RE: SB-24-118

To The Honorable Judiciary Committee Chair Julie Gonzales,

I have spent 17 years in the Department of Correction's system. I have been in front of the Parole Board six times, the first beginning in the year of my Parole Eligibility Date (PED) This has cost taxpayers an extra \$366,000 to keep me incarcerated. For this amount of money, I could have had a bodyguard accompany me everywhere in the community.

I have been refused parole for one reason or another, with the primary reason being the need to complete treatment on the inside. I am considered very low-risk. Not once have I been told why I and others are a risk to the community. Each year I am told by the Parole Board I am being set back for "criminogenic reasons". What in the heavens does this mean? What proof do these voices have that I or others will cause or are likely to cause criminal behavior, especially if we have been deemed very low or low risk?

I have read every report that the state has paid for or produced on sex offenders and the treatment programs the state has implemented. The topic of recidivism is talked about in these accounts, but the statistics don't support the assumptions of the public, treatment providers nor district attorneys. The recidivism of sex offenders as reported by DOC is a mixture of questionable technical terminations and new crimes, and only a small fraction of these are new sex offense crimes.

These reports do not differentiate the risk levels for those returning to prison on a technical violation or for recidivism. Even so, untreated, very low and low risk sex offenders represent a less than 2% recidivism rate. That rate drops to 1% or less once treatment in the community begins. This statistic of 2% represents roughly the number of new offenders who will commit a crime from within your family, friends or neighbors.

Every year sex offenders kept in prison past their PED date. Currently about 5,000 inmates are costing taxpayers \$300 million to house and feed them. I pay taxes. My wife pays Colorado taxes as do my kids and my friends. I know for a fact they don't want to continue paying for this excessive waste of poor decision-making made back in July 1998. You have had 25-years of the promulgated fear imposed by the media, district attorneys and

PAGE TWO:
RE: SB-24-119

treatment industry. To what end? Colorado now wastes hundreds of millions of dollars annually on sex offenders, yet you have not done much to stop the 67% of non-sex offenders leaving prison who will commit a new crime and return to prison.

You allow the offender with a determinate sentence to begin and complete their treatment on the outside. Why is it you cannot allow the very low and low-risk offender who has been indeterminately sentenced to do the same? You hide behind the veil of the 1998 law which is choking the system for which it was designed to provide therapy in a timely manner!

The science and statistical data and the clinical data have repeatedly proven that a sex offender who completes treatment will join their peers with a 0 percent chance of recidivating. I have read the 1998 report written by Kim English, called the Containment Approach, renamed the TEAMS model. This model continues to be used in the Colorado treatment industry as well as within DOC. Although you have been led to believe it has been completely replaced by the Risk, Needs and Responsivity model (a/k/a RNR) as adopted by the SOMB in 2013, this is not true. If it were, most sex offenders on the inside would complete their treatment within six to eight months and you would not have this huge backlog of offenders waiting for treatment.

If the RNR model were used by the 227 therapy companies on the outside, you would reduce the average amount of time to complete therapy from six to nine years, as reported in the 2023 SOMB Treatment Solutions Workgroup Report, down to one and a half years. Think about those tax savings! Also, these returning citizens would be contributing taxes to the Colorado coffers.

My recommendations to you are as follows:

- 1) Modify the Lifetime Supervision Act (LSA) to apply only to high-risk sex offenders (F1 and F2 felony convicted individuals). Make this retroactive to July 1, 1998.
- 2) For very low and low risk sex offenders, parole these individuals to the community on their PED date, just like you allow those with a determinate sentence.

PAGE THREE

SB-24-118

- 3) Enforce all treatment providers, inside DOC as well as the treatment providers throughout the state, to use the RNR model. It has the same efficacy at 10% of the cost because it takes considerably less time and has been proven to be more highly effective.
- 4) Standardize and publish a workbook that utilizes only the RNR model for all therapists to use. Limit treatment for LSEX on the inside to six months for the very low and low risk offender. On the outside, limit treatment to one and one half years for LSEX and determinate offenders and probationers with subsequent maintenance and after care limited to an additional six months. Utilize an independent firm to determine a person's completion.
- 5) Downsize the number of board members on the the SOMB to no more than nine. They are highly ineffective. Hire an out-of-state treatment consulting firm such as the Central Coast Clinical & Forensic Psychology Service, Inc. Have this organization streamline the treatment programs, including decisions on terminations of treatment. Give them the authority to act.
- 6) Limit LSEX parolees to three years with completion of treatment on the outside with the parole tail being no longer than 10 years. There is no need for lifetime supervision.
- 7) Mandate that prison Case Managers and therapists do only case management work. Do not allow them to fill in for absent kitchen workers, lunch duty, correctional officers or to participate in Count, etc. Their focus should be therapy only.
- 8) Open a Denver-based DOC facility or cell house at DRDC/Women's Prison for all indeterminate sex offenders to begin and/or complete treatment. This will allow for an easier recruitment of qualified therapists. Beef up the number of therapists needed to allow a minimum of 500 offenders per year to begin and/or complete therapy and parole out of prison.
- 9) Remove the requirement for sex offenders to be on the public registry. There is no scientific nor statistical data to support its use. The cost to law enforcement and the taxpayer is exorbitant. The Department of Regulatory Agencies (DORA)

PAGE FOUR
SB-24-118

has a policy flyer that states, "Sex offenders pose little risk [to the public] and make good neighbors."

