B. BACKGROUND INFORMATION

The Office of the State Auditor (OSA) is soliciting proposals to conduct an audit of Western State University.

Founded in 1911 as Colorado State Normal School, Western State Colorado University (the University) is Colorado's oldest university west of the Continental Divide. Originally planned as preparatory college for teachers, the University remained a Normal School until 1923 when it was renamed Western State College. The University is an undergraduate college of liberal arts and sciences. Section 23-56-101, C.R.S., provides that the University be a general baccalaureate institution with selective admission standards. The University shall offer undergraduate liberal arts and sciences and professional degree programs, basic skills courses receiving resident credit pursuant to section 23-1-113.3, and a limited number of graduate programs. The University shall also serve as a regional education provider.

The University has a separate Board of Trustees comprised of 11 members including 9 members appointed by the Governor of Colorado with consent of the Senate, one faculty member, and one student member. For the fiscal year ended June 30, 2016, the University had 1,823 student FTE and 310.3 faculty and staff FTE.

C. SERVICES REQUIRED

The purpose of this RFP is to solicit proposals to perform a financial and compliance audit of the University for the fiscal year ending June 30, 2017. The financial and compliance audit is to be performed in accordance with accounting and auditing standards described in subsection P below.

Audit work to be performed for the fiscal year ending June 30, 2017 consists of the following:

1. Audit of the basic financial statements of the University for the year ended June 30, 2017, including a review of the related internal control structure as required by generally accepted auditing standards and *Government Auditing Standards*.
2. Audit of the University's federal grants and student financial assistance programs (Student Financial Aid Cluster) under the Single Audit Act as amended.
3. Financial and compliance audit of the University's Statement of Appropriations, Expenditures, Transfers and Reversions of the University's State-Funded Student Financial Assistance Programs, including a review of the related internal control structure as required by generally accepted auditing standards and *Government Auditing Standards*. The audit is to be performed once every two years and only needs to cover the current year being audited and not the year that was skipped. This audit work will need to be performed for Fiscal Year 2017.
4. Review of the University's compliance with state and federal laws and regulations and State Fiscal Rules that could have a material effect on the University's financial statements.
5. Perform audit work to evaluate the University's progress in implementing prior audit recommendations.
6. Review of exhibits required by the State Controller to be submitted to the State Controller in support of the statewide financial statements. Also, review of all of the System's adjusting entries, posted or not, after Colorado Operations Resource Engine's (CORE's) period 14 closing (the final year-end closing).
7. Submission of attestation memos to the Office of the State Auditor on the results of audit work performed. These memos will be used to support the audit of the statewide financial statements and statewide Single Audit. Attestation memo templates required for the Fiscal Year 2016 audit are included in Section IV, Supplemental Information, for reference purposes. The attestation memos for Fiscal Year 2017 will be provided at a later date.

8. Preparation of report comments and/or a management letter, as appropriate based on assessed severity level, containing audit findings and recommendations for improvements in the operations, internal controls, and accounting procedures of the University, along with any opportunities for cost savings determined through the audit. This will include obtaining and reviewing responses to the recommendations from the University's management and ensuring they meet the State's established parameters for responses. In accordance with Government Auditing Standards, for any "Partially Agree" or "Disagree" response, the contractor shall prepare an Auditor's Addendum as a rebuttal to the Audited Agency's response. All report comments, management letters, responses, and Auditor's Addenda must be reviewed and approved by the OSA.
9. Performance of appropriate NCAA agreed-upon procedures for the University's (Division II) Intercollegiate Athletics Program, in accordance with the NCAA by-laws and audit guide. These procedures are to be performed every three years. The NCAA agreed-upon procedures were performed during the Fiscal Year 2016 audit and will be performed as part of the Fiscal Year 2019 audit.
10. Such audit work will result in the issuance of the following:
 - a. Independent auditors' report on the financial statements of the University as of and for the year ended June 30, 2017.
 - b. Independent auditors' report on internal control over financial reporting and on compliance and other matters based on an audit of the basic financial statements of the College performed in accordance with *Government Auditing Standards* for the year ended June 30, 2017.
 - c. Independent auditors' report on the Statement of Appropriations, Expenditures, Transfers and Reversions of the University's State-Funded Student Financial Assistance Programs.
 - d. Independent auditors' report on internal control over financial reporting and on compliance and other matters based on an audit of the Statement of Appropriations, Expenditures, Transfers and Reversions of the University's State-Funded Student Financial Assistance Programs performed in accordance with Government Auditing Standards.
 - e. Independent auditors' report on the application of agreed-upon procedures to the University's (Division II) Intercollegiate Athletic Program Statement of Appropriations, Expenditures, Transfers and Reversions. This audit was performed for the Fiscal Year 2016 audit and will be performed as part of the Fiscal Year 2019 audit.

D. ORAL PRESENTATION

The contractor may be required to testify for about one hour before the Legislative Audit Committee and one other legislative committee. This testimony will be an oral summary of the written report with questions by Committee members and verbal responses from the contractor and from the University. In addition, the contractor is expected to provide oral presentations to the University and the University's Board of Trustees at the commencement and conclusion of the audit. Various other meetings with State Auditor and University personnel will be required to communicate requirements, expectations, issues, and results, to ensure a smooth and timely completion.

