constitute indebtedness within the meaning of any constitutional or statutory provision limiting the incurring of indebtedness.

(4) The proceeds of bonds, revenues, and receipts derived from the construction, upgrading, or acquisition activities described in this section that are financed in whole or in part by the bonds, and interest and income earned on the deposit and investment of such proceeds, revenues, and receipts, shall not be included in state fiscal year spending for purposes of section 20 of article X of the state constitution and article 77 of title 24, C.R.S.

(5) Nothing in this section shall be construed as authorizing the contracting by the state of a debt or loan in any form, nor the pledging of the general taxes of the state. Revenue bonds issued pursuant to this section shall not be construed to be moral obligation bonds. The owners or holders of such bonds shall not look to any other revenues of the state for the payment of the bonds; shall not look to any legal, equitable, or moral obligation on the part of the state to pay

any portion of the bonds; and shall not look to the state general fund or any other fund of the state for the payment of principal or interest of such obligation.

(6) Revenue bonds, including refunding revenue bonds, issued hereunder and the income derived therefrom shall be exempt from all state, county, and municipal taxation in the state, except Colorado estate taxes.

35-75-113. Security for bonds and notes. (1) (a) The principal and interest on any bonds or notes issued by the authority may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank located within or without this state having trust powers. Such trust indenture or the resolution providing for the issuance of such obligations may pledge or assign all or any part of the revenues or assets of the authority, including, without limitation, temporary loans, contracts, agreements, and other security or investment obligations, the fees or charges made or received by the authority, and any other moneys received or due to be received by the authority.

(b) Such trust indenture or resolution may contain such provisions for protecting and enforcing the rights and remedies of the holders of any of the bonds or notes as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the purposes to which proceeds of the bonds or notes may be applied, the disposition or pledging of the revenues or assets of the authority, the terms and conditions for the issuance of additional bonds or notes, and the custody, safeguarding, and application of all moneys. Any such trust indenture or resolution may set forth the rights and remedies of the holders of any bonds or notes and of the trustee and may restrict the individual right of action by any such holders.

(c) In addition any such trust indenture or resolution may contain such other provision as the authority may deem reasonable and proper for the security of the holders of any bonds or notes. All expenses incurred in carrying out the provisions of such indenture or resolution may be paid from the revenues or assets pledged or assigned to the payment of the principal of and the interest on bonds or notes or from any other funds available to the authority.

(2) (a) Any pledge made by the authority shall be valid and binding from the time when the pledge is made. The revenues and moneys so pledged and thereafter received by the authority shall immediately be subject to lien of such pledge without any physical delivery or further act, and the lien of such pledge shall be valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority, irrespective of whether such parties have notice of such lien. Neither the resolution nor any other instrument by which a pledge is created need be recorded. Each pledge, agreement, and indenture made for the benefit or security of any of the bonds of the authority shall continue to be effective until the principal of and interest on the bonds for the benefit of which the same are made has been fully paid or provision for such payment duly made.

(b) In the event of default in any such payment or in any agreements of the authority made as part of the contract under which the bonds were issued, whether contained in the resolutions authorizing the bonds or in any trust indenture executed as security for such bonds, said payment or agreement may be enforced by suit, mandamus, or either of such remedies.

The issuance of bonds or notes under the provisions of this article shall not obligate the state or empower the authority, directly, indirectly, or contingently, to levy or collect any form of taxes or assessments, to create any indebtedness payable out of taxes or assessments, or to make any appropriation for their payment, and such appropriation, levy, or collection is prohibited.

(2) Nothing in this section shall prevent or be construed to prevent the authority from pledging its full faith and credit to the payment of bonds or notes authorized pursuant to this article, but nothing in this article shall be construed to authorize the authority to create a debt of the state within the meaning of the constitution or statutes of Colorado; and all bonds issued by the authority pursuant to the provisions of this article are payable and shall state that they are payable solely from the funds pledged for their payment in accordance with the resolution authorizing their issuance or with any trust indenture executed as security for such bonds and are not a debt or liability of the state of Colorado.

(3) The state shall not be liable in any event for the payment of the principal or interest on any bonds of the authority or for the performance of any pledge, obligation, or agreement of any kind whatsoever which may be undertaken by the authority. No breach of any such pledge, obligation, or agreement shall impose any pecuniary liability upon the state or any charge upon its general credit or against its taxing power.