- 10) The state legislature needs to become non-discriminatory by taking a stance against redlining sex offenders and their housing needs. Placing sex offenders on a registry accessible only by law enforcement will allow offenders to find housing more readily and hopefully lessen the number of sex offenders who are homeless. Additionally, support Fair Housing for all and mandate all cities and municipalities to allow registered sex offenders to live within their borders.
- 11) Require the Parole Board to parole to the community any individual with a certificate of completion.

In conclusion, just making some simple changes to the former laws and implementing SB-24-118 will establish a brighter future for offenders, their families awaiting reunification, and the taxpayer seeking tax relief.

Our taxpayers, including my family and me, are sick and tired of being defrauded by erroneous fears promulgated by the treatment industry and false claims and charges made by attorneys, the media and the public regarding sex offenders in the community. These folk have groomed the legislature and citizenry for decades and have cost tens of billions of tax dollars.

It is time you take back control and use qualitative and quantitative science and statistical data and common sense to rehabilitate sex offenders and not just punish them for the rest of their lives.

Thank you kindly,

From an incarcerated offender with an indeterminate sentence.

CURRICULUM VITAE

Michael H. Miner

Presentations

Invited Oral Presentations at International Professional Meetings, Conferences, etc.

1. Plenary Panel presentation. *Rethinking assessment and treatment of youth who have committed sexual offenses*. Plenary Panel Presentation at the 26th San Diego International Virtual Summit. August 29-September 1, 2021.
2. Invited Plenary: *Sexual offending in adolescent males: Effects of parental attachment, social experiences, and sexuality*. 16th Conference of the International Association for the Treatment of Sexual Offenders. Frankfurt am Main, Germany, August 25-27, 2021, virtual presentation.
3. Invited Presentation: *Exploring how attachment, masculinity, and sexual self-control influence adolescent male perpetration of child sexual abuse*. New Directions in Sex Offender Practice virtual conference, April 12 & 13, 2021.
4. Invited presentation: *Human sexuality and sex offender treatment*. National Organisation for the Treatment of Abusers Annual International Conference, Glasgow, Scotland, September 19-21, 2018.
5. Invited Plenary: *Sexual Arousal, Inhibition and Cognitive Control: What They Tell Us about Hypersexuality*. 14th Conference of the International Association for Treatment of Sexual Offenders, Copenhagen Denmark, September 7-10, 2016.

6. Symposium Chair, *Is it impulsive, compulsive, addiction, or just sexual appetite? Emerging empirical investigation of hypersexual behavior*. 41st Annual Meeting of the International Academy of Sex Research, Toronto, Ontario, Canada, August 2015.
7. Invited Oral Presentation: *What is hypersexuality? An investigation of psychological mechanisms in men who have sex with men*. 41st Annual Meeting of the International Academy of Sex Research, Toronto, Ontario, Canada, August 2015.
8. Plenary: *Understanding Perpetration of Child Sexual Abuse: Results from a Study of Adolescent Males*, 12th International Conference of the Association for the Treatment of Sexual Offenders, Berlin, Germany, September 2012.
9. Keynote Panel, *Public Policy vs. Research vs. Advocacy Concerning Sex Offender Management*, 15th Annual International Conference on Violence, Abuse, and Trauma, September 13, 2010, San Diego, CA.
10. Presenter, *Treatment for youth sexual offenders: Past, present and future. Preventing Youth Sexual Violence and Abuse, Research-Policy-Practice Symposium*, Brisbane, Queensland, Australia, April 7, 2010.
11. Presenter, *Impulse control and frontal lobe abnormalities in impulsive/compulsive sexual behavior*. Thirty-fifth Annual Meeting of the International Academy of Sex Research, San Juan, Puerto Rico, August 2009.
12. Presenter, *Why don't they understand? Issues in communication between sex researchers and IRBs*. Thirty-fifth Annual Meeting of the International Academy of Sex Research, San Juan, Puerto Rico, August 2009.
13. Presenter, *Drugs, sex, and aggression: The association between substance use, abuse, and sexual aggression*. 10th International Conference of the International Association for the Treatment of Sexual Offenders, Cape Town, South Africa, August, 2008.
14. Plenary, *The adolescent who sexually offends: Current knowledge and standards of care*. 9th International Conference of the International Association for the Treatment of Sexual Offenders, Hamburg, Germany, September, 2006.
15. Chair, *Child Sexual Abuse*, a plenary session at the 8th International Conference of the International Association for the Treatment of Sexual Offenders. Athens, Greece, October, 2004.
16. Plenary, *Understanding child molesting in adolescence: Testing attachment theory-based hypotheses*. 8th International Conference of the International Association for the Treatment of Sexual Offenders. Athens, Greece, October, 2004.
17. Chair. *Assessment of Sex Offenders*. VI International Conference on the Treatment of Sex Offenders, Toronto, Ontario, Canada, May, 2000.
18. Chair and Presenter. *Sexual Predator Laws: Implications of Using Civil Commitments for Criminal Behavior*. V International Conference on the Treatment of Sexual Offenders, Caracas, Venezuela, March 1998.

19. Presenter. *Is the Glass Half Full or Empty? Issues in Outcome Research*. V International Conference on the Treatment of Sexual Offenders, Caracas, Venezuela, March 1998

Invited Oral Presentations at National Professional Meetings, Conferences, etc.

