

Mohamed Siid - Br
Project

Thank you Honorable Chair men foot and comities members for your time. My name is Mohamed Siid I live in [REDACTED] and I am a youth at youth action board, at the Bridge Project.

I am here because I believe that teachers should not have guns, but if they can they should have it in a safe place and be trained to use it in a shooting.

I care about this because I go to school and I do not want to worry that there can be a shooting and my teacher will shoot someone in front of our class.

I want you to know some facts about the problem such as about an average of 5,790 children in the united states receive medical treatment in an emergency room because of guns. 21% of these injuries were on accident.

This can happen if teachers had a gun. I would greatly appreciate it if you vote against of this issue. Personally, this issue really matters to me because if some students see their teachers with guns it might influence kids to always carry guns which can lead to bad things.

I greatly appreciate your willingness to listen to my testimony and think about if teachers should have guns or if teachers should put their guns in a safe place.

Thank you for your time and consideration.