Contractor shall allow a reasonable amount of time for Audited Agency to provide the requested information and responses.

In the event of a breach, notice specifying the nature of such breach shall be given in writing by the aggrieved Party to the other Party in the manner provided in §17 (Notices and Representatives). Withhold payment to Contractor until corrections in Contractor's performance are satisfactorily made and completed.

D. Deny Payment

Deny payment for obligations not performed, that due to Contractor's actions or inactions, cannot be performed or, if performed, would be of no value to the State; provided, that any denial of payment shall be reasonably related to the value to the State of the obligations not performed.

27. EXHIBIT E - INFORMATION SECURITY POLICY FOR CONTRACTORS

Applicability

This policy applies to all OSA Contractors at all locations who are conducting audits or professional services on behalf of the OSA using State of Colorado information, electronic or otherwise.

Definitions

Confidential information assets – are defined in paragraph 5. below.

OSA Contractor(s) or Contractor(s) – any business, company, corporation, partnership, or individual conducting business on behalf of or in cooperation with the OSA, whether via contract, purchase order, or other purchasing agreement. OSA Contractors include sub-contractors and their employees.

Protected information assets - are defined in paragraph 4. below.

State of Colorado information, information or audit information – any information, whether in electronic or hard copy form, obtained, utilized, or generated by an OSA Contractor while performing work on behalf of the OSA.

State Auditor Authority and Responsibility

The State Auditor's authority and responsibility for accessing and handling confidential information is set forth in the Colorado Revised Statutes. Section 2-3-107 (2) (a), C.R.S., provides that the State Auditor or his or her designated representative "shall have access at all times . . . to all of the books, accounts, reports, vouchers, or other records or information in any department, institution, or agency, including records or information required to be kept confidential or exempt from public disclosure upon subpoena, search warrant, discovery proceedings, or otherwise." Additionally, Section 2-3-103 (3), C.R.S., provides that "work papers of the office of the State Auditor shall be open to public inspection only upon approval of the majority of the members of the audit committee" and that "work papers that have not been specifically approved for disclosure by a majority vote of the committee shall remain confidential." Finally, Sections 2-3-103.7 and 2-3-107 (2) (b), C.R.S., prescribe penalties for willful or unlawful release of confidential information and prohibit the release of information required to be kept confidential pursuant to any law. The volume and availability of confidential information in electronic and hardcopy format, along with the risk to the OSA should confidential information be inadvertently released or breached, heightens the need for rigorous procedures governing the receipt, storage, and destruction of confidential data.

Policy Compliance

1. All OSA Contractors and their personnel who are performing the Services or the Work are required to understand and abide by this policy.
2. By signing an OSA contract or purchase order, OSA Contractors agree to abide by this policy and require its personnel performing the Services or the Work under such OSA contract, including sub-contractors and their employees, understand and abide by this policy.

Data Classification

3. All State of Colorado information assets whether in hardcopy or electronic form (e.g., data, databases, reports, communications, manuals, documentation for systems, procedures, and plans) and used in the course of an audit on behalf of the OSA is considered either “Protected” or “Confidential,” unless expressly stated otherwise in writing by the State Auditor.
4. Protected information assets are defined as information that is required by federal, state, or local laws and statutes to be protected, or in the event of a breach of confidentiality, loss of integrity, or lack of availability, would have serious impact to the OSA or the State up to and including physical harm to individuals, or that which would cause significant hardship to the OSA, the State, or commercial entities that have entrusted this data to the OSA.
5. All OSA Contractor audit information assets not categorized as “Protected” are automatically classified as “Confidential.”

Use and Protection of Information Assets

6. Contractors are responsible for taking reasonable and prudent measures in the protection of all OSA audit information and the systems which process, store, and transmit such information from unauthorized disclosure and modification regardless of location.
7. All State of Colorado information systems (e.g., networks, intranets, internet connections, telephones, fax, etc.) are the property of the State of Colorado and are for State of Colorado business use only. Contractors must never use them to knowingly access, store, or distribute offensive material, such as pornography. Contractors may not use State of Colorado systems to knowingly compromise other systems, networks or safeguards.
8. Any unauthorized attempt to access information that is outside Contractor’s “need-to-know” for his/her operational purposes is prohibited.
9. Contractors must encrypt all “Protected” and “Confidential” information when stored on portable computers or removable media (e.g., laptops, external hard drives, CDs, USB drives.)
10. Contractors must, at all times, physically secure portable computers used in storing and processing audit information on behalf of the OSA through the use of cable locks or other security measures.
11. Contractors shall not leave any portable computers, removable media (e.g., laptops, external hard drives, CDs, USB drives), or hard copy information containing “Protected” and “Confidential” information unattended, such as in vehicles or in checked airport luggage.

Viruses and Malicious Code

12. Contractors must effectively deploy personal firewall security and up-to-date malicious code/virus protection software for all systems and devices used in carrying out official OSA business.