1. **Miner, M.H.** (2022, November). *The evolution of sexual offender treatment and evidence for effectiveness*. Presentation at the 41st Annual Research and Treatment Conference of the Association for the Treatment and Prevention of Sexual Abuse, Los Angeles, CA.
2. **Miner, M. H.** (2022, November). *Looking inside the "Black Box": What have we learned? What are the challenges?* Presentation at the 41st Annual Research and Treatment Conference of the Association for the Treatment and Prevention of Sexual Abuse, Los Angeles, CA.
3. **Miner, M. H., & Brouillette-Alarie, S.** (2022, November). *Factor structure of the Sexual Offender Treatment Implementation and Progress Scale (SOTIPS)*. Presentation at the 41st Annual Research and Treatment Conference of the Association for the Treatment and Prevention of Sexual Abuse, Los Angeles, CA.
4. Presenter, *Do I have 1,000 subjects or one subject 1,000 times? Duplicate and fraudulent participants in web-based studies. A Potpourri of Technological Tools for Sex Research for Tech Natives & Tech Immigrants*, Presidential Plenary Panel, Annual Conference of the Society for the Scientific Study of Sexuality, Tampa, Florida, November 2012.
5. Chair, *Impact of legislation on recidivism*, a symposium at the 31st Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Denver, Colorado, October 2012.
6. Keynote, *What's Non-Deviant Sex? An Overview of Sexual Development and Adult Sexual Behavior*. Sex Offender Management Board Annual Conference, Breckenridge, CO, July 2012.
7. Chair, *Adolescent Attachment and its Application to Juvenile Sexual Offenders*. Symposium at the 29th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Phoenix Arizona, October 2010.
8. Plenary, *What's non-deviant sex? An overview of sexual development and adult sexual behavior*. 28th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Dallas, TX, September 30-October 3, 2009.
9. Discussant, *Recent validation findings of the J-SOAP-II and JSORRAT-II: Implications for juvenile risk assessment*. 28th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Dallas, Texas, September 30-October 3, 2009.
10. Keynote, *Roots of Sexual Abuse: Understanding Adolescent Sexual Offending Against Children*. 23rd Annual National Adolescent Perpetration Network Conference, Portland, Oregon, May, 2008.
11. Chair, *Insights from the field: What recent research tells us about juvenile sexual offenders and intervention*, a symposium at the 27th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Atlanta, Georgia, October, 2008.
12. Chair, *Roots of sexual abuse: Results and implications of an application of attachment theory and the confluence model*, a symposium at the 26th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, San Diego, California, October 31-November 3, 2007

13. Moderator, *Research with vulnerable populations, including children, adolescents, and prisoners*. 2007 Social, Behavioral, Educational Research Conference sponsored by Public Responsibility in Medicine and Research, Broomfield, Colorado., May, 2007.
14. Discussant, *Methodological alternatives to the study of sexual attitudes and behavior: Moving beyond long-term recall surveys*, a symposium at the 40th Annual Convention of the Association for Behavioral and Cognitive Therapies, Chicago, Illinois, November, 2006.
15. Chair, *Insecure Attachment and Sexual Offending in Adolescence: Thorny Issues and Preliminary Results*, a symposium at the 25th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Chicago, Illinois, September, 2006.
16. Panelist, *Working Together to Improve the Quality of Sexual Offender Treatment Outcome Research*. 25th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Chicago, Illinois, September, 2006.
17. Keynote, *Sexual Offender Treatment: A Forensic vs. human sexuality perspective*. 2006 Annual Conference of the National Organization of Forensic Social Work, Chicago, Illinois, July, 2006.
18. Panelist, *The public health approach to preventing sexual abuse perpetration: Primary and secondary perpetration prevention efforts*, plenary at the 21st Annual Conference of the National Adolescent Perpetration Network, Atlanta, Georgia, April, 2006.
19. Chair, *Roots of Sexual Abuse: An Empirical Investigation of Theories of Sexual Abuse and Aggression*, a symposium at the 24th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Salt Lake City, Utah, November, 2005.
20. Presenter, *Understanding Compulsive Sexual Behavior*, a symposium at the 111th Annual Convention of the American Psychological Association, Toronto, Ontario, Canada, August, 2003.
21. Plenary, *Genes, hormones and sexual behavior. Sex offenders; issues to consider. Science and Cases in Neuro and Behavioral Genetics*. Sponsored by the Einstein Institute for Science, Health and the Courts, Warrenton, VA, June 30-July 3, 1999.
22. Chair. *Psychopathy: Assessment, Treatment and Reliability*. 16th Annual Research and Treatment Conference, Association for the Treatment of Sexual Abusers, Arlington, VA, October 1997.

Invited Oral Presentations at Local and Regional Professional Meetings, Conferences, etc.

1. Janus, E., **Miner, M.**, Ranum, M. (2023, April 20). *\$100 million to end sexual violence in Minnesota: Reimagining the use of State resources to combat sexual harm*. 26th Annual MnATSA Conference, Brooklyn Park, MN.
2. **Miner, M. H.** (2018, December). *Attachment and how it relates to sexual offending behavior in adolescent males*. Plenary at Arkansas Association for the Treatment of Sexual Abusers 11th Annual Conference. Fayetteville, Arkansas.
3. **Miner, M. H.** (2018, December). *Hypersexuality/sexual addiction*. Plenary at Arkansas Association for the Treatment of Sexual Abusers 11th Annual Conference. Fayetteville, Arkansas.

