# A Message from the State Auditor

---

This annual report presents information about the Office of the State Auditor's (OSA) activities and accomplishments, in accordance with Sections 2-3-103(2) and 110.5(5), C.R.S. Our work provides the General Assembly and the public with objective, fact-based, and nonpartisan information about state government operations and the use of taxpayer resources. Our primary goal is to facilitate government efficiency, effectiveness, and accountability. During Fiscal Year 2024, we issued a range of audits, evaluations, and other work products, which included:

- 30 financial statement audits and attestation engagements, including the Fiscal Year 2023 Statewide Single Audit. This annual financial and compliance audit covered \$62.7 billion in total state assets, \$48.7 billion in total expenditures, and \$19.5 billion in federal funds.
- 8 performance audits and evaluations that covered a range of topics, including the Department of Revenue's enforcement of marijuana laws and regulations, the Colorado Lottery's operations, and the Department of Health Care Policy and Financing's correspondence to Medicaid applicants and beneficiaries.
- An IT performance audit of the Colorado State University System's cybersecurity readiness.
- 15 tax expenditure evaluation reports related to excise taxes, severance taxes, insurance premium taxes, income taxes, and sales and use taxes.
- A report on the fiscal health of each of the State's 178 school districts.

We also reviewed 5,300 local government audit and exemption filings to ensure that local governments' financial reporting complies with statutory requirements.

We continue to be recognized nationally for our high-quality work, having received a 2024 Certificate of Impact Award from the National Conference of State Legislatures' National Legislative Program Evaluation Society for our August 2021 performance audit of *Medicaid Non-Emergent Medical Transportation*.

Our accomplishments could not have been done without our hard-working staff and members of the Legislative Audit Committee. We have continued to uphold our standards of independence and excellence in producing high-quality work, as well as maintaining a mindset of continuous improvement for our processes, work products, and services. I am proud of what the OSA has accomplished this past year in service to the Legislative Branch, the State, and the people of Colorado.

# About the OSA

---

Overseen by the State Auditor, the OSA is an independent, nonpartisan staff agency within Colorado's Legislative Branch. Our mission is to improve government for the people of Colorado.

We promote accountability in government and help the General Assembly fulfill its legislative oversight responsibilities by providing independent, objective, thorough, and credible information about whether (1) government officials and agencies are using their authority and public resources properly and in compliance with laws and regulations; (2) government programs are achieving their objectives and desired outcomes; and (3) government services are being provided effectively, efficiently, economically, ethically, and equitably.

Sections 2-3-103 and 107, C.R.S., grant the OSA broad authority and access to records to conduct performance, financial, and IT audits of all state departments and agencies, public colleges and universities, most special purpose authorities, any state entity designated as an enterprise under the Taxpayer's Bill of Rights (TABOR), and other political subdivisions and non-State entities as required by law.

Additionally, the OSA carries out the following major statutory responsibilities:

- Conducts evaluations of the State's tax expenditures [Section 39-21-305, C.R.S.]
- Monitors local governments for compliance with the Colorado Local Government Audit Law [Section 29-1-601, et seq., C.R.S.]
- Administers a statewide fraud reporting hotline [Section 2-3-110.5, C.R.S.]

# Financial Benefits

Our audits and evaluations frequently identify financial benefits, which collectively represent the dollar value the OSA provides to the people of Colorado by ensuring the responsible stewardship of public funds. Financial benefits include our identification of potential cost savings across state agencies, questionable payments, ways to improve the effective management of funds, improvements to the collection of fees and debts, policy changes that could increase revenue, opportunities to leverage state resources with federal matching funds, and increases in the value of the State’s assets.

In Fiscal Year 2024, we identified financial benefits totaling \$42.7 million. Furthermore, for the 5-year period from Fiscal Year 2020 through Fiscal Year 2024, we identified financial benefits totaling approximately \$1,734.2 million, or an average of \$346.8 million per year.

