

Be it Enacted by the People of the State of Colorado:

SECTION 1. In Colorado Revised Statutes, add part 9 to article 6 of title 18 as follows:

Part 9

Equal Protection of Every Living Child in Colorado

18-6-901. Declaration of the People.

The People of the State of Colorado find and declare that:

- 1) The will of the People of the State of Colorado shall uphold the United States Constitution including the Preamble of the United States Constitution and the Fourteenth Amendment of the United States Constitution securing the blessings of life and liberty to our Posterity.
- 2) The state of Colorado exercises its Constitutional and God-given responsibility to provide a just law of equal protection to all individuals within its jurisdiction.
- 3) It is not necessary to intentionally cause the death of a child. Though not always successful, medical personnel can and should make every attempt to save all lives. Children should not be dismembered, scalded, poisoned, or caused fatal harm through inhumane treatment.
- 4) A child's bodily autonomy does not diminish the bodily autonomy or protection of others. No one benefits from intentionally harming or taking the life of a child. Children should be protected, nourished, comforted, and welcomed into the world.
- 5) No human being is property of another human to dispose of at-will. No human should be denied equal protection as persons simply because they cannot defend themselves.
- 6) Every living child deserves protection to live his or her one life to the fullest extent possible, without discrimination, regardless of age, developmental ability or disability, health, prognoses, sex/gender, socio-economic background, origin, nationality, or ethnicity.
- 7) Resources and non-violent alternatives are available to all children and their parents to address individual needs without resorting to violence.

18-6-902. "Living Child", "Child", or "Children" – Definition as used in this part 9: "Living Child," "Child", or "Children" refer/s to any living human being during any developmental stage at any time prior to, during, or after birth from the moment human life biologically begins when unique human DNA is weaved together into a new living and growing human being until the child reaches the minimum age of adulthood. "Living child" does not refer to a child no longer living through natural miscarriage.
