HB25-1327 Modify Statewide Ballot Measure Processes

Typed Text of Testimony Submitted

Name, Position, Representing	Typed Text of Testimony
Brittany Perrotto Against themselves	This room of representatives has told the people that child rapists getting probation only sentencing is fine when you shot down hb25-1073. You have passed gun bills that many law makers and citizens opposed when you passed sb25-003. You continue to push through so called protections for trans children when in reality you are telling parents how to raise their kids when you push hb25-1312. There are so many egregious bills that do NOT represent the will of the citizens and it is clear that the majority is not listening to their constituents when people show up to testify against a bill. If you're not going to represent us appropriately, that leaves us with doing the work ourselves! We have the right to work within our communities to get measures on the ballot without adding additional red tape! You should be encouraging public involvement, not telling the people to sit down, shut up, and color. Because Representative Degraff was right. This bill tells people, you know what's best for them. Don't worry about getting your concerns out there. Now more than ever the people of Colorado want their voices heard and this is a blatant attack on our first amendment rights. This bill is also unclear on fines.... Meaning if it's a measure the SOS opposes they could fine people the full \$1500 while maybe allowing others to get off with a \$0 fine. That is too ambiguous. This entire bill is egregious. However, I have a feeling that no matter how many testify against this bill, the majority will pass it anyway, only further proving my point.