## Financial Benefits Identified by the OSA Fiscal Years 2020–2024 (Dollars in Millions)

2020	2021	2022	2023	2024	Total	5-Year Average
\$622.2	\$147.9	\$96.4	\$825.0	\$42.7	\$1,734.2	\$346.8

Our goal is to achieve at least a 5:1 ratio of benefits that we provide to the State of Colorado compared to our costs to operate over a 5-year period. We have achieved a 39:1 ratio of benefits to costs, which means that the return on investment to the taxpayer is approximately \$39 in financial benefits for every \$1 spent on the OSA’s operations.

## OSA's Benefit-to-Cost Ratio Fiscal Years 2020–2024

Average Annual Financial Benefits Identified in Reports	\$346.8 million
Average Annual Net Operating Costs*	\$8.8 million
Ratio of Benefits to Costs	39:1

\*Annual net operating costs calculated based on General Fund appropriations minus General Fund reversions.

# OSA Recommendations

The recommendations that we make to state agencies through our financial, performance, and IT audits and evaluations promote positive change in government, and are an important part of ensuring that agencies correct the issues that we identify. In Fiscal Year 2024, we made 293 recommendations to state agencies and other auditees to help improve their operations, financial reporting and accounting, compliance with laws and relevant requirements, service provision, IT systems, and a range of other areas. More information on our findings and recommendations can be found in our audit and evaluation reports on our website.

Each fall, we issue our *Annual Report: Status of Audit Recommendations Not Fully Implemented*, which summarizes the statuses of the recommendations that we made during the prior 5-year period. This report helps us fulfill our statutory reporting responsibilities to the General Assembly under the State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act, and provides information for legislative oversight committees to hold agencies accountable for their use of public resources.

Overall, agencies agreed or partially agreed to implement 98 percent of our recommendations, and agencies generally made those changes. However, some recommendations remain unimplemented. As of June 30, 2023:

- 85 of the 1,331 audit recommendations (6 percent) that the OSA made from July 2017 through June 2022, and that agencies agreed or partially agreed to implement, remained unimplemented.
- 35 of the 85 unimplemented recommendations (41 percent) are considered high priority due to their seriousness or because they have remained unimplemented for 3 years or more.

# Allocation of Staff Resources

---

During Fiscal Year 2024, the OSA issued 60 financial, performance, and IT audit and evaluation reports; tax expenditure evaluations; and other work products based on the following authority:

- 56 (93 percent) were completed in response to statutory or other legal requirements,
- 3 (5 percent) were completed at the State Auditor’s discretion based on risk, coverage, and other considerations, and
- 1 (2 percent) was completed in response to a legislative request.

The following chart breaks down where the OSA’s project hours were spent in Fiscal Year 2024:

<sup>1</sup> “Other” includes hours for nonaudit work products (e.g., *School District Fiscal Health Report*, *Annual Report: Status of Audit Recommendations Not Fully Implemented*.) and other activities such as audit topic planning and research, legislation, internal quality control monitoring, and external peer review activities.

<sup>2</sup> The majority of the IT audit team’s work is completed as part of the annual statewide financial and compliance audit.

# IT Audits

---

Our IT audit team evaluates processes related to information security and other IT controls over critical and essential state information systems and applications. The majority of the IT audit team's work is completed as part of our annual statewide financial and compliance audit, the *Statewide Single Audit*, by testing controls for information systems that are significant to the State's financial activities and federal compliance requirements.

The IT team also conducts or oversees standalone IT performance audits and evaluations. During Fiscal Year 2024, we issued the following standalone IT performance audit:

Report	Report Release Date	Report No.
Evaluation of Cybersecurity Maturity Model Certification (CMMC) Readiness at the Colorado State University System (Public Report) <sup>1</sup>	June 2024	2350P-IT

<sup>1</sup> A separate confidential report was also prepared and presented to the Legislative Audit Committee; however, in accordance with Section 2-3-103(2), C.R.S., it was not publicly released due to the IT security-sensitive nature of its contents.