Telecommunications Security and Information Transmission

13. Contractors are responsible for being aware of and protecting against current and potential telecommunications (e.g., telephones, voice mail, mobile phones, conference calls, instant messaging, and facsimile machines) security risks in their given environment.
14. Contractors are prohibited from connecting to any state networks in connection with the Services hereunder without prior authorization from the OSA and the information security officer of the Audited Agency. In the case of executive branch agencies, Contractors should submit a request with their agency liason to obtain permission through the Governor's Office of Information Technology access management team.
15. Contractors shall make every effort to ensure that all State of Colorado information is protected from inadvertent disclosure when being sent over the Internet or other non-State of Colorado networks.
16. Contractors shall not connect portable computers containing "Protected" or "Confidential" data to any public WiFi networks (e.g., internet cafes) without adequately protecting such information through the use of hard drive encryption and the use of an encrypted VPN tunnel.
17. Contractors must always consider information sensitivity and transmission security issues when selecting a transmission medium. "Protected" and "Confidential" data must only be transported or transmitted over a public network when protected by encryption.
18. When data is stored on electronic media or a mobile computing device, the data must be encrypted at all times during physical transport.
19. Transmission of Protected or Confidential data over a public network by unencrypted email is prohibited.

Information Storage and Disposal

20. Media or hard copy documents containing Protected or Confidential information are to be appropriately labeled and protected in accordance with this **Exhibit E**.
21. Contractors must maintain physical media security by using locking filing cabinets or drawers and locking them when left unattended. Media security may also be achieved through locking the door of a private office.
22. Personal computers, laptops, USB drives, mobile phones, personal digital assistants (PDAs), and other devices and media containing State of Colorado information must be secured by their users from loss, theft, and unauthorized use.
23. Contractors shall not leave unattended any device containing State of Colorado information unless a password-engaged screensaver is used. The screen saver must engage after 2 minutes of inactivity.
24. Contractors must ensure that once portable storage devices (e.g., external hard drives, CDs, USB drives) are no longer under their direct control, all Protected or Confidential data will be cleaned and sanitized (i.e., cleared, purged and destroyed) in conformance NIST Special Publication 800-88 and/or other standard procedures and requirements set by the U.S. Department of Defense, such as DoD 5220.22-M.

25. Hard copy documents containing Protected or Confidential information must be shredded prior to disposal.
26. Data storage devices (CDs, DVDs, and floppy disks) containing Protected data must be physically destroyed at the end of the audit. For thumb drives and portable hard drives Contractor must either use an electronic shredding program to destroy the data or destroy the device at the end of the audit. A record of disposal is to be maintained in the workpapers by the OSA Contractors. A record of disposal must contain the name of the individual disposing of the data, the method used to dispose of the data, identifying qualities of the data (such as the serial number of the media on which it was stored, if applicable), and the date of disposal.

Incident Reporting

27. All suspected loss or compromise of OSA audit information as a result of the loss of a desktop, portable, or mobile computing device or removable storage device by any means (e.g., theft, loss) used to store State of Colorado data shall be reported to the OSA Contract Manager within 24 hours of discovery.
28. In the event of the suspected loss or compromise of OSA audit information under control of Contractor, Contractor is responsible for working with the State Auditor and the Audited Agency with respect to recovery and remediation. Contractor is also responsible for working with the OSA and the Audited Agency to notify all Colorado residents and other affected parties whose sensitive data may have been compromised as a result of the breach. Contractor will bear all reasonable associated costs.

Personnel Security

29. Contractor is responsible for performing background checks consistent with Contractor's standard employment practices for Contractor personnel completing work on behalf of the OSA.

Policy Enforcement

30. If Contractor is deemed to be in noncompliance of this policy by the State Auditor, the State Auditor shall have the unilateral right to terminate the Contract.
31. Upon request by the State Auditor, Contractor agrees that it shall make available qualified individuals and a member of senior management responsible for security and data protection, for the purposes of discussing information technology controls, including those policies, procedures, and controls relevant to the provision of services and security obligations under this Contract.

28. EXHIBIT F - COMPENSATION AND PROCEDURES FOR BILLING

1. Contractor shall submit all invoices for services to the State. Payment will be made from the State Auditor's appropriation.
2. Contractor may render monthly interim bills to the State until completion of the Work; provided that the aggregate amount of all bills shall not exceed the maximum compensation set forth in Section 3 below. The interim bills shall be promptly paid by the State except that the State reserves the right to withhold 10 percent of the total Contract amount until delivery and acceptance of the Audit Report. Release of the Audit Report by the Legislative Audit Committee constitutes acceptance of the Audit Report.
3. Total maximum compensation for the Work shall be \$XXX,XXX, with estimated funding split between fiscal years expected to be:

	<u>Total</u>	<u>Paid From State's Budget Period</u>	
		<u>2016-2017</u>	<u>2017-2018</u>
<u>Name of Audited Agency</u>			
Financial and compliance audit	\$xxx,xxx	\$xxx,xxx	\$xxx,xxx
<u>Other Itemized Costs</u>			
<u>Single Audit Programs:</u>

