

Proposed Clean & Green Energy Bill needs CHANGES IN WORDS to prevent "WIND TURBINE SYNDROME" that harms humans & animals

Dear Rep. Salazar, and all at this meeting today (Thurs., 1/18/2018):

As an environmentalist, I appeal to all caring proponents of truly CLEAN and GREEN ALTERNATIVE ENERGY: I was saddened to need to follow up on a recently learned "inconvenient truth" (Vice President Al Gore's term), about big wind farms (big turbines) close to human and animal habitation, world-wide!, causing **WIND TURBINE SYNDROME**.

WIND TURBINE SYNDROME is caused by several low frequency sound waves, such as "infra-sound", etc., not audible to humans, but which causes **huge increases in cortisol levels in humans and animals, and even death of animals, in El Paso County, CO:** --read article at this link: https://www.wind-watch.org/news/2018/01/06/wind-turbines-linked-to-increased-cortisol-levels/#.WlJmIYcz_kM.email

I urge you to learn MORE about WIND TURBINE SYNDROME, which has been scientifically shown to be REAL, and not psycho-somatic! I am an environmentalist, a retired nurse (RN), a retired high school teacher, was a chemistry major in college, and I used to be totally "for" wind energy, until:

Very recently (May, 2017), my eyes were opened by an article (see link below) showing an "inconvenient truth" namely, that **wind power has a dark downside to both animals and humans, who live close to the huge wind turbines, and this downside is called WIND TURBINE SYNDROME.** I am "for" all forms of clean and green energy, that *don't* cause avoidable COLLATERAL DAMAGE! See the next 2 links, for more about WIND TURBINE SYNDROME:

<https://www.michigancapitolconfidential.com/20690> Please read this entire article, showing REALITY of Wind Turbine Syndrome, near Green Bay, Wisconsin, and all over the world, where wind farms are close to--within 10 miles or further away, from human homes. **Dr. Jay Tibbets is on a BOARD OF HEALTH, IN WISCONSIN, near Green Bay, and HIS PHONE NUMBER IS: 920-494-2265. Dr. Tibbets is willing to share his FIRST-HAND KNOWLEDGE about Wind Turbine Syndrome's dangerous and even deadly effects to humans and other species of animals.**

AND:

<http://abcnews.go.com/Health/wind-turbine-syndrome-blamed-mysterious-symptoms-cape-cod/story?id=20591168> which includes the following:

'Wind Turbine Syndrome' Blamed for Mysterious Symptoms in Cape Cod Town, By Susan Donaldson James, Oct. 21, 2013

Here's an excerpt (one paragraph) from this Cape Cod article:

(OVER) →

(2)
"This is an industry that has pushed to make wind happen, and I am not against that, but you do it responsibly," [Brian] Mannal [lawyer for a lady, Sue Hobart & her husband, who had to move away from Falmouth, Mass.] said. "It goes all day and night. My [that lawyer's, Brian Mannal's] initial take was that [she/Sue] was being a hypochondriac, but I went to their house two years ago with a little skepticism and within 10 minutes of being in the house, I could feel it and hear it. ... It acts like a drum and pounds on the house."

Please read the 3 LINKS ABOVE, and **ASK ME FOR the names & PHONE NUMBERS of 2 families who are suffering *RIGHT NOW* (both the humans and their animals) from WIND TURBINE SYNDROME, IN EL PASO COUNTY! Visit their homes FOR A FEW MINUTES, to experience Wind Turbine Syndrome for yourselves!**

The **proposed bill** to be introduced by Colorado Rep. Joe Salazar, for clean and green energy in Colorado, **must be modified** to accept this reality, and to re-position wind farms much further away from human and animal habitation.

Carol (environmentalist, retired RN/nurse, asking hard questions)

In their own words (see below)-- the **Cobb family (Joe and Cindy Cobb)**, in **El Paso County**, appeals to environmentalists, to help them and their pets and livestock, who are all being badly affected by "**Wind Turbine Syndrome**":

PLEASE **CALL JOE & CINDY COBB (719-541-5249)**, EMAIL THEM AT tjoec@live.com AND **VISIT THEM, TO SEE FOR YOURSELVES**, WHAT THE BAD EFFECTS OF "**WIND TURBINE SYNDROME**" FEEL LIKE!

JOE AND CINDY COBB WROTE, Jan. 17, 2018:

"We are 2 miles from 7 turbines. But within 5-6 miles there are between 105 and 110 turbines. Living near the wind turbines has destroyed us. Physically and financially. We have now had 39 pets/livestock die since the wind farm started on Sept. 17, 2015 -28 months ago. that is more than 1 pet dying a month, which is devastating. We cannot get a good night's sleep. We feel like walking zombies. It is getting to a point we feel nothing. No joy, happiness, just pain and helplessness. Because we cannot find a caring person (government) who cares if we live or die. No one cares if the wind company is violating our property rights or destroying our health. We and other residents know this wind farm is destroying our eyesight, hearing, thickening our hearts. damaging our livers and lungs, taking away our ability to think clearly, causing dangerous sleep deprivation and so much more. This wind farm is also causing our animals to go blind, go deaf, being born with deformities, struggling to survive in a toxic environment and is now causing high cortisol levels in us (humans) and our animals. 5 times higher cortisol levels. BUT again NO ONE CARES! The is the hell of living near the Golden West Wind Farm near Calhan Colorado and built by Next Era Energy."

AN ADDITIONAL **EL PASO COUNTY** CITIZEN, **MRS. KORY FEICK**, is ALSO BEING VERY BADLY AFFECTED, AS HER PETS ARE, BY "**WIND TURBINE SYNDROME**".

PLEASE **CALL MRS. KORY FEICK (949-306-1484)**, EMAIL HER AT courtash2@msm.com AND **VISIT HER**, TO EXPERIENCE, FOR YOURSELVES, WHAT THE BAD EFFECTS OF "**WIND TURBINE SYNDROME**" FEEL LIKE!
