#### LCS TITLE: CONSUMER ENERGY CHOICE

#### Fiscal Summary of Initiative 225

This fiscal summary, prepared by the nonpartisan Director of Research of the Legislative Council, contains a preliminary assessment of the measure's fiscal impact. A full fiscal impact statement for this initiative is or will be available at [leg.colorado.gov/bluebook](https://leg.colorado.gov/bluebook). This fiscal summary identifies the following impact.

**State expenditures.** Initiative 225 gives consumers the right to energy choice among energy sources in common use for energy service connections, vehicles, equipment, and home appliances. The measure increases expenditures and workload for state agencies to revise technical assistance to local governments concerning housing and building codes. The measure may also increase workload and legal services for state agencies implementing the state's greenhouse gas emissions reduction plan.

**Local government impact.** The measure may increase costs in local governments that currently have or are considering building codes that prohibit certain energy hookups in commercial and residential development to conform the codes with state law, and to modify permitting, inspection, and compliance activities.

**Economic impacts.** In jurisdictions where certain energy sources have been or would be restricted, this measure may decrease consumption of alternative sources of energy and related goods. If the continued use of an energy source is less expensive than alternatives, consumers may have increased spending or saving elsewhere in the economy.