4. **Miner, M. H.** (2018, December). *Use of digital technology and issues with limited access*. Plenary at Arkansas Association for the Treatment of Sexual Abusers 11th Annual Conference. Fayetteville, Arkansas.
5. **Miner, M.** (2017, November). *It shouldn't be a crime: What is healthy adolescent sexuality*. Invited presentation at the 2017 SPD Annual Criminal Defense Conference, Milwaukee, Wisconsin.
6. **Miner, M.** (2016, July). *Assessment of risk: Do we think we know more than we do?* Plenary at Annual Meeting of the Sexual Abuse Prevention & Education Network, State College, Pennsylvania.
7. **Miner, M.** (2013, May). *Treatment of juveniles with sexual behavior problems*. Presentation at Dallas County Juvenile Department 13th Annual Conference, Dallas, Texas.
8. **Miner, M.** (2013, April). *Issues at the digital divide*. Keynote at 17th Annual Minnesota Association for the Treatment of Sexual Abusers (MnATSA) Conference, Minneapolis, Minnesota.
9. **Miner, M.** (2012, April). *Normative sexual development and behavior: Implications for sex offender treatment and supervision*. Plenary at Indiana Sex Offender Management and Monitoring Program Annual Training Conference, Indianapolis, Indiana.
10. **Miner, M.** (2012, February). *Psychosexual evaluations: Tools employed and information provided*. Invited presentation at Minnesota Chapter of the Association of Family and Conciliation Court, Saint Paul, Minnesota.
11. **Miner, M.** (2008, April). *The Adam Walsh Act: Overview, issues, and implications for Minnesota*. Panelist at Annual Meeting of the Minnesota Association for the Treatment of Sexual Abusers, Brooklyn Park, Minnesota.
12. **Miner, M.** (2002, November). *State of the art assessment of sexual offenders using actuarial tools*. Panelist at William Mitchell College of Law, St. Paul, Minnesota.
13. **Miner, M.** (2001, March). *Adult sex offender civil commitments: Good public policy?* Chair and moderator, 5th Annual Conference of the Minnesota Chapter of the Association for the Treatment of Sexual Abusers, Minnetonka, Minnesota.
14. **Miner, M.** (1999, May). *Dealing with fantasy in sex offender treatment*. Clinical Practice Plenary at the 1999 Midcontinent Regional Conference of the Society for the Scientific Study of Sex, Madison, Wisconsin.
15. **Miner, M.** (1997, April). *Does sex offender treatment work? Is the glass half full or empty?* Plenary Session at the First Annual Conference of the Minnesota Chapter of the Association for the Treatment of Sexual Abusers, Minnetonka, Minnesota.
16. **Miner, M.** (1996, October). *Assessment and treatment of sexual aggression*. Plenary at Annual Meeting, Kansas Psychological Association, Kansas City, Kansas.

Peer-reviewed Oral Presentations at Professional Meetings, Conferences, etc.

1. Beech, A., Thornton, D. M., & **Miner, M. H.** (2023, September). Panel discussion. *What do we make of the current status of Paraphilic Disorder in DSM-5/DSM-5TR*. 42nd Annual Research and Treatment Conference, Association for the Treatment and Prevention of Sexual Abuse, Aurora, CO. On-demand session available at www.atsa.com.
2. Beech, A., Thornton, D. M., & **Miner, M. H.** (2023, September). Panel discussion. *What do we make of the current status of Paraphilic Disorder in DSM-5/DSM-5TR*. 42nd Annual

- Research and Treatment Conference, Association for the Treatment and Prevention of Sexual Abuse, Aurora, CO.

TEACHING AND CURRICULUM DEVELOPMENT

University of Minnesota

Colloquium/Grand Rounds

Grand Rounds, Department of Family Medicine and Community Health, Research with Adolescents who have Engaged in Harmful Sexual Behavior: What We've Learned and Implications for Community Safety and Sexual Health	6/2022
Grand Rounds, Department of Family Medicine and Community Health, Is it OK to Deny Organ Transplant to a Registered Sex Offender?	11/2012
Grand Rounds, Department of Family Medicine and Community Health, Compulsive Sexual Behavior	3/2008
Grand Rounds, Department of Psychiatry. Factors Associated with Perpetration of Child Sexual Abuse: Preliminary Analysis in an Adolescent Population.	3/2002

Teaching Lectures/Seminars

Lecturer: IRB issues, Seminar for Family Medicine Research Fellows	2005
Small Group Leader, Medical School Human Sexuality Course	2002-2019
Lecturer: Behavioral Aspects of Diabetes Management, Smiley's Unit Behavioral Science Schoolhouse	1999
Course Director: Smiley's Unit Behavioral Science Schoolhouse	1999-2001
Lecturer: FPCH 5-950, Clinical Issues	1995-2022
Large Group Leader: Sexual Attitude Reassessment Seminar.	1994-2004
Lecturer, Behavioral Medicine/Psychology Noon Conferences, University Family Physicians, University Unit, September, 1996; November, 1996; February, 1997; April, 1997; June, 1997; November, 1997; February, 1998; April, 1998	1996-1998
Lecturer, Introduction to Family Medicine, University Family Physicians, University Unit	7/1996-7/1997
Course Director, Behavioral Medicine Case Conference, University Unit Inpatient Service. Weekly conference with residents on teaching service. Implemented in September, 1996	1996

Clinical Teaching

Family Practice Outpatient Precepting (Residents) One half-day per week	1996-2000
Family Practice Inpatient Precepting (Residents) One half-day per week	1996-2001
Clinical Supervision - Postdoctoral Fellows One hour per week	1997-2012
Supervision - Postdoctoral Fellows Two and one half hours per week	2016-2021

California Polytechnic State University

Course/Lecture List

Course Instructor, Psy 0432, Psychological Testing (Graduate level course on Psychological Assessment)	1989
--	------

Cuesta College, California

Course/Lecture List

Course Instructor, Psych 1A, Introduction to Psychology 1987

University of New Orleans

Course/Lecture List

Course Instructor, EDDC 6450, Group Techniques and Dynamics in Counseling (Graduate course requirement for Master's in Counseling) 1985

