STATE LAW REQUIRES AT LEAST THE 2003 IECC FOR ANY JURISDICTION WITH OTHER BUILDING CODES

All other jurisdictions not listed here (approximately 35) are believed to be out of compliance with current state law. Please check with your building department, city council, and/or county commissioners. Free, customized, onsite training is available from the Colorado Energy Office, Xcel Energy, and some municipal utilities to help you update to a newer code, and you can implement the code in a phased approach to ease the transition.

* Moving to or currently evaluating the 2018 IECC
