RE: Senate Bill 18-191

Colorado Representative Terri Carver  
Colorado House of Representatives  
200 E. Colfax Ave.  
Denver, CO 80203

Dear Representative Carver:

Clear Creek County is writing to strongly support SB18-191, regarding the Local Government Limited Gaming Impact Fund. Historically, numerous valuable programs and services in our County have been funded through the gaming grant dollars and are greatly appreciated. Previous funding was used to augment outreach and hospice programs, an advocate program for victims of crime, the District Attorney's office, as well as jail and sheriff office operations.

Clear Creek County is facing budget challenges with the substantial reduction of revenue from the Henderson molybdenum mine located in our county that has a direct impact on the level of services we can provide. The potential for increased funding from this legislation would certainly be a benefit to the very important programs and services being impacted by our on-going budget challenges.

Thank you for sponsoring SB18-191 and Clear Creek County is supportive of the legislation.

Sincerely,

CLEAR CREEK BOARD OF COUNTY COMMISSIONERS

Timothy J. Mauck, Chairman

Randall Wheelock, Commissioner

Sean C. Wood, Commissioner
