

#VAT. SB19-042

It is of my opinion that you people are more concerned about your party then you are about us WE THE PEOPLE OF THE UNITED STATES OF AMERICA. For this you should be ashamed of yourselves. For never have I been more disappointed in the "LEADERS" of our state then I am today. Your proposal is a sin against all those who died for these laws and regulations and just because you lost an election you want to change these laws, to what, make sure you screw up the best country in the world with your selfish and disgraceful action you are trying to perpetrate on us today?

Let me put it to this way, if you pass this law, you can kiss your careers goodbye, because I will try will all my might to make sure you will never be re-elected again. When you care more about yourselves then the people who struggled back in 1776 to make this country the greatest nation in the world and you sit here throwing that intelligence out the window. Then how could I ever vote FOR anyone like you again? When people with far greater intelligence then you knew what they were doing, I am suppose to listen to you?

I have heard your lame excuses of why you want to change this law. It sickens me that you would even present such a proposal. Why we are even here is again a Democratic waste of time and money of which you all do so well. You had no problem when Obama wasted 150 Billion dollars to send that money to a known terrorist nation, not one of you stood up for our nation back then, yet, you want us to stand up for you now. The hypocrisy is amazing!

You pass this bill and I will let as many people as I can talk to know that in Colorado we have lost the battle of sanity. When you lose your sanity and are considered a leader of this state, you become a liability. You were voted in, doesn't mean you will remain in. This is not a threat it is a promise. I and many others will demand you be removed from office and never be able to hold another office in this state again. You think we are going to sit back and watch you destroy what has been the bed rock of our nations election system you are sorely mistaken. I will make your life a living hell if I have to stand at the front door everyday and you have to pass right by me. You will never have a moments peace again.

YOU ARE NOT THE DICTATORS OF THIS STATE YOU ARE THE REPRESENTATIVES OF THIS STATE,  
ACT LIKE IT!

STAN KAHLER