Total Fee	<u>\$xxx,xxx</u>	<u>\$xxx,xxx</u>	<u>\$xxx,xxx</u>

4. The State shall not be required to provide staff time in connection with the audit of the Audited Agency, except that State shall assign one (1) member of the State staff to serve as audit coordinator between the State and Contractor. The State contract monitor shall attend various meetings as necessary, such as entrance and exit conferences, and the brainstorming meeting, and act as a liaison to Contractor. In accordance with §10, §17C, and §18 of the Contract, all requests for Work Product or work papers pursuant to the Colorado Open Records Act or news media inquiries pertaining to the engagement shall be forwarded immediately to the State contract monitor.

29. EXHIBIT G - DEVELOPING AND PRESENTING AUDIT FINDINGS

Developing and Presenting Audit Findings

An audit finding is a written explanation of the information developed during the audit engagement concerning errors, omissions, weaknesses, or areas for improvement. It is the source from which all audit recommendations flow. Audit findings have certain common elements. The five elements of an audit finding are criteria, condition, cause, effect, and recommendation.

Title of Finding

Provide brief background information about the program in one or two paragraphs. Do not include criteria, condition, cause, or effect in this background section.

What was the purpose of our audit work and what work was performed?

Describe the purpose of the audit work in one sentence. (i.e., “The purpose of the audit work was to XXXX.”)

Briefly describe the audit testwork that was performed using bullets and/or one to two paragraphs. (i.e., describe the data and documents reviewed, individuals interviewed, and the sample selected and sample methodology).

How were the results of the audit work measured? (*Criteria*)

The criteria are the standards against which the condition is measured. They are standards used by the auditors to evaluate a particular event or process and describe “what should be.” Some examples of criteria include:

- Colorado Constitution
- Colorado Revised Statutes
- Colorado state agency rules and regulations
- federal laws and regulations
- State Fiscal Rules and Fiscal Procedures Manual
- Generally Accepted Accounting Principles
- program-specific written policies and procedures
- program-specific written goals and objectives
- good business practices
- unwritten policies, procedures, goals, and objectives as explained by the Audited Agency’s personnel

If the criteria are not already set forth in writing, it may be necessary to find information to serve as evidence of criteria. When common sense or expert opinion is used as criteria, the development of the finding must be logical and convincing to the reader, who may not possess the same level of expertise. This is also important because such criteria are less authoritative than other types of criteria.

This section should briefly describe the criteria of the finding. Strive to provide the essential information in one or two short paragraphs, bullets, or in a table.

What problem(s) did the audit work identify? (*Condition*)

The first step in developing a finding is to identify the statement of condition. This occurs during the “fact-finding” process when the Contractor’s audit staff (“auditors”) compares “what is” with “what should be.” When there is a difference between “what is happening” with “what should be happening,” the first element (condition) of an audit finding is identified. The condition should be a factual statement of what was found and be free of value judgments.

This section should describe the overall problem (the condition of the finding) in one or two sentences. Then provide specific examples that support the condition (e.g., exceptions identified during the audit test work). Use bullets and tables to describe the types of exceptions identified.

Why did this/these problem(s) occur? (*Cause*)

The cause is the element of the audit finding which explains why the “condition” exists. The cause represents what must be corrected to prevent the recurrence of the existing condition. As such, auditors must correctly identify the cause before a proper course of action can be devised. Developing the cause frequently requires a fairly extensive analysis of the problem. Often, there are multiple factors causing the problem. The human behavior aspect, which increases the difficulty in identifying the proper cause, is always present. Nevertheless, auditors should make a reasonable effort to determine as closely as possible the real cause of the problem. Examples of cause include:

- negligence
- inadequate resources
- inadequate training
- poor communication
- inadequate guidelines or standards
- absence of good management techniques
- failure to follow established policies and procedures

This section should describe the cause of the finding in one or two paragraphs or in bullets that correspond to the bullets used in the condition section above.

Why do/does these/this problem(s) matter? (*Effect*)

The effect represents the end result of the activity being measured. It is the impact of the difference between the statement of condition and the criteria. The attention given to an audit finding depends largely upon its significance, and significance is judged by effect. What is the result if nothing is done about the problem identified? Auditors frequently use materiality to measure the potential significance of findings. The effect of an adverse audit finding is what motivates management to take needed action to correct the condition. When the effect is insignificant, audit staff should consider eliminating the finding from the report or grouping it with other minor findings. Some examples of effect include:

- violation of law or regulation
- noncompliance with legislative intent
- loss of potential income
- program goals and objectives not being met
- increased costs
- poor service quality

- inefficient service delivery
- increased risk of fraud and abuse
- reduced effectiveness

When determining the effect of an audit finding, auditors should look at outcomes such as impacts on citizens, services, or public safety. In addition, the fiscal impact of the finding (e.g., increase or decrease in revenue or costs) should be quantified where possible. The estimated fiscal impact should be discussed with the Audited Agency and reported as an estimate (e.g., we estimate this change will eliminate one administrative support position with an estimated annual cost of \$26,000).

