

I am writing you to let you know that I am in favor of SB21-124 passing to change Felony Murder to a class 2 Felony. This is so unjust and unconstitutional. There should be no way that a man who did not commit murder and a serial killer who planned to murder several people get the same sentence. A man who committed murder can plea his sentence down and a man who is charged with Felony Murder (not the murderer) be left with the only option to spend his entire life in prison with no possibility of Parole. I have talked to many, and I mean many people who all agree that this is the most unfair charge and sentence but throw their hands up because they can't do anything about it. I have spoke to many, and I mean many people who see Murder and believe it is just that and are not even aware that this charge does not mean you committed murder. I look at both sides of the fence and my heart goes out to the victims. They are not forgotten. But what kind of justice is this to allow the killer to be free at some point while the person not responsible gets forgot about. I say yes to SB21-124.

Thank you,

Josh Rosales