St. Louis University

Course/Lecture List

Teaching Assistant, Counseling Skills (Undergraduate course in beginning counseling skills) 1980

Teaching Assistant, Introduction to Psychology 1980

Other Universities/Institutions

Colloquium/Grand Rounds

Forensic Psychology Seminar, University of Birmingham, UK, Understanding Perpetration of Child Sexual Abuse: Results from a Study of Adolescent Males. 6/2015

Grand Rounds, Department of Psychiatry, Division of Gender, Sexuality & Health, Columbia University, Inhibitory and Excitatory Mechanisms in Sexual Compulsivity: Are They Limited to Sex? 6/2013

Colloquium, Department of Psychology, Brandeis University, Parental Attachment, Peer Relationships, and Hypersexuality: Can They Help Explain Child Sexual Abuse. 9/2011

Colloquium, Key Centre for Ethics, Law, Justice, and Governance, School of Criminology, Griffith University, Brisbane, Queensland, Australia, Application of Attachment Theory to Understanding the Sexual Abuse of Children: A Study of Adolescent Males. 4/2010

Colloquium, Department of Psychology, St. Louis University. Factors Associated with Perpetration of Child Sexual Abuse: Preliminary Analysis in an Adolescent Population. 10/2001

Workshops Taught

Understanding and treating urges and fantasies. Half-day Pre-conference seminar at 37th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers. Vancouver, British Columbia, Canada. 10/17/2018

Exploring Pedophilia. Pre-conference workshop at the 21 st Annual Conference for the Minnesota Chapter for the Association for the Treatment of Sexual Abusers, Brooklyn Park, Minnesota.	04/19/2017
Sexual Development: It's More than Puberty. Pre-conference workshop at the 35 th Annual Research and Treatment Conference of the Association for the Treatment of Sexual Abusers, Orlando, Florida.	11/02/2016
Understanding and Treating Impulses, Urges, and Fantasies. Pre-conference workshop at the 14 th Conference of the International Association for Treatment of Sexual Offenders, Copenhagen, Denmark, September 7, 2016.	9/2016
Psychophysiological Assessment of Sexual Interest: Strengths and Weaknesses of Phallometry and Viewing Time. Pre-conference workshop at the 20th Annual Conference of the Minnesota Chapter of the Association for the Treatment of Sexual Abusers, Brooklyn Park, Minnesota, April 13, 2016.	4/2016
Understanding and Responding to Sexual Harm Perpetrated by Youth. University of the West of England, Bristol, UK, June 11, 2015.	6/2015
Putting the Sex in Sex Offender Treatment. Training supported by the New York State Department of Mental Health, Buffalo, Utica, Albany, and New York City, New York, November 17-20, 2014.	11/2014
Exploring the DSM-5: Implications and Applications for Sex Offender Assessment and Treatment. Pre-conference workshop at the ATSA 33 rd Annual Research and Treatment Conference, San Diego, California, October 29, 2014.	10/2014
What We Know about Sexual Development, Sexual Behavior, and Hypersexuality. Training supported by Alaska Department of Corrections and University of Alaska at Anchorage. Anchorage, Alaska, April 28, 2014.	4/2014
How Attachment Theory Informs Understanding Sexual Offending: Implications for Treatment. Training supported by Alaska Department of Corrections and University of Alaska at Anchorage. Anchorage, Alaska, April 27, 2014.	4/2014
DSM-5: What's New, What's Not. Pre-conference workshop at the Annual Conference of the Minnesota Chapter of the Association for the Treatment of Sexual Abusers, Brooklyn Park, Minnesota, April 25, 2014.	4/2014
Ethical Dilemmas: Treatment and Assessment at the 13th Annual Conference on the Treatment of Juveniles with Sexual Behavior Problems, Dallas, Texas, May 3, 2013.	5/2013

Parental Factors and Attachment in Juvenile Sex Offenders at the 13th Annual Conference on the Treatment of Juveniles with Sexual Behavior Problems, Dallas, Texas, May 3, 2013.	5/2013
Family Reunification: Issues and Concerns Regarding Victims at the 13 th Annual Conference on the Treatment of Juveniles with Sexual Behavior Problems, Dallas, Texas, May 2, 2013.	5/2013
Sexual Behavior and Development in Childhood and Adolescence: Norms, Obstacles, and Challenges at the 13 th Annual Conference on the Treatment of Juveniles with Sexual Behavior Problems, Dallas, Texas, May 2, 2013.	5/2013
Workshop: Issues at the Digital Divide: How Adults Use and View Computers, the Internet, and Cell Phones at the 17 th Annual Minnesota Association for the Treatment of Sexual Abusers (MnATSA) Conference, Minneapolis, MN, April 19, 2013.	4/2013
Workshop: An Empirically Guided Approach to Assessing and Treating Adolescents who Have committed Sexual Offenses at the 12 th International Conference of the Association for the Treatment of Sexual Offenders, Berlin, Germany.	9/2012
Workshop: How Attachment Theory Informs Treatment of Adolescent Males at the Annual Joint Meeting of the Massachusetts Adolescent Sex Offender Coalition/Massachusetts Chapter of the Association for the Treatment of Sexual Abusers, Marlborough, Massachusetts.	4/2012
Workshop: Adolescent Sex Offenders: Myths, Facts & Their Implications for Risk Assessment & Treatment, 15 th Annual International Conference on Violence, Abuse, and Trauma, September 14, 2010, San Diego, CA.	9/2010
Sex Offender Treatment: A forensic vs. Human Sexuality Perspective. 5 th Annual Clinical Forum on Mental Health, Bismarck, North Dakota.	5/2009
Adolescent Sexual Offenders: Myths, Facts, and Their Implications. 5 th Annual Clinical Forum on Mental Health, Bismarck, North Dakota.	5/2009
What Attachment Theory Tells Us about Unique Risks for Adolescent Boys to Sexually Offend. 23 rd Annual National Adolescent Perpetration Conference. Portland, Oregon.	5/2008
Adolescent Sexual Offenders: Myths, Facts, and Their Implications. 11 th Annual Training Conference, California Coalition on Sexual Offending. San Francisco, California.	5/2008
Parental Factors and Attachment in Juvenile Sexual Offenders. 12 th Annual Conference of the Minnesota Association for the Treatment of Sexual Offenders. Brooklyn Park, Minnesota.	4/2008