# Tax Expenditure Evaluations

Section 39-21-305, C.R.S., requires the State Auditor to evaluate the State’s tax expenditures. Statute defines a tax expenditure as “a tax provision that provides a gross or taxable income definition, deduction, exemption, credit, or rate for certain persons, types of income, transactions, or property that results in reduced tax revenue.” [Section 39-21-302(2), C.R.S.] Tax expenditures reduce the amount of revenue the State collects from sales and use, income, insurance premium, excise, and severance taxes.

During Fiscal Year 2024, we issued the following tax expenditure evaluation reports:

Agricultural Sales Tax Exemptions	August 2023	2023TE-13

# Other Work Products

In addition to our audits and evaluations, we issue other work products that provide important information and analysis for the General Assembly, state and local government agencies, and the public.

During Fiscal Year 2024, we issued the following other work products:

# Local Government Audit Division

---

The OSA's Local Government Audit Division (Division) tracks Colorado's local governments for compliance with the Colorado Local Government Audit Law [Section 29-1-601, et seq., C.R.S.], which requires every local government in the state to undergo an annual financial audit conducted by an independent certified public accountant and submit it to the State Auditor for review. Local governments with either revenues or expenditures that are not more than \$750,000 for the fiscal year may apply to the State Auditor for an exemption from audit.

The Division examines annual financial audits submitted by local governments to determine compliance with governmental accounting standards and other statutory requirements. The Division also reviews and approves Exemption from Audit applications when criteria are met, and provides technical assistance to local governments and their independent auditors. In Fiscal Year 2024, we completed reviews of nearly 5,300 local government audit and exemption filings.

One of the Division's award-winning work products is the annual Fiscal Health Analysis of Colorado School Districts. This report provides a set of financial indicators for each school district that can warn district officials and the Colorado Department of Education about financial stress that may require further examination and remedial action.

The OSA provides a similar fiscal health analysis tool on its website for use by Colorado counties and municipalities. We use this fiscal analysis tool internally when reviewing the independent financial audit reports that Colorado counties and municipalities submit to the OSA.

# Fraud Hotline

---

The purpose of the OSA’s Fraud Hotline is to receive reports about occupational fraud, which is a situation in which a state employee or contracted individual may be using their position or access as an employee or contractor to commit fraud against the State or others.

Statute requires the OSA to determine whether allegations reported to the Hotline constitute possible occupational fraud against the State. When applicable, we refer occupational fraud allegations to the affected state agencies for further investigation [see Section 2-3-110.5, C.R.S.]. Under certain circumstances, the State Auditor has statutory authority to investigate allegations reported to the Hotline.

## Allegations Received through the Hotline

During Fiscal Year 2024, the OSA’s Fraud Hotline received a total of 214 reported allegations, which was a 104 percent increase over the prior year. We handled the 214 reported allegations as follows:

We did not refer most reported allegations to an affected state agency because the allegations did not fall within the Hotline's jurisdiction (i.e., they did not constitute an allegation of occupational fraud committed by a state employee or contractor).

## **Agency Referrals**

Of the seven occupational fraud allegations that the OSA referred to state agencies during Fiscal Year 2024:

- Two allegations were not substantiated.
- One allegation was substantiated and the affected state agency reported that it had referred the case to law enforcement and dismissed the employee.
- One allegation was partially substantiated and the affected state agency reported that it had taken disciplinary action against the employee.
- The remaining three allegations were still undergoing investigation as of June 30, 2024.

Additionally, one of the occupational fraud allegations that the OSA referred to a state agency during the previous fiscal year was completed in Fiscal Year 2024. For that allegation, the affected state agency substantiated the misappropriation of state assets allegation and reported that the employee was given a corrective action.

# Legislation

---

Issues raised in our audits and evaluations often prompt members of the General Assembly to seek statutory change. Legislation can originate as a bill sponsored by the Legislative Audit Committee or another committee, or as a bill sponsored by individual legislators.

During the 2024 Legislative Session, 5 bills were enacted into law based on issues raised in the OSA's audits and evaluations, and another 19 enacted bills significantly impacted the OSA's audit authority and statutory responsibilities.