This section should describe the effect of the finding in one or two paragraphs or bullets. Quantify the effect to the extent possible.

Recommendation No. X:

The recommendation is the action believed necessary to correct the adverse situation. Generally, each finding will result in one or more recommendations. The following are guidelines for developing recommendations:

- Write recommendations that address or solve the “cause” of the problem.
- Write recommendations as realistically and specifically as possible so they are more likely to be understood by and prove useful to the Audited Agency.
- Present recommendations in a constructive tone and emphasize improvement rather than criticism of past activities. Auditors should keep in mind that their objective is to motivate the Audited Agency to take action. This can best be done by avoiding language that unnecessarily generates defensiveness and opposition.
- Write your recommendation so that it can be understood by itself (e.g., the reader will not have to refer to the finding to understand the recommendation).
- Avoid introducing new information in the recommendation that was not presented in the body of the finding. The recommendation should follow logically from what was presented in the finding.
- Avoid extreme language such as “immediately,” “without delay,” or “as soon as possible.” These phrases do not add to the substance of the recommendation. In situations where there is an urgency to correct a problem, include in the recommendation the consequence of delay (e.g., continued loss or waste of money).

The Department of XXXX should XXXX by:

- a.
- b.

The written Audit Report, which contains all audit findings and recommendations, is issued to legislators and other state and federal officials who have limited time to read reports. Therefore, the Contractor should present findings as concisely as possible, but with enough clarity to be understood by the reader. In addition to being clear and concise, audit findings should be logical, convincing, and constructive. The findings should be presented in a way that will convince the reader of their significance and motivate the Audited Agency to take action. This is accomplished by clearly presenting the five elements of an audit finding—criteria, condition, cause, effect, and recommendation.

For additional guidance regarding developing audit findings, please consult Chapter 4 - Standards for Financial Audits in *Government Auditing Standards: 2011 Revision* issued by the U.S. Comptroller General, which is available online at <http://www.gao.gov/govaud/ybk01.htm>.

30. EXHIBIT H - REPORTING REQUIREMENTS AND FORMAT FOR SEPARATELY ISSUED REPORTS

The final written Audit Report is required at the completion of the audit work. This Report will contain findings, conclusions, and results from the audit. It will also provide recommendations for changes or modifications to improve the efficiency and effectiveness of the Audited Agency. Contractor shall deliver to the state up to 100 copies of the bound report. The exact number of copies will be determined by the State at the time of report finalization. Contractor shall also deliver to the State an electronic copy of the Audit Report in unprotected Adobe PDF format or other format prescribed by the State.

The report must contain this section reporting the auditor's findings and recommendations relative to operating weaknesses, violations of law, compliance with applicable statutes and regulations, and adherence to generally accepted accounting principles and sound business practices.

The findings and recommendations included in the report should contain sufficient background to inform a lay reader of the facts and circumstances surrounding the finding. In addition, the finding should identify and emphasize the business effects resulting from the deficiency or instance of non-compliance. Finally, recommendations should focus on workable solutions which the Audited Agency can effectively implement.

Audit recommendations are presented after the development section for each audit finding. Recommendations must be separately stated from the discussion of the audit finding. Recommendations are consecutively numbered in the report, (i.e., 1, 2, 3, 4, etc).

g. Audited Agency Response

The Audited Agency's officials will be given the opportunity to include the Audited Agency's position regarding audit findings and recommendations in the report text. The State will provide the parameters for the Audited Agency's response; this could include a limit on the number of words or characters, which the Contractor will communicate to the Audited Agency when requesting their response. The Audited Agency's response will be included in the report after

each recommendation. However, if a statement of the Audited Agency's position is not provided within ten working days following receipt of the final draft copy, Contractor should advise the State Auditor to determine if the report should be processed without the Audited Agency's response. The Contractor is responsible for reviewing the Audited Agency's response for accuracy, responsiveness to the recommendation, and adherence to the State's established parameters. This review should include working with the Audited Agency to ensure the response meets State requirements and is approved for inclusion in the final Report. For any "Partially Agree" or "Disagree" response, the contractor shall prepare an Auditor's Addendum as a rebuttal to the Audited Agency's response. The language for all Auditor's Addenda must be reviewed and approved by the State.

h. Disposition of Prior Audit Recommendations

The Audited Agency's progress in implementing prior audit recommendations is reported in this section. The disposition of prior period recommendations is classified in this section as either: implemented, partially implemented, not implemented, deferred, or no longer applicable.

i. Resolution Status of Questioned Costs

According to the Single Audit Act Amendments, the resolution of questioned costs is the responsibility of the recipient and the related federal agency. The Amendments also state that resolution shall be made within six months after receipt of the Audit Report by the federal agency.

