A COMPETE,

CONVERSION THERAPY IS WRATH AND
VERY HARMFUL TO CHILDREN. PLEASE
D THIS TO A TALL VOTE! ONE
WHO DESERVE BETTER!

-C.M.H

Conversion therapy should not be
thing in Colorado, our LGBT youth
wants deserves to live a life of
freedom in this our beautiful state
love our youth the way they are and
As why
Conversion therapy should be banned from CO

Conversion therapy should be
illegal. It is cruel and disgusting
that this is still legal. It
should be considered a crime
to put a child through this
treatment.

Conversion Therapy could do more
harm than good, as it is not
scientifically proven to work. This
work is not only immoral, but
just simply cruel!

US citizen

Attachment 1

Conversion therapy is 
not successful and has long
term negative effects.

The LGBTQ community in Colorado
should be able to know that they
live in a state where these practices
are illegal. You can't change something
about someone that isn't changeable.

"No on conversion Therapy"

I believe in letting people be who
they believe and feel they need to be,
regardless of sexual preference.

Paul Gunn

I support ending conversion therapy!

Being Gay is Biological
it is NOT a choice!

- Sarah Ford, Denver CO

I can't imagine a world where my mother didn't love me and express it. She was shocked when I told her I was gay, but she accepted me. What kind of broken soul would she have nurtured if instead she instilled in me the belief that I'm impure for loving another boy? This "therapy" and electroshock would have been damaging for me, my mother, and society. Please ban conversion therapy as a service provided by state licensed therapists.

The state should not have its nose in the relations between parent and child and the state should therefore ban conversion therapy, it should not sanction or condone conversion therapy, directly or implicitly, by state licensed therapists. These decisions should be navigated by parents and children, not the state, directly or implicitly.

I am not the problem,
the world has a problem.
I do not need to change,
the world needs to change
to a
child's development cannot
be undone. Ban this
practice!

LGBT kids should be free to follow
their feelings and not be forced to
change what comes naturally to them.
Electro shock treatments for children
should not be legal because they are
harmful and not proven to change any
thing for the positive.
