

TO: Colorado House Members:

RE: HB 2016-1204

Please accept these comments stating my opposition to this bill that would allow the concealed carry of handguns in our schools.

The idea that having anyone, other than a law enforcement officer, with a gun in her/his possession on school premises is horrifying. This is just another example of the gun lobby's efforts to defend the possession of guns anywhere, everywhere, all the time. Our schools are not the place for weapons.

As our legislators, you must make the safety of our children, and our communities, your highest priority.

Gun violence has become a regular, almost daily, occurrence in our country. Allowing weapons in our schools can only make that worse.

I strongly urge you to reject this bill.

Thank you