The status of questioned costs can be reported as part of the disposition of prior year audit recommendations or addressed in a separate section of the Audit Report.

j. Financial Statements

Financial statements should follow reporting requirements applicable for the audit entity as required by the State Controller, audit guides of appropriate federal agencies, Financial Accounting Standards Board, or the Governmental Accounting Standards Board. The financial statements shall be reconciled to the final trial balance for each fund as shown by CORE records. Contractor will determine that the reconciliation prepared by the Audited Agency is correct and any adjustments have been approved by the State Controller in accordance with the Fiscal Rules.

k. Additional Information for Single Audit

For findings related to federal expenditures, the finding must be written in accordance with federal uniform grant guidance, which will include identification of applicable federal compliance requirements by finding, contact name, and federal agencies to which each finding relates.

l. State Format

The report shall be prepared using the State format to the extent possible.

3. Single Report

Contractor's Audit Report will include all of the aforementioned sections bound together as a single report. Contractor may issue separate reports for financial statements and management comments.

Contractor will not issue separate reports for federal and state financial assistance programs. These reports will be included, in separate sections as appropriate, in one Audit Report for the Audited Agency. Separate Reports will be issued for revenue bond funds and NCAA Agreed-Upon Procedures.

FROM:

PHONE:

RE:

STEP 1. Please select the appropriate response by marking "X" in the "Response" column. (Only select one of the two rows below)

	<u>Response</u>
<p>We have performed audit testwork for prior year audit recommendations and have provided the following items in the table in STEP 3 below:</p> <p>1. The audit team's disposition of any prior year audit recommendation(s) as of June 30, 2016. (Note: This should be the auditor team's tested disposition, not the department's/agency's response. No disposition narrative is needed for this Attest D1. However, as part of Attest F, you will need to supply the disposition narrative that has been approved by the Deputy State Auditor.)</p> <p>2. If the auditor's disposition(s) is "not implemented" or "partially implemented," we have noted the updated implementation date(s) that was provided by the department/agency, as well as the deficiency level determined by the audit team, in the table in STEP 3 below.¹</p> <p>3. If any prior year audit recommendation(s) was originally "deferred" and the department/agency is now reporting that the implementation is still "deferred" as of June 30, 2016, we have noted, in the table in STEP 3, that this recommendation(s) is "deferred" and included the department's/agency's revised implementation date.¹</p>	
<p>The department/agency does not have prior year audit recommendations.</p> <p>(Note: If you selected this row you are done with this form)</p>	

STEP 2. Please select the appropriate response by marking "X" in the "Response" column. (Only select one of the two rows below)

	<u>Response</u>
<p>For prior year audit recommendations, we have ensured that our assessments are in accordance with AU-C Section 265 <i>Communicating Internal Control Related Matters Identified in an Audit</i>. Specifically, for any prior year audit recommendation(s) that is "not implemented" or "partially implemented", we have performed an assessment to determine if the non-implemented portion represents a material weakness (MW) or significant deficiency (SD). For each MW or SD, we have written a current year recommendation(s) in that area(s). (Note: The current year recommendations should be provided on the Attest F.)</p>	
<p>For any prior year audit recommendation(s) that is "not implemented" or "partially implemented", we have performed an assessment to determine if the non-implemented portion represents a Deficiency of Internal Control (DIC). Note: The OSA requires that the auditor test and assess a disposition for that prior year audit recommendation(s) until it is fully implemented.</p>	

STEP 3. Please complete the table below for each prior year recommendation for your department/agency.

Report Year and Rec. No.	Recommendation	Auditor's Disposition (See STEP 1 above)	Auditor's Assessment of Level of Deficiency (See STEP 2 above)	Department's/ Agency's Revised Implementation Date ¹

¹ The new implementation date must be a specific month and year, and needs to be outside the fiscal year tested (after June 30, 2016). The department/agency cannot provide an implementation date of "Immediately".

RE:

Please submit the attestation memo and supporting documentation in an *electronic* format.

Our Office plans to meet with the Office of State Controller to propose audit adjustments affecting the financial statements during November. The time between receiving your audit differences and the meeting dates is used to assemble and evaluate the differences at a statewide level and obtain additional information from state departments/agencies/universities, as applicable. **Please include ALL adjustments in the "Schedule of Post-Closing Audit Adjustments" spreadsheet provided.** The Office of the State Controller has identified that any adjustments entered into CORE in Periods 15 and beyond are considered post-closing adjustments.

	Response
<p>1. We are aware of known audit differences that we and/or the department/agency/university identified during our audit. The related proposed adjustments may be recommended for posting or be passed upon. These adjustments may be derived from our audit testwork or suggested by the department/agency/university. In proposing any adjustment, we duly considered factors relevant to assess whether the misstatements were material.</p> <p>(Please note that all passed and posted adjustments will be incorporated into adjustment spreadsheets included in the Statewide Single Audit Report. All adjustments, if significant, quantitatively or qualitatively, and recommended to be posted, must have an accounting entry prepared by the department/agency/university in CORE and submitted to the OSC for approval. If "No" please mark "N/A" to questions 2 through 8.)</p>	<input type="text"/>
<p>2. The "Schedule of Post-Closing Audit Adjustments" is attached, identifying all adjusting entries needed to correct the known identified errors (other than those that the auditor believes are trivial).</p> <p>In addition, we have requested that management report the required adjustment(s), including any effect of prior period misstatements, to the Office of the State Controller, other than those that the auditor believes are trivial. Information for each column on the spreadsheet for each adjustment and all audited post-closing entries have been included.</p>	<input type="text"/>
<p>3. We have identified the amount used to define "trivial" here, by fund. (Note: A column has also been created for this amount on the "Schedule of Post-Closing Audit Adjustments" spreadsheet.)</p> <p><input type="text"/></p>	<input type="text"/>
<p>a. For any items identified as trivial (and not included on the adjustments spreadsheet), a description of the items and the dollar amounts for each have been identified below: (please attach another sheet if more space is needed.)</p>	<input type="text"/>

