---

Mr. Chair and members of the Senate Judiciary Committee:

The Colorado Municipal League is submitting this written testimony in support of Senate Bill 21-064. We want to thank President Garcia and Senator Cooke for bringing it forward and ask for your “yes” vote.

On behalf of municipal elected officials all over Colorado, the League is here to support SB 21-064 which provides elected officials the same protections that are currently afforded to judges. Much like the General Assembly, municipal elected officials must make difficult and often controversial decisions in their capacity. The scope of controversial issues is certainly wide with anything from land use decisions to public safety regulations.

The League supports SB 21-064 because elected officials and their families deserve additional protections as public servants.

Thank you for your time today and please contact me with any questions.

Meghan Dollar  
Legislative Advocacy Manager  
Colorado Municipal League
