Virginia Gebhart For Colorado Foundation for Universal Health Care	<p>The Colorado Foundation for Universal Health Care supports this bill because it will implement the recommendations of the BHA Task Force.</p> <p>We've been hearing from Children's Hospital for two years that we are failing families with children who need behavioral health services. It is heartbreaking to think that families are experiencing the worst days of their lives, terrified for the life of their children, and they can't get appropriate behavioral health services to save the life of their child. This is a traumatic for the whole family.</p> <p>Please pass this bill so families and children who need behavioral health services can get the help they so desperately need.</p>