4. We identified likely misstatements during our audit. If yes, we have included these in the attached "Schedule of Post-Closing Audit Adjustments" spreadsheet.

5. Based on our qualitative review, we found known or likely audit differences which are indicative of possible fraud. If yes, please attach a memo to explain this further.

6. We have accumulated all known and likely misstatements we identified during the audit (other than those we believed to be trivial), and have communicated them to the appropriate level of management on a timely basis.

7. For any account balance that we identified the amount of likely misstatement from a sample as material, we have requested management to examine the entire account balance in order to identify and propose corrected adjusting entries for misstatements. (If yes, please attach an explanation and indicate which adjustments these associate to.)

8. We have included a narrative response to the "...PASS audit adjustment material..." on the "Schedule of Post-Closing Audit Adjustments" spreadsheet. If not, indicate a response on the spreadsheet.

Note: Please ensure that passed adjustments in cumulative are below the Statewide performance materiality/component performance materiality threshold.

9. For all misstatements identified on the adjustment spreadsheet, are any misstatements indicative of fraud or management bias? (If yes, please attach an explanation and indicate which adjustments these associate to.)

a. If yes, has the auditor evaluated the implications of the misstatements with regard to other aspects of the audit, particularly the auditor's evaluation of materiality, management and employee integrity, and the reliability of management representations, recognizing that an instance of fraud is unlikely to be an isolated occurrence?

10. Has the auditor identified potential significant risks of material misstatement to the group financial statements? If yes, please attach a detailed explanation, including the account and amount of misstatement and/or a brief description of the non-compliance area, and an explanation of the further audit procedures that have been or will be performed for this area.

Note: Please contact Selome Negassa with the Statewide Audit Team (Selome.Negassa@state.co.us or 303-869-2834) with information or questions regarding post-closing adjustments.

The following items are noted for your information. Please contact your Contract Monitor if you have any questions.

- Do not assume that the submission of a post-closing adjustment within CORE by a department/agency/university to the Office of the State Controller will guarantee that a proposed adjustment for identified known misstatements will be posted to the State's financial statements. The auditors should note, in the comment section of the attached spreadsheet, if they are in agreement with these audit adjustments.
- Adjustments to correct identified known misstatements that are "passed upon" at the department/agency/university level may still be posted to the State's financial statements when aggregated and evaluated with other adjustments across the State.
- All identified known adjustments, regardless of dollar amount, should be taken into consideration relative to TABOR. There is a "zero threshold" relating to TABOR adjustments. Prior to passing on any TABOR adjustments, please consult with the Statewide Audit Team. Financial statement materiality is not applicable to TABOR adjustments.
- If prior period adjustments are noted, please provide the journal entries and indicate in the comment section of the attached spreadsheet if the adjustment was reported to the Statewide Audit Team in the prior year or discovered in the current year.
- The Office of the State Controller evaluates each adjustment separately. The final determination of what will be posted to the State's financial statements is made during November and December. This evaluation may require additional adjustments to be made separately to the State's financial statements, even though the stand-alone statements may have already been issued.

	Response
<p>1. For those auditors not issuing audit opinions on the department/agency or institution being audited. In our professional judgment, we have obtained sufficient and appropriate audit evidence that the account balances material to the State's financial statements, based on the Statewide calculation of materiality, are presented fairly as of and for the year ended June 30, 2016. Our determination is based on considerations of both quantitative and qualitative materiality factors. (If, in your professional judgment, the opinion would be other than unmodified, or would contain an emphasis of matter and/or other matter paragraph should be included, please select "No - See Explanation" and attach an explanation).</p>	<input type="text"/>
<p>a. For those auditors that received lead balances from the Statewide audit team, have you attached the lead schedules provided to you with a summary of how each lead schedule balance was tested (i.e. substantive analytic, internal control compliance testing, other sample testing)?</p>	<input type="text"/>
<p>2. For those auditors issuing an audit opinion on the department's/agency's or institution's financial statements. If the opinion did include an "Other Matter" paragraph, please check "Yes - See Explanation" and attach an explanation.</p>	<input type="text"/>
<p>5. Did you have departures from GAAP, scope limitations, or other matters that would effect the audit opinion? (If "Yes - See Explanation," please attach an explanation. If there was another basis of accounting used by the audited department/agency or institution, please indicate that basis, such as cash, tax, regulatory, contractual, or other basis of accounting.)</p>	<input type="text"/>
<p>6. Did you find departures from GAGAS that had an effect on the audit opinion? If yes, please attach an explanation.</p>	<input type="text"/>
<p>7. Did you find and report significant deficiencies and/or material weaknesses in the internal controls over financial reporting? (If checked "Yes - See Explanation," attach a description of the significant deficiency and/or material weaknesses indicating that a report comment (i.e., finding) was written and whether or not the deficiency was identified due to fraud, abuse, and/or illegal acts. A report comment should also be prepared and submitted along with Attest F for those significant deficiencies and/or material weaknesses found. The report comment should also address whether the material instance was identified due to fraud, abuse and/or illegal acts, if applicable.)</p>	<input type="text"/>