Research with Vulnerable Populations, Including Children, Adolescents, and Prisoners. 2007 Social, Behavioral, Education Research Conference, Public Responsibility in Medicine and Research, Broomfield, Colorado.	5/2007

Support of Colorado Bill SB24-118Bri Thompson to: committees.lcs.ga@coleg.gov
03/14/2024 07:49 AM

To whom it may concern,

I am writing to you as a resident in Colorado, to express my support for Colorado Bill SB24-118, titled "Indeterminate Sex Offender Sentencing".

After reading the bill and its entirety, I believe this would be beneficial for low-risk offenders that meet the criteria to seek treatment they need and to properly allocate funds for those offenders that seek help in prison. The whole purpose of these inmates is to be rehabilitated if they desire it. Not all offenders are "monsters" but made poor decisions in their life to commit their crime. This is not an excuse for these offenders, but fact that these human beings were struggling mentally and did not have, receive, or know how to seek help.

This bill, if passed, would affect me personally as my father has been in Arkansas Valley Correctional Facility for about 15 years. There are so many words I can use to describe this man, but here are a few that are important to me. Honesty and true. After he was sentenced and went to prison, he was honest to me about what happened in his situation that got him in trouble. Of course, he could have made better choices. I have never known someone to feel so ashamed, guilty, and remorseful not to his victim, but for her family and his. How much pain he caused everyone, is enough to punish someone for the rest of their lives. After all these years and knowing what he did, I chose this man to be my father. The love, acceptance, and compassion he has given me is a true gift from a human being. I don't see him as a monster or a dangerous threat to our community. I see a human being who just wants a second chance at life to make things better. Someone who desires to help others like him to make better decisions and to have a positive influence. This bill would just be the start of that for many other offenders that are in the same predicament. I personally believe that these individuals need professional help to be properly rehabilitated.

I urge you to vote in favor of Bill SB24-118. It is crucial for the well-being of our state funds and civil rights that our legislation reflects the needs and values of its constituents. I hope you will consider my stance and the impact this bill will have on these offenders and their families.

Thank you for your time and attention to this matter. I appreciate your dedication to serving our community and am eager to see how you will address this issue.

Sincerely,

Brianna Thompson

SB24-118 Indeterminate Sex Offender Sentencing

Typed Text of Testimony Submitted

Name, Position, Representing	Typed Text of Testimony
Janet Cox For themselves	The indeterminate sentence needs to be eliminated, based on the lack of the state's ability to provide the treatment required for release. If an offender was eligible for parole today, the wait to complete the required therapy would be an additional 8 years, due to backlog of programs available to the offender. This is a double sentence.
Bradley Cox For themselves	The indeterminate sentence needs to be eliminated, based on the lack of the state's ability to provide the treatment required for release. If an offender was eligible for parole today, the wait to complete the required therapy would be an additional 8 years, due to backlog of programs available to the offender. This is a continued sanction against the offender, that takes away hope for a timely parole.
Autumn Nelson Amend themselves	<p>My sister in law Lacie Nelson has been in doc since 2009. That's 17 years for a crime she never committed. For 17 years she has been claiming her innocence and proof if given a new trial is resent but because she is denied treatment for not admitting to a crime she didn't commit. She is labeled in denial and not able to receive treatment and her I determinant sentence is indefinite because of this loop- run around.. or have you.</p> <p>There is a problem in the system For sentencing,treatment and further. There is no way out for the innocent. That were wrongfully accused. Even when proof is available.</p> <p>Lacienelson would be released if the terms changed because she has already done 17 years. Since her appeals are denied I find this the best resolution.</p> <p>Thank you,</p>

	Autumn Nelson
Autumn Nelson Amend themselves	<p>My sister in law Lacie Nelson has been in doc since 2009. That's 17 years for a crime she never committed. For 17 years she has been claiming her innocence and proof if given a new trial does exist and she'd be exhausted..but because she is denied treatment for not admitting to a crime she didn't commit she is labeled in denial. Having her indeterminate sentencing and not able to receive treatment and her 1 determinant sentence is indefinite because of this loop- run around.. or have you, she will never get out of prison.</p> <p>There is a problem in the system For sentencing, treatment and further. There is no way out for the innocent those that were wrongfully accused. Even when proof is available.</p> <p>Lacie Nelson would be released if the terms changed because she has already done 17 years. Since her appeals are denied I find this the best resolution.</p> <p>Thank you,</p> <p>Autumn Nelson</p>
Dana Duggan Amend Integrity Matters	<p>One other suggestion: it is easy to use cell phones to record any discussion/meeting. So, if you add that as a feature, one must record conversations that are FREELY accessible to the public, per my previous comment, you are covered. Use technology to better document and enable 2-X discussions.</p>
Betsey Wagner For themselves	<p>Senate Committee,</p> <p>I am a CPA in Denver Colorado with a personal tie to this story and would like to give my testimony in favor of passing SB24.118. I am engaged to a gentleman currently housed in Arkansas Valley Correction Facility, James (Jeff) Britton 123875. James was sentenced in 2004 to 10 years to life, indeterminate sentence for a consensual sex crime as a person in a trusted position. James is considered low risk in the eyes of his therapist and the system. He is currently back in prison due to a technical violation. Since James's original sentence he has been very active in the church, ministry, and working with THE to help with counseling of others. He has started charitable organizations and donated hundreds of thousands to help others. He has obtained a MBA, A Six Sigma black belt and is well regarded as a consultant in the business world - working with some of the top Fortune 100 companies and their C-suite. I tell you this in hopes of</p>

