We, the undersigned citizens of Chaffee County, urge you to support SB19-042, Colorado National Popular Vote, so that **every** vote in **every** state counts equally in **every presidential** election. We support this bill because:

- It ensures that the presidential candidate who wins a majority of votes is elected president. Every other office holder in the U.S. is elected by a majority vote.
- It preserves the Electoral College and respects the Constitutional rights of states to determine how their electoral votes are awarded.
- It encourages presidential candidates to listen to the concerns of voters in all states, not just battleground states.
- It protects the health of our democracy by increasing voter turnout. Voters in battleground states currently vote in greater numbers than flyover states because they know their votes count. Every voter should have that confidence regardless of where they live.

Thank you for your consideration of these compelling reasons to support passage of SB19-042.