	Response
<p>8. Did you find and report material instances of noncompliance with provisions of laws, regulations, contracts, and grants that could have a direct and material effect on the determination of financial statement amounts?</p> <p><i>(If checked "Yes - See Explanation," attach a description of the material noncompliance indicating that a report comment (i.e., finding) was written and whether or not the noncompliance was identified due to fraud, abuse, and/or illegal acts. <p>9. Did the department/agency comply with state statutes and the Office of the State Controller's requirements regarding quarterly financial reporting? (Refer to the Office of the State Controller's Fiscal Procedures Manual; Chapter 5, Section 4.)</p>	<input type="text"/>

<p>11. Did you audit all of the applicable State Controller's Closing Exhibits of the Department/Agency?</p> <p>a. During Exhibits testing, did you find any exceptions? If any exceptions were noted, please attach a copy of the revised exhibit, marked as revised.</p>	<input type="text"/>

In our professional judgment, the Exhibit K is presented fairly as of and for the year ended June 30, 2016, in accordance with the Single Audit Act, as amended, Uniform Guidance, and the Yellow Book. Any required note disclosure is also included on the Exhibit and is also fairly stated.</p> <p><i>(If "No - See Explanation" or "N/A - See Explanation", please attach an explanation.)</i></p>	<input type="text"/>
<p>14. The Department/Agency properly excluded any grants received as a subrecipient from another State Department on its Exhibit K. The Department/Agency also properly excluded, to the extent it was determinable, any grants received by the State, then passed-through to subrecipients outside of the State, and then received again by the State.</p>	<input type="text"/>

The auditor should consider whether omission of this information constitutes an instance of noncompliance that is required to be reported in accordance with OMB Uniform Guidance.</p>	<input type="text"/>
<p>16. Have you consulted with the Statewide Team or contract monitor to obtain a preliminary listing of major programs to be audited at our department/agency?</p> <p>b. Did you identify any other major programs to be tested during the course of the audit? <i>(Because the major program determination is made based on prior year data, it is possible that a program needing to be tested was not initially identified and federal expenditures exceeded the major program threshold in Fiscal Year 2016.)</i></p>	<input type="text"/> <input type="text"/> <input type="text"/>
<p>19. Have you been able to reconcile amounts presented on CORE to related amounts included on the Exhibit K without exception? <i>(If "No - See Explanation" or "N/A - See Explanation", please provide explanation for any discrepancies and consider whether this constitutes an instance of noncompliance that should be reported).</i></p>	<input type="text"/>

<p>21. The department/agency has complied with the submission requirements by subrecipients as stated in AICPA Statement of Position 98-3, paragraph 10.76. <i>(The Office of the State Controller is overseeing the distribution of the Single Audit report to the federal government and state departments/agencies. <p>22. Do you have concerns about the competence, integrity, ethical values, or diligence of management about management's commitment to, or enforcement of policies relating to these areas? <i>(If yes, answer question 23 below.)</i></p>	<input type="text"/>
<p>23. Because we had concerns about the areas in question 22 above, we analyzed the effects of these concerns on the reliability of representations and audit evidence in general, including determining the possible effect on the opinion in the auditor's report. Please submit the attestation memo and supporting documentation in an electronic format.

The Statewide Single Audit Report includes the Schedule of Expenditures of Federal Awards, auditor's opinions, and reports as required by the Single Audit Act. This report is prepared in order to satisfy the State's Single Audit requirements. In compliance with federal Uniform Grant Guidance, this report includes those comments and recommendations that directly impact federal awards, such as instances of noncompliance with laws or regulations pertaining to federal financial assistance, or where it can be shown that federal awards would be affected.

We are requesting that all report comments be submitted to us along with all necessary information as explained below. While a single incident at one department/agency/institution may not be significant to that entity alone, it may be significant when taken into account with similar incidents at other State entities. In addition, please answer the additional questions to aid in our compilation of other significant sections of the Statewide Single Audit Report.

Please Note: A management letter may have been submitted to each department/agency/institution for areas that are classified as deficiencies in internal controls (and not material weaknesses or significant deficiencies). For those deficiencies in internal controls that are not communicated through the management letter, a written report comment using the OSA report format **MUST** be written. In addition, report comments using the OSA report format must continue to be written for all significant deficiencies and material weaknesses identified during the audit.