	<p>bringing home the point of what these individuals are capable of when given the opportunity. While we all agree the action he took 20 years ago was wrong, he has taken great strides and been successful in therapy and in the prison system. His sentence was 20 years ago and he has worked hard to contribute in a positive manner to society, yet he is back in prison for a technical violation. Under current law he will most likely remain in prison until a space opens in a "refresher" therapy course. It may be months or years before the spot opens. James was a founder of Cell Church and has often worked with guards and other prison personnel to help individuals in the system. He currently has a severe traumatic brain injury and unable to receive treatment due to being inside. He has been jumped several times by prison gang members since reentering in November. While an indeterminate sentence may be necessary for those convicted of violent sex crimes and those who are considered high risk, I do not believe that they should be put into place for individuals who are low risk. Our current system is over-crowded and underfunded, to continually imprison individuals who are low risk and to keep them there until treatment is available further exasperates the issues the system faces. I am more than happy to answer questions or provide additional thoughts.</p> <p>Regards, B Wagner</p>
--	---

Good afternoon. My name is Marsha Brewer, and I am a member of Advocates for Change. I'm asking for your support of SB24-118. This bill moves towards the intent of the original 1998 LSA. It adds fairness, humanity, fiscal responsibility, and objectivity to a presently broken system.

An example of the affects of the present system is Ray who is 75 years old, and in DOC on a 2-year indeterminate sentence for an insignificant technical violation. He was in treatment for 2 years while on probation, during which time he had no write-ups, nor a forewarning of being revoked from treatment. He was rated low risk at the time of his offense and at the time of his revocation. His evaluator said he could take someone off the street and they'd probably have a higher risk factor.

At his 1st parole hearing in 2019, Ray was deferred for a year because he wasn't in treatment. The same was true in 2020, except this time he was told that his was the best parole plan the parole board member had ever seen. Ray had the best home and community circumstances to be paroled to. His previous 2 years of treatment, unfortunately though, did not count towards "progressed" in treatment. Since he wasn't in SOTMP, Ray was deferred for another year. The same was a repeated in 2021.

By 2022, prior to most of the State Parole Board suddenly resigning, word was that the Board had been told that previous treatment **would be** considered. Ray was hopeful, even though he hadn't started treatment. Those hopes were dashed when he was given a **2-year** deferment, with every box checked, including unsafe home and community. It didn't make sense. Nothing had changed. He had an exemplary DOC record, and was classified low to very low risk. His case manager said he had never seen anyone with such a low risk level.

Ray's incarceration has thus far has cost taxpayers in excess of \$275,000. Had he remained on probation as recommended by the evaluator, he would have paid for all of his own treatment costs, medical treatment and cardiac medications. Ray is only one amongst literally 100s with similar stories.

SB24-118 is a positive move in the right direction for everyone. For the program, it becomes the **objective** controlling factor for parole, allowing SOTMP treatment to become **therapy** instead of punishment. Providers could focus on higher risk individuals. For DOC, it reduces the ever-growing backlog of individuals waiting to get into treatment, frees up beds and thousands of dollars for other programs. For Colorado, the savings would be astronomical! Money would go into the economy to private therapist. Many of these low risk individuals would be paying their own way, and would no longer be an expense to the state.

Finally, and very importantly, there would be little, if any, impact to victims. Higher risk individuals would still be incarcerated while receiving better quality treatment, in a timelier manner. The paroled, low risk would still be under supervision, but not at the huge expense and unfairness of years of undue incarceration. They could more quickly become productive members of their communities. They already have one of the lowest recidivism rates, so there's little concern for any new victims. Plus, they would return to their children, spouses, parents, siblings and others who have suffered unnecessarily by their absence. These individuals are the forgotten victims of undue, mass incarceration.

Thank you.

Hello Madam Chair & Members of the Committee. My name is Tami Floyd. My husband, Rick and I work as advocates to help individuals, their families, and their support people to navigate the system, find housing and provide support when they get out.

Today I want to tell you about “Ken” whom we have been working with since Jan 2022.

In 2012 Ken was determinately sentenced to DOC. Upon completion he was subject to dual supervision of parole and probation. Even though appeals court decided in Colorado that dual sentences are unconstitutional, the Colorado Supreme Court subsequently ruled that “sex offenders are different.” The probation sentence carried an underlying indeterminate sentence if revoked.

Ken was one of the few with a determinate sentence that completed track 2 treatment on the inside. He was paroled to Denver in June of 2022 and went to one of the housing communities we work with. He hit the ground running and had a job within a week after he got out. He was required to do treatment again when he got out and started that right away as well. His probation was in El Paso County, so Rick took him to his first meeting in the springs. When he came out of the meeting, he

was pale as a ghost. When Rick asked what was wrong, he said “the 1st thing my officer said is that they have an 85% failure rate, and they don’t expect me to succeed”. He made the decision that he was not going to let that get in the way of him succeeding.

