TESTIMONY

I, Nathan Ruybal, Clerk and Recorder for the County of Conejos, do hereby testify that I am extremely proud to provide my voters with dual language ballots and Election information, since Conejos is a county that already provides all Election information in dual language, we take great pride in this responsibility. This personally means a great deal to me since many of my family members read and speak Spanish better than they do English, many of whom have been active voters and community members for decades. My office on a daily basis service customers who speak Spanish as their first language, so our need to translate has a wider scope than just Elections. I am honored once again to service my Spanish speaking citizens by providing them the opportunity to understand their ballots and how to vote.

I apologize I cannot be there in person