As we see many times, Ken did have some hiccups early in his supervision but had managed to get things turned around in the right direction to move forward. After that, he had been doing really well. He was progressing in treatment, had a great job, got married, had a beautiful stepdaughter, a baby on the way and had just moved into a new home. His parole officer and treatment provider were pleased with his progress and where he was. However, probation decided to revoke him on the technical violations that occurred early on in his supervision. In November, he went to court in El Paso County, everyone thought he would be revoked and reinstated. This would mean starting over with probation, but he had accepted that. What happened instead was a revocation of probation with no reinstatement. This meant that the deferred sentence was now gone, and his new DOC sentence included the underlying 4-life sentence. Because of this, he now has a PED of Sept 2026 and will not see the parole board until June 2026. What does this mean for treatment? I am not sure what he will have to do since he already completed SOTMP Track

2 inside and 1 year of sex offense specific treatment on the outside.

The tragic part of this story is that there is now a spouse with a brand new baby & a 5 yr old with absolutely no support at all because 1/3 of the CST decided to send him back on a technical violation and he now had an indeterminate sentence. How does it make sense to subject this individual to a longer sentence than he had before, even though he committed no new crime, only a technical violation?

Testimony before Senate Judiciary Committee 03/06/2024

Hello Madam chair and members of the committee. My name is Rick Ostring. My wife Tami Floyd and I are advocates and support people for those who are dealing with sex offense charges and/or convictions.

I want to first applaud the chairwoman for having the courage to write a bill on such a controversial and sensitive topic. I see a lot of positive changes proposed in the bill. I do have a couple of suggestions:

1. Although the prospect of eliminating indeterminate prison sentences is very encouraging, the bill still requires mandatory lifetime supervision for all classes of Felony from F4 to F2. Sex offenses are the only offenses in Colorado which require lifetime supervision. I personally know of an individual who was convicted of double murder, served nearly 40 years in prison, and is now out in the community. He has only a 5 year parole tail, and he will be finishing early due to his exemplary success in reintegrating into the community.

A person with a similar class sex offense would be subject to lifetime parole. Why is this person not given an equal opportunity to demonstrate that they can be a successful and productive member of the community, and then be given an opportunity at early completion of supervision? Instead, this person is being set up to live out their life in a hopeless state of knowing that there is really no light at the end of the tunnel. I do understand that a person can petition to be discharged from parole after they hit their bottom number, however there is certainly no guarantee.

I am not proposing that the gentleman with the murder conviction should serve a longer parole term, only that there should be uniformity in the way that people are treated, regardless of their crime, based on the severity level of their offense. It seems that people who commit sex offenses are treated as the social pariahs of the criminal justice system.

2. Secondly, there is a provision in the bill for sentencing of habitual sex offenders "against children." Why just against children? I know of an individual who will be getting released next month on his Statutory Discharge Date, which means he was not subject to indeterminate sentencing. This individual has received virtually no treatment inside DOC, and will not be required to have any treatment in the community, nor will he be under any supervision. This person was convicted of three sexual assaults against adult women, and has since admitted to two other sex assaults against women which he was not charged for. He is in his early 60's

now, but the added mandatory minimum sentencing proposed in the bill could have ensured that he would never be released into the community again. When he was released on parole in the early 80's, he assaulted another woman within one month, which led to his reincarceration. It seems that the only reason he has not committed another offense is because he has been in prison. I have real concerns that he will offend again when he gets out. I propose that the words "against children" be removed from that section of the bill.

Thank you.

The Price of Freedom

The price of FREEDOM has never been free
The price of freedom carries a lifetime burden
That gives us a glimpse of hope
A glimpse of a life that could be

God give me STRENGTH
God give me COURAGE
Give me the words

A change is needed
But it's always a fight
It will always be a fight
Until society can
Recognize evil does exist
In the world we live

Protection of the INNOCENT
Should be at the forefront
Of all the laws and requirements
Set forth by the government
Why are they cast aside?
What crime did they commit?
Why can they not be RECOGNIZED, but only SILENCED by
A system asking for rights of those
That committed a crime
A crime that is plea bargained
To protect the victim and not overwhelm the court system
An innocent, typically a child with no voice—silenced furthermore
Because of the COST of incarceration

The rights of those offenders, “Oh they must be heard and seen!”
They deserve to be healed and rehabilitated
What of the innocents they have hurt?
Can they be HEARD and SEEN in a court proceeding?
If they so choose?
Technology today would allow this
One would think
Let the parole board SEE our face and tears and HEAR our plea
The system is going backwards for the victim
Or could it be the COST of incarceration?

Today I went to a parole hearing again
The months leading up to it horrendous
Revictimized so the monster can have his voice

God please keep him there
God please help my children
Be FREE of the monster
In their life

Why does it not matter?
Why is OUR voice irrelevant?
Why does the punishment not fit the crime?
Please someone help us
We are crying inside...

When is the victims VOICE going to be heard?
Please Oh Lord
Keep monsters in prisons...

Their arms are tied—is what I hear
They have to be released
Their time has been served
Better yet, release them to the place
Where they've offended, so they can succeed
What of their victims
That live there
And want to be FREE?

Have we no rights to succeed in our lives?
Lives left tarnished
By a monster
And cast into the dirt
Stomped on by a system
Backwards right now
Treating the offender
Like a victim of a system

A system that is to protect the innocent
It did protect us once
Protect us again, —Oh PLEASE
Keep monsters in prisons
Our country is backwards when monsters are free
